

THE CASTRO COUNTY NEWS

The Only Publication Devoted to Serving Dimmitt and Castro County

Volume XVI

Dimmitt, Castro County, Texas, Thursday, July 17, 1941

Number 14

PAUL ZIMMERMAN SAYS—

Hello, Neighbor

Dimmitt is a "back-yard city" when it comes to beautiful yards. A stranger driving about the city will not really see the true horticultural ability of Dimmitt women unless he looks into the back yards. Perhaps that shows the reserve of our women. They do not want to be ostentatious. And perhaps they want to be able to more fully enjoy the beauties of their own homes—which, reasonably can be done in one's own back yard out of view of the passing traffic. On the other hand, Ladies, we hope you will not go to the extreme. The front yard needs a spading fork now and then, and we are talking to ourselves, too!

Among the many back yards (and front) containing beautiful flowers in Dimmitt are those of Mrs. Henry Staleup, Ray Cowser, Mark Cowser, Will Wright, M. H. Fowlkes, Ernest Harmon, Ray Sheffy, E. B. Wright and Jack Miller. There are others, of course. We will try to get around to see them some day. The Garden Club is responsible for much of the interest shown here in flowers, beautiful hedges and trees.

In order to get people really interested in coming to Dimmitt, not only to look at the pretty yards but also to buy merchandise, there must also be some sort of pulling power, or enticement, if you please. Interest is increasing in a regular monthly dollar day attraction at which Dimmitt business men will offer values out of the ordinary. No matter how the times, people will buy when the bargains are great enough—and they will go where they can get the most for the money, quality and quantity measured.

This very week in this issue of the paper you will find that B. W. Shipley has the right idea. In his page ad he offers the semi-annual clearance sale which he has offered, he stated, regularly for the past 15 years. That is the way to make and keep regular customers! Men, behold. For one time in your life you will see an ad which has more men's and boys' items offered for sale than women's and girls' items. But if we were wagering we'd say that 80 percent of the purchases will be made by women. And there probably are more women's things in the store for sale, but by coincidence, for once, the men's items advertised are predominate.

Women interested in crocheting may want to come by The News office and receive free instructions here in connection with the \$1,450 cash prize contest which may also carry with it a trip to New York for the winner. The material is here and it is free. From time to time designs will appear in the paper.

Harold Gladman at the Dimmitt Bakery has mighty regular about showing appetizing doughnuts in his window. And by the way, we would like to say this about his bread—it is the best for a small town baker that we have ever eaten. No wonder the larger bakeries do not try to come in. Besides that, we had home-made hamburgers on his buns yesterday, and that may cheat some of

See HELLO, NEIGHBOR—Page 6

FOR DEFENSE

BUY UNITED STATES SAVINGS BONDS AND STAMPS

AMERICA ON GUARD!

Above is a reproduction of the Treasury Department's Defense Savings Poster, showing an exact duplication of the original "Minute Man" statue by famed sculptor Daniel Chester French. Defense Bonds and Stamps, on sale at your bank or post office, are a vital part of America's defense preparations.

W. M. COVENTRY DIES IN CRASH

W. M. Coventry was instantly killed Monday evening at about 9:00 o'clock when the automobile which he was driving collided with a culvert near Sunnyside, not far from his farm home. He was returning from a day's work in the fields.

William McElwee Coventry was born March 31, 1864, son of David and Mary Coventry, in Carrollton, Ohio. While he was still a baby, his parents moved to Iowa, where they resided until he was 14 years old. Then the family set forth in a prairie schooner to seek a new home. They homesteaded in Mitchell County, Kansas, and it was here that William developed the stamina of character which made him a bulkward of courage and helpfulness to all with whom he came in contact.

He was married to Josephine McKee on July 23, 1896. To this union were born four sons and three daughters: Mrs. Gladys Bales of Hereford, Dwight Coventry of Spring Lake, Clint Coventry of Flag, Duane Coventry, who died in childhood, Mrs. Lola Cranfill of Friona, Mrs. Evelyn Harris of Plainview, and Vaden Coventry of Galveston.

Mr. Coventry moved his family to Swisher County, Texas, in 1909. From there he moved to Bailey County in 1914 and to Castro County in 1926, where he resided until his tragic death, July 14, 1941.

Mr. Coventry joined the Presbyterian Church when a lad, and in manhood served as church official and as Sunday School superintendent for years. In this, as in all his dealings with the public, he directed the work to a successful goal, but kept himself in the background.

Always a kind, devoted husband and father, he did not limit his good deeds and sympathetic understanding to his own family. Everyone knew he could be counted upon for a maximum of good will, backed by material aid where needed.

His sense of justice was extremely keen. His policy was ever, "Lend a hand, don't condemn." He declared there is more good than bad in the worst of people, if only we search it out.

To his wife, children, and grandchildren he leaves a precious memory of a happy congenial home life, and an example of cheerfulness, clean thinking and Godly living that will guide them through their future lives.

\$34,500 IN AAA MONEY GOES TO LOCAL FARMERS

Castro County farmers received \$34,500 during the past week as the fifth, sixth and seventh groups of 1941 wheat parity payments were received in the AAA office, according to Lowell Sharbutt, secretary of the Castro County A. C. A. In these groups, payments were made on 246 farms.

The total received under the 1941 parity program for farmers in this county now totals \$84,705.23 and this amount will be supplemented soon by payments to the remainder of the farms in the county who complied with the AAA acreage allotments of wheat on their farms.

THIS WEEK IN DEFENSE

President Roosevelt informed Congress he had ordered a Navy force to Iceland to "forestall any pincers movement . . . by Germany against the Western Hemisphere." He said German occupation of that country would threaten the North American continent, shipping in the North Atlantic, and the flow of munitions to Britain. The President said the Navy had been ordered to take "all necessary steps" to insure safety of communications "in the approach between Iceland and the United States, as well as on the seas between the U. S. and all other strategic outposts."

The President later told his press conference that whether Iceland lies outside the Western Hemisphere is an academic question. He said there are points outside the commonly accepted Hemisphere limits which are of importance to U. S. defense, and that in occupying Iceland he acted to forestall a hostile move which strategists considered logical or likely.

SELECTIVE SERVICE

Selective Service Headquarters announced that 21-year-olds who registered July 1 will be given draft numbers so they will be called in proportion to previous registrants rather than ahead of or after older men. Order numbers will be determined by national lottery on July 17 (today).

Headquarters advised local boards to defer men who have volunteered for civilian or military duty with Canadian or British forces. The House passed legislation to permit deferment of all men who were 28 on July 1.

ALIEN EDUCATION

The President allocated \$14,000,000 of WPA funds for a program to educate 1,000,000 aliens in the duties and responsibilities of citizenship. More than 11,000 teachers on WPA rolls will conduct classes for aliens who wish to become citizens.

CIVILIAN SUPPLY

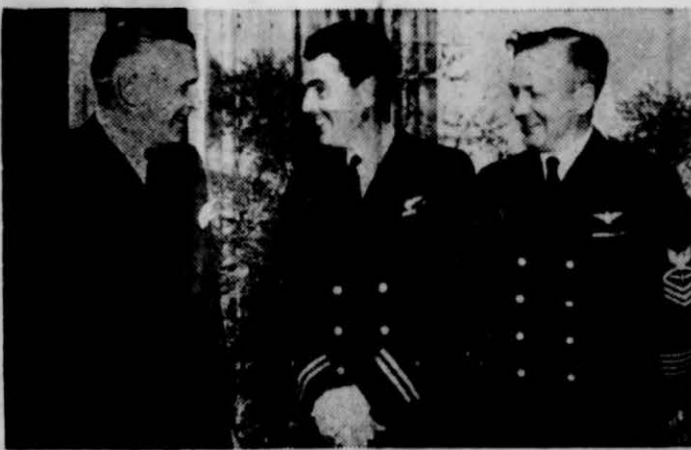

OPM conservation officials announced that "our purchases, our habits, our daily lives, perhaps even our styles, will be controlled by the requirements of national defense." Some of the changes facing the public, according to O. P. M.: No corks in bottle tops; beverages in bottles rather than cans; silk used in parachutes will make silk stockings more scarce; women will have fewer permanent waves, cosmetics, and facial creams; it will not be patriotic to buy automobiles; farmers will choose from 300 instead of 1,400

See DEFENSE NEWS—Page 6

SENATORS AT PLAY

United States Senators Thomas Connally, at extreme right, and James M. Meade, second from right, are shown above having a good time at Atlantic City listening to movie star Bob Young tell about "the one that got away" as Mayor Thomas D. Taggart, of the resort city, chuckles with them.

NAVY HEROES DECORATED—on the occasion of Los Angeles Breakfast presentation of its Medal of Valor to Lieut. W. W. Lowrey and Aviation Chief Machinist's Mate J. R. McCants, right, for rescue of Lieut. W. S. Outpost when his parachute tangled in a navy plane over San Diego, a former Marine Corps officer was guest speaker. D. U. Bathrick, General Sales Manager of Pontiac Motor Division, left, spoke on "The Motor Car and the National Economy" and told his listeners how Pontiac is turning out rapid-fire anti-aircraft guns as part of its contribution to National Defense.

STATEMENT OF BANK INDICATES ITS STABILITY

Statement of First State Bank of Dimmitt as of June 30, shows an increase in undivided profits over the last 3-month period and deposits of \$182,459.91 and public funds of \$61,786.64. Total resources of the bank are \$357,639.15.

Loans, slightly less than last 3-month period, total \$148,970.30. Securities of U. S., any State or political subdivision thereof, total \$89,022.00, and other bonds and stock owned, including stock in Federal Reserve Bank, amount to \$5,000.00.

Capital stock of the local bank is \$25,000.00 and the surplus fund is the same amount.

The statement as a whole indicates the management of the bank as proceeding on a stable basis.

PCA Conference Attract Local Men

R. A. Axtell of Spring Lake, a director in the Plainview Production Credit Association, and M. R. Snyder, Secretary-Treasurer, plan to attend a conference on July 17 and 18 at Amarillo. Many Castro County farmers belong to the organization.

Other directors are J. E. Rizer of Plainview, C. W. Smiley of Littlefield, I. F. Willman of Muleshoe and D. T. Northcutt of Silberton.

Axtell stated that "Credit" would be the subject and that the discussion would be led by Mr. John H. Swale, Jr., vice-president of the PCA of Houston and his assistant, Sam N. Hardy.

Directors and secretary-treasurers of the Canadian Amarillo, Memphis and Lubbock PCA organizations will also attend the conference.

Wheat Allotments For '42 Announced

Wheat acreage allotments for 1942 for farms in Castro County have been received, according to Lowell L. Sharbutt, Secretary A. C. A.

The 1942 wheat acreage allotment for this county is 174,618 acres as compared with 197,820 acres for 1941. This represents a reduction for the county of 11.7 percent or 23,202 acres. The National wheat acreage allotment has been reduced from 62,000,000 acres to 55,000,000 acres. This reduced acreage allotment is considered above the level necessary to provide for normal domestic consumption, normal exports and 30 percent reserve.

GIRL DIES AFTER FALL IN WATER

Little Darlene Ann Pohlmeier, daughter of Mr. and Mrs. Vincent Pohlmeier, was buried Thursday, after an accident in which she had fallen into a pail of hot water. She was rushed to a hospital, but succumbed after a few hours.

She was born October 24, 1939. Pallbearers were Buddy Heeting, Bobby Brockman, Vernon Bradlock and Urban Ball. Flower girls were Emily Ann Pohlmeier, Betty Ann Ramaekers, Ormalene Brockman, Marthella Pohlmeier and Elaine Albracht.

RAILROADS ADVERTISE

Of the total amount spent by the railroads for advertising space in newspapers and magazines and radio time and talent in 1940, newspapers received 74.7 per cent, magazines 20.7 percent, and radio 4.6 percent, according to the Association of American Railroads.

Two-Day School To Be Held Here

A school for performance reporters is to be held at the Court House in Dimmitt Wednesday and Thursday, July 22-23. This school is to be held for the purpose of training reporters who are to measure farms in Castro County for compliance with the 1941 Agricultural Conservation Program.

It is the plans of the AAA officials to begin the actual measurements of farms during the week, beginning with July 28.

Men who might be interested in the job of measuring farms are urged to contact the AAA office or attend the school.

13 Is His Lucky Number

Pvt. R. V. McMahon Jr., who is stationed at Tucson, Ariz., with the Aerial Corps, spent the first few days this week home with his family. Mr. and Mrs. R. V. McMahon, who met him in Big Spring Saturday night.

A very peculiar co-incident occurred with R. V. He arrived in El Paso on Friday, June 13. He was one of 13 men sworn in at 13 minutes to 2:00 on that day. A few days later again he was one of 13 men transferred to Tucson and landed in Barrack 113. He received his first leave of absence July 13.

Watch out—any one that lucky may be the one who gets Hitler!

Look Out, Girls!

Fancy the up-and-going Dimmitt Boy calling on his girl and exclaiming—"What's the matter, honey? You look so pale!" Girls, that may be your lot soon if the prediction of the OPM in Washington, D. C., are correct. Refer to "Civilian Supply" under the Defense News column of this issue of the paper.

Yes, and there may be no corks for the men to pull and beverage cans to take to camp.

Your Time May Not Be Out---

Or it may be out—but now is the time to subscribe to the Castro County News to save money. See anyone sell News subscriptions or see The News office.

If your time is not quite out yet, you will want to take advantage of the saving anyway. The date will be moved up one year from the expiration time.

PAINTS HOUSES

M. R. Avery of Red Bay, Ala., who owns two resident houses in Dimmitt, in which Floyd Thomas and J. C. Fulfer live, has painted the buildings recently.

MRS. POSIE CUNNINGHAM VERY ILL AFTER OPERATION

Mrs. Posie Cunningham underwent an appendectomy Tuesday evening about 6:00 o'clock at the Miller-Cogswell Hospital and was very low Wednesday. However, Judge Posie Cunningham reported Thursday morning that doctors say her condition is somewhat improved.

SHIPLEYS JULY CLEARANCE TO BEGIN TODAY

B. W. Shipley offers this week beginning today (Thursday) at 8:00 o'clock his regular semi-annual Clearance Sale. Items appealing to men, women, boys and girls will be found in his store. His ad gives many specials, and many more are found on the counters at his place of business in Dimmitt.

Everyone knows, as Mr. Shipley puts it in his ad, that merchandise will be considerably advanced in the next 60 or 90 days. "Our advice," he says, "is buy all the things you need now before prices go higher."

Despite rising prices, Shipley's is continuing the policy consistently followed during the past 15 years—that of putting on a big Clearance Sale twice a year to accommodate his customers.

Purchasers from this entire trade territory who are not familiar with Shipley's sales will find quality merchandise at prices which will fit the pocketbook. And those who are acquainted with his sales will need only to know of the sale.

COMMITTEES FOR NEW LIONS YEAR LISTED

At a recent meeting of the Dimmitt Lions Club two new directors were chosen—Jack Gregory and Judge Posey Cunningham. These Lions directors will serve a term of two years.

New committeemen for the coming year were chosen at the director's meeting last week to serve during the fiscal year of the organization in 1941-1942.

First named in the following committees is chairman of the committee: Membership—Bob Boling, Melvin Rankin, M. A. Kelly. Attendance—Jack Gregory, Clarence Bearden, Gene Ivey. Program—Monroe May, Lowell Sharbutt, Carlos Reynolds. Major Activities—Ward Golden, Posey Cunningham, Ernest Harmon.

Boys' and Girls' Activities—Earl Harrison, Ray Cowser, R. A. McCollum. Publicity—J. W. Webb, Paul Zimmerman, Harvey Youts.

Tulia Celebrate 51st Anniversary Of Its Founding

The Tulia Herald came out yesterday (Wednesday) with a beautiful 24-page edition announcing the 51st Anniversary Celebration of the founding of Swisher County. The gala affair will mark a big day for pioneers of that county, and thousands are expected to attend.

The birthday celebration will begin at 9:00 o'clock with a band concert by the Tulia Band at which time Foy Curry and his welcoming committee will meet and greet visitors to the city.

At 10:00 o'clock there will be a big parade, prizes to be awarded best floats. An hour later there will be a speaking in the public square bandstand.

At noon there will be a old-fashioned basket lunch, the Tulia Herald reports.

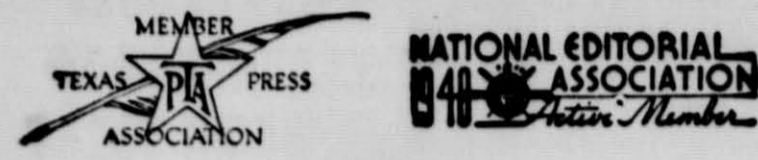

THE CASTRO COUNTY NEWS

Published each Thursday at Dimmitt, Castro County, Texas. Entered as second class matter, at the post office at Dimmitt, Castro County, Texas under the Act of March 3, 1879.

Flagg

J. W. Hawkins, Houston Hawkins and Mrs. Cordye Birdwell were business visitors in Plainview Tuesday.

Word was received here last week of the death of J. W. Hardesty of Croston, Texas. Mr. Hardesty is the brother of Mrs. W. A. Senter.

HART

The Workers' Conference of the district met at the Hart Baptist Church Tuesday, July 15, for an all-day program.

Defense Dollars Roll-Roll-Rolling Along-Like This

While the eyes of America are focused on the tense situation in Europe, Texas is bending every effort to aid in National Defense.

WHAT YOUR DEFENSE DOLLAR BUYS

- \$1-16 cartridges, \$2-3 cotton shirts, \$3-1 bayonet, \$4-1 anti-tank shell, \$5-10 tent, \$11-1 shell for 75-mm. gun, \$15-1 25-lb. fragmentation bomb, \$21-1 Pays for 1 Army private for 1 month, \$27-1 .45 automatic pistol, \$30-1 chaplain's outfit, \$50-1 Springfield rifle, \$80-1 Garand rifle, \$100-1 shell for 240-mm. howitzer, \$100-1 8-in. armor piercing shell, \$450-1 Browning machine gun, \$500-1 motor trailer, \$1,000-1 reconnaissance car, \$1,300-1 searchlight with tower mount, \$2,400-1 Army lieutenant's pay for 1 year, \$5,000-1 tractor, truck, \$10,000-1 primary trainer plane, \$20,000-1 light tank, \$70,000-1 pursuit plane, \$220,000-1 4-end, long-range bomber.

Brevinnes

No, the home town paper doesn't always publish all the news. The editor is too young to die. Since 1932, the 10 principal cotton states east of New Mexico have reduced cotton acreage more than 40,000,000 to less than 24,000,000 acres.

BOOK OFFERED HOMEBUILDERS

Home building continues as one of the most important forces in the nation's construction program during the protracted period of emphasis on huge defense jobs.

Howard M. Thompson, general manager of Home Owners' Catalogue, said that he considers it highly significant that the money being spent for building one and two family houses has increased this year and, at the same time, less money has gone into multi-family or apartment houses.

Readers of The News who are planning to build homes for their own occupancy in this area during the next twelve months, at costs of \$4,000 or more may have personal copies of Home Owners' Catalogue to guide them in the liberations of their home-planning stage.

Families of 2,404 home demonstration club women in Extension Service District 3 have used 50 lb of cotton in their homes during the past year.

J. C. TATE, AGENT

When your motor overheats it's a sure sign that something is wrong, and it should be attended to immediately. Usually the cause is a clogged radiator. We can fix that quickly and economically with our Radiator Flushing Service.

New Glass-Pack for Coffee Aids Pan-American Goodwill

Adoption of Jar Aimed to Further Acceptance of Trade Commodity

NEW YORK—Coffee arriving in this coffee port the "South American way" is going out to American housewives in an "All-American" way.

This has just been revealed with adoption of American-made duralgas coffee containers for vacuum packing of one of the most popular brands—Del Monte. The move was made by the California Packing Corporation which centers its coffee roasting and packing activities in a huge plant overlooking the waterfront in Brooklyn.

Coffee packed under this brand name is a blend of choice South and Central American coffees, of blends pointed out, adding that American coffee consumption has steadily added to the strengthening of the bonds of friendship between North and South America.

Keeps Coffee At Its Freshest
Development of the new lightweight glass coffee containers, recently announced, led to their adoption by this large scale packer.

Reasons for its practicality are first, it is ideally suited to vacuum packing which insures and protects the freshness of the coffee; and second, the lightness of the glass has cut shipping costs to a minimum.

In addition, the new containers boasts eye-appeal and durability as well as a re-seal feature in a screw cap which enables the coffee to be kept at its freshest in the home. Qualities stressed by experts in the buying and packing of coffee in New York are that the coffee must be of an ideal size, grade and character, and then must be given a proper roast. The coffee is packed here within a few minutes after being roasted.

Two grinds, heaviest in demand by American housewives, are being packed in the new glass containers. These are regular and drip grinds. The coffee is being put up in one and two-pound containers. The regular grind is the correct one for percolator and boiling. Drip grind

The Winter Haven substitution of the Texas Agriculture Experiment Station has bred several new strawberries, including Alamo and Ran-er, which are being grown successfully under irrigation in South Texas.

As a special encouragement to producing heavier crops, government purchases are being limited to hogs weighing 240 pounds or over.

Benarita Lolita Martinez, named as "Miss Good Neighbor," inspects the new duralgas jar for coffee.

is suited for drip pots and vacuum glass coffee makers.

How to Make Good Coffee
Experts advise American housewives that—excluding, of course, the coffee itself—cleanliness in the making good coffee. They also say: Wash the coffee pot thoroughly after each use, rinsing carefully in hot water. Do not wash the coffee pot in ordinary dish water, and always scald it with boiling water before making coffee. A heaping tablespoon of coffee to each measuring cup of water will further advise, increase the amount of coffee. Measure accurately for uniform results. Never reheat coffee; always make it fresh. Serve immediately after it's made and use freshly drawn water each time.

And, of course, always use the correct grind for your particular type of coffee maker.

Crucial secrets of good coffee-making were given with the final admonition: Don't board empty tin cans. They're now so economical that it's wasteful to discard them when empty.

Production of tomatoes in Louisiana, South Carolina and Texas has been estimated at slightly over three and a half million bushels this year. This is 11 per cent less than last year.

Hay or dry bundle feed should be kept within reach of dairy cows while they are on young green grass.

The light of truth never casts a shadow of doubt.

Three Ways To Make Fried Chicken

By Katharine Fisher
Director, Good Housekeeping Institute

The fried-chicken season is here! The supply of fryers—fresh and quick-frozen—is usually at its best at this time of the year. So get out your skillet, and treat your family to some good fried chicken. Follow any of these recipes, and you'll have the family loudly clamoring for more.

All recipes tested by Good Housekeeping Institute. Use Institute-approved measuring cups and spoons. Measure level.

Pan-Fried Chicken
With Flour or Corn-Meal Coating:
1. Buy fryers (1 1/2 to 2 1/2 lbs. each) split lengthwise, quartered, or cut up as for fritas. Roasting chickens may be pan-fried if first simmered tender after cutting up.
2. Heat enough fat or oil in skillet or chicken fryer to make a 1/2- to 3/4-inch layer. Use 2 skillets to save time.
3. Clean but do not dry the chicken. Coat by shaking in a paper bag with 1 c. flour (or 1/2 c. flour and 1/2 c. corn meal) mixed with 1 tsp. salt.
4. Place a few pieces at a time in hot fat, and brown on all sides. Reduce heat; cover or not as preferred, and fry 25 to 40 min. longer, or until tender. (2 to 3 tsp. water or cream may be added to chicken after browning if desired.)
5. As the pieces are fried, keep hot in a covered double boiler, in a bowl set over hot water, or in a covered casserole or roasting pan in a warm oven.

WITH EGG AND CRUMB COATING:
1. To 1 c. sifted, dried bread crumbs or cracker crumbs, add 1 tsp. salt. Beat 1 egg with 2 tsp. cold water.
2. Dip chicken in crumbs, then in egg, then in crumbs, and fry as above. Flour may be substituted for bread or cracker crumbs.
Oven-Fried Chicken
Here's a method that is especially convenient when several chickens are to be fried, since it cuts down on the turning and watching necessary when chicken is fried in a skillet.
1. Coat and fry cut-up chicken in a skillet to a golden brown on all sides, as we do in Pan-Fried Chicken.
2. Then transfer the chicken to a covered casserole or roaster; cover, and complete the cooking in moderate oven of 350° F. for 1 hr., or until the chicken is deliciously tender.
3. Serve with or without Cream Gravy, as desired.

Deep-Fried Chicken
1. Dip cut-up fryers in egg and crumbs (see Pan-Fried Chicken) or in following batter: Stir 1 beaten egg and 1/2 c. milk into 1 c. sifted all-purpose flour with 1 1/2 tsp. salt and 1/2 tsp. pepper.
2. Fry a few pieces at a time in deep fat or oil heated to 375° F., or hot enough to brown a cube of day-old bread in 1 min. Keep the fat at 350° F., and fry until tender—about 20 to 30 min.
3. Or simmer cut-up chicken until just tender. Then skin; coat with egg and crumbs (see Pan-Fried Chicken) and deep fry at 375° F. until golden brown—about 3 min.

OUR S. C. S. PROGRAM

This is a series of articles giving detailed information of the Castro County Wind and Erosion District—a part of the Soil Conservation Program of Texas and the Nation.

SOILS DESCRIBED

Problem Area No. 2—Deep, moderately heavy soils, locally known as wheat land. Approximately 65 per cent or 372,786 acres of this group, is found in the District. The soils of this group usually have a short grass cover with only a scattering of mesquite brush. The infiltration rate, or the rate at which these soils absorb water, is slow, and the moisture holding capacity is high. In years of high rainfall, these soils are very productive, but tend to be "droughty" in years of low rainfall, due to the small percent of water the heavy textured soil will give up to the plant. These soils are susceptible to wind erosion when not protected by a vegetative cover or when organic matter is lacking in the soil. But to the smooth topography on which these soils occur, water erosion is not considered a serious problem. The soils are well adapted to cultivation and adapted crops are: Wheat, cotton, sorghums, and minor crops.

Problem Area No. 4—Medium depth, moderately heavy soils. Approximately 11 per cent or 63,078 acres of this group are found in small areas in throughout the District. The soils of this group are very much like those of Problem Area No. 2 as far as native vegetation, infiltration rate, and moisture holding capacity are concerned. The main distinction between these two groups is the depth of development, and the caliche layer is found closer to the surface in the Problem Area No. 4 soils. In general the soils of this group are less than 30 inches to the caliche layer. The soils are susceptible to wind erosion when organic matter is lacking or when not protected by vegetative cover. These three soils occur largely on moderate slopes around intermittent lakes or intermittent streams, they are moderately susceptible to water erosion if not properly treated.

The soils are well adapted to cultivation. Adapted crops are cotton, sorghums, wheat, and minor crops. The seriously eroded soils and soils occurring on slopes of two to four percent (2 to 4 feet per 100 feet) of this group are recognized as being best adapted to sorghum crops for best erosion control.

Problem Area No. 3—Deep, moderately sandy soils, locally known as wood row crop land. Approximately 9 percent or 51,610 acres

Fifth Avenue Goes To The Country

"There," a local lamb is tethered on the lawn in front under a huge apple tree. John Robert Brown, editor of hundreds of pretty girls' dreams says, "A natural girl is always in style" . . . baby-horses usually, but their colorful heads and endlessly gaiting along with their beautiful burdens.

A NEW version of an old experiment for last stands; dress racks in the shape of huge pictures hanging from ribbon bows; mannequins, exquisitely dressed, side-saddle on merry-go-round hobby horses in the windows; and luxuriously upholstered park benches instead of conventional lounges.

In one corner of the boys' department is the Champ Shop; pictures of local athletes here hang on the wall and admirers sign a guest

book. In the tiny youngsters' section, racks are low enough for the tots to thumb their way through and make their own choices; the beauty shop, long a problem for decorators, waving between a laboratory and over-dressed boudoir, emerges as a gay atmosphere enlivened by the sallies of famous men-about-town on the subject of women, their immortal comments on the subject are inlaid in white on the rubber tiled floor.

average department store as baffle-pieces for last stands; dress racks in the shape of huge pictures hanging from ribbon bows; mannequins, exquisitely dressed, side-saddle on merry-go-round hobby horses in the windows; and luxuriously upholstered park benches instead of conventional lounges.

Justice, honesty, cannot be adjured; their vitality involves life—salm, irresistible, eternal.

YOU DON'T . . .

CHURN BUTTER
Ridiculous, because modern methods bring butter to you ready to serve. It's just as ridiculous for you to do your own washing. Why? Because modern methods take soiled clothes out of your home and bring them back ready to wear.

DIMMITT LAUNDRY
T. A. CLARK, Owner

"Better Buddies"

By CARLOS REYNOLDS

Editor's Note—You Buddies out there who wish The News to continue to come to you are asked to please drop us a postcard immediately when your address is changed or we will have to drop your name from the list. This is made necessary because so many have failed to notify us of the change and The News has to pay the post office 2 cents every time a copy of the paper goes to the old address from which you moved. This added to the cost of your free paper, as you undoubtedly understand, is too expensive in the long run. Thanks.

Carlos Reynolds, author of this column, is recuperating from an appendectomy in the Veterans Hospital, Amarillo, and will probably undergo another operation before he leaves. It is reported, You Buddies can help Buddy Carlos with a letter.

Here are the letters for the week:
Chanette Field, Ill., July 10 1941
Hello Legionnaire Buddies: I have been receiving the Castro County News for quite a while now, so guess I had better try to express my thanks and endeavor to tell you how much I enjoy it. But as I can't find words to do so, suffice it to say that I wait expectantly from one issue to the next. I enjoy reading the "Better Buddies" column very much, but I know that I'm not being presumptuous when I say that you know better than I what it means to hear from your friends and what they are doing.

I am at present enrolled in the airplane mechanics course at Air Corps Technical School, Chanette Field, Ill. This course consists of 11 two-week phases. I am in the eighth phase which is carburetion. I enjoy the course very much but can't say as much for the warm weather we are having.

When I graduate I will go to Mother Field, Sacramento, California (after a furlough—I hope). Thanks again to the American Legion for remembering me. I hope that I might follow the example you fellows set and become a soldier.

Your Buddy—O. G. (Pat) Hyatt, 35th School Sqdn, 469 Barrack, Chanette Field, Rantoul, Ill.

Mrs. C. C. Reynolds has received a letter from her grandson, Pvt. Robert C. Huckabay. He is attending a radio school at Scott Field, Ill. where he is studying to be a radio operator. He was at Jefferson Barracks, Mo., but was transferred last week. Kelton Hickman did not get a transfer, so Bob says he is lonesome.

Bob gets up at 4:45 a. m., makes up his bunk, shaves, takes a shower, goes to chow, walks a

mile and a half to be at school at 6:00 o'clock. At 10:00 he is out of school again, walks that mile and a half back to chow, then back to school at 2:00, and out again at 5:30.

Here is his new address—Pvt. Robert C. Huckabay, 93d School Squadron, Scott Field, Ill.

NEIGHBOR HELLO

(Continued from page one)

Local cafes and drug stores out of a tiny bit of hamburger business!

H. W. Golden states that at Higginbotham-Bartlett replies have come in stating certain steel projects will not be offered on the market due to defense priorities. We will have to hurry and get our essential needs, for gradual attainment is certain in many articles.

Ozro Stephens over at the Willson & Son Lumber also is getting ready for the future. He has more lumber in the yards now than in many a moon. That's our motto too, "Be Prepared" (borrowed from the Boys Scouts).

Our hats off and our heads bowed this week in sympathy to the Cowenry and the Pohlmeier families for tragedies which bear on their hearts. Courage to you, and keep your chins up despite adversities.

Raymond Wilson is rearranging and "sprucing up" his grocery store. We wonder whether he has some inside information of an oncoming period of prosperity. He stated awhile back this was a "next year's country" and that he was getting pretty tired of next year never getting here. Raymond, hadn't you heard—prosperity is just around the corner.

Down at Baylor University at Waco, our Alma Mater, they are building something new in theatres. Director Paul Baker has provided for four stages and swivel seats in the main auditorium to allow the rapid succession of scenes without timeout for set changes. The first scene of a show will be on the main stage. The second and third scenes will be to either the right or left. The fourth might be in the back. The audience, seated in swivel chairs, will turn the chairs to face the stage scheduled for the next action. Ah, there will be no sale for front row seats since the first scene will be a side seat in the second and a back seat in the fourth. Best seats will be in the middle of the auditorium, equidistant from all stages. All tickets will sell for the same price. Baker terms it as "the world's most democratic theatre."

Bob Glenn, "Butch" at M-System Grocery, has been under the weather for the past few days. However, he thinks he will be back selling balogna before long.

Society

MORNING COFFEE

HONORS JUMBO WOMEN

A morning coffee honored Mrs. J. M. Richardson of Shreveport, Louisiana, and Mrs. Fred Axe, a recent bride, when Mrs. Ullman Hunter entertained at her home Saturday morning at 9:30 o'clock. Garden flowers decorated the rooms. Mrs. B. C. Baird presided at the coffee service, assisted by Mrs. Clem Gilliam and Misses Pauline Matthews and Margaret Simpson.

Members of the horse party wore bright colored corsages of nasturtiums. Miss Mary Ann Baird entertained the guests with a humorous reading and a vocal solo. Phyllis and Frances Hunter gave a playlet in unison and later presented the honored guests with a gift from the hostess.

Attending the party were Messrs. James F. L. Pinckert, Henry F. Neeley, Addison Hunter, L. A. Matthews, M. L. Simpson, Wilburn Axe, Alfred and Glenn May, Troy Frazier. Mrs. W. A. Hunter of Hereford, Miss Mary Ann Baird and her house guest, Miss Jo Wilson of Dallas were present.

WEST-TEX CC BUSY ON RATES

Thursday, July 10, was the most important date Texas ever had in court transportation costs from a national standpoint, claims the West Texas Chamber of Commerce.

A news letter by J. Thomas Davis, president of the WTCC, and J. M. Willson, heading the CC Freight Rate Equality federation, has been mailed to affiliates of both organizations making report on an Interstate Commerce Commission interterritorial freight rate study in St. Louis, Mo., opening July 10 and continuing through the 11th. The West Texas organizations were represented by their secretary-manager, D. A. Bandeen. Also present were about 500 attorneys for the principal railroads, representatives of shippers' organizations and officials from many states.

The freight rate hearing was largely instigated by the West Texas Chamber of Commerce campaign to break down discriminatory rate levels against Texas and the Southwest, resulting in the ICC quickly responding by ordering the study into the interterritorial structure. The study has been in progress for more than two years.

Think, to be happy; to be great, be wise; Content of spirit must flow from science flow, for 'tis a godlike attribute to know.—Matthew Prior

If brains are the best weapons of war, Mussolini entered the war practically unarmed.

Texans on Range Tour in Idaho

Texas ranchmen and AAA officials who attended the recent National AAA Range Conference and Tour in Idaho inspected range conservation work in that state and compared it with work done in their home state. Here Charles McCann, ranchman from

Victoria, extreme left, is seen with M. C. Puckett, ranchman and state AAA committeeman from Fort Stockton, R. M. Evans, national AAA administrator, and Howard T. Kingsbury, ranchman and state committeeman from Santa Anna.

THIS WEEK IN DEFENSE

(Continued from page one)

types of plows; chrome, copper, aluminum and woods such as mahogany will probably not be available to the furniture industry, and many designs will be eliminated.

ARMY

The President asked Congress for additional \$4,700,000,000 for the Army, most of it for purchase of heavy guns, \$400,000,000 clothing and other equipment, \$200,000,000 for the air force and \$350,000,000 for the Signal Corps, and \$1,000,000 for horses.

The War Department announced formation of a completely motorized, and heavily armed experimental division, strengthened with tanks, with 50 percent more fire power than a present armored division although with 14,000 instead of 15,550 men. The Department also announced that to bolster anti-tank defenses, anti-tank specialists will be assigned to every Army large unit to work out methods of defeating armored force attacks.

AIR

OPM announced that during June 1,476 military planes were delivered to the Army, Navy, and Great Britain—142 more than the previous month and a new record. The War Department announced contracts of nearly \$200,000,000 for new airplane manufacturing facilities and ordered all Air Corps Reserve Officers except those in key civilian positions to active duty by August 1. The Army Air Force established its own Air Staff to form Force plans and decide on equipment and other matters without the approval of the General Staff as heretofore.

NAVY

The President asked Congress for \$1,625,000,000 in appropriations and contract authority for the Navy for additional ordnance, yard equipment, planes, and repairs, including \$400,000,000 for defense installations on naval and private ships—anti-mine equipment, armor, etc, but the President emphasized, not for guns to arm merchant ships.

Rear Admiral Robinson, Chief of the Navy's Bureau of Ships, announced the Navy shipbuilding program is proceeding so rapidly that "every single combat ship is ahead of schedule." He said the problem of labor supply has been solved and the rate of expansion is limited chiefly by the ability to obtain materials.

SHIPS

The President asked Congress for \$1,698,000,000 for the U. S. Maritime Commission, including \$698,000,000 in cash for new ships and \$1,299,000,000 in contract authorizations.

The U. S. Maritime Commission announced a saving of more than 700,000 tons steel in the building of 705 commission-designed ships by construction methods not known in the first World War. The Commission said the greatest single weight saving measure was the introduction of welding to replace riveting so that entire ships are now built without a single rivet.

Locals

Personal items are welcomed by The News. They may be phoned in or brought by (preferable) The News office by Wednesday noon.

Mrs. R. B. Boren spent the week-end with her husband at Vaughn, New Mexico.

Mr. and Mrs. Paul Nash of Fort Worth are visiting with their son, Meridith, and Mrs. Nash and helping to harvest their wheat.

Mrs. Edgar Ramey and Mrs. Ed Hudspeth were Hereford visitors Tuesday morning.

Mrs. Polly Manning, Mrs. Mary Rice, Misses Sarah Brashear and Sarah Merritt were in Amarillo Monday.

Miss Juanita Pearl Dean of Ft. Worth is the guest of her grandmother, Mrs. Bruce, and uncle, Joe Bruce.

Mr. and Mrs. Duck Boswell of Hamilton spent on Wednesday to Friday in the home of Mr. and Mrs. Edgar Ramey and with other friends here.

Mrs. Roy Hickman and son, Dub, of Morton are guests in the home of her parents, Mr. and Mrs. B. A. Fuller.

R. V. McMahon Jr., who is in training in Tucson, Arizona, spent a few days this week with his parents, Mr. and Mrs. R. V. McMahon.

Mr. and Mrs. Woodson Brown and Anna Lynn of Fort Sumner, New Mexico, spent Monday and Tuesday in Dimmitt visiting with friends.

Mr. and Mrs. White of Lazbuddy were Sunday guests in the home of Mr. and Mrs. L. A. Gladden.

Mrs. Stub Jones is in Lubbock with her mother, who is in a hospital there.

Miss Thelma Jones spent the week-end with relatives at Portales, New Mexico.

J. C. Walling of Munday is spending the week here with his wife. Mrs. Walling is the former Miss Geraldine Lansford, Home Economics teacher in the local schools. Mrs. Walling is conducting a summer class here.

Mr. and Mrs. Ted Woods went to Mineral Wells last Thursday to accompany Mrs. Robert Gollehon home. Mrs. Gollehon had been there receiving treatments.

Little Bobby Jo Wright of Lamesa is visiting in the home of her grandparents, Mr. and Mrs. A. O. Gregory.

Mr. and Mrs. J. O. Minter and Joe of Madill, Oklahoma, spent the week-end with Mr. Minter's uncles, Edwin and Edgar Ramey, and an aunt, Mrs. Etta Brashear. This was Mr. Minter's first visit to Dimmitt in 24 years.

Mrs. G. B. Duncan and granddaughter, Evelyn Ann Cummins, and Mrs. Baily returned home Sunday after a visit at Nacora.

Miss Betty Jo Maynard of Mineral Wells is a guest in the home of her aunt, Mrs. Elmer Caudle and Mr. Caudle.

J. M. and Jack O'Rear of Lorenzo spent Sunday and Sunday night in the Ozro Stephens home.

Little Shirley Stalcup, daughter of Mr. and Mrs. Henry Stalcup underwent tonsillectomy at the Cogswell Hospital Monday morning.

Carlos Reynolds is doing nicely following an appendectomy last Friday in the Veterans Hospital in Amarillo.

Mrs. Ed Hudspeth and daughter spent the week-end with her father in Amarillo.

Mr. and Mrs. Rankin Reynolds and son of Lubbock spent the week-end with relatives in Dimmitt and Hereford. They also visited Carlos Reynolds at the Veterans Hospital in Amarillo.

Fred Lust and C. C. Hunter returned home this week.

C. B. Shellabarger is recovering from his recent illness.

Raymond Donnell, manager of the Rio Theatre, was ill with the flu the past week-end.

Mr. and Mrs. Ben Hill of Vega were business visitors in Dimmitt Wednesday.

Miss True Ruth of Brownwood who has been visiting in the home of her sister, Mrs. J. L. South, for several weeks plans to return to her home Thursday (today).

Betty Jo Beck of Kress spent last week with her aunt, Mrs. Walter Griffith.

Mr. and Mrs. Doc Lovelace and daughter visited relatives in Clovis, New Mexico, Sunday.

J. M. Griffith of Tulia spent the week-end in the home of his son, Walter Griffith.

Mr. and Mrs. Harold Gladman visited Sunday in Amarillo with Mr. and Mrs. Don Gladman. Little Jean Mary Gladman returned home with them for a visit.

Mrs. Earl Matthews and her mother, Mrs. Short, spent the week-end in Amherst with Mrs. Short's sister.

Miss Christine Moore of Lubbock is visiting this week with

Miss Margaret Simpson in the Jumbo community and with friends in Dimmitt.

Mrs. Frank Easter left last Friday for Bryan, where she will visit relatives.

Mrs. J. P. Crawford, Misses Nell, Natalie, Anita and Juanita Reynolds visited Carlos Reynolds at the Veterans Hospital at Amarillo Sunday. Mrs. Reynolds, who had been with her husband for several days, returned home.

Mr. and Mrs. G. A. Barnett and Lois Roe of Lubbock were guests Sunday in the home of their daughter and sister, Mrs. Andrew Elder.

Rev. and Mrs. Melvin Rankin and children returned home Wednesday from Junction where they attended a family reunion. They were accompanied from Lubbock by Rev. Rankin's sister-in-law and niece. They also visited in Abilene with relatives.

Mrs. Tom Gunnells and Charles of Logan, New Mexico, are visiting this week with Mr. and Mrs. Burnam Sr. Another daughter, Mrs. Homer Norwood of Santa Rosa, New Mexico, spent the week-end in the Burnam home.

Lilla Mae Thompson and Fae Sweatt enjoyed an outing at Buffalo Lake with friends from the week-end.

Little Miss Winey Pylant of Lockney spent the past week with her aunt at Thompson's Grocery. She and Lona Frances Sweatt spent the week-end with the H. P. Austins at Hart.

Mrs. Jack Kirkpatrick visited the past week-end in Haskell and Fort Worth. Little Kathy, who has been visiting the past few weeks in Haskell, returned home with her.

Mrs. Moore of Fort Worth is visiting this week in the home of her daughter and son-in-law, Mr. and Mrs. Jack Kirkpatrick.

Miss Christine Moore of Lubbock is visiting friends here this week. She is the daughter of Dr. and Mrs. Elmer Moore, who formerly lived here.
