## Star Lites By Bill Ellis

SUNDAY IS Father's Day, and we liked this tribute to Dad, and thought we'd pass it along to our readers:

**"WHAT IS A DAD?"**  
A DAD is a man who is specially honored at certain times of the year with titles such as, Head of the Family, King of the Roost and Top Man of the Organization.

To a dad, life is a give-and-take proposition.

He gives his time, energy, love and advice, and usually has to take a lot in return—complaints, noise, teasing, criticism, problems, and often what seems to be a sad lack of appreciation.

BESIDES THE requirement of being a man, a dad is expected to have the endurance of a camel, the shrewdness of a fox, the patience of an elephant, the industriousness of a beaver, and the cheeriness of a robin.

Name anything—a dad is supposed to fix it, mow it, paint it, train it, know all the facts about it, exterminate it, call for it or drop it off, spank it, find it, or pay for it.

DADS ARE NOT perfect. They don't mind mentioning your faults... they keep bringing up the subject of work when you feel the least energetic.

Somehow, though, whatever you do in life and whatever success you achieve, one of the biggest, warmest, and most gratifying rewards of all is to know Dad is proud of you!

YOU DON'T ALWAYS tell a dad how much you love him, or how much you hope the most wonderful things in the world will happen to him...because there are no words that really express feelings so deep and sincere.

Still, you can't help but feel he understands what's in your heart. Dads do!

+++  
ONE OF THE nation's leading publications said this week that in recent commencement exercises for high school graduates, untold thousands of graduates walked off with diplomas that were virtually "counterfeit."

The article pointed out that many of the graduates were victims of "social promotions" that advanced them grade by grade until they were out of school, regardless of whether or not they learned anything.

Many areas are beginning to demand some sort of minimum competency requirements for a high school diploma. Employers complain that a diploma no longer guarantees even minimum competence in basic skills.

A number of states and school districts are developing tests that would score a student's basic competence.

We have for some time decried the present system, that allows students to graduate from high school who cannot spell well enough to survive the fourth-grade spellings we used to have at Oklahoma Lane.

The article we saw this week was accompanied by a cartoon, showing the superintendent holding up a record and making an announcement, saying "And this year, for the graduates who can't read, a recorded diploma."

If it wasn't so darned serious, that could be funny.

+++  
THE SEX SCANDALS which are coming out of Washington are unfortunate in that they involve people who were elected and trusted to represent the taxpayers' interest in our nation's capital.

However, we would prefer to believe Congressman Jack High-tower of Vernon, who said this week that the incidents which have made the headlines "are not representative" of Congress.

We would suspect that Congress, like just about every other group, contains its share of people who fail to live up to the group's ideals. It would be unfair to label all members of congress and-or their office help as misfits, merely on the basis of the conduct of a few.

+++  
ONE OF THE shortest measurable intervals of time is between the day a man sets a little extra money aside for a sudden emergency and the arrival of a sudden emergency.

NEW FATHER....Father's Day has special meaning this year for David Goddard of 1306 Jackson, since he became a father for the first time recently. Young Jon Peddy Goddard and his dad proudly posed for the Star's Father's Day feature. By the way, Happy Father's Day, dads!

## Officers Are Named By Cooperative

New officers were elected Monday night at the annual meeting of Friona Wheat Growers, Inc., held at the Friona Community Center.

Mike Riethmayer was elected to the board of directors, to replace Larry Fairchild, who is going off the board. Holdover directors are A.W. Anthony, Jr., Leroy Johnson, Ernest Osborn and David Grimley.

Johnson was elected president of the board, Anthony is vice president and Osborn is secretary-treasurer. New members elected to the cooperative's junior board were Danny Murphree, Bob Welch and Gary Snead.

Don Williams, auditor, presented his report. A business session was held, and door prizes were awarded.

TRADEMARK....The windmill, longtime trademark of the West Texas area, is a favorite of photographers and artists, and this one was captured at sunset by Star photographer Rick Luther. The old mill's silhouette makes a nice contrast against the bright western sky.

## Weather Heats Up; Then Cools Down

According to the calendar, summer doesn't officially begin until Monday. Friona residents would have sworn they had had summer most of the past week, with a continuous diet of high temperatures in the 90s.

But after a season's high temperature reading on Thursday, the mercury dipped back Friday morning after a cool front invaded the area in the early morning hours that day.

The mercury climbed to a season high of 96 degrees here Thursday

afternoon. The day was made even more uncomfortable by a steady 10-15 mile per hour wind which did not help young crops in the area.

But Thursday's wind didn't hold a candle to that of Monday, when the mercury climbed to 95. The wind gusted 30 to 40 miles per hour throughout the day, and coupled with the high temperature, made outdoor activity anything but enjoyable.

No rainfall was recorded in Friona for the past week, after the month of

June had been off to a good start from a moisture standpoint, with 1.69 inches measured the first ten days of the month.

The hot dry weather was expected to help the area's wheat crop mature. The wheat harvest is expected to be in full swing within a week.

TEMPERATURES		
Date	Hi	Low
Saturday, June 12	92-55	
Sunday, June 13	89-55	
Monday, June 14	95-63	
Tuesday, June 15	91-55	
Wednesday, June 16	78-53	
Thursday, June 17	91-58	
Friday, June 18	96-58	

## Cross-Country Hikers Pause For Breather

Bill and Juanita Davis, who are walking cross-country in celebration of the American Bicentennial, stopped in Friona Saturday, before continuing east on U.S. 60.

Davis said their 5,000-mile trek between San Diego, California and Philadelphia, is "to prove that the pioneering spirit still lives, and we are trying to make the trip as authentic as possible. We are walking every step of the way, refusing all interior lodging and rides."

Their only money comes from donations by interested persons they meet along the way. "We can't solicit funds," Davis said. "We are for the little people and can't be bought as advertising or for political gain."

The hike hasn't been the easiest for the couple and their dog, Reno, although they have managed to pick up their pace from eight miles per day to 24 miles. They have been delayed many times by illness, vandals and weather.

In Carson City, Nevada, the temperature dropped to 13 degrees below zero, causing Mrs. Davis to come down with pneumonia and halting their journey for seven weeks.

The Davises originally hoped to make it to Philadelphia by July 4, but now they begin to arrive on Labor Day. They will probably be in Wichita, Kansas by Independence Day.

Mr. and Mrs. Davis are dressed in pioneer clothing and are pulling a replica of a Conestoga wagon. The wagon holds from 145 to 165 pounds of supplies. They explain they are authorized Bicentennial representatives of the government, which is going to build a monument in Boulder City, Nevada at a Bicentennial Park. The monument will be dedicated to the people who helped the Davises along the way.

The inscription will read, "To and for the people who have made a contribution to the Bicentennial Walkers. Their names will go on this monument to show the world that our country's freedom, unity

and sharing still stands strong among the people of the United States of America. We are still the strongest and greatest nation."

They have a frontrunner, Frosty Turner, who comes into each town ahead of them to make arrangements for aid through such organizations as chambers of commerce.

"We have wanted to quit many times," Davis said, "and we would have if it weren't for Frosty's encouragement. The couple had only 90 cents when they reached Roswell, New Mexico last week. But the law enforcement agencies there helped them get some additional money."

The Davises are high in praise of all law enforcement agencies because of the help they have given them along the way. In one small community, an officer jokingly gave them a ticket for speeding through the city limits.

## Star Tabbed As Winner In Contests

The Friona Star was notified this week that it is one of the prize winners in the Texas Press Association's 1976 Newspaper Contest.

Nature of the awards will be announced at the 97th Annual Convention of TPA in San Antonio July 24-26.

The state press association will award 42 first place plaques, 42 second place certificates and an equal number of third place awards in seven divisions according to newspaper circulation.

There are 23 newspapers entered in the Star's circulation bracket.

Publisher Bill Ellis and his wife Carol plans to attend the TPA convention. Ellis has also been notified that the other newspaper he publishes, The Bovina Blade, is an award winner in its division.

## 2nd Swimming Class Slated

Residents of the Friona area who missed the first round of swimming lessons will have another opportunity to register for classes next Saturday, June 26.

A new schedule of classes will begin at Friona's Dive-In Swimming Pool beginning June 28 and continuing through June 16.

Those interested in the classes are asked to register at the pool between 9 a.m. and noon on Saturday, June 26.

A new section, for ladies, will be open during the second session of classes. Instructor is Phillip Duggins, assisted by Pam Veazey.

HIKERS....Bill and Juanita Davis and their dog Reno were captured by the Star camera as they paused awhile on their transcontinental

## July 4 Events Taking Shape

Friona's Bicentennial July 4th observation is beginning to take shape, with various organizations becoming involved in making the 1976 version one of the best the city has produced.

Friona Noon Lions are making plans for their annual catfish fry, which will be held Sunday, July 4 at the Community Center. The Lions fed an estimated 800 fish fans at last year's event, and the club is making plans to take care of possibly twice that number this year.

"We are planning to double our cooking capacity, and have ordered twice as much fish this year. Our additional capacity should also make it possible for us to serve the crowd more quickly," said George Rushing, a representative of the club, this week.

The Chamber of Commerce-sponsored fireworks display bids to be the biggest yet staged on July 4th. The display, which has been held for a number of years, has grown into a spectacular display, comparable to those offered by much larger cities than Friona.

The fireworks will be held on July 4th. Even though the holiday falls on Sunday, the community observation will hold to the actual date, because of the historical significance this year.

Benger Air Park will sponsor an air show at the Community Center following the fish fry, to entertain those who come out for the occasion.

Also, the kids contests will once again be offered for Friona youngsters. In the works are sack races, baseball throw, bicycle races, turtle races, water polo and foot races.

Helping to conduct the kids contests will be the Fellowship of Christian Athletes, the Friona Kiwanis Club, the Friona Evening Lions, and the Friona Volunteer Firemen.

The Bicentennial Choir will present the patriotic musical "I Love America," written by John Peterson, two nights, Saturday and Sunday, beginning at 8 p.m. at the Friona High School Auditorium.

Also to be scheduled is the presentation of the winning essay on a patriotic theme, sponsored by the Progressive Study Club. The American Legion and Auxiliary are attempting to work out a "flag burning" ceremony for all outdated or torn flags.

Arcina Gambel, secretary of the Friona Chamber of Commerce, said that the "fliers" which will be distributed in the area to advertise the celebration, went to the printer on Wednesday.

Bicentennial walking project. The couple began in San Diego, Calif., and Philadelphia, Pa. is their goal. They spent the better part of the day

in Friona last Saturday, as Bill had a large blister on one foot that had been giving him trouble. He didn't have to explain the blister.

# Friona Flashbacks ...from the files of The Friona Star

**45 YEARS AGO—JUNE 26, 1931**  
According to grain dealers and implement men familiar with the situation, indications are that Parmer County rail points will handle not less than 2,000,000 bushels of wheat this year, with Friona getting 1,000,000 bushels of the total. Aided by almost ideal weather conditions and the fact that the county has a larger wheat acreage this year, the prediction should come true.

**40 YEARS AGO—JUNE 26, 1936**  
The Friona Cardinals were again victorious in the game with the Clovis team last Sunday at Clovis, by a score of 7 to 5.  
Charley Bainum, who for several years past has been identified with the C.H. Fallwell Garage on Main Street, has severed his connections with that business and has opened a garage on his own account in the Hicks Building south of the railroad.

**35 YEARS AGO—JUNE 27, 1941**  
The twenty charter members of the Friona Lions Club celebrated their Charter Night last Tuesday night in the Friona Woman's Club House, with a large attendance of Lions from clubs around the territory.

The Friona territory is still being afflicted with a little too much rain all at one time, although there were a few days last week on which it did not rain during either day or night.

**30 YEARS AGO—JUNE 21, 1946**  
In the election held here last Tuesday, to determine whether or not the people of Friona are in favor of bonding the city in a sufficient amount to give the city an ample and adequate sewer system, the bond issue carried by a good margin. Out of 121 votes cast, 113 were in favor, only four against, and four ballots were mutilated.

Floyd Brookfield, who recently received his discharge from the Navy, has moved to Dimmitt with his wife, where he is employed with the Ford agency.

**25 YEARS AGO—JUNE 21, 1951**  
That's right, it was an earth tremor! Residents of the Friona area experienced a definite earthquake Wednesday at 12:36 o'clock noon, when the vibrations were sufficient during their five-second duration to attract the attention of most everyone. Evidently, persons sitting at the time were more acutely aware of the disturbance, as some reported violent rocking of their chairs. A mild rumble

preceded the quaking.  
**20 YEARS AGO—JUNE 21, 1956**  
Friona Wheat Growers has received a check in the amount of \$290,944.55 from Commodity Credit Corporation, representing payment on storage and handling 90 million pounds of milo in the Cooperative's elevator last year. It was the biggest check in the firm's history.

**15 YEARS AGO—JUNE 22, 1961**  
"It was just what we had ordered," was the way one farmer described last week's rain, which was the first general moisture the area had received in about three months. Coming on the eve of what is expected to be a great wheat harvest, the slow, steady rain measured 3.5 inches and lasted throughout the night last Wednesday.

**10 YEARS AGO—JUNE 23, 1966**  
The State Highway Department has lifted the "Farm to Market" status from Highway 214, thereby making it eligible for state planning and assistance on improvements for the road.

**5 YEARS AGO—JUNE 24, 1971**  
Six Friona youngsters left this week for Haiti and Jamaica, where they will be part of a 10-day mission work tour. Cindy Barnett, Terri Bingham, Carl Evans, Carolyn Murphree, Ginger Murphree and Esther Smith left Friona early Monday morning and boarded a plane in Amarillo bound for Miami, Florida. All of the local youngsters will be students at Friona High School this fall, with the exception of Ginger Murphree and Esther Smith, who received their degrees this year.

## Carlsbad Begins Summer Schedule

Carlsbad Caverns National Park Superintendent Don Dayton has announced that the park's full summer schedule began June 6, and will continue in effect through Labor Day, September 6.

Under the expanded schedule, the park visitor center will be open from 7 a.m. to 9 p.m. daily. Complete cavern trips, which enter through the cavern's natural entrance and are three miles in length, will be available continuously from 7 a.m. to 4:30 p.m., and Big Room trips, which enter by elevator and are 1 1/2 miles in length, will be offered continuously from 7 a.m. to 6 p.m. daily.

Bat Flight Programs, which are already under way, will continue

throughout the summer, with talks scheduled at the cavern entrance each evening at sunset.

Other activities available at the park during the summer include lantern tours through primitive New Cave, guided nature walks to Oak Springs, self-guided nature trails, museum exhibits, an observation tower, picnicking at Rattlesnake Springs in the Slaughter Canyon area, and backcountry hiking.

All activities are offered without limitations on a first come, first served basis except for the lantern tours of New Cave which require reservations, and are limited to groups of 25 persons each. Reservations for the New Cave lantern tours, which are offered four times daily, may be made by calling the park at (505) 785-2233.

Concession facilities available at the park include a restaurant, gift shop, nursery and kennel service, and an underground dining area.

The park entrance fee is \$3.00 per carload for a single visit by private non-commercial vehicle or \$1.00 per person for commercial bus passengers. Annual Golden Eagle and Golden Age Passports are also available and honored at the park.

Handicapped persons will find the park Visitor Center facilities and a scenic portion of the Cavern's Big Room accessible to wheel chairs.

## Riding Club

### Makes Plans

At the last meeting of the Friona Riding Club, on Saturday, June 5, several important decisions were made.

The house which was donated to the club by Floyd and Eva Lou Rector will be moved to the riding club arena as soon as arrangements can be made.

The club members present at the meeting voted to go to the parade in Muleshoe on July 5. Those going should be ready to leave the arena at 2 p.m.

It was also decided to extend an invitation to the members of the community with regard to the playnights held every Friday night. It is merely a practice time with no entry fees or awards. Events run include barrels, poles, rings and flag race. The playnights usually start at 8 p.m. The Riding Club Arena is located just south of Friona on the west side of the Clovis Highway.

## REMEMBERING... Going On A Trip

By BILL D. BROOKS

GOING ON A TRIP

Our family never took a vacation, I mean like to Yellowstone Park or Grand Canyon or places like that, but my grandmother lived in another state and going to see her was something like a vacation trip. The first time we visited her after I was old enough to know what was going on was the trip I remember most. Our luggage was loaded on top of the car into the luggage rack and covered with a tarp (we later found out it was a leaky tarp). We got to choose where we would sit in the back seat of the car. My sister chose the left side by the window so she could count license plates from other states; my brother chose the right side by the

window so he could see the scenery and I got what was left — the middle, where I "couldn't do nothin'." I stood on the floorboard and looked over the front seat for a while but that annoyed Dad. So I kneeled in the seat and looked out the back window to see where we were coming from.

Mother would call our attention to some Burma Shave signs, pretty scenery or a billboard but by the time I could turn around we would be past it. I would fret and say I didn't get to see and my sister would say it was just as well 'cause I was too young to read anyway and besides, I wouldn't understand it if I could.

I finally got sleepy and wanted to lie down but my sister and brother didn't want me lying on them so Mother consented to letting me crawl over into the front seat with her and lay my head in her lap but when she did the other kids wanted to get up there too and she changed her mind and none of us got to.

I soon learned a new word — DETOUR. That meant the road would not be smooth anymore and it would also be

very dusty — too dusty to roll the windows down and too hot to keep them closed. It was also very easy to get lost on a detour.

My sister said she would trade places with me, that she didn't want by the window anymore since all that dust was blowing in. My chin came just to the bottom of the window and that's just where it was when the car hit the biggest chuck hole in the road. Until then I had had the habit of sticking my tongue out slightly when I was concentrating deeply. My tongue bled for a long time.

We looked for a place to stop because my brother needed to use the bathroom but there wasn't a filling station or anything. We finally settled for a spot

beside the road. It was green and pretty with tall grass and lots of vines. It was such a nice place Dad decided we should stay awhile and "run off some steam" so we would sleep for the rest of the trip.

We learned that not everything that is pretty is nice to be around, that some vines make you break out and itch and tall green grass is a haven for chiggers and ticks (we never had them back home). "When are we going to get to Grandmother's?" "I'm thirsty." "I think I left one of my shoes at the last place we stopped." "How much farther?" "I'm hungry."

Dad was saying something like "This is the last trip we are ever going on" just as the radiator hose busted.

## WELCOME TO FRIONA

The Merv Noah family has recently moved to Friona from Phoenix, Arizona. He is the administrator of Friona's nursing home, Prairie Acres. The Noah children are Sheri, 16, and Susi, 15. The entire family enjoys every thing, even in a stormy sea. They are members of Friona's First Baptist Church, and are at home at 1111 Elm.

## PEOPLE COME FIRST

Ever try playing in the sand and building things while at the same time trying to keep the surf from washing it all away? When you're young, time and building sand castles are just secondary, you're having fun. As we grow older and become more responsible both to ourselves and our families we must build our future on a more solid base. That's why we know that it is important to start your banking program early, planning for the future of all concerned.

When we tell you that with us PEOPLE COME FIRST we want to help you in all of your financial needs and we want you to feel free to come to us for financial help and advice.

**FROM LUBBOCK**

**Sorghum Shipped To Soviet Union**

The Soviet Union is moving a step closer to becoming an important export market for U.S. grain sorghum this month as 6,000 pounds of feed grain is shipped to Russia for their first demonstration feeding project.

The grain was bagged in Lubbock under direction of Grain Sorghum Producers Association and was slated to arrive in New Orleans Saturday. The grain will be loaded aboard a Russian vessel for shipment to the All-Union Research and Technological Poultry Institute experimental farms near Moscow.

Cook Industries is assuming financial responsibility for the cost of the grain, the preparation and shipping. Funk Seeds International provided the cleaning and bagging. Both organizations are members of the U.S. Feed Grains Council which will supervise the research project. Detailed chemical analysis of the grain will be provided by Texas A&M University.

Arrangements for the feeding project were finalized in Moscow May 10 at a meeting of Soviet agricultural officials with Dr. Halvor Kolshus, USFGC European director, and Dr. J.H. Quisenberry, poultry expert retired from Texas

A&M. Original plans were prepared by a grain sorghum team which presented a series of seminars in Eastern Europe and Russia last fall.

The Soviet researchers anticipate comparing the feeding efficiency and nutritive value of U.S. No. 2 yellow sorghum to corn and to grain components conventionally used in that country.

Approval by the Soviets of the demonstration feeding project marks another major step in the development of the Soviet Union as a major export market for U.S. sorghum. The development of that market began two years ago when the first Soviet agricultural trade team came to the High Plains where, as guests of Grain Sorghum Producers Association and the Texas Grain Sorghum Producers Board, they studied sorghum production and utilization.

Six months later, the Soviet Union's top agricultural officials returned to the High Plains to continue their sorghum education. Within a few weeks, the Soviet agricultural officials requested that a team of sorghum experts come to Moscow to present seminars about the high energy grain. Deputy Agricultural Minister Boris Runov remarked at that time, "We do not know your sorghum, but we should."

The team was composed of GSPA-TGSPB Executive Director Elbert Harp, Research Director Jack King, Texas A&M cereal chemist Dr. Lloyd Rooney and Texas Tech University animal science professor John Baumgardner. During their visit to Moscow, Dr. Runov asked that tentative plans be prepared for a feeding project to demonstrate to Soviet leaders the nutritional value and cost advantages of U.S. No. 2 yellow sorghum.

Those final plans were adopted in May when Dr. Quisenberry and Dr. Kolshus met in Moscow.

Harp is expected to return to the Soviet Union in October to review progress of the poultry feeding project.

Mrs. Keathley

Buried In

Buffalo, Okla.

Mrs. Minnie Ola Keathley of Sweetwater, Oklahoma died Thursday, June 10.

Memorial services were conducted Sunday, June 13 at the First Baptist Church of Buffalo, Oklahoma. Burial was in the Buffalo Cemetery.

Survivors include one daughter, Mrs. Juanita LeGrand and two sons, Leo Keathley and Milton Keathley. One sister, Mrs. Margie Hundley of Sayre, Oklahoma and one brother, Clyde Fields Jr. of Friona, also survive.

**FREE-Free-FREE**

Yes, that is correct. Free to any person that might be interested in any of the following homes.

Free tours are now being given by either B.K. Buske or Carrol Gatlin through any of our current listings to any person that feels he or she might be interested in purchasing one or more of the following properties:

Fraldy Hole-Deluxe  
If you need a "fraldy hole" with a 1 BR brick home that has an attached carport, you will like this one for only \$19,750.00.

Seven Extra Closets  
If storage is your bag then you will love this immaculate 2415 square foot home that has seven closets in addition to huge bedroom closets. Come tour this 3 BR, 2 1/2 bath home with beautiful fenced yard and all the "goodies."

Home Needs Family  
This lovely 3 BR, 1 1/4 bath home has need of a desirable family to fill its over 1300 square feet area. This family must want electric built-in appliances, kitchen-aid dishwasher and a disposal before applying for the filling of this home. Come tour this home so it can look you over.

Free tours are given daily at almost anytime, night or day. Subject only to owners okay.

"Service" is our only business"

# Soil Survey Is Called Good "Building Block"

Would you build a house without some kind of plan? Of course not! A good plan is essential for any home building project. Among other things, it must specify using the available materials to their best advantage.

In the same way, land use must be planned. The available material, your soil, must be used to its best advantage.

A soil survey is the basic building block for sound land use planning. A scientific inventory of our basic land resource, it reveals the kinds of soils and their characteristics. We learn how soils are distributed, what they developed from, and how they behave. The work is done according to sound scientific and technical standards. This includes a nationwide system of soil classification, interpretation, and publication. By using a soil survey wisely, all land uses can be planned in a logical order.

The Soil Conservation Service is responsible for all soil survey activities of the Department of Agriculture. Soil surveys are made cooperatively with State Land Grant Colleges and other agencies. The surveys are designed to furnish soil maps and interpretations needed in programs dealing with soils and soil use.

There are published soil survey reports available for

17 counties in the Texas Panhandle. Seven others have been completed and are in the process of being printed. These will be published at a later date. Only 2 counties, Oldham and Roberts, remain to be completed. Soil survey activities are presently underway in these counties with completion expected in about 2 or 3 years.

The use of a soil survey is another step forward in protecting our environment

and to make the best use of our natural resources.

Although the primary use of soil surveys has been to help farmers and ranchers plan their operations, the national soil survey program is essentially a resource development program for the benefit of all people.

For further information regarding soil surveys and their uses contact your local Soil Conservation Service office.

## NEWS OF BICENTENNIAL AMERICA

Churches Chime In With Liberty Bell Scriptures

The Liberty Bell and the Bible are inextricably bound together in American history—past, present and future—according to Dr. James Z. Nettinga, Executive Secretary of the American Bible Society.

When the Liberty Bell rings in the third century of these United States, the words of the Bible will vibrate to the sound. Circling the crown of the beloved bell are words from the Old Testament: "Proclaim liberty throughout all the land unto all the inhabitants thereof." (Lev. 25:10)

At precisely 2 p.m. (EDT) Sunday, July 4, 1976, church bells all over the country will proclaim one of the most religiously significant, as well as historically important, events this the bell and its fittings. The

generation of Americans will ever witness, says Dr. Nettinga.

From the moment this bell was first rung in the name of liberty two hundred years ago, the American people were assured of their religious liberty—and the Scriptures took their unyielding place in our American heritage.

To commemorate this great dual event, and to provide the nation's churches of every denomination with a meaningful memento of this historical occasion, the American Bible Society has published a 5 by 5½ inch natural copper-colored photographic likeness of the Liberty Bell, die-cut in the exact shape of Scriptural words are themselves printed in easy-to-read white lettering.

Liberty Bell Scriptures published by the American Bible Society for distribution during America's Bicentennial.

# Leaders Developing In Little League Play

With Little League past the half-way mark, Friona State Bank and Hi-Pro Feeds seem to hold command over their respective leagues.

In major league action Thursday's game saw Friona State Bank continue their winning ways as they came from behind in the third inning to score seven runs and take the lead

which they never relinquished. C. Jackson went two for two to lead the Bank in hitting. Mayor had two hits for Reeve.

On Friday, June 11, the Friona Star fell to the Friona Feed Yard 19-5. The winning pitcher was Pena and the loser was Castillo.

Wright went three for three for the Star, bagging two doubles. Nichols went 3 for 4 and Tucker went 4 for 4 to aid Feed Yard as they amassed 8 runs in the third inning and six runs in the fifth.

On Monday, June 14, Reeve bounced back from their Thursday loss to Bank and pounced on Feed Yard 10-4. Reeve blasted in across five runs in the first inning and maintained their lead for the remainder of the game. Moyer was the winning pitcher and Tucker suffered the loss.

Tuesday saw Bank hurt the Stars, handing them their fifth loss of the season. Brady won the bout for the Bank and Richardson took the loss.

The Stars started out strong with four hits in the first two innings to pull ahead, but the Bank rallied in the third, scoring five runs to take the lead and move on to win 14-5.

The two Jacksons led the Bank with three hits each while Castillo and Norsworthy went three-for-three and two-for-two respectively.

In Senior League action last week, Bovina continued to win with a 14-5 victory over Benger. Bovina scored eight runs in the second inning to put the game away. Roming led Bovina with four hits while Roy Caballero got a hit for Benger. The winning pitcher was Cox and the loser was Caballero.

On June 12, Benger made up for their earlier loss by beating Pioneer 13-9. Pioneer outscored Benger 5-1 in the first inning, but Benger came back in the second and scored runs to tighten the game up. Roy Caballero won the match. Peak led the Pioneers with hits, getting three, as did Wright for the Bengers.

Benger played again Monday, June 14, losing to Cattelton 16-5. Cattelton went ahead 7-0 in the second inning and stayed on top for the rest of the game. Aragón, Robert Caballero, C. Caballero and Harrelson all hit for Benger. White led Cattelton with three hits while Hutson and Mercado each got two hits.

POW! A Little Leaguer connects with the baseball in Tuesday's Minor League tilt between BJ Bees and Ethridge-Spring. The BJ Bees won the upset 23-8.

CLOSE PLAY..... Doug Moyer, second baseman for Reeve Chevrolet-Olds, waits for the throw from his catcher as an unidentified runner for

Friona Feed Yard slides in. The Feeders scored an 11-10 win, in spite of a big final-inning rally by Reeve, in which Moyer socked a homer with the bases full.

## Hereford Sets Softball Meet

Wayne Jones of Hereford has announced the deadline date for a District Slow-pitch Softball Tournament to be held in July. There is a \$4 entry fee, \$1 of which goes to the Texas Amateur Athletic Foundation.

The deadline for the \$4 fee will be Wednesday, June 23. The two top winners of this tournament will travel to Lubbock to play in the regionals. For more information, contact Bob Wagner, Star Route, Hereford, or Rick Luther at the Friona Star.

## Hospital Report

## Bovina To Host Tennis Tourney

A tennis tournament, sponsored by the Bovina Jaycees, will be held here Thursday, Friday and Saturday, July 15-16-17, according to Don Lawrence, tournament director.

Divisions in the tournament will be as follows: singles-boys 14 and under; boys 18 and under; men 35 and under; men over 35; doubles-boys 18 and under; over 18; singles-girls 16 and under; girls 18 and under; women over 18; doubles-women's doubles, open event.

Entry fee, according to Lawrence, will be \$3.50 for 18 and under and \$5 for the senior divisions. Deadline for entering the tournament will be Monday, July 12. Entry fees may be

mailed to Don Lawrence, Tournament Director, Box 553, Bovina, or those entering the tournament may contact Lawrence in person at the First Baptist Church.

Trophies will be awarded first place winners in each event with second place winners receiving plaques.

First round matches will begin at 9 a.m. with a schedule to be released the week of the tournament.

"The Jaycees are hoping for 75 entries in the tournament," said Lawrence, "and, we also hope to make this an annual event."

Anyone wishing more information concerning the tennis tournament may call 238-1632 or 238-1390.

## Homes Needed In Parmer County

Foster homes are needed in Parmer and Castro counties to provide care for aged, blind, or other disabled adults who can no longer continue living in their homes, but are not medically eligible for nursing home care, according to David Brown of Amarillo, adult social services supervisor, Texas State Department of Public Welfare. The foster family home program is one of the adult programs provided by the department as an alternative to institutional care.

"We are seeking warm hearted people who have room in their homes for one to three aged or disabled people who are not related to them," Brown said. "The foster family must be willing to help provide opportunities for social, recreational and religious activities as appropriate. They would not need to provide health related services."

Upon notification, the social worker will interview prospective foster care

providers and check to see that the home meets health and safety standards. They will also give ongoing consultation to approved providers on any problems that may arise, he said.

"We would help the persons seeking foster care and those wishing to give it to get acquainted before further arrangements are made," Brown stated. "This is, really, a family-sharing program where all concerned need to be congenial, and we expect it to enrich the lives of all concerned."

Cost of the foster care is shared by each receiver and the welfare department, who together pay a total of \$220 per person per month to the provider, according to agency regulations.

Brown asked persons interested in learning more about providing this service to contact the local adult social services worker. Residents of Parmer and Castro counties may write Audrey Key, P.O. Box 3700, Amarillo, Texas 79106, or call her at (806) 353-7451.

LL BOARD....Three members of the Friona Little League board of directors are shown during a recent

strategy huddle. From the left are Jerry Hinkle, Jon Mack Roden and Carl White, board president.

## Films Available From The Library

A new service was announced this week by the Friona Public Library—a film checkout service.

The films, which are 16mm sound production, should be ideal for club programs, according to librarian Beverly Sweny.

The local library will receive five or six new films each month from the Texas Panhandle Film Circuit. The films range from children's to adult interest.

Titles which have been received the first month include "Anatole and the Piano," suggested for primary ages; "Aunt Arie," senior high through adult; "Abbott and Costello Meet Frankenstein," for all ages; "Hunters in the Reef," an underwater life film, junior high through adult; and "The West of Charles Russell," junior high through adult.

Mrs. Sweny says the films may be checked out by any group or individual, with the only stipulation being that they are not to be used at

any meeting or event where an admission is charged, or which is designated for fund-raising or commercial purposes.

THE RACE IS TO THE SWIFTEST—BUT BE SURE YA KNOW WHERE THE FINISH LINE IS.

## Dept. Receives Check

The Friona Volunteer Fire Department received a check for \$75.00 recently from Texas Farm Bureau Insurance Companies as an expression of thanks for the Department's work on the property of Bermea Brothers, 515 Main Street, Friona.

The money will be used for their purchase of equipment.

The Texas Farm Bureau Insurance Companies pay volunteer fire

departments this amount when the department works at a fire in rural areas, involving property insured by them.

The Insurance Company believes volunteer fire departments have contributed to reduce the amount of loss involved by fire and more important, to prevent fires. It is their hope this money will help the Friona Volunteer Fire Department in their program.

# JOHN DEERE WEEKEND

# FREEDOM TIME

**Electric Rider**

The John Deere Electric 96 is remarkably quiet and carefree. Just maintain battery water and lubrication to keep it running smoothly. Three 12-volt batteries cut about one acre of lawn and can be recharged from a standard electrical outlet. Cuts a 34-inch swath with "whisper quiet" operation.

**Cordless Shears and Trimmers**

Keep shrubs neat, grass trimmed the modern, easy way with John Deere Cordless Electric Trimmers and Shears. Three trimmer models and 3- and 4-inch shears have rechargeable, nickel-cadmium batteries and alloy-steel blades with non-stick coating. Battery charger included.

**Lawn Sweepers**

John Deere Lawn Sweepers clean up leaves and grass clippings fast. Tow one behind your lawn tractor or riding mower to save hours of raking. Choose from sweeping widths of 31 or 38 inches... capacities of 14 or 19 bushels. Heavy-duty hampers give non-stick cleanout and long wear.

**MOSQUITO SEASON** is almost here and that means the danger increases for sleeping sickness in horses. One of the most serious diseases carried by mosquitoes is equine encephalitis, or sleeping sickness.

There are three kinds of equine encephalitis—western (WEE), eastern (EEE) and Venezuelan (VEE). Eastern and western encephalitis are the most common.

In 1975, 674 cases of WEE and 55 cases of EEE were diagnosed by U.S. Department of Agriculture laboratories. Also, an additional 105 cases of WEE and 40 cases of EEE were diag-

nosed by state and public health labs. VEE was a problem in Texas in 1971, but since that time no cases have been diagnosed in the U.S.

VEE has complex natural history with many hosts and it is not known which of these hosts may exist and

People once believed that seeing ravens fight presaged a battle among men.

harbor the virus in Mexico or in the U.S. Since the virtual disappearance of the disease, vaccination against it has declined considerably.

Therefore, if the virus were to re-enter this country, it could spread rapidly since much of the horse population is not vaccinated against it.

CONSUMPTION of red meats in the U.S. is maintaining a relatively high level. If the level of slaughter keeps up at the present rate, consumption this year will go up even more.

In 1975, the average American consumed 181 pounds of red meat. This breaks down to 120 pounds of beef, 4 pounds of veal, 55 pounds of pork and 2 pounds of lamb and mutton.

Although U.S. per capita consumption of red meats was high last year, it was still much lower than per capita consumption of red meats in Australia, the world's leading consumer of red meats.

The average Australian consumed about 39 more pounds of meat last year than an individual in the U.S.

Livestock producers can safely assume that there is no practical limit to the per capita consumption of red meats in the U.S. Restrictions on livestock production should not be designed with the idea in mind we will consume all that we produce. The only real question is: At what price will we consume?

The cattleman's profit or loss will then depend on what price consumers are willing to pay for meat.

IN THIS AGE of mobility,

even gardens can be portable so that they can provide for a changing landscape scene.

Everett Janne, a horticulturist for the Texas Agricultural Extension Service, says that shrubs, trees, vines and flowers can be grown in portable containers and moved from the service or growing area when at their prime to supplement the permanent landscape planting.

There can be instant beauty with pots of geraniums, begonias or petunias. Plants can be in the spotlight when they look their best and can be banished when they decline in beauty.

He suggests using sturdy containers such as tubs, barrel halves, clay pots or wooden boxes. Wooden containers should be made of moisture resistant wood such as redwood or cedar. All containers should provide adequate drainage.

Potting soil that is both porous and moisture retentive should be used.

Plants in containers dry out much faster than those growing in the ground and will have to be watered more often. During hot dry weather they may need watering every day.

Janne advises using a complete soluble plant food about once every three weeks after the plants are well established and growing.

He also offers a few tips to make moving plants easier.

Plan moving a few days in advance. Plants will be much lighter and easier to move if the soil is dry. Use a dolly, wagon, piece of canvas or some other carrier to ease the moving task.

## Boeckman Honored At Workshop

Randy Boeckman, Friona High School vocational agriculture student, was named an outstanding student at Southwestern Public Service Company's 16th annual Farm Electrification Workshop held last week at West Texas State University.

For his accomplishment, Boeckman will receive an expense-paid trip to the National FFA convention in Kansas City later on this year.

Thirteen hours of instruction were offered during the workshop in each of three subjects, farm motors, farm wiring, and electric controls. Two students from the wiring and motor courses and one from the electric controls course were selected as outstanding and received trips to Kansas City.

Boeckman was the outstanding student in one of the farm wiring classes. The award was presented by Sam Thomas, Southwestern Public Service agricultural development manager.

BOECKMAN NAMED....Randy Boeckman of Friona, a vocational agriculture student, was honored as being named an outstanding student at Southwestern Public Service Company's 16th annual Farm

Electrification Workshop. He is the son of Mr. and Mrs. Joe Boeckman of Friona. Sam Thomas, Southwestern Public Service agricultural development manager, is shown presenting Boeckman the award.

## 12 Accidents During May

The Texas Highway Patrol investigated 12 accidents on rural highways in Parmer County during the month of May, 1976, according to Sergeant W.E. Wells, Highway Patrol supervisor of this area.

These crashes resulted in

no persons killed and four persons injured.

The rural traffic accident summary for this county during the first five months of 1976 shows a total of 48 accidents resulting in two persons killed and 35 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for May, 1976, shows a total of 517 accidents resulting in 14 persons killed and 268 persons injured, as compared to May, 1975, with 524

accidents resulting in 17 persons killed and 310 persons injured. This was

seven less accidents, three less killed, and 42 less injured in 1976 at the same period of time.

## Increase corn grain yields up to 10% with SPARK.™

Your Helena dealer has an exciting new way to help you increase corn yields up to 10% with SPARK GROWTH STIMULANT for corn, a combination of dinoseb plus surfactant, used as an over-all post-emergence spray on corn has the UNIVERSITY PROVEN POTENTIAL OF INCREASING GRAIN PRODUCTION BY 5 - 10%. Here is how SPARK helps promote bigger yields. Enhances corn growth. Silks emerge about 2 days sooner. Tassels emerge about 2 days sooner. This

tendency to get away from corn that does not fill all the way out to the end. Enhanced growth, longer pollination, fewer barren stalks, more complete ear-filling. They all add up to big potential production increases and profit.

AND PROVEN IN THE FIELD: Farmers who have tried SPARK say: "I'll never plant another acre without SPARK." Ralph Russell-Michigan: "I got 8 bushels per acre increase. I didn't have as many barren stalks. Ears were filled out better." Everett Curtner, farmer and bank president, Union City,

Indiana: "We returned \$19 per acre on a \$5 investment...at least a 7-bushel increase. SPARK could mean the difference between a new piece of machinery this year and next year. I'll spray ALL my corn in 1976." Otto Werner, Hanna, Indiana. TIMING...IT'S ESSENTIAL. The most important factor in SPARK application is timing. Look to apply SPARK when corn is in the 6-leaf stage, about 2-4 weeks before tassel emergence when corn is about knee-high. Get into the field, split some stalks, and find the unemerged tassel in length. The best time to apply is when the unemerged tassel elongates from 1/2 to about 7/8 in length. SPARK. PRODUCED WITH THE HELENA GUARANTEE OF QUALITY.

consistency and produced under the most careful quality control. When you buy SPARK, you buy the best. Ask your Helena dealer about SPARK, the corn growth stimulant that is leading the way to bigger yields and bigger profits for you.

For more information, contact Helena Chemical Company, South 385 Hereford, Texas, Phone 364-3733. Spark has been registered for use in Texas, Kansas, Nebraska and Oklahoma.

**'COWPOKE' CREATOR**

**Ace Reid To Ramrod Longhorn Trail Drive**

KERRVILLE—Ace Reid, creator of the "Cowpokes" cartoons which entertain millions of Americans, is taking a refresher course in cowboying this year.

He's signed on as a ramrod for a Bicentennial trail drive of Longhorns scheduled for a 500-mile Texas tour ending July 2 at the Ranching Heritage Center at the Museum of Texas Tech University.

The experience won't be a new one for Reid. He helped ramrod the Centennial Longhorn Trail Drive from San Antonio to Dodge City, Kan., in 1966.

"I'm 10 years older but not a lot wiser," Reid said when he agreed to make the 1976 drive from San Antonio to Lubbock, Texas.

In reality, trail driving—even with modern hazards—apparently agrees with the Reid family. Four generations have "given it a go." And Reid grew up on a 4,000-acre Texas ranch during the grim depression years.

"I was 21 years old before I ever laid eyes on a fat cow," says the creator of the hard-pressed Zeb and Jake, the forever broke cartoon cowboys for whom everything goes awry in very funny ways.

The 1976 Texas Tech Bicentennial Trail Drive June 27-July 2 will celebrate the opening of the Ranching Heritage Center. The formal opening of the center, July 2-5, is a national Bicentennial event.

Making the dedicatory remarks will be Mrs. Lyndon B. Johnson with her husband, the late President Johnson, owned a

working Hereford ranch.

Dale Robertson, who has depicted the American westerner in film and television, will be master of ceremonies for the July 2 dedication.

The 12-acre center is a collection of a score of authentically restored ranching structures depicting the history of America's ranching industry. Special tours have drawn more than 100,000 visitors to the unfinished site since the first building arrived in 1970.

Charles Schreiner III will be trail boss for the symbolic drive of 70 descendants of the incredible Longhorns, described by some as "wild as a tornado, stronger than a blue norther and as smart as an Apache."

Participating will be the cities of San Antonio—where trail drives were originating as early as 1779, Kerrville, San Angelo, Stamford—in time for the annual Texas Cowboy Reunion, and Midland. The cattle will be trailed along thoroughfares in those cities to introduce many to the legendary breed that made men of greenhorns for more than a century.

"The trail drive," Schreiner said, "should cause Americans to look over their shoulders. If people don't think about their heritage and let their roots run deep, they can't progress."

"Americans should be proud of their ancestors, proud of the people who built this country," he said.

Ace Reid agrees. "You don't hear much

about country folks in the evening news or read about them in the papers," he said, "but they're out there, millions of 'em, working hard, minding their own business and getting by as best they know how."

"They're the folks who keep this country going and have for the past 200 years—tending crops, feeding cattle, paying their taxes and raising their kids, and treating the land with the kind of affection people in the big cities have a hard time understanding."

The trail drive will be for Reid a renewal of his affection for those country people, the ranchers who helped build America.

He'll be in on it from the start, while the Longhorns are being trained for the trail at Schreiner's YO Ranch near Mountain Home, Texas, to the end of the Ranching Heritage Center at Texas Tech University.

Any who want to participate in the last of the Longhorn trail drives can obtain more information by writing Charles Schreiner III, YO Ranch, Mountain Home, Texas 78058.

TRAIL'S END....Ace Reid, right, is ready to go again after the Centennial Trail Drive. With him are, left, Charles Schreiner III of the YO Ranch, who will lead the symbolic 1976 Texas Tech University Bicentennial Trail Drive to herald the opening of Tech's Ranching Heritage Center, and

Raymond House, Dodge City marshall. The 1976 drive will be June 27-July 2 from San Antonio to Lubbock. The Ranching Heritage Center opening, a national Bicentennial event, will be July 2-5. Any who want to join the '76 drive should contact the YO Ranch, Mountain Home, Texas 78058, (512) 640-3222.

**Hearings Conducted On Estate Tax Policies**

In too many instances family farms and ranches are being forced out of business by current federal estate tax policies, says J.A. Whittenburg III, president of the Texas and Southwestern Cattle Raisers Association who will testify to this at a Senate committee hearing in Washington, D.C. on May 17. "Economically viable farm or ranch units will not be passed from one generation to another unless Congress changes outdated federal estate tax policies that hamper agricultural progress," Whittenburg reports in his statement to the Senate Finance Committee which is hearing the McGovern and Curtis bills that seek to update these outmoded tax laws.

Whittenburg explained the most pressing need is for legislation which would permit the federal estate tax valuation of farm and ranch land to be based on such land's earning capacity for agricultural purposes, rather than on urban development, speculative or non-agricultural value.

The Texas livestock industry spokesman also urged support of proposals to increase, for all estates, the federal estate tax

exemption from \$60,000 to \$200,000, and to provide a minimum marital deduction of \$100,000 for property passing to a surviving spouse.

Whittenburg noted that the current federal estate tax exemption has not been changed since 1942, while land values have increased more than 200 per cent in some instances. Based on the Consumer Price Index increase, the exemption should be increased to \$318,000, and based on land value inflation, in some instances, the exemption should go to \$600,000.

However, Whittenburg cautioned, "increasing the exemption will not alone solve the problems associated with passing economically efficient family farms and ranches on to succeeding generations. The greatest need is to permit farm and ranch land to be valued for estate tax purposes on the basis of agricultural earning capacity."

As it now stands, Internal Revenue agents use "fair market value" indeterminate estate taxes, and this value often is based on prices for other land in the area, even though such land was purchased for recrea-

tional, housing, industrial or other non-farm uses. These prices are usually inflated and bear no relationship to the income which the farm or ranch will produce, Whittenburg explained.

In most cases, he said, the heirs cannot pay the estate taxes out of operating income. Unless there are sufficient outside assets, which is seldom the case, the heirs have to mortgage or sell all or part of the farm or ranch property. Because most farms already are heavily mortgaged, it is frequently not possible to borrow enough money to pay the taxes.

These trends, Whittenburg said, "threaten continuation of family farm and ranch units and, over the long run, threaten supplies of food. Not only do some agricultural units become less efficient, but more land is removed from food production altogether in order to pay taxes."

The Texas and Southwestern Cattle Raisers Association, the American National Cattlemen's Association and many other farm organizations support legislation of the type offered by Senators George McGovern (S-2875) and Carl Curtis

**SCS Report**

Combines are being conditioned for wheat harvest. Some isolated areas in Parmer County have been harvested.

It is time to consider wheat stubble management. The stubble is an excellent soil insulator. It keeps the sun and wind from drying out the soil.

Recent findings at experiment stations have proved that standing wheat stubble makes excellent seedbed for crops that might follow. No plowing and the insulation effect provide all available moisture to the new crop.

Herb Evans, with the SCS in Friona, also points out that the stubble is an excellent place for pheasants to hide feed and make nests. It also provides excellent cover for newly hatched pheasants.

**GOOD CROP**...Leroy Collier proudly poses in his field of oats which he grew this year south of Friona. The oats are almost ripe and high on Collier. Several neighboring farmers have pronounced the crop the "best field of oats" they had ever seen. They were expected to be ready for harvest in the near future. Collier planned to swath and bale the oats for cattle feed.

## Court Urges Session For Gas Legislation

Parmer County commissioners passed a resolution recommending that the Governor call a special session of the legislature to consider certain natural gas legislation, during the regular meeting of the commissioners last Monday in Farwell.

In other business, Herb Evans of the Soil Conservation Service visited the commissioner's court and reported that it appeared that dam site number three on Running Water Draw, located in the Lazbuddie area, probably would be started around October 1, 1976.

A resolution was passed to indicate that revenue sharing funds for retirement period 7 show that the money will be used for public transportation.

Considerable discussion was had relative to the removal of certain

county records to the Panhandle Plains Historical Museum in Canyon, for use in preserving the history and genealogy of the county and individuals connected with the county.

It was pointed out that no active records or confidential records would be stored in Canyon, and that any of the records so stored would be returned if and when needed by the county.

A resolution against such participation was then passed by a split vote, with commissioners Jimmy Briggs, Charley Jefferson and Cecil Atchley voting for it, and commissioner Tom Lewellen and Judge Paul Fortenberry voting against.

Certain bills owed by the county were approved for payment.

THEY SAY MARRIED MEN LIVE LONGER - BUT SINGLE MEN LIVE IT UP LONGER!

## Local Boys Attended Camp Via United Way

The joys of summer camp await three local boys for one week this summer beginning June 6. The boys will attend the Salvation Army Camp Hoblitzelle, near Dallas, according to A.L. Outland, Salvation Army Service Unit Committee camp chairman.

Chosen to attend the camp from Friona are: Gary Felder, Ronnie Smock and Donald Elam. They were to leave by bus for camp on June 5, and will be met by a Salvation Army representative.

Each boy's trip is paid for by the local Salvation Army Service Unit Committee which is supported by United Fund contributions. They are part of a group of 900 boys from all over Texas who are chosen to attend four one-week summer camps.

"Their experiences will compare favorably to those found at expensive boys' camps anywhere in the nation," Outland said. "They will ride horseback on the camp's

many trails; swim in the large pool and fish from sparkling streams or a 30-acre lake."

Activities also include hiking through the camp's wooded terrain; boating, archery, group sports, and handicrafts.

Counselors and coaches supervise all organized activities. Campers are lodged in redwood and brick cabins and well-balanced meals are served in the large camp dining hall.

The 360-acre camp, which has increased its recreational facilities since it opened in 1956, is located seven miles south of Midlothian and eight miles west of Waxahachie.

Dark, even-pile carpets may hide soil but they show lint and crumbs. Tweeds are the best soil hiders, and then textures and shags.

### Letter To Editor

Dear Bill,  
About the complaint brought up on the front page of last week's paper concerning the noise in Reeve Lake Park.

I live almost as close as anyone else to the park. The noise is so loud that it NEVER disturbs my family. I think it is a disgrace that some of the residents of Friona find fault with everything other folks try to do. If the people young and old do not destruct property, which was not a complaint, or harm others, or the owner doesn't object, why should a few busybodies cause something which gives recreation to some cause it to come to an end.

I might add I do not, nor any member of my family own or ride motorcycles or mini-bikes.

This seems to be one place of relaxation or fun which Friona is not over run with.

If the person or persons complaining would try to do something about getting something into Friona for people to do instead of complaining about a little noise it would make a very nice little town into an even better place to live.

(Name Withheld By Request)

**FIXING IT UP**...Road work is in full swing on the west end of Fifth Street. In the above photo a maintainer is shown spreading the calche along the road which is being

widened somewhat. The calche work on Fifth Street is rapidly nearing completion with the asphalt expected to be put down next week. Calche was dropped on the

cemetery road this week also, and it is reported that work will be getting started there very soon.

## Two Frionans Earn Degrees From UT Dental Branch

The University of Texas Dental Branch has conferred 193 degrees and certificates on its spring graduating class in a joint ceremony with the other health professional schools at the UT Health Science Center in Houston.

The students receiving recognition included 102 presented Doctor of Dental Surgery degrees, 31 receiving Master of Science degrees in various dental specialties, and 60 students presented with certificate in either dental hygiene or dental assisting.

This is the first class of dental students to graduate under the school's new self-paced curriculum introduced throughout the school last fall. Thirteen students from this class graduated last February, six months ahead of schedule, because of the self-directed study program.

The UT Dental Branch in Houston is the oldest dental school in Texas. Providing education and training for 496 dental students, the school also offers graduate education in all

dental specialties. Other educational programs at the school include the two year dental hygiene program and the one year certification program in dental assisting.

The Dental Branch is one of seven units in the UTHSC in Houston. Other components of the Center include the Medical School, Public Health School, Allied Health School, Graduate School of Biomedical Sciences, Speech and Hearing Institute and Division of Continuing Education. A total of 328 received their degrees from the UTHSC this year.

The students receiving degrees and certificates from the Dental Branch, originally from Friona, are Michael L. Reznik and Rickey L. Hurst.

## Idalou Couple Has Baby Girl

Mr. and Mrs. Roy Dale Moore of Idalou are parents of a baby girl, Shannon Deann, who was born Tuesday, June 15, at University Hospital in Lubbock.

The new arrival is the second child for the couple, who have an older daughter, Shelly, three.

Grandparents are Mr. and Mrs. Shirley Smith of Friona and Mr. and Mrs. T.D. Moore of Spur. Mr. and Mrs. W.G. Shair of Skelleytown are great grandparents.

Mrs. Moore is the former Shirley Lynn Smith.

## Julie Owen Installed New Worthy Advisor

Friona Assembly No. 275 of the Order of the Rainbow for Girls held open installation Friday, June 4, at 2 p.m. at the Friona Masonic Temple. Julie Owen was installed as Worthy Advisor and Marsha Carlan was outgoing Worthy Advisor. Mrs. Jacquelyne Carlan will remain as current Mother Advisor.

The new Worthy Advisor, Julie Owen, introduced her father, Robert Owen and her brother, Rod, to the assembly. Her theme was love; her song, "What The World Needs Now"; colors-pink and white; flower-carnation; emblem-dove; Bible verse-1 Corinthians 13.

Miss Owen chose her installing officers. They were: Melissa Pruett, installing officer; Eddie Mays, chaplain; Veca White, recorder; Sharon Rector, marshal; and Sharon White, musician.

Other officers installed were: Robin Martin, Worthy Associate

Advisor; Priscilla Pruett, Charity; Janna Reeve, Hope; Karen Edelman, Faith; Faith Mays, recorder; Marie Morrison, treasurer; Peggy Morrison, chaplain; Marsha Carlan, drill leader; Delia Snyder, Love; Charity Mays, religion.

Also, Lisa Buchanan, nature; Reva Kelley, immortality; Donna Campbell, fidelity; Treva Bridgeman, patriotism; Diann McKillip, service; Lisa Darby, outer observer; Becky McLellan, confidential observer; Mindy Moseley, choir director; Sharla Duggins, musician; Bonnie Fallwell, Becky Norwood, Sheri Rector and Sherri Shavor, choir.

Sharon White, installing musician sang Julie's song, "What The World Needs Now." Refreshments were served by Raye Jene London and M'Lynda London after the installation ceremony.

PEACHES BY THE BUNCH.... Some Friona residents are going to have a peach crop this summer, and one of the more "loaded" trees is

owned by the Dean Blackburns. One particular branch is shown in this closeup photograph, showing a group of ten peaches in one cluster.

## Dividend Declared By Friona Industries

The board of directors of Friona Industries, Inc., has declared a quarterly cash dividend of five cents per share on its common stock. The dividend is payable August 4, 1976, to shareholders of record as of July 16, 1976.

This is the second quarterly dividend paid by the Company.

"It is the intention of the board of directors to continue a quarterly dividend policy as long as the Company's financial performance justifies it," said John G. Carrothers, chairman of the board.

During the first nine months of its current fiscal year, the Company reported net income of \$1.1 million, or 89 cents per share, on revenues of \$40 million, compared with a loss of \$475,589, or 38 cents per share, on revenues of \$34 million in the first three quarters of the prior year ended March 31, 1975.

Friona Industries is engaged in agri-business enterprises, including the manufacture and sale of commercial cattle feeds, retail sale

of animal health supplies, custom cattle feeding, sale of Company-owned cattle, transportation and grain.

## Choir Meets For Practice

The Bicentennial Choir will practice the musical "I Love America" at 3 p.m. Sunday at the Friona High School Auditorium.

Geary Brogden, the new music director at First Baptist Church, has agreed to direct the production, and will meet with the choir Sunday.

The patriotic musical by John Peterson will be presented Saturday and Sunday evenings, July 3-4 at the High School Auditorium as part of the city's Bicentennial celebration.

FIRST YARD OF DENIM PRODUCED.

The \$30 million denim plant under construction at Littlefield by American Cotton Growers, a farmer cooperative, has produced its first yard of indigo-dyed denim. When fully completed later this year, the spinning-weaving-finishing facility will produce heavyweight denim at the rate of 20 million yards of all-cotton denim annually. Above, admiring the first yard of ACG production, are directors of the 3,000-member cooperative (from the left): Harold Barrett, O'Donnell; L.C. Unfred, New home, ACG President; Dallas Brewer, Plains; Doyce Dallas Brewer, Plains; Doyce Middlebrook, Shallowater; T.W. Stockton, Crosbyton, ACG Vice President; Joe Leach, Plainview; and R.H. Whorton, Roscoe.

## REC Conducts Food Program

Deaf Smith Electric Cooperative's "Food Fun For Juniors" program was held in Friona last week.

The program was directed toward conserving energy in the kitchen. "The primary source of more efficient cooking in the kitchen is through the use of small appliances," reported Janice Wood, Summer Home Service Advisor for Deaf Smith Electric Cooperative.

The one week class climaxed with the presentation of diplomas by A.W. Anthony Jr.

Girls who completed the "Food Fun for Juniors" course are: Kim Barnett, Penni Weatherly, Christie Wiseman, Gwendolyn Maurer, Amelia Renner, Tommie Nelson, Sunny Horton, Karen Lloyd, Wendy Gresham, Carol Dement, Shauna Maynard, Dee Ann Harguess, Shelia Gresham and Stephanie Miller.

Also, Brenda Seright, Shawn Osborn, Becky Garza, Tonda Lovelady, Sherry O'Brian, Sherri Brown, Shea Woodard, Melanie Bynum, Lisa Morgan and Nikki Osborn.

Also, Stacey Loftis, Faith Wright, Wendy Tatum, Milli Dixon, Sarita Ellis, Tammy Bush, Kim Wilcox, Shannel Woodard, Debbie Reeve, Kim Eustace, Sherrin Frye and Bonnie Lundaye.

## Benny Pryor To Attend Conference

The Region II NVATA Leadership Conference will be held in Montrose, Colorado, June 20-23. Dr. Richard Weber, Region II Vice President, Larosa, La., will be in charge of the meeting.

Attending the Region II meeting from Friona are Benny Pryor of Friona.

Region II has a membership of 1690 vocational agriculture teachers from seven states which include Arkansas, Colorado, Kansas, Louisiana, Oklahoma, New Mexico and Texas. Approximately seventy-five teachers will be representing the seven states.

The Colorado Vocational Agriculture Teachers Association will serve as host for the three-day meeting. Business sessions will be conducted to plan and coordinate the program of work and activities of the entire region.

**GIRLS COMPLETE**...The "Food Fun for Juniors" program sponsored by Deaf Smith Electric Cooperative, was held in Friona last week. Several Friona girls completed the one week class. Diplomas were presented by A.W. Anthony Jr., board director. Girls completing the course are in the top photo, left to right, Kim Barnett, Shauna Maynard, Dee Ann Harguess, Shelia

Gresham, Karen Lloyd, Wendy Gresham, Carol Dement, Stephanie Miller. Back row—A.W. Anthony Jr., Christie Wiseman, Sunny Horton, Penni Weatherly, Tommie Nelson, Gwendolyn Maurer, Amelia Renner, and Janice Wood, home service advisor. In the bottom photo, left to right, are: front row—Becky Garza, Nikki Osborn, Sarita Ellis, Sherrin Frye, Faith Wright, Kim Wilcox,

Debbie Reeve, Shannel Woodard, Wendy Tatum, Milli Dixon, Stacey Loftis. Back row—Tammy Bush, A.W. Anthony Jr., Tonda Lovelady, Melanie Bynum, Lisa Morgan, Bonnie Lundaye, Kim Eustace, Shea Woodard, Sherri Brown, Sherri O'Brian, Shawn Osborn, Brenda Seright and Janice Wood, home service advisor.

## Club Approves New Amendment

Friona's Modern Study Club held a called meeting in the home of Mrs. Dave Thompson on Thursday, June 10 at 3 p.m.

Beth Thompson, president, presided over the business meeting. Four new members were elected and one amendment to the constitution was approved. The budget for 1976-'77 was accepted.

Janet Loyd, guest soloist, sang "Getting To Know You," "I'm A Flag Waving American" and "It's Time To Pray."

Seventeen members were present. Guests attending the meeting were Dora Nittler, Reba Buske, Bonnie Noah, Janet Loyd, Mary Johnston,

Zonah Bass and Betty Wiseman. Refreshments of cake, coffee, Cokes and cookies were served by the hostess.

## Senior Citizens

### Slate Meeting

Friona's Senior Citizens will meet Friday, June 25 in the Union Congregational Church.

A covered dish luncheon will be served at noon. All senior citizens in the community are invited to attend.

**ROBIN BAIZE and MYRNA LYNN PHIPPS...** Mr. and Mrs. E.G. Phipps of Friona announce the engagement and approaching marriage of their daughter, Myrna Lynn, to Robin Baize, son of Mr. and Mrs. Duane Baize, also of Friona. The couple plan to exchange wedding vows on Saturday, July 24 in the Friona United Methodist Church at 7 p.m. Miss Phipps is a 1976 graduate of Friona High School. Baize is a 1975 graduate of Friona High School and is presently employed at Big T Pump Company.

## Library Report

"1776: Year of Illusions" by Thomas Fleming, is a book which explores the reality of the year 1776. What is the myth of 1776? The year ended with both the Americans and British stripped of their illusions. Both sides had been forced to abandon the myth of their invincibility. For the Americans it had been a shock to discover that it was easy to persuade people to cheer for life, liberty and the pursuit of happiness, but it was another matter to persuade them to take large risks, to

make real sacrifices for these ideals. For the British, their goal of achieving proper subordination of America to England was frustrated forever. 1776 was a tragic year with Americans fighting in the name of liberty persecuted and sometimes killed fellow Americans who chose to remain loyal to the old order with its circumscribed, yet sincere, commitment to Freedom.

The presentation of a realistic and mature view of the year 1776 can enable us to find a far deeper meaning for our own time and for the future.

Perhaps by facing it, absorbing it, contemporary and future Americans will be spared the cries of despair and doom, whenever some of these negative traits appear among our contemporary politicians or soldiers or plain citizens. Perhaps we can begin to accept such failings as part of our limited human natures and learn without losing hope and faith in the future.

### Ladies Society

### Honors Local

### Senior Citizens

St. Teresa's Ladies Society honored the Golden-Aged Citizens of our community with a party on Sunday afternoon in the Parish Hall.

They were entertained by three Mexican dances. Children dancing in the different dances under the direction of Ofelia Diaz and Irene Bermea were Ernest Saldana, Gracie Bautista, Karen Ball, Karey Saldana, Martin Mejia, Rene Bermea, Missy Ortiz, Rudy Bermea, Rachel Perez, Pete Diaz Jr. and Marybell Alvarez.

Members of the society put on a silly style show stressing the importance of the material the clothing and accessories were made of. Also included in the program were several readings and group singing.

The party concluded with refreshments of cookies, mints, nuts, punch and coffee.

## Celebration Slated This Weekend

The community of Lazbuddie will be celebrating its 50th anniversary in conjunction with a bicentennial celebration this weekend with everyone in the area invited to attend, especially ex-students of the Lazbuddie Schools.

Registration for the event will get underway at 1 p.m. Saturday at the school. Refreshments and visiting are on tap that afternoon with old photographs and school yearbooks on display. An arts and crafts show and sale will also be held in the home economics department.

Beginning at 4 p.m. and continuing until 10:30 that evening, an ex-student volleyball tournament and domino tournament will be held. A concession stand will be available during that time.

A barbecue dinner, catered by the XIT Steak House in Muleshoe, will kick off activities Sunday at noon in the school cafeteria. Admission will be \$3 for adults and \$2 for children 12 and under.

For tickets to the barbecue, the

Mrs. L.E. Forester of Oceanside, Calif. is a house guest of Jake and Lorene Outland. Mrs. Forester is Mrs. Outland's sister.

The two of them made a brief trip to Durango, Colo. to take the train trip to Silverton and visit Linda Outland. Plans later this week include a visit to their original homestead in eastern Oklahoma.

Mr. and Mrs. Giles Cobb have been spending a great deal of time traveling for the past few years. On one trip, which took them through the state of Missouri, Mrs. Cobb was attracted to the blooming sweet pea trees, which were abundant in that area.

She brought a sapling home with her and put it out close to the house. Later she transplanted a sapling near the alley between Main and Washington near 12th.

Earlier this spring this small tree was completely covered with clusters of blooms much like the sweet peas we are accustomed to seeing. If there is another sweet pea tree in Friona, I haven't seen it.

When Martha Bates announced plans for retirement from her chosen profession after having taught in public schools for many years, she told friends she planned to do some traveling.

Two recent trips took her from the Texas coast to central Colorado. She and her mother, Mrs. J.M. Watson, went to Waco to visit Harold and Jamie Lu Lillard first.

Then after visiting relatives in Belton, they went on to Galveston for the graduation of Lyn Hunt from medical school. Lyn is the daughter of Dr. and Mrs. Don Hunt of Midland. Mrs. Hunt is the former Macie Kathryn Watson, who formerly taught here.

Incidentally, Lyn was the recipient of the Gold Headed Cane award. Her Grandmother Watson and all the rest of her relatives were justly proud of her accomplishment.

Then, soon after Martha and Mrs. Watson came home, Helen Teague, another one of the Watson girls, had surgery in Colorado Springs, so Martha and Lorraine Welch spent a few days in Cool Colorful Colorado.

Since Dwight lives in the Dallas area and Philip and his family live in Great Falls, Montana, Martha is probably planning to do some visiting soon.

following persons may be contacted: Mrs. Harrol Redwine, 806-965-2247; Mrs. Derrel Mason, 806-965-2953; or Mrs. Frank Hinkson, 806-965-2960.

All area residents are invited to exhibit their wares at the arts and crafts show and sale during the 50th anniversary and reunion at Lazbuddie this weekend.

Persons wishing to exhibit in the show must bring their items to the home economics department of the school by 4 p.m. Friday and have goods removed by 4 p.m. Sunday. Those persons selling items at the show are asked to add 10 per cent to their selling price with that amount going to the Lazbuddie Young Homemakers for expenses involved in the show.

Anyone with questions concerning the show and sale may contact Mrs. Jack Smith, 965-2136; Mrs. Fred Uphoff, 965-2779; Mrs. Frank Hinkson, 965-2960; Mrs. Jim Collum, 965-2367; or Mrs. Harrol Redwine, 965-2247.

## Town Talk

By June Floyd

Phone 247-3681

With Your News Item

Lee Ann Loafman of Olton spent last week visiting in Friona. She is the daughter of Don and Janice Wright Loafman, so when she comes to Friona, she visits Granddad Loy, Grandmother Vuthill and Grandmother Juanita.

Paul and June Spring and Pudge and Deke Kendrick are home after a trip to New York.

In upper New York State they visited June's mother and other relatives, then went to Niagara Falls and other points of interest between here and there.

Louis and Mamie Lou spent more time in Amarillo Airport Sunday after noon than they had planned. Lynn was in Houston visiting Johnny and Gay and Holly was coming home from Iowa City, Iowa.

Careful plans were made so that Lynn and Holly would arrive about the same time, but the schedule makers didn't allow time for a three or four hour delay in Denver.

Holly's husband, Joe Bill Jones, is

so busy studying he couldn't make the trip. Maybe they're so anxious to get back to Texas to live that they're taking advantage of every opportunity to make their stay in Iowa as short as possible.

Mr. and Mrs. J.T. Gee packed a lot of fun things into small amount of time last weekend. They had business in Wichita Falls, so decided to stretch the weekend a day or so on each end for sort of a mini vacation.

In Wichita Falls they visited with Kathy McLean. In Vernon they attended church services and heard Albert Lindley preach then visited briefly with him. In Megargel they visited Walt Marcum, recently of Friona.

Then in Childress they visited with Dee Alva Hicks, a former Friona resident. The Gees also visited relatives at Byers and saw the "old home place" of the Fleming family—the family of the late Woody Fleming.

They also spent some time at Quartz Mountain Lodge on Lake

Altus, and drove to Altus, Mangum, Granite and Olustee to see places and things Lilah Gaye remembered from her "growing up" days.

In Altus they went to a drug store, which had been in the same location since the late 1890's. She remembered it as the place where she used to buy "nickel ice cream cones."

Wonder if one would pay more than a nickel for an empty cone now? Since they've been home, their grandson, Jay Houston of Lubbock came up and stayed a few days. He had a baseball picture, which had been made by Sterling Prichard, who has a studio at 3415 36th Street, Lubbock.

Sterling is the son of Mr. and Mrs. S.S. Prichard of Friona and is a 1957 graduate of Friona High School.

Other guests in the Gee home were Mr. and Mrs. T. Deane Rodgers of Jackson, Mississippi, Latrelle Hammericksen of Eugene, Oregon, and Bill Moore and family of Justin, California.

Rodgers is Mrs. Gee's brother and the others are her cousins.
