MUCH INTEREST SHOWN IN COUNTY INTERSCHOLASTIC LEAGUE MEET HELD HERE FRIDAY AND SATURDAY LAST WEEK

Probably, if not, the most successful Floyd County Interscholastic League meet in history was held Friday and Saturday of last week in Floydada. Events, with the exception of volleyball, were held at the Floydada School building and grounds.

Friday of the two-day meet was given almost entirely to literary events with rural school track preliminaries in the afternoon. Saturday was given over to track, field and athletic contests.

An unusually large number of entries were had in all divisions, both literary and athletic contests. This together with the good attendance and noticeable friendly competition were the outstanding features of the meet.

Practically every school, both Class A schools and rural schools were represented, either in the literary or athletic events. School students with their parents beat a path to Floydada over the week end. Friendly, yet strong rivalry marked each event.

Winners Not Yet Determined
County winners in divisions, that is, the class A, B, and Rural had not been definitely determined late yesterday. Results in the various contests had been announced but the total points for each school in each of the three divisions had not been tabulated.

Lockney, judging from the unofficial count of points, won the Class A High School award. Floydada won the major part of the track and field events in the Senior division, split the junior track and Lockney won in the literary field. Sandhill, in all probability, won the Class B championship cup.

Farm and Home Owners League to Take Action On Proposed Amendment

Action, on an amendment to the by-laws of the Floyd County Farm and Home Owners Protective League, will be taken in a session of this group to be held Saturday, April 8, at 2 p. m. in the district court room.

The amendment to be voted on by the league as outlined by its president, John L. West, will deal with Article 9 of its by-laws which now reads: "The annual dues shall be \$1.00 per member and divided as follows; 50 cents to the Farm and Home Owners Protective League and 50 cents to Farmers Protective League of America in testing the constitutionality of exchanges domination of the prices of farm products."

This law if amended will then read: "The entire annual dues of \$1.00 per member shall be used by the Farm and Home Owners League of Floyd County until this county is completely organized."

"We ask the membership to give thought to the change and to be present to voice your wishes. Mortgagees will then be considered by the league. We ask that each study closely the evils and tell us how we may avoid them, and if you don't know yourself, come and gather from others," Mr. West, requests.

It was pointed out that special attention will be directed, first; To some of the abuses of the mortgage system; second, Needed amendments of our mortgage laws and third, in what way can this league aid present and future mortgage conditions? Mrs. May Garrett will discuss the first topic and D. D. Shipley the third, according to Mr. West.

Meeting Held Saturday

A regular meeting of the League was held Saturday from 2 until 3 o'clock in the district court room. The amendment, as given above, was proposed and several discussions were had on it.

About Time To Wean the Darn Thing — By Albert T. Reid

PROCLAMATION

BY THE MAYOR

The week of April 10th to 15th, inclusive, has been designated as Spring Clean-Up-Week.

There are many reasons why the Spring-Clean-Up Campaign this year should receive enthusiastic support of every man, woman and child. First, because a city that is clean and beautiful creates cheer and banishes gloom. Cheer produces courage and confidence, and no doubt, most of us are badly in need of both of these attributes, at this particular time. Second, because every dollar in property destroyed, which so frequently is the result of "careless" house-keeping in the home and in the average place of business, is a serious drain upon our present economic condition. Third, because every job created in connection with the Clean-Up Campaign not only develops better fire protection, but supplies better sanitation and public health; it creates an atmosphere of encouragement.

NOW, THEREFORE, I, W. C. HANNA, Mayor of the City of Floydada, do hereby designate the week of April 10th to 15th inclusive as SPRING CLEAN-UP WEEK and most respectfully call upon all departments of the city, Chamber of Commerce, civic clubs, patriotic clubs and our people in general, to take an active part in this clean-up campaign.

I further designate the Fire Marshal and Fire Chief as a committee of two to work with the City Officials in selecting active committees to carry on this campaign and ask the cooperation of all of our people in this enterprising campaign for a clean city.

IN TESTIMONY WHEREOF, I hereto sign my name and seal of office, this the fifth day of April, 1933.

W. C. HANNA, Mayor, Floydada, Texas,
Attest: S. E. DUNCAN, City Secretary.

Ship the Hogs During Clean-Up Week and Improve Conditions

Grab your nose! We are now in the center of Floydada. No, you are not mistaken, that is right, it is hogs.

Perhaps deep down in the annals of history you might discover, through careful remmaging, an ordinance pertaining and governing the number of swine to be kept in each lot inside the city limits. The pork market might take a decided slump if all the hogs in the city of Floydada were quickly shipped out.

Not a bad idea for clean-up week, do you think? After all swine are none too sanitary at the best and some conditions exist in Floydada which are almost unbearable.

THE DEVELOPMENT OF TRANSPORTATION

It is a far cry from the first ox-drawn sledge to the fast, luxurious transportation of today. In between has been a long era of slow horse-drawn land conveyances and wind-blown boats. It remained for petroleum, discovered in 1859, to completely revolutionize transportation within one brief lifetime. Petroleum has made it possible to build small, compact motors of tremendous horsepower. Petroleum has permitted man to overcome the devastating friction of metal parts moving at fearful speeds. Petroleum, in no small way, has been responsible for today's automobile, airplane, street car, railroad and steamship.

When the founders of the Magnolia Petroleum Company purchased the first oil in Texas at Corsicana in 1896, and two years later established the first refinery in the Southwest, they released a source of potential motive power great enough to supply the world's transportation with gasoline, motor oil and grease.

Today, you find Magnolia Stations and Dealers everywhere in the Southwest waiting to smooth your journey with Mobilgas, Mobilgas Ethyl and Mobiloil... the culmination of more than thirty-five years in the refining business. Drive in and enjoy these up-to-the-minute petroleum products.

Glad Snodgrass' Store Burglarized Sunday Night; Local Men Accused

Fred Jones, I. D. Roberts and Joe Kimble, all of Floydada, are in the Floyd County jail this week following their arrest for the alleged burglary of Glad Snodgrass' Men's furnishing store in Floydada. A portion of the stolen clothing was said to have been recovered which led to the arrest of the men.

An examining trial was held Tuesday afternoon in Justice J. S. Solomon's court when the bail of each of the three charged was set at \$1,500.00, and the trio bound over to await the action of the grand jury in the matter. Until late yesterday none of the three had made bond.

The burglary occurred between 8 and 8:30 o'clock Sunday evening, it is believed. Five men's suits, some hats, ties, shirts and other articles were taken from the display window of the store. The clothing was removed from the window, evidently by the use of a long wire. A section of glass, which had been broken, was removed to gain entry. The store was not entered.

Value of the clothing was approximately \$100.00 according to Mr. Snodgrass.
