

Star Lites
By
Bill Ellis

IT HAS BEEN OVER four years since Congress passed a law making it mandatory that no one drive over 55 miles per hour. The main goal was to save on the country's depleting energy supply, with a side benefit being the saving of lives because of the lower miles-per-hour ratio.

But studies have proven that the argument that driving 55 miles per hour doesn't hold much water, let alone gas. And if the slower speed has in fact resulted in a saving of lives, the cost is sky-high, and might be better directed along other life-saving channels.

Studies have shown that the reduction in the speed limit "may" have resulted in a saving of between one and two per cent on fuel per year. Even this small of a saving is debated by those who know much more about miles-per-gallon than we do.

In fact, these automobile experts tell us that the energy savings by the 55 mph limit is so trivial that we could get almost this much of a saving simply by keeping our tires properly inflated.

Also, gauging the cost of the number of lives saved against the amount of extra time spent driving shows that Americans, who may waste up to \$6 billion in extra travel time per year due to the 55 mph limit, pay to the extent of \$1.3 million per life saved on the highways.

Some people argue that the money could be better spent in buying smoke detectors for every home in the U.S. In fact, it has been said that placing such a detector in all the homes would save at least as many lives as the 55 mph speed limit, and the cost would be only \$50,000 to \$80,000 per life saved, considerably less than the \$1.3 million figure.

Stated another way, more kidney dialysis machines could save more lives for only about \$30,000 per life, or more mobile cardiac-care units would cost only about \$2,000 per life saved.

There are even a number of improvements that could be made, reducing road hazards, which would cost an estimated \$20,000 to \$100,000 per life saved.

At a cost of \$1.3 million per life saved, the 55-miles-per-hour speed limit is not much of a bargain.

A better way of saving gas, the experts say, would be to make it mandatory for everyone to drive the smaller, more efficient automobiles.

Either mandatory, or perhaps provide more incentives. Those in favor of bringing back the higher speed limits say why not pass a law saying that owners and drivers of the smaller cars which are more economical be allowed to drive at, say, 65 miles per hour, where conditions warrant.

This would be better than passing a law which would require everyone to drive the fuel-efficient cars, and might result in much more savings in gasoline than the much-maligned 55 mph speed limit.

THANKS TO THE Uniform Time Act of 1966 we will get an extra hour's rest this Saturday night, which is the date we set our clocks back an hour and return to Standard Time for another six months.

If you're like we are, you are always ready to regain this "extra hour." As a matter of fact, we have been ready for at least the past month, and we're not sure that this one hour we gain on Saturday night is going to do the trick.

But at least it will help.

AFTER THURSDAY NIGHT, the Dallas Cowboy organization should seriously consider foregoing any special dates, such as the "Thursday night" game.

Dallas found out Thursday that you can't always play two games within a week and get away with it. Especially when you're only playing mediocre football, you need all the workout time you can get.

In the past, probably due to the team's success, they have been singled out to be the "guinea pigs" for every new idea that comes along, such as the special Thursday night date. After this week, they might decide to say "No, thanks!" to some of those promotions, and get back on a regular and hopefully winning timetable.

TIME TO CHANGE....Sharla Dugins reminds Friona residents that Saturday night, or early Sunday, is the time to turn their clocks back an hour, to resume Central Standard Time. "Fall back!" says Sharla. (Hope she didn't "Fall down!").

Darrell Barlow Wins "Upset Champ" Honors

Darrell Barlow survived the "week of upsets" to claim the weekly first prize in the Friona Star's football contest this past week.

Barlow was one of only six contestants to correctly pick as many as 16 of the 22 contest games correctly, and won the top contest prize on the basis of his tie-breaker score, which was just eight points away on the Friona-Muleshoe game.

In a week when the average score was 11, or exactly half, Barlow managed to pick his way through most of the pitfalls to post a good score, and was awarded the weekly first prize of \$10.00. He predicted Muleshoe 17, Friona 7 on his tie-breaker.

Claiming second place in the contest was Pat Brockman, who was ten points off on the tie-breaker score, guessing it at 21-7, Muleshoe. She was awarded \$6.00 for her efforts.

Third place was won by Roddy Berend, likewise with a score of 16, and 14 points off on the score, in which he favored Muleshoe 31-13.

Other contestants correctly picking 16 games were Cathy Taylor, (20 points off), Steve Taylor (16 points off) and Dana Berend (16 points off). The latter three contestants all favored Friona on the tie-breaker, and only missed by a yard or so in being the three cash winners for the week.

CINDERELLA CAST....Principals in the cast of the annual FHS Thesplan play are Rosa Garza as the Fairy Godmother, Tracy Horton as Cinderella and Mark Blankenship as

the Prince. The Rogers and Hammerstein musical production is scheduled for Monday and Tuesday evenings, November 6 and 7 at the High School at 8 p.m.

Thieves Take 12 FFA Show Animals

Friona FFA students were victims of an unusual robbery last Sunday night, in which 11 project pigs and one steer was stolen from the FFA pens northeast of the city.

In addition to the animals, the robbers also took two self-feeders belonging to the chapter.

CST Back Sunday

Residents are reminded that Saturday night (or early Sunday) is the time to set your clocks an hour earlier, or "fall back," to standard time, for the next six months.

Daylight Savings Time, which has been in effect since the last Sunday in April, will officially end at 2 a.m. on Sunday, October 29, when the time goes back to standard time until next April.

Total value of the animals was estimated at \$925 by FFA vocational agriculture instructor Benny Pryor, although this does not include the extra expense of feed that had been fed. The youngsters had had the animals since about October 1.

Making matters worse was the fact that the steer had not yet been branded, so that it will be hard to trace.

Most of the animals were to have been show projects, and would have been entered in the Parmer County Junior Livestock Show in February, as well as shows at Hereford and Amarillo.

The pigs taken belonged to Mark Tucker, Larry White, Dale Merrill, Chuck and Rocky Nichols. The steer, which alone was valued at \$450, belonged to Ronnie Sherwood.

Pryor said that in the case of the show animals, the youngsters could still probably find replacement animals within the next few weeks, so as not to miss out on their intended shows.

Helping ease the pain of the theft considerably was a special fund drive which was started this week by Friona businessman Wade Wright, to raise money to replace the animals.

"This really lifted our spirits, especially the boys, who were pretty 'down' following the thefts," Pryor said. He pointed out that most of the boys affected were freshmen in vocational agriculture, these were their first project animals, and they had been real excited about getting started in their feeding program," Pryor said.

"But it is heartwarming to realize the type of people we have in our community, who respond to a need, and it was completely unsolicited on our part," Pryor said.

Pryor said the thieves "knew exactly what they were doing, and what they were getting—it definitely was not a prank." The Friona vocational instructor said the thieves had just gone down a line of pens in loading up the animals.

"We have never had anything like this to happen in the 15 years we've had our FFA pens. But thanks to the fine people of Friona responding, it should be only a temporary setback," Pryor said.

Area Gets Frost On Thursday

Fall weather has dominated the Friona area this week, with the highs ranging from 43 on Wednesday to 80 last Saturday.

The area received its first good frost of the season early Thursday when the mercury dropped to an official low of 34 degrees.

Moisture received during the week included .09 inch up to 8 a.m. Monday, with another .16 inch falling during the day Wednesday's reading found an additional .01 inch in the official gauge.

TEMPERATURES		
Date	Hi	Low
Saturday, October 21	86-45	
Sunday, October 22	78-52	
Monday, October 23	74-34	
Tuesday, October 24	43-35	
Wednesday, October 25	51-40	
Thursday, October 26	59-33	
Friday, October 27	61-34	

Rites Pend For Phillips

Funeral services for J.C. Phillips, 63, were pending at the Star's press time Friday. Phillips was the father of Friona head coach Lomie Phillips. He passed away in Phoenix, Arizona.

Funeral services were expected to

be in Dumas, his former home.

Survivors include his wife Maxine, a daughter, Jaylene Griggs of San Antonio; two sons, Lonnie of Friona and Larry, a Baptist missionary in Hong Kong. Eight grandchildren also survive.

CONTEST WINNER....Darrell Barlow was the weekly first prize winner in the Friona Star's football contest. He is being presented his

winning check by Star employee Naomi Stephens. Barlow managed a score of 16 during a week of upsets.

Contract Awarded For Jail Addition

Contract for completion of the east cell block at the county jail was awarded on Monday by the Parmer County Commissioners in their regular meeting.

Two bids were received on the project, with TAGCO Industries of Hereford the successful bidder on a bid of \$36,500.

In a companion resolution, the court re-designated \$36,500 of the county's Revenue Sharing money to be used for the new construction on the jail.

Upon a request from the City of Bovina, commissioners approved

payment of \$250 per month for a period of a year, to purchase equipment for an ambulance service in that community. Bovina is to begin a local ambulance service on November 1.

It was pointed out that the Revenue Sharing payment for the county, received on October 1, 1978, amounted to \$18,250, and that interest on Revenue Sharing CDs had been received amounting to \$2,279.74. This money was distributed to the precincts for use for public transportation.

Drive Is Cancelled

The "Trick or Treat for UNICEF," which was originally scheduled to be held on Halloween Night, has been called off, according to a spokesman for the sponsoring organization.

It was thought that more information on the benefitting group was needed.

Friona Flashbacks

.....from the files of The Friona Star

50 YEARS AGO—OCTOBER 19, 1928

B.F. Ridge of Duncan, Oklahoma was a business visitor in Friona the early part of the week.

A.R. Marsh, formerly of Altus, Oklahoma, arrived here with his family on Thursday evening of last week and located on their new farm home four miles south and eight miles east of Friona.

Miss Ferne Bowman, who formerly taught Home Economics in the Friona Public School is now doing graduate work in Chicago University where she is now working part time as a student assistant.

Born to Mr. and Mrs. Harry C. Weis, at their home eight miles south of Friona October 15, was a daughter, Vivian May.

On Monday morning the students of Friona High School were very much pleased over the announcement made by Prof. Conway. He brought the good news that the Friona High School would put out the first yearbook in 1929.

30 YEARS AGO—OCTOBER 22, 1948

Mr. and Mrs. J.A. Wimberley, Mrs. G.H. Brock and Keith and Sandra Brock, spent the weekend at Big Springs, visiting Mr. and Mrs. Jack Adair.

Mr. and Mrs. Robert Bridges and Mrs. Bridges' mother and father, visited in the W.A. Tinney home Sunday.

Mr. and Mrs. J.C. Wilson of Amarillo, drove over Saturday afternoon and spent the weekend here as guests of Dr. and Mrs. R.C. Stokes. They were accompanied by Dr. Stokes' young niece, Miss Harriet Hatch, who was the guest of her cousin, Walker Stokes.

20 YEARS AGO—OCTOBER 23, 1958

Henry L. Outland, Friona manager of the Southwestern Public Service Company, will be among 50 Panhandle area employees who will be honored Friday night in Amarillo for a total of 1035 years of service at the 10th Panhandle Division annual service dinner to be held by the electric light and power company.

Kathleen Jane Sheehan, 7, daughter of District Attorney and Mrs. Bill Sheehan, was released from Northwest Texas Hospital in

Amarillo Saturday afternoon after being treated for cuts and bruises she received in a two car accident at Northwest Eighth and Grand Avenue.

An attempted break-in was reported to the Friona Police Department last week by Lewis Wheeler, manager of the Hub Motor Freight Lines in Friona.

10 YEARS AGO—OCTOBER 24, 1968

Mike Riethmayer, who is a sophomore at West Texas State University, received his American Farmer Degree last week during the national FFA convention in Kansas City.

Mr. and Mrs. J.C. Wilkison, Laguna Park, Texas, visited friends in Friona this past week. They are former Friona residents and also visited friends in Hereford,

Farwell and Clovis. They went home Sunday.

Dinner guests in the home of Mr. and Mrs. Lester Wiggins of Canyon, and Mr. and Mrs. A.E. Baize of Friona, Mr. and Mrs. Roy Daniels of Bovina were guests in the Hartman home on Monday.

5 YEARS AGO—OCTOBER 21, 1973

Technical Sergeant Jimmie G. Nail, son of Mrs. Geraldine Greer, 905 Virginia, Friona, has graduated from the Air Force Communications Service's Noncommissioned Officer Academy at Richards-Gebaur AFB, Mo.

Around 80 friends and relatives called during the afternoon on Sunday, October 14 at the Friona Women's Clubhouse to help Mary Dixon celebrate her birthday.

KICKOFF DATE SET

Red Cross Benefits From Local UF Drive

(Editor's note: Following is the first in the series of articles dealing with agencies who benefit from the Friona Area United Fund drive, which will kick off on November 13.)

The Parmer County Chapter of the American Red Cross is based in Friona. The entire support from the Friona area of the County comes from the United Way Campaign. Local chapter officers are: Steve Bavousett, chairman; Lois Norwood, treasurer; and Marlene Drake, Service to Military Families.

The Chapter's primary activity is service to military families. Many contacts are made for service men and their families in time of need—usually in times of illness or death of some

member of the family. The local Chapter has also helped many children obtain eye glasses, or other needed medical and dental help when no other source of funds was available. Funds for medical help for adults have also been furnished when no other help was available.

Friona, and Parmer County, have been very fortunate that no disaster, such as tornado, has occurred; but should such happen, the local Chapter would be on the job to help, along with the National organization.

The American Red Cross has many programs that would be available for the Friona area if needed, such as first aid courses, civil defense help and training, water safety, etc. If a need arises, or exists, for any program offered, just call one of the officers, and every attempt will be made to obtain the needed service.

LCIS SAYS -----
WATCH THIS CAR!

The car to watch is the one behind the car in front of yours! And this same car is the one that ought to be completely insured with our Agency. We pride ourselves on low rates and fast claim service!

Ethridge-Spring Agency Inc.

A recent newcomer to Friona is Jim Hand, who is teaching and coaching in the junior high system. Hand is a graduate of West Texas State University this past spring. He is a native of Happy. He is single, and is a member of the First Baptist Church. In addition to coaching the junior high, he helps with the varsity. He lives at 706 Summitt.

FRIONA STATE BANK

On The Farm In Parmer County

By Seth Ralston

The causes and prevention of grain elevator fires and explosions will be the topic of two shortcourses presented by the Texas Agricultural Extension Service in cooperation with the Texas Grain and Feed Association.

The courses are scheduled for November 15-16 at the Rudder Center on the Texas A&M University campus, and November 29-30 at the Texas A&M Agricultural Research and Extension Center in Amarillo.

"The purpose of this shortcourse is to illustrate and describe effective methods to control explosions in grain elevators," says Gary S. Nelson, shortcourse chairman and Extension safety engineer.

"We hope to bring attention to the most recent technology available to prevent grain dust fires and explosions," he adds.

Grain elevator fires and explosions rank first in number of occurrences, people injured and property damage in the history of industrial dust explosions in the U.S., Nelson says. There have been at least 43 grain elevator explosions in the U.S. since 1976, resulting in 85 fatalities and millions of dollars in losses.

First-day topics will focus on the primary causes of grain fires and explosions. These will include definition of basic ingredients and how each can be a factor of

explosions. The second day's agenda will concentrate on prevention techniques, again focusing on the role of each of the basic ingredients of explosions—dust, air, ignition sources and a closed container. Discussions on dust control, ignition control, structural equipment designs, preventive maintenance, electronic monitoring systems, and the cost-effectiveness of prevention also will be featured.

"There will be several demonstrations of grain explosions and plenty of time for informal questions and one-on-one discussions," notes Nelson.

The program features individuals who know and work in the field and are well equipped to discuss special areas with each participant. Included in the list of speakers will be grain company executives, industry and consulting engineers and Extension Service specialists.

The shortcourse is for anyone involved in grain elevator and grain and feed mill work, including supervisors, managers, owners, engineers, safety and insurance representatives, grain inspection personnel and agricultural officials.

For further information or registration materials, contact Seth Ralston, County Extension Agent for Parmer County, at 481-3619, or come by the office in the Courthouse in Farwell.

TOP TURNIP...Troy Hutson displays a turnip which reached a size of 19 inches in circumference, and weighed two pounds, 12 ounces. The

turnip was grown in Hutson's garden. The rest of his turnips were regular size, he said.

Around The House

By LAURA JACOBS

October marks the 75th anniversary of the completion of the first successful farm demonstration in the nation.

It was the success of this venture on the Walter C. Porter farm near Terrell, east of Dallas, that led to the creation of the Cooperative Extension Service nationally and the Texas Agricultural Extension Service in this state.

Farmers, ranchers and homemakers in West Texas will join in recognizing this milestone in agricultural history by holding a special observance here Tuesday, October 31.

The South Plains observance will be held in the board room of the Plains Cooperative Oil Mill, 2901 Avenue A. It will begin at 9:30 a.m. with a coffee and includes a ceremony recognizing outstanding farm demonstrators and home economics cooperators from each of the 20 counties in Extension District 2.

The recipients are representing the more than 375 producers and homemakers in the district who conducted demonstrations this year in cooperation with their county Extension agents, said Billy C. Gunter and Mrs. Catherine Crawford, district Extension agents.

A documentary film on the Porter Farm, "I Am Thinking of the Harvest," will receive its premiere showing in the area.

A similar program for the 20 Panhandle counties which comprise Extension District 1 also will be held at 9:30 a.m. Tuesday, October 31. It will be at the Texas A&M University Agricultural Research and Extension Center, 6500 Amarillo Blvd. West, Amarillo.

Many other observances of Farm Demonstration Month are being held throughout the state. A special statewide salute was held October 12 in Dallas and at the Porter Farm.

Dr. Seaman A. Knapp, a former president of Iowa State College and a special agent for the U.S. Department of Agriculture, went to Terrell in 1903 at the request of area citizens to set up a demonstration to "improve farming methods."

Knapp asked them to find a demonstration site and a farmer who would farm precisely as he recommended. Local citizens selected Walter Porter from several volunteers and also quickly raised \$1,000 to cover any losses that might arise from farming with "the new methods." But the money was not needed.

The farm demonstration was a financial success, and the technique spread rapidly to other areas. Soon, farm demonstrations were evident in many counties. And they are still popular! There were 4,300 established in Texas last year, including every county in District 2.

+++

We all enjoy cut flowers, but they never seem to last long enough once they are in the vase. Everette E. Janne, Extension Landscape Horticulturist has some tips for us.

When you cut a rose from the plant, you sever its life support system. As soon as the cut is made, the rose, like an astronaut with a temporary life support system, is in trouble.

After the rose has been cut from the plant, make another cut about one-half inch up. Using a sharp knife or shears, with the base of the stem under water in a pan or sink or, by simply holding the stem end under running water when the cut is made, to insure a water supply to the rose.

The vase life of your roses can be increased by 30 to 50 per cent if you ask your florist for a packet of floral preservative or "flower food" as it is sometimes called. Using this material in the vase water, according to directions on the packet, will keep roses in good condition much longer.

BILL CLEMENTS, A GREAT GOVERNOR FOR TEXAS.

AGRICULTURE: He believes that today's farmers are suffering under the burden of excessive government regulation and restrictions. The best way to help farmers regain profitability is to increase exports, and he thinks the barriers to American exports should be knocked down. In order to give immediate short-term relief, he favors the Dole-Bentsen program which ties payments to the amount of land set aside.

SOCIAL WELFARE: He supports the present Texas system. Welfare is only a temporary payment to prevent hardship, not a permanent payment to prevent work.

WATER IMPORTATION: He is for water importation from water excess areas.

RIGHT-TO-WORK: He strongly favors our present Right-To-Work Law.

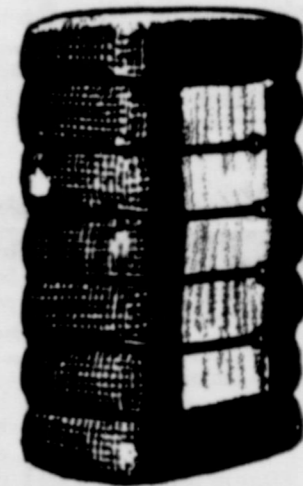

GUN CONTROL: He is against gun control.

PEACHY BUNDT CAKE - Texas peaches and cream have long been favorites, and to make the perfect dessert even better, serve this moist bundt cake, suggests Texas Department of Agriculture Home Economist Fran Gerling. The recipe is simple, and it bakes up in less than an hour!

- PEACHY BUNDT CAKE**
- 1 cup butter
 - 2 cups sugar
 - 3 cups flour
 - 4 eggs
 - 3 Tbsp. baking powder
 - 1/2 tsp. salt
 - 1 cup milk
 - 1 tsp. vanilla
- In a large mixing bowl, cream butter well. Add sugar. Cream until very light. Beat eggs in one at a time. Sift before measuring flour, baking powder and salt into mixing bowl. Alternately add flour mixture and milk to butter mixture. Add vanilla. Beat about 2 minutes with electric mixer or 200 strokes by hand. Grease and flour the cake pan heavily. Pour batter in pan. Bake in preheated oven at 375 degrees for 45 minutes. Serve with whipped cream and Texas peaches.

Tired of the usual floor plan? See this different contemporary property that's new, energy efficient and features all the extras. In Western Addition.

Recipes Are Given For Apple Pie, Cake

By LAURA JACOBS

Ever hear of an "apple peeling bee"? It's an old fashioned way to turn back into pleasure. In "the good old days" horseback riders would race through the countryside to round up neighbors for the apple peeling bee. All the women folk would gather, bringing mince and pumpkin pie and other foods. How much they and their men folk enjoyed each others company as they peeled apples, later to be dried or made into apple butter—a sweet reward indeed!

You may not have an "apple peeling bee," but what better way to enjoy your guest than with tasty apple treats, warm from the oven. You'll get more flavor in baked apples if you choose varieties that are tart to the taste. McIntosh and Rome Beauty are two of the four major varieties. Northern Spy and Cortland are fall varieties that are also especially good for baking and general cooking.

Remember to spare the water and the sugar when cooking with apples.

Apples have their own sweet, natural water content and can become too soft if special care is not taken.

Use just enough water to prevent the apples from sticking or scorching. Add little sugar to highlight the flavor; too much makes apples mushy.

Seasonings should be added with a gentle touch to enhance natural flavor, not smother it. Allspice, cinnamon, nutmeg, ginger, apple pie spice, coriander seed, anise seed, pumpkin pie spice, mincemeat spice and fresh mint are a few spices especially suited for enhancing apple flavor.

Baked apples used to be the hallmark of the Northern Pacific Railroad in the days of great dining cars. Use the simple recipes below to bring great dining to your kitchen.

Put cored apples in a baking pan and fill the cavities with one or a combination of the following: butter, sugar and raisins; brown sugar; maple syrup; or jam. Bake for one

hour in a 350 degree oven and serve with sweet cream. If you are counting calories, fill the cavities with cinnamon and your favorite low-calorie soda.

For FARMHOUSE BAKED APPLES, vary the above recipe slightly. For 12 apples you'll use a mixture of 1½ cups cooked rice and ¾ cups seedless raisins. Drizzle 3 cups warm maple syrup over the stuffed apples. Bake in 400 degree oven until apples are tender, about 45 minutes to one hour. Cover the pan for the first half hour of baking, then remove cover and baste apples with syrup, continue baking uncovered. Serve warm or cold with a pitcher of cream.

Try one of the recipes below:

Apple Brown Betty

1-3 cup sugar
½ teaspoon cinnamon
¼ teaspoon salt
2 cups fine, dry crumbs
4 tart apples, pared and diced
3 tablespoons melted table fat
Mix sugar, cinnamon, salt. Put layers of crumbs in greased baking dish. Cover with layers of apples. Continue until all ingredients are used. Have layer of crumbs on top. Pour melted fat over crumbs. Cover dish. Bake at 375 degrees F.

(moderate oven) 40 minutes. Remove cover the last 10 minutes to brown the top. Serves four.

Apple Coffee Cake

1 cup pancake mix
½ cup sugar
1 cup finely diced, peeled fresh apples
1-3 cup oil or melted butter
1-3 cup milk
1 egg

Combine pancake mix, sugar and apples in a bowl. Beat oil, milk and egg together; add to dry ingredients. Blend well. Pour into a buttered 8 inch square cake pan. Sprinkle spicy topping (see recipe below) on batter. Bake in a moderate oven (375 degrees F.) 25-30 minutes. Serve warm.

Spicy Topping: Mix ¼ cup firmly packed brown sugar, ¼ cup pancake mix, ½ teaspoon cinnamon, ¼ teaspoon nutmeg, 2 tablespoons soft butter and ¼ cup chopped nuts together in a bowl. Blend until appearance of coarse meal; sprinkle on batter.

John Hill calls for state tax freeze

"Our state taxes in Texas are among the lowest in the nation, and I want to keep them there. As I've said many times, I'll veto a tax increase before the ink dries on the bill."

As Attorney General, John Hill proved he could increase the efficiency of his office without any unnecessary budget increases. He absorbed a three-fold increase in his office caseload by hiring top legal talent capable of higher productivity. The result: his staff lawyers doubled their average workload, and the increased court judgments and enforcement of civil penalty laws returned \$25 for every \$1 of state funds spent on his office.

As Governor, John Hill will insist on this same type of increased productivity for all state agencies. He will institute new controls over federal funds, demand that we follow our "pay-as-you-go" budget policy, and use zero-base budgeting to eliminate unneeded programs before any new programs are added. And he'll block any state tax increase — there won't be any new taxes under John Hill.

JOHN HILL
GOVERNOR

Chieftain Rally Falls Short, Mules Take Win

The Friona Chieftains outgained the Muleshoe Mules in virtually every category in their District 3-AA opening game last Friday, but in the end, it was a yard that Friona did not gain that cost them the game in the 18-14 thriller played at Chieftain Field.

Late in the first half, the Chiefs put together their only offensive threat of the first part of the game, and had the ball, fourth down and a yard to go at the Muleshoe one-yard line, with 40 seconds left on the clock.

The Chiefs called time out to discuss the play, but the play they chose wasn't nearly sneaky enough, and the drawn up Mule defense stopped the Chieftains for no gain, and the team got no points for their longest drive of the night.

That turned out to be the

difference in the game as the Chiefs scored 14 second-half points, but were a touchdown short of victory.

Muleshoe was in command in the early going. The Mules took advantage of a short Friona punt to take the ball at midfield. That gave the visitors a six-play drive for the go-ahead touchdown.

The score came on a halfback pass to split end Timmy James. Dickey Sudduth's kick made it 7-0 with only 3:53 gone in the opening period.

Late in the quarter, Friona had the ball on their own 25-yard line when Chris Barnett had a pass kicked off, giving the Mules excellent field position once again. However, three tries inside the ten failed to score for the Mules, and they had to settle for a field goal from Sudduth, which came with 16 seconds left in the quarter, giving Muleshoe a 10-0 lead.

Friona ran one play, then had another pass intercepted at the Friona 37.

Once again, the Mules accepted the gift and made the most of it.

Nine plays later Mike Northcutt passed to Sudduth for a touchdown. The first PAT try was blocked, but Friona was offside, and Muleshoe decided to run for two, which worked for an 18-0 lead.

It was at this point that Friona's offense came alive. Giving the drive a shot in the arm was a 21-yard pass from Kevin Kothmann to Mike Hutson from punt formation from the Chieftain 29. That was the team's first first down of the game.

Chuck Nichols gave the team a pair of first downs with his running, and Barnett hit Kothmann for a first down just outside the Muleshoe ten, with 1:24 left on the clock.

Rod Owen made five yards on first down, to make things look good, but the next three plays gained only four yards, and Friona had to settle for an 18-0 halftime deficit.

The team finally put it all together in the third quarter, after holding the Mules. Hutson ran for 19 yards to the 45, and then Leslie White made eight yards on a reverse play to the Muleshoe 46.

Three passes fell incomplete before Barnett lofted a high spiral which Kothmann caught deep in the end zone on fourth down. A high snap on the kick try led to Hutson passing to Nichols for two points, and the score had become 18-8.

The next thing you knew, Friona was driving again. Kothmann hit White on a nifty 46-yard pass which carried all the way from the Friona 20 to the Muleshoe 34.

On fourth and seventeen, Joe Malouf made 14 yards on a reverse play from a fake field goal formation, and Muleshoe took over at their own one.

Kothmann blasted Sudduth on first down, he fumbled, and Friona was right back in business at the Muleshoe five.

Three plays later, Nichols scored on a determined run, and Friona had pulled to within four points, 18-14, with 10:37 left in the game.

It looked like Friona would take the lead for sure. The team forced a punt, and then clicked off two first downs in easy fashion, to move to the Muleshoe 32. But disaster struck again, as a pitchout bounced into Muleshoe hands with 7:11 to play.

The Mules then managed a drive to all but kill the clock, going to the Friona six before giving up the ball. The Mules tried a field goal with 2:08 left that would have given them a seven-point lead, but it was wide.

Friona led in total yardage, 274-220. The first down count was tied.

But the one vital statistic, the one that always counts the most, found the Mules with 18 points, and Friona with 14, and that's the way the game was recorded.

"Muleshoe took advantage of their breaks—which is what they have been doing in their games all year.

But I was proud of the way our players kept at it, even when they were down by 18 points. They never quit, and I was extremely pleased with that phase of our game," said Coach Lonnie Phillips this week.

"Our inability to score right

before the half turned out to be the difference. Muleshoe really plugged the gaps on the fourth down play," Phillips added.

On defense, the Chieftain coach pointed out that Kevin Kothmann had one of the better performances of any Chieftain this season, with ten unassisted and eight assisted tackles. He also had credit for one quarterback sack, and caused a fumble, the one that led to Friona's second touchdown.

Other stalwarts on defense included Leslie White with 13 tackles in all, Joel Hight with eight, Chuck Nichols, ten; Brett Moore, seven, and Milon Dixon, six. Dixon's knee continues to strengthen, and this was his second outing of the season.

Chiefs To Visit Wildcats Friday

Littlefield, the only team to defeat Friona in district play a year ago, will be the opponents for the Chieftains next Friday when the Wildcats host the Chiefs in a 7:30 game in Lamb County.

The Wildcats were off to a good start in district after blasting Dimmitt, and were hoping for a win over Muleshoe Friday, which would have given them the District lead.

Although hit hard by graduation, the Wildcats have bounced back to be title contenders. Jerry Blakely has been head coach at Littlefield for seven years and has had the Wildcats in the playoffs four of these years.

But Blakely had to have a little luck in 1977 to get to the playoffs, after his team, Muleshoe and Friona all ended deadlocked with 3-1 district records. However, the lucky coin toss helped the Wildcats to play two more games last season.

Rudolph Smith, 160-pound tailback, went into this season with over 2,300 yards gained, and is having a fabulous year for the 'Cats.

Sophomore quarterback Eddie Gregory was a starter last year as a freshman.

On the line, Littlefield has 5-9 senior Richard Sorja, who was

All-South Plains a year ago. Muleshoe used the "revenge" factor to good advantage two weeks ago at Friona. If that has any bearing, Friona should be boiling mad. Littlefield has cost the Chieftains sole possession of the district title twice in the past four years.

8th Grade Ties Mules

The eighth grade football team tied Muleshoe 0-0 last Thursday.

Heading the defense was Juan Samarron, Max Perea, Mark Montoya, Jay Hight, Bill Head, Carl Jackson, Michael Deaton, Jamie Pena, Mike Neill, Martin Lopez and Richard Malouf.

The offense was composed of Mike Neill, Michael Chaney, Boyd Stokes, Roddy Berend, Vince Koelzer, Leo Escalante, Kenny Kennedy, Max Perea, Carl Jackson, Joey Howard and Mark Montoya.

The eighth grade Brave defense now has gone 12 consecutive quarters without allowing a point. Their record is now 2-1-1.

Renners Host

Antique Club

The Friona Antique Club held its October meeting in the home of Mr. and Mrs. Rudolph Renner.

After a short business meeting, the guests were served refreshments of cinnamon rolls, pie, coffee, tea and Cokes.

Those present were Mr. and Mrs. Raymond Adams, Hazel Baxter, Orma Flippin, Wanda Jones, Mr. and Mrs. Elvie Jennings, Mr. and Mrs. Opal Jones, Mrs. Jerry Zachary and Patty Grace and the hosts, Mr. and Mrs. Rudolph Renner.

George Bush for Congress

"The farmers here in West Texas are in a real bind. Their costs of production are going up—yet they are required to sell at wholesale prices.

"That's not right. As your congressman, I'll fight for increased export markets. I'll fight to reduce high inflation, high taxes, and high interest rates that run up the cost of production.

"I can't guarantee the weather—but I can guarantee that I'll work hard for the West Texas farmer."

Gin Trash Tested As Feed Supplement

Cattle feeders could, in some cases, spend as much as \$48 a ton for cotton gin trash to use as feedlot roughage and still make a profit.

This is one finding in a study on economics of using gin trash as a cattle feedlot roughage, conducted by Dr. Kenneth B. Young of the agricultural economics faculty at Texas Tech University.

"Using gin trash as a roughage could help solve at least two problems," Young said. "It could reduce the feeders' dependency on more conventional roughages, such as alfalfa, corn silage and cottonseed hulls—often in short supply and expensive—and it would reduce or eliminate waste disposal problems for ginners."

Young conducted the research in the Texas High Plains area, including some tests at Friona, but he said the results could probably be extended to other feedlots.

Most common roughages used in High Plains feedlots are alfalfa, corn silage and cottonseed hulls, which frequently have to be shipped into the feedlot area.

Gin trash is available at the rate of about 859,000 tons per year, or nearly 400 pounds per head for all feedlot cattle in the High Plains, assuming feedlots operate at 50 per cent average capacity and 200 per cent turnover per year, Young said.

In addition to availability, gin trash has been found comparable nutritionally to more common roughages. One laboratory analysis conducted by Hi-Pro Feeds at Friona found ground gin trash had a similar energy content to alfalfa hay, although digestible nutrient content was lower. Digestible protein in gin trash was nearly half that of milo or corn, both high energy feed grains. Protein level was considerably higher than cottonseed hulls.

In his experiment Young used four different energy requirement levels for feed rations, based on cattle's

increasing energy requirements from starting to finishing stages of feeding. Levels were 36, 40, 44 and 48 megacalories of net energy for gain for each one hundred pounds of ration.

In one comparison the ration without gin trash contained 18 to 9 per cent cottonseed hulls, the numbers representing starting to finishing percentages; 0 to 5 per cent commercial supplement; no molasses and 7 to 21 per cent alfalfa.

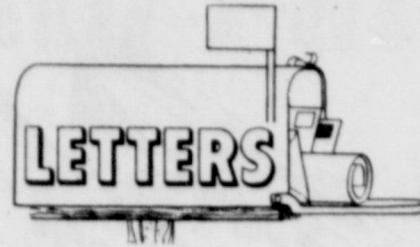

In the gin trash ration 40 per cent ground gin trash and 11 to 16 per cent molasses were substituted for hulls and alfalfa. Grain sorghum content without gin trash was 58 to 85 per cent, but with gin trash was 18 to 39 per cent. Meal and fat contents were 0 to 3 and 0 to 1 per cent, respectively, without gin trash, and 5 to 9 and 0 to 14 per cent, respectively, with gin trash. The additional meal and fat were required for the finishing rations which had higher energy level requirements.

Prices per hundredweight for ingredients in this ration were \$1.60 for cottonseed hulls, \$4 for molasses, \$5.62 for supplement, \$8 for cottonseed meal, \$4 for grain sorghum, \$9.20 for fat and \$3 for alfalfa. Gin trash was priced at \$2.24 or less per hundredweight.

At these price levels Young found that producers could afford to pay up to \$44.80 per ton for gin trash before it became too expensive.

With varying price levels the results indicated that gin trash value was highly sensitive to prices of cottonseed hulls and alfalfa, which gin trash replaced as a roughage. Estimated values of ground gin trash in the study ranged from \$14.80 to \$48.80 per ton.

Young concluded from his study that replacing more expensive roughages with gin trash in Texas High Plains cattle feedlots would be economically feasible, but further feeding trials are needed to add support to these findings.

To The Editor

Bill Ellis, Editor
The Friona Star
Friona, Texas 79035

Dear Mr. Ellis:

I read with great consternation and alarm articles concerning inflation. A recent headline stated "Few explanations for inflation make any sense." Another quote from a columnist just today quotes a PRESIDENTIAL ADVISER as saying, (watch this), "We just do not know the root causes of inflation".

Mr. Carter stated that he could cut inflation if he were elected President. Of course, it has gotten worse. How can it help but get worse if they admit in their own private

circle that they don't even know the cause.

Now the root causes of inflation are NOT difficult to understand. First of all, the subject deals with the amount of money supply in a nation at any given time. This has to have a top limit and a bottom limit. There are plenty of true experts around to figure what that figure should be. In the decades before 1900 it ranged all the way from \$50 per head down to six dollars per individual living in the United States. Needless to say, the era was studded with inflations and depressions, for they are necessary twins. It is difficult to determine what that

figure is today but it ranges somewhere around \$1500 per capita, if we can trust figures we read.

Next, we have been illegally saddled in our beautiful country with a banking system that essentially is a private concern. We the people, according to the Constitution, are supposed to be running our own banking system. Instead, we borrow money from a private concern. Here comes your second reason for inflation. We, thru our government, 1) Borrow from this private group, and 2) Put that borrowed money into the money supply, at a greater rate than we actually possess. That is well known as deficit spending. This money that comes into the country's money supply comes in, in competition with the workers earned dollar. Thusly, if we spent 70 billion dollars last year above what we took in thru taxes, etc., we added that much money to the over-all money supply of the nation. But, and it's a big but, we didn't get the two necessary ingredients for that money. Those two necessary ingredients for money to exchange hands are 1) Either a service must be rendered, and-or 2) A product must be delivered. Thusly, we spent 40 billion dollars for welfare. We got no service for that 40 billion and we got no product, but it was added to the current money in circulation, thus making the working man's money less valuable because he rendered a service or made a product.

The constant raises in Social Security benefits cause the same factor to be invoked. More money is sent into circulation, but those receiving it did not render a service for it nor deliver a product. Some people may not like this point but, objectively speaking, it is the same as putting money into the system thru welfare.

Now we come to the third demon that causes inflation—Interest. We only mean here the interest on the public debt, a debt which doesn't really need to exist, but exists only because we are not following the Constitutional method of coining and regulating our own money. Last year the interest on the public debt alone was around 45 billion. The private company to whom we are said to owe this money gets this money, if we pay it, and we get nothing in return except the FOOLISH PRIVILEGE of borrowing our own money. So there goes 45 billion dollars for which we got nothing, that is, 1) No service rendered, and 2) No product received.

So why don't they understand them? We don't think they want us to know, or they try to speak in such ways that we are supposed to be too dumb to understand or know what's going on.

The solution is not too difficult. 1) Put the handling of our money back into the hands of the government (we the people) as the Constitution says instead of having it in the hands of a private corporation. 2) Then we would no longer be paying any interest on a non-existent debt. 3) Let the government (we the people) introduce money into the market place ONLY for services rendered or products delivered...yes, it's that simple. 4) The interest earned by the government would practically eliminate all of our taxes.

We do not have to have inflation. We can force our government thru Constitutional means to follow the Constitution, and thus produce a simple, prosperous economy for our strengths are great and have well survived the tests of time when duly administered.

Sincerely,
Fred Beversdorf

1978 Mint Stamps; Booklet Available

Postmaster Richard Wilson of Friona said today that the U.S. Postal Service's 1978 mint set and the new 5th edition of the "Stamps & Stories" book are now available at the Friona post office.

The 1978 mint set is a colorful folder containing and describing all the 28 commemorative and special stamps issued by the U.S. Postal Service during 1978. The 1978 issue is the latest in a series of annual sets of commemorative stamps released by the post office each year prior to Christmas.

The cover of the \$4.50 mint set features a montage of artwork related to the stamps inside and dramatically wraps around all three sides of the folder. Acetate strips on the inside provide spaces in which the enclosed stamps may be mounted and displayed.

The 5th edition of "Stamps and Stories," the popular U.S. Postal Service guide to stamp collecting, is priced at \$3.50, Wilson said. The 240-page book relates more than 100 stories about U.S. stamps and is designed to introduce non-collectors to stamp collecting as well as to provide interesting philatelic information such as latest market values to both novice and experienced collectors.

Many of the stories in the new edition are new or have been substantially changed to illustrate a different aspect of an individual's life or of a significant historical event.

Updated to include stamps issued during 1978, "Stamps and Stories" also contains information about the

latest techniques in stamp production, current listings of the quantities of commemorative stamps issued, and an index listing all stamps in the book.

Wilson also noted that purchasers should not forget that a number of popular topical stamp collecting kits priced at \$2.00 each are also available for beginning collectors.

The kits have topics ranging from "The World of Sports" and "Space," to "Birds and Butterflies" and "Diamonds and Triangles." Each kit also includes a small 20-page album, mounting hinges, insert sheets for additional stamps, and a 2-page booklet entitled "The ABC's of Stamp Collecting."

Further information about the gift items may be obtained by calling 247-3080.

Bond Sales Are Given

September sales of Series E and H United States Savings Bonds in Parmer County were reported today by County Bond Chairman Charles E. Allen.

Sales for the nine-month period totaled \$64,060 for 64 per cent of the 1978 sales goal of \$100,000.

Texas sales during the month amounted to \$26,762,616, while sales for the first nine months of 1978 totaled \$232,768,405.

HEAT PUMP

"THE ELECTRIC SAVINGS MACHINE"

SAVING FOR THE FUTURE

Coin banks help teach children how to save for the future. You can save for the future, too, with the electric heat pump. That's why we call it the electric savings machine. This efficient heating/cooling system can deliver as much as two units of heat for every one heat unit of electricity it uses. But the savings don't stop there. With fuel costs expected to rise during the next two decades, the electric heat pump is a smart investment that will save energy today and in the future.

It's never too soon to start saving... with the electric heat pump. Start today before your future gets here. You'll be glad you did.

Accident Claims Mrs. Clark's Grandson

James W. Clark, 25, the former Texico, N.M. youth who died as a result of an accident on a coast guard cutter that sank in Chesapeake Bay earlier this week, was the grandson of Mrs. Lillian Clark of Friona.

Clark was born October 3, 1953, in Clovis. He graduated from Texico High School in 1971, after an active high school career that found him active in sports as well as being class president, Football King, and was chosen "most popular" and "Best personality" by his classmates in 1971.

The young man had graduated from Eastern New Mexico University in 1975.

Survivors include his parents, Mr. and Mrs. J.O. Clark of Clovis, a brother, Doug Clark of Houston, and his grandmothers, Lillian Clark of Friona and Mrs. C.P. Trinkle of Clovis.

SERVANTS OF THE COURT..Mark Zachary, Tim Mercer, David Merrill, Sonya Gore and Monique Osborn will portray servants of the court in the musical version of Cinderella which will be the annual Thesplan fall production. Tickets to the play are \$2.00 for adults and \$1.00 for students.

A TAXPAYER'S BILL OF RIGHTS IS PAST DUE

Bill Clements believes we still have a chance to preserve our future by establishing constitutional protection against excessive taxation and runaway government spending.

Bill Clements believes the people of Texas should have the power necessary to ratify or reject tax policies made by legislators.

To establish this power (of the people), Bill Clements will introduce an amendment to the Texas Constitution that would give the people of Texas this right.

Bill Clements' "Taxpayers' Bill of Rights" would:

- Give Texans the right of initiative and referendum, a phrase that means we, the people, have a right to vote on the taxes to be levied on us.
- Place a ban on corporate or personal income tax in Texas.
- Require a two-thirds record vote of both houses of the legislature to pass a tax bill.
- Allow local taxpayers to call an election to ratify or reject a tax increase created by a local governmental unit.

Bill Clements believes in Texas and the people of Texas.

Bill Clements thinks that elected officials must work for the people and represent them properly.

As governor of Texas, Bill Clements will work for and with the people of Texas.

It's about time someone recalled that our form of government was conceived to be a servant of the

people and provide the means to insure that principle endures.

BILL CLEMENTS, A GREAT GOVERNOR FOR TEXAS.

Paid political advertisement by the Bill Clements for Governor Campaign Committee, Tom B. Rhodes, Treasurer, 1901 N. Akard, Dallas, Texas.

Girl Scout Troop Meets At Riethmayer Home

On Thursday, October 19, Girl Scout Troop 358 met briefly at the Girl Scout House and then traveled by cars to the home of one of their leaders, Geneva Riethmayer for a

Barbarees Have Girl

Mr. and Mrs. Terry Barbaree of Athens, Georgia, are the parents of a baby girl born Monday, October 23 at 3:21 p.m. in Cannon Air Force Base, Clovis, New Mexico.

Named Wendi Renee, the new arrival weighed eight pounds, ten ounces and was 21 1/4 inches long at birth.

Wendi has one brother, Jeremy, three years old.

Grandparents are Mr. and Mrs. Charles Rector of Friona and Mr. and Mrs. Bob Barbaree of Hobbs, New Mexico.

Great-grandparents are Mr. and Mrs. Oscar Rector of Apache Junction, Arizona, J.L. Armstrong of Alva, Oklahoma and Mr. and Mrs. Lee Barbaree of Wichita, Kansas.

YH Club

Welcomes Members

The Friona Young Homemakers will hold their next meeting November 2 at 4 p.m. in the High School Cafeteria.

The speaker for the program will be Zelma Faye Thorn. She will demonstrate how to make silk flowers. The roll call will be answered with "Your Favorite Sport."

The hostesses for this meeting will be Linda Black, Keri Jack and Lea Lindeman. The project to be discussed is the November Bake Sale.

The club would like to welcome their new members this year. They are Jayn Looper, Tamela Bandy, Cindy Simmons, Becky Menefee and Cris Alexander. The club welcomes any visitors.

weiner roast and fly up ceremony.

The girls were allowed to have a guest for the occasion. The weiner roast was in the back yard and as the girls finished eating and cleaning up one leader and three girls who had previously flown up at Day Camp last summer went to the front yard and prepared the setting for the ceremony. The three girls made a bridge and covered with willow limbs then placed it in front of a blue spruce tree and started a tape of the song, "The Growing Up Tree" which played in the background throughout the ceremony.

The girls repeated their promise and laws before the ceremony.

Jeanette Spencer, Lacye Osborn and Karla Skipworth received their Girl Scout pins first because they had already flown up, then a new girl, Nancy Carrillo, was invested into Girl Scouting.

The rest of the troop were greeted one by one as they approached the bridge by a sister Girl Scout, Jeanette Skipworth, and after they passed over the bridge into Girl Scouting (from Brownies) Karla Skipworth welcomed them into Girl Scouting and Lacye Osborn pinned their wings on each scout. Then all girls joined together to sing "When're You Make A Promise."

Those flying up were Gala Gilliam, Irma Granado, Beth Johnson, Dodi Jones, Isabel Madrid, Deanna Poarch and Stacy Dodson.

Leaders attending were Geneva Riethmayer, Janice Richards and Trudy Johnson.

This troop in the past few weeks

have also shopped for the prices for the United Fund breakfast and will do the actual shopping for the food, planned their fly up and had a corn pick-up on October 14 and 21.

They would like to thank Mike Riethmayer, Elvie Jennings and C.L. Lillard for their help. Mike let us pick up the corn, Elvie furnished some buckets and C.L. put the new battery in the truck for us to use.

DIANA HOBBY

Diana Hobby Is Keynote Speaker

Mrs. Diana Hobby, wife of Lt. Governor Bill Hobby, has accepted the invitation to be the keynote speaker for the Panhandle Planned Parenthood Association's Tenth Annual Meeting, which will be held October 31 at 12 noon at the Amarillo Country Club.

Mike Montgomery, President of the Panhandle Planned Parenthood Board of Directors, said, "This year the Annual Meeting holds a special significance to the representatives of Planned Parenthood as the Association is commemorating ten years of service to women in need."

Diana Hobby has been actively involved in civic causes for many years. She has been influential in promoting the goals and objectives of Planned Parenthood, prevention

of child abuse and neglect, and other social programs. Montgomery states, "We feel especially fortunate for one so informed and educated to take time from her busy schedule to accept our invitation."

Mrs. Hobby is a native of New York City and spent much of her time in North Carolina on the farm belonging to her mother's family. She graduated from Radcliffe College in 1952, where she was elected Phi Beta Kappa, and received her M.A. in English from Georgetown University in Washington in 1955. She taught school before her marriage in 1954. She worked as an editor for the U.S. Government while her husband Bill Hobby was in the Navy.

Showers Fete Terry Woody

Miss Terry Woody, bride-elect of Larry Holland was honored with a wedding shower October 12 from 4 to 6 p.m. in the Fellowship Hall of the United Pentecostal Church.

Vivian Hughes and Mrs. Madel Aday.

Crystal appointments were used to serve cake, nuts, mints and punch. Honored guests were Mrs. Ruth Woody, mother of the bride, Mrs. Marvin Holland of Clovis, mother of the groom, and Mrs. A.E. Gaines of Friona, grandmother of the bride.

Hostesses were Mrs. Gaylon Chapman, Mrs. Frank Griffith, Mrs. Joe Johnson, Mrs. R.F. Talley, Mrs. A.J. Haley, Mrs. Jim Griffith, Mrs.

Miss Woody was honored with a wedding shower in the home of Mrs. Marvin Huguley at 1425 East 21st, Clovis, New Mexico on October 17 from 7 to 8:30 p.m.

Crystal appointments were used to serve cookies, nuts, mints and punch.

Hostesses were Mrs. Eva McDaniel, Mrs. Loise Harvey, Mrs. Marie Smith, Mrs. Kay Kimbrough, Mrs. Sue Rutter, Mrs. Joyce Hargrove, Mrs. Mary Huguley, Mrs. Sharon Stampe, Mrs. Freddie Deaton, Mrs. Joyce Pemberton and Mrs. Karlene Inman.

Kappa Delta Pi Honors M. Dixon

Melodi Jane Dixon, a sophomore kindergarten education major at West Texas State University from Friona, was recently initiated into Kappa Delta Pi, an honor organization in education.

She is the daughter of Mr. and Mrs. James W. Dixon of Friona.

Requirements for Kappa Delta Pi include having a 3.5 overall grade point average and at least three hours of education courses with at

least a "B" average. Kappa Delta Pi was nationally chartered in 1911, and introduced at WTSU in 1960.

Dr. Thomas D. MacOwan, who has been counselor for the organization since it was founded at WT, said that the average membership is approximately 60 per year.

Thirty-five students were initiated this fall, but there will be another initiation in the spring, according to Dr. MacOwan.

Chamber Plans

Xmas Parade

The Muleshoe Chamber of Commerce is beginning preparations for their annual Christmas Parade. This year the parade will be on Saturday, December 2. The theme of the parade is "Christmas Is Coming."

If you would like to participate contact the Muleshoe Chamber of Commerce at 247-4248 or come by 215 South First in Muleshoe or the Chamber of Commerce in your area for entry forms.

If you would like further information, do not hesitate to call on the Chamber.

NOTICE TO VOTERS -----

It has been my pleasure to serve as your county commissioner.

JIMMY BRIGGS

I feel that the residents of our county and precinct have benefitted in

having a republican commissioner, due to the work I have accomplished on the state and regional level.

If Re-elected, I pledge my continued efforts on behalf of the residents of Precinct 4 and Parmer County.

NINA STEVENSON and DANNY ALLEN...Mr. and Mrs. O.D. Stevenson of Clovis, New Mexico announce the engagement and approaching marriage of their daughter, Nina, to Danny Allen, son of Mr. and Mrs. Joe Allen of Friona. The wedding will be held Saturday, November 25 at 2 p.m. at the First United Methodist Church of Clovis.

The bride-elect is a 1978 graduate of Clovis High School and is presently attending Eastern New Mexico University, and is presently employed at the Soil Conservation Service in Portales. The prospective bridegroom attended Friona High School and is presently engaged in farming.

Town Talk

By June Floyd

Phone 247-3681 With Your News Item

We knew when we attended the State Fair of Texas in Dallas early this month that we were missing most of the livestock. Now, we know we're sorry we missed the judging of the Shorthorns. A steer named Aggie won first in the Shorthorn Division and was named Champion of Breed.

St. Ann's To Sponsor Meal

St. Ann's Catholic Church of Bovina is sponsoring their annual turkey and trimmings dinner Sunday, November 5 from 11:30 a.m. to 2:30 p.m.

On the menu are turkey and dressing, homemade coleslaw, home-canned green beans, creamed potatoes and gravy, chocolate or pumpkin cakes and coffee or tea.

Donations will be \$3.00 for an adult plate and \$1.50 for children under ten. Door prizes will be awarded.

The meal will be served at St. Ann's Parish Hall on Third Street in Bovina.

Jacinda Gleason of Muleshoe showed the steer. He was also the Reserve Grand Champion Steer of the Fair. Jacinda is the daughter of Dr. Jerry and Margaret Mabry Gleason, who live in Muleshoe.

Jerry grew up in the Lazbuddie Community and Margaret grew up in the Hub Community. She is a 1958 graduate of Friona High School. The Gleasons are not new in the livestock showing business and this year the family really got into the act at the Fair.

Jay, the middle son of the Gleasons, showed his Angus steer, who was named Tony, to a Champion of the Breed; fifth with a Heavy Weight Cross was Jerry Lionel Gleason, the youngest member of the family and Jimmy, the oldest son, was eighth with a Light Middleweight Cross.

Seems that there's a possibility that Jerry and Margaret will have to make an addition to the family trophy case. Congratulations to all the Gleasons.

Dalton and Estelle Caffey are home. They have been to California to welcome their first grandson. Miles Andrew Cotton was born in a Santa Monica hospital September 20. Estelle said, "He really was a bouncer. He weighed eight pounds, one ounce and was 20 1/2 inches long."

Cynthia and Eldon have two daughters, Sarah, who is 6 and a first grade student, and Blythe, who is four.

Soon after the Caffey's came home from the West Coast, they went down to El Paso to visit their son, Kim. He is assistant principal of the Zack White Elementary School there.

Mrs. Ada Houser's condition was improved Monday and she was hoping to get back to Friona by the end of the week.

Mrs. Ethie Woodard of Fort Worth has been visiting in the home of Mr. and Mrs. Clyde Woodard and children, Shea, Shayne and Shannel for a week or so.

She is Clyde's mother and is a

former resident of Muleshoe, where she also visited while she was here. Clyde took her home early in the week.

Has anyone noticed the long look on the face of D.L. Carmichael? It really isn't from the farm situation. His attitude is "farming has never been a cinch, so why fret about it?"

But, when his and Elizabeth's granddaughter, Erin Knox, and her parents, Steve and Susie moved all the way to Seattle, Washington, that's a different story!

The Carmichaels have enjoyed having that part of their family in Lubbock for several years while Susie and Steve were both going to school and working. Steve now has his doctorate and there's just not much demand for nuclear physics—think that's his field—in this area.

Carmichael is looking forward to Christmas. Steve, Susie and Erin plan to spend the holiday season here and in Hereford with his parents, Mr. and Mrs. Boyd Knox.

The former Betty Lessert's mother, who lives in Borger, has been hospitalized at High Plains Hospital in Amarillo and the Carmichaels drove up to visit her Sunday.

Arvilla Elmore is home. She has been all the way to Portland, Oregon. She and a sister, who lives in Wellington, Kansas, flew to the Pacific Northwest and back together.

They visited brothers and other relatives. Bud drove up to Wellington early in the week and he and Arvilla came home together.

One of the sisters of the late E.S. White Sr., Mrs. Eunice Cox who is 78 years old, of Eureka, California, and her son-in-law and daughter, Mr. and Mrs. Frank Allen, who live in Sacramento, have been visiting here.

The three flew to Amarillo, then came on down here to visit Fern and Edward and Doris and family.

While they were here, Richard White of Willard, New Mexico; Mr. and Mrs. Raymond White and son,

Pete of Stratford; Mrs. Wayland Hinds and children, Pam and Kyle; and Mrs. Ray Campbell of Amarillo met Fern and the Californians in Dumas, where they were all guests in the home of Mr. and Mrs. John Cannon.

Then, last week Mrs. Cannon, the former June White, took Fern to Fort Worth, where another daughter, Mae Holder was recuperating from surgery.

Mrs. Holder was scheduled to re-enter All Saints Hospital in Fort Worth for more surgery this week.

Mrs. Jim Snead and children, Layle and Clint, who live in Red River, New Mexico, went home Saturday after a visit here. They visited in the homes of Mr. and Mrs. E.H. Bradshaw and Mrs. R.E. Snead here and in the Dick Homer home in Clovis.

Mr. and Mrs. Bee Westbrook, long time residents of Friona and the nearby area, have sold their home over on Jackson Street and moved to Arch, New Mexico. That's where Dale and Mary Bell and their children live.

Mrs. Mary Clark, who recently moved here from Bellflower, California, is moving into the house Bee and Lavonia vacated. She's the aunt of the late Eric M. Rushing.

Stan and Gail Graham Dement, who formerly lived in Albuquerque, have joined the list of ex-Frionans—several of whom are Gail's relatives—who now live in Hobbs, New Mexico.

Gail's parents, Sterling and Joy Graham, have recently been to Hobbs, where they also visited Troy and Gladys Young and family.

Mrs. Frances Howard of Abernathy has been visiting local relatives and friends. She's the sister of Arthur and Earl Drake and a long time friend of Mr. and Mrs. Vernon Brown.

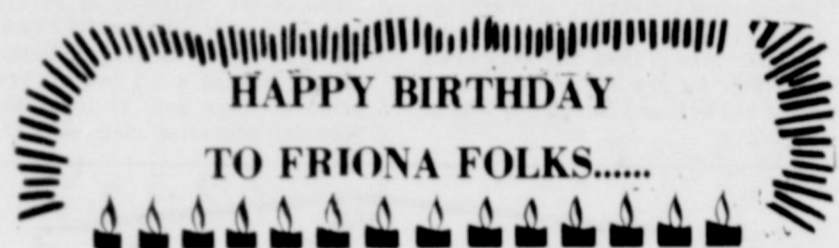

Man is not the creature of circumstances; circumstances are the creations of man.

BORDEN'S

School Lunch Menu

WEEK OF OCT. 28-NOV. 3
Friona residents having birthdays next week are:

WEEK OF OCT. 30-NOV. 2
MONDAY—Chicken fried steak, beets, hot rolls, black-eyed peas, banana nut cake and Borden's milk.
TUESDAY—Meat loaf, peas, mashed potatoes, hot rolls, applesauce and Borden's milk.
WEDNESDAY—Tacos, pinto beans, cornbread, lettuce and tomatoes, sugar cookies and Borden's milk.
THURSDAY—Chicken salad sandwiches, potato chips, pickles, beans, Jello and Borden's milk.
(Menu Sponsored By BORDEN'S MILK)

Kent Hance.

When Kent Hance began work in the Texas Senate, he did not sit on the sidelines like most freshman Senators. He sponsored legislation to remove a State Supreme Court Judge from office following his indictment for perjury. He led the fight in the Senate trial to impeach a District Judge from Duval County for misconduct in office. This was the first such trial in more than 30 years, and was the first major effort to clean up corruption in Duval County. He sponsored measures to remove the Senate's top employee for questionable conduct.

Wherever Kent Hance found waste in government, he acted. He sponsored and passed into law "sunset legislation" that abolishes state agencies on a periodic basis unless they are re-established by the Legislature. This helps to keep agencies from getting out of hand, and to eliminate those that are no longer needed. He made welfare fraud or food stamp fraud a felony in Texas.

In his four-year term, Kent Hance never missed a day in the Senate's five sessions, regular and special. In four of those five sessions he didn't miss a vote. In the fifth, he had a 96% voting record.

In Congress, Kent Hance will continue this kind of representation where it is needed most... at the Federal level. Kent Hance has proved that when he sees evidence of corruption, waste or inefficiency in government he does not look the other way... HE ACTS. West Texas needs Kent Hance in Congress.

Let's make sure the man we send to Congress is the man with qualifications we can measure—and count on...!

Authorized by the Kent Hance for Congress Committee. Mike Higgins, Treasurer
1203 Metro Tower, 1220 Broadway, Lubbock, Texas 79401

NEW CAREERS...Three Texas Tech University graduate students who are enrolled in a "Career Expansion Through Chemical Engineering" program are, left to right, E. Gregg Collier, mathematician and chemist from Friona; Edgar A. Lee, chemist, from Santiago, Chile, and Caracas; and Ronny Brumfield, animal scientist, chemist and

geologist from Portales, N.M. Collier is installing a high volume dust sampler to measure dust levels during dust storms. The research relates dust concentrations and particle size to the survivability of solar energy collectors. Collier is the son of Mr. and Mrs. G.A. Collier, Route 3, Friona. (Tech Photo)

Texas Tech University Offers New Course In Chemical Engineering

A theologian, a zoologist, a high school band director and several chemists have taken the first step toward a new career at Texas Tech University. Within two years they hope to be employed as chemical engineers.

Even moving from chemistry to chemical engineering is not as simple as it might sound, according to one designer of the unusual program, Dr. Robert M. Bethea.

"The greatest difficulty comes in the non-quantitative background of most students in the program," he said. "Many have had some calculus, chemistry and physics, and their thought processes tend to be those of scientists and not of engineers. They are definitely used to qualitative, not the quantitative thinking engineers must use."

The Department of Chemical Engineering graduate program always has been open to other than chemical engineering graduates. Before the new program was initiated three years ago, however, non-engineers had to take two years of leveling courses before embarking on the 30 hours of graduate work required for the master's degree. This discouraged many.

Under the current program, students new to the field spend the first nine months in intensive study designed just for their needs. For the next three months they are urged to work as interns in industry. When they return from the summer job, they join students in the regular master's degree program, ready for final courses, research tasks and thesis writing.

The summer internships help students develop laboratory experience, not possible in the first year of the program, and to gain engineering judgment and common sense. "In many cases," Bethea said, "students benefit from an internship spin-off-a job offer from the employer."

At first industry representatives were openly skeptical of any shortcuts, and the best advisers warned that industry would not accept 21-month-wonders.

"But our experience has been most rewarding," according to Bethea. "Those who complete the first year of accelerated work can hold their own in regular graduate courses in thermodynamics, heat transfer and applied mathematics.

"Best of all, the graduates have found jobs at competitive pay levels as well as acceptance in industry. That's our best test."

There is one major disadvantage for faculty working in the program.

"With such a fast learning rate," Bethea explained, "it would be easy for students to get hopelessly behind in their studies. To avoid this, faculty make themselves available for tutoring sessions, and one afternoon a week is set aside for question and answer sessions.

Betha said the rate of success can be attributed partly to the screening of students before they are enrolled. Entering students must have at least a "B" average overall and nothing less than a "B" average in science courses.

"Then we look for something else," he said. "The course requires tremendous effort, and so we want to see a certain spark of enthusiasm, some indication of tenacity or some other clue that tells us the student is really willing to work extremely hard to achieve the master's degree in chemical engineering.

"These students go at about four times the normal rate. They work 60 hours a week the first year, and we try to be sure before they start that they have some maturity, good study habits and analytical ability.

"While this is a special program for certain students, we cannot lower standards for their benefit. All we can do is help them meet the

standards set for all chemical engineering graduate students."

Students who have earned their degrees in the new program are working now for Procter and Gamble, Cincinnati; Dow Chemical, Freeport, Texas; Conoco, Ponca City, Okla.; DuPont, Beaumont, Texas; Exxon, Baytown, Texas; Texas Eastman, Longview, Texas; Epic Chemical, New York; and a consulting engineering firm in Philadelphia. One, Sidney Shen of Taiwan, is a doctoral candidate in chemical engineering at Penn State University.

Among the students enrolled in the program is E. Gregg Collier of Friona. He is the son of Mr. and Mrs. G.A. Collier of Route 3, Friona.

Ostheim said he inquired of 72 schools before choosing the Texas Tech program.

Brumfield also holds degrees in animal science and geology. Lee holds a master's degree in chemistry and Collier holds a degree also in mathematics.

Co-developer of the program, with Bethea, was Dr. H.R. Heichelheim of the chemical engineering faculty. Also teaching in the program are Dr. Arnold J. Gully, associate dean of engineering, and Dr. L. Davis Clements of the chemical engineering faculty.

Hospital Report

ADMISSIONS--

Retha Edens, Farwell; Alicia Martinez and baby boy, Hereford; Mitchell Reeve, Friona; Russell Roe, Hereford; Kristi Hightower and baby girl, Hereford; Herlinda Martinez, Hereford; Joseph Cadena, Hereford; Susie Cantu and baby girl, Hereford; Alberto Rodriguez, Friona; Jean Wilkins, Farwell;

Eune Martin, Friona; Tony Lijan, Texico; Norma Jaramillo and baby girl, Muleshoe; J.H. Mears, Friona;

Victoria Gonzales, Friona; Maria Castillo, Hereford; Raul Esparza, Texico; Maria Gonzales and baby boy, Hereford; Catherine Brown and baby girl, Summerfield; Abundio Almanza, Jr., Friona; Jason Vaughn, Friona; Jean Ann Wilkins, Farwell; Edgar Walters, Bovina; and Yolanda Tarango, Hereford.

DISMISSALS--

Gwen Roberts, Ada Houser, Rosa Galicia, David Drager, Beverly Burton, Larry Hodges, Leo Aragon, Mitchell Reeve, Irma Elizonda, Avis Henry, Carmen Montoya, Alberto Rodriguez, Jean Wilkins, Clerida Cruz and baby boy, Kristi Hightower and baby girl, Jane Benge, Russell Roe, Eune Martin, J.H. Mears, Wade Jameson, Herlinda Martinez, Tony Lijan, Joe Cadena and Victoria Gonzales.

PATIENTS IN HOSPITAL--

Alicia Martinez and baby boy, Susie Cantu and baby girl, Maria Castillo, Norma Jaramillo and baby girl, Retha Edena, Jason Vaughn, Abundio Almanza, Jr., Edgar Walters, Catherine Brown and baby girl, Maria Gonzales and baby boy, Mickey Dunkin, Yolanda Tarango, Jean Wilkins and Raul Esparza.

F.H.A. Girls Sell Popcorn

The F.H.A. girls will host a Thankween at Friona State Bank October 30 from 8-9:30 p.m.

It will be a costume party and participants should dress for either Thanksgiving or Halloween. This party is for F.H.A. members only.

The F.H.A. members are selling popcorn for their fund-raising project. Each box includes four separate packages with each having its own oil and seasoning. It's great for the holiday season.

When you buy some of the popcorn, you'll be helping an F.H.A. member and enjoying a delicious treat. Each box costs \$1.50.

If you would like some popcorn, contact Gayle Murdock at 247-2054.
