Uncle Sam Wins Major Victories In Space Race

RECOVERY SUCCESSFUL

Capsule Is Fired From Space Orbit

WASHINGTON (AP)—A space capsule fired back to earth from an orbiting U.S. satellite was rushed toward Hawaii today with a payload of data that could help in perfecting a spy-in-the-sky system.

With recovery of the capsule—the first success in 13 attempts—the United States appeared to have won a lap in the space race with the Soviet Union. The 300-pound capsule, loaded with instruments, was fished from the Pacific Ocean about 330 miles northwest of Hawaii Thursday by a helicopter which hurried to the spot from a waiting ship.

A little over three hours earlier, the Air Force triggered the ejection mechanism of its Discoverer XIII as it made its 17th pass over Alaska in polar orbit.

FELL DOWNWARD
With steering rockets starting it on the way, the capsule plunged downward into the thick air envelope of the earth. A parachute opened. Radio beacons helped observers plot its course. Then, crews of waiting C-119 planes saw the chute, followed the capsule down and circled above the spot.

The Air Force plan was to snatch the chute and capsule into one of the C-119's, but scattered clouds caused trouble and a sea recovery was required. A helicopter from the MSTS ship Haiti Victory picked up the capsule and flew it back to the ship, which then headed for Hawaii.

Successful recovery of the undamaged capsule buoyed hopes of space scientists working on both the man-in-space program and the Samos spy-satellite.

CAMERA EYES
The Samos is now being developed to send back by television what its camera eye sees as it scouts the face of the earth. But eventually it is hoped that actual films can be sent back to earth by capsule to provide much clearer pictures than television could furnish.

It was No. 13 of the Discoverer satellite series which brought luck to the Air Force. Some of the

previous launchings had failed to put satellites into orbit. Some went into orbit but failed to eject the capsule or ejected it in the wrong direction.

But Thursday everything worked. And the United States was the first, so far as is known, to bring back a package from a satellite. The Soviet Union like the United States, has recovered nose cones and capsules of missiles fired aloft in conventional missile trajectory.

BOSS ELATED
In a midnight news conference at the Pentagon, Lt. Gen. Bernard Schriever, boss of the Air Force's Air Research Development Command, was as elated as the cautious Schriever ever becomes.

"This said he, really marked a 'space first.' Until Air Force scientists turned the trick of bringing an object back through the searing heat of re-entry and depositing it in the intended spot 'we were only part way in the space age.'

He said that "without doubt, the Discoverer program has been the most complex program undertaken in this country and I believe in the world."

From here on the rate of recovery should go up, the general predicted, and there should be "better than a 50 per cent" recovery with the rate increasing as the program continues.

HASTEN PROGRESS
It was made plain that the successful test of Discoverer and its capsule will hasten the development of both the Samos and the Midas ballistic missile warning satellite project, which is intended to sense the launching of an enemy missile through infrared detection.

Beyond that, Schriever looks upon the Discoverer success as a boon to the man-in-space Mercury program of the National Aeronautics and Space Administration.

tration. The military's Discoverer is "complementary" to NASA's Mercury, says Schriever.

Fortcoming Discoverer capsules will carry life aloft and back to earth, the general disclosed. Within a few weeks, a small eight or 10-pound monkey will be sent up in a recovery experiment, he said.

What did Schriever do to change the string of bad luck on Discoverer recovery attempts and hit jackpot on No. 13?

Well, said Schriever, he had been carrying a new billfold—"not that I had any more money to put in it." I changed and went back to my old bill clip (he displayed it with a grin) "and we haven't had a failure since."

Gas Escapes, Citizens Fall 'Like Flies'

LA PORTE, Tex. (AP)—Residents of this seaport town began dropping on the streets today from what authorities said was gas escaping from a chemical plant. The plant shut down immediately, and the danger was declared ended.

Justice of the Peace Bud West of La Porte said 30 or 40 persons were overcome.

Harris County sheriff's deputies said the gas is believed to have come from the S. & W. Chemical Co. in La Porte.

They said it is believed to be FAG gas, used in World War I. It sometimes is known as a luring gas, which causes extreme nausea and fatigue, but is not fatal.

The air in La Porte was almost calm, causing the gas to hover in the town.

The S. & W. plant makes industrial chemicals. The Gulf of Mexico coast on which La Porte sits is one of the largest chemical plant areas in the world.

All highways and roads to the city were blocked off for a time but were re-opened when the gas cleared.

A state of emergency was declared by city authorities and help poured in from other cities. Houston, 20 miles away, sent in 10 medical teams.

At sent were ambulances and oxygen.

West said the town of 5,000 was on the verge of panic for about a half hour.

The town was roped off for a time but later traffic was allowed to proceed.

Art Simpson, La Porte funeral director, reported to West that he had made five or six trips to pick up unconscious people.

West said La Porte was on the verge of panic.

C. Adams, publisher of the La Porte Liberal, said the illnesses appeared to be greatest in the southern part of the town.

Atlas Streaks 5,000 Miles Down Range

CAPE CANAVERAL, Fla. (AP)—A powerful Atlas missile rumbled 5,000 miles down the Caribbean range today with a group of radiation-study experiments packed in the nose cone.

The Air Force reported the big intercontinental-range rocket successfully achieved all flight test objectives in streaking to a pre-selected target zone off the Atlantic island of Ascension.

Air and ocean range vessels from the missile test center began a search for the 13-ton cone, which was eased to the water by a parachute that popped out after the re-entry body plunged back through the earth's atmosphere from an altitude of more than 700 miles.

This was the second rocket success here today. Three hours before the Atlas blasted off, U. S. scientists hurled a 100-foot balloon communications satellite into orbit and used it to bounce a message from President Eisenhower across the nation.

The Air Force emphasized the main purposes of the Atlas flight were to test the new cone and the missile's inertial guidance system. The scientific experiments were placed aboard because there was extra room in the cone.

Five experiments were tucked in the re-entry body, four of them to take radiation measurements in the continuing study of hazards that might affect manned space travel.

The fifth experiment was to measure the erosion rate on the nose cone surface as temperatures up to 15,000 degrees Fahrenheit seared it during re-entry.

'Echo' Satellite Reflects Ike Voice

CAPE CANAVERAL, Fla. (AP)—The United States sent a huge communications satellite into orbit high above the earth today and quickly signaled its success by bouncing a message from President Eisenhower across the nation.

The new space messenger, Echo I, was rocketed up from this missile test center at 4:39 a.m.

A little over two hours later the National Aeronautics and Space Administration announced it was successfully in orbit.

Then less than four hours after launch, the recorded message from the President was played back at a news conference in Washington.

The message came back loud and clear, when received at Holmdel, N. J., after being sent from Goldstone, Calif.

It said: "This is President Eisenhower speaking. "It is a great personal satisfaction to participate in this first experiment in communications involving the use of a satellite balloon known as Echo."

"This is one more significant step in the United States program of space research and exploration."

FOR ALL MANKIND
"The program is being carried forward vigorously by the United States for peaceful purposes for the benefit of all mankind."

"The satellite balloon which has reflected these words may be used freely by any nation for similar experiments in its own interests."

"Information necessary to prepare for such participation was widely distributed some weeks ago."

"The United States will continue to make freely available to the world the scientific information acquired from this and other experiments in its program of space exploration."

The recording was broadcast to the satellite on its first sweep around the earth.

Dr. T. Keith Glennan, NASA administrator, described the Echo launching as "well-nigh perfect."

CONFIRMED
The fact that the satellite was in successful orbit had been confirmed by both telemetry and visual sighting.

Observers on the Pacific Coast reported that in the early morning darkness it shone some seven times brighter than the North Star.

Glennan gave the new satellite the name of Echo I.

Dr. Abe Silverstein, director of NASA's space flight program, said Echo I is in orbit between the altitudes of 1,015 and 1,100 miles. The exact time of orbit is 124 minutes, or less than two minutes off the planned time of two hours.

William J. O'Sullivan, designer of the satellite, said it will be visible all night, not merely at dusk or dawn, for the next couple of weeks.

IN SUNLIGHT
O'Sullivan, head of the space vehicles group at the Langley Research Center at Hampton, Va., explained the satellite is high enough and so inclined in its orbit that it will remain in contact with the earth.

(See ECHO, Page 2-A, Col. 1)

Successful Flight

The Air Force fired this operational prototype Titan missile successfully down the Atlantic Missile Range from Cape Canaveral. Scientists sought information on the performance of the tactical-type nose cone and ships and planes waited in the impact area to recover a data capsule. Later, an Atlas missile thundered 5,000 miles down the same range, the U.S. recovered a satellite capsule in the Pacific, and the first balloon satellite was successfully launched.

AF Testing Ready For Minuteman

CAPE CANAVERAL, Fla. (AP)—The Air Force reports initial construction has been completed on test launch facilities here for the Minuteman intercontinental range ballistic missile.

The new East Coast launch area, built at a cost of seven million dollars, includes two blockhouses; two regular land launch pads and service towers; two 90-foot-deep underground launching silos—the first at Cape Canaveral—and assembly, storage, inspection and industrial area facilities.

The first Minuteman test firing is scheduled for next December. Launchings are slated at the rate of one every three or four weeks.

The Air Force plans to have the three-stage, solid-fuel rocket operational by mid-1962. It will be smaller, lighter and easier to maintain and operate than the liquid-fuel Atlas and Titan ICBMs. Like Atlas and Titan, it will carry a nuclear warhead more than 6,300 miles.

On the West Florida Coast, three Bomarc missiles were successfully fired Thursday, but the Air Force had trouble landing a drone target plane.

The missiles, two of the IM99A class and one advanced Bomarc-B, intercepted their targets 170 miles out over the Eglin Gulf Test Range at an altitude of 35,000 feet.

The B model scored a scheduled near-miss on a Regulus II target missile streaking toward the coast at more than 1,000 miles an hour.

The A models, launched an hour apart later in the day, both intercepted a piloted B47 stratojet bomber. The six-jet drone had been used as a Bomarc target for the first time a week ago.

On returning to Eglin, the B47 drone overran a runway by 1,500 feet when its drag chute apparently failed to operate. The big bomber stopped in rain-softened dirt. Its left wing tip, aileron and fuselage were slightly damaged.

Red Spirits

LONDON (AP)—A Soviet technique to reform alcoholics—photograph them when they look their most ghastly—was described at the U.N. Congress on the Prevention of Crime today by L. N. Smirnov, deputy chairman of the Soviet Supreme Court.

Junior Rodeo Opens Amidst Fun, Frolic

By JOE PICKLE
The young cowhands had more fun than a barrel of monkeys—and so did the old folks—at the opening round of the 15th annual Junior Rodeo Thursday evening in the rodeo bowl.

With all the lightheartedness and enthusiasm of youth, the young rodeo contestants romped, bounced and roped through a dozen events to the delight of some 2,500 people. Jimmy Whitefield, Big Spring, captured first place in both the bareback and bull riding events for the first night, and Hadly Wardlaw, Del Rio, wrapped up his calf in a sparkling 14 seconds to take initial calf roping honors.

There were impressive times, too, in ribbon roping, pole-bending (weaving in and out of upright poles) and barrel racing, but the big fun came on the special events such as the wild calf race, goat hair pulling and boot scramble.

WILD CALVES
When the wild calves were turned out in front of the chutes, teams of youngsters pounced upon the bawling and balking creatures, trying to put on saddles. Finally, when some succeeded, the calves laid down and wouldn't get up. Lanny Proctor, aided by Donald White and Dick Ross, managed to crank up one of the critters and win the race while the crowd roared its approval.

JIMMY TUCKER FIRST RIDER ON WILD BRONC ... and first off of this meanest of all horses

Bids Requested For Webb Work

Bids will be accepted, starting Aug. 23, for the construction of an aircraft weapons shelter at Webb AFB.

The U. S. Army Engineers at the Fort Worth district Friday fixed Sept. 20 as the opening date for proposals to build the \$50,000 structure.

The building will be 1,797 square feet. Other items in the bids will cover 615 cubic yards of concrete, pavement, 52 tons of hot asphalt mix pavement, 1,950 feet of 2 1/2-in. water line and 210 feet of sanitary sewer line. Also included are 500 feet of 4-in. drain tile; plus electrical work and transformer box.

Work will begin within five days after receipt of a work order and is to be completed in 150 calendar days from the date of the work order.

Two persons were critically injured and six others hurt in a collision late Thursday, seven miles east of Big Spring on Interstate Highway 20.

Larry Gore, 9, of Odessa and Larry Winters, 9, of Fort Worth, were critically injured when the car driven by Rev. John Winters, 33, of Odessa was struck from behind by another car, driven by William Lewis Brown Jr., 34, a Midland lease broker.

Other passengers in the Winters car were David Forrest, 4, of Mesquite; Wayne Winters, 12, of Fort Worth; Dorris Ann Beam, 14, of Odessa; and Sandra Lindsey, 15, of Odessa.

The Winters group was returning from church in Colorado City when the accident occurred. The impact caused their car to cross the service road and hit a fence. It turned over one and a half

Eight Hospitalized In Two Car Wreck

times, according to Kell Davis, Texas Highway Patrolman.

Both cars, involved in the accident, were badly damaged.

The injured were taken to Howard County Hospital Foundation and Malone and Hogan Funeral Hospital by Nalley-Pickle Funeral Home ambulances.

David Forrest was in fair condition this morning at Howard County Hospital Foundation with head lacerations, body abrasions and possible head injuries.

At Malone and Hogan, Sandra Lindsey and Dorris Ann Beam were treated and released. Rev. Winters is being held for observation. Larry Gore is on the critical list with possible head and internal injuries as is Larry Winters. Wayne Winters is considered in serious condition with possible internal injuries and lacerations.

Brown was treated and released.

X-15 Achieves Highest Mark

EDWARDS AIR FORCE BASE, Calif. (AP)—The X15 today rocketed an Air Force test pilot more than 24 miles skyward, man's highest flight yet. The new record: 131,000 feet.

Maj. Robert M. White, in the same plane that set a world speed mark of 2,196 m.p.h. last week, pointed the sleek black Dart up at an angle of 51 degrees and let its mighty twin engines roar all out until his fuel was exhausted.

The four-minute burst vaulted him to the nearly airless edge of space, where he arced weightless for a few seconds before plummeting back.

At the peak of his climb, White radioed back: "This is really fantastic up here."

The old mark was 26,200 feet, nearly 24 miles, set by Capt. Iven C. Kincheloe here Sept. 7, 1956, in the ill-fated X2 rocket ship. It later crashed while setting a speed mark of 2,094 m.p.h. Kincheloe was killed in a fighter plane crash.

Records by experimental planes are unofficial. The official mark is 103,395 feet, set by Capt. Joe Jordan last Dec. 14, in an F104 jet.

The X15 was dropped at 45,000 feet from a B52 mother ship. White ignited eight rocket barrels and within seconds soared out of range of ground observers with field glasses.

Minutes later the ship reappeared, a tiny dot in the vast expanse of desert sky, and came down in a spiral glide for a 200 m.p.h. landing on the hard mud surface of Rogers Dry Lake.

White's maximum speed was 1,700 m.p.h., compared with the 2,196 record set by Joe Walker. To hit his mark, Walker climbed to 78,000 feet, then went into a shallow power dive.

White reserved all his power for the zooming climb.

Mike Smith Draws Place In 34th Heat

By SAM BLACKBURN
AKRON, OHIO—Mike Smith must wait what will seem a long time before he gets his chance Sunday to see if he will weather the first heat of the All American Soap Box Derby.

Mike drew lane No. 1 in the 34th heat. There are 66 heats in the initial round.

His competition will be Carl Hykes, 15, a veteran of the Derby from New Philadelphia, Ohio, racing in lane No. 2; and Ronald Lee Myers, 13, Bloomington, Ind. The Myers racer is unusual in that the body is carved entirely from one piece of wood. This is the third year that Ronald Lee has tried for a Derby spot in his home town.

However, Mike is not worried. He says quietly, "I'm gonna win."

He is taking all the fanfare in full stride, including signatures for autograph-hunting little girls. This morning, he got his first look at his racer, which won the Big Spring eliminations on June 23, since the black coaster was retrieved from underneath a cave-in roof and shipped to Akron. A big show was rigged at Derby Downs early today for the boys, sponsors, and press. After check-

ing over his racer and getting final approval from the judges, Mike got a trial run down the long, steep slope of the downs.

Yesterday before a crowd that packed into the ballroom of the Sheraton Mayflower, Little Marilyn Myers, tiny sister of a competitor, drew names from a barrel and thus determined the first round heats.

Two Texas cities, Austin and Houston, were paired in the same heat—lanes No. 2 and No. 3 in the 19th heat.

Besides entries from various states, champions from Germany, Venezuela, Puerto Rico and the Philippine Islands are racing in the finals Sunday.

If Mike survives the first heat, his next spot will be determined at that time. Winner of the top prize will get a \$5,000 scholarship and the championship trophy.

Every entry here received a wrist watch as a memento of the time he raced in the All American Soap Box Derby.

Mike is looking forward to seeing Dale Robertson, movie star, Andy Williams, crooner, and Craig Stevens here today and Saturday. The three celebrities will race Sunday in the Oilcan Derby, a prelude to the initial race of the first round.

Dirksen Blocks Lyndon Strategy

WASHINGTON (AP)—Senate Republican Leader Everett M. Dirksen today blocked an effort to limit debate on the minimum wage bill.

Democratic Leader Lyndon B. Johnson of Texas had proposed that the Senate agree to limit talk on amendments to two hours, with eight hours of debate on the bill itself. That would have meant a final vote sometime early next week.

Republicans and Democrats opposing provisions of the minimum wage bill offered by Sen. John F. Kennedy, the Democratic presidential nominee, concentrated their early fire on its expansion of wage-hour coverage.

Juvenile Was Walking Arsenal

BUFFALO, N.Y. (AP)—Teenager Donald Defrize was carrying a knife in a shoulder holster, a stiletto, a pocket knife, brass knuckles, a sledge hammer, and a pinch bar, police said.

Defrize, 17, was arrested Thursday while allegedly looting parking meters. He was charged with petty larceny.

ECHO

(Continued From Page One)

limous sunlight. However, it will be difficult to see in daytime because of the brightness of the sky. Later the orbital path will run through dark spaces in the earth's shadow at intervals before it emerges again into full-time sunlight next spring.

O'Sullivan said Echo I is as bright as the star Vega, brightest star in the sky.

Townsend said the satellite should be visible on four passes over the United States tonight. He forecast a lifetime of about one year before such factors as air drag and the effects of solar radiation bring the balloon down.

NEARLY PERFECT
NASA said the satellite's speed of 1,160 miles in 15.44 m.p.h. while its speed at the low point of the orbit, 1,018 miles above the earth, is 15,884 m.p.h. These speeds are within 30 m.p.h. of what was planned for the big balloon.

RODE COLLAPSED
It rode collapsed in the nose cone of a towering three-stage Thor-Delta rocket toward a path intended to take it whirling around the earth in a nearly circular pattern 1,000 miles high, about once every two hours.

At 6:45 a. m. the National Aeronautics and Space Administration announced that it was in orbit.

NASA said the orbit had been confirmed both visually and by telemetry at the jet propulsion laboratory at Pasadena, Calif. At that stage, Glennan officially named the new satellite Echo I.

The 92-foot Thor-Delta blasted off at 4:40 a. m. Eastern Standard Time. The aluminum-coated plastic balloon was folded accordion-fashion in a 26 1/2-inch magnesium container tucked in the rocket's nose.

Attempts early Tuesday and Wednesday to orbit the big balloon were postponed because of technical problems with the booster rocket. The first effort to launch an Echo satellite failed last May 13 because of a malfunction of small helium jets designed to help control the flight of the Thor-Delta.

Negro Gang Shoots Up House

DALLAS (AP)—A gang of Negro youths, believed to call themselves the Vikings, riddled a North Dallas house containing eight persons with a cross-fire of pistol bullets early today.

Only one person was hurt, but patrolman B. J. Dale declared, "It's fortunate that we don't have at least five homicide cases on our hands this morning."

Struck in the left hand by one of six slugs rained through his bedroom window was Andrew Samuel, 18.

Police rounded up three Negroes, 15, 16, and 25, after Andrew's brother, Freddie Samuel, 17, told them he was threatened with death earlier in the evening by a trio which wanted him to join the Vikings.

3-Day Trainmen Strike Is Ended

PITTSBURGH (AP)—A three-day strike of trainmen against the Monongahela connecting railroad ended today, and Jones & Laughlin Steel Corp. began reading its idled Pittsburgh works for resumption of production.

Negotiators for the railroad and the Brotherhood of Railroad Trainmen jointly announced agreement on a new three-year contract after more than 20 hours of nearly continuous bargaining.

The strike of 300 trainmen, who worked out Wednesday, had idled some 12,000 steelworkers at J&L Pittsburgh works. In addition, about 700 other railroad employees were idled.

Both the union and the railroad declined to give terms of the settlement. Previously, neither side would disclose the specific issues in dispute.

WEATHER

NORTH CENTRAL TEXAS—Partly cloudy through Saturday. Not much change in temperature. Precipitation generally moderate in widely scattered thundershowers.

NORTHWEST TEXAS—Partly cloudy through Saturday with scattered thundershowers. Not much change in temperature. Lowest 48 to 55, tonight, highest in 90 Saturday.

SOUTHWEST TEXAS—Partly cloudy through Saturday with widely scattered thundershowers. Not much change in temperature. Lowest 48 to 55, tonight, highest in 90 Saturday.

3-DAY FORECAST
WESTERN TEXAS—Temperatures near or slightly below normal. Precipitation generally moderate in widely scattered thundershowers.

2-A Big Spring (Texas) Herald, Friday, August 12, 1960

Honored For Service

R. L. Tollett, right, president of Cosden Petroleum Corp., received a citation from V. J. Belds, manager of the Veterans' Administration Hospital, in recognition of services rendered to the hospital by Cosden. Cosden has often provided planes to transport patients and personnel on emergency missions. It also provides fifty copies of the Big Spring Herald to the hospital daily, and key members of the hospital staff have received complimentary memberships in the Cosden Club. The citation was presented in connection with the 10th anniversary of the hospital's opening.

Mirror In The Sky For A Gabby World

HOLMDEL, N.J. (AP)—A shiny mirror in the sky today marks the first step toward giving swift, sure new telephone, radio and TV channels to a gabby and curious world.

The sky mirror is a huge balloon shot into orbit this morning. Radio signals shot up from earth can, it is hoped, be bounced back clearly and surely to other parts of the earth.

This and later tests ultimately promise a system of satellites through which you may dial an operator in Chicago, give a number, and quickly be talking with a business contact or relative in Japan, Africa, or the U.S.S.R.

Live, as-it-happens TV could be transmitted across oceans, and to all parts of the world. News dispatches and pictures could also bounce via satellites into your home newspaper.

Here on lonely Crawford Hill, scientists of Bell Telephone Laboratories are making some of the first tests with a huge antenna and special radio receiver. Transatlantic cables can carry your voice or messages, of course, but cables are expensive, and are getting crowded already. And they can't carry TV signals economically—they use many channels at a time.

Powers Family On Its Way To Moscow For Spy Trial

LONDON (AP)—The family of Francis Gary Powers headed for Moscow today, claiming Soviet Premier Nikita Khrushchev's promise of help for the American pilot who goes on trial Wednesday as a spy.

"I will see Khrushchev. He said he will help me," Oliver W. Powers of Pound, Va., father of the pilot, told newsmen on arrival in London Thursday night.

The elder Powers said he had received word from Khrushchev but refused to say how the message came.

"I am going to help my boy," he said. "That's all I have to say."

Three other members of the pilot's family and several friends or advisers are flying to Moscow for the trial.

Parker said he had cabled John N. Hazard, a Columbia University professor who specializes in Soviet and International Law, to join them in Moscow. Hazard now is in West Germany.

Parker told newsmen that Mrs. Powers had been advised by the State Department that Soviet authorities would not permit her to talk with her husband until his trial ends. The Virginia lawyer said the pilot's family would be allowed to consult with the Soviet lawyer appointed by the Soviet government to defend Powers.

Parker's only comment on the case was: "We are hopeful that he will be found guilty of flying the plane (and not of espionage) and that his sentence will be as light as the Soviet government will permit."

Chamber Group Slates Meeting

A meeting of the Legislative Committee of the Chamber of Commerce is set for August 16. Purpose of the meeting is to make arrangements for getting the "Action Course in Practical Politics" under way.

Chairman of the group is Douglas Orme.

Still Improving

Leslie Ruff, 14, and Maurice Bradford, 14, died Monday afternoon in a car accident, are continuing to show improvement at Cowper Clinic and Hospital.

Fliers Miss Air Snatch 'By A Hair'

HICKAM AIR FORCE BASE, Hawaii (AP)—An Air Force team, trying for one of the most spectacular catches ever attempted, missed by a hair Thursday, said Brig. Gen. Robert E. Greer.

But there was no error chalked up.

The 300-pound instrument-loaded capsule, released from the Discoverer XIII satellite, was supposed to land in an area 50 miles wide and 200 miles long.

But the capsule, released after 17 trips around the earth, landed about 50 miles north of its target, some 830 miles northwest of Honolulu.

"It was just a hair too far away for us to snatch it out of the air," said Greer, assistant chief of staff for guided missiles, who had flown here for the mission.

Capt. Lawrence Shimnick, 37, Frederick, Md., was the pilot of the C119 flying boxcar which was first to spot the capsule and its orange and white parachute.

"We did not see the capsule coming down," Shimnick said. "The weather was not too good. But we heard the beacon signal and it got louder as the capsule descended."

Shimnick said his plane, closest of the C119s flying out along the coast, may have been level with the capsule.

"We might have snagged it had the weather been better," he said. A winch operator in the tail of Shimnick's plane spotted the orange and white chute.

"I saw something in the water," shouted Staff Sgt. Herman E. Casing, "That looks like it."

Gen. Greer, who conducted the Air Force news conference here after the recovery, was delighted with the flier's accomplishment.

"The air snatch program is good and before long we'll be bringing them back that way," he added.

The capsule—27 inches long and 33 inches in diameter—was to be brought to Honolulu by helicopter. The capsule was aboard the USS Haiti Victory. The capsule was to be flown from Honolulu to Lockwood, a mission which was completed by the USS Hawaii, near San Francisco, and then on to Washington.

RODEO
(Continued From Page One)

my Tucker, Big Spring, look on an ordinary radio communication is subject to fadeouts and blackouts.

Hence the goal of using satellites. Narrow radio signals can pierce through the ionosphere, and be reflected back without interference.

Scientists already have chatted with one another using the moon. This first balloon is "visible" simultaneously to straight-line radio waves shooting up from here and from Goldstone, Calif., for only 12 to 15 minutes on each pass around the earth, and not on all of its passes.

It's wheeling at a height of about 1,000 miles. But if the tests succeed, then a dozen or more balloons could be put in different orbits, so one would always be available for messages and conversations.

Later, plans call for putting special satellites at heights of 22,500 miles above the earth. Each would wheel around the earth at such speed as to appear to be hanging motionless over the same spot on the turning earth beneath.

With three or four of them, signals could be relayed instantly. Unlike the empty balloons, these high satellites would contain equipment to receive, amplify and rebroadcast the signal to another satellite, or down to earth.

Spills were a dime a dozen, but with limber joints and nimble feet, the young performers came up without harm.

Dub Bryant, announcer, kept the show moving well and despite a heavy schedule, the performance proper was over in less than two and a half hours from the time the colorful grand entry parade ratched the bowl with 190 assorted kinds of horsetails and riders.

The 4-H officers introduced included Fred White, county president; Jay Creighton, Tommy Newman, Skip Driver, Rodney Brooks. The audience observed a minute of silence for Jimmy Engle, young performer who was killed in a traffic mishap while returning from the Post rodeo.

Officials included Rip Bailey, Toots Mansfield, Raymond Phillips, Bob Lovingsood and Dan Mankin.

SECOND PERFORMANCE

The second performance of the rodeo will get underway at 8 p.m. today in the rodeo bowl west of town, and the final show of the eager kids will be at the same hour Saturday. Thursday's weather was perfect, and the outlook is good for more of the same for the next two performances.

Results Thursday included:

BARRECK BRONC RIDING—Jimmy Whitefield, Big Spring. No others got a complete score or stayed aboard.

STEER RACING—J. Bassett Smith, Plainview, 14.1; Terry Blackwell, Big Spring, 13.2; Tommy Holliday, Bryan, 14.4; Connie Mac Omba, Winters, 14.8; Frank Boyd, Hamden, 21.3; Jimmy Powers, Moore, 22.1.

GIRLS' BARREL RACE—Nola Winn, Ft. Sumner, N. M., 18.5; Carol Ann Jackson, Colorado City, 18.7; Gloria June Sanders, San Angelo, 18.8; Beth Sanders, San Angelo, 18.9; Betty Davis, Sterling City, 19.0; Barbara Clark, Sterling City, 19.1; Valynia Conway, Big Spring, 21.1 (she slipped from her horse, but remounted and finished the race).

POLE BENDING—Jimmy Whitefield, Big Spring, 13.6; Nola Winn, Ft. Sumner, N. M., 21.4.

CARD OF THANKS

We wish to thank all our friends and neighbors for their expressions of sympathy, the food, and the beautiful floral tributes sent to North Hollywood, Calif., in memory of Forrest Hall. Words could never express our love and appreciation for each of you. God bless you.

Mrs. Shelby Hall and Family.

Fliers Parents Leave

Oliver W. Powers of Pound, Va., and his wife, Ida, American U2 pilot is slated to go on trial on espionage charges.

Dag Leads U. N. Force Heading Into Katanga

ELISABETHVILLE, the Congo (AP)—United Nations Secretary-General Dag Hammarskjold and the first U.N. force to enter secessionist Katanga province landed today.

The force—220 Swedish—arrived in five planes, touching down at 10-minute intervals.

Hammarskjold and the soldiers almost did not land after all. It appeared the control tower's European operator had told Hammarskjold he would be allowed to land but that permission would be refused to the planes carrying the Swedish soldiers.

PREMIER SHOCKED
Tshombe was appalled and quickly ordered the control tower to allow all U.N. planes to land.

Although Tshombe three days ago announced he now was willing to accept the U.N. force under the Security Council mandate for replacement of the Belgian soldiers on duty in Katanga, the order to prevent them from landing never was withdrawn at the

central Congo government of Premier Patrice Lumumba, promised a safe welcome for Hammarskjold and his men.

ON AIRFIELD
The first Swedish troops were to remain on the Elisabethville airfield while Hammarskjold had his initial conferences with the Katanga premier. Afterward they were to be used to secure the airfield as the Belgian troops withdrew.

Other troops then will be flown to Elisabethville, and other units—including probably some of the Irish battalion—will move in from Kivu province.

Hammarskjold flew into Leopoldville from New York Thursday night in a jet plane loaned him by President Eisenhower.

With demands for local autonomy and a weaker central government growing in the Leopoldville area as well as in Katanga and other provinces, Lumumba meanwhile was taking steps to strengthen his authority and check opposition.

Rifle-carrying Congolese police and soldiers are carrying out patrols in the central capital. They have been halting cars on the road to the airport—even those of diplomats—and searching them for weapons.

HOWARD
Midwest No. 1 Haney is drilling at 5,930 feet in lime, sand and shale. Location is 2,213 feet from south and 330 feet from east lines of section 29-32-3N, T&P survey.

MARTIN
Moncrief No. 1 Glass is still recovering the load after pumping 103 barrels of load oil in 20 1/2 hours from perforations in the Spraberry section between 8,668-706 feet, 8,730-43 feet and 8,738-64 feet. It is 1,320 feet from north and west lines of section 13-30-1N, T&P survey.

HOWARD
Husky No. 2-X Futrell is making hole in lime below 10,353 feet. Site is 1,980 feet from south and 2,030 feet from west lines of section 40-M-ELARR survey.

Santiago No. 1 Bowlin is bottomed at 9,550 feet preparing to set 5 1/2 inch casing at the total depth and attempt completion in the Pennsylvania reef section. It is 660 feet from north and 1,980 feet from west lines of section 3-34-3N, T&P survey.

DAVID FASKEN
David Fasken No. 1 William Clay Foundation is a new location to test the Patricia (Fusselman) field. It is to be drilled to 12,500 feet and 600 feet from west line of labor 6-268-Moore CSL survey, about 11 miles southwest of Lamesa.

TEXAS NATIONAL
Texas National No. 1 Jackson has finished for a potential of 60.03 barrels of 40.2 gravity oil. Operator is pumping from perforations in the upper Spraberry section between 7,010-16 feet and 7,035-70 feet. Gas-oil ratio is 912:1. The wildcat is about two miles southeast of Kay (lower Spraberry) field production. It is CENE NEU of section 7-34-5N, T&P survey.

GARZA
General American Oil Co. of Texas No. 1-744 Koonsman is a new location, posted as a 1 1/2 mile south-southeast outpost to the

Rites Saturday For Mrs. Cathey

Services for Mrs. Ida Mae Cathey, 80, long-time Big Spring resident, will be held at the graveside at 2 p.m. Saturday in the City Cemetery.

Mrs. Cathey died Thursday in Eastland at the home of a daughter, Mrs. Novelle Toler. She will be laid to rest beside the grave of her husband, John S. Cathey, who died Aug. 31, 1948, and the grave of a son, Frank.

Thomas Funeral Home of Midland will be in charge of arrangements, and the Rev. Cecil Rhodes, West Side Baptist pastor, will officiate. Mrs. Cathey was a member of the East Fourth Baptist Church.

She lived in Big Spring 25 years before moving to Lubbock in 1922. She was born Jan. 8, 1870, in Nashville, Ill., and married John Simon Cathey on Oct. 14, 1888 in Bell County, Texas.

She is survived by four sons, S. C. Cathey, Globe, Ariz., John C. Cathey, Las Vegas, Nev., George E. Cathey, Los Angeles, Calif., and C. H. Cathey, Andrews; three daughters, Mrs. Pearl Brimberry, El Paso, and Mrs. Novelle Toler, Eastland. She also leaves one sister, Mrs. Lily Daily, Round Rock, and eight grandchildren.

Union Approves Bracero Spike

DALLAS (AP)—A recommendation to end the program under which alien farm workers are brought to the United States was approved Thursday by the state AFL-CIO.

The convention in effect also said it was ready to welcome the Teamsters Union back to its state national organizations. The Teamsters were ousted from the AFL-CIO in 1957 after hearings into racketeering.

The convention approved a recommendation for a personal income tax and opposed "any further expansion of the sales tax concept."

As accepted the convention the taxation committee's report called for a personal income tax of 5 percent of the federal income tax.

The convention recommended support of Sens. John Kennedy and Lyndon Johnson, the Democrats.

DEAR ABBY TRY THE 'GHOST'

By Abigail Van Buren

DEAR ABBY: Six years ago I married a widower with five children, ranging in age from 2 to 12. I don't like to boast, but I am known for my cooking and house-keeping and the interest I take in my children's activities, such as PTA, scouting, sports, etc. I recently made 33 costumes for a church pageant.

I love these children, Abby, but all I ever hear about is their "real" mother. I am competing with a ghost. They worship her memory. Their father wants them to "remember" their mother, which is fine, but I practically raised them and I feel like I should help in my own home. What must I do to get a little appreciation?

NOT APPRECIATED
DEAR NOT: Take a little "vacation." Let the "ghost" do the cooking, sewing and house-keeping for a week or two. You won't get appreciation by asking for it. We never miss the water till the well runs dry.

DEAR ABBY: What do you think of love at first sight?

DEAR BOB: I think it's a wonderful time saver.

DEAR BOB: My problem sounds so silly for a healthy, normal man of 44 I am almost ashamed to write it, but here goes:

Whenever I eat anything at my mother-in-law's place I get as sick as a dog. Not wishing to hurt her feelings, I've never told her. My wife knows it and she is stumped. Now, you won't believe this, Abby, but last Sunday we were there for supper again. I said I wasn't hungry and wanted only a cup of coffee. When we got home I was just as sick on the coffee. My wife and the rest of her family eat there and nobody gets sick but me. How do you figure it?

HEALTHY BUT SICK
DEAR HEALTHY BUT SICK: Since you're the only one who gets sick from your mother-in-law's hospitality, you are probably allergic to something in her home. I hesitate to suggest what it could be, but a doctor might be able to help you track it down.

CONFIDENTIAL TO COUNSELOR IN CABIN FOUR: Quit chasing him. The bigger the summer the harder the fall.

If you want a personal reply from Abby, write her in care of The Big Spring Herald and enclose a stamped, self-addressed envelope. She answers ALL letters.

Laos Rebels To Ask Prince To Take Over

SAIGON, South Viet Nam (AP)—Radio Vientiane said today the army rebels holding the capital of Laos will ask a former premier, Prince Souvanna Phouma, to head a new government "that will incline neither toward the Free World nor the Communist world."

Souvanna Phouma, 59, two years ago tried to work out a truce with the pro-Communist revolutionary movement in Laos, the Pathet Lao, by bringing its leaders into a coalition government. The try failed.

Souvanna Phouma is also a half brother of Prince Souvanna Vong, the fugitive Pathet Lao leader, and is chairman of the National Assembly elected last April.

Capt. Kong Le, the paratrooper who led the revolt Tuesday in Vientiane, the administrative capital of the Buddhist kingdom, was quoted as saying he was sending Souvanna Phouma from Vientiane to the royal seat, Luang Prabang, to ask pro-Western Premier Tiao Souvanna to resign.

"Then I will ask his royal highness Souvanna Phouma to become prime minister," the rebel leader told a crowd Thursday night in Vientiane National Stadium.

"We want our government to be truly neutral," he said. "We will accept diplomatic relations with all countries."

Somsanth and most of his cabinet were in Luang Prabang, 130 miles north of Vientiane, when the rebels seized control of the administrative capital.

One report from Vientiane cast doubt on Souvanna Phouma's allegiance to the rebels. This report, said the prince, had protested his name was being used without authorization as a member of the 40-member revolutionary committee.

Laos holds a strategic position in Southeast Asia as a buffer between Red China and Communist North Viet Nam on the north and pro-Western Thailand to the south. The land-locked kingdom does not now recognize Red China or North Viet Nam diplomatically, and the United States has poured in millions of dollars of military and economic aid to keep Laos leaning to the West.

Farm Couple Gives Up After Slaying, Seige

EAGLE PASS, Tex. (AP)—A barricaded farm couple Thursday night surrendered meekly and ended a 5 1/2-hour siege which started with the rifle slaying of a sheriff's deputy at their doorstep.

Headless to drizzling rain, more than 1,000 people kept tense watch from a safe distance as 30-odd peace officers directed by Texas Ranger Capt. A. Y. Allee prepared to rush the home of Arturo Rosales and his wife Ascucena (Susie), both about 30.

There was a murmur of conversation inside. Then Father Sam McGrath, a Roman Catholic priest permitted inside, called:

"They're ready to give up now." Accompanied by Mrs. Rosales' daughter Belinda, 11, the couple emerged unharmed and without incident.

Sheriff's officers hustled the two adults to the county jail in Eagle Pass, on the Mexican border in Southwest Texas. Dist. Atty. Douglas Newton filed complaints accusing both of murder with malice. He said they probably would be arraigned today.

Rifle fire erupted from inside the house in midafternoon as Deputy Sheriffs David Jones, about 32, and Raul Diaz approached the house to arrest Mrs. Rosales, charged with beating another woman.

Jones dropped near the porch. Diaz, a few feet behind him, sprinted to their car and escaped. At least six bullets punctured the auto as he roared away, Diaz said.

The shooting took place at a frame house occupied by the Rosales family on a farm owned by her mother, Mrs. Flomona Ritchie.

Billy Ritchie, a brother who lives nearby, hurried over, talked briefly to the couple and came out to advise a gathering force of peace officers.

"They've both got rifles, and they say they'll shoot if anybody comes close."

There were no further shots—only uneasy silence. Father McGrath

Grath was permitted to enter and tried to persuade Rosales and his wife to surrender. He went back to town and brought a lawyer at the couple's request.

It was an hour and a half after the shooting before the priest brought word two men could remove the body of Jones without drawing fire.

There is about 100 yards of cleared ground in all directions from the house. Until it grew dark, officers did not dare to get close.

They ordered tear gas by special plane from Texas Ranger headquarters in Austin. The gas arrived minutes after the barricaded couple gave up.

Dist. Atty. Newton said the trouble stemmed from a family dispute in which Mrs. Ritchie sought to evict her son-in-law and daughter from the house. He reported Mrs. Rosales got into a fight earlier in the afternoon with Mrs. David Hume, wife of Mrs. Ritchie's lawyer.

As a result, Jones and Diaz carried warrants for the arrest of Mrs. Rosales on charges of assault with intent to murder and aggravated assault.

Rosales was free under bond pending trial on a cattle rustling charge.

Mrs. Rosales is a daughter of Ed Ritchie, known as "the spinach king" in this area. Ritchie and Mrs. Rosales' mother have been divorced for a number of years.

ble stemmed from a family dispute in which Mrs. Ritchie sought to evict her son-in-law and daughter from the house. He reported Mrs. Rosales got into a fight earlier in the afternoon with Mrs. David Hume, wife of Mrs. Ritchie's lawyer.

Connally Says Democratic Campaign Ready To Begin

AUSTIN (AP)—State Democratic Chairman J. Ed Connally says the Kennedy-Johnson campaign in Texas will begin rolling immediately.

Connally, Abilene, Thursday announced the organization of a steering committee for the Democratic presidential ticket a n d named former State Atty. Gen. Gerald C. Mann director.

Co-chairmen are Gov. Price Daniel and Speaker Sam Rayburn who headed the unsuccessful prevention Johnson-for-President drive in Texas.

Connally said a "vigorous campaign in behalf of the Democratic ticket will be waged throughout the state."

Connally said others appointed to the committee include Lt. Gov. Ben Ramsey, Atty. Gen. Will Wilson, State Comptroller Robert S. Calvert, State Treasurer Jesse James, Agriculture Commissioner John White, Justices Joe Greenhill

and Robert Calvert of the Supreme Court, Railroad Commission Chairman Ernest O. Thompson and Dist. Judge W. T. McDonald, nominee for the State Court of Criminal Appeals.

Jerry Sadler, state land commissioner nominee, said he refused to be a member. He said "This steering committee has already steered so far to the left that it is in the ditch on the left side of the road. . . . I was for Johnson for president but I cannot agree with Lyndon Baines Johnson when he says he accepts the Democratic platform en toto and endorses it."

Other steering committee members are U.S. Sen. Ralph Yarborough, the 21 Texas Democratic congressmen, National Committeeman Byron Skelton, National Committee woman Mrs. Hilda Weimert, State Democratic Committee Vice Chairman Mrs. R. Max Brooks and Jake Jacobsen, committee secretary.

Texas Reds

DALLAS (AP)—Chairman Francis Walter (D-Pa) said Thursday the House Un-American Activities Committee may check Communist infiltration of Texas.

Disposable Suits For Space Men

PALO ALTO, Calif. (AP)—Astronauts may need disposable space suits for those long trips around Mars and Venus.

Rollin Gillespie, a scientist at Lockheed Missiles and Space Division's research laboratories here, said laundering is out of the question for trips which may last a year or longer. That would require too much water and energy.

What would the clothing be like? Gillespie said suits probably would resemble old-fashioned long underwear and have a texture like felt-porous enough to pick up body odors.

The suit would be used in the same manner as a disposable diaper. After wearing, it would be jettisoned and a new one put on.

Logical Place To Be Bitten

EL PASO, Tex. (AP)—A boy, replying to radio station KRDD's offer of a prize for news tips, called Thursday with a story about a youth being bitten by a dog.

Trying to establish where it happened, the newsmen asked where the youth was bitten.

"In the seat," the tipster said.

Rifle Holdout Is Shot To Death

SAN ANTONIO (AP)—Anton Rakowitz, 46, who held off a group of officers with a rifle Aug. 1, was found shot to death Thursday.

Rakowitz was free on \$200 bond after he shot his wife in a leg with a shotgun. When she called officers, Rakowitz held them away from the house, but later sought to run and was overpowered in a field.

His two teen-age sons found him today at a fence about 100 yards from his home in east Bexar County. He had been shot with a .22-caliber rifle which was beside the body.

Dr. Robert Hausman, county medical examiner, ruled the death a suicide.

Strong Coffee

ATLANTA (AP)—An Atlanta man wound up in a hospital after he drank what he and a waitress thought was coffee.

It wasn't coffee. It was a mixture of hot water and cleaning powder being used to scour the coffee-grinder at a downtown cafeteria.

Mort Baker was served the mixture by mistake by a waitress who was unaware that the coffee-maker was getting its early morning cleaning.

He was given an antidote by Frances Schell, cafeteria manager and taken to the hospital. Doctors said he suffered no serious effects.

THIS DAY IN TEXAS
By CURTIS BISHOP
A pair of socks mailed to the President of the United States on this day in 1856 was unique indeed—unique because it was the only pair of its kind ever manufactured in Texas.
The footwear was made by Mrs. Mary A. Shirkey of Victoria. She took the loose dead hair of a camel, spun her own thread and knitted a pair of socks which she sent to President James Buchanan to prove that the weaving and spinning of camel's hair could be developed into a great Texas industry.
"If I had the machinery," she wrote, "I could have made you a better specimen of what the camel's wool would do in Texas."
She had obtained the hair from one of the camels introduced into Texas in an effort by the United States Army to determine whether the ungainly beasts could be successfully used in southwestern terrain.
Nothing resulted from this Texas woman's enterprise, and the Army, too, abandoned its camels, though a drove of 25 of the animals was taken to California in 1857 and others were scattered about in some sections of Texas during the Civil War.

A Devotional For Today

If ye then be risen with Christ, seek those things which are above, (Colossians 3:1)
PRAYER: Loving Father, bring us into a closer walk with Thee. May our faith become deeper, our witness stronger, and our hearts cleaner. Sustain us daily as we strive to walk the upward path. Set our affections on the things that count. In Jesus' name. Amen.
(From The 'Upper Room')

State Of Complete Confusion

Congo, thy middle name is confusion. In last week's paper we read a direct quotation from U. N. Secretary General Dag Hammarskjöld, then in Leopoldville, saying the entry of U. N. forces in Katanga "in no case constitutes interference in the internal affairs of the Republic of Congo or the province."
The impression was that everything had been arranged: the Belgian troops were pulling out of Katanga Province and the U. N. forces were moving in no later than Saturday morning. We got the impression Dr. Ralph Bunche, the U. N. undersecretary, had made all the necessary arrangements.
Well, we either misread the news from the front, or misunderstood its import; for the situation changed completely by week's end, and what had looked like a sure incursion of Katanga by U. N. troops had turned into a countermand of the march order on the mild remonstrance of the Katanga premier that the U. N.'s entry would be resisted.
So Mr. Hammarskjöld flew back to New York, and there was a fresh round of resolving and viewing with alarm in the U. N. Council, the major resolution calling

on the Belgians to do a quick fadeaway from all the Congo, including Katanga. Let us suppose that the U. N. has its way, and all the Belgian troops are evacuated from Katanga Province (as scheduled) before the U. N. forces are available, or acquire the necessary direct orders from New York.
And suppose Premier Lumumba, fresh back from the U. N. where he seems to have scored a few points himself, goes ahead with his native troops to occupy Katanga as quickly as the Belgian forces depart — what happens? Will there be another wholesale slaughter of Lumumba opponents who didn't take to their heels soon enough?
Will there be fresh rapine and slaughter of innocent women and children in Katanga?
When Hammarskjöld first announced U. N. would move into Katanga, he should have been sure of his ground. Rightly or wrongly, subsequent developments made it look like a backdown, and that was a tragic mistake.
The belated arrival of U. N. forces doesn't automatically allay fears and confusion.

May Take More Than Words

The U. S. has roundly denounced Cuba's forcible theft of hundreds of millions of dollars' worth of U. S. property in Cuba, and the Organization of American States, made up of 21 American republics, has adopted a four-point agenda to be followed at a meeting in Costa Rica August 16.
Cuba proposed a rival agenda, but it was rejected 20-1. It cast the only adverse vote on the main body's proposition to study prevailing conditions in Latin America, with special reference to Communist infiltration.
Sticks and stones and hard words won't discourage or dissuade the Red-leaning government now in power in Cuba. It remains to be seen whether the Organization of American States can swing enough

weight to snatch Cuba from the Communist thumb.
Whatever steps, openly and on the q.t., that the United States has undertaken to counteract the Castro dictatorship in Cuba, it hasn't been enough.
One wonders what T. Roosevelt would be doing if he were alive and kicking. Would he content himself with denouncing the outright appropriation of three quarters of a billion dollars in American property, instead of taking more direct action? Would he be so sensitive of the world's opinion that he would sit by and watch a cutthroat, irresponsible government play ducks and drakes with international law, at the behest of the Kremlin?

David Lawrence Is U.N. To Be A Real Policeman?

WASHINGTON — A far-reaching precedent in world affairs is being established in the Congo. An international military force is actually being ordered to intervene within an independent country to establish "law and order."
The reason given is that "the complete restoration of law and order in the Republic of the Congo would effectively contribute to the maintenance of international peace and security."
That's the language of the July 22 resolution of the Security Council of the United Nations, which has just been reaffirmed by the same Council.

ter has been threatening to march against the troops of the neighboring province of Katanga.
THIS IS CERTAINLY an "internal" situation, even though the United Nations chooses to emphasize the international aspects.
United Nations forces have been based heretofore to try to squelch a war between two parts of a given country. It will be recalled that this was the basis of the entry of United Nations forces in Korea in the summer of 1950. The Soviets happened by accident to be absent from the Security Council meeting or surely would have vetoed that action. A single vote by the Soviets could have defeated the measure, and the Red Chinese and North Koreans, who plotted the overthrow of the Republic of Korea, probably would have been successful in their annexation program.

BUT IF THIS CAN be done in the Congo, why can't it be applied also in other countries? Today Soviet troops occupy Hungary, Poland, Czechoslovakia, Bulgaria, Rumania, East Germany and other captive states. Soviet troops continue to impose their tyrannical power and to interfere with freedom of speech, freedom of the press and free elections by the peoples of those countries.
If the United Nations is to be the policeman of the world, it has a job cut out for it in Eastern Europe. The Security Council insists in the resolution, adopted by a 9-3-6 vote, that the United Nations forces "will not be a party to or in any way intervene in or be used to influence the outcome of any internal conflict, constitutional or otherwise."

Evidence of an indisputable character also has been revealed showing that the Soviet government furnished arms and ammunition to the forces of the Red Chinese and North Koreans. This act of treason against the United Nations has gone unpunished. The U. N. Charter says:
"ALL MEMBERS shall give the United Nations every assistance in any action it takes in accordance with the provisions of the present charter, and shall refrain from giving assistance to any state against which the United Nations is taking preventive or enforcement action."
But since the Soviet government has the right of veto in the Security Council, it disregards that plain warning. That's why the Soviet threats that have been made recently to intervene in the Congo, and the wanton use of Communist propaganda to upset peaceful governments in independent countries go on unchecked. Seemingly, only the smaller countries like Belgium, which seek to protect their nationals in troubled areas of the world, must obey the U. N.

YET KATANGA—the province which has succeeded—has been protected by Belgian troops, which the United Nations now orders withdrawn. They came there as a result of incidents in Leopoldville, where dozens of Belgian women were raped by the troops of the very government that asked the United Nations forces to intervene. There is no evidence that any plans are being made to secure redress for the wrongs done the foreigners who were attacked. At least two of them were Americans.
Instead, the emphasis has been placed on the withdrawal of the Belgian troops. Once this demand is complied with by the Belgians, the United Nations forces are supposed to maintain order. They will not be able, however, to remain there indefinitely. In the final analysis, the question will be whether the Congo government, whose troops were responsible for the disorders in the first place, is capable of maintaining order. Its prime mis-

deed is that the United Nations forces are being made to secure redress for the wrongs done the foreigners who were attacked. At least two of them were Americans.

Better Late Than Never

BEAUFORT, N. C. — North Carolina's third oldest town just plain forgot to celebrate its 250th anniversary.
So residents spent a week this year with appropriate celebration of the town's 251st birthday.

Cops-Cons Trophy

LINCOLN, Neb. — A "pilfered" softball is the trophy for a three-game series between the Lincoln police department and the Nebraska state penitentiary.
After the first game in the "cops-cons" series, the police returned home with an extra ball with their gear.
They hastily returned it to the prison, where the convicts mounted it on a special trophy stand and offered it to the winner of the series.

JUMPING THE GUN

James Marlow Niki Ready To Invite Himself Again?

WASHINGTON (AP) — There's that man again.
Premier Nikita Khrushchev, when unsure of the outcome, acts like an early bather sticking one toe in the water to see if it's cold before diving in.
Back in 1959 he put out a feeler for an invitation to the United States. Once he got it, he came bouncing over. That was last September. Came the spring.
He torpedoed the summit conference, called off President Eisenhower's trip to Russia, and for weeks insulted and belittled the President.
He said he'd never have another summit get-together with Eisenhower, American-Soviet relations took a perilous dive.
This week Khrushchev acted like a man putting out feelers again.

long journey to New York, than to be invited to visit some of the Latin American countries.
So far Fidel Castro's Cuba is the only one which has shown any enthusiasm for that notion.
Just why Khrushchev would want to come back to this country whose President he ridiculed just a few months ago is not clear. All kinds of guesses can be made:
1. He's getting worried about the serious downturn in American-Soviet relations and would like a chance to patch them up with Eisenhower.
2. His visit would be just a propaganda stunt.
3. He might even want to stick his nose into the American elections.

But a man with his unpredictable temper-tantrums would be a hazardous kind of visitor.
If he got displeased with the United States position on disarmament, he might start insulting Eisenhower all over again, but this time in the President's own country.
If the two men met and worked out some agreement on disarmament—a highly unlikely prospect—it would be a big boost to the Republicans' campaign.

Hal Boyle For The Love Of Money

NEW YORK (AP)—Curbstone comments of a Pavement Poet: Never trust a man who knocks money. He is bound to be a hypocrite.
Money is one of the truly great pleasures of life, and the man who turns against it has lost one of the great tools to finer living. It is still true that money in itself can't buy happiness—and never could. But can you name a better down payment?
There are a number of ways of acquiring money, and how you acquire it determines to a considerable extent the fun you get from it. The average man's dream of utter glory is to inherit money. This proves again the instinctive wisdom of the common man. He knows what is best for him.
There are those who insist that only money earned by his own sweat empowers a man and gives him character. But this is for most of us a terribly tedious way to build either cash or character, and sometimes we wind up without much of either.
Besides, earned money isn't nearly as much fun to spend as given money.
Nothing would please the Russian better, if he did make the

you a man with a padlock on his pocketbook who spends with a limited sense of joy because he is too aware of how much toil and lost sleep his money cost him. What he really enjoys more is bragging about how poor he was as a youth, and how many sacrifices he had to make to become rich. He has become a moneyed martyr.
But show me a man who has inherited a million dollars, and I'll show you a man who will get five million dollars worth of mileage out of his fortune. Spared the agony of having had to earn it, he finds double pleasure in every dollar he spends.
The average man in this life is a prisoner of the next payday and the next pay hike.
If he is making \$50 a week and expecting a \$10 raise, he starts living at a \$100 clip. When he finally gets the extra ten bucks, it makes no difference in his scale of living. He has already been living \$10 a week beyond his means.
"I'm no better off than I was before," he moans.
Here we have the key trouble with money you earn yourself. You only get to spend it once—and it's gone.

To Your Good Health Many Unanswered Questions About Gout

By JOSEPH G. MOLNER, M. D.
A letter from Mrs. W. asks about gout and she adds, not entirely correctly: "Cause—acid deposits in the blood. Effect—swelling and pain. Result—can be crippling arthritis all over my body. Horrible thought!"
She is taking medication and following a diet.
There are some things about Mrs. W.'s letter which make me think she probably has troubles other than gout, and her diet may be designed to serve purposes other than just controlling the gout.
Let's stick just to the problem of gout. It's a disease which to a certain degree still mystifies us even though it has been known for centuries.
The body's handling of uric acid (forming sodium urate in the blood) appears to be the root of the trouble. The urates are deposited in cartilage, and by far the likeliest place for this to occur is in the big toe.
Presently the victim has an acute attack—the toe (or other spot) becomes inflamed and cruelly tender. Usually the attack passes in a matter of days. Sometimes it continues somewhat longer than that. But in any event, the pain comes and goes. The toe is intensely painful while the attack lasts. Then everything calms down completely, until the next attack.
Why do the urates form deposits in the cartilage, instead of being eliminated by the system? We wish we knew! No animal has

trouble. But people do.
For a very long time it has been supposed that avoiding foods that are high in purines helps. Of course, there has been considerable question in the minds of some experts whether diet has very much to do with the disease, and dependence has been placed on medication. So far as I can say, the matter of diet is somewhat argumentative.
On the other hand, there has been marked improvement in drug treatment. Colchicine, used for centuries to relieve pain of an attack of gout, is still in effective use, although it does not have any effect on the deposits of urates, and thus cannot ward off future attacks.
Probenacid, however, now has come into wide use and I know individuals who, by taking it conscientiously, go along indefinitely without further attacks.
As I said, the big toe is the commonest point of attack, although it is possible for deposits of urates to appear elsewhere: fingers, toes, kneecap, ankle, instep and other places, usually at the joints.
It does not follow, however, that "crippling arthritis all over the body" is going to occur. Gout and arthritis are not the same thing. However "gouty arthritis," or stiffness and pain from chronic gout, is well known.
Anyway, gout does NOT portend widespread disability. And with modern drugs it has become possible to treat it much more ef-

fectively than we ever could before, even though we have not yet discerned the reason why the disease occurs. Nor, for that matter, why gout attacks men about 20 times as often as women.
"Dear Dr. Molner: Please discuss the difference in symptoms between T.B. and cancer of the lung. Does bloody sputum which sinks in the water indicate T.B.?"
—E. J.
There's no point in discussing it. Both can cause bloody sputum. Whichever it is, you ought to get to your doctor immediately. It also might be several lesser things. Whatever it is, let your doctor decide.
R. J. The peritoneum is a membrane which encloses the whole abdominal cavity. "Peritonitis" is inflammation or infection of it.
Never take a chance on diabetes! For better understanding of this disease, write to me in care of The Big Spring Herald for a copy of my booklet, "Diabetes—The Sneaky Disease." Please enclose a long self-addressed stamped envelope and 25 cents in coin to cover cost of handling.
Because of the tremendous volume of mail received daily, Dr. Molner regrets that he cannot answer individual letters, but whenever possible he uses readers' questions in his column.

Around The Rim Legends Of Kings And Wheat

The King of Anvilla was a subtle man. When he could accomplish an end simply by asking, he could not resist subverting the issue.
The King of Anvilla wanted an alliance with the province of Bellaterra, but this was one issue in which he knew honesty would only mean a declaration of war with the Kingdom of Turpentene, mainly because Bellaterra was a protectorate of that mighty and warlike nation.

Had anyone bothered to count, it would have been discovered that there were now two and one-half billion grains of wheat, give or take a few.
Earlier stands of wheat had depended greatly on The Farmer, but the last crop had grown fat and indifferent. Thus it was that few cared when, of an evening, a dull red glow began to appear on the horizon.
The individual grains were too concerned with their own affairs to care much, but there were those who knew what the red glow meant, and who nervously watched the horizon. The glow steadily increased day by day, but few cared.
One day, The Farmer walked through the field. Most of the grains couldn't see The Farmer, or wouldn't. They were too unconcerned. There were those who did. Those who saw the red glow on the horizon cried out the danger, and those who saw The Farmer cried out their devotion to the one who had planted them and cared for them. Some grains were fortunate, for they cried out on both counts, and these The Farmer heard.
Gently, he gathered them up, placed them in the saucer from which he had supped his evening meal, and carried them off to a newly-cleared field where there was no danger, even from insects or winter cold, and where there was no dull red glow on the horizon.
The grains of wheat who had been left behind, the entire field, were destroyed by the forest fire.

So, the King of Anvilla decided to use subtlety. Oh, he sent an ambassador to the Terrabellan leaders, alright, and got a sort of neutral answer—hopeful, but not exactly "yes." But that was the most clandestine part of the affair.
The King set out to upset the balance of power, but in such a way that he should not be suspected. He sent ambassadors to Turpentene, proclaiming "peace, peace." He sent agents to Bellaterra to stir up trouble, and he made secret alliances with all surrounding powers. His hands were clean.
Well, Bellaterra went through a whole year of wars and revolutions and the King of Anvilla thought his designs were taking shape. Only one more year to go, according to plan, and the alliance would become reality.
But, when the time came to establish relations with Bellaterra, he found his ambassadors met in a polite but cool manner. Bellaterra had become independent and needed no alliances, and the King of Anvilla was left without recognition.
Confucius say: Man too subtle, outsmart himself.

Once there was a large clear space in the midst of the Unknown Forest. One day, The Farmer came along and planted two grains of wheat. They germinated and prospered, and finally, the field was covered.
Had anyone bothered to count, it would have been discovered that there were now two and one-half billion grains of wheat, give or take a few.
Earlier stands of wheat had depended greatly on The Farmer, but the last crop had grown fat and indifferent. Thus it was that few cared when, of an evening, a dull red glow began to appear on the horizon.

Inez Robb The Answer Is In Your Newspaper

Want to know how to treat a burn, shingle a barn, train a dog, grow dahlias, patch up a failing marriage, give a bridal shower, play better bridge, rear the kids, care for Siamese cats, invest in stocks, get rid of warts, make crepes suzette, and a bean, give the heave-ho to a suit or handle in-laws, select a wardrobe, build a better barbecue, handle a psycho at home or address the prime minister of Way-Out Mongolia?

FINALLY, THE DAY came when they were asked to appear at the head shrinker's with Mitty in tow. Once in his office, Mitty was given paper and crayons, put into a room by himself and ordered to draw a picture of his family. Well, Mitty is no Michelangelo. But by the end of an hour in solitary, the child turned out a chromo in which could be identified two adults, his parents, and two children, his brother and his sister.
The psychiatrist pounced on Mitty's art with the joy of a district attorney producing the bullet and the blood-stained shirt in a first-degree murder case. From Mitty's picture, he cried, it was clear that the child did not consider himself a member of the happy family — or he would have included himself in, instead of out, of the family group.

EASY, MAN, EASY. Just consult your daily newspaper. Every sheet now employs a bevy of experts who solve all problems, settle all questions. The reader never had it so good.
In my daily paper, I have just come across consolation that I am posting airmail, special delivery to a young cousin with a tough problem. In June, her six-year-old son flunked kindergarten, with resultant turmoil among the family grown-ups.

There was the key to Mitty's problem, the psychiatrist keenly: Mitty considered himself a nonmember, an outsider. Mitty's mother, a pretty, high-spirited young woman in ordinary circumstances could hardly wait to get out of the psychiatrist's office before she burst into laughter.
"Let's stop worrying and making fools of ourselves," she counseled. "Mitty did exactly what the man ordered—he drew a picture of HIS family, not of THE family." So they bought a frame for Mitty's picture the next day, and everyone went back to being his happy self.

MITTY, WHO HAD just turned six when he distinguished himself by his academic failure, was rushed off to the school psychiatrist. At the conclusion of his probing, he announced that Mitty had a high I.Q. and darker causes must lie behind his failure to adjust to the educational sandbox.
So the school ordered Mitty's parents to the psychiatrist. Now, Mitty's parents, both college graduates, are devoted parents who have made their home a center for the neighborhood kids. They are both pleasant, sensible young persons. But after a few sessions with the school psychiatrist they came home deeply depressed by the fear that what they had always believed to be a happy marriage might,

Amendment into a political issue has been awkward and ill-advised. In 1955, although Bulgaria had satisfactorily established the validity of its non-acceptance of the Court's jurisdiction, the State Department made a grandstand play of withdrawing on the pretext that the Connally Amendment was reciprocal—and might be used by the other party. More recently, U.N. Ambassador Lodge—in a bluff that was patently phony and theatrical—challenged Russia to take the RB-47 case into the International Court.

BOTH THE VICE President and the Democratic internationalists tried last spring to whoop up a witch hunt to get rid of a provision known as the Connally Amendment of 1946. The amendment is part of the resolution (S. Res. 196, 79th Congress) by which the USA accepted compulsory jurisdiction of the International Court in international matters, but not in matters "which are essentially within the domestic jurisdiction of the USA, as determined by the USA."
Much fuss was raised in public addresses and leaked stories to the effect that the Connally Amendment stood in the way of settling dozens of disputes between the Free World and the Soviet bloc, and that (according to a columnist for the Christian Science Monitor, of all newspapers) "the villain of the affair, curiously enough, is the United States."
BUT THIS IS THE nonsense of ignorance and propaganda. The International Court is not the arena for East vs. West. The reason is that Russia and the Soviet satellites have never accepted the Court's jurisdiction.
Not the Connally Amendment, but Connally-type amendments by other nations, and a Connally-type provision in the U.N. Charter, have prevented the International Court from acting upon domestic cases. All 80-odd members of the U.N. are automatically entitled to use the Court—but this is an option not accepted by the Red bloc. In all fairness to the International Court, there is nothing in the 13-year record of the 15-member bench to indicate the slightest tendency to go beyond its defined jurisdiction.

Amendment into a political issue has been awkward and ill-advised. In 1955, although Bulgaria had satisfactorily established the validity of its non-acceptance of the Court's jurisdiction, the State Department made a grandstand play of withdrawing on the pretext that the Connally Amendment was reciprocal—and might be used by the other party. More recently, U.N. Ambassador Lodge—in a bluff that was patently phony and theatrical—challenged Russia to take the RB-47 case into the International Court.
THESE POLITICAL and ill-informed sorties tend to demean the dignity of an otherwise austere and even useful judicial body. Next month, for example, the Court will make public its findings on a case which involves two Latin American nations. This is a border dispute, dating back to an arbitration by the King of Spain in 1906, between Nicaragua and Honduras. Another example: In June, 1959, the Court settled the ownership of some mixed-up enclaves claimed by both Belgium and The Netherlands. Again, France and Norway used the Court to untangle an argument about some gold bonds. Still again, there was a recent matter of custody of a child whose parents came from separate north European countries.
These are typical examples of what the Court does. But you would never know it from the wrangling of the politicians. The Court sits in The Hague's famous Peace Palace, an ornate and unbecomingly grandiose where Andrew Carnegie tried long ago to set up the machinery of international arbitration as a substitute for war.

Holmes Alexander Keep Court Out Of The Campaign

THE HAGUE, HOLLAND—This charming Dutch capital is an appropriate place to make a pious wish concerning the United Nations' International Court of Justice.
May Candidates Nixon and Kennedy have something better to talk about during the fall campaign! On the basis of what Mr. Nixon has said, and of what leaders of Senator Kennedy's party have said the himself, wasn't around much last session) the International Court is shrouded in thick mists of misinformation.

Amendment into a political issue has been awkward and ill-advised. In 1955, although Bulgaria had satisfactorily established the validity of its non-acceptance of the Court's jurisdiction, the State Department made a grandstand play of withdrawing on the pretext that the Connally Amendment was reciprocal—and might be used by the other party. More recently, U.N. Ambassador Lodge—in a bluff that was patently phony and theatrical—challenged Russia to take the RB-47 case into the International Court.
THESE POLITICAL and ill-informed sorties tend to demean the dignity of an otherwise austere and even useful judicial body. Next month, for example, the Court will make public its findings on a case which involves two Latin American nations. This is a border dispute, dating back to an arbitration by the King of Spain in 1906, between Nicaragua and Honduras. Another example: In June, 1959, the Court settled the ownership of some mixed-up enclaves claimed by both Belgium and The Netherlands. Again, France and Norway used the Court to untangle an argument about some gold bonds. Still again, there was a recent matter of custody of a child whose parents came from separate north European countries.
These are typical examples of what the Court does. But you would never know it from the wrangling of the politicians. The Court sits in The Hague's famous Peace Palace, an ornate and unbecomingly grandiose where Andrew Carnegie tried long ago to set up the machinery of international arbitration as a substitute for war.

BUT THIS IS THE nonsense of ignorance and propaganda. The International Court is not the arena for East vs. West. The reason is that Russia and the Soviet satellites have never accepted the Court's jurisdiction.
Not the Connally Amendment, but Connally-type amendments by other nations, and a Connally-type provision in the U.N. Charter, have prevented the International Court from acting upon domestic cases. All 80-odd members of the U.N. are automatically entitled to use the Court—but this is an option not accepted by the Red bloc. In all fairness to the International Court, there is nothing in the 13-year record of the 15-member bench to indicate the slightest tendency to go beyond its defined jurisdiction.

Amendment into a political issue has been awkward and ill-advised. In 1955, although Bulgaria had satisfactorily established the validity of its non-acceptance of the Court's jurisdiction, the State Department made a grandstand play of withdrawing on the pretext that the Connally Amendment was reciprocal—and might be used by the other party. The Court sits in The Hague's famous Peace Palace, an ornate and unbecomingly grandiose where Andrew Carnegie tried long ago to set up the machinery of international arbitration as a substitute for war.

THE WORK OF THE 15 judges (each from a different country) is tedious and unglamorous to the extreme. Every effort is made to shun publicity and to reach decisions only after lengthy and repeated exchanges of written notes.
The International Court is a modest asset to good government within the Western World. It should be kept out of the Cold War—and out of American politics!
(Distributed by McNaught Syndicate, Inc.)

Pat Dunn Is Wed In Vincent Rite

Pat Dunn and Frank Hardy were united in marriage Tuesday evening in the Vincent Baptist Church. The double ring rite was performed by the Rev. O. E. Coleman of Fort Worth.

A double archway, decorated with flat fern and rosebuds, was flanked by candelabra. Music was provided by the Rev. and Mrs. Coleman.

Mr. and Mrs. Elms Dunn of Colorado City are parents of the bride; parents of the bridegroom are Mr. and Mrs. William E. Hardy of Snyder.

The bride, given in marriage by Dunn, wore a street-length dress of white jersey. The sleeveless bodice featured a low neckline that was accented with a single strand of pearls, the gift of the groom.

White gadioli encircled with white carnations and tied with satin streamers formed the bridal bouquet.

Shirley Mashburn of Henderson, maid of honor, and Billy Joyce Coleman and Betty Byan, a cousin of the bridegroom, both of Fort Worth attended Miss Dunn. They were dressed in blue, pink and yellow and carried carnations to match.

Skeet Dunn, a brother of the bride, was best man. Groomsman were Albert Hardy, a brother of the bridegroom, and Freddy Parrott.

The bridegroom's sister, Karen Kay Hardy, lighted the tapers. For a trip to southern points en route to Sumpter, S. C., where they will make their home, Mrs. Hardy wore a navy waffle-weave suit with a white dicker and white accessories. She wore the gadioli from the center of her bouquet as a corsage. The bride is a 1960 graduate of Snyder High School. Hardy is a 1958 graduate of Snyder High School. He is now stationed at Shaw AFB, S. C.

Open House Is Planned

STANTON—Mr. and Mrs. C. D. Payne are to celebrate their 50th wedding anniversary with open house, Sunday, at their home, 512 Burleson St.

All friends are invited to attend the affair from 3 to 6 p.m.

Mr. and Mrs. Payne were married Aug. 17, 1910, in Clarksville. Mrs. Payne was the former Myrtle Conell of Clarksville before her marriage.

The Paynes moved to Colorado City from Clarksville. In 1944 they moved from there to the Hartwells community in Martin County. In 1945 they moved to Courtney, where they resided until Mr. Payne retired from farming in January this year and they moved to Stanton.

All of their children will be present. They are Leo Payne, J. M. Payne and Mrs. Dee House, all of Martin County. Nine grandchildren and 12 great-grandchildren will attend.

Shower Is Given For Miss Rice

A music box with a bride figurine swirling with the music decorated the tea table at the miscellaneous shower given Thursday afternoon for Joyce Rice, bride-elect of Herbert Stewart.

Parents of the couple, who will be married tonight at the home of the Rev. Cecil Rhodes, are Mr. and Mrs. W. P. Rice, 202 Warren, G. C. Stewart of Sand Springs and Mrs. Mildred Forgas, 811 San Antonio.

A corsage made of small kitchen gadgets was presented to the honoree by the hostesses, who entertained in the home of Mrs. Harold Graves.

Joining Mrs. Graves were Mrs. Floyd Pike and Mrs. Gilbert Turner of Forgan, Mrs. Curtis Manley, Mrs. Howard McChristian, Mrs. Akin Simpson and Dorothy Woolley.

About 25 guests called during the afternoon.

Catholic Children Plan Procession

Some 40 children of Webb AFB will form a procession on Monday, in the base chapel to celebrate the Assumption of the Virgin Mary.

Children from 6 to 16 hold these processions twice each year at Webb, once on May 1 and again on August 15. Highlight of Monday's procession will be the crowning (with flowers) of a recently acquired small statue of Mary.

The function is scheduled by Chaplain (1st Lt.) John L. Howard, Webb's new Catholic chaplain.

Probably Cupid To Pay No Attention To UAR

By JOY MILLER
NEW YORK (AP)—The other day the United Arab Republic banned May-December marriages in what seems to be an unprecedented step against late-flowering love.

Henceforth in the UAR, marriages between men over 60 and women under 30 are out.

In most other countries, such things are left to nature, and nature — aided by medical advances in geriatrics — has been pretty liberal with its boundaries.

Just a couple of days ago, for instance, after the UAR clamped the lid on a news item from Italy told about a 20-year-old countess who'd just had her second child by her husband—a sprightly 79.

And what about Charles and Oona Chaplin, who've had seven children since their 54-18 marriage 17 years ago, and ostensibly are still in the billing and cooing stage?

There are other famous couples whose union would have been prevented by a law such as the UAR's.

Pablo Casals, regarded as the world's greatest cellist, is his wife's elder by 61 years, but they're having a good time making beautiful music together (she was his pupil), walking, swimming, and decorating their home.

HOLLYWOOD BEAUTY Singer Reveals Tips On How To Grow Up

By LYDIA LANE
HOLLYWOOD — Darlene Gillespie was one of Walt Disney's Mouseketeers; she now records for Coral Records. Though still in her teens, she has years of professional experience behind her. "I am preparing a night club act," she told me over a raspberry ice, "so I decided to celebrate by making my hair white-beige. How do you like it?"

"It seems to be in excellent condition," I didn't reveal my aversion to this particular shade.

"I have been coloring my hair since I was 15," Darlene confessed, "and I feel that if you take care of it with the right shampoos and conditioners, there is no need to damage it."

I wanted to know what made Darlene start bleaching her hair so young.

Don't Rush To Grow Up
Darlene Gillespie, still in her teens, warns against rushing into adulthood. Independence without a sense of responsibility leads to problems, she feels.

"I am light brown naturally," she revealed, "I developed an allergy on my scalp, and the prescription the doctor gave me to use on it lightened my hair. The sulphur in it did it. After I stopped using the ointment, my hair looked drab, so I started to bleach it."

"Hair colorings have been made so easy to use today," Darlene mentioned all the time controls and softening ingredients. "But with this white-blond I sleep in a conditioning cream the night before my shampoo; I wear a plastic cap so I don't stain my pillow."

"You seem to be a teen-ager without problems," I commented. "I think a lot of teen-agers create their own problems," Darlene observed. "The trouble begins with the press for independence. When you get it, it's not as thrilling as you think. But it's sad if you find this out too late."

"I think you have to be as ready to give as you are to receive. You can't go very far in this life if you're not willing to work for what you want. Being able to accomplish things gives you a wonderful feeling," she continued.

"But everyone, regardless of his or her age, needs encouragement at the right time. Parents who don't understand what their children are striving for often create the friction and problems."

BEAUTY FOR TEENS
Perhaps you are a teen-ager or know someone who is in her teens. Lydia Lane has a 12-page beauty booklet designed especially to help these young ladies. Special sections cover diet and health, clothes, skin problems and make-up, grooming and neatness — and much more. This truly helpful booklet, "Beauty for the Teens," will be on its way to you when you send 15 cents and a stamped, self-addressed envelope to Lydia Lane, Hollywood Beauty, Big Spring Herald.

Boy Scouts Return From Camp Trip; Rebekahs Install

STANTON—The Stanton Boy Scouts have returned from the Boy Scout Camp in the Davis Mountains.

Initiated into the honorary order were George Foreman, son of Mrs. Tommie Foreman, Stanton, and Carroll Anderson, son of Mr. and Mrs. R. O. Anderson.

Also initiated was Dewitt Davis, Scoutmaster of Stanton Troop 28.

Mrs. Eula Eubanks, Mrs. Mildred Ballard and Rita of Santa Monica, Calif., have returned from a trip to a New Mexico resort. Mrs. Ballard and daughter are here visiting her mother.

Mrs. Mason Coggin was installed as vice grand of the Stanton Rebekah Lodge Monday night at the 100F Hall with Sammie Laws presiding as lodge deputy. She was assisted by Mrs. Jim McCoy, deputy marshal and Mrs. Henry Louder, deputy warden.

Mrs. Roy Linney was installed as right supporter to the vice grand. Mrs. Lela Shankle presided as noble grand during the business session.

Play In All-Star Classic

Two of the players who will perform in tonight's College All-Star football classic at Chicago, which starts at 8 p.m. Big Spring time, are pictured above. They are Dick Bass (left) 194-pound back from College of Pacific and Art Donovan, 270-pound tackle for the Baltimore Colts. The game can be heard over KRST Big Spring 1490 or seen over KMID-TV Channel 2 Midland.

Meredith, All-Stars Will Take To Air

By CHARLES CHAMBERLAIN Associated Press Sports Writer

CHICAGO (AP) — The College All-Stars tonight will try to make a daring, gambling game pay off against the Baltimore Colts, National Football League champions. The 27th midsummer classic is expected to draw upwards of 70,000 customers to Soldier Field. It will be televised and broadcast over ABC starting at 10 p.m. Eastern Daylight Time. Facing a defense hinged by the likes of 288-pound Gene (Big Daddy) Lipscomb and 270-pound Art Donovan, Coach Otto Graham's squad of 47 college graduates un-

dooubtedly will be thinking of an air offensive rather than a ground attack. Quarterbacks Don Meredith of Southern Methodist, George Izo of Notre Dame and Pete Hall of Marquette may spray the atmosphere with more passes than ever before in the series. There even could be more aerial action than in last year's 29-0 Colt triumph in which the collegians tried 41 tosses, completed 15 for 196 yards, and Baltimore catapulted 28 for 14 hits and 211 yards. Despite the potential passing power of the All-Stars—and a group

of fine receivers, odds-makers have installed Baltimore about a 20-point favorite. Gail Cogdill of Washington State and Carroll Dale of Virginia Tech are regarded as two of the best pass-catching ends ever to make an All-Star roster. But the All Stars must protect their passers from the huge Baltimore chargers if they hope to crank up an air barrage. Flipping passes for the Colts will be the master, John Unitas, now tabbed as completely recovered from cellulitis, an infection that earlier this week spread from his nose to glands below his eyes and up to his forehead. Unitas had a brief throwing drill Thursday night as the Colts worked out for a short time under the lights in Soldier Field. "I feel fine," he said. "I responded to treatments right away." Some observers expect Ray Brown to see more action than Unitas, especially if Baltimore erupts for a substantial lead by halftime. The former Mississippi quarterback has been trained to fill in for Unitas as well as holding down the job as right safety in the defensive backfield. Baltimore coach, Webb Ewbank, an assistant to Paul Brown during Graham's years of glory with the Cleveland Browns, says that his Colts cannot afford to lose to the All-Stars. "A defeat would embarrass the NFL and also might hurt the morale of our squad at a time we are aiming for our third straight championship," he said. "The boys are right at the mental peak I want them to be. We came to play, and to win." Graham describes his group as "probably the most quiet bunch of kids I've been around." "I've seen other quiet groups explode when a game comes up," he added. "I hope this is that type. We could upset the Colts, or be defeated 50-0."

LOOKING 'EM OVER

With TOMMY HART

If Fidel Castro carries through with his implied threat to recall all Cuban baseball players now active in leagues in this country, ex-Big Springers Camilo Pascual (Washington) and Mike Fornieles (Boston) are very likely to apply for American citizenship.

Fred Russ, director of the ASA State Softball tournament in Brownwood this week (in which two Big Spring teams are entered), doubles as a basketball official in season.

Mickey Mantle's career as a bowling impresario hasn't gone so well but a rant in Missouri, of which he owns 28 per cent, operates well within the black. Fact is, he could double his original investment if he cared to sell. Mickey, of course, has disposed of most of his stock in that Dallas kegling center.

Lawrence Bledsoe of San Angelo, who'll captain the visiting team for the first annual Cosden Cup matches here Sept. 2, is a rancher by profession.

Starting this year, the director of the Big Spring Invitational Golf tournament will double as captain of the local cup team. In the past, when the Hall-Bennett Matches were held, a member of the Country Club has always been appointed to the job.

Don Faulkenberry of Loop, who appeared in the recent Six Man Coaches Association all star basketball game at Abilene, may possibly attend HCJC.

The St. Louis Hawks and the Cincinnati Royals of the National Basketball Association will play an exhibition game in Lubbock Oct. 4.

This item gleaned from the column of Bill Hart, the Lubbock scribe.

Corpus Christi Ray, the winner of the State Class AAAA football race last season, had 217 boys out for spring workouts — enough for nearly 20 teams.

Corpus Christi now has three high schools and another is on the planning board.

Sixteen years ago, Bill Terry quit baseball with this blunt statement: "It's too cheap a business, and it's getting cheaper all the time."

Terry is now a millionaire. He made his money in cotton and the automobile business. He was making \$40,000 a year in baseball when he checked his job to his superiors.

Texas high school coaches rarely get a chance to become head coaches at major universities. Some of them couldn't afford to make the change, however.

They're paid better than prep mentors in any other state. They earn more than coaches at a lot of the nation's colleges. As a matter of fact, first assistants at Texas schools make more than head coaches of high schools in many other states.

The average salary of high school coaches in Georgia, for example, is less than \$5,000. One of the most successful coaches in Georgia, who has nearly 20 years experience at his job, made only \$5,300 last year.

Webb And Laredo Clash In Opener

BROWNWOOD (SC)—The Shamrock Oilers of Abilene, Brownwood Floral and Coors of Odessa won opening round games in the ASA State Softball tournament, which got under way here Thursday.

Shamrock defeated Sherman Lumber of Beaumont in a close one, 5-3. The game went two extra innings.

By upsetting Lake Jackson, Charley's Package Store can earn the right to play again at 11:40 p.m. tonight, meeting the Austin Merchants—which drew a first round bye.

A loss to Lake Jackson, however, would find Charlie's returning to play at 7 a.m. Saturday.

In all, 36 games are on tap in the tournament, with the finals down for 9 p.m. Sunday.

In all, 19 teams are entered. Coors' and Lake Jackson rule as favorites to meet in the finals.

champion of the meet, Lake Jackson, at 7:40 p.m.

Should Coors' win its opener, the Big Spring club plays Coors' at 9 o'clock tonight. Should Coors' lose to Bay City, the Big Springers return to action again at 1 a.m. tomorrow morning.

By upsetting Lake Jackson, Charley's Package Store can earn the right to play again at 11:40 p.m. tonight, meeting the Austin Merchants—which drew a first round bye.

A loss to Lake Jackson, however, would find Charlie's returning to play at 7 a.m. Saturday.

Pirates Feel Effects Of Stan Musial's Bat

By WHITNEY MARTIN Associated Press Sports Writer

Here's a warning to other National League clubs when playing the St. Louis Cardinals don't go into extra innings. The old man in the field is liable to get tired standing around and blast one so he can go home.

The old man is Stan Musial, Pittsburgh's lead to four games. He had a pair of doubles earlier as a warmup.

Los Angeles blanked Cincinnati 3-0 and San Francisco nipped Milwaukee 8-7 in other NL games. Chicago's Cubs and Philadelphia were not scheduled.

Oddly, most fans don't think of Musial as a home run hitter. They think of him as a line drive hitter—singles and doubles and triples.

Yet he has a career total of 424 round trippers. Musial's home run Thursday night broke up a stirring pitching battle between Pittsburgh's Bob Friend (12-9) and the Cards' Ernie Broglio (14-5). Each went the distance, Broglio allowing eight hits and Friend seven.

The Bucs made a valiant effort to prolong their seven-game winning streak. They scored once in the bottom of the 12th on Bill Virdron's single and Rocky Nelson's double, but that wasn't quite enough.

It was the Cards' fifth straight victory and their 30th in their last 41 games. Sandy Koufax was the whole place with the Dodgers-blanked the Reds, Koufax who seven times this year has fanned more than 10 batters in a game, struck out 13 and allowed only two hits.

The San Francisco Giants dropped Milwaukee to fourth place with their victory. Taking a five-run lead in the first two innings, the Giants saw the Braves nibble away on it until it dwindled to the one run. The Braves loaded the bases with two down in the ninth, but Johnny Antonelli got Bill Bruton to ground out to end the game.

Antonelli got credit for the victory, his sixth, but had to have help from Antonelli in the eighth when the Braves scored twice and were trailing by one run.

Washington beat Kansas City 5-4 and the Boston Red Sox downed Cleveland 5-2 in the other AL games. Chicago had an open date along with New York.

Harmon Killebrew, who got a late start on his home run today, is starting to do double time to catch up. He hit two Thursday in the Washington victory and now has hit 10 in his last 22 games for a total of 17.

It took some fancy relief pitching by Ray Moore to save the game, despite Killebrew's heroics. Moore halted a ninth inning Kansas City rally with tying run on second. Truman Cleveinger, who was relieved by Hal Woodeshick in the eighth, got credit for the victory, and Ray Herbert was the loser.

The Boston Red Sox also had to get relief to win. Mike Fornieles relieved El Detock in the eighth with two on and retired Harvey Kuenn and Vic Power to end the inning, and then got three Indians in a row in the ninth.

Rip Repulski had three RBI with a home run and a single, and Don Buddin knocked in a pair with a double. Jim Piersall's home run was one of Cleveland's eight hits.

Brigand Memorial Is Set Saturday

RUIDOSO, N. M. (SC)—Eleven have been named to face starter Charles Koyk in Saturday's annual running of the Brigand Memorial at Ruidoso, Colo.

An annual event at the Downs, the race is named in honor of Brigand, one of the all-time great short running horses.

Top weight and the favorite's role here goes to the classy Miss Louton, from the stable of Marian Seward-at-Ruidoso, Colo. This four-year-old daughter of Tonto Bars Gil—Miss Lou Dandy was victorious in her only outing here when she galloped home in front of a top field in the Bright Eyes Stakes.

She has been asked to carry 128 pounds in this one, giving away seven or more pounds to every entry in the race, a seemingly impossible task, in spite of her outstanding record. She holds one of the few wins scored in 1960 over Vandy's Flash and this came as a result of a disqualification and not a regular win.

The Flash defeated her by a nose but was detected fouling in the race and was placed second behind her.

The question mark in the race could be the three-year-old grey gelding, Silver Beau, a closely beaten fourth in last week's Quarter Horse Derby. This three-year-old speedster from the California stable of Schultz and Sperry, set the early pace in the Derby but seemed to tire badly in the final stretch. Run. The 350-yard distance will be more to his liking since he is seldom topped at the break. He turned in a sparkling win in the Derby trials and must be considered here since his lifetime record shows seven wins in 16 starts against the best in the nation.

Another factor in the race will be the double threat of the (Dallas, Texas) Phillips Stable entry, Breeze Bar and Easter Rose.

Charles Blalock over Nile Cole, 3 and 2 (Those two play each other in the semi-finals).

SECOND FLIGHT—Bobby Rutherford over Ted Hull, 1 up.

THIRD FLIGHT—Ad Lindsey over Gerald Lackey, 6 and 5. (Lindsey has now reached finals); John Burgess over Grey Peay, 1 up (Burgess has now reached semi-finals and meets the winner of the Tom Napier-Ralph Walker match in the next-to-last round).

FOURTH FLIGHT—No matches completed Thursday, outside of a first round match in which John Taylor defeated Don Washburn, 2 and 1. Taylor now meets John Hickson in second round.

CHAMPIONSHIP CONSOLATIONS—Joe Connolly over Wally Flitts, 2 up.

FIRST FLIGHT CONSOLATIONS—J. C. Self over R. C. McDaniel, by default.

SECOND FLIGHT CONSOLATIONS—Wes Strahan over Cecil Rhodes, 1 up; Joe Carlson over Elmo Phillips, 1 up; Tommy Wilson over Bill Sheppard, 4 and 2. Pairings — Strahan vs. Carlson, Ramsey vs. Wilkerson.

THIRD FLIGHT CONSOLATIONS—Buck Parks over Jerry Foresyth, 2 up; Billy Bob Satterwhite over Jerry Caddell, 3 and 2.

FOURTH FLIGHT CONSOLATIONS—David McCullough over Ray Pitts, 4 and 3.

An awards supper for all members of the Cosden Golf league will be held at 7 p.m. next Thursday at the Cosden Country Club. After the meal, prizes will be presented to the championship team and its individual members.

To wind up the evening, two PGA movies, entitled "All-Star Golf" and "Play Better Golf," will be shown.

The meal is free to players active in the circuit. Members of the Cosden golf committee this year are William B. Crooker, Charles Bailey, John Roxie Dobbins and Paul Mosley.

Antonio squares away with Brooke Army Medical District softball tournament gets under way at 3 p.m. today and continues through Monday night. Four games are on tap today and tonight, four more Saturday, three Sunday while either one or two games will be played Monday. The winner will be determined in a double elimination type tournament. Lackland Field of San Antonio, the defending champion, drew the first round bye and does not play until Saturday. At 3 p.m. today, the host base, Webb, challenges Laredo. Two hours later, Randolph Field of San

Orioles Shade Tigers To Gain On NY Yankees

By WHITNEY MARTIN Associated Press Sports Writer

A first glance at the Baltimore roster might give the impression Vancouver is threatening to win the American League pennant.

Sprinkled in the mixture of creaky veterans and gallow youths Paul Richards has assembled are five players who played for the Canadian, club last year. Three of them — Marvin Breeding, Ron Hansen and Brooks Robinson — were in the lineup Thursday as the Orioles whipped the Detroit Tigers 6-1, to run their victory string to six games.

Baltimore, which now has won 11 of its last 12, gained a half-game on the idle Yankees and now trails by only one game. The hope run bunge the Orioles have been on—15 in the last seven games — is a little misleading when given as the cause of the surprising showing of the club this season.

Baltimore is only one ahead of its home run output at a similar stage of the race last year. The club has 85 for 109 games. Last year it was 84.

The real reason for the Baltimore boom is that it is a team effort, as indicated by the batting averages. Last year the club was hitting .236 at this time. This year the team average is .256. A good pitching staff is getting a little help.

Thursday, Ron Hansen, Walt Dropo, Dave Nicholson and Jim Gentile all hit for the circuit against the hapless Tigers, making the job of pitcher Jack Fisher a breeze.

Washington beat Kansas City 5-4 and the Boston Red Sox downed Cleveland 5-2 in the other AL games. Chicago had an open date along with New York.

Harmon Killebrew, who got a late start on his home run today, is starting to do double time to catch up. He hit two Thursday in the Washington victory and now has hit 10 in his last 22 games for a total of 17.

It took some fancy relief pitching by Ray Moore to save the game, despite Killebrew's heroics. Moore halted a ninth inning Kansas City rally with tying run on second. Truman Cleveinger, who was relieved by Hal Woodeshick in the eighth, got credit for the victory, and Ray Herbert was the loser.

The Boston Red Sox also had to get relief to win. Mike Fornieles relieved El Detock in the eighth with two on and retired Harvey Kuenn and Vic Power to end the inning, and then got three Indians in a row in the ninth.

Rip Repulski had three RBI with a home run and a single, and Don Buddin knocked in a pair with a double. Jim Piersall's home run was one of Cleveland's eight hits.

Finn Twin Headed For Court

Unidentified officers struggle to control one of Los Angeles' famed Finn twins after he was served with a traffic warrant in Los Angeles. The warrant was intended for George Finn, but the arrested man insisted he was Charles Finn, George's identical twin. Later it was determined through fingerprints that officers had indeed served Charles with the warrant intended for his brother. The warrant was served outside a courtroom where the Finns were appearing on behalf of the release from a detention home of Linda Turner's daughter, Cheryl Crane.

Barge Rider Has Red River Praise

Fort Worth oil man now sponsoring a barge trip up the Red River believes that water from Lake Texoma may be the key to providing inland water transportation for North Texas cities.

He is Barney Holland, who has just returned from Louisiana where his 110 foot barge is being pushed by a tug up the Red River in an effort to prove the feasibility of commercial transportation on the stream.

"The Red River will offer a much shorter and much faster waterway to cities in the East than would navigation of the Trinity to the Gulf Coast," he says.

While Holland would like to see the Trinity made navigable so as to give the Fort Worth-Dallas area a waterway to the Texas coast and foreign trade, he says the possibilities of navigation on the Red River must not be overlooked.

"It takes a tremendous amount of water to operate locks on inland waterways. Fortunately there is ample water in Lake Texoma to make possible a waterway from Denison to the Fort Worth-Dallas area, utilizing Lewisville Reservoir," he says.

Such a waterway could link up with the Red River to give this section of the country water transportation to the Mississippi which would be a shorter route than going down the Trinity to the Gulf and then back up the Mississippi, he says.

Currently Holland is dividing his time between his oil distributing business here and keeping check on the progress of the barge which is now between Alexandria and Shreveport.

The barge—110 feet long with a 26-foot beam and six-foot draft, entered the Red River from the

Snake Hunter Risks His Life In Assuming 'Overdone Hobby'

By KATRICA COCHRAN
Wichita Falls Times and Record
News Staff Writer
Written For The Associated Press
NOCONA 09 — It takes only a minute — but skill involved in those 60 seconds can mean life or death to Floyd Garner.

Garner, who collects snakes — he calls it an "overdone hobby" — wastes precious little time when he is defanging a rattlesnake. He's quick, but above all, he's careful.

Receivership Is Ordered

AUSTIN (AP) — Midwest Security Life Insurance Co. of Dallas was placed in receivership by Dist. Judge J. Harris Gardner Thursday.

The temporary injunction and receivership will be permanent unless there is a trial to dispute the state's claims of insolvency. The firm did not contest the order.

The state claimed that as of Aug. 3 the firm had an overall deficiency of \$127,000.

"I've seen lots of records but these are the worst kept I have seen in 35 years," testified Clyde Mace, auditor for the state liquidator. "Cancelled checks and other pertinent records are missing. Considering the condition of the records there is the possibility that lots of claims have been reported and have not been settled."

Norman V. Suarez, attorney for the state liquidator, said he had talked to officials of the firm concerning \$229,000 cash they claim is still in Grand Bahama Bank and Trust Co. He said the state ordered no replies to letters and court orders sent to the bank address.

In San Antonio city officials estimated the San Antonio firemen and policemen carried as much as \$3.5 million insurance with Midwest Security. About 450 policemen and 350 active and retired firemen are covered by a group policy.

The state attorney general's department said numerous queries have been received from Brownsville indicated a number of firemen and policemen there carried insurance with the firm.

To put it another way, he "respects them."

Mrs. Garner says, "It's silly not to be careful of them."

The Garners supplied rattlers needed for the filming of "Old Rex," a boy and dog adventure story photographed recently near Wichita Falls by Robert Hinkley Productions, Inc., of Hollywood.

The story calls for a den of rattlers, which Rex tears into in defense of his young master, Chris, played by Billy Hughes, 11. Although Rex is immune to the rattler's poison—he's been bitten several times — Garner defanged the reptiles for the benefit of Billy.

Rex is owned by Mr. and Mrs. Billy Gene (Red) Bray of the 77 Ranch near Wichita Falls.

Capturing the snakes is really more than just a hobby for Garner who's been doing it most of his life.

He ships them, wrapped in individual sacks and packed in crated boxes, to wholesalers in Florida, Missouri and California. The wholesalers distribute them for the anti-venom serum and for canned rattlesnake meat.

Many of his reptiles go into zoos, but Garner always donates these snakes.

Garner traps for all kinds of snakes but "rattlesnakes and copperheads are my specialty," he says. Seasons for snake hunting are the spring and fall.

"The reptiles won't come out of their dens in the winter or when frost is on the ground. And during the summer, they stay in a cool place during the day and hunt for food at night."

The areas in which he searches are Wichita, Clay, Archer and Jack counties. He also traps them on the north side of the Red River in the Rock Bluffs area.

"Due to the fact they den on the south side of cotton-pines of

rocks, I work on the north," Garner explained.

Once he's captured the snakes, he keeps them in wooden and wire cages until ready for shipment. While in captivity few will eat.

"They're too irritable," he says. Garner seldom defangs the rattlers, but when he does, his only tools are a small stick and a pair of pliers.

With the stick he forces the rattler's mouth open; hooks the stick underneath the fangs and stretches the mouth wide, then with his free hand (his knees and arms are involved in holding the wriggling, indignant snake still), he yanks out the fangs. The fangs will grow back.

S.W. Texas Gets Rains

Scattered thundershowers fell over extreme Southwest Texas and along the coast early Friday. Skies were generally cloudy over South Texas and mostly cloudy over extreme Southwest Texas. Early morning temperatures ranged from the low 60s in the Panhandle to the upper 70s along the coast.

A cloudburst dumped more than 6 inches of rain at Three Oaks, 20 miles west of Kenedy Thursday. Falls City, 50 miles south of San Antonio, received 3.98 inches and Cotulla got 2.82 inches.

Other rainfall totals for the 24-hour period ending at 8:30 p.m. Thursday included: Laredo 1.66, Kingsville 1.10, Corpus Christi 1.09, Galveston .97, Lufkin .85, Palacios .78, Del Rio .72 and Austin .65. Many other areas got lesser amounts.

The five-day forecast issued Friday calls for temperatures 1 to 3 degrees below normal in Eastern and Central Texas and near or slightly below normal in Western Texas. Scattered thundershowers are forecast.

Baton Twirler Konks Governor

SANTA BARBARA, Calif. (AP) — It finally happened. A baton twirler twirled too hard—and his baton flipped out of control.

Guests of honor on the reviewing stand ducked. Down came the baton—and guess who it hit? Gov. Edmund G. Brown, guest of honor at the annual "Old Spanish Days Fiesta" parade.

Teen-age twirler Keith Hodges Thursday walked uncertainly to the stand to retrieve his baton. The governor had a smile for the youth. The baton, he said, had only hit him on the first bounce.

State Road Needs Explained By Panel

AUSTIN (AP)—A research arm of the governor's State Finance Advisory Commission feels the great need in the Texas highway system in the 1960s is improvement of U.S. and state roads.

The commission's subcommittee on highways and roads agreed Thursday that more state money should be poured into this interstate truck highway system that serves 1,227 Texas towns, representing 7 1/2 million people. About 80 per cent of the highway deaths and property damage were reported on the system last year.

The committee took the position that the Legislature ought to do something about providing maintenance money for the farm market system which now is pulled out of funds which could be spent on U.S. and state highways.

Under present law, the state is spending \$41 million a year to build new farm market roads. Some \$17 million a year to maintain the ever mushrooming system has to come from other sources.

The Colson-Briscoe Act of 1949 set the system in motion and originally it was estimated 25,000 miles of farm roads would do

Flies Swarming Over Red China

HONG KONG (AP)—Flies and mosquitoes, which were reported liquidated several years ago, again are swarming over some of the biggest cities in Communist China.

The People's Daily, Red China's official organ, reports a new "all-out battle against flies and mosquitoes" in Peiping, Shanghai and Tientsin.

Factories, schools and government organizations in the three cities participated in this mass campaign.

"In Tientsin," the paper said, "an army of more than 500,000 people is engaged in the battle against flies and mosquitoes."

Some 2,300 anti-mosquito incense burning centers have been set up in the city.

In Peiping the battle slogan is: "Every man has a swatter in hand and swats to death every fly in sight."

Onassis Leaves To Visit Callas

MONTE CARLO (AP)—Greek shipping magnate Aristotele Onassis left by air Thursday for Athens to join opera singer Maria Callas.

There were spreading rumors that Onassis and Miss Callas plan to be married. But Thursday night Onassis denied the reports. Talking to newsmen in a Monte Carlo cabaret, he said cryptically: "They're singing 'romantic' but they should be singing about having a good friend."

'NEVER KNOW WHAT WILL HAPPEN'

Parachuting Reporter Won't Argue The Point

(Editor's note: Few reporters would make a parachute jump just for a story. But part 90-pound Katy Eggers of the Dallas Times Herald made two jumps. Here's her story.)

By KATY EGGERS
Dallas Times Herald Staff Writer
Written for The Associated Press

DALLAS (AP) — Interviewing the Dallas Sky Divers seemed like a snap assignment. Just watch them bail out and find out why, I thought.

But when you pit the enthusiasm of 16 sport parachutists against the quains of one 90-pound reporter, something has got to give. You can't really know what it feels like until you try it, they insisted.

They talked me into jumping — twice!

They outfitted me with white coveralls, heavy boots and crash helmet. Then came two bulky parachutes, one for the front and one for the back.

It didn't seem real until we started for the plane. Two experienced Sky Divers, Carl Crump and Jerry Cook, climbed into the back. I got in front like a clumsy puppy at the end of a leash, only they called it a static line.

AUTOMATICALLY
Attached to both my chute and the plane, it would open the chute automatically when I reached the end of the line, they told me.

"Fine," I said, wishing I had signed up for hospitalization.

Pilot John Coker taxied down the field and minutes later the plane took off with a roar. We began circling the field to gain altitude. It's amazing how much you can forget when miles of green countryside are spread out beneath you.

Then I came to and realized how hard I was gripping the door frame. I mentally reviewed the procedure for opening the reserve chute.

"We're at 2,700 feet," the pilot yelled.

Landing was what really bothered me, though. Non-jumping friends had compared it to jumping off a two-story building.

It would be horrible to have to wear a cast for the rest of the summer. No swimming. But it was too noisy to explain, I decided, struggling to my feet.

Getting outside was hard. There was so much of me to maneuver through the door and so little to hang on to after I finally made it.

I balanced on a tiny step, holding on to the wing and door frame. Getting back in might be worse than landing.

"Now," Jerry yelled.

I pushed off. The plane and everything else disappeared. There was just the wind and me.

A basic rule floated into my mind: Count to five and check to see if the chute is open. I got as far as one and felt a gentle tug on my shoulders. The huge canopy soared above me.

NOTHING BUT AIR
It felt strangely comfortable to be able to dangle my legs and have nothing but air between them and half of Texas. Oddly, the ground didn't seem to be coming closer.

Then the floating sensation disappeared and I felt myself going down.

Farms and lakes began to grow larger and Hartley Air Field at Denton regained its shape. Closer to the ground, I saw jack rabbits scampering around. Little did they know.

The end of the trip was getting nearer. Relax, the Sky Divers had said. Flex knees. Keep your feet together.

I was traveling faster. Ten feet to go. My feet hit. I rolled over backward. It didn't hurt at all.

I stood up and my feet sank into inches of beautifully squishy mud.

A BIT WINDY
I pushed off. The plane and everything else disappeared. There was just the wind and me.

A basic rule floated into my mind: Count to five and check to see if the chute is open. I got as far as one and felt a gentle tug on my shoulders. The huge canopy soared above me.

NOTHING BUT AIR
It felt strangely comfortable to be able to dangle my legs and have nothing but air between them and half of Texas. Oddly, the ground didn't seem to be coming closer.

Parachuting Reporter

When Katy Eggers of the Dallas Times Herald staff writes about parachuting she is well qualified to give first hand information on the subject. At left reporter Eggers gets ready to go aloft to make a jump from the Dallas Sky Divers

plane and at the right Katy is shown as she appears daily around the Times Herald news room. Katy recently made her second jump with the club.

Teachers Unit Sets Program For Pay Hike

DALLAS (AP)—A program demanding an \$810 raise in teachers' minimum wages was adopted Thursday by the Texas State Teachers Assn. executive committee.

The request by the 75,000-member organization is an increase over the figure cited earlier this summer when the TSTA campaigned for a special legislative session.

As outlined by legislative committee chairman Dana Williams, superintendent of schools at Corsicana, the program urges:

An annual salary of \$4,014 for a beginning teacher with a bachelor's degree and \$4,239 for a master's degree, based on a 9-month school year. (Present minimums are \$3,204 for a BA and \$3,429 for a MA.)

Salary increments of \$100 for each year's teaching experience. Holders of bachelor's degrees would receive 10 increment raises until a maximum of \$5,094 is attained, and master's degree holders would draw 17 yearly raises to reach a \$6,075 maximum. Present increments are \$54.

Increase school transportation aid from the state by \$380 per bus.

Estimated cost of these proposals and five other bills urged would be \$103,400,000 in 1961-62 and \$101,910,000 the next fiscal year.

myself as the chute headed for our luminous landing target.

But the wind picked up. Soon I was over the hangars and sailing toward the highway.

Feminine logic told me that all good drivers would yield the right of way to an orange and white parachute.

They didn't have to. Soon the highway gave way to one block of houses and then another. It was going to be a long walk back to the airport.

Then, 15 feet above a rooftop and still traveling fast, I picked out a landing spot in a big back yard. Pretty simple — except for the high tension wires that appeared at the back of it.

Scream? I tried it. I turned my back to the wires.

Thud. The ground and a sloppy, three-point landing, but I had missed the wires.

People rushed out of their houses to stare.

"It's a sport that never becomes routine," the Sky Divers told me later. "You never know what's going to happen."

I don't know that I'd argue the point.

Four Banks Cut Discount Rate

WASHINGTON (AP)—The Federal Reserve Board authorized four banks to cut their discount rates from 3 1/2 to 3 per cent, effective today.

The reductions were approved for the system's New York; Cleveland, Ohio; Richmond, Va.; and Kansas City, Mo. banks. The other eight reserve banks are expected to follow suit soon.

Frank Grimes To Rest Home

ABILENE (AP)—Doctors sent Frank Grimes, editor of the Abilene Reporter-News and dean of West Texas newsmen, to a sanatorium Thursday for a three-month rest cure.

Grimes, 68, suffered an attack of pneumonia in May and this was believed to have contributed to his current illness.

He is a patient at McKnight Tuberculosis Sanatorium near San Angelo.

Louisiana Demo Loyalists Succeed With U.S. Ticket

BATON ROUGE, La. (AP)—Louisiana's Democratic loyalists have succeeded in pledging the party's 10 presidential electors to the national Democratic ticket of Sens. John F. Kennedy and Lyndon B. Johnson.

The loyalists won a hard-fought, 51-49 decision in the Democratic State Central Committee Thursday on the key vote to pledge the electors to the Kennedy-Johnson ticket.

Earlier, they had shown they held a committee majority when they won two test votes, each by 52-49.

One of the leading supporters of an unpledged slate of electors, Dist. Atty. Leander H. Perez of Plaquemine and St. Bernard Parishes, said immediately after the meeting he would shift his support to the states rights party.

Louisianans will have three choices: the Republicans' Nixon-Lodge ticket, the Democrats' Kennedy-Johnson slate and the States Rights party.

Jesus Christ, The Same . . . Yesterday, Today, And Forever! Amen.

"The earth is the Lord's, and the fulness thereof; the world, and they that dwell therein." — PSALMS 24:1.

"Therefore the prudent shall keep silence in that time: for it is an evil time." — AMOS 5:13.

"How can ye believe, which receive honour one of another, and seek not the honour that cometh from God only?" — ST. JOHN 5:44.

"For the kingdom of God is not in word, but in power." — I CORINTHIANS 4:20.

"I form the light, and create darkness: I make peace, and create evil: I the Lord do all these things." — ISAIAH 45:7.

"If I were hungry, I would not tell thee: for the world is Mine and the fulness thereof." — PSALMS 50:12.

"He that is of God heareth God's words: ye therefore hear them not, because ye are not of God." — ST. JOHN 8:47.

"Now consider this, ye that forget God, lest I tear you in pieces, and there be none to deliver." — PSALMS 50:22.

"In your patience possess ye your souls." — ST. LUKE 21:19.

"Verily, verily, I say unto you, He that heareth My word, and believeth on Him that sent Me, hath everlasting life, and shall not come into condemnation; but is passed from death unto life." — ST. JOHN 5:24.

Church Going Not What It Used To Be, Carr Recalls

By SHERI WEBBER
"Churches have changed," says the Rev. Allen F. Carr.
"We used to have a lot of all-day meetings, and people didn't watch the clock then. Sometimes the preachers would preach right through the moon hour, but nobody thought about getting up and leaving."
The Rev. Carr became a Christian when he was 21 years old in 1907. He entered the ministry right away, and in 1912 was ordained by the Apostolic Faith, a group that in 1914 organized to become the Assembly of God movement.

Among his memories is one that might seem odd to church-goers of today—churches seldom took up collections then. "Finance wasn't considered much at that time. If we felt the Lord wanted us to go some place to minister, we didn't think about how much money we were going to get. We just thought about how much it would please the Lord," recalls the retired veteran preacher. The preachers were supported by what people gave them when shaking hands after church.

Testimony meetings were frequent when Mr. Carr was a young man. And he remembers that they were a lot different than those of today. "The people didn't have to be persuaded to stand and tell people of their personal experience with Jesus like they do today—they had to be persuaded to sit down!"

The Rev. Carr, now 74 years old, was superannuated only two years ago. He pastored a church until after he was 70 years of age. To his credit are so many revival meetings he can't count them all, the pastorate of 13 churches scattered throughout Texas, Missouri and New Mexico, and the beginning of many preaching points that have developed into churches.

In the early days of his ministry Mr. Carr preached under brush arbor tents, on the street, in school houses and churches. He can still recall the first time he attended a street meeting and can still remember his knees knocking together as they did at that time. Brother Carr explains that it was not unusual for see people preaching on the streets then; there were no city laws against it at that time. Many of the larger cities now allow this only if the minister or church gets special permission.

SAY ON STUMP
The Rev. Carr grew up on a farm near Cotero, in South Texas. There were no churches in the area at that time, and the visit of an occasional circuit rider, was the people's only contact with a minister.

As a young man Carr had not much time to think of religion—he thought more of the white fiddle he played for neighborhood dances. And then a family moved onto their farm that were sincere, dedicated Christians. The joy and peace displayed by these people caused Allen Carr to think of Christianity seriously for the first time.

But it was three years later before the farmer-boy made a decision for Christ. A revival was being conducted in the area, and Allen attended. One day at home he began to think of Christ, and getting his shotgun as if to go hunting, he headed for the woods.

The young man sat down on a white oak stump for a while and thought—he decided he wanted to be a Christian. Kneeling in those woods he began to pray "And the glory of God just filled my soul!" Mr. Carr recalls.

"I was so full of the joy that Jesus gives the Christian and the peace of God that I wanted to tell everyone!"

REV. AND MRS. ALLEN F. CARR

Although he is now living in retirement, the Rev. Carr is still busy in the ministry. Each Sunday afternoon he ministers at the city jail to the prisoners, and he often fills the pulpits of churches in this area when the pastors are away.

"A preacher never gets away from the call to preach," says the Rev. Carr.
"I would rather preach than eat when I'm hungry."

2-B Big Spring (Texas) Herald, Friday, August 12, 1960

Isaiah's Vision of the Holy God

THE HOUR OF REVELATION WHICH BECAME THE MAJOR SOURCE OF THE MIGHTY MINISTRY OF ISRAEL'S GREATEST PROPHET

Scripture—Isaiah 6.

By NEWMAN CAMPBELL

"WE ARE now about to study one of the most transfiguring experiences recorded of any servant of God in the Old Testament, comparable to God's call to Abraham, the experience of Moses at the burning bush, the call of Samuel when a boy at Shiloh, and the experience of Saul of Tarsus on the road to Damascus. What we are to study is a vision, but the result of it was not visionary. The experience led to the greatest prophetic ministry carried on by any one man in the 2,000 years of Israel's history before the advent of Christ."

The voice of the Lord said, "Whom shall I send, and who will go for us?" Isaiah answered, "Here am I; send me."—Isaiah 6:8.

So Isaiah was commissioned by God Himself to warn the people of the woes to come unless they came back to Him and were healed.

Then Isaiah asked, "Lord, how long?" He answered, "Until the cities be wasted without inhabitants, and the houses without man, and the land be utterly desolate, and the Lord have removed men far away, and there be a great forsaking in the midst of the land."—Isaiah 6:11-12.

So were God's chosen people punished for their worshiping of idols and their other sins. Based on copyright notice produced by the Division of Christian Education, National Council of Churches of Christ in the U.S.A., and used by permission. Distributed by King Features Syndicate.

GOLDEN TEXT
"Holy, holy, holy, is the Lord of Hosts: the whole earth is full of His glory."—Isaiah 6:3.

That is a quotation taken from Pelosher's Select Notes, edited by the Rev. Dr. Wilbur M. Smith.

Isaiah writes: "In the year that King Uzziah died (742 B.C.), I saw also the Lord sitting upon a throne, high and lifted up, and His train filled the temple. Above it stood the seraphim: each one had six wings; with twain he covered his face, and with twain he covered his feet, and with twain he did fly."—Isaiah 6:1-2.

"And one cried unto another, and said, Holy, holy, holy, is the Lord of Hosts: the whole earth is full of His glory. And the posts of the door moved at the voice of him that cried, and the house was filled with smoke."—Isaiah 6:3-4.

Then Isaiah said: "Woe is me! for I am undone; because I am a man of unclean lips, and I dwell in the midst of a people of unclean lips: for mine eyes have seen the King, the Lord of Hosts."

"Then flew one of the seraphim unto me, having a live coal in his hand, which he had taken with the tongs from off the altar: And he laid it upon my mouth, and said, Lo, this hath touched thy lips; and thine iniquity is taken away, and thy sin purged."—Isaiah 6:5-7.

Guest Speakers Fill Pulpits As Pastors Take Vacations

Guest speakers are filling many pulpits Sunday as the local pastors take advantage of August for family vacations.

At Wesley Methodist Church the Rev. W. R. Stephens of Hutchinson, Kan., will speak Sunday morning. Stephens, who is pastor of Hardy Wesley Methodist Church, will be introduced by his uncle, Ray Eckler. That evening the district superintendent, Dr. Clyde Smith, will speak.

At the First Presbyterian Church the Rev. William Leonard, who pastors in Big Lake, will preach. Travis Ellis of Southwestern seminary in Fort Worth will be at East Fourth Baptist Church. The Rev. E. B. Murray, of Northside Baptist Church, will conclude his revival at Central Baptist Church in Elbow Sunday morning. Fill-in in the Northside pulpit that morning will be the Rev. Noel Morgan of Westside Baptist Church.

del-10:30 a.m., "The Resurrection of Christ"; 7 p.m., "Christ as the Giver of Life."

Gospel Tabernacle
The Rev. Jack Locker—services as follows: 10 a.m., Sunday school; 11 a.m., morning worship; 7:45 p.m., evening worship.

Jewish
Services at 7:30 p.m. at 900 Runnels.

Latter-Day Saints

FIRST BAPTIST—the Rev. Frank Pollard at 8:45 a.m., "The Christian and Social Obligations"; 11 a.m., "Why Don't We Wake Up?"; Dr. P. D. O'Brien at 7:45 p.m., "The Second Appearance of Jesus."
PHILLIPS MEMORIAL—the Rev. Warren H. Capps—10:50 a.m., "The Gospel of Christ"; 7:45 p.m., "Repent or Perish."

God's Skeleton

Steel girders rise against the bright West Texas sky as the first stage of work on the immaculate Heart of Mary Catholic Church was completed at the beginning of the week. The new parish plant is located off Hwy. 87 south of the city park. The contemporary designed building will accommodate 425 people, relates Fr. Francis Beazley, OMI, pastor of the church that is now called St. Thomas Catholic Church. A school will also be built, and future plans call for a parish hall and a convent.

Give God A Chance—God Will Open Doors For You!

POWER

"Isn't it wonderful, what man can do?" But when looking at man's work, we often overlook the Hand of God. Man harnessed the power in this great dam, but God created it. Long before man discovered the turbine or the electric motor, God placed the power at man's disposal!

God is the source of every one of man's inventive and ingenious undertakings. He gives us the natural resources and the intelligence to use them. And He wants us to use them constructively.

Our Christian faith teaches us of God's power and the vastness of its scope. It teaches us the right use of these blessings, so that life may be enriched by them. Go to church and learn God's plan of love for us and our fellowman. It will mean a better world for all of us.

Copyright 1960, Kristler Adv. Service, Strasburg, Va.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

First Federal Lists Winners Of Awards

Offices of the First Federal Savings & Loan Association were crowded throughout the day Thursday, as well-wishers called on the occasion of the association's 25th anniversary.

Wives of First Federal directors presided at refreshments tables. Souvenirs were distributed to all visitors.

Robert Stripling, secretary and treasurer of the association, said officers were extremely gratified at the large turnout. He announced winners of cash awards — totaling \$1,000 — which were given to registrants. These are:

Award of \$500, Tommy Phillips, 1702 Harvard; \$100 awards, Mrs. Lloyd Van Jones, Route 2, and Ronald Wasson, 504 Bell; \$50 awards, Robert Brown, Knott, and Mrs. Hank McDaniel, City Park Road. Also, these winners of \$25 awards:

T. J. Lynn, 411 Benton; Mrs. Olive Manley, 220 Madison; Scott Robb, Marcy Drive; Mrs. Jessie Mitchell, 504 Young; John Vag, 1409 Virginia; Cleo Myers, 1066 Nolan; Sharon Newsom, Route 1; Mrs. M. W. Burleson, OK Trailer Courts.

Families Flee Mexican Floods
MONTERREY, Mexico (AP) — Several hundred families were driven from their homes Thursday by flood waters in the suburb of Independencia. Four hours of torrential rain fell.

Many were rescued by firemen. No serious injuries were reported, but two children were unaccounted for.

The downpour interrupted power, water and telephone services for several hours. Highways leading into Monterrey were impassable.

'Race' Incident May Cause Battle

CARTHAGE, Tex. (AP)—Judge Ward Chandler said Thursday night he took a white baby from a Negro maid because the infant "was in need of medical care" and not because of the maid's race.

The mother of the 19-month-old boy, Mrs. Edna West, accused the State of Texas of "kidnaping" her son because his nurse, Eunella Sims, is a Negro.

Mrs. West, a night club employee in San Francisco, asked California Atty. Gen. Stanley Mosk to seek release of her son, David Lee, who is in a county home at Tyler, Tex.

Mrs. West said the maid went to Carthage to visit her mother and she gave her notarized permission for the child to go along. Judge Chandler said he learned at a hearing Monday that "the child had a condition that could develop into a serious hernia that required some particular care and attention." Doctors testified at the hearing.

Negroes in a rural area reported the child's condition to authorities. Chandler said David was made a ward of the state "for the protection of the child" because he was "dependent and neglected."

"The race question has no bearing on this thing," he said. "There was no mention of the race question whatsoever at the hearing."

Mrs. West flew to Shreveport, La., today and headed for Carthage, about 40 miles southwest, by automobile.

A spokesman for the Texas attorney general's office in Austin said the matter is entirely in the hands of the local courts in Carthage.

The maid said officers took the boy Aug. 4 from the home of her mother, Mrs. Caroline Mason, while she was in Longview, near here. She said she had gone there to buy bus tickets back to San Francisco.

Group To Meet In CC Offices

The Crippled Children's Building Committee will meet Friday, August 19, at 6 p.m. in the Chamber of Commerce offices.

At the meeting, plans for an open house will be made and purchasing of equipment discussed. E. C. Smith is chairman.

Civil Rights
By The Associated Press
The Justice Department, after winning access to voter records in Montgomery, Ala., moved swiftly to implement a new civil rights investigation in five other Southern counties.

Indian's Body Is Spurned At All-White Graveyard

DETROIT (AP) — The body of George V. Nash, a Winnebago Indian, will be buried in a veteran's plot at Pontiac, Mich. Because of his race, the body was removed from a grave beside his wife's in suburban Troy.

"We are proud of our father and see no reason why he should not lie beside our mother as he wished," Nash's son, John, 20, said.

Claude R. Demund, a funeral director, said the body of Nash was lowered into the grave at White Chapel Memorial Cemetery in Troy Wednesday. He said cemetery officials then told him the burial could not take place because Nash was an Indian.

Demund said while he tried to discuss the matter, the body was removed from the grave and replaced in his hearse.

Nash, a World War I veteran, died Sunday of a heart attack at the age of 65.

John said his mother was buried in the cemetery in 1949 and that cemetery officials had raised a question about her burial but "finally cleared her as white."

He said his father probably will be buried in Pontiac Saturday.

E. Reed Hunt, president of a cemetery association which includes White Chapel, said "the cemetery is restricted to members of the Caucasian race and the Nash family knew that. If we made an exception in this case, some 40,000 lot owners would be able to take action against the cemetery (White Chapel) because they paid for the restriction. Almost every cemetery has its restrictions and the Supreme Court has held them to be legal."

Hunt said the Nash plot was not purchased through the cemetery. He said that when the association learned Nash had purchased the plot, Nash was asked for a routine certification that he was Caucasian.

"We never received that certification," he said.

Two were hospitalized in Root Memorial Hospital at Colorado City. They were Jesus Herrera, about 42, of San Antonio, with lacerations about the face. Herrera was the driver of one of the cars and was alone.

Mattie Lee Crabtree, 10, suffered from lacerations and bruises. Bonnie Sue Crabtree, 14, was given emergency treatment at the Root Memorial Hospital, then taken to a Big Spring eye surgeon for further treatment. She received cuts around an eye.

Robert Crabtree, 15, driver of the other car, is the son of Mr. and Mrs. Woodie Crabtree of Colorado City and brother of the two girls. He was thrown from the car by the impact and the car passed over him but he escaped injury. He was treated at the hospital for scratches and released.

Herrera was southbound on Cherry and was driving a car belonging to his brother-in-law, Sabas Flores, Colorado City.

Crabtree was eastbound on 9th when the two cars met. The automobile driven by Herrera skidded into a utility pole, snapping it apart. Both cars were a total loss according to Selma Dixon, city police officer.

Killed By Car
MANCHESTER, N.H. (AP) — When a small truck driven by his father started up at a traffic light Thursday, Richard Hudson, 4, toppled over the back and was run over by a following car. He died before arriving at Notre Dame Hospital.

Mishap Reported
In a minor traffic mishap Thursday, Stanley Joseph Goode, Monday, Ga., and Richard Granville West, 306 Lorilla, were in collision at 3rd and Main. There were no injuries reported.

NCO Class Gets Dipomas

Grouped together are members of Webb's NCO Preparatory Academy class after receiving their diplomas from Maj. Andrew W. Krieger, at right. They are from left, SSG Ronald E. Benedict, civil group; SSG Richard L. Wessel, USAF hospital; SSG Franklin Prestwood, A-1C John H. Williams, Hq. P. T. Wing; A-1C Harry R. Altman, A-1C Heriberto Cruz, Field Maintenance Squadron; A-1C Nathaniel B. Burks, A-1C Henry N. Opper, M&S Group; A-1C William H. Hall, A-1C Leonard E. Orborn, 3561st Flight Line Maintenance Squadron; A-1C John R. Hatchew, Air Base Group; A-1C Richard M. Hattson, A-1C Orla C. Bleyer, 3560th Flt. Line Maint. Sq.; A-1C Dewey J. Simon, Transportation Squadron; and A-1C Robert Y. Weaver, Civil Engineering Group.

15 Webb Airmen Graduate From NCO Prep Academy

Webb's NCO Preparatory Academy held graduation exercises for Class 61-1 recently when 15 airmen received diplomas from guest speaker Maj. Andrew W. Krieger, Chief of Academics, 3560th Pilot Training Group.

The three-week residence course conducted by 1st Lt. James W. Marlin, with Sgt. Harold Katin as his school supervisor, is attended by airmen listed as NCO Potentials and staff sergeants who are being considered for advancement in grade.

Picked as outstanding graduate of the class was A-1C Henry N. Opper of Hq. 3560th Maintenance & Supply Group.

Addressing the graduates, Maj. Krieger urged them to aspire to attain some kind of command during their Air Force career. The word command he used freely, indicating that it is not possible for all persons to achieve that goal in the literal sense.

The Korean Conflict is packed with instances where men right down the line, took over their units upon the death of their superiors. Maj. Krieger said he knew of no hard-and-fast rules for being a commander.

And that is certainly fortunate for us," he remarked. Citing the late Mahatma Gandhi as a great leader of his people, Maj. Krieger doubted his ability were he to have assumed command of Indian troops.

Physical and moral courage are essential to the good leader, he said, as well as the ability to make sound decisions. But most important of all traits, he said, is having a good character. George Washington's character, he explained, was far more responsible for the winning of the Revolutionary War than his ability as a military leader. "No one wants to serve under a person with poor character," Maj. Krieger added.

Finally, the Major stressed loyalty as almost equally important as sound character. "Loyalty," he said, "is a two-way street—it works both ways." Adding to this statement, "You must give loyalty if you expect to receive loyalty."

Honor Graduate
A-1C Henry N. Opper of M&S Group gets certificate from Major Krieger for being chosen as outstanding graduate of Class 61-1.

GARDEN TALK
Now Is Excellent Time To Plant Many Things

Dear Bruce: I was wondering what time to set out small elm trees and different flowers and garden things. How can we get grass to grow all over and not just in spots? And when do we set out iris and bulbs? Sincerely, R. R. Cagle and family, 1203 Lamar

Well now, different things need different times to be set out. Elm trees are most easily moved when the sap is down. This would be in the winter when the leaves are gone, but sometimes you can get away with moving Chinese elms in the summer if they are small. You must water them well and need luck.

A good time to plant iris is now, and the bulbs can be planted as soon as they turn up on the shelves of your nurseryman and seedsman until the first of December. Now is a very good time to start thinking about fall planted bulbs. Daffodils, crocus, hyacinth and even tulips will soon be available and it is almost time to start planting them.

It is time to plant caladulas, too. If you get them going early enough you may have some blooms by Christmas.

About the patchy lawn, there is a fertilizer on the market that contains dieldrin along with the fertilizer elements. This will kill grub worms in the lawn as it feeds the grass. The trade name is Fertalome and I am using it for the first time today on my own lawn. If it works as I expect it to, it will be quite a handy thing for West Texas gardeners because these grub worms are one of our main pests.

As for the patches that are not covered with grass, get a bag of

Bodies Found
RIVERSIDE, Calif. (AP)—The nude, slashed bodies of a vitamin manufacturer and his wife were discovered Thursday, tied face down on their beds. Both had been stabbed repeatedly, and throttled.

This Modern Age
UTICA, N.Y. (AP)—"Has the woman in your house started her canning yet?" the Utica Press asked a number of residents in a poll. The result: five or six respondents don't can — "We buy everything now," or, "I don't have time."

Extra Dividend Voted By SIC

AMARILLO — Southwestern Investment Company's board of directors declared an extra 2 1/2 cent dividend on the outstanding common stock at its fourth quarter meeting in Amarillo this week, in addition to the regular quarterly dividend of 12 1/2 cents per common share. Dividends at respective rates were also declared on all issues of the company's preferred stock. All cash dividends are payable Sept. 1, 1960, to stockholders of record Aug. 19, 1960.

The board also declared a 3 per cent common stock dividend, payable Sept. 16, 1960, to stockholders of record Sept. 2, 1960. This is the fifth consecutive year in which a 3 per cent stock dividend has been declared.

Man Commended

Edward Simpson, who lives north of Big Spring, was a witness of the tragic accident that occurred Monday north of Sterling City. He commended M. Sgt. Jesse V. Shans, one of the injured, for helping pull other victims from the wrecks.

ON THE SHELF

THAT GREAT LUCIFER: A Portrait of Sir Walter Raleigh, By Margaret Irwin Harcourt, Brace, \$4.50.

The number of enemies Raleigh—you're more familiar with Raleigh?—roused up against himself in his years of service to Queen Elizabeth and King James is almost beyond counting. It includes those who began friendly and turned hostile, like Francis Bacon and Robert Cecil; it includes those who hated him throughout, like his fiery rival Essex and of course, to begin at the top, the Scots James and Spain's Philip II. There was that Judas Sir Lewis Stukeley, Sir Edward Coke, Buckingham, Gondomar, Popham, Lord Cobham the recanter, Henry Howard who called cynical Raleigh the "great Lucifer."

He had steadfast friends, too, we are reminded in this glowing biographical tribute to the "last of the Elizabethans": they were not only Guiana and Orinoco chiefs, but the poet Spenser; that ill-starred Henry, the young Prince of Wales who may have died of poison; and naturally his half brother, his son Wat who was his spitting image, and his wife Bess Throckmorton whom he loved, as she loved him, with a fierce conjugal devotion rare in the rude Elizabethan era.

Friends and enemies together compose a picturesque cast hard to match in English history, with more names known to more readers than probably any other period can furnish. And Raleigh looms up all the greater for the great company he kept:

He had a respectable but inauspicious birth. A poet who left some memorable lines, fascinated with the idea of a new trans-Atlantic England, he fought in the Low Countries and Ireland, became captain of the Queen's Guard, helped rout the Spaniards. In and out of the volatile favor of Elizabeth, and in and out of the Tower, he served her most conspicuously at Cadix in the Wasp. But he was always out of favor with James, who at last betrayed him for Spanish gold and sent him to the block.

We know about the cloak spread for Elizabeth, the domestic who caught him smoking and doused him with water, the nonchalance with which he tried his own headman's axe with his thumb. If he has been called a base flatterer, a swashbuckler who could flinch, and a show-off, Miss Irwin will not have him thus diminished. She evokes with great warmth a handsome, heroic figure, eager to fight and eager to love, with a temper as raw as the steel of his sword. He was master of a slashing reckless wit, was servant of a destiny that altered the face of both Tudor and Stuart dynasties. This is fine biography and splendid writing.

Reds Read Of Powers' Indictment

Moscowites on a street corner in the Soviet capital read newspapers carrying the text of the 4,000-word indictment against Capt. Francis G.

Powers, the jailed U.S. pilot Powers, whose U2 plane was downed over Russia on May 1, is slated to go on trial in Moscow Aug. 17.

Eclipses, Instant Potatoes Top Week's Science News

By The Associated Press

ECLIPSE, ECLIPSE
The last two eclipses of 1960 come next month—a total eclipse of the moon on Monday morning, Sept. 5—and a partial eclipse of the sun, Tuesday afternoon, Sept. 20.

The passage of the earth's shadow across the moon will be visible from much of North America, reports the magazine "Sky and Telescope."

Only the beginning will be visible in the eastern United States. Viewers on the Pacific Coast will be able to see the entire spectacle, beginning at 12:35 a.m. (PST) and ending at 6:06 a.m. (BST).

Only about 61 per cent of the sun's diameter will be obscured by the moon in the solar eclipse on Sept. 20. Sunset bars the event for East Coast viewers, but it will be visible for most viewers from the Mississippi Basin westward.

DATES IN SPACE?
Will the Soviets try some new space shots at the planets in coming months?

October is a favorable month to shoot a rocket to Mars, and January of next year is a good time to aim for Venus, reports the American Rocket Society Journal, Astronautics.

The Russians fired two big rockets into the Pacific in July the journal recalled, noting that two other Pacific shots earlier this year preceded the orbiting of the Soviet spaceship satellite in March.

HUNGER—OFF-ON
Clues to how the control center of the brain regulates hunger and thirst come from new British experiments.

Salt water, injected into the hearts of rats, speeds to the control center—the hypothalamus—and the rat drinks water, says Dr. L. J. Herberg of the Institute of Experimental psychology, Oxford.

A sugar solution, injected in the same way, appears to counteract hunger in the rats, inducing them to leave food uneaten in their cages, he writes in the British journal, Nature.

It suggests that the hypothalamus monitors the blood, orders you to eat when you need sugar or food, orders you to drink when blood salts are too concentrated.

SHARK ATTACK FILE
There were 36 unprovoked and three provoked shark attacks on man during 1959, the Shark Attack File of the Office of Naval Research and the Smithsonian Institution shows.

Of these, about one-third were fatal, writes Dr. Perry W. Gilbert, Cornell University zoologist, in the journal, Science.

Five of the attacks were by unprovoked sharks on air or sea disaster victims. Twelve times sharks attacked boats with no fatalities.

INSTANT SWEET POTATOES
Instant sweet potatoes may be the next quick food available to the housewife as a result of U.S. Department of Agriculture research.

"Flakes that produce instant sweet potatoes with the color and flavor of fresh pureed sweet potatoes have already been prepared in the laboratory," the department's publication, Agricultural Research, reports.

"When added to hot water or milk, the product is ready in 60 seconds to serve or to use in a pie or casserole."

Drive On To Add Chaplin Name To Hollywood Row

By JAMES BACON AP Movie - TV Writer

HOLLYWOOD (AP)—A new drive is on to get Charlie Chaplin's name inscribed on the bronze stars along Hollywood Boulevard's walk of fame.

The famed comic's name was not among the first 1,500 names emblazoned on the street. It stirred up a hot controversy—even a Superior Court suit by his son, Charles Chaplin, Jr.

Word along the street now is that Chaplin, in his heyday the most famous internationally of all Hollywood stars, will be honored when the fuss dies down. The great comic of silent films now lives in Europe.

Furrier Sam Mannis, owner of the corner at Hollywood and Ivar,

has called for a special meeting of the Hollywood Chamber of Commerce to reconsider Chaplin's omission.

"I'm helping pay for the project," says Mannis, "and I've got four names in front of my store—only one I ever heard of. I would like if known publicly that I welcome Charlie Chaplin's name in front of my store."

Mannis added "Whatever the man's political ideology may be, it reflects solely on his personal life, and not on his ability to bring laughter and happiness to millions of moviegoers throughout the world."

Harry M. Sugarman, head of the improvement project, explained the omission thusly: "His name may be added later. Opinion on him was divided. No one is trying to rewrite the history of the entertainment industry. Hitler's name can't be erased from the pages of history but I doubt if anyone is interested in aggrandizing him further."

Young Chaplin said he filed his suit because "the moral principle involved. I know my father is not a Communist, never has been. If they hadn't publicized the fact that they weren't going to include it, I might have forgotten about it. I feel it is my duty to defend him."

Stamps In The News

By SYD KRONISH AP Newsfeatures

Another in the "Champion of Liberty" stamps has been announced. The set of two stamps, 4 cents and 8 cents, will honor Baron Karl Gustaf Emil Mannerheim, famous Finnish soldier and statesman and will be issued Oct. 26 in Washington, D.C.

Each stamp will show the legend "Gustaf Mannerheim—Liberator of Finland" and the dates of his birth and death, 1867-1951, around the likeness of Mannerheim on a medallion.

Other stamps in this series soon to be issued are the Ignacy Jan Paderewski stamp on Oct. 8 and the Giuseppe Garibaldi stamp on Nov. 7.

Collectors desiring first day cancellations of the Mannerheim stamps may send addressed envelopes to the Postmaster, Washington, 13, D.C., with remittance to cover the cost of the stamps to be affixed. Each envelope must be marked, in pencil, in the upper right corner indicating the denomination to be affixed. Requests should be sent prior to Oct. 26.

The outside envelope to the Postmaster should be clearly marked "First Day Covers Mannerheim Stamp."

Stamp Collectors reports that animals, plants and flowers rank highest among the 15 most popular subjects on stamps. The association polled its 5,012 members who collect stamps covering some 300 topics. The top 15 subjects are animals, botanical subjects, United Nations and agencies, sports and Olympics, fine arts, medals, maps and globes, Americana, ships, religion, trains, Scouts, stamp centenaries, rotary and International Geophysical Year.

Two new stamps have been issued by Austria. One stamp, a 1.50-schilling blue green, honors the 25th anniversary of the Grossglockner High Alpine Road and features a view of the highway. The other is a 1.50-schilling brown stamp, marking the tercentenary of the birth of Jacob Prandner, noted sculptor, builder and architect.

Chained Child Is Back Home

AUSTIN (AP)—A homesick 6-year-old boy was back home today—the home where officers found him chained to a bed last week.

Juvenile Court authorities who recommended that the child be temporarily restored to his parents said they hoped they could make the arrangement permanent. No charges were filed against the parents.

Chief Probation Officer Bill Anderson described the case as one of "poor judgment" on the part of the parents. There were no other factors indicating abuse or improper care. The boy was well-nourished, Anderson said.

The parents said they chained the child to keep him from running away from home when spanking had failed to do the job.

"There seems to be an abundance of love of the parents for the child and the child for the parents," Anderson said. He said the boy was "terribly homesick" and was thrilled to see his parents each time they visited him in the Travis County Juvenile Home.

Blonde Watcher

CASPER, Wyo. (AP)—Scribbled on the back of an overtime parking ticket when the fine was sent to the Casper Police Department was this message: "My husband was watching blonde in shorts and forgot all about parking meters. Sorry."

Wasp Returns

BOSTON (AP)—The big aircraft carrier USS Wasp returned to Boston, her home port, Thursday after nearly a month in African waters.
