# The FRIONA STAR

VOLUME 51, NO. 7

SUNDAY, NOVEMBER 9, 1975

15 CENTS

16 PAGES

LAST WEEK WE were speaking in this space about all of the new businesses and expansions Friona had gained the past couple of years, particularly along the highway.

As usually happens when you run a list, we left off someone—in fact two, Terry's Shop and Big-T Pump Co.

Ross Terry has long been a leader in the field of irrigation engine sales and service in this area, and his new place on West Highway 60 is truly one of the credits to Friona's business community.

Also in the category of businesses which have expanded, Big T Pump Company, on the opposite side of town, has moved into larger, more modern quarters.

We apologize to these, and any others we may have missed, for the oversight. We wouldn't purposely overlook anyone. But when you start spouting "off the top of your head," that usually happens.

+++

TWO WRITERS from this area have achieved great heights this month.

Wanda Evans of Muleshoe, who is a member of the Panhandle Penwomen Assn., has her feature article on Terry Jesko published in the current issue of Reader's Digest, which hit the local newsstands this past week.

Ms. Evans did an extraordinarily good job of documenting the account of how eight-year-old (at the time) Terry helped to save his father (Lee Jesko) by some pretty grown-up actions.

If we're not mistaken, the initial account of young Terry's heroism appeared in the Friona Star in May of 1973. Since then, the Parmer County youngster has been written up in a number of publications, and has been honored by other news media for his act of heroism.

If you can still find a copy of the November Reader's Digest, we know you'll enjoy reading this particular article, and we congratulate Wanda Evans on her story. We know that Terry's parents and grandparents will want to put a copy of the magazine away in a safe place.

+++

NOW COMES Nelson Lewis, with a book hot off the press. "Death Stalks the Valley" is the title of Nelson's first attempt at a novel.

At this writing, we haven't had the opportunity of reading Nelson's book, but have examined it, and the book looks great. It's a 280-page paperback, augmented with a cover and artwork by local artist Bobby Wied.

Nelson, you'll recall, served as author of "A History of Parmer County," the 400-page hardbound book that was issued about a year ago.

The old "Prairie Prowler" made his writing debut with his column "Pause and Reflect" in the Friona Star.

An autograph party for the author is planned for this Wednesday at the Main Place. Details may be found elsewhere in this issue.

+++

RAY LANDRUM came up with an eye-popping clipping this week, which revealed the extent of the nation's expenditures through foreign aid, loans and gifts, since 1946.

Ray is sponsoring the publication of this list, and if you want to really get "your dander up," turn over to Page 15 and see where some of your tax dollars have gone.

+++

IN HIS COLUMN in the Dallas Morning News recently, Paul Crume was giving Dallas a little ribbing because it had no cotton burrs.

"For half a century Dallas was the largest inland cotton market in the world," Crume wrote.

"So, when the Rominger Agency needed some cotton burrs, it figured to find them easily. It was going to use them in a photo montage with corn, wheat and alfalfa in a cover for the annual report of Friona

lot firm out there in the God's country of West Texas," Crume continued.

"The ad firm quickly found that Dallas doesn't even know what a cotton burr is. It had the Friona firm send a sack by air mail.

"Dallas may no longer produce anything useful like cotton burrs, but it is very big in air freight," Crume concluded.

+++

OUR THANKS to Carol Zetsche for bringing us the article from the Dallas Morning News.

Crume, of course, will be known by longtime residents of this area. The longtime Dallas writer has roots in Parmer County, and grew up in the Farwell area.

PUBLISHES NOVEL....Nelson Lewis, left, has published a novel, "Death Stalks The Canyon," a paperback edition that will go on sale here Wednesday. Lewis is to be feted with an autograph party by

Wahleah Beck, right, at the Main Place on Wednesday. Hugh Moseley, chairman of the Parmer County Historical Commission, looks on as Lewis autographs a book.

## Friona Industries In Optimistic Report

Friona Industries, Inc., achieved net income of \$360,936, or 29 cents per share, on revenues of \$10.9 million in its first quarter ended September 30, 1975.

This compared with a loss of \$379,028, or a deficit of 30 cents per share, on revenues of \$9.3 million in the first quarter of the prior fiscal year.

"It was the best quarter that the Company has had in the past 18 months," said John G. Carrothers, president. "However, the U.S. cattle industry is still a long way from returning to normalcy and parts of the total industry continue to be hard hit by adverse conditions which persist."

"Most of the profitability for the quarter was attributable to the sale of the Company-owned cattle," he explained.

About 7,900 head of Company-owned cattle were sold during the quarter at an acceptable profit level. Company-owned cattle inventories were at approximately 15,300 head at the end of the first quarter.

The Company's three cattle feedlots also contributed to income. Occupancy at the feedlots, which have a total capacity of 124,000 head, averaged considerably below normal as it was for the industry nationwide.

"There has been some improvement in occupancy since the end of the quarter, but indications are that custom feeding operations will remain relatively stable over the short term," said Carrothers.

"Manufactured feed and grain sales were marginally unprofitable," he said. "However, we expect that both of these operations will return to a measure of profitability in our second quarter."

Sales and income from animal health supplies continued to be depressed, reflecting the overall cautious attitude of both cattle raisers and cattle feeders toward industry conditions.

"We are continuing our comprehensive study of the total needs of cattlemen for animal health supply products along with our program of expense reduction and operational efficiencies for our nine Hi-Pro Veterinary Supply Stores."

"One factor that became evident during our study was that as cattle prices went into a steep decline, cattle breeders became unwilling to

services for exotic and domestic breeding. The Company is now implementing its decision to phase out the sale of cattle semen and related services," Carrothers stated.

In the area of new products, an agreement is being negotiated with a company that has marketing expertise in the sale of lawn and garden products to test market bulk dehydrated, organic humus fertilizer utilizing the cattle manure from Friona's feedlots.

"Over the near term, indications are that our entire complex will begin showing a higher degree of profitability," he said.

"Feedlot occupancy for the nation as a whole is slightly above this time last year but remains well below the 1972-73 level. Many of the people who

were financially wiped out in the past two years do not have the resources to return to the grain-fed cattle business on a large scale," he commented.

"For the cattle industry as a whole there is still much confusion due to the disruption of marketing and supply patterns."

"A large supply of grass-fed cattle, both cows and calves, have been slaughtered to fill the needs of both the rancher to decrease his herd size and the consumer to fulfill her beef needs. We expect this grass-fed volume to markedly decrease as we go into the winter and early spring months. Also, there is a shortage of hogs available for slaughter which should exist into the summer of 1976."

"The combination of these facts lead us to believe that the total tonnage of all red meat will be in relatively short supply. If our conclusions are correct, this will greatly increase the demand for grain-fed beef, which in turn, should strengthen our total business," Carrothers concluded.

Girlstown already had three mother cows, three calves and a pair of heifers, but didn't have the "male lead" they needed to start a cow-calf operation.

Last Saturday they got him—a three-year-old Hereford bull—from George, Kenneth and Harlan Frye, who farm southeast of Friona.

The Fryes also donated a mother cow to go with the young bull. The donation brought Girlstown's new beef-cattle herd to 10 animals.

Receiving the gift for Girlstown at the Frye farm were sisters Joan and Betsy Toney and Girlstown Administrator Marshall Cooper. They made the trip from Whiteface Saturday morning with the Girlstown pickup and stock trailer.

The Fryes also gave Girlstown all the field-fresh cauliflower and cabbage that he, Cooper, the Toney sisters and a pair of helpers could cut and sack Saturday morning at the Frye vegetable farm.

And after the cow, bull, cauliflower and cabbage were loaded, Dimmitt Chamber of Commerce Manager Elvon DeVaney drove the Girlstown pickup to Dimmitt, where La Mantia, Cullum, Collier & Co. vegetable processors added 500 pounds of carrots.

## Voters Here Nix New Constitution

Parmer County voters, like those across the state, expressed the fact that they aren't particularly anxious for a new constitution, by their voting at the polls this past Tuesday.

Voters in the county, turning out in larger than expected numbers to scan the constitutional ballot, turned thumbs down on all eight proposals, by an average margin of eight to one.

There was little variation in the voting, up and down the ballot. The finance provision was given the biggest beating, with 1208 voters going against it, to only 165 in favor. This was an average of 8.25 voters against for every voter which was favorable.

The "closest" proposal, if it can be termed that, was number four, the education portion, which still was defeated, 1180-200, or better than 7-1.

A total of 1,393 people went to the polls, aided by excellent "Indian Summer" weather, to vote on the proposed new constitution. This was 36.6 per cent of the registered voters in Parmer County, who total 3,801. Only around 50 per cent of the voters voted in the last general election.

There were 524 voters in the Friona precinct, where the voting likewise was heavily against each proposition.

The judiciary proposition was the least favored in Friona, where 455 voted against, to only 63 in favor. The finance proposal also was low, with 451 against to 65 in favor.

Friona voters followed the trend by giving a few more votes to the education portion (74), but gave the most favorable votes to proposition seven, the general provisions, where

77 voted "for," but there were still 440 "against."

A complete precinct by precinct voting tally appears elsewhere in this issue. The countywide totals were as follows:

Proposition 1 (Separation of Powers) For-175; Against-1204; Proposition 2 (Judiciary provisions) For-176; Against-1201; Proposition 3 (voting and elections) For-178; Against-1195; Proposition 4 (education provisions) For-200; Against-1180.

Proposition 5 (Finance provisions) For-165; Against-1208; Proposition 6 (Local Government) For-186; Against-1190; Proposition 7 (General provisions) For-179; Against-1194; Proposition 8 (Amending provisions) For-186; Against-1189.

## Clark Ups Lead; Wied Wins

Jack Clark increased his lead by a point in the Friona Star's annual football contest last weekend.

With four weeks to go in the race for grand prizes, Clark had a total score of 138, to 136 for Don Fortenberry and Mike Gowens.

Fortenberry, who had been in second place the previous week, lost a point and fell back into a tie with Gowens two points behind the torrid pace of Clark, who is picking the games at a 78.8 correct percentage through nine weeks.

Clark scored 17 during the ninth week of the 13-week event, to maintain his pace. Fortenberry had a 16, and Gowens also had a 17. Drake, who has been tied for the lead earlier, joined Fortenberry with a 15, and is third with a score of 135.

Dan Carthel of Gruver, who had won the weekly first prize a week earlier, scored a 17 to maintain his spot four points off the lead, and was fourth going into this weekend's games. Carthel has passed a number of contestants during the past two weeks.

Capturing the \$10.00 first prize for the week in last week's contest was Bobby Wied, who became the eighth contestant to tally the season high score of 19. Wied missed only the

Hereford-Lubbock game, won by Lubbock, to collect the \$10.00 first prize hands down.

Twelve contestants correctly picked 18 of the 20 contest games, and from that list, two emerged to collect the other \$10.00 on the basis of their tie-breaker scores.

Jay Sturm of Lubbock, the son-in-law of Judge and Mrs. Paul

Fortenberry, came up with second place by guessing the Friona-Littlefield score at 13-27, when it actually was 11-24. Sturm missed the Nebraska-Missouri and Dallas-Washington games.

Celia Loflin claimed third place, after missing the tie-breaker score by only seven points. She picked the

(Continued on Page 12)

## PCHC Announces Medallion Sale

The Parmer County Historical Commission announces this week that the county Commemorative coin-medals will go on sale at the Christmas Bazaar November 14-15 in Friona.

The Commission will man a booth during the bazaar, and take orders for the special medals which are expected to be delivered in the near future.

The coins are available in four types of metal, according to Hugh Moseley of the PCHC. Available will be sterling silver, silver, antique

bronze and bronze. The coins will also be available individually or in sets.

"We think that the coins, which are the first of a series, will make ideal Christmas gifts," Moseley says.

There will be a limited number of coins struck, so they will be of lasting value.

Moseley says that profits from the coin-medal project will be used to publish volume two of the Parmer County History. The Commission published volume one a year ago, and was extremely popular.

## Fryes Donate Cattle To Girlstown

Then Cooper and the girls stopped at the Castro County sheriff's office, where they picked up the first 100 pounds of a 1,000-lb. donation of sacked pinto beans. A second trip would be needed to get the rest of the beans and boxes of donated clothing that were waiting at the sheriff's office in Dimmitt, Cooper said.

"We're trying to get our cow-calf operation started, and we hope that the girls eventually can have some show animals out of it," Cooper said.

"Leroy Johnson of Dawn gave us two mother cows last year, and they both calved," Cooper said. "Then the CowBelles donated two heifers."

"And we had one cow and calf just walk up one day. We called the

sheriff, and tried to find the owner, but gave up after a month. That's how we got our third mother cow."

"I would have given them the bull a lot sooner if I had known they needed one," Frye said. "I imagine a lot of people would be willing to give a head or two to help the girls get their herd started."

BIG HAUL....Kenneth Frye, left, representing Tri-Frye Farms, and sisters Betsy and Joan Toney of Girlstown look over the bounty that Girlstown received Saturday from

Frye's farm near the Friona Community. In the stock trailer are the Frye's main donations, a mother cow and a three-year-old bull for Girlstown's new cow-calf herd. Frye

also donated fresh cauliflower and cabbage from his fields. The girls also received fresh carrots and dried pinto beans from Dimmitt business.

# Friona Flashbacks

...from the files of The Friona Star

**45 YEARS AGO—NOV. 14, 1930**  
The Friona Star will join the other newspapers of the state in an effort to help those who are out of work. After this issue of the paper and until further notice the Friona Star will run want ads for any man or woman who wishes to advertise for work free of charge. If you are looking for a job come and see the editor. If there are any little odd jobs you want done around the house put a want ad in the Star, someone needs that work and perhaps needs it badly.

**40 YEARS AGO—NOV. 15, 1935**  
Friona and surrounding territory received a light fall of snow, beginning in the early hours of Monday morning and continuing intermittently until nearly noon. Considerable portion of the fall was in the form of fine hail and consequently did not reach a depth of more than half an inch, but produced about one sixteenth of an inch of moisture, most of the snow disappeared during the afternoon.

**35 YEARS AGO—NOV. 15, 1940**  
The machinery seems now to be getting underway for the calling of an election in Parmer County, for the issuing of a sufficient amount of County Bonds, for the hardsurfacing of State Highway No. 86, and State Highway No. 214, across the county as stated in last week's issue of the Star. The necessary petitions have been circulated, and will be

## The Friona Star

Friona, Texas 79035  
Second class postage paid at Friona, Texas 79035.

**SUBSCRIPTION RATES**  
Parmer County, adjoining counties, \$6.30 per year. Elsewhere, \$7.87 per year.

Bill Ellis, Editor & Publisher  
Laura Nell Coffey, Bookkeeper  
Vickie Copley, Back-Shop Foreman

presented to the County Commissioners Court, this week or at its next regular meeting. If these petitions receive favorable consideration by the Court, the election will be called for the earliest date possible, and if the results of the election are favorable to the bond issue, the bonds will be issued with the provision that they are not to be sold, unless the State is in a position to absorb these bonds with the 1 cent gasoline tax, as provided for in House Bill No. 688, passed at the regular session of the 46th Legislature.

**25 YEARS AGO—NOV. 9, 1950**  
"Years are but days, and days are but moments in Thy sight, Lord," spoke Rev. Jimmie Tidwell Tuesday as he gave thanks before a birthday cake bearing one hundred candles at the table of beloved Grandmother Thornton, centarian and Christian worker for near ten decades. Grandmother Thornton, now living at the home of her grandson, Morey Bussell, northwest of Friona, time and again stepped across the floor Tuesday to greet her children, grandchildren and old friends many of whom she had not seen in a half century. There are 87 descendants in the family. Present to honor their mother were all four of her children. She has been widowed for sixty years, more than the lifetime of most of those paying their respects and sending gifts Tuesday.

**20 YEARS AGO—NOV. 11, 1955**  
Smoldering fire in the 50,000 bushel wood and iron unit of the Bovina Wheat Growers elevator early this morning broke into the open to destroy most of the milo and kafir stored in that structure. A.C. Teter, firm manager, said that damage to the grain could reach a \$75,000 figure, with the building loss probably passing the \$50,000 mark. The fire started from unknown sources in the headhouse of the old structure, blazing into the open only when the elevator doors were

opened, admitting air.  
Annual meeting of the Parmer County Community Hospital stockholders was held Tuesday evening in Friona, with about 40 people present to hear the brightest financial report yet enabled in the local operation. Total assets of the hospital were revealed at \$167,546.02, with a net profit in 1955 more than doubling the previous 3-year average, and some \$13,000 more than the 1954 report. Operating expenses were up, also, topping the \$100,000 mark before the end of the audit period ending September 30.

**15 YEARS AGO—NOV. 10, 1960**  
Sale of the Mobil Petroleum Agency here was announced this week by seller Keith Blackburn and buyer Gerald Wright. Blackburn, who has operated the business for the past eight years, will move with his wife to Albuquerque. Wright has farmed and been employed by several business firms since coming to the Friona area about three years ago. His wife Laurie will help operate the business. The transaction was effective Tuesday.

**10 YEARS AGO—NOV. 11, 1965**  
A Friona group has received approval of their application to operate a daytime radio station in Friona, it was announced this week by the Federal Communications Commission. The new station, which will have a frequency of 1070 kilocycles, 250 watts, will be owned by a partnership of H.K. (Pudge) Kendrick, Bill McDonnell, Frank Spring and Joe Shields. The group, which will do business as "Parmer County Broadcasting Company," will locate its transmitter three miles southwest of Friona, just off U.S. Highway 60. It is not known where the studio will be located.

**5 YEARS AGO—NOV. 12, 1970**  
Friona Consumers will hold open house for its recently-completed building on Saturday, November 14. Consumers new facility is located at Ninth and Main. The new building is 70x90 feet. It houses the company's offices, its retail floor for automotive and farm accessories and the tire department. Lowellen and Matlock Construction were general contractors on the building.

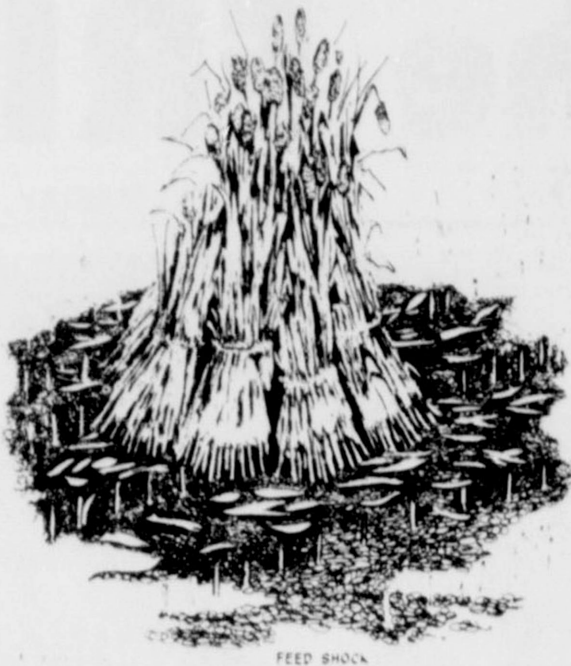

## Bookmobile Schedule

The High Plains Bookmobile will be in your area on the following dates:  
Wednesday, November 12—Needmore, 9-10 a.m.; Stegall, 10:30-11:30 a.m.; and Threeway, 12 noon-2 p.m.  
Thursday, November 13—Oklahoma Lane, 9-10 a.m.; Rhea Community, 10:45-11:45 a.m.; Friona, 1-1:30 p.m.; and Hub, 1:45-2:45 p.m.  
Friday, November 14—White's Elevator, 10-11 a.m.; Lazbuddie, 12 noon-1 p.m.; and Clay's Corner, 1:15-2:15 p.m.  
Saturday, November 15—Farwell, 8:55-11:50 a.m.; and Friona 1-3:45

## REMEMBERING...

## Feed Shocks

By BILL D. BROOKS

FEED SHOCK

Red Top Cane and other similar types of feed crops were harvested with a cussed contraption called a row binder. The binder was pulled behind a tractor or team of horses. When it was working properly (my uncle said there was no such thing as one that worked properly) it cut the feed, tied it in bundles about ten inches in diameter with binder twine and dumped the bundles out behind it on the ground. Farm hands came along soon after, gathered the bundles and shocked them. Several bundles would be stacked up on their ends by leaning them against each other. They were left that way for several days to dry properly.

The shocks resembled Indian teepees and when we were kids we pretended that's what they were. We used to move the bundles around somewhat to make a door and a little room inside.

There would be many shocks in each field so each kid could have his very own teepee. We would pretend a lot and use the places for hideouts. Grownups didn't much like for us to play in feed shocks because spiders and snakes liked to play in them, too. Also, if the bundles were moved around too much, the shock might collapse and have to be built back again.

When the feed had dried properly, it was loaded onto a wagon and hauled to the stack lot where the bundles were laid in neat rows side by side and stacked very high. In the winter when all the good pasture grass was gone the cattle were fed from the stack lot. Several bundles were pulled off each night and thrown over the fence to the cows. In most years there was enough feed in the stack lot for the cattle to get by until the next spring when the new crop of grass came.

## Bert Chitwood Buried Thursday

Funeral services were held here Thursday for William Talbert (Bert) Chitwood, 79, who passed away on Monday, November 3 at St. Anthony's Hospital in Amarillo.

Chitwood, a Friona resident since 1936, had been in failing health for some time. He was a semi-retired cattleman and a member of the Masonic Lodge.

Funeral services were held at 2 p.m. Thursday at the First Baptist Church, with Rev. Ron Trussler of the Calvary Baptist Church officiating, assisted by G.B. (Pete) Buske.

Burial was in Friona Cemetery, under the direction of Parsons-Ellis Funeral Home.

Chitwood was born June 6, 1896 at Alex, Oklahoma. He married Ethel Seaton on September 27, 1913 in Chickasha, Oklahoma.

Survivors include his wife Ethel, one son, S.V. Chitwood of Bovina; one foster son, John Miller of Friona, one sister, Mrs. Mary Lawson of Amarillo, a brother, Joe Chitwood of Houston, two grandchildren and two great-grandchildren.

Pallbearers were Herschel Johnson, Max Wells, Harold Joe Wells, J.B. Buske, Ralph Reed and D.C. Herring.

Honorary pallbearers were Roy Clements, Ranza Boggess, Ed Boggess, Sam Aldridge, Charles Russell, Curtis Murphree and Frank Hinkson.

## School Menus

**Week of November 10**  
**MONDAY**—spaghetti-o's, buttered beets, hot rolls-butter, green beans, peanut butter and honey and milk.  
**TUESDAY**—fish, buttered corn, hot rolls-butter, English peas, banana nut cake and milk.  
**WEDNESDAY**—frito pie, pinto beans, cornbread-butter, cabbage slaw, cherry cobbler and chocolate milk.  
**THURSDAY**—mashed potatoes, fried chicken, hot rolls-butter, buttered English peas, chocolate cake and milk.  
**FRIDAY**—hamburgers, French fries, catsup, lettuce, tomatoes, pickles, peanut butter cookies and milk.

## Letters To Editor

Editor  
Star  
Friona, Texas 79035

Dear Sir:

That was a nice feature story you published on Postmaster Les Deaton, of Black, September 14. I would like to reprint the "Deaton Story." I need one of the pictures you used...preferably the one of Postmaster Deaton looking through the bars of the post office window.

I will be happy to credit the "Star," and to return the picture, if you will be so kind as to let me use it.

Sincerely,  
Bill Kennedy  
Editor  
Lone Star Postmaster

## CHECK PLUGS

Spark plugs that misfire even slightly can shoot unused gas out the exhaust pipe. Automotive do-it-yourselfers should check their car's spark plugs every 5,000 miles, at least, and non-"doers" every 7,500 miles, the Automotive Parts & Accessories Association advises.

# Hill Issues Opinion

A seven-point letter designed to answer questions raised by the recent Attorney General's Opinion eliminating many fees traditionally charged public school students was mailed to school administrators across the state Friday by Dr. M.L. Brockette, Commissioner of Education.

The opinion issued on October 1 by Attorney General John L. Hill covered three key areas: tuition for driver education, charges for school supplies and instruction and lab fees, and fees for extra curricular activities.

Hill's ruling confines itself to the specific questions asked, Brockette's letter to the school superintendents points out. It also states that all areas addressed in the opinion that are not permitted by law are prohibited.

"The following statements are submitted in response to the many questions from local school districts," Brockette says in his letter to some 1,100 district superintendents. "We hope the following will help you in implementing the opinion."

(1) The effective date is the date of the ruling, October 1, 1975. The Attorney General's Opinion did not cover fees collected prior to the date of October 1, 1975.

(2) The ruling does not speak to students furnishing

traditional supplies such as pencils, paper, etc.

(3) Fees charged to buy such materials as workbooks, etc., are covered under the ruling. Fees for typing, labs, etc., are also covered by the ruling.

(4) Materials necessary for the student to acquire basic skills in vocational education courses must be furnished by the school district. However, the school district may allow a student, at his option, to furnish costlier or different vocational materials for approved projects undertaken for credit in such courses without incurring any obligation to pay for such materials, so long as the materials and the projects created from them remain the property of the student.

(5) A school district may charge tuition for driver training if taught in the student's fourth quarter (summer school). This is one of the areas in which tuition may be charged as indicated in Texas Education Code 16.864.

(6) A school district may charge non-participating students admission to extra curricular activities where attendance is voluntary.

(7) A rental fee may not be charged for band uniforms. The opinion does not address the question of students furnishing their own uniforms and/or equipment.

## Services Conducted For Eva Roberson

Eva Leona Roberson, 90, died Friday evening, October 31.

Funeral services were held Sunday, November 2, at 3 p.m. in First Baptist Church of Friona with Rev. Russell Pogue of Spearman, Texas and Rev. Bobby McMillan of Friona officiating. Services were also held Monday at 3 p.m. in the First Baptist Church of Forney, Texas with the Rev. Jerry Griffin officiating. Burial was in Hillcrest Cemetery in Forney.

She was born March 13, 1885 in Fayetteville, Arkansas and married Russ Roberson on November 27, 1901. She had been a resident of Friona for 25 years and was a member of

the Baptist Church.

Survivors are two sons, Oba of Forney and C.M. of San Antonio; three daughters, Mrs. Ruth Jones, Mrs. Inez Hamilton and Miss Marie Roberson, all of Friona; ten grandchildren and 21 great-grandchildren.

Pallbearers were her grandsons, Tommy Jones, Tommy Hamilton, Roy Lynn Roberson, John Hamilton, Harold Roberson and Bobby Roberson.

### Postal Service

#### Awards Three

#### New Contracts

OKLAHOMA CITY-The U.S. Postal Service has awarded contracts to build and lease new post office buildings in three Oklahoma towns, C.B. Bolar, Manager, Oklahoma City Postal District, said recently.

New post offices are slated for Ninnekah in Grady County and Randlett in Cotton County. In addition, a new Stockyards Postal Station of the Oklahoma City Post Office will be built in the Capital City.

All three facilities will be constructed with private capital and leased to the Postal Service for 30 years.

In addition, Mr. Bolar said new post office buildings have been completed and occupied at Friona and Silvertown, Texas and Oologah, Oklahoma.

### Bovina Man

#### Is Honored

George Powell was one of 94 employees of the Panhandle Division of the Southwestern Public Service Company honored at a service awards dinner Tuesday night in Amarillo.

Powell received an award for 15 years' service from Roy Tolk, chairman and president of the electric company, who made all presentations.

This was the last of four service award dinners held throughout the company's territory. A total of 312 employees, with a combined service of 4,855 years, were honored.

## A BIRD IN HAND

could be awfully messy. On the other hand, a home that is for sale and ready to move into, is indeed a rare bird. If you're waiting for that perfect home, you may have to wait a long time, but if a nearly perfect home would be as good—we can help.

Three bedroom-one bath home, nicely kept, and ready for occupancy by the last of November awaits your inspection. Get this, total price only \$12,000.00. Financing available.

Section of land, west of Friona, has 5 wells, 4-6", 1-8", and a mile and 1/2 of tile. Has two barns and three small houses. Priced to sell at \$375-Acre.

**Harrelson Rites Held In Friona**

Funeral services for Truitt Glen Harrelson, 47, of Friona were held Tuesday afternoon, November 4 at Friona's First United Methodist Church with Rev. Bobby McMillan, pastor, officiating. Burial was in the Friona Cemetery under direction of Parsons-Ellis Funeral Home.

Mr. Harrelson died Sunday morning, November 2 in Lordsburg, N.M. of an apparent heart attack.

Born September 16, 1928, he had been a resident of Friona for the past 25 years. Mr. Harrelson was a mechanic at Terry's Shop. He was a member of the Methodist Church for 24 years.

Survivors include his wife, Dorothy; three sons, Mickey Jim and Jerry Ben, both of Friona, and Jodean of Bovina; his mother, Mrs. Maude Harrelson of Irving; five sisters, Mrs. Belle Alford, Mrs. Clara Alford and Mrs. Robbie Glenn, all of Sulphur Springs, Mrs. Ruth Brown of Abilene and Mrs. Ruby Greer of Dallas; and three brothers, Paul of Dallas, Hubert of Irving and Maurice of Picketon.

Pallbearers were Lonnie Pruett, Gene Wright, Charlie Snyder, Earl Graham, Don Stansel and Shirley Smith.

**INSTRUCTOR....** Harold Lillard, formerly with Lillard's Crown and Bridge Laboratory in Friona, has joined the staff in dental technology at Texas State Technical Institute in Waco. He will specialize in teaching crown and bridge work. Lillard received his bachelor of science degree from Texas Tech University in Lubbock. Lillard operated his laboratory at Friona 12 years before beginning his duties at TSTI Sept. 1. He and his wife, Jamie Lu, live at 404 Webb on the TSTI campus. (STATE TECH PHOTO)

**Gauge Cuts Gas Use**

A manifold vacuum gauge, sometimes called a miles-per-gallon meter, visually shows the vacuum in the intake manifold. This is directly related to a car's gas efficiency. By driving so that a high vacuum reading stays on the gauge, you can increase your car's gas mileage.

**INSUR-MATION**

By MILTON EVANS  
Parmer County Farm Bureau Insurance  
Phone 247-3280

My wife and I have been married for less than a year. How much life insurance do we need?

There is no set answer... depending on your needs, responsibilities and lifestyle. If you are childless, both working with well-paying jobs, your need for protection is less than a family with children, a non-working wife and probably a smaller savings account. Think of life insurance in terms of income. Income to meet medical expenses in case of disability, to help cover the cost of your children's education, income to help support a family. With all these variables, you should discuss your personal circumstances with your agent. He will help advise you as to your needs and what is practical.

**ZIMMATIC**

You're doing without a Zimmatic center pivot. Saving your hard-earned capital for other improvements. Don't want to borrow right now. But it's costing you money every year you wait. Two ways. First, you're losing the extra crop production you get under irrigation. Second, inflation is at work. Boosting prices, dropping the value of your dollars.

Why not rent a Zimmatic under our new lease plan? Let the system pay for itself and put some extra money in the bank for you at the same time.

Our rates are reasonable. You can include freight, installation, pump, other "above ground" items in one flexible package, tailored to your needs. Why wait to irrigate? It's just costing you money. Call us today for details on our new lease plan.

# 'Cats Refuse To Be Tricked, 24-11

The Littlefield Wildcats could have been tricked when they met the Friona Chieftains here on Halloween Night last Friday, but the Wildcats got enough "treats" to keep from getting spooked, and escaped from Chieftain Field with a 24-11 win.

Friona surprised the unbeaten Wildcats (8-0-1) by carrying the fight, and when the dust had settled, Friona held a lead over the potent 'Cats, both in rushing yardage and in total yardage.

But untimely mistakes, which have plagued the Chieftains throughout the 1975 season, once

again proved costly, and although Friona moved the ball at will, it could not get the pigskin over the goal-line on critical drives.

The second time Friona had the ball, the Chieftains moved the ball in a picture-perfect drive, going from their own 45 to the Wildcat one. Jeff Whiteside had made the drive's beginning possible by intercepting a Littlefield pass on the Friona 20 and returning it to the 45.

Bobby Zetsche gave the team a pair of first downs with runs of six and nine yards. Glen London then broke for six yards over the middle,

giving Friona a first and goal situation at the Littlefield eight.

Quarterback Keith Martin carried the ball three times, making four, two and one, and moving the ball to a critical fourth and goal at the Wildcat one. After a time out, the Chieftains lined up in field goal formation and Davy Carthel calmly booted the ball between the uprights—an 18-yard goal that sent Friona into a surprising lead, 3-0 with just 0:01 showing on the first quarter.

Littlefield answered the challenge following the kickoff. The Wildcats' all-purpose back, Bill Turner, and wingback Steve Cruz paced a steady drive from the visitors' 45 that culminated when Turner sliced over from the three with 6:38 left in the first half. Turner's kick made the score 7-3, Littlefield.

Friona committed a clip on the kickoff, and was penalized back to their eight yard line. The bad field position proved more than critical when Keith Martin fumbled on first down after a jarring tackle, and Littlefield took over on the Friona 11.

It took the inspired Wildcats just three plays to cash in, with the elusive Cruz going over from the one. Turner's kick moved Littlefield's lead to 14-3, and the Wildcats had scored a pair of touchdowns in less than a minute of clock time.

The third quarter really took on a Halloween setting, as it was accompanied by thunder, lightning and a rain that hampered play somewhat.

Friona made an inspired drive the first time they had the ball, going from their 38 following a Wildcat punt. London did some fine running, gaining five, four, eight and four yards in four straight tries to move the ball into Littlefield territory.

Then, a personal foul penalty helped things, pushing the ball to the Wildcat 25. However, the visitors' defense stiffened at this point, and facing fourth and three from the 18, Martin was swarmed for a two-yard

**SENIORS....** Lining up for the last time this week for the FHS Chieftains in football will be this group of seniors. Standing, left to right are Bob Clark, Danny Campbell, David Barnett, Richard Anderson, Kenny Stowers and Roy

Smith. Kneeling are Hal Blackburn, Keith Pryor, Kent Miller, Davy Carthel and Randy Melton. In front are John Seright, Rolando Caballero, Bobby Zetsche, Leonard Woodruff and Manuel Hernandez. Smith and Melton are no longer on the team.

**FRIONA-MORTON**

## Two Frustrated Teams To Meet

Two frustrated football teams will be knocking heads when Friona hosts Morton in the season-ending football game here next Friday.

It's been a long season for both the Friona Chieftains and the Morton Indians, both of whom expected to have better seasons than they did. Both will be out to salvage something for the season by winding up on a winning note.

The Indians, like Friona having some young players in starting positions, were expected to improve on 1974's won-lost record of 3-7, having 15 lettermen back. Friona returned just seven. Going into the game, Morton has a 2-6-1 mark.

Leading the returnees are guard Malcom Coleman, a 5-11 185-pound senior was termed earlier this season by Morton coach Roy Winters as "potentially the best guard in our district."

Also back are tackle Larry Shaw, 195-pound senior who averaged nine unassisted tackles and 16 assisted tackles a game last year, and

wingback-linebacker Robbie Gattis, 175-pound junior who also had some good defensive statistics a year ago.

Tailback David Ramby is also a veteran, along with Sam Johnson, 5-11, 190-pound fullback-linebacker, a two-way starter last year for the Indians.

In all, Morton had six offensive and four defensive starters back from their 1974 team. The Indians have been up and down, however. Recent games saw the team drop a 54-0 decision to Littlefield, then come back to play Dimmitt to a 2-0 game for three quarters before falling, 15-0.

The game will mark the final football competition for 15 FHS seniors. They are Bob Clark, Danny Campbell, David Barnett, Richard Anderson, Kenny Stowers, Hal Blackburn, Keith Pryor, Kent Miller, Davy Carthel, John Seright, Rolando Caballero, Bobby Zetsche, Leonard Woodruff and Manuel Hernandez.

loss practically before he could get the play underway.

Late in the quarter Littlefield took over following a short Friona punt and began a drive of their own.

Cruz became the man of the hour for the Wildcats, carrying the ball ten out of twelve times, and moving the ball steadily upfield. Cruz' longest gain was 17 yards. He gave the 'Cats a first and goal at the three, and from there quarterback Ronald Palmer went over.

Turner was set to kick the point, but after a bad snap, he picked up the ball and headed for the flag. The misplay resulted in two points for the visitors instead of the one they were after, and Littlefield's lead became 22-3.

Kelwin King broke loose on the next series of downs, and found himself in the Littlefield secondary. He headed for the right sideline, and it was a footrace between him and the Littlefield safety, who unfortunately had the angle on King, and

caught him at the Littlefield 25 after a brilliant 59-yard run.

On fourth down, Friona needed just over two yards, and King got the call. The speedy junior slashed for two, but a measurement showed Friona was just inches short of keeping the drive going at the Littlefield 15.

Friona's frustration was even worse a moment later, when the team found themselves on their own five yard line. Martin rolled back into the end zone, and was tackled by the Wildcat defenders for a two-point safety, and the score became 24-3.

Late in the quarter, the Chiefs finally were on the receiving end of a break, when the Littlefield punter got a bad snap and was swarmed by the charging Chieftains at the 18 yard line.

Friona was not to be denied this time. Martin ran to the 11, and King went around end 11 yards for the touchdown with only 56 seconds left in the game. King also got two points

on a running play that was somewhat busted, but still clicked for points.

King was Friona's top rusher for the second time this season with 86 yards on nine plays. The Chiefs led in yards rushing, 216-205, and in total yards, 225-213.

It was the fifth game for Friona to lead in statistics but trail on the scoreboard.

### Frosh Fall To Muleshoe

The freshmen dropped a 32-0 decision to visiting Muleshoe here Thursday night at Chieftain Field.

Muleshoe was off and running with a 12-0 lead in the first quarter, and the score was 25-0 at the half.

The Mules scored late in the third quarter, and the fourth period was scoreless. The game was played in near-perfect weather.

## Salvation Army Helps People In Distress

Jake Outland, Friona City Manager, was preparing to close up and go home after five one recent afternoon when the phone rang. The caller was a man asking for Outland's help with a problem.

As chairman of The Salvation Army Service Unit Committee, a member agency of the Friona United Fund, Outland was accustomed to receiving phone calls at all hours from troubled people.

"I've started work on a regular job," the man said, "so I can't qualify for help from the county—they have strict rules. But it's ten days to my first pay check and meanwhile there's no food in the house for my family. Could The Salvation Army tide me over with groceries 'til I get paid?"

Outland questioned the man to ascertain his needs, then instructed him to contact the Service Unit welfare secretary who would issue the purchase order for groceries. When the conversation ended, the caller seemed much relieved.

The case is one of many that occur in Friona throughout the year. It illustrates the reason why the Service Unit is an important part of the complex public and private structures that help people in financial trouble.

"We exist to help people who do not qualify—for one reason or another—for help from other sources," Outland explained.

"For example, the county has residency requirements that permit it to send their non-resident cases to us. A non-resident is anyone who has lived in the state less than a year or in the county less than six months. "When you estimate the numbers of people shifting around the state and country every day, you get some idea of how the case load can build up."

Salvation Army rules are flexible, making sure that no one goes without food or shelter. If the question of need is borderline, it gives the client the benefit of the doubt, but usually will check out his case to make certain his problem is genuine.

The kinds of help provided by the volunteer committee members are limited only by the number of basic necessities people require to function in our society. Food, shelter and clothing are such basics. But so are utilities, medicines and shoes and school supplies for children. The Service Unit will also pay a client's rent bill for a time or handle a minor medical or dental expense. Last Christmas 74 persons benefitted from food baskets distributed here in Friona.

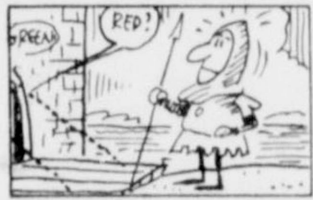

Besides helping local people, the Service Unit also provides stranded travelers with night lodgings and sometimes a meal or bus fare. In Friona recently, the Service Unit provided money for travel and expenses for a Friona resident to qualify herself for a new profession. She is now working in Friona.

"This summer we sent three boys to The Salvation Army Camp Hoblitzelle near Dallas for a week-long outing. They were Jess Trevino, Martin Mercado and Arthur Castillo. The program is carried out in cooperation with Army state headquarters.

There are other state-wide programs available to us: disaster relief in the event of a tornado or some other disaster, the home and hospital for unwed mothers, help for prisoners and their families, and the well-known program the Army runs for alcoholics.

"All of it depends on the United Way to keep going," Outland adds.

Other members of the Service Unit Committee are: Mrs. Iola Nelson, Friona State Bank; Rev. Bobby McMillan, Friona Methodist Church; and Chief Bill Denney, Friona Police Department.

Never use a stain remover until you test the cloth for the remover's effect on color.

## Baptists Schedule Revival

First Baptist Church of Friona will conduct its Fall Revival November 10-16.

Guest evangelist for the week will be J. Prentiss McGee of Levelland. The Bobby Smith family of Muskogee, Oklahoma will be featured on the music portion of the revival.

Services Monday through Saturday will be held at 7:30 p.m., with the exception of Friday, when the service has been scheduled for 6 p.m. Sunday services are at 10:50 a.m. and 7 p.m.

On Tuesday through Friday, special noon activities are also planned. Lunch will be served in the church kitchen from 11:45 to 12:15. A service will then be held from 12:20 to 12:50 p.m. A nursery will be provided for all services.

Rev. McGee is a graduate of East Texas Baptist College, Marshall, and the Southwestern Baptist Seminary. He and his wife Faye have four children: David, 17; Susan, 14; Donna, 10 and John, five.

Rev. McGee has pastored the Fairview Baptist Church of Amarillo, the Grandview Baptist Church of El Paso and is presently pastor of the First Baptist Church of Levelland.

Bobby Smith was born in Muskogee, Oklahoma, and has conducted over 250 revival campaigns. He entered the field of evangelism in 1968. In addition to his church work, Smith has written, published and recorded a number of gospel songs, including "He's My Everything," "I Have A Friend," and "Are You Crucified?"

Smith received his bachelor of music degree at Oklahoma Baptist University, and his master's degree at Southwestern Baptist Theological Seminary. He and his wife Jeannette have two children, David and Deborah.

# COMPOSTED FEEDLOT MANURE IS BETTER

Composted Feedlot Manure From Our Stockpiles Offers These Advantages Over Freshly Scraped Manure.

- ★ One Step Closer To Availability Of Plant Nutrients.
- ★ Weed Seed Problems Are Substantially Reduced When Manure Is Stockpiled And Allowed To Compost Before Application.
- ★ Composted Manure Is More Granular And Spreads More Uniformly Than Freshly Scraped Manure .
- ★ Lower Moisture Content Makes Composted Manure A Better Bargain Than Freshly Scraped Manure .

## HOW MUCH IS COMPOSTED MANURE WORTH ?

10 Tons Of Composted Feedlot Manure Per Acre Will Yield Approximately

- 320 UNITS OF NITROGEN (AT 1.6% N)
- 300 UNITS OF PHOSPHORUS P<sup>2</sup>O<sup>5</sup> (AT 1.5% P<sup>2</sup>O<sup>5</sup>)
- 340 UNITS OF POTASSIUM K<sup>2</sup>O (AT 1.7% K<sup>2</sup>O)

Total Value In 10 Tons Of Composted Manure At Estimated Commercial Fertilizer Cost °

320 UNITS OF N AT \$.119 PER UNIT	\$38.08
300 UNITS OF P <sup>2</sup> O <sup>5</sup> AT \$.195 PER UNIT	\$58.50
340 UNITS OF K <sup>2</sup> O AT \$.05 PER UNIT	\$17.00
	<b>\$113.58</b>

° Does Not Include Application Cost Of Commercial Fertilizer

Estimated Availability Of Units In One 10 Ton Application Of Compost

	1st Year	2nd Year	3rd Year
N	144	71	38
P <sup>2</sup> O <sup>5</sup>	135	66	36
K <sup>2</sup> O	340		

Estimated Value Per Year Of One 10 Ton Application Of Compost

	1st Year	2nd Year	3rd Year
N	\$17.14	\$8.45	\$4.52
P <sup>2</sup> O <sup>5</sup>	\$26.32	\$12.87	\$7.02
K <sup>2</sup> O	\$17.00		
	<b>\$60.46</b>	<b>\$21.32</b>	<b>\$11.54</b>

Manure Supplies Other Secondary And Micro Nutrients (Such As Calcium And Magnesium) And Has Beneficial Effects Beyond It's Ability To Supply Nitrogen , Phosphorus, And Potassium. Continued Applications Of 10 To 15 Tons Per Acre Can Be Expected To Have Favorable Effects On Soil Physical Properties, Such As Increased Water Intake , Increased Water Holding Capacity And Improved Structure.

## SCS Report

Conservation in Parmer County is important. We need to conserve our energy, soils and water. The Parmer County SWCD is interested in helping you any way it can.

One way offered is through the Great Plains Conservation Program. This is a cost share program for applying conservation.

There have been over a hundred contracts written in Parmer County over the years. There has been a lot of conservation applied as a result of these contracts.

There is money available in Parmer County for the Great Plains Program. You do need to be thinking six months to a year in advance on applying conservation through this program be-

cause a contract has to be developed before you can start. When the contract is approved the money to assist with conservation practices is set aside and can be used by you as you are able to apply your conservation practices.

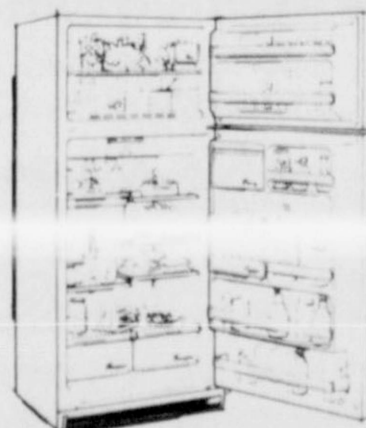

The SCS in Friona will be glad to go over the Program with you and help you apply it to your conservation needs.

Actually, the United States and the world are running out of oil and gas, which now accounts for more than three-quarters of our energy usage. Therefore, many scientists feel that we must switch to more abundant fuels, coal and uranium, which are utilized in the form of electricity.

## SEE HOW MUCH MONEY A PHILCO COLD GUARD REFRIGERATOR CAN SAVE YOU ON ELECTRICITY IN FRIONA, TEXAS

For example, over the average life of a refrigerator (15 years)...

THIS PHILCO COLD GUARD REFRIGERATOR CAN SAVE YOU

UP TO **\$560.88** -.038 per KWH

This saving represents maximum economy available on current performance of Philco COLD GUARD Refrigerator-Freezer Model RD1918 Code 120 as compared with the energy consumption of comparable size and type models of three leading brands as listed in the September 1975 Directory of Certified Refrigerators and Freezers published by the Association of Home Appliance Manufacturers.

electricity—comparisons to competitive models with electric anti-condensation heaters are based on the average of maximum minimum energy consumption in areas of high or low humidity actual savings may be more or less. Save electricity—save money make your next refrigerator.

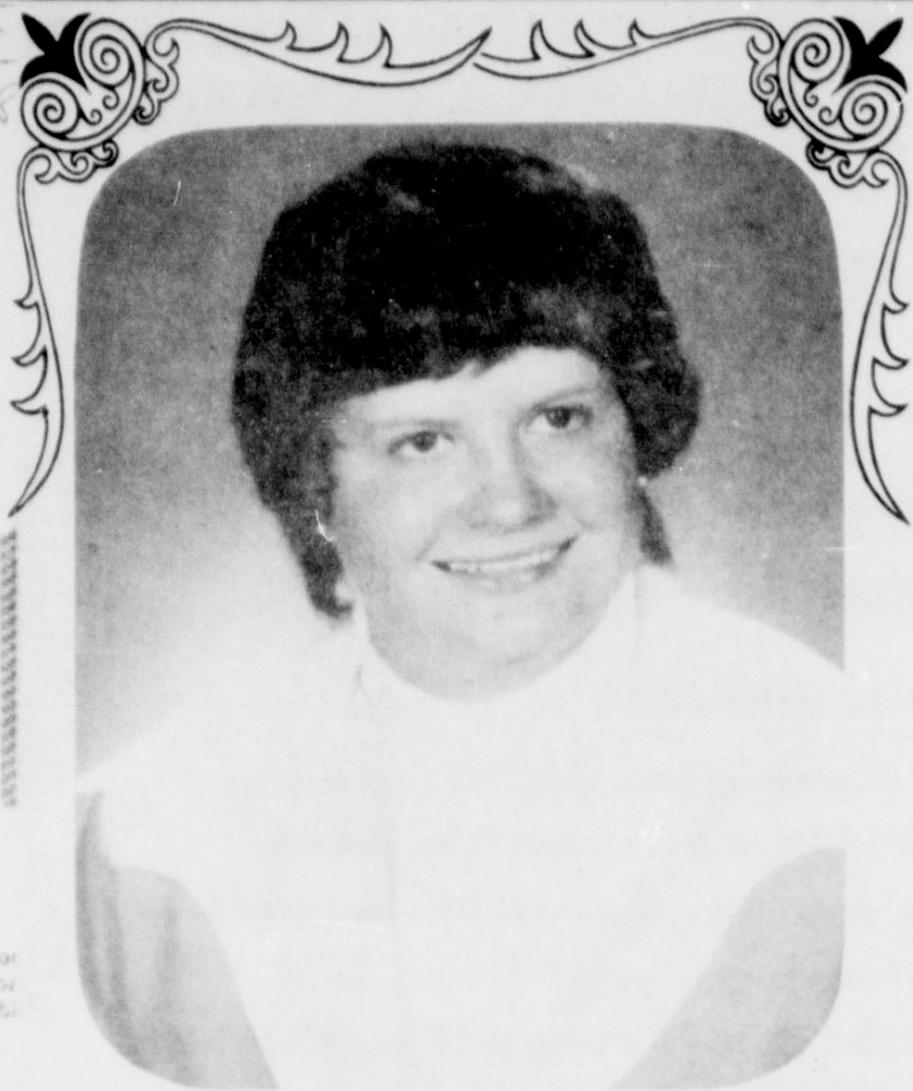

THE REFRIGERATOR THAT HELPS PAY FOR ITSELF

Actual savings may vary depending upon climatic conditions, individual usage and electric rate changes. Savings shown are based on estimated 1975 residential electricity rates and consumption for this locality in high or low humidity areas actual savings may be more or less.

DEBORAH SUSAN JESKO...Mr. and Mrs. Lee Dennis Jesko of the Lazbuddle Community announce the engagement and approaching marriage of his sister, Deborah Susan, to Timmy Carroll Smith, son of Mr. and Mrs. Gene Smith, also of the

Lazbuddle Community. The couple will exchange wedding vows on Tuesday, November 25 at 7 p.m. in the Lazbuddle First Baptist Church. Deborah is the daughter of the late Mr. and Mrs. Alex Jesko.

## Town Talk

By June Floyd

Phone 247-3681

With Your News Item

A distinct pleasure of being in the Dallas area is that one can start the day off by reading Paul Crume's column, Big D, which appears regularly on page one of the Dallas Morning News.

Paul isn't really a former Frionan, but he is a former resident of Parmer County and a brother of Friona's Mary Lou Taylor; one of our businessmen, Kater Crume; and several other residents of our area.

He writes a very interesting column and I thoroughly enjoy reading it.

++++  
Mention of Mary Lou Taylor reminds me of a question I've been thinking about asking. Does anyone in Friona, except Raymond and Frances Euler and their children, Lori and Bron, have two next door neighbors named "Mary Lou?"

The Euler family lives on White and their next door neighbors on one side are L.G. and Mary Lou Taylor and Preach and Mary Lou Collier live next door to them on the other side.

++++  
Two former editors of the Friona Star and their families live in this area. Visiting with them is always a pleasure.

Travis and Gaye Harrell live over in the northeast part of Dallas. Gaye, a former second grade teacher in our school system, is a full time homemaker.

They have three children, Wendy, 10; Barry, 7 and Allison, who is 1 1/2. The two older children are in school, so Gaye is a part time chauffeur. Since there have been so many problems about bussing, the Harrells are sending the children to a private school.

Travis works for Taylor Publishing Company and says he is trying to become "the best black bass fisherman." He and his father, I.S. Harrell of Andrews, are planning a fishing trip down in Mexico real soon.

Then Vernon and Karen Stewart and their two daughters, Misty, 13, and Lacy, 10, live over near Wylie. They really live out in the country.

Their home is on an acreage where there are neither street markers nor paved streets.

Vernon is employed by Dunkin' Donuts and travels a lot.

He is also a fisherman and there sure is a lot of water around here for him to practice in.

++++  
Garland has a new "Park & Ride," which just opened Monday. Early in the morning it is an express bus for commuters. Then during the day it becomes a regular bus and goes back to express in the evening.

Our two grandchildren, Joel and Heather Osborn, who are 8 and 5, and I rode downtown yesterday afternoon. A lot of the terrain between here and there is heavily wooded, so we saw a lot of beautiful fall color in the trees and shrubs.

Then, too, we saw many beautiful homes. Many of them were built half a century or more ago and the surrounding grounds were magnificent.

++++  
Stanley and Carolyn Lockhart live in Dallas. They lived in Friona from 1950 to 1953. Their oldest daughter, Lindalyn, was born in Friona and is married now.

She and her husband live in Denton. He attends North Texas State University. So does Sherry, the youngest daughter of the Lockharts.

Stanley is a former minister of Sixth Street Church of Christ and is currently working with the Skillman Avenue Church of Christ in Dallas.

++++  
Gathering news about former Friona residents in this area surely is different. For instance, if I didn't know that Larry Van Johnson is the

Larry Johnson I know, I'd never be able to find his number in the Dallas directory.

I counted eighteen listings "Larry Johnson." Seven of them had no middle initial four were listed "Larry W." There was only one "Larry Van," and I'm wondering if it is a wrong listing.

I've dialed the number several times each day and, so far, all I've ever connected with was "no answer."

++++  
The Friona Kiwanis Club is considering holding a local talent contest sometime in the near future.

The club is interested in finding out how much interest there would in such a contest, and would like for those interested to call Carl White at 247-3271 or D.L. Harguess at 247-3114 or 247-3906.

The date of the contest will be announced later.

All proceeds from such a show will go to "Project Nursing Home."

++++  
Jack London, a former resident of Friona, arrived home last Sunday from Kwajalein, Marshall Islands. He is visiting in the home of his mother, Inez Wheeler.

On Sunday, Mrs. Wheeler had as dinner guests Jack, son Dean of Amarillo, grandchildren Mike and Rhonda London of Bovina, and her uncle, David Moseley. Jack expects to be in Friona until around November 26.

++++  
Attention 1971 Friona High School graduates!

We need your present address now!! Please call Mrs. Paul Spring at 247-2238 or Mrs. Glen Floyd at 247-3681, stated Susie Spring, secretary.

++++  
The DECA Club of Friona High School had a steak fry and meeting Nov. 3, in the home of Mr. and Mrs. Dean Blackburn. Plans were made for the school year, and certain projects were discussed. The club is now selling 1976 calendars to the community. If interested, get in touch with a DECA member before one gets in touch with you.

++++  
Earl Hibdon has been released from the hospital in Amarillo following eye surgery. He is now at home and reports that the surgery was a success.

## Groups Host Annual Thanksgiving Meal

For the last several years the Oddfellows and Rebekahs of the Friona Lodges No. 308 have paused to give thanks and renew friendships and enjoy fellowship with their families and friends. This year was no exception. A bountiful dinner was enjoyed by some fifty people at the Lodge Hall.

The social committee, Wilma Wise, chairman, assisted by Juanita Reed, Karen Zachary and Ethel Bengler hosted the annual Thanksgiving dinner. The members help supply the food and all members of both Lodges and friends enjoy this particular season of the year. The Oddfellows and Rebekahs recognize that our blessings come from our belief and trust and knowledge of the Supreme Being and thus we pause at this time of the year to express our gratitude.

Those in attendance for this Thanksgiving dinner were Mr. and Mrs. Joe Moyer, Lillie Taylor, Jewel Claborn, Mr. and Mrs. Charlie Wise, Randa Allen, Mr. and Mrs. Billy G.

Zachary, Mark and Kevin and Mr. and Mrs. Bud Reed.

Also, Mr. and Mrs. Floyd Brookfield, Mr. and Mrs. Buz Browning, Jewel Wells, Twyla Chesher, Kent Chesher and Dara Wells, Mr. and Mrs. R.W. Parr, Ethel Bengler, Ed Boggess, Mrs. Mona Campbell, Mr. and Mrs. Ed White and Mr. and Mrs. Raymond Adams.

Also, Mr. and Mrs. Ralph R. Reed, Janette, Max and David, Mrs. Bertie Doak, Mrs. Lucille Collier, Mrs. Evelyn Wendt, Wana Brewer, Rev. and Mrs. Bobby McMillan, Scott, Allison and Alicia, Pat Fallwell, LaNora and Christy McElroy, Dawn Gibson and Shana Gibson and Walt Marcum.

The Oddfellows meet every Thursday night and the Rebekahs meet every Monday night. Any and all Oddfellows and Rebekahs of the community are invited to come and join Friona Lodges and enjoy the friendship and fellowship as taught by Oddfellowship.

## Annual Xmas Bazaar Scheduled Locally

As time draws near for the third Parmer County Christmas Bazaar and Arts & Crafts Show, exhibitors from all over the Panhandle and Eastern New Mexico are preparing to travel to Friona on November 14 and 15.

At press time approximately 50 spaces had been reserved with exhibitors coming from Friona, Bovina, Farwell, Hereford, Amarillo, Claude, Morton, Kress, Sudan, Clovis and Portales.

"We will be seeking exhibits of jewelry, macrame, photographs, paintings, books, antiques, tin craft, baked goods, and other assorted gift and craft items," says Jana Pronger, County Agent.

Several organizations plan to be on hand with educational exhibit, and some will be holding raffles to support their organizations.

A new feature to be added to the educational demonstrations will be some nearly forgotten arts such as quilting, bread making, and churning. The heritage arts will be presented along with the holiday

foods and crafts and the ever popular holiday fashion shows.

"Everyone come and bring a friend to the Parmer County Christmas Bazaar November 14 and 15 in the Community Building in Friona," Miss Pronger says.

Exhibits will open to the public at 9 a.m. each morning and close at 6 p.m. on Friday and 5 p.m. on Saturday. Admission is free, so come and avoid the Christmas rush buy your gifts at the bazaar.

Calvin Martin Weds

Ann Smith

Ann Smith of Creston, Iowa and Calvin Martin of Friona, were married Sunday, October 19 at The Little Brown Church at Nashua, Iowa.

Rev. Marshal R. Hinds, formerly of Creston, performed the double ring ceremony in the presence of family and friends.

Mr. and Mrs. Martin will be at home at 1306 Columbia in Friona.

## American Field Service Is United Fund Agency

The Friona United Fund supports the American Field Service which placed 6 foreign students in homes in Friona and has sent one local student to a foreign country.

American Field Service is the program which selects and places students in "host families" in various parts of the world. While spending up to a year in other countries, students generally participate in school activities and community life.

AFS is a nonsectarian, non-political organization that is chartered as a non-profit corporation. Its international program is offered without regard to race, religion, political affiliation or economic background. The staff and volunteers are representative of the more than 60 countries involved in the organization.

More than 2,600 students from over 60 different nations spend a year learning and living in the U.S. because of the AFS program. Another 1,500 U.S. students spend a full year or a summer experiencing another society and culture.

The Friona Chapter of American Field Service functions with a membership of ten, representing local service clubs and organizations. Currently Hollis Horton acts as president.

The first AFS exchange student to come to Friona was Annie Jensen who lived with the Meryl Massie family in 1961 and 1962. Annie was from Denmark. In 1963 and 1964 the Massie family were hosts to Nergis Yazgan from Turkey. Both girls have returned to the United States

and visited the Massies. Mr. and Mrs. Massie have visited their foreign exchange students in Denmark and in Turkey.

Mr. and Mrs. Ernest Osborn were the host family for Eve Braunschweiger from Switzerland, in 1962 and 1963. In 1969 Eve and her husband came back here for a visit. Brenda Hawker from Australia stayed with the E.G. Phipps family in 1964 and 1965. The Phipps family visited with Brenda when they toured Australia in December 26, 1970. Mrs. Jeanette Teel and her family were hosts to the only male exchange student to come to Friona. Souvanah, came from Laos and was here in 1967 and 1968. Mrs. Teel, communicated with Souvanah for some time but has not heard since Jan. 1973 and the political upheaval and unrest in that country.

In 1970 and 1971, Jan Wallace from Australia was the exchange student and lived with the Carl Schlenker family.

In the summer of 1973, Kay Cochran, daughter of Mr. and Mrs. W.A. Cochran was a summer exchange student to Sweden. She was later to have one of the host family visit her in Friona.

American Field Service committee plans to seek applications for a host family for the year 1976 and '77 since there has been a lapse of several years in securing a home and a host family.

"The committee feels all the students in the school enjoy the experience of knowing a student is from another country," stated Horton.

CRYSTAL AGEE....Mr. and Mrs. Maynard Agee of Friona announce the engagement and approaching marriage of their daughter, Krystal Kay, to Danny Kaye Hunn, son of

### Reese Officer

### To Speak

### At Banquet

Major Joseph E. Hickox of Reese AFB, near Lubbock, will be the special guest speaker at the Ladies Night Banquet of the Lazbuddie Lions Club Saturday, November 15 at the Lazbuddie School Cafeteria.

The banquet will begin at 7 p.m. Tickets are \$3.50 per person for the steak dinner. Tickets will be available at the door, according to J.W. Gammon, club president.

Maj. Hickox has been with the 64th Flying Training Wing at Reese AFB since July of 1974.

The Air Force official has spent time in Vietnam, Thailand, Russia, and spent one tour of 144 days stationed beneath the polar ice cap about 200 miles south of the North Pole.

Maj. Hickox is a native of Pensacola, Florida. He will be accompanied to the banquet by Mrs. Hickox.

Mr. and Mrs. Blaine J. Hunn of Pecos, Texas. The couple plans to exchange wedding vows at the First Baptist Church on Saturday, December 6 at 8 p.m.

### Hospital Report

## Current Comments From . . .

**BLAIR MACY** in the **KEENE VALLEY (COLO.) SUN**...This nation is facing a major crisis, and I'm not at all sure which way it'll go. But I certainly have my "druthers." Are we going to turn to the right,

like Hitler's Nazism and Mussolini's fascism, or are we going to stay middle of the road and preserve our freedoms? Every society, when it gets old enough and big enough, tends

toward a kind of self-righteousness which denounces doubters and honors all who make a big production of their personal blind faith in the system.

There are strong forces in this country which would like to bring us in line. Three leading ones I could name would be the National Rifle Association, the American Medical Association and the John Birch Society....but there are many, many more.

My "druthers" are already fore-ordained, because of my job. As a newspaperman, I MUST fight for freedom of the press, and therefore all the other freedoms passed down to us by our forefathers.

But I can also see this is not going to be a one-sided controversy: there are a lot of people who resent school busing, long hair, gun control, or my own personal enigmas—tiresquealing and labor demands.

Now, most of us are against some of these things, not necessarily others. And although it may indicate a lack of complete objectivity, I believe it's most healthy in a free nation for all of us to be torn....to be liberal on some issues, conservative on others. To be all-liberal abandons individual freedom for socialism: to be all-conservative abandons it to dictatorship.

But the way people are getting more and more uptight these days—less and less forgiving about each other's shortcomings—I think the time is coming soon when we're going to have to choose which path each of us is going to take—to the right or to the left.

And reluctant as I might be, I suspect for me the choice would HAVE to be to the left, away from fascism and dictatorship.

Personally, I hope we manage to acquire enough of the proper political candidates to stay in the middle of the road, which is ideal for a free nation. But there ARE these powerful forces....

### CONTEST .....

(Continued from Page 1)

score at 7-21. Her two misses on the 20-game slate were Springlake-Hart and Hereford-Lubbock.

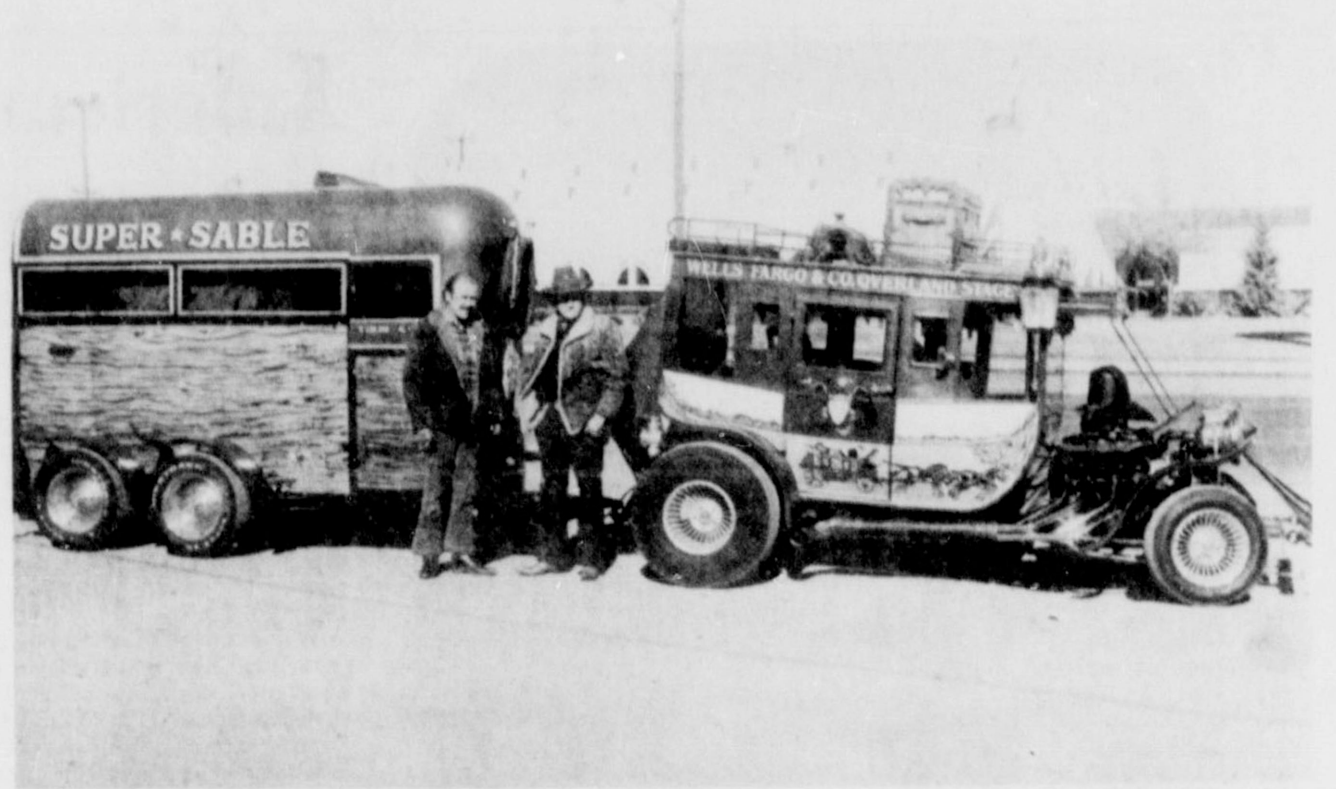

Other contestants correctly picking 18 games were C.H. Veazey, Ray D. Fleming, Kay Dyess, Randy Mabry, Donita Harkey, Mike Field, Larry White, Mike Smith, Wayne Mills and Jackie Morgan.

Otherwise, 31 contestants picked 17 games right, another 31 had 16 correct; 27 had the score of 15; 38 picked 14; ten had 13; 14 picked 12; five contestants had eleven correct; two had the score of ten, and four were below ten.

Entry total for the second straight week was 175 contestants, running the grand total to 1833 entries through nine weeks.

Contestants are reminded that \$20.00 in cash prizes is awarded each week, so there is no reason to drop out of the contest due to being low in the standings. "Pick some upsets, and maybe you'll win the \$10.00 first place," contest officials say.

In fact, contestants can win an additional \$5.00 by correctly picking a game to end in a tie. Only two games per week can be so designated. Steve Taylor set some sort of record by picking a tie game recently, the Littlefield-Floydada game.

**FAMED DRIVER VISITS....**"Tex" Collins, famed funny car driver, made a "pit stop" in Friona Friday morning, while enroute to Oklahoma

City to compete in an Appaloosa horse event. Collins owns the world's fastest funny car, driven 243 miles per hour in 1320 feet drag racing.

Collins is to begin work on a movie of his life this month, which will be entitled "The Life and Legend of Tex Collins, the Texas Country Boy."

# BI-WIZE DRUG

## Farmers Seek Ways To Conserve Fuel

Change is inevitable in the farmer's search for ways to conserve fuel and maintain yields in the wake of petroleum shortages and higher prices, the national leader of the Soil Conservation Service, says.

"Some farming systems will increase rapidly and others will be virtually abandoned," R.M. Davis, Soil Conservation Service administrator, said in the October issue of "Soil Conservation" magazine. Minimum tillage, including no-till, is emerging as the most promising fuel saver for farmers. "This practice," said Davis, "has especially high potential for feed grains, cereals, soybeans and cotton—the crops most in demand on the world market."

In Texas, a switch from conventional tillage to minimum tillage saves an average of about 5 gallons of tractor fuel per acre per year. Since some 456,000 acres were farmed with minimum tillage last year, this amounted to a saving of some 2.3 million gallons of tractor fuel.

USDA predicts that by the year 2000, minimum tillage could account for annual

fuel savings of 850 million gallons in machinery operation.

Another energy saver is better management of irrigation water. According to Davis, SCS estimates that by increasing the efficiency of both delivery systems and on-farm irrigation, farmers could save more than 230 million gallons of fuel each year.

"Although we can save a substantial amount of petroleum using the knowledge we have now," Davis said, "USDA and private groups are researching ways to save even more. And USDA is researching other energy sources, such as solar energy for drying crops and livestock wastes."

Davis appealed to soil and water conservation district officials to stay abreast of continuing research on new energy-saving practices and of all the possible benefits and drawbacks involved.

"By keeping informed of current developments in agriculture, SCS and district people can help farmers use fuel more efficiently without cutting agricultural production," Davis concluded.

## State Conservationist Is George C. Marks

George C. Marks will succeed Edward E. Thomas as state conservationist for the USDA Soil Conservation Service in Temple, Texas November 2.

Marks, a native of Heidenheimer, Texas, is currently state conservationist for Arizona. He began his career with SCS at Rusk in 1950 as a soil scientist and later worked as a soil conservationist and district conservationist at Sulphur Springs, Winnsboro, Jefferson, New Boston and Corsicana.

GEORGE C. MARKS

From 1964 to 1968, Marks was area conservationist at Temple. He then moved to Arkansas as an assistant state conservationist. In 1972, he was appointed state conservationist for Arizona. He received awards for outstanding work in 1967 and 1975.

A 1944 graduate of Temple High School, Marks has a bachelor's degree from

In some parts of the world, dusk is known as owl light!

## CORNER CATCHER

The only center pivot in the world that hits the corners.

In a typical quarter section where a regular center pivot is irrigating 132 acres, you can now do about 150 acres. But the new Valley Corner System isn't limited to squares. Irrigate both ends of a rectangle. Irrigate odd shaped pieces of land too. It's the answer to getting valuable productive land that's been wasted, back under center pivot irrigation.

For flood irrigators, it's also the answer to automatic water and labor saving center pivot, without wasting valuable acres. No monitoring, no labor problems, no night work. But you have all the advantages of precise irrigation and fertilizer application through the system, that produces higher yields than ever before. It's a simple concept, precise in operation and engineered with quality of all Valley-built Center Pivots.

## List Documents Needed To File

Many people are not aware of when they should file for social security benefits and what they should bring with them, according to Jose A. Martinez, social security field representative.

"Persons who wish to file for retirement benefits should contact the social security office three months before they want their first check to start. They should bring with them the following papers: social security card; a record of last year's earnings, and a record of their age or date of birth," Martinez said.

"A record of last year's earnings is needed in many cases due to the time it takes to get earnings credited to a person's record. A self-

employed person should bring a copy of last year's income tax return; a wage earner should bring in the last year's W-2 forms. In addition, if the person filing has any children under 18,

or between 18 and 22 attending school and unmarried, or disabled children, they should furnish the children's birth certificates. His wife's social security card may be needed also.

"Other records or proofs may be needed for survivor or disability claims. A good idea is to call the social security office before

coming in to file a claim. Ask what will be needed. Also, you may be able to file the claim for benefits over the phone," Martinez said.

## Triumphs Of Science

### NUCLEAR POWER PLANTS SMOKELESS

The increasing use of nuclear power plants to generate electricity in the United States is due in a large part to their environmental benefits.

Nuclear power and fossil plants (those that use coal, oil or natural gas as fuels) are similar in many basic respects - heat from their fuel boils water, and the steam drives a turbine that generates electricity.

The basic difference is that the heat in a fossil plant comes from burning oil, gas or coal. In a nuclear plant it comes from fission - the splitting of uranium atoms. Scientists point out that because there is no combustion, nuclear plants release no carbon dioxide, sulfur compounds or particulates into the environment around the plant.

Another environmental benefit is that less land is used for nuclear than a comparable coal-fired plant,

with the land disruption for nuclear fuel cycle being considerably less than for coal mining.

Last year, nuclear power plants represented only 8

per cent of the total U.S. generating capacity; by 1980 they will account for 20 per cent. The environmental benefits are just one of the reasons that nuclear power is becoming a major source of safe, dependable electric power throughout the United States and the industrialized world.

## Services Held For Father Of Mrs. Alexander

Funeral services were held in Robstown recently for R.L. Cooper, Sr., who was the father of Mrs. Robert Alexander of Friona.

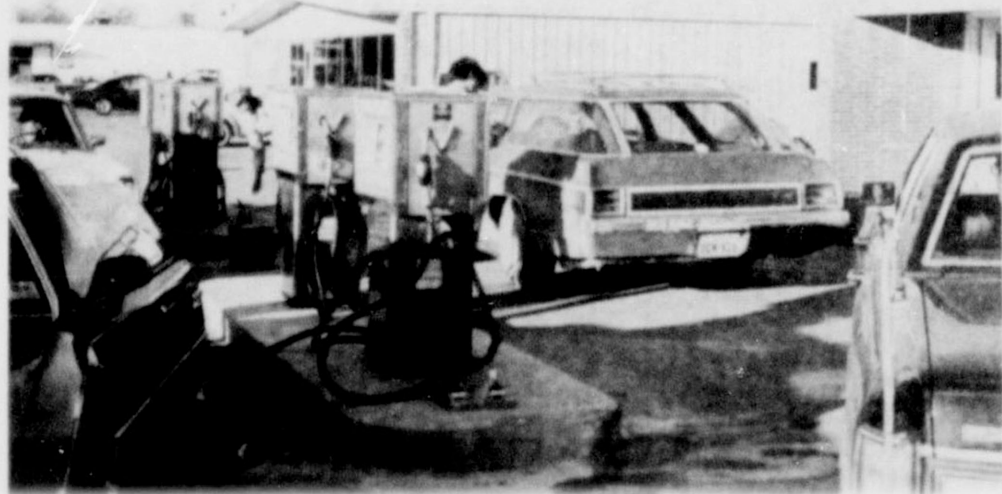

Cooper passed away on October 17. Services were conducted October 19 at the First United Methodist Church of Robstown.

Survivors include his wife, Bernice, six children, 20 grandchildren and four great-grandchildren.

### Miss Veazey Wins District "Miss FTA"

Pam Veazey of Friona was chosen "Miss FTA" of District 16, Future Teachers of America Tuesday night at Canyon. Miss Veazey will represent this district at the state FTA convention in Houston in February. By winning the contest Tuesday, Miss Veazey won a \$100 college scholarship. She is the daughter of Mr. and Mrs. C.H. Veazey. Bryan Johnston, son of Mr. and Mrs. Jim Johnston, was first runnerup in the "Mr. FTA" contest, and also is eligible to attend the state FTA convention. Other students representing the Ethel Benger Chapter of Future Teachers of America and acting as voting delegates were Jerri Benge, Tamela Hassenpflug, Vickie Florez, and Johnna Thorn. Sponsors attending were Mrs. Frank Truitt and Mrs. Leonard Coffey.

### 375 Eat Turkey Dinner

Approximately 375 people attended the 15th Annual Turkey Dinner Sunday in Parish Hall of St. Ann's Catholic Church in Bovina. The dinner is sponsored by the St. Ann's Altar Society.

Winners of the door prizes were Lupe DeLeon, potted plant; Nancy Schwerter, ceramic owl plaque; and Bedford Caldwell, two-pounds of cheese. Teresa Baca was winner of the double-knit hand-made quilt raffled by the society.

A member of the organization in announcing the success of the annual event, expressed appreciation to all those who attended the dinner Sunday.

# No wonder we're broke!

When we're giving away money we don't have, and getting hatred and antagonism in return when we're borrowing money at high interest in order to give more money away...when we have to raise our debt limit to 530 billion dollars in order to continue pouring our billions all over the world—then isn't it time you and I told Congress what they have got to do—STOP SPENDING, AND SAVE.

Here's the sorry, tragic record—our "loans" and give-aways (which we couldn't afford) 1946 to 1974.

# BESWITCHED TO ELECTRIC HEAT

Whichever electric heating system you choose for your home, we know you'll be amazed at how practical it is. Electric heating is clean, quiet and environmentally sound because it's 100% efficient at the point of use. The best feature of electric heating is you'll enjoy it for years to come because electric heating will be as modern tomorrow as it is today. And now, it's possible to meet your heating and cooling needs with one unit, one thermostat setting, no matter what season of the year it is. Sound like magic? No, it's the heat pump. We'll be glad to tell you all about it. Call us this week.

IT'S NOT MAGIC...IT JUST ACTS THAT WAY

#### ENERGY EFFICIENCY ALLOWANCE

We at Southwestern are interested in your getting the most for your energy dollar. That's why we're offering an Energy Efficiency insulation allowance to our customers in existing homes who install electric comfort heating. Ask us about it.
