How lovely is Easter,

What gladness and joy

It holds a rich promise

That break into beauty

O, glad is the world

Its coming can bring;

As bright as the flowers

On this brightest of days,

When nature joins mankind

In glad songs of praise;

For no heart can be heavy,

No heart can stay cold,

Each pathway with gold.

As its sunshine envelopes

And bloom through its hours

The Queen of the Spring,

Konjola is sold in Baird, Texas at City Pharmacy and by all the best druggists in all towns throughout this entire section.

LAW FORBIDS PLACARDS ON STATE HIGHWAYS

The state highway department has issued a form letter to all division engineers calling attention to the fact that there is now a law in Texas prohibiting placing political placards along the state highways within the right-of-way. The letter says in part:

will be very soon faced with the problem of candidates' posters and other advertising informations of that nature on state highways. We have, for the past three years, barred advertising from the right-of ways and this has prevented merchants and others from using said right-of-ways for informing the traveling public of their wares.

"Two years ago we did not interfere with candidates posters for the reason that many thousands of them were already on the right-ofways before we were aware of the extent of the problem, but we wish this year to consider such signs of the same nature as merchants' or business men's advertising and prohibit their erection on the right-of-

it's wise to choose aSIX

sale value.

There is one sure way to get greater value in a low-priced car todaychoose a Six!

This greater value is instantly obvious when you drive a Chevrolet Six. You notice first of all its greater smoothness. There is no tremor in the steering wheel-no rattle in the floor boards-no rumble or drumming in the body.

In addition to the finer performance of its six-cylinder motor, the new Chevrolet gives you truly remarkable economy.

Its six-cylinder smoothness saves the entire car from the strain and wear of vibration. This, of course, lowers the cost of maintenance and assures a longer-lasting, longersatisfying automobile.

From the standpoint of operating expense, Chevrolet is equally economical. No other automobile consumes less assoline and oil. No other shows a lower expense for tires. And

no other car costs less for service. Because of its modern engineering, Chevrolet also assures a high re-

Chevrolet gives you fully-enclosed, weather-proof, 4-wheel brakes; a modern fuel system-with the gasoline tank mounted in the rear; four long semi-elliptic springs, mounted lengthwise in the direction of car travel. It gives you beautiful Fisher bodies built of combination hardwood-and-steel. It gives you a heavy, rigidly-braced channel-steel frame. And it gives you a full ball bearing steering mechanism.

Before you decide on any car in the low-price field, see and drive the Chevrolet Six. The more thoroughly you investigate, the more certain you are to conclude that it's wise to choose a Six-for value, for performance . . . and for eco-nomical transportation!

TELLS STORY OF NEW LIFE

On Easter day, the year of our Lord, 1930, church bells ring from early morning till after dusk has Congregations in the Christian churches listen to the cantatas, carols, anthems, and perhaps join in the singing of the hymns sung by soloists and choirs at morning, vesper and late evening serv-

was a religious spring festival long before the crucifixion of Jesus Christ upon the cross brought to that period of the year one of the miss it, you will miss omething two great festivals of Ostara, god-really worth while. two great festivals of Ostara, god-dess of spring. According to the belief of the ancient Norsemen, Ostara was supposed to bring the earth rebirth. Life was the theme of those original Easter carols -new life on earth. Today the Christian world listens to the story announcing definitely that there is life after death in another sphere, which is the message of the Christian Eastertide.

The early Easter carols were songs accompanied by dancing. The Easter egg and rabbit, symbols of prolific reproduction, still the symbols given in toy form to little children at Easter. The Easter bunny has assumed legendary fellowship with Santa Claus. The many colors of the Easter eggs were originally planned to reflect the glory of the Aurora Borealis, the rising sun, so significant in the lands of the Norsemen where the sun warmed and thawed running streams and made the earth fertile and livable again.

Rituals of Paganism. In those pagan Easter rituals the hearthfires were rekindled to disperse winter's evil, dying germs, and youths and maldens seeking about the new fires or leaped over the flames

The Greek and Latin word for Easter—celebration of the spring festival-was pascha, a direct rivative from the Chaldee word sig-nifying "passing" (the Hebrew, pesach, or the festival of the passing over of the Hebrew households, as recorded in Exodus 12).

Socrates, ecclesiastical historian of the Greeks, mentioned that in the Christian church's earliest days, while the memory of the actual Crucifixion was still vivid, "the apostles had no thought of appointing festival days, but of promoting a life of blamelessness and plety." He attributes servation of Easter by the churches as resulting "just as many other

old customs have been established." It is interesting that, musically and otherwise, so many of the origpagan Easter customs have been handed down to present days under the new cloak of Christian meanings or interpretations of the original significance. Christian churches continue the ritual of blessing water and its purifying qualities. In the old days the children carried garlands of flowers to decorate fresh springs and the banks of streams; today many churches have numerous baptisms of infants as a leading feature of the chief service.

The Christian version of the East-

er carol is the most popular form, possibly excepting the hymn, which likewise had its pagan origin in odes or songs of praise sung in honor of pagan gods or heroes. The anthems, on the contrary, are later in date and were originally planned to be sung, as the name indicates, antiphonally, or responsively. Easter Hymns and Anthems.

Monday, in the White House grounds at Washington, lighter Washington, lighter themes of Easter music are played by the United States Marine band, tional Capital roll their Easter eggs behind the President's Mansion, and eat candy chickens and rabbits.

The children, too, place bouquets of flowers in huge crosses in many children's Easter churches and they sing the most familiar carols.

precent-day version of the original Pascha candle will be found on the altar in many churches. olden days of early Christianity, in some of the cathedrals of medieval England, the Pascha candle was of huge dimensions. Records show that the elaborately constructed brass candlesticks in Durham cathedral had a height of the central stem of 38 feet, with branch candelabra for smaller candles at the four cardinal points, giving the entire height of 70 feet. The candles were lighted from an opening In Salisbury cathedral, in 1517, the candle used for burning during the entire period of Whitsuntide, was 36 feet long of itself. After Whitsuntide was over, what remained of the Pascha candle was melted and made over into small candles given to the poor peo-

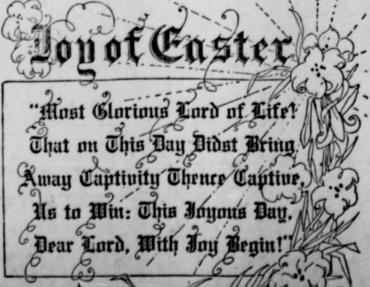

It is easy to realize, through the and music, that the world, Christian and pagan, has a supreme, uni fled interest in the spring festival known as Easter. Whether it be in celebration of the rebirth of earth itself as according to the ancient Norse idea, or the Christian belief in the rebirth of the human soul after passing through the vell most vitally significant festival of It is quite natural that music, the art that gives the greatest number of people emotional outlet for such celebrations, should be the dom-inant feature of the services in all churches on Easter day.

Spring Comes With Easter

Easter is a restless festival. If you aren't coming you're going, and no matter which it is, you're never still very long. It's the smell of spring in the air. It doesn't make much difference what the calendar says about the first day of spring because nobody ever believes it's really here until Easter has ar rived. Then the violets and the crocuses can come out all they want to without being afraid of in-fringing on the rights of winter.

Saw Triumph of Ideals

The Resurrection was as great a reality in the experience of the disciples as the Crucifixion. For them the triumph of Rome and its alliover their hopes and their faith was short-lived. The dawn of Sunday brought them assurance that the real triumph lay with the ideals which Jesus had proclaimed. From that hour forward they were con vinced that He was right.

Are You Safeguarding Your Family's Heatin?

With every passing day, it is becomng more and more a recognized fact nat electric refrigeration is no longer a xury for the privileged few, but an tual necessity-an essential safeguard the wellbeing of your household.

Foods kept in the healthful dry temperature of the Frigidaire-constantly. below 50 degrees - are permanently protected against food-spoilage and the over-present danger of bacteria.

You cannot afford to be without this year 'round protection. You owe it to yourself and to your loved ones to investigate the many health and convenience features of the New Frigidaire.

Children Cry for It

Castoria is a comfort when Baby is fretful No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Where a sonville, Nacogdoches and other The road to Houston is already good.

To get to Austin it would only be necessary to fill in gaps from Singleton to Bryan and from Lexby the designated Federal and state highway, through Madisonville. Corsicana and Ennis, most of which is yet unbuilt.

Huntsville already about an hour and a half from Houston, can thus be placed in about three and a half hours of Austin and four and a half hours of Dallas over good roads by bus and truck, many intermediate towns and a large rural areas would get caught in them at night unable be benefited, penitentiary congestion would be at least temporarily helped, Huntsville would be happy. conflicting interests could find no cause for complaint, and a fine start SAVE WITH SAFETY would be made in converting the old prison into a modern plant at the least expense.

Nueces County Diversification

Although Nueces county, with 123,703 bales, leads the state and probably the world, in cotton production, its newspapers are not especially proud of the record and are preaching diversification, evidence of which s now see nor every hand.

Robstown alone has shipped over 400 cars of vegetables this season shipments reaching as high as 75 cars a week. From Odem a solid trainload of radishes, 17 carload and said to be the largest shipmen of radishes

In adjoining San Patricio county Sinton, Taft and Gregory are making larger vegetable shipments than ever before. The crop of radishe which was grown in about 30 days has netted growers more than \$20 an acre, some crops selling for \$40 an acre ungathered in the fields.

Co-operation is working wonders in vegetable growing, and marketing, not only in that part of Texas. but throughout the state.

Valley Vegetables

Practically all evidence of the January frost in the lower Rio Grande Valley has disappeared. Most of the publicity of that section centers around citrus fruits, the thousands of acres of which certainly are a delight to the eye, but just now trainload vegetable shipments, running during the season into many thousand carloads ,are making business lively and prosperity evident in the Valley.

Approximately 12,500 prospective homeseekers, according to railroad reports, have visited South Texas in Pullman cars the first three months of the year, and probably as many more have gone there in

A General Motors laboratory, devoted to improving artificial frigeration, the mechanical ice box, produced a new substance fluorine, a combination of fluorine, chlorine and methane. Poured into a receptacle, the fluorine "boiled" at a temperature 18 degrees below zero.

Doctor Midgley, whose research work is sponsored and financed by Mr. Sloan, placed his face above the fluorine, allowing its fumes to enter his mouth. He then breathed gently upon a flame and it was instantly extinguished.

What would be the value of h fluorine agency down below?

Scorpions near Durango, Mexico are unusually venomous. Their poison makes serum to counteract their sting.

Entire families at Durange are hunting scorpions for the Mexican health department, which pays 2½ cents (American) for each live male scorpion, 5 cents for each fe-male, the lady scorpion being far more poisonous than her husband. This fact in natural history will appeal to some prosperous American ex-husbands, now paying alimony.

How great is money's power! When the Turkish sultan lived, to cross the threshold of his harem was death. Now, by Kemal's order.

cross the threshold of his harem was death. Now, by Kemal's order, you may enter and look around on payment of twenty-five cents.

Mussolini forbids intoxication, which means more in Italy than forty constitutional amendments would mean here. But Mussolini allows his legislators to decide that the mild and rare drunkenness caused by drinking natural Italian wines does not count. Only hard liquor drunkenness is to be punished.

The Caldwell did not approve of drastic physics and purges. He did not believe they were good for anybody's system. In a practice of 47 years he never saw any reason for their use when Syrup Pepsin will empty the bowels just as promptly. Do not let a day go by without a bowel movement. Do not sit and hope, but go to the nearest druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin, or write "Syrup Pepsin," Dept. BB. Monticello. Illinois, for free trial bottle.
