

CHANGES MADE BY HILL IN TEACHING FORCE, THIS FALL

LEAVES OF ABSENCE GRANTED TO FACULTY MEMBERS.

Presidents of Teachers Colleges Meet in Ft. Worth and Make General Rules of the Colleges.

President J. A. Hill returned Friday from Ft. Worth where he attended the meeting of the Presidents of Teachers Colleges Thursday at which time general rules of the colleges and salaries were discussed by the Presidents. In the future fees will be collected by the quarter, instead of by the long term and the summer quarter. The fee will be \$12.00 per quarter, which includes blanket tax, infirmary and matriculation fee.

Mr. Hill states that he would soon make announcement of other changes in regulations as adopted.

Miss Adalin White has been granted leave of absence to study and her work in the Education department will be taken by Prof. O. R. Willett. Mr. Willett took the A. B. degree from the university of Kentucky, A. M. from Chicago, and is working on his Ph. D. at California. He was a successful high school superintendent for four years in Kentucky, taught for two years in the college at Marshall, Texas, and one year at Ouachita College, Arkansas. He is now in Chicago. Mr. Willett is a member of the Baptist church.

J. L. Duffot has been granted a year's leave of absence to study at Chicago university. His work will be taken by Rev. Gordon Lang. Mr. Lang is well known in Canyon, as this was the home of the family for two years while Mrs. Lang taught in the English department of the college. Mr. Lang is a Presbyterian minister, but has been in the chautauqua and lyceum work for the past few years.

Miss Pauline Brigham has been granted a year's leave of absence and will study at Los Angeles under Dean Grabill. Her work will be taken by Miss Hazel Allen, who is now studying under Mr. Grabill.

Miss Margaret Guenther has been given a year's leave of absence and will teach in the music department of Sul Ross College at Alpine. Miss Ada Clark will take the work Miss Guenther has been teaching. Miss Ada has been a student in the college for the past two years, and takes her degree at the close of the summer quarter.

President Hill states that other teachers have been granted leaves of absence for the coming year, but these will not be announced until their work is cared for during the coming year.

Miss Mary J. White of Alto, Texas, teacher in the Dallas high schools, is here to teach in the English department for the second quarter, taking the place of Miss Eloise Durham, Miss White is a graduate of the university of Texas.

BLOCK HOUSE SOLD.

The block house on West Evelyn street has sold twice in the past week. Clyde Whitacre traded it to I. Z. Smith for land near Tulia, and Mr. Smith then traded it to Mr. Knopp of Plainview.

Mrs. Knopp is matron of a girls dormitory at Wayland College, and will take charge of the block house.

MOVED FROM MISSOURI.

R. H. Long moved to Pierce City, Mo., last year, but has decided that Randall county is the best place after all and has returned to Canyon to make his home.

Canyon vs. the Mail Order Houses

The local printing house offers you the same value and quality with better service than the out-of-town printer.

Why criticize the farmer for patronizing the mail order houses, when keen business men will let salesmen from the cities sell you your printed matter?

Randall County News

SANTA FE OFFICIALS RECOMMEND NEW DEPOT FOR CANYON DURING YEAR '24

F. J. MacKie and W. E. Goodloe of the Santa Fe general offices at Amarillo were in the city Tuesday and stated that the Amarillo office had requested a new depot for Canyon during the coming year.

The budget for the Santa Fe's expenditures is being made up in the Chicago office, and will be passed upon by the directors of the road.

These gentlemen have made several trips to Canyon and are interested in seeing an adequate depot built here.

Awards Made Eight in Missing Word Contest Published in the News

The Missing Word Contest published in the News for ten weeks closed last week and awards were made yesterday after carefully checking the reports made by the contestants.

A large number entered the contest but did not stay long enough to get into the winning money. The judges turned in a report based upon percentages of correctness in the answers returned. It was found that Mrs. Ella Roffey and J. D. Prichard each had 85 percent and tied for first place. Since \$10.00 was offered for first place and \$5.00 for second place, awards were made of \$7.50 each to Mrs. Roffey and J. D.

The following were percentages of other winners and the money won by each:

- Miss Bettie Rose Kerr, 75 percent, \$2.20.
 - Miss Josephine Duffot, 75 percent, \$2.20.
 - Lewis Shirley, 70 percent, \$2.00.
 - W. R. Murchison, 60 percent, \$1.40.
 - Miss Ella Slack, 40 percent, \$1.20.
 - Mrs. John Knight, 30 percent, \$1.00.
- Checks for the contest money will be mailed to the winners Friday.

L. S. Carter Moving to Corpus Christi After 25 Years Spent on Plains

After having resided on the Plains for twenty-five years, Mr. and Mrs. L. S. Carter are leaving today for Corpus Christi to make their future home.

They have sold their 50 acre farm north of town, and all of the stock to W. P. Martin, who has taken charge of the place.

Two sons of Mr. and Mrs. Carter live at Corpus Christi, and it was for this reason that they decided to sell out and leave.

The Carter family is among the best known in Randall county, and they will be very greatly missed by a very large circle of friends, not alone among the old time residents, but among those who have moved here in more recent years.

Willie Cavet, Former Canyon Resident, Takes His Own Life

Willie Cavet, 27, took his own life in a Tulia hotel last Thursday. Cavet formerly lived in Canyon with his parents, Mr. and Mrs. Jack Cavet. He is a brother of Pug Cavet, who is well known to all baseball fans.

Cavet is said to have been in ill health for the past several years. He is an ex-service man, and immediately after his discharge from the army, he was injured in a threshing machine, making it necessary to take off his right arm.

Cavet has been traveling, selling patent medicine, and his car was recently burned.

BREAK INTO HAPPY SAFES.

The safe in the Stephenson Lumber yard at Happy was rifled a week ago Monday night, and the safe in the Burrow Lumber yard on Friday night of last week. Only small amounts of change were taken in both instances. It is thought that local talent was responsible for both thefts.

HORTON GIVES NO ANSWER.

Rev. Pat Horton has given no reply to the second call of the local Baptist church to come from Floydada to serve the local church as pastor.

Mr. Horton stated that he would give his answer within a short while.

Help Keep Canyon Clean!

Arnold Added Another Generator to Power Plant Equipment

A. J. Arnold will install a fifty kilowatt generator in the equipment of the Canyon Light & Power Company during the coming month.

This generator will be handled by the steam engine at the plant.

The plant now has two generators, producing 125 kilowatts, and this additional generator will increase the capacity to 175 kilowatts.

The plant will have three distinct units and nothing but the destruction of the entire plant would curtail power service for a long while.

Mr. Arnold has replaced all of the machinery in his plant since he bought the business four years ago.

WILL BUILD HOME HERE.

Mrs. M. E. Collier has moved here from Ada, Okla., and is building a home in the southeast part of the city. Mrs. Collier bought lots from Newt Reeves.

Cotton in Randall Co. Is Looking Fine—Has Six Squares to Stalk

C. F. Walker, county agent, states that cotton now has six squares, which indicates that the crop will yield at least a quarter bale to the acre.

Mr. Walker states that he is well pleased with the way cotton is developing in the county.

Mr. Walker states that row crops all over the county are doing very fine and that the prospects were never better for abundance of feed for this winter.

Harvest is on in all parts of the county. Broadest binders, headers and combines may be seen in all parts of the county, running almost day and night.

Wheat is turning out better than expected. Oats is doing well, but the barley is the poorest grain crop, and is making less than usual in this county.

HARLEY SADLER COMING.

Harley Sadler and his company will be in Canyon next week, playing in his big tent theatre for six nights.

Without a doubt Harley Sadler is the most popular show man in Texas today, or ever will be for that matter. His plays are clean and wholesome. His company is composed of men and women of the high character and who believe in their profession. While Sadler is the outstanding character, he has not surrounded himself with lesser lights, taking all the glory for himself, but brings actors who well balance his cast and thereby make his shows all the greater.

Harley Sadler always draws a big house in Canyon, and his experience will be repeated during next week.

TEACHERS ARE CHOSEN.

Miss Cora Mae Simmons, who is specializing in primary and kindergarten work has been elected critic teacher in the Oberlin, Ohio, Kindergarten-Primary Training School, which is said to be one of the best institutions of its kind in the United States. Miss Simmons is from Memphis, Texas, and has been in the College for the past two sessions.

Miss Marie Dodson will teach at Flo-mott, Texas, next year.

Stock Law Election Carried Saturday by Majority of 48 to 2

Little interest was taken in the election on the stock law Saturday, as applied to precinct 1.

Only fifty votes were cast, of which 48 were for the stock law and 2 were against the law.

As soon as the commissioners court canvasses the returns the owner of stock allowed to run at large will be liable for damage done.

HAD GOOD OPENING.

B. S. Livingston and Mark Foster report good business since opening the West Evelyn Grocery on last Saturday.

R. E. Foster was given the \$1.00 offered for the person buying the largest bill of goods on opening day.

SCHOOL BUSES TO BE DRIVEN UNDER CONTRACT 1923-24

A. J. ARNOLD ELECTED TRUSTEE BY THE BOARD.

G. W. Johnson Awarded Contract to Drive Buses—E. J. Tanner Elected Janitor for Schools.

At the meeting of the board of trustees of the Canyon City Independent School district Monday night, bids were opened on three propositions, and a trustee was elected to fill the vacancy caused by the resignation of J. A. Guthrie.

A. J. Arnold was elected trustee and has accepted the place. He is highly interested in good schools, and understands the construction of the new high school building has been electrical inspector for the board and for the city.

The contract was awarded G. W. Johnson to drive the two school buses beginning with the opening of school. Mr. Johnson will drive one of the buses himself and select a driver for the other one.

E. J. Tanner was elected janitor. He has been engineer for the past five years at Baylor College, Belton, and understands the needs of school jobs such as he is taking. He will have charge of both buildings and employ such help as he needs.

Manual training tools have not been selected, but will probably be by the first of next week.

Forty-Five Men Left Sunday Morning for Annual Encampment

Captain H. C. Gamble left Sunday morning with forty-five men for the annual encampment of the Texas National Guard at Camp Mabry, Austin. Company F will be in camp for two weeks.

Captain Gamble was able to recruit his company up to standard, before leaving, and excused a number of the boys from making the trip for various reasons.

The Hereford Company had only 14 men when it entrained here Sunday morning.

Company F left on the 7:45 train, going by the way of Sweetwater.

MOTOR COP ON JOB.

The city's motor cop has been on the job this week, but has made no arrests. He warned a lot of car owners who were driving without lights, speeding and cutting corners. All of these will be arrested in due time until they change their methods of driving.

Driving without lights seem to be the greatest fault with Canyon motorists just now, as more than a dozen cars were on the streets Sunday night with insufficient lights.

MANY ENJOYED CONCERT.

The public square was filled the automobiles and folks Saturday evening when a concert was given by the College band. The band put up some very fine music, which was greatly appreciated.

Concerts will be practically impossible on the square without a bandstand, owing to the poor lighting in the temporary system used.

TWO CANYON LEADERS AT BAPTIST ASSEMBLY

MRS. B. T. JOHNSON Will Talk on Women's Work.

SEVERAL THOUSAND BAPTISTS COMING TO ANNUAL ENCAMPMENT WHICH BEGINS TUESDAY, CLOSING ON AUGUST 1st

The Fourth Annual Session of the Panhandle Baptist Assembly will be held at the Ceta Canyon camp grounds beginning next Tuesday, July 24th at 8:00 p. m., and will continue to August 1st. It is expected that at least five thousand people will attend the Assembly, coming from every county in Northwest Texas.

Rev. B. F. Fronabarger is business manager of the Assembly. He has had charge of the work for fifteen months, financing the proposition of buying the land, and putting many improvements on the same.

The big 90x90 foot tabernacle is in order and ready for the great meetings which are scheduled for the Assembly.

Dr. John L. Hill of Nashville will speak at the Morning Watch services the first week and give addresses on Stewardship. Dr. W. T. Reuse of Snyder and Rev. Jeff Davis of Abilene are the Inspirational and Evangelistic preachers for the evening hour. Secretaries Gardner and Phillips and President Sandefer will give addresses. Dr. J. M. Price of Southwestern Seminary will lecture each day and preach Sunday morning. Mr. LeRoy Moore will speak on Layman's Day and Heddames B. T. Johnson and Williamson on Woman's Day.

Classes on B. Y. P. U. work, on Sunday School teaching and on W. M. U. work will be conducted.

Mr. and Mrs. J. L. Blankenship of Dallas will direct the singing.

Miss Alline Ballard of Silverton is in charge of the children's story hour.

Prof. J. J. McCasland is recreation leader, and will have stunt events and athletic events.

Detailed programs in booklet form have been distributed all over the Panhandle, giving details for each day of the encampment.

COUNTY COURT SESSION.

County court is in session this week, with Judge R. L. Lester presiding.

The case of J. W. Teal was tried Monday before a jury. Mr. Teal being charged with assault upon the person of J. D. Bylee. He was found guilty and fined \$5.00 and costs.

In the case J. T. Swink vs. Florence O. Wilson, judgment was taken by default.

Several progrete matters will likely come before the court this week.

Farmers Will Picnic at Bates Pasture on the Second Saturday Aug.

The Randall County Farm Bureau will hold the annual picnic at the Bates pasture northwest of Canyon on the second Saturday in August.

There will be a big picnic dinner, speaking and other attractions. A large crowd attended the picnic last year.

TULIA WILL CELEBRATE.

The 33rd annual celebration of the founding of Tulia will be held at that city next Saturday. A big time is promised all visitors, and invitations are being sent to all old timers over the Plains.

SUNDAY HOTTEST DAY OF YEAR.

The thermometer stood at 102 degrees in the shade Sunday, which was by far the hottest day of the year.

OATS AND SPRING WHEAT NOW ON GRAIN MARKET

HARVEST IN FULL BLAST OVER ENTIRE PLAINS.

First Car of Oats Shipped Yesterday from Umbarger—Spring Wheat Makes 26 Bu., Oats 35 Bu.

Harvest is on in full blast over the entire county, and will continue for another two weeks.

It is yet too early to predict the average yield of the county as to the wheat. The west part of the county will have a big average. The north part of the county will have practically as good. The crop gets less as it passes to the east and southeast, where the wheat crop amounts to practically nothing.

The first spring wheat came on the Umbarger market Tuesday, being brought in by Otto Dodzemny. His 40 acre crop averaged 26 bushels to the acre, and tested 62.

Frank Verward bought in the first out of oats yesterday.

It is reported that the oats on the Pierce place is making 35 bushels.

The barley crop is not extra good this year, either in yield or in quality.

City Federation of Women's Clubs in a Special Meeting

Some time ago a federation of the Women's Clubs in Canyon was formed for the purpose of giving support to all moral and civic questions which from time to time arise in our town.

A called meeting was held last Thursday afternoon, in which the need and street ordinances and also the live stock questions were discussed. The women appreciate the efforts our city officers are making to make Canyon a "better place in which to live," and want the men to know that we are with them to the limit of our ability.

Three committees were appointed to present some resolutions setting forth the Federation's position on the question of vital interest to our citizenship. The meeting adjourned to have another called meeting in August.—Reporter.

JARRETT LECTURES TUESDAY.

Prof. R. P. Jarrett will give the second lecture on child psychology at the home of Mrs. Joe Black next Tuesday afternoon.

The lecture is given under the auspices of the Parent-Teachers Association, and a general invitation is issued to attend the lecture.

AUXILIARY TO MEET.

The regular meeting of the Woman's Auxiliary, American Legion, will be held Friday afternoon, July 20, at three o'clock in the Legion Hall. All members are urged to be present.

HAPPY NEWS MISSING.

Connections were missed with the Happy news yesterday, and this very interesting letter from our neighbor to the south is consequently missing in this edition of the News.

PRES. BINNION HERE.

President R. B. Binnion of the Teachers College at Commerce was in the city yesterday inspecting the plant of the College. He was accompanied by Congressman Sumner of Dallas.

SECOND QUARTER OPENS.

The second quarter of the summer session of the college opens today.

A few students left yesterday for their homes, while other came in for the next six week's work.

OPEN BIDS ON CHURCH.

Bids for the construction of the new Methodist church will be opened next Tuesday afternoon at four o'clock.

RAIN FALLS FRIDAY.

Rain amounting to 23 of an inch fell in Canyon Friday.

It is hard to see why the Republicans are so enthusiastic over saving a budget surplus for us Democrats to spend.—Dallas News.

SUBSCRIPTION \$1.50 PER YEAR.

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

During the past week we have talked with a score of Panhandle folks who were visitors in Canyon and all have expressed great confidence in the city. These people praise the public improvements that have taken place in Canyon during the past year. The city has done well in public improvements during that time, and Canyon is to be congratulated upon the great work. The paving and the new high school building are a credit to the town and institutions which have been very greatly needed. Now comes an other great institution which needs attention. We have had to point with shame to our church building and acknowledge that they were the best of the educational center of the Plains could claim. The churches of Canyon have a wonderful opportunity for a great and lasting work, but they are working with tied hands under present conditions. If the people of Canyon have the same great vision of usefulness that people from our neighboring towns are able to see, then every church in Canyon will see that proper houses are erected within the coming few months.

The News placed an order Friday for a new Optimus press, which will give this printing plant the finest cylinder press in the Panhandle. The outlay will enable to office to do very high class printing on the big jobs that must go on the cylinder press. The press costs about twice as much as a whole print shop used to cost. The business of the News at this time does not warrant such an investment, but we are building for the future. The News man has been in Canyon thirteen years this month, and celebrated this thirteenth anniversary by buying this press on Friday the 13th. We made this big buy because we just naturally want the best equipment to be found on the market; because we have the greatest confidence in the future development of the city and the county; and because we were able to fool the credit man. The press will be installed about the 10th of August.

Confidence is the greatest thing in the world. Sometimes people get the idea that money is the greatest thing in the world, but a short study of Germany will dispell this fallacy. Germany has all of the money it could possibly want, and printing it by the train load. Germany has vast and rich mines of coal and iron and storehouses of food and clothing. Its money is hardly worth carrying home simply because the world has lost confidence in the mark. The material wealth of Germany has not been able to hold up the wealth of the nation as expressed in its mark, simply because of this lack of confidence. Lack of confidence will break a solvent bank or a solvent nation or wreck the chances of success of the brainiest individual.

Canyon will have distinguished guests within a few days, when the locating committee for the Tech College comes here. This locating committee is composed by the chairman of the Board of Control, which board handles all of the finances of the state, the state superintendent of public instruction, and the presidents of the university, A. & M. and C. I. A. What kind of an impression will Canyon make on these distinguished educators, with weeds as high as a man's head growing in many places in town, and some right on the public square? Furthermore, these are not the only distinguished men who visit Canyon, as we have them every day. What kind of an impression do these big weed patches leave upon the minds of the visitors? Certainly not a very favorable impression.

The consolidation of the Panhandle-Plains Chamber of Commerce with the West Texas Chamber of Commerce is welcomed by all of the people of this section. There was no excuse for both institutions existing, except imaginary ones, and one body can do the work better than could the two. The West Texas Chamber of Commerce is a big organization, but the Panhandle would feel a little more kindly toward the organization if it will chop off its territory on the lower southeast corner, and make its field of activity strictly West Texas. Ft. Worth and Waco used to be West Texas, but they lack a lot of being West Texas today.

The Denver shopmen have acknowledged that the strike has failed. It took them a year to ascertain this fact which the public realized on July 1, 1922.

The Vernon Record is building a new home. West Texas publishers have great faith in their local communities and work to make them better.

THE PRESIDENT QUILTS

Ford's Weekly: To David Lawrence was given the nasty little job of assuring the public that Mr. Harding has stopped drinking. It was perhaps the most humiliating piece of publicity that has marred the whole Harding Administration. If this is typical of the kind of publicity that the Jewish Journalist-advertising combination of Dave Lawrence and Al Lasker is planning for the coming presidential campaign, friends of Mr. Harding ought to intervene with any insistence that may be necessary to call off the pair. Respect for the dignity of the person of the President of the United

MICKIE SAYS—

IF ADVERTISING AINT NO GOOD, WHY ARE ALL TH' BIG CITY PAPERS CHUCK FULL O' ADS? THEM BIG BUSINESS MEN AINT A LOT OF DUMB BELLS, ARE THEY?

States should have made such a dispatch unthinkable, not to say unsendable.

The details of the dispatch are too revealing. The change in the President's personal habits has come "in the last several months." That would be following the Florida trip, probably. There is also the bald statement that in the White House or on the golf links the President would drink out of proffered flasks. And the very careful statement is made that "at the White House" no liquor "has ever been served," that is, "at the table" "for official guests." Mr. Lawrence presumes too readily on the American people's ignorance of how long the official status can maintain itself.

The whole dispatch (published in the evening papers of June 27) indicates a perturbation within the Harding ranks. For six weeks the special services have been carrying into the offices of business men all over the country the information that the President's conduct at Chevy Chase had changed in view of the coming election. It was intimated by these special services that bold bad Democrats had been hiding around and watching for the purpose of getting personal material to inject into the coming campaign. Two of those services used an

identical expression, namely, that "the President was cultivating an evangelical trend of mind." But all the time there was an anxiety expressed that people "in the know" should be informed that Mr. Harding had cut it out. And these people all knew it. The blatant newspaperer dispatch which bore David Lawrence's signature was rankly unnecessary.

The president is to be congratulated, of course. He had only two courses open, either to go on taking a nip once in a while if he felt like it and was taking it out of legal stocks, or to stop short, as he apparently has done. Neither course warranted newspaper invasion of his privacy.

Incidentally, Mr. David Lawrence's article, which was evidently inspired at headquarters, intimates that our dry President will not be averse to a certain degree of wetness in the country after a respectable period of mourning has passed.

What Europe needs is more hardness of sense and less hardness of heart.—Washington Post.

KEEP YOUR LOCAL TRADE AT HOME

To you, a small town merchant. Here is plain talk to the merchant who complains that his customers leave town to buy, or patronize mail order houses. Here, too, are seven reasons why they leave you and why they don't:

The main reasons:
For Trading Locally—1. Lower prices in middle and higher-priced goods. 2. Equal quality in all reliable stores. 3. Convenience of local stores. 4. Personal interest of the proprietor. 5. Small stocks of exclusive lines. 6. Ease of establishing credit locally. 7. Civic pride.

For Trading Elsewhere—1. Greater variety from which to choose. 2. Local merchants' failure to keep up stock. 3. Lack of progressive sales methods and alert sales persons. 4. Unattractive stores. 5. Lack of proper solicitation on the part of the management. 6. The conducting of bargain sales in larger cities. 7. Prestige of a distant market or a large city.

THE TWELVE RICHEST MEN

Which is more interesting—the ten most important books ever written, selected by H. C. Wells, or the twelve wealthiest men in the world, selected by Wall street leaders? Wall street names these: How many does everybody know?

Henry Ford, \$550,000,000; John D. Rockefeller, \$500,000,000; the Duke of Westminster, \$150,000,000 to \$200,000,000; Sir Basil Zaharoff, \$100,000,000 to \$125,000,000.

Hugo Stinnes, \$100,000,000; Percy Rockefeller, \$100,000,000; Baron H. H. Mitsui, \$100,000,000; Baron K. Iwasaki, \$100,000,000.

J. B. Duke, \$100,000,000; Geo. F. Baker, \$100,000,000; the Gackwar of Baroda, \$125,000,000, and T. B. Walker, \$100,000,000 to \$300,000,000.

A SCHOOL BOARD'S PRAYER

God help us to see and feel our responsibility. Help us to see the problems that confront us and give us wisdom to solve them. Help us to know and love the people whom we serve. May we forget self and work for our children, our community and our country. Help us to lay aside personal feelings and employ worthy teachers regardless of friendship, politics, religion, or relatives. May we live for the satisfaction of tomorrow rather than for the pleasures of today. Help us to get a true vision of what the schools are doing for our children and of what they should do for them. May we, while working for better schools, be so tactful, patient, kind and reasonable that those who oppose us will give us credit for meaning well. May we so serve our community that the things we do today will look good to the men and women of tomorrow. And finally when we are "ready to be offered up" may we have the satisfaction of knowing that we lived true to ourselves, true to our people and true to God.—Progressive Farmer.

EXPLANATION NEEDLESS

"Mrs. Askitt: "Did you say anything to your husband when he came in so late last night?"

Mrs. Tellitt: "Why should I? He knew why I hit him."—American Legion Weekly.

MAKING A LIVING

Getting a living is easy enough if you do not make it the main job. A living is the by-product of a life which counts for something in the general benefit. If it is made the principal object of life it sometimes becomes most difficult. But where doing one's work is the main thing the living just naturally happens, and not a poor one either. The men who get along best are usually interested in something more than "getting along." Everybody wants money and everybody needs money, but one of the secrets about money is that when you turn your face in the right direction and help the world get what it needs, the necessary money can't be kept away from you.—Henry Ford.

Another decision of the Supreme Court holds that a state cannot prohibit or restrict the exportation of its products in interstate commerce. The case in point dealt with the attempts of certain states to regulate the flow of natural gas across their boundaries. It appears to the layman that the court must also believe that a state cannot prevent its citizens from exporting electric power produced within its boundaries, as some state are inclined to do. Justices Holmes, Brandeis and McReynolds dissented from the decision.

The Supreme Court has ruled that a law that forbids instruction in any particular foreign language is an unconstitutional infringement, on the rights of the citizen and of no effect. The decision upsets a number of state laws that were passed during the war to prohibit instruction in German in the public schools. Those laws were never wise, and they should have been repealed long ago. The state cannot with justice close the door to any sort of useful knowledge.

The "flivver" aeroplane has arrived. It is only fifteen feet long and has a wing spread of forty feet. The motor is of twelve horse power, and the little machine can get up a speed of seventy miles an hour. It will rise and land in a comparatively narrow space and "takes off" when going only ten miles an hour. The pilot, a Frenchman named Barbot, says that the aeroplanes can be built in quantity for \$400 each, and that they will fly one hundred and twenty-five miles on a gallon of gasoline.

DR. GILBERT USES FERRASAL

I am using Ferrasal for indigestion and acid stomach and it is the best preparation I have ever taken. I also recommend it in my practice for pyorrhea and acid conditions of the mouth and am getting excellent results. I know others will appreciate Ferrasal as much as I do if you will bring it to their attention.

Very truly yours,
DR. J. M. GILBERT,
1413 1/2 Elm St. Dallas, Texas.
50c per box at Jarrett Drug Co. if

HE'D RATHER RETREAT WITHOUT A HORSE

The army officer was seeking recruits for a colored cavalry regiment, and had his eye on one particular fine specimen.

"Rastus," he pleaded, "don't you want to join Uncle Sam's cavalry?"

"No sah," the prospect replied emphatically. "When de bugle sou'n's for retreat, Ah doan' want to be encombered by no horse."—Everybody's Magazine.

There are those on both sides of the border who are not ashamed to oppose better relations between Mexico and the United States. Since the American representatives arrived in Mexico City to begin negotiations for a renewal of diplomatic relations between the two countries they have received threatening letters and an infernal machine has exploded on the steps of the American consulate. It is uncertain which party is responsible for the outrages. Some accuse the Bolsheviks; others, among them is President Obregon, think that they are Conservatives, his political enemies, are to blame.

When the war ended, Austria was in the worst of situations; no one could see any hope for it, stripped, as it was, of all its wealth-producing territories and reduced to political and financial bankruptcy. Yet today its currency is stabilized and worth more than that of Germany. Its administration is reformed, business is improving, a balanced budget is in sight, and a great international loan, obtained through the League of Nations, has been oversubscribed. If there ever was any doubt that the threatened bankruptcy of Germany and its frightfully debased currency is unnecessary and deliberate, the experience of Austria proves it. Financially and industrially Germany is twenty times stronger than the present Austria. As soon as the German government makes up its mind to do so it can stabilize its currency and return to solvency; but it is more concerned at present to make excuses for not paying reparations.

Every now and then somebody sees the dawn of a new era, but it seems to cloud up before noon.—Columbia Record.

So Cooling and Refreshing

On a warm day there is nothing so cooling and refreshing as a dish of our wonderfully good Ice Cream, flavored to your liking with any one of many Pure Fruit Flavors which we make fresh daily.

Fair attendance at Sunday School Sunday morning. Several visitors were present. Next Sunday is Rev. Griffin's regular day. Everybody come early.

Miss Ruby Lee McGehee accompanied by her uncle, Oscar Thomas, Birdie Lou Lane and Kelly McGehee, all motored to Canyon Tuesday. Birdie Lou is to attend summer normal for six weeks.

W. I. Lane made a business trip to Happy Monday with a truck load of wheat for H. H. Gillham.

Little Wayne Sluder, one year old son of J. S. Sluder and wife, drank kerosene Tuesday afternoon. It made the little fellow quite sick for a while, but he seems to be all right at this writing.

The social given at the W. I. Lane home last Friday night was well attended. Young people report a delightful time.

The birthday party given at the C. F. Watson home Monday night in honor of their eldest daughter, Miss Geneva, was enjoyed by a jolly crowd of young people.

Ray Franklin spent Monday night with Irvin Lane.

J. S. Sluder was a business caller at Happy Tuesday.

W. I. Lane and family spent Sunday with relatives in Canyon.

Miss Ruby Lee McGehee and mother and sister, Mrs. Mack Gillham and little son, Dannie Mack and Mrs. Jda Sluder motored to Canyon Friday and returned home Saturday.

Quite a number have gone plumbing. They report there is lots of plumb in the canyon, some too ripe, while some still green.

A baby boy made his arrival at the Rev. Brooks home last Saturday, a very welcome little guest.

NEGRO DIALECT READER.

Mrs. Josephine Obenchain will give a program at the College Auditorium next Monday night, July 23rd under the auspices of the women of the Christian church.

Mrs. Obenchain is an interpreter of negro dialect and reader of plantation stories. She comes with the very highest recommendations from the leading men and women of the state who have heard and enjoyed her programs.

NEW PRESS IN TRANSIT.

The News bought a new Optimus press last Thursday, and according to a wire yesterday, it was shipped from Chicago Monday. The press weighs 18,000 pounds and will come through in a car shipment.

Unless something unforeseen happens the new press will be in operation by the end of next week.

The old press has been sold to J. M. Adams, owner of the Lockney Beacon and Plainview News.

Only the other day a jury awarded damages of \$15,000 and costs of \$10,000 to a woman whose husband had been killed by a bale of cotton that fell on him. The damages may have been ample, but the point is that the fatal accident occurred twelve years ago and that the case has been dawdling through the courts ever since. Even now another appeal is announced. That is not a proper sort of justice; court procedure that permits such unconscionable delays ought somehow to be reformed. If the woman was fairly entitled to an award, she should have had it when the money was needed to bring up the family of small children with which she was left. If she did not deserve it the case should have been cleared from the docket years ago.

The Mark Twain State Memorial Park Association plans to establish a Mark Twain Memorial Park in Florida, Missouri, where the humorist was born. The owner of the home in which Mark Twain was born has promised to donate the house and its old-time curios to the association.

The Globe and Commercial Advertiser, of New York, the oldest daily newspaper in America, passed out of existence recently when it was merged with the New York Sun. The Globe and Commercial Advertiser was founded in 1793.

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend," Mrs. C. J. Hartman, Scranton, Pa., 1879!

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., R. 4, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

Pleasantview Items

Herbert Brown and Roy Gibson of this community left Sunday with Compton F. for Austin on a ten days' trip.

Ben Sharp of Tulla spent Sunday at the M. O. Slack home.

Rev. Johnnie Jenkins will preach next Sunday at the regular hour, 4:00 o'clock. Everyone is welcome to come. Misses Dewey and Edith Gibson returned home Wednesday from Happy where they have been visiting friends since Friday. While they were there they purchased a Sedan Ford.

We are glad that Mrs. Ed Harris, known to us as Miss Ruth Schramm, who has been very ill is improving. She is living in New Mexico. Miss Bell Schramm, her sister, is staying with her.

TOPICS IN BRIEF

Germany seems worried about everything except what she owes.—Boston Eagle.

The Commoner prospered on 16 to 1, but suspended publication on evolution.—Cleveland Times.

The trouble with the Volstead Law isn't defective teeth but itching palms.—Austin American.

The man who has discovered a ray that will annihilate gravity must be a comedian.—Spokane Press.

A European newspaper correspondent says it is a mystery where France is getting the money to build her big submarines fleet. Probably from her sinking fund.—Nashville Southern Lumberman.

Any man with an American \$20 bill is now a millionaire in German marks. Give him another million and he will be a subject for charity.—Boston Transcript.

"One million dope addicts in United States"—and more if you include baseball.—Wall Street Journal. And still more if you include capitalist politics.—New York Call.

The Germans are accusing the French of counterfeiting the mark. War and reconstruction have failed to dull their sense of humor.—Jacksonville Florida Times-Union.

The world waits for Burbank to perfect a lawn grass that will grow evenly and cheerfully to a certain length and then stop.—South Bend Tribune.

In angling for support, President Harding has always favored the line of least resistance.—Rochester Herald.

And the Eighteenth Amendment was designed to take Prohibition out of politics.—Wall Street Journal.

A third party gets its name from the way it generally finishes when an election is held.—Southern Lumberman.

A man may live long in Bulgaria if he drinks buttermilk and stays out of politics.—San Antonio Express.

"We have no protest against literature, provided we are not asked to photograph it," says a movie producer. In behalf of literature, humble thanks are herewith returned.—Cincinnati Times-Star.

A twelve-mile limit would only give the rum fleet more sea room to dodge the revenue ships.—New York Tribune.

Judge Gary hopes for the ultimate abolition of the twelve-hour day. But faith without works is dead.—Philadelphia Bulletin.

Barbers predict dollar haircuts, but when they reach that level many of us will refuse to be trimmed.—New Orleans Times-Picayune.

In the big cities automobilists are making traffic conditions easier by gradually reducing the number of pedestrians.—New York Tribune.

That fellow who has invented a collapsible platform for trucks is a little late. Political parties have been using something like that.—Buffalo News.

China without a government can hardly be said to have deteriorated much.—Denver Times.

The German mark is proving to the world that there is no such thing as absolute zero.—Asheville Times.

They say a mosquito can fly ten miles. But it isn't the distance he flies that bothers us. It's what he does when he stops.—El Paso Herald.

One danger in throwing your hat into the ring is that it gives people an opportunity to see what you had under it.—Little Rock Arkansas Gazette.

Dr. Fosdick says the majority is wrong most of the time. That's what the Democrats have been contending for years.—Southern Lumberman.

The grave of Pocahontas has been opened and found to be unoccupied. It seems to be just impossible for some women to stay at home.—Seattle Argus.

Washington authorities are said to be anxious to lower the income-tax rate. They can do this by making the bootleggers pay their share.—Washington Herald.

And only a short time back some of the scientists solemnly assured the world that the sun is losing its heat.—Oshkosh Northwestern.

The steps which the Germans are taking toward reparations settlements are all goose-steps.—Dallas News.

The favorite hymn of the good politician is "Watch Me, and I Shall Be Whiter than Snow."—Brooklyn Eagle.

The prohi program seems to be—if at first you don't succeed, dry and dry again.—New Orleans Times-Picayune.

Judge Gary might test public sentiment by running for President on a twelve-hour platform.—Milwaukee Journal.

It will be observed that the Treasury surplus did not appear until after Congress had adjourned.—Pittsburgh Gazette Times.

The somewhat wide-spread unrest over Prohibition will, perhaps, make the G. O. P. elephant get a hump on.—Nashville Banner.

His recent international negotiations in oil indicate that the sick man of Europe is really the sick man of Europe.—Nashville Southern Lumberman.

The only thing about the New York-California flight that surprises Californians is why the rest of the New Yorkers don't come, too.—Dallas News.

GIVES MISSIONARY PROGRAM

The Women's Missionary Union of the local Baptist Church gave an interesting program in the home of Mrs. J. C. Dowd last Tuesday afternoon. The Bible study was conducted by Mrs. B. F. Fronabarger. Mrs. J. A. Hill led a paragraph study of foreign missions, in which Mrs. John Davis, and Mrs. Reid made talks.

After the program delicious cakes and ices were served to the large attendance.

Mr. and Mrs. B. T. Johnson, and son Paul, Rev. Shelton and wife, of Claude, and Mr. Crain were entertained Sunday in the home of Mr. and Mrs. S. B. McClure.

STILL AFRAID TO GO IN

"Do you still act towards your wife as you did before you married her?" "Exactly, I remember just how I used to act when I first fell in love with her. I used to lean over the fence in front of her house and gaze at her shadow on the curtains, afraid to go in. And I act the same way now."

A TRUSTING WIFE

"Does your husband play cards for money?" "No," replied Mrs. Torkins thoughtfully. "I don't think Harry plays for money, but all the people who play with him do."—Everybody's Magazine.

IT HELPS

"In time of trial," orated the preacher, "what brings the greatest comfort?" "An acquittal," responded a person who should never have been admitted.—American Legion Weekly.

TOUGH ON DUCKS

Bill said: "My misses made some puddin' one day that we couldn't eat, so she gave it to the ducks. A few minutes our Jimmy came in and said, 'Ma, yer ducks have sunk!'"

From 300,000 to 500,000 transient laborers pass through Chicago in a normal year.

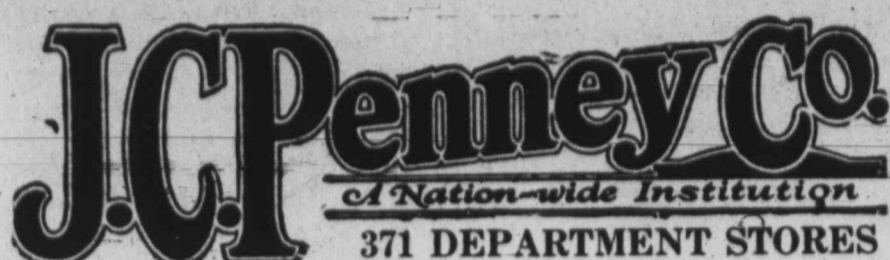

Canadian farmers are importing wasps to fight the corn borer.

Mrs. Lloyd George says: "Bringing up a family is a full-time job—an overtime one if the family is large—and no working class mother can combine it properly with wage-earning."

The Opium Committee of the League of Nations voted, six to one, for strict limitation of production and sale of the drug under absolute government control; Portugal failed to vote, and France voted against it.

Final passage of the bill to abolish the county convict lease system in Florida was effected when both houses agreed to the report of a conference committee. The practice will be outlawed after January first, next.

Eleven species of birds have been wiped out entirely in this country during the past 50 years.

701-3 Polk St. Amarillo, Texas

**Summer Dress Fabrics
GINGHAMS AND PERCALES**

Last year, the J. C. Penney Co. stores sold 6,302,410 yards of Gingham and Percales—4,417 miles of them, if placed end to end. Buying in such large quantity direct from the mills, it is easily understood how we are able to supply our customers at such marvelously low prices.

Quality for quality and price for price, our Dress Gingham and Percales are the greatest values we know of. Four items to illustrate:

27-inch DRESS GINGHAMS Yd. 17c	32-inch DRESS GINGHAMS Yd. 23c
--	--

A splendid quality—woven from selected yarns. Fresh, new designs. Our own special Butterfly Brand is included.

Rev. M. M. Beavers and a number of laymen of the Methodist church will attend a group quarterly conference at Hereford Monday night and Tuesday.

Edward Page Gaston, an archaeologist and brother of Lucy Page Gaston, of anti-cigarette fame, is searching at Gravesend, England, for the bones of the Indian Princess Pocahontas whom he claims as an ancestor. Indignant Britons whose forbears lie buried with the legendary savior of Captain John Smith have threatened Gaston for violating their dead in his search. Although armed with a permit from the home office and accompanied by British anthropologists, he is meeting with much resistance. Marquis Curzon, foreign secretary, has added his voice to the protest against the search at Gravesend.

Historic Faneuil Hall, the "Cradle of Liberty," in Boston, will not be defiled by the installation of a modern elevator. The hall is to be renovated in the near future and the city council has appropriated \$200,000 to that end. All floors, walls and ceilings are to be covered with fireproof metal, and wooden wiring supports will be replaced with fireproof construction. But patriots threaten to seek a grand jury indictment against anyone who would attempt to install an elevator. The Ancient and Honorable Artillery Company will continue to walk upstairs to their meetings.

The days of the Klondike were recalled at the Waldorf-Astoria recently when the hotel treasurer sold \$5,000 worth of gold dust and nuggets to the government. A Westerner arrived at the hotel with no baggage and with very little cash. He had several pokes of gold which he asked the hotel treasurer to guard. When he was ready to leave he requested that the gold be sold and the hotel bill deducted. The government was a ready purchaser.

Professor Robert DeC. Ward, of Harvard University, writes: "No possible temporary advantage to be gained by the importation of cheap alien labor could in any way offset the incalculable harm which such an influx would inevitably do to our country and our race. The question of profits is not for a moment to be considered as more important than posterity."

Riding from the first platform of the Eiffel Tower to the ground on a bicycle was the daring achievement of a young Frenchman. In the first leap the bicycle covered forty steps. The remaining 316 steps were covered at the rate of from fifteen to twenty at each jump. In less than one and one-half minutes he had covered the entire distance of ninety yards and was only slightly scratched on one leg as he rounded a post at the bottom. Not a burr on the bicycle was loosened.

The largest seed-oyster supply in the world, in the James River, Virginia, is threatened with destruction because of the effects of pollution of the water. Last December and on April 10, of 1923, wild ducks were picked up helplessly on the New Jersey coast at Cape May. The oil-coated waters gummed the feathers of the birds and prevented them from flying. Inland waters are also polluted by factory waste, causing the death of thousands of fish.

Prof. Charles Sprague Sargent, director of the Arnold Arboretum, has received the Meyer Medal for his services in preserving the vanishing tree species of the world. The Arnold Arboretum contains the largest collection of trees and shrubs in the world. The medal is named in honor of Frank N. Meyer, noted leader in the work of plant introduction, who lost his life while hunting for new trees in China.

Numerous flint implements, bone, harpoons, arrowheads, grindstones, chisels and tooth-headed spears have been discovered in the remains of a settlement at Holmegardsmoos, Denmark. It is estimated the settlement is at least 7,000 years old. Although no human bones have yet been found, the excavators uncovered skeletons of elk, reindeer and other animals under a layer of peat several yards thick.

Bats are very particular about their personal cleanliness. They wash their faces with the front part of the wing, and currcomb their fur with the sharp claws of their hind feet. The young are born in June and number one or two. For two weeks after birth the young hang to their mother and are carried by her on her nightly flights.

Thousands of women and girls were thrown out of employment in factories by the French occupation of the Ruhr district, but ignore domestic service offered them because they receive strike funds from Berlin and local municipalities amounting to more than wages in homes. It is as difficult to obtain housemaids in Germany as in this country.

Swelling caused by insect bites can be reduced by using Ballard's Snow Liniment. It counteracts the poison and relieves the irritation. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by City Pharmacy. 1414

MEMORIES

How often do you dwell upon your memories? The habit, carried to excess, produces a melancholy inertia of the mind; if it is indulged little or not at all, the past has no lessons, and the heart and mind are absorbed wholly in material things. Most people after reaching middle life let their minds turn increasingly to memories—partly because only in memory are they able any longer to see persons who were once dear to them, and partly because the impulse to meditate comes with lessening physical activity.

Perhaps the most curious phenomenon about memories is their inconsequence. Many of those that recur with unvarying distinctness are of moments and episodes that had no special significance. Why should those moments be recorded so vividly on the dial of the mind and others more pregnant with meaning in our personal history be hidden in a haze that never lifts? A vision of a smiling face at a certain place and time, a bit of talk over the telephone, the inflection of a voice, one moment in a day of companionship from which all other moments have vanished—such little fragments from past years remain with us, memories too unsubstantial to be framed in words or to be made vivid to others than ourselves. They have as much charm for us as those of our more triumphant moments have; perhaps they

come to us more often in their tantalizing incompleteness.

There are the memories too that make us wince, that we flinch from recalling, and that we cannot escape. They present themselves as often as the more pleasant memories; we cannot exclude them. Anyone who has such memories—and what person with any experience of life has not?—must reject as quite false Tennyson's assertion that "sorrow's crown of sorrow is remembering happier things."

In the memories of happier things there is sorrow always, but there is sweetness too. "Sorrow's crown of sorrow" is in remembering unhappy episodes of happier days.

In the modern hospitals when a baby is born a print of the child's foot is taken and on the same paper, the thumb-print of the mother, for identification. It is claimed many mothers fear hospital accouchment lest the nurses "mix those babies up."

The Boers in South Africa have what they call "dānce down" parties. These dances start some time in the forenoon and last until long after midnight. The couple which dances longest without taking any rest is declared to have "danced down" the others.

Farming schools for women and girls are now operating in Germany. The pupils are taught the household and other duties which are the share of women on farms.

The movement from the farm to the city last year, is estimated by the Department of Agriculture to have been approximately 2,000,000 persons.

There are more than 800 distinct kinds of birds of 69 families in the United States.

RURAL SCHOOL METHODS SHOWN IN EXHIBIT OF EDUCATIONAL VALUE

Demonstrating the results of a practical and thorough-going assignment in Education 20, the members of this class in Rural Methods and Management last Saturday took just pride in explaining to crowds of visitors an exhibit which not only reflected creditably upon themselves, and their instructor, Miss Mary Adeline Lamb, but upon the entire college as well. The exhibit was neatly arranged on the second floor hall of the college building where many students, teachers and others stopped to look at the snapshots, pictures, and drawings, and examine the carefully planned models.

Assignment of the more than two dozen divisions of the exhibit was made to the class in groups. Ribbon awards for first, second and third places stimulated competition in the preparation of material. These blue, red and white ribbons were presented to group leaders Major Bruton, Vesta Carr, and Julia Forresteg, whose groups prepared the drawings illustrating principles of lighting and seating, the exhibit showing necessary agricultural equipment for rural schools, and the illustrations giving advantages of and showing needs for the out-door water-closets, respectively. All of these exhibits were carefully planned and showed evidence of thoughtful work.

The judges in this contest were Prof. R. P. Jarrett, Miss Annie Wood, D. M. Wiggings and Mrs. Bone.

Education 20 deals with the methods best suited to the management of country schools. Its plans are intended to be both conservative and practical. Its ideals are essentially those needed by the "average" country school. The content of the course embodies a general survey of the grounds, buildings, and equipment of country school plants, with particular attention to the improvements recommended by the State Board of Education and regulated in part by State laws. The limitations of country schools are recognized, but many opportunities to better the situations quickly and cheaply are pointed out; and it was for the purpose of interesting more people in this type of work that the exhibit was made public for a day.

Because the research work connected the pupils again with schools most of them formerly attended, they enjoyed their investigations. Incidentally, they found a motive for studying their home communities and saw in them fields for constructive activity.

Their interest was guided by definite assignments along the following lines:

1. Illustrations of suitable color schemes for classrooms.
2. Illustrations of different kinds of classroom and study-room desks and seats.
3. Illustrations of different kinds of jacketed stoves, accompanied by drawings showing principles of heating and ventilating.
4. Drawings of study or classrooms illustrating proper lighting and seating principles.
5. Exhibit showing different ways of properly adjusting window shades.
6. Exhibit showing window boards, etc., properly admitting light and air.
7. Drawings illustrating the hygienic principles of installing a water closet, or privy.
8. Drawings showing bubbling fountains practicable in country schools.
9. Sample charts showing value of

Hot weather is hard on teething babies. They suffer the combined misery of heat, pain and stomach disorder. McGee's Baby Elixir helps the little sufferer through the trying period by correcting the stomach and bowels. Price, 35c and 60c. Sold by City Pharmacy. 14t4

CANYON STEAM BAKERY

the hektograph, or duplicator, in the rural school.

10. Sample chart showing value of apparatus made by pupils themselves.

11. Exhibit of pictures of Texas rural school houses.

12. Exhibit showing types of out-door privies or water closets in Texas.

13. Drawings and pictures of suitable and necessary play ground equipment in rural schools.

14. Diagrams, etc., of needed agricultural equipment in rural schools.

15. Exhibit of limited manual training equipment.

16. Exhibit showing limited equipment for rural school domestic science classes.

17. Exhibit showing necessary library equipment.

18. Exhibit showing phases of community activity, such as: community singing, field day, etc.

19. Exhibit illustrating Boys' and Girls' Club work.

20. Exhibit of county school papers.

21. Exhibit of actual photos showing members of Education 20 learning to test pupils' eyes.

22. Exhibit of flowers and plants best suited to country school houses.

23. Exhibit of catalogues, bulletins, samples, etc., received by class during this term.

24. Written briefs accompanying exhibits for purpose of explaining methods used in collecting material, the purpose of the exhibit, and its relation to Education 20.

"A careful study of the exhibits and of these assignments," said a visitor, "shows what can be done in motivating the study of the theory of education and in connecting it vitally with the existing problems."

During commencement week of the last regular session of the Spring class of the same instructor showed a very large assortment of books, tracts, briefs, pamphlets, etc., illustrating the possibilities of securing material for use in any school subject. Many themes are said to have been based on material obtained in this manner.

Cragdarroch, the home of Annie Laurie, is for sale. It was at Cragdarroch that the real Annie Laurie lived after she was married to Alexander Ferguson, the prosperous laird she chose in preference to Douglas of Finland, who wrote the song that made her famous.

The wheelwright has a good motto for public speakers to remember: "The longer the spoke the bigger the tire."

A good attitude of mind is that of the man in a rowboat headed upstream. He knows that he must row even to hold his own.

A hurdy-gurdy in London has blossomed into a "radio barrel organ." The music box contains a radio receiving set with a loud speaker, surmounted by a small aerial. The outfit is novel enough to attract crowds of listeners.

"The well-being of mankind throughout the world," is the avowed aim of the Rockefeller Foundation. In the ten years, since it was established it has devoted itself almost wholly to public health and medical education. So far, it has spent \$76,757,000.

Up to the present time the French have done little prospecting for oil in France, but have bought nearly all of their motor fuels abroad. Recent changes in the French mining laws, advantageous to prospectors, and a government subsidy make it likely that borings will now begin. The most promising regions seem to be near the Auvergne Mountains and in the department of Ain.

Tests at the San Francisco plant of the Bethlehem Shipbuilding Corporation demonstrated that a miniature Diesel engine for automobiles will drive a small car fifty miles on 2 1-2 cents' worth of fuel. One fifty-horsepower engine in a car of standard make ran the machine for several months at a surprisingly small cost. The fuel is a light oil, the same that is now used in submarine vessels.

Responding at last to the urging of the press, the Spanish government is setting out to save from further decay the great Moorish palace of the Alhambra at Granada. An enthusiastic young architect who has been appointed curator has begun to secure the tottering walls and cracked arches with steel rods, so that the unsightly props that for years have supported the dangerous pieces may be removed.

The Cicada, or seventeen-year locust, will appear this year in many of the states east of the Mississippi. For seventeen years it lives in the ground as a grub, then suddenly emerges, takes wings and begins to "sing" in the tree-tops. The female lays eggs on twig and leaf; new grubs hatch, fall to the ground and dig in at once. The insects cause no permanent damage to mature trees, but may seriously injure nursery stock. This year's swarm is one of the largest and most widely distributed of all.

FACT AND COMMENT

The wheelwright has a good motto for public speakers to remember: "The longer the spoke the bigger the tire."

A good attitude of mind is that of the man in a rowboat headed upstream. He knows that he must row even to hold his own.

A hurdy-gurdy in London has blossomed into a "radio barrel organ." The music box contains a radio receiving set with a loud speaker, surmounted by a small aerial. The outfit is novel enough to attract crowds of listeners.

"The well-being of mankind throughout the world," is the avowed aim of the Rockefeller Foundation. In the ten years, since it was established it has devoted itself almost wholly to public health and medical education. So far, it has spent \$76,757,000.

Up to the present time the French have done little prospecting for oil in France, but have bought nearly all of their motor fuels abroad. Recent changes in the French mining laws, advantageous to prospectors, and a government subsidy make it likely that borings will now begin. The most promising regions seem to be near the Auvergne Mountains and in the department of Ain.

Tests at the San Francisco plant of the Bethlehem Shipbuilding Corporation demonstrated that a miniature Diesel engine for automobiles will drive a small car fifty miles on 2 1-2 cents' worth of fuel. One fifty-horsepower engine in a car of standard make ran the machine for several months at a surprisingly small cost. The fuel is a light oil, the same that is now used in submarine vessels.

Responding at last to the urging of the press, the Spanish government is setting out to save from further decay the great Moorish palace of the Alhambra at Granada. An enthusiastic young architect who has been appointed curator has begun to secure the tottering walls and cracked arches with steel rods, so that the unsightly props that for years have supported the dangerous pieces may be removed.

The Cicada, or seventeen-year locust, will appear this year in many of the states east of the Mississippi. For seventeen years it lives in the ground as a grub, then suddenly emerges, takes wings and begins to "sing" in the tree-tops. The female lays eggs on twig and leaf; new grubs hatch, fall to the ground and dig in at once. The insects cause no permanent damage to mature trees, but may seriously injure nursery stock. This year's swarm is one of the largest and most widely distributed of all.

ORDINANCE

An ordinance forbidding any persons owning, renting or having under their control and premises within the city of Canyon, to permit or suffer the same to grow up in weeds, grass or other growth so as to endanger the health of the public or communicate fire to adjacent premises, providing for a penalty, and declaring an emergency.

Be It Ordained by the City Commission of the City of Canyon:

Section 1: That it shall hereafter be unlawful for any person having under his control, or the agent of any such person, any lot or premises whether vacant or improved, in the City of Canyon, to suffer or permit the same to grow up in rank weeds or grass, or to suffer or permit any decaying vegetable matter or other debris on any such lot or premises, so that any such weeds or grass or matter herein may endanger the health of any adjacent owner or the public, or that in any manner can be considered a nuisance, or that may reasonably be calculated to communicate fire to adjacent premises.

Section 2: That any person violating any of the terms of the above ordinance shall be subject to a fine upon conviction in the Corporation Court in a sum not to exceed Ten (\$10.00) Dollars, and each and every day that the premises are permitted or suffered to exist in violation of the above Ordinance, shall constitute a separate and distinct offense.

Section 3: The failure on the part of the property owner to comply with this Ordinance, after ten days notice, the city may have the work done and charge same to property owner as a special assessment, and collect the same as an ad valorem tax.

Passed this the 2nd day of July, A. D. 1923.

Approved this the 2nd day of July, A. D. 1923.

R. E. FOSTER FILLING STATION

"THEY WILL BE DONE ON EARTH AS IT IS IN HEAVEN"

God's will is done indeed without our prayer; but we pray in this petition that it may be done among us also.

Yes, God's will is done. Nature does not refuse to fulfill the promise given unto Noah: "While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night, shall not cease." Even the wicked deed of Joseph's brethren is employed by God "to save such people alive." Who ever heard of a more terrible crime than the crucifixion of Jesus. "But God so loved the world that He gave His only begotten Son that whosoever believeth in Him should not perish but have everlasting life." The Gospel must be preached. When the disciples hide while Christ is suffering and dying on the cross nature takes up the testimony. The darkness of the three hours, the renting of the rocks, and the earth quake preach such a powerful sermon that the heathen centurion near the cross cries out: "Surely this was a righteous man and the Son of God."

If the will of God is thus done, what then is the meaning of the prayer: "Thy will be done?"

God's will is a good and gracious will. "God will have all men to be saved and come to the knowledge of truth." To teach this truth God has addressed His letter, the Bible, unto all men. By reading this letter we become acquainted with the Truth, Jesus, learn to believe in Him, and thus are saved. "He that believeth and is baptized shall be saved." And how shall we come to such saving faith: "Search the Scriptures for in them ye think ye have eternal life and they are they which testify of Me" says the Savior.

After we have learned to believe this testimony of Truth the Lord requires a holy life. "This is the will of God, even your sanctification." At Christmas time children are very anxious to please their parents. How can we remember the grace and mercy of God toward us and then not lead a life well pleasing unto Him. How ungrateful is man! God says: "Not by the works of the Law but by grace ye are saved through faith." Man claims to be able to please God by "doing the best he can" or "by living according to the level and the square."

But doing the will of God includes also much suffering. "Through much tribulation ye shall enter the kingdom of heaven." The life of the disciples of Christ is a life of suffering. Barely is a congregation organized when persecution forces them to flee into another city there to establish the preaching of the Gospel, that more may be saved. Are you discouraged with too much suffering, sickness, sorrow, failures, etc.? Remember, "without the cross, no crown." Your suffering is for your own or the salvation of some

one else, "to save much people alive."

Lutheran Services
Keenan School
Sunday 8:30 p. m. Subject: "Jesus came into the world to save sinners."
J. H. C. SIECK, Pastor.

BAPTIST ASSEMBLY NOTICE

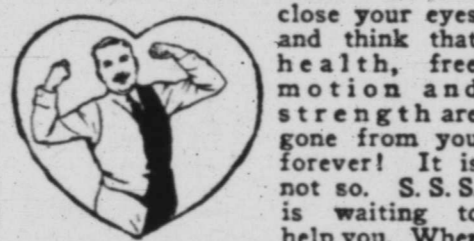

We had hoped that the Assembly management might open its doors to all people; that there should be no entrance fee; but because of our heavy expenses it was decided by the Board that every one who attends for a day or a part of a day, will be asked to register and leave twenty-five cents. However the night services and the Sunday services will be open free to all who may wish to attend. The Assembly opens July 24th.

B. F. FRONABARGER, Bus. Mgr.

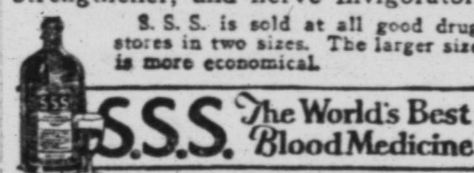

Among the many woes of China is a revival of the opium evil. Great Britain agreed to prevent opium from being sent into China if China would suppress the culture of the poppy and desist from making opium at home. For a time China did discourage and greatly reduce the home production, but when Indian opium ceased to be a competitor and anarchy spread over the country the laws were relaxed, and many of the provincial governments actually encouraged, and in some provinces required, the cultivation of the poppy for the revenue they derived from it. Now, it is reported, the crop in China is nearly as large as it was before there were any restrictions, and because of the official indifference the use of the drug has increased to an alarming extent. The production is reported to be enormous and the demand "limitless."

S.S.S. stops Rheumatism

"My Rheumatism is all gone. I feel a wonderful glory again in the free motion I used to have when my days were younger. I can thank S.S.S. for it all! Do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. S.S.S. is waiting to help you. When you increase the number of your red-blood-cells, the entire system undergoes a tremendous change. Everything depends on blood strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them." S.S.S. is the great blood-cleanser, blood-builder, system strengthener, and nerve invigorator.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

POSTED—My forty acres out of section No. 31, Block B-5, H. & G. I. known as a part of the R. G. Oldham tract, being located a mile north of town on the highway, across the road west of the Herman Wragge place. This land is posted and trespassers will be punished according to the provisions of the law. C. F. Kerr. 16f3.

RENOVATING—We will renovate mattresses for \$2.50 and up; call for and deliver the same day. M. W. Dooley, phone 9012F11 7tf

FOR RENT—100 acres of land to put in wheat. For terms apply Henry Schroeder, 5 miles south of Canyon. 15tf

LOST—Brown Whip Cord coat. A. C. Trawick, 309 Polk St., Amarillo. p1

FARM LOANS.
Long time, low rate, good options, quick service. Do not require school land patented. Also buy Vendor Lien Notes. Z. G. FOGERSON.

YOUR AUTO TOP—Does it need repairing in any way? First class material and workmanship in every job. Prices right. Thompson Hardware Co.

NO BETTER MADE—There are no better brands of typewriter ribbons and carbon paper made than the ones handled at the News office. Every ribbon and every sheet of carbon sold on a positive guarantee. The News supplies the big users of Canyon with ALL THEIR CARBON AND RIBBONS.

DALLAS NEWS—Semi-Weekly with the Randall County News, one year \$2.50; for three years, both papers, \$5.00. Leave orders at the News office. 1f

NORTHERN TISSUE—A reduction in price has been received on this high grade toilet paper. It is absolutely the best toilet paper made, nationally advertised, and guaranteed to be free from all chemicals. It costs only a little more. For sale at the News office. 23tf

HIGH CLASS STATIONERY—A very limited amount of Priscilla box stationery at the News office. It is one of the highest class box stationery on the market. A cheaper, but attractive Hammermill Box stationery. Call at the News office for your stationery.

ADDING MACHINE RIBBONS—At the News office. Also adding machine

Help Keep Canyon Clean!
A teaspoonful of Herbine will produce a copious and purifying bowel movement, improve appetite, restore mental activity and a fine feeling of vigor and cheerfulness. Price, 60c. Sold by City Pharmacy. 14f4

ADVICE TO THE AGED
Age brings infirmities, such as sluggish bowels, weak kidneys, torpid liver.
Tutt's Pills
have a specific effect on these organs, stimulating the bowels, gives natural action, and imparts vigor to the system.

Looking Forward

Perhaps you are one of the few who did not begin saving last year for a Summer Vacation this year.

If so, why not start right now to save for next Summer. And then when Vacation time arrives you will be able to come here and draw out a snug sum for a trip or to spend it any way you like.

Any sum you may wish to deposit will start you in this convenient method of saving.

Doesn't He Take It Wonderfully, Though

OH FELIX, ISN'T IT WON-DERFUL! JUST THINK MY HUSBAND A JUDGE AT THE PALM BEACH BEAUTY CONTEST! — THINK OF IT! — THE HONOR — THE NOTORIETY — AREN'T YOU THRILLED! — OH IM SO IM-PRESSED!

OH ITS NOTHING, MY DEAR — NOTHING! — WE MEN GET USED TO LITTLE THINGS LIKE THAT!
