EX-SERVICE MEN SICK OR NEEDY SOUGHT BY GOVT.

RED CROSS SENDS OUT APPEAL TO LOCAL CHAPTER

File Requests at Once With Local Red Cross Chapters in Case Help Is Needed.

The government is ready to help all ex-service men who are in need of assistance, either as a result of illness or wounds they may have sustained while in action. The government has appealed to the Red Cross to get in touch with all men needing help and report at once.

Rev. Ted P. Holfield received an urgent message Tuesday asking that men be reported from Randall county who were needy.

The Red Cross chapter is asked to report the number of men being helped by the local chapter or other agency. Second, the number of men needing help and not getting this help locally. Third, how many men have refused to make the proper claims for assistance.

Mr. Holfield took the matter up with the Home Service committee but was unable to find any such men. However, the work of the chapter has not been pushed during the past few months, and there may be cases in Randall county which should have the attention of the government.

The Red Cross asked Mr. Holfield to report yesterday, which he did, stating there was no cases under any of the above heads so far as he was able to learn, but would investigate conditions in the county. Citizens are urged to report any cases at once, should they know of any.

Trades Day Trip Friday

Owing to the fact that rain was falling Friday morning at the time of starting the Trade Excursion, the trip was postponed hoping that a big rain would fall during the day.

Unfortunately the clouds cleared away before noon, and the sun came out warm and bright. A hurried call was made at 12:30 and by 1 o'clock four cars were ready to leave on the trip. Owing to the fact that only three cars could be filled with the men available for the trip, the crowd was not large, but made a good campaign to the west of town and advertised well the Trades Day held on Monday.

FIRE DAMAGES HOME OF CLYDE McELROY THURSDAY

At 11:45 Thursday night fire was discovered in the Clyde McElroy home. The roof over the kitchen was discovered to be on fire. The department was called and soon had the blaze under control.

The furniture was moved from the kitchen, dining room and living room, and none of it was damaged by the flames or water. The remainder of the house was far enough from the fire to remain untouched.

The house is owned by Mrs. D. W. Miles, living near Kress, and was insured. Mr. McElroy states that none of his furniture was damaged. The house was well water soaked around the fire area before the flames were extinguished.

WHEAT GROWERS WILL HAVE ANOTHER MEETING SATURDAY

The National Wheat Growers' Association has called another meeting of the wheat growers of Randall county to be held at the Court house Saturday afternoon at 2 o'clock.

E. N. McCracken, of Pampa, president of the association, will be here Saturday to address the meeting.

Pug Cavett Pitching Good Ball This Year

The many friends of Pug Cavett will be pleased to know that Pug is going strong this year with the Indianapolis club.

In a six game series last week with Louisville, Pug pitched and won three games, allowing five hits and no runs in all three games.

Pug is a Canyon boy and has a host of friends all over the Panhandle country. He was given a enamee with the Detroit club four years ago, but got off on the wrong foot and was sent back to the minors. With his start this season, he looks good for another chance in the big leagues.

W. T. S. N. C. DEFEATS S. W. TEXAS NORMAL

Local Nine Knocked Jennings Out of The Box in Fifth Inning— Tucker Parked two Homers.

Our Southern friends lost a good baseball game here Thursday when Helm allowed but 8 hits, which resulted in 6 runs to our 10. Helm's slow twistlers were never solved by the visitors, and supported by consistent fielding, he pulled out of every hole without difficulty. The terrific attack with the big stick drove Jennings to the showers in the fifth inning, after he had allowed 6 hits. Ivey showed considerable speed but allowed two hits and three runs.

McCorkle's nine scored in the initial frame when Tucker smashed a clean home run to center field. Helm tried to do the same trick, but two errors robbed him of a homer altho he scored on the fumble. South West Texas Normal scored in the second inning when Brassel walked and came home from third on Arnold's single. Tucker, one of our "Bambinos," added a point in the third by cracking out another home run, this time to right field.

The fifth inning proved to be the most eventful one of the afternoon. Eubanks was hit by Helm; Sheldon singled over second; Soyars was out, Mitchell to McClellan, but Lyons rapped out a slow roller to short, Eubanks beating the throw home.

In the same inning, Simms led off with a double; Johnson doubled, scoring Simms, and went to third on an error. Tucker grounded out; Jenkins walked but was thrown out stealing. Tucker drew a hit bringing Johnson home. Helm advanced with the willow and scored Tucker with a double, going to third on an overthrow home. Ivey was rushed in to stop the rally. Terry beat out a grounder to Arnold and was caught stealing.

Johnson doubled to right field in the seventh, and came home on Bloxham's single past Eubanks. Jewell muffed Jenkins hot grounder, but Bloxham was tagged on the play. Tucker scored Jenkins with a double, and came in when Helm singled. Helm was thrown out attempting to steal; Terry walked, but Mitchell fanned, retiring the side.

After Jewell's hit in the seventh and Arnold's getting to first on Mitchell's error, Ivey tried to win his own game by rapping out a home run to right field scoring the above men. Shelton's hit and Lyon's double annexed S. W. Normal's last tally. A rally was attempted in the ninth, but Johnson's peg retired Arnold, and Helm fanned the next two batters.

Legion Will Hold Important Meeting

An important meeting of the American Legion will be held at the Club House on East Houston street next Tuesday night at 8 o'clock. The meeting is called for the purpose of organization. The new club house is progressing fine, and it is the purpose that the organization be incorporated under the laws of the state, and that trustees be elected to be vested with the control of the property.

The new Club House will be in condition to move the property from the present Club house the first of June when the lease will expire.

Post Commander H. C. Gamble urges that all members in the new club house attend the meeting next Tuesday night.

CAPONIZING CAMPAIGN OVER COUNTY HAS STARTED

C. F. Walker and one of his club boys, J. D. Amend, has started caponizing, and will go to any poultry raiser in the county who asks their services.

Mr. Walker stated yesterday that the capon was the highest class ment on the market. It usually brought ten cents per pound more than the ordinary chicken, and a capon will develop to weigh around fifteen pounds. It is readily seen that caponizing is a very profitable investment for the poultry raiser.

As soon as the sex of the chicken can be determined, the operation is performed. The capon makes the very best brood chicken for the young chicks, in addition to its great value for meat.

Mr. Walker and young Amend are offering their services free to the people of the county. Mr. Walker hopes to develop a good market for capons either in Amarillo or Fort Worth.

WAYLAND LOST SECOND GAME TO NORMAL

Baptists Took First Game, 15 to 12, But Normal Won Second Over Three Twirlers.

Supported by a pitcher who struck out eight men, and playing in a dust storm that caused errors to be made on nearly every play, Wayland College won the first game here Friday afternoon by a score of 15 to 12. But the Normal more than avenged themselves Saturday by winning over three of Wayland's pitchers; amassing 17 runs to Wayland's 2. Tucker was very stingy with his hits, allowing only six in nine innings. Wayland lost all hope after the second inning.

First Game

Soon after the game opened, a terrific east wind arose, driving huge clouds of blinding, suffocating dust before it. Boatwright and Graves pitched between puffs. Graves' team mates began in the first inning to pile up a lead which was soon five times the Normal's score of 2. Errors, due for the most part to the blinding dust, let Wayland score freely in the first, third, fourth, fifth and sixth innings. Bloxham, Tucker, Helm, and Johnson smashed out some long drives, bringing in several scores but most of the batters grounded out to the infield or fanned.

When the wind began to calm somewhat, Boatwright tightened and McCorkle's men began to hit. From the sixth on the Normal was the victor, driving in run after run and retiring Wayland without scores or hits. In the ninth Jenkins fanned; Johnson smashed out a three bagger, and brought in the 12th score when Graves uncorked a wild pitch. Mitchell fied out, and Terry fanned. Umpires: Corbin and Fronabarger, alternately.

Second Game

That the Normal was out for the game was very evident. Wayland saw and grew uneasy. The Baptists were first up, but were retired without a score. Then Jenkins walked; Simms beat a roller to Montgomery; Tucker was out at first; Helm scored Jenkins with a sacrifice bunt, and Bloxham fied out to R. E. in trying for a home run. In the third inning Simms who had singled, was scored by Helm's single. Tucker walked, and stole home from third when McKnight couldn't pick up the ball. Bloxham doubled to center field scoring Helm. Up to this time Stewart had been very generous with his hits and Wayland's Coach thought Graham was a better bet. Mitchell, who had lost his batting eye on Friday, smashed out a long drive for a home run to center field. Johnson swung at a hard toss but it went high to the short-stop. Jenkins greeted Graham with a neat home run to Jewell.

Bloxham rapped out a hit in the fifth which would have been a home run but for Jewell's great stop. Terry popped up a little bunt which he beat to first base. Boatwright was safe when Shelton took too much time in pegging to first. Mitchell scored Bloxham, and Johnson brought in Boatwright and Terry with a single. Simms beat out a grounder to short and scored Jenkins. Tucker doubled. Tucker slipped into a line run between second and third, and Simms beat a throw to the plate, Tucker pulling up safely at third. Helm beat out a bunt scoring Tucker.

Up to this time Wayland had one score, Mucy having scored when Brazleton singled, in the second inning. Tight fielding and Tucker's good work stopped every rally promptly. In the eighth McKnight was thrown out by Jenkins, and Simms made a great catch of Montgomery's long fly. Bloxham muffed Graves' single, which went for three bases. Osborne's single brought in Graves, but Corbin fanned.

Graves, who took Graham's place after the fifth, and who pitched good ball Friday, was not so lucky in this game. Again in the eighth the Normal scored, Boatwright's single and Mitchell's clean hit adding another tally, as did Terry's sacrifice to Eubanks. Wayland's attempted rally in the ninth died in the infield. Terry at first base played great ball all afternoon, stopping many low throws and hot grounders which many basemen miss. Few errors were made, and the whole team were hitting the old horse-hide to the far corners of the diamond. Prichard and Corbin un-gred.

Mrs. Ruth Hurst of Quanah visited friends here Tuesday. Mr. and Mrs. Harry Holland visited friends here Sunday.

RIDGEWAY CLOSSES WEEK'S WORK WITH WAYSIDE MEETING

J. W. Ridgeway, dairy expert of the Nissley Creamery Company, closed his week's work in Randall county Saturday night with a good meeting at Wayside. Owing to auto trouble, he and Mr. Walker did not reach Wayside until nine o'clock, but found a good sized crowd awaiting their arrival.

Thursday night there was a good crowd at the Park school house. Friday night a rain came up about meeting time, and there was no meeting at the Knox school, only one man showing up for the lecture.

Mr. Ridgeway visited a number of dairy farms near the city, and expressed great pleasure in finding such fine dairy stock in this county.

The work presented by Mr. Ridgeway during the week in Randall County was highly profitable to the dairy farmers.

WILL OPEN NEW BUSINESS IN CANYON NEXT WEEK

W. A. Warren has moved here from Wichita Falls to the R. A. Campbell residence which he recently purchased.

He has leased the building just north of the postoffice and will open a new stock of gent's furnishings on Saturday, May 21.

Mrs. Warren arrived Friday from Wichita Falls. The people of Canyon welcome these good people to the city.

Big 45-Colts is Part of P. O. Force

A new member has been added to the postoffice force—a member with a lot of force, if properly directed. It is a Colts 45-calibre revolver, which is sent from the postoffice department at Washington.

Uncle Sam has become tired of so many postoffice robberies in this country. He has sent instructions to postoffice workers to shoot, and then ask questions later. A full armory of equipment is placed in the big post-offices, with daily target practice to keep the clerks in trim.

The young cannon is parked in the Canyon postoffice within easy reach of all workers and the next bandit which shows up and demands the cash and stamps will head a second rate funeral procession as the result of his itching palms.

TRADES DAY PROGRAM WAS A GOOD ONE

BIG CROWD IN CANYON FOR THE BIG EVENT

Lack of Time Cuts Out Many Features
—Getting Ready for Another
Big Time in June.

There was a larger crowd in Canyon Monday for Trades Day than came the second Monday in April—which had been a record breaker for nearly a year. The program went over strong, and all who were here greatly praised the committee which put on such good entertainment. This committee was composed of E. E. Foy, C. L. Condrey and Frank R. Phillips. There was something doing every minute and some features had to be left out owing to the lack of time.

The badger fight was pulled off at 10:30. The badger was small and was killed after an hour of hard fighting with the bull dog belonging to J. M. Myers. A big badger was caught Saturday at Wayside and will be kept for another badger fight next Trades Day.

The high school band played at frequent intervals throughout the day, and their work was highly commendable.

Several boxing bouts were put on at the Olympic, which drew a big crowd between 11 and 12 o'clock.

The athletic events on the north side of the square for an hour and one-half just after noon drew a big crowd. The high jump, pole vault, shot put and relay race were among the events pulled off. Several stunts races, such as potato and sack races had been planned, but time did not allow.

E. H. Powell had his game cock ready for the cock fight, but no roosters were brought in to put against him.

Prof. T. M. Clark was sick and unable to make the scheduled address on the court house lawn.

The public sale was good, but the new merchandise did not bring the price it should have.

A mule riding contest was pulled off during the afternoon on the south side of the square.

Several riders are planning for a big exhibition next Trades Day. Four or five of the best riders have agreed to ride free of charge if a small admission is charged and all money collected is donated to the Fair and Sales Pavilion Fund. E. E. Foy is working on this feature of the program for next Trades Day and will also have a number of fast boxing matches which will be staged.

All in all the Trades Day was considered a great success, and the people who attended were well pleased with the entertainment and the bargains offered.

County Gets Big Holt Caterpillar

The government has awarded Randall county a big 50-horse power Holt Caterpillar tractor to be used on the roads of the county. The big boy weighs ten tons and will pull most anything that can be hitched behind it.

The government gave 75 of these tractors to Texas. There was a grand rush for them by the various counties of the state, with some counties, even in this Panhandle territory asking for five or six. The Commissioners Court asked for one and was awarded it on account of having so much highway. There were 253 counties in the state, and therefore several counties are certain to be disappointed in their request.

Wheat Helped by Rain

E. F. Arnold of Happy was a business caller in the city Monday and stated that the wheat was greatly helped by a good rain in his section Friday evening. He did not know just how far the rain extended, but it covered considerable territory in all directions of Happy. Mr. Arnold states that while the wheat will be cut by the continued dry weather, he believes that he will be able to make a good yield on his crop.

Joe Foster Selling Out

Joe Foster announced Monday that he would sell out his stock of groceries and retire from business. Mr. Foster has been in various business in Canyon during the past few years and will always be welcomed back in business by the people of this county. They are sorry to see him retire at this time. He has no plans for the present.

Come to Canyon to live.

If You Read This Through It May Do You Some Good-If You don't, It Certainly Can't These Are Fighting Times

There was a time when business came without courting—now it means a fight, and a good stiff one, to bring home the bacon. And how many are really fighting—how many are using all legitimate weapons to get what business there is and to be in a position to reap the harvest when it comes, as it surely must and will?

ARE YOU ONE OF THE FIGHTERS?

Are you really satisfied with the effort you are putting forth to get more business and to hold what you already have? One time Sapolio was the most widely used cleaning compound offered and sold on the American market. Today—try to buy a package.

Sunny Jim used to be a familiar personage in everyday life. Ever hear of him now? And there are thousands of other examples where manufacturers, jobbers, and retailers thought they needed no further publicity for they were so well known. They became satisfied. They stopped progressing and started slipping.

ARE YOU ONE WHO IS SLIPPING?

Some argue both ways. When business is good "what's the use of advertising?" When business is bad "what's the use of advertising?" And yet consistent and persistent advertising has made and held the big business of the world—and history keeps repeating itself.

ARE YOU MAKING THE MOST OF THE PRESENT SITUATION?

Are you drawing in your horns and mistakenly waiting until times get better or are you "hitting the ball," fighting from every angle, making the most of the situation, making today pay a little more than today's cost? Are you really doing all that you can to make things better or are you encouraging the present conditions by falling into the same sleep that you condemn in others? Be honest with yourself—what's the matter with you?

SIMULATE YOURSELF AND YOUR BUSINESS THRU ADVERTISING

Take advantage of every possible way of making good with your customers and the many more who will be attracted to you when you come alive—while the other fellow keeps sleeping. Use every form of advertising that will hook you up with what business there is now and what the future holds in the way of increased business. Be ready and waiting for the change.

USE NEWSPAPER ADVERTISING

There is no form of advertising offered any business man which returns as big results for the amount INVESTED as in newspaper advertising. It is not possible for you to reach so many, hold their attention at a time when they are in the mood for reading in their own homes, at anything like the low cost of newspaper advertising. The News goes into the Randall County homes whose business you want and must have in order to survive.

USE DIRECT MAIL ADVERTISING

Fight for business with the same weapons that the successful mail order houses fight for it—and get it. Use direct advertising. Use it frequently and effectively. It costs more than newspaper advertising but it's good.

ALL THESE ARE GOOD AND WE OFFER YOU ALL

The News is equipped with the necessary firearms for you to do your business fighting—all cocked and primed to go. If its newspaper advertising we offer a medium of real conveyance. If its direct advertising our job presses and ideas of better printing are waiting for you to say the word.

USE US FREELY—USE US OFTEN

We are ready to serve you with ideas and with the goods. Let's go. Let us help you to wake up—and together we will awaken the other fellow—or at least be ready for him when he does awaken.

GREAT DEMAND FOR DEGREE GRADUATES

Some of the largest towns of Texas are making requisitions upon the West Texas State Normal College for its A. B. degree graduates for teachers in their schools. The committee on Appointment of Teachers has had requests for teachers from such towns as Santoño, Texarkana, Quannah, Sweetwater, Seymour, etc.

From April 1 to April 20 requests for 14 high school teachers and 35 grade teachers were made. Most of these requests stipulated that applicants must hold at least a first grade certificate, and many school authorities preferred teachers with experience. Eight calls for kindergarten and primary teachers and nine calls for rural school teachers were also made.

The salaries for high school positions ranged from \$125 a month to \$150 a month, and salaries of grade teachers from \$90 a month to \$115 a month.

If we are to judge from the demands for teachers made upon the appointment committee this year, there is still a great shortage of teachers. Perhaps the most significant fact, which is very prominent in these requests, is the demand for degree students. In one week the committee received nine requests for teachers with degrees. This is a very wholesome symptom on the part of the public. It means that the people are demanding a higher degree in preparation on the part of teachers. Nothing will contribute more to professionalizing the work of the teacher or lend more dignity to the profession once it is established than a consistent and persistent demand of this kind. The great demand which the schools are making for our degree students also argues strongly the wisdom of the Board of Regents in making the Normal Colleges of Texas degree-granting institutions. Schools exist only to meet the legitimate demands of the public.

What is Fresh Air

Prof. C. E. A. Winslow, of Yale University, has come forward with a definition of the term "fresh air" that is heartily endorsed. Here it is:

"Fresh air has four qualities. Fresh air, first, is cool air. Air that is above 69 degrees F. is always harmful except for very old people. Whenever the indoor temperature rises above this point, the circulation is upset, one tends to become dull, languid and inefficient, and the delicate membranes of the nose and throat are injured.

"Secondly, fresh air is moving air. Still air blankets the body and produces a deadening, numbing effect. Air in gentle motion stimulates the skin.

"Thirdly, fresh air is moderately moist air. Either very dry or very humid air is harmful.

"Lastly, fresh air is variable air. Slight changes in temperature and humidity are stimulating and wholesome for the body."

The term "fresh air" is used a great deal, but most people do not know what is meant by the term. For all such, the definition given by the Yale man is helpful.—The Hearst Round-Up.

The Baldwin locomotive works got an order for a monster locomotive. It was shipped in fifteen days.

"Organization is the art of getting men to respond like thoroughbreds. When you cluck to a thoroughbred, he gives you all the speed and strength of heart and shew he has in him. When

Here is one illustration worth while, while, which surely applies to men as lower animals.

Be Rid of That Ache

If you are a sufferer with lame back, backache, dizziness, nervousness and kidney disorders, why don't you try the remedy that your own neighbors recommend? Ask your neighbor.

Mrs. C. R. Correy, Canyon, Says: "My back and kidneys have been causing me a lot of trouble for a long time. My back ached steadily and there was lameness and soreness in it which made it hard for me to stoop over to do my housework. I would get dizzy and black specks would float before my eyes. Then again I would have headaches and my kidneys were inflamed and irregular in action. I was advised to try Doan's Kidney Pills and bought some at the Holland Drug Co. Three boxes fixed up my kidneys and relieved my back."

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

We see no particular reason for publishing the slacker list at this late date. Every slacker was known in his own community. The fellow who went and did his duty it not demanding any special honor, and few have expressed a desire to see a slacker list printed. The government no doubt feels that it is nothing more than fair to present to the world those who refused to do their duty during the war.

The special election for increasing the school tax will be held May 28. It is the duty of every voter to go to the polls that day and express an opinion. The fellow who refuses to vote has no kick coming if the election does not go to suit him.

Read the constitutional amendment printed today in the news. These are to be voted upon in July and every voter should study them carefully.

Boost a little now, a whole lot later on, and Randall county will have a big County Fair in September.

Praises County's Roads

The News man rode over the highways of nine counties Thursday and Friday, and none of these counties have highways to compare with Randall county. The only bad places on the Randall county highways are to be found on the creeks north and south of town. When these places have been fixed up, Randall county will have two highways of which the people can justly be proud.—Randall County News.

And The Randall County News man is right. Randall county has the best roads in the Panhandle. Sensible corners have been built. There are no sharp turns. The gently rounding corners are a delight and a real safety device as well for the motorist.

But we're not conceding permanent superiority of roads to Randall county. Hale county has made more progress in the past year in her roads than any other county in this section and the judge and commissioners have not completed their program for road improvement.—Plainview Herald.

A Condition Not a Theory.

Speaking quietly, without prejudice, can any one tell why it is that government departments, in all countries, are slow, wasteful, incompetent?

There must be some basic reason for this.

Almost invariably an able man becomes disabled when he is placed in a government department. He becomes timid, procrastinating, non-committal, evasive and unprofitable. Why is this?

The fact seems to be that a man cannot be competent in a government job, for the following reasons:

1. There is no payment by results. A man gets as much for doing badly as he does for doing well.
2. There is no fear of discharge. A man may be transferred, but, as long as his conduct is satisfactory, he cannot be discharged for incompetence. Any sort of a fool can hold a job forever in the civil service.
3. There are no profits to be made. There is no possibility of bankruptcy. If the department doesn't pay, very well. The treasury has plenty.
4. There is no danger of losing customers. A government department does not depend upon its customers, so it is no incentive to be quick and courteous and obliging.
5. The main thing is accuracy, not success. A government employe has simply nothing to do with success. His one aim is to avoid mistakes. The less he does—the fewer mistakes.
6. Time is of no consequence. A delay is a relief and a comfort, the more the better.
7. The work is impersonal. There is very little responsibility in a government office. The clerks have ar-

anged a system whereby nobody is to blame, no matter what happens.

8. There is no competition. A government department is always a monopoly. If it were not, it would be soon thrown aside. It has no competitors to battle with, and it can take it easy and do as it pleases.

9. Routine is put ahead of service. In government departments all the workers are tied with red tape. They are slaves to a system of procedure.

10. There is no enthusiasm. If a man stays in a government job long enough he loses the energy and joy of living that are necessary to efficiency and success.

These are a few of the reasons why nationalization always has failed and always will.

Put yourself in the place of these poor government automatons. No matter how able you are, how could you be efficient if you had: No hope of profits; no fear of failure; no competitors; no customers; no reason to hurry; no danger of being found out?

Nationalization is not only a destroyer of trade and commerce. It is not only a coral reef built across the harbor of prosperity.

It is worse. It is far worse. It is a destroyer of men. It lowers the spirit and hardihood of a nation. It pauperizes. It dulls the mind and benumbs the feelings. What could be worse?—Herbert N. Carson, in "Efficiency Magazine," London.

Give It Gas—Not Chloroform

You do not think of cutting down your supply of gasoline when you come to a hill. On the contrary you give your carburetor more gas to get over the top with ease. The fellow who does not do this, is stalled on the roadside, while you are over the top and have forgotten the ones passed far behind.

The same condition confronts business—you speed your engine to increase power—advertising accelerates business. The business that neglects advertising now, is in the same position as the motorist who fails to give his car more gas on the hill.—Troup Banner.

MR. PRINTERMAN: MEET MR. PORTE AT STATE PRESS

Mr. Newspaperman and Mr. Printer, meet our mutual friend, Mr. R. T. Porte, publisher of the Franklin Price List.

Mr. Porte will address the big state convention at McAllen next month.

Every printer in the land knows the Franklin Price List and the many dollars it has saved his establishment and the weary hours saved in figuring printing jobs. With the Franklin list all the printer has to do when shown a job is to turn to the index, find the class of a job upon which an estimate is wanted, and there you are all figured out to a penny what the job will cost to produce. No mistakes or guesses go with Mr. Porte.

It will be a pleasure to the newspaper men of Texas to welcome Mr. Porte to the State Press Association at McAllen.

An interesting article concerning the construction of a model of the Mayflower is published in Boys' Life. The little craft will be a perfect model of the ship which brought the Pilgrim fathers to America.

She is being built in England. When the vessel takes the water her estimated weight will be only 180 tons. This little boat will make the voyage to America just 300 years after the original Mayflower made it. The trip will be part of the great celebration to commemorate the landing of the Pilgrims and the settlement of New England three centuries ago. Another interesting feature of the celebration will be the motion pictures, which will reproduce the famous scenes of the sailing of the Mayflower and her landing at Plymouth. These pictures are now being prepared both in England and America and will be shown in the United States.

The Lure of the Plains

I am sitting tonight in my home by the sea.
In the land of sunshine and flowers,
Where beauty reigns in each shrub and tree,
And the birds are singing in leafy bowers.

I am looking tonight far out on the ocean blue,
Where the ships rock to and fro,
Where the sands of the beach are pure and white,
As the flakes of a winter's snow.

I am thinking tonight of a home on the plains,
Where the Texas breezes gently blow,
Where the white faced cattle roam the range,
Where wheat and maize and kafir grow.

I am longing tonight for the prairie wide,
For my pony, saddle, spurs and all,
For my faithful dog to be at my side,
And the coyotes justy call.

I am dreaming tonight of those friends so true,
Who were always willing to lend a hand,
The staunchest friends I ever knew,
Just great, like thee, My Texas land.

—Harvey Johnson, First year Normal.

Ruined By Advertising
In Atlanta, Ga. an advertising solicitor was trying to induce a reluctant merchant to use his publication. When the merchant expressed doubt as to whether or not it would pay him, the solicitor replied: "Advertising undoubtedly pays; I will give \$50 to any man who will establish the fact that anybody was ever ruined by advertising."

Whereupon a man standing near spoke up and claimed the reward. When asked to explain, he said: "I was in business in this city and had a good stand, a splendid stock of goods. I never advertised myself, but my competitor next door was a persistent advertiser in all the city papers and everybody went to his store. The result was that I was driven eventually to bankruptcy."

"Yes, sir, I am a living example of a man who was ruined by advertising; but I admit it was the other fellow's advertising." —Kice Rustler.
