NUMBER 26

DISTRICT SOFTBALL TOURNEY BEGINS MONDAY P. M.

Old Settlers Begin Annual Get Together

West Texans Meet at Mt. Blanco, Talk Over Old Times on Plains

Ten to fifteen thousand old and new West Texans are at Mt. Blanco today celebrating the anniversary of the birthday of Hank Smith.

Born on August 15, Mr. Smith's birthday is celebrated annually on the day nearest to that date which fits local conditions and the times.

Assured of an ample food supply the old settlers and their cowboy associates of an early day are gathering at the Hank Smith Memorial Park this morning.

Lawrence Randolph has announced to the old-timers he will have a supply of beef cooked for them under the ground, an old custom almost forgotten.

Meanwhile attendance figures are set at any where from 5,000 to 15,000 for the two-day celebration.

Old Settlers, old cowboys, West Texans all are converging on Mt. Blanco Memorial Park.

Every-one of them remembers kindly the spirit with which mail was distributed from the post office there by Mrs. Smith and the pioneer spirit which inspired Hank Smith to welcome them to the first post office ever to serve people of this area.

Last year old timers, with appropriate ceremonies, dedicated a shaft some 16 feet tall to Mr. and Mrs. Smith. This year the dedication will be sealed by a loyal attendance at the re-union marking the seventy-first year since Mr. and Mrs. Smith made history by moving into this then unsettled country to set up a home.

Appropriate Program
An appropriate two-day program has been planned. Mrs. Evelyn Lowrie, grand daughter of the pioneer and secretary of the association, says that the plans are completed for two days of fun and merriment for the old-timers. Fun and amusement for the younger generation and for the newcomers is being provided also.

An old fiddlers contest, a side saddle parade, old fashioned dancing, speeches by the old timers themselves and speeches by imported talent are in the plans.

Accident Near Ralls Does Slight Injury To Three of Floydada
Mr. and Mrs. W. M. Ferrier and B. P. Sandefur, of Floydada, were injured painfully but not seriously Sunday afternoon late on the highway 3 miles this side of Ralls, as they attempted to detour construction work in progress on that road.

Mrs. Ferrier had the more serious injuries. Their car was badly damaged, and the party spent the night at Ralls, coming on home on Monday.

They had been to Slaton to visit a sick relative in a hospital there.

FORMER NEWSPAPER MAN, NOW DOCTOR AT NORMAN, IS VISITOR OF WEEK HERE
Dr. Carl T. Steen, member of the staff of Central Oklahoma Hospital at Norman, Oklahoma, and his family, have been visiting here since last week-end with relatives, among them his mother, Mrs. Annie E. Steen, 225 West California street, his sister Mrs. E. C. Mince, Mr. Mince and family at Lakeview, and Homer Steen.

Dr. Steen, a former publisher of The Hesperian in pioneer days, has been a member of the staff at the hospital since the early twenties.

Floyd County Put on List For 1939 Farm Purchase Program; Area Broadened

Trailer's Cute—The auto trailer fad has hit England. Or perhaps it was Joy Jelbart, 3, and her miniature car and trailer that tickled her elders. Anyway, Joy won a prize for having one of the best features in a London carnival.

Earl Edwards New Member Co. Board From Prec. Four

County Board in Session Monday Sets Budget, Hears Protests

Earl Edwards, of Lakeview, is the newly-named member of the county board of trustees of Floyd county succeeding R. C. Smith, deceased. He was named for the vacancy by the board in its meeting Monday for transfer of the appointment. A resident of the same community as Mr. Smith he has been associated with the latter for a number of years in local and county-wide civic affairs.

Formal acknowledgment of the splendid service of Mr. Smith as a county board member was spread on the minutes of the board.

In addition to its job of setting the administrative costs of the county superintendent's office for the school year, the board heard a number of protests on applications for transfer of school districts to one district to another. Twenty-four protests were entered from 7 districts—Irish, Pleasant Hill, Harmony, Center, Liberty, Edgin and Sterley. The transfers protested were with held for the present. Additional protests are on file for consideration next Monday when the board meets.

Invoke Bankhead—Jones Act to Put More Farmers in Owned Homes

Floyd county, along with Randall and Wheeler, has been selected again this year for the Tenant Purchase Program under the Bankhead-Jones Act. It was announced this week by Rural Rehabilitation Supervisor Claude C. Carpenter, for the Farm Security administration.

To this list of 3 counties in the Texas portion of Region XII have been added Hall and Hansford. In connection with this announcement the following statement was issued from the local office:

From the latest information it appears the Texas counties in this region are to receive about \$174,500.00 to be loaned at 3% for the purchase of farm homes. It is hoped applications for these farms can be taken in Floyd County in a short time. Any and all tenant families in the county are eligible to make application.

Under the program, authorized by the Bankhead-Jones Farm Tenant Act, loans will be made to a limited number of qualified farm tenants for the purchase of farms. These loans bear 3% interest and may be made for a 40-year period. Opening date for making application will be announced through the newspapers.

Thieves Steal 280 Bushels Of Wheat and Barley Near Dougherty Sunday Night
"Pretty Check" Forgers Caught By Cops and Now Languish In Paducah Jail
The game of "cop and robbers" continued in Floyd County this week at an increasingly rapid pace when it was discovered Monday morning that 180 bushels of wheat and 200 bushels of barley had been removed by persons unknown from the grainery of Kirk Martin near the Dougherty community.

So far as could be determined the wheat was removed from the grainery sometime during Sunday night. Wheel prints showed that there were two trucks equipped with dual rear wheels. The number of men involved could not be determined but it was believed that there were at least three since it would be some job for two men to load two big trucks without detection.

Telegrams were dispatched from the sheriff's office here to the surrounding towns but late Wednesday afternoon no word had been received that the thieves had been caught or the load sold.
"Pretty Check" Forgers Put Behind Bars
Sheriff Fred N. Clark said Wednesday afternoon that the two men who passed through Floydada and Lockney passing out worthless \$23 checks on fictitious Furt Worth mill and feed company for "labor" had been caught and confined for their check passing efforts.

14 Entered For Week's Play Here

Three Teams From Floyd County To Try \$75 First Prize Offer

Monday afternoon at 3 o'clock Floydada's first District AASA Softball tournament will get under way with 14 teams from the South Plains entered to battle it out for the prize pot of \$185 which will be divided among the three top teams.

First prize is \$75, second \$65, and third is \$45. This money is given only on the condition that the team receiving the cash prize enter the regional tourney at Sweetwater. Any team not entering will forfeit its prize and the forfeited prize money will be split and added to the other two teams.

First Attempt
This will be Floydada's first attempt at sponsoring such a tourney, and a great deal depends upon this city and its support as to whether or not the venture is a success.

Walter Collins, who was appointed district commissioner early in the season, has done wonders, considering there was no organization in the newly formed district, in being able to have a tourney at all the first year.

But the citizens of the town must back the tournament with their attendance before it can be called successful. Already 90 season tickets have been sold to thirty ball fans but at least that number needs yet to be placed.

Schedule Made Out
Wednesday afternoon Walter Collins and managers of the Floydada teams met in the Chamber of Commerce office and drew for the playing schedule.

Fourteen teams have been entered, making a necessary 14 game schedule before the winner can be decided. Four games will be played (two afternoon and two night) on Monday and Tuesday but only two games each night will be played on Wednesday, Thursday and Friday nights.

Interest Is Shown In Storage Plant And Locker System

Forty-five farmers were present for the cold storage and locker system meeting held Saturday afternoon in the district court room.

The group voted to survey such a cold storage locker system as that used in Plainview and attempt to set up such a plan here. The group hoped to have the plans complete by September 1. It is believed that at least half of the needed membership has been obtained to date.

A meeting will be held at South Plains Friday night at 7:30 in an effort to sell the boys there on the idea and get their co-operation. In connection with the meeting a film will be shown giving in detail operation of the cooperation locker system.

H. P. Drought, of San Antonio, is the man who has been at the head of the huge spending program in Texas to afford jobs for the jobless known as Works Progress Administration. 6,703 work projects in the state have been handled in 3 years.

Editorial

FALL WEATHER FORECAST

Thermometer high in the glass is about the proper temperature for the weather prophet to get out his bag of tricks and give the folks an idea of what they may expect this fall.

The first frost or freeze, so the first gentle northers and the broomweeds tell us, will be around the twentieth of October. Those who have late feed they want to save just before the frost, or hogs fattening they want to have ready for killing just after that event, may as well keep in mind these friendly tips from old Mother Nature.

ARE AUTOMOBILES TOO HIGH?

Automobile manufacture went into the doldrums this spring and automobile makers are wondering if the principal part of the trouble is in the fact of the price jumps a year or so ago. People who had a pretty well defined idea of what their choice of the many cars made would cost them, have had to revise these ideas upward.

PLENTY OF WATER, WHY NOT RICHES?

Everybody knows that plenty of water anywhere in the west means wealth and happiness and plenty. But somehow or other, cotton and wheat and maize, with the water treatment, are not getting us as far as we had hoped.

TOO MUCH AVORDUPOIS

Along with many thousand other employers in Texas, The Hesperian is wondering if sooner or later the machinery of the Unemployment Compensation Act is going to fall through of its own weight.

A TIMELY QUESTION

say. Cut it to 10,000 and still that's too many.

So many government agencies that are being set up just do not take human nature into account. There are too many inspectors, adjusters, accountants, bookkeepers, lawyers, doctors, file clerks, field men, field offices, automobiles, expense accounts, rent bills, and nice young men who won't quarrel with you when you tell them they are running you crazy with their commands that you stop working at your job and give them information when what you need to do is to be out getting some business.

It is a lovely theory that does not and will not work out in practice. Or is it that we are out of tune with the times? There are many millions of dollars in some fund or other at Austin, taken out of big and little businesses that Farmer Lee O'Doe won't be hostile about because he doesn't know of his own knowledge about it.

Some morning Lee O'Doe will wake up and give somebody a piece of his mind about a law that makes fish of one and fowl of another. And the hair will fly. And that will be the last of the Unemployment Compensation Act.

But we'll be paying rent for a hundred years for space to file the musty papers that tell the story of the futility of it all.

WHAT IS GOOD TASTE?

What is good taste in the practice of newspaper work? Who knows when the average news worker oversteps the bounds of propriety? The Horace Greeleys, the Henry Wattersons, and the Benjamin Franklins, made their own rules of taste.

But the average news or editorial writer must observe another law. Not for him the O'Daniel way of flouting the first principle of office seeking, that of paying the poll tax, nor that other unwritten rule that one must not run for office on Sunday.

What is good taste for the run of mine newspaperman who must live with folks and write about them and their happinesses, their sorrows, their successes and their troubles? Nobody can give you the rule to go by but everybody, college graduate or not, knows, when they see it in print. Isn't that right?

In colonial days it was considered a serious offense to smoke within two miles of a church on Sunday.

You can accurately gauge the caliber of a man by noting how much it takes to discourage him.

Most common snakes are largely beneficial and should be protected. They eat a large quantity of insects and mice.

As A Farm Woman Thinks

Nellie Witt Spikes

The sound of the saw and hammer are heard, clouds of dust stream away in the wind as old shingles are pulled off. The two back rooms are moved to the west of the two front ones and the new rooms are taking shape.

Enough to think of and enjoy for hours was crowded into a few short minutes last Thursday morning. Mr. and Mrs. Edgar Howard and daughter, Barbara June of Paris Texas, and Mr. and Mrs. John Howard of Floydada stopped for a short visit.

Edgar was renewing his boyhood days. A piece of a glass dish from his old play house at McCoy was found and will be treasured more than a bright jewel. He told of going to school one year at Farmer, driving the distance from McCoy in a two-wheeled cart.

My father, John Marion Witt was born in fifteen miles of Springfield, and grew to young manhood there. He often laughed and told us he went to Springfield only twice.

When the Witt family moved to Texas, they stopped and camped at a little town. There was a spelling contest there that night and my father won a quarter.

My father had a beautiful voice, he could put a leaf in his mouth and make music. He taught singing schools and writing schools when I was a child.

The old settlers are meeting again the shade of the bold ar trees in Hank Smith Memorial park this week. Tears and smiles will chase each other on many a seam lined face as old days are relived.

Floydada citizens are not sitting idly at home these days, but are energetically engaged in keeping the premises of their residences as near immaculate as it is possible to keep them in preparation for the visit of the judges in the beautiful homes contest being conducted by the Hesperian, which closes soon.

Two more houses were started in Floydada last week, to help somewhat in alleviating the extreme scarcity of houses for a score of new people who are moving here weekly, and some of them moving away because they can't get homes in which to live.

The Wesley class of the Methodist church entertained their husbands at the home of Mr. and Mrs. T. W. Salisbury Thursday night. After different games were played refreshments were served to members and the following guests: Mrs. S. Y. Carter, Mrs. R. L. Henry, Mr. and Mrs. J. V. Daniel and Mrs. Schradler of Kansas City.

Marriage licenses issued by County Clerk, Miss Clara Lee Johnson, during the past week were to Verna Elliott and Miss Dorothy Martin, August 11.

Advices to the Hesperian this week state that Mr. and Mrs. James E. Ferguson of Temple will address the voters of Hale and adjoining counties at the City auditorium in Plainview, Wednesday afternoon, August 20, supporting Mrs. Ferguson's race for governor.

Mr. and Mrs. Glad Snodgrass had as their guests this week Miss Josephine Adams and J. Teal Dunlap of Meridian, and Mrs. Ed Sears and daughter of Valley Mills.

Mrs. J. W. Haney and little son, J. R., have returned from Electra. They were accompanied home by her father J. R. Brewer and wife.

WASHINGTON LETTER

BY SPECIAL CORRESPONDENT

WASHINGTON—Roosevelt's "purge" of more-conservative-than-New Deal Democrats from the party hasn't been very successful. In the Texas primaries Congressman Maury Maverick and W. D. McFarlane were defeated. Leader of the House Democratic block and hero of liberals here, Maverick is the first of "my friends" to be turned down by the voters.

New Deal Senators Claude Pepper of Florida and Lister Hill of Alabama were renominated, and Roosevelt's endorsement of Senator Thomas is credited with being responsible for the Oklahoma's renomination. In Oregon Henry Hess was renominated with New Deal support. Gov. Floyd Benson, favorite of the New Dealers, was renominated in Minnesota by a narrow margin.

In Montana's primaries Congressman Jerry O'Connell attacked Senator Wheeler, New Deal foe, in his campaign speeches, and won renomination. But the administration efforts to defeat Senator Guy Gillette in Iowa were not successful.

My father, John Marion Witt was born in fifteen miles of Springfield, and grew to young manhood there. He often laughed and told us he went to Springfield only twice.

When the Witt family moved to Texas, they stopped and camped at a little town. There was a spelling contest there that night and my father won a quarter. The next morning he spent a tickle for a "jew" sharp. The wagons started on towards Texas but my father was not satisfied with the twenty cents in his pocket, so he walked back to the little store and bought four more jew's faths.

My father had a beautiful voice, he could put a leaf in his mouth and make music. He taught singing schools and writing schools when I was a child. How I loved to hear him whistling as he came home through the dark. He has passed on to the better world but the memory of his sweet music makes melody in many hearts.

The old settlers are meeting again the shade of the bold ar trees in Hank Smith Memorial park this week. Tears and smiles will chase each other on many a seam lined face as old days are relived. Boys and girls will stroll hand in hand children will shriek from the merry go round and the ferris wheel. Speakers will tell of early days, of hardships that now look so light, of pleasures that have deepened with the years. The years will soon pass and people will tell about this picnic in the canyon. And the young boys and girls of today will be old and do the remembering.

Sam Jones an old neighbor and the carpenter who is building the house brought me some petrified rocks from his home in Dickens county. A stump of a tree that is worn smooth from the waters of a little creek washing its sides. A petrified piece of a willow trunk, the top showing that an axe had cut the tree down. Mr. Hughes sent a petrified root of a tree that was unearthed sixty feet underground. I like to go from rock to rock and read them like a thrilling book.

Indians' Adobe May Be Used in Modern Homes

ADOBE, the brown, sun-baked clay early inhabitants of southwestern America, Mexico and Central America used to build their shelters, may be used to fashion the homes of modern Americans throughout the United States.

If adobe becomes a popular building material, it will be because of the efforts of a Stanford University chemist who has discovered a chemical surfacing said to enable adobe to withstand weathering indefinitely, and to make it practically an ageless material.

Previously, adobe was suitable for use only in a warm, dry climate; and even there was subject to erosion and weathering. Scientists have long pondered the problem of preserving great historic and prehistoric ruins. Now, among other adobe landmarks, a mighty block of prehistoric apartment houses near Fort Apache, Ariz.; an ancient mission at Tumacacori; the site of the first federal land office at Florence, Ariz.; and the remains of the stage stations on the old Butterfield Overland route between St. Louis and California, may be coated and preserved with the new chemical surfacing.

Whether 'dobe will ever become widely popular as a building material depends on a number of factors. Americans may not want to build their house of ageless bricks, since their homes often must be razed before they're worn out. It will be a long time before adobe is available everywhere. And it must be produced cheaply enough so that transportation costs will not prevent it from competing with other materials outside the southwest.

But a trend toward adapting adobe for modern use already has begun. Architects formerly cold toward the ancient clay are beginning to dabble in artistic adobe designs. Already they have produced many interesting new-style adobe homes in Arizona. The government itself

Tipping adobe bricks so that they will dry and harden equally on both sides.

plans more than 180 artistically designed adobe homes in Arizona, near Casa Grande and near Phoenix.

Formed by sediments of volcanic origin, found in the arid lands of the west and simply west, adobe clay is simply moistened with water, mixed with straw or even weeds, and dried by the sun into hard bricks.

Homes built with adobe bricks are cool in summer, and can be heated economically in winter. But whether 'dobe will become as popular for home-building with modern Americans as it was with ancient Americans, is a question that time alone will answer.

Whites Loses Final To Stansell-Collins

In a patched up and badly played game Tuesday night Stansell-Collins won their first game of the second half from Whites Pharmacy 19 to 5. S. L. West gave up six bingles while Boteler was being shelled from the box by a 12 hit attack. Little support was given Boteler in the field by his mates while Collins team was almost airtight in the field.

Score by innings: Stan-Col: 2 7 9 1 0-19 Whites: 0 1 0 4 x-5

L. Gilliland had a perfect night at bat by collecting three home runs from three times at bat.

All-Stars Shut Out Cone With One Hit

The pitching combination of Jack Stansell and Long John Smith put the "quiet-us" on Cone Tuesday night for the Floydada All-Stars and it was an easy matter for Floydada to win 11 to 0.

In five innings Stansell gave up one bingle in the fourth inning and no runs with only one man reaching second (the one that hit). Only one other man reached first base and that was a walk in the second inning. He fanned five before turning the last two innings over to Long John.

Long John faced six batters in his two innings, fanned four and two popped out. Floydada collected 11 safe hits.

Score by innings: Cone: 0 0 0 0 0 0 0-0 Floydada: 3 3 3 2 0 x-11

Cloverlake Loses To All-Stars 8-3

Floydada All-Stars put on the steam and bat power to smash out an 8 to 3 victory over Plainview Cloverlake Monday night. The Cloverlake crew collected 6 bingles off Long John but Floydada gathered 10 safeties to sew up the game. Smith collected another circuit run to help out. The Plainview fielding was rough at times and easy outs went for safe hits when they hurt most.

Score by innings: Plainview: 0 0 1 0 0 2 - 3 Floydada: 2 0 4 0 2 0 x - 8

All-Stars Slug Out Pig-Pens 21 to 1

The Floydada All-Stars had a field day at the expense of Piggly Wiggly-Penny Friday night as they boomed out a 21 to 1 victory in a non-league scuffle. The All-Stars picked up 19 hits from Rushing while Long John limited his opponents 4. The best Smith could do was collect three circuit drives out of four times at bat.

Score by innings: All-Stars: 3 2 2 9 0 2 - 21 Pig-Pen: 0 0 0 0 1 0 - 1

Thieves Steal (Continued from Page 1)

The sheriff made a trip to Paducah where the older of the two men (brothers) was in jail. When asked about the two checks passed in Floydada and the one in Lockney the man made no effort to deny the accusation but readily named the two firms in Floydada where the checks had been passed and also volunteered that checks had been passed in "every county in West Texas."

The sheriff then went to Haskell where the younger brother was confined but did not return with either of them since they face charges in those counties. He did return with a man charged with passing "cold checks."

Whether or not they will be brought here for trial depends a great deal upon the sentence handed out to them in the other counties where they face charges.

Redds Fruit Stand Robbed of Cigars To top off the week of trouble, it was reported that Redd's Fruit stand was entered and robbed Monday night of all cigars, smoking tobaccos, 20 bars of candy, 2 or 3 dozen bananas, and some soda pop. (No bicarbonate of soda was reported missing.)

The "hungry" thieves had cut through screen in back of the stand to gain entrance. No arrests have been made to date.

What Grade Do You Rate As Driver?

Ten Questions On Basic Causes Of Accidents On Streets, Highways

AUSTIN, August 8.—State police traffic experts have devised a questionnaire from which drivers may determine their individual qualifications for operating vehicles in a safe manner.

Ten questions relating to basic causes for most accidents on streets and highways were listed by traffic research officers so that drivers may correct their errors. Each question counts 10 points if answered in the affirmative, with 10 points discount for negative answers. If your grade is between 90 and 100 you may consider yourself an excellent driver. A grade between 80 and 90 classes you as a "fairly good" driver, but if your grade is below 80 you are a menace to traffic safety and should correct your faults, state police warned.

1. Do you use proper arm signals when turning or stopping?
2. Do you always drive within legal speed limits?
3. Do you always refrain from passing other vehicles on hills or curves?

Corrigan Returned—With this all-embracing gesture, Douglas Corrigan, the 31-year-old Californian who quietly soloed to Ireland "by mistake" a few days ago, responded to New York's hysterical greeting as the S. S. Manhattan returned him to America. He was still wearing the old brown-stained sweater in which he took off "for California" recently, but assertedly got his directions mixed and spanned the Atlantic.
