Bozeman Closes Out Postal Career

By TOM JAY GOSS II
COLORADO CITY (SC)—Last Friday, Corley Bozeman 68, Colorado City postal clerk, locked the door and punched the time clock, ending a postal career that began in 1916.

It really began earlier than that, because his postmaster father, the late D. T. Bozeman of Cuthbert, had him dumping mail sacks when he was 10 years old. Little Bozeman would run out to the mail hack that supplied mail to all the little towns from Colorado City (then "Colorado") to Lubbock, get the mail and give it to his parents to separate while the driver of the hack changed horses.

Bozeman's mother was postmaster when he was born, and kept the job until 1905, when his father took over. Bozeman's father remained postmaster until 1927.

In 1916, Bozeman went to work at the Colorado City office as a rural carrier, taking over from a carrier who had been carrying his route on a motorcycle. Bozeman plowed thru the sand and mud in a Model "T" Ford—

Suggestions

Retiring employe Corley Bozeman (center), gets suggestions on future plans from Wendell Thomas (left) assistant postmaster, and Postmaster Arlene Morris.

were: Colorado, Westbrook, Lorraine, Buford, Ilanthe, Spade, Cuthbert, Tville, Link, and Vlets, only the first three remain, and in 1939, Colorado changed its name to Colorado City.

Bozeman said he plans to "take it easy," read a little, and take "a lot of pictures." Bozeman's longtime hobby has been photography and his fellow workers gave him a new camera on his last day at the office.

Japanese Cycles Big Import Item

TOKYO (AP)—Japan struck it rich in world trade with inexpensive, good quality cameras and radios. Now there's another entry—motorcycles.

These aren't the powerful beasts the boys in black leather roar around on. These are light, one or two-cylinder jobs, inexpensive to buy, inexpensive to operate. America is the big market, and Japan leads the world in exports, with growing competition from France, Italy, Germany and Britain.

For Japan, the story began 50 years ago when the first automobile chugged into the sleepy village of Kimyo in central Japan. When the dust settled, a boy named Soichiro Honda noticed several drops of gasoline on the ground. He sniffed the strange aroma and was, he said later, "intoxicated." His fascination with the gasoline engine has never dimmed.

LARGEST MAKER
Today at 60, Honda, the son of the village blacksmith, is Japan's largest manufacturer of motorcycles. Japan this year

will turn out 2.4 million motorcycles, half the world's total. Of this, Honda will account for 65 per cent. Some 900,000 Hondas will be exported this year, mostly to the United States.

Honda's success story is in many ways the story of the postwar Japanese motorcycle industry.

In the early 1950s, there were some 60 manufacturers of motorcycles. Honda Motors was one of these, starting with 35 employees and a capital of one million yen or \$2,777.

Automobiles were still beyond the reach of the average Japanese, but as the postwar economic recovery progressed, people began to want something more than bicycles, the chief mode of private transportation.

MOTORIZED BIKE
The answer was a bicycle with an engine.

The idea caught on so fast makers couldn't turn out machines quick enough. As prosperity continued, the demand was for better and better models—and the competition became tougher. Today only six motorcycle makers remain in business in Japan.

Honda has expanded to four air-conditioned factories employing 8,000 workers, plus a research laboratory where 700 specialists spend \$833,333 a month tinkering with new ideas. Last August Honda turned out 135,394 motorcycles, its highest monthly output.

Second largest maker is the Suzuki Company, which switched from weaving machinery to motorcycles and now has an output of 30,000 two-stroke motorcycles a month. Suzuki employs 4,000 workers and a research staff of 350.

CENTRAL CITY
Honda and Suzuki, together with the No. 3 maker, Yamaha, have their plants at Hamamatsu, a central Japan city just 12 miles from Honda's hometown of Komyo.

"I don't believe in just meeting a demand," Honda says. "A manufacturer should create a market. We are strictly boom makers."

His publicity concentrated on changing the image of the motorcycle from an ugly, noisy machine.

He tried to remake the motorcycle image into something intimate, clean, attractive, that can be easily handled by anyone. "You meet the nicest people on a Honda," the advertisements say.

The 7.5 million motorcycle users in Japan today include almost everyone.

GRAND PRIX
To prove Japan's motorbikes were no imitation of the West, Honda entered the British Grand Prix race in 1959. Since 1961 Honda, Suzuki and Yamaha bikes have monopolized the world championships in the four light classes.

Southeast Asia is Japan's closest motorcycle market. But the United States is the best customer.

U.S. Grants Asylum To Four Cubans

OSAKA, Japan (AP)—The U.S. government granted political asylum today to the captain and three officers of the Cuban freighter Aracelio Iglesias. They were expected to leave shortly for the United States.

The Cubans walked into the U.S. consulate general this morning and asked for asylum. A U.S. Embassy spokesman in Tokyo said they had been issued visas and were turned over to Japanese police.

A Foreign Ministry spokesman said the Cubans could leave Japan as soon as it was determined that they were going voluntarily. It was believed that this procedure had been completed during the day.

Car Collision Fatal To 7

SUBLETTE, Kan. (AP)—Seven persons were killed and seven others injured Sunday afternoon near this rural southwestern Kansas town when their autos collided at an intersection.

Highway patrol trooper Gail Rathbun said Lawrence Blake, 24, of Dodge City, Kan., was driving west on US 56. Blake, his wife Dana, 22, and her sister Pauline, 27, and her husband, James Simmons, 25, and their son, Todd Simmons, 8 months, were only six miles from the Ferd Gales home in Satanta where they were to have a holiday dinner.

Traveling north on US 83, Rathbun said, was Mrs. Dora G. Saldinger, 27, seven of her children and her mother, Mrs. Sabena Gonzales, 57.

The Saldingers only recently had moved to Leoti in southwestern Kansas from South, Tex. They had been to Texas for a brief holiday visit and as they approached the intersection they were less than two hours or about 70 miles south of their new Kansas home.

The intersection was marked by stop signs on US 56 where it crossed the north-south US Route 83. The roads were dry and clear.

'Peace On Earth' Only A Pleasant Fantasy To GIs

SAIGON, South Viet Nam (AP)—"Sleep in heavenly peace... sleep in heavenly peace..."

Christmas Night under the timeless stars, in hundreds of sandbag chapels under the rubber trees, in lonely special forces camps deep in Viet Cong country, in countless jungle clearings around the makeshift altars on the hood of a jeep, the sweet silver of high pitched Vietnamese voices united with sturdy, rough American baritone in the beauty of "Silent Night."

But for the American fighting man away from home in time of war, Christmas has seldom been a silent night or a holy night.

For the soldier in his foxhole peering across a darkened perimeter and listening for the rattle of sniper fire, "peace on earth" is a pleasant fantasy printed on a pretty postcard from home.

At 6 p.m. on 1964's Christmas Eve, as last-minute shoppers hurried along Saigon's gaily decorated streets, a thunderous explosion shattered windows within a five-block radius. Two hundred pounds of plastic, planted in a Jeep by Viet Cong terrorists, rocked the seven-story Brink officers' quarters, an American billet for majors and colonels located within a block of the main shopping section. Two persons were killed and 107 wounded, 65 of them Americans.

MAIMED, BLEEDING
The same silent stars that looked down on the streets of Bethlehem looked down on streets littered with dozens of American servicemen and dozens more Vietnamese women and children, maimed and bleeding amid a rubble of shattered glass and twisted tinsel.

The peace of Christmas had vanished in a bursting bomb.

Thus was it ever for the fighting man at Christmastide.

Down through the years in America's wars, the same silent stars have echoed to the mournful wail of artillery in a snow-heavy sky, the tramp of marching feet along lonely roads, the echoing notes of a distant bugle across scenes of similar havoc.

Christmas night, 1776.

made it to the New Jersey side of the river. By 8 a.m., Lt. James Monroe, later to become the fifth president of the new United States, is taking the lead company of a Virginia Regiment down King Street. Victory without a shot being fired.

Abraham Lincoln, drawn and gaunt, paces the uncarpeted corridor outside the Green Room, where a congressional committee on the conduct of the war is meeting to decide whether his wife, the tormented Mary Todd Lincoln, is a security risk. She was cleared. But another

Civil Defense Debate Rages

BERKELEY, Calif. (AP)—Two prominent scientists clashed today over the value—or danger—of proposals to spend billions on antimissile systems and fallout shelters.

Reliance upon a defense system of such extraordinary complexity may bring more risk than safety," said Dr. Barry Commoner, head of the Department of Botany at Washington University, St. Louis, Mo.

Dr. Edward Teller, University of California physicist and one of the inventors of the atomic bomb, countered: "A strong civil defense is our best hope of preventing nuclear attack."

IN SYMPOSIUM

The two were scheduled speakers in a symposium on civil defense at the annual meeting of the American Association for the Advancement of Science—the largest scientific convention of the year, attended by more than 6,000.

The difference of opinion came at a briefing prior to the symposium.

Commoner, an authority on the effects of radiation on man's environment, accused Secretary of Defense Robert S. McNamara of giving a "woefully inadequate" picture of the immediate and eventual damage from nuclear war.

He predicted "epidemics of human and animal diseases, crop destruction by radiation, erosion and sterilization of the land resulting from massive destruction of vegetation, and the triggering of possibly catastrophic climatic changes."

These, as well as immediate destruction from blast heat and radiation, he said, "lead me to conclude that this nation, its population, its economic wealth, its social fabric—all that we speak of as our civilization—would be irrevocably lost following a major nuclear war."

He conceded that some scientists would disagree with him but insisted "there can be no disagreement that it is absolutely impossible to be certain of our own survival."

SEEN AS VITAL

Teller said strong civil defense measures are vital as a deterrent.

"The Russians characteristically avoid taking risks," Teller said. "If we have no shelters or antimissile systems they may feel they can defeat us. But if we put up a strong civil defense I believe we will prevent attack."

"The Russians and the Chinese are not mad, as Hitler was. It is fortunate that we are now faced by reasonable opponents. I don't think they will want to start a war unless they are sure they can defeat us, and they can't be sure if we have a strong civil defense."

Commoner pointed out that the Johnson administration is considering a combined antimissile-shelter system, expected to cost several billions.

He said he believed the money a strong civil defense system would cost might be better spent on a research and education to prevent war but that in any case no decision should be made without informing the

Weekly Mag, 'Nation', Sold

NEW YORK (AP)—The 100-year-old weekly magazine, the Nation, has been bought by James J. Storrow Jr.

Storrow, in announcing Sunday that he had paid an undisclosed price for the magazine to publisher George C. Kirstein, said he planned no changes in editorial policy or the staff headed by Carey McWilliams.

The Nation's circulation is listed as 28,231. The magazine was started in September 1856. Kirstein has been publisher since 1955.

Storrow is the head of Trident Films Inc., film producers, and several manufacturing concerns.

Jazz Band Tries Hymns

NEW YORK (AP)—Jazz musician Duke Ellington brought his orchestra to New York's Fifth Avenue Presbyterian church Sunday night for a concert of sacred music.

The concert, which drew loud applause from 2,000 persons jammed into the pews of the stately old church, was sponsored by the Protestant Council of the City of New York.

Singer Lena Horne joined Ellington for the concert, which included "In the Beginning God," a work for his full orchestra first performed in a similar concert last September at Grace Episcopal Cathedral, San Francisco.

Y To Offer Scuba Course

The YMCA will begin a scuba diving course Tuesday, Jan. 25 at 7 p.m., according to Jim Gilbert, Y physical director.

The purpose of the course will be to certify scuba divers and instruct them in the proper use and care of equipment while they develop a regard for safety precautions necessary in its use, Gilbert said.

The course fee for Y-members is \$15 per person and \$20 per person for non-Y members.

East German Guards Kill 1

BERLIN (AP)—West Berliners returning from Christmas reunions in East Berlin watched in horror as East German guards killed at least one man as he tried to take would-be refugees through the Communist wall.

Young Kansan Dies In Houston Mishap

HOUSTON (AP)—John Keen, 17, of Wichita, Kan., was killed early today when his car hit a tree just off Lake Houston parkway. Lorraine Kunc, 15, of Houston was injured and in fair condition.

Coat Off Back To Help Needy

SEOUL, South Korea (AP)—Heien Hayes' \$2,000 nutria coat is bringing Christmas cheer to needy South Korean students.

The American actress took the coat off before boarding a plane Saturday at Seoul International Airport. She handed it to a U.S. Embassy employe and asked that proceeds from its sale be used for the Korean students.

Miss Hayes was leaving after a 23-day tour to entertain American servicemen.

Hope Given For Separated Twins

LOS ANGELES (AP) — Separation, took the news well. The babies were born Christmas Day with a common bladder and intestines.

Sunday, as Mrs. Robin Mantonya passed her 20th birthday at one hospital, daughters Lisa Marie and Sheila Norine

appeared to be holding their own at another.

Said their pediatrician 36 hours after surgery: "They're both still moving around, which is the most important sign to us. Everything is functioning, and their color is good."

The doctor added, however, "There is no way to tell what the end result will be."

The twins, together weighing 12 pounds, were born by Caesarean section at Holy Cross Hospital in suburban San Fernando then rushed to Cedars of Lebanon Hospital where a team of 18 doctors, nurses and technicians performed the surgery.

Dr. Stephen L. Gans, who assembled the team which separated the girls, said neither breathed for several minutes after birth, until mouth-to-mouth resuscitation was applied.

Dr. Gans said the babies were joined in the lower abdomen by a bridge of tissue six inches in diameter which contained a common bladder and a thin, membranous sac around intestines of both babies.

He said that the sac broke either during or before delivery, leaving the intestines exposed to the air and hazards of bacteria. "This forced surgery immediately," he said.

The father is Gerald Mantonya, 20, a film laboratory technician.

Mrs. Kennedy In Idaho Apartment

SUN VALLEY, Idaho (AP) — Mrs. John F. Kennedy has moved into a new three-bedroom apartment at Sun Valley, Idaho, where she and other Kennedys and friends have gathered for some holiday skiing.

Mrs. Kennedy arrived at Halliday, near the resort, Sunday aboard a private plane. She changed planes in Salt Lake City after a commercial flight from New York.

Sen. Robert F. Kennedy, D-N.Y., and his family also are in Sun Valley.

Fiscal Expert With 53 Years Of Federal Service To Retire

WASHINGTON (AP) — A most wonderful job in the world.

"You couldn't find a university any place where you could hear as many top people on as many different subjects as come before our committee every year," he said.

SINCE 1913 Smith went to work for the Senate committee April 1, 1913,

at the outset of the Woodrow Wilson administration.

That first year the congressional appropriations to run the government totaled \$1,098,000,000 (B). In the 1965 session which ended in October the total was \$119.3 billion, second highest in history. Only 1942, a World War II year, had a higher figure — \$147 billion.

Over the 53 years of Smith's work with the committee, the appropriations totaled \$2,191,000,000,000.

ON ALL BILLS

In his early years on the group, Smith was one of the three full time committee employees and he worked on all of the bills.

Now, with the federal government far greater in size and much more complex, the committee has 35 staff members including one or more experts for each of the separate departmental bills.

But Smith, as chief clerk since 1938, has kept his finger on all of the measures.

Smith was brought to the Capitol by Sen. Thomas S. Martin of Virginia who was chairman of the Appropriations Committee at the time.

He was hired partly because of his knowledge of shorthand and was told only, "We want you to do some little odds and ends around the office."

WAR STRAIN

World War I, World War II and the Korean War put the greatest strain on the Appropriations Committee during Smith's career.

He recalls that he stayed at the Capitol until 2 or 3 a.m. many nights during World War II to get emergency money bills ready for quick action by senators on the committee the next morning.

In recent years he has been slowed by falling eyesight and a hip ailment. But, even as retirement nears, he's in his office every working day.

"Does he expect to enjoy retirement?"

"I hope so," Smith said. "But I don't know. Sometimes on the weekends, I used to get jumpy because I didn't have anything to do."

Bomb Threat Delays DC6

DETROIT (AP) — An American Airlines DC6 with 61 persons aboard was delayed two hours at Metropolitan Airport Sunday night by a telephoned bomb threat.

Sheriff's Sgt. Casimer Kurek said deputies who searched the plane found a box in one piece of luggage. It contained wires and transistors, but no explosive, he said.

Kurek said officers were seeking the owner of the box, who was believed to have left on a previous flight.

The plane, bound for Rochester and Syracuse, N.Y., was halted after a male voice told the airline's reservation office "there is a bomb on the plane that just left." The plane was 10 minutes behind schedule, however, and was still on the runway when the call was made, the airline said.

Fired Cubans Offered Work

HAVANA, Cuba (AP) — Cubans who are being fired from their jobs because they want to go to the United States are being offered farm work, qualified sources report.

Fidel Castro's regime recently issued orders to fire as many as possible of those who have applied to leave on the refugee airlift between Varadero and Miami.

But government officials then realized that the mass firings could touch off an explosive situation, the sources said. Other jobs are hard to find and most of the discharged workers were hard pressed to support their families.

Quake, Crater Watch Kept

HILO, Hawaii (AP) — Scientists are keeping a 24-hour watch for earthquakes and another possible eruption of the Aloi crater of Kilauea volcano.

The crater erupted unexpectedly Christmas Eve, but the bright oranges and red lava fountains died down six hours later. There had been some minor earthquakes before the eruption but scientists said they had noticed none of the underground vibrations which usually precede volcanic activity.

The crater is on Hawaii Island, in an unpopulated area about 200 miles southeast of Honolulu.

Succor For The Enemy

Spec. 4 Michael B. Alford of Hartsville, S.C., applies bandages to wounded Viet Cong as troops of the U.S. First Cavalry Division move through area some 30 miles northwest of Qui Nhon. Wounded man was left behind by his comrades when the Americans combed the area around the landing zone. War story on Page 1. (AP WIREPHOTO)

Hong Kong's Biggest Yule Party Held

HONG KONG (AP)—It came two days late but it was the biggest Christmas party in Hong Kong.

U.S. sailors and American medical missionaries today handed out 2,000 20-inch dolls, 2,000 other toys, slabs of chocolate and hunks of cake to some 4,000 children of poor Chinese families.

The party was held on the floating clinic boats of Project Concern, a private American medical agency that treats hundreds of patients daily in Hong Kong's refugee-packed boat shelters.

The party created a huge waterways traffic jam. Scores of larger junks and hundreds of small sampans brought the children to the clinic boats.

Extradition Case Argued

NORRISTOWN, Pa. (AP) — Tyrone Collins, the object of an extradition squabble between two states, was back home today awaiting word when he will have to return to face assault charges in Mobile, Ala.

Collins, 19, a Negro, has charged two Alabama bail bondsmen illegally seized him at gun point in his mother's home Dec. 19, and forced him to accompany them to Mobile. The bondsmen said he had failed to appear in Mobile for trial on a charge of assault to commit murder and forfeited \$500 bail. Collins once lived in Mobile.

Representatives of the district attorney's office here and investigators from the office of Atty. Gen. Walter Alessandrini scheduled a meeting today to decide whether to lodge charges against the bail bondsmen. Rep. Richard S. Schweiker, R-Pa., who represents this area, and who brought attention to the case, also was expected to attend.

In Mobile Collins' lawyer, Vernon Crawford, said he would learn today when Collins was due back for a hearing on the assault charge. Crawford was hired by the Mobile chapter of the National Association for the Advancement of Colored People and signed a \$8,700 bond himself for Collins' release.

Gov. William W. Scranton had wired Alabama Gov. George C. Wallace demanding the return of Collins.

CONTRAST FROM YEAR AGO

Problem: How To Curb Boom

WASHINGTON (AP)—Government experts believe the bubbling national economy will expand by another \$40 billion in 1966.

They are confident of continued prosperity — so confident that the most pressing worry is rising prices resulting from the rapid military build-up in Viet Nam and the momentum of five years of steadily rising business activity.

In contrast, economists a year ago expressed some concern about a dip in business activity during 1965.

Even the higher interest brakes applied by the Federal Reserve Board are not likely to stop the economic locomotive. The four members of the board who voted for the move believe the only effect will be to keep the fast-moving express from jumping the track.

At least some officials share this view, even though they — and President Johnson — criticized the board for acting in early December, some six or seven weeks before the annual announcement of the federal budget and its probable impact on the economy.

DISCOUNT RATE
By a 4-3 vote, the board raised the discount rate—the interest paid by banks when they borrow from the Federal Reserve—from 4 to 4.5 per cent. The rate is the highest in more than three decades. It was designed as a check rein on an economy that has shown more sustained strength than in any previous peacetime boom.

The gross national product — the total of all public and private goods produced during the year — is expected to be \$672 billion for 1965 compared to \$625.7 billion in 1964.

It should be running at an annual rate of more than \$700 billion within two or three months and the 1966 total is estimated at \$710 billion or \$715 billion.

This forecast by government officials could be easily surpassed if spending for the Viet Nam war mushrooms and if the higher rates on credit fail to dampen business enthusiasm.

As for several years, government officials say the time for balancing the international accounts is just around the corner. However, they now have set a definite target for 1966: a deficit or surplus in the balance of payments of not more than \$250 million.

The deficit—more dollars going overseas than returning — probably will run about \$1.5 billion for 1965. It was \$2.8 billion in 1964.

Last February the government persuaded banks and businesses to impose limits on their loans and investments in other countries. The bank program was highly successful and accounted for a large proportion of the balance of payments improvement in 1965.

However, corporations kept building plants overseas at an expanding rate of investment. The administration in early December asked the internationally minded companies to set definite goals.

No action is contemplated, officials said, in regard to the last remaining large dollar gap: The dollars carried overseas by record numbers of American tourists.

The balance of payments has been in deficit for 14 of the past 15 years because payments to foreigners exceed payments from foreigners.

If large amounts of dollars

collect in official foreign government vaults, they frequently swap them for U.S. gold. This resulted in a loss of \$1.3 billion in 1965 from the U.S. gold stock, which now is about \$138 billion. The domestic economy in 1965 set a record, of course. Records of this sort are automatic if the economic system is good. In fact, a \$40 billion gain 1966 still would be slightly below the percentage increase in GNP in 1965.

Era Of Stars Being Contract Players Over

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — Something of a milestone in Hollywood history passed entirely without notice recently. Sandra Dee ended her exclusive contract with Universal.

What's so historical about that? Just this: Sandra Dee was the last big-name movie star to remain under contract to a major studio. When her period of servitude ended, it marked the complete finish of the era of stars as contract players.

NONE BOUND
Twenty years ago, all but a handful of the major film stars were bound exclusively to studios. Today, not one is.

If Sandra seemed impressed by her place in history, it wasn't noticeable. She was much more concerned with preparing for Christmas and her young son's birthday, as well as her departure this week for England, where she will film her first movie as an independent. "Kaleidoscope."

Her long-range concern is building a career for herself as a

grooming actress. I detected a trace of bitterness about her departure from the home lot.

TURNS BITTER
"I thought they were my friends," she remarked, speaking of her Universal bosses. "But I found out on the last picture ('A Man Could Get Killed') that I was simply a piece of property to them. I begged them not to make me do the picture. But they insisted."

"So I spent a miserable four months in Lisbon, little fishing villages and in Rome, making a picture that should have taken eight weeks. We had two changes of directors, and I ended up playing 'Come September' all over again."

MET HUSBAND
"Come September" was the film on which she met her husband, singer Bobby Darin. She played a wide-eyed and vulnerable teenager, and that's just what she is trying to get away from now.

"I could never do it at Universal," she commented. "They just can't think of me as grooming a career for herself as a

Finalists In Contest

Actress Doris Day (third from left) is shown with finalists in "Doris-for-a-Day" look-alike contest in Hollywood, Calif. Left to right: Elise Elgren, Salt Lake City; Wenche Kullander, Oslo, Norway; Miss Day; Tuula Mat-

tilla, Helsinki, Finland, the winner; Candy Leinweber, Dallas; and Sharon Sims, Toledo, Ohio. Girls from 18 nations competed in contest sponsored by movie studio. (AP WIRE-PHOTO)

Questions Answered About War On Poverty

WASHINGTON (AP) — From New York to Los Angeles, the nation's frontline warriors against poverty — those at the community level — have raised a number of questions, the chief being, "Where are we going to find jobs for all the people we are training?"

After a coast-to-coast study of the poverty war's progress, The Associated Press collected the major questions and presented them to Sargent Shriver, director of the Office of Economic Opportunity.

Here are the questions and Shriver's answers:

Q. OEO is training a host of people in the Jobs Corps, the Neighborhood Youth Corps and in other programs. Where are you going to find jobs for these people? Have you given any thought to the possibility of a large public employment program in event of a slump?

A. All of these people are not being trained for jobs we have to create that are new. There are 77 million Americans employed today. Some of them are going out of the work force every year and they have got to be replaced, so that we are equipping persons today who are totally unequipped. We are equipping them to get jobs in regular lines of work, not just new lines.

And that brings me to the second half of the question: What happens if there is a substantial recession?

NEED SOLUTION

A. Well, my own belief is that these problems have got to be solved by American society if we are going to have "the Great Society."

What are we doing about it is the next question. First of all, we have to start at position one, which is to get people equipped intellectually and socially so they can have the fundamentals necessary for mobility. What does that mean? It means education. It means housing. It means medical care. It means a lot of other things — and that is what we are doing.

Q. One of the things that turned up in connection with Head Start, the pre-school training program for poor children, aged 4-6 especially in Chicago, is that a number of the children — maybe as high as 20 per cent — had diseases or other troubles — ringworm, anemia, malnutrition, lung ailments. Now it is one thing to examine these people and discover they need help, another to do something about it. Where are the doctors to come from, the hospital beds and who is going to pay the bills?

A. You have asked a question about one of the toughest problems facing American life.

NEED DOCTORS

I am extremely pleased that

President Johnson's administration finally got through the Congress in the last session a big bill to provide federal money to enlarge medical education in the United States. We are producing too few doctors.

However, that is only part of the problem. In our program we are producing health aides. They are people who can go out and lead people to clinics as a method of bringing health services to people. I think the question of how this is to be financed is one of the biggest problems facing America, but medicare has shown that certain types of assistance can be given to older people without disrupting either our economy or our philosophy of government.

Let me say this: I think one of the benefits of the war against poverty is that we have uncovered some of these conditions.

BRADER SCOPE

If there is a substantial recession — or depression — this affects a lot more than the success or failure of the war against poverty.

As a consequence I'd say that the war against poverty, like everything else, is dependent upon a healthy American economy.

Q. At \$1.25 to \$1.75 an hour nobody really moves out of poverty. How does this go to the question as to whether we should raise the minimum wage?

A. Let me say this: People in the group we are dealing with have a median income of \$1,800 a year. And if we are able to take all those fellows and put them on a \$1.25 five days a week for 52 weeks, they would be so substantially improved that it would be a great boost for them, irrespective of whether they technically had moved out of poverty.

Q. There is a long-range question which concerns a great many: How do the poor go about acquiring the social and economic mobility, regardless of race, religion or national origin, which is apparently going to be

Animal Fats Pose Query

WASHINGTON (AP) — The American Dairy Association says the role of diet — and particularly animal fats, including milk fat — could become what it terms a "hot issue" in 1966.

In a report on public relations for dairymen, the association said milk producers have very much at stake in such a controversy.

"Dairymen cannot afford," it said, "not to ask themselves the frightening question: 'What happens if the public begins to reject milk fat because the public begins to believe the advice of the American Heart Association?'"

The heart association last June issued advice suggesting that the general public should "eat less animal (saturated) fat" because of its possible adverse effect on the heart and its blood system.

The dairy group's report said "the fact is the tide is running against animal fats at the present time."

Skiers Hurlled To Deaths

CLERMONT-FERRAND, France (AP) — An investigation commission sought today to determine the cause of a cable-car mishap Christmas Day which hurled six skiers to their deaths on a rocky slope. Twelve persons were injured.

The accident occurred as the cable car climbed the side of a 6,187-foot Puy de Sancy mountain from the resort town of Mont Dore, in south-central France. Strong gusts of wind swept the mountain as the car and its 52 passengers approached its terminal near the mountain top.

Farmer Co-Op Conclave Slated

WASHINGTON (AP) — The National Council of Farmer Cooperatives will hold its 37th annual convention here Jan. 18-20.

The meeting is expected to focus attention on the trend by farmers and their leaders on organizing stronger marketing associations or cooperatives to bargain for better prices.

Bigger Bites Coming Out Of Paychecks

NEW YORK (AP)—The U.S. Treasury is going to borrow \$5 billion in coming weeks—and doubtless pay the lenders more than it did when it borrowed a year ago. Its annual bill for interest already is around \$12 billion.

Consumers who buy on the cuff seem likely to pay more for that privilege, too, whether it be interest included in the monthly payments for a new car or a mortgage for a new house.

Businessmen who will be borrowing from their banks to carry inventories, meet payrolls, or buy new equipment are already on notice they'll be paying more interest.

Workers will see a lot more deducted from their paychecks because withholding for Social Security and Medicare are at stiffly higher rates.

PRICES RISE

Price rises, either recently announced or believed to be inevitable, will take another big bite out of many personal incomes. These are expected to go on rising, if less slowly next year because of the Social Security tax hike. But many see much of the benefits of this lost to higher prices for goods and services and higher interest rates on consumer borrowing.

The U.S. Treasury expects to take in more money next year from its other forms of taxes. Chief increases will come from the income levy on larger personal incomes and the income tax on continuing, if slower, rise in corporate profits.

But the Treasury is likely to be paying out at an even faster clip. And that is why it must raise \$5 billion in the investment markets in the first half of 1966. Spending on the Viet Nam war will be one additional drain on the Treasury. Costs of social programs already under way or scheduled to be started will be another.

So the Treasury must borrow while it waits for the tax receipts to roll in. It expects to raise \$1.3 billion of new cash by increasing its weekly auction of three-month bills. It will also offer a billion in tax-anticipation bills to be turned in by corporations paying their taxes in June. It shortly will offer \$1.5 billion short-term securities at a rate yet to be set. Later on additional borrowing will bring the total to \$5 billion.

RAISE COSTS

All of this outpouring of new government securities on the money markets would in itself tend to raise the interest costs to the Treasury. The search for the new \$5 billion will be in competition with increased demands of business and consumers for loans.

But the interest charges also will be rising because of the recent move by the Federal Reserve Board. It hiked its charge to member banks who borrow from the Fed. And most of them quickly raised the interest rates they will charge their business and individual customers the next time they make a trip to the loan counters.

Mortgage rates already had started to rise, averaging 5.80 per cent in November against 5.75 per cent in October. Many think the general rise in interest rates will continue to push mortgage costs up next year.

Some lenders have raised the interest on loans to auto dealers to finance inventories. And a few banks have moved up charges on installment loans to finance car purchases.

So whether it's Uncle Sam or the average citizen, the cost of borrowing seems likely to rise. The price of many things may, too. And the tax collector—federal, state or local—seems sure to be asking for more.

Awry Plane Nicks Truck

NEW YORK (AP)—Woodrow Leone, 47, driving his truck across the George Washington Bridge, looked in the mirror and saw an airplane.

A moment later the wingtip of the small plane, carrying two men, nicked Leone's truck and landed in the middle of the bridge. The two occupants of the plane walked away with minor injuries. Leone, from Guttenberg, N.J., was unhurt.

The pilot, Phillip Ippolito, 19, of the Bronx, told police he was going to land the single-engine plane in the Hudson River after the engine failed. But his passenger, Joseph Brennan, 39, of Hackensack, N.J., told Ippolito he couldn't swim.

The damaged plane veered off the truck and came to rest in the two center lanes of the giant bridge, which connects New York City with New Jersey. The lanes were not being used because of the light Sunday morning traffic.

Texas Traffic Toll Hits 48

By The Associated Press

The Christmas weekend in Texas was marred by traffic accidents that took at least 48 lives.

The Associated Press tabulation for the Christmas weekend started at 6 p.m. Thursday and ended at midnight Sunday.

Public safety officials estimate that traffic accidents between Dec. 24 and Jan. 2 will take 110 lives.

The latest deaths reported included:

Bobby Hamp Sweet, 40, of Montgomery was killed Saturday night in a two-car crash seven miles west of Conroe on Texas 105. Five other persons were injured.

SOUTH TEXAS

James Curtis Stelly, 29, of Port Neches died late Saturday when his motorcycle and a car collided in Port Arthur.

William Jack Brock, 26, of Pearland was killed Saturday night when his car careened off a Houston street and hit a culvert.

Wesley Leon Daniel, 11-year-old son of Mr. and Mrs. Edgar Daniel of Fort Worth died Sunday in a Wichita Falls hospital of injuries received Saturday in a two-car collision near Graham. Three other persons, including his parents, escaped serious injury.

Frank Fred Heger, a 62-year-old farmer, was killed Saturday night when his car collided with another car trying to pull a third vehicle out of a muddy ditch. The accident occurred on Farm 155 south of La Grange.

LABORER KILLED

Lester John Lewis, a 39-year-old Rochester laborer, was killed Saturday night when the car in which he was riding overturned west of Rochester in Haskell County.

Robert Davis, a 39-year-old Houston butcher, died Sunday when his car went out of control

on Texas 19 south of Crockett.

Frank Derwood Ward Jr. was killed Saturday in a one-car turnover seven miles west of Seguin.

David Slusher, 36, a Ft. Hood soldier, was killed early Sunday as he walked along Texas 53 about one mile east of Temple.

Gregory Duran, 15, was killed Saturday night in a one-car accident at El Paso.

ODESSAN VICTIM

James L. McDonald, 26, an Odessa construction worker, was killed Saturday when a car overturned 16 miles north of Rankin.

Mrs. Sally Cooper, 30, of Houston, was killed Sunday night when her car jumped a freeway and landed upside down in a ditch in Houston. A passenger was injured.

Edward Schott, 18, of Donna was fatally injured Sunday when he was hit by a car as he stood near another car trying to help a motorist. The accident was in the Rio Grande Valley city of Pharr.

W. H. Reeves, 84, of Burleson was dead on arrival at a Fort Worth hospital Sunday after his car and another collided on Farm 731 at Burleson. Mrs. Reeves, 71, was listed in fair condition.

Buford Gautney, 38, of Dallas was killed south of Waco near the Robinson community when he was struck by a semi-trailer truck on Interstate 35. The death was ruled accidental.

HIT BY CAR

Pedro Enrique Rios, 6, of San Antonio was killed Friday night when he was struck by an auto as he attempted to cross the street at a US 71 intersection in El Campo.

James Edmond Naylor, 18, of Houston was killed when he was struck late Saturday by a car in Houston. The driver, Burley Ramey Jr., was charged with murder by auto.

Cub Awards Are Given At Pack 1 Regular Meeting

Pack No. 1 Cub Scouts had its Christmas Party last Thursday. A feature was a skit by Den No. 3, Don Clabaugh, which was presented as the incoming cubmaster who will replace Richard Knott. Knott has been assigned to overseas service.

Announcement was made that the pack had received top banner at the recent District Round-up, for the best skit.

Awards were made as follows: Bobcat, Roger Battle, Timmy Cain and Kenneth Knott; Wolf, Richard Tovas, Raymond Meek, Roger Battle, Kenneth Knott, Timmy Cain, Leslie Carpenter, Ronnie Long and Danie Berkshire. Bear, Tony Vaughan, David Jacobs, Allan Hoffman, Mike Kilpatrick, Mike Steffins and Randy Clabaugh.

Service awards included one-year pen—Allan Hoffman; arrow points, Richard Tovas, Joseph Mathis, Raymond Meek, Roger Battle, Kenneth Froman, Timmy Spivey, Leslie Carpenter, David Jacobs, Tony Vaughan and Timmy Watts.

An advancement ladder was presented the pack by Clabaugh. Next meeting will be Jan. 27.

A Roundup Of Weekend's Leading News

By The Associated Press

The Christmas truce in Viet Nam lay crumpled.

A watching world, hopeful the cease-fire would extend into lasting peace, learned that military actions had continued.

A U. S. military spokesman in Saigon conceded the 30-hour cease-fire was never really in effect. A spokesman said Sunday there had been 84 significant Viet Cong actions during the Communist and American cease-fire periods. U. S. and allied forces officially resumed the war.

Even as the guns boomed in the bullet-shattered truce, Pope Paul VI sent a personal appeal to North Vietnamese President Ho Chi Minh and South Vietnamese chief of state, Nguyen Van Thieu.

POPE DISAPPOINTED

In his message, without precedent in Vatican annals, the Pope expressed profound gratitude for the truce and said he prayed to God "so that responsible chiefs of state be helped to make this peaceful Christmas a step toward the establishment of a just and fraternal peace for all Viet Nam." The Pope was reported concerned and disappointed over the truce failure but determined to press ahead with his personal peace efforts.

Vatican sources said the Pope also sent a Christmas message to President Johnson on Viet Nam. The text was not released immediately at the Vatican.

Across the world from Saigon, in Bethlehem, Jordan, an estimated 20,000 visitors descended on the Holy Land for the birthday of the Prince of Peace.

FAMILY GATHERING

Christmas Eve brought the announcement of the engagement of President Johnson's younger daughter, 18-year-old Luci Baines, to Patrick John Nugent, 22.

The announcement came after a Johnson family get-together at the LBJ Ranch. Nugent produced a three-diamond ring which he first showed to the President and got approval to slip it on Luci's finger.

Nugent, a June graduate of Marquette University, and Luci first met on a blind date in Milwaukee last June. He is a member of the Wisconsin Air National Guard and has been stationed at Lackland Air Force Base near San Antonio, Tex., for the past month.

Christmas Day, they flew to Chicago in a private plane for a visit with Nugent's parents, Mr. and Mrs. Jerry Nugent in Waukegan, Ill.

'Peace Vigil' Bar Protested

HOUSTON (AP)—Dr. Morton Rieber, the Texas Psychiatric Institute research specialist who was ordered not to attend Sunday's "peace vigil" outside the LBJ Ranch, has said he would appeal that order today.

Dr. V. John Kinross-Wright, acting director of the institute, told Rieber last Wednesday he would be fired if he went. Rieber said Saturday no appeal was possible until today, after the vigil.

Rieber said he would reluctantly obey the order but he criticized it as "a gross violation of the freedom of speech."

Rieber, 31, has been active in the Houston Citizens for Action on Viet Nam, the group that sponsored Sunday's vigil near the President's ranch.

A native of New York City, Rieber has lived in Houston six years. He took his bachelor's degree at UCLA and his master's and doctorate in psychology at the University of Iowa. He also is an assistant professor at the Baylor University College of Medicine.

Unclean Talk On Walkie-Talkies Hit

MIAMI, Fla. (AP)—Transistorized walkie-talkies — the Christmas gift for the kid who has everything — are creating a traffic jam on the airwaves.

The Federal Communications Commission doesn't like some of the juvenile patter its monitors are picking up. The FBI is also listening with interest.

Some children with walkie-talkies and a high-powered vocabulary are butting into the citizens radio band network with purple anecdotes and suggestions. The chatter is burning the ears of licensed radio operators tuned in on the same frequency.

Most of the walkie-talkie conversations are perfectly legitimate messages between pals with a new toy. As long as the talk is clean and no conscious attempt is made to interfere with regular traffic, the FCC has no objections.

"Walkie-talkie chatter is expected every Christmas," said

Homer Thompson, chief engineer at the FCC's central monitoring station in Broward County.

He explained that the battery-powered sets are preregulated by the manufacturers to operate on one-tenth watt power over class D citizens band channels. Their range over land is one to three miles.

"Actually, the kids who are abusing the use of the airwaves don't come under our jurisdiction since they are not licensed operators," Thompson said.

"But we do cooperate with the FBI when federal statutes involving profane and indecent language is involved."

Of more serious concern are the false emergency messages being heard on some sets. One boy on Christmas Day had several radio operators worried when he broadcast an SOS — pleading that he was in a sinking boat. His alarm turned out to be false.

A Devotional For The Day

Thou hast been a strength to the poor, a strength to the needy in his distress, a refuge from the storm, a shadow from the heat. (Isaiah 25:4)

PRAYER: O God, lead us to an increase in faith so that we need not be afraid ever. Keep us aware that Thou art in complete control of things, and that Thou wilt bring us safely through every trial. In the name of Christ, our Redeemer. Amen.

Principle, Not Personal Politics

The people of Texas in an off-year special election last November voted down the constitutional amendment proposal for four-year terms for governor and other state executives. Gov. Connally has suggested that proposal will be redrafted and resubmitted to the electorate.

Four-year terms for governors have been adopted by a large majority of the states, 35 of the 50. In 15 of those states, the governor cannot succeed himself, which seems to us an excessive restriction. Four of the 35 states allow two consecutive four-year terms, the same as the provision for presidents in the federal government, while 14 have no limitation.

Lacking His Diploma

Rep. Oren Harris, Arkansas Democrat, is a man with a problem. He was nominated as a federal judge in his home state last July. He was confirmed by the Senate Aug. 11. But he still does not know when he will become a federal judge.

"But, as I tell the folks down here (in Arkansas) I'm just like a schoolboy. I can't go to work without my diploma, and the President hasn't signed it yet."

Marquis Childs

Battle Of The Budget

(William S. White, substituting for Marquis Childs) WASHINGTON—For the first time, President Johnson is squarely in the middle of heavy and opposite pressures from the Left and Right. The issue is the new federal budget.

Interest and all that—but I am going to keep my options open until the last minute. THE REASON for this delay is that he does not and cannot possibly know right now just how much is really going to be needed in Viet Nam even, say, two months, let alone 12 months ahead.

Billy Graham

When the Bible says, "God created man in his own image, in the image of God created he him," since God is Spirit and is invisible, how can it be that man was created in the image of God? I don't understand this.

The Left sees an opportunity to commit the President unalterably and now to more and more warfare. The Right seeks to close off now all his choices except the choice to diminish, if not to discard, the butter-and-honey legislation he put through the last Congress.

'SOMETIMES I WONDER ABOUT YOU, GRANDMA'

James Marlow

Division Between LBJ, Labor Possible

WASHINGTON (AP) — Despite all the sweet talk at the AFL-CIO convention, the honeymoon between President Johnson and organized labor appears to be over.

There's no real threat of divorce, but there is a distinct chance of separate maintenance if the Democrats don't make good in January on their chief premarital pledge to the labor unions.

But where else, in the present political scheme of things, can the labor movement go? Federation spokesmen bristle at this question.

Hal Boyle

Desert's 'Island Of Green'

EL FAIYUM, Egypt (AP) — When Napoleon's troops first glimpsed it after months of campaigning in Egypt's merciless western desert, El Faiyum seemed a reincarnation of Eden with the added attraction of cool beer in quantity.

On a map and in reality, the giant oasis of Faiyum, 52 miles south of Cairo, resembles a huge island of green which rises suddenly in the middle of the desert.

To Your Good Health

'Frozen' Shoulder Can Regain Ability To Move

By JOSEPH G. MOJNER, M.D. The trouble actually is not so much in the joint itself as in tissues surrounding the joint. Adhesions (clinging together of tissues) from lack of movement can occur. There may be irritation from certain tendons riding over the joint.

NOTE TO MRS. B.B.: The staphylococcus germ is usually the one which causes boils. Yes, the germ can pass from one person to another, or from one part of the body to another. A boil should be treated for what it is: A local infection. Boils should be kept bandaged to prevent the germs from spreading.

Dr. MoJner welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Around The Rim

The Best Stories Of The Year

One thing and another: Have you heard that when Smokey The Bear dies, he wants to be cremated?

AND HOW about that company that decided to reduce expenses when an employe retires? Instead of giving him a gold watch, it provides him with a telephone number he can call whenever he needs to know the time of day.

It serves the thief right who pilfered clothes valued at \$765 from a car belonging to Rev. Jack Munyon in Pittsburgh, Pa., not long ago.

A TEACHER in London escaped a possible jail sentence recently because a judge decided he was stupid rather than a criminal.

from pupils for a planned trip to the European continent.

THERE'S something good that can be said about everyone, and blessed are those who speak only good of other people.

CONSIDER THESE words of wisdom, spoken by Englishman Bulwer-Lytton over a hundred years ago:

Life is like playing a violin solo in public and learning the instrument at the same time.

Holmes Alexander

Japanese Business Invasion

WASHINGTON — The Japanese are mimics. They borrow culture from other parts of the Orient, and technology from the Occident.

THE JAPANESE may be staying just within the letter of the anti-dumping law while playing fast and loose with its spirit.

THE JAPANESE are fat and happy on the trade which American fighting men have secured and guarded for them, and here they come slithering into our domestic markets to the detriment of our manufacturers, workers and taxpayers.

of invasion, I wouldn't volunteer to do a journalist's bit. But I'm told it will take at least seven months for the Treasury's Customs Bureau to act on it, and meanwhile American small businesses in this small industry are dropping like flies.

THE AMERICAN ceramic producers find that 60 per cent of their firms are losing money, mainly because of the Japanese. Only those companies which have been bought up by large diversified corporations stand much chance of survival.

If there were a threatened military invasion of our states and cities, American reaction would be swift and resolute. A commercial invasion, taking investment and employment, is less dramatic but almost as destructive.

Art Buchwald

White House Cuisine

WASHINGTON—The resignation of White House chef Rene Verdon caught Washington by surprise. The first inkling of it came last week when, in a warm exchange of letters, French chef Verdon wrote:

But the problem of finding a new chef for the White House is not an easy one. The President has ordered his kitchen cabinet to search for a replacement and many interviews have been held to find the right person.

"Yes, I became one three years ago."

"Then you must ask not what your country can cook for you, but what you can cook for your country."

"GOOD. Why don't you start with something easy like pinto beans with salt pork?"

"Can I go home now?"

"Yes. But don't call us. We'll call you."

WHAT OTHERS SAY

We believe that effective anti-communism in the world will be strengthened by the latest decision of the United States Supreme Court. The court ruled unanimously (with one Justice absent) that a member of the Communist Party cannot be required to register with the government as such.

This decision upholding traditional American freedoms will, we are certain, strengthen the image of the United States abroad. It will help to destroy the often false picture of America as a country so obsessed with anti-communism that it is willing to deny fundamental freedoms in its struggle against the actions of the American Communist Party itself.

The court's ruling does not mean that a close and continuous eye should not be kept on Communist activities in the United States. Such should be the case. Nor does it mean that, when Communists threaten the liberties of the American people, they should not be firmly halted. They should. But it does mean that, in the end, the fight against communism can be most successful when it is conducted constitutionally. In the end, the real target of communism is America's faith in the soundness of its traditions and institutions.

Holiday Open House Reveals Engagement

MRS. HERSELL LEE HANKS

(Bradshaw Studios)

Miss Judy Kay Brown Weds Hershell Lee Hanks Thursday

Miss Judy Kay Brown exchanged wedding vows with Hershell Lee Hanks Thursday evening at the First Methodist Church in Ackery. The Rev. W. H. Watson Jr. of Sunray performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Lester Brown, Ackery, and the bridegroom is the son of Mr. and Mrs. Buster Hanks, Hobbs, N.M.

For the candlelight service the altar was centered with a fifteen-branch candelabrum and flanked with seven-branched candelabra. Each candelabrum was entwined with holly, spruce and red votive candles. Arrangements of chrysanthemums and wedding palms completed the altar scene.

Mrs. Arlen White, organist, played traditional wedding selections. She also accompanied Mrs. Jimmy Drake as she sang "Ave Maria."

The bride, given in marriage by her father, wore a gown of white peau de soie in an Empire design. The formal gown had a Sabrina neckline, long fitted sleeves and an A-line skirt. Lace and seed pearls accented the front panel and the cathedral train. Her shoulder-length veil of illusion fell from a small seed pearl crown, and she wore a pearl necklace, a gift from the bridegroom.

AT WESTBROOK

Californians Arrive For Visit In Hines Home

WESTBROOK (SC) — Mrs. E. N. Yaden, Atewater, Calif., arrived Thursday to spend the holidays with her parents, Mr. and Mrs. H. P. Hines. The Hines are parents of two sons, Randy and Scotty.

Capt. L. F. Tiemann, who is attending the University of Oklahoma at Norman, Okla., has recently been promoted to major.

Mr. and Mrs. Glenn Browning and his mother of El Paso were guests of the C. W. Olivers Wednesday.

Jeff Smith, who is attending Texas A&M visited his sister and family, Mr. and Mrs. Sam Sroggins, during the weekend. Mrs. Alfred Harris, Wichita Falls.

Will Marry

Mr. and Mrs. A. L. Nuttall, 3318 S. 7th, Abilene, are announcing the engagement and approaching marriage of their daughter, Annie, to Marshall Wright, son of Mr. and Mrs. M. O. Wright, 1417 Ballinger, Abilene. The couple plans to be married Feb. 6 in the Corinth Baptist Church in Abilene with Dr. Elbert G. Peak officiating. The prospective bride was a local resident for 15 years.

Mr. and Mrs. Ted O. Groebel Sr. announced the engagement and approaching marriage of their daughter, Mozelle Natalie, to Jack Edwin Irons during a Christmas open house Sunday in their home at 615 Dallas. The prospective bridegroom is the son of Mr. and Mrs. Jack Irons, Congress Lane.

Receiving the guests were Miss Groebel, her fiancé, Mr. and Mrs. Groebel and Mr. and Mrs. Irons. The honoree and both mothers wore red carnation corsages, and the men wore red carnation boutonnières.

The house party members wore small red velvet poinsettias accented with red ribbon on which the couple's wedding date of June 3, 1966, was inscribed in gold.

Those in the house party, including women who will serve as the bride-elect's attendants, were Mr. and Mrs. Ted O. Groebel Jr., Mr. and Mrs. Tommy Rutledge, Capt. and Mrs. Robert Hewett, Mr. and Mrs. Jerry Wagner, Mr. and Mrs. Dexter Pate and Miss Deane Mansfield.

Family members assisting in welcoming guests were Mrs. E. B. G. Cowper, Dr. and Mrs. A. Fletcher, San Antonio, the Arch Carson, Dr. and Mrs. J. M. Woodall, Mr. and Mrs. K. Rea, her aunt; and Mr. and Mrs. H. McGibbon and Miss Karen

Others were Dr. and Mrs. R. G. Cowper, Dr. and Mrs. Arch Carson, Dr. and Mrs. J. M. Woodall, Mr. and Mrs. K. Rea, her aunt; and Mr. and Mrs. H. McGibbon and Miss Karen

Dear Abby

Brass Bands Not Wanted

DEAR ABBY: Though I've been an avid reader of your column for years, I never thought I'd be writing to you, but I couldn't resist answering your call for opinions of those in Viet Nam about what kind of homecoming they'd prefer. Right now I am in a San Francisco hospital recovering from injuries I suffered in Viet Nam. I don't feel like any kind of hero and I don't want to be treated as one when I go home. Like most of the guys in Viet Nam I had a job to do and I did my best. I was unlucky enough to be a Viet Cong target, but that doesn't make me a hero. The real heroes of this conflict are the medics, the evacuation pilots and the Red Cross. Any one who wants to wave a banner, should wave it for THEM.
MIKE BURNS, NO HERO DEL MAR, CALIF.

DEAR ABBY: You asked for opinions on the advisability of "Mom" decorating the house and most of the neighborhood in honor of her "boy" returning from combat duty. As a combat veteran of World War II, may I say that there is no more nauseating reference to military personnel than the word "boy." As much as Moms resent it, there are no "boys" in the fighting service. They are all MEN, and should be referred to as such.

These men do not, nor are they fighting for "Mom's apple pie." They are fighting a dirty rotten war in a number of dirty rotten places for the same reason we fought and will fight again if called upon — To survive under a system of government in which we believe as against a system of government in which we do not believe. It's that simple!
So tell Mom not to embarrass her son with decorations and tinsel more appropriate to a little boy's birthday party. Their "boys" are gone, and those who are fortunate enough to return are MEN.

G.P.S. (MAJOR, INF. AUS RETIRED)
SAN FRANCISCO

DEAR ABBY: Apropos your recent letters about soldiers coming home from Viet Nam: I was reminded of my own homecoming from the A.E.F. in France in 1919. My buddy and I were discharged at Camp Grant, Rockford, Ill., and we arrived at the Chicago railroad station at about 3 p.m. We decided to get a couple of bottles of beer and some hamburgers to see if they still tasted the same. Then we went back to the R.R. station where I was to catch a train home. My buddy lived only 20 blocks from the Chicago depot. After a while, although I hated to say goodbye, I asked him what he was waiting for, and he said, "I know my folks are going to make a fuss over me when I get home, so I am waiting for it to get dark." And I'm sure he did. I never saw him again. God bless him. Yours truly,

W. J. SHEA,
BELLEVILLE, ILL.

DEAR ABBY: Just a line about "Homecoming Veterans." As a World War II veteran, I know that any welcome that comes from the heart is never out of place. On my "Big Day" I found a "WELCOME HOME, DADDY" sign on the stairs leading to our apartment. It was placed there by my wife, six-year-old son and three-year-old daughter. That was New Year's Day, 1946.

Nearly 20 years later we are looking forward to our son's arrival home after a six-year absence. He, too, has been fighting a jungle war as a Lt. in the Congolese Army. As a volunteer against Communism he said in one letter that he was proud to be using his U.S. Army (101st Air Borne) training for such a worthwhile endeavor.

Now he's coming home, but there will be no bands, no signs and no demonstrations. You see, Abby, he was killed in action on April 8th, 1965. We are waiting quietly until we can say, "Well done, son, welcome home." Thank you for listening.
RICHARD J. GULFOYLE SR.
PHOENIX, ARIZ.

Troubled? Write to ABBY, Box 6970, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

Agency's Shift To Department Of Justice Set

WASHINGTON (AP) — The young man chosen by President Johnson to direct the Community Relations Service fully endorses its impending shift to the Justice Department.

Roger W. Wilkins, 33, discounts reports the change lowered morale in the government's racial conciliation agency. It has been in the Commerce Department since its creation by the 1964 Civil Rights Act.

He vows to bring his own "great sense of personal anguish" to bear on the plight of minority group citizens in the slums of America's big cities.

It was widely reported that acting director Calvin Kyle's resignation two weeks ago was prompted by his opposition to the impending moves to Justice — which will occur automatically unless Congress objects within 60 days of submission of the reorganization plan in January.

THREE RESIGN

"I've never opposed this move," the lean, intense Wilkins said in an interview. "It made a lot of sense to me in a lot of ways before the President announced it. And these reports of low morale are highly exaggerated. Sure, there was some uncertainty about the future in some people's minds. But we've only had two resignations (aside from Kyle's), and they've both been because better jobs were offered."

Wilkins, who has been community planning director in the service since October 1964, said he has been working closely with Atty. Gen. Nicholas Katzenbach and other top Justice officials since his nomination 10 days ago.

"I can say unequivocally that their attitude toward the service, their intentions, their support, has been total," the young lawyer said. "It's really been wonderful."

Wilkins is the nephew of Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People. The younger Wilkins feels President Johnson's choice of a Negro to head the 67-man agency, which Katzenbach hopes to boost near 100, "shows a lot about the President's instincts and ideals on civil rights. He showed he means business. Quite a few people thought the time wasn't ripe for having a Negro in this job."

SPEED INTEGRATION

Wilkins feels his service's task is to speed up the process of racial integration toward the ultimate goal of full and equal opportunity.

"We can bring a little different angle of vision, some technical expertise, experience from other towns. We can bring the word that it's going to happen, that that's the way the country is heading, and that it works. We've been successful in a number of places, but we've had our failures, too," he said.

Wilkins emphasized, "We don't 'fix towns.' We're dealing with a deep-seated social problem. So far, our work has been pioneering. We attracted some good professional people and went to work with no precedent to guide us, just trying with all the energy, spirit and intelligence we had. We're gaining experience, and we've done a good many things I'm proud of."

He sought to discount speculation by some that the appointment of a Northern Negro as director means a new shift in emphasis from South to North.

"We've already been active in the North," he said, "and in 30 states, for that matter. I think our chief task is to focus on all the problems of our big cities — and the most heartrending one is the plight of minority groups in those cities. I mean Negroes, Mexican-Americans, Puerto Ricans, Indians."

Nazi Picketing Brings Arrests

DALLAS (AP) — Picketing by professed members of the American Nazi Party outside a downtown hotel where an Israel Freedom's Award dinner was held provoked shoving and pushing Sunday night. Police arrested three men.

Alvis Gray and John Carpenter of Dallas, who police said were Nazi Party members, and Davis Schacht, 61, of Los Angeles, were charged with disturbing the peace.

Opera singer Jan Peerce was a guest at the dinner. The uniformed demonstrators carried signs reading "A Jew Is a Jew Is a Jew," and showing a large hooked nose with a dollar mark in front of it.

SPORTS NEWS OF 1965 IN PICTURE REVIEW

MIGHTY MAN — Randy Matson of Texas A&M puts the shot in college competition. He set a world mark of 70 feet, 7 inches at track meet in College Station, Texas.

WINNER ON ITS WAY — Lucky Debonair, with Jockey Willie Shoemaker at the reins, wings its way down the stretch to win the Kentucky Derby in May. This unusual fish-eye lens view was made during the 91st running of the classic race at Churchill Downs.

KING OF THE HEAVIES — Cassius Clay glowers over a recumbent Sony Liston after knocking out his opponent during the first round of their heavyweight title bout at Lewiston, Me., in May. Clay later disposed of Floyd Patterson via the same kayo route.

HUNG UP — Twins' Earl Battey ended up against dugout screen while trying to catch foul in World Series against Dodgers. Los Angeles went on to win baseball title.

SPARTANS ON THE MOVE — Michigan State's Clint Jones hurdles Ohio State tacklers in game at East Lansing in October. Michigan State won and went on to complete an undefeated season to gain rating at the nation's outstanding college football team.

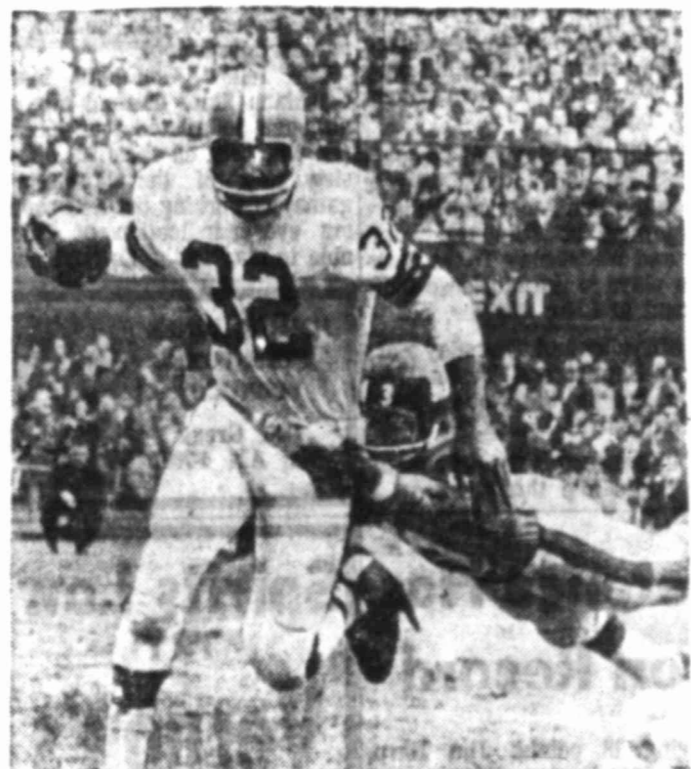

MOUND ACE — Sandy Koufax of the Los Angeles Dodgers won the Cy Young Award for 1965. He won 26 games with an ERA of 2.04 and hurled his fourth no-hitter.

BEST DRIVER — Scotsman Jimmy Clark, first for signer to win the race in 49 years, gives the victory sign after the Indianapolis "500." He set a course record.

SWIM STAR — Patty Caretto of Commerce, Calif., is a swim champion at 14. She set many records in 1965 and is considered the world's best woman distance swimmer.

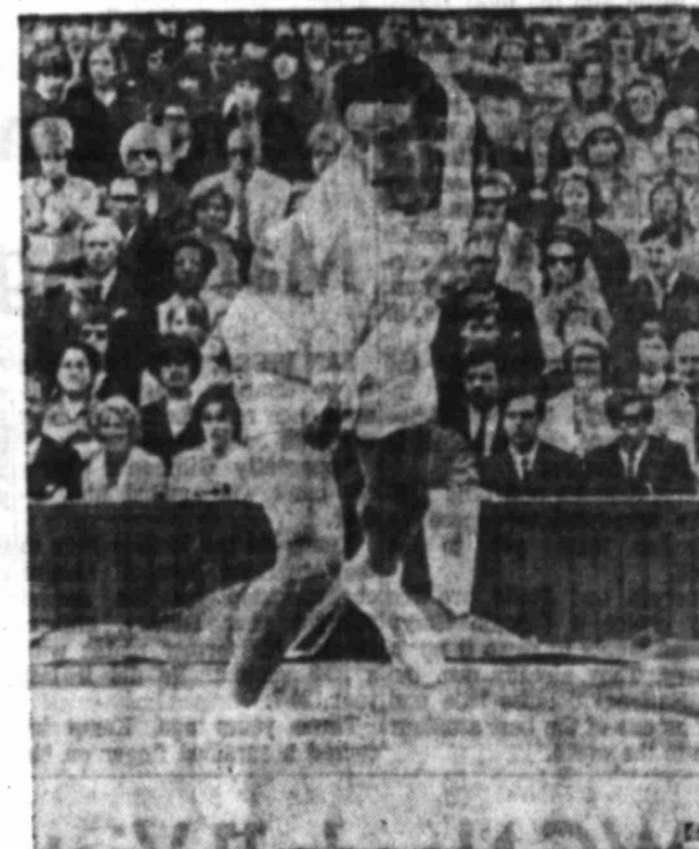

THUNDERER — Jimmy Brown of the Cleveland Browns shakes off a Giant tackler on his way to a touchdown. He led Browns to a second straight division title.

BASEBALL BOSS — William D. Eckert, 56-year-old retired Air Force general, was chosen the commissioner of baseball. He succeeds Ford Frick in the game's top post.

HOOP SPOILS — Gail Goodrich cuts through a basket after leading UCLA to March victory over Michigan for their second straight NCAA basketball championship.

COURT KING — Australia's Roy Emerson makes return in Wimbledon play. He won title for second straight year besides other major tourneys for top tennis ranking.

FRACAS ON DIAMOND — Giant hurler Juan Marichal (27) attacks Dodger catcher John Roseboro with a bat during August game at Candlestick Park. Rushing to the plate is Sandy Koufax. Marichal was fined \$1,750 and suspended from play for eight days.

TOP GRIDDER — Halfback Mike Garrett of USC holds the Heisman Memorial trophy awarded to him as the outstanding college football player in the country in 1965.

THE BIG FOUR — Quartet of golfdom's major titles match clubs prior to play at Akron, Ohio, in September. From left: Gary Player, U.S. Open Champ; Dave Marr, winner of PGA Crown; Peter Thomson, British Open King, and Jack Nicklaus, Masters title.

Unbeaten Vandy, Syracuse Pitted In Tourney Clash

By The Associated Press

Vanderbilt and Syracuse, two unbeaten teams with national championship aspirations, clash in one of the top games this week in college basketball.

By the luck of the draw the Commodores from the Southeastern Conference and the Orangemen, a leading Eastern Independent, are pitted against each other Tuesday night in the completion of the first round of the Los Angeles Classic, one of the numerous holiday tournaments scheduled throughout the nation this week in every section.

The Vandy-Orange meeting also brings together two of the season's outstanding players, Clyde Lee of Vanderbilt and Dave Bing of Syracuse.

Lee has led Vandy to eight straight victories over Wittenberg, Tennessee, North Carolina, Wake Forest, Army, Western Kentucky, UCLA, Santa Barbara, and Northwestern.

Bing has sparked the Orange to seven in a row with conquests of Buffalo State, Buffalo U., Cornell, Kent State, Bowling Green, Penn State and Connecticut.

Vandy's victory over Western Kentucky knocked the Hilltoppers out of the unbeaten Syracuse's triumph over Penn State similarly toppled the Nittany Lions from the perfect group.

The Los Angeles Classic actually gets under way tonight with St. John's of New York meeting Purdue and UCLA, the national champions who have fallen out of The Associated Press Top Ten with a 4-3 record, pitted against Louisiana State.

Northwestern plays Southern California in the final first round game Tuesday following the Vanderbilt-Syracuse clash.

Nine other major holiday tournaments start today. By the end of the week 23 major college affairs and numerous non-tournament games.

Included in the latter category are the two games involving the Duke Blue Devils, the No. 1 team in The Associated Press poll. The Blue Devils, 7-1 to date, meet Notre Dame at Greensboro, N.C., Friday night and Wake Forest at Greensboro Saturday night.

NYU plays Providence and Colorado State U. tangles with Boston College tonight in the Holiday Festival at New York after an afternoon twin bill pairing Illinois against Georgetown, D.C., and Army against Villanova.

Affectionate Fans

End Bill Anderson (88) of the Green Bay Packers gets encouragement from fans as he runs to the edge of the stands from momentum of catching a pass in the second quarter against the Baltimore Colts Sunday. He fumbled one on the first play from scrimmage to give the Colts a score, but later caught one on the Colt one to put Green Bay back in the game. The Packers won 13-10 in a sudden death play off (AP WIREPHOTO)

Wilt Chamberlain Gives 76ers Needed Help

By The Associated Press

The Philadelphia 76ers are getting much needed help from their newest playmaker — Wilt Chamberlain.

Chamberlain, who has been displaying his versatility by moving into the No. 10 spot among the National Basketball Association's assists leaders this season, continued in his new role Sunday night as he led the 76ers to a 121-107 victory over San Francisco.

Chamberlain scored 3 points, blocked 17 rebounds, and received credit for eight assists.

The victory kept the third-place 76ers one-half game behind Cincinnati in the Eastern Division race.

The Royals downed St. Louis 117-115 on Oscar Robertson's last-second shot. First-place Boston rode Sam Jones' hot-shooting to a 120-99 victory over Baltimore in the only other game scheduled.

Chamberlain, a virtual one-man gang, got just enough assistance from Chet Walker and Bill Cunningham. Walker scored 13 points in the first quarter and Cunningham, who wound up with 19, led the 76ers in the third period when San Francisco threatened.

Guy Rodgers was high man for the Warriors with 31 points. Robertson missed a shot with five seconds left against the Hawks, then got the ball back after Jerry Lucas' tip-in failed and sank the winning basket. Robertson finished with 37 points, and Lucas scored 24. Bill Bridges topped St. Louis with 21.

Jones scored 12 points in the last five minutes of the second period as the Celtics built a 65-56 halftime lead, then came off the bench and hit two free throws and a basket in the fourth period after the Bullets had closed to within 90-88.

Southland Leaders May Face Toughest Tests

By The Associated Press

All Southland Conference teams play this week, mostly in tournaments.

Arkansas State and Abilene Christian, the leaders, may have the toughest time.

Arkansas State (6-1), ranked ninth nationally, runs into Rice in the Arkansas State Tournament Wednesday at Jonesboro. Rice is winless but has averaged more than 80 points per game and seems about ready to take one.

Abilene Christian (7-3) plays New Mexico State at Las Cruces Jan. 1.

Lamar Tech is in the Pan American Tournament at Edinburg Monday and Tuesday. Arkansas State plays in the Cotton Bowl Tournament at Dallas Wednesday and Thursday.

Big Spring (Texas) Herald, Mon., Dec. 27, 1965 9-B

Good news for telephone users: Telephone excise tax reduction goes into effect January 1 for Texas customers

Effective January 1, 1966, the Federal Excise Tax on telephone service will be reduced from 10 to 3 per cent. Following the initial drop, the tax will be lowered 1 per cent each year until it is eliminated in 1969.

Telephone users will receive the full cash benefit from this tax reduction. The tax, which is levied directly on those who use telephone service, has been included on monthly telephone bills, and each month your tax payment has been sent on to the federal government. In effect, the telephone company has been a collection agency.

When the excise tax is eliminated in 1969, telephone users in Texas will save more than \$50 million annually. This will mean more than \$4 million a month added to Texans' spendable income.

War Enters New Escalation Phase

WASHINGTON (AP) — The war in Viet Nam is entering a new phase of escalation which threatens to grow far more costly and dangerous before the next year of conflict is many months old.

Active fighting is likely to spread from the battle grounds of Viet Nam into strategic jungle areas of Cambodia and Laos. The expanding struggle will require more American troops and the level may rise toward half a million men.

North Viet Nam probably will lose its bomb-free sanctuary around Hanoi and Haiphong. Red China may send troops and planes to help the North, leading to a U.S.-Chinese Communist confrontation. The pressure on the Soviet Union to line up with China and North Viet Nam against the United States would then be very great.

GRIM VIEW

This grim view of the possibilities of the conflict has arisen here following the failure of the bomb-and-battle strategy which Johnson administration leaders began putting into effect 11 months ago.

The prospects can be over-turned at any moment by an agreement between the United States and Viet Nam—which might be engineered by Britain or Russia or the United Nations or some other third party—to stop the fighting and transfer the conflict to the conference table. No such agreement is in sight however.

The judgement of U.S. officials is that the war probably will have to get much worse before it gets better. No one can figure out a compromise between the Communist demand for terms giving them a decisive voice in South Viet Nam's future and the U.S. demand that the Communists abandon their conquest of the South.

GOREN ON BRIDGE

BY CHARLES H. GOREN
(a 1965 By The Chess Tribune)

ANSWERS TO BRIDGE QUIZ

Q. 1—Both vulnerable, as South you hold:

106 ♠ Q9654 ○ 6 ♣ AJ952
The bidding has proceeded:
North East South West
1 ♠ 2 ○ Pass Pass
2 ♥ 3 ○ ?

What do you bid now?
A—Four hearts. A single raise would not do justice to the hand and, even if partner has a mild rebid, you should have a good play for 10 tricks.

Q. 2—Neither vulnerable. Partner opens with one spade, and you hold:

♠ QJ753 ○ 62 ♣ K95 ♠ A103
What is your response?
A—There is no satisfactory bid with this hand. It is too good for two spades and not good enough for a jump to three, which guarantees game. Nor is it the proper type for a jump to four. The best is to make a temporizing bid of two clubs, intending to give a spade raise on the next round.

Q. 3—As South, vulnerable, you hold:

♠ J83 ○ A2 ♣ K753 ♠ Q963
The bidding has proceeded:
West North East South
Pass 1 ♠ 4 ♥ ?
What do you bid?
A—With a likelihood that you can win two tricks defensively, the indicated procedure is a penalty double. There would be no justification for a bid of four spades, which would be a shot in the dark.

Q. 4—As South vulnerable you hold:

♠ K86 ♣ Q1054 ○ K832 ♠ A42
The bidding has proceeded:
North East South West
1 ♠ Pass 1 ♥ Pass
1 ♠ Pass ?
What do you bid now?
A—One no trump. While partner's rebid is by no means forcing, another bid is recommended just in case he has a pretty good hand. The one no trump rebid in this case does not show substantial values and can be made with as little as eight or nine high card points.

Q. 5—Neither vulnerable, as South you hold:

♠ AQ10 ♣ AKJ1062 ○ 52 ♠ QJ
The bidding has proceeded:

South West North East
1 ♥ Pass 3 ○ Pass
3 ♥ Pass 6 NT Pass
?

What do you bid now?
A—A grand slam bid is clearly indicated. Partner has contracted for a small slam on the basis of a mere opening bid from you with only the added information that you have a reidifiable heart suit. As far as high cards are concerned, he could not count on you for more than 13 points. He therefore must have 20. Inasmuch as you have 17, you know that you have the necessary 37, together with a good six-card suit.

Q. 6—Neither vulnerable, as South you hold:

♠ 872 ♣ J86 ○ A10654 ♠ 85
The bidding has proceeded:
North East South West
1 ♠ Pass 1 ○ Pass
2 NT Pass ?
What do you bid now?
A—Pass. You fully exhausted your values when you responded with one diamond. If this were all partner needed to produce a game, he would have been in position to jump to three no trump instead of only two.

Q. 7—East-West vulnerable, as South you hold:

♠ QJ5 ♣ AJ762 ○ 962 ♠ 53
The bidding has proceeded:
North East South West
1 ○ Pass 1 ♥ Pass
2 ♣ Pass ?
What do you bid now?
A—A return to two diamonds is clearly indicated. There is no justification for a bid of two no trump merely to describe a spade stopper. Such a rebid should be based on a stronger holding.

Q. 8—As South vulnerable, you hold:

♠ K9 ○ AQ7 ○ AJ84 ♠ A976
The bidding has proceeded:
East South West North
1 ♥ 1 NT Pass 3 ♣ Pass ?
What do you bid now?
A—That East has dragged a red herring across the scene has just become apparent. In view of the fact that North has sufficient high card strength to justify a jump shift, it is barely possible that East may have stretched the truth. In an effort to shed more light on the situation and to expose the gay deceiver, a cue bid of three hearts is recommended with the intention of supporting clubs vigorously on the next round.

STRATEGY FAILED

The bombing strategy adopted by President Johnson last February was aimed at defeating an expected Red offensive against South Viet Nam during the moonsoon season and forcing North Viet Nam to the conference table by the end of 1965.

But bombing North Viet Nam failed to break its will to fight and to disrupt its assistance to the Communist guerrilla armies in the South. Moving close to 20,000 U.S. troops into the country and smashing at guerrilla forces with land and air offensives failed also to break their will although it did blunt their offensive.

The response of the Communist side, in fact, has been to increase their efforts. Secretary of Defense Robert S. McNamara reported three weeks ago after a trip to Saigon that infiltration of Red troops from North to South Viet Nam was going up from 1,500 a month to 4,500.

McNamara predicted a step-up of U.S. and South Vietnamese military operations against infiltration routes. That could mean enlarged bombing attacks against the Ho Chi Minh Trail in Laos and against routes reported to run through the Cambodian jungles. The decision was put up to President Johnson.

In a speech Dec. 9, Johnson said "We are determined to do all that is necessary" to defeat Communist conquest of the South. But he put his emphasis for the moment on new peace efforts, saying:

"We are equally determined that every prospect for peace be exhausted before other hard steps are taken."

Those new steps were understood to include possible air strikes on Hanoi and Haiphong.

That same day news dispatches told of an interview given by President Ho Chi Minh of North Viet Nam to a Western visitor. He denounced American terms for peace—that the Communists must leave the South alone—as "absolutely unacceptable to both the Vietnamese people and world public opinion."

AID PROMISE

Communist China was reported promising increased aid to North Viet Nam and warning its own people about a danger of American air attacks against Chinese cities. In Moscow Premier Alexei N. Kosygin charged the United States with aggressive behavior and creating a "war psychosis" all over the world.

U.S. policy makers felt that China would probably talk tough but act prudently, as in the past, and that Russia wanted no part of the Vietnamese war, aside from giving limited arms aid to North Viet Nam. But no one was sure what the leader of the big Communist countries, quarreling between themselves, might decide to do if the conflict in Viet Nam showed signs of developing into a broader Asian war.

This was the stage set for the next round of escalation in Viet Nam, a process repeated with many variations over a decade of U.S. involvement in the tangled affairs of Southeast Asia. It all began on a small scale and has grown mostly by small steps.

Hood Allowed To Print Story

WASHINGTON (AP) — The Justice Department has decided to let convicted murderer Joseph Valachi — the Cosa Nostra hoodlum who broke a blood oath of secrecy — publish his memoirs.

In doing so, it has broken a long-standing policy against letting federal prisoners publish stories of their lives of crime.

The 1,150-page manuscript is called "The Real Thing." Its 61-year-old author scrawled it on legal pads during long months in the District of Columbia jail. He has lived there since 1963, when he became widely known by spilling to federal authorities and a Senate committee the secrets of the multimillion-dollar national syndicate called, in Sicilian, "La Cosa Nostra," or "Our Thing."

Here: Solid Week Of Auld Lang Syne

By CYNTHIA LOWRY
AP TV - Radio Writer

NEW YORK (AP)—Post-holiday television viewing is something like watching the end of a magic trick.

For four or five weeks, we've been inundated with short commercials showing the head of the family carving turkeys with electric knives, with gorgeous high-fashion models spraying themselves with perfume or collapsing in the embrace of a fellow who uses the right after-shave lotion.

Then, as if that crazy armored knight and his horse had galloped through all channels sparring every seasonal commercial, they were all gone. It was almost a joy to see our old friends in television back with their worries over their laundry, whining over dirty kitch'n floors and fretting about their children's colds or cavities.

IN RETIREMENT

The passing of Christmas brings one boon for the surfeited viewer. For the next 11 months "The Partridge and the Pear Tree" and "The Little Drummer Boy" will be in retirement. Both of these Yuletide songs, delightful before they were cruelly over-used, took quite a beating this season. At one point it seemed to me I had seen production numbers of one or both on every network show except "Peyton Place" and "The Man From U.N.C.L.E."

And now, folks, here we go into one solid week of "Auld Lang Syne."

As usual at this time of year, the networks pull in their top correspondents from the world news centers, sit them down in

Gunmen Tie Up, Rob Firm Head

DALLAS (AP)—Masked gunmen tied up and robbed the president of a cosmetic's firm in her Park Cities home last night. They took \$9,000 in furs, jewelry and cash.

Mrs. Mary Kay Weaver, president of Mary Kay, Inc., worked her hands free and called police after an hour.

timistic about the state of the world than NBC's boys. CBS' "Perry Mason" Sunday night came from so far back in the vault that it was noticeable how dated were Della Street's hairdo and the clothes of the leading actors. But very old reruns, like very old movies, have the advantage that if you did see them before, you've forgotten the plot completely.
