NUMBER 9

CANYON BOYS WIN IN STOCK JUDGING CONTEST FRIDAY

ANNUAL AFFAIR MADE OF THE JUDGING CONTEST.

J. D. Amend Was Highest Boy in Contest and James Oden Second—Dinner for Visitors.

The stock judging team coached by C. F. Walker won the Stock Judging contest which was held by the county agents here Friday. There were nine agents present. Mr. Walker's team easily won the decision on points.

The boys of the winning team are J. D. Amend, James Oden and Park Lewis. Of the entire number of boys in the contest, Amend won first place, Oden second, Lewis fourth and Alfred Vetsch, who acted as alternate, won eighth place. The boys are highly pleased with the results of the contest, and have made up their minds that they are going to College Station and win the state championship this summer.

The following county agents were present at the contest: P. C. Bennett, Tulia; T. P. Metcalf, Matador; T. S. Wilson, Floydada; L. T. Hunter, Childress; L. S. Thompson, Memphis; N. R. Tisdell, Wheeler; Harmon Benton, Amarillo; R. O. Dunkel, McLean; C. F. Walker, Canyon.

The Wheeler team won second place in the contest, McLean third, Memphis fourth and Floydada fifth.

C. C. French, industrial agent for the Fort Worth Stock Yards, attended the contest, also P. D. McCabill of the Farm Bureau and B. B. Holland of the Mistletoe Creameries.

C. M. Evans and W. T. McGee of the A. & M. College were judges.

The contest was held cooperatively between the vocational work of which Frank R. Phillips was representative and the A. & M. Extension Department, represented by John R. Edmonds.

The agents voted to come back to Canyon next year for the contest, there to be two classes, one which had had vocational agriculture and one which had not.

Some provision will be made whereby the winning team will receive \$100 in order to pay their expenses to College Station during the summer. Some breeder will be asked to give a loving cup which will become the property of the school or county winning the cup three years in succession.

It was decided that all classes to be judged must be shown in Canyon as it takes too much time to go out to the farms. Two sets of judges will be used. More attention will be devoted to the reasons given by the boy for his placing, this to count 50 percent next year.

A dinner was given in honor of the visiting boys at Huddlehall Hall Friday night at eight o'clock, attended by all visitors and a large number of the business men of Canyon. Frank R. Phillips acted as toastmaster.

C. W. Warwick welcomed the visitors and told the boys how much the business interests of Canyon appreciated having as guests the boys.

W. T. McGee gave the boys a short talk on what he expected to hear when a boy came before him in the judging room. He gave sound advice as to the manner to reason for placing should be told the judge, and urged the boys to use the cowman's terms.

C. M. Evans appreciated very much the presence of the business men of Canyon and the interest shown in the visiting boys. He believed that the newspapers were doing more free of charge for their towns than any other agency. He was glad to see the west producing stockmen by starting with the boys. That was the only way to make the stock business profitable. He was pleased to see so many boys interested in club work. He urged those who were just beginning to not feel discouraged if they had not won. He did not believe that any boy could lose by taking part in one of the stock judging contests.

C. F. Walker thanked the business men for the cooperation shown during the contest. He stated that the three boys in his team had informed him they were going to win at College Station and get the big trip to Chicago this winter—and Mr. Walker believes that the boys are going to do just that thing.

N. R. Tisdell was the oldest agent present, and was at the meeting in Houston when the club work among boys was first started. He stated that the work was getting better and better year after year. The agents were learning that more time had to

be spent with the boys to get the best results in their work.

R. O. Dunkel of McLean was highly pleased to find such cooperation in Canyon as was manifested by the diener, and believed that this cooperation was one of the reasons why Walker's team had been able to win. He urged that fathers stand behind their sons in the club work. It was criminal the way some fathers refused to cooperate in club work. He highly complimented Canyon and the spirit of cooperation he had seen here.

L. S. Thompson of Memphis thanked the people of Canyon for the hospitality shown the visitors. He was proud of the great college in Canyon and the work it was doing to build great men and great women. He believed that C. F. Walker was one of the best stock judges in West Texas.

Mr. Phillips then introduced the three boys who had made the highest scores in the judging contest—J. D. Amend of Canyon, James Oden of Canyon and Ben Wolford of Wheeler. Fred Ives told of the agricultural department of the Normal, the courses offered in this department, and urged the boys to attend the school after they had finished high school.

T. S. Wilson of Floydada told of the work that had been accomplished in his county during the time he had been there.

C. C. French expressed himself as being strongly in favor of the club work among the boys. It is the only way we have of developing good stockmen. A good county agent is necessary to have good club work. He pointed out how the soil had been depleted in older sections through agriculture without livestock, and urged that this not be the case in the Panhandle which was one of the greatest natural live stock countries in the world. There is no greater business in the world than building the character of the boys.

Dr. C. E. Donnell expressed himself highly pleased with the club work and was going his part to make this a greater live stock country.

Paving Bids Will be Opened by City Council Saturday

Saturday will be the day for opening the bids on the paving proposition in Canyon. The City Council will be in session to receive and investigate the bids submitted.

Mayor J. D. Gamble stated yesterday that there had been a much larger number of contractors interested in the specifications than was the case last year when bids were asked for on this job.

The reduction of freight rates after the first of July ought to have some good effect upon the price of the bids since there are more than a hundred cars of material to be shipped in for the paving and the freight on each car will run around \$100.

Poultry Specialist To Be in Canyon on Wednesday June 14

Dr. Patton, poultry specialist, will be in Canyon on Wednesday, June 14th to confer with poultry raisers, regarding and difficulties they may be having.

Dr. Patton is a practical poultry raiser with several years' experience. He was in Cornell and head of the poultry department. Later he managed one of the largest poultry plants in Massachusetts for several years.

He will be with C. F. Walker during the day, and will be anxious to meet poultry raisers who have problems to solve.

ADMITTED TO CITIZENSHIP.

Eberhard Gerdson of this county was admitted to citizenship at the spring term of the United States District Court which opened at Amarillo this week. Mr. Gerdson is a native of Germany, but has been a resident of Randall county for several years. He is a successful farmer, and most highly respected citizen.

J. F. Hood of this city is a member of the Grand Jury in the federal court.

HAD COLLISION.

A Ford car ran into Arthur Oleson's car on the highway north of town after dark Sunday night, smashing the Oleson's car fenders and one front wheel. The Ford was pretty well demolished. The three men in the Ford left without giving their names, or offering assistance or explanation.

PALO DURO POST PLANNING FOR A BIG 4th OF JULY

FORTY ATTEND BIG EATS AT THE CLUB MONDAY NIGHT.

Women's Auxiliary Will be Started by Post at Once—Want Guardsmen to Come July Fourth.

About forty members of the American Legion attended the meeting at the Palo Duro Post Monday night and had a mighty fine feed upon roast pig, with numerous trimmings, and afterwards did some real constructive work looking for the upbuilding of the local Post.

The men endeavored to get a complete list of all of the 110 men who were called from this county into service during the war. It was impossible to find such a list. The names of only 87 have so far been found. For some reason a list that was made of the men in 1919 has been misplaced and it is very essential for future work that a complete list be found.

It was decided that the Women's Auxiliary be organized, and this work will be pushed at once.

Another meeting will be held on the 12th of June, and regular monthly meetings will be held in the future.

The question of a big Fourth of July celebration in Canyon was suggested and met with most hearty encouragement with all of the men present and with those whom members have talked this week. The battalion of National Guardsmen are expected to get together that day, and it is understood that it is possible to get the battalion to camp to this city.

The question of a big celebration will be settled at the meeting on the night of the 12th.

Several new members were added to the Post Monday night, and the membership committee will be on the job from now on.

WALKED THE HOT SANDS.

More than forty members of the Canyon Shrine Club attended the ceremonials at Amarillo Thursday, at which a large number were taken into the mystery of the fraternity.

Those from Canyon taking the degree were Grady Oldham, Hud Pritchard, W. H. Younger Jr. and W. A. Warren.

Legions Want to Know How Canyon Club Was Erected

Commander H. C. Gamble of the American Legion Post stated yesterday that nearly fifty requests had come within the past week from various American Legion Posts from all over the United States asking how the Club House had been financed and erected in Canyon.

A picture of the local Club House was run in the American Legion Weekly two weeks ago, and letters started to pour in at once. It would seem that Canyon is one of the few towns in this country which has been able to put over the American Legion Club House proposition, and all kinds of questions are asked as to how the proposition was handled.

SOLD REGISTERED BULL.

T. A. Dowlen has sold Capital Stawway 11th, one of his best registered Hereford bulls to the Red River Hereford Ranch at Memphis for \$500.

BUILDING HOUSE.

E. H. Flynn is building a five room house in the southeast part of town on Crestnut street.

MUST HAVE MORE ROOMS TO CARE FOR THOSE WISHING TO ATTEND THE NORMAL DURING SUMMER QUARTER

A very urgent appeal was sent out yesterday for those who have rooms to rent during the summer quarter of the Normal to phone President J. A. Hill or Frank R. Phillips at No. 135.

President Hill stated that he is receiving letters, phone calls, and telegrams by the scores asking for rooms during the summer.

The committee in charge of rooms fear that unless more people open their homes at once, there will be a

INTERESTING WINDOW.

A window of exceptional interest is being shown in the furniture department of the Thompson Hardware Co. this week, having to do with the manufacture of linoleum.

The display shows every ingredient used in linoleum in its native state. The process of manufacture is traced, showing the rubber, chemicals, printing block, dyes, and everything that goes into the manufacture of linoleum.

The exhibit is a very costly one, and indeed a very thorough one, and all persons in the city should be interested in seeing it.

RAIN THIS WEEK.

Three fine rains have fallen during the past week, the rains falling on Monday, Tuesday and Wednesday nights.

The rains have been rather uniform all over the entire Panhandle country and puts the ground in fine shape for crops.

New Bridge Contract is Let on the Highway North of the City

The Commissioners Court has let a contract with the Austin Bridge Co. of Dallas for a new bridge over the Spring Branch at the foot of the big hill on the highway north of the city.

The concrete bridge at this point was washed out a few weeks ago.

The new bridge will be 60 feet long, built of steel and concrete, and is certainly large enough to take care of all the water that could possibly come down the branch.

Material is being brought to the grounds by the contractors, and the new bridge is to be ready by July 15. The contract price was \$4400.

Trades Day Will be Held in Canyon on Monday, June 12th

Trades Day has not been held in Canyon for several months, but will be revived on the second Monday in June, which will be June 12.

A meeting of all business men, interested in Trades Day will be held at the court house Tuesday evening at eight o'clock, at which time plans for the day will be made.

It is very much desired that a representative from each business house in Canyon be present at this meeting.

SONE TO SLATON.

C. L. Sone and family left today for their new home in Slaton where Mr. Sone will be superintendent of the city schools during the coming year.

The many friends of the Sone family in Canyon wish them the greatest success during their stay in Slaton.

County and Precinct Candidates Must File Names by June 17

Candidates for county and precinct offices must file their applications for a place on the primary ballot on or before June 17. The application must be filed with County Chairman A. N. Henson.

On June 19 the county executive committee will meet and arrange the names on the ballots and set the amount each candidate must pay toward the primary expenses.

The amount set by the county executive committee must be paid to the county chairman on or before June 23.

These dates should be kept in mind by all county and precinct candidates.

COMMENCEMENT PROGRAM AT THE WEST TEXAS STATE NORMAL COLLEGE WILL CLOSE SATURDAY THIS WEEK

MUSIC DEPARTMENT GIVES CONCERT TONIGHT—CLASS PLAY FRIDAY NIGHT—ADDRESS BY HON. C. G. THOMAS SATURDAY.

The Commencement Program of the West Texas State Normal College is in full swing this week, and will close Saturday morning with the issuance of degrees, diplomas and certificates to the large number who are completing their work in the Normal this year.

Cousins Win Debate

The debate Saturday night between the Cousins and Antlers Societies was one of the best of the two societies has ever held. The Cousins won the decision by a two to one vote of the judges. All men taking part in the debated accredited themselves well.

Commencement Sermon

The Commencement sermon was preached Sunday morning by Rev. J. W. Story of Amarillo. Mr. Story took for his theme "Doing Great Things for God and Humanity." He used David as the basis of his discussion, and called attention to the great things that David had done for his Lord and for his fellowman, and the humble part he had played during his great career. The preacher believes there is something wrong with the man who stuts and parades his well doing before his fellowman. The really great are humble and consider their great work as really poor. David compared his work with God's work and saw how small his own work was.

The gods of the heathen are poor, ugly little things, out of proportion to their surroundings in the beautiful temples builded to them. The God of the Hebrew was infinite in proportion—The Most High. What we need today is a conception of the greatness of God. The greatest work of man cannot compare with the work of God. Man may make roses that will almost deceive the eye, but he cannot make a rose that will compare with the work of God. Our best giving cannot be compared with the gifts of God who gave us the forests, the plains, the oceans, and the greatest gift of all—His Son.

Man cannot afford to do less than his very best. Man should have a due appreciation of the wonderful gift of God to men. A little man cannot accomplish great things for God. "I wish I might read the poetry that had never been written"—the thing that was in the poet's heart, but which he was never able to express in the words at his command.

Speaking to the graduating class, Rev. Story said: "I do not come to wish you an easy time. The world is not waiting for you. The world is pushing on. The world needs men and women who will throw themselves into the world's work. Great things are not accomplished with a brass band. The band stirs up enthusiasm, but behind every great movement is the grind, the shedding of perspiration and even shedding of blood."

The speaker plead that the members of the class be willing to pay the price. That they go out to honor God and bless humanity.

Rev. Story preached another great sermon Sunday night before the joint meeting of the Y. M. and Y. W. C. A. **Recital Monday Afternoon.**

Miss Grace Brewer, violinist, was presented in recital at the Normal auditorium Monday afternoon. Miss Brewer is one of the advanced students in violin in the school. She was assisted by Miss Violet Goad, soprano. The recital was very enjoyable throughout.

I. O. O. F. Lodge Brings Back the Cup Second Year in First Degree

About fifty members of the Canyon I. O. O. F. lodge attended the Panhandle meet in Amarillo this week.

The degree term won the cup for presentation of work in the first degree. This is the second year that the Canyon lodge has won the cup, and if it wins again next year, the cup becomes the permanent property of the local lodge.

ADAMS NOT CANDIDATE.

County Commissioner E. E. Adams has announced that he will not be a candidate for re-election from precinct No. 4 of this county. Mr. Adams has been one of the most efficient members who has ever served on the court, and always taken an exceptionally intelligent part in the management of the county's business. The people of the entire county regret very much that Mr. Adams sees fit to retire, but his stock and farm business is so pressing that he does not feel able to continue as a member of the court after his term will expire on January first.

So far no candidate for the office has been selected by the people of the precinct.

The hen and the hog and the dairy cow are entirely responsible for the prosperity of Randall County today. If you do not believe that, ask your banker; or ask your merchant. It is therefore the part of every man to encourage the further development of these industries. The county agents of the Panhandle have put over the job. If you do not believe this, go into the very few counties of the Panhandle which have not had county agents during this period of reconstruction. These three industries are not mere fly-by-night industries, but are staple and will continue to help Randall county just as long as our people will allow them to work for the interest of the county. The richest states in this great country of ours are the states which are looking after their poultry, hogs and dairy cows.

Mrs. Jim Ferguson is in the race for the United States senate. Jim kicked over the Democratic traces two years ago and started the American party, being its candidate for governor. Now some of the members of the Democratic state executive committee see no use in putting Jim's name on the Democratic ticket in the senatorial race, and these members have Jim buffaloed. Rather than be left off entirely, Jim and Mrs. Ferguson have both filed for places on the ticket. If Jim's name is allowed to go on the ticket, his wife will withdraw. If Jim is banished and his wife runs, Ferguson will campaign for his wife and will be her secretary, which will give him a place on the floor of the senate. A beautiful plan—if the voters do not upset it in the July primary.

The burning of nine negroes within a few weeks in Texas is not a few good arguments against the anti-lynching bill pending in congress. We have heard some of the warmest state rights proponents favor the anti-lynching law because they have come to the conclusion that the states will never stop lynching. It is probable that all of the negroes in question deserved what they got, but it was not administered in the American way of giving every man a chance to prove himself innocent of the crime with which he was charged.

The Randall County Stock Judging team won in the contest Friday over boys from surrounding counties. All of the boys on the team have worked hard and taken a great interest in stock judging. The part that C. F. Walker has taken in preparing these boys was in a great way responsible for this victory. The boys are going to College Station this summer determined to win.

Practically every great man in this country is proud of the fact that he was reared on the farm. The world needs great men in all walks of life, but the farm needs great men as much as does any other walk of life. Instead of drawing great men from the farms, our educational system should be sending out great men to the farms, since agriculture is the basis of our national prosperity.

Bob Henry is right. There is no sense trying to fool with liquor laws. The Eighteenth Amendment has been added to the constitution. It is un-American to try to pass laws which might defeat the constitutional provision.

The ten percent reduction in freight rates granted last week is going to have a desired effect upon all lines of business. It will add a little to the wealth of each individual, and seemingly have no had effect upon the railroads. The road road officials are determined to reduce salaries, and we may expect to see considerable agitation along this line during the coming few months.

Some people have complained that last week was pretty hot in the Panhandle. Yes, the thermometer stood high, but did you note that practically every section of the United States was enduring unprecedented heat last week. No matter whether it be heat or cold or wind, when it is bad in this country, it is just a little worse in some other sections.

Just seven weeks until the first primary, and there seems to be little enthusiasm in any part of Texas over political questions.

The world's largest paper machine makes a stub of paper 12 feet, 2 inches wide, 327 miles long every 24 hours, using 110 cords of wood. Three thousand and five hundred acres of pulpwood are required to furnish the paper for one day's issue of the newspapers published in the United States.

Mystic symbols and signs were discovered recently, chiseled on volcanic rock in a remote section of Owyhee County, Southwestern Idaho. Certain of the inscriptions resemble Chinese alphabet characters and this resemblance was taken by some to substantiate the theory that the North American natives descended from a race which came from Asia by way of Bering Strait.

Guarded by two United States Government cutters, the Pacific seal herd is moving from the South Pacific to the summer rendezvous on the Pribilof Islands in the middle of Bering Sea. This is the only herd known to be in existence with the exception of a small colony that summers on the Commander Islands, off the coast of Kamchatka, Siberia. After June 15 the herd will have passed into Bering Sea and three other coast guard vessels will then maintain a rigid guard there.

ENDORSE JACKSON.

The following letter is from the First National Bank, Granbury, Texas, J. N. Nutt, Cashier:

Judge Phil Jackson, Canyon, Texas: I went out this afternoon and in about 30 minutes secured the names of a few "old timers." Can get 500 just as easy as I got the ones that I did get to sign the recommendation for you. Every one that I gave an opportunity to sign did so with pleasure, and without even a suggestion from me. I am mighty glad to be of this small service to you, and regret that I can't qualify as a voter in Randall county that I might again have the pleasure of voting for my old friend Judge Jackson. With best of wishes for you and your.

Your friend,
J. N. NUTT, Cashier.

TO WHOM IT MAY CONCERN—

Judge Phil Jackson was a citizen of Hood county for many years prior to the time he removed to Northwest Texas, and held several offices of trust in said county.

He was County Judge of Hood county the county court of said county and filled both offices to the entire satisfaction of the people of said county. He was an efficient officer, sober, attentive and capable.

Judge Jackson was a good citizen, progressive in all matters of public interest, efficient in all school matters while County Judge and gave the office efficient service. He was well known to all the citizens of the county and the representative district which included Hood county and filled the office of representative for one term. He was never defeated for any office which he sought and always retired from office on his own choice. We take pleasure in recommending him for any position which he may seek.

Wayside Items

Rev. Fred Wilson filled his regular appointment Sunday. There were 7 additions to the Methodist church.

Decoration day was observed by a large crowd at Wayside. A nice program was well rendered in the afternoon. J. L. Bagwell of Claude and W. J. Flesher of Canyon were the visiting speakers. Their talks were greatly appreciated. W. J. Flesher Jr. also rendered two good readings. The cemetery was well cleaned in the morning by the men and boys while the women and girls made a wreath of flowers for each grave. There were lots of flowers.

Monday afternoon George Bond had the misfortune of getting run over by a disc. His team ran and threw him off in front of the disc, cutting his hand badly. Dr. McElroy of Happy and Dr. Crawford of Tulla were called. Part of his thumb had to be removed and he may lose his whole hand. His arm was also badly cut and some bruises on his back and hip.

THE CHRISTIAN CHURCH

On Sunday morning at 11 o'clock Mr. Osborne will preach on the theme, "Blessed are the Merciful" the fourth of a series of sermons on the Beatitudes of Jesus. At night at 8 o'clock the subject of the sermon will be, "Otherwise Occupied Ground," the third of four sermons on the Parables of the Sower. The Bible school will meet at 10 a. m.

Efforts are to be made during the coming summer to retrieve some of the \$15,000,000 worth of specie which sank in the sea when the Laurentic was torpedoed during the war by a German submarine near Lough Swilly, Donegal. Previous salvage operations saved approximately two-thirds of the treasure and special trained divers from the British navy are expected to recover the rest. The vessel lies in about 20 fathoms of water and the huge boilers rolling about make operations hazardous.

According to a German official document published recently, the number of submarines lost by that government during the war was 199, including boats sunk, interned and captured.

Fordson TRACTOR

"Yes I've more time for Myself Since I Got a Fordson"

The Fordson Tractor is taking much of the drudgery out of farm life; it is solving the labor problem; it is reducing the cost of preparing land by almost one half of what it was with horses; and it is saving one third to one half of the farmer's time; and making farm life more attractive.

The Fordson will run your threshing machine—and at the most opportune time for you. It will operate the milking machines, saw your wood, fill your silo, pump the water, and take care of every kind of belt work—

And don't forget—it will plow six to eight acres in a ten hour day, handling two plows with ease.

Thus the Fordson is the ideal year-round tractor. It will pay for its fall and winter keep in many ways.

There's a big story to tell you about the Fordson—and a true one—come in and get the facts. Or, if you prefer, telephone or drop us a card and we will bring them to you.

ON LEAVING THE RHINE

The further delay in the return of the remaining American troops on the Rhine, while displeasing in one way, still carries the touch that flatters our pride.

Various reasons have been assigned for the delay, but there can be little question but that the reluctance of the inhabitants of the occupied territory to see Americans displaced by other troops was a factor. The Germans are naturally eager to have all the troops of the Allied and associated powers out of the country, but seem to prefer American occupation to that of other nations.

It is pleasant to feel that American troops prove the most agreeable and the least overbearing. There is no excuse from a military standpoint or under international law for continuance of American occupation under the terms of the armistice, but to know that Americans are able to adjust themselves to the proper terms of relationship under the Rhine conditions is an augury for continued peacefulness in our relations with other powers.

Some of our most resplendent diplomats have made sorry failures, but it seems that our private soldiers have been able to show a fine diplomacy wherever orders have sent them.

A DEAD ISSUE

From time to time, upholders of liquor traffic attempt to extract comfort from the results of elections held in various parts of the country.

Recently a supreme attempt was made to interpret the result of a congressional by-election in New York State as indicating a pronounced swing toward legislative tempering of the prohibition enforcement law. In a Republican district, the Republican nominee was returned to Congress by a greatly reduced majority. It happened that in this instance the Democratic nominee had made opposition to the prohibition law a point in his platform. There were several other factors in the election, a reduced vote, disgust over congressional do-nothingness, the aftermaths of financial depression, and the usual local group vote alignments.

But anti-prohibitionists ignored all other factors and loudly ascribed the reduced Republican majority to dissatisfaction with prohibition.

A few weeks later, however, the primary election in Indiana was held, and anti-prohibitionists remained discreetly silent over the election. Samuel M. Ralston was nominated for Senator by the Democrats by an overwhelming majority. One of his opponents had made the campaign solely on the anti-prohibition issue, and had been snowed under so badly that it was not worth while to count the votes. In several of the congressional nominations, other anti-prohibition aspirants had fared as badly.

The truth of the matter is that the public will not consider prohibition as a live issue. Even those persons who profess the belief that the prohibition measure was a mistake refuse to let any worry over its passage interfere with their 1922 digestion. Prohibition as a fundamental policy is settled, and the politician who tries to urge its repeal is arguing an issue as dead as slavery.—Ford's Weekly.

A bridge has been designed to span the Hudson River at New York which will be the most important gateway to the West. Its lower deck will carry 12 railroad tracks, its upper deck roadway, two and a half times as wide as Fifth Avenue, will take care of 16 streams of vehicles. There will still be room on the upper deck for four surface lines and two sidewalks. Although the bridge will cost \$130,000,000 it is believed it will pay for itself by cutting the cost of bringing goods across the Hudson from \$2.28 to 50 cents a ton.

How Ironized Yeast Fills Out Figure

And Puts New "Pep" and Energy in Thin, Nervous, Run-down Folks

Hundreds of thousands of people all over the country are now taking IRONIZED YEAST tablets for health with results which in many cases are actually astonishing. For thin folks to gain five pounds or more on the very first package is not unusual. Constipation, blotched with pimples, etc., are very often entirely cleared up within 10 to 14 days. As for increasing "pep" and energy, apparent "miracles" are reported by folks who were formerly run-down, weak, and lacking in physical and mental vigor.

FREE! Mail coupon below for Amazing Three Day Trial Treatment of IRONIZED YEAST. Watch the Results!

Here is The Secret!

Nature intended that you should have a well developed figure, with the clear skin, sparkling eyes, strong nerves and rugged strength that goes with it. And if you are now thin and run-down it is because certain of Nature's laws have been disobeyed. Nature's systems. But these two essential elements are lacking in the modern diet. That is why so many of us are thin and run-down.

Yeast Best When Ironized

The thing to do is to supply this lack by taking with each meal two tiny IRONIZED YEAST tablets which contain in highly concentrated form, a specially cultured yeast grown under the strictest supervision for medicinal purposes—a yeast unequalled for its richness in the essential Water Soluble B vitamins. In addition it contains the correct amount of the two other vitamins—Fat Soluble A and Water Soluble C—which are equally important to health. These three vitamins bring excellent results even if taken alone—but when taken with a proper amount of easily assimilated organic iron, as in IRONIZED YEAST, these results are secured often in just half the usual time!

Watch The Results!

Note how IRONIZED YEAST immediately increases your appetite—how it enables you to get real joy out of every morsel of food you eat. See how quickly it drives away pimples, blackheads, etc., and how your newly acquired "pep" makes hard work or play a pleasure instead of a task. Try IRONIZED YEAST today! Pleasant to take—will not cause gas or in any way upset the stomach. Each IRONIZED YEAST tablet wrapped air-tight in waxed sanitation paper, thus assuring 100% purity and strength. Special directions for children. Go to your druggist or mail coupon today—NOW!

WARNING!

Not all yeast will give the desired results. There are certain types of yeast which have absolutely no value medicinally. By insisting on the genuine IRONIZED YEAST, and refusing cheaper imitations or substitutes you can be sure that you are taking a vitamins tonic treatment which is unsurpassed in effectiveness, convenience and genuine health-building value.

For Ten Dollars and Ninety Cents—This 30 x 3 1/2 Usco

THE 30 x 3 1/2 tire situation today is just this—
The man who buys an USCO at \$10.90 is justified in believing that his money is going farther in tire value than it ever has gone or could go before.
Naturally he appreciates the quality of USCO. That was established long ago.
It is still fresh in his mind that USCO led the national market into the \$10.90 price range.

The makers of U. S. Tires always intended the 30 x 3 1/2 USCO to be the highest value in its field.
At \$10.90 it creates a new classification of money's worth.

FACT AND COMMENT

The combats of life are always struggles against yourself.

Believe in your star by all means: you will be the more likely to hitch your wagon to it.

The "Turkey in the Straw" is not such a grain robber after all. A count made last fall of the contents of a typical range turkey's crop showed 240 grass hoppers, 50 black crickets and 9 kernels of grain.

"Everyone has his superstitions," wrote General Grant in his Personal Memoirs. "One of mine has always been when I started to go anywhere, or to do anything, never to turn back or to stop until the thing intended was accomplished." We never heard of a "superstition" better worth cultivating.

In Sweden stumps in the forest seldom exceed three inches in height. Top logs, down to one or two inches in diameter at the top, are bunched and strapped with steel wire and floated to the nearest charcoal plant. The saw logs generally include everything that will measure seven inches in diameter at the top.

Between the top of Mount Everest is a vertical distance of approximately and the bottom of the Philippine Deep 11.6 miles. It seems great, but the smoothest-skinned Florida orange has much greater irregularities on its surface in proportion to its size than the earth has in its peaks and valleys.

Because the Falkland upland goose lives largely on grass, the sheep ranchers of the islands have placed a bounty on its head, and its only hope of surviving lies in the chance that some government or scientific body will maintain the little colony of birds that the British magistrate at South Georgia Island has established at his own expense.

"Never sprinkle the flower beds or garden plot," says a wise horticulturist, "unless you can make the water-

ing thorough enough to soak the ground to a depth of several inches." A light sprinkling is worse than none. It brings to the surface the little feeding roots, and after the sun has dried up the surface moisture the rootlets are worse off than before.

The new Bureau of Housing and Construction created by the Department of Commerce is helping to prepare a number of sets of so-called stock plans from which small houses, architecturally good, can be built without the aid of a supervising architect. The American Institute of Architects agree that for a house of six rooms or less building from stock plans is practical and economical.

Michigan has just imported from Lapland one hundred reindeer and turned them loose in the state game preserve on the Upper Peninsula. The state game commission believes that it is possible to repeat in Michigan the great success that the government has had in introducing reindeer into Alaska, where a small herd has grown in a few years to such great size that it is now an important source of meat supply.

Rats in the Montreal court house showed their contempt for the judge by eating his gown and silk hat when they were placed in the judge's chambers at night. Court stenographers had their notes eaten by rats during the night and civil suits involving valuable property were delayed through the disappearance of records. When "Exhibit A" in a murder trial was eaten, and the prisoner was liberated from lack of evidence, the authorities appointed an official rat catcher.

A bill to substitute an "aristocracy of brains for an aristocracy of birth" has been presented to the British House of Commons in an effort to reconstitute the House of Lords. The measure provides for a reduction in members of the upper house from 740

to 300, apart from princes of the blood. The measure also provides for the creation of peers for life with uninheritable title and privileges.

It is said the game of golf was invented by the Scotch shepherds, who, having nothing else to do, amused themselves by knocking stones about with their crooks. They measured off their holes in circles, because in that way they could keep watch over their herds. The holes were marked by a tag of wool attached to a stake.

Alexandre Dumas, Toussaint L'Ouverture, Rene Maran and many other writers and scholars of France are of Negro descent.

In the town of Marhorst, Germany, two large steel shell cases have been

found in the steeple of the church and a clapper suspended between them. When the clapper is shaken by means of ropes the shell cases respond, giving a clear, resonant tone of great carrying power. During the war the bells of many churches in Germany were melted.

Sounds from within hint that this is a good time to stand away from China's Open Door.—Brooklyn Eagle.

Rheumatism at 60

How glorious you will feel, mother, when your rheumatism is all gone. Let S. S. S. do it. It will build you up, too!

S. S. S. Thoroughly Rids the Body of Rheumatism Impurities.

Somebody's mother is suffering tonight! The scourge of rheumatism has wrecked her body; limping and suffering, bent forward, she sees but the common ground, but her aged heart still belongs to the stars! Does anybody care? S. S. S. is one of the greatest blood-purifiers known, and it helps build more blood cells. Its medicinal ingredients are purely vegetable. It never disarranges the stomach. It is, in fact, a splendid tonic, a blood maker, a blood enricher. It banishes rheumatism from joints, muscles and the entire body. It builds firm flesh. It is what somebody's mother needs tonight! Mother, if you can not go out to get a bottle of S. S. S. yourself, surely somebody in your family will. Somebody, get a bottle of S. S. S. now. Let somebody's mother begin to feel joyful again tonight. Maybe, maybe it's your mother! S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Elmo For Beauty

Mrs. Peek of Elmo Laboratories will be with us next week, June 5th to 8th, and will be ready to answer any questions you may wish to ask regarding the proper care of the Skin.

Are you using the correct preparation on your Skin?

Do you know the correct use of the different Creams?

Do you understand the only correct way to apply Rouges and Powders?

Mrs. Peek will be here to show and advise you. We hope you will find her a help.

MONEY 8% MONEY

I want all the good Farm and Ranch loans I can get at straight 8 per cent interest—the larger the better. I represent The AMERICAN NATIONAL INSURANCE COMPANY, of Galveston, Texas, one of the strongest old line Life Insurance Companies in the South. They lend their own money direct to the borrower, and have ample funds on hand now. They take only one Deed of Trust and you sign no interest or commission notes.

When in need of a loan, see me.
