

## \$2500.00 PURSES ARE UP FOR THE FOURTH OF JULY

### BATES PLACE LEASED FOR THE BIG CELEBRATION.

#### Coney Island of the Southwest is Getting Better Every Day—Greased Pig and Greased Pole Added.

Plans are rapidly developing for the big Fourth of July Celebration which will be staged at the Bates place just west of Canyon. This is one of the most popular places along the Palo Duro with plenty of shade, fishing and bathing. Camping will be granted commencing Saturday, July 1 and ending Wednesday, July 5.

At the meeting of the Palo Duro Post Monday night the plans were gone over carefully and everything is shaping up great for the big celebration.

The big time will start in the mornings with sports of various kinds. The greased pig and greased pole were among the various things will be put on during the morning hours.

Trap shooting will be another sport opened to all comers. Big purses are to be hung up for these events and several gun clubs will send men.

The big barbecue will be pulled off at noon each day. Dinner is being prepared for 12,000 people.

Purses being put up amount to \$2,500.00. The rodeo events are going to draw the best in the southwest. The contestants who were here in 1920 and last year were thoroughly satisfied and will be back this year stronger than ever before.

H. C. Gamble is receiving letters from all over the country asking about the shows and concessions. It is expected that the biggest line of attractions ever staged in this section will be opened for the entertainment of the big crowd.

The stunts that are put on during those two days are going to be worth coming miles to see. The Palo Duro Post has staged three different celebrations in Canyon, all of which were successful, and highly pleasing to the big crowds which came, but the one this year will be by far the biggest and best ever attempted by the Post. The boys have the assurance of the most hearty cooperation of Posts in other towns, who are going to send large delegations to Canyon for the two days.

### CANYON MUST BE CLEAN

Visitors to Canyon have made many very complimentary remarks regarding its lawns, the abundance of roses and other flowers, and the apparent increase in civic pride that has taken place within the past few months; never before were there so many people raising flowers and planting trees.

The Civic League officers say that there are many members of the League who are allowing the weeds to grow in the alleys and along the streets of their premises. Now is the time to cut the weeds, keep their seed from spreading, and keep Canyon from looking like a neglected, lazy, country town. Let everybody have a cleanup day and make his premises presentable.

### KEEP CANYON CLEAN.

### HILL TO BOARD MEETING.

President J. A. Hill leaves today for Austin where he will attend a meeting of the Board of Regents at which time the budgets of all the Normal Colleges will be gone over by the Board.

A. C. Goeth of Austin, who has been president of the board for a number of years, resigned at the last meeting, and Martin O. Flowers was elected to the presidency.

Governor Neff has not announced the appointment of a successor of Mr. Goeth.

### GOT COLD CHECK ARTIST.

A young chap breezed into Canyon last week with the student body and was taken for one of the new-comers for the summer quarter. He gave checks on an out-of-town bank and secured considerable merchandise. The checks were "cold," and the lad located at Hereford by W. A. Warren, and was returned here Sunday. The merchandise was returned unused, and the boy is now at work near the city.

### USERY BUILDING HOME.

Dan K. Usery has started work on a new residence just west of the Travis Shaw home. The house is 26x40 with six rooms.

### SELLARDS-POTTER WEDDING

Miss Dorothy Sellards and Earl Potter were married last Thursday at the home of the bride's parents at Scranton, Kansas. The bridal couple expect to arrive in Canyon this week to make their future home.

Scranton was the former home of the Potter family, and the young people have known each other since childhood.

Earl has been in Canyon for several years with his parents, and employed in the Canyon Light & Power Co., and interested in the firm of Arnold & Potter, Electricians. His bride is not known here, but will be most cordially received in Canyon by the large number of friends of her most highly esteemed husband.

### Visiting Teachers at the Normal During the Summer Session

There are a number of new faces in the faculty of the Normal during the summer.

Mrs. Henrietta Scott comes from Dallas as College Nurse, Mrs. Marrs having resigned at the close of the regular term. Mrs. Scott has been college nurse at T. W. C. at Ft. Worth and the past year was at S. M. U. She will be in the Normal next year as well as during the summer quarter.

John L. Nierman will teach chemistry during the summer, taking the place of J. W. Reid who is on leave of absence. Mr. Nierman has the following degrees: B. A., Curtsville State Teachers' College; M. A. University of Missouri.

Mr. Reid has resigned as head of the chemistry department, and will take other work in the college at the opening of the fall quarter.

Miss Otha Bowman, kindergarten instructor in Fort Worth, will take the place of Miss Mary S. Yocum for the summer. Miss Ruth Lowes of Panhandle has been selected to take this work next fall, since Miss Yocum has been given a year's leave of absence.

Miss Mary Morgan Brown is away for the summer. Miss Muriel Phillips and Miss Joye Mills have the work of the Public Speaking Department.

P. J. Rutledge, M. A. University of Texas, superintendent of schools at Pecos, is instructor in the department of education, taking the work of Miss Adalin White, who is away for the summer quarter. Miss White will spend some time in New Mexico and Colorado and then visit in South Carolina.

Bob Donald of the manual training department is away studying during the summer and his work is being taken by Elmer Shotwell of this city, who is teaching at Abilene.

M. E. Witt, B. S., Simmons College, and teacher of science in the Lubbock high school, is teaching in the science department during the summer.

Miss Anna McDonald, primary teacher in the Amarillo public schools is substituting for Miss Emma McClesky during the summer. Miss McClesky is studying in California.

Miss Leora McGee, teacher of English in the Amarillo high school, is instructor in the English department.

Mody C. Boatright is substituting for Miss Jennie C. Ritchie who have been granted a leave of absence during the summer.

Miss Sara Flynn of the Palmer School of Penmanship of New York, is teaching penmanship the first term. More than 300 are enrolled for this work.

These are additional chances in the faculty to those announced a few weeks before the opening of the summer quarter.

### Saturday is Last Day in Which Local Candidates May File Name

Saturday is the last day upon which precinct and county candidates may file their names in order to get a place on the primary ticket.

Judge A. N. Henson stated yesterday all but a few of the county candidates had filed their names for places. The county executive committee is to meet next Monday to arrange the names on the ticket and assess the candidates.

### WALLACE MOORE MARRIED

Many Canyon people will remember Wallace Moore who lived in this city about twelve years ago. He is now manager of the Callum & Boren Co. at Houston and was married three weeks ago to Miss Helen Minor of that city.

## AMARILLO TRADE TRIP WILL ARRIVE IN CANYON FRIDAY AT 7:05 AND STAY IN THE CITY FOR THIRTY MINUTES

Secretary W. A. Warren of the Randall County Commercial League received a telegram this morning from O. V. Vernon, secretary of the Board of City Development of Amarillo, stating that the trade boosters from Amarillo would stop in Canyon Friday evening at 7:05 o'clock, and would remain here for thirty minutes.

It was originally planned that the

special train make no more stops after passing Kress, leaving Tulla, Happy and Canyon off of the schedule.

The excursionists would be glad to meet as many Canyon people as possible while in the city.

Mr. Warren is getting all cars possible to meet the special train when it arrives and bring the visitors down to the public square.

## 1400 Students Are Enrolled in Normal for Summer Quarter

President J. A. Hill reported this morning that there were 1400 students attending the summer quarter of the West Texas State Normal College.

A number of students have enrolled during this week, and others are expected to come. The enrollment is now far above that of last year.

Of those enrolled about 400 are here preparing for the state examinations, while the remainder are taking the credit work.

There are still many rooms in the city available to care for those who will come late.

## Mrs. B. T. Johnson Re-Elected to the District Presidency

Mrs. B. T. Johnson of this city has been re-elected to the district presidency of the Amarillo District, Woman's Missionary Union of the Baptist church. Mrs. Johnson has closed her ninth year as president of the district and although she asked to be relieved of the work for the coming year, she was pressed again into service and unanimously elected.

Mrs. Johnson states that the meeting was one of the most enjoyable she has ever attended. There were state workers present, and large delegations from over the district. A large number of pastors were present.

A banner is offered in the district for the best report, which was won by the Tierra Blanca association, of which Canyon is a member. The requirements are "reported on time every time, all of the time."

Rev. B. F. Fronbarger was present and told of the work of the Baptist Encampment, which will be held on the newly acquired camp grounds southeast of Canyon in August. The Baptist church feels that this is the biggest and most important work that it will attempt this year.

### MISTRIAL IN FEDERAL COURT.

The case of Mary E. McNeil vs. the First National Bank of Canyon was tried in federal court in Amarillo Thursday and Friday, resulting in a mistrial, the jury standing six to six. The case was tried in this court owing to the fact that Mrs. McNeil moved to Arkansas about six months ago.

A large number of witnesses from Canyon were called for the trial.

### MISS MILLS IN RECITAL.

Miss Joye Mills of the public speaking department of the Normal gave a highly pleasing recital at the Normal auditorium Friday night, reading "Miss Hobbs" by Jerome K. Jerome. This is a comedy in four acts with ten characters, and Miss Mills presented it in a most pleasing manner.

Those who hear the recital will be interested to know that Miss Mills has been elected to the Canyon high school faculty for the coming year.

### GOLF MEETING TONIGHT.

A very important meeting of the Canyon Golf Club will be held tonight at eight o'clock at the office of C. N. Harrison.

### GAMBLE GETS 600 STEERS.

Joe Gamble is driving through 600 head of young steers to land northwest of the city. He bought them in New Mexico.

### LICENSES ISSUED.

O. W. Gano issued the following marriage license this week: A. G. Grisham and Miss Lillian A. Gunn, June 10. W. T. Terry and Miss Della Kuykendall, June 13.

## Burrow Buys Lumber Business at Happy of Roberts and Olver

C. R. Burrow of this city has bought the lumber business of Roberts & Olver at Happy. Invoice was taken Tuesday and the business turned over to the new owner.

Mr. Burrow stated yesterday that A. J. Newberry of Happy will be the manager of the business. Mr. Newberry was for a number of years in the lumber business in Happy, and later was manager of the Farmers' Exchange until Mr. Burrow bought the business.

Mr. Burrow has been in the lumber business in Canyon for more than twenty years. He became sole owner of the Canyon Lumber Company four years ago. He is an excellent business man and the patrons of his business in Happy will find him to be a very fine man to do business with.

Roberts & Olver are closing out their hardware business in Happy, and thus disposing of all interest in the town owing to the fact that they own a string of lumber and hardware businesses on the north plains and eastern New Mexico, and Happy did not fit in with their business arrangements.

## Churches of Canyon Entertained Student Body Last Evening

The churches of Canyon entertained the students of their denominations last night. Programs were given at all of the churches, and refreshments served.

All of the churches report a very large attendance from among the students who are attending the summer quarter of the Normal.

### WILSON CAMPBELL FOR SHERIFF AND TAX COLLECTOR

I wish to make my announcement for Sheriff and Tax Collector to the people of Randall County. I was raised in this county and never asked for an office before. I am a Democrat and believe in the Democratic principles and if elected will do all in my power to enforce all laws, especially the prohibition law.

I am not and never was a Klansman. If elected I will treat the people all alike and will try and have everybody my friend.

I have nothing against the present sheriff at all, but have been solicited so strong by many have decided to make the race.

I promise to make a good clean race, hoping to see all of the people in the county, but if I do not get to see each and every one as time is getting short do not think that I missed you on purpose, for I certainly will appreciate your support and influence.

### LEASES AMEND PLACE.

P. D. Casey closed a deal yesterday on the lease of the Amend place west of the Normal and will establish there the Normal Cafe, which he hopes to open today. He will continue to run the Crystal Cafe and his son will look after the Normal Cafe. Mr. Casey is an experienced Cafe manager, and has had great success with the Crystal Cafe since taking charge of the business.

### RECEIVING 1500 STEERS.

J. A. Oden is at his ranch at Glenrio this week receiving 1500 head of young steers which he will run on his ranch.

### ATTENDED FARM BUREAU.

A large number of farmers attended the Farm Bureau meeting in Umbarger Saturday afternoon.

### WOODFIN-PRICHARD WEDDING.

Miss Lois Woodfin and Hudson Prichard of Canyon were married Monday morning at 9:40 at the home of the Baptist pastor in Snyder. They were accompanied only by members of the family. The bridal couple came to Canyon and are spending this week visiting at various places in the Panhandle.

The bride has attended the Normal and was a successful teacher at Texico during the past two years. The groom has been manager of the telephone company here for several years and has a very large circle of friends who extend most cordial congratulations and best wishes.

## Big Chicken Flight Staged Monday for Monthly Trades Day

Owing to the good weather for farm work, the attendance at the regular monthly Trades Day Monday was not large. Very few farmers could afford to leave their work in the fields to come to town.

The chief excitement of the day was the chicken flight staged on the square by C. L. Condrey. About 25 chickens were turned loose and were eagerly chased by various classes of individuals as called out by Mr. Condrey. The person catching the chicken was allowed to keep the same and in addition received a prize from one of the business houses.

Plans are being made for a big Trades Day next month, which will be candidate day in Randall county. All candidates will be given a chance to talk before the voters.

### VACATION PARTY GIVEN

With the closing of school coming and of vacation days, there is not only a host of boys and girls arriving home but there are also many popular members of the younger society set who after attending school are bidding a reluctant farewell to their many friends until school takes up again in the fall. Among one of the pretty social comedies extended to departing friends was the lovely line party given on Friday night by Miss Ruth Knight in honor of Misses Rose and Ruth Stewart.

The girls assembled at the John Knight home and there went to the Olympic where an unusual interesting program was given, after which they repaired to the Knight home where a delicious ice course was served.

### EXECUTIVE COMMITTEE MEET

The Democratic Executive Committee of Randall County is hereby called to meet at the Court House in Canyon, Texas, on Monday the 18th of June, 1922 at 2 o'clock p. m., for the purpose of determining the order of the names to be placed on the primary election ballots for the election to be held on the 22nd day of July next; and to assess the various candidates for the expense of holding said primary election as well as a second primary election, as provided by the election laws.

Respectfully,  
A. N. HENSON, Chairman,  
Democratic Executive Committee  
Randall County, Texas.

### SOUTHWEST TRAIL MEETING

The following delegates have been appointed from Randall County by Judge Worth A. Jennings to attend the first annual convention of the Canadian-Clovis Division of the Southwest Trail, which will be held in Hereford on Thursday night and Friday morning, June 22-23: W. A. Warren, O. N. Gamble, C. H. Jarrett, J. M. Redfearn, C. W. Warwick, D. A. Shirley, N. E. McIntire, and W. W. Kuehn.

## Much Replanting of Crops Necessary on Account Heavy Rains

The heavy rains of last week certainly worked a hardship upon the farmers of this section.

The row crops were just coming up in good shape, and the heavy rains and hail beat the young plants into the ground and covered them up. As a result a big majority of the row crop had to be replanted.

The ground has been in fine shape this week for planting, and farmers are busy from early morning until as late as they can see in the fields.

It is hard to estimate the loss that resulted from the hail storms of last week, as practically all of the grain in the path of the storms was ruined.

## THREE MORE OF PUBLIC SCHOOL FACULTY ELECTED

### HIGH SCHOOL ARRANGEMENT FOR COMING YEAR.

#### 6-3-2 Plan Will be Adopted, With Departmental Work for 7th, 8th, 9th, 10th 11th Grades.

The board of trustees of the Canyon Independent School District has employed three more of next year's faculty. There remains but one vacancy in the schools for the coming year—that of primary teacher. This position will likely be filled at the next meeting of the board.

Miss Addie Coffman has been elected as teacher in the grades. This gives the grades one more teacher than has been the custom, as all of the grades are too large for one teacher to handle. A temporary building is being planned by the trustees, and one or more grades will be accommodated in this building.

Superintendent A. D. Parne has so far made no assignment of the grade teachers. Plans are not yet completed to determine how the congestion will be overcome and the extra teacher employed.

Miss Joye Mills has been elected teacher of expression in the public schools. Miss Mills received a degree from the Normal last week, taking her major in the Public Speaking department. She is teaching in this department during the summer quarter. Last Friday night she appeared in recital at the Normal auditorium.

Miss Lucille Gill was elected Monday night teacher of English in the high school. Miss Gill is a graduate of the West Texas State Normal College and will receive the Masters Degree from the University of Texas at the close of the summer quarter. She lacks but two credits in the university and is allowed to do the work in the Normal during the summer.

The trustees have adopted the 6-3-2 plan to be worked out in the high school for the coming year—placing the 7th grade in with the four high school grades for departmental work. Under the technical names the first six rooms are called the grades, the 7th, 8th and 9th are called the junior high school, and the two upper high school grades are named the senior high school. This arrangement gives each teacher a full line of work in his own particular field. The 7th grade has been taught on the second floor of the school building for years past, and therefore all departmental work of the high school will be on that floor under the new plan. The teachers selected for the coming year most heartily approve this plan since it gives them all work upon which they have been specializing.

H. T. Whiddon was elected janitor at the meeting of the trustees Monday night.

### ANNUAL OFF PRESS.

Le Mirage, the annual publication of the Normal, has just been received and is being distributed by Thos. B. Carter. The annual this year is probably by far the most artistic and pleasing that the Normal has ever produced. The book met with complete satisfaction among the student body.

### DR. PATTON HERE YESTERDAY

Dr. R. L. Patton, poultry specialist from College Station, was here yesterday and was consulted by about twenty poultry raisers regarding their problems.

Dr. Patton was highly impressed with Randall county and the future there is here for the poultry business.

### WILL BUILD ANOTHER HOME.

E. H. Flynn will build another house just east of the one he is building in the southeast part of town.

Mr. Flynn bought the old wagon yard building which was occupied by S. A. Shotwell for several years, and has turned it down to use the material in the construction of the two houses.

### FOSTER BARN BURNED.

The large barn on the W. H. Foster farm southeast of Canyon was burned Friday night. The cause of the fire is unknown. There was a lot of feed and machinery in the barn.

### SHARP BUILT HOUSE.

Noah Sharp has completed a small house on his lot south of the Travis Shaw home.

We are unable to spare up much enthusiasm for the plea of the politicians that our common schools are in a deplorable condition on account of the veto of the appropriation bill by Governor Neff. It is true that Neff did veto a large appropriation for the common schools, but we note that the cry against Neff on account of this veto comes only from those territories which have not taken advantage of the provisions of the law allowing school districts to increase their school rate to \$1.00 on the \$100 valuations. Practically all West Texas school districts increased their tax rates to either 75c or \$1.00 on the \$100 valuations, and were able to run their schools for the full nine months the past year. East Texas counties have not increased their rates, but in some instances decreased local rates, and asked for larger amounts of state aid. These are the fellows who are howling for more state money. They are the fellows who are throwing brick bats at the head of the Governor for his alleged enmity toward the common schools. If we had our way about things, there would be no state aid or state school apportionment, and each district would be required to support its own schools.

It is very clear that Clarence Ousley is making great gains in his race for the United States Senate. Mr. Ousley has stated his case plainly, clearly and convincingly. He has not wobbled from the time the campaign started, nor has he had to explain away or change his attitude upon any of the questions that are paramount in this campaign. His steadfastness, and his clear path during his strenuous campaign is being felt in the state. Ousley is the biggest man in the race. He is growing as the campaign progresses. He is meeting the issues that are confronting the people of this state. He has made some of the distinguished gentlemen who are in the race do some explaining which has been very destructive to their own candidacy. Clarence Ousley should be elected United States Senator from Texas. He is the best fitted man to put over the kind of job which the people of Texas expect from their senator.

The elections of Indiana, Pennsylvania and Iowa were clearly a disappointment to the old guard at Washington which put Harding in office, but they should not be assumed by any means to be assurance of a democratic victory in the November congressional elections. Pennsylvania is safely republican under all conditions; Indiana seldom strays from the republican fold; a democratic victory in Iowa is about a rare thing as a republican victory in Texas. The issues upon which Beveridge, Pinchot and Smith Brookhart won were more local than national in importance. The progressives won. The progressives may be counted as an unknown quantity whenever their man is not elected, but the old guard is always safely for the party nominee. Local issues, not national, nominated Brookhart, and will elect him this fall.

The name of Jim Ferguson is to go on the democratic ticket as a candidate for the office of United States senator in spite of the fact that Jim sand-bagged the party two years ago, and as a matter of fact has never been much of a democrat. Oh well, no harm has been done. Jim is as safe on the ticket as he is off the ticket. The state committee deprived him of his campaign thunder by refusing to submit to the people of Texas on the primary ballots the proposition of light wines and beer.

The weeds are growing very rapidly since the heavy rains. It is necessary that a weed cutting campaign be inaugurated by every lot owner in Canyon. Cut the weeds now!

Viscountess Astor visited her old home in Virginia and spent considerable time in feeling the pulse of America. She is convinced that America wants a League of Peace rather than a League of Nations. Her deductions seem to have about solved the question. America has ruled against the League of Nations for the present—and it is a buried hope. A League of Peace is impossible so long as the Europeans maintain their petty strife and race hatred. A League of Peace may come sometime soon—when the nations of Europe are ready to bury their hatchets some place aside from their neighbor's heads.

Fort Worth started the movement for a railroad to the Plains. The matter was brought to the Santa Fe by Fort Worth boosters, but it was definitely announced that the Santa Fe contemplated no line to this section. Now comes Dallas with the announcement that the Santa Fe will build from Dallas to the Plains. It has always been our guess that the Santa Fe would be the road to build a direct line to the Plains, connecting up with some of its present property. But it is likely that the Santa Fe will not get ready to start something until it looks like some other road is going to come.

The international bankers have refused to make a loan to Germany so long as France insists upon her own interpretation of the war damage bill. The bankers do not feel like being the goat of the occasion. If France is going to grab all of the money loaned by the bankers to Germany, the Germans would be no better off to meet the further damages of the war, or to repay the bankers' loan. France is standing out alone in her contentions. England is almost threatening to withdraw from continental affairs. France may find herself holding the bag with the rest of the world looking on.

The American Federation of Labor is in session, and Sam Gompers is facing the fight of his life. He has faced several rather lively scraps during his long tenure of office and always managed to come out on top. Things have not gone well during the past year with unionized labor. The open shop is gaining consistently. Sam is going to have a fight defending his record.

Trades Day in July will be candidate day. County candidates, district candidates, and state candidates will be given an opportunity to speak to the voters of Randall County.

The biggest things ever pulled off in West Texas the going to be staged in Canyon July 3 and 4. Come to Canyon those days and enjoy a big time with the American Legion.

A distinguished American who has just returned from Brazil says of the country: "It is another United States in the making." Brazil is larger than the United States by an area as large as the state of Texas; its natural resources, though different, are as great as those of the United States, and its industry and population grow almost as fast. Except that it has all the modern methods of doing things, it stands in the march of development virtually where the United States stood in 1870. This year it is celebrating the one hundredth anniversary of its independence.

Pullmans for women are being run on the Chicago and Alton and the Wash. railroads out of Chicago and on the main branches. This is an innovation and is meeting with the approval of many.

**BE COMFORTABLE**

Edison, the inventor, says the chief reason he can work 18 hours a day without getting "run-down" is because he keeps his body healthy by never wearing tight-fitting clothes.

Edison wears baggy suits and loose collars. He never wears tight shoes, a belt or anything that would interfere with the circulation of the blood through his arteries.

In other words, he doesn't wear cross grain on nature. Maybe nature intended the human animal to wear clothes, maybe not. Anyway, she certainly never intended us to wear garments that fit like the casing of a sausage.

In wintertime on streets of cities that have snow and zero weather, you see flappers wearing silk stockings and shirtwaists with V-necks, cut so low they expose the throat to the cold weather and icy wind.

A man with a high starched collar and muffler around his neck marvels that the flimsily-dressed flapper fail to die of pneumonia.

The reason is simple: The flapper dresses loosely, allowing her blood to circulate freely enough to keep her warm.

Her grandmother, in girlhood had to bundle up like an arctic explorer to keep from catching cold, largely because she cramped her blood circulation and other bodily functions by lacing herself into a wash waist corset.

Men, too, are slowly getting wiser—discarding tight starched "choke" collars, painful shoes and plug hats that fit the head like iron hoops.

Hygienists believe American women will be health-wise enough to keep their present comfortable way of dressing. Also, they are campaigning to drive some of the same common sense into men.

Men, say the hygienists, should copy the women and adopt clothing that ventilates the body. This is especially advisable in summertime, to permit quick evaporation of poisonous perspiration.

The average person is haunted by a fear of "taking cold."

How about the dangers of taking "heat?" You have noticed, in the movies that the savage dress loosely, so the air gets easily to all parts of their skin. That probably is the chief reason they are as hard as nails and as healthy as young wildcats.—Wichita Times.

According to the Evening Sun, two burglars were surprised by policemen while at work. They must have been.—New York Tribune.

Wichita Falls Record: Senator Thomas E. Watson of Georgia is on the road every day. Last week he wanted to whip Senator Phipps of Colorado. This week he threatened to whip Senator Lenroot of Wisconsin. Senator Watson had a chance to fight during war time but he denounced the draft, denounced the president, denounced the war congress, denounced the attorney general of the United States and denounced everybody who did not agree with him. Eugene V. Debs was sent to the federal penitentiary in the city of Atlanta; Thomas E. Watson should have been sent to the federal penitentiary. Georgia democrats sent Watson to the American senate. President Harding pardoned Debs. Watson as a senator gave the President a reasonable excuse for his act. Men who are opposed to their government in time of war are traitors to their country. They deserve a firing squad or a padded cell in a steel cage. Debs got his; Watson didn't.

Everyone of the nearly 4,000 employees in the 312 department stores of the J. C. Penney Company shares in one way or another, in the earnings of the organization.

That is interesting.

It insures a service to the public which makes buying from this store and every store in the chain, both enjoyable and profitable.

Each employee is concerned that every customer shall be served well and helpfully.

Supported by the unusual advantages which come to this Nation-wide institution through its extensive buying power, not only a personal service but a shopping service is afforded that is truly helpful.

**THE BLESSINGS OF AGE**

Everyone who has passed middle life knows well enough what are the evils of age; there is no need to dwell on them. But there are some compensations that may as well be emphasized.

As we get older most of us shake off a certain amount of responsibility; and responsibility, although it often brings much happiness, is the greatest of burdens. If we are fortunate, we get rid of responsibility even in our own private surroundings, shift the load to younger backs, which at any rate think themselves more fitted to bear it. Whether we are lucky in that respect or not, we can trouble ourselves less with the care and settlement of the world at large. The young seem to feel bound to solve all the problems of existence. Great questions of government, great questions of society, great questions of morals have to be decided, and young brains are apparently there to decide them; a terrible responsibility, though it must be admitted that the young often appear to accept the burden with exhilaration rather than with terror. Age evades those things, looks on with some doubt and some amusements while sweet and twenty ladens its sagging shoulders with the weary weight of all the thousand complexities of life.

For another blessing of age is humility. When we are young we think we know something. When we grow old we know we know nothing, and that is all we know. And the recognition of ignorance carries with it a large and singular contentment. Youth thinks that it knows something and is restlessly eager to know more. Age accepts serenely the vast puzzle of life, letting it solve itself as it will with the hasty progress of the years.

And with humility goes tolerance, the ample admission that others have the right to live as they please and even to think as they please, a liberty that youth is so unwilling to accord them. Nothing in age is loyeller than that sweet serenity which adapts itself to the vagaries of all sorts of different souls, with the free acknowledgment that God made them and knows what is best for them.

It is true that there is an old age that has none of those things, that is sour and hard and bitter with a rigidity unknown to the supple grace of youth. But the wise appreciate the privilege of years and profit by it even while they mourn some blessed limitations that can never come back.

The stroke of the second crew at a Massachusetts academy, which is noted for its rowing, is a boy who has been totally blind for several years. Judging from reports his physical handicap is not so much his lack of sight as his lack of weight and muscular development. His sense of rhythm is acute.

**MANVILLE BROS. PLAY TO STANDING ROOM AT QUANAH**

Packed to the doors was the verdict of all who came to the opening play "Mickey." The play throughout was one of the best ever produced in this city by a tent show. The company has played here before and the skill of the actors was a foregone conclusion as each seemed fitted for his or her part. Now the big surprise of the play was Miss Ida McColum in the leading role of "Mickey," as she is particularly fitted for the part the moment "Mickey" is received into the author's home (business seems to pick up). "Mickey" is accused of a theft she did not commit, and the evidence rests first on one member of the home, and then on the next. Not until the exciting climax in the fourth act is the crux of the whole plot revealed. The whole play throughout is clean, moral and uplifting with unusual comedy situations of heart interest, interspersed with a mystery, the solution of which will tax the ingenuity of the keenest minds.

Between the acts Big Time Vaudeville was introduced and was encored time and again by the large audience.

Manville's Radio-Orchestra stormed the lovers of music with many happy jazz and classical selections.

"Zella" the only and original girl with a million eyes is truly a wonder in her entertainment of science, mirth and mystery of answering questions. Her work is truly wonderful and has created considerable interest among the hundreds who asked her questions last night. In addition to answering the questions she proved her occult power in more ways than one, and we can only say if you have never seen this show with all the big features you can't afford to miss it. See! Ladies Free Ticket in another column of this Paper for Monday night.

**TO TEACH IN HOUSTON**

Miss Alma Guenther of Canyon, who is now a Junior in West Texas State Normal College, has been elected to teach in the Houston Public Schools, according to announcements made recently.

Miss Guenther has been a resident of Canyon for a number of years and has made many friends both in the city and college. Her father, Prof. F. P. Guenther, is head of the French Department in West Texas State Normal College.

**THE CHRISTIAN CHURCH**

Bible School will meet next Sunday morning at 10 o'clock. At 11 a. m., the minister, Mr. Osborne will preach on "The Peacemaker." At 8 o'clock p. m. he will conclude the series of sermons on the Parable of the Sower. This subject of the sermon being "The Richly Productive Soil." There will be special singing at both services.

**PIANIST HIGHLY PLEASED.**

The recital of Miss Birdie Blye at the Normal Saturday night was one of the most artistic musical recitals that has ever been given in the school. Miss Blye has become nationally famed during the past few years, and her recital was an exceptional treat to the music loving people of Canyon.

**EPISCOPAL SERVICES.**

Rev. Milton J. Swift, who was pastor of the local Episcopal church during last summer, has returned to Canyon for the summer and will hold services each Sunday.

There will be Vesper Services next Sunday evening at eight o'clock.

**FOUND STOLEN AUTO.**

Sheriff W. C. Black located a Buick stolen in Plainview Saturday and Sunday afternoon arrested a young chap who was trying to get out of town on the train. The car and man were taken back to Plainview Sunday afternoon.

**RELIGIOUS TRAINING OFFERED BY NORMAL**

A school of religious training will be conducted at Canyon, June 25 to July 1, for the benefit of all who desire additional preparation for leadership in some form of religious activity. Courses will be offered in methods of Sunday School and young people's work, in devotional Bible study, mission study and stewardship. Addresses will be delivered by a number of prominent speakers.

This school will be under the direction of the student department of the Baptist executive board of Dallas, and has been arranged with the desire to render the largest possible service to those attending the summer session. The hours of meeting will be such as not to conflict with the regular schedule of the college.

The speakers for the school have just been announced by President J. A. Hill, and are as follows: Dr. S. P. Brooks, president Baylor University; Dr. Melver Woody, dean of Baylor School of Medicine; W. H. Wolf of Dallas; Dr. J. C. Hardy, president of Baylor College, Denton; Dr. Joseph P. Boone, general secretary of Baptist state workers.

Mr. Hill states that a number of other able speakers will be added to this list, but that the names are not yet ready for publication.

**DEEDS FILED LAST WEEK IN COUNTY**

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office:

A. V. Upfold to Q. C. Redfeard, lots 1, 2, 3, block 14, Normal addition to Canyon. Consideration \$150.

H. D. Helton to J. T. Burnett, lots 7, 8, 9, block 13, Canyon City. Consideration \$2100.

L. A. Cooper to W. E. Johnson, lot 13, block 20 Normal addition to Canyon. Consideration \$1100.

**CHRISTIAN ENDEAVOR**

The Union Christian Endeavor Society will hold its service at the Christian Church at 7 p. m. Sunday night. Miss Mattie Swayne will lead. The students of the Summer Normal School are cordially invited to attend.

**OIL ENGINE RECEIVED.**

The new oil burning engine recently bought by the Canyon Light & Power Co. has been received and is being installed this week. It will be in operation to take care of the day load within a short while.

Lignum-vitae is the hardest wood known. It is the only wood that can be used for bearings at the stern end of the propeller shafts of steamers and nearly every large steamship is dependent upon a block of lignum-vitae for a smooth running screw. The fibers of this wood weave back and forth, crossing and recrossing each other in a manner that resembles the weave of an automobile tire.

**MANY EX-STUDENTS ATTEND COMMENCEMENT EXERCISES**

The following is a list of a few of the ex-students who attended commencement exercises last week:

Frank Farmer, Clyde and Lucy Goodwine, Emma Gaston, Floyd Goldca and wife (nee Elsie Pool), Earl Fletcher, Charles R. Wilson, Gary and Saxche Simms, Mrs. Mary Meiniche, Luella Oatis, Paul Calliham and wife, Agnes Goode, Mitchell Jones, Ada Clark, Luella Tate, Henry L. Reynolds, Elmer Shotwell, Madge and Stella Rusk, Florence Smith, William Younger, Golda Barnett, Clarence Lutes, Lester Strickle, Lizzie Kate Smith, Marie Fronabarger, Mr. and Mrs. John Younger, and Mrs. Sula Cook Henderson.

In a new fuel the combustible part of coal is conserved and the ash is eliminated. It is believed that this new fuel will find a market for the poorer grades of coal and present new opportunities to railroads and steamships which are dependent upon high-priced fuels. The new fuel may be stored dry or in plastic or semi-liquid form and may be handled by conveyor or pump or fired by any automatic or mechanical device for firing coal. Tests prove it has 42 per cent steaming advantage over the best steaming coal available at this time.

**ADVERTISING IS A PUBLIC BENEFIT**

Government figures prove beyond dispute that business revival is marked—but by business revival is meant manufacturing and production. Retail trade has not yet caught up. Close analysis of this situation discloses that the retailers have lagged because they have failed to put into the minds of the people a feeling of confidence that prices have reached the bottom and that better times are at hand. It is amazing how few retail merchants in the smaller towns realize the value of educational advertising. They are so close to the picture they fail to see the perspective. They look for the immediate dollar and in grasping at the shadow they miss the substance. The value of advertising is cumulative. Indeed, that is its greatest worth. Eastman has actually advertised the word camera out of the dictionary and advertised the trademarked name Kodak into the dictionary.

The day of misleading advertising has passed. The public has come to see advertising in the light of news, and it is news. The merchant who advertises tells his story frankly to the public, knowing he will be checked up and courted investigation of his statements and prices. The advertising of today is not the subject of suspicion. It is the merchant who is afraid to tell his story over his signature that the public regards with doubt, and properly so.

The boom in retail trade awaits only a little thought on the part of the merchant, plus the fundamental knowledge that advertising is an investment and not an expense and a duty owed to the public whose support is sought. The whole business structure of the nation depends on advertising. Increased business means greater production, lower first cost, a larger turnover, increased buying and consequently provides a saving to the buying public. The public should support merchants who advertise because they are the constructive force that helps to keep costs down.

**POINTED PARAGRAPHS**

A friend in need is apt to keep you broke.

The bad man is usually the good one who was found out.

A lot of chaps who run for office may do it just for the exercise.

Perhaps one reason some autos are slow is because they are tired.

The fellow who is "led into temptation" seldom pulls back on the halter.

A lot of lads don't have to have very good eye sight in order to see their finish.

About the time a fellow thinks he's a "big gun" someone comes along and fires him.

An optimist is a fellow who loans a guy \$10 when said guy already owes him \$20.

Looks as if a lot of the girls were actively participating in the "paint up" campaign.

Maybe the reason the ocean is so blue is because it has so many things thrown up to it.

When a man is cheap, he won't buy a pair of glasses he makes a spectacle of himself.

The fellow who watches the clock can hardly expect to be anything but one of the hands.

After traveling across the continent, you wonder how Columbus could avoid discovering America.

A fellow's best girl may not care much about the future, but it seems as if she is always ready for the present.

School children at a little village near Bucharest made up a purse to "aid the children of families made destitute through the destruction of the Knickerbocker Theatre in Washington, D. C." The children believed the disaster was one affecting the entire American people and as Rumanian children have received aid from America they chose this method of showing their appreciation.

If you have reason to think your child is suffering from worms, take the safe course—use White's Cream Vermifuge. Worms can not resist its expelling influence. Price, 25c. Sold by Jarrett Drug Co. 915

**THE COW, THE SOW AND THE HEN!**

By Dr. A. H. Upham, President of Radio University.

The farmer smiled as he passed them by.

The cow and the sow and the hen: For the price of wheat had gone to

For the price of wheat had gone sky high.

And the cow and the sow and the hen

Ate up all the grain he could sell at the mill:

They needed his care when nights were chill.

He swore to them all he'd had his fill

The cow and the sow and the hen.

These barnyard critters had had their day.

The cow and the sow and the hen.

He could get thirty bones for a ton of hay—

No need for the cow or the hen.

He never would milk another cow.

He hated the sight of a grunting sow.

And raising chickens was work for the frau.

Goodbye to the cow and hen.

They gave no heed to his jeer or frown.

The cow and the sow and the hen.

Whatever goes up, they said, comes down.

The wise old cow and hen.

The hen laid eggs the winter through.

The cows gave milk, and the piggies grew:

But hay dropped down from thirty to two—

Oh, the cow, the sow and the hen.

Now he sits and sighs, as he counts his cost

For the cow and the sow and the hen.

He almost cries for the milk he's lost.

Oh, the cow, the sow and the hen:

He'd tend them gladly in mud and rain.

And lessen his acres of hay and grain.

If he only could buy them back again.

The cow and the sow and the hen.

An unbroken arrowhead was found imbedded three-quarters of an inch in the dorsal vertebra of an Indian skeleton found near Dublin, Ohio, recently. This is proof that Indian arrows were fatal and caused more than flesh wounds. Another example found in this region showed that an arrowhead had penetrated an Indian's brain one-half inch.

**FACT AND COMMENT**

In Paris when a street car is full, the driver hangs out a sign saying "Complet," and the car does not stop for passengers. A time-honored joke on the green tourist is to tell him of the wonders of "Complet" and direct him to where he can get a car for the place. Of course, the tourist waits an exasperating time for a "Complet" car to take him aboard. Then doubtless he sees the joke, and would like to find the joker.

What is one man's holiday is another man's penance. A man who likes the sort of entertainment offered at summer resorts might not get much enjoyment from "roughing it" in the backwoods. For a little while every year it is well for each member of the family to "have his rather." If husband and wife do not want the same sort of holiday, there is no reason why they should take their holiday at the same time and together.

The Japanese problem in California has a counterpart in Japan itself, where a great many Chinese coolies, imported during boom times, are carrying on a spirited competition with Japanese workmen. Since the Chinese are willing to live on a scale lower than the Japanese laborers, they are displacing the Japanese, and the Japanese are naturally indignant. The government is at a loss how to handle the situation to advantage. In deporting the Chinese might have embarrassing consequences if the Japanese should wish to make any more complaints to America.

The Matron of a hospital reports that discipline is difficult to enforce in such institutions, for the nurses, especially the younger ones, often refuse to be corrected, take offense at trifles and leave if those in authority resent their irritation. The best sort of girl, the matron finds, is the one who has been trained to play games, has had some kind of drilling and knows what team play means.

Ninety per cent of 733 farmers, who replied to a questionnaire in the eastern states, consider time saved to be the greatest advantage received from the use of motor trucks. Nearly one-fourth of these farmers are now selling at better markets than before they had motor trucks.

Premier Lloyd George during his last visit to Cricieth, Wales, gave a tea party to 19 ancients who were his father's pupils at Troedyrall school more than 60 years ago. The senior "old boy" was 91 years old and still works as a carpenter. Another guest, now blind, used to carry love messages between the premier's father and mother.

**\$365 IN PRIZES FOR BEST RHYMES**

A new contest is just being started which will interest everyone who reads this paper. Anyone can enter this Contest—anyone can win! All it is necessary to do is to write a 4-line rhyme on Dr. Price's Phosphate Baking Powder, using only the words which appear on the label of the Dr. Price can (front and back). Isn't that easy? Everyone likes to make rhymes and here is a chance to spend a fascinating hour or two writing rhymes on this popular Baking Powder and perhaps winning a substantial prize for your efforts.

**27 CASH PRIZES**  
For the rhyme selected as best a prize of \$100 will be given; for the second, third and fourth best rhymes prizes of \$75, \$50, and \$25, respectively will be given. And besides these prizes there will be 23 prizes of \$5 each for the next 23 best rhymes. With such a long list of prizes as these, it would be a pity not to try your hand. Here's a 4-line rhyme as example:

*Biscuits, muffins, pie or cake,  
With Dr. Price's Powder bake,  
The Price's Co., guarantee  
No alum in the cans to be.*

As Dr. Price's Phosphate Baking Powder sells for only 25 cents a 12 oz. can, some rhymes could play up the great economy of this pure and wholesome baking powder.

All rhymes must be received by July 1, 1922. Only words appearing on the label of the Dr. Price can (front and back) may be used. These words may be used as often as desired, but no other words will be allowed. If you haven't a can of Dr. Price's, you can see one free at almost any grocer's. It is not a requirement that you purchase a can in order to be eligible in this Contest.

Anyone may enter the Contest, but only one rhyme from each person will be considered. In case of ties, the full amount of the prize will be given to each tying contestant. Write plainly on only one side of a sheet of paper and be sure to give your name and address. Send your rhyme before July 1st to Price Baking Powder Factory, 1005 Independence Blvd., Chicago, Ill.

(Too late for last week).  
 A very disastrous hail storm swept our community late last Thursday evening, June 1. All vegetation without protection was cut down to the ground. Stock were bruised. Some young calves and pigs were lost and numbers of jack rabbits and birds were found. Hail fell for about 20 minutes thick and fast. It piled up as high as two and three feet in places and the ground was white. However, the larger part was small stones. Some crops such as corn, late oats and some garden stuff are taking a new start to grow. There was a big rain fell with the hail.  
 Charles Burgess and wife conducted a song service at the church Sunday afternoon. Their singing was much enjoyed by all present.  
 Mrs. Zoo Diving and little son Earl left Monday for Wichita Falls to visit with her parents.  
 Miss Lorine McGehee, who has been attending C. I. A. at Denton, returned home last Sunday.  
 A crowd surprised J. C. Payne Sunday by taking dinner with him.  
 The stork made a pleasant call at the home of Mr. and Mrs. J. S. Studer last Monday night, June 6, and left a big fine boy whom they call Samuel Wayne.

**MODERN PYRAMIDS**  
It is difficult to find a subject much less alluring than cold statistics about safe deposit vaults. Apparently realizing this, says the Nation's Business, a Chicago bank has just issued a piece of unique publicity, in which a fancy fringe embroiders the dry facts. The idea is worth passing along to every business man who is interested in new means of lightening and decorating prosaic material.  
The fringe consists of an original fable which sets forth that the pyramids were the first safe deposit vaults, being intended for the safe keeping of the monarch's mummy; but that in time a prying person "with a mental twist—known as an archeologist" dug up the mummy. It continues:

If Rameses Lived in these days, He'd find that new And modern ways Are better far Than anything Devised by old Egyptian Kings. Of thieves and thugs Himself he'd rid, And never build A pyramid. He'd rent a drawer, Without a fault, In a modern safe Deposit vault.

Chicago is planning to establish a night marriage license bureau. Many persons actually cannot spare the time to obtain a license during the working hours and hesitate about taking associates into their confidence when asking for time off.  
There was an actual decrease of 2,817 in the number of tenements and apartments in New York City between 1919 and 1921, although the population of the city increased by 230,000 during that period.  
The late King Charles paid 31 per cent interest for a loan of 75 days' duration, on the crown jewels of Austria-Hungary, according to allegations made in a suit by a Paris jeweler.

**NEW STATIONERY—Something just out!** Hammermill Stationery in boxes of 250 sheets of paper and 250 envelopes. This may look like a lot of stationery to buy at one time, but when you consider the difference in cost between this special box of Hammermill and buying the same quantity of stationery in smaller boxes, you see that you will save from \$2.00 to \$3.00 on your stationery bill. For Sale exclusively at the News office.

**Music in the Air!**

Radio activity, they tell us, has added to the air thousands of new sound waves.

There's one new note, however, which you may already have detected without the aid of an instrument. It's the NEW-OP-TIMISM that came a few months ago when business took on a more steady, even tone.

Haven't you noticed it? Let's work now to keep business sound and rational.
