Republicans Hurl Charges At Truman

Ask Answers Be Given On Western Tour

WASHINGTON—(AP)—Republicans Saturday hurl broadside charges at the Truman Administration, challenging the President to answer them on his 16-day campaign tour which he begins Sunday.

GOP leaders already have laid plans to make use of replies to the Truman speeches. They got in the word with a statement accusing him of resisting attempts to "drive Communists from his Administration."

Storms Kill 11 Persons In Midwest

By The Associated Press

Rampaging flood waters crushed all dykes but one protecting Winnipeg, Canada, Saturday and total evacuation of the city of 300,000 became a grim possibility.

Meanwhile, a vicious Spring storm turned its destructive course into Canada after leaving a trail of multi-million dollar damage, and at least 11 persons dead and scores injured in the Central United States.

The Winnipeg Tribune quoted the manager of the city's hydro-electric power plant as saying total evacuation may be necessary.

The Red River rose about one and one-third feet in 24 hours and a rise of five more feet was in prospect. Hundreds of blocks of the city and suburbs were under water. Street car and bus travel and telephone service were disrupted. Canadian armed forces were placed in control of flood relief.

100-Mile Winds

The violent winds—which reached gusts of 100 miles an hour in some areas—battered the weather-weary north central states all day and into the night. Tornadoes struck at two areas in Minnesota.

There was snow, rain hail and blinding dust. Flood waters plagued some sections. A huge low pressure area extended over the entire north central part of the nation.

There was widespread damage to homes, business buildings, automobiles, power lines, poles and signs. Livestock losses were heavy in some states.

Three persons lost their lives in the storm which swept over Iowa. Two were killed in Wisconsin, two in Minnesota and one each in Nebraska and Texas. Two traffic deaths in Illinois were attributed to the storm.

The strong winds whipped freshly (Continued On Page 10)

Weds Hilton Heir

Screen actress Elizabeth Taylor late Saturday became the bride of Conrad (Nick) Hilton, Jr., heir to a fabulous hotel fortune. She poses here in a wedding gown she wore in a recent motion picture, similar in design to her real wedding dress.

Bob Kleberg's Middleground Is Derby King

CHURCHILL DOWNS, LOUISVILLE—(AP)—Middleground, a chestnut racer from the fabulous King Ranch in Texas, came a-running in the stretch at Churchill Downs Saturday to outgame everything that challenged him and win the seventy-sixth Kentucky Derby.

The son of Bold Venture proved himself a better colt than Your Host, the California favorite, Hill Prince, the Virginia threat, and all the other 13 rivals.

He ran the classic mile and a quarter in two minutes, one and three-fifths seconds, only one-fifth of a second off the Derby record set by the immortal Whirlaway in 1941.

He rewarded R. J. Kleberg, Jr., owner of King Ranch, with \$92,650, and gladdened the hearts of the great Texas contingent in the crowd of close to 100,000. Hill Prince finished second, Mr. Trouble third and Sun Glow fourth.

Your Host, the pride of the west coast, went out in front as he was expected to do. The fleet-footed winner of the Santa Anita Derby dashed into the lead in the first run down the stretch but failed to live up to the hopes for him, and as the big field came into view around the final bend Your Host began to fall back. At the finish he was a gasping ninth.

Like Cavalry Charge

The King Ranch colt, ridden by apprentice Bill Boland, smashed down to the wire in a thrilling drive resembling a cavalry charge.

The 100,000 crowd established the California flyer—Your Host—the 8 to 1 favorite, but he couldn't live up to the confidence.

"I told him to stop but he kept coming at me with a knife," Palmore said. "I shot once to warn him and once to stop him."

An open pocketknife was found beneath Thompson's crumpled body in the dining room of Palmore's modest home.

Palmore said he and Thompson had been playing dominoes in the kitchen when his nephew, living with him for three weeks, charged at him. Palmore had not been credited with the last game he won.

"I did mark it down," Palmore told officers, and he pointed to the score sheet.

Palmore said Thompson planned to leave for Seagraves Sunday.

"Had to get back to pick up his old age pension check by the tenth," he added.

Deceit And Dishonesty Charged 'Ins'

WASHINGTON—(AP)—Senator McCarthy Saturday night accused the Truman Administration of "deceit and dishonesty" in dealing with its charges of Communists in government.

McCarthy, speaking at Chicago, assailed President Truman's action in making available State Department loyalty files on 81 cases cited by the Wisconsin Republican. He said these files were inadequate and "phony."

Contempt citations for Earl Browder and Frederick Vanderbilt Field were laid before Senate Communist investigators Saturday with a recommendation that they take action against the pair.

Decision Due Monday

The group will consider Monday whether to vote to cite the two men who defied the Senate Foreign Relations subcommittee by refusing to answer a number of questions.

McCarthy said that to do a real job of investigating, "all of the files must be broken open," and he mentioned the files of the FBI, Civil Service Commission, Central Intelligence Agency, Army Intelligence, Navy Intelligence and the Secret Service.

He demanded "honest action" and declared again: "There are Communists on our federal payroll."

He bitterly attacked Secretary of State Acheson again, saying: "The days of dilletante diplomacy are running out on Mr. Acheson and his fancy comrades of the Kremlin."

McCarthy noted that Acheson had refused to turn his back on Alger Hiss, who was convicted of perjuring himself in denying he gave papers to a Russian spy. But McCarthy said the secretary "is turning his back" on two American servicemen who are prisoners of the Chinese Communists.

American diplomacy has failed to secure release of the two who disappeared on a flight in China in 1948.

Lightning Strikes Trolley Car

Twenty-three persons were injured in Pittsburgh, Pa., when a bolt of lightning struck this trolley on a downtown street. It shattered windows and started a fire. Forty passengers were aboard.

Highway Panel Members To Visit Midland's Rodeo

Friday, June 2, the third day of the Sixteenth Annual World Championship Midland Rodeo, May 31-June 4, will be Texas Highway Commission Day, rodeo officials said Saturday.

The three commission members—Fred Wemple of Midland, chairman, R. J. Potts of Harlingen and Allin Mitchell of Corsicana—and State Highway Engineer De Witt C. Greer of Austin will be special guests of Midland Fair, Inc., that day and will be introduced from the distinguished visitors' box in the grandstand at the Friday night rodeo performance.

Gov. Allan Shivers will be the guest of honor on the opening day of the rodeo and will ride in the parade that afternoon. Other state officials and prominent figures in the sports world have been invited to attend the rodeo as special guests on other days. It will be the greatest array of dignitaries ever to attend a celebration here, according to Clarence Scharbauer, Jr., president of the fair association.

Rodeo Plans Pressing

Arrangements for the visit of the highway commissioners to Midland were made by Chamber of Commerce Manager Delbert Downing. Wemple will be host to the out-of-city commissioners during their stay here. The officials will come to Midland following a commission hearing in Austin May 31-June 2.

Meanwhile, plans for the staging of the rodeo rapidly were taking shape. Leonard Proctor, chairman of the Rodeo Committee, said previously. (Continued On Page 10)

Seagraves Man Shot To Death In Spat Over Domino Game

OKLAHOMA CITY—(AP)—A domino game between two aged relatives ended Saturday when the younger man dropped to the floor, dead with a bullet hole in his left eye.

Frank Palmore, 76-year-old night watchman here, is jailed for investigation in the death of his nephew, Wesley Enlow Thompson, 66, of Seagraves, Texas. No charges have been filed.

"I told him to stop but he kept coming at me with a knife," Palmore told police. "I shot once to warn him and once to stop him."

An open pocketknife was found beneath Thompson's crumpled body in the dining room of Palmore's modest home.

Palmore said he and Thompson had been playing dominoes in the kitchen when his nephew, living with him for three weeks, charged at him. Palmore had not been credited with the last game he won.

"I did mark it down," Palmore told officers, and he pointed to the score sheet.

Palmore said Thompson planned to leave for Seagraves Sunday.

"Had to get back to pick up his old age pension check by the tenth," he added.

Senate Passes Huge Foreign Aid Bill In Extra-Hours Session

WASHINGTON—(AP)—The Administration's big foreign aid authorization was safely through the Senate Saturday, shorn of a quarter of a billion dollars but otherwise fairly intact.

These tight votes—plus a bitter economy speech by Senator McClellan (D-Tenn.), chairman of the powerful Appropriations Committee—heralded trouble when Congress gets around to supplying the money for the aid programs.

The measure that emerged from the Senate in an extra-hours session merely authorizes the programs and fixes a top limit to be spent on them during the 1951 fiscal year that begins July 1. The actual money must be provided separately in an appropriations bill.

The House previously had voted \$20,000,000 less for foreign aid, with the extra cut made in the "Point Four" program. That and other minor differences will have to be ironed out by a Senate-House conference committee.

Body Found Scattered Along Railroad Track

FLINT MICH.—(AP)—Parts of a young woman's nude body were found Saturday scattered along railroad tracks east of here.

Authorities said the victim, about 25 years old, apparently had been slain.

Cut in pieces by trains which passed in the night, the body was discovered at 10 a.m. by the crew of a passing freight.

Father Of Associated Press Executive Dies

LIBERTY, MO.—(AP)—Henry H. King, 93, an early-day Missouri school teacher, died Saturday night. He was the father of Frank H. King, Associated Press general executive of Dallas.

King died at the home of a daughter, Mrs. Donald Pharis, three miles east of Liberty. He had been ill only a few weeks.

Funeral services will be held at 2 p.m. Monday in Liberty. Burial will be at Excelsior Springs, Mo.

Midlander Named President Of Firemen's Group

MCCAMEY—Grady Brown of Midland Saturday was elected president of the Permian Basin Volunteer Firemen's Association at its Spring convention here.

J. D. Amis of Lamesa was named secretary-treasurer. The group voted to hold its Fall convention at Alpine.

The Monahans Volunteer Fire Department placed first in the six-man pumper hookup contest Saturday afternoon. The Monahans firemen completed their hookup in 18.7 seconds. Midland placed second with a clocking of 22.5 seconds and Denver City was third with 32.5 seconds.

In the two-man hookup, Denver City took first with 8.5 seconds. Alpine and Midland were second and third, respectively.

Marfa, with a timing of 11.3 seconds, placed first in the six-man scramble. Fort Stockton and Denver City were second and third.

About 25 cities in the Permian Basin area were represented at the convention. The convention was concluded with an afternoon barbecue at McCamey Park and a Saturday night dance at the T-F night club.

Senators Plan All-Out War On Truman FEPC Bill

WASHINGTON—(AP)—Southerners, limbering up for a marathon filibuster, said Saturday they would wage "all-out war" against the Administration's FEPC bill in the Senate next week.

Senator Johnston (D-SC), a leader of the Dixie group, served notice of a showdown battle in a communique for his colleagues, saying: "We are thoroughly convinced that passage of this monstrosity will mean a 'Pearl Harbor for the South.'"

Democratic Leader Lucas (Ill.) has called for debate Monday on the bill to create a Fair Employment Practices Commission.

Lucas said he plans to wait until the week after next before seeking to limit debate on FEPC. The real test is expected on the debate-limiting motion, which requires approval of 64 senators.

WASHINGTON—(AP)—Southerners, limbering up for a marathon filibuster, said Saturday they would wage "all-out war" against the Administration's FEPC bill in the Senate next week.

Senator Johnston (D-SC), a leader of the Dixie group, served notice of a showdown battle in a communique for his colleagues, saying: "We are thoroughly convinced that passage of this monstrosity will mean a 'Pearl Harbor for the South.'"

Democratic Leader Lucas (Ill.) has called for debate Monday on the bill to create a Fair Employment Practices Commission.

Lucas said he plans to wait until the week after next before seeking to limit debate on FEPC. The real test is expected on the debate-limiting motion, which requires approval of 64 senators.

Senators Plan All-Out War On Truman FEPC Bill

Johnson, Patrolling His Beat, Finds Garfield Back At Work

By ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD — Don't furrow your brow if you get a vague this-is-where-I-came-in feeling during today's movie set tour. Some of the same sliced ham you nibbled a few years ago is being re-heated on the sound stage burners.

A bit of spice here, a sprinkling of brown sugar there and yesterday's dramatic hash becomes tomorrow's sizzling platter.

John Garfield is back at Warner's after five years in "The Breaking Point," a re-make that isn't a re-make. Back in 1944, the studio stuffed Ernest Hemingway's pockets with a lot of green stuff for the rights to film "To Have and Have Not," then threw everything into the ash-can except the title for a Bogart-Bacall confection.

Now they're filming what they paid for in the first place.

Director Mike Curtis tells Garfield: "Johnny, I have ideas. It's very humane. When you sit down, take chewing gum. I would like to see your chin doing something. It's very humane." Mike means "human."

John chops on the chiclet and Curtis beams.

John is excited about the Hemingway dialog. He says: "I love it. Some of it's straight out of the book. Me, I'm a New York Hemingway character, anyhow."

"Tea for Two" on the same lot is a doctored-up version of that old song-and-dance war-horse, "No, No Nanette." Patricia Wy-

more, a curvaceous import from the Broadway musical comedy stage, is doing a big "Crazy Rhythm" number. The playback of her brassy Ethel Mermanish vocal, recorded weeks ago, fills the sound stage and she mouths the lyrics as she makes like a frenzied Zulu.

Suddenly Patricia stops and says meekly: "I'm busting out of my costume. Can I have a strap to make me decent, please?"

Watching Crawford Joan Crawford is starring in "Harriet Craig," a re-make of Rosalind Russell's "Craig's Wife."

Director Vincent Sherman squints through the camera viewer as Joan opens the blinds of a bedroom and lets in the crisp sunshine. There is no mention in the script of the knitting in her hands. That's Joan's rehearsal trademark and she clicks away even during love scenes.

Joan's French poodle, Cligout, darts behind the camera and goes sniff-sniff at the trousers of a spectator.

"He's smelling my dachshunds," says the man. "Wait till I go home and tell my poodles that Joan Crawford's dog smelled 'em."

Mr. and Mrs. Al Tolson—pardon me, Larry Parks and Barbara Hale—are doing a breakfast scene on "The Bedside Manner" set. This time the story isn't a re-write of

"Gone With the Wind," "Birth of a Nation" or "Ecstasy."

It's Larry's first comedy role. He doesn't utter a single "nyehhh" in it or once put his knee-cap to the cold floor.

"The Bedside Manner" looks like number 1346 in Hollywood's pictures about career versus marriage. Neither Larry nor Barbara know whether passion or the stethoscope win out in the end. They told me:

"The script isn't finished yet." Expensive Flub

There's a line-blowing epidemic on the set of "When You're Smiling." The man in charge of the budget is not smiling. Jerome Cowan starts it by pronouncing Dun and Bradstreet as "Brun and Dadstreet." That starts a chain-reaction of flubs, with Jerome Courtland, Frankie Laine and Margot Woodie tripping all over their dialog.

Columbia has baited this one with big record names like Laine and Starr. Laine whispered:

"In my first picture somebody put a nickel in the juke box and there I was singing. Now I've got lines and I'm really hamming it up."

Gloria De Haven, June Haver, Bill Lundigan and Dennis Day are doing a musical sequence for "I'll Get By" at Fox. Darryl Zanuck likes to tag musicals with song titles. We've had "You Were Meant for Me," "When My Baby Smiles at Me" and "You're My Everything."

Bill, who doesn't play the piano at all, is making like a regular Oscar Levant. Anybody can be a piano virtuoso in Hollywood, such as Cornel Wilde's role of "Chopin" with Jose Iturbi.

"I'm busting out of my costume. Can I have a strap to make me decent, please?"

When the number is over, Dennis shakes Bill's hand.

"Goah," says Dennis, "you were great at the piano. Why, you're even better than Cornel Wilde."

Judgment Favors Plaintiff In Suit

District Judge Paul Moss Saturday rendered a judgment favoring the plaintiff in a civil suit, Cecil Taunton et al vs. William E. Charlton.

The plaintiffs sued Charlton for damages resulting from an automobile accident Aug. 21, 1948 on West Highway 80. They were awarded \$2,302.80 for damages to their automobile, clothing, and for hospital and medical bills. A 70th District Court jury had returned a verdict April 25, favoring the amount awarded.

Other cases heard here Saturday by Judge Moss included four divorce suits and three title hearings.

Sheep in Japan, which numbered 196,425 in 1946, reached a total of 459,000 in 1949.

Livestock Roundup

PORT WORTH (AP)—Livestock compared to week ago: Beef steers, yearlings and cows 50 cents-1.00 higher, stockers and calves strong to 50 higher, Spring lambs 1.00-2.00 higher, shorn lambs 1.00 higher, feeder lambs steady to strong, butcher hogs 1.15 higher, sows 50 cents higher, feeder pigs 1.00 higher.

Slaughter steers and yearlings 20.00-28.50, beef cows 18.00-22.25; slaughter calves 16.00-22.00; stocker calves and yearlings 20.00-28.00; stocker cows 17.00-22.00; closing sales on 190-270 pound butcher hogs 18.00; sows 15.50 down, feeder pigs 15.00 down; Spring lambs 20.00-30.00; shorn slaughter lambs 22.00-26.00; shorn feeder lambs 17.00-22.50.

First Christian Church At Kermit

Construction is underway on a new First Christian Church building at Kermit. Shown is the architect's drawing of the combination Gothic and English design structure. The auditorium will seat 150 persons. An educational building wing is included. An auxiliary auditorium seats 100 persons. A pastor's study is included in the building. The church occupies a site on a three-acre plot, the gift of Mr. and Mrs. J. B. Walton.

British Claim Fast Cold Cure

LONDON—(AP)—A group of British chemists say they have discovered a drug which may cure the common cold overnight. And six researchers who tried the compound said it stopped their sniffles. Despite personal tests by its developers, the drug-called CFS—still must be proved clinically before the public gets it. Announcement of the discovery was made in the House of Commons by Conservative member F. J. Erroll, who said the drug "may prove more important than penicillin."

The compound was developed during a three-year search for a new cancer treatment. CFS possibly may be used, said the scientists, in treating such viruses as influenza, measles, scarlet fever, smallpox and infantile paralysis.

JayCee-Sponsored Clean-Up Campaign Is Declared Success

Midland's annual Clean-Up, Paint-Up, Fix-Up campaign officially closed Saturday and JayCee officials responsible for the drive proclaimed the project a complete success.

Keith Stuart and Dr. George Givensad, co-chairmen of the week-long campaign to further Midland's claim as being West Texas' neatest and most beautiful city, expressed satisfaction and gratitude to all responsible for the program's success. Piles of trash and other debris still must be carted off Monday and Tuesday to put the finishing touches on the campaign.

The annual program was interspersed with a parade, balloon day, and street water-fight between members of the JayCees and JayCeeettes to help publicize Midland's face-lifting. Service and civic clubs, garden clubs, Boy Scouts, League of Women Voters, Beta Sigma Phi sorority and many other organizations pitched in to back the project. The program received wholehearted approval and backing of city officials and the city-county health unit.

Much stress was placed on cleaning up alleys, installation of regulation garbage disposal cans, cutting of weeds and high grass, and preventive measures taken to rid the city of insects. Cesspool users were urged to connect with city sewage outlets if possible, or to discard the cesspools in favor of sanitary septic tanks where city sewer lines are unavailable. The JayCees also pitched in to lend publicity to the campaign by stamping the inscription, Clean-Up, Paint-Up and Fix-Up on grocery store paper bags and other places to make Midlanders conscious of the clean-up drive.

Children Find Parents Victims Of Murder And Suicide

BURGETTSTOWN, PA. — (AP)—Two young children returned from school Friday to find their mother hacked to death with a hatchet and their father dead of self-inflicted razor blade slashes. Deputy Coroner Hugh R. Wilson identified the victims as Charles DeSantis and his second wife, Carmilia, about 45. The coroner said it was a case of murder and suicide. He said the 76-year-old retired railroad worker hacked his wife to death and then killed himself. The children—Matt, six, and Maria, seven—returned to their home and found the doors nailed shut. They peered through the windows and saw the tragedy. Neighbors helped batter down the doors. Wilson said DeSantis left a note written in Italian. He quoted it as saying in part: "I could not live with this woman any longer. "God knows what I have done. "Please take care of the children x x x x."

Census Count Below Forecast, Chief Says

DALLAS — (AP)—The Texas census, now in its final stages, will not hit Census Bureau estimates of 1,600,000, James W. Stroud, three state census director says. Stroud, director for Texas, Oklahoma and Arkansas, said yesterday the census would be completed by June 1. He declined to name a figure for Texas. He said fully half the cities hoping to scramble into the 50,000 population and 100,000 brackets are destined for disappointment.

Midlander Presides At Watchmakers Meet

A. E. Houck of Midland, vice president, presided at a meeting of the Permian Basin Watchmakers Guild held recently at Big Spring. Special guests at the meeting were State Guild Representative Barfoot and his wife of Lamesa. Midlanders attending included: Houck and Mrs. Houck, Raymond Jenkins, R. E. McReynolds, Mr. and Mrs. John Shannon, and Mr. and Mrs. J. B. Peterson.

JIMMY DEAVENPORT SAYS SON WILL BE GRIDDER

"You bet, another football player for MHS," said Jimmy Deavenport, ex-Bulldog, Saturday in announcing the birth of his son, John K. The future grid star weighed six and one-half pounds.

Ex-Convict Flees Dallas County Jail

DALLAS—(AP)—A two state police alert was on Saturday for a scar-faced ex-convict who broke out of the Dallas County Jail Friday night. His woman companion also is sought.

The couple, Edgar Fred Whitaker, 35, and his wife, Madge, about 30, were believed to be headed for Oklahoma or Missouri. Police said the ex-convict's wife apparently smuggled a pistol to him while visiting.

Whitaker was being held here under five robbery charges. Sheriff Bill Decker alerted state police in Texas and Oklahoma shortly after the break and called for road blocks on major highways in North Texas.

The couple forced two jailers to unlock doors for them and fled in an old model car. Mrs. Whitaker entered the jail office about 8 p. m. just at the end of a hearing visiting hour. She asked Chief Jailer E. L. Holman for permission to see her husband. Holman and Turnkey Jack Stout, Jr., were the only officers present.

"Whitaker and his wife were talking quietly," Holman said. "Suddenly, I looked up and saw that he had a pistol on Stout. He swung the pistol toward me as I looked up."

"Come on over here or I'll kill you," he told me in a low voice. As I started edging backward, trying to get behind a partition, Whitaker ordered Stout to give me the jail keys."

Texas Labor Pledges Caso March Support

AUSTIN—(AP)—A big segment of Texas organized labor Saturday hit at Administration-backed new taxes and endorsed Caso March for governor. State AFL leaders attacked the taxes voted by the 51st Legislature in February as predominantly a sales tax program.

"The tendency to sock the consumer for state services must be stopped," William J. Harris of Dallas and Paul C. Sparks of Austin, state AFL leaders, said in a prepared statement.

March also will receive CIO support, Secretary Jeff Hickman of the State Political Action Committee announced from the platform of a \$7,600 trailer cottage contributed by union labor for March's campaign. Dedicating the trailer, March promised to work for improvement of labor's lot in Texas.

Pioneer Announces New Stock Dividend

DALLAS—(AP)—A dividend of 25 cents per share will be paid June 30 by Pioneer Airlines to all persons holding common stock as of June 16.

It is the second dividend in six months. Tyler secures 25 cents per share was made Dec. 31, 1949. All directors were reelected at a meeting Friday.

Lubbock Wins Third Place In Journalism

AUSTIN—(AP)—Highland Park of Dallas shaded Tyler to win top journalism honors in Conference AA of the Interscholastic League Meet here Saturday. Highland Park was tops with 239 points; Tyler second with 236; Lubbock third with 186. Martha Harlan of Highland Park was the leading individual scorer with Jerry Burks of Tyler second and Ruth Brazeele of Lubbock third.

Midlander's Mother Dies In Michigan

Mrs. R. B. Dyer, 71, of Crosswell, Mich., mother of Charles E. Lynch, Rankin Highway, died late Friday at her home. Funeral services will be held in Memphis, Tenn., Monday or Tuesday. Lynch will fly to Memphis for the services.

Mrs. Dyer had visited Midland on several occasions. She died of a heart ailment. She is survived by her husband of Crosswell, a daughter, Mrs. R. B. Fowler, of Memphis, and her son of Midland.

FROM SAN ANGELO
Houston Hart and W. D. Bradley of San Angelo were Midland visitors Saturday.

Swiss-Visitor Adds Impressions Of West Texas To Trip Views

By SUE COLEMAN
A side trip of almost 2,000 miles was taken by Ursula Fahrlander of Geneva, Switzerland, to visit in Midland with her friends, Mr. and Mrs. Felix Paul Bents, while she is in the United States. The pretty, dark-eyed Swiss girl is a guest in the Bents home, 103 North Loraine Street.

She accompanied her father on a business trip to this country and visited in New York, Boston and Washington, D. C., but decided that she wanted to see Mr. and Mrs. Bents, childhood friends, and incidentally to see Texas before she left the United States. So she flew from Washington, missing plane connections in Dallas and barely catching a plane on another line to complete her trip Tuesday.

Interested in the differences between West Texas and the part of America that she has already seen, she is being shown the sights by her hosts, who themselves have lived here only a few months although they are Texans of long standing. They lived in Dallas before they moved to Midland in the Winter. A trip to Carlsbad Cavern is

planned, because Mr. and Mrs. Bents have not yet visited that number one tourist attraction of the Southwest, and they want to go also to a genuine West Texas rodeo. Mrs. Bents will be sure that Miss Fahrlander sees the sand hills area southwest of Midland, which amazed her with its extent, and the Permian Basin oil fields.

Schoolyard Friends
They are not dependent upon sightseeing for entertainment, however; they can supply that just by being together and talking about their past experiences and the friends whom Mrs. Bents has not seen since she left Switzerland last

Summer. They have known each other since they were about 10 years old, and they went through school together in their home city of Basel. Miss Fahrlander calls Geneva home now, as she has spent several years as a student there. Like Mr. and Mrs. Bents, and most persons who grow up in Switzerland, she speaks several languages but she is more than usually proficient as a linguist as she has been studying in an interpreters' school.

She speaks English with a definite British accent, although she says English friends remark that she has an American accent in her speech. She has visited in England and studied for a period at Cambridge. A career as an interpreter is her plan for the future.

To Visit Canada
After her visit here she expects to take a trip into Canada to get a first-hand view of another part of America.

She believes she would like to work in America, although she has found it would be difficult to find a position in her specialized field while she is a Swiss national here on a visitor's visa.

However, she says she would not choose Texas for a home because of the climate—not the dust storms, of which she had a sample Thursday, but the summer temperatures, which discourage her. She likes the climate of her mountainous homeland and the idea of a thermometer mercury that climbs past the hundred-degree mark does not appeal to her.

While she is here, though, she intends to see as much of the West as possible, and plans to have some tall tales of Texas to recount when she gets back home.

Jailbreaker Pleads Guilty Of Kidnaping

GAINESVILLE, TEXAS. — (AP)—Franklin C. Perkins, 20, pleaded guilty Friday to two charges of kidnaping and by agreement received sentences of 10 years in prison in each case.

Perkins and Lawrence Edward Byrom of Fort Worth made a spectacular break from the Cooke County jail here on April 8. In their flight they kidnaped a taxi driver and later an Ex farm hand.

Following his escape, Perkins was arrested in Wilmington, Va. Byrom surrendered to officers at Fort Worth, where he is being held.

Ingrid, Roberto Now In Switzerland

LUGANO, SWITZERLAND — (AP)—Ingrid Bergman and Roberto Rossellini arrived here secretly Friday, the Swiss Telegraph Agency reported Saturday.

The brief agency report said the couple arrived "in strict incognito" and their precise whereabouts were not known. The report did not indicate whether their baby came with them or how long they intended to remain in Switzerland.

There have been reports, without confirmation, that they intend to be married in Switzerland.

AP Wholesale Index Reaches 1950 High

NEW YORK—(AP)—The Associated Press index of 35 important wholesale commodity prices last week advanced to a new 1950 high. Two commodity groups—industrial and non-ferrous metals—also were at peaks for the year.

But two other components, food and textiles, touched new 1950 lows. The over-all index at 162.18 was the highest weekend figure since last November 30. It compared with 160.96 a week ago and 155.64 a year ago. The base year of 1926 equals 100.

Statistics show that more premature babies are born in May than in any other month.

Tidwell Funeral Rites Set At Quana

Funeral services for M. A. Tidwell, 61, who died at his home Friday, will be held at 3 p. m. today in the Church of Christ, Quana. Interment will be in Quana Memorial Cemetery.

Tidwell, a resident of Midland last six years, is a former proprietor of the Ritz Sandwich Shop moved to Midland from Brown. Survivors include the widow, a daughter, both of Midland; brothers, and two sisters.

ON VACATION TOUR
Mrs. C. E. Humphrey will be Sunday on a six-week vacation of the Southern states, including Florida.

Is this you again this Summer?

Never again if you own...
PARAMOUNT Air Coolers

INSTALLED IN 30 SHORT MINUTES
PARAMOUNT keeps you comfortable "Nature's way" by washing, filtering and cooling the air... filling your home with a fresh ocean breeze... keeping you refreshingly cool on the hottest days. Let us show you today why more than a million people now enjoy the COOL, COOL comfort of Paramount low-cost summer cooling.

IMPORTANT TO YOU: Seven Patented Paramount Features... the finest home cooling equipment... A Reliable, Experienced Dealer... an installation RIGHT from the start.

Midland Field Operators Honored

Tex-Harvey field is in the Floyd ranch. In the lower picture are some of the Tex-Harvey Oil Company officials. Bottom row, left to right, Arthur (Tex) Harvey, owner; Frank Weiner, manager; J. E. Page, toolpusher; and Joe Dixon, drilling superintendent. Top row, left to right, H. R. Smith, secretary-treasurer; Claude Chapin, toolpusher; and Jack Jackson, toolpusher. In the top picture, left to right, Donald Tree, New York City, An-

Spraberry Wildcat Staked In Midland By Forest Oil

Forest Oil Corporation and associates are to start drilling by June 1 on their No. 1 Pio Crespi, an 8,000-foot wildcat in North-Central Midland County, to test the Spraberry sand of the lower Permian.

The prospector will be eight miles southeast of the city of Midland, and 900 feet from north and 1,980 feet from west lines of section 17, block 24, TP survey, T-2-S.

It is on a solid block of 8,820.80 acres which was assembled by Robert S. Brennan, Jr., of Midland. He turned an interest in the block to Forest to drill the well.

That exploration was completed in July 1948 as a producer from the Strawn lime from pay at 10,330-390 feet. It pumped oil and water until it was plugged and abandoned in July 1947, when the production had declined to less than 15 barrels of oil per day, with considerable water. That well was designated as the discovery of the Midland field.

The new wildcat is six miles northwest of the nearest completed producers from the Spraberry sand in the Tex-Harvey field of Central-East Midland County.

Humble No. 1 Buchanan was located 660 feet from west and 1,980 feet from north lines of section 32, W. M. Bairdridge survey.

The prospect flowed 14.25 barrels of 41-gravity oil, and no formation water in 90 minutes, naturally, in a drillstem test at 8,585-8,630 feet.

Operator representatives have not announced whether the well will be completed for this pay, or drilled deeper. It started out under a contract to dig to about 10,000 feet to test the Ellenburger.

Location is 1,980 feet to test the Ellenburger. Location is 1,980 feet from south and 900 feet from west lines of the southeast quarter of section 431, block 9, EL&RR survey.

The oil flow came during the last 60 minutes of a drillstem test at 8,585-8,630 feet. Gas showed at the surface in eight minutes; mud cut off started flowing at the top in one hour and 47 minutes and oil flowed at the surface in one hour and 49 minutes.

The oil was flowed to pits for 20 minutes to clean and then turned to tanks for one hour and made the 14.25 barrel flow.

The oil had a shakeout of four-tenths of one per cent basic sediment.

Operator has not officially decided what the age of the formation is. Top of the pay is at 8,618 feet. Electric log surveys were being run at last report.

Shallow SW Scurry Well To Test Canyon

Cities Service Oil Company will retest a shallow well in the Sharon Ridge 3,400 field in Southwest Scurry County and deepen it to test the Canyon field in Southwest Scurry County and deepen it to test the Canyon zone in that area.

SE Stepout Staked To North Vincent

Wheeler-Weinschell of Corsicana have staked a mile and a half south and slightly east stepout to the North Vincent (Rainicks)-Canyon pool in Southeast Borden County.

Ellenburger Project Staked In Peck Area

Norwood Drilling Company No. 1-3 Jose Faya Peck is to be a 13,300-foot exploration to the Ellenburger in the "Sweetie" Peck field of Southwest Midland County.

Permian Basin OIL & GAS LOG James C. Watson Oil Editor

merly producing at around 4,300 feet, will be deepened to approximately 5,350 feet.

Drillrite is 265.1 feet from north and 605.4 feet from west lines of section 1, block 44, T-1-N, T&P survey, and approximately 20 miles south of the town of Andrews.

NW Martin Wildcat Develops No Shows

Spartan Drilling Company of Dallas, and associates No. 1 Wolcott, Northwest Martin County wildcat, 13 miles northwest of Lenora, and 5,864 feet from west and 1,471.8 feet from north lines of league 251, Ward County School Land survey, was to drill ahead from 8,013 feet in the Spraberry sand section of the Permian, after failing to develop any signs of production in a drillstem test at 7,968-8,013 feet.

SE Kent Wildcat Tops Ellenburger

Goff and Sutton No. 1 Fleming Foundation, Southeast Kent County wildcat, 26 miles southeast of Snyder, and 660 feet from north and east lines of section 83, block K, T. A. Thomson survey, topped the Ellenburger at 7,200 feet, which gave it a datum of minus 5,168 feet.

Reeves Prospect To Run Casing

Hill and Hill and Texas Pacific Coal & Oil Company No. 1 Brack- enridge estate, West Reeves County wildcat, 15 miles north of Toyah, and 990 feet from north and east lines of section 39, block 57, pal survey, was bottomed at 3,836 feet in the Delaware lime, and was to set and cement 5 1/2-inch casing before drilling deeper.

C-S Andrews Well To Test Deeper Pay

Forchall Oil Company of Midland No. 3 Emma Cowden, an old producer on the west edge of the Emma-San Andres pool in extreme Central-South Andrews County, will be deepened to test the Holt pay of the North Cowden Deep pool seven miles to the southeast.

Shallow SW Scurry Well To Test Canyon

Cities Service Oil Company will retest a shallow well in the Sharon Ridge 3,400 field in Southwest Scurry County and deepen it to test the Canyon field in Southwest Scurry County and deepen it to test the Canyon zone in that area.

SE Stepout Staked To North Vincent

Wheeler-Weinschell of Corsicana have staked a mile and a half south and slightly east stepout to the North Vincent (Rainicks)-Canyon pool in Southeast Borden County.

Ellenburger Project Staked In Peck Area

Norwood Drilling Company No. 1-3 Jose Faya Peck is to be a 13,300-foot exploration to the Ellenburger in the "Sweetie" Peck field of Southwest Midland County.

TEXAS OIL ROUNDUP—

Gas Price Changes Show How Fast Outlook Shifts

By MAX B. SKELTON HOUSTON (AP)—Gasoline prices last week gave strong evidence of how quickly petroleum market outlooks can change.

Only a month ago soaring gasoline storage stocks were at an all-time high and causing jitters in the industry and among state oil conservation officials.

There was fear of spreading gasoline price wars. But the trend changed rapidly. Domestic gasoline storage dropped approximately 7,000,000 barrels in the four weeks ending April 29.

Price increases late last week had spread into oil-rich Texas. A half-cent per gallon hike posted on tank prices Thursday by the Texas Company was passed on rapidly to the consumer.

While all this was developing, previous estimates of 1950 consumer demand for gasoline were being revised. Some areas now are expected to need as much as 10 per cent more gasoline this year than in 1949.

Current domestic production averages slightly above 5,000,000 barrels daily. This is a slight increase over last year but still some half million barrels below late 1948 output.

The sharp change has been in reduction of stocks in storage. Within five or six months stocks for crude and the four principal refined products—gasoline, kerosene, light and heavy fuel oil—have dropped nearly 75,000,000 barrels.

Officials of the Amerasia Petroleum Corporation last week advised stockholders the new gasoline price hikes may be an important factor in maintaining 1950 crude prices at present levels.

Independent producers facing production cutbacks have predicted declines in crude oil prices frequently. Many have said the price would fall this Spring if foreign oil imports continue to climb.

Texas Railroad Commission engineers are drafting field rules for

two of the Scurry County, Texas, flush production oil fields—North Snyder and Kelly—which have been found to be producing from the same reservoir. The reservoir now will be called the Kelly-Snyder Field.

Economic Cooperation Administration officials have announced granting of \$28,085,000 to Holland and France for purchase of petroleum in the United States, Latin America and Middle East.

Liquid fuels from gas increased to 8,599,808 barrels during the month, compared with 7,215,180 in the same month last year.

nion Oil Taps New San Andres Pay In E-C Lea

BBS, N. M. — Union Oil Company of California is preparing to complete its No. 1 Kye, East-Central Lea County discovery from San Andres-Permian lime and production as a small pump-producer and new field opener.

The development is 10 miles east of Hobbs, and almost on west lines of Gaines County. It is 1,980 feet from south and 90 feet from west lines of section 20-30-39.

section in the San Andres at 4,410 feet had swabbed and an average of three barrels of oil per hour for an extended period, after that horizon had been with nitroglycerin and treated three injections of acid.

Water Developed

far as has been reported it not shown any formation water. A recent test it flowed 66 barrels of oil in an unreported length and the flow then died.

erator decided to install a pump well could be made to produce regularly.

A wildcat is several miles from production from the San Andres. It drilled to a total depth of 7,507 feet, and flowed 123 barrels of oil in six hours, through a three-quarter inch tubing choke.

with some formation water. The hole was then plugged back to 4,410 feet for the San Andres completion.

Earl Levick No. 1 State is slated as a 1,950-foot wildcat in Central Chaves County, about 20 miles northeast of Roswell.

It is located 660 feet from north and 1,980 feet from east lines of section 7-25-27e.

The venture was making hole below 143 feet in redbeds at last report.

Knowles Extension

Amerasia Petroleum Corporation No. 1-A Eaves in East-Central Lea County, about two miles northeast of the town of Knowles, and one location outside the proven limits of the Knowles-Devonian field has been completed for a daily initial production of 1,500 barrels of oil, plus four barrels of basic sediment, from pay in the Devonian at 12,478-585 feet.

The flow on the completion test was through a one-half inch tubing choke. Gravity was 48 degrees. Gas-oil ratio was 175-1. The production is from open hole. The pay section had been treated with 500 gallons of acid.

thony Guinness and Mrs. Guinness, Montreal, Canada; Mrs. Jay Floyd, Midland; W. W. Cumberland, New York City; Bobby Floyd, Midland, son of Mr. and Mrs. Jay Floyd; Stanley Weiner, Midland, manager of the West Texas division of Ted Weiner and associates; and Ted Weiner, Fort Worth. Tree, Guinness and Cumberland are associated with Weiner in the development and operation of a large number of leases in the Tex-Harvey field.

and complete.

Amerasia No. 1 J. E. Simmons, et al in the Bagley Permo-Pennsylvanian field in Northwest Lea County, and 660 feet from north and west lines of section 11-12a-33e, reported a daily initial production of 291 barrels of oil plus 172 barrels of basic sediment and water from pay between 9,000-9,101 feet, in the lower Permian.

The flow on the completion test was through a one-half inch tubing choke. Gas-oil ratio was 1,847-1. Gravity of the oil was 45.3 degrees.

The producing zone had been treated with 4,500 gallons of acid.

This development drilled to a total depth of 11,046 feet in Devonian lime. That horizon was barren and the hole was plugged to 9,101 feet for the completion in the lower Permian.

Chaves Wildcat Drilling

Union Oil Company of California No. 1 State-Fairbairn, in Southeast Chaves County, 10 miles south of the Caprock field, and 2,080 feet from north and 960 feet from west lines of section 24-14a-31e, had reached 10,006 feet in dry lime and was making more hole.

Up to now this prospector has not encountered any possibilities of production. It was originally slated to test to 10,000 feet.

Operator has not revealed how much deeper the project will be carried. No official geological information has been released.

Magnolia No. 1 Lightcap, in the panhandle of Central-East Chaves County, and at the center of the southeast quarter of the southwest quarter of section 6-2a-39e, had progressed below 7,688 feet in an undrilled lime, and was making more hole.

This venture is slated to continue until it encounters granite, or production.

Humble Oil & Refining Company No. 1 Pearson, Northwest Eddy County, and at the center of the center of lot 2, section 2-18a-25e, had progressed under 7,881 feet in lime and was boring deeper. This is an old shallow dry hole which is being deepened to around 10,000 feet.

Operator has not revealed how much deeper the project will be carried. No official geological information has been released.

shows of oil, gas or water. The exploration is to drill ahead. Location is 600 feet from east and 1,900 feet from south lines of section 33, block 31, T-2-N.

Humble Stakes Site In C-S Crane Pool

Humble Oil & Refining Company has staked a northeast offset to its discovery well of the Cordona Lake-Devonian pool in Central-South Crane County.
Humble No. 5-B Cowden and others will be 615 feet from southeast and 2,124 feet from northeast lines of section 16, block 2, H&TC survey.
Staked depth is 5,800 feet. The Cordona Lake field is 12 miles southwest of Crane.
Discovery well of the field was Humble No. 1 Jax M. Cowden, which potential for 224.44 barrels of 40.2 gravity oil daily through a three-fourths inch choke.

Two Tests Spudded In Benedum Field

Two new explorations have spudded in the Benedum multi-pay pool which straddles the Upton-Reagan County line.
Plymouth Oil Company, Shell Oil Company and Fred Turner, Jr., of Midland No. 1-B Dixon will be 660 feet from north and west lines of the northeast quarter of section 3, C. Bendis survey, on the southeast side of the field.
The No. 1-B Dixon, slated to go to 12,500 feet to test all pays down to and including the Ellenburger, has set surface casing at 324 feet and was last reported waiting on cement.
Plymouth No. 1-1280 1/2 H. F. Neal, also slated to test to the Ellenburger, will be a southwest step-out from production.
The No. 1 Neal will be 660 feet from south and east lines of extreme east 202.4 acres of L. M. Lee survey No. 1280 1/2.
The project is being drilled with combination tools and was last reported drilling below 180 feet in Cretaceous lime.

Three Midland-Area Wildcats Cut Ahead

Three important and close watched wildcats in the immediate vicinity of Midland are making more lead.
Magnolia Petroleum Company No. 2 Parks, 11 1/2 miles south of Midland, and 660 feet from north and 2,180 feet from west lines of section 10, M. Daugherty survey, had reached 12,000 feet in dry Devonian lime and chert, and was boring deeper.
The Devonian was topped at 580 feet. That gives it a datum of 9,755 feet on that marker.
The Texas Company No. State, in Northwest Martin County, 11 miles north of the Mabes field and 660 feet from north and 1,100 feet from east lines of section block 7, University survey, is drilling ahead past 13,126 feet an unidentified lime.
Gulf Oil Corporation No. 1-3, Gulf W. Glass, 12 miles north of Midland, 18 miles west of Van and in Southeast Martin County, had reached 6,236 feet in Permian and shale, and was looking deeper. It is contracted to 13 feet to explore the Ellenburger.
Location is 1,900 feet from north and east lines of section 13, block 89, T-2-N.

No Shows Logged By Nolan Tester

Michael No. 1 Farrar, wildcat in Central-West Nolan County, has recovered no shows on a drillstem test in the Ellenburger at 7,354-7,450 feet.
The tool was open two and one-half hours. A slight blow of air lasted two hours and nine minutes, then died. Recovery was 150 feet of drilling mud.
Operators were reported drilling ahead below 7,450 feet.
The No. 1 Farrar topped the Ellenburger dolomite at 7,306 feet, on a minus datum of 4,713 feet.
No possibilities of production have been logged in any section thus far drilled.
Drillate is 660 feet from south and west lines of the northwest quarter of section 196, block 1-A, H&TC survey, and four miles northwest of Marryneal.

Magnolia Schedules Two In Kelley-Snyder

Magnolia Petroleum Company has staked two Canyon explorations in the Kelley-Snyder field in Central Scurry County.
A Magnolia No. 4 Dink Lyons will be two and one-half miles northwest of Snyder, and 467 feet from north and west lines of the northeast quarter of section 250, block 97, H&TC survey.
Magnolia No. 5 A. J. Logan will be three miles northwest of Snyder and 660 feet from north and west lines of section 250, block 97, H&TC survey.
This failure is 3,198.3 feet from north and 3,126 feet from west lines of section 12, block 45, T-2-N survey, and seven miles east of Penwell.
Drillate was one and three-fourths miles south of the well portion of the South Cowden-Grubbs pool.

Dowell Changes WT Managers

W. N. (Woody) Estel and Ralph H. Smith

Estel Promoted To Tulsa; Smith Comes To Midland

W. N. (Woody) Estel of Midland, district manager for Dowell, Inc., will be transferred to Tulsa, and assume duties as sales development manager. His promotion becomes effective June 1.
Ralph H. Smith of Houston, former district manager for that area, has been moved to Midland to head the West Texas area in place of Estel. Smith's appointment became effective May 1.
Estel, a graduate in business from the University of Tulsa, joined Dowell in July, 1940. Before joining Dowell's staff he was with Carter Oil Company.
In 1942, Estel was made station manager at the Dowell office in Grayville, Ill. On April 1, 1945, he was transferred to Borger, Texas, as manager of that district.
He was placed in charge of Dowell's West Texas operating area in 1948.
UT Graduate
Smith is a petroleum engineering graduate from the University of Texas. He has been Houston district manager for Dowell since 1948.
Smith joined Dowell in 1944 as district engineer in Houston. Before that time he had several years petroleum engineering experience with the Railroad Commission of Texas and with Stanolind Oil & Gas Company.
Dowell, Inc. is a Tulsa firm specializing in the application of chemical services to the petroleum industry from West Texas to Canada.

RRC Consolidates Two Scurry Pools

The Railroad Commission of Texas has decided that the North Snyder and Kelley-Snyder fields in Scurry County produce from the same reservoirs.

Effective May 1, the heretofore two producing areas will be known as the Kelley-Snyder field. Joint rules are being drafted, with the new regulations being similar to those already in effect.

The combined field still has a limit of 220 barrels daily.
For wells in the Diamond M, Sharon Ridge and Cogdell areas, future development will decide whether or not they are linked with the common pool of the Kelley-Snyder field.

Pro-rated In Cogdell
The Commission also announced that Progress Petroleum Company No. 1 Buffalo, recent Canyon discovery in the Central-North Scurry County, will be pro-rated the Cogdell field. Castelman & O'Neill No. 1 Feldman & Pardo, two miles to the northeast already has been named part of the Cogdell producing area.
In the Diamond M and Sharon Ridge Canyon fields, the commission has allowed the tolerance in lieu of the 10-acre tolerance formerly in effect. This means that as much as 20 surplus acres might be added in calculating allowances in those areas.

The Tool Pusher

Conservation Laws 'Insurance Against Ghost Towns And Empty Fuel Tanks'—Anderson

BILOXI, MISS.—The general public interest in state oil and gas conservation laws is "insurance against ghost towns and empty fuel tanks," R. B. Anderson, Vernon, president, Texas Mid-Continent Oil & Gas Association, told the Interstate Oil Compact Commission in its final session here Saturday.
"Although there are daily situations within the industry where individuals could make quick profits in the absence of such rigid laws, I believe that most oil men today have become educated to their great public responsibilities to conserve our precious natural resources."
Anderson cited the highway transport industry, the automobile industry and the average citizen's investment in automobiles as all being dependent on a steady supply of cheap liquid fuel.
"It is unthinkable that anyone would propose to tamper with our conservation laws and our economic system in such a manner as to deny the average American the full advantage of the technological progress which he enjoys today," Anderson said.
Conservation Insures Supply
"The dependable supply of natural gas which is insured by the conservation laws of our petroleum producing states has freed the households of more than 20 million households from the whimsical supply pattern that has become established in the coal industry," he said.
"As long as they have a choice, the people who live in the oil producing areas will not want to let their own economy to the boom-and-bust developments such as were experienced prior to the enactment of our conservation statutes," Anderson said.
Anderson explained that important discoveries such as the Scurry County development would not have been made "if the searching operators had not been assured by the conservation laws of Texas that when they find a field, they would have a share in supplying the total demand for oil from Texas."
Equalizes Production
"Under the conservation laws of Texas," he said, "the operators of new fields are not allowed to skim off the easy production, the economic cream, and allow the older less efficient wells of the state to be shut down with the resultant loss to the nation of millions of barrels of oil."
"Hitting at attacks in Washington against the state conservation laws, Anderson said:
"Those who would subject our civilian population to the unrest and panic of a widely fluctuating supply of petroleum in peacetime for private gain and those who would expose this country to attack without adequate petroleum reserves will have their purposes well served through the weakening, by whatever pretext or stratagem of the conservation laws of our petroleum producing states," the speaker declared.

Truman Program To Aid Small Business Is Praised By Demos

WASHINGTON.—A new five-point program submitted by President Truman to aid small businessmen drew high praise Saturday from Senate Democrats and sharp criticism from Senator Wherry (R-Nebr).
The program, sent to Congress in a special message late Friday, calls for government insurance of loans to small business and for creation of investment companies to make long term loans.
It got a cool reception in New York banking circles. There was no immediate comment from small business groups.
The administration's growing concern over the unemployment problem, it proposed:
1. Legislation to provide self-sustaining insurance for bank loans up to \$25,000, repayable within five years.
2. Authorization for the federal government to create and charter national investment companies, "to provide equity capital and long term loans for efficiently-managed businesses unable to finance themselves on reasonable terms through the organized securities market."
Broadened RFC Lending
Finance Corporation lending powers by permitting the agency to relax its collateral requirements, and extend the maximum maturity of loans from 10 years allowed at present to at least 15 years.
3. Placing the RFC under supervision of the secretary of commerce. Truman said he would send up a reorganization plan to accomplish this.
4. Authorizing the secretary of commerce to establish a clearing house to gather and disseminate scientific, engineering and managerial information, and undertake research on technical problems of interest to small business.
There are 333 American-built electron microscopes in use throughout the world.

Burglars Enter Two Pecos Firms

PECOS.—Burglars Thursday night entered two Pecos business establishments, getting away with \$100 worth of narcotics and \$5 cash from Blackard's Prescription Shop and from Dunn's Service Station.
Both establishments are located on West Third Street here. The burglars broke the front glass to gain entry into the Prescription Shop. Their method of entry to the service station is unknown.
Both establishments are being attempted to enter the rear door of Pecos Drug Store No. 1 but failed to get the door open.
Reeves County Sheriff Charlie Fitzgerald, Jr., is investigating the burglaries.

WASHINGTON OIL—President Truman Gives Close, Sudden Attention To Problem Of Imports

WASHINGTON.—President Truman is giving close attention to the problem of oil imports for the first time; here are a few of the things which have been happening.
House Speaker Sam Rayburn of Texas went to see the President last Monday, and talked petroleum with him for a long time. He dodged newsmen, and the visit never was reported.
Next day, the President got Interior Secretary Oscar Chapman on the telephone early in the morning. Come to lunch, he invited, and Chapman went to lunch at the Blair House, where the President lives while the White House is under repair. This is a small house, across the street from the scaffolded executive mansion.
But before he came, Chapman asked the Census Bureau to do a rush job for him, and supply the March figures on oil imports, which had not been compiled. The Census obliged, and also supplied an April estimate, which shows that imports are now in the neighborhood of 800,000 barrels daily, highest in history. Domestic production is shut in as a result, and Texas, Oklahoma and other oil producers, royalty owners and others are losing \$2,000,000 daily.
More Figures
After lunch, the President asked Chapman to get some more figures, and then come back and see him again in a few days. They would talk some more, said the man from Missouri, who now is becoming slightly stouter to the distress of his docked executive mansion.
Adding up one thing after another, Chairman Wright Patman (D-Texas) of the House Small Business Committee flatly says:
"I think the President is going to take action under his executive powers; he won't ask legislation, but there are certain things he can do."
Just what he can do, neither Patman nor anyone else appears to know at this time. Patman was prepared to say, Truman has asked the President to set import quotas under "escape clauses" in the tariff agreements. A more well-known suggestion has been to ask all importing companies to reduce imports on a voluntary program to be directed by the President, through his Interior Secretary.
Legislation to restrict oil imports is getting a cold-shoulder and not only because Speaker Rayburn said no. Such an action would bring 1,000 other industries clamoring for special protection, the government fears. An ever more pertinent reason was advanced by Rep. John E. Lyle of Corpus Christi, who believes oil imports are far too high.
While he firmly opposes legislation to limit imports, he explains: "If Congress passes a law about this it opens the door of government control, and that is one door that never closes."
Next thing, the government might say we have too much domestic production, and thus it should take away the 27.5 per cent depletion allowance. After that, let's stop sending oil into coal-producing areas. Then, let's use oil for engines only, and not for burning. The final step would be to set up a commission to allocate markets, prices, production and the like. This is very much the idea of many in government."
Warning Sounded
Lyle, a blunt, affable well-informed man who did as much or more than anyone to get Leland Olds off the Federal Power Commission last year, also warns oil men against teaming up with the coal men in the battle against oil imports. "So John L. Lewis wants to keep out foreign residual oil," he says. "Well, I bet that's so coal can take over more markets, not to give more markets to Texas crudes."
He adds: "If the oil people get moved up with that crowd, they will end up under a lot of laws, and the laws will be in the interest of coal, not of oil."
As if to prove his words, the United Mine Workers now has out a press release stating, "As a defense measure, the oil industry should be taken out of the coal business."
Note: Under study in high inc-

'Permian Pete'

Drilling Activity In Permian Basin Area Continues To Gain

Tempo of the petroleum drilling activity in the Permian Basin of West Texas and Southeast New Mexico continues to increase according to the regular semi-monthly survey of Reed Roller Bit Company.
On May 1, 1950, there were 541 active rotary rigs in the region. That was an increase of six from the 535 strings of tools which were working in the Permian Basin on April 15.
Big Jump From 1949
The May 1, 1950, total was a jump of 185 from the 356 rigs which were operating in West Texas and Southeast New Mexico on May 1, 1949.
Scurry County listed 200 active rigs on May 1, a drop of 15 from the 215 credited to that county on April 15.
Borden County had 23 active rigs on May 1 as compared with 21 on April 15. Kent County listed eight active rotary rigs on May 1, a gain of one from the April 15 figure.

Patterson To Show Australia And Java Pictures To MGS

Colored moving pictures of scenes in Australia and Java will be shown at the Tuesday luncheon meeting of the Midland Geological Society.
The pictures will be shown by L. E. (Ed) Patterson, president of MGS. He filmed the scenes while stationed in those countries during World War II.
The meeting will be in the Crystal Ballroom of Hotel Scharbauer.

Messman Of Conoco Joins Independent

Roger L. Messman has resigned as assistant division geologist for Continental Oil Company at Ponca City, Okla., and is now associated with William Graham, president of Kansas, independent oil operator.
Graham and Messman plan extensive exploratory and development work in Kansas and Oklahoma.
Messman joined Conoco in 1936. His work with Continental includes experience in West Texas and Wyoming.

Texas Oil Heir Will Estate To Boys Town

LOS ANGELES.—A life income for his common law wife and the remainder of his \$370,000 estate to Boys Town, Neb., were provided in the will of Edwin A. McKenna, Jr., son of a late Texas oil man.
The document, probated Friday, left \$10,000 to Nancy Davis, identified as his common law wife, and set up a trust fund to pay her \$200 a month for life.
McKenna, who died April 25 at the age of 28, provided that the rest of his income—about \$36,000 a year—go to Boys Town, and that it get all the estate when Miss Davis dies.

FENCE DAMAGED

A fire Saturday at 922 North Baird Street damaged a fence. The place belongs to F. W. Nixon. Firemen extinguished a trash and fence fire at 2005 West Texas Street Friday.

SPORT SLANTS

BY SHORTY SHELburnE

Tommy Hart, the Big Spring scribe who makes it a habit to predict things that seldom come true, has launched another burst in Midland's direction.

Says Hart, in his latest, "Gloria Strom Zell, formerly of Big Spring and now of Midland, could beat Alice Bauer, the older of the two sisters, consistently on the golf course."

We have the greatest admiration for Gloria and her golf game. She is a fine woman and a fine Country Club golfer. But beating the Bauer Sisters is a big order.

Gloria is steady most of the time but we doubt if she or any other woman in West Texas could top either of the Bauer girls.

Mariene and Alice live their golf day in and day out and make it more of a business than does Mrs. Zell.

The Bauers have all the qualities and constant coaching from Dave Bauer has made them champions.

There are few women in the United States who can beat the Bauers. There is none in Midland or West Texas.

Anyone who saw Sybil Flournoy playing Friday probably would have bet she could beat Byron Nelson.

Sybil set something of a new record in her match with Mrs. Sam O'Neal of Odessa.

Sybil Flournoy fired a hole in one on No. 16 to close out the match. It was a 128-yard poke and gave Sybil a 4 and 2 victory.

We have seen and heard of holes in one in tournaments but we can't find where a hole in one ever closed out a match before.

Mrs. Bonnie Awrey, the defending champion in the Invitation, was not playing anything like her usual game this year. She has been troubled with more things than one.

Tribe Loses In Two Tilts

SWEETWATER — The Midland Indians dropped a couple of hard-luck ball games here Friday night as they engaged the Swatters in a doubleheader. The Tribe went down 8 to 7 in the 10-inning first game and lost 9 to 8 in the other.

A pinch-hit single by Bob Phillips, rookie catcher, drove in two runs for Midland in the seventh inning of the first game to tie the score. Sweetwater managed a run with one out in the last half of the tenth to win.

Jim Prince almost tied the score in the second game when he clouted a three-run homer in the last of the seventh. It was one run short, however.

James Hilt 4 For 5

Kenny Jones, with a triple and three singles in the first game was the leading hitter for Midland. He drove in three runs.

Prince had a homer and a double for six RBIs in the second tilt. Scooter Hughes had a triple and two singles and two RBIs.

Starting pitchers for Midland were Dick Balfe in the first game and Glen Patton in the second. It was Patton's first appearance with the Indians this year.

Midland Colts Try Odessa Here Sunday

The Midland Colts and the Odessa Stars, both Latin American teams, will tangle at 2:30 p.m. Sunday in the Home of the Colts here.

The Stars are one of the toughest nines in West Texas and hold a win over the Colts already.

Captain Jose Lopez said he will send Left Ochoa, his ace, to the mound against the Stars Sunday.

Bulldogs Get Rough In Hot Scrimmage

The Midland Bulldogs went together in their roughest scrimmage of the Spring training period Friday afternoon at Memorial Stadium to end the second week of drills.

Coaches Red Rutledge and Audrey Gill split the squad for the semi-game type drill. It was a full dress rehearsal.

Jack Burris, last year a starting halfback and one of the 17 returning lettermen, showed up great in the drill. He got off some good passes and showed more spark with his running attack.

The quarterbacking brought into play a number of tricky movements and passes were plentiful. The running game of both teams showed their deception.

Key blocks were executed perfectly several times by Dwane Bush, Jimmy Linbarger and Bill Medart, ends, and by Charles Crowley and L. C. Thomas, backs.

Thomas improved.

Thomas probably is the most improved boy on the squad. He has more savvy this Spring than he did during last year's campaign and is running better.

The big Bulldog line got in some crushing licks. The forward wall will average more than 180 pounds at present with Dalton Beyerley, Pete English, Bob Wood, Jerry Culp, Stan Coker and Jimmy O'Neal in there. All are lettermen who are counted on to give the Purple the best line in the district.

Beyerley, with added weight, is an outstanding guard. He likes it rough and demonstrated it time after time in last week's drills.

Spring training will continue until May 27, when it will be completed with an intra-squad game under the lights at Memorial Stadium.

WATCH STOLEN
Mrs. Fred Brashears, 708 West Florida Street, Saturday reported to police the theft of a wrist watch from her home.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, MAY 7, 1950-9

Schools Adopt 19-Year Rule

AUSTIN—(AP)—Nineteen-year-olds will be eligible for interscholastic League competition, effective school year after next.

Adoption of the 19-year, 10-semester rule and three other rules by school members was announced Saturday at the fortieth annual state meeting of league delegates.

The rule was approved by a vote of 627 to 114. It allows school boys and girls to compete if they have not reached or passed their nineteenth birthday on the first day of September preceding the contest and if they have not completed the tenth consecutive semester following first enrollment in the eighth grade.

At present, eligibility is limited to students who have not reached 18 on the first day of September preceding the contest and who have not completed the eighth consecutive semester following enrollment in the ninth grade.

Strongly endorsed was a rule aimed at keeping schoolboys out of college athletic try-outs. The vote was 578 to 183 in favor of the proposal which makes ineligible any one who participates in a college athletic practice session or tests to reveal, demonstrate or display athletic ability.

Effective in 1951-52, League members approved, 545 to 184, a rule barring competition either as an individual or as a member of an athletic team in an out-of-state athletic contest that has not been approved by the State Executive Committee. This does not

Byron Nelson, PGA Entry Here, Is All-Time Great

The Texas PGA Tournament scheduled at Midland Country Club May 29-June 4 will bring to Midland some of the all-time greats in golf. Top-ranking amateurs and professionals will battle for places in the field of 120.

Lord Byron Nelson, possibly Texas' greatest golfer of all time, will be on hand to add prestige to the tournament.

He has one of the greatest and most colorful records ever compiled on the links. Nelson, the tall Texan, certainly must be ranked with the greatest golfers of all time. He won every championship the game had to offer and set the all-time record of taking 19 tournaments in one year—11 of them in a row. That was 1945 when Nelson earned \$53,335.66 in war bonds—the greatest money winning in golf history.

He also set the world's record for scoring with 259 for 72 holes at Seattle in 1945.

Nelson was called "Lord Byron" because he was the lord of the links.

Retired In 1946

He retired in 1946 after 15 years of campaigning in the big time. Nelson started in golf as a caddy at Glen Garden Country Club in Fort Worth. He turned professional in 1932 and had tough sledding until 1937 when he started to click in the big money. He won the National Open in 1939 and the National PGA in 1945.

He still plays considerable golf but mostly in exhibitions. He makes the Masters, Colonial National Invitation at Fort Worth and another tournament of two each year, including the Texas PGA. He has a farm near Roanoke, Texas, where he raises whiteface hereford.

Nelson was one of the most popular men along the golf trail, both with the fans and the press. He still is one of the glamorous figures of the game, a fine gentleman, a great golfer and a man revered by fans and golfers alike.

AUSTIN—(AP)—Highland Park of Dallas took home the first state team championship in Interscholastic League golf Friday, but the individual title went to Lee Pinkston of Abilene.

Pinkston toured the Lake Austin Municipal Links twice for a 36-hole score of 146. That helped Abilene grab second place team honors with a 643 total.

Highland Park's foursome of Floyd Addington, Kirby Edwards, Jim Hjelmseth and Stewart Carroll came in with a combined score of 637.

Addington's 149 was good for second place in the singles.

The Abilene team included Don Winters, E. G. Cockrel, Bill Collier and Pinkston.

One of the world's oldest highways, the Appian Way in Italy, was built in 312 B. C.

Longhorns Captu Southwest Golf T

FORT WORTH—(AP)—A group of Texas golfers took the 5th Conference golf title Friday, defeating Texas Christian U. five and one-half to one—Colonial Country Club.

Morris Williams, Jr., of Longhorns with an even par a 2 and 1 triumph over the No. 1 shooter, Dan Jenkins.

Midland Purchased For New Country Club Golf Links

The Midland Country Club has purchased a section of three miles north of the city and plans are underway for construction of an ultra-modern 18-hole golf course. President Percy Bridgewater has announced. The land was purchased from Carl Covington for \$100 according to public records filed here.

Alph Plummer, noted course architect of Dallas, has been engaged to design the course. He appears the course can be one of the finest in the state.

The Country Club had extensive work done to determine if water is available on the site. The report from drillers was favorable.

SECOND OF SERIES

"Get Children Wrapped Up In Golf"—Bauer

By DAVE BAUER
Father and teacher of the famous sisters.

It is a tremendous advantage to get children wrapped up in golf—or any other game—at a tender age before they go on to other interests.

This is especially true with girls. And, as you know, I have had considerable experience handling girl golfers.

A father came to me, and said: "Mr. Bauer, I have a small daughter 10 years old. Don't you think she's too young to play golf?"

My answer was, of course, in the negative. "I tried to get her started," he replied, "but she didn't seem to like it."

"Well, neither did I," I told him, "until a friend got me to go out with him long enough to create an interest."

TEXAS SCRIBES SPEAK—

Woman Dominates State Half-Century Sports Poll

DALLAS — (AP) — Texas sports writers have spoken—they have chosen this state's greatest athletes and sports events of the half-century—1900 to 1950.

They did it in a poll conducted by The Associated Press and the person winning the most renown was a woman. Babe Didrikson, who became Mrs. George Zaharias, was selected as the greatest all-around athlete, the greatest woman golfer and even was mentioned as the top woman swimmer.

The writers went far back for two of the awards—they named Jack Johnson, the big Galveston negro who became heavyweight champion of the world in 1908, as the greatest boxer, and Tris Speaker, who went to the big leagues in 1907, as the greatest baseball player.

Here were the selections of the sports writers: The Southern Methodist-Notre Dame football game was the top individual feat and that game itself was the most thrilling sports contest.

Here were the selections of the sports writers: The Southern Methodist-Notre Dame football game of 1949. Texas' most thrilling sports contest—The Southern Methodist-Notre Dame football game of 1949.

Storms—

(Continued From Page One) fallen snow across the western prairie lands of the Dakotas and Nebraska. Some six inches blanketed Central and Western Nebraska early in the day.

Texas Back To Normal The winds of hurricane force extended through the Dakotas, Nebraska, Kansas, Missouri, Illinois, Iowa, Minnesota and Wisconsin. Texas and Oklahoma were "about back to normal" after Thursday night's tornadoes.

There was much damage to buildings. Trees were uprooted, power lines snapped and plate glass windows caved in. At least two homes in Duluth were demolished. The damage in Superior alone was estimated at several million dollars.

Fire Hits Stockyards The Weather Bureau reported gusts of more than 100 mph. at Green Bay, Wis., and several stations in Iowa said winds were above 80 mph., and 90 mph. in some sections, including Des Moines.

Tornadoes which hit near Redwood Falls, Minn., and Maple Lake, Minn., destroyed several farm buildings.

Fire, fanned by the high winds, destroyed 2,000 sheep and a large feeding barn at the St. Joseph, Mo., Stockyards. Firemen were unable to control the blaze, which was whipped by wind gusts up to 76 mph. Loss was estimated at \$106,000 by a stockyards company official.

In His Merry Oldsmobile, Chugging From Louisville To Convention In California

Splitting the wind at seven miles per hour, Russ Cornelison of Louisville, Ky., flashed through Midland Saturday, in his Oldsmobile touring car—vintage 1901.

Cornelison, a Louisville Shriner, is enroute to Los Angeles for the Shriners convention, and is taking the slow and not-so-easy way, taking eight weeks for the trip. He left Louisville three weeks ago, and expects to arrive in Los Angeles in time for the June 18 meet.

The ancient automobile, which Cornelison says he picked up in northern Indiana about 20 years ago, is the true "horseless carriage." All it needs is shafts and a horse to look normal on the road. As it is, the small, open model attracts as much attention now as it did 48 years ago, when horses and mules ran in terror at the sound and sight of it.

"Back in Arkansas," Cornelison says, "I had to stop several times when mules ran away when I came along."

Powered by a one-cylinder motor which Cornelison says has five-mile power, the ancient vehicle scoots along the highway at a smart ten-mile-an-hour clip — unless "Mule Power" is called.

"I call it five mile power from the way it kicks when I forget to retard the spark," Cornelison said. "Many a time I've looked down on that top when it kicked me while I was cranking."

But the trusty old car has plugged right along, and Cornelison is right on schedule. He says he sets a goal of ten miles for every hour on the road, and so far he has maintained his average. Curious passersby and throngs of children in towns cause delays in schedule, but the gregarious Shriner says he gets a kick out of the wide-eyed youngsters and curious oldsters who approach him with questions. He has a public-address system rigged in the back seat, with an amplifier mounted on the rear, which has been used when addressing groups at schools.

But recently the system conked out, and he hasn't had it fixed.

Asked about troubles on the road, Cornelison said he's been lucky so far. Only one minor trouble, a bolt broke while on the road, and he used baling wire to hold the "speedster" together until he could get a replacement. But he says for any parts which break or wear out on the road, he only carries a few to send the part to a machine shop in Louisville, where he has an arrangement to have parts made and shipped back to him via airplane.

Clad in his linen-duster, driving cap and goggles, which he wears for atmosphere, Cornelison looks the part of a turn-of-the-century automotive adventurer. He has grown a thick mustache and is looking the effect, and probably causes many a nostalgic old-timer to do a double take as he chugs majestically by.

Literary Winners - At IL Meet Named

AUSTIN — 37— Winners in literary events of the Interscholastic League state meet here included: Boys debate, Class AA, Beaumont; girls debate, AA, Waco; boys debate, Class A, Pharr-San Juan-Alamo; girls debate, Class A, Atlanta; Class A one-act play, Cuero; extemporaneous speech, AA, girls, Norma Smith of Lubbock; Class A girls extemporaneous speech, Beverly Tony of Hillcrest (Dallas); Class B girls extemporaneous speech, Martha Reinof of Sonora; boys extemporaneous speech, Class A, Barney Young of Amarillo; Class B boys extemporaneous speech, Jackie Ratliff of Sonora.

Today's Trend... PARKLEA PLACE

Yes, the trend today is to Parklea Place, Midland's top value in moderately priced homes and home sites. This modern development is located on high ground and situated close by the new Midland Memorial Hospital and a rapidly-expanding shopping center. Let us explain how easy it is to join today's trend... with a Boyce-built home in Parklea Place!

Homes Now Being Built: \$7,100 to \$8,025

Homes Ready To Build: \$7,100 to \$12,000

Drive out to Parklea Place and see the lovely two bedroom homes now under construction. Of frame or brick construction, they are beautifully designed for today... solidly built for tomorrow! A choice of 100% G.I., conventional or F.H.A. financing allows you to select the method best suited to your individual needs. Convenience and fine living are built into these Boyce homes.

If you are a prospective home builder, it will be well worth your while to visit Parklea Place, which begins just three blocks west of the new hospital. Here you will find just the home site you have been looking for—the pleasures of suburban living combined with the conveniences of a city home! 275 beautiful new two and three bedroom homes will be built in Parklea Place this year by the Boyce Company. Select your home site today!

Dinner, Dance Are Tourney Entertainments

A dance in the Midland Country Club Ballroom Saturday night and a continental dinner Friday night completed the entertainment program honoring players in the annual Women's Invitation Golf Tournament...

The Ladies Golf Association of the country club has been hostess for the series of parties. Association officers and their husbands acted as hosts at the dance...

Included in the host group were Mrs. Ann Lison, Mr. and Mrs. Mike Brumblow, Mr. and Mrs. C. W. Chancellor, Sr., Mr. and Mrs. J. E. Beakey, Mr. and Mrs. Herschel Ezell, Mr. and Mrs. J. J. Travis, Mr. and Mrs. W. H. Pomeroy, Mr. and Mrs. Bob Franklin, Mrs. Frank Johnson and Shirley Culbertson...

For the dinner Friday night the room was decorated with a variety of garden flowers. Pink honeysuckle covers, a trellis across the front of the stage and bowls of mixed blooms were set on the tables for eight. The dessert table had a large arrangement in a silver container...

Most of the out-of-city golfers are from the country club members were guests. Mrs. Robert Dewey, Mrs. P. F. Bridgewater, Mrs. R. S. Anderson, Mrs. Vaughn Mailey, Mrs. John Healey and Mrs. Johnson were on the committee which arranged the decorations.

P. E. O. Meets For Supper

Mrs. John Casselman was hostess to the members of the P. E. O. Chapter 1051 for a pot-luck supper. The supper celebrated the chapter's birthday...

Daisies and other Spring flowers decorated the serving table. A business meeting was held. Mrs. W. H. Brim was a guest. Members present included Mrs. D. A. Ross, Mrs. Paul H. Kohn, Mrs. T. W. Flewharty, Mrs. Joe Norman, Mrs. H. L. Skinner, Jr., Mrs. James E. Sprinkle, Mrs. George S. Turner, Dr. Louise Filman, Mrs. Richard Guenther, Mrs. James N. Allison, Mrs. J. L. Brown, Mrs. Van Camp, Mrs. J. M. Devereux, Mrs. Clint Dunagan, Mrs. T. S. Head, Mrs. David Henderson and Mrs. O. J. Hubbard...

Anyone interested in the library is invited to the meeting, which will be in charge of the club's Library Committee with Ada Phillips as chairman.

The program will replace the usual club luncheon. Members will have the special luncheon Sunday, however, honoring Willie Walker of Texas, governor of the Seventeenth Altrusa Club. They will meet on the mezzanine floor of Hotel Scharbauer at noon and have luncheon at 12:30 p.m. Members may invite guests for this informal meeting.

A group from the club went to Abilene Saturday night, when the Abilene Altrusans were hostesses to members from a number of West Texas clubs honoring Miss Walker.

'Jubilee Trail' Is Book For Review By Evelyn Oppenheimer

Evelyn Oppenheimer of Dallas will review 'Jubilee Trail' by Gwen Bristow at 8 p.m. May 19 in the Crystal Ballroom of Hotel Scharbauer...

Presented by Epsilon Sigma Sorority, Miss Oppenheimer will come to Midland through the courtesy of Sanger Brothers of Dallas. Tickets for the review may be purchased from sorority members and at The Book Stall.

The review is being given to benefit the National Articular Foundation supported by Epsilon Sigma Alpha. The only welfare project of the local chapter each year is its contribution to this national project.

Sylvia Cearley has made arrangements with Miss Oppenheimer for the review. Margaret Babington is in charge of tickets and Mrs. Frank Kehlenbach is handling publicity.

Trip To Cavern Is Made By TU Group

A group from the Young People's Training Union Department of the First Baptist Church made a trip to Carlsbad Cavern Saturday.

Those going included Al Alsop, Novella Bailey, Charles Barron, Jack Clark, Betty Clark, Nellie Clark, Doris Currie, Ruby Gilbert, Lola Farnsworth, Wilda Drake, Jean Gregory, Winifred Dyer, Faye Gregston, Warren Johnston, James Kerr, La Moynie Tabor, Dixie Wilson and Edith Coblers.

Pyracantha Club To Make Garden Visits

The Pyracantha Garden Club will conduct a garden pilgrimage and installation of officers Thursday instead of the following Tuesday, the regular meeting date.

The pilgrimage will begin at 9:30 a.m. at the home of Mrs. H. W. Mathews, 226 North Baird Street. The change of the date of the meeting was made in order to comply with a ruling that no club meeting should be held within two days of the state convention.

New Presidents

Presidents installed last week in Parent-Teacher units of the city include these four: left to right, top row, Mrs. Hal Rachal of the North Elementary unit and Mrs. E. J. Murphy of the West Elementary association; bottom row, Mrs. Robert Wood of Junior High P-TA and Mrs. James Wilton of the Terminal unit. With other officers and committee members who will lead the P-TA groups through the next school term, they will participate in a school of instruction in the high school Friday afternoon.

Graduates Honored At Prom

The Crystal Ballroom of Hotel Scharbauer, decorated as an antebellum Southern garden, was the setting for the Junior-Senior Prom Saturday night.

Junior students in Midland High School were hosts to the Seniors and had used white picket fences, trellises covered with fresh flowers and white garden furniture to decorate the ballroom.

The dance began with a grand march, followed by a "Paul Jones." The welcome was given by Jimmy O'Neal, Junior Class president; and Obie Stalcup, Senior president, responded.

The floor show was opened with Jackie Statton singing two songs. Joan Turner, Emily Hamilton and Camilla Birkhead did a tap dance. The accompanist for both numbers was Diana Daugherty. Jan Houck played two violin solos, accompanied by Barbara Long. Joyce Jenkins read "Women" and May Dell Baker played a piano solo.

Clyde Parnely, Elsie Magee, Jere Bass, Fernon Rutledge and Josephine Weaver are Junior Class sponsors and class officers are O'Neal, Leon Cline, vice president; Peggy Charlton, secretary; and Reed Gilmore, treasurer.

Banquet Given Junior-Senior Group Of MHS

The Juniors and seniors of Midland High School were honored at a banquet Saturday night in the Recreational Hall of the First Baptist Church.

The Bellview, Calvary and First Baptist Churches were hosts. A May Day theme was carried out in the decorations. Pastel streamers extended from the columns on one side of the room, making Maypoles. On the other side of the room, pastel shades of crepe paper formed a garden fence.

A miniature Maypole and arrangements of Spring flowers appointed the head table. The background for the table was a large screen decorated with pastel crepe paper and the words "Junior-Senior" topping it.

Other tables were decorated with arrangements of Spring flowers. Kenneth Wright was toastmaster. Dr. J. W. Marshall, president of Wayland Baptist College, Plainview, was the speaker. Jimmy Thomas presented "Just a Little Magic," a magic and hypnosis show. Sam Allen from Wayland College presented the special music. Dephane Tabor gave a novelty number. Ruby Goins led the group in the invocation. A movie was shown at the close of the program.

Members of the sophomore class served the banquet. Lola Farnsworth was in charge of the program. Mrs. Vernon Yearby, the president, and members of the Woman's Missionary Society, the food and serving.

LICENSES ISSUED Marriage licenses have been issued by the county clerk to Dallas Leon Willis and Julia Margaret Bonner, James Othell Thurman and Jewell Basket, Melvin Edwin Evans and Geraldine Frances Stanley, and Dennis Floyd Kelley and Alma Christine Korogay.

P-TA Leaders Will Receive Instruction

Training for duties they assumed last week will be given to the new officers and chairmen of Midland Parent-Teacher units at the City Parent-Teacher Council in a school of instruction set for Friday afternoon in Midland High School. Mrs. Lynn Metcalfe is chairman of arrangements.

The officers, who will serve through the next school term, were installed at a program in the Midland High School Auditorium Tuesday afternoon. Committee chairmen and members will receive instruction at the meeting also.

It will begin at 1:30 p.m. with a general session, then will be divided into groups for discussion of specific duties. A summary session will close the school.

Speakers at the general session and their subjects will be: Frank Monroe, superintendent of schools, "Significance of the P-TA Movement;" Mrs. J. Black, new president of the Sixteenth District P-TA, "Leadership;" Mrs. Stanley Erskine, president of the Midland Council, "Membership;" Mrs. Waldo Leggett, board member in the Texas Congress of Parents and Teachers, "Special Projects;" and Mrs. Bert Cole, Jr., immediate past president of the council, "Duties of Executive Committees."

Children's Service League Schedules Orientation Period

An orientation program for members of the Children's Service League will be conducted at a special meeting at 8 p.m. Thursday in the home of Mrs. T. S. Jones. Mrs. Jones, a trained social worker, will direct the discussion of the league's work and technique of the workers. The regular meeting Friday was held in her home.

The league received offers of volunteer assistance from several Midland women outside its membership, who will help with sewing and making layettes.

Mrs. C. H. Atchison and Mrs. John B. Coulter were assigned to duty in the clothing room Tuesday, and Mrs. M. O. Gibson and Mrs. T. J. Potter on May 19. Mrs. Coe Mills will be hostess at the next regular meeting, May 19.

Mrs. Robert Dewey, newly-elected president, was in charge of the meeting Friday. Others present were Mrs. John M. Hills, Mrs. Robert Pitting, Mrs. C. H. Ervin, Mrs. F. D. Douglas, Mrs. Norris Greath, Mrs. Fred Casage, Mrs. C. P. Yador, Mrs. L. S. Page and Mrs. Hastings Panmill.

Children's Theater Play Closes Season

Activities of the Children's Theater for this year closed Saturday night with final presentation of "Tom Sawyer."

This is the season's second production of the theater, auxiliary of the Midland Community Theater. "Rip Van Winkle" was the Children's Theater play in January.

Classes for children will resume in September and work will begin on a new production. The Community Theater will present another adult production May 25-27. It will be "Miranda," an English comedy by Peter Blackmore.

Donna Mae Kelly Is Bride Of F. Repman

In a morning ceremony Donna Mae Kelly became the bride of Frank F. Repman Saturday in the St. Ann's Catholic Church.

She is the daughter of Mr. and Mrs. Joseph J. Kelly, 602 West Kansas Street, and Repman is the son of Mrs. Eleanor Repman, 2506 West Washington Street.

The Rev. Francis Taylor officiated for the single ring ceremony. The altar and two side altars were decorated with bouquets of white gladioli.

Attendees Listed Theresa Deliana of Austin was the maid of honor, and Edwina Cahill of Boston, Mass., and Irene McCrystal of New Orleans were the bridesmaids. They are schoolmates of the bride, all students in Incarnate Word College, San Antonio, for two years. Repman is a graduate of Price College, Annapolis. He served two years the Navy during World War I.

Bobby Tom of Stanton served as best man. Ushers were Bill Perry of Big Spring, Jack Feely, Ben Danby, Jr., and Ed Flannery. Donald Kelly, brother of the bride, and Dennis Kelly, Gary Kelly and Michael Kelly, cousins of the bride, served as altar boys.

Mrs. Ben Danby, Jr., was the organist and choir director. "Laudate Dominum" was played for the processional and "Gloria Laud et Honor," Hayden, for the recessional. During mass the choir sang "Ave Maria," Mozart; "Panis Angelicus," Franck, with Mrs. Frank Thompson as soloist; and "On This Day," O Beautiful Mother," Lambotte, with Mrs. Chester Skrabaca as soloist. Background music was "Prayer To Our Lady," Boellman.

The bride wore a ballerina dress fashioned with a full skirt of white organza and a tight fitted bodice of eyelot organza. She wore white nylon elbow length gloves and white ballerina shoes. A beaded headpiece caught her fingertip veil of illusion. She carried a white prayer book topped with a nosegay of white carnations tied with white satin streamers.

The bridesmaids wore dresses fashioned identically to the bride's and made of white organza over slips of blue, yellow and pink. Their small hats were of organza trimmed in flowers to match the dresses. They carried nosegays of carnations in the same colors.

The junior bridesmaids wore dresses of white organza and tiny wreaths of carnations in their hair. Mrs. Kelly chose a navy suit with white accessories for her daughter's wedding. The mother of the bridegroom wore a beige suit with white accessories.

Wedding Breakfast Held A wedding breakfast was held following the wedding in the Private Dining Room of Hotel Scharbauer.

bauer for the immediate in and the wedding party. The bride wore a navy and suit and a corsage of white carnations when the couple left wedding trip. They will be at May 13 at 606 Kent Street.

Both the bride and bridegroom attended Midland schools, bride attended Mount St. Justica in Atchison, Kan., for year, and Incarnate Word of San Antonio, for two years. Repman is a graduate of Price College, Annapolis. He served two years the Navy during World War I.

Miss Darnell Is Honoree At Kitchen Show Eddie Juan Darnell, bride of J. L. Sawyers, was honored kitchen shower Saturday afternoon in the home of Mrs. Slough, Mrs. Slough and her daughter, Janis, were hostesses.

Miss Darnell, the daughter of Mr. and Mrs. Ed Darnell, was married June 15. Sawyers is son of Mrs. John Dawson.

Vegetables in a copper skillet were the centerpiece. Guests were Patsy Collings, Ann Boykin, Toya Chapple, Blackwell, Peggy Minear, Jo Nelson, Mary Neill, Bet Stud Helen Cartwright, Katherine L. Maggie Murphy, Sue Johnson, Boring, Betty McCain, Rita Du Jo Underwood, Ann Stephens, Ilyn Wheelless, Beverly Ketting Jo Ann Ragan.

A group of Midland Beta Sigma Phi members will go to Sweet's Sunday for the West Texas Council meeting for the year. The first of these meetings held some years ago in Midland they were resumed in Midland after being discontinued during war years.

The West Texas area includes Abilene, Lubbock, Midland, Spring and Odessa, among other cities.

Lanette Zeck, Mrs. Randy H. Lett will go from Beta Delta Chapter, Betty McWhorter from the Beta Group and Elizabeth E. and Madeline Roberts as representatives of Xi Theta.

BSP Members Will Attend Area Council

RUTH MILLETT ★ Precautions Cut Threat Of Crimes Against Children

By RUTH MILLETT NEA Staff Writer

Sex crimes against children increase, it is up to us parents to do everything we can to protect our own children...

help by finding some form of punishment other than keeping children after school. For if a child is occasionally kept in, her mother has no way of knowing whether to be worried or not when she is half an hour late getting home from school.

As we may hate to implant a fear in our children, the today requires that we do them to fear some things. We must impress on them that we are to protect them from the fact that they are, under circumstances, to get into a car, accept a gift from a stranger, enter a building on a party invitation, or believe that a stranger who makes a fuss over them is just a nice man who likes to talk.

When buying broccolis see that the clusters are compact and do not show any purple or yellow color. If the stems are heavy they may be cut in cross-fashion part of the way up so they'll cook tender in about the time it will take the top clusters to get done.

When buying broccolis see that the clusters are compact and do not show any purple or yellow color. If the stems are heavy they may be cut in cross-fashion part of the way up so they'll cook tender in about the time it will take the top clusters to get done.

Red Sails On Fashion's Sea

The dashy shorts (left) is designed by Schiaparelli in red flannel. One button closes the coat at the collar and curving slit pockets are played up by envelope flaps on each hip. Swinging out as perkily as a sail on a stiff is Hattie Carnegie's poppy-red Summer tweed coat (right). High collar turns up against the breezes or lies as flat as a shawl over the shoulders.

Andrews HD Clubs Observe Week With Supper For Guests

ANDREWS—A buffet supper for the Home Demonstration Clubs of Crane was held Tuesday in the elementary school cafeteria with the husbands of the members and members of the commissioners court as guests.

This was one of the activities of the clubs in observation of National Home Demonstration Week. The women of the clubs prepared the supper. Mrs. Bill McKissick, vice-chairman of the county council, presided for the program. Judge Milton Ramsey, Dennis Nix, C. W. Roberts, Sr., Forrest Noble and Hattie G. Owens, county agent, were on program.

The Star Study Club met in the home of Mrs. Walton Oates Wednesday for study of the Eastern Star ritual. Mrs. Jack E. Ewing, a member of the Orchard Number One Club in the Canal Zone, was a guest. Nine members were present.

JACOBY ON CANASTA

By OSWALD JACOBY Written For NEA Service

"I keep getting the same kind of problem," writes E. W. of New York City. The question is whether or not to meld from my hand when the pack is frozen. For example, the other night I was dealt the 10-10-7-4-3-2. The 10-10-7-4-3-2 is a losing hand, needing 90 points for the initial meld.

With the sort of hand described I would not make an immediate meld. Mind you, I wouldn't make anybody who did meld right away. It's just a matter of making things as difficult as possible for the enemy.

king or a queen, and you won't be able to pick it up. He can even throw an ace, since it is clear that you don't have a pair of aces.

"What is the right play?" If this is my correspondent's worst problem, he is very lucky man. It's very pleasant to have the count for the initial meld when the pack is born frozen. You may not always want to meld right away, but it's wonderful to have a choice in the matter.

"GOLD DEMOCRATS" The "Gold Democrats" were members of the Democratic party, chiefly in the eastern states, who opposed the party's nominee, William Jennings Bryan, in 1896, and secured the nomination of Alton B. Parker for the presidency in 1904.

SHOPPING 'ROUND TOWN... with BARBARA

Her Deserves The Finest—The right gift—the most elegant gift always—is one of fine sterling. Visit KRUGER'S and choose Mother's gift from the wide selection of silver table accessories.

Active Glassware—Select your mother's gift from BASIN SUPPLY COMPANY. You'll find a wide choice of useful gifts that Mother will enjoy for a lifetime.

Life Of Flowers—This year surprise Mother and please her with a bouquet, potted plant or corsage of her favorite flowers, radiantly fresh from QUINCY BELLES—FLOWERS.

Nothing Ut Wood—Quality workmanship is stressed by STEWART WOOD WORKS, 1506 North Park, Worth Street, when building a cabinet or any expert craftsmen leave no cracks or faulty places.

To A Good Start—A sure fire battery sparks you off to a good start on your vacation trip. Before you leave, drive by LAMB'S SUPER SERVICE STATION, 621 West Wall, for a thorough check.

On A Motor Trip—Have you dreamed of motoring through scenic places this summer? This dream need not be an idle one. You can rent a new Chevrolet from HERTZ DRIVE-UP-SELF SERVICE.

Supplies—With June weddings coming up—it would be fun to create your own gifts. If you're artistically inclined, you'll enjoy painting with Prangs Textile Paints featured at WESTEX GLIDDEN PAINT STORE.

Standing In Line—If you dislike standing in line, waiting for a table in crowded restaurants during your lunch hour, why not have a home cooked meal at home? Easy enough! It takes only a few minutes to select a complete meal at WEB-TEX FOOD MART.

Service You Need—The service your car must have for dependable performance is available at BOBBY'S SUPER SERVICE, 501 West Wall. Careful check of oil, water, tires, etc. It sends you on your way with a smile. And don't skip the grease! Regular lubrication is positive protection against burned out bearings.

Right Cooling System—Your home doesn't have to be a hot box in summer. Air conditioning installation means summer comfort for your family. NELL'S SHEET METAL WORKS specializes in air conditioning for home or office.

A Perfect Team—Your fire department and your fire insurance work together for your protection. Your taxes pay the firemen and for a few pennies a day, your fire insurance pays the bills in case of fire.

Foot First Into Summer—When you buy a child's shoe, a fine fit and endurance are the most important factors to consider. BARNES AND COMPANY features Red Goose Shoes that stress wear and smartness, ankle and hugging lasts that support the foot and give it plenty of "groom room."

Highlight Mother's Day Of Days—With a beautiful, yet practical gift! Choose from a complete and lovely assortment of nylon lingerie at FRANKLIN'S. Gowns in sheer nylon loveliness, graciously edged with lace, slips in figure flattering nylon, lace trimmed and tailored. She'll love the classic loveliness of the rayon slips and half slips, elaborately trimmed with lace.

Sweets For A Sweet Mother—What better gift for the sweetest mother than a box of CAMERON'S delicious, tempting chocolates—so rich—so flavorful—some—so satisfying? Stop in soon and select from the large assortment of Mother's Day Gift Candy. Cameron's will gift wrap and mail candy to all parts of the United States. King's Chocolates are beautifully gift packaged for Mother's Day. Many other gift items are featured by the store.

Jewelry For Mother—Remember Mama with an elegant gift of jewelry from CRUSE JEWELRY COMPANY, 120 West Wall. Select her gift from a beautiful collection of rings, watches, necklaces—sure to be cherished with pride and pleasure. She'll love a beautiful pearl necklace or a fine watch. Nationally advertised watches are featured—some elaborate with diamonds. Whatever your choice, you can be sure of quality when you buy at Cruse Jewelry Company.

Please Mother!—Flatter her and show her you care—with a fragrant bouquet of her favorite blooms. Place your Mother's Day order now at BUDDY'S FLOWERS, 1505 West Wall. The flower shop will deliver your floral gift right on time. She'll love receiving flowers from you. It's the perfect gift on Her big day. Buddy's Flowers has a nice selection of beautiful carnations or plants. Rich-hued carnations will delight her. Call 408 and let Buddy's Flowers arrange a beautiful floral gift that will express your love.

Never Miss A Holiday—The June issue of Holiday magazine will help you decide where to spend your vacation. A year-round playground in print, it contains articles on various places from Fiji Islands to Brooklyn, New York, and a dash of the Old West as well in an article on Virginia City by Katharine Hiltner and Katharine Best. Also there is an article on life in the best-known boys camp and a story of Cambridge, the unchanging citadel of learning. If you were born in Brooklyn, Irwin Shaw's article will delight your soul. Get your copy from the newsstand or from JOHNSON'S NEWS AGENCY.

Modernize For Beauty And Convenience—Yes, new, beautiful bathrooms cost much less than you might expect. Modernize your old—or add a new one for the convenience of your family and guests. Choose from the latest styles, equipment and colorful tiles at HEATH PLUMBING COMPANY, 119 North Weatherford. The whole family will be proud of the bathroom when it is equipped with American Standard, Kohler or Grane fixtures.

Best Dressed?—Why? Because his clothes are always fresh and boast that neat-as-a-pin look. You can have it, too, with the dry cleaning service offered by LAVELLE CLEANERS, 408 South Martinfield. Scientific cleaning methods keep attire new looking, longer. Call 1057 any time, and a day messenger will call at your convenience—and return your clean clothes rapidly. Lavelle Cleaners has a supply of moth bags now, for storing winter woolens.

A Complete Paint And Repair Job—Take your car to BOYCE AUTO SALVAGE AND BODY WORKS, West Highway, for a complete paint job. The body shop will weld all breaks, repair dents, replace parts and finish your car with a smooth paint job that will make a shabby car look as good as new in short time. The service department is equipped to handle any body repair job with skill and efficiency. Expert technicians do spray painting or touch up work with perfectly matched colors.

Income Tax Leave You Short?—No matter your need, you'll find that MID-WEST INVESTMENT COMPANY makes quick, easy loans to solve your problems in a hurry, and best of all—no embarrassing forms to fill out. No co-makers, no red tape. Here's the friendly loan service that helps you solve your knotty money problems easily. Call 939 or stop at 207 East Texas and discuss your financial problems. Loans on collateral are made, and you pay on easy terms.

Personality Portraits—Enjoy the flattering appreciation of friends and family by giving your portrait. FRANK MILLER STUDIO, 608 West Missouri, will make you a portrait, creation that reveals the charm of your personality. It will be you at your best—posed to suit your own taste and produced by modern techniques. Special occasions are captured and held for years in pictures. Childhood, graduation, weddings all live in pictures.

Another First—The Kirby Vacuum Cleaner, featured by the KIRBY COMPANY, 203 South Main, is the nearest thing to push-button housekeeping. One of the outstanding features of the Kirby is the Handi-Butter. Connect it to the famous Kirby power unit, and you have a set of motor driven tools that do a variety of household jobs, such as buffing silverware, sharpening knives and home and garden tools, cleaning pots and stove parts, removing paint and varnish from metal surfaces, shining shoes, and scores of similar tasks.

A Lovely-To-Look-At Lawn—Let WALKER'S NURSERY, Andrews Highway, help you make that lovely-to-look-at lawn and garden a reality. A wide selection of your favorite garden beauties—roses are ready for planting. Saint Augustine Grass is also available for sodding your lawn. This grass thrives in dry seasons, grows rapidly, covering your yard with a thick green carpet. The nursery still has a good assortment of evergreen and flowering shrubs.

New Colors And Patterns—Ride in style when you go on that vacation trip. Let MILLER BROTHERS TRIM SHOP design a set of fancy seat covers from their selection of Colortex in romantic colors. Choose your colors from Twilight Maroon, Navaho Buff, Brazilian Green, Manhattan Grey, Egyptian Yellow. These colors will stay bright while Boltflex keeps your automobile upholstery new. Many new patterns in Saran have arrived. You'll find a wide selection in multi-colored plaids, bold plaids and small checks.

Dramatizing You—Everybody talks about the high cost of living, but no one does anything about it. Well, girls, here's the simplest way to have an extensive summer wardrobe—make those clever casuals yourself. How? Just enroll for Summer classes in sewing at SINGER SEWING CENTER. Classes are taught morning and afternoon. You will learn how to select fabrics and styles for your individual figure type.

When You Own An Ice Refrigerator—Hospitality begins with the tinkle of ice in a tall glass. Plenty of ice is no problem when you own an ice refrigerator. See the fine selection of used ice refrigerators featured by SOUTHERN ICE COMPANY. Some of them look as good as new, with gleaming white enameled surfaces and bright steel racks. They're spacious enough to hold a week's supply of vegetables, fruits and meats. You can choose an ice refrigerator that's just the right capacity for your needs.

Commercial Lighting—You'll want to avoid further danger of fire—and the annoyance of bad and unsafe electrical connections and wiring. Replace old fashioned lighting in your office or business with modern Slim-lined Light Fixtures featured by BURTON ELECTRIC COMPANY. Modern lighting does much to impress customers with your display of merchandise. Let qualified electricians at Burton Electric Company take care of wiring and installations.

With A Delicious Southern Accent—Fried Chicken. Delicious! The fried chicken—prepared Southern style—in the "nth degree of mouthwatering goodness and always a favorite at OOK'S FRIED CHICKEN, on West Highway. Drive out sometime soon and treat yourself to a delicious chicken dinner in the cozy surroundings at Cox's Fried Chicken, with the warm friendliness of knotty pine in its natural charm. Drive-in service is now offered. Just drive up and a waitress serves your meal at your car door.

For All Building Purposes—If you are building or remodeling, see FELIX W. STONEHOCKER LUMBER COMPANY, 405 North Baird (in alley). The company features the most complete building services you'll find anywhere. It offers "Title One" loans with no down payment and 36 months to pay. Millwork includes window units and doors of birch, gum and fir. Paints and oil colors for interior and exterior painting are featured in Glidden, Pratt and Texolite. Flooring and roofing and a complete line of builders' hardware are also featured.

No Lagging Appetites—Every housewife is sometimes faced with the problem of pleasing every appetite in the family. You'll be able to plan as you shop when you buy at SOUTH MAIN STREET GROCERY, 1011 South Main. Items are arranged for your convenience in every department. Mr. S. E. Conner, proprietor, anticipates your needs with a complete stock of quality groceries. Fresh produce, staple groceries and choice cuts of meat are always featured.

Destroy Insect Pests—Wage war against the pests that assault everyone during the Summer season. R. O. TAGGART, of South Big Spring, has the equipment to make short shrift of moths, ants, silverfish and roaches. He guarantees to exterminate these pests in short time. Call 1404-W and he will give you an estimate. When you clean up—do a good job. The treatment is effective from 8 months to one year.

Gifts, Always Applauded—Choose a Mother's Day gift from PHILLIPS ELECTRIC COMPANY and Mother will be constantly reminded of your thoughtfulness. Make her gift this year one that saves time and labor. Electric appliances are always applauded by the practical homemaker. Phillips Electric Company features nationally advertised brand-name electrical appliances, including mixers, toasters, waffle irons, coffee makers, electric irons and ovens.

Quality Dry Cleaning—Reasonable prices, prompt service, careful work—that's the policy of VIC CLEANERS, 413 West Texas. You have quality dry cleaning as close as your telephone. Just call 407 for free pick-up and delivery. Vic Cleaners gives your clothes expert, systematic care, and will also bring new beauty to your upholstery and rugs, by cleaning them in your home. Drapes are restored to new brightness by this expert dry cleaning.

Has She Gone Away?—Her chair is empty, but she lives in your heart and in your memories of her tender love and kindness. You want to make her resting place a shrine—no just a grave. MIDLAND MARBLE AND GRANITE COMPANY, West Highway, will create for you a monument that will be a symbol of your devotion for your departed mother. The rose or ivy leaf and other symbols you may prefer can be engraved.

Good Sport—Gutter ball or spare! Good sports enjoy bowling for fun and health. Make a date with real recreation at PLAMOR LANES. You'll strike for thrills in every game. Team up with your friends and co-workers for an evening of fun. You'll find top-condition alleys—good equipment at Plamor Lanes. When you want a snack, refresh yourself at the lunch counter. There's good food and plenty of cold drinks.

Let's Clean Up—Don't bother removing rugs—COLLIER'S RUG CLEANING SERVICE cleans them on your floors. The cleaning process used by the service leaves them fresh, and color bright. The Berlog Moth Proofing Service is a safeguard against moth damage to your expensive carpets and upholstery. Call 1980 and let the company give you an estimate. Get into the swing of the clean-up program by doing your Spring cleaning the systematic way.

Comfort On The Hottest Days—The "good old summertime" is almost here again. Time to think of your comfort during those sweltering hot days, sure to come. See AUSTIN SHEET METAL COMPANY for modern, improved air conditioners. Featured are Snow Breeze and Utility—evaporative coolers that can be easily installed and will keep your home comfortable on the hottest days. These coolers are reasonably priced and will give you years of comfort. Call 2706 for further information.

Clothes In Order For Vacation?—Planning a big vacation? Get ready for it now by having your clothes cleaned, pressed and ready to look their best. MIDDLETON CLEANERS gives immaculate cleaning service and precision pressing as well as carry prices that are 20% lower than call-for-and-deliver prices. There are no ugly spots left and no out-of-the-way creases. Don't worry about soiling clothes while on your vacation. Middleton Cleaners, 106 South Carrizo, sends dresses and suits home good as ever.

Before You Start On Vacation—Drive in at KING'S CONOCO, 410 West Wall, and let the attendants check your car thoroughly for pleasant Summer driving. You'll want to see Tourade—a book for vacationers which covers points of interest, with maps that help you chart your course. North, South, East and West, the Tourade is a complete guide for your convenience. Go in for this travel service and have your car checked for top service.

Betrothal Announced At Tea In McCamey

McCAMEY—A tea announcing the engagement and approaching marriage of Joan Cole to Mat E. Dillingham, Jr., both of McCamey, was held in the Cole ranch home Saturday afternoon. Approximately 300 persons attended.

The wedding will be solemnized June 9 in the First Baptist Church. Miss Cole is the daughter of Mr. and Mrs. John Cole. Dillingham is the son of Mrs. Mat E. Dillingham and the late Mr. Dillingham.

The centerpiece on the serving table was three silver bells extended from a heart of blue nylon mist bearing the names, "Dolly and Mat, June 9," with a background of white gladiolus and Esther Reed daisies.

House Party Group
Receiving guests were the bride-elect, the mothers of the engaged couple, Mrs. Harvey Gammage, sister of the prospective bridegroom, Mrs. J. S. Cole, Jr., Mrs. W. T. Conger and Mrs. Frank Cole of Sterling City, Mrs. W. W. House of Junction, Mrs. Madge Conger of Crane and Mrs. Taylor Conger of Balmorhea.

Marie Little of Pecos presided at the bride's book. Billie Little of Pecos and Jeanna Conger played background music. Mrs. James Conger of Fort Stockton, Mrs. William Little of Pecos, Mrs. George Ramer and Mrs. Joe Conger poured during tea hours.

The bride-elect is a graduate of McCamey High School, Hockaday Junior College and Texas Christian University. She has been teaching in the Crane public schools. The

prospective bridegroom was graduated from McCamey High School and Texas Technological College. He is employed by the West Texas Utility Company in McCamey. Both the bride-elect and prospective bridegroom are members of prominent West Texas families.

Mrs. Miles Honored With Shower-Party

Mrs. Terrell Miles was honored at a pink and blue shower Friday night in the home of Mrs. Jess Miles. Hostesses with Mrs. Jess Miles were Mrs. Al Bodine, Mrs. Gaines Murchison, Mrs. Pat Barber and Mrs. R. F. Frantz.

The serving table was covered with a blue organza cloth caught with pink ribbon bows. A pink and blue stork figure on a reflector was the centerpiece. Plate favors of marshmallow baby buggies were placed around the table. Pink, white and red roses were used throughout the house.

Mrs. Murchison, sister of the honoree, poured and Ronda Gay Murchison, Mrs. Miles' niece, was at the register. About 40 guests attended.

Watch carefully when cooking bacon, remembering that it darkens somewhat after it is removed from the pan. Use low heat so it will cook slowly, and the fat will be creamy white and mild flavored.

Midland Shrine Club To Present Circus May 15-16

Norma, tiny girl, handles circus elephants.

Replete with novelties and innovations, Ward Brothers Circus comes to Memorial Stadium here May 15 and 16 under sponsorship

of the Midland Shrine Club. Two performances will be given daily. Matinees are at 4 p.m. and the night shows at 8:15 p.m. Doors will open one hour earlier.

R. D. Bob Scruggs, general chairman of the circus committee announced that this huge all-professional circus will display an unusual array of circus talent headed by Aerialette, the acknowledged queen of the air in circosdom.

The Sky High Vincentes, who gamble with death in the clouds; Bill Blomberg's 12 Morocco liberty horses; "Buddy," the talking seal; Felix Morales, the up-side-down wonder; Pina Troupe, teeterboard specialists; Wards Elephants and a host of other acts, artists and animals make up the nearly three-hour circus performance.

A gay galaxy of white-faced clowns headed by Bobo Harrell, Dick Lewis, Billy Irwin and Chick Dale add much spice to the many displays.

All members of the Shrine club are selling general admission tickets. Reserved seats for all performances may be purchased at Midland Hardware and Furniture Company.

Midland To Be Site Of County Agents' Meeting This Week

Midland will be host to county agriculture and home demonstration agents from 21 West Texas counties Thursday, Friday and Saturday when members of District Six county agents, hold their Spring session.

The meetings will be held in the district courtroom in the county courthouse. Special groups of study will be arranged and 4-H leaders from the Texas A&M College extension service are expected to be present to conduct the study groups.

Grace M. Martin and George W. Barnes, district agents from Fort Stockton, will be in charge of the three-day session. Charles Green and Pauline McWilliams, Midland county agents, are in charge of arrangements for the meetings.

Study groups in recreation, leadership, organization and awards have been arranged for the visitors. Green has been assigned to the leadership group and Miss McWilliams has been delegated to the organization committee.

A total of 17 agriculture agents and nine home demonstration agents are expected to attend the three-day affair. Green and Miss McWilliams are arranging lodging and meals for the visitors. The meetings are being held to enlarge the scope of 4-H Club work in West Texas.

MIDLAND STUDENT WILL GET UNIVERSITY DEGREE

James Carlton Timmons of Midland is among 289 seniors in the University of Texas College of Engineering who are scheduled to receive degrees at the conclusion of the current semester. Timmons will receive a bachelor of science degree in architectural engineering.

+ McCamey News +

McCAMEY—More than 250 visitors from 22 West Texas towns were expected to converge on McCamey Saturday for the Spring convention of the Permian Basin Volunteer Firemen's Association. Registration began at 9 a.m. with a business meeting following at 10 a.m. P. S. Reid, vice president of Trans-Texas Airway, delivered the principal address in the morning session. The afternoon was devoted to discussion of fire fighting techniques, climaxed by a six-man pumper team race. A barbecue and dance wound up the day-long meet. Jimmie Boyd, fire chief in McCamey, was in charge of the program.

Mrs. F. J. Hogg, Mrs. J. R. O'Callaghan, Mrs. Fred Gibson and Mrs. F. C. Reimers, representing McCamey Home Demonstration Clubs, attended the 4-H Girls Dress Revue Wednesday in Big Lake. West Texas Utilities took a 22-17 decision over Texas Natural Gas in the opening game of the softball season Monday at McCamey softball park. Shell beat Rio Pecos in a close one Tuesday night, winning 7-5. In the second game, Jesses Messes won 10-9 from Rankin in the tightest game of the season. Humble defeated Crane Pipe Line Wednesday night, walking away with a 15-0 decision. Texas Natural Gas romped over Recreation, 15-7 in the second game.

E. M. Russell is a medical patient in McCloskey Hospital in Temple.

Mrs. Bob Leuschner, accompanied by Mrs. W. D. Weaver of Kilgore, left recently for a visit in the home of her son, Jack Brewer of Norfolk, Va.

The P-TA will be host Thursday at an ice cream supper to be held in City Park. Members and teachers are invited.

Mr. and Mrs. H. H. Qualls visited recently in McCamey, and attended the Iran golf tournament. The Qualls' recently were transferred from Junction to Fredericksburg.

Mrs. C. L. Edleman left Wednesday for Glen Rose, Texas, where she is visiting relatives.

Party Is Given For First Baptist Group

The Married Young People's Sunday School Department of the First Baptist Church held a "newspaper party" Friday night in the Recreation Hall.

Those attending included Mrs. James Mims, Mr. and Mrs. J. M. White, Jr., Mr. and Mrs. Ralph Day, Mr. and Mrs. Henry McCabe, Mr. and Mrs. Robert Goff, Mr. and Mrs. Gene Shelburne, Jr., and the Rev. and Mrs. Vernon Yearby.

BRANIFF OFFICIALS TO VISIT SOUTH AMERICA

DALLAS—Operations officials of Braniff International Airways and officials of the CAA leave here this week for Buenos Aires, Argentina to make final plans for the airline's inauguration of the first direct, one-carrier air service from the U. S. Southwest and Midwest to the Argentine capital on May 29.

City Officials To Meet In Big Spring

BIG SPRING—City officials more than 40 West Texas cities expected to attend a regional League of Municipalities here May 17. It was announced by City Manager H. W. White. Representatives of cities within a 100-mile radius of Big Spring have been asked to participate in the meeting, one of three being held in West Texas.

Pineapple juice may be used to give flavor and moisture to sweet potatoes.

Help Dedicate Girl Scout Little House

Scouts of the Brownie, Intermediate and Senior troops of Midland, gathered at the base of the flag on the grounds of their new Little House, took part together in a dedication ceremony for the building last Sunday. Senior Scouts stand before the uniformed group of Brownies and Intermediates to lead in a part of the ceremony pictured here. Troops began using the Little House last week and the Spring Court of Awards will be conducted there at 7:30 p.m. Thursday.

small TALK

By SUE COLEMAN

Befitting the occasion, costumes of the women at the party which the Ladies Golf Association gave Thursday afternoon for entrants in the Midland Country Club Women's Invitation Tournament ranged from the quite-dressed-up to the quite-businesslike—the business of golf. Late players just dropped in wearing clothes they had been playing in, so shorts and tee shirts were as much in evidence as the pretty cocktail frocks of the guests who had taken time to put on their partyish frills.

A pleasing choice on that very warm afternoon, while dresses were worn by several in the house party, Lou Ligon, president of the hostess association, chose one of white eyelet with a bolero jacket and a red ribbon belt; Mrs. Henry Black wore an off-white dress, the skirt bordered widely in a beautiful cut-work design; Mrs. Payton Anderson was in white, with lace on the bodice, twin pockets on the skirt and a cluster of red flowers at the waist; Mrs. A. Knickerbocker, the immediate past president, wore a smartly-tailored white linen, sleeveless.

The profession of librarian sounds like a quiet, stay-at-home one, but Leona Melsner's experience indicates that maybe one should become a librarian to see the world. She is known to Midland County Library patrons by her work here in Summers while she was in school, and she will be back soon to re-join the library staff.

After she received her degree from McMurry College at Abilene—not so far from home—last year she went to Louisiana to do graduate work in library science. Her training included a six-week stay in Washington, D. C. this Spring, and she has found that librarians are in demand in many parts of the world, and she may do some more traveling to a job, if she chooses.

Hoarseness may have been a handicap to Mrs. Howard Kittel as she spoke to garden club members and their guests, other members of the Midland Woman's Club, Thursday afternoon, but it didn't keep her audience from enjoying her informal talk and the striking flower arrangements she made so quickly that she gave the impression they were easily done.

Smart, slim, with dark eyes and greying hair, the Port Worth woman wore a bolero dress of navy print in a small design on grey, with a solid navy blouse. She added humor, practical advice and tips on tricks of flower arranging to her "Firstly, secondly and thirdly" list of things to do or not to do with flowers. The audience took on an informal look, too, when somebody on the back row asked if those in front would mind removing their hats so everybody could see the arrangements, and there was a general hats-off reaction.

One of the garden club presidents pouring tea was Mrs. E. W. Cowdren, always well-dressed, looking especially chic and cool in a pale blue sheer frock with horizontal rows of drawn-work. . . . Some energetic work on her yard was being done the other day by Mrs. M. B. Arick, armed with a rake and wearing a wide-brimmed straw hat against the sun. And Leona Bryant, who has coaxed considerable bloom around her new house, was in the front yard recently, bent to her task at a flower bed, with an old-fashioned sunbonnet to shade her face and a gardener's smock to protect her dress.

Cottage cheese is delicious folded into scrambled eggs; garnish with parsley and sprinkle with paprika before serving.

For Tiny Tots

By SUE BURNETT

Clothes for the tiny family members are such fun to sew—easy to care for, too! This adorable set is complete—a puffed sleeve dress and undies for sister; brother wears a side-buttoning romper.

Pattern No. 8556 is a sew-rite perforated pattern for sizes 6 months, 1, 2 and 3 years. Size 1, dress, 1 1/2 yards of 36-inch; slip and panties, 1 3/4 yards; romper 7 8 yard.

For this pattern, send 25 cents, in COINS, your name, address, size desired, and the PATERNUM NUM-BER, to Sue Burnett, The Midland Reporter-Telegram, 530 South Wells Street, Chicago 7, Ill.

Don't miss the Spring and Summer FASHION. This latest issue is colorful, informative—a complete pattern magazine. Fabric news, fashion tips, a wealth of smart frocks to sew for Summer are all included. 25 cents.

Chapman Infant Dies In Midland Hospital

Edna Elizabeth Chapman, five and one-half months old daughter of Mr. and Mrs. Sherman Chapman, 921 North Fort Worth Street, died Friday afternoon in a Midland hospital.

Survivors include the parents and a brother, Richard Lee Chapman. Funeral services will be held at 1 p.m. Sunday in the Newbie W. Ellis Chapel, with the Rev. Clyde Lindsley, pastor of the First Christian Church, officiating. Interment will be in Resthaven Memorial Park.

C. Of C. Directors To Hear Reports On Water Projects

The two reservoir water proposals now being considered by the City Council will be explained to directors of the Midland Chamber of Commerce at their May meeting scheduled at 7:30 p.m. Monday in the Crystal Ballroom of Hotel Scharbauer, President Robert L. Wood announced Saturday.

One of the water proposals was submitted by the Colorado River Municipal Water District and the other by the Bureau of Reclamation. Under the CRMW District proposal, water would be piped to Big Spring, Midland and Odessa from a proposed reservoir on the Colorado River north of Big Spring, while under the bureau program the three cities would receive water by pipe line from a proposed dam near Robert Lee.

A number of other items, including plans for the World Championship Midland Rodeo, May 31-June 4, will be discussed by the directors, Wood said.

He urged a full attendance of officers and directors.

BEAUTICIANS TO MEET
The Midland Beauticians Association will meet at 8 p.m. in the Glamour Beauty Shop.

In scalding milk, heat it only until little beads or bubbles appear around the edges of the pan.

SINGING CONVENTION SCHEDULED IN CHURCH

The Midland County Singing Convention will be held Sunday in the Trinity Baptist Church. All-day services will be held and lunch will be served at noon. The Rev. C. B. Hedges, pastor, has announced that the public is invited to attend.

Charles Sheppard, left, and Bob Pine, Jr., members of Explorer Post 85, sponsored by the Lions Club, are to attend the National Boy Scout Jamboree June 30 to July 6 at Valley Forge, Pa. The two were chosen in a recent post contest as winners of the trip. The Lions Club donated \$300 to the post to send two Explorers to the Jamboree. Sheppard is a graduate of Midland High School, now employed by an oil company. Pine is a sophomore in high school.

VISIT GUEST RANCH

Mr. and Mrs. Watson LaForce, Bobbie Perry and H. T. Hilliard were recent visitors from Midland at the Fort Clark Guest Ranch at Brackettville. They flew to the ranch.

Memorial Books For New Library Asked By Rankin Clubs

RANKIN—A memorial bookshelf for the new Upton County Library is being opened this month and residents are invited to contribute memorial volumes. The month of May was chosen because Mother's Day and Memorial Day, both appropriate occasions for the presentation of memorial books, fall within the month.

The Rankin Study Club, assisted by committees from the Parent-Teacher Association and the Business and Professional Women's Club, sponsored the library and the study club plans a program for its formal opening about June 1.

Furnishings are being installed now and Mrs. Hamilton Still, librarian, is cataloging books. A number of memorial books have already been given among the 637 volumes donated to start the library.

Mrs. Still conferred with the State Librarian in Austin when she visited there this weekend. She expects to operate the library in conformity with a state standard.

Her husband, superintendent of schools here, with their son, David, and Joy Ward and Jean Shaw, students, made the trip to Austin. Miss Ward competed in Texas Interscholastic League literary contests.

Girl Scouts Study Tenderfoot Work

CRANE — Tenderfoot requirements were reviewed by Troop 3 of the Girl Scouts Thursday in the Gulf Hall.

Mrs. Leon Neeley and Mrs. L. T. Smith were in charge of the meeting. Attending were Patricia Clancy, Leah McAfee, Betty Frailey, Jimmie Lou Baker, Muriel Lewis, Ella Smith, Elois Neeley and Mary Lou Fisher.

MIDLAND'S STORE FOR MEN AND WOMEN

+ Pecos News +

Commencement exercises for high school seniors will be held at 8 p.m. Monday in the school building. C. E. Dove, president of schools, and Dr. Noble Armstrong, principal of the school, will be principal speaker. Services were scheduled with the Rev. G. G. of Fort Stockton delivering the address. Jackie Henderson, historian of the class, and Peterson is salutatorian. Members of the class are James, Orval Boulter, Robins and Jack Jolly. Bond, city editor of the Enterprise, was named commander of the Pecos National Guard unit at a meeting last night. Bond, a transfer from Air Force reserve, passed board of review and was promoted to second lieutenant in the Texas National Guard. R. Vaughn, recently was promoted to adjutant and S-1 of the 112th Cavalry. More than 100 young people are expected to attend the Methodist Fellowship sub-district meeting at the Methodist Church in Pecos. The meeting was slated to open at 4 p.m. with a recreation hour, and supper was to be at the Community Center. Following the meal, evening services were slated at 7 p.m. Officers were to be installed in a candlelight ceremony. Towns to be represented at the meeting include: Crane, Fort Davis, Fort Stockton, Goldsmith, Grandfalls, Imperial, Iraan, Sheffield, Monahans, Odessa, Pyote, Wickert, Sanderson, Dryden, Toyah, Balmorhea and Kent. Revival services are to open at the Church of The Nazarene here Sunday, with the Rev. J. B. Gatlin of Prescott, Ariz., as speaker. Mrs. Gatlin will direct singing. The Rev. J. L. Mayhall is pastor of the Pecos church. Mrs. Quentin Adams has been employed as home economics teacher in the high school, to replace Jane Elsey, who resigned because of ill health.

GARDEN CITY POSTMASTER WILL RESIGN JUNE 30
GARDEN CITY—Eva L. Parker will resign as postmaster here June 30, it was announced Saturday. The U. S. Civil Service Commission will announce the date of examination for persons interested in applying for the postmaster position.

TSCW Class Beauties

The four class beauties of Texas State College for Women were announced recently in a special college assembly when the 1950 annual was presented. In the upper left hand corner is Mimi Hicks, brunette from Fort Worth, selected as Senior Beauty. From Woodville, Patsy Walker is the choice of the Junior Class. Charlotte Williams, beauty of the sophomore class, is from Munday. A resident of San Antonio is Delores Fowler, Freshman Class beauty.

Say Kermit-Orla Link Not Feasible

PECOG—The sparsely settled area around Orla coupled with the high cost of construction, prevent a proposed Kermit-Orla highway from being feasible, according to Alton Hughes, manager of the Chamber of Commerce, and Reeves County Judge Dick Slack. The two made statements after studying proposals made by the State Highway Commission to designate a highway from Kermit west across Winkler and Loving Counties to a connection with U. S. Highway 285 in Reeves County. Judge Slack said the proposed road across the thinly-settled area would cost far more than could ever be realized from its use, while Hughes was of the opinion that surrounding towns in Texas would suffer a loss of business. Other Opinions Judge Slack said he was in no position to say what the opinion of the other members of the court will be. Hughes said the Chamber of Commerce has never opposed progress, as long as it is general progress and not localized progress at the expense of others. "The statement in the highway commission minutes that 'this vast area between Kermit and U. S. 285' needs to be provided with an east and west highway facility is rather far-fetched due to the fact that there is no one in this area to provide services for," Hughes said. "It is not proposed to place Mentone on this highway, only a vague promise having been made to build a spur to Mentone."

Water Proposal To Get Council Study

Members of the City Council Tuesday night will consider the engaging of a firm of consulting engineers to study the technical aspects of a Colorado River Municipal Water District proposal to furnish reservoir water to Midland, Odessa and Big Spring. City Manager W. H. Orwalt said Saturday. The council received the district proposal at a recent meeting. Under the proposal the three cities would be supplied with water from a proposed reservoir on the Colorado River north of Big Spring. The legal aspects of the proposition also will be considered. The regular meeting of the council Tuesday night will be held at 7:30 p.m. in the council chamber in the City Hall. Numerous other routine matters are scheduled for discussion and action, the city manager stated.

Abundant Living

By E. STANLEY JONES

Heb. 11:8-12, 33-40; 12:1-3.
DOING WHAT YOU CAN'T
Yesterday we saw how a darkened room, filled with physical agony brought light to hundreds across the seas. That is the meaning of "everything is 'can't' to those who believe." And it was all so human and so divine. Dr. W. V. Kelley spoke at her funeral of "the miracle of her healthy mind." It was a healthy mind because a harnessed mind; it was disciplined to the possible, and yet how utterly impossible! Her faith had its feet upon the ground; but sometimes faith walked so fast that those feet seemed to leave the earth. No wonder Dr. Kelley could dedicate his book, "To one who through years of suffering bears an illumined face." A crippled body, a healthy mind, an illumined face, a home for cripples—why? In and through it all God worked as the worker.

Someone has put it this way: "It is good to work, it is better still that our work should lead us to let God work." My work then will be—to let Him work! That is what Jesus meant when He said in answer to the question, "What must we do to perform the works of God?" "This is the work of God, to believe." (John 6:29, Moffatt.) When I am believing then I am really working, for I become a channel of the Infinite.

One day in Washington as we waited on God in a small group to see what next step we could take to help bring peace between Japan and America, I told them that I had a very difficult assignment that day—I was to see someone I didn't really want to see and yet it had to be done. A layman quoted this inscription on a tombstone: "She hath done what she couldn't." I went forth with those words ringing in my heart. I kept saying to myself, "I'll do what I can't." And did! When we are completely surrendered to God we can do what we can't—we find ourselves miracles to ourselves. "I like my poems best," said Emerson, "because I did not write them." He felt that he had surrendered to a Power that wrote through him. So he was a surprise to himself.

O God, now I begin to see that the way of possibilities lies before me . . . adventure with Thee. For then nothing is too small, beneath our dignity to do; and nothing too large, beyond our powers to do. I am following—lead on, Amen.

(From the book "Abundant Living," published by Abingdon-Cokesbury Press of New York and Nashville. Copyright. Released by NEA Service.)

McCamey News

McCAMEY—Oliver Jacobsen has been named chairman of the McCamey Jubilee and Homecoming. The citywide show is planned in August. Dates will be announced later, Jacobsen said. Assignments of program duties have been made, with civic organizations to accept responsibility for separate phases of activities. Groups participating are the Lions Club, Boy Scouts, Fire Department, Chamber of Commerce, VFW, American Legion, B&PW Club, Sheriff's posse and Girl Scouts.

Midlander's Mother Dies At Brownfield

Max Perry, plant superintendent for The Borden Company here, was called to Brownfield, Friday afternoon due to the death of his mother, Mrs. Lucille Perry, there. Funeral services for Mrs. Perry will be held at 2:30 p.m. Sunday in the First Christian Church of Brownfield. Interment will be in a cemetery there.

Shredded cabbage is delicious in a molded salad. Use lemon gelatin as the base and serve with salad dressing.

Contract Awarded For Stanton Water, Sewer Improvements

STANTON—H. B. Jordan of Plainview has been awarded a \$104,786.45 contract for water and sewer improvements here. His bid was the low of five received. The contract was awarded contingent upon the approval of \$75,000 water improvement and \$50,000 sewer extension bonds by the Texas attorney general. Stanton voters passed the issue in a special election March 14.

Terms of the contract state that Jordan must complete the installation of a belt of key cast-iron mains in the city's water system and the addition of sewer lines within 90 days after work begins.

Excellence THRIVES ON CALMNESS

Cameron's Pharmacy
Crawford Hotel Building

SEEK BETTER HEALTH THE VOLUNTARY AMERICAN WAY

It is especially true that "excellence thrives on calmness" where science, research and deep study are concerned.

Medical Education, from the time it begins in College, on through the years of Medical School, Internship and Postgraduate work, should be nurtured in calmness, and tutored by sound, experienced medical minds.

The prevention and cure of diseases affecting life and health are the special responsibility of our Medical men and women.

American Doctors shouldered this responsibility, when the present American Medical Association was organized in 1902, to raise and maintain standards of excellence in Medical Schools and Hospitals.

Through sound, calm, ethical planning and procedure, these standards are maintained and constantly improved.

KEEP American health and medical education the most excellent in the world — by keeping them out of the turmoil of politics.

Crane News

CRANE — The Crane Golf Tournament, with two flights, is underway and is expected to be completed by Sunday. Prizes to be awarded following the completion of championship flight play. Prizes for the tournament, to be awarded the winner, runner-up and consolation winner in both flights, were donated by Crane Food Store, Corner Drug Store, Keltner Pharmacy, Phillips 66 Stations, Leman's Department Store and Crane Appliance Company.

Mr. and Mrs. O. F. Anderson recently were hosts to a group of friends, on the birthday of Pete Bennett and Roy Ward. Other guests were: Mr. and Mrs. Steve Thomas, Mr. and Mrs. Truman Garrett, Mr. and Mrs. Tom Hogan, Jr., Mrs. Ward and Mrs. Bennett.

The condition of Sam White, who is a patient in a Temple hospital, remains unchanged, according to Mrs. White, who is with her husband in Temple.

Mr. and Mrs. Kay Parker of Texarkana and Wanda Parker of Dallas were recent guests of Mr. and Mrs. D. W. Tillman.

More than 200 guests attended the Newcomers tea and art exhibit, sponsored by the Crane Study Club Tuesday at the Community Hall.

Mr. and Mrs. H. Bushager of Goldsmith are in Sinton, where

Bushager's mother, Mrs. Ella Bushager, recently underwent major surgery.

Mrs. Johnny West of Wichita, Kan., and Mr. and Mrs. Johnny Jones of Odessa, visited recently with Mr. and Mrs. C. A. Shaffer.

WSCS Luncheon

Mrs. Fred Field and Mrs. A. L. Caskey were hostesses Tuesday at the monthly luncheon meeting of the WSCS, and Mrs. R. O. Tomlinson led the devotional period. Plans for a Mother-Daughter banquet May 12 were completed. Attending the luncheon were: Mrs. Cecil West, Mrs. Nolan Vickers, Mrs. H. G. Bell, Mrs. P. D. Husted, Mrs. R. O. Warren, Mrs. Lula Chaney, Mrs. Bert Barnett, Mrs. Cecil Sneed, Mrs. Anna Westbrook and Mrs. O. E. Scott.

Mr. and Mrs. R. W. Booksh are parents of a daughter, Deborah Ann, born May 1 in Crane Memorial Hospital. She weighed six pounds, 11 ounces.

Mr. and Mrs. Arvill Cox are parents of a son, Thomas W., born April 30 in Crane Memorial Hospital. He weighed six pounds, five ounces.

The Rev. Roy F. George still is a patient in the Fort Stockton Memorial Hospital, as the result of an accident recently. He is reported improving, and visitors now are permitted for short visits.

Painting Bought By P-TA

Project Committee members of the North Elementary Parent-Teacher Association, left to right, Mrs. Stanley M. Erskine, Principal W. D. Ladd and Mrs. Leo Brady, are pictured with the Texas landscape by Porfirio Salinas which the P-TA has hung in the school hall as one of its major projects this year.

North Elementary P-TA Puts Work Of Texas Artists In School As Major Project

A painting which members hope will become the nucleus of a collection of good pictures for the North Elementary School has been hung in the school hall by the North Elementary Parent-Teacher Association. Gift of the picture is one of the year's major projects of the P-TA.

"Texas Spring Landscape" is the title of the painting, an oil done by a nationally-known Texas artist, Porfirio Salinas. It is a scene near Kerrville, showing an old Spanish oak tree, native mesquites and blooming wild verbenas.

It was selected for its appeal to students of elementary school age as well as for the reputation of its painter, whose work is included in the J. P. Morgan collection and in other galleries of art.

A companion picture, loaned to the school by Dr. Carlton Palmer,

Methodist Members Evelyn Riden Heads Slate Family Night Crane B&PW Club

Family Night will be held in the First Methodist Church at 7 p.m. Wednesday in observance of National Family Week.

A pot luck supper will be served buffet style. An open house will be held giving the parents an opportunity to visit the departments and see the work of their children. The Single Young Adults are in charge of the recreation period. Mrs. Arlo Forrest is in charge of the general arrangements.

A newly developed X-ray tube is only 2 1/4 inches long and 1 1/8 inches in diameter. It was designed for use in dentistry.

Evelyn Riden Heads Crane B&PW Club

CRANE—Evelyn Riden was elected president of the Business and Professional Women's Club in a meeting Thursday.

Other officers included Evelyn Weisner and Bonnie Covill, vice presidents; Mary Covill, recording secretary; Margaret Huggins, corresponding secretary; and Margaret Huber, treasurer. Installation will be held June 15.

Delegates elected to attend the state convention, May 19-21 included Miss Huggins, Miss Riden and Hazel Ervin. Alternates are Julia Cunningham, Christine Wilson and Bonnie Covill.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, MAY 7, 1951

EAT PLENTY AND TAKE OFF UGLY FAT

Many people have reported amazing results with this home recipe. It's easy—no trouble at all and costs little. Just go to your drugstore and ask for 4 ounces of liquid Dap-Contrin. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoons twice a day. That's all there is to it. If the very first bottle doesn't show the results, may want to use body fat and help remove slenderness, more grapefruit juice if redolent periods and

...of course fat don't just appear about the neck, from the arms, back, abdomen, legs, calves and feet return the empty bottle for your bank.

LOST 40 POUNDS

"Before taking Dap-Contrin, I was 220 pounds. After taking my weight is now 180 and I feel better, thanks to Dap-Contrin." —L. M. Robinson, Suburban, Texas.

J. W. Howells Will Celebrate Golden Wedding In Grandfalls

GRANDFALLS—Mr. and Mrs. John W. Howells of Grandfalls will celebrate their fiftieth wedding anniversary next Saturday and a reception in their honor will be held in the Community House here from 3 to 5:30 p.m. They are the parents of Benton Howell of Midland.

Mr. and Mrs. Benton Howell and children are expected to be in Grandfalls to help celebrate the anniversary, as are the other children of the couple, Mrs. Marshall F. Bivens, Leo T. Howell and Weidon U. Howell of Dallas. They have eight grandchildren.

No formal invitations are being

Three Members Of Valley View Club Honored At Shower

A pink and blue shower for three members, Mrs. J. C. Stephens, Mrs. Glenn Drake and Mrs. Robert Ervin, was given during a meeting of the Valley View Home Demonstration Club Friday. Mrs. Will Long was hostess to the group in her home.

Pauline McWilliams showed the group how to clean felt hats and how to pack hats to prevent moths. She also demonstrated the making of aluminum trays.

Other members attending were Mrs. Bennie Bizzell, Mrs. B. L. Mason, Mrs. J. C. Stephens, Mrs. J. D. Bartlett, Mrs. Herd Midkiff, Mrs. L. G. Sweden, Mrs. I. J. Howard, Mrs. M. E. Huff, Mrs. T. O. Midkiff and Mrs. O. C. Collings.

Novels, Mystery And Non-Fiction On New Adult Library List

A group of new books has been received by the Midland County Library during the last week, Mrs. Lucile Carroll, librarian, announced.

New adult fiction includes *Pebble in the Sky* (Astrovov), *From Claudia to David* (Franken), *Under the Skin* (Bottome), *Mr. Midshipman Hornblower* (Forester), *The Embroidered City* (Gelfan), *Take Care of My Little Girl* (Goodwin), *The Wall* (Hersey), *The Sea Eagles* (Jennings), *Phantom Fortress* (Lancaster), *Homecoming*, *The Proud Way* (Selfert), *Debby* (Steele), *Star Money* (Winsor), *The Pink House* (White), *The Women on the Wall* (Stegner), *The Sound of Chariots* (Miller), *Nearby* (Yates), *The Eagle's Song* (Downes), *Praise at Morning* (McNeilly) and *Doctor Will* (Stiles).

Mystery Books Included

The mystery books include *The Knife Behind You* (Benet), *The Bride of Newgate* (Carr), *The Beckoning Door* (Seely), *Murder at Arrowana* (Reilly), *The Brandy Collection* (Wentworth), *A Forest of Eyes* (Canning) and *The Moonstone* (Collings).

Books in adult non-fiction include *Olden and Mountains* (Douglas), *Interrupted Melody* (Lawrence), *The West at Bay* (Ward), *The Voyage to Lourdes* (Carrel), *Stalin, A Political Biography* (Deutschner), *Berlitz Self-teacher: German*, *Italian*, *American Spiders* (Gertsch), *Practical Animal Husbandry* (Widmer), *The Last Chance: Tombstone's Early Days* (Myers), *Your Dream Home* (Cobb), *American Labor Unions* (Marx, H. L.), *Mr. Jones, Meet the Master* (Marshall), *Contemporary Thinking About Paul* (Kepler), *The Mediator* (Brunner), *Rome Today* (Rothery), *Government Jobs and How to Get Them* (Sperry), *The Man Body* (Clendinning), *The Cocktail Party* (Eliot), *The Promises Men Live By*, *A New Approach to Economics* (Scherman), *The Life of Samuel Johnson* (Boswell), *Copyright Law of the U. S. A.*, *Directory of Inventor Aids* (Various non-legal services available to inventors), *Directory of Business Schools in the U. S.* (Approved by National Association and Council of Business Schools), *The Handy Book for Genealogists* (Everton) and *Down to Earth* (Cronsis).

A large group of new children's books is being prepared for the Summer reading contest that the library will sponsor from June 1 to August 31. A collection of adult novels and a group of new children's books were sent to the Terminal station recently.

Louisiana Publishes 100 Cattle Branding Volume

MONROE, La.—(AP)—Louisiana is publishing an official brand book. It will contain more than 17,000 brands and is available to the public June 1.

Most of the brands used by Louisiana cattlemen today, said Ward, secretary of the Louisiana Brand Commission, "were used by Spanish settlers during the 18th century and handed down from generation to generation within the same family."

In 1944, all livestock brands recorded with parish courts led to a great many duplicate and consequent confusions, said Ward.

Authorized Louisiana brand commission by a 1944 act took over the task of recording brands. Two years later the brand book was issued.

The book, which is to be corrected and brought up to date at five-year intervals, when all brands are renewed, will be sold to the public at \$3 per copy.

In each revision, Ward said, unused brands will be made available for reassignment.

The book should prove extremely valuable to all law enforcement officers in identifying stolen and "d" animals, Ward said. "All we have been able to recover at many head of cattle, both out of Louisiana."

Dirt, Scurt and Quirt

— FARM, DAIRY AND RANCH NEWS —

By DALMON McNAIR

Most of the run of 400 cattle at Midland's livestock sale Thursday were stockers. Butcher cattle were very scarce and no choice calves, yearlings or cows in that class were offered. The market was fully steady with last week and some classes of stockers sold higher.

A few common and medium butcher calves and yearlings brought \$22 to \$26.50, and medium cows went at \$17 to \$19. Canners and cutters moved at \$13 to \$17. Bulls sold for \$19 to \$21.50.

Several good groups of stocker steer calves sold for \$27 to \$29.50 and stocker steer yearlings brought \$24 to \$28. Stocker heifer calves were bid from \$28 to \$27.50 and a few groups of heifer yearlings went by the head for \$10 to \$13.75. A package of 50 steer calves that averaged 434 pounds brought top price of \$29.50.

Area ranchmen were well represented at the sale and included Jack Estes of Gaines County; H. S. Whittenburg, C. C. Brunken, H. R. Doty, L. H. St. Clair and Roy Brooks of Andrews; G. P. and Charlie Mitchell of Kermit; Jim and Bluford Thornton of Pyote; S. W. Estes and John Yates of Monahan; Walter M. Dagggett of Pecos; Kenneth Smith and Sam Humphreys of Marfa; Son Hendrick, W. T. Nichols, P. F. Clevenger, R. H. Hardeman, Preslar and Morris of Odessa as well as Midland and Martin County stockmen.

Two bank presidents attended and sold cattle at Midland's weekly livestock auction sale Thursday. They were Jim Thornton of Pyote and G. P. Mitchell of Kermit. In addition to their ranching interests, Thornton heads the First National Bank of Monahan and Mitchell is president of the Kermit State Bank.

Leonard Proctor, prominent Midland County rancher and chairman of the Rodeo Committee of Midland Fair, Inc., said Friday he plans to start Spring shearing at his sheep ranch south of Midland early this week.

The booming oil town of Post, which is enjoying its greatest population in history, is anticipating with more enthusiasm than ever its annual Post Stampede and Rodeo which traditionally is advertised as "The Fastest Show in the West."

This colorful amateur show is scheduled for four nights, May 24, 25, 26 and 27, with each performance preceded by a parade.

The irrigated pasture setup at the B. E. (Slim) O'Neal farm four miles south of Midland is described in an illustrated feature in the May issue of Southwestern Crop and Stock.

The O'Neal place has received wide publicity since a field trip to the farm was made several weeks ago. The setup has paid off for O'Neal in a big way and other such projects likely will be started in widely-scattered sections this year.

Irrigation ditches are being constructed on the Alfred Tom farm, six miles south of Tarzan in Martin County, according to the Martin-Howard Soil Conservation Service. Raymond Pribyla is operator of the farm.

A new irrigation system has been completed and approximately 40 acres are being put to level border irrigation this year. Blue panic and grain sorghums will be planted on the irrigated acreage.

The McMorris Brothers, operators of the Westfall farm, four miles west of Tarzan on the Andrews highway, have placed 53 acres to level borders. Additional acreage will be put in next year east of the irrigation well to make the best use of the available water supply.

A diversion terrace has been staked on the S. D. McWhorter farm, five miles northeast of Stanton. The diversion will divert outside water and protect McWhorter's terrace system below. The water will be diverted into a pasture adjoining the cultivated land.

The majority of Midland County's farm operators apparently were satisfied with their 1950 cotton acreage allotments, according to Charles Chamption, county Production and Marketing Administration director. Fewer than 50 farmers

Patience Is Chief Factor In Growing Pecans, Declares Grand Prairie Farmer

By RAY CARPENTER
Associated Press Staff

The secret of growing pecans? "You have to be patient enough to sit back and let nature do the work," says John R. Moffitt, pecan farmer near Grand Prairie, Texas.

Moffitt was a Dallas County deputy sheriff 20 years. In 1946 he turned in his star and decided to make a living out of his 16-acre "nest egg."

"There's no trick to growing pecans," Moffitt explains, "all it takes is hard work and willingness to work with nature."

The Moffitt farm lies along a bend in the Trinity River, as it winds from Fort Worth to Dallas. The rich bottom soil enables the native pecan trees to grow to mammoth proportions, and permits several crops of vegetables to thrive in the truck garden each season.

Moffitt and his wife, Lena, moved to the little farm three years ago. Now at 63, when many folks are ready to give up active work, they're spending the best years of their lives being productive and happy.

Food is abundant on their farm. In addition to vegetables from their garden, they keep a cow, sheep and a flock of chickens. Fruit trees are scattered through the pecan grove.

Mrs. Moffitt cans enough fruit and vegetables to last through the winter and they slaughter their own meat. It is kept nearby in a frozen-food locker.

A grove of native pecan trees sprouts over half the farm, and an irrigated truck garden uses the rest of the rich soil. Last year 136 pecan trees yielded 10,000 pounds of nuts, most of which were marketed.

One huge tree, believed to be more than 100 years old, produced 300 pounds.

A problem Moffitt had to face in developing his farm was that pecans tend to produce abundantly in a two-year cycle. The off-year yield normally is about half as much. He overcame this by developing a truck garden, irrigated from surface water tapped from the Trinity.

The vegetables brought ready-cash and carried him through the two-year pecan producing cycle.

Has Irrigation System

His irrigation system is unusual. Water is pumped from the river by underground pipes and flushed into canals and furrows in the garden. County Agent A. B. Jolley said the river water is better for the top soil than water from deep wells.

Moffitt bought his farm back in the thirties while he was a deputy sheriff. The land was snarled with briars and heavy undergrowth but native pecans were sprinkled liberally through the river bottom

Farmers Show Keen Interest In Tours

PHILADELPHIA—The keen interest of farmers and their families in both domestic and foreign affairs is given as a principal reason for the many inquiries from all parts of the country about the Farmers' Friendship Tours being arranged by the American Express Company in cooperation with Farm Journal.

Evidently those planning to make one or another of the trips consider it a form of adult education, affording opportunity not only to study agricultural methods but also to meet fellow farm people of this and other lands and gain knowledge of political, economic and social conditions in the countries visited. However, sightseeing will add to the enjoyment of touring.

Three separate tours, leaving Chicago on June 4, include trips to California, Western Canada, and Eastern Canada. These will be followed by a tour of Hawaii, starting from San Francisco, June 11, and another to Mexico, leaving from San Antonio, June 11. Both of the latter will be by air.

A series of four European tours has been planned for September, while South America will be covered in October.

HI-D-HO

OSWALT WILL ATTEND CITY MANAGERS MEET

City Manager W. H. Oswalt will leave Sunday for Kerrville where he will attend the annual convention of the City Managers Association of Texas.

Oswalt will appear on the convention program, speaking on "Budgeting for a Growing City." He will return to Midland Wednesday.

On the average, the modern television receiver contains 26 tubes.

See America's Greatest Truck Values

CHEVROLET P.L.

ADVANCE-DESIGN TRUCKS

PAYLOAD LEADERS

Cost less to operate per ton per mile!

Right from the start, you can figure on more payloads because Chevrolet trucks take less time on the job... cost less to keep up. They reduce total trip time with extra high pulling power over a wide range of usable road speeds. Advance-Design construction saves you money on repairs. It all boils down to this: You can depend on Chevrolet trucks to deliver the goods at low cost per ton per mile. Stop in and see these new P.L. trucks now on display.

Far ahead with all these PLU's features

- TWO GREAT VALVE-IN-HEAD ENGINES: the New 105-h.p. Load-Master and the Improved 92-h.p. Thrift-Master
- THE NEW POWER-JET CARBURETOR
- DIAPHRAGM SPRING CLUTCH
- SYNCHRO-MESH TRANSMISSIONS
- HYPOID REAR AXLES
- DOUBLE-ARTICULATED BRAKES
- WIDE-BASE WHEELS
- ADVANCE-DESIGN STYLING
- BALL-TYPE STEERING
- UNIT-DESIGN BODIES

See these great new truck buys in our showrooms today!

Performance Leaders

Popularity Leaders

Price Leaders

Most Powerful Chevrolet Trucks Ever Built

New Chevrolet trucks have stepped-up power and performance. Improved Thrift-Master Valve-in-Head engine features greater horsepower and finer performance with new Power-Jet carburetor. Brand-new Load-Master 105-h.p. Valve-in-Head engine provides greater pulling power and reduces total trip time in heavy hauling.

Preferred By Far Over All Other Trucks!

Official records show that Chevrolet trucks are America's fastest selling trucks for the last 12-month period, they have outsold the next two makes combined! And that's convincing proof of the owner satisfaction they have earned through the years—proof that Chevrolet is the nation's most wanted truck.

First For All-Around Savings!

No matter how you look at it, you're money ahead with Chevrolet trucks. Chevrolet's rock-bottom initial cost—outstandingly low cost of operation and upkeep—and high resale value, all add up to the lowest price for your truck. Yes, from start to finish, Chevrolet trucks are the price leaders!

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1950, By The Bell Syndicate, Inc.)

Drew Pearson says; White House advisers split over aid to small business; Vice President philosophizes on Senate callers; McCarthy charges have increased European opposition to North Atlantic Pact.

WASHINGTON—White House advisers sat up late trying to get a final decision on the President's small business message before he left on his western trip. A highly important issue was involved, with advisers split wide open over it.

The issue was: Whether to promote government loans to small business through the RFC, or to set up new private banks for loans to small business.

Lined up against RFC loans were: Secretary of Commerce Sawyer, Senator O'Mahoney of Wyoming and Federal Reserve Chairman Tom McCabe.

Lined up for RFC loans were: Stephen Spingarn, White House assistant; and Senator Taft, who, as ranking GOP member of the joint committee on the economic report, was consulted.

Both sides, however, agreed on what's happening to small business. It can't borrow long-term risk capital.

Small business can get plenty of short-term money from commercial banks, but not ten- and twelve-year money. Furthermore, it can't borrow from most insurance companies, which frown on speculative ventures and also want to deal in large

amounts. In addition, the private capitalists of the old days are gone, and the investment bankers won't undertake to float stocks or bonds unless the issue runs into several millions.

To remedy this, it was proposed to put the RFC in the Commerce Department and let it specialize on loans to small business. However, Secretary of Commerce Sawyer, Senator O'Mahoney and others felt that government should not subsidize business; also should not be in the position of having life and death loan powers over business.

Therefore a plan was worked out with able Chairman Tom McCabe of the Federal Reserve Board where private banks could be set up, with the backing of Federal Reserve government money, for the express purpose of lending money to small business.

It was admitted that this plan would be more complicated, but in the long run would be better than outright government loans to small business.

Note—There's a growing sentiment both inside the government and on Capitol Hill to abolish the Reconstruction Finance Corporation, established during the Hoover Admin-

istration to cope with the Wall Street crash, it now has pretty much outgrown its need.

Vice Presidential Philosophy
Vice President Alben Barkley has a story for almost every incident in the day.

A Senate aide stepped up to the Veeep as he presided over the Senate and told him a visitor was asking for him in the Senate lobby. "Do you want to have him in your office, or will you go out to see him?" the page asked respectfully.

Barkley grinned. "That reminds me," he said, "of the loafer down South. Leaning up against a store front one day, he stared at a good-looking lady and a dog moseying down the street. A curious passer-by noted this attention and asked, 'Jake, which would you rather go out with—the lady or the dog?'"

"Well, do you know," continued the Vice President, "Oh! Jake he said, 'The dog, of course. I can always get away from him.'"

"And that," concluded the Vice President to the Senate aide, "is the reason why I'll go out in the lobby to see my friend."

Europe Vs. McCarthy
Few people realize how badly American foreign policy has been undermined by the McCarthy-Communist campaign. Here are a few samples of what's happening abroad.

In China, the name "McCarthy" is pronounced exactly as if it were "MacArthur," and the impression has spread that General MacArthur

was waging a near-revolt against the State Department. In fact, the impression has been created in some parts of the Far East, where the public is not well informed, that the U. S. A. is near revolt.

In primitive Albania, the Communist government, after long pressure from the West, was expected to do a Tito. But it hasn't. And a partial reason has been Soviet propaganda that the State Department was full of Communists—"an American senator says so"—and that the United States soon would come over to the Communist Albanian side.

In France, Italy, Belgium and other Atlantic Pact countries, the reaction has been most harmful of all. For some time these countries had experienced a wave of "neutrality," which now has grown to new heights. People in these once-Nazi-occupied countries have argued that they did not want to get in the middle of another war, would much rather be neutral. That has been one reason for opposition to the North Atlantic Pact.

Now, on top of this neutrality wave has come the McCarthy charges of Communists in the State Department, which to poorly informed Europeans means that the United States is likely to go over to Russia leaving Western Europe out on a limb.

Therefore, it's not difficult to understand why neutrality sentiment and opposition to the North Atlantic Pact has grown more than ever.

Long-Haired Congressman
There's no love lost between two South Carolina congressmen—liberal, popular Hugo Sims of Orangeburg, who wears short-cut hair, and Mendel Rivers of Charleston, who wears

Student Gets High Rating In 'Science Talent Search'

John Merwin Ratcliff, son of Mr. and Mrs. J. M. Ratcliff, 2307 West Kentucky Street, was one of the 10 high-ranking contestants in the "Science Talent Search of 1949" as sponsored by the Texas Academy of Sciences, according to information received here.

The Midland youth, as a result of his high rating in the science test, has been invited by Texas A&M College to enter the competition for a four-year scholarship at that school.

long hair and votes with the Republicans.

A friend was asking Sims why he wore his hair so short. Quick as a flash, Representative Sims drawled: "I want to be just the opposite of Mendel Rivers."

Report To Senate
Prior to his departure for Europe, Secretary of State Acheson told the Senate Foreign Relations Committee behind closed doors that the United States is prepared to fight rather than retreat from Berlin. He also said the threat of a Soviet invasion of Yugoslavia had "calmed down," and reported that the British aren't getting along well in Communist China, can't even get the Chinese Communists to discuss exchanging ambassadors. Finally Acheson disclosed that Communist guerrillas in Southeast Asia are getting their arms, not from Russia, but from the Philippines. They are stolen from surplus war stockpiles.

SIDE GLANCES

"I thought I was in love, too, till I found out about the taxes on engagement rings and wedding rings—even on baby oil and baby powder!"

Ellen Murray Takes Training To Become Airlines Hostess

Ellen Murray of Midland is one of five new hostesses who have joined the Pioneer Airlines organization and soon will be flying its system. She was assigned to training to the Braniff Airways Hostess School in Dallas, before starting service with flight attendants.

Announcement of the new hostesses is made in a Pioneer employes' publication, "In Range," and their pictures are featured in the April edition.

Miss Murray is a native of Midland and has been employed in the offices of the Superior Oil Company here, although her parents, Mr. and Mrs. Fred Murray, now live in Crane and she was graduated from Crane High School. She attended Sul Ross College in Alpine, majoring in Business.

Crane Study Club Has Newcomers Tea
CRANE—The Crane Study Club entertained with a Newcomers Tea and Art Exhibit Tuesday in the County Community Hall.

Spring flowers surrounded the punch bowls on the two service tables. Other arrangements of Spring flowers decorated the room. Approximately 100 pictures were shown in the art exhibit.

Send 25 cents now for the Spring and Summer FASHION—48 pages of new styles, fabric news, special features. Free pattern printed inside the book.

Boyle Writes Of Frogs And Birth Control

By HAL BOYLE
WALSETZ, ORE.—(AP)—This is one of the most isolated towns in America and a guy has to be six feet tall to live here or risk drowning.
Leaving out the moist month of April, it rained 72 inches in the first 90 days of 1950. This is six feet of wet water.
"Of course, we measure rainfall here by the foot rather than the inch," said Bert Thomas, a pudgy six-footer who has survived adult and soaking years in this heartland of the big timber country.
Bert is a lumberman. He is general manager of the Walseltz Lumber Company, which owns some 5,000 acres of the 26 million-acre belt of Pacific forest land which is the world's richest woodland.
This belt, still half virgin, half second growth, produces one-third of the home-grown lumber in the United States.
Families Outgrow Houses
Running a tough lumber camp of five hundred people brings a lot of problems.
"The company built 185 homes here for married loggers," he said. "One row of houses bordered a swamp. That swamp caused us all kinds of trouble."
"Every Spring the loggers who lived in that row of houses would come to us and ask us for lumber to build an addition to their homes."
"They said, 'We just had another child we gotta have more room, need a bigger house.'"
So Thomas checked the situation and found this:
"The swamp they lived by was full of frogs, and the frogs kept everybody awake half the night."
"So we drained it and got rid of the frogs. And you know what? Since then the requests for lumber dropped in half. They don't need to build so many additions to their houses."
A Joke, Really
While Bert likes to joke about the birth control problems of the loggers, he can't very well joke about the lack of birth control in the rich Douglas fir forests his company is destroying to build homes across America.
"There is a great 'tree farm' program in progress here in the Pacific Northwest which will in time make the forests self-renewing."
In his company's 30,000 acres here will be a time lag period of 5 to 40 years when the old crop of trees is gone and the young crop still is too small to market. It takes Douglas fir 80 to 100 years to ripen for harvest.

MIDLAND, TEXAS, SUNDAY, MAY 7, 1950—SECTION THREE

Midland Rodeo Is Area's Big Annual Celebration

The 16th Annual World Championship Midland Rodeo, one of the big vacation-entertainment events of the Permian Basin, will be unveiled May 31-June 4 at the spacious and well-equipped plant of Midland Fair, Inc., East Highway 80 here.

The night shows will be presented in the direction of Everett Colborn, veteran rodeo producer, who stages New York's Madison Square Garden Rodeo and other time Western events. The high and tough rodeo stock will be shipped by Colborn and Genevry from their Lightening Cattle Co. at Dublin, Texas.

The nation's top cowboys and girls will compete for purses and prizes totaling more than \$8,500. Rodeo events will include bareback riding, calf roping, saddle bronc riding, cutting horse contest, wild cow milking, and other time Western events. Novelty and special attractions will be the best in the history of the rodeo show, which is recognized as the third largest in Texas.

Headed by Gov. Allan Shivers, the greatest array of state officials and other prominent figures ever to end a Midland Rodeo will be sent during the five-day attraction. The Texas governor will ride the opening day parade. The show, sponsored and staged by Midland Fair, Inc., of which

Clarence Scharbauer, Jr., is president, each year attracts hundreds of out-of-city visitors who come here from over the great Southwest to witness the thrilling cowboy carnival.

The spirit of the Old West again will be re-lived during the annual celebration as Midlanders don Western-type clothes and mix and mingle with rodeo contestants and range cowhands on the streets and in the hotel lobbies. All Midlanders take part in the staging of their one-big-entertainment event of the year.

Midland Rodeo is approved by the Rodeo Cowboys Association, and is one of the top-ranking shows of the nation.

The 1950 dates are May 31 and June 1, 2, 3, 4.

Whether a vacationer's plans call for a trip to any one of the 48 states, to Mexico, into Canada or even to Alaska over the famed new scenic highway, the Greyhound Bus Lines have an expense-paid tour pre-planned for that destination.

More than 200 tours to every section of the North American continent which attracts travelers because of its spots of scenic beauty, the national parks, historic shrines or metropolitan cities, have been scheduled by the Greyhound organization.

These trips are arranged to provide advance reservations for accommodations at first-class hotels or resorts, special sightseeing tours at points of interest, and bus transportation, all at a pre-determined price. Meals are not included, except at national parks or such other locations where public eating places are not available, because most travelers prefer the freedom of selecting their own restaurants.

Pre-Determine Cost Not only do the Greyhound tours enable the traveler to pre-determine the cost of his vacation trip, except for meals and personal expenses, but also offer conveniences which add to pleasurable traveling. With hotel reservations made in advance, there is never the necessity of paying a higher rate than was anticipated in order to obtain accommodations. Of the various sightseeing tours in any given area, a selection has been made of the ones which provide the greatest value and interest to the tourist. Another advantage is that the traveler is not required to carry large sums of money; payment for hotel rooms and sightseeing trips is made by Greyhound-issued coupons.

Most of the Greyhound tours are planned for one and two-week vacations, but any trip can be "tailor-made" to fit personal requirements for special stop-overs enroute. This is because the Greyhound trips are not conducted for large groups. They are planned for the individual traveler and practically all may be started any day of the week.

Playground Of The Southwest Is Galveston

Galveston, "Port and Playground of the Southwest," is one of the oldest and most picturesque of Texas cities. Its history is to a great extent the history of Texas. Resting peacefully in the blue waters of the Gulf of Mexico, the long, narrow island of Galveston lies about two miles from the mainland, from which it is accessible by means of ferry and causeway.

The island's sandy beaches, tropical flowers and palms, caressed by a gentle Gulf breeze, give little hint of the gunpowder, tragedy and swashbuckling trading activities that marked the early days of the city.

The first white man to set foot on Texas soil, Cabeza de Vaca, was shipwrecked on Galveston Island in 1528. Two hundred fifty years later, LaSalle named the island San Luis in honor of his French sovereign, but when the troops of Count Bernardo de Galvez overran the island after himself, and for years it was the capital of the vast Spanish Empire.

Along about 1818, Pirate Jean LaFitte took over. He held the island for about five years, making it his headquarters for raiding ships of many nations. The island was held by the Yankees one time during the Civil War, and many old families here retell accounts of heroic islanders running the blockade and recapturing the port.

Because of its natural harbor, the city continued to develop as a seaport, and today stands third in the nation in volume and value of export shipping. Its wharves, open to visitors, extend from 9th to 41st Street. Ships plying busily in and out of the harbor are an unforgettable sight.

But the real focus of resort activities is on the beachfront and Seawall Boulevard. Here are located modern resort hotels, tourist courts, restaurants and every kind of recreational facility. The famous Stewart Beach on the East end of the island, is the favorite hangout of Summer Gulf bathers. The \$2,000,000 Pleasure Pier, extending 1,400 feet into the Gulf, includes a ballroom, convention hall, exhibit building, outdoor stadium for aquatic sports, fishing pier and other attractions. In the Pleasure Pier's Marine Room, a veritable galaxy of stars reign during the Summer season.

Fishing in Galveston is something a sportsman dreams about. Fifty-one varieties can be taken in the waters surrounding the island. Fishing may be from boats, off the jetties, on the piers, or at any number of popular places, where the luck is always good.

The medical center in Galveston always attracts a number of tourists. Located here is the medical branch of the University of Texas, the U. S. Marine Hospital and the oldest hospital in Texas, St. Mary's Infirmary.

Being strategically located between the East and West coasts and being a resort town, Galveston possesses both the ideal location and the professional know-how for taking care of the thousands of tourists who visit the island annually.

The city counts a number of oldest establishments and firsts, including the oldest newspaper in Texas, first post office, first customs house, first telephone and first electric lights.

The year-round mild climate of Galveston Island accounts for the floral beauty of the city, particularly noted in the multi-colored oleanders. From these beautiful flowers come the title that gives a vivid picture of the metropolis by the sea—"The Oleander City."

By All Means, Take Your Dog

By all means take the dog along on your travels this year. It will be more fun for everyone, and the problem of finding lodgings for you with your pet is not nearly as difficult as it once was.

So states Harry Miller, director of the Gaines Dog Research Center, New York, in announcing that the 1950 edition of its public service booklet, "Touring With Towser," has just come off the press. It is a unique little directory which lists the hotels and motor courts which accept guests with dogs. A copy may be had by sending a request together with 10 cents (to cover postage and handling) to the Gaines Dog Research Center, 250 Park Avenue, New York 17, N. Y.

The data in the new edition is up-to-minute in every respect, according to Miller, and contains 1,800 individual listings in all states of the Union. All the valuable features of the previous editions—the alphabetical arrangement by states and communities within each state, notes on special conditions under which some of the hostesses will accept dogs, the helpful hints that make it pleasanter to have a dog as a traveling companion—have been retained, he states.

IN PARIS—MOULIN ROUGE!
IN MEXICO—EL PATIO!

MEXICO CITY—Mexico's family night club El Patio, provides an exotic evening out—for the whole family! The best in international talent appears in the floor show. The dinners offer choices from Spanish, French, Italian, and American dishes; wines and liquors are the finest. Best of all, there is room to dance, and two splendid orchestras play nightly. Such stars as the Spanish dance team of the Chavallillos (lately a hit in New York) and the great French composer-chanteur Charles Trenet, are typical of the entertainment.

Methods of preserving canteen dishes and making them into leather soles were first described by Homer in the Iliad almost 2,900 years ago.

German Spas, Resorts Open

A large percentage of the more than 200 German health resorts and spas are again ready and fully equipped to receive American visitors, according to Dr. Walther Kronheim, president of the Association of German Health Resorts. Dr. Kronheim, came to the U. S. A. with a group of European hotel and resort executives whose trip to study American hotel and resort operations was arranged by the E. C. A.

Even the most luxurious German spas and resorts have brought their rates to the level where the average American can afford to pay them, says Dr. Kronheim. This was made possible by lengthening the season so that instead of operating on a three to four month schedule as before, the season is now spread out over a period of nine to ten months. At the more modest spas, a four-week cure complete with room and all meals costs only about \$100, and \$150 will pay for all expenses for four weeks at a first class spa.

Before the war, the number of foreign visitors to spas and resorts accounted for more than one-third of all foreign visitors to Germany. Some of the most popular German spas among Americans were Baden-Baden, Bad Mergentheim, Wiesbaden, Bad Nauheim, Bad Wildungen, Bad Oeynhausen, and Bad Pyrmont. All of these, and dozens of others, are open again for business, although requisitions by the Occupation Forces and influx of refugees from the Russian Zone have cut down the available beds to about 40 per cent of prewar capacity, Dr. Kronheim stated.

The U. S. Bureau of Land Management administrators 125,000,000 acres of forested public land in Alaska.

Swanky Lodge In Sun Valley

Sun Valley, Idaho, the swanky Sun Valley Lodge in the foreground with the picturesque Challenger Inn Village directly beyond. Sun Valley Lodge operates through the winter months and from July 15 to September 6, while Challenger Inn Village is open the year round for sports enthusiasts and those seeking rest and recreation in the Sawtooth Mountain wildernesses.

Racing Season Set At Ruidoso

RUIDOSO, N. M. — Two outstanding futurity races will highlight the 1950 racing season at Hollywood Park near Ruidoso.

These events, open to two-year-old colts and fillies, have attracted 92 entries from the best in Quarter Horses and Thoroughbreds from almost every section of the Southwest—promising one of the most successful race meets ever held at this picturesque park.

The 1950 meet features 12 big days during July and eliminations for the Quarter Horse event on May 28. July racing dates are: 1, 2, 3, 4, 8, 9-15, 16-22, 23-28, 30.

About \$5,000 will be spent redeveloping the track facilities, improving the grandstand and infield and in preparation of railings and track. The fine park is located four miles from Ruidoso on U. S. 70 Highway.

Pecos News

A jury of the 109th District Court Monday found Francis Aves guilty of assault with intent to murder with malice aforethought. Aves was sentenced by Judge G. C. Olsen to four years in the penitentiary.

The Pecos Lions Club, at its regular Wednesday noon meeting, considered plans for presentation of "Fun Night," a citywide athletic event for the benefit of boys and girls of the city. Lions Field was selected as the site for the program. The date is to be announced later.

P. Withers, committee chairman, said.

Tourist Record Forecast for National Parks

NATURE trails, wild life, recreation areas, fishing, mountain climbing and some of the grandest scenery in all the world lure millions annually to national parks in the United States. This year's attendance is expected to exceed the 31,864,180 visitors clocked in 1949.

The Great Smoky mountains, in Tennessee and North Carolina, ranked first in popularity last year, with 1,510,000 visitors. Colorado's Rocky Mountain National Park and the tri-state Yellowstone National Park were second and third, each with more than 1,300,000 guests.

Platt National Park in Oklahoma, and Shenandoah National Park in Virginia also drew more than a million visitors each. Other historical and recreational areas attracting more than a million tourists were Lincoln National Memorial, Washington, D. C.; Lake Mead Recreational Area, Arizona and Nevada; and Blue Ridge Parkway, North Carolina and Virginia.

Most popular national historical parks were at Morristown, N. J.; Saratoga, N. Y., and the Statue of Liberty, New York. Favorite historic sites were Federal Hall Memorial, Roosevelt's Hyde Park Home, and the Van-

derbilt Mansion, all in New York state.

The national park system embraces 21,000,000 acres of land, kept in a natural state except for tourist facilities.

Lodges, cabins and bus transportation are provided in the larger recreation areas by concessionaires. The government does not operate public accommodations or transportation.

Many park museums supplement talks and conducted tours by naturalists or historians.

For further information and descriptive literature, write to the National Park Service of the United States Department of the Interior, Washington, D. C.

■ The valleys of Yosemite National Park offer inviting trails for riders and hikers, amid spell-binding beauty and grandeur.

■ Most popular of the nation's parks is the Great Smoky Mountains area, visited by more than 1,500,000 last year.

America's favorite playgrounds offer many and varied attractions for tourists. Here are just a few examples of the scenic and recreational prospects.

Lot Of People Figuring On Fishing Trip

By WILBUR MARTIN
Associated Press Staff

A lot of people are thinking about that vacation they'll get this summer.

And a lot of them are figuring on taking a fishing trip.

The U. S. Fish and Wildlife Service takes a happy view of this line of thought.

The government agency in a recent gleeful statement pointed out that the popularity of fresh-water fishing in the U. S. last year reached a record high.

Albert M. Day, director of the service, reported that sales of anglers' licenses last year amounted to 15,478,570 and that revenue from these sales was \$32,657,940.

Of this amount Texans contributed \$301,671. That was for 293,409 resident licenses and 5,239 non-resident licenses, or a total of 298,648 licenses.

'Visit Argentina' Pamphlet Issued

WASHINGTON, D. C. — The Travel Division of the Pan American Union announces publication of "Visit Argentina," seventh booklet in the series "Visit the Americas." This 40-page travel booklet, written by Lyn Smith Manduley, sells for 15 cents and may be obtained by writing to the Travel Division, Pan American Union, Washington 5, D. C.

Designed to help tourists plan vacation trips to Argentina, the booklet contains a general description of the country and its historical background, latest information on land, sea and air routes, and travel facilities within the country. Specific points of interest in the most important cities, resorts, national parks, and other sections of the country are described, including Buenos Aires, Cordoba, Mendoza, Tucuman, Mar del Plata, the Andean Lake region, and the pampas.

Dominican Republic, Jewel Of Antilles

The tourist who has the West Indies on his travel itinerary for this Spring and Summer would do well to place a special reminding check mark next to the Dominican Republic as one of the jewels of the Greater Antilles he really shouldn't miss. For the progress of that little country in the past twenty years has made changes that offer a special dividend for the visitor.

The capital, Ciudad Trujillo, usual point of entry, is a major surprise. Oldest city in the Western Hemisphere, it combines well-pre-

served examples of earliest Spanish colonial architecture with span-

new construction in the best modern manner. So spotless is the that strangers literally hesitate before stamping out their tin cigarettes. Largely rebuilt after disastrous hurricane in 1930, Ciudad Trujillo has broad, palm-lined avenues and well-kept parks that to the impression that it can real.

Horse meat is a favorite leopard's.

"YEAR-ROUND VACATION CENTER"

Inspiring snow-crowned peaks, the tang of clean, spruce-scented air, the restful solitude of sun-dappled trails, the icy refreshment of pure mountain water, healthful relaxation... all free for you to enjoy.

Glory in the nostalgic romance of the Old West, the fabulous gold mines, ghost towns and Indian ruins. Tour this scenic treasureland on broad modern highways. Indulge in your favorite sport. Or lean back and let the peaceful whisper of towering mountain firs bring you relaxing peace of mind and body. Replenish your store of happiness, enjoy a wonder-filled Colorado vacation.

Linen suits 22.95. Celaire suits 24.95.

Milady's Every Vacation Wardrobe Need Is To Be Found At . . .

Gas Has Strong Vacation Appeal

Gas leads Arkansas, Louisiana, Oklahoma in vacationland appeal and this year will attract three as many middle income vacationing families as either of the states, according to results of a survey just released by The Gas Magazine.

A national study conducted among 100,000 families in the magazine's circulation shows that the average family has an average of 2.55 cars, an average of \$3,870 in income, and an average of 1.53 cars per family.

The median 1950 vacation of the families questioned will last 2.55 weeks and it is expected 1,530 miles will be traveled on an average at an outlay of \$279. This is \$21 miles and \$66 more than this group journeyed or spent in 1949.

NUMBERED PEAK

Mount Everest, along with many other of the peaks surrounding it, once was known only by a number on the trigonometrical survey charts in the Indian government offices. Then it was discovered to be the world's highest peak, and named for Sir George Everest.

Five Miles Of Protected Beach

Aerial view of the famed Atlantic City Boardwalk and Beach, showing Steel Pier and the scores of fine hotels that will house millions of visitors this year. In all Atlantic City has 1,200 hotels, and five miles of protected beach that opens Decoration Day and stays open until November 1.

Private Railroad Train Ends Career

LONDON—(AP)—A Scottish nobleman's private railroad train—the only one of its kind in Britain—has puffed 700 miles on her last trip, the victim of nationalization of British railways. The 55-year-old train, made up of a locomotive named "Dunrobin" and two luxuriously-appointed coaches, was owned by the Duke of Sutherland.

The ducal train formerly ran on a privately-owned line through Sutherland County in Scotland from Golspie to Helmsdale. There was a private station near Dunrobin Castle, the Duke's estate. The rail line was built by the third Duke of Sutherland in 1871, but he sold it to the Highland railway in 1884. However, he retained the private train and ran it on the Highland company's lines between Dunrobin and Inverness.

Nationalization of the railroads about three years ago ended that arrangement. The Duke sold his train last year to a firm of coach-builders who plan to exhibit it at New Romney, Kent. The "Dunrobin" pulled into the yards there recently after the longest run of its career.

HAS MOST FIREMEN

CHICAGO—(AP)—New York has more than three times as many firemen as any other big town. A survey by the International City Managers Association shows the New York Fire Department has 10,565 employees. Chicago has 2,288, Philadelphia 2,202, Los Angeles, 2,050, Boston, 2,379, Detroit 1,821, San Francisco 1,720.

MORE PARKING METERS

CHICAGO—(AP)—The number of communities with parking meters has more than doubled in the last three years. The Municipal Finance Officers Association, in reporting this, said meters had been installed in at least 2,240 villages, towns and cities up to the end of 1949. The association says seven cities took \$300,000 or more from them last year. The biggest was Boston's. It collected \$485,000 from 5,000 meters.

A Week's Trip To The Mountains Or Three Months In Europe—Both Require Planning

By FRANCES HAGAMAN

Planning for a week's trip to the Davis Mountains and making preparations for three months in Europe are vastly different things and one requires much more thought than the other.

Many Midlanders are planning vacations this year that will take them out of the United States and most of them are headed for Europe. Another large group will go to Mexico, others to South America, and one or two brave souls are breaking the pattern by planning journeys to Hawaii.

A traveler on her way to Europe must anticipate a great many things with which she would not come in contact on other foreign trips. In Hawaii, American is spoken. In Mexico and South America a basic knowledge of Spanish will get you safely home, but in Europe, the traveler comes in contact with not one, but many, foreign languages and just as many matches. For instance:

There are many things (matches and nylon hose, for instance) that are practically impossible to buy in Europe and other things such as soap and tooth paste or powder that can be acquired only with the greatest effort.

So, experts advise the European journeyer to equip herself with an extra-large cigarette lighter, a small iron, cigarettes (even though she doesn't smoke they may come in handy), plenty of soap and nylon hose. Other suggested small items are a leather passport and visa case, a collapsible, aluminum drinking cup, a good flashlight and a guide to European currency.

The one thing that women are advised not to take is cologne or perfume. The bottles take up space, it is hard to keep them from spilling, and good perfume is available all over Europe at rock-bottom prices.

As to clothes, one store advertises a complete European wardrobe for \$140. Of course, this doesn't include shoes, hats and bags, or lingerie, but it is designed for the working girl who is going to the continent on what she has saved from her salary. This store also advertises the luxury wardrobe, the other extreme, with prices unlisted.

The contents of these wardrobes are similar, and can be used as a scale by which to decide what clothes to take for a tour that will go from the Highland Lakes in Scotland to the vault under St. Peter's in Rome.

First and foremost is the suit. It should be dark-colored and of a material that will not crush or show stains. The best high standards of operation. Presentation of the award was made at a luncheon meeting of the Denver Advertising Club, held at the Denver Chamber of Commerce in honor of J. C. "Clint" Bowman, president of the firm.

In accepting the award, Bowman commented: "You in the advertising profession are promoting a more clean-cut distinction between the good and the bad in advertising which is an inspiration to everyone in the industry to improve the product and its distribution. After 45 years, we at Bowman Biscuit Company realize more than ever that advertising is a powerful weapon in establishing product identification."

The first Rose Bowl football game was in 1915.

it will not be over-dressy for traveling. For the traveler with an unlimited budget and quite a bit of space, a dressy gabardine of soft wool suit also can be included.

With the suits, one or two bouffant sweaters and several blouses should be taken. These should be washable and also should be dark.

Include Raincoat
A warm, serviceable topcoat is a necessity for European travel. Anything from cashmere to covert cloth will do, but it must be warm. If this coat is not water repellent, a raincoat should, by all means, be included.

A wool dress which can double with the suit for sight-seeing, should be included. The style should be tailored and, again, if you are buying on an unlimited budget, as many of these as you have room for will come in handy.

For dressier occasions, two piece dresses that can be interchanged are suggested. Taffeta skirts with dressy blouses and jackets are good combinations. Nylon is the answer to dresses like this and a simply styled one that can be dressed up or down with jewelry will suffice the woman who can't take but one.

As to formal, the time may come when one will be needed and, if you have room, it's a good thing to have. On shipboard they are worn to captain's dinners and if your luck is good, you may be invited to an Embassy party. Formal gowns probably will be the accepted dress.

A good sturdy pair of walking shoes is a prerequisite for a European journey, because cobblestone streets are not recommended as treatment for aching feet. Dress shoes are a matter of choice, but comfort should not be overlooked for style.

Hats should be berets or soft felts that can be packed easily and handbags should be small. Gloves, scarves and handkerchiefs also are a matter of personal preference and their choice will depend on budget and space.

Nylon lingerie is almost an essential because it washes easily, dries quickly and requires no ironing.

Of course, there will come a time when you are without the very thing you need. The store that sends the most people to Europe has a solution for this. Just wire or cable, they say, and we'll send you every need to you by the first available plane.

Enjoy Vacation By Changing Routine

Strange as it may seem, a lot of people don't know just what a vacation is, or how to get the most in the way of rest and relaxation out of one.

This conviction is expressed in an American Magazine article by Rudolph P. Ellis, a New York vacation consultant who has some pretty definite opinions about how vacations should be spent.

"Changing the routine of one's life on a vacation is of the utmost importance," he believes. "A vacation, to be beneficial, should not be a matter of doing nothing, but rather of doing something different—completely away from the rut of everyday life. It should be spent in doing something you have always yearned to do, or in fulfilling some hidden or repressed desire of which one is not always aware."

Ellis thinks it's all right for young, unmarried girls to entertain vague hopes of romantic adventure on their vacations but feels they shouldn't subordinate everything to man-hunting.

"I suggest that in planning a vacation," he says, "an eligible young woman should place having a good time above finding a lifetime companion. In the former she is more likely to succeed. She may succeed in the latter any time, any place."

Go Alone
Great care should be taken in selecting companions for a vacation. Go alone, advises Ellis, unless you have a friend of long standing or relative whose temperament and tastes are in harmony with your own.

And you're on the vacation, be liberal but not ostentatious in tipping, states The American Magazine article. If you spend about \$10 a day for room and board, it's sufficient to leave the waitress at your table \$3 a week tip per person. One dollar a week is adequate for the chambermaid. And always be sure to leave the ordinary gratuities for special favors.

Generally speaking, Ellis says, the best way to enjoy a change on vacation is for city folk to spend their playtime in the country, and for persons living in small communities or rural areas to head for the big cities.

Atlantic City, Famous Resort

ATLANTIC CITY, N. J. — This famous resort already has entertained more than three million visitors on conventions and holidays and looks forward to the biggest Summer season in its 96-year history.

Oldest of all American resorts and proud possessor of the longest protected bathing beach in the country, Atlantic City will offer Summer visitors scores of attractions to be found nowhere else.

First there is the world famous Boardwalk, a traffic-free esplanade more than five miles long and 60 feet wide running parallel to the beach on one side and a sparkling array of smart shops and luxurious hotels on the other. In all, Atlantic City can accommodate more than 400,000 people a day on its beaches and half that number in its 1200 hotels and guest houses.

Starting in May there will be name entertainment and big name bands on Steel Pier, which extends a half-mile at sea. In July, the famous Ice Capades will take over in the world's largest Auditorium

(seating capacity 41,000) for a full six weeks until the Miss America Pageant starts on Labor Day.

Four Golf Courses
There is golf on four fine courses, all overlooking the bays and skyline of Atlantic City, as well as deep sea fishing, surf fishing and shallow fishing in the many bays and inlets that separate Atlantic City from the mainland. The city itself is an island seven miles from the New Jersey coast.

For those who enjoy the thrill of horse racing, there is a 90-day meet starting August 10 at the Atlantic City Race Course, a four-million dollar mile track that is considered one of the most beautiful in the nation.

In addition to hotel rooms in every price range and to suit every holiday purse, there are some 5,400 apartments and rooms in private dwellings in choice residential neighborhoods.

All in all, Atlantic City offers a vacation package second to none—and some thirteen million annual visitors prove it.

You are just...
Overnight

from Galveston

via Santa Fe...
from San Angelo

Business men have long used this popular overnight service to Houston. Now by a convenient same-station change of trains your whole family can enjoy a pleasure-filled weekend of sun-washed beaches and cool Gulf breezes.

Supreme Bakers Get Advertising Award

DENVER, COLO.—Supreme Bakers, Bowman Biscuit Company of Texas, producers of millions of pounds of cookies and crackers each month, has received the Advertising Club of Denver's Fame and Fortune Award for the company's "outstanding achievement in the building of one of the West's most successful businesses through the medium of sound merchandising, advertising and selling of a high quality commodity, and for contributing to the economy of, and bringing credit to this region through its consistent high standards of operation." Presentation of the award was made at a luncheon meeting of the Denver Advertising Club, held at the Denver Chamber of Commerce in honor of J. C. "Clint" Bowman, president of the firm.

In accepting the award, Bowman commented: "You in the advertising profession are promoting a more clean-cut distinction between the good and the bad in advertising which is an inspiration to everyone in the industry to improve the product and its distribution. After 45 years, we at Bowman Biscuit Company realize more than ever that advertising is a powerful weapon in establishing product identification."

The first Rose Bowl football game was in 1915.

Beauty Is Big Factor In Buying Vacation Luggage

By FAYE SHELBURNE

Not only is luggage designed for durability and practical use but beauty is also a big factor this season. Ready for the vacation season, Midland shops offer a wide variety of luggage this Spring.

The shopper may buy luggage in colors to match the wardrobe or the traditional tones that will not clash with the wardrobe or other surroundings. Colors especially good are the light tan, brown trimmed in darker brown, blue with cream, wine with a light trim, brown with tan trim, blue or brown trimmed in rawhides and the usual browns and blondes.

Recommended for air travel is the luggage made of aluminum and plastic coated fabric. Cotton cord, sharkskin and linen are coated with plastic for durable use. Cowhide and rawhide are always good. A plastic material that looks like leather is being shown in men's luggage.

Bottoms Are Padded
Packing and keeping things nice is no problem with all of the additional help for the traveler. The

padded bottoms make it easier to pack fragile objects with little danger of breaking. Shoe socks are provided for both men and women to keep the shoes from spilling other articles in the bag. Plastic packerettes for the electric razor to keep moisture from getting to it may be used. There are bottle guards, detachable plastic packerettes in which to pack wet articles—all to make the task of packing an easier matter.

Richly Fitted Interiors in silks, satin silks and other beautiful materials are done in colors to match or blend with the exterior colors. Practically all matched luggage has the permanent mirror as well as other handy fittings that are always needed while away from home.

May Be Matched
Men and women's luggage may be matched in pieces consisting of the ladies overnight case, the vanity overnight case, the ladies wardrobe, the two-sulter, three-sulter, the pullman, the hand wardrobe and other accessory pieces. A complete set for the lady is composed of seven to eleven pieces and the men's set, of three or four pieces.

For a longer trip by automobile, the graduate school foot locker equipped with the hand grip on the side and the end is available to fit in the trunk of the car with ease. For shipping purposes overseas, wardrobe and steamer trunks may be obtained.

Nature Carves Perfect Arch

Engineers may easily learn a lesson from nature which through the ages by erosion caused by wind, sun, rain and frost has carved a perfect arch to form the natural bridge in Bryce Canyon National Park in southern Utah. In this colorful region fantastic sculpturess formations reveal the weird quirks of nature at work, of which the natural bridge is but one.

Midland Is Good Place To Vacation

By SHORTY SHELBURNE
Reporter-Telegram Sports Editor

In the Spring they always say a young man's fancy turns toward romance. And in the Summer everyone's fancy turns toward a vacation. It's vacation time now and we can't think of a better place than Midland to spend one.

Midland, always classed as one of the most beautiful and cleanest cities in the state, has just about everything to offer but greased pig races and they might even be arranged.

The great American game of baseball is much in evidence to offer slum-bang entertainment at night for the vacationer. The Indians are in the thick of the pennant fight and have one of the strongest teams in the league.

Harold Webb, owner-manager of the club, is noted for his added color on the diamond. If it's a good joust with an umpire you are wanting to see—Indian Park is the place to go.

Two country clubs, both boasting fine greens and fairways, give ample opportunity for golf. Midland Country Club is a nine-hole layout and Ranchland Hill Country Club north of the city has 18 holes.

Golfing at MCC is limited to members and special guests of the club but at Ranchland Hill guests are welcomed when accompanied by a member.
PGA Tourneys Set
Also in the golfing picture here this year to offer even more attraction to vacationers are the Texas PGA Tournament, slated May 29-June 4 and occasional ex-

hibition matches by the world famous Bauer Sisters, Mariene and Alice.

The Bauers are scheduled for several appearances here. Swimming—we've got it too. Pagoda Pool in West Midland is ready to receive bathers at any time. An elaborate new purification system has been installed and the bath houses have been renovated to make Pagoda Pool one of the finest.

The VFW Pool, seven miles west of the city on U. S. Highway 80, also draws large crowds of bathers each Summer. It was constructed by the Army and is equipped with the latest in everything.

Picnics—always you gotta have picnics while on vacation. Along that line you can take your choice of 16 parks in Midland at which to hold your picnic.

Cole Park (formerly Cloverdale) is located four miles southeast of the city and it can't be beat for an outing spot. Beautiful green grass, numerous shade trees, picnic tables, barbecue pits, play grounds and all the trimmings are at Cole Park. It is large enough to accommodate more than 50 picnic parties.

Pagoda Park, the second largest, lies around Pagoda Pool and offers the same things as Cole Park only on a smaller scale.
Scattered through the city are numerous smaller parks, all well kept and pleasing to look at in the Summer.
Softball, tennis, the annual World's Championship Midland Rodeo, the Annual Trail Days celebration and many other vacation

time events can be found in Midland.

Fishing No Problem
Fishing, one of the greatest vacation pastimes, is no problem when you spend your vacation here. The Charlie Blaylock Lake, 20 miles southeast of the city, is well stocked with fish and has plenty of water in it to keep them in good shape. The lake covers about 500 acres and offers plenty of shore line for those who want to fish from the bank. It is deep enough to accommodate boats.

Those are just a few of the things Midland can afford a vacationer. If it's just loafing you want—there's no better place than the lobby of Hotel Scharbauer, noted hotel and gathering place of oil and cattle men.

So, just as a pattern for a good vacation try this: Get up early and head for Blaylock's Lake for fishing. Take all day if you wish. Come back to town and have a picnic supper in one of the parks late in the afternoon. Take a swim at Pagoda Pool if you wish then step across the lot to Indian Park and watch the Midland Indians in action.

Chances are you'll have time after the ball game to drop in at one of the downtown theaters for a movie. Just look at that. Hawaii hasn't got a thing on Midland.

DIFFERENCE IN ECLIPSES
Eclipses of the sun can be seen from only a small belt of the earth's surface, while eclipses of the moon can be seen from any part of the earth.

'Package Trips' Are Offered Vacationist

For those of you who have in for Bali Hai need only to call General Travel Company for reservations and information on its paradises which easily could begetters to Bali Hai.

Just recently through the operation of airlines, hotels, and travel agencies all over the Caribbean area, new "package trips" have been introduced to offer the "vacation" and the traveling public the best at the lowest prices.

General Travel Company is calling in these new "package trips," some of which include wonderful tropical islands such as Nassau, Cuba, Jamaica, Bermuda and even Hawaii.

Wise Vacationer Derives Pleasure, Saves Money By Early Planning For Equipment

By BOB PRENTISS

Just as it is fun to discuss vacation experiences long after vacation days are past, so it is pleasant to plan outings in advance. No matter whether "vacation" means a quick weekend trip to a favorite fishing hole or a three-month tour to foreign lands—the prudent vacationer derives pleasure and profit from early planning.

And plans should include more than selection of routes, schedule of activities, and checking of addresses. They should also include the early checking of equipment needed for the utmost enjoyment of the yearly relaxation period.

Midland retailers this year are equipped with the widest variety of

vacation equipment — for sports, travel, camping, or just relaxing at home.

Fishing equipment is in good supply in Midland stores. The garden variety equipment—bait, fisherman can get bamboo poles, hooks, line and a thermos bottle for that cool refreshment—long before he heads for that shady spot on the riverbank. And the mountain-bound trout fisherman will find a wide selection of fine rods, lures and waders to supplement present supplies.

Waiting For Midlanders
Lunch boxes, picnic baskets, portable ice boxes, single or double burner gasoline stoves, luggage, portable grills and thousands of other items are waiting for traveling Midlanders in many stores.

Wandering via automobile along the thousands of miles of scenic American roads is made more interesting and enjoyable by careful selection of the numerous items of equipment designed for car travel. Special equipment to keep baby happy include car seats, cribs and playpens, bottle warmers, and new and interesting toys.

Though equipment shown is designed mainly for automobile vacationers, train or plane travelers can take advantage of modern design in luggage to fill any need. Long trips with many dressy affairs scheduled demand luggage which will carry numerous changes of clothing—and stores are well-stocked with multi-suit or multi-dress bags. Leather and aluminum luggage predominates in Midland stores.

Cameras add immeasurably to the value of a vacation, recording for future recollection the fun and sights of the trip. Portable radios, in a wide variety of sizes and prices, also are recommended by seasoned travelers for most complete enjoyment of a trip.

Complete Equipment
For the mountain-bound Midlander who wants to "rough it," complete equipment is available—including bed rolls, cots, tents, ponchos, cooking gear, axes and knives.

For a true home-away-from-home, trailer living offers many advantages. Many styles are available, from small models, to large and ornate models, sleeping up to eight persons.

There are many who believe that a vacation should be spent at home, relaxing, enjoying local entertainment, or working around the yard. For them, Midland stores offer comfortable lawn furniture, appliances, games and refreshments for complete enjoyment of the leisure time.

With the selection of equipment only limited by the choice of an objective, advance planning is easy. Stores in Midland can fill your every vacation need—begin planning now for vacation, and select needed equipment early to forestall that last minute rush.

Old Pacific Port Of Acapulco Is Glamorous Resort

ACAPULCO, MEXICO — Enchanted with the beauty of the old Pacific port of Acapulco, certain it could become the most glamorous resort in Mexico, a few pioneers invested millions of pesos building hotels on the rocky cliffs above the ocean, before they had any assurance whatsoever that their faith in the future of Acapulco would be justified.

First among these was Don Carlos Bernard, who built the cottages and halls of the now-famous Hotel Mirador, on the highest vantage-point of the coast, swept by cool sea breezes, with an unmatched view of the ocean.

Now Acapulco has some fifty or more hotels and pensions, night clubs and restaurants that rival those of Mexico City, paved streets, lighted avenues, potable water... all these developments have followed the tide of tourist travel to Acapulco in the last twenty years. The Mirador continues to serve as one of the preferred hotels.

Wasting Time Needn't Be Headache In Preparing Vacation If Suggestions Are Heeded

By FAYE SHELBERNE

Wasting time needn't be the number one headache of preparing for that vacation. A few suggestions and ways of doing things can simplify matters so that you can start about two weeks before time to leave instead of last night before. Plan what you are going to take and you will need each thing so you can determine where to take it.

Make a list of the things that you need. List them by categories: what you must buy, things that you go to the cleaners, things that you have to repair, work as you get those things ready for packing, check them off that and put them on a general packing list showing where you go to pack them.

You actually get down to work of packing all you have to do is put them in that certain bag and check them off your list. This does seem like quite a lot of paper work, it will save almost inevitable, "I intended to bring this, but in the rush of things I forgot it," or "I knew I would forget something!"

Planning and listing what you are going to take, remember, don't take too much. Make use

of those double-duty clothes. For instance, include that basic suit that you can wear in many different ways as there are days in the week. Plan your vacation wardrobe around one basic color scheme. You can work it so that one pair of shoes, hat and gloves will serve you for the whole trip.

Also consider the material of your clothes in making your selection. Wrinkle-resistant fabrics such as rayon jersey, pure silk, nylon crinkle and seersucker are ideal for packing convenience as well as wear. Dark colors and prints are most advisable to camouflage soiled spots and wrinkles.

Packing Tips

When it comes down to the actual packing, use tissue paper in folds of garments to prevent wrinkles and creases. Pack your shoes in your hatbox or in a separate bag to keep from soiling everything else in the bag. Pliofilm bags may be obtained in which to pack cold cream, perfumes and other breakable or spillable items.

Men, or women who will be packing a man's vacation needs, here are some suggestions for packing. Put the suit coat in the bottom of the bag with the shoulders to the back; let the tail hang over the front of the bag. Then put a pair of pants over the coat with the waistband at one end of the bag and then another pair just reversed. Let the legs of both pairs extend out of the bag. Now put shirts, socks and other clothing on top of this. Then fold the pant legs over and then the coat tail. Now if you can close the bag—or maybe you're not one of those people who try to put too many shirts in one bag.

Some of the things that you may want to include in your overnight bag will be a travel alarm clock, sewing kit, laxative, a wash cloth with a waterproof container of some sort in which to place it after use, a small hand towel, as well as the many other thought-of necessities.

A damper can be put on the whole vacation trip by the last minute rush that comes from packing or by the omission of that all-important item. Wise and careful planning for packing can make the difference.

Don't Waste Time Getting To The Vacation Choice

Some practical philosopher once said that the ideal way to see the world is to waste little time getting to your destination and to spend even less money in seeing it.

Another opportunity for the U. S. traveler to carry out this old adage will be available on May 29 when Braniff International Airways begins flying to Buenos Aires, Argentina, 9,900 miles from Texas.

For instance, you can leave the Houston air gateway some Sunday morning and have dinner the next evening in Buenos Aires. The DC-6 sleeper liner stops only in Panama and Lima, Peru, giving the United States its first two-stop express service to Argentina.

Buenos Aires is the largest capital and fourth largest city in both Americas and often has been called the most sophisticated of its sister cities. Four million of Argentina's 16 million people live in or near Buenos Aires.

To the North American traveler, Buenos Aires has a double appeal. It is similar to New York in the sophistication and the luxurious comforts of city life. Settled by people of the Old World, it also retains the continental atmosphere of many European countries plus the Latin atmosphere of the New World.

There are dozens of modern hotels in Buenos Aires, all air conditioned and as luxuriously appointed as the best hotels in the United States. English speaking employees insist on speaking English to "practice" on North American guests.

The only problem of entertainment in Buenos Aires is how to cram all the fun available into your allotted visit. From May until November is Argentina's delightfully cool winter time, which also is the height of the opera and theater season.

Other favorite tourist spots in this country of assorted scenery and climate are the seaside resort of Mar del Plata, the Province of Tucuman, known as the "garden of Argentina," the higher-than-Niagara Iguazu waterfalls on the Argentina-Brazilian border, the old world loveliness of hilly Cordoba and the Switzerland-like majesty of Nahuel Huapi in the south of the country. And near enough for weekend jaunts across the bay are the beautiful beaches of Uruguay.

Lake in Colorado Rockies

Dream Lake, in one of the most enchanting settings of Rocky Mountain National park, is only one of countless mountain lakes that glisten like jewels in the Colorado Rockies.

—Union Pacific Railroad Photo.

Variety Of Sports Will Be Enjoyed At Sun Valley

SUN VALLEY, IDAHO—Twenty-two different sports will be enjoyed this summer in the crystal clear mountain air at Sun Valley, Idaho. Idaho itself provides the fishing—miles and miles of trout streams in the immediate vicinity of the Union Pacific Resort. The fisherman takes his choice of whether he wants to cast his fly in rushing Wood River or in a quiet stream where a trout may lurk under the grassy banks. For the expert, Silver Creek, not far away, is one of the finest streams in the country. Those who long for a taste of rugged country can plan pack trips into the seldom-fished High Mountain lakes or down the "River of No Return" in the primitive area of Idaho.

Thirty to 40 pound salmon can be hooked during the season in the Stanley Basin. A few hours' drive from Sun Valley. Drive-it-yourself cars can be rented for these expeditions, as well as for sightseeing trips to the lakes or alpine beauty that dot this scenic basin.

Every morning sees guests leave the corral for rides into the winding trails of the Sawtooth Mountains. Sun Valley's fleet of horses numbers 100 and there is a mount to suit every rider's taste.

One of the unique sports offered by Sun Valley is Summer ice skating on the outdoor artificial rink, the largest of its kind in the country. Here guests enjoy the novelty of skating while they acquire a deep Summer suntan, or, under the expert instruction provided, learn the intricacies of figure skating.

The shooting field, one of the finest in the country, offers skeet and trap to the beginner and expert alike. Two big shoots are scheduled for the season—the Sun Valley Handicap, July 1-4, that will bring together over 300 of the country's best shots, and the Sun Valley Indian Trapshoot, the "Fun" meet of the shooter's year, September 7-10.

There are two glass-enclosed swimming pools at Sun Valley—one at the Challenger Inn, the other at the Lodge.

The well-kept golf course at the resort, full of personality and challenge, was designed by William P. Bell, famous golf architect. Facilities for tennis, archery and

bowling are all provided, while for many a vacationer the high point of the trip will be the chair-lift ride up 9,250 foot Baldy Mountain to view or photograph the mountains stretching into the distance in endless jagged peaks.

Spectator Sports

Spectator sports aren't neglected. Almost every afternoon a softball game between two of the various teams of employees and guests brings an enthusiastic crowd out to boo and cheer. An ice show and an aquacade, beautifully costumed, are produced at various intervals during the season.

All facilities of Sun Valley are open to guests whether they are staying in one of the luxurious suites in the Lodge, or in a neat, comfortable \$2 room in one of the chalets. In the list of accommodations offered there are those to suit every pocketbook and every family's vacation budget.

Vacations South Of The Border Favored By Many Midlanders Because Of Nearness

By SUE COLEMAN

Vacations in other countries attract many Midland residents each year, with the Latin-American lands as favored destinations. Nearness of the Mexican border makes trips to exotic cities very simple: visits to the Mexican states just below the Rio Grande are so common as to cause no comment, but a number of Midlanders have made longer trips into Mexico, Central and South America and the Caribbean Islands.

Among the travelers in Mexico within the past few months have been the E. E. Reigles, the F. W. Stonehockers, the H. N. Phillips, the A. R. Ayles and Carolyn Oates. Guatemala was the goal of a trip by the J. W. McMullens last Summer. Dr. and Mrs. J. H. Chapple and daughter, Toya, have visited Mrs. Chapple's relatives in Panama. A Caribbean trip was a honeymoon for Jacqueline Theis of Midland and Miles Pierce of Ozona after their wedding here in January. Elizabeth Pale took a cruise trip to the West Indies and the Caribbean coast of South America late last Summer.

The Reigles made their two-week trip into Mexico early in April, with a family party that included Reigle's sisters and brother. They flew to Mexico City and then took a guided trip by automobile to Acapulco, Taxco and Cuernavaca. Reigle, who visited in Cuba last year with a party of business men, especially is enthusiastic about the Latin-American countries and hopes to return to Mexico for a tour in his own automobile as well as to make a longer trip to South America—all the way to Buenos Aires.

Mrs. Reigle liked Taxco and Cuernavaca especially, because they are picturesque and more typically Mexican than the cosmopolitan capital city and the popular resort of Acapulco. She believes she would have enjoyed the trip even more if it had not been made just as the rainy season started.

The Stonehockers and the Phillips are repeat visitors to Mexico and are talking about another trip, still in the tentative stage. The two couples went down together in September of 1948 and again last October.

Like most travelers from Texas, they flew to the Mexican capital and used the city as headquarters for trips from one to four days long.

On their first visit they went to the West Coast of Mexico, visiting Taxco and Cuernavaca.

Last Fall they ventured further, into the tropics almost 400 miles south of Mexico City, where they saw ancient Indian ruins and buildings dating back to the Spanish conquest, growing orchids and coffee plants and a swimming pool covered with gardenias. Cities on their itinerary included Tehuacan, Arizona, Fortin, Cordova, Puebla and Chilula, which is reported to have a population of 500 and more than 300 churches.

Mr. and Mrs. Ayles and Miss Oates were fellow-travelers on an automobile trip routed by way of Saltillo, Antigua Morelos, San Luis Potosi, Guadalajara, Mexico City, Morelia, Toluca and Taxco. Mrs. Ayles has lived in the Rio Grande Valley and has a number of friends in Mexico, with whom she had visited in the past to become well enough acquainted with the country and the people to make their trip more than ordinarily interesting.

We... at Fashion Salon... Shoes

are mighty proud of the fact that we are a part of the great Permian Basin. For the past eight months it has been our pleasure to serve the women of this area with footwear from the world's foremost designers and makers of quality footwear.

Your reception of the beautiful shoes created by JOHANSEN is proof that West Texas women prefer and select the great, fashionable correct line of footwear.

MIDLAND'S NEWEST SHOE SALON . . . FOR BETTER DRESSED WOMEN!

Winter Vacation Fun For Midlanders

Vacations are not limited to the Summer months for Midlanders, and trips to Winter sports areas have become more popular in recent years. A number of residents made frequent trips by plane through the Winter to the mountains of New Mexico. Skiers pictured at one of the mountains resorts include Mary Conley Jones, lower left; Frances Eubank, lower right; Pat Butcher and Bill Eklund, above.

Cool Colorado Has Added Attraction In Horse Racing

Cool, colorful Colorado, already famous for climate, beautiful scenery and year 'round sports, now offers vacationists an added attraction. For the first time in 35 years, tourists and Colorado residents alike will have the pleasure of seeing some of the nation's finest thoroughbred racing, at one of the nation's most beautiful tracks.

Colorful Centennial Park, located near Denver at the foot of the snow-capped Rockies, will open on Independence Day for 46 days of afternoon thoroughbred racing through Labor Day.

This magnificent \$1,800,000 racing plant with a mile-long oval is being constructed by the Centennial Turf Club, composed of leading Colorado business men, ranchers and farmers, stockmen and horse breeders, who have pledged themselves to providing top-notch horse racing for the enjoyment of Colorado visitors and residents.

Visitors to Colorado during the Summer months of July and August will find the track located on U. S. Highway 85-87, the main, north-south artery in the state. This broad, four-lane highway running past the track site leads directly to Pueblo and Colorado Springs, Colorado's second and third largest cities, and is quickly accessible from every section of the state.

The drive to Centennial Park affords a majestic view of Pikes Peak, Mt. Evans and Longs Peak with the green foothills forming a dramatic contrast with the snow-capped Rockies.

One tier above the main ramps seats and boxes of the grandstand will be the swank club house featuring all table terraces, one of the few installations of this kind in the nation. Luxurious dining room and rest room facilities will be located on all levels.

The ground floor of the fine and beautiful grandstand will be occupied by restaurant facilities and offices.

"Tote Board" The "tote board" located in the beautifully landscaped infield and other pari-mutuel equipment is being furnished by the American Toteboard Company of Baltimore. The "tote" board is so designed that patrons standing at the leaning rail in front of the "tote" board will have a clear view of the entire one-mile racing strip.

Colorado's pari-mutuel law, approved by the voters in November, 1948, provides that 85 per cent of all money wagered at the tracks is returned to bettors holding winning tickets. The track receives 10 per cent which is expended for the purses that are necessary to attract top-notch horses, and for general upkeep of the racing plant. The state itself receives the other five per cent for use in the general fund.

Thoroughbred racing at the Colorado track will be of high quality since it will be one of the very few major racing plants operating between Chicago and the west coast during the months of July and August.

As thoroughbred racing is returned to Colorado on a high level, Centennial Park, the state's only major track, is expected to take its place beside other famous turf courses all over the country.

A vacation in Colorado this Summer will not be complete without spending at least one day at beautiful Centennial Park.

California, Oregon and Washington account for most of U. S. production of hops.

Have the time of your life at this famous ranch. Fine food, suites or cottages with private baths. Modern Airport. Swimming Pool. Every ranch activity including really fine horses.

Come by plane or by car through the picturesque hill country—or come by train to San Antonio where we'll meet you. Write now for literature or reservations.

Avenida 9 de Julio In Buenos Aires

Avenida 9 de Julio in Buenos Aires is a new thoroughfare sliced through the heart of the city by demolishing entire city blocks. Lanes are formed by gardens with fountains separating them, and parking places for 2,900 automobiles are built underground. White obelisk in center is now famous as landmark of Buenos Aires.

There Is Much To See And Enjoy In Mile-High Denver

Situated close to the geographical center of the United States is Denver... capitol of Colorado, highest state in the union... commercial and cultural center of the Rocky Mountain region, with its myriad scenic attractions, delightful climate, and rare opportunities for outdoor recreation the year 'round.

Activities during the past few years have expanded Denver into a beautiful, well-planned, modern

city of 410,000 population and a metropolitan area of more than half a million. And yet, Denver retains much of the glamour of the Old West. Its busy streets today echo the tramp of the boots of the daring frontiersmen, the intrepid trappers, and the early-day kings of the cattle country. Here you will find the tomb of Buffalo Bill Cody and monuments to other famous personalities who had distinguished roles in development of this great region of mountain and plain.

In Denver, there is much to see and enjoy. Adjoining the city's splendid retail shopping, hotel, and financial district is the world-famous \$11,000,000 Civic Center, known for the beauty of its fine public buildings, broad lawns, trees imported from many foreign lands, historical libraries, museums, and art galleries—and the finest Indian collection on the continent. At Denver's City Park is the nationally-known Museum of Natural History. The zoo in the park was the first in the country to establish animals in enclosures resembling their native habitats.

Mountain Parks System
Only 14 miles from downtown

Denver is the city's famous Mountain Parks System—nearly 30,000 acres of primitive scenic grandeur—and two outstanding Winter sports areas. Points of interest in this recreational region with its many mountains, hotels, camp grounds, and other facilities for the visitor, include the celebrated natural open-air Theater of the Red Rocks, seating 10,000 persons in a fantastic setting of gigantic rocks, and revealing incredible acoustics provided by Nature.

West of Denver at the Central City Opera House, stars of bygone days played to miners and merchants of the gold boom era, contemporary audiences enjoy an annual Opera Festival from July 1 through July 29. Central City, with its historic Teller House, Glory Hole dance hall, the still visible "face on the barroom floor," is a vacation mecca for throngs of Colorado visitors.

Yes, Denver has "things to do" regardless of the season! This Summer you'll find horse and dog racing, yachting or speed boating, seasonal sporting events, fishing, picnicking... you name it, Denver Has It!

Weekend Vacations Can Scatter Fun Days Long, Hot Summertime; Choice Spots Near

By SUE COLEMAN

Weekend vacations are popular with some families who find the customary two weeks in the mountains or at the seashore impractical, or who have other uses for that once-a-year period of free time but want to scatter a little vacation fun through the Summer.

Within reach of Midland are a number of spots which offer recreation or sightseeing to substitute for a longer vacation, or supplement it. Some are ideal for the whole family, even for the smaller children who are not always happy on a long trip, while others meet the needs of a solitary fisherman or a person who wants to see a good show or go to a city nightclub.

A mountain area that offers refreshing coolness all Summer and is near enough for a one-day visit by car is found around Alpine and Fort Davis in the Davis Mountains. Balmorhea State Park, with its large swimming pool and cabins, is on the road to Fort Davis. Dude ranches, numerous cabin camps and recreation spots are attractions for visitors in the mountains.

A one-day trip in another direction will reach Sweetwater State Park, with its large lake, or another highway will take the traveler to fishing spots on the Concho River. Fishermen can head also for Red Bluff Lake north of Peecos or, on a long weekend, to the Rio Grande River or back northward to Possum Kingdom Lake.

One of the favorite tourist spots in the United States, famed Carlsbad Cavern, is near enough for the weekend vacation trip and the nearby city of Carlsbad, N. M., provides tourist accommodations and a recreation area with swimming, boating and other sports on the Pecos River.

A little farther north in New Mexico are mountain resorts and forest areas with highways that make them accessible on a weekend trip. El Paso and its over-the-border Mexican neighbor, Juarez, make another interesting destination and

the Big Bend National Park another.

Three Days Preferred For these, a stay of two days is preferable, although possible to enjoy them by leaving Midland at noon on Saturday and returning late Sunday.

The person who prefers vacation to scenery and an all-weather cafe to a chuck wagon meal can find Summer enjoyment in the larger cities of which are near enough for trips. Artificially cooled, a hotel, swank cafes and theaters appeal to many as the ideal for a short vacation and most add such attractions as operetta performances, concerts or plays.

Substituting plans for such as a means of travel, the weekend vacations can be had to include the Gulf Coast of Mexico and the higher mountains of Northern New Mexico and

ern Colorado. Short weekend trips are interesting with getting away with neighboring cities of west Texas and Southeastern Mexico and of learning the varied attractions of which many residents consider notonous, geographically appealing and the pleasant which is part of the stay-a-vacation, such trips can sprout travel over an entire mer at small cost.

ANCIENT APPLE References to the apple merits are contained in the most ancient writing Romans knew and cultivated varieties at the beginning Christian era.

"Hot nails," as the trade them, are small pieces of which can be driven into mortar and most concrete an ordinary nail is driven wood.

Fontana Village Is Different

is one vacation spot in this which belongs to the re- stry, yet has the distinc- being a complete industry self. It is reached via one most beautiful, scenic "high- in Eastern America, yet it a highway. It is actually by the Federal government. Federal government has to do with its maintenance ation, which is done by a corporation in Washington of government officials. ever sees this vacationland e makes a point of going to most a million people from and 54 foreign countries and out of it last year. Fontana Village in the Great Mountains of North Carolina n-year-old, complete "town ts." It lies at the end of iful nine-mile, scenic road- ch extends along the shore- the Little Tennessee river- the mountains, off the beat- , with "no beyond." 00 feet elevation, it lies tuck- y in a picturesque, stream- ove, rimmed around by ns that rise another 1500 ward against the sky. It winds the famous Appa- Trail, extending from Maine ia, the world's longest mark- for travel by foot. Fontana provides everything essential , comfortable home life, as the gay, exciting existence sportsman and vacationist. o miles from TVA's Fontana and thirty-mile-long Fontana at Smokies

elementary school, library, large cafeteria, formal dining room, both Protestant and Catholic churches, and business houses adequate to complete living, for both the temporary resident and the permanent VA and Fontana Village families who make it an all-year-round delightfully habitable spot.

Upon arrival, the guest is welcomed at the office, given a key and a village map. He sets out by street signs to locate his house by number. His new home is the proper size to suit his needs, with a sitting-room, and bath; one, two, or three bedrooms; with or without cooking facilities.

There is wholesome fun and play at Fontana Village, all the time. In Spring, it becomes a mecca for fishermen, and in Fall there is both fishing and bear hunting. There is horse-back riding, with special pack trips throughout the Great Smokies. Two-mile-distant Fontana Lake with an elevation of 1710 (water between four and five hundred feet deep), yields per day (in Spring) 'individual catches of forty to fifty pounds of large-mouth bass and dream.

A wide, varied program of planned recreation and entertainment is supervised by an expert in this field, assisted by three social hostesses.

LARGEST LEAD USERS
Greatest volume of lead is used in the electrical and chemical fields. Storage batteries and electrical cable coverings account for approximately one-half of the consumption in the United States.

Four fifths of the U. S. shrimp catch comes from the Gulf of Mexico.

New Mexico Is Vast And Happy Land Of Surprise

A vast land of happy surprises, New Mexico offers many unique contrasts which intrigue an increasing number of visitors and vacationists each year.

Fourth largest state in area, but with one of the smallest populations, New Mexico represents an interesting mixture of the Old West and the new.

Modern cities lie within a few hours driving time from rugged cow camps in this "Land of Enchantment." Atomic scientists rub elbows on the streets with Indians whose ancestors were here to greet the first Spanish explorers in 1540.

The sheep-herders in remote valleys look up as jet planes streak across the sky. The traveler may breakfast in sight of peaks 10,000 feet high and lunch a few hours later 750 feet below the earth's surface, in Carlsbad Caverns.

Atomic Research City
Los Alamos, seven-year-old atomic research city, as modern as tomorrow, can be sighted at night from Santa Fe, the capital city founded 349 years ago.

Improved snow sports areas where skiers frolic all Winter become excellent picnic sights in Summer, though nights remain chilly even in July and August in the mountains. Expenses of desert sagebrush lie very near cold mountain trout streams here.

Carlsbad Caverns in southeastern New Mexico attracted 430,000 visitors last year, including many who had visited these wondrous caves before.

Meanwhile, Ruidoso, Santa Fe, Taos, Eagle Nest and other favorite Summer areas entertained thousands, with Texas' largest resort project in the Magic Valley.

The Great White Sands, Taos, Mogodro, the ice caves near Grants and Inscription Rock, cliff dwellings, extinct volcanoes, the desert and mountains—all help to make New Mexico a magnet for vacationing Texans.

Good Food, Courts
Fast growing Albuquerque is New Mexico's largest metropolis, a modern city of well over 100,000 population. Expenses of desert sagebrush, good restaurants and garages and more than 120 motor courts for the traveler.

Land Behind A Curtain Of Gold

New competition seems to be in the offing for Florida and California with the recent announcement of the big Texas resort project in the Magic Valley.

Now of course few people in the world have heard of the Magic Valley, but within it's phenomenal borders lies one of the most amazing stories that has come out of this or any other country.

Down in the southern tip of Texas where the silvery Rio Grande slides sleepily into the warm waters of the Gulf of Mexico is a land of tall palm trees and everlasting sunshine.

This stretch of valley, which is 60 miles long and 20 miles wide, is so fabulously wealthy from the

bountiful blessings of nature that they say the people down there hid it behind a golden curtain so the rest of the world wouldn't know their secret.

Until recently the only word that got out of this hidden Shangri-la was that it was the land that produced the famous juicy red grapefruit, for which Texas is so well known. Thirty million boxes of grapefruit and oranges are shipped from the Magic Valley each year.

As an agriculture center for vegetables, it's rich lands produce two and three bumper crops a year amounting to over a hundred million dollars income.

White sandy beaches along the gulf coast are perfect for swimming and the warm blue tropical waters offer an ideal playground for sailing and motorboat enthusiasts. The deep-sea fishing is the nation's finest and during the Winter it seems as though all of the ducks on the North American Continent take refuge in the lagoons and lakes of the Magic Valley.

Old Mexico, with it's colorful shops, thrilling bullfights and gay night clubs, is just across the Rio Grande, only a few minutes drive—or walk. A land of manana, where the Old Country meets the New. The Magic Valley is truly this country's only genuine Latin-American resort land.

Colorado's Only Thoroughbred Racing Plant

Pictured is how Centennial Turf Club, near Denver, will look when opened next Summer. Top left: The mile track with three lakes infield, stables in background, and grandstand and clubhouse in foreground. At right: Closeup view of clubhouse section and paddock. Upper right: the main attraction—fast, thrilling thoroughbred racing.

A Great Executive is Always Taking Vacations

"Charming" Idea
By DOROTHY QUINN

Charlotte and Ann Marie are back from a wonderful tour of Europe bubbling over with their experiences. Best of all, dangling from their wrists are charm bracelets with carefully selected mementoes gathered along their way.

We started them off at a Bon Voyage luncheon, presenting them with the bracelets and a telephone charm. (They decided the trip over the phone.)

Yes, the charm bracelets are wonderful conversation pieces, and constant reminders of what fun they had finding them. I'm sorry I never thought of starting one. There are so many possibilities, too. Flags of different countries, coins, etc.

Of course, you can bring them back as gifts, too, and they needn't be expensive. Every place you go, at home or abroad, you can get attractive charms.

Arrows Point Many Ways Marking Journeys Of Midlanders To Various Vacation Points

Many Midlanders are planning out-of-the-country vacations this year and the arrows marking their journeys point to all four corners of the map.

Vacation trips to the Orient and the Pacific Islands are more unusual for Midlanders than voyages in other directions, but several residents are looking forward to a Summer holiday in Hawaii. Mrs. Don Davis expects to leave on a trip about June 20.

She plans to go by boat and fly on the return trip, accompanied by a friend whom she will meet in San Francisco.

A similar trip, but by air both ways, was taken last Summer by Mrs. Erma Mancill. She visited friends in the islands and came back with high praise for Hawaii as a vacation spot and plans to go again, "some day."

To Hawaii
Mr. and Mrs. Jack Wilkinson and their son and daughter, Jack, Jr., and Virginia Lou, plane to sail June 19 for Hawaii. Mr. and Mrs. L. E. Patterson, Jr., their children, Edwin and Nancy, and Mrs. L. E. Patterson, Sr., plan their Hawaii journey in August.

Europe seems to be the destination of the largest number of those going outside the United States and a number of the "home town folks" are already there.

Mrs. Ernest Sidwell and her sister, Mrs. L. W. Sager, will sail August 15 on the Queen Mary and return October 17 on the Queen Elizabeth. They will visit Mrs. Sidwell's daughter, Mrs. J. Norman Goodman, whose husband is a captain in the Army Air Corps in Frankfurt, Germany.

They also will tour the country and Mrs. Sager hopes to get to Marshall, where she was on duty during World War I.

Lucille and Evelyn Wemple, daughters of Mr. and Mrs. Fred Wemple, will tour Europe with a group from Hockaday Junior College, Dallas.

Mr. and Mrs. C. G. Cooper, both natives of England, and their daughter, Shirley, will spend the Summer in England and Europe. Shirley is a student in Goucher College in Maryland and will return in time to begin the September term. Mrs. Cooper will remain in England until after Christmas and he will spend a month at The Hague, Holland, before returning to Midland.

Mr. and Mrs. J. W. Campbell and their son, Jim Pat, of Terminal, are leaving this weekend for New York and plan to fly from there to Europe. They plan to visit England and France and take side trips over the continent.

On Queen Mary
Mrs. Jess Ward of Odessa, a former Midlander, sailed April 29 for Europe on the Queen Mary. She will make an extensive tour of the continent, England and Scotland before coming home. Mrs. Ida Pay Cowden was to have accompanied her but became ill and postponed her trip.

Mrs. O. C. Stephens and her three small daughters have been in England since March. She is a native of that country and they have been visiting her relatives.

Mrs. Nanette Lekisch, mother of Dr. Kurt Lekisch, sailed recently on the St. Lo for an extended stay in France and Germany.

Mr. and Mrs. Ray Rhodes, who are headquartered in Terminal, are on the continent in Louisiana, Switzerland, took a Mediterranean Cruise on their way over and visited Egypt, Lebanon and Arabia.

Mrs. N. A. Lancaster has been in Europe for several months and is visiting various countries on her trips from Paris. So far, she has been in Egypt and Italy, as well as France.

Mrs. F. D. Mummert and Mrs. Don Strails and her daughter, Mary Martha, took European trips last Summer and enjoyed them very much. Mrs. Mummert went through

The Time To See Yosemite National Park Is In May

The ideal time to see the five waterfalls in Yosemite National Park at their best and fullest is in May. While the mountain snows are melting, and the gorges are raging torrents. Nowhere else in the world can be seen a water-fall spectacle equal to that found in Yosemite National Park, California.

Dropping 1,439 feet in one sheer fall, a height equal to approximately nine Niagara Falls, Upper Yosemite Fall is rated the highest free-leaping waterfall in the world. Lower Yosemite Fall, immediately below, has a drop of 320 feet. The total drop, from the crest of the Upper Fall to the base of the Lower Fall, is 2,434 feet, counting the series of cascades in between. Ribbon Fall has a drop of 1,612 feet, the celebrated Bridal Veil Fall

680 feet; Nevada Fall drops 564 feet. Illouette Fall has a drop of 370 feet and Vernal Fall 317 feet.

Yosemite National Park is a superb vacationland, embracing 1,189 square miles of spectacular mountain country. Two main rivers flow through the park, originating high in the mountain snows. They are fed by hundreds of icy streams and snow-bordered lakes.

A heritage from the glacial age, perpendicular granite cliffs rise 3,000 to 4,000 feet above the pine forests and green meadows of the level Yosemite Valley floor. Glacier Point, one of the principal cliffs, provides a 3,254-foot vantage point for the most spectacular view of distant snow-capped peaks, from which point Yosemite Falls, Nevada and Vernal Falls, while far below

in Yosemite Valley, appear as a miniature garden.

Other rocky eminences are Clouds Rest, 5,994 feet; Half Dome, 4,892 feet; El Capitan, 3,694 feet and Sentinel Dome, 3,040 feet. From Sentinel Dome, 8,117 feet above sea level, an unobstructed panorama view may be had from the Coast range on the west to the snow-capped ridge of the Sierra Nevada on the east. From this point one may see El Capitan, Cathedral Rocks, North Dome and Half Dome ranging from 2,592 to 4,892 feet above the Valley floor.

Notable in the Park's attractions are three groves of Big Trees. In the Mariposa Grove, which contains some two hundred trees 10 feet or more in diameter at breast height, and thousands of younger trees, is the famous Wawona Tree, through which an eight foot wide tunnel, 26 feet long, was cut in 1881. The Wawona Tree is 230 feet tall and is 27.5 feet in diameter.

The Grizzly Giant is considered the oldest tree in the grove. Its age is estimated at 3,800 years. The maximum breast diameter is 34.7 feet. It has a girth of 96.5 feet and a height of 207 feet.

Santa Fe provides streamlined train service via the San Joaquin Valley to Merced, Calif., the all-year gateway to the Park, at which point travelers on Santa Fe transcontinental trains begin the side trip to Yosemite.

It's Springtime In The Rockies

It's springtime in the Rockies and Mother Nature is getting her prize collection of twelve-to-fourteen-thousand foot peaks ready for the million and a half Americans who will play among them this year.

Almost one of every hundred U.S. citizens traveled here in 1949 to receive the therapy of scenery completely removed from urban atmosphere. Forest Service officials, who guard this fabulous area set aside by Uncle Sam in 1915, expect more in 1950 on the basis of inquiries received by them at Estes Park, the historic village at the eastern entrance to Rocky Mountain National Park.

HUGE PORT

Venice, commercial center of the 15th century, was the home port of 3300 ships, with a total carrying capacity of 150,000 tons, according to the Encyclopedia Britannica.

Total timber resources in the public domain in the U. S. are estimated at between \$50,000,000 and \$100,000,000 in value.

The Beach At Ellinor Village

The beach at Ellinor Village, Florida's newest and largest family resort development, is part of a 23-mile expanse of smoothly packed sands 500 feet wide. Prevailing cool winds make this beach a popular Summer vacation spot.

DEADLY FUMES

The land for miles around Copperhill, Tenn., has been denuded by gaseous fumes that escaped from nearby copper mines before methods were found for condensing the fumes.

BIGGER THAN EARTH

The head of Halley's comet is much larger than the earth. On May 5, 1910, the length of the comet's tail was reported to be 37,000,000 miles.

There are about 3,000 sweat pores to the square inch on the soles of your feet.

WILSON'S

Northern New Mexico Ideal Spot For Year-Round Vacation

Nature made Northern New Mexico a year-round vacation paradise but it took Billy the Kid, Kit Carson and Los Alamos to glorify the confusion that exists about the state when it is mentioned today.

Although Billy the Kid, Kit Carson and Los Alamos are not conceivably similar, the general public still inadvertently associates the three as representative of the state. Other misinformed citizens, to their despair, have found that New Mexico's Las Vegas is a shade different than its sister city in Nevada.

To add to the confusion, the climate of New Mexico varies as much from tip to top as does the weather in Texas, long a topic of international discussion. The hot, arid desert-like wasteland of the White Sands area is replaced with high mountain ranges of cool, healthful

climate near Albuquerque. Santa Fe and Las Vegas where more than 30 of the nation's finest and most luxurious resorts cater to the vacation-wise from all over the United States.

For the first time in the history of both Texas and New Mexico, the two states were unequivocally linked by air transportation starting on May 1, 1948, when Pioneer Air Lines launched its services from 17 Texas cities to the Santa Fe-Albuquerque-Las Vegas area. Now, two years after the inauguration of these services, Pioneer has transported thousands of Texans to this vacation paradise and from present indications, many more thousands will make the journey during the Summer of 1950.

At Any Season Northern New Mexico is the ideal vacation country for those holiday-makers at any season who want a bit of solitude, or a feeling of vast space. The New Mexico lodges near and around Santa Fe are tucked away in the Sangre de Christos (Blood of Christ mountains because

they turn crimson at sunset), and the Jemez Mountains. Others are as close to luxurious splendor as any of the finest hotels in the nation and are near old and historic Santa Fe.

In making the vacationist's life easier, Pioneer and the Northern New Mexico resorts have worked together since the company started its services to the area. Pioneer has arrangements to make reservations at the resorts and the resorts in turn meet Pioneer's planes from Texas when they land at the Santa Fe airport.

Many will join the parade this year to the Southwest's finest and nearest vacationland. Those desiring further information should contact the local Pioneer office or write direct to the Northern New Mexico Resort Association, Santa Fe, New Mexico.

Banff, Lake Louise, Canadian Rockies Termed The Ultimate

Banff! Lake Louise! The Canadian Rockies! These names connote the ultimate in travel. Once again in 1950 Canadian Pacific announces that its chain of deluxe hotels and chalet-bungalow camps are ready to serve the discriminating traveler.

Banff Springs Hotel, Canadian Pacific's largest mountain resort, opening June 1 and closing September 11, has some open dates for both new visitors and old friends this year. Reservations for Chateau Lake Louise, opening June 11 and closing September 11, and the many rustic mountain lodges are also heavy but not at the moment to capacity.

Emerald Lake Chalet offers more simple comfort than the big resort hotels, and is open for the same season as Lake Louise. Chalet-bungalow camps at Lake Windermere, Lake O'Hara, Moraine Lake and Yoho Valley feature moderately-priced accommodation in a setting of blue-green mountain lakes, glaciers and towering peaks. Moraine Lake and the O'Hara districts are particularly popular with alpinists.

On American Plan The camps will be open from June 18 to September 8, with accommodation on the American plan. Fishing, hiking, mountain climbing, trail riding and boating are the recreations offered at these camps which feature rustic surroundings and simple, but well cooked food.

Banff Springs Hotel, which operates on the European plan, offers charm and luxury almost unbelievable in such a rugged setting. The mile-high, 18-hole golf course, with its outstanding greens and fairways is among the best in the world.

Mountain climbing, hiking, boating, fishing are other sports at their best and there are tennis courts, a sports ground and 10 miles of lambie trails for horseback riding along the Spray and Bow rivers. To complete the picture there is dancing every evening in the conservatory ballroom.

Chateau Lake Louise is set beside the lake described by the late Eric Price as the "most beautiful single sight in North America."

Activities in the Canadian Pacific Rockies usually start with the famous Calgary Stampede, this year set for the second week of July, and while the stampede is held some 80 miles east of Banff it has become through the years closely associated with the mountains. At Calgary the Canadian Pacific's Palliser Hotel caters to visitors.

Eastman House Must For Photographers

Tourists and vacationers visiting upstate New York this Summer can add a new attraction to their lists of where-to-go and what-to-see. It's George Eastman House, world photographic center in Rochester.

One of the major attractions in the Rochester area, Eastman House is a "must" for every photo fan—from the box camera amateur to the professional. It was opened to the public last November with ceremonies attended by celebrities of the photographic world.

Eastman House is located on East Avenue, Rochester's renowned residential street. The city can be reached by all travel facilities. Main routes for motorists include: from the West, US 104 and NY 33; from the South, US 15 and NY 31; from the East, US 104.

Sitting on top of the World . . .

BAYLOR WATCHES ARE THE OFFICIAL TIMEPIECE OF PIONEER AIR LINES

ADDY RINGTAIL

By WESLEY DAVIS

ddy Ringtail and Whistler Monkey

Whistler was the name of a nice monkey who lived in the Great 4. Sammy Ringtail was very of Whistler—even though his monkey face looked very like the face of a horse. Whistler whistled, no one fit of how he looked. People thought that the beautiful thing that filled the air like a. Even the birds would stop singing to listen. The farawaytime that I'm tell you about, Sammy hadn't learned to whistle, and then one day—after showed him how. When all Sammy ran home in a hurry. He even forgot his hat. That's why he was in such a hurry to find Daddy Ringtail and tell him about the monkey that Whistler had taught

"Oh, Daddy Ringtail!" said Sammy. "Whistler is the nicest monkey and the most wonderful whistler. When he whistles, I forget all about his face that looks like the face of a horse."
"Shhh!" Daddy Ringtail said, because he thought he heard a somebody whistling softly out on the porch.
Sammy stood very still. The

Whistler really did have a face that looked like the face of a horse. But if Whistler ever heard Sammy say it—that would hurt the Whistler's feelings.
But there was Whistler sure enough. He was standing there by the door so close that Sammy could touch him. He was the one who was whistling softly to himself. He had come to bring Sammy his hat. And Whistler had heard what Sammy said!
"Oh, Whistler!" Sammy said. "I like horses! Really, I do! And I like you, Whistler!"
The Whistler smiled. "I know you like me, Sammy," he said. "And I like you. And—and—my face really looks like the face of a horse, but I can't help it."
"Oh, Whistler!" said Sammy. "You have a beautiful face!"
And Sammy really thought that Whistler's face was beautiful, because Whistler was so good and kind. When people are good and kind that way, we can forget about how they look if they don't look as pretty as maybe we would like. And

when people are good and kind inside, it tries to show on their face, I think. Happy day!
(Copyright 1950, General Features Corp.)

FROG IN HIS THROAT

NATHANYA, ISRAEL—(P)—Simha Lev has learned to keep his mouth shut. He learned the hard way, while installing sanitary fittings in a new house in Nathanya. As usual, Lev was working with his mouth open. A little frog leaped into it and lodged in his windpipe. Lev almost strangled to death before doctors forced the frog down into his stomach and gave him castor oil.

Its Top Untrod by Man

When government officials decided a few years ago to select the ten greatest American natural wonder pictures as illustrations for a national park series of postage stamps, the Great White Throne, towering master of Zion National Park, was one of those chosen. Its gleaming white precipices defy venturesome climbers; its plateau-like top untrod by man. Zion National Park in southern Utah is a summer mecca for tourists from all over the world.

—Union Pacific Railroad Photo

Show Your Trips on a Picture Map

Anyone can follow these simple rules for designing an attractive pictorial map.

By WILLIAM ROWLEY

HERE'S how to combine a decorative permanent record of your trips with a colorful wall panel for your den or rumpus room.

Start with a road map, obtainable at auto club or oil company travel bureaus, on which your route has been marked. In a log book keep a record of places of interest, daily mileage, overnight stops, and top-notch restaurants. Take some snapshots in color and collect color post cards en route.

When you return, buy a colored pictorial map of the United States in the size you prefer. It should not show any roads. Mount your map on heavy cloth or smooth cardboard. Referring to your road maps, mark your trips on the map with water color pencils, using a different color for each trip.

Draw your route line through towns and pictures shown on your map, indicating places through which you have passed. It's wise to draw this line very lightly in pencil first, so that you may check for accuracy before coloring. Draw color lines lightly through the pictures where necessary, with a heavier colored line between pictures. Wax crayons, by the way, are not recommended. At intervals on your route line, using the same color, draw small arrow heads to indicate the direction of your trip. At the bottom of your map draw neat rectangles in each color used for each trip. Next to the rectangle show the dates or the year in which the trip was made. This will "key" your map without putting the year along each route line.

To add interest, finish off your map by pasting colored snapshots and post cards around the outside as shown. Each successive trip can be drawn after your map has been placed on your wall. If you are artistically inclined, you can buy a small colored or black and white picture map. A photo studio with photo-mural enlarging equipment can "blow it up" to whatever size you wish. An enlargement to about three by five feet from an original size of about 16 by 24 inches, should cost about \$25.00. Ask for a dull "matt" finish for coloring. Then you can color the enlargement yourself.

Use water sparingly on your water color pencils in coloring pictures on your map. Colors should not be too bright except for the route lines, which should stand out.

Anyone can make a pictorial map record of vacation trips. It's fun and it need not be expensive. Thus you'll have a continual reminder of many pleasant hours in interesting places you have visited.

Jamaica High Spot Of Caribbean Cruise

Jamaica, once the treasure island of pirates who sailed the seven seas, is one of the high spots on Caribbean cruises. Tempered by the trade-winds, its lush tropical vegetation, its brilliant flowers and unusual fruits, make it one of those never-to-be-forgotten places. Kingston, its capital, is a town of quaint streets and historic old buildings where the natives astonish visitors with their English accents. The red-seamed Jamaican policeman on the corner, the endless stream of native life give this center its own charm. There are white sandy beaches, clear waters, silvery

waterfalls and picturesque rivers for the vacationer. Although Jamaica is "foreign" to the American holiday seeker, no passport is required. This is supplied by a tourist card. Since the temperature averages 75-80 degrees, summer clothing is suitable with a light wrap for evening wear. Beach and sports clothes are a "must." It requires 50,000 horse power to provide the right amount of force for the latest supersonic wind tunnel for testing aircraft.

Flying L Is Dude Ranch And Also Haven For Birds

There are many dude ranches—but down in the Hill Country of South-Central Texas, 100 miles from the little cow-town of Bandera, lies the Flying "L" Ranch—one of the most luxurious pilot's havens in the world. This new type of combined dude ranch and flyer's paradise was conceived by a retired Army pilot, polo player and sportsman. A true western hospitality prevails in the hills around Bandera, where it is green and balmy the year round. There is freedom of living, comfort, relaxation, and all the thrills and excitement of real western ranch life. Fun is the keynote, with fine horses to ride; swimming, fishing and hunting in season; rodeos; dancing (both old-time square and folk dancing as well as modern); trips to Old Mexico and interesting border towns which are only one hour flights from the ranch. Planes may be chartered for special trips, and flying instruction is given under competent instructors.

CLEAN SWEEP OF SERIES

First major league baseball team to win four consecutive World Series games was the Boston Braves, in 1914, when they defeated the Philadelphia Athletics in four straight.

A leopard usually becomes a man-eater only if it becomes acquainted with the taste of human flesh by accident.

Midland Stores Feature Play Clothes That Will Look Good in Backyard Or The Riviera

By FRANCIS HAGAMAN
Although many Midlanders plan to go out of the United States this Summer, many others will "vacation" at home or in nearby resort spots. Therefore, Midland stores are featuring play clothes that will look as well in the backyard as on the French Riviera.

Women's sport dresses are cut along simple lines and are of non-crinkle materials that are easy to keep clean. The golfer dress, buttoned down the front and with full-fitting sleeves, is good for wear around-the-house as well as for playing golf. Very useful are the sunback dresses, most of them with jackets that can be added for more formal wear. Cotton fabrics are the most frequently used materials for these dresses and piques, pique chambray, broadcloths and denims are used.

These sun dresses are very popular with the "working girl" who vacations on a budget because without the jacket they are suitable for play or sport but when the jacket is added may be worn for dinner or dancing. They also save packing space. The newest fabric in sports clothes is in reality one of the oldest—denim. But it's a new denim, lighter weight than that used for men's trousers, in many colors, plaids and stripes. There is a notable absence of play suits in this year's showing of vacation clothes. Shorts are shown with fitted or boxy shirts or halters. Two fabrics, denim and cotton

(twill), are predominant and styles are plain. Many bright colors are used but few plaids are figures. The tee shirts, often thought of as a sloppy garment for wear when cleaning up at the attic, has taken on a new elegance. The materials used are heavy and, therefore, have more body. The "sloppy Jo" style has been replaced by more fitted shirts and many have plunging necklines with roll collars and other new features. Bathing-suit makers have gone wild with color and fabric. One of the most unusual suits being shown is of deep red velvet, lined with waterproof cloth. The suit is one-piece, shirred up the sides.

One-Piece Predominant
The majority of suits, however, are not quite so out of the ordinary. The one-piece suit is predominant and lastex, both nylon and satin, is the preferred fabric. Detachable straps are a feature of most suits and are equipped with stays to hold them up when the straps are not used. Most vacation tennis players don't try to get costumes to rival "Georgious Gussie" Moran, but for those who want something more than shorts and shirts, elaborate tennis outfits, complete with lace ruffles and pink bows, are available. For the sitting vacationer, the one who wants a book instead of a golf club, designers have come out with sheer cool dresses, reminiscent of anti-bellum days. Most of them are organdy chiffon or voile, with huge, billowy skirts over taffeta and dainty bodices trimmed with lace, tucks or ribbon bows. Standard equipment for these dresses is the ribbon belt, tied in a soft bow in the front or a little to the side. The nylon chiffon dress was made for the traveler. It packs without any trouble, taking up about as much space as a bath towel and absolutely refuses to wrinkle. What's more, it can be washed and dried in half an hour. Of course, it requires no ironing. Strapped sandals—flat, medium-heeled or spiked—are the shoes of the season. Hats are straw and pique and a handbag can be anything that happens to catch your eye.

Andrews News

ANDREWS—Recent guests of Mr. and Mrs. Max Goldsmith were Mrs. Goldsmith's parents, Mr. and Mrs. C. J. Whit, of Frisco, Texas, and Mr. and Mrs. Othel Ford of Denton. Mrs. Ford is a sister of Mrs. Goldsmith. Anna Lorts of St. Louis, Mo., has joined the nursing staff of the Andrews County Hospital. Mrs. Owen Daggett of Hamilton, Texas, arrived recently for a visit with her daughter and grandson, Mrs. R. R. Ramsey and Richard Ramsey. Mr. and Mrs. J. B. Millsap, Sr., were in Mineral Wells Tuesday to visit Millsap's father, J. L. Millsap of Brownfield, a patient in the Milling Sanitarium. Mrs. Carl Bentenbough is a medical patient in a Hot Springs, N. M., hospital. Mr. and Mrs. J. W. Strickland were in San Angelo Monday on business. E. B. Rogers, former manager of the Texas Electric Company was honored recently at a farewell party by company employees. Rogers has resigned to work for Gulf Oil Corporation in Crane. Mrs. Minnie Telford, who visited here with Mrs. Loyd Ford and Mrs. Bill Pinnell, has returned to her home in El Dorado, Ark.

HARVESTER SQUIRRELS

Douglas squirrels harvest giant Sequoia seed cones for the foresters. The trees are too tall for man to climb, so he waits and picks the cones from the ground, after the squirrels have cut them loose for their winter stores. The Ohio Valley includes 150 cities of more than 10,000 population, according to the National Geographic Society.

VACATION ALBUM

By IRVING DESPOR

SNAPSHOTS last longer than most memories. This year's vacation can last indefinitely if you bring back pictures showing where you went, what you did, who you met and what you saw. A little planning in advance and a little thought while you're shooting will do wonders for your vacation album. YOUR CAMERA should be checked before a trip. If you get brand new equipment, test it... don't trust it. If possible, use a separate camera for color.

FILM is plentiful but may be scarce where you're going... stock up! If headed for hot climates, ask for film tropically packed. Follow exposure directions carefully. Always have the camera loaded, ready to shoot... and a spare roll in your pocket. That'll take care of picture impromptus.

PICTURE INTEREST is heightened by variety. In views, there are low and high angles besides the normal eye-level. In lighting, try side and back-lighting, especially on water scenes. Shield the lens and allow a bit more exposure as compensation. In composition look for natural framing devices like archways, columns at the sides and leaves at the top.

POSING should never be obvious. Be unobtrusive. Shoot when people are doing things in a natural way. Names, dates and exposure data should be recorded on the spot... not left to memory. Road and local signs and landmarks make good identification.

PROTECTION against salt water spray, beach sand and hot sun is necessary. Plastic kitchen bags are useful accessories besides camera cases. Never leave cameras in glove or luggage compartment of autos in the sun.

IT IS NEW!
Come in and see the
STEREO Realist
THE CAMERA THAT SEES THE SAME AS YOU

See this amazing new camera now. It is the most startling development in photography since roll film. The pictures are so real—so lifelike, that when you see them you'll find yourself waiting for a drop of water to fall—a person to speak—a leaf to flutter. The two lenses of this amazing new Stereo-Realist Camera see the same as your eyes do—but they retain what they see on film. Like your eyes the Stereo-Realist sees things in true perspective, with height, width, and depth (third dimension)—plus amazing natural color. Only by actually seeing these pictures can you grasp their amazing beauty—lifelike qualities. If you want a thrilling new experience stop in and see these amazing new pictures.

IT IS REAL!
