

Star Lites
By Bill Ellis

TWO YEARS HAVE PASSED since the tragedy at Jonestown, Guyana, in which more than 900 Americans lost their lives in the mass murder-suicide inspired by cultist Jim Jones.

Even two years since the event, it is still difficult to believe that such a thing could happen in today's society.

The fact that the horrors transpired in far-off Guyana still is underlined by the fact that the seeds for the cult were sown right here in America.

Survivors and relatives of the victims of the murder-suicide have filed suits against the Peoples Temple, which has some \$7 million in assets, according to public reports. The only trouble is that the lawsuits have added up to more than \$1.8 billion.

Besides the private suits, the U.S. government is seeking \$4.3 million against the Temple's assets to offset the cost of returning the bodies of the victims to the United States.

And meanwhile, the survivors of the tragedy, as well as the families, are still trying to figure out what went wrong, or how such a horrible event could come to pass.

THE RECENT WIN by Ronald Reagan in the general election, as well as the defeat sustained by a number of the longtime liberal members of Congress would indicate that the American voters, by and large, are calling for more conservatism in their leaders.

Losses by such liberals as George McGovern have been analyzed by numbers of commentators on the national scene, and the general consensus is that the average voter was sick and tired of run-away spending by their government, when these same voters are having a tough time making their own incomes match their expenses.

It will be interesting to see how the Reagan Administration goes about its pledge to reduce taxes, and how these same voters who have given him license to "go at it" will respond to the cuts in government spending when they are made.

There has to be some restraint in areas such as social security recipients, and of course, the cities, counties, etc., hope to maintain their "revenue sharing" checks, which do cut down on local tax requirements.

But where do we draw the line? If we demand that our taxes be cut, then we have to be willing to give up some programs which have been funded by the federal government.

Personally, we believe that there have been enough cases of welfare fraud, and instances such as admitted by the Department of Health, Education and Welfare, in which billions of dollars just "slipped through the cracks," unaccounted for, that if the incoming administration can tighten up the government's purse-strings, it could effect a big saving to taxpayers.

Then there are the bureaucracies, in which agencies have been created causing mostly hardships on our nation's industries, already hard-pressed to compete with foreign manufacturers.

Perhaps the new government can take a hard look at some of these non-elected government agencies, and find that in truth, we could do just as well without some of them, without endangering our well being materially.

Here's hoping that they can. But we also need to be prepared, in case our favorite federally-funded program gets the ax. We might have to lose some of the good ones along with the bad, in order to get our nation's ship back afloat.

WINTER SCENE....Friona area residents awoke Monday morning to a mid-winter type scene as the early November snow had dumped six to eight inches of snow, which was then whipped by the wind. Some large drifts resulted, such as this one in the yard of Mrs. W.P. Hutson, at 1610 West 10th Street.

Petition Opposes MX Missile Sites

Don Fortenberry, who lives northwest of Friona, has started a drive locally to collect names on petitions in opposition to placing the MX Missile in this area.

Fortenberry said that according to one feasibility study which had been seen, the plans call for placing one of the missiles within two miles of his residence.

Although some government officials have claimed that this area is not in the running for the MX, it has been said that the Air Force is moving ahead with plans for contracting some \$14 million worth of preparatory work for location of a portion of the MX Missile system on the Texas-New Mexico border.

That work would include planning for support bases at Clovis and Dalhart, with the work at Clovis holding the potential to have considerable impact in the western portion of Deaf Smith County. This is the part which concerns Fortenberry.

"Something else which is disturbing is the fact that, assuming that mankind survives long enough for the missiles to be abandoned, some of the 'bright boys' have come

up with the possibility of using abandoned underground missile silos for permanent disposal of chemical wastes," Fortenberry says.

The petition is worded: "We, the undersigned citizens of West Texas and Eastern New Mexico hereby serve notice that any feasibility study for placing the MX Missile in this area is a gross waste of taxpayers' money, that this is one of the richest agricultural regions in this nation, that the world food supply is shrinking, and that any consideration of this area for a network of nuclear silos and targets is going to be met with fierce and determined resistance by the citizens of this area and through the court system and the legislative and executive branches of state and federal governments. The Carter administration is hereby put on notice to pull its bureaucrats back on this project and give the new Administration time to learn that the people of West Texas and Eastern New Mexico will not tolerate this abuse."

Copies of the petition are located throughout the city. There is a copy at the Friona Star office for those wishing to sign it.

Census Bureau Gives Confusing County Count

The U.S. Census Bureau gave Parmer County's preliminary 1980 population as 10,510, it was revealed through a telegram this week to Judge Porter Roberts.

Back in July, when the preliminary totals were announced for the cities in the county, Parmer County's total was given at 10,496.

Since that time, the City of Friona has been notified that its totals were revised by 132 persons, and at Bovina the total was increased by 77. This should have reflected a gain for the county of at least 209, rather than the 14 as shown in the notice.

The recent gains by the cities may not be reflected in the county total

received this week, as the census bureau indicated that the 10,510 figure will not be final.

"These are preliminary results, which will be replaced later by final counts. The final counts will be shown in the printed reports, which have undergone further processing and review, and may differ from these preliminary totals," stated Vincent Barabba, district director of the census.

The preliminary county total received this week by Judge Roberts--10,510, shows a net gain of one from the 1970 total.

Record Snowfall Will Help Farmers

A record November snowstorm surprised the area Saturday night and Sunday, with from six to eight inches of snow falling in the local area.

The snow was welcomed by farmers, especially those with wheat, as it had been quite some time since any beneficial moisture had been received.

County Agent Seth Ralston said Tuesday that the snowfall from Bovina south was apparently heavier than other parts of the county, falling generally in the eight-inch range. "Generally speaking, the farther south you go, the more snow there was," Ralston said.

Chamber Needs Ballots Back

Deadline for returning mail ballots for Chamber of Commerce directors' election is November 28.

Members received their ballots in the mail last week. Ten names are on the ballots: Janette Maurer, Mike Cortese, Peggy Pope, Ron Procter, Robert White, Lois Norwood, Ben Taylor, Rick Jennings, Bob Hurst and Joe Reeve.

The Chamber also announces that it will have new Christmas pole decorations for Main Street this year, and will also sponsor the Christmas Lighting Contest. More information will be given shortly on the contest.

Santa Claus has been contacted, and will arrive in Friona on Saturday, December 20 at 10 a.m., to visit with the children at the Chamber office.

School Sets Early Turnout

School will turn out an hour early, at 2:45 p.m. on Wednesday, November 26 for the Thanksgiving break, according to Superintendent Tom Jarboe.

School will then be out Thursday and Friday, and will resume at the regular time on Monday, December 1.

An example of modern progress is that every year it takes less time and more money to get where you're going.

Ralston said the snow should give the winter wheat a big boost. Even the irrigated wheat was needing some help. When the current snowfall melts into the wheat ground, the wheat should really "take off," he thinks.

The drifting of the snow on Sunday night made it a problem to estimate the amount of snow which had been received. Farmers who still had their stubble in the field were able to hold more of the snow. Those who had plowed lost more to the blowing wind.

"Overall, as dry as we were, we needed whatever moisture we could get, and this should do a lot of good, even with the drifting," Ralston said.

The only segment of the agricultural community which was hurt by the snowfall was the cotton harvest, and hopefully, the main thing will be the delay in completing the harvest.

City's Annual Thanksgiving Service Slated

The Friona Ministerial Alliance announces that its annual Thanksgiving service will be held Sunday, November 23 at 7 p.m. at St. Teresa's Catholic Church.

"Members of all faiths are invited to give thanks, praise, honor and glory to the God who created and sustains us all," said a spokesman for the alliance.

The service will incorporate singing, scripture reading and the principal message, which will be given by Rev. Archie Echols, pastor of the First United Methodist Church.

A special Thanksgiving offering will be received during the service, which will sustain an emergency fund to be used throughout the year at the discretion of the pastor-members of the alliance.

Special music will be under the direction of Geary Brogden, Minister of Music at First Baptist Church. Brogden will direct a community-wide choir. Those wishing to be a part of the choir are invited to attend rehearsals on November 16 at 4 p.m. and on November 23 at 6 p.m.

Ralston said that preliminary reports from cotton farmers indicate that the 1980 crop is a pretty good one, in spite of drought conditions, which generally hurt all of the county's farm crops.

"We have heard numerous reports of cotton making a bale to a bale and one-half to the acre. Naturally, there are a lot of other reports of three-quarters of a bale, but overall, it looks like farmers will do well with cotton this year," Ralston said.

The county agent said that according to ASCS figures, there were 80,000 acres planted to cotton this year. Some of this acreage was undoubtedly lost, and others have been adversely affected by weather and insects.

But Ralston said he thinks the county still should produce at least 65,000 bales of cotton, which would be the biggest production of this crop by county farmers in over 15 years. The harvest was probably about half complete when interrupted by the snow.

The only trouble with the snow delay for cotton harvesting is the fact that in most instances, the gins cannot operate with weather as cold as we had over the weekend and early in the week, so they will not be able to make as big a dent in the "backlog" as one might think.

There may have been some cattle losses due to the freak storm, but Ralston said that due to the fact that it did not last too long, these losses should be minimized.

There undoubtedly was some inconveniences for cattlemen the first part of the week, as they had to break ice so the cattle would have water, and feed had to be put out in some instances.

Highway travel also was affected by the storm. Over 20 vehicles were reported in the ditch off Highway 60 between Bovina and Friona on Monday, including one large semi-truck near MBPXL, which had turned over on its side.

After a partial melt on Monday, residents awoke to icy conditions Tuesday morning, and were braced for the muddy, slushy mess later as temperatures began to recover to more normal levels.

But most folks are able to "grin and bear it." At least the early winter storm brought some much-needed moisture to the area.

BOUNTIFUL HARVEST....As we approach the Thanksgiving season, we pause to give thanks for that which we have received. Just a few of the "fruits" of the local area's harvest are shown in the above photo. Our immediate area has fared much better than some during 1980.

Ministerially Speaking

By H.D. Simmons
Sixth Street Church Of Christ

"The Uniqueness Of Christianity"
Possibly sometimes we are prone to forget the uniqueness of Christianity. It is imperative that we understand that Christianity is not just another religion. How unique it really is from the religions of the world.

In what way is Christianity unique? Other world religions have man reaching up to God attempting to achieve his own righteousness. But Christianity is God reaching down to man; and with true Christianity man is never able to achieve or merit his own salvation (Ephesians 2:8-9). Man is not able by merely keeping a religious law to earn his own righteousness (Romans 3:20). One would have to keep a law perfectly before he could be justified by law (Galatians 3:10). Thereby he would earn his own salvation. But the only person to ever keep a law in this fashion was Jesus. Therefore all of us are under sin (Romans 3:9-10, 23). Only a divine act of God could save us—so He gave His Son (Romans 5:6-8).

In no way can we merit our salvation. Our trust must not be in our law-keeping ability but our trust must be in the blood of Jesus (Romans 3:25).

We accept His sacrifice by an obedient faith (Romans 5:1, 1:5, 16:26). In this fashion His righteousness is applied to our account. Thank God for His wondrous grace.

CHRISTOPHER FABELA was chosen "most original" in Mrs. Edelman's first grade class at their Halloween party. He received a pumpkin flash light as his prize. **ZORO**, Christopher is the six-year-old son of Mr. and Mrs. Mike Fabela.

Bake Sale Set

The Friona Young Homemakers will hold their annual bake sale on Wednesday, November 26. The sale will be held at D.L.'s Grocery Store from 8:30-11:30 a.m.

This bake sale is held every year the day before Thanksgiving. The Young Homemakers thank everyone for their support of the club.

FRIONA FLASHBACKS

....from the files of The Friona Star

50 YEARS AGO--NOV. 14, 1930

Friona is going to have a Boy Scout Troop and in short time we will see these lads walking along our streets in uniform. E.L. Price is responsible for the movement. He has had three years experience as scoutmaster in Lockney, and he will likely make a success of it here. The boys meet Monday evening at the barber shop for an organization meeting and are showing much interest.

45 YEARS AGO--NOV. 8, 1935

Dr. E.B. Wills, dentist, who has been in Friona for the past few years closed his dentist office here and moved with his family to some place near Waco, where he intends to open an office.

The Friona Chiefs are to make their first trip for a football game this Friday. They are to play Claude in the afternoon. This will also be the first game they have played in the afternoon as they have been taking advantage of the floodlights.

40 YEARS AGO--NOV. 8, 1940

A move is now on foot to secure at an early date, several more miles of paved highways for Parmer County. The new paving as now outlined will include the paving of State Highway 86, which traverses the county east and west from Dimmitt in Castro County, to Bovina, where it intersects Highway 33-60. The other highway, which the new move proposes to pave, is the new State Highway, which connects Muleshoe, in Bailey County, with Friona, traversing the county from south to north.

30 YEARS AGO--NOV. 2, 1950

C.W. Dixon is reported still in serious condition in the hospital in Roswell, undergoing an operation Tuesday and facing another one in the near future. Mr. Dixon, father of Mrs. Ray Landrum, was injured three weeks ago when working cattle on his ranch near Roswell. Though not thrown, he was severely injured internally as the horse pitched with him.

25 YEARS AGO--NOV. 4, 1955

The newly-built Sixth Street Church of Christ structure is one of the latest contributions to the Friona building scene, providing another modern church in a town of outstanding churches. Completed this month, the building is beautifully designed and constructed, inside and out.

Next election, in 1956, will find Parmer County residents voting for a new county elective office, that of County Tax Assessor and Collector. In a special election this Tuesday, the new office was authorized by one of the narrowest margins in local voting records, 97 affirmative and 81 against. Friona sanctioned the division by a slim 21-19 vote, with Farwell polling the heaviest ballot 54 for, 23 against the measure. The new office calls for a four year term, same as that of the sheriff. Mr. Lovelace will hold both positions until the 1957 term begins.

20 YEARS AGO--NOV. 3, 1960

Two men were injured Monday afternoon in an explosion and fire at the Plains Farmer Gin on the Bovina Highway. Jack Dickerson was treated at Parmer County Community Hospital for burns and lacerations. His father Allan Dickerson was treated and released from the hospital. The younger man required hospitalization for his injuries, which included second and third degree burns on the arm and lacerations on the face and ear. Firemen were called to the gin following the blast, which apparently started from a butane leak in a pilot on one of the gin's cotton dryers. Damage to the gin was not believed extensive.

Friona High School's Band will take part in Homecoming activities Saturday at Eastern New Mexico University in Portales. ENMU will take on Southwestern Oklahoma in the football contest that will highlight activities of the day. Friona's band will take part in the downtown parade at 11 a.m. and then perform at halftime.

15 YEARS AGO--NOV. 4, 1965

Friona's district alignment for 1966 and 1967 has been announced. Hale Center and Memphis, both of which are moving up to class AA from A will be in Friona's district, competing along with the six teams which were already in the district. Bovina and Morton, neither met during the last two seasons, will be played as non-conference games. Muleshoe, Dalhart and Plains, played this year, will not appear on the 1966 slate.

10 YEARS AGO--NOV. 5, 1970

Friona voters gave a wide margin to Governor Preston Smith in his reelection bid, gave Lloyd Bentsen an eye-lash margin, and went overwhelmingly against liquor-by-the-drink in Tuesday's election. Smith had the majority in Friona, with 523 votes to 314 for Republican Paul Eggers. Bentsen edged out Bush in the Friona box, 421-415.

5 YEARS AGO--NOV. 2, 1975

Ernest Osborn delivered the first bale of cotton in Friona for 1975. He brought the bale to Friona Farmers Co-op Gin on Thursday, October 30. An official groundbreaking ceremony was held at the Friona Nursing Home site Tuesday morning. Lewellen Construction has estimated the job to take nine months to complete, and says he might beat that estimate if the weather is favorable.

Law Provides For Central Tax Office

The "Tax Relief Amendment" that Texas voters approved in November 1978, known as House Bill 1060 has made changes for all jurisdictions with the power to levy ad valorem taxes. Ad valorem means "according to value."

One of the most important changes is setting up the County Tax Appraisal Office. This office is to serve all the people in Parmer County. The guidelines for setting up the office or Appraisal District are simple.

The Appraisal District boundaries generally follow those of the county. However, if the boundaries of a district overlap two or more counties, it may choose to have all its taxable property appraised by only one

Farmers To Receive Crop Questionnaires

From mid-November to early January, thousands of Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff.

The information gathered through the questionnaires and interviews provides the basis for determining the final acreage, yield, and production of crops and end-of-the-year livestock and poultry numbers for the state of Texas and for each county.

All of the estimates published by the Texas Crop and Livestock Reporting Service are based on the data provided by Texas farmers and ranchers, County Extension Agents, ASCS offices, and many others in agriculture.

This cooperation provides the necessary data which is, in turn, returned to farmers and ranchers and others in the form of accurate estimates, which are so essential in making the wisest production and marketing decisions.

Accurate estimates are also essential to farm organizations and legislators in promotion, planning, and enacting wise legislation and are used in establishing acreages and payment levels to producers under the various commodity programs.

The collection and publication of agricultural statistics are a cooperative effort between the Texas Department of Agriculture and USDA. This cooperation avoids duplication of effort, promotes economies, and increases the effectiveness of statistical reports. All individual farm and ranch information is kept confidential, and only state and county summaries become part of the final published estimate.

County estimates for 1979 and January 1, 1980, are available on Livestock, Poultry, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruits and Pecans, and Cash Receipts from the Sale of Texas Farm Commodities. Bulletins can be obtained from the Texas Crop and Livestock Reporting Service, P.O. Box 70, Austin, Texas 78767, or by writing Reagan V. Brown, Commissioner of Agriculture, P.O. Box 12847, Capitol Station, Austin, Texas 78711.

appraisal district.

The Tax Appraisal Office is governed by a board of five directors, serving two year terms beginning January 1 on even-numbered years. The governing boards of the school districts and incorporated cities and towns participating in the appraisal district elect the directors under a system of cumulative voting.

The county commissioners court, with the approval of the County Tax Assessor-Collectors, choose to adopt into the appraisal district for the county tax purposes, then the county government is also entitled to participate in the election of the district directors.

Taxing units such as: water districts, hospital districts, Junior College districts, etc. will participate in the appraisal districts in all other respects but are not entitled to vote in selecting the directors.

Within an appraisal district, the number of votes which a voting taxing unit may cast is determined by dividing the amount of property taxes imposed by that unit (tax levy, not tax collection) for the preceding year, by the total amount of property taxes imposed that year by all voting taxing entities. This quotient is then multiplied by five, since five directorships are to be filled.

The appraisal district's operations are financed by payments from each participating taxing unit. Each unit's portion of the total cost is determined by the proportion its total amount of property taxes imposed in the district by all participating units. Each taxing unit will pay its allocation quarterly in four equal payments.

The State Property Tax Board will distribute state appropriations to the appraisal districts to aid them in planning for and implementing the Property Tax Code.

The Legislature has appropriated \$2,887,000.00 in fiscal year 1980 and \$2,887,000.00 in fiscal year 1981, for this purpose. One-fourth of these amounts must be allocated to each appraisal district in equal portions, provided no district may receive more than \$25.00 per parcel of taxable real property in the district.

The Appraisal Office will list and appraise property for all County purposes in 1982.

The November 4, 1980 election had an amendment which carried by 58 per cent, making it mandatory for all county tax offices to participate in the appraisal district. Parmer County had already elected to do this in 1979.

Information Is Available

Producers that are considering placing stocker cattle on wheat pasture, corn stalks, milo stubble or nature grass would probably like to take a look at the Stocker Cattle Budget Analysis Computer Program. This service offered by Extension has been well received by area producers. It is designed to aid producers in making management decisions.

Decisions such as what weight, grade and sex of cattle to purchase must be made. I now have the necessary forms at my office for producers to complete and mail in.

Anyone interested should contact the Extension Office in the county courthouse or call 481-3619.

FIVE GENERATIONS.... When the Culp family of Hereford recently visited their mother and grandmother, Berta, who is a resident at Prairie Acres, there were five generations represented. Shown are Mrs. Culp, seated, left, with her son, Nealy Culp. Standing are Niles Culp, left, the grandson, and Mike Culp, holding Kirk, the great-great grandson.

Electric Company Hosts Foreign Group

W.R. "Bill" Esler, vice president of engineering and construction for Southwestern Public Service Company, has announced that the electric company hosted visitors from the Austria Power Authority last Thursday at the request of the White House and the United States Environmental Protection Agency (EPA).

The visitors included an environmentalist and a planner, and the group toured Southwestern's Harrington Station, northeast of Amarillo. Austria, like many other countries, is in the process of switching from fuel oil and natural gas to coal as a fuel for the generation of electricity.

The visitors were especially interested in the fabric filter system or "baghouse" at Harrington. The system is used to control the fly ash that results from burning coal in boilers.

"Southwestern Public Service Company was selected by the EPA to measure and analyze the performance of a large fabric filter or baghouse on a boiler using low sulfur western coal, because of its progressive approach to environmental control. The information being collected under this agreement with EPA is being shared with other utilities in the United States as well as others around the world," Esler said.

Southwestern has had visitors from Japan, Australia, Israel, West Germany and the Netherlands who are all responding to the same need for change to the utility from burning petroleum fuels to coal. Most of the foreign visitors have similar environmental quality controls that make their interest in Southwestern's research on fabric filters a valuable asset to their engineering and design knowledge.

Besides these foreign visitors, Southwestern has shared through national conferences and correspondence baghouse characterization, operation and maintenance information with utilities in Canada and India.

Book Talk

By NELSON LEWIS

There is an adage to the effect that "talk is cheap." Maybe so, but books are not and neither are the buildings that house them nor are the proper personnel to maintain and distribute them. And that is the problem. Our library has grown in a very few years from two small shelves in the Confederated Women's Club House to a collection of over ten thousand volumes.

Who can estimate the enormous impact that this growth has had upon the intellect of our people? How many doors have been opened to young folks? How many hours of pleasure have been provided for older folks who due to illness or privation have been forced to seek relief from the thief we call inflation?

The importance of a big new library in Friona that will serve not only the city but a wide area of neighbors can not be ignored.

Your Library Board and the Friends of the Library are determined to establish such a center of learning and entertainment.

The City Fathers are in agreement but as everyone knows money is in short supply. So it is up to "we the people." A listing of those who believe in the project follows. Why not add your name to the next list?

Entries Are Sought For Xmas Parade

The Llano Estacado Civic Club is coordinating the twenty-first annual Muleshoe Christmas Parade. They need the help of the people in the surrounding communities to bring in the Christmas season. The theme of this year's parade is "Songs of Christmas." Cash prizes will be given for the top three floats. The parade will be held on December 6 at 2 p.m. Parade entries will need to be at the Boy Scout grounds by 1 p.m. If you or your organization or club would like to enter a float or participate in the parade, you should contact the sponsors of the parade, the Muleshoe Chamber of Commerce, located at 104 East Ave. C or call 272-4248 from 8:30 a.m. to 5 p.m. You can also contact Loyce Davis at 272-3355. The deadline for entries is November 28.

The Happy Homemaker

By June Floyd

This week's column is being written from Elkhart, Kansas. One of the most delightful events of the week for me has been a tour of one of this town's most attractive homes. The homemaker, Mrs. Mildred Sweet, is a retired teacher and was teaching kindergarten here when our

grandson, Jason Floyd, started to school. Since then, she has retired. She does some travelling, but devotes most of her time to her home, which is attractively furnished and filled with hand made rugs, which she has made.

Letter To The Editor

Dear Bill,
Anyone who opposes an increase in military spending might turn to Matthew 12:29--
"Or else how can one enter into a strong man's house, and spoil his goods, except he first bind the strong man? And then he will spoil his house."
Acting to defend one's family and home cannot be considered as "War-mongering."
Sincerely,
Nelson Lewis

Incidentally, her husband, Orlando Sweet, formerly of Guymon, Oklahoma, was principal of the school where Ethel Bridges Benger started to high school. Mildred loaned me a cook book which was given to her for a wedding present. It was compiled by The Twentieth Century Club of Wichita, Kansas, and was first copyrighted in 1929.

In addition to household hints and recipes, the book contained a lot of advertising. One full page ad was that of the Hotel Broadway, which offered complete hotel service including coffee shop, dining room, servidor, drug store, barber shop and beauty parlor.

It was fire proof and tabbed its roof garden as "Kansas' Outstanding Convention Facility."

Bazaar Set

At Lazbuddie

The Lazbuddie Community has scheduled its second annual Christmas Gift Bazaar for Thursday and Friday, December 4-5.

This year's bazaar will be held at Ted Treider Electric at the intersection of Texas 145 and 1172 in Lazbuddie from 10 a.m. to 5 p.m. daily.

Some 25 local artists and crafters are each bringing their specialties for your holiday gift giving. "We hope you will come shop with us," says a spokesman for the group.

School Lunch

Menu

WEEK OF NOVEMBER 24-26
MONDAY--Fish, green beans, corn, hot rolls, cake and milk.
TUESDAY--Creole spaghetti, blackeyed peas, beets, light bread, cookies and milk.
WEDNESDAY--Hamburgers, lettuce, tomatoes, potato chips, wonderbars and milk.

SNOW ARCHWAY... The entrance to Prairie Acres Nursing Home was blocked by a five-foot high snow drift on Monday morning. Administrator Jo Blackwell credited Pete Hollis for clearing off their walk on Sunday.

The rest of the City of Friona crew came back both Monday and Tuesday and cleared the walk, Mrs. Blackwell said. "We deeply appreciate this help by the city employees. We were completely snowed in."

Harkey Hikes Contest Lead

Ron Harkey moved into a five-point lead with two weeks remaining in the Friona Star's football contest.

Harkey, who has held the lead in the contest for the past six weeks, scored a 19 last week, and ran his season total score to 175. R.L. Blakely, in second place, posted a score of 16, and has 170 points for the season.

Jerry Hinkle and Sarah Mears remained in contention, each scoring 18 for the week. The two are tied for third place with scores of 169.

In fourth place are Danny Guerra, Dianne Morgan, Joe Santellana and Steve Williams, with scores of 168.

In the weekly contest, Ray Strickland achieved an unusual feat by repeating as a weekly winner. Strickland is the first contestant in quite some time to take a first place twice in the same season.

Strickland had won the ninth

week's contest two weeks earlier. This time, he had to share honors with Gary Thompson of Kress. Both contestants turned in scores of 20, and both were exactly seven points away from the Dallas-St. Louis tie-breaker score.

Strickland missed the West Texas State-Wichita State and Washington-Philadelphia games. He picked Dallas to win, 30-27.

Thompson missed the Texas A&M-Arkansas and Detroit-Baltimore games, and picked Dallas to win, 24-21. The Cowboys won, but by ten points, 31-21.

Two other contestants also had scores of 20. Charlie Morgan claimed third place with a tie-breaker guess of 37-17. This was ten points away from the actual score.

Jimmy Walker of Route 2, Friona, was the other contestant correctly picking 20 games, but missed the tie-

breaker score by 18 points. He picked it Dallas 24, St. Louis 10.

Only three contestants had scores of 19. Besides Harkey, Myrna Cain and Ray Jackson had scores of 19 to keep pace with the contest leader.

Seventeen contestants correctly picked 18 games: Jackie Morgan, Clay Bandy, Johnny Curtis, Jerry Hinkle, Jim Pope, Johnny McLellan, Alesia Tucker, Mark Tucker, Hank Outland, Peggy Pope, Kevin Pope, Clint Mears, Sarah Mears, Joe Santellana, Roy Smith, Dianne Morgan and Edward White.

After the current weekend of games, just one week remains in the annual contest, the slate of games appearing in this week's edition of the Star. Fans are encouraged to fill out a blank and turn it in, and try their luck at winning one of the weekly cash prizes offered.

Area Legal Secretaries Have Course

Casey O'Reilly and Pam Campbell of Collard and Curtis Attorney's at Law and Jeannie Tucker, PLS, of W. Doyle Elliott CPA Office, recently received certificates from the Texas Association of Legal Secretaries for successfully completing the official course based on the Texas Law Office Handbook.

The course was sponsored by Deaf Smith and Castro Counties Legal Secretaries Association and was taught by area attorneys over a ten-week period.

Enrollment consisted of twenty legal secretaries and people associated in legal fields from Hereford, Dimmitt, Dalhart and Friona.

Deadlines Are Given

Due to the Thanksgiving holiday, the Star's news and advertising deadlines will be moved up for our next issue.

Both news and advertising should be in the Star office by 5 p.m. Tuesday, in order to be included in next week's edition.

Those receiving their paper through the mail should get it at the regular time next week. The paper is expected to be at the newsstands somewhat earlier than usual.

Open House Is Scheduled

All Parmer County residents are invited to an open house Sunday, November 23 at the Parmer County Tax Appraisal Office in Bovina, according to Patsy Nance, chief appraiser.

The new office is located at 305 Third Street in Bovina. The open house is scheduled from 2-5 p.m.

The new facility was completed November 1, 1980. "It is the taxpayers' building. We want everyone to come and see how their money was spent," Mrs. Nance says.

TOP EMPLOYEES... These four employees of Prairie Acres were honored for their work as "employees of the month." From the left are Barbara Bentley, dietary; Joy Barlow, 7 a.m.-3 p.m. shift; Tammy Schmidt, 11 p.m.-7 a.m. shift, and Yolanda Mendoza, 3-11 p.m. shift.

WHO CELEBRATED THE FIRST THANKSGIVING?

Who hid the Liberty Bell for safe keeping during the Revolutionary War?

Who hosted the Boston Tea Party?

WE DID!

We're still building on our heritage of individual liberty and the love of God-- Come be a part.

Bovina Sr. Citizens Offer New Service

Because of a grant processed by the Panhandle Regional Planning Commission's Area Agency on Aging, the Bovina Senior Citizens Center has a new information and referral service.

As of October 1, members of the Center and Senior Citizens from around the Parmer County area have been able to get confidential

Local Students Enroll At OST

Twenty-four students from northwest Texas are among 3,104 full-time students enrolled for the fall trimester at Oklahoma State Tech, Okmulgee, Oklahoma.

Tech, the residential, technical branch of Oklahoma State University, is recognized nationwide for the quality of its instructional programs.

Students may select a career area from 46 college-level programs of study offered. All programs earn college credit.

More than 4,000 full-time students enroll annually at the post-secondary technical college campus. Students enrolled for the fall trimester represent all of Oklahoma's 77 counties, 34 other states and 17 foreign countries.

Local students attending Tech, and their program of study, include: Rory L. Brito, diesel mechanics and Michael L. Southward, auto body and paint, both of Friona; Allen D. Parson, culinary arts, Hereford; and Coy D. Mason, diesel mechanics, Summerfield.

information on a number of social, financial and personal areas by calling the center at 238-1452. Information resources include health care, employment, alcoholism, and financial assistance, among others.

According to Minnie Kelso, the director of the Bovina Senior Citizens Center, the new service reduces the isolation an elderly person often feels from the outside world. It helps him take advantage of free and low-cost services to which everyone is entitled. Another advantage of the new service will be that volunteer Senior Citizens will handle the information and referral calls and will be helping people of their age. The "I&R" service is available Tuesday through Thursday, from 1-5 p.m.

Other features of the Bovina Center include a covered dish luncheon on the last Wednesday of each month, table games on Saturday night, and quilting sessions Tuesday through Thursday afternoons. The Center is located one street south of Highway 60 in Bovina.

Square Dance Lessons Set

Square dance lessons have started on Thursday nights at the Congregational Church. Beginning December 2, lessons will be held on Tuesday nights.

Anyone interested may contact Skip Sircic or Wanda Reeve. Lessons are held at the Congregational Church at 7:30 p.m. There will be 20 lessons in the series. A regular dance will be held December 13.

Town Talk

By June Floyd

Call 247-3681 With Your News Item

Everyone who failed to take snow pictures early this week missed a rare treat for Frionans. Monday's drifts were beautiful and very unusual. Since it was a "snow holiday" for local students, a lot of them had fun playing in the pretty white stuff.

Other people who needed to go various places didn't have so much fun...especially those coming in from the south and southeast. Several persons spent the night in Lubbock instead of trying to drive further on the almost impossible to travel roads.

Leon and Laura Coffey went down to the lake near Colorado City, where they have their Air Stream parked to winterize it.

Enroute home Sunday afternoon they spent two and one-half hours driving from Post to Lubbock, where they spent the night. At the same time, their daughter, Janice, who is a student at Texas Tech University, was in Friona, where she was advised to stay.

The Coffeys made it back to Friona Monday afternoon and insisted that Janice stay over one more night before returning to the Hub City.

A trio of Frionans, who would have preferred to be hunting deer in the San Antonio area as they had planned, spent more than six and one-half hours driving from San Angelo to Lamesa.

Dr. Gary Cash, Philip Weatherly and Randy Weatherly had an ideal set up for deer hunting until the weather changed their plans.

These three kept plugging along and arrived home before dawn on Monday.

So much for the weather. It is most unusual for the area south of us to get so much more snow than we get here.

The Star received a note this week from Wright Williams, who was in Neosho, Missouri with his brother and sister-in-law, Mr. and Mrs. Roy Williams. Roy has been in the hospital there, having had his hip joint replaced.

Antique Club Has Meeting

The Friona Antique Club held its regular meeting in the home of Tommie and Wanda Jones on Monday night.

A short business meeting was held. Plans were discussed for the Christmas meeting in December, and the remainder of the evening was spent visiting and enjoying a meal consisting of roast beef, potatoes, tossed salad, brown beans, hot rolls, cake, tea and coffee.

Those present were Raymond and Nola Adams, Selma Habbinga, Jerry and Patsy Zachary, Orma Flippin, Ruth Jones, Rudolph and Clara Renner, Elvie and Virginia Jennings and the host couple, Tommie and Wanda Jones.

He said that Roy was getting along nicely.

As the Missouri Williamses received their copy of the Star while Wright was visiting, he filled in his football contest entry and mailed it in, so didn't have to miss a week. We enjoyed getting the note.

Dale and Letha Cunningham and children, Cory, Shelly and Sherry, have moved from the corner of Eighth and Prospect to the former home of the late Mr. and Mrs. Tay Nittler.

Mitchell and Johnnie Wiseman moved into the house vacated by the Cunningham family. Letha's sister, Barbara Taylor, and her children, Amy, Jeff and Rick, who live in Lubbock, were weekend visitors in the Cunningham home. Their visit was extended until Tuesday noon by the snow covered roads.

Joe and Jessie Douglas returned home early last week after spending a week or two visiting in the home of Mr. and Mrs. Dean Collins of Carbon, Texas.

Mrs. Collins and Jessie are sisters. Jessie reports that their youngest son, Dan, has recently changed jobs. He will be spending less time overseas and his parents are pleased about that angle of his new position.

James and Vernell Cunningham returned home late Friday following a fishing vacation, which they spent at Aransas Pass and other nearby places.

Johnny Bandy and Carla Sears, both of Lubbock, were weekend guests in the home of Johnny's parents, Eugene and Patsy Bandy. On Sunday the couple's other sons, Clay and Todd and their wives, Tamela and Lori, joined the rest of the family for lunch.

D.L. and Ruth Harguess returned from Amarillo Tuesday. D.L. had

been a surgical patient at High Plains Baptist Hospital for about a week. He's making satisfactory progress.

Calvin and Ann Martin got home just before dark on Sunday after driving from Amarillo Airport. These two had been on a two week vacation in Hawaii, so they came directly from a balmy temperature area to an extremely cold and windy one.

Being the hardy West Texans they are, they didn't let the weather stop them from driving on home after getting off the plane in Amarillo.

They reported a wonderful trip, which was planned to mark their fifth wedding anniversary. Don't know whether their tour guides were aware of it or not, but by some happenstance (or deliberate plan) this couple was selected to occupy the honeymoon suite in one of the hotels where they stayed.

Bill and Ann Carthel and family plan to enjoy having the Donny Carthels closer to them. For several years Donny has been teaching and coaching at Dubuque, Iowa.

In the late summer he and his wife and two children, Colby and Courtney, moved from Iowa to Saginaw, Texas.

Donny is teaching and coaching in the Boswell High School in Fort Worth. He reports that his team didn't do as well as the former ones, but that he's enjoying being back in Texas.

Mrs. Shirley Williams of Lubbock was a weekend visitor in Friona. She visited Nelda Miller and Mr. and Mrs. Todd Bandy. Shirley and Lori's mother, who lives in Phoenix, are long time friends.

Mrs. Williams has recently moved from Phoenix to Lubbock.

Mrs. H.D. Simmons returned home Wednesday afternoon after spending several days with her father, Frank McAnnally of Edna, Texas,

who is seriously ill.

Bud Reed has been dismissed from the local hospital. Out-of-town visitors in the Reed home last weekend included Mr. and Mrs. Marlin Pierce of Vega.

The Pierces, who are Debbie Shirley's parents, also visited Jess, Debbie and the children. Mrs. Pierce is Bud Reed's sister.

Bobbie Jean and Robert Widner of El Centro, California, have recently been selected Worthy Matron and Worthy Patron of the Eastern Star Chapter there.

They will be formally installed December 7. Mrs. Widner is the former Bobbie Jean Barker. One of her sisters, Mary Lou Collier, and her brother, Judge Barker, live here.

Bobbie Jean is a 1945 graduate of Friona High School.

Judge Barker is home following surgery at High Plains Baptist Hospital earlier this week.
