PROCLAMATION

IN ACCORDANCE With the request from the American Legion, I, Hugh W. Ross, Mayor of Baird, ereby issue the following:

Whereas, representatives of the United Nations will assemble in San Francisco on April 25th to Organization to prevent future Baily Johnson re-named superinwars; and

Whereas, it is the fervent wish of all America that the labors of the San Francisco conference shall be crowned with complete success in the ultimate objective, Mrs. S. E. Roberson, commercial; Jr. 2508 Hulen St. Fort Worth. gomery was employed by the the prevention of future wars, V. R. Leverett, coach and history; to the end that no future genera- S. J. Freeman, mathematics. tion of Americans will experience the horror and heartbreak that know today; and

Whereas, the current widespread disagreement and bickerng, tinged with greed and politimalice, accentuate the inadequacy of mere man in presence of a problem which is of man's own creation, the problem of banishing war from the face of the earth.

Therefore, be it resolved: 1st That during the opening hour (from 10 A. M. to 11 A. M.) of the San Francisco Conference on April 25, 1945, all business houses Mrs. R. W. Cook, route 1, Baird, in Baird be closed.

2nd That during said hour, ser-

A Slight Twist of the Wrist Sometimes Makes Unreal Things

LOOK LIKE THE REAL THING

Sure, and we agree with you. The hand is quicker than the eye. Slight of hand performers do make the impossible seem to be very real in quite a number of magical ways.

But, friends, magic has nothing whatsoever to do with the principles upon which the Baird Municipal Light Plant operates. It is founded upon plain, good business methods of serving the people of Baird.

The best of this plan is that when Baird people spend money for electricity generated at its modern municipal plant, they not only receive the service. but their money remains to be their own. Sounds too good to be true, but it's a fact, for the people of Baird own the plant themselves. So, you see, the real thing is better than magic.

No one seemed to care about a lot of money to go so far.

This is a list of sacrifices. But what have we sacrificed? our school been blown to bits? Have we been taken from our school to form companies to de-fend our "Leader?" Have our classes been interrupted by the whine of air raid sirens and have we had to continue our lessons in a dark, stuffy, and perhaps none too safe bomb shelter?

No: We don't know what war is. Our school may have made a few small changes and given up a few things. But we're lucky. Lucky we're Americans and lucky that when Peace comes, we may be sure that such deep indelible scars will be left on our minds and bodies and we can know that some day a time will come when "men shall beat their swords into plow shares and their spears into pruning hooks." Nation will not shall they learn war, any more.

BY SAM GORMAN

AND HARRY VARNER The Bear's softball team went to Moran last Friday, and brought back a victory of 1 to 0. The Bears made their score in the first inning and held the opponents until the last inning. Tom Odom knocked a two-base hit, and then Sam Gorman knocked him in for the one score. game was a thriller all the way, and the Bear's pitched, Harry Varner did extra well. He walked two men, and then in the last inning with two men on bases, and one out, he fanned the next two players.

The volleyball girls team went to Moran also, but they were defeated two games out of three. The scores of these games are 15 to 10, and 14 to 16.

The Bear's football team of next year started the spring training last Monday, April 16. They expect to have a strong team next year in the class B. district, consisting of Moran, Clyde Putnam, Cross Plains, Rising Star, and Strawn. Lloyd Connel, of basketball fame, will coach the boys next year. The seniors are looking forward to the traditional football game of the next year's team and this year's team, which will be played in about two weeks in the Bear's

"We'll build a house on a hilltop"

OR BY A BROOK—or near a lake. . . . It's great to be young and dream and plan.

The dream-homes being planned today call for frozen food cabinets and automatic washers and electric blankets and air conditioning and lots more electric conveniences.

They'll have them, too. And the electric service that keeps them running will continue to be both cheap and friendly. That's one way we can help make dreams come true!

West Texas Utilities Company

So the city folks have done it! Well, WATCH OUR SPEED!

WORD comes from Washington that the fat-salvage problem has got to be licked in the small cities, the towns and on the farms.

We women have to save enough used fats in our kitchens to help make munitions, medicines, fabrics, soap for military and civilian use, and many other essentials.

The job, to date, has been done largely by city people, because arrangements for collecting the fats were made in the cities first. And these city folks are turning in more than twelve million pounds a month!

Now we're called on. And will the women on the farms and in the towns and small cities break that record?

Don't worry - just watch our speed! HOW TO DO IT: Save all used fats in a tin can. Keep it handy to the stove. Scrape your broilers and roasting pans, skim soups and gravies, for every drop counts. Keep solid pieces of fat, as meat trimmings and table scraps, in a bowl.

Melt down once a week when your oven's going, add the liquid fat to the salvage can.

Take the can to your butcher as soon as it's full. He will give you two red points and up to four cents for every pound. If you have any difficulty, call your County Agent or Home Demonstration Agent. This message is approved by WFA and OPA, and paid for by Industry.
