

"By Helping Business You Help Yourself"

# The Floyd County Plainsman

FLOYDADA, FLOYD COUNTY, TEXAS, APRIL 15, 1943

NUMBER 19

## Wool Growers Urged to More Feed

Wool growers were asked this week for maximum production of all feed grain during the year.

Increases in cattle, sheep, and hogs throughout the state are being met by the USDA War Board, department of agriculture, which stated that it would take a production of all grain through this year to meet the needs of a backlog of feed for the state.

State statistics, produced by the USDA, show a total of 7,310,000 bushels of grain on hand January 1, 1943, compared to 7,444,000 bushels on hand in 1942 while the average from 1932-41 is 7,400,000 bushels.

Wool producers had a total of 1,000,000 sheep compared to 900,000 in 1942 and 1,000,000 in 1932-41.

The increase in hogs, which was approximately 2,000,000 compared to 2,042,000 in 1942 and that the average for the past 10 years was only 1,800,000.

The biggest increase in Texas shows in production of hogs, according to statistics. Last year, a total of 1,000,000 hogs were shown in the state as compared to 900,000 in 1942 and 1,000,000 in 1932-41.

Wool producers are urged to increase their production of feed grain to meet the needs of the state.

## 15-County Scrap Drive For West Texas District

Lieut. Col. Frederick W. Franke, quartermaster officer at South Plains Army Flying School, has been named coordinator of salvage for a 15-county West Texas area, it was announced this week.

Tentative plans will include a mobile unit of several trucks and accompanying personnel to make a complete coverage of the area, gathering all metal which can be salvaged. The trucks will carry the area thoroughly with each farm and home being visited, Lieut. Col. Franke said.

The counties included in the area are Bailey, Lamb, Hale, Floyd, Motley, Cochran, Rockey, Lubbock, Crosby, Dickens, Tarrant, Terry, Lynn, Garza and Kent.

After the scrap is collected it will be shipped to central points from the nearest railroad station, according to present plans.

## Sign-Up Campaign Draws to Close on Food Program

Sign-up of Texas' 418,000 ranchmen and farmers under the 1943 Food for Freedom began tapering off this week as counties started filing final reports in the state AAA office.

According to the Texas USDA War Board approximately 90 per cent of all farms and ranches already have signed for maximum production under agriculture's war program, which calls for increases in nearly all commodities.

Counties which have not completed their campaign were notified this week by B. F. Vance, chairman of the board, to complete plan sheets immediately and transmit county figures for state tabulations.

Purpose of early tabulations is to ascertain whether all goals have been pledged or whether adjustments are necessary in some counties.

Since the Food for Freedom program aims at maximum production from the entire state instead of from individual counties, some goals necessarily are re-allocated after pledges have been made by producers.

If goals have not been pledged in all counties, other localities in the state will be given an opportunity to increase their pledges to make up the differences. Through this manner of adjusting, the State USDA War Board expects all goals to be pledged.

Final date for adjusting farm goals has been set for June 1 and no adjustment may be made after that date, Vance said and explained that all producers would be notified of their specific warcrop goals before planting time.

## Clarence Ray Westfall Wins Flight Officers Bars

Victorville Army Flying School, Victorville, California, April 15.—A score of young Texans today won flight officer bars and were designated full-fledged glider pilots in the Army Air Corps after completing advanced training in the cargo or "invasion" gliders here.

Clarence Ray Westfall, 707 Ross Street, Floydada, was among the men to receive their bars.

Let Cavanaugh do your Printing

## What's Money For?

Unless you are just a coin collector your money is useless only for what it can buy.

If we lose this war—and we can lose it—your money will buy a lot of things for the Japanese and Nazis. They will tell you how much, and it will be plenty.

It would be nicer to buy things with it for yourself after we win the war—and we can win it.

Whether we win or lose depends on you, the typical free American citizen.

A free American citizen can keep his money and let the conquerors get it after they break through our defense lines. Or he can lend it to the Government to buy lead and bayonets to stop the international pirates. After the war he gets money back with interest.

Others are giving their lives. You can buy war bonds today. The Dallas Morning News, Wednesday, April 14, 1943.

## Commissioners Court Met in Regular Session

The Commissioners Court met in regular session Monday. Various accounts and reports were checked, allowed and approved.

**AUDIT OF BOOKS ACCEPTED**

Special audit of the books, records and accounts of Floyd County by C. A. Niemeir of Lubbock, for the period of from January 1, 1942 to December 31, 1942, was accepted by the Commissioners Court.

A contract was also signed by C. A. Niemeir, of Lubbock and the Commissioners Court, to make a complete audit of the records of Floyd County, Texas, and to make a budget. Audit to cover the period beginning January 1, 1943 and ending December 31, 1943.

**INVEST VARIOUS EXCESS FUNDS IN BONDS**

The Court ordered the County Treasurer to invest excess money of various funds in War Savings Bonds. \$155.95 in excess money of the permanent school funds, \$2,000.00 of the Jail Building Fund and \$1,000.00 Courthouse Annex Fund, all to be invested in War Savings Bonds. Said amounts being over and above what is necessary for each fund for 1943.

## Janitor Hired

The court passed an order hiring Jno. L. Green as janitor for the courthouse and keeper of the lawn. Salary was set at \$90.00 per month, beginning April 1, 1943.

## Inspected Jail

The court inspected the jail and recommended that the walls be re-plastered and the roof fixed. Also roof and dome of court house was ordered repaired by hiring L. B. Maxey to do the repair work.

## Wages Set for Road Machinery Operators

The Commissioners Court while in session Monday passed an order to pay operators of road machinery and bridge hands hired in connection with road work, until revoked, the following scale: All machine operators to be paid 65c per hour for their services, and all bridge hands to be paid 45c per hour for their labor.

Throw your scrap into the fight.

## Lockney Cannery To Operate Again This Year

In the regular session of the Commissioners Court Monday an order was passed authorizing the opening at Lockney of Floyd County Cannery again this year.

The project is to be sponsored by the Home Demonstration Clubs of Floyd County. Opening date to be some time in June, the exact date to be set by the county clubs.

Mrs. T. L. Griffith was hired as supervisor of the cannery and she is to be paid a salary of \$75.00 per month for her services in this capacity, with the condition that she operate it on the same plan as she did last year.

## Changes Made in Demonstration Schedules

College Station, April 15.—Several changes in the dates and meeting places for district conventions of the Texas Home Demonstration Association have been announced by Mrs. W. G. Kennedy, Hamilton County, Association president.

The revised schedule is as follows: District 1, Amarillo, May 11; District 4, Fort Worth, May 4 and 5; Gilmer, May 6; District 6, Monahans, May 4.

According to Helen H. Swift, sociologist for the A. and M. College Extension Service who works with rural women's organizations, Mrs. Kennedy will attend the meetings at Fort Worth, Gilmer, Cameron or Waco, Jasper, and Hempstead. Mrs. Leon Sullivan of Ellis County, the Association's vice president at large, will be present for the meetings at Coleman, Floresville, and Falfurrias, while Mrs. J. Y. Welch, Rusk County, secretary, will go to Amarillo, Littlefield, and Wichita Falls. The executive committee will be represented at the Monahans meeting by Mrs. Jim Barker, Callahan County, vice president for District 7.

Misses Elizabeth and Grace Beedy went to Fort Worth Friday and visited their father, Arthur J. Beedy. Mr. Beedy and daughters returned to Floydada Sunday and Mr. Beedy visited his family here returning to Fort Worth Monday.

Holidays observed in Texas alone are Texas Independence Day, March 2, and San Jacinto Day, April 21.

## Annual Meeting of Rural Electric Coop., Inc.

The Floyd County Rural Electric Cooperative, Inc., will hold its annual meeting in the District Court Room Saturday, April 17, at 2:00 p. m.

This is an important meeting and all members are urged to attend. Election of board of directors, annual report of the secretary, and other business matters will be discussed.

## Dairy Days Are Scheduled for Many Places

College Station, April 15th.—Despite gas and tire rationing and the labor shortage many farm people have expressed an interest in continuing Dairy Days this year, and already seven have been scheduled, says E. R. Eudaly, dairyman for the A. and M. College Extension Service.

The schedule to date includes events at Comanche on April 20; Brownwood on April 21; Coleman on April 22; Ballinger on April 23; Midland on April 24; Henderson on April 28; and Sulphur Springs on May 21. Last year approximately 20 dairy days were held in the state, drawing an aggregate attendance of about 12,000.

Dairy Days have been promoted by the Extension Service since 1938. At these events the entire crowd is encouraged to classify according to quality the cattle and dairy products brought in. Often demonstrations on the preparation and nutritional value of dairy products are included in the program as well as exhibits of good equipment and talks on feeding for maximum production.

Eudaly says that growth of the Dairy Day program has been revealed, not by attendance alone, but by the improved types of dairy cattle and dairy products brought to the shows. All cattle or dairy products brought to the show are classified, the various qualities designated by blue, red, white, and pink ribbons.

One result of the shows has been education in the judging of farm produced butter. Eudaly explains that little butter in Texas is graded according to U. S. standards, but at Dairy Days people learn to detect foreign flavors in butter, as well as defects in body, color, and salt, and how to remedy these signs of poor quality.

## Cattle on Green Pasture Need Less Protein

Dairy cows grazing green permanent pasture will need only from 12 to 15 per cent protein in the grain mixture. In view of the prevailing shortage of protein feed this is of vital concern to dairymen, says E. R. Eudaly, dairy husbandman for the A. and M. College Extension Service.

A cow getting a high protein roughage needs only three pounds of the grain mixture to make a gallon of milk, but with low protein roughage she needs four pounds for the same production. Some of the high protein roughages common to most Texas farms are oats, wheat and barley pastures; and the green permanent pastures of bermuda, buffalo, dallis, carpet, rescue, rye, sudan and Johnson grasses. Other high protein roughages obtainable on some Texas farms are cowpea hay, peanut hay, and alfalfa and clover hay. The green grasses, and alfalfa and clover make high protein silage if put down "about half dry enough to make hay."

Contrasting the low protein requirement of green pasture with other roughages, Eudaly says that a cow getting bermuda or Johnson grass hay, sorghum cane hay, dry grain sorghum bundles, or dry grass would need a grain mixture containing 21 to 23 per cent protein. One third to one half of the mixture would have to be cottonseed meal, depending upon the grain used. Comparatively, only one fourth to one sixth of a mixture analysing 12 to 15 per cent protein would have to be cottonseed meal.

On the basis of income, Eudaly says that at prevailing prices for feed and milk a cow will return \$27 an acre by grazing oats three months, compared with a net of \$18.50 an acre from harvesting and selling the grain.

Good sudan pasture is worth as much as oats and on the average will furnish good grazing for three months, Eudaly says. It may be planted up to June first.

## Summer Sessions For Teachers Will Be Continued

Austin, Texas, April 15.—Summer session offerings for public school teachers will go on as usual at the University of Texas, starting June 7, despite the new term schedule based on three weeks of 16 weeks each, Registrar E. J. Mathews has announced.

In order to cooperate more fully in the Navy personnel training program, the University will go on a trimester basis in July, with the three terms to start on July 5, November 1, and March 4.

To accommodate the regular summer students of the University, many of whom are public school teachers, a full summer school program has been planned, Mathews pointed out. Beginning June 7, there will be an intersession in which students may complete either a three-hour or four-hour course.

The first trimester will be divided into a summer and fall term, the summer term to begin July 5 and end August 28. During this period, students may complete as much as nine semester hours' study. An even wider array of course offerings than usual is now being mapped out by University departments, Mathews said.

**AMERICAN HEROES**

Just before the orders to commence firing, our radio station on Midway was blown to bits. Marine Sgt. Harold P. Hazelwood, the operator, was severely wounded by shrapnel. Despite his serious wounds, he assembled parts and sent out the firing orders that saved the day.

Your money is needed to "save the day" every day. You've done your bit; now do your best—Buy more War Bonds.

## Will Americans Be More Tender With Their Money Than Lives of Their Sons

Washington, D. C.—A blunt challenge—whether Americans will be more tender with their money than with the lives of their sons—confronts U. S. citizens as they prepare to meet the appeal of the government to put an additional 13 billion dollars into the fight in the next three weeks.

American dollars, which run off to some cozy shelter to hide while American boys are dying to defend our cities and towns from destruction and invasion will face a rising demand from all classes of patriotic citizens to come out and fight.

Millions of workers who now are buying War Bonds regularly out of current income must lend extra money to their government during the Second War Loan campaign (which started April 12).

In recognition of the spirit of sacrifice which is sweeping over the land as our troops swing into offensive action in Africa and await the signal for a landing in Europe, the Treasury Department is offering a series of government bonds to fit every pocketbook.

No matter whether Americans buy the familiar Series E Bonds or 2½ per cent bonds or 2 per cent bonds or tax certificates, they will be doing their part to make the Second War Loan drive a success.

**Consumer Spending Too High.**  
Consumer spending in 1942 was

much too high to meet the war situation of 1943. Last year more than 82 billion dollars of our soaring national income went to feed the desires of Americans for clothes, recreation, foods and luxuries. As these items grow scarcer, more of our income must be diverted from such expenses into government bonds.

During 1942 millions of our fathers, sons, relatives and friends were in training here and abroad. Some were already in action. Casualties were beginning to bite into every community. War Bonds became a vital link between the home and fighting fronts.

Today sacrifice has become a way of life for America's fighting men. Civilian spending on the 1942 scale must go out the window if the home folks are to attempt to match the heroism of our boys at the front.

Not every American can take his place in a bomber or in a foxhole or on a fighting ship but he can fire away at the enemy by lending money to the government.

### AMATEUR POULTRYMEN'S PROBLEMS IN RAISING BABY CHICKS

Raising the chicks after getting them from the hatchery is the main problem for amateur poultrymen—and some times for the more experienced, too. Proper spacing in the brooder house and disease prevention are the main elements in the brooder house and disease prevention are the main elements in bringing them successfully into production, says George P. McCarthy, poultryman for the A. and M. College Extension Service. And correct spacing is the chief of these.

Crowding opens the gate to disease which pick off chickens that otherwise would become needed producers. The right capacity for a brooder house having 100 square feet, for example, is 200 chicks.

Fowl pox, or sorehead, and coccidiosis, levy a heavy toll on eggs and chickens. Both are preventable, McCarthy says. Beginners, or those who have experienced outbreaks on their farms, should make vaccination of flocks for fowl pox a "must" this season, especially the pullets after the cockerels have been sold. Vaccination, which costs approximately one-half cent a pullet, is the safest chicken insurance. The county agricultural agent will advise or help in applying it.

Sanitation is the best preventive of coccidiosis—clean feeders and waterers, and clean, dry litter, with emphasis on dry. Coccidia need moisture to develop. Stirring the litter, moving the feeders and

water fountains to new locations in the house daily will keep it down. Feeding of sulphur in the mash, along with good sanitation, also has proved successful as a preventive. The recommendation is to add two and one-half pounds of dusting sulphur, or unconditioned 325 mesh sulphur in 100 pounds of feed. Chicks must be at least three weeks old and running in the sunlight before sulphur is fed, and it cannot be fed to chicks which are in batteries.

Complete information is contained in Extension publication "Prevention of coccidiosis," which may be obtained from the county agricultural agent.

### SPRING SPORTS IN THE MAKING AT LUBBOCK FLYING SCHOOL

The spring sports season is almost ready to get under way at South Plains Army Flying School with baseball and track due to hold the spotlight. A stiff diamond schedule has been lined up by Lieut. Nathan Eubank, physical director, with dates already set for 32 games and more being sought. Track competition will be on an intersquadron schedule as will volley-ball and softball.

### MRS. J. S. SOLOMON ILL

Mrs. J. S. Solomon is seriously ill at the home of her daughter, Mrs. N. W. Williams. Mrs. Solomon suffered a paralytic stroke Tuesday afternoon and was carried to the home of Mr. and Mrs. N. W. Williams.

### WEEKLY RABBIT DRIVES ARE ANNOUNCED FOR OFFICERS AND MEN

A weekly rabbit drive for officers and enlisted men at South Plains Army Flying School has been started in an effort to save the "Victory Farm" from rapid destruction.

The men participating are limited to sticks and clubs for weapons. The first time out only one

rabbit bit the dust. Another round-up was called and this time 19 bunnies met their doom.

To make it more interesting for the men army officials have offered three-day passes to all men getting rabbits if the passes do not interfere with training or flying routines.

# THE 2<sup>nd</sup> WAR LOAN DRIVE IS ON!

# America...you've got to get tougher!

**A**MERICA — Let's be frank about it . . . so far, many of us back home have been fighting this war from an easy chair.

Many of us have bought War Bonds out of *extra* cash, out of money we didn't miss too much. We haven't been really tough with ourselves.

But this war is a hard, down-to-reality war. And many of our boys are dying in it.

### We've got to buy MORE

So your government asks you to buy Bonds and *more* Bonds — to get really tough with yourself. We're asking you to give up the frills and "extras" for the rest of this war.

We know how human it is not to make sacrifices until the crisis drives us to it. In England they felt the same way until the bombs started falling. Now they can't do enough!

Bombs are such persuasive things. But just as persuasive ought to be the spirit of our brothers, sons, husbands — who are ready to give all. Think now . . . what are your dollars, compared to their lives?

### If you could see

Look at it this way — suppose you had a magic carpet that could take you to Africa and New Guinea. Suppose you could hear the groan of American boys wounded, and American boys dying . . . Say now, how many Bonds would you buy?

### That kind of war

THEY . . . *are* dying. And they will keep on dying until we drown the enemy in an overwhelming torrent of bombs, bullets, guns, tanks, planes, ships, and shells.

That's why we're asking you, in this one month of April alone, to lend Uncle Sam 13 billions of dollars — by buying War Bonds. 13 billions of *extra* dollars — over and above any buying that you'd be doing anyway!

### A lot of money

Of course, 13 billion dollars is a lot of money. It'll take sweat and tears to raise it. It'll mean going *without* now. But also—it will mean *savings* now—to buy later. It'll mean giving up *everything* you can't square with your conscience, so that we, us, our children,

can have a better, more decent place to live in when this war is won.

### The drive is on

So during this month of April, if someone calls on you to ask you to buy War Bonds in this 2ND WAR LOAN DRIVE, will you buy to the limit—and then buy more?

Better yet, will you go to your Bank, Postoffice, or wherever you're used to buying your Bonds — and buy NOW? Will you lend *extra* money this month? Money that can hasten the day of Victory? Money that can help to save American lives—perhaps your son's or your brother's or your husband's—by helping to shorten this war?

### Money buys money

Remember, what you're really buying with your money is still *more* money. For after all, these Bonds are *money!* Money plus! Every dollar you put into War Bonds will bring you a dollar *plus interest.*

So the more Bonds you buy the better for you. Americans — Get Tough — with yourselves — for your country.

### There Are 7 Different Types of U. S. Government Securities — Choose the Ones Best Suited for You:

*United States War Savings Bonds — Series E:* The perfect investment for individual and family savings. Gives you back \$4 for every \$3 when the Bond matures. Designed especially for the smaller investor. Dated 1st day of month in which payment is received. Interest: 2.9% a year if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1000. Redemption: any time 60 days after issue date. Price: 75% of maturity value.

*2½% Treasury Bonds of 1964-1959:* Readily marketable, acceptable as bank collateral, these Bonds are ideal investments for trust funds, estates and individuals. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1959. Denominations: \$500, \$1000, \$5000, \$10,000, \$100,000 and \$1,000,000. Redemption: Not callable till June 15, 1951; thereafter at par and accrued interest on any interest date at 4 months' notice. Price: par and accrued interest.

*Other Securities:* Series "C" Tax Notes; 7/8% Certificates of Indebtedness; 2% Treasury Bonds of 1950-1952; United States Savings Bonds Series "F"; United States Savings Bonds Series "G."

**WOMEN TEACHERS FRATERNITY MEET IN PLAINVIEW; ELECT NEW OFFICERS**

Mrs. Willie Merle Haitcock, teacher in the Plainview High School, was elected president of the Gamma Iota Chapter of the Delta Kappa Gamma, honorary fraternity for women teachers at the recent quarterly meeting at the Hilton Hotel. She succeeds Mrs. Lee Nowlin of Kress who has been president of the organization since it was formed five years ago. Mrs. Nowlin was presented with a handkerchief shower in appreciation of her services.

Mrs. Evaugh Hackler of Abernethy was named first vice president; Mrs. Helen Estes Richardson of Dimmitt, second vice president; Miss Mattie Devin of Plainview, treasurer; Mrs. Gladys Whitacre of Hale Center, recording secretary; Mrs. Walter Travis of Floydada, corresponding secretary and Mrs. Charles Welker of Tulia, parliamentarian.

Pioneer teachers of this section were honored by the chapter in keeping with a national Delta Kappa Gamma project. Two of them, Mrs. Ola Legg of Plainview and Mrs. Alice B. Crane of Tulia, were present.

Other designated pioneer teachers from this section are Mrs. Elsie Porter Stone, Sudan; Mrs. Anna Louise Baar-Wiseman, Littlefield; Mrs. Ruby Woods, Cotton Center; Miss Roxie Ivy, Floydada, and Mrs. William G. Kennedy, Muleshoe.

Mrs. L. E. Slate of Sudan discussed pioneer women teachers in this section—their contribution to education, their influence upon the community life, and their contribution of the life and thought of the day. She also gave sketches of their lives.

Founders' Day was observed by the chapter with a candlelighting ceremony conducted by Mrs. Nowlin.

Mrs. Haitcock reviewed the book, "Learning the Ways of Democracy."

Miss Mary Jane Hamilton gave a piano number, "Second Mazurka" (Godard) and Mrs. Welker played "Waltz in A Sharp" (Chopin). Mrs. Charles H. Dean played for chapter singing which was led by Mrs. Nowlin.

**CONSUMERS FUEL ASSOCIATION ELECTED DIRECTORS IN MEETING MONDAY**

The annual meeting of the Consumers Fuel Association was held Monday afternoon at 2 o'clock in the district court room. Chas. C. Huckabee, secretary, made his annual report to the stockholders.

Three members of the board of directors came up for election. Those whose terms expired were: M. L. Probasco, G. C. Collins, and J. J. Thomas. Probasco and Collins were re-elected and A. S. Cummings was elected to take J. J. Thomas' place. Holdover members of the board are John A. Lloyd and P. J. Wilkes.

Throw your scrap into the fight.

**New Development In Southern Wood Pulps Indicated**

Austin, Texas, April 15.—New developments in the use of Southern wood pulps indicate a bright future for Texas lumbermen, Elmer Johnson, industrial geographer at the University of Texas, declares.

While war demands for paper products have held production of wood pulp and paper in the South at an all-time high, revolutionary developments in the use of plywoods foreshadow great post-war demands as well, Johnson explains. In addition, the growth of the heavy chemicals industry in the South is making it possible for Southern paper manufacturers to produce fine white papers in competition with imported wood pulps and papers.

"The South is in an advantageous position for further expansion," Johnson asserts, "because of its extensive range of forest, the abundance of low-cost fuel, water and power."

The pine region of East Texas is a part of the Southern lumber belt, and growth conditions there are perhaps better than the average for the pine forests of the whole South, Johnson said.

**SERVICES CONDUCTED FOR MRS. W. W. LYLES**

Funeral services for Mrs. M. W. Lyles, 59 years old, was held Tuesday at South Plains. Mrs. Lyles, a resident of the plains and Floyd county for the past half century, died Friday while visiting relatives at St. Louis.

Mrs. Lyles was born July 29, 1883, in Tennessee and was married in December, 1901, at Turkey. She had lived at Turkey and South Plains for 50 years.

Surviving are Mr. Lyles, seven daughters, Miss Helen Lyles and Miss Almadrene Lyles, Lockney; Mrs. W. A. Ross and Mrs. Leo Haynes, St. Louis; Mrs. Don Williams, McAlister, Oklahoma; Mrs. Johnnie Williams, Portales, New Mexico; and Mrs. C. A. Stephens, Corpus Christi; three sons, C. M. Lyles, Lockney; O. C. Lyles, St. Louis, and Roy E. Lyles, Sioux City, Iowa. Eleven grandchildren also survive.

John McCleskey, of Afton, visited in Floydada Wednesday with his parents, Mr. and Mrs. S. B. McCleskey.

Throw your scrap into the fight.

**Better Own Living Conditions to be Taught**

Denton, Texas, April 15.—North Texas State Teachers College is one of five colleges commissioned by the American Association of Teachers Colleges to plan practical methods for teaching school children to better their own living conditions and to solve social, educational, and economic problems.

Dr. J. C. Matthews, director of teacher training on the campus, will direct the study at the school.

Colleges selected to conduct a year's study will also receive fellowships made available by the Alfred P. Sloan Foundation. These fellowships will enable the director of the study at each college to visit three teaching experiments. The presidents of the five colleges will also visit at least one of the experimental projects. President W. J. McConnell of N. T. S. T. C. has already visited the Florida project as a member of the evaluation committee of the American Association of Teachers Colleges. In order to assist them in developing their plan for the project here, he and Dr. Matthews will visit the Vermont project early in May.

Following the year's study, each commissioned college is to report to the Association the chief economic, social and educational needs of its locality. In addition, each will recommend possible teaching methods which the school might offer to meet the various needs.

**Passenger Traffic 4 Times Greater Than 1917-18**

"Passenger movement four times greater than in World War I."

During the first year of the present war the railroads have transported 11,641,838 troops, including inductees, the Army Transportation Corps reports. A total of only 2,734,527 troops, including inductees, was handled in the first year of World War I. "Of the troops moved during the first year of the present war," the Transportation Corps statement says, "almost 60 per cent travelled on special trains. The railroads were called upon to provide 21,000 special trains, in which there were included 197,288 passenger cars and 79,443 baggage and freight cars. More than 55,000 open top cars were included in the special trains, reflecting the large numbers of trucks, tanks and heavy guns now included in the equipment of a military unit."

**CARLOADINGS FOR WEEK ENDING APRIL 10th**

Santa Fe System carloadings for the week ending April 10, 1943, were 21,700 compared with 20,192 for the same week in 1942. Cars received from connections totaled 11,952 compared with 8,815 for the same week in 1942. Total cars moved were 33,652 compared with 29,007 for the same week in 1942. Santa Fe handled a total of 34,868 cars in the preceding week of this year.
