Steel Strike Threat Put Off 8 Days

WASHINGTON (AP) — President Johnson, who won an eight-day postponement of the steel strike threat Monday night, kept up the pressure for a settlement today in his weekly meeting with Democratic congressional leaders.

The party chiefs from the Capitol came out of the break-fast session reporting that the steel situation came in for extensive discussion, and urging that the negotiators stay in session as long as necessary to reach agreement.

They made their remarks to newsmen shortly after representatives of the AFL-CIO United Steelworkers union and 10 major firms that produce 80 per cent of America's steel had gone back to the bargaining table near the White House.

PUSH SETTLEMENT "Management and labor should stay in Washington until this matter is settled," said Senate Democratic Leader Mike Mansfield of Montana.

And, echoing sentiments stated by House Speaker John McCormack, Mansfield expressed hope that steel mills will remain in operation even if a settlement is not reached before the expiration of the eight-day grace period.

Both at home and abroad, Mansfield said, "there is too much at stake which the country will have to pay for if there is one" — a strike.

AFFECT WAR Both McCormack and Mansfield said any strike would affect not only the domestic economy, but to some extent, the war in Viet Nam.

Mansfield said directly that if a new contract is not arranged during the eight days, he would hope the negotiators would "keep the mills going and continue the bargaining."

"They (negotiations) will continue, hopefully, until a settlement is reached," said White House press secretary Bill D. Moyers.

Less than eight hours after the negotiations were shifted Monday from Pittsburgh to Washington at Johnson's request, agreement was reached to postpone the strike deadline to 12:01 a.m. Wednesday to 12:01 a.m. Sept. 9.

"I am sure that as they return to their negotiations, they will be aware of the importance of their efforts to every man and woman in this country of ours, and to the health and vitality of our economy and the security of America all around the world," Johnson said Monday night.

Federal mediators, headed by

Mixed Class Scene Calm Across 'Bama

By The Associated Press School desegregation, spreading rapidly across the South, calmly became reality today in the heart of Alabama's black belt. The significant break in tradition occurred quietly at Hayneville High School.

Four Negro pupils entered the school at Hayneville while a silent group of 25 white spectators watched nearby. One of the Negro pupils rode a bus with white children.

The peaceful desegregation followed the pattern of other schools in Alabama and the South. Thousands of Negroes went to school Monday with white pupils.

SAME STORY Hayneville, about 20 miles southwest of Montgomery, was like any other desegregated school in the South despite recent racial troubles. Throughout the region Monday, the story was the same.

There was no trace of the violent, bitter resistance of earlier years as the trend of quiet change, indicated last year, became a clear-cut pattern in rural and urban areas alike Monday. Few, if any, incidents were reported in the South, and it appeared the era of racial segregation in schools was coming to an end.

Indicative of the change was Mansfield, Tex., which became a Southern symbol of resistance to school integration less than a decade ago when whites staged mass protests to integration. All was quiet Monday as about 70 Negro junior and senior high school students attended desegregated classes.

NO TROUBLE "We did not have nor did we expect any trouble at all," said Supt. Willie Pigg.

Some schools already had begun classes. Many others opened Monday, and others will begin classes during the next two weeks.

Desegregation of South Carolina's schools spread to several urban areas with no incidents as about 900 Negroes were added to previously white classrooms.

In Barnwell, S.C., six Negroes were turned down when they were informed that no transfers would be permitted pending acceptance of the district's school desegregation plan. But in another Barnwell County school district, Blacwell, four Negroes entered white classrooms.

In Arkansas, 11 formerly white districts admitted Negroes for the first time. More of the state's districts are scheduled to drop racial barriers as the week continues.

IN ATLANTA In Atlanta, Ga., where school desegregation began in 1961, two children of integration leader Dr. Martin Luther King Jr. enrolled at a previously white school along with three children of the Rev. Ralph Abernathy, one of King's lieutenants. Integration was accelerated in the city.

In Phenix City, on the eastern edge of Alabama, 30 Negro pupils entered previously white schools and at Valdosta, deep in south Georgia, 32 Negroes began attending desegregated classes without trouble.

New Avalanche Fear Halts Rescue Attempt

Ninety-Six Listed Buried In Slide

SAAS FEE, Switzerland (AP) — The threat of a second avalanche halted rescue efforts today for 96 power project workers reported buried — and feared dead — under a huge mass of ice in the Swiss Alps.

More than 1,000 rescue workers evacuated the disaster scene after the Allalin Glacier began cracking shortly after dawn.

A dull rumbling sound swept through the valley. Warning sirens sounded.

CRASH DOWN The giant glacier split Monday and sent millions of tons of ice and rocks crashing down on the power project site.

With the threatened new ice-fall, rescue workers scurried from the danger zone. They had made little headway hacking at the icy debris despite an all night effort, during which they recovered only six bodies.

Scientists at the scene said the cracked parts of the glacier might have to be loosened with mortar shells before digging could be resumed.

PROLONGED RECOVERY Officials said it may take up to two months to recover all the bodies.

About 20 of the construction workers were injured.

"There's no hope for the men under that mass," said one rescue worker. "In some places, the rubble of ice and rocks lay more than 100 feet deep.

The avalanche struck near Saas Fee, a ski resort in southern Switzerland less than five miles from the Italian border.

The mass buried men, machines and barracks at the Mattmark power project near the resort.

Some of the ice blocks were as large as two-story houses.

One witness said the avalanche struck so quickly that the workmen, mostly Swiss and Italian, "were buried without even looking up."

Officials said about 1,000 workers were on the 6,000-foot high site when the bottom half of the Allalin Glacier, one of Switzerland's biggest, suddenly broke away, sending millions of tons of ice and rock cascading onto the construction site. The dam itself was saved by an avalanche corridor which channeled most of the tumbling ice past it.

Soviet Praises U.S. Space Feat MOSCOW (AP) — Soviet President Anastas I. Mikoyan has congratulated President Johnson and Lt. Col. L. Gordon Cooper Jr. and Lt. Cmdr. Charles Conrad Jr. on the Gemini 5 space flight, Tass reported today.

The official Soviet news agency said Mikoyan sent the following cable to Johnson: "Please accept, Mr. President, our congratulations to the American astronauts Cooper and Conrad on the safe conclusion of their Gemini 5 space flight."

House Demos Hold Off On Home-Rule Petition WASHINGTON (AP) — Democratic House leaders said today that they still are unwilling to sign a petition — strongly backed by Johnson — to force a House vote on legislation that would grant home rule to the District of Columbia.

House Speaker John McCormack, D-Mass., said speakers do not sign petitions, just as they refrain from voting except in the event of a tie.

Planes Set To Attack Hurricane

MIAMI, Fla. (AP) — Hurricane Betsy remained stationary today over the Atlantic Ocean while scientists, planning an air attack on it, waited for the storm to resume movement.

When the season's second hurricane moves — hopefully Wednesday — planes will carry out a cloud-seeding experiment designed to divert Betsy's fury to her own destruction.

DUMP IODIDE Three of the planes departing Roosevelt Roads, Puerto Rico, will fly into the upper portion of the hurricane's eye to dump canisters of silver iodide crystals at 35,000-foot altitude.

Weathermen hope the crystals will turn the warm, moist air that invigorates Betsy into harmless rain.

They want the storm to intensify and start out on a definite course to provide better conditions for the seeding experiment.

HOWARD COUNTY'S FOUR 'PRESTIGE' CAR TAGS Mrs. Carroll Drake and Mrs. Jane Overman, tax office deputies, display new type special order auto license plates.

Four Local Motorists Buy Prestige Plates

By SAM BLACKBURN The first time by the state of Texas. These special plates — which cost ten bucks more than the acquire so-called "prestige" mill-run type plates — bear the auto plates offered this year for

the purchaser and are exclusive in the state.

For example, the four plates sent to Mrs. Zirah LeFevre's office for delivery to their owners Wednesday all bear first names or surnames of their owners.

Governor Connally predicted when the special "prestige" plates were announced that \$5,000,000 worth of the tags would be sold annually. It seems he may have been a little too optimistic. However, it is possible that there will be a bigger number of the plates sold in 1966.

The four favored car owners here, who will get their new special plates Wednesday, will have to turn in the regular plates they have been using pending receipt of their "name" tags.

When this is done, Mrs. LeFevre will hand them their special tags.

The new plates go to Dr. Houston J. Zinn, physician at the VA Hospital; to his wife, Mrs. Beatrice Zinn; to Gene and Marie Allen, and to C. H. DeVaney, Coahoma.

Dr. Zinn's plates read, quite appropriately, "DR. ZINN." Those for his wife are lettered "B. ZINN." The plate for the Allens says—"ALLEN."

There was considerable speculation at the office when the DeVaney plate showed up. It was lettered "BAMA."

The explanation turned out to be quite simple—Bama is Mrs. DeVaney's first name. The plate is for her car.

Mrs. LeFevre said that these four are all of the specials that she expects here. However, until the plates are received at her office, she has no information on who may or may not have ordered sets.

"They (the applicants) pick up their application blanks and fill out their requests. They send them in to the state with the \$10 fee," she explained. "The applications are checked and if no one has already filed for the name or slogan, the plates are made up and sent to my office. I cannot turn them over to the applicants until Sept. 1 and I have to reclaim the old set of plates which they have been using pending receipt of their special order."

Technically the plates are good only until the 1966 plates become mandatory—which will be April 1. Then the holders, if they want to continue in the exclusive field, will have to make a new application and send in an extra sawbuck.

Ennis Schools Start Integration ENNIS, Tex. (AP) — Fifty-seven Negroes sat in classrooms with whites for the first time as Ennis schools integrated Monday.

Senate Panel Approves Higher-Education Bill WASHINGTON (AP) — The Senate Labor Committee unanimously approved today a \$4.7-billion higher-education bill to authorize funds to aid needy students and help colleges meet the enrollment crush.

The committee added to the bill new provisions designed to improve education in poverty-stricken districts of cities and rural areas.

Sponsors said the measure will be reported to the Senate Wednesday and probably taken up for debate Thursday.

How Contract Talks Shaping

WASHINGTON (AP) — Here's how the steel industry contract talks now shape up:

THE SCENE—The Executive Office Building across from the White House where President Johnson can remain in easy contact with the negotiators he called in from Pittsburgh.

THE PRINCIPALS — I. W. Abel, president of the 450,000-member United Steelworkers of America (AFL-CIO), heads a six-man union team. R. Conrad Cooper, executive vice president of U.S. Steel Corp., leads a four-man industry team representing 10 companies. William E. Simkin, director of the Federal Mediation and Conciliation Service, and other federal officials are expected to sit in.

THE GOAL — A new contract by 12:01 a.m. Sept. 9, the new strike time. A shutdown, previously scheduled for a minute past midnight Tuesday, would affect about 80 per cent of the nation's steel industry.

THE PROBLEM — Wages and benefits. Earlier this year the union won an 11.5-cent-an-hour hike pending agreement on a new contract within four months. The union is asking a 17.9-cent-hourly increase in each of three years. The industry's last offer was 13.5 cents an hour. President Johnson said he expects settlement within White House wage-price guidelines that would limit the raise to 3.2 per cent

with no price increase. That would mean about 14 cents an hour. Officials estimate that each penny means about \$10 million a year in labor costs.

Computer Fizzle HOUSTON, Tex. (AP) — Manned Spacecraft Center technicians are searching for the reason for a computer failure which caused the Gemini 5 spacecraft to land 103 miles short of its target.

Nasser Blasts U.S. President Gamal Abdel Nasser of the United Arab Republic, center, is welcomed with a handshake by Col. Gen. F. Markov, chief of Military Academy of Armored Troops, when Nasser visited the academy in Moscow today. Others are unidentified. This picture is from Tass, the Soviet agency. Later Nasser declared his people in the U.A.R. "are raising

their voices even louder in denunciation of the aggression against North Viet Nam." He added, "This may not be liked by some people in Washington. Somebody's ears there are going to ache because of this." He made the speech at a Soviet-U.A.R. friendship meeting. (AP WIREPHOTO)

**Follow Leader**

Under the watchful eyes of their mother, Mrs. Jane Conrad, three of Astronaut Charles Conrad's sons enjoy their daily swim in the family pool at their home in Timber Cove, a suburb of Houston. Tommy, 8, dives into the pool as brothers, Chris, 4, and Andrew, 6, wait their turn. The fourth son, Peter, 10, was visiting Mrs. Conrad's parents at their ranch in Uvalde. Today the family was awaiting the father's return from Cape Kennedy, where he was in a huddle with medical and space technicians following his successful Gemini 5 flight. (AP WIREPHOTO)

**Solo Sailor In Smallest Boat Tries A Superliner**

NEW YORK (AP) — Robert Manry, who sailed the Atlantic eastward in the smallest boat to make the crossing, returned today in one of the world's largest ships. Manry brought the 13 1/2-foot Tinkerbelle back with him aboard the Queen Mary, which docked today.

**U Thant Ends Kashmir Talks**

UNITED NATIONS, N.Y. (AP)—U.N. Secretary General U Thant has ended five days of talks on the India-Pakistan dispute over Kashmir. The secretary general met for the past five days with Lt. Gen. Robert H. Nimmo of Australia, chief of the U.N. military observer group in India and Pakistan.

**Salvage Of Rig Offshore Starts**

MORGAN CITY, La. (AP)—Salvage work began today after an offshore oil drilling rig capsized spilling 35 men into the Gulf. The men were in the water about 15 minutes. All were rescued. The mishap occurred Sunday in about 100 feet of water, 70 miles south-southeast of here.

**Coffee Bean Provides Pay For Millions**

LONDON (AP) — The 250 delegates meeting at current London coffee talks are discussing problems which go well beyond fixing the price of a cup of coffee.

If they succeed, they eventually will help many an underdeveloped nation raise its standard of living, set up new factories and give its children better schooling.

To get all this the coffee people must have stable prices so that planners may look ahead without fear that falling incomes will one day deprive them of the money for advancement.

**BILLION DAILY**

Americans, the world's greatest coffee drinkers, drink 441,000,000 cups a day. The world consumes an average of a billion cups daily.

About 20 million people and their dependents rely on the coffee bean — from growing and picking it to getting it to the housewife.

Nations live on its sale. Brazil, for instance, earns half of its foreign currency from coffee exports.

In the United States, coffee ranks second to oil in commodity imports. In the United States alone coffee helps create a turnover in auxiliary products — mainly sugar and milk — to the tune of \$300 million a year.

**VITAL BEAN**

The coffee bean provides millions who handle it with a daily wage, sometimes just enough to buy bread, a bowl of rice or a tortilla.

This bean, carefully handled by the men of the International Coffee Organization (ICO), could one day determine whether some of these millions of workers could afford to own cars. It could help their nations buy the machinery that could pull them out of today's slums.

Most coffee wage earners live on or near the tropical plantations which produce coffee. They depend largely on the stable profit which the plantation owner hopes to make. So they, too, are interested in stable prices.

**BIG FACTOR**

These workers live in countries which have little or nothing in the way of social security systems. Their countries' coffee revenue can help remedy this. Many emergent nations depend on coffee to build new industries, highways and also to maintain their armies and police forces. They, too, want stable coffee prices.

A one-cent fall in the price of coffee can wipe out foreign exchange earnings amounting to \$45 million in the Latin-American countries. A similar drop in African coffees or Indonesia's can lop off up to \$20 million.

**Soviet Rejects N-Curb Pact**

GENEVA (AP) — The Soviet Union formally rejected today the American proposal for a treaty to stop the spread of nuclear weapons.

Soviet Delegate Semyon K. Tsarapkin told the 17-nation disarmament conference no such treaty can ever be concluded unless it bars West Germany from any direct or indirect access to nuclear weapons.

He described West German "revenge-seeking militarism" as the greatest danger to world security and declared that the Western powers are pretending to seek a halt to the spread of nuclear weapons while plotting to give access to such weapons to the "West German militarists."

**Patient Reported 'Excellent'**

Dorman C. Mason, 19, who had a severed arm rejoined at the Baylor University Medical Center in Dallas last Tuesday, was "in excellent condition" today. Mason, comforted by his wife Pay, had his arm lopped off when he fell under a freight train at Denton. (AP WIREPHOTO)

**To Japanese, Sept. 2, 1945, Was Endless Journey's End**

By TOSHIKAZU KASE

Written For The Associated Press  
It was a surprisingly cool day for September, with a hint of early frost in the air.

The members of our delegation, 11 in all, assembled at the chancellery of the prime minister at 4 a.m. to bid farewell to Prince Higashikuni, the premier, and the rest of the Cabinet. In a short and somber speech, the premier thanked us for executing an extremely painful duty and hoped it would, nevertheless, be carried out without any mishap.

Then he called for a toast of cold sake, which traditionally implies that those who depart may not come back alive. This, then, was indeed a farewell. For the imperial command to lay down arms dealt such a tremendous shock to the fighting services that there were recalcitrant troops who were itching to vent their indignation. It was quite possible that they might ambush us on our way to the surrender ceremony. I, for one, warned my wife of it on the preceding evening. In fact, I rather thought that if I fell a victim to violence, it was not entirely deplorable as it was a manifestation of our nation's patriotic fervor, completely misguided though it was. For, without patriotism a defeated nation will never rise again.

ACT OF DISHONOR

Such being the prevalent temperament, it was difficult to choose the delegates for the surrender ceremony. None came forward to undertake the onerous duty and not a few refused. For, in Japan, surrender was an act of dishonor. It was preferable to seek death.

After vain efforts to recruit elder statesmen, such as Prince Konohe, the choice finally fell upon Foreign Minister Mamoru Shigemitsu. When he was summoned to the presence of his

majesty the emperor, Shigemitsu said that although the fact that Japan was forced to capitulate was most regrettable, it was, in his opinion, a disaster not altogether without blessings. What was most important was that the defeated nation should purge itself of the evils that caused its downfall.

**Maine Gets Bit Of Snow**

By The Associated Press

Stormy weather punished sections of the Midwest early today, and the Northeast was still cold as Maine caught a touch of snow.

Windy thunderstorms which slashed northwest Missouri during the night hit central Illinois today. Crop damage appeared to be extensive as hail driven by high winds cut into ripe standing corn.

LINES SNAP

Other damage included snapping of power lines and local flooding. Trees were uprooted by 80-mile-an-hour winds near Tarkio, Mo., as Atchison County underwent its second major hail storm.

Springfield, Ill., also took a buffeting. Copious rains fell in Iowa, Missouri and Illinois.

The Weather Bureau said rainfall amounts ranged up to 5 inches in Iowa, Bethany, Trenton and Grant City, Mo., all had 2 inches or more. Almost an inch of rain fell on Springfield in 15 minutes.

IN 30s

Frosty temperatures in the 30s nipped New England and interior New York State, and it was abnormally cool throughout the Northwest quarter of the country.

In the South, warm, clear weather was the rule except for some isolated thundershowers between the Gulf and the Arizona mountains.

I had worked closely for many years with Shigemitsu. Together, we did what we could to expedite the termination of hostilities to avert the possible annihilation of our people. So it was quite natural that I should accompany him on this mission.

The 20-odd miles' drive to Yokohama over ruined roads was uneventful in spite of our premonitions. Mile on mile of devastation met my eyes. There was hardly a house intact. Ruins were still smoldering and the air was thick with a deathly stench. This scene of desolation was, I thought, an eloquent warning of the final doom of the whole nation had we continued the struggle.

ENVOY TO U.N.

The chief protagonists of that day are no longer alive. Shigemitsu passed away, then MacArthur. But they met once more at the general's residence in New York City some 10 years later. Shigemitsu was foreign minister again. I was there as ambassador to the United Nations. The general spoke enthusiastically of the spectacular recovery Japan had achieved in 10 years. Another 10 years have now gone by and we have meanwhile achieved what is commonly called the "miracle of Japan," regaining the status of a great nation in the international community. To a large extent, this is due to the towering vision of the general, who was the principal architect of the new Japan.

To us, therefore, Sept. 2, 1945, stands as a most memorable day in our history. It marks the end of military adventures, "the end of an endless journey to no end" which in turn signifies a fresh start on the road toward the goal of peaceful democracy.

**Asian Anti-Red Shield Cracked**

KUALA LUMPUR, Malaysia (AP) — Singapore's breakoff from the Malaysian Federation has cracked Southeast Asia's anti-Communist shield.

That shield curves arc-like south from Thailand, through the Malaysian mainland and eastward across northern Borneo to the Philippines. Behind it lies embattled South Viet Nam.

At the apex is Singapore. The 214-square-mile island state has long been Britain's fortress in this part of the world, the headquarters for the British Far East command and the site of air and naval bases.

As such, it plays a vital role in military planning by the Southeast Asia Treaty Organization for the defense of the area against communism.

**IN DOUBT**

Now long Singapore can continue to play that role has been thrown in doubt by the unexpected announcement that the Malaysian and Singapore governments agreed — under the stress of fierce political differences — that the state should withdraw from the federation.

The strain of the separation has awakened controversies within Malaysia's ruling circles that could weaken Prime Minister Tunku Abdul Rahman's control and tear the fabric of the federation itself.

Anti-Malaysia Indonesia, increasingly aligned with Peking, stands ready to take advantage of any openings.

Merging Singapore with Malaysia was a key project of the British who saw it as insurance against a Communist takeover of the Chinese-dominated island, with its history of turbulent Communist activity.

In turn, Singapore gave Malaysia a solid military anchor at

its southern tip from which Britain's Far East forces could operate under a defense treaty with the federation.

**BORNEO STATES**

The Malaysian bastion was the northern Borneo states of Sabah and Sarawak, while Britain still controlled the protectorate of Brunei.

To military observers here, the Southeast Asian shield, and Malaysia in particular, took on added importance with the development of an open Peking-Jakarta axis.

This brought with it the possibility of a Chinese push southward through Viet Nam and enveloping Thailand and Laos, accompanied by a Peking-backed Indonesian drive aimed at engulfing Malaysia's mainland and Borneo states.

Indonesia's fitful but potentially dangerous guerrilla campaign against Malaysia added to these fears.

**Twenty Years Later, Ship 'Mighty Mo' In Mothballs**

By MURLIN SPENCER  
ABOARD USS MISSOURI, BREMERTON, Wash. (AP) — The solemn words are what you remember most as you return to the "Mighty Mo" 20 years after the historic surrender ceremony.

You can still remember Gen. Douglas MacArthur, standing erect, his face stern, as he said: "It is my earnest hope, and indeed the hope of all mankind, that from this solemn occasion a better world shall emerge out of the blood and carnage of the past — a world founded upon faith and understanding — a world dedicated to the dignity of man and the fulfillment of his most cherished wish — for freedom, tolerance and justice."

You can still hear that voice warning that while in the past nations had resorted to war when they could not settle their disputes at the conference table, "the utter destructiveness of war now blots out this alternative." Obviously thinking of Hiroshima and Nagasaki, he said: "We have had our last chance."

Looking down on the huge 16-inch guns of the Missouri in their sealed turrets you wonder if once again they might pound shore installations in some faraway land.

"In an emergency, we could have her ready in about two months," says Capt. Gordon B. Williams, of Massillon, Ohio, commander of the Bremerton group, Pacific Reserve Fleet, of which the Missouri is a unit.

"Her 16-inch guns could be useful. They are still the most devastating thing in warfare, aside from atomic weapons."

Today, the 888-foot long ship, freshly painted in the Navy's traditional haze-gray, is deserted except for tourists — some 100,000 a year.

No one lives aboard. The nine 16-inch guns lie flat, three abreast in their sealed turrets. Eighty fast-firing anti-aircraft guns are encased in silver igloos to preserve them for future use.

## A Devotional For The Day

Whatever ye do in word or deed, do all in the name of the Lord Jesus, giving thanks to God and the Father by him. (Colossians 3:17)

**PRAYER:** Father, we thank Thee for work, however lowly, so long as it is honorable. We want to be co-laborers with Thee. Help our young people to lean heavily upon Thy guidance in their choice of vocation. Show us Thy plan for our lives, and prepare us for the work Thou wouldst have us do. For Jesus' sake. Amen.

(From the 'Upper Room')

## Ominous Tune

One commentary on the present round of disarmament talks at Geneva described the proceedings as "a diplomatic minuet in the mode of 19th Century balance-of-power politics." This minuet is being danced to a funeral tune.

The world has just marked, with solemnity and prayer, the 20th anniversary of Hiroshima's destruction. Solemnity is appropriate, both in retrospect and even more when one considers the future. Unless the disarmament negotiations produce effective means of reducing the nuclear stockpile and halting the proliferation of nuclear weapons capability, prayer may be all that is left.

The Geneva talks thus far have been a grave disappointment. Declarations that the need for nuclear arms control is more urgent than ever have

limped along in harness with the usual fruitless collision of opposing views.

There is still hope that the negotiators will get down to business and act as if they really feel the sense of urgency that progress lies in the proposal of Mrs. Awa Myrdal, chief of Sweden's delegation, that an intensive effort be made to reach agreement on certain points on which the U.S.S.R. and the United States are not far apart. One of these is extension of the nuclear test ban to include underground blasts.

This approach promises no dramatic accomplishment. But if the big powers could bring themselves to push hard for such step-by-step progress, the talks could begin to get somewhere.

## Get In Practice

One week from today thousands of boys and girls will be coursing back to school here.

That means the school zones, quiet for the past three months, will be swarming with young humanity.

That means that the casual driving habits we have developed during the vacation months will need to be revised sharply and promptly.

So we suggest that starting this week, even before the first youngsters show up, that each of us practice taking it easy around the schools. It's not a question of saving us a ticket next week, but possibly of saving some youngster injury or worse.

Remember — around schools, drive twice as slow and three times as carefully.

## Marquis Childs

### Johnson Relentlessly Seeks Peace

WASHINGTON—Now beginning the 38th year of his life and approaching the third year of his Presidency, Lyndon Johnson confronts the most demanding challenge of his entire career. That is to find an honorable way out of Viet Nam before the war there escalates into a full-scale conflict, 8,000 miles from America's shores with a possible nuclear threat at the end of the road.

IN THE SIX DAYS preceding his press conference of just a month ago, he took the loneliest decision of his Presidency. Virtually without exception, his official advisers recommended declaring a state of national emergency and calling up the Reserves and certain National Guard units.

Those recommendations were put to him in final form on the Friday before the Wednesday conference. The response was in the harsh Johnson idiom. Then he left for a weekend at Camp David. When the full story is told, it is likely that this will be seen as the interval in which he decided on the course, moderate by comparison with the detailed recom-

mendations before him, of a phased increase in military manpower and with it an intensive effort to find a way to the conference table.

THIS IS THE significance of the feelers put out to Hanoi for a gradual downgrading of the Viet Nam operation on both sides. From day to day, almost from hour to hour, the President is fully aware of each move in this as yet tentative and highly secret game. He is at the same time constantly trying to open up avenues of communication with the Soviet Union.

In short, it is the Johnson mixture as before, a new dimension in American politics. No manifestation of the man — his volcanic temperament, his gargantuan energy, his phenomenal capacity for work, his jumbo-size ego — has surprised those who worked with him over the years.

UNFOLDING IN the glare of the most powerful office in the world, the Johnson phenomenon astonished many, shocked some and delighted others. One of several unofficial counselors meeting occasionally with the President on a confidential basis is a distinguished anthropologist who greatly admires LBJ. In the anthropologist's view, a principal reason for Johnson's hold on the country is that he is one of the few truly American Presidents in our history and perhaps the most American of all. American is construed in geographical and historical terms — the heart of the country shaped by the pioneer experience as contrasted to the Eastern Seaboard and the European orientation.

IT IS THE American character magnified many times. Take the present critical moment in his career. Pushing, pulling, persuading, he has reasoned with Congress, to use his own charitable phrase, to get through a legislative program astonishing in its range. So notable is the advance in social legislation, moving across barriers considered impenetrable, that the President might lay claim to a philosophy of politics as the art of the impossible.

For most men, achievement of this peak would be reason to relax for a time. But what is Johnson planning to do after Congress adjourns? He is starting a series of tours around the country promising to be as strenuous as his campaign last fall.

THE PRESIDENT knows only too well the fate of two Democratic Presidents of this century, Woodrow Wilson and Franklin Roosevelt. Both Wilson and Roosevelt had started a program to cure what they considered evils in American life and each was thwarted in mid-stream by war. Johnson has shown again and again that he understands that this time the evils of city ghettos, water pollution, a deteriorating educational system and a host of others will not wait on still another war. That is one of the drives behind this driven and hard-driving man.

## Now, Then

RIYADH, Saudi Arabia (AP) — This desert capital looks very much like a "before-and-after" advertisement.

The city's buildings are a constant reminder of the transformation brought about by the country's huge oil income.

Dotted about Riyadh are many old, mud-walled palaces where the kingdom's aristocracy lived before oil was discovered in the 1930s. The ancient crumpled towers and fortress-like walls loom beside modern flashy concrete and glass buildings.

## James Marlow

### Here's Insight Into Shape GOP's In

WASHINGTON (AP) — When Republicans get together, they don't look it. Their policy-coordinating committee, meeting here this week on how to win next year, seemed a little uncoordinated.

They'll have their hands full in 1966. At stake in the elections are 15 of the 17 GOP gubernatorial seats, only 20 of the 33 held by Democrats.

In Congress 14 of the 32 Republican Senate seats are up but only 19 of the 68 Democratic seats. In the House all 435 seats are at stake. There the Republicans now number only 141.

SOME OF the things Republicans have said and done this year give an insight into their state of mind and the state of the party:

Jan. 22 — Hoping he could smooth things, Republicans named Ray C. Bliss of Ohio their national committee chairman to succeed Dean Burch, Barry Goldwater's man in 1964. Burch was pushed out.

March 28 — "The Republican party is in bad shape," said Leonard Hall, a former GOP chairman.

June 9 — Bliss predicted a 10 per cent boost in the party's strength in the next two years "if we stay united and do the job."

June 14 — A GOP House leader, Melvin R. Laird of Wisconsin, said his group might end support for President Johnson's Viet Nam policy. But the Republican Senate leader, Everett M. Dirksen of Illinois, said his group would "uphold the hands of the President."

JUNE 18 — Rep. Gerald R. Ford of Michigan, the House Republican No. 1 man, said victory was in the air for the GOP, adding: "We're moving forward rapidly."

June 18 — Bliss, complaining splinter groups drain off funds, said Goldwater's new-born conservative Free Society Association will hamper the quest for

party unity and money. Goldwater denied it's a splinter group.

June 19 — Ford, who smelled victory the day before, said he believed the two-party system was in jeopardy from Johnson's use of power.

June 23 — Bliss fired his friend and aide, William Cody Kelly, after the GOP finance director, Frank J. Kovac, ac-

cused Kelly of rifling his desk and reading his correspondence. Kovac was one of the last of Goldwater's allies left in the high command.

KELLY TOLD the National Committee he broke into the desk because he suspected Kovac of spying for Goldwater and that working at GOP headquarters was more dangerous than fighting a war.

### Average Car Lives 10 Years

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

The life span of the average U.S. auto is 10 years. Then it is worth about \$20 as steel scrap.

James Madison, our fourth president, was the first to wear long trousers regularly instead of knee breeches.

The possibility of having vegetable gardens in space is being studied by the U.S. Air Force. Crops to feed astronauts would be grown in orbiting space stations without the use of soil. The most promising plant is the sweet potato.

WILFRED FUNK, the lexicographer, once picked these as the 19 most beautiful words: dawn, hush, lullaby, murmuring, tranquil, mist, luminous, chimes, golden and melody. We don't see how he could make such a list and leave off the word cash.

Do you have accidents for no apparent reason? Maybe you are among the 25 per cent of all people whose some investigators believe are born accident prone.

Quotable notables: "An investment in knowledge pays the best interest" — Benjamin Franklin.

But getting an education costs more all the time. The expense

of attending a private U.S. college has increased more than 85 per cent in the last 10 years.

THE SAFEST time of day to drive your car is shortly before noon. The most dangerous time is in the early hours after midnight.

Prosperity note: Europeans use an average of only 10 to 20 gallons of water daily per person. Americans use from 100 to 150 gallons.

Napoleon once said, "Water, air and cleanliness are my favorite medicines." He disliked exercise. But research indicates most people's metabolism functions best if they expend from 300 to 500 calories a day in the form of exercise.

FOLKLORE: If you eat too much pork, in time you'll grow bristles on your back. When you see a new moon, jingle the coins in your pockets—and you'll have enough spending money to last you until the next new moon appears. If it storms on the day of your wedding, you'll have a stormy marriage. Keep a piece of wedding cake in your home, and you'll have good luck as long as the cake lasts.

Worth remembering: "When it comes to borrowing trouble, a man's credit is always good."

## Around The Rim

### Amen, Amen And Amen!

I may be old-fashioned and somewhat set in my ways but I like to pay my current bills on the 10th and the 20th of each month. There are financial reasons, if you please, why I have to do this. I probably would not have enough money on hand on the 10th to pay all of my obligations. So, as I imagine a lot of you folks out there in newspaper land do, I stagger the check writing.

THERE WAS a time when the establishments I owed sent out their statements on the first of each month. It was tacitly understood I would pay up by the 10th.

The same applied, as a general rule, to the utility companies. I got my bill for the electricity, gas, water and telephone on the first and it was stipulated (in the good old days) that I could wait until the 10th to remit.

Not so any more.

NO UTILITY outfit sends out its bill, apparently, on the same date as another. One sends its bills on the first; another on the sixteenth and a third on the seventh. Not only that—each seems to have a different deadline payment date.

Toirk me the more, they use electronic machines to compile my bill. Instead of a piece of paper which I can look at, write out a check for and throw away, I am sent a slip of thin cardboard, usually bigger than a standard envelope, and punched full of mysterious holes. I am sternly admonished not to fold or wrinkle this piece of cardboard, which I must return it with my payment. It won't fit safely into any pocket I have. I can't carry it in a billfold because my billfold, not up to date in design, folds.

(I HAVE OFTEN wondered what would happen if I folded one of these bills and creased the fold sharply. Would a life sentence be stern enough punishment? How long before the grim wardens of the corporations would march up to my front door and put the old handcuffs on me?) But that's not all. It's not convenient for these outfits to get my

hard earned money. They say they have to have the cash on or before a certain date — said date in no way agreeing with the date any of the other outfits want their money.

If I heeded these admonitions, (which I do not), I would be writing a check for this bill today, another on tomorrow and a third the day after.

Being a little bullheaded, I go right on as I have for so, these many years, — writing so many checks on the 10-16 and the balance on the 20th.

I RECEIVED a little bill from a big corporation this month which aptly illustrates the situation.

The amount was \$2.87. It was in the lot of checks I write on the 20th of the month. I dispatched it on that date (being careful, I recall, to enclose the stub from the statement and to write my account number on the check.)

On the following day, I got a letter from this big corporation, mailed on the 19th and arriving on the 21st.

IT ADVISED ME, via a printed form, that my bill due on the 19th had not been paid. So, I gathered, the board of directors had been called to find out what on earth to do about me.

Well, nothing happened. I conclude the arrival of my check for \$2.87 restored some sort of uneasy calm.

Had the corporation called its electronic computer, my payment would have been received, the company would have saved five cents postage, and the expense of handling the day late notice, and everybody would have been happy and serene.

I MIGHT as well serve notice on this same outfit right now — my check for the bill I will get in for next month will be dispatched on Sept. 20. It doesn't matter a whit to me that the computer says I should have it there on Sept. 19. The computer, despite its great wisdom, knows nothing at all of the status of my bank account.

If this is treason, then shoot, if you must, this old grey head.

—SAM BLACKBURN

### The Uncertain Red Harvest

WASHINGTON—Every year about this time Soviet newspapers begin exhorting collective farmers to bring in the harvest before the bad weather comes. Pravda was lamenting in July: "Even in the southern steppe region where summer is usually dry and hot, the harvesting is now broken off because of bad weather." meaning heavy rains.

BUT PRAVDA admitted in a nother July article that the real problem is not so much the short Russian growing season and the unpredictable frost, flooding and snow, but the "quality of the harvest work." On a trip by bus through the Soviet Union from Brest via Minsk and Smolensk to Moscow, I had the opportunity of observing the "quality of the work."

Many, if not most, of the people I saw cutting the hay in the fields were women, sometimes old women. They used hand sickles and scythes and laboriously raked the hay, sometimes till as late as eight in the evening. The farmers were rather shabbily dressed and did not seem to be very interested in what they were doing.

THE WHEAT CROP has been disappointing this year and the Soviet Union has been forced to buy from Canada and Argentina. Under the Czars, Russia was a wheat exporter. In 1963, the U.S.S.R. purchased 12 million tons abroad. The deterioration almost has to be laid to the economic confusion of communism.

The word that appears most often in Soviet writing on agriculture is "struggle." For the Soviet Union agriculture has been a long frustrating "bore." The bureaucrat has never been able to win over the peasant. Every trick devised by the former to make the latter an efficient producer has somehow been evaded.

TAKE THE "work day." The collective farmer gets paid at the end of the year by the number of "trudodni" he puts in. Apparently the peasant sends his wife and mother to work for the State and accumulate "work days," while he stays close to home and cultivates his private plot. The vegetables and meat produced in the private plot can be sold in a free market for money.

THIS BUREAUCRAT vs. peasant struggle has been so important that it has led to the making and the breaking of the top Soviet leaders. In 1953 a brass leader named Nikita Khrushchev delivered an unexpectedly frank report on the conditions in agriculture. Khrushchev then unveiled a grandiose plan to plant the virgin lands of Kazakhstan. Agriculture was his cause and the virgin lands program was his platform. He blamed many problems on his political rivals and took credit for imagined improvements. Khrushchev was fairly successful until the disastrous harvest of 1963, when his erstwhile partners blamed him and turned him out of office last October. (Distributed by McNaught Syndicate, Inc.)

## Art Buchwald

### 'Long May It Wave'—Somewhere

WASHINGTON — The cynics may scoff and the left wingers may grumble, but the Daughters of the American Revolution pulled off their biggest coup of 1965 when they got a New York girdle manufacturer to withdraw from the market a red, white and blue garment called "Stars 'n' Stripes."

The pop art girdle made by the Treo Company was attacked by the D.A.R.'s flag committee, who called it "a shocking caricature and a desecration of the American flag."

THE PRESIDENT of the Treo Company immediately announced he was withdrawing the girdles from distribution and they would either be destroyed or given to a "foreign charity."

It would be a pity if the Treo Company destroyed these girdles, particularly since so much time, effort and imagination went into them.

At the same time I can't help agreeing with the Daughters of the American Revolution that no red-blooded American woman should wrap herself in the stars and stripes, which represents, if you'll excuse the expression, the foundation of our liberty.

SO I WOULD buy the Treo Company's second idea which is to send the girdles abroad.

It is a known fact that 70 per cent of the people in the world who receive American foreign aid have no idea who gave it to them. The Communists in many countries are constantly removing the U. S. aid stickers on the gifts, and there have been situations where they have even substituted the hammer and sickle.

THIS WOULD be the first opportunity for us to give something to a

foreign country where there would be no mistaking its point of origin. By giving American stars 'n' stripes girdles to a needy nation we would not only gain a great propaganda victory in the cold war, but we would also win the battle for the minds of men.

I believe that in order to have the most impact the girdles should be distributed in backward nations where they could replace the sarong or the grass skirt as the only garment worn by a native woman. In this way the stars and stripes would be on display day and night reminding everyone that even in the jungle the United States is always there.

ONE SUGGESTION was made that the girdles be sent to Viet Nam so our G.I.'s could tell the loyal Vietnamese women from the Viet Cong women, but there was some fear that they might fall into the hands of the Viet Cong and confuse everybody.

It was also feared that the stars 'n' stripes could cause friction between American and South Vietnamese troops. So that idea was abandoned.

A third suggestion was to give them to the Soviet Union to show them how far ahead of them we are in the race to contain space.

BUT THE D.A.R. rejected the idea on the grounds that supplying the Soviet Union with girdles would only give aid and comfort to the enemy.

Now it's the government's turn to decide what they're going to do about it. An aid official told me: "First we're going to send one up a flag pole to see who salutes."

(Copyright, 1965, Publishers Newspaper Syndicate)

## Billy Graham

I attended one of your crusade meetings and was amazed that there was no religious frenzy or fanaticism. I had always heard that there was shouting and jumping in revival meetings. I did notice, however, that quite a number who went forward, shed tears. May I ask why they were weeping?

G. B. They were weeping because God had touched them, and they felt unworthy in His Presence. They were sad about their sins, and were shedding tears of repentance. The Bible says, "A broken and a contrite heart the Lord will not despise."

In Pakistan a man was going blind and the surgeons were going to do an exploratory operation in an effort to restore his sight. However, they didn't hold much hope for the success of the operation, due to the advanced stages of the disease. During the night, the man began to pray about the sins of his life, and he wept for almost an hour. When the surgeons began to prepare for the operation, they noticed that the infected portion of the eye was virtually healed, and they asked the man if he had been shedding tears. When they found out what had happened, the doctor said: "That explains it. The center of tension and infection was dissolved by the tears." (That man by the way is a Bishop, and a personal friend.)

There is nothing like tears of repentance to dissolve the centers of guilt and tension in our hearts.

# 'ROUND TOWN

By LUCILLE PICKLE

For the first time since 1942 the children of MRS. A. E. TRUE were all here over the weekend with their mother and Mr. True at their home in Sand Springs. Here from Washington, D. C., were BRADY PIPER, his son, Thomas, and daughter, Robin. Mr. Piper is supply officer for a mapping service for one of the satellite programs. MRS. CLAUDIUS MERLE PETHERBRIDGE came from Panama City, Fla. Big Spring members of the family are MRS. MAMIE LEE DODDS, DOYCE and DICK PIPER.

with MR. and MRS. L. B. WORTHAN are MRS. ZULA REEVES, MRS. BEA BONNER, MRS. ETHEL SIMMONS and MRS. LUCILLE BROWN. The J. C. IRWINS are looking forward to the visit of their four-months-old granddaughter, JAYNE ANN IRWIN, who will be here with her parents, W. T. IRWINS who live in Dallas. They are expected Saturday.

MR. and MRS. FRANK HARDESTY JR., who have recently returned from Greenville, Ga., visited here over the weekend prior to moving to Odessa where he is to teach in the public schools and she is to enter the nursing program at Odessa Junior College.

Sisters of MRS. J. C. EUDY will come for the weekend with the Eudys. They are MRS. JOE BARNES and MRS. HELEN CROW of Dallas. Mr. Barnes will be with them.

For those who have trouble sauteing onions without burning them: Put 1/4 cup water in a small pan along with butter and onions. By the time the water boils the onions will be tender. If they are not, just add a little more water. The result will be the same as though the cook had stood over the stove and watched the onions every minute.

MR. and MRS. PAUL FANNIN who attended North Texas State University at Denton, will arrive Saturday for a between semesters visit in the home of their parents, MR. and MRS. L. T. MANLEY, and MR. and MRS. CHARLES FANNIN.

The Labor Day weekend will see many people going away and coming here for visits before the school session takes over. Planning a visit in Hereford

The REV. and MRS. T. L. KENNEDY and their family of Artesia, N. M., plan to arrive here Sunday afternoon for a weeks stay in the home of her parents, MR. and MRS. ERROTT NANCE.

## Baby Shower Held In Coates Home

A Friday evening pink and blue shower, given at the home of Mrs. Ray Coates, 1319 Mesquite, honored Mrs. Anita Lilly. Cohostesses were Mrs. Murle Brannon, Mrs. Frank Kennedy and Mrs. Bob Brannon.

LT. and MRS. G. H. PODRA-SKY will leave Saturday morning for Montgomery, Ala., where he will attend a special officers training school for 1/2 months. They expect to return to Webb by the first of the year. He has been procurement officer at the local base.

A corsage made of diaper pins, a baby rattle and ribbon was presented to the honoree. The refreshment table featured a centerpiece of fall flowers and a frosted pink cake molded into the shape of a baby shoe. Seventeen guests attended.

LISA and STEPHANIE SEALS had a fine weekend when their grandparents, MR. and MRS. OLTON JAMISON, took them to Six Flags and also to Forest Park and zoo in Fort Worth. The party also visited a nephew of Mrs. James L. D. REEVES, and his wife in Arlington.

## Piano Workshop Held At HCJC Auditorium

A piano workshop was held Saturday at the Howard County Junior College auditorium. The Big Spring Piano Teachers Forum was the sponsor, and Rodney Hoare, San Antonio, conducted the workshop.

MR. and MRS. OMAR JONES have returned from a weeks' business trip to Neosho, Mo. While there, son, JON TAYLOR, visited the FLOYD PARSONS family in Little Rock, Ark., and he returned by air to Midland, Monday.

New Fashion Fabric

A new process may open new markets for goat fiber and wool. Texas ranchers have come up with a new fabric combining the qualities of wool with the body supplied by mohair. Here Nancy Eaves models a wool-mohair cape and dress. The rug is mouton lamb's wool, the draperies are mohair-wool, and the dog's jacket is of the same material. (AP WIREPHOTO)

## BRIDE-ELECT Morning Brunch Fetes Miss Joanna Patterson

Miss Joanna Patterson, bride-elect of Lt. Billy Wayne Cofer, was honored with a Saturday morning brunch at the home of Mrs. Gilbert Gibbs, 902 W. 17th. Miss Ann Gibbs and Miss Kay Dyer were the hostesses. Cut flowers in shades of pink, orchid and purple were used in the room decorations, and the centerpiece was a figurine of a bride and groom. The bride, wearing a soldier blue sheath with a sweetheart neckline and white trimming, was presented a white carnation corsage. Her mother, Mrs. Richard L. Patterson, was an honored guest. The couple plans to be married Sept. 25 at the First Baptist Church.

## Party Given For Couple

Mr. and Mrs. Jerry Caughman were the honorees at a Sunday evening surprise dinner party in the home of Mr. and Mrs. James G. Lewis, 702 Marcy. Caughman is taking a two-year leave of absence from Lewis Five and Ten store to complete his college education at the University of Texas. The Caughman family will move to Austin Sept. 1 and will make their home at the University Apartments.

Children's Party Given By WMS  
A party for the children of the Westside Recreation Center was given Friday afternoon by the Woman's Missionary Society of the Stadium Baptist Church. Cohostesses were Mrs. Rex Edwards, Mrs. J. W. Arnett, Mrs. Gene Ross, Mrs. Rupert Madre and Mrs. Cora Lee Schaffer. Refreshments were served to 23 children.

## Strickland Family Visits In Burkett

FORNSAN (SC) — Mrs. Elbert Strickland and children are home from a visit to Burkett with her mother, Mrs. E. E. Blankinship, who returned with them for a visit here. Visiting here with the I. R. Camps and Leland Camps were Mr. and Mrs. Luther Williams, Coahoma, and Odell Williams, Grandbury. Mrs. Vera Harris is home from a visit to Robert Lee. Mr. and Mrs. A. D. Barton and Van have been San Angelo visitors.

## Barbecue Dinner Held On Friday

A barbecue dinner was the highlight of the Friday evening meeting of the Sew and Chat Club. The 21 members met at the home of Mrs. H. V. Crocker, 1704 Benton, and Mrs. C. Y. Clinkscales was cohostess. Birthday songs were sung to Mrs. Ruby Rowe and Mrs. Pearl Gage. Two guests, Mrs. Laura Anderson, Gilmer, and Mrs. Lola McQuain, were welcomed.

## Reunion Features Six Generations

Relatives representing six generations were to meet Sunday at the home of S. Sgt. and Mrs. C. E. Bowers, 199-B Hunter. Mrs. Bowers' mother, Mrs. John F. Martin of Roswell, N. M., has been here during the past week while her husband is a surgery patient at the Veterans Administration Hospital. Mrs. Martin's father, G. W. Todd, 96, of Graham, was expected to arrive Sunday, as well as Mrs. Martin's daughter, Mrs. Mac McCullough, and her daughter, Mrs. Danny Hudson of Canyon. Mrs. Hudson has a son, Gregory, 6 months, who makes the sixth generation.

Club Changes Date  
The Sept. 2 meeting of the A&M Mothers Club has been postponed until Sept. 9. At that time the group will meet at the home of Mrs. Buell Fox, 107 Jefferson.

## Beta Omicron Fetes Rushees

The fall season began for Beta Omicron Chapter of Beta Sigma Phi Sunday afternoon when rushees were honored on "Beginning Day." Mrs. Lamar Green headed the social committee making arrangements for the afternoon affair in the Community Room of the First Federal Savings and Loan Association building. Mrs. Billy D. McDonald, president, extended a welcome to the rushees, Mrs. Harry G. Davis, Mrs. Jack Lewis and Mrs. C. G. Grigg, and a transferee from Fort Stockton, Mrs. Robert F. Knight. She announced that the theme for the year will be "Crown Every Moment," and that the programs will be presented largely by members with only two guest speakers slated. Yearbooks and study course booklets were distributed by Mrs. Herman York, vice president, and Mrs. Green reviewed last year's social calendar, noting that one social will be held each month during the coming year.

## Scores Told For Bridge

Saturday was Master Point day for the duplicate bridge games played at Big Spring Country Club. Eight tables were in play, and the north-south winners were Mrs. J. D. Robertson and Mrs. Ron Kibler, first; Mrs. Rogers Hefley and Mrs. Hollis Webb, second; and Mrs. J. H. Holloway and George D. Pike, third. East - West winners were Mrs. Joe Herbert and Mrs. Glen Cox, first; Mrs. R. H. Weaver and Mrs. James Duncan, second; and Mrs. Ayra McGann and Mrs. Carl Blomshield, third. Players were reminded that the Tuesday game will be Master Point, and that Team-of-Four play will be held at 1 p.m. Wednesday. Both events will be at the Big Spring Country Club.

## Porter Motleys Attend Reunion

KNOTT (SC)—Mr. and Mrs. Porter Motley spent Saturday evening with Mr. and Mrs. P. Coker in Anson and attended a family reunion in the home of his sister, Mrs. Gracy Barlow in Abilene Sunday. Mrs. Wynell Ruzzaments, Irving, is visiting her mother, Mrs. Walter Long and other relatives. Mr. and Mrs. Dick Clay, Seminole, spent the week at their farm home. Mike Davidson underwent surgery in a Lamesa hospital Sunday.

## Maryland Guests Return To Home

Mrs. Lilly Bryant, Dallas, is visiting her brother-in-law and sister, Mr. and Mrs. Edgar Albright. Other Sunday guests were Mr. and Mrs. David Albright, New Home, and Fred Grist and daughter, Fredda, Midland.

## Bill Congers See Dallas Relatives

FORNSAN (SC)—Guests of Mr. and Mrs. Bill Conger were Mr. and Mrs. George Braever, Stephenville; Mr. and Mrs. John J. Cole, McCamey; and Mrs. Anne Barnett, San Diego, Calif. The Congers are spending this weekend in Dallas with their son and his family, Mr. and Mrs. William Conger. Also visiting with Bettye Conger has been Gayle McDaniel, Garden City. Visiting Mr. and Mrs. A. D. Barton and Van is Mrs. Quincy Earle, Snyder. Mr. and Mrs. W. R. Crager and family have moved here from Roswell, N. M. Crager is on the Forsan school faculty.

## Children's Party Given By WMS

A party for the children of the Westside Recreation Center was given Friday afternoon by the Woman's Missionary Society of the Stadium Baptist Church. Cohostesses were Mrs. Rex Edwards, Mrs. J. W. Arnett, Mrs. Gene Ross, Mrs. Rupert Madre and Mrs. Cora Lee Schaffer. Refreshments were served to 23 children.

## Barbecue Dinner Held On Friday

A barbecue dinner was the highlight of the Friday evening meeting of the Sew and Chat Club. The 21 members met at the home of Mrs. H. V. Crocker, 1704 Benton, and Mrs. C. Y. Clinkscales was cohostess. Birthday songs were sung to Mrs. Ruby Rowe and Mrs. Pearl Gage. Two guests, Mrs. Laura Anderson, Gilmer, and Mrs. Lola McQuain, were welcomed.

## Reunion Features Six Generations

Relatives representing six generations were to meet Sunday at the home of S. Sgt. and Mrs. C. E. Bowers, 199-B Hunter. Mrs. Bowers' mother, Mrs. John F. Martin of Roswell, N. M., has been here during the past week while her husband is a surgery patient at the Veterans Administration Hospital. Mrs. Martin's father, G. W. Todd, 96, of Graham, was expected to arrive Sunday, as well as Mrs. Martin's daughter, Mrs. Mac McCullough, and her daughter, Mrs. Danny Hudson of Canyon. Mrs. Hudson has a son, Gregory, 6 months, who makes the sixth generation.

## Club Changes Date

The Sept. 2 meeting of the A&M Mothers Club has been postponed until Sept. 9. At that time the group will meet at the home of Mrs. Buell Fox, 107 Jefferson.

**Newsom's KOUNTRY KITCHEN**  
Double S&H Green Stamp Day  
WED. TAKE HOME MENU

**Golly! WE DIDN'T KNOW EVERYONE DIDN'T COOK IT FRESH HOURLY!**

WE DO! AGNES AND HER LADIES TRY THEIR BEST TO SEE THAT YOUR KOUNTRY KITCHEN FOODS ARE JUST AS FRESH AND PROPERLY SEASONED AS IF YOU HAD PREPARED THEM IN YOUR OWN KITCHEN (IF YOU ARE AN EXCEPTIONAL COOK)

## OUR SECRET

- USE ONLY THE FINEST QUALITY FOODS THAT MONEY CAN BUY — FRESH VEGETABLES — NOT CANNED — REAL BUTTER — NOT OLEO — REAL CRISCO — NOT BRAND X—
- MIX IN 8 OF THE FINEST LADY COOKS IN TOWN—
- STIR UP IN SMALL BATCHES SO THAT THE SEASONING IS JUST RIGHT AND EACH DISH IS FRESH HOURLY. (HAVE TO START EARLY SO THAT THE LAST ITEM IS READY BY 10 A.M.)
- CREATE THE LARGEST VARIETY (A MINIMUM OF 80 DAILY) OF FINE FOODS—(PIES, VEGETABLES, SALADS, MEATS) AVAILABLE ANYWHERE.
- SERVE AND SELL WITH LOVING CARE —
- AND IF WE DO COOK TOO MUCH — IT'S REALLY OKAY BECAUSE IT MAKES CAPT. THOMAS SO HAPPY — YOU SEE THE SALVATION ARMY COMES EACH NIGHT AT 8:30 TO TAKE ALL THAT'S LEFT.

FOR YOUR CONVENIENCE AND PLEASURE WE PRESENT A PARTIAL LISTING OF OUR MENU FOR WEDNESDAY — DOUBLE STAMP DAY.

- AGNES' MEAT LOAF
- CHICKEN 'N DUMPLINGS
- MACARONI 'N CHEESE
- FRIED CHICKEN
- ROAST BEEF
- BAKED HAM
- BARBEQUED EVERYTHING
- BEEF STEW
- RED BEANS ● FRESH GREEN BEANS
- FRESH BLACKEYES ● FRESH CAULIFLOWER
- FRESH TURNIP GREENS ● REAL CREAM GRAVY
- FRESH WHIPPED POTATOES

HOT CORNBREAD ● HOT ROLLS 'N BREAD AND — MEXICAN CORNBREAD—

FRESH FRUIT COBBLERS — PEACH AND PLUM FOR WED. — MADE WITH REAL BUTTER — AND FRESH FRUITS—

FRESH POTATO SALAD ● MACARONI SALAD ● GUACAMOLE ● COLE SLAW AND 16 OTHER SALADS — THEY WON'T BE MADE TILL TOMORROW!

## AND

AGNES' HOMEMADE PIES OF COURSE — 18 KINDS — HOURLY!  
WE MEANT TO LIST WEDNESDAYS MENU — BUT WE'RE OUT OF SPACE — SO PLEASE LET THIS PARTIAL LIST BE A GUIDE.

AND EACH DAY AT THE KOUNTRY KITCHEN Carry Home Dinners YOUR SELECTION FROM THE ABOVE — \$1.25 PER PLATE— ITS GOOD — ASK YOUR NEIGHBOR—!

# Guile, Ability Support LBJ's Tireless Drive

**EDITOR'S NOTE** — At times President Johnson's large frame seems to fill all of Washington. And in a sense, this is very nearly true. Here's the first of four articles that present a lively close-up of the President's ways, public and private.

WASHINGTON (AP) — President Johnson probably would flare up at the idea that his is a one-man administration. Yet perhaps as much as any man who has occupied the White House, he is the government. It is Johnson who has the power. And it is Johnson who ultimately decides on all the

major and many minor moves on the chessboard of domestic affairs and foreign policy. Whatever he is, Johnson has come up with an amazing mass of legislation to build what he calls the Great Society. He says his one overriding goal is lasting peace.

How does he operate? This is a man who puts in many a 16-hour day practicing persuasion and what he might call enlightenment. He bounces from one chore to another in

seemingly tireless fashion. It helps, though, to do it in shifts — there's a midafternoon nap. He consults. He seeks consensus. He requests and receives advice. He schedules conference after conference — with members of Congress, governors, mayors, leaders in all sorts of fields — civil rights, education, business, labor, the professions. As for those tales about his arm twisting, he dismisses them as fantasy. But he does some effective wheeling and dealing, preferably in face-to-face

chats or on the telephone.

**GOOD HOST**  
The President can be a delightful host too. He is a frequent one. Never before have so many people seen so much of the White House so often — even to the presidential bedroom. There are big parties and little ones, outside and inside.

**U.S. Aid Gives Turks Electricity**  
WASHINGTON (AP) — One hundred and thirty cities and towns in Turkey are to get electric power over transmission lines built with U.S. assistance. A loan of \$6.4 million has been approved by the Agency for International Development. More than 1,200,000 Turks will benefit from the project.

and on boat rides down the Potomac.

And if Johnson bestows favors, maybe he can ask favors. If he receives one, he never fails to follow up with a word of appreciation. "That," says a member of Congress, "I like."

Yet this President at other times can be domineering and unforgiving; and he can resort to language blistering enough and profane and earthy enough to make an artillery sergeant shudder.

**IRON HAND**  
A staff he drives with an iron hand gets the brunt of the Johnson anger at times and yet gives him unswerving loyalty.

Reports got around that the President once gave former press secretary George E. Reedy a verbal rawhiding, then gave him a station wagon for

Christmas. Johnson is supposed to have explained: "You never want to give a man a present when he's up — you want to do it when he's down."

The President not only has

**Dinosaur Prints Found In Jersey**  
TRENTON, N.J. (AP)—Dinosaurs 20 feet long and weighing a ton roamed New Jersey about 180 million years ago, a leading paleontologist says.

Dr. Donald Baird of the Princeton University Museum of Natural History says footprints the ancient creatures left in mud now turned to stone were found in land being cleared for a new golf course.

Big Spring (Texas) Herald, Tues., Aug. 31, 1965 7-A

power over his staff. He has a Republican party now wandering along in disunity. In addition, by most measuring rods, Johnson has the weight of a large cross-section of public support behind him. He isn't content with it, though. He always tries for more, tries to improve his stature with the people, tries to stay in the public eye.

Next: Care of Congress.

executive director Robert Johnson. The council, the legislature's research arm, agreed Monday to study and prepare reports on a wide range of topics. These include water laws and problems, mass transportation, governmental relations, educational and assistance programs for the deaf, care of delinquent, dependent and neglected children and restoration and maintenance of forts and missions.

Because of "limitations on staff and time," the council delayed studies on workmen's compensation laws, laws discriminating against women, and counsel for indigent persons accused of crimes.

Johnson said his staff was far busier than ever before during the last legislature. He received a pay boost from \$16,000 to \$20,000.

**Man Fleeced Out Of Fifty Dollars**  
 MINNEAPOLIS, Minn. (AP) — Arthur E. Boetcher told police he hit a parked car, then gave \$50 to two men who claimed to be the owners. They even gave him a receipt, which he produced when the real owner turned in a hit-run report. Not surprisingly, the first two "owners" could not be traced.

**GOP Invites Splinter Group Entry In 'Tent'**

WASHINGTON (AP) — Gov. William W. Scranton of Pennsylvania provided significant support today for Chairman Ray C. Bliss' invitation to splinter groups to come in under the Republican National Committee tent in the 1966 elections.

Bliss told a news conference Monday — after the Republican Policy Coordinating Committee had failed to produce promised statements on civil rights and balance of payments issue — that he was "fed up with the question of side groups."

Although he once described the conservative Free Society Association formed under the sponsorship of Barry Goldwater, the 1964 GOP presidential nominee, as "harmful" to the party organization, Bliss said he was going to live with this and other groups.

"Once they are formed, I am going to try to find a way to work with them," Bliss said. "I will work with any group that will help elect Republicans."

**BACKS BLISS**  
 Sawant, who recently said there was no room in the party for extremists, said in an interview he backs Bliss' position. "With the exception of a couple of organizations which are not really Republican at all, I believe most of these groups can be melded into the party," he said. "I am in favor of electing Republicans and if they are willing to work on that basis, I think room can be found for them."

But Gov. George Romney of Michigan, along with Scranton a potential candidate for the 1968 GOP presidential nomination, said he is not budging from his position that organizations of the type of Goldwater's Free Society Association tend to weaken the regular party organization.

With obvious reference to Goldwater, Romney told a news conference Monday: "I believe that with the party facing the problem of survival, all of its leaders should concentrate their efforts within the party organization."

Goldwater told a reporter that was just what he was trying to do. He said the Free Society Association would impinge on neither the policy-making nor fund-raising functions of the National Committee.

**BARRY "ASKING"**  
 "I am asking Chairman Bliss what he wants me to do in the 1966 campaign," Goldwater said. "I am willing to help out in any capacity he suggests."

After an evening meeting with Bliss in Goldwater's Washington apartment, the former senator said the Free Society Association was discussed, but that no particular point was made of it.

"Ray Bliss and I have never been apart," Goldwater said. "We are working together, we always have been and we will continue to do so."

In a statement, Bliss said much the same thing, but made no mention of the Free Society group.

"Unification of the party and methods by which this might be achieved were uppermost in our frank and friendly discussion," the chairman said. "We agreed that the primary objective of the party is to elect Republicans to office at all levels of government in the 1966 elections. We also agreed that all resources of the party must be directed toward that end."

Denison, Tex. (AP) — A Texas newsman marked his 40th anniversary on the same newspaper today. He has found little difference in interviewing presidents or the average man.

In 40 years of news gathering, admission, was awed only by the and king, John Philip Sousa.

Easterly joined the Denison Herald as a non-salaried, apprentice reporter on Aug. 31, 1925. Now he's vice president of the Denison Herald, Inc., and editor of the paper.

The veteran newsman interviewed Franklin D. Roosevelt when he spoke from the rear platform of a Katy train. He has gotten up at dawn to walk the depot platform with President Harry Truman.

**INTERVIEW IKE**  
 Easterly led an editorial fight that established Denison as the birthplace of former President Dwight Eisenhower and for a third time will get a chance to interview Denison's most illustrious son Wednesday. Eisenhower will be here for a special dedication program.

Easterly was a warm personal friend of the late House Speaker Sam Rayburn. For years he

**DEAR ABBY**

**Proud Of His Degree**

**DEAR ABBY:** We met a nice appearing gentleman at a party recently and our host introduced him as "Mister Blank." The man became indignant and said, "DOCTOR Blank, please!" Our embarrassed host then corrected himself, half-apologetically, and left us with this "Doctor Blank."

Assuming he was an M.D., I asked, "Do you specialize, Doctor?" He replied, "I am NOT a medical doctor. I am in the hardware business." He explained that he had EARNED (and he emphasized the word) a Ph.D. in Philosophy, which made him a doctor of philosophy and therefore he had as much right to the title of "doctor" as a physician. Is this true?

**UNAWARE**  
**DEAR UNAWARE:** Very few Ph.D.'s who are not in education use their "doctor" titles, although they may if they wish. Your friend may require the services of a D.D.S. to help him get his foot out of his mouth.

When her 17-year-old daughter picks her up at work, the girl will come sometimes two hours early and get in everybody's way, walking around, giggling and asking questions. Don't tell me to tell the office manager. I AM the office manager. But this woman has been here many more years than I, and I hesitate to fire her even though I

**Prof Busy Trapping Mice**

DEER ISLE, Maine (AP) — During the summer, some people swim. Others fish or just soak up the sun. Dr. Kenneth Crowell traps mice.

Crowell is a biology professor and ecologist at Marlboro College, Marlboro, Vt.

His hunt for mice is part of a six-year research project sponsored by the National Science Foundation.

Each mouse is given a numbered ear tag, then is returned to its capture site and released. Frequently it's back in the same trap the next day, Crowell says.

**Veteran Newsman Notes Anniversary**

Denison, Tex. (AP) — A Texas newsman marked his 40th anniversary on the same newspaper today. He has found little difference in interviewing presidents or the average man.

In 40 years of news gathering, admission, was awed only by the and king, John Philip Sousa.

Easterly joined the Denison Herald as a non-salaried, apprentice reporter on Aug. 31, 1925. Now he's vice president of the Denison Herald, Inc., and editor of the paper.

The veteran newsman interviewed Franklin D. Roosevelt when he spoke from the rear platform of a Katy train. He has gotten up at dawn to walk the depot platform with President Harry Truman.

**INTERVIEW IKE**  
 Easterly led an editorial fight that established Denison as the birthplace of former President Dwight Eisenhower and for a third time will get a chance to interview Denison's most illustrious son Wednesday. Eisenhower will be here for a special dedication program.

Easterly was a warm personal friend of the late House Speaker Sam Rayburn. For years he

NEW TRAINEE GETS A FEW POINTERS FROM A VET Alice Ward, left, and Carolyn Cate, right

New Trainee Begins Work In Home Demo Position

Catherine Crawford, Howard County Home Demonstration Agent, has a new "student" in her office.

She is Alice Ward, 21, Lufkin, who is training to become a home demonstration agent.

Alice will replace Carolyn Cate, 22, of Kaufman, who leaves Sept. 10 to become Terry County Home Demonstration Agent.

Girls like Alice and Carolyn are assigned to county home demonstration offices for three months when they apply for a post with the Texas Extension Service. During these months,

the home demonstration agent gives the young students an opportunity to find out just what the job involves and how it is best performed.

Carolyn, for instance, came here June 11. She is a graduate of Texas Tech where she majored in home economics. She is the daughter of Mr. and Mrs. R. C. Cate, Kaufman, and graduated from Kaufman High School in 1961.

She has "suspected" for some time she would be assigned to the Brownfield office when she finished her work here. However, confirmation of her selection as Terry County Home Demonstration Agent was received only a few days ago.

Alice, who graduated this spring at Texas Women's University, has a degree in home economics and education. She is the daughter of Mr. and Mrs. Lewis Ward of Lufkin, and she graduated from Lufkin High School in 1961.

She is making her home here at 606 Scurry. Alice and Carolyn are two of a small group of proteges that Mrs. Crawford has had in her office here. Most of their predecessors have gone on to county home demonstration posts and are doing well. A few have changed to other lines of endeavor.

Mrs. Crawford is winding up her vacation this week, and Carolyn is acting as her substitute in the home demonstration office.

Countries Sign World Pact

WASHINGTON (AP) — The United States has become the tenth signer of an international agreement designed to settle disputes between private investors and governments of foreign countries where they invest.

The convention will go into effect when it has been ratified by 20 governments which are members of the World Bank. Previous signers were the Central African Republic, Ivory Coast, Jamaica, Mauritania, Niger, Nigeria, Pakistan, Tunisia and the United Kingdom.

Astronauts, Space Technicians Meet

CAPE KENNEDY, Fla. (AP) — Astronauts L. Gordon Cooper Jr. and Charles Conrad Jr., their hearty appetites gradually regaining the weight the pair lost during an epic eight days in space, huddled today with technical and medical experts who sought to learn everything possible about the flight of Gemini 5.

Meanwhile, two other astronauts, Walter M. Schirra Jr. and Thomas P. Stafford, were busy preparing for Gemini 6, less than two months away.

Cooper and Conrad flew to the Cape Monday from the aircraft carrier USS Lake Champlain. They had been ferried to the carrier by helicopter after splashing into the Atlantic Ocean at the end of their record mission.

The astronauts immediately were hustled to a medical facility for exhaustive tests which did not disclose any adverse symptoms.

Dr. Charles A. Berry, Gemini flight surgeon, reported the pilots were in extremely good physical condition. He said examinations would continue for

weeks in case something shows up later.

REGAINS POUNDS Berry said Cooper had gained back 6 of the 7 1/2 pounds he lost during the flight and Conrad 4 of the 8 1/2 he lost. Cooper weighed 132 and Conrad 154 just before launching. Berry attributed the loss to dehydration.

The gain is credited to ample Navy chow aboard the carrier and a trencherman's menu on shore. For lunch Monday the astronauts had big helpings of macaroni and ham. For dinner it was steak, baked potatoes, string beans and blueberry pie.

Berry said preliminary results indicate man has nothing to worry about medically on short flights to the moon. Eight days is the time planned for the first U.S. manned lunar landing trip in 1969.

Medical and technical reviews will continue at Cape Kennedy until Thursday, when Cooper and Conrad will fly to the Manned Space Center at Houston, Tex., for seven more days of the same.

Cooper said of the extensive briefings: "We hope it will improve the quality of later flights."

Longshoremen, Idled By Ship Strike, Return

NEW YORK (AP) — Thousands of longshoremen in Atlantic and Gulf ports, idled by the 75-day strike of three deck officers unions, streamed back to work today to start unloading 100,000 tons of cargo which piled up during the walkout.

President Johnson announced a strike settlement Sunday. Members of the two striking unions, the International Organization of Masters, Mates and Pilots, and the American Radio Association, both AFL-CIO,

were expected to ratify the four-year agreements.

Radio officers will vote later today and the masters, mates and pilots Wednesday. Some of the nearly 100 freighters tied up by the strike could be moving by Wednesday night if union members approve the contract terms.

Eight straggling shipping lines, represented in the negotiations by the American Merchant Marine Institute, will clear out the cargo and begin signing on crews.

Suspension Of All-Cargo Flights OKd

WASHINGTON (AP) — Slick Airways received permission Monday from the Civil Aeronautics Board to suspend its scheduled services in the all-cargo field.

In permitting the suspension immediately for a 90-day period, the board said: "Slick is obviously in serious financial difficulty and claims that its service will deteriorate substantially in the near future."

Three other all-cargo airlines — Airlift International, Flying Tiger and Seaboard World — have asked permission to operate over the Slick routes.

Slick's certificate permits it to operate scheduled service, for cargo and mail, between San Francisco-Oakland and Boston via Los Angeles, Houston, Dallas-Fort Worth, St. Louis, Chicago, Indianapolis, New York-Newark and Hartford, Conn.-Springfield, Mass.

Spokesmen said that since October, 1962, Slick has lost about \$250,000 a month—or \$3.4 million through last June 30—on its common carrier service, and currently is losing about \$10,000 a day in that area.

Donkey Game Set

Jack Orr, president of the Big Spring Jaycees, met Monday with R. H. (Bob) Travis, president of the Big Spring Kiwanis Club and completed the final details for the upcoming Donkey Baseball Game to be played Sept. 11, 1965 at 8 p.m. in the rodeo arena. To make sure that each side played its best, it was agreed that the losing club would be responsible for cleaning up the area after the game. "The game should be exciting right down to the end," said Travis and Orr, "even though this may be a tender subject by the time the game is over."

Mme. Chiang Cites Menace

NEW YORK (AP) — Mme. Chiang Kai-shek says possession of the atomic bomb by Communist China "jeopardizes the position of every nation in the world."

The wife of the president of Nationalist China also called here for the destruction of Red China's atomic installations before they further expand. She made the comments in an airport interview.

Law Enforcement Group Organized

AUSTIN (AP) — Dist. Atty. Henry Wade of Dallas, prosecutor of the Jack Ruby murder case, has been named to the new state commission on law enforcement standards and education.

Gov. John Connally appointed Wade and eight others Monday.

The commission, created by the 59th Legislature, will direct research in law enforcement, certify law enforcement training and education programs and certify instructors for the programs.

It also will recommend curricula for advanced courses and seminars in law enforcement at institutions of higher education. Wade was appointed to a two-year term.

Other appointees and their terms are A. C. Howerton, retired Fort Worth police captain, two years; Glen McLaughlin, Austin, Department of Public Safety chief of personnel, training and staff services, two years; Walter Suttle, Vernon police chief, four years; Wallace Beasley, Texas A&M coordinator for law enforcement training, four years; Dewey Presley, president of the First National Bank of Dallas, four years; C. V. Kern, Harris County sheriff,

six years; Dr. George Killinger, Huntsville, director of the institute of correctional studies at Sam Houston State College, six years; Rufe Jordan, Pampa, Gray County sheriff, six years.

State officials who automatically will serve on the commission are Atty. Gen. Waggoner Carr, State Education Commissioner J. W. Edgar and Col. Homer Garrison Jr., director of the Department of Public Safety.

Killeen Soldier Dies In Viet Nam

WASHINGTON (AP) — The Defense Department said Monday that Sgt. Gerhardt Just of Killeen, Tex., had died in Viet Nam.

While the cause of death was not given, the department said it was not due to enemy action. He was the husband of Mrs. Lillian Just of Killeen.

For "Happy Motoring" this long weekend...

PUT A TIGER IN YOUR TANK!

HEY DAD - EVERYBODY'S ROARING TO GO!

NEW HIGH-ENERGY ENCO EXTRA GASOLINE BOOSTS POWER THREE WAYS!

You'll get more pleasure out of driving with Enco Extra. It works three ways to give you livelier performance:

1 Cleaning Power! New Enco Extra gasoline helps keep the vital parts of your engine

clean to maintain top power and mileage.

2 Firing Power! New Enco Extra neutralizes harmful cylinder and spark plug deposits to help protect your engine against misfiring — actually restores lost power to many cars.

3 Octane Power! New Enco Extra has the high octane many cars now need for full performance and smooth acceleration.

The Tiger gets you off to a roaring start — at any of 30,000 stations from coast to coast.

Happy Motoring!

NOW, I'M NOT LETTING YOU IN!

YES, TRACY, THAT COULD VERY WELL BE! WHAT'S THIS?!

**MARY WORTH**

YOU'RE VERY KIND, MR. HARPER—!

I HAVE A DAUGHTER... ABOUT YOUR AGE, MISS—UH... CRAWFORD!—DON'T STRAIN YOURSELF TO LOOK AMAZED!—THIS HAIRPIECE COST ME \$800!

BE HONEST WITH ME! YOU WANT TO BE A MODEL, BUT YOU'VE HAD NO EXPERIENCE, RIGHT?

THAT'S RIGHT! I—I THOUGHT YOU COULD TELL ME...HOW TO START...

YOU SHOULD HAVE STARTED BY PICKING ANCESTORS WHO WOULD HAVE GIVEN YOU AN OVAL FACE, LARGER EYES, TWO INCHES MORE IN HEIGHT AND A POSITIVE LOATHING FOR PEANUT BUTTER AND FRIED POTATOES!

**REX MORGAN**

WHEN LITTLE JERRY WAS BORN NINE YEARS AGO, THERE WEREN'T TWO HAPPIER PARENTS THAN VIVIAN AND I! HE SEEMED TO BE A NORMAL, HEALTHY BABY!

THEN, AS THE MONTHS WENT BY, WE BECAME AWARE THAT HE WAS SLOW IN DEVELOPING! FOR EXAMPLE, AT THREE MONTHS, HE WAS NOT LIFTING HIS HEAD... AT SIX MONTHS HE WAS NOT SITTING UP!

OUR PHYSICIAN BEGAN TO SUGGEST THE POSSIBILITY THAT JERRY MIGHT BE RETARDED! WELL, NO ONE WHO HASN'T GONE THROUGH THAT EMOTIONAL SHOCK CAN FULLY APPRECIATE THE ANXIETY AND ANGUISH THAT COMES OVER YOU AT A TIME LIKE THAT!

EVEN THE FACT THAT OVER 126,000 RETARDED CHILDREN ARE BORN EACH YEAR DOESN'T SEEM TO HELP... BECAUSE EACH OF US IS INVOLVED WITH OUR PERSONAL PROBLEMS... NOT THAT OF OTHERS!

**POGO**

THIS KING SAID HE DINT WANNA SLEEP WITH HIS MOUTH OPEN BECAUSE IT MADE HIM LOOK UNKINGLY...

OH! OH!

SO HE APPOINTED A VARLET-IN-WAITING TO SET BY AN' SNAP IT SHUT FOR HIM... BUT THE VARLET SOLD TICKETS...

THE KING WOKE UP AN' SAW THE COOK THE PLUMBER AN' THE PARROT-PEEPER LOOKIN' AT HIM AN' LAUGHIN'...

THE VARLET CRIED "I'M SORRY, SIR, I LOST MY HEART!"

"NOT YET," SAID THE KING, "BUT BE PATIENT."

POW!

**GRANDMA**

AN, BIRD WATCHING, EH?

NO... GRANDMA WATCHING!

SHE'S ABOUT DUE TO PUT COOKIES ON HER WINDOW SILL TO COOL!

**TERRY**

INSIDE ONE OF SERGE'S MOVIE SETS, TERRY'S FLASHLIGHT FLICKERS OVER A MAZE OF EXOTIC EQUIPMENT.

TERRY! I THOUGHT ONLY OUTSIDE SHOTS WERE TO BE MADE HERE— BUT THIS PLACE ALSO LOOKS LIKE A SETTING FOR THE FILM.

THEN SERGE HAS REALLY GONE OVERBOARD ON REALISM. THIS GADGETRY IS OPERATIONAL LA RUBIA!

BUT FOR WHAT PURPOSE?

I DUNNO— BUT IF ALL THIS HARDWARE WERE SWITCHED ON, SOME FELLAS COULD TRACK AND CONTROL A SPACE SATELLITE!

**SMITTY**

I HOPE YOU'LL LIKE WORKING HERE IN MY GARDEN SPOT.

OH, THE HEAVENS—AND THAT'S NOT A JOKE!

IT'S SO NICE UP HERE I CAN'T CONCENTRATE ON MY WORK!

OH, DEAR! THIS ISN'T MY DAY—I'M MAKING MISTAKES ALL THE TIME!

BAILEY! ALL THIS TRASH PAPER IS COMING OFF YOUR ROOF! WOTS 'TA IDEA?

**MOON MULLINS**

I KEEP TRYING, EMMA, BUT THERE JUST ISN'T MUCH DEMAND FOR SOMEONE WHO'S FIFTY-FORTH!

WELL, ACT LIKE YOU'RE 30 YEARS YOUNGER, AND FOOL EVERYBODY.

EMMA'S WRONG, BUT THEN AGAIN SHE MIGHT BE RIGHT... AHEM!

The bidding:  
 North East South West  
 1♥ 2♥ 5♥ 5♣  
 Pass Pass Pass

While culling our office files recently we uncovered the hand presented today, taken from a recent international match between the United States and Argentina.

The bidding depicted in the diagram occurred at the table where the Americans held the East-West cards. The Argentinians were seated North-South.

North chose to open the bidding with one heart on slightly shaded values—observe that he has only 12 points including high cards and distribution. East wished to insist on reaching game, and he did not entirely rule out the possibilities of a slam despite his opponent's opening bid. He therefore overcalled with two hearts, a cue bid, which is forcing to game.

South had a very fine distributional fit for his partner and, realizing that considerable competition could be expected on the deal, he decided to preempt to the limit by bidding five hearts. The opposition would surely bid at least four

spades, if left to their own devices, and South hoped that his strategy would succeed in disrupting their line of communications.

West decided that the ace of hearts was a duplication of values since East was probably void in that suit. Inasmuch as he had one sure defensive trick, West reasoned that partner could be counted on for at least two or three tricks on the basis of his cue bid which promised game in hand. He therefore doubled five hearts. East's decision to pass without taking at least one bid is questionable.

East opened the king of clubs which North, the declarer, ruffed in his hand. He proceeded to cross-ruff for 12 tricks, trumping away every one of the dummy's five clubs. West scored the ace of hearts, however, East did not take a single trick and Argentina registered a profit of 750 points.

As satisfactory as this score appeared to be to the Latins, at the other table, the United States fared even better with the North-South cards. North passed and East opened with a demand bid of two spades. South overcalled with three hearts and West raised his partner to three spades. North bid four hearts and the contest continued in a spirited manner until South chose to sacrifice at six hearts over five spades. West doubled.

Had West opened the ace and another heart, South would have fallen a trick short, for he would have been unable to ruff out all of his losing clubs. West led a spade, however, and the declarer made 12 tricks. The profit to the United States for the doubled slam was 1,210 points—460 more than Argentina had scored at the other table for being doubled in five hearts.

## Dominican Junta Will Step Down

SANTO DOMINGO, Dominican Republic (AP) — The chief of the Dominican junta has announced that the civilian-military body is resigning to make way for a provisional regime proposed by the Organization of American States.

Brig. Gen. Antonio Imbert Barreras, junta president, made the announcement Monday night in a surprise radio-television broadcast.

BY MIDWEEK Imbert said the five-man junta and the Cabinet would resign as soon as the provisional government takes office, probably by midweek.

The announcement climaxed weeks of thorny negotiations by the OAS political committee headed by U.S. Ambassador Ellsworth Bunker.

The only member of the government not to sign the resignation document was Commodore Francisco J. Rivera, 36, armed forces secretary, regarded as boss of the Dominican military.

AT ODDS The reason for Rivera Camerero's failure to sign could not be determined immediately, but the junta and the military were reported at odds over the OAS peace formula.

It was learned during the week that Rivera Camerero and the military chiefs of staff were more favorably disposed toward signing the modified version of

## Drug Stores' Owner Found Fatally Shot

HOUSTON (AP) — A passing trucker found Clea Butler, 61, owner of two Houston drug stores, fatally shot in a street Monday night.

His car, halted for the nearly finished job of changing a flat tire, was parked at the curb a short distance off a busy freeway.

Butler, a glowing flashlight in one hand, lay near the center of the street.

Police found no weapon and

said they were at a loss for a motive. Morgue attendants reported the dead man's pockets contained \$300 and no attempt had been made to remove his large diamond ring.

Detectives said the shooting occurred shortly before midnight. Residents in the neighborhood told of hearing a shot and said they saw two men run away.

## Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. PASTERTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No gummy, goopy, pasty taste or foaming. Get PASTERTEETH today at drug counters everywhere.

## Car Insurance Appeal Slated

AUSTIN (AP) — The controversy over a recently ordered car insurance premium boost was on its way to a state appeals court today.

Dallas lawyer Bert Bader gave immediate notice of appeal Monday after Dist. Judge Charles Betts dismissed his suit attacking the 13.4 per cent average statewide increase in the cost of auto coverage.

The case will go to the 3rd Court of Civil Appeals here.

While expressing reservations over the way car insurance rates are set, Betts in effect upheld the new rates.

LABOR LEADERS His court may be the scene of one more legal attack on the rates. Betts agreed to consider separately an appeal from the State Insurance Board's rate order by Texas AFL-CIO President H. S. Brown and Secretary-treasurer Roy Evans. The two labor leaders had joined Bader's suit as intervenors.

IN EFFECT The new rates went into effect Aug. 1, boosting the average liability insurance rate by 20.7 per cent. The board said the increase was necessary because of rising hospital and auto repair costs.

Bader's suit contends the standards set out in the auto rate setting statute are vague. He also argues that the insurance board should consider the

income insurance companies earn from their investments, as well as premium income, in setting rates.

HELD VALID Asst. Atty. Gen. Paul Phy, who offered the successful motion for a summary judgment in the board's favor, said the rate-making law does not authorize the board to consider investment income.

Betts said he considers the statute valid and constitutional.

He added, however, that he thinks the law needs changing. The insurance board now operates on the theory that "what is best for this particular industry is best for the people," Betts said.

"CHANGE NEEDED" The judge said he believes the insurance industry either should be made a public utility, with a ceiling placed on earnings, or else given freedom to compete, with the board stepping in mainly to assure adequate reserves to pay off claims.

Betts told Bader and his law partner, David Kendall, that the burden of proof that the rates were unjustified would fall on them if their case came to trial.

"If I go forward (and try the case), this places a terrifically expensive and difficult burden on the plaintiffs," Betts said.

## Redistricting Bill Upheld

AUSTIN (AP) — Atty. Gen. Waggoner Carr has formally denied a contention by nine Republicans that the 59th Legislature's congressional redistricting bill is unconstitutional.

In his answer to complaints filed by intervenors in a suit

questioning the bill, Carr asked a three-judge federal court to dismiss all challenges to the reapportionment act.

The legislature realigned congressional districts under pressure of an Aug. 1 deadline set by the same court, which also ordered that the new districts be of substantially equal population.

Carr's answer was to complaints filed by Peter Stewart and eight other Republicans, and by State Rep. Neil Caldwell of Alvin, State Rep. Paul Haring of Goliad and Joe Brigrance.

The answer specifically denied the Republicans' charge that the bill gerrymandered the state. Carr also disputed Caldwell's contention that the bill's division of Brazoria County between two districts discriminates against residents of the county.

Carr said the districts "were formed in an honest effort to comply with the orders of this court and by first observing the principle of 'one man, one vote.'"

# Bill Milam Building Around Seven Vets

STANTON—The Stanton Buffaloes open their 1965 football season Friday night in Roscoe and coach Bill Milam says the Plowboys will be a salty test. Stanton topped the Plowboys, 12-7, last season but had to play like all get-out to finish in front.

The Buffaloes play their first two games on the road before debuting before the home folks. They go to Big Lake for a Sept. 10 outing and then catch Coahoma here Sept. 17.

Milam is building his club around seven lettermen, four of whom were regulars last year. Back from the 1964 squad are

quarterback Buddy Shanks, an all-district performer last year; Dink Polson, left halfback; Mike Hall, who has been transferred from end to halfback; and Phillip Payne, guard, all regulars on last year's club.

Other veterans returning with the Buffaloes are Robert Roten, 125-pound halfback; Larry White, 145-pound halfback; and Bert Decker, 185-pound tackle.

The Buffaloes will be one of the smaller Class A teams in West Texas and coach Milam said the club will be handicapped by a lack of over-all speed.

The Buffaloes will be one of the smaller Class A teams in West Texas and coach Milam said the club will be handicapped by a lack of over-all speed.

However, Shanks, a 175-pounder, throws the ball well and mixes his plays expertly.

Others likely to see a lot of action for the Buffaloes include Roy Powell, 185-pound fullback; David Hicks, 140-pound end; Bobby Holland, 150, an end; Terry Carr, 160, tackle; and Glenn Lawson, a guard who weighs only 130 but who is a fiery competitor.

Polson, 160-pounder, has been favoring a kidney infection but Milam says he'll play against Roscoe.

Powell has shown to advantage running at the fullback spot for the Buffs.

The team's defense hasn't progressed as much as Milam would have liked but the line has been firing out to satisfaction.

A shortage of depth poses a big problem. Included in the squad of 47 who have been working out are 18 sophomores. Milam plans to carry 21 boys on his varsity trips.

Roscoe has seven regulars back from last season, Milam has been told.

Shanks goes both ways for the Buffs. He'll play linebacker on defense, as will Lawson, Payne and Hall.

Helping Milam with coaching duties are Bryan Boyd, who is in his second year; Doyle Edmiston, starting his third year; and Jimmy Center, a first year man who attended McMurry College. Center will coach the junior high team.

Red Raiders' Tackle

Bill Adams, a junior from Hobbs, N.M., will be in the tackle position for the Texas Tech Red Raiders when football season opens this season. Adams weighs 235-pounds and is 6-foot-3-inches tall. (AP WIREPHOTO)

## LOOKING 'EM OVER

With Tommy Hart

Sports dialogue:  
JIMMY CANNON, New York columnist:

"The TV networks arranged the fight racket's descent into insolvency, and then ducked. They're working on football and baseball now. Just give them a little time and they'll bankrupt them, too. Already the ratings on the Saturday Game of the Week are disappointing. The baseball people will be lucky if they get another shot. Already a lot of people I know are bored with football and the season hasn't started. They use up a sport fast. The state boxing commissioners did as much as anyone to turn the fight clubs over to the mice and spiders. They will do anything to collect a buck in taxes. The theater television companies are real promoters of the championship fights. But they never buy a license and the state always them to function. Congress has moved at the fight racket. I wonder why the statesmen bother. They argue about appointing a federal commissioner. There are some journalists who speculate if this will help the racket. It can't hurt it. It is beyond harm. The federal commissioners will be a house cop in a morgue."

RUSSELL COFFEE, assistant coach on Bobby Layne's Texas staff at the Big 33 football game in Hershey, Pa.:

"The players loved him. But Bobby had trouble with his coaches. They wanted to go to bed at night."

FRANKIE FRISCH, when asked how it felt to have Lou Brock break his 39-year-old St. Louis record for stolen bases:

"The way pitchers have forgotten how to throw to first base, he ought to steal 400."

ABE MARTIN, TCU football mentor:

"Let's break up the Texas-Arkansas domination of the championship for the good of the Southwest Conference. Now, I don't have any ill feelings against Arkansas and Texas. Heck, I'd like to win it every year, too. But we've got to spread the title around. It's just a matter of simple economics. I can remember when you didn't know who'd win the championship. It never was cut and dried like it is today, and that's a good thing. We're playing six of our games on the road this year. We played six at home last year and didn't draw very well. We have our fans, all right, but there are just so many of them."

JIM MURRAY, Los Angeles scribe:

"Football coaches are a breed apart. They are in the parachute division of industry. Their livelihood hangs on the whim of a teenager in a face guard, a professor evaluating an essay, an admissions officer with a sour stomach, or a football on the bounce. They are never more than a blocked punt away from the unemployment office."

SANDY PAWDE, Chicago writer:

"Woody Hayes' three yards-and-a-cloud-of-dust theory is in trouble at Ohio State. The fans don't like it anymore. Not because it's uninteresting. An Ohioan would never say that and, besides, there are laws against sedition. It's just all that dust, especially when Ohio State is on offense. You can't even see the players. The more inventive quarterbacks stay away from Woody Hayes."

BOBBY BRAGAN, manager of the Milwaukee Braves:

"Willie Mays used to be the best defensive centerfielder in the National League, but no more. Whether going back, in, or laterally, Curt Floyd of the St. Louis Cardinals is the best."

# Nicklaus Out, Jones Has Big Plus Going

By The Associated Press

Robert T. Jones III, son of golf's immortal Bobby, will have one big plus going for him when he makes his fourth try at the U.S. Amateur Golf Championship, a title his father won five times.

He won't have to play Jack Nicklaus.

Jones, a Pittsfield, Mass., soft drink distributor, won one of the qualifying spots for the amateur championship with a shaky 78-74—152 on the par 70 Pine Brook Country Club course in Weston, Mass., Monday.

"I'm just a duffer, a weekend golfer," Jones said. "I don't spend as much time at it as I'd like."

His record, however, indicates he's a very good weekend golfer.

Among other achievements, he won the Atlanta, Ga. city title in 1948—the one that started his father on his way to fame—has been the medalist in the qualifying for the Massachusetts amateur, got past preliminary rounds for the U.S. Open, and three times before has qualified for the National Amateur.

The last was in 1959. He was eliminated in the first round by Nicklaus, who was making his move toward his first major title.

This year the National Championships at the Southern Hills Country Club in Tulsa, Okla., Sept. 15-18, will be at stroke instead of match play for the first time.

Only 18 players—this country's 10 Walker Cup team members and eight of the 10 British Walker Cuppers—are exempt from qualifying and have spots in the final field of 150.

In all, 1,233 entrants were scheduled for 36-hole rounds today at 27 locations. The huge field is seeking the 108 spots remaining after a vanguard of 261 was trimmed to 24 at eight scattered locations Monday.

# Berra May Get Job As Mets' Manager

NEW YORK (AP)—Yogi Berra, fired as manager by the New York Yankees last year, may become the manager of the New York Mets next year.

The dramatic but hardly unexpected resignation of Casey Stengel Monday, effective at the end of the season, left the door open for Berra to step in and

take charge of the National League cellar dwellers in 1966. There is always the possibility that the job will be given to Westrum, who has served ably as interim manager of the Mets during Stengel's month-long absence.

Most observers believe, however, that Westrum, short of

pulling a miracle—like bringing the Mets home in ninth place—will be returned to his bullpen duties next year with Yogi elevated from his present job as first base coach.

Stengel has not managed the Mets since July 24, when he fell and fractured his left hip. Although an operation was successful, Casey has been confined to a wheelchair, occasionally allowed to walk with the use of a cane, as he did at Tuesday's press conference.

His decision to quit came on the advice of Dr. Peter LaMotte, the club physician who

performed the successful operation.

"Casey," Dr. LaMotte said, "It's a miracle that you can walk today. It was a most serious operation. I cannot take the responsibility if you insist on returning as manager."

"The traveling job entails, even the act of going out to the mound to take out a pitcher, would be just too much for a man of your age and in your condition."

## TOTAL NOW 1,008 Ticket Sales Set A Record

Season football ticket sales at the local high school topped the 1,000-mark for the first time in history Monday, with the opening of the 1965 campaign still 10 days removed.

At the end of Monday's business, a total of 1,008 of the \$7.50 ducats had been distributed. Don Crockett of the School Business Office, 602 E. 13th St., said the demand for the pasteboards was very brisk Monday, at which time the tickets went on sale to the general public for the first time.

The previous all-time record for season ticket sales was set last year, at which time subscriptions for 941 were accepted.

The Longhorns open their season here the night of Sept. 10, at which time they oppose the Lamesa Golden Tornadoes. A large advance sale is anticipated for that contest.

Other home games will be played with Ysleta Bel Air, Midland High, Abilene Cooper and Odessa High.

Persons not holding season

tickets can purchase seats for the Lamesa game itself starting Wednesday, Sept. 8, at the School Business Office.

## Fannindel Drops Sport For Year

LADONIA, Tex. (AP)—Fannindel High School has dropped football for the year because not enough boys came out for the team.

Supt. Floyd Burnett said there were only 11 boys and "we just couldn't see how we could play a tough schedule with that number."

## Coahoma Has Light Line

COAHOOMA—The Coahoma Bulldogs will field a line averaging less than 160 pounds per man in their opening game with Rankin in Rankin Friday night.

Heaviest boys in the Coahoma line are tackle Dean Bohannon and Mike Hinsley, each of whom tips in at 175 pounds. Bohannon, transferred from end, will be at left tackle while Hinsley will be at right guard.

Hinsley has had to take it easy some of the time in workouts due to physical miseries but he'll go against Rankin.

Lightest player in the Coahoma forward wall will be the 145-pound Howard Gregory, undressed coach Sp're Dykes decided to go with Bobby Pherigo instead. Pherigo is used principally on defense, however.

## Sands Ponies Schedule Friday Drill At Home

ACKERLY—The Sands Mustangs will scrimmage Sterling City starting at 7:30 o'clock here Friday night.

A team of the two schools will go at it for about two hours while B teams will mix it up for 30 minutes.

Each side will have the ball for 20 minutes at a time, under an arrangement made by the two coaches. The clubs will take a break after 40 minutes of action.

No gate charge will be levied on those attending.

There have been some casualties in the Sands Camp. Two veterans, Mervin Beal and Dennis Wells, are favoring injuries. Beal suffered a cut near his eye that required six stitches to close while scrimmaging Monday evening.

Wells experienced a badly bruised ankle and the mishap could keep him out of Sands' opening game with Three-Way, which is scheduled to be played here Sept. 10.

Beal is a guard-halfback who at 220 pounds is the biggest player in the Sands camp. Wells performs at center for the Ponies.

## Champs Ousted In Fems' Play

BROOKLINE, Mass. (AP)—Two new pairs of champions are wearing the crowns of the National Doubles Tennis Championships today, with one of the titles involving a jarring upset among the ladies and the other continuing the Australian domination of American men's tennis.

Mrs. Carole Caldwell Graebner of Beachwood, Ohio, and Nancy Richey of Dallas teamed Monday in the finals at Longwood Cricket Club to defeat the defending women champions, Mrs. Karen Hantze Susman of St. Louis and Billie Jean Moffitt of Long Beach, Calif., 6-4, 6-4.

Favored Australian Davis Cuppers Fred Stolle and Roy Emerson outlasted Charley Pasarell of Santurce, Puerto Rico, and Frank Froehling of Coral Gables, Fla., in a two-hour marathon 6-4, 10-12, 7-5, 6-3 to take the men's championship.

# Twins Are Prospering Despite Bad Breaks

By MURRAY CHASS  
Associated Press Sports Writer  
Remember Harmon Killebrew?

He used to be the Minnesota Twins' leading slugger. But that was before he dislocated his left elbow. Now he can almost straighten his arm. The Twins thought they would miss Killebrew, also a versatile infielder, in their battle for the

American League pennant. If they have, though, it's not discernible. At least not in the standings.

When Killebrew was forced out of the line-up Aug. 2, Minnesota had a six-game lead. Now, nearly one month later, the Twins hold a seven-game margin following their 11-inning, 3-2 triumph over Detroit Monday night.

Earlier on the day of Killebrew's baseline accident, ace pitcher Camilo Pascual underwent surgery on his pitching arm for torn muscles. The Twins were in trouble. Or so they thought. The other alleged contenders should be in such trouble.

Of 29 games since then, Minnesota has won 18 for a .621 percentage. That's slightly less than its over-all mark of .632.

Two major reasons why the Twins have maintained their comfortable margin are Al Worthington and John Klippstein, a pair of elderly relief pitchers.

They both pitched Monday night, shutting out the Tigers on three hits in the final five innings. They didn't walk anyone and struck out seven.

The Twins won in the 11th when Don Mincher singled, was sacrificed to second and raced home as Sandy Valdespino lined a two-out single off Larry Sherry.

In the only other game played, New York defeated the Los Angeles Angels 4-2. Rain washed out Cleveland at Kansas City, and there were no games scheduled in the National League.

Jack Cullen, now 3-2, scattered eight hits and singled in a run for the Yankees. Elston Howard socked a home run in the third inning, and Tony Kubek drove in a run in the fifth with a single, his first hit in 30 at-bats. Jim Fregosi singled across both Los Angeles runs.

## Valley Teams Eye Openers

By The Associated Press  
Fall football drills start at four of the Missouri Valley Conference schools Wednesday, with coaches Glenn Dobbs of Tulsa and Chuck Studley of Cincinnati already fretting about limited practice time.

"Dayton, our first opponent Sept. 18, already has started practice," Studley said. "They will have eight more days practice than we will. They can start earlier because their classes start earlier—they're a tri-semester school."

"This is bad enough, but it's even worse that Dayton counts as a conference game for us because Louisville doesn't get on our schedule until 1966. I just don't like it."

Dobbs has been drilling his squad since Aug. 26 because Tulsa opens the season Sept. 11 against Houston in a nationally televised game. They'll play in Houston's domed stadium.

"This just isn't enough time," Dobbs said. "We have more injuries and it's harder on the team to get ready so fast."

Dobbs has a solution: "Give every school in the country exactly four weeks practice before its first game. I don't know how the NCAA and the faculty men arrived at this formula, but I know it's wrong. The coaches will just have to keep trying to change it."

Cincy, Wichita, North Texas and Louisville start practice Wednesday. Louisville, North Texas and Cincy all open the season Sept. 18 but Wichita doesn't open until Sept. 25 at Montana State, defending champion of the Big Sky Conference.

## Palmer Is Now Among Top Ten

FLA. (AP)—Arnold Palmer, who won \$12,900 in Sunday's American Golf Classic, moved into the top 10 among the touring pros while Jack Nicklaus, who won nothing, remained on top with a whopping \$138,633.

Nicklaus has won four of the 19 tournaments he played in and was among the first five 14 times. He won \$127,445 in official play and \$11,188 in unofficial appearances to lead Tony Lema, his nearest rival, by almost \$30,000, with Lema's total \$108,827.

Palmer's total is \$79,219 and places him ninth in the standings.

## Death Victim

Frank Papish, left-handed pitcher for the Chicago White Sox from 1945-48, collapsed and died Monday while walking on the street in Pueblo, Colo. He was 47. Papish, a native of Pueblo, broke into professional baseball in 1936 and played on the Pittsburgh Pirates and Cleveland Indians teams during his seven years in the majors. (AP WIREPHOTO)

## U.S. Is Big Winner Again

By MURRAY ROSE  
Associated Press Sports Writer

TEL AVIV, Israel (AP)—The seventh World Maccabiah Games end a nine-day run today with the United States' huge squad the biggest winner once again.

This has been customary since the Jewish Olympics became an almost global affair. And, according to their customs, the Americans will leave over huge amounts of equipment to help Israel continue its fast developing sports program.

The closing ceremony figured to attract close to a capacity crowd of 50,000 at Ramat Gan Stadium. Departing from tradition, the organizers scheduled several championship events before the ceremony begins.

Finals were to be held in the blue ribbon 1,500-meter run and the men's 400 and 1,600-meter relays. In addition, Canada's Bill Crothers, the world's premier 800-meter runner at present, ran in an exhibition 800.

The Americans, winners of 11 of 18 events in men's track and field, figured to breeze in both relays. The 1,500 could be a romp for Britain's Ray Roseman unless American Bill Morgan runs.

Morgan of San Francisco became a double winner and double meet record-breaker by taking the 5,000 meters in 14:23.8 Monday. Last Thursday he ran away with the 10,000.

### Football Game Is In Midland

SAN ANGELO — The Nov. 6 football game between Angelo State College and Sul Ross will be played in Midland rather than in Alpine, it has been announced.

Eddie McHugh of Coahoma is a member of this fall's Angelo State club.

## Morrall May Fill The Bill

By JACK HAND  
Associated Press Sports Writer

FAIRFIELD, Conn. (AP) — If Earl Morrall turns out to be another Y. A. Tittle, Coach Alie Sherman of the New York Giants may have the take-charge quarterback to make his new wing-T offense work.

Sherman cooked up this offense to suit the capabilities of his group of fine running backs like Tucker Frederickson, Chuck Mercein, Ernie Koy, Ernie Wheelwright and Steve Thurlow.

**NEED IS FELT**

After the first few exhibition games, he realized he needed an experienced quarterback to make it work so he made a deal Monday with Detroit for Earl Morrall, who had dropped behind Milt Plum in the Lions' order.

To get Morrall he had to give up Darrell Dess, a fine offensive guard, and Ernie Barnes, a veteran cornerback, but he insists the trade doesn't mean he has given up on such younger quarterbacks as Gary Wood and Bob Timberlake.

"Morrall will not solve all our problems, but the trade will speed up our rebuilding plans," Sherman said. "It will help us develop our young players faster."

The deal that brought Tittle, already a veteran, to the Giants from San Francisco in 1961 paid off with several winning seasons. The balding pass master finally retired after the 1964 season. So did such Giant veterans as Frank Gifford, Alex Webster, Andy Robustelli, Jack Stroud, Joe Walton and Tom Scott. Don Chandler, the kicking specialist, went to Green Bay in an earlier trade.

Sherman wants to get the Giants out of the cellar after last year's collapse and obviously a great deal of rebuilding was called for.

**HE'S NO TITTLE**

Gary Wood, who was being groomed for the quarterback job, never will be another Tittle. The 5-11 Cornell grad can run the ball and has the poise to direct the ball club but his passing leaves much to be desired.

Sherman hopes that Wood or Bob Timberlake, a well-built 6-4, 220-pounder may develop into the player he needs. But Timberlake came up with a sore arm in the College All-Star camp and missed valuable instruction. When he did get into action, he showed little to indicate that he can pass effectively in the NFL.

In the new offense, Joe Morrall is the wing back, sitting between the tackle and the end. Both ends are split with Aaron Thomas, normally the tight end, lining up about 8 to 10 yards outside the tackle.

Sherman has his backs line up in an I formation at times, shifting into the wing. Sometimes Morrall is a man in motion. At other times they remain in the tight T. In all cases, the quarter-

back still is up under the center. "This is a rebuilding year," said Sherman, who can afford to rebuild a 2-10-2 club after signing a new 10-year contract as coach for a total salary of over \$500,000.

## College Costs Posing Problem To Millions

NEW YORK (AP) — There will be 5.4 million students going to colleges and universities in the United States this fall and about that many American parents wondering how they'll ever meet all the costs.

Millions more already are facing up to the same problem. In the years ahead their youngsters will wind up their high school years. And college costs seem to grow even faster than children, do.

The solution? Savings, loans, scholarship, or maybe junior helping out by getting a part-time job?

The nation will be spending \$39 billion this year for educating 54 million persons, from kindergarten through graduate schools, the U.S. Office of Education estimates. The college population has more than doubled in the last 10 years with degrees becoming ever more of a factor in landing top jobs.

**EARLY STARTS**  
Some parents start saving for the college years even before the child enters elementary school. This is one incentive for buying U.S. savings bonds, or for regularly putting away money in banks — something like a Christmas Club, only for many years instead of one. Some parents take second, or moonlighting, jobs to raise the needed money.

There are insurance plans now tailored to the future needs of the growing number of college-bound youngsters and the rising cost of higher education.

Other parents dream of junior's winning a scholarship. There are many types of these. Putting his children through college would cost — the parent even more than it does today, if the schools weren't aided by endowment drives. Colleges also ease their rising costs by contributions from corporations, foundations, alumni, individuals, and from taxpayers through agencies. The federal government is now enlarging an aid plan that may help.

**STUDENT LOANS**  
Sometimes the student himself gets a loan to help finance his journey through college. One plan is the National Defense Student Loan Program, which has grown from \$13.5 million in loans in 1955 to \$145 million today. The individual colleges put up 10 per cent of the loan and handle the applications. The interest and principal payments start after the student gets his degree and may cover 10 years.

More than 800 schools and colleges are now members of the Tuition Plan, Inc., started in 1938. Member colleges offer the plan to parents as an optional payment method. The Tuition Plan pays education fees as they fall due and collects from the parents on a monthly basis. Of course, junior may do what his father may have done before him — get a job to help out. But students increasingly complain that courses are getting harder and more technical and taking more time and energy every year. That is one reason the pay-as-you-go or the learn-now-pay-later plans are playing a bigger role in the rush for higher education — and better jobs.

— Heads Mission

Edward G. Lansdale, above, a counter-insurgency expert, has been appointed to head a mission seeking to revive the pacification program in South Viet Nam, U.S. Ambassador Henry Cabot Lodge announced in Saigon today. Lansdale, a retired Air Force officer, who is Lodge's special assistant, was named chairman of the U.S. Mission Liaison group to the secretary-general of the Central Rural Construction Council. (AP WIREPHOTO)

## Viet Chief Warns On Draft Defiance

SAIGON, South Viet Nam (AP) — Premier Nguyen Cao Ky, defending South Viet Nam's draft law, has warned that he will get tough with students who oppose the decree.

"The present government has an open ear for constructive criticism, but shall not sacrifice its concern for the general welfare by bow-towing to senseless opposition," Ky said Monday in a statement reported by Viet Nam Press, the official government news agency.

**DEFENDS LAW**  
Speaking in the central highlands town of Ba Me Thout, Ky defended the law making men under 37 who have not previously served in the military eligible for the draft.

Student groups in Hue, Da Nang and Saigon have charged that the law discriminates against the intellectual community. They have called for a return to civilian rule.

The students have aimed their attacks at Maj. Gen. Nguyen Van Thieu, chairman of the National Leadership Committee, charging him with being a dictator.

Ky said no one individual is responsible for policy but that the government is founded on the concept of collective leadership.

**BY LEADERSHIP**  
Chairman Nguyen Van Thieu

## B52s Strike Cong Again

SAIGON, Viet Nam (AP) — Strategic Air Command B52 bombers from Guam hit two suspected Viet Cong concentrations tonight in South Viet Nam, a U.S. military spokesman said.

One strike by the huge eight-engine planes was made on Quang Tin Province, 320 miles northeast of Saigon. The other was carried out in the Communist stronghold called Zone D, 30 miles north of the capital in Bien Hoa Province.

The raids were the 15th and 16th made by B52s in the Vietnamese war. The same areas were hit by SAC bombers last weekend. It was disclosed Monday that the role of the B52s would be stepped up sharply.

**CONG CASUALTIES**  
In another development, a government unit clashed with Communist guerrillas 175 miles northeast of Saigon in Dar Lac Province, the spokesman said. Ten Viet Cong were reported killed and two captured in the action.

Government forces retook an outpost 330 miles northeast of Saigon that had been overrun in the night and set ablaze by the Viet Cong.

Casualties to the regional force company defending the post were described as moderate. Viet Cong casualties were not known.

The outpost of An Hoa, about

10 miles west of the city of Quang Ngai, was reported by air observers to be burning shortly after it was hit and overrun. Vietnamese reports had said it was estimated that a battalion of Viet Cong had launched the attack, but this number was not confirmed.

Troops were lifted in by helicopter shortly after noon and reoccupied the post 330 miles northeast of Saigon, the spokesman said.

**HIT CONVOY**  
A belated report disclosed that the Viet Cong hit a government convoy Monday about 140 miles northeast of Saigon and inflicted what were called light casualties on Vietnamese government troops.

A U.S. Army helicopter was lost today when it crashed shortly after taking off from Tan An airport about 25 miles southwest of Saigon. One American and two Vietnamese were killed, the briefing officers reported.

In the air war, U.S. Navy planes from the 7th Fleet carrier Independence flew four bombing missions against targets in North Viet Nam spokesmen said.

U.S. and Vietnamese planes continued to strike suspected Viet Cong concentrations in South Viet Nam. Pilots flew 182 sorties reporting they damaged 200 structures.

## Ins And Outs In Hollywood Doings Told

By BOB THOMAS  
AP Movie - TV Writer

HOLLYWOOD (AP) — Much ado about Ins and Outs.

Recently an article in the New York Times magazine created a stir by naming the 100 In-people, from George Abbott to Tennessee Williams and including a parcel of Kennedys, who now mean most to New York society. Also mentioned were a few Out-people, including Mayor Wagner, Dorothy Kilgallen and Jackie Gleason.

Nowhere is Inmanship practiced more devoutly than in Hollywood. I am not going to name who is In and who is Out because, heavens, I must go on working here.

But I can report on the habits, customs and institutions that are In and Out in Hollywood today.

### HOTELS, CLUBS

Hotels: The Beverly Hills is forever In, and the Beverly Wilshire is suddenly In after an overhaul. The Beverly Hilton has never been In, except for banquets.

Night clubs: The Daisy is the new In discotheque, Whisky-a-Go-Go is now Out. The Coconut Grove is In for important openings.

Restaurants: The Bistro is the most In of the new spots, Chasen's of the old. La Scala, Larue and a few small Italian places are In. I refrain from mentioning which cafes are Out; see what happened to Romanoff's when it was no longer In.

Movies: Previews at the Westwood Village are In. Big premieres are Out, except for In charities like Cedars of Lebanon Hospital.

### TENNIS IN

Sports: Tennis is definitely In, golf is Out. Croquet is In — if you are invited to play at Sam Goldwyn's.

Living areas: Beverly Hills as In as you can get, Bel-Air follows. Malibu is In once more. The San Fernando Valley is far Out.

Spectator sports: Watching the Dodgers is so In that Cary Grant does it. Doris Day has made the Lakers basketball team In. The Angels, alas, are Out.

Awards affairs: The Writers Guild dinner is the most In of the year. Attending the Academy Awards is Out; watching it on television at a party is In.

Parties: Discotheque dancing in backyard tents is In. Barbecues are far, far Out.
