

## CLYDE BANK OBSERVES FIRST ANNIVERSARY

### SWEET 'N' SOUR

By A. Dill

Was it a grand and glorious Fourth at your house? Firecrackers poppin', youngsters whoopin' it up, dogs having a vigorous break-down over the explosions while you plan a private one all your own as you cremate the hot dogs and hamburgers on the barbecue grill? You celebrate the Fourth, alright in fact, neighbor, you've had it. But what about the announcer on TV who comes up with the profound thought that the Fourth now-a-days is so much safer and saner than in the good days of giant crackers and cherry bombs. All of this while the traffic fatalities climbed to higher peaks. Personally, we wonder if we added to the safety of the young generation when we took away firecrackers and gave them automobiles. Haven't we smashed up more with cars than we ever blew up with fireworks. The choice between two evils is never a good one, but perhaps someday we'll learn to raise children and not hurt them at all.

This week's mail brought some extra special letters - one from Mrs. R. A. Webster, who is vacationing in Canada - touring picturesque Quebec with its rich historical places of interest.

Another card came from the Hawaiian Islands, where Richard Higgins is spending the summer with his father, Richard reports that the "paradise of the Pacific" is every bit as lovely as the travel folders imply, as just as geared to tourist trade as possible - prices sky high. Regardless of all the tropical island beauty, Richard is as much a Texan as always and he won't be a bit unhappy to be hittin' the trail back to the Lone Star State when vacation is over.

And a great big welcome home to the Townsends, who have been spending a well-earned few weeks on Padre Island, with sun, sand 'n' surf just the way a vacation at the seacoast should be. The youngsters, Ken, Kathy and Tommy loved it, but it's also a special sort of fun to be home and mix in' it with their friends again.

Baird said a sad goodbye to a very special family this week when the Frank Gardiners completed their move to Roswell, N. M. The Gardiners were valuable citizens and excellent neighbors - we will miss them in both capacities.

Roberta and Hubert Ross, Bobby and Kisty returned this week from visiting in El Paso and Mexico, and just in time to welcome Dwight and Mary Mayes, Mary, Steve and Pattle, who came down from Borger for the Fourth.

Tatchee and Mac McElroy had a special visit from a special person this week - Katie Lou Moore, daughter of Denver, Colo., was here for a short call. Tatchee, by the way, is adding daily to her lovely Antique Shop and right now she's busily designing a most distinctive professional card for the shop.

Good news of the week - Jessie Odom is home after a bout with a virus infection, which had young lady hospitalized last week.

We had a good neighbor call this week from Frank Anderson, who gave us this news - "be sure and see Mattie Ash-branner's crepe myrtle tree - it's a beauty" - and how right Mrs. Anderson was, for the myrtle, a gorgeous pink one, is so full of blooms that it appears to be one huge nosegay. If you love the luscious melon color of crepe myrtle, you'll cheer for it.

Another lovely yard belongs to Mrs. Bessie Henry. Really, this lady's outdoor living room is one of the most artistically arranged yards you'll see anywhere - carefully landscaped with winding walks, green carpets of grass and colorful flower beds - its might easily be a page of Better Homes and Gardens suddenly alive. Mrs. Henry loves her beautiful yard, she loves people, too, and you'll be assured of a warm welcome there.

A great big happy Birthday to our Fourth of July girl, Doris Ann Shelmutt, who celebrated this week with friends, firecrackers, 'n' treatments - just a perfect way to welcome any birthday.

Now that the Howard has taken on the week of Superstitions...

### Miss Ruby Barr Dies at Clyde

Funeral for Miss Ruby Pearl Barr, 80, a longtime Clyde resident, was held at 2:30 p. m. Friday at the Clyde Baptist Church with the pastor, Rev. Harold Watson, officiating.

Burial was in Clyde Cemetery under direction of Bailey Funeral Home.

Miss Barr died at 8:45 p. m. Wednesday at her home, after a week's illness.

Born Nov. 21, 1880, in Kentucky, she came to Texas with her parents in 1882, settling in Celeste. The family moved to Clyde in 1904.

Miss Barr was a former Sunday School teacher of intermediate age youths at the Clyde Baptist Church. She joined the Baptist Church in 1897 at Cooper in Delta County.

Surviving are three sisters, Miss Susie Barr, Mrs. Allie Cole and Mrs. C. S. Reid, all of Clyde; two brothers, W. H. Barr of Corpus Christi and J. S. Barr of Anson; and a number of nieces and nephews.

E. Connel and children of Avoca, Mr. and Mrs. W. L. Mann and children of Earth, Mrs. F. J. Liddell of Lamesa, Mr. and Mrs. Jeff Reid and sons, Ernest Reid of San Antonio, J. W. ### CP Bank Director Buried at Dallas

Funeral services for Marshall Newcomb former Dallas attorney was held Tuesday, June 27 at 2:30 p. m. from Marrs-Mundv-Owll chapel in Dallas, with Mr. William C. Jones officiating. Burial was at Hillcrest Memorial Park in Dallas.

Mr. Newcomb died in his sleep Sunday night or early Monday morning at his ranch near Bluff Dale. He had recently been a patient in a Brownwood hospital, however, was thought to be recovering normally. Death was attributed to heart disease.

Newcomb, 58, was a graduate of the school of law at Southern Methodist University in Dallas, and had served 30 years as general counsel for the Lone Star Gas Company. He retired about two years ago and had devoted much of his time to ranching. He owned a ranch near Morgan Hill in Erath County, although the family home was in Dallas. He was on a short trip to the ranch when fatally stricken.

Survivors are the widow, the former Berna Louise Brightwell, daughter of the late W. P. (Nick) Brightwell and Mrs. Brightwell of Baird; a son, Marshall Jr., and a daughter, Mrs. Nancy Young of Dallas; two sisters, Mrs. Mark Coston of Brenham and Mrs. Arnold H. Bethel of St. Petersburg, Fla.; one granddaughter and several nieces and nephews.

Bruce O'Brien and Debbie Bell of Abilene, spent the week end with John Lambert and other relatives.

endent of public schools here in Baird, and all of the pressing activities of that position, he has left the swimming pool - if you have missed the likeable gentleman from his usual summer stand, this is why. However, your pool is still in good hands - Coach Jefferies is now in charge and you can rest assured that your young swimmers are in careful hands. Pool hours and policies, we believe, remain the same.

Work on the First National Bank is nearing completion and the building is certainly going to be an asset to our town.

And that signs a nice warm 'n' humid thirty to this first week of July, and regardless of how we grouch about the celebratin' the Fourth, it really was a nice one and we aren't anti-holiday at all. The growls are just the tall-tale murmur of age and we'll be ready for another one (just give us time to re-supperate).

### Committee Seeks Taxation Views

A public opinion poll on State taxes, covering all major legislative proposals, will be sponsored by the Citizens for Fair Taxation, Chairman J. E. Connally announced today.

It will be distributed and published throughout Texas to determine the majority views on taxation, he said.

"Our poll will be strictly non-partisan and will give the public an opportunity to express opinions on a variety of revenue proposals," Connally said. "We are confident that such a poll will reveal that Texas overwhelmingly favors a compromise tax program."

Connally said many people have been misled as to the basic issues involved in the tax controversy. He declared:

"Already, lobby-dominated 'sales tax' organizations have poured thousands of dollars into an 'anti-compromise' campaign. They are sending out so-called polls to selected special interests with instructions to rig them in favor of a general retail sales tax, which is the only revenue proposal listed on their poll.

"The Citizens for Fair Taxation poll lists 11 tax categories and proposals. It is a public service project and distribution of the polls will be general throughout the State. Our chief concern is to help in every way we can to determine majority views and build support for a compromise broad-based tax program that places the revenue burden fairly and equitably on consumers and business alike.

"Members of the Legislature are responsible, devoted men and women, and I have every confidence in their ability to resolve conflicting views."

Following is a copy of the poll which will be mailed out:

#### PUBLIC OPINION POLL ON STATE TAXES

With Texas needing new taxes for improvements in public education, teacher salaries, aid to aged, and other essential programs, which of the following broad-based taxes would you favor?

- 1. General retail sales tax on all purchases over 25 cents. Yes... No....
- 2. Limited sales or excise taxes which exclude food, medicine, rent, farm supplies and low cost clothing. Yes... No....
- 3. State income tax. Yes... No....

Assuming that additional taxes are needed on one or more of the following, which would you favor?

- 1. Gas pipeline companies. Yes... No....
- 2. Increased tax on oil production. Yes... No....
- 3. Increased tax on gas production. Yes... No....
- 4. Retail tax on beer, whiskey, and other alcoholic beverages. Yes... No....
- 5. Interstate corporations. Yes... No....
- 6. Soft drinks. Yes... No....
- 7. Corporate income tax. Yes... No....

For many years Texas has had an "escheat law" providing that unclaimed and abandoned funds belong to the state when no owners or heirs exist. Do you believe enforcement procedures should be enacted by the Legislature so that such money can be returned to the lawful owners or heirs, or be turned over to the state if none exist? Yes... No....

**Doctors Urge Strict  
Controls for Drivers**

A highway billboard illustrat-  
ing the bloody, crumpled body of  
an automobile accident victim  
may have little effect on a holl-  
iday driver.

But, would he be more cau-  
tious if threatened with loss of  
his driver's license?

Two doctors, one from Wich-  
ita Falls and one from Detroit,  
writing in the June issue of the  
Texas State Journal of Medicine,  
plead for stricter controls on all  
drivers.

Dr. Donald N. Sweeney, Jr., of  
Detroit whose article "A Privi-  
lege - Not A Right" was first  
published in the Detroit Medi-  
cal News, calls on physicians to  
convince their patients who are  
not qualified to drive to give up  
the privilege.

"Improper organic defects or  
emotional disturbances which  
prevent the proper management  
of a motor vehicle should be re-  
noteable," Dr. Sweeney declares.  
"These medical aspects of traffic  
safety are fundamentally the  
responsibility of the medical  
profession. In this area, there  
can be no regard for 'hardship  
cases.' You may be the next ac-  
cident victim. Survival depends  
on a driver who is mentally  
alert, in good physical condi-  
tion and emotionally aware of  
the dangerous task as is per-  
formed."

Dr. Sweeney thinks that the ba-  
sic solution "to our national  
public health problem of high-

**Sauce Magic For Party Use**

Desert sauces can do wonders for ordinary party fare. They almost magically turn ice cream servings into delicious sundaes, and cakes and puddings of the usual type into extra-rich creations. The secret is in the use of sweetened condensed milk. It cuts the sauce-making time in half, for in the making of this convenience product, sugar is blended with whole milk and then condensed to double richness. Make several types of desert sauces this time-saving way, and let your guests use a flavor of their own choice. Here is a group of six magic ice cream sauces, developed by the Borden Kitchen.

**Another good reason for Confidence in a growing America**

**SEED MONEY—\$12 BILLION A YEAR!**

Spent in research, it's sure to produce the biggest crop ever of new products and new jobs

If you want to know what's ahead for America, look at the growth of research and development. Today research is our fastest-growing industry—which is important because it feeds and stimulates all the others. In the Twenties, American business spent less than \$100 million a year on research and development. Early in the Fifties, it had multiplied 50 times to more than \$5 billion. Today it's running at \$12 billion annually—as much as the whole national output in 1890:

Research grows so fast for one good reason. It pays off. Every dollar invested in it produces several more in improved products and consumer preference. Some developments, such as the release of nuclear energy, herald a whole new age. All are forerunners of change and growth.

New metal alloys and stronger plastics

—jet travel, the wonder drugs and television—these have provided thousands of new opportunities. But they represent only the beginning. Rockets, space exploration and electronic brains add exciting new possibilities.

Already another upswing is in the making. It can be the prelude to further growth—if we are all determined that it shall be. We can help to bring this about if we recognize that our own future is bound up in the welfare of all. By working together we can so advance our nation's strength and well-being that our way of life will stand as a beacon for the entire world.

FREE—Write for illustrated booklet, "The Promise of America." Box 222, New York 18, N. Y.

**GET READY FOR AN UPSWING!**

**MORE PRODUCTION**—U.S. production doubles every 20 years. Our annual output is due to rise \$300 billion in 1971!

**MORE INCOME**—Today's \$6500 per family represents an all-time high!

**MORE SAVINGS**—Now at the highest level ever—\$375 billion!

**MORE JOBS**—There are 15 million more jobs than in 1939—will be 22 million more by 1975!

**MORE EDUCATION**—By 1970 we'll have 20 million more high school graduates and 3 million more college graduates. They'll earn more, live better!

**MORE LEISURE**—40 million Americans get paid vacations, and there are 16 million people over 65, many of them with retirement income to spend!

**MORE MARKETS**—U.S. exports, plus output of U.S.-owned plants overseas, already account for over \$60 billion in sales!

**MORE HOMES**—Schools, hospitals, highways, homes—we need billions in improvements right now!

way destruction" lies in more education. If necessary he thinks courses in art, music and home economics should yield to driver training in the schools. In addition, he believes that courses should be required for the public not now in school - not only for beginners but also for those whose licenses have been in jeopardy or revoked.

Other points Dr. Sweeney makes are: a chemical test of breath or blood be demanded in all instances in which driving while drinking is suspected, and automobile designers must assume that some crashes are unavoidable and others inevitable.

"Extra cost and safety devices such as harnesses, door-locks, polarized headlight lenses, high extension seats, shock absorber bumpers can be compensated for by less chrome, less hood ornaments, fewer knick-knacks and knobs. It is astounding to see how little has been spent on safety devices compared to advertising for sale of an automobile."

Dr. C. Mac Geyer of Wichita Falls reports in his article, "Connecticut Highway Safety," on the positive program initiated in Connecticut to halt highway slaughter.

The program is based on the premise that fear of death does not slow drivers, but fear of loss of license does.

Deaths in Connecticut were drastically reduced after the strict program was initiated in 1955. By 1959, Connecticut had

the nation's lowest traffic death rate.

"In Connecticut," Dr. Geyer notes, "the first speeding conviction means loss of license for 30 days, second offense 60 days, and third conviction an indefinite suspension."

According to the Wichita Falls physician, statistics show that excessive speed, the greatest killer, causes 37 per cent of highway fatalities and drunkenness causes 30 per cent. For the latter, first offenders in Connecticut lose their license for one year, second offenders for five years, and third offenders permanently. In addition, there are mandatory jail sentences -- a minimum of 60 days for second offenses and a minimum of six months for the third offense."

Dr. Geyer would like to bring the program to Texas: "The results obtained warrant the earnest consideration of the merits of such a program."

The Texas State Journal of Medicine is published monthly by the Texas Medical Association.

Mrs. Clarence Hamilton and daughter, Linda, visited her father, Arthur Burleson, Mrs. Burleson and the A. V. Curtis family last week end.

## Highway Deaths Exceed Disasters

J. O. Musick, General Manager of the Texas Safety Association and Coordinator of the Annual Slow Down and Live Program, makes this comparison:

September 8, 1900, was a warm, cloud-flecked day in Galveston, Texas. Slowly the skies turned yellow, the beating of the waves on the wooden wharves increased in tempo, the skies darkened and the wind came. Inexorably, the sea rose about and through the city. Houses crumbled and washed away. Trees and railroad ties spun through the streets on sand and mud-filled torrents. Babies were wrenched from their mother's arms and husbands watched helplessly as their families were swept away or crushed by falling debris. When the sea and winds receded, 8,000 people were gone.

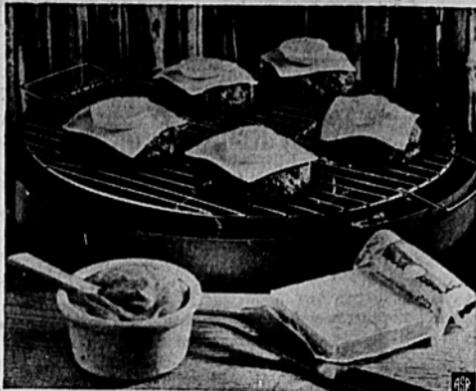

The Galveston tidal wave was one of three of the most dreadful "natural" disasters the United States has ever experienced. The Titanic, which struck an iceberg on a clear evening in April 1912, carried 1,517 people with her to the bottom of the sea. The Johnstown flood, in 1889, swept away the lives of 2,209 people. By appalling coincidence, these three disasters prove that man is more destructive to himself than any of the forces of nature. In the three disasters a total of 9,726 lives were lost. In just three consecutive months, June, July and August, 1958, 9-

726 lives were also lost. But in 1958, man, himself, was responsible. 9,726 men, women and children were needlessly slain in traffic accidents on our streets and highways during those months . . . the exact number lost in the three "natural" disasters. And the terrible toll goes on, year after year, unheeded by the motoring public!

Musick asks the help of every conscientious driver in the State of Texas in preventing needless disaster on our highways this summer. In a special statement, he stated that speed is our number one killer and that even though special enforcement programs are now in effect, the major responsibility must rest upon the driving public. He urged that every motorist pay special attention to the international SLOW DOWN AND LIVE safety program, now being sponsored for the 9th consecutive year by the Association of State and Provincial Safety Coordinators. This program, which has grown to become the largest single safety education program in the world, has proven its effectiveness in saving lives. "We must halt the needless slaughter on our highways," he said. "With citizen support and sane, safe driving practices we know we can."

Mike Reynolds, of Las Cruces, N. M., is visiting his grandmother, Mrs. J. M. Reynolds and Hazel. They all spent Monday and Tuesday in San Angelo with the Buddy McWilliams family.

## Variations on a Cheeseburger

With outdoor cooking time here, the cheeseburger again reigns supreme. Perhaps this is because it is so easy to make that even an amateur can't fail.

Actually, its popularity is due not so much to this ease of making, as to its universal appeal and the variety of ways in which it can be served.

The cheeseburger artist knows how to vary his offering, using different types of cheese to enhance the flavor of the ordinary hamburger. Among the ready-sliced varieties which he favors are American, Swiss, Gruyere and Vera-Sharp.

That's about all it takes to win fame as an expert cheeseburger maker—except that a slice of raw onion atop this creation turns the finished product into a real taste treat.

Incidentally, cheese slices are so adaptable that they serve many other outdoor-dining uses. Either the 6-oz. eight-slice package or the 12-oz. sixteen-slice family size is convenient for making quick sandwiches. The slices are also an ideal topping for a macaroni casserole. Just place several slices atop the casserole before baking. And, of course, use these convenient slices in making hamburgers outdoors or indoors, for it's a favorite year-round favorite for all ages.

A. Reynolds was comfortable, but had recently caught a fall. I say again, we are proud there were no broken bones.

Our sympathy to the loved ones of J. C. Russell, who passed away last week.

News gets around slow to your reporter, but I managed to get the best part and that (Ma) Ola Roberts was much better, but had been very ill in the hospital with a severe cold that just stayed with her too long.

Our friend, Mrs. Jewell Barton had surgery for varicose veins. Last report was that she plans to be back home in a few days. Here's hoping Jewell will soon be on the go again.

Well, its firecracker time and no firecrackers, so guess me and my house will just have a quiet day at home. The rain showers are helping to keep temperatures down for the first day of July.

To a Dear Ruth in Bakersfield Calif., I must say Hi. You should have been along as we went over the mountain last week. I know

the history you have of the families who used to live in the Jim Ned Community. Many days gone by would have been repeated in thought and words.

Just a reminder that the Jim Ned Homecoming days are as near as the 3rd Sunday in July.

Mrs. L. V. Harris, Lynda Crawford and mother visited the aged in the Nursing Home Wednesday in Abilene. Uncle Willie Avery, 90 years old, is steadily growing weaker, and my dad, M.

## It's the Law in TEXAS

### ROVER'S LAST ROMP

Rover, a Great Dane weighing 135 pounds, was owned by the people down the street. One evening Rover entered Mr. Brown's yard and savagely attacked his 35 pound Cocker Spaniel. It looked as if Rover was about to kill the smaller dog when a quick thinking neighbor frightened the larger dog away by firing a shotgun in the air.

Mr. Brown put his badly injured dog in the car to rush him to the veterinarian's office. He had just left his driveway when he noticed Rover heading toward a small child. Thinking that the dog was about to attack the child, Brown drove his car into Rover, killing him.

Rover had been an expensive dog, and his owner sued Brown for damages for what he claimed was the wrongful killing of his pet.

Did Mr. Brown have the right to kill Rover?

Yes, he did. The court held that a person can kill a dog for the purpose of defending himself or third persons against harm threatened by the animal. Rover's actions led Mr. Brown to know, or reasonably believe, that he could prevent an attack on the child only by killing the dog.

Brown also could have legally killed Rover at the time that he was attacking his dog. A landowner has no right to kill a dog which is merely trespassing, or even because it is engaged in a fight with his dog. However, if it reasonably appears that it is necessary to kill another dog to protect your dog from death or serious harm, or to protect yourself, your property or other persons from harm, then you may legally kill the dog.

The law will not permit you to kill a dog simply because you don't like its bark. Remember, a dog is still man's best friend.

## Farm Bureau Head Says Only Small Minority Endorses Cochrane-Freeman Bill

The president of the largest farm organization in the state declared last week that most farmers and ranchers in Texas reject the Administration's omnibus farm bill which Agriculture Secretary Freeman promoted during his visit to central Texas recently.

J. H. West, president of the 81,000 member Texas Farm Bureau, said that organizations representing only a small minority of Texas farmers and ranchers had actually endorsed the Cochrane-Freeman farm bill.

"According to reports we have received," West stated, "many people over the state and nation were given the false impression that Texas farmers and ranchers were united behind the Administration's bill."

A meeting of farm organizations over the state was called for Waco on the eve of Freeman's visit. Purpose of the meeting, according to Alex Dickie Jr., of Denton, president of the Texas Farmers Union, was to endorse the Kennedy farm program. Dickie exhorted "all" farm groups to attend and sign a resolution of endorsement. Only three organizations signed the resolution which was presented to Freeman in Rosebud, Agriculture Commissioner John C. White stated that he had received six other "proxies" which were added to the resolution.

White, who helped promote the meeting, said organizations which formally endorse the Administration's farm bill are: Texas Turkey Growers, Texas Sesame Producers, Texas Federation of Cooperatives, Texas Grange, Texas Farmers Union, Old Cottonbelt Association, Grain Sorghum Producers, Southwestern Peanut Growers, and Texas Wheat Producers.

"The Texas Farm Bureau, largest general farm organization in the state by at least ten times was not invited to this meeting," West said. "Even if we had been invited, our policies which are diametrically opposed to the principles behind the Cochrane-Freeman bill, would not have permitted our endorsing such a bid to concentrate unprecedented power over the destiny of American agriculture in the hands of the Secretary of Agriculture and Executive Branch of government."

## ANOTHER BIG REASON BEHIND THE BIG BOOM IN FORD SALES:

Ford wagons have features that only America's station wagon specialists can bring you.

There's a wagonload of reasons why more people prefer Ford wagons. There's more room. Ford's extended load deck is the longest and widest in its field. There's more convenience. You can have a power-operated roll-down rear window in any Ford wagon. There's more distinction. The Country Squire (above) is the only wagon in its field with body panels that look like mahogany, wear like steel.

There are more savings. Ford's Ranch Wagon is America's lowest-priced,\* full-size wagon. And like all Fords, every Ford wagon is built to be more service-free: goes 30,000 miles between chassis lubrications, 4,000 miles between oil changes. Stop waiting for that wagon you've always wanted. Swap for a '61 Ford wagon now! Save for a '61 Ford, the wagon America loves most!

Today is the day to STOP... SWAP... SAVE

**Homecoming Set At Jim Ned, July 16**

A basket lunch will be served at noon, and a Gospel Singing will be held in the afternoon, beginning at 2 p. m. A Union Camp Meeting will begin at 7:30. There is plenty of Free Camping accommodations one mile north of Rogers, eight miles east of Tuscola, on the old Jim Ned Camp Meeting Ground. **Some Social Security Changes Automatic**

Most of the Baird area residents who will directly benefit at this time from the Social Security Amendments signed into law by the President on June 30, do not need to write or contact their social security office, according to R. R. Tuley Jr., Abilene district manager for the Social Security Administration.

He has furnished us the following summary:

**Automatic Changes:**

1. Aged widows already receiving benefits on their late husbands' accounts will get a 10% increase in September, for August, 1961.

2. Beneficiaries with no dependents, who are receiving un-reduced benefits of less than \$40 will be raised to \$40 in September, for August.

3. Women receiving reduced retirement benefits because they started being paid before age 65, will get some increase if their basic rate, before reduction, was less than \$40.

Persons in the above groups do not need to take any action at this time.

**Non-Automatic Changes:**

4. Men may now receive benefits at age 62; on retirement, as dependent husband, or dependent widower, or dependent parent. Men with continued high earnings (over \$1200 per year) should check to see whether some payments would be possible despite such high earnings.

5. Some persons whose claims were denied before this month because they did not have enough credits under social security should make new inquiry. The minimum requirement of 1½ years of credits was not changed; however, for those who

**Child's Arm Turns Hard, Stony; Medical Treatment Slows Process**

Christine Versluis, who is nine and lives on the shores of Lake Ontario at Hilton, N.Y., is unable to straighten her right arm because of rheumatic disease.

Her arm and parts of both shoulders are becoming increasingly calcified, which means change of the muscle tissue into a hard stony substance.

This somber-faced child is the tragic victim of dermatomyositis, one of the forms of rheumatic disease. Another form is rheumatoid arthritis. The majority of people don't know that children suffer from arthritis; they believe mistakenly that arthritis affects only the aging—someone's grandfather or grandmother, surely not the very young.

But there is urgent reason today why grownups and parents especially should be intelligently informed about arthritis among children. Dr. William S. Clark, director of medical care of The National Foundation, whose expanded program embraces arthritis, birth defects and continued work in polio, said this week:

"Rheumatoid arthritis is a type that can make children very ill indeed. They may become severely crippled. Their joints may 'freeze.' Happily, we can now demonstrate today that with proper treatment and care, most of the crippling caused by juvenile rheumatoid arthritis can be prevented."

But the cardinal point, Dr. Clark emphasizes, is that thousands of children have rheumatoid arthritis without knowing what the disease they suffer from really is. Their parents may dismiss the aching in neck, knees, wrists or elbows (or, more rarely, in all these joints simultaneously) as "growing pains"; or for a vari-

Nine-year-old Christine Versluis must hold her right arm in this awkward upright position because it is turning into hard, stony substance. But there's hope for her in research sponsored by The National Foundation.

ety of other reasons, the right diagnosis is not made.

"We now estimate that in the United States, more than 50,000 adults who suffer from rheumatoid arthritis had their actual onset of the disease in childhood," Dr. Clark added. "Had they received modern treatment at that time, most of the crippling in maturity could have been prevented. That's one reason why The National Foundation's program in arthritis and patient aid for the young is so significant."

Child victims of rheumatoid arthritis are estimated to total 30,000 in this country alone, with 16,000 a year ill enough to need medical care. About 5,000 or 6,000 of these may require treatment as intensive as the rehabilitation needed for those stricken by paralytic polio.

There are at least 11 millions in the nation today who suffer from some form of rheumatic disease, including arthritis. Rheumatoid arthritis victims

total about 1,500,000. The disease is the nation's No. 1crippler.

To return to Christine, the little girl with the arm and shoulders turning into a stony element, she is receiving treatment at the March of Dimes-supported Arthritis Study Center at the University of Rochester School of Medicine—one of four National Foundation arthritis centers around the country. Her doctors hope they are slowing the advance of calcification but the outlook at this time is not certain.

Uncertainty, then, is the disquieting prospect facing this little girl. Her mother, Mrs. Eugene Versluis, hopes that if enough people support National Foundation research, perhaps in time Christine's right arm will fall back where it belongs and the stoniness will disappear; and that eventually the appalling figure of 30,000 children with crippling rheumatoid arthritis each year will decline.

Mr. and Mrs. Joe Gibson of Odessa visited their daughter, Mrs. Bob Hunt and Mr. Hunt at Abilene last week, also visited her sister, Mrs. J. M. Watts at Clyde, who is ill.

Mr. and Mrs. Paul Varner and children, Mary Ann, Paul K. and Raleigh Max, of Farmington, N. M., left last Friday for home, following a two week's visit with their mothers, Mrs. Margie Ray and Mrs. Mary Mae Varner.
