Finkner Auto Store Moves Next Week

Finkner Auto Store and Sharp's Motor Service will trade locations sometime next week.

With the beginning of work this week on repairs and interior changes in the Childers building on West California street, Mr. Finkner announced that he had recently acquired title to the building from heirs of Miss Rose Childers of Abilene, and that it would be redone on the interior and occupied by his automobile accessories store and Oldsmobile agency.

Coincident with his move to that location, occupied several years by Sharp Motor Service, the Sharp establishment will move into the South Main street building heretofore occupied by Finkner.

Changes being made at the new location of the Finkner Auto store include enlargement of the store and office space to give more room for display of merchandise.

Hank Smith Old Settlers Meet Thurs-Friday

When West Texas Old Settlers gather next Thursday and Friday at Hank Smith Memorial park to enjoy a two day picnic, swap reminiscences and dance the old-fashioned dances, they will be gathering for their sixteenth time at that place.

The park was dedicated during Nef's administration as a state park by R. B. Smith as a memorial to his father and mother, first settlers to land in this area in the wake of the disappearing Indians and buffalo. The site was marked in 1896 by a monument of Texas granite. The old settlers gather there annually to enjoy the company of their neighbors and former associates during a period of the last 50 years.

This year the really old-timers will be honored with a barbecue dinner each day, their badges serving as tickets for entry to the dinner. It will be prepared on the grounds arrived at noon. R. B. Smith, general manager, said. More room for dancing under the big arbor is being provided and there will be speaking and talks during the formal sessions each day. Glad Snodgrass of Floydada, has been asked to make the formal welcome address opening the sixteenth re-union.

Takes Post With P. C. Ass'n At Plainview

Jack Stansell, who has been associated with the Stansell-Collins Implement Agency here since finishing school last year, Friday assumed the duties of bookkeeper in the office of the Plainview Production Credit Association.

With Mrs. Stansell he moved to Plainview Thursday and they are making their home at 900 Broadway.

The post he will fill with the Plainview concern is a new job added the first of this month.

Strickland New Servel Dealer For Floydada

A business deal of more than ordinary interest to Floyd county people was consummated here this week when Dale Strickland distributor for Panhandle Refining Company products and local butane distributor, bought the Servel Electrolux Agency and butane tanks stock of C. H. Elliott Appliance store.

Strickland succeeds to the dealership for the Electrolux refrigerator and Elliott retires from the local distribution field for refrigeration equipment, gas, stoves and appliances.

R. L. Smith, who has been manager for C. H. Elliott for the past two years, will continue at the store here temporarily winding up the affairs of the Elliott dealership. Miss Lela McDorman, bookkeeper for the store, will continue with the new firm.

Herwin E. Strickland, who is associated with his brother in the Dale Strickland distributorship and sales of appliances, will headquarter at the new location.

The purchase of the down-town establishment does not affect the set-up for wholesale and retail distribution of Panhandle products nor with the established butane gas distributor. Other appliances which the Strickland agency handles include ranges, heaters, hot water heaters and gas systems.

Faces Of Names In News Of The Week

O. M. (Mark) Oliver assumes new official position with the Panhandle & Santa Fe railway, in this territory, as assistant general passenger agent. He is a member of a pioneer Texas family and one of the youngest officials in the country to hold such an important position.

George B. Jordan, of Dallas, is the new president of Lions international, elected last week in the convention at New Orleans. "Courageously face the future, knowing that inevitably peace, liberty and justice will prevail" was the keynote of his acceptance speech.

J. T. Sparks, government trapper brought in an eagle Tuesday that measured eight feet wing tip to wing tip. The eagle weighed nine pounds and had a foot spread of six and one half inches. Mr. Sparks estimated its age at 10 years.

'Lucky' Shot Bags Eagle Coyotes Lie Around, Eat Plums In Hot Weather

T. J. Sparks, government trapper brought in an eagle Tuesday that measured eight feet wing tip to wing tip. The eagle weighed nine pounds and had a foot spread of six and one half inches. Mr. Sparks estimated its age at 10 years.

Judge G. C. Tabbs, with Mr. Sparks were in search of a taxidermist Tuesday to have the bird mounted to be placed in the court house. It is what is known as a gray eagle. Mr. Sparks said. He has only seen two in the three months he has been working in the county, he said.

The mate of the eagle Sparks shot likely will leave the country, he said, talking about the country's wild life habits, especially the predatory wild life which he studies for a living. An eagle that size can carry off a lamb with ease and hungry enough, would kill a young calf. Then the government trapper explained that an eagle's weight is all in his powerful chest and leg muscles his "fuzelags" and wings being light for the reason that way, all the weight being in the motor. Hawks and eagles often do their hunting at great height, their keen eyesight enabling them to see far and swoop down on their victims—doves, rabbits, quail. On the other hand the coyote and the bobcat depend largely on their keen scent to locate their quarry. "There are a number of bobcats in the county."

Right now coyotes are lying around the thickets, eating plums and taking life easy. Their business will be busier than ever when the coyotes start on the prairie since coming here three months ago. A wolf's head is bigger, his jaws larger and stronger, his legs longer and coloration also somewhat different from a coyote. There are a few wolves in the territory.

Coyotes are afraid of eagles and when one swoops down the coyote gives up his rabbit or other prey quickly and retreats from the scene.

Lions To Picnic Tuesday Night At N. W. Park

Floydada Lions club will have their second annual picnic Tuesday night. Eddie Williams and a committee of aides are making the plans for it and 100 per cent attendance of club members and their ladies is anticipated. The north-west city park will be the scene of the merry-making.

A discussion of current events made up the program for Tuesday noon. W. H. Henderson presenting views of various writers on the present Russian campaign of the Nazis.

R. S. Wilkinson, Jr., vice-president of the club, presided at the meeting in the absence of John Stapleton, president.

One Hundred Attend 1-Day Short Course At Lockney Yesterday

One hundred people gathered yesterday at the one-day farmers' short course held at the Lockney City auditorium and heard demonstrations and lectures on the subject, "Food And The National Defense." Mrs. A. H. Kreis, Floyd County county president presided at the meeting.

Wheat Meeting Next Week At Court House

A study of the every-growing problems presented to wheat growers in Floyd county by the mixtures that have been planted here in the past few years will be made in a meeting next week in Floydada. County Agriculture Agent D. F. Bredthauer, was advised this week. The meeting date is Friday, August 15, the place the district court room and the hour 9:30 a. m.

E. T. Dines of the Texas Wheat Improvement association and E. A. Miller, agronomist for the Extension service, A. & M. college, will be here to assist in the meeting and in a wheat improvement program for the county.

County Trustees Session This Afternoon Here

Some 300 scholastic transfer applications from one district to another in Floyd county will be up for acceptance or rejection by the county school board when it meets at County Superintendent Clarence Guffee's office this afternoon at 2 o'clock.

The meeting is a special one held for the purpose of considering the transfers. It is the responsibility of the board to approve or disapprove the transfers. Many of the transfer applications are for pupils from common school districts to Lockney and Floydada Independent schools.

Two Re-Classified

In the board's regular meeting Monday two schools were re-classified. Of these Sterley was classified to teach eight grades instead of 10 as at first determined by the board, and Dougherty was re-classified to teach nine grades instead of eight as at first decided. Under the 12-grade system adopted by the board, the ninth grade is freshman year in high school.

Program Of Aid To Needy Blind In Floyd Monday; New Set-Up Groups State Welfare Work

The program of aid to the needy blind of the State of Texas will begin functioning next Monday in Floyd county when the first applications for aid will be received by J. E. Collier, field worker for the State Department of Public Welfare at his home office in the court house.

Announcing the new program, made possible this year when the legislature made an appropriation

Soil Conservation Due To Get Impetus From Camp Location

A wide range of services to the rancher and farmer in conserving soil and water and fitting up land contours to this end will be made possible for the Floyd County Soil Conservation district, when the CCC camp is located and functioning, it was said here yesterday by George Keithley, who is camp superintendent at the Lamesa CCC camp.

Mr. Keithley has seen service in soil conservation in connection with the CCC camps for some years. He was here to attend the one-day farmers short course in Lockney Tuesday, and indicated interest in the developments in connection with the establishment of the CCC camp here.

Questionnaires To Youngsters Out This Week

Questionnaires to 21-year-old registrants of July 1 are going out this week from the office of the Local Board of the Selective Service system. O. P. Rutledge secretary to the board said yesterday.

The names of the young men will be taken up in their order and their status determined following return of the questionnaires.

Although there is no authorization in the law for such action all Selective Service Local Boards in Texas have received instructions from state headquarters to postpone the physical examination and induction of men who were twenty-eight years of age or over on July 1, 1941, except those who volunteer for induction.

Third Annual Reunion For Alabamans

Plans are complete for the Third Annual reunion of the Alabama Reunion association to be held at the City Park Friday. A large crowd is expected according to John L. West, president of the association.

The association is composed of former residents of Alabama and their families. A day of fun and informal entertainment is planned with a basket lunch at noon.

"We have not planned a lengthy program for the day but plan to have plenty of time to devote to renewing acquaintance and visitation," Mr. West said.

Club Presidents Rotary Guests Next Week

Presidents of Floyd County Home Demonstration clubs, some 20 in number, have been invited to be guests of Floydada Rotary club next Wednesday when the guest speaker will be County Treasurer Mrs. O. M. Conway.

The luncheon is held beginning at 12:15 at Fellowship hall of the First Christian church. J. B. Claiborne will be program chairman for the day.

Carl Minor was presented at this week's meeting in a talk "Are we getting old?" R. E. Fry was program chairman.

MRS. HOPKINS' CONDITION REPORTED HOPEFUL

Mrs. E. A. Hopkins, of Miami, who has been in a hospital at Pampa critically ill of uremic poisoning, apparently is rallying this week and her children are more hopeful of her recovery. She has been very ill.

Mrs. W. B. Henry, of this city one of the patient's daughters, has been with her mother since early last week.

MARRIAGE LICENSES

Marriage licenses to Jim Young and Jessie Cardwell were issued Tuesday, August 5, by County Clerk A. B. Clark.

Bill Goode Aint A Bee So Does Not Like Location Bees Choose

If you've lost a swarm of bees recently Bill Goode out at Barwise has got them. Perhaps better said they've got Bill.

Mr. Goode, in Floydada last week-end, said he had turned over the front porch out at his place to a colony of bees after they pre-empted it and now he goes and comes from the house by way of the back door.

It happened about four weeks ago, shortly after the big rains began to let up. The swarm of bees was first noticed by Goode when he was out at work in the lot. He heard a buzzing noise, sorter funny-like and looked around to discover the bees had lit on a tandem disc near by a big colony of them. Soon they began circling in the air to migrate and migrate they did.

But not far. Just about 50 yards where a scout had discovered a dandy place (for the bees) to make their home. It was a hollow bannister on the Goode porch, about eight inches across, 16 inches deep and probably seven feet long. Slight openings where the bannister boards fitted up to the siding of the house made a good entrance and exit place for bees and a harbor for their natural enemies to m. They promptly began house

Checks to Floyd county aged distributed during the month of July from the State Department of Public Welfare came to a total of \$5,394. J. E. Collier, field worker, said this week.

for the needy blind, Collier said his office would be open Monday especially for the purpose of taking applications. Collier, who also has been handling old age assistance in Floyd, Briscoe and Mackey counties will continue in that capacity as well as to handle aid to the needy blind.

"The only practical difference in the old age assistance program and that of aid to the needy blind will be the matter of age and of blindness," said Mr. Collier Tuesday. "The loss of sight must be established by the certificate of an ophthalmologist after examination, and when that is done the procedure is much the same as determining the matter of need for assistance in cases of old age."

To be eligible to receive assistance from the fund for aid to the needy blind, Mr. Collier said the applicant must be 21 years of age, a resident of the state for at least five out of the last preceding nine years and for one year immediately preceding the date of application.

Aid to Dependent Children

Another program of public welfare which will be started as soon as the aid to the needy blind is in operation is that of aid to dependent children. "It will be probably 30 days before we begin taking applications on this phase of public welfare work," said Mr. Collier. Applications for aid to dependent children will be handled through the local office of the field worker in like manner as aid to the needy blind and old age assistance.

Lockney Christian College Reunion Held This Week

The fourth reunion of the Lockney Christian college ex-students was held at the Main Street Church of Christ at Lockney Thursday and Friday. No special program was prepared for the event, a general homecoming and get-together was the purpose of the annual affair.

Among the names that appeared on the register were Mrs. Kate Brazzle, 93, of Plainview; Mrs. F. W. Klinskale who was formerly Blanche Brazzle, Marjorie Riley Brewster of Dalhart, Mrs. Z. T. Riley of Pharr, Ann Hughes Claitor, Petersburg, Ida King Phillips, Floydada, Mrs. O. J. King, Oklahoma City, Oklahoma.

FARM LOAN ASSOCIATION

The annual meeting of members of the Floydada National Farm Loan association will be held here the first Saturday in September, C. E. Meredith, secretary of the association, said this week.

The program and details of plans for the meeting will be announced later, he said.

EDITORIALS

Registrants in the second National lottery held on July 1 and whose names came up with new military order numbers opposite them last week are re-assured by a statement this week from the State Selective Service director. Reports are current that, in view of the fact the youngsters are just 21 years old, mostly unmarried and mostly without jobs from which they could not be taken, they will be run in ahead of the former registrants, practically taken en bloc. This is not the way it is to be done says General Page. There will be no difference between the way new registrants and old registrants are treated. The order will be determined by lot, the new names integrated with the old, with the same rules of deferment, the same rules of appeal. Interests of all protected in the same manner. In other words youngsters will not be allowed to think that because they are youngsters they will be railroaded into service ahead of their turn. Every youngster and every older man owes his country whatever his country needs of him, with the accent on every.

The deficit ridden general fund of the State of Texas called for an increase of revenue this year but since this rate is already at its maximum as is the confederate pension fund, the State Tax board had only to consider the condition of the state school fund to determine what they should do as members of the Automatic tax board. The school board had in its fund a surplus or will have on September 1. As a result the total state tax was reduced by 11 cents from 69 to 58—all from the school levy. The general fund was several millions of dollars in the red already and appropriations made by the legislature in its last session increases this amount. General fund tax maximum is 35 cents permissible under the constitution and the confederate pensions fund rate maximum is seven cents.

The Fort Worth & Denver South Plains lines engineers have been carrying on an interesting experiment adjacent to Sterley where about three-quarters of a mile of line has been under water ever since the big rains hit. With little prospect that waters would recede fast the tracks became increasingly squishy and train operators were a bit leary of going through the several hundred feet of water. Prospect of an engine turning over in the water was not an inviting one. Anyway the situation called for action and it was decided that perhaps a well drilled in the water would strike a fault in the earth or hit a porous caliche that would drain the lake. When this didn't work they tried blasting to a considerable depth to open up a fissure. The experiment had been tried long before in this county and none of the natives expect-

ed it to work, which it didn't. The solution finally determined upon was to raise the level of the track a couple of feet which was done gradually and which put the trains up to the high water mark.

Railroad men are about as hard hit as anybody by the failure of the wheat crop to materialize. After running in several thousand grain cars, fixing up the spur tracks and sidings, then fighting high water and washouts and soft road beds for four weeks they found they had no grain to haul. The stalk was flat on the ground, fifty million bushels of grain vanished into air. Their "cash crop" was gone.

A bit of a crime wave hit Floydada last week when half a dozen automobile owners woke up one morning to find their cars minus a wheel and tire. The thief or thieves had obligingly left the bare axles jacked up so the owners only had to buy new wheels, slip them on and get going within an hour or two. One owner had a front wheel missing, it is said. He ran out hurriedly next morning to back out of the garage and go to town. As his back wheels bit into the drive way and started backwards the bare front axle bumped to earth. The driver's bewilderment when he began bouncing around in his car was only equalled by the choice flow of French that followed.

One can understand that need for money might have prompted theft of the car wheels and tires. Maybe it was some fellow who had to have money and took the way the devil suggested to get it. But along about the same time a marauder poured sugar into one automobile gas tank in town, which was barely discovered before the syrup began pouring through the carburetor into the engine. Called for a gasoline tank and gas line cleaning job, of course. But who would have thought of pouring sugar into a gasoline tank? Why sugar instead of flour or salt or dirt or navy beans? We ask in the interest of pure science, not that we have any sugar to waste. We may want to get even with somebody sometime but we'd prefer some other commodity. Water out of the well, more in line with our Scotch inclination, would cost less. Would it do?

Sample. Blackberry juice like they make it down around Mineral Wells, a bottled sample of it, was given us the other day by W. A. Gound, who went down that way on business and incidentally bought some fruit, et cetera. Now we need a customer who will furnish a recipe for making blackberry juice into something else. Particularly, how much sugar do you put in and how long should it set?

As A Farm Woman Thinks

Nellie Witt Spikes

TAKE TIME

(By Jessie Wilmore Murton)
Take time to talk with God
A little while each day;
To thank him for the sun, the rain,
The flowers along your way.

Take time each day to give
Some stranger word or smile;
A cup of water, in His name,
May cheer a lonely mile.

Take time! Let not the seed
Of love be choked with cares.
Who knows but you may entertain
An angel unawares!

The work and cares of this summer may have caused us much trouble and disappointments. The above beautifully expressed in rhythm, may help us to stop and think and not let the higher things of life slip by while we are working.

It is hard to visualize bowls of hot steaming soup on a cold bitter, snowy winter day as one sits under the shade of a tree and shucks and silks corn to can. Such an endless job it seems! Going to the field looking here and there to find the best ears. Hurrying every minute for corn needs to be hurried into cans. How the pearly corn glistens in your hands. Chickens steal up and get in a few pecks, time must be used to strike at them, only making them more determined to get the corn.

The shucks pile high, the corn is ready for the kitchen and to be cut off. Milk from the ears splatters ones face. Hit the wall opposite, the dish pan fills with cut corn, ready to be put in the clean cans or jars soon the canner is filled with steam sterilizing the packed product. It is such a hot hard task, but jars packed deep on the pantry shelf keep up one's morale, so to speak.

Pickles and pear preserves also appear almost daily.

Gherkins must be caught and pickled young. If you begin at one end of the row the gherkins at the other end get almost too large before you get them so fast do they grow.

A car hurries up bringing the sad news a neighbor has died. Oh how the still cool evening takes on shadows and we do not even see the lovely sunset. We had known Earl Sawyer since he came to the plains settling near us with his father and mother, brother and sisters. He

answered the call of his country in the last war. Straight as an arrow were the rows he made in his fields the same straight rows of fair dealings he followed with his fellow man. Earl will be missed.

"I do not see why farmers have chairs, they do not get time to sit in them," a woman from the city told her daughter after a weeks visit while canning, hoeing and general farm work had been going on.

It is about time Mr. Steen was getting the biscuits and salt and starting out to hunt the tomato patches that were not set out too thick. He seems to want our among his tomatoes, so do not be surprised any time to see him coming, his pockets full of cold biscuits (maybe he wants you to furnish the biscuits, I think he failed to say in his editorial last spring anyway it won't cost much to furnish the salt if he is not superstitious and has to throw a little over his left shoulder every time he spills some.

Mr. Denning won a very fair lary when he went to Cub Parrish's home for his bride of Saturday night. May the blessings and good wishes of a farm woman follow this young happy couple through life.

The question of silk hose vies with the news of the war front for radio broadcasts and news items in papers. One reporter told of a man in Memphis, Tennessee that has had plans to grow mulberry trees in the south for the culture of silk worms. Now that some one has invented a machine to unwind the cocoons, the cloud of silkless stockings days may have a silken lining.

FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

(Issue of August 4, 1927)
Wind and sunshine are credited with lessening the damage to the growing cotton plants in Floyd county this week, growers in limited sections of the county last week reporting rather serious hindrance to the growth of the stalk due to the inroads of the lice.

Of the 24 prizes given at College Station during the Farmers Short Course last week Floyd county was awarded three places, and District 2, which embraces this county won ten of the total number given. The prizes were awarded to Miss Blanche Rogers of Sand Hill and to Miss Sarah Davis of Mayview.

Floydada Public schools will open Monday, September 5, according to Superintendent W. E. Paity, who moved here from Ralls to make his home.

Backed by the Christian, Methodist and Presbyterian churches and unofficially by other organizations the Union Gospel crusade with Dr. Wm. J. Lockhart in charge, opened at the City tabernacle Sunday night with overflow crowds.

With half a dozen ditching and welding crews busy this week and a large portion of the various sizes of pipe laid on the ground ready for the workmen, progress on the distribution system of the West Texas Gas company in Floydada is progressing rapidly, with indications that the work will be completed in thirty to sixty days.

Work on the new high-voltage circuit of the Texas Utilities company from Ralls to Floydada, completing the circuit for power transmission is moving along rapidly, according to S. M. Cole, local manager of the company, who said Construction Foreman Chase and his men were now this side of Blanco canyon putting up the big poles. The wire for the lines has been strung from Ralls as far as Blanco. Two crews are at work.

A new roof was placed on the First Methodist church this week. Damage done by a recent hail storm caused a leak to develop and the church voted to have the building re-roofed.

With the heaviest downpour reported from the north and northeast portion of the county, good rains Friday night and Saturday morning, covered practically all of Floyd county, reports indicating that at sunset four inches of rain fell with gradually lighter fall toward the south and west.

Jean Bain, daughter of Mr. and Mrs. Kenneth E. Bain was honored on her twelfth birthday with a six o'clock dinner Saturday at her home.

Mrs. C. F. Lincoln entertained her little Sunday school class Sunday with a dinner and ice cream in the afternoon.

O. B. Olson who has been at Muleshoe for some weeks in the merchandising business with J. R. Maddox and Col. W. H. Seale was at home Sunday and Monday transacting business and visiting his family. Commissioner and Mrs. W. C. Hanna are expected home by Monday from California where they have been visiting their son, George Hanna.

Farm Bureau Leaders Meet Tomorrow

W. R. Tilson, Terry county farmer and director of the Texas Farm Bureau Federation for this district, will be in charge of the Farm Bureau meeting at Lubbock, August 8, 10 a. m., Lubbock hotel.

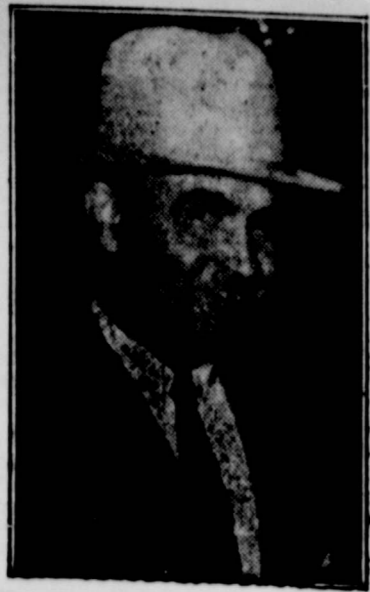

"Farmers of this area may well thank the Farm Bureau for the great increase in prices of cotton and wheat above last year," Tilson said. "Without the strength of Farm Bureau members in 41 states and the leadership of Edward A. O'Neal, president of the American Farm Bureau Federation, J. Walter Hammond, president of the Texas Farm Bureau, and other state leaders testifying before congressional committees, the 85 per cent parity loans for cotton and wheat would not have been provided.

On the program will be J. Walter Hammond, president of the Texas Farm Bureau Federation, E. R. Alexander, general manager of the TFF, and district Farm Bureau leaders. All in attendance will have a part in the discussion according to Tilson's plans. A broadcast of part of the program is scheduled at 1 p. m.

The Farm Bureau meeting held in Lubbock last March 13 was attended by more than 500 farmers and farm leaders. Tilson expects an even larger attendance at the Friday conference.

District 2 is composed of the following counties: Bailey, Briscoe, Castro, Cochran, Crosby, Dickens, Floyd, Garza, Hale, Hookley, Kent, Lamb, Lubbock, Lynn, Motley, Farmer, Swisher, Terry and Yoakum.

Each of the above counties is expected to have more than twenty-five representatives present at the Lubbock meeting.

W. R. Tilson, Terry county farmer, will preside at sessions of the District Farm Bureau federation tomorrow in Lubbock, where bureau members from a wide area are expected to attend.

Family Reunion Held July 30 At South Plains

SOUTH PLAINS, TEXAS, August 5.—Mr. and Mrs. Grigsby Milton and daughter Linnie were hosts for a reunion of their family Wednesday July 30. Those present were Mr. and Mrs. Otto W. Milton and daughter Bernadine of Albuquerque, New Mexico; Mrs. Esley Yeary and son Marion of South Plains; Mr. and Mrs. Otis A. Milton and daughter Linda Mae of Collingsworth County; Mr. and Mrs. Grigsby Milton Jr. and daughter Donita of South Plains; Mrs. Lillian Whitting of Plainview, and Mr. and Mrs. Milton's granddaughter Doris Milton of Hot Springs, New Mexico.

W. M. Stalcup of Mineral Wells and Ray Stalcup of Brownwood

spent Wednesday night with Mr. and Mrs. Sim Reeves and family.

NEW OIL *that gives car engines* GOOD OLD OIL-PLATING

far Outlasts 5 other big brands in Desert War of Endurance

Oil-Plated engine proves good for more than Double the Mileage averaged by rivals in Daring Death-Test... Certified

Plenty of good old pre-streamline cars with OIL-PLATED engines still pass your house quietly... pass newer cars on the road... pass oil-inspection many a time without needing a quart. That's because inner engine parts have been kept OIL-PLATED by the strong magnet-like action that won't let OIL-PLATING quickly drain down. Even through the nights, OIL-PLATING stays up to its topmost point—on guard against wear in advance! Yet this famous OIL-PLATING—based on the Conoco Germ Processed oil patent—is merely one factor in today's great success of the new

CONOCO Nth MOTOR OIL

—Lasted 5,683 miles longer than next-best oil tested in Death Valley

Conoco Nth oil invited itself straight up against 5 other representative oils in an all-out test to the death... unbiased... Certified. The graveyard was cruel Death Valley—so hot you can't sweat. 6 everyday coupes were used—all alike. Each got one 5-quart fill of some one competing oil—locked in by the Official Referee. Then under strictly equal conditions all cars sped without added oil, till engines cracked up.

The weakest oil gave up while Conoco Nth still had 8,268 miles to go... Certified. All 5 rivals together averaged 7,057 miles less than Conoco Nth oil... Certified.

Real difference—from a Real source

Modern synthetics are in new Nth oil. Now think of modern synthetics, making up for some

of Nature's life-givers lost in modern food processing. Similarly, the latest oil refining methods destroy some of Nature's life-givers. But today full life is brought back—more than generously—by the two Conoco synthetics.

One of these will make Conoco Nth motor oil keep your engine OIL-PLATED. The other will check the effect of foul leftovers caused by every engine's normal firing. This commonest of all oil troubles is now checked—inhibited—by Thiakene inhibitor... Conoco Patent 2,218,132. But why technicalities?—when you know the Certified Economy record of Conoco Nth in Death Valley. You'll never Death-Test your Conoco Nth oil, nor make your car try other proving-ground tortures. You'll still drain and refill at recommended intervals. But knowing that one fill of Conoco Nth outlasted the other Death-Tested oils—by 74% all the way up to 161%—you can figure on a long time between quarts of Conoco Nth oil. Beat The Price Rise

Altho we do not want to frighten any one and believe that the government will do its utmost to keep markets from running wild, prices are definitely and sharply advancing in many lines. Price rises of 10% to 30% in mill and factory wholesale quotations are common.

Defense program demands, rising commodity prices, and higher wages have combined to force costs upward. Deliveries are slow and many manufacturers are sold up for months ahead.

Aug. 30 Deadline On Wheat All-Risk Insurance

(By Aloye A. Hoots, Secretary Floyd County ACA)

August 30 is the deadline for signing applications for all-risk crop insurance on the 1942 wheat crop. All farmers who are interested or who will be interested in a wheat crop in 1942 are urged to call at the county office and let someone there go over the crop insurance program with them.

We believe every farm in Floyd county should be protected by all-risk crop insurance as it protects against wind, hail, drought, excess moisture, fire insects or all unavoidable loss and guarantees a normal crop regardless of which of the above reasons causes the loss.

Crop insurance can be bought without ready cash. The premium may be paid in cash now or anytime before maturity or may be deducted from your 1942 ACP payments. If you feel you cannot afford insurance on 45% of a normal crop then you may take out 50% insurance for little less than half of what the 75% will cost.

Irrigated farms will have a different yield and rate for insurance purposes only.

Crop insurance guarantees you 75% of a normal crop and if the weather brings you good luck you can well afford all-risk crop insurance; if it brings you bad luck, you cannot afford to be without it.

Summer Meeting Plans Made By Presbyterians

The Cumberland Presbyterian church is to hold its summer evangelistic services August 18 to 31. The visiting speaker will be the Rev. Carl C. Durbin of Lubbock. Each evening he will bring a vital gospel message, while the morning services will be of an inspirational and devotional nature.

Rev. Durbin has pastored the Lubbock church a little over a year. In this time he has proved his effectiveness as a Bible preacher and evangelist as is evidenced by the growth of his church.

The visiting evangelist comes to Floydada Presbyterians with a varied background. A native of California, he received his college and seminary work in Missouri and Tennessee. During his career as a young pastor he has had frequent calls for evangelistic work such as he will bring to Floydada. In the work of the denomination he is officially active as a member of the Board of Ministerial Relief. This board supervises the work of the church's \$50,000 Children's home recently completed at Denton, Texas.

The pastor of the local church, the Rev. Rudolf A. Renfer, will be in charge of special music. Lively congregational singing and inspirational choruses will be used extensively.

A cordial invitation is extended to the people of Floyd county to attend the services. They will be a blessing to all.

MID-YEAR REPORT MADE BY PL.V.W. PRODUCTION CREDIT ASSOCIATION

The mid-year report of the Plainview Production Credit association made as of June 30 and given out the latter part of July indicates healthy growth.

"B" Stockholders on the above date numbered 360, who owned \$30,645 in stock and there was an earned reserve of \$27,270.86 set up against contingencies. Wheat Quotas Proclaimed For 1942

Growers Decide Next Spring Whether They Want Quota Law

COLLEGE STATION, Aug. 7. — Wheat farmers will be given an opportunity to vote in a national referendum next spring on whether they want to continue wheat marketing quotas, Fred Rennels, assistant state administrative officer of the AAA, has announced.

This announcement by Secretary of Agriculture Claude R. Wickard is being made now to give wheat growers ample time to make plans for 1942 plantings before seeding time, Rennels continued.

In accordance with the AAA Act a proclamation must be made prior to May 15 of any marketing year when it appears the wheat supply will exceed a normal year's domestic consumption and exports by more than 35 percent. The national referendum which will be voted on before June 10, 1942, must be approved by two-thirds of the farmers voting before quotas will be in effect on that year's crop.

"Since marketing quotas on wheat serve to protect loan collateral, government loans would not be made on the 1942 crop if marketing quotas were voted down," the AAA official explained.

Wheat quotas are in effect for the first time on the 1941 crop as a result of the 81 percent favorable vote in the national referendum May 31, 1941, when farmers approved quotas by 94

percent. Approval of quotas made loans at 85 percent of parity possible.

The 1942 normal wheat acreage allotment of 55 million acres was announced May 22, and Texas farmers have been issued allotments totaling 3,748,141 acres.

"The carryover we will have on July 1, 1942, as a result of our above normal yields and reduced exports, is going to be the largest on record for the United States and a 1941 crop even as low as 358 million bushels would bring the supply up to the quota level," he said.

The Purpose of Quotas

American wheat farmers face the same problems confronting wheat growers in other exporting countries but nowhere have the farmers as effective and as democratic a program to protect their prices, Rennels said, pointing out that American farmers are getting far better prices for their 1941 crop than farmers in other wheat exporting countries.

The purpose of marketing quotas is to divide a limited market equitably among all growers and to protect wheat prices and income by keeping part of the surplus off the market until needed. When producers plant within their specified allotments, they make adjustments at seeding time and may continue to market their entire production in the normal manner. Producers who exceed their allotments when the wheat is planted are called upon to adjust marketings. The smaller of the normal or actual yield on the acres in excess of the allotment is subject to penalty.

The marketing penalty, which is intended to discourage marketing of excess wheat, amounts to 50 percent of the basic loan rate. For 1941, the national average loan rate is 98 cents, making a penalty rate of 49 cents.

How to Avoid Penalty

The penalty on excess wheat may be postponed if the excess is kept off the market and stored under

bond, or it may be avoided if the wheat is taken out of market channels by delivery to the Secretary of Agriculture for relief purposes. Or it may be converted into free wheat in which case it will be the amount by which a producer seeds below his allotment for next year, measured in terms of his normal yield, or the amount by which his next year's actual production falls below the normal yield of his allotted acres, Rennels said.

JAMES LYNN COLVILLE PROMOTED TO SERGEANT CO. O. 37th ENGINEERS

Word was received Saturday of the promotion of James Lynn Colville who was given the title of Sergeant of Company O. 37th Engineers at Camp Bowie. This is a newly organized division.

Sergeant Colville is the son of Mr. and Mrs. James Colville and the grandson of Mrs. W. M. Colville and Mrs. A. A. Beedy.

Mr. and Mrs. Jim Hart spent the week-end in Amarillo with their son Cecil Hart, Mrs. Hart and little daughter Nancy. While there they visited in the home of Mr. and Mrs. Richard Donothan. Mrs. C. D. Hart who has been visiting her daughter Mrs. Richard Donothan and family returned to Floydada with Mr. and Mrs. Hart.

Mr. and Mrs. B. W. Snell, of Lubbock, spent the week-end here visiting relatives. They were guests of Mr. and Mrs. Will Snell and Mr. and Mrs. J. J. McKinney. Miss Emma Lou McKinney accompanied them home and will spend several days in Lubbock on a visit.

Miss Glessie Goins, who is employed with the Lubbock National bank, visited Sunday with her sister, Mrs. C. P. Fulkerson. Miss Goins has been promoted to a teller's position, after only five weeks of employment there.

Mrs. Lou Cravatte returned home Sunday from Dunean, Oklahoma where she has been visiting a sister. Her daughter Mrs. Earl Ivey and little son Donald Earl of Dunean, Texas returned home with her for an indefinite visit.

Edgar F. Jones, proprietor of the Jones Market, with his six year old granddaughter Emilie Jones, daughter of Mr. and Mrs. Fred Jones left Wednesday for a months vacation trip to Los Angeles, California.

Mr. and Mrs. Frank Cline and family of Lubbock, were here over Sunday visiting relatives and friends.

Can Peaches; Plenty For Everybody

COLLEGE STATION, Aug. 7. — It is peach canning time in Texas! The trees are bearing under the largest crop ever produced in the state and the more desired varieties for canning, pickling, preserving, or free-will eating from the first will come down from the trees in the next 15 days. There are peaches for everybody—peaches for the cream, peaches for the Melba and peaches for everything peaches are used for. One million bushels more of the luscious fruit than ever was grown in Texas before are beckoning the wayfarer to come and take them to the home pantries, the drying pans and the ice cream freezers; to mingle with the breakfast cereal, or make a dinner dessert that knows no peer.

Alive to the opportunity, J. F. Rosborough, horticulturist of the A. and M. College Extension Service tells housewives to choose J. H. Hale and Elberta varieties for canning because both are freestone types. They hold their shape well when canned, and have a firm texture and a distinctive "peachy" flavor. The Frank, which will be ripe soon, is excellent for desserts because of its sweetness. The Indian variety is fine for pickling.

To hasten the job, it is easy to get the skin off peaches by placing them in a cloth sack and immersing them in boiling water until the skin slips easily. Rosborough says. Then plunge them in cold water and skin them.

Use firm peaches for canning, and for preserves choose those which are soft when pressed with the thumb. These have a little sweeter flavor which is transferred to the preserves.

Mr. and Mrs. Billie Grundy, of Dalhart, have returned to their home here after a brief visit here with their parents, Mr. and Mrs. W. H. Hilton and Mr. and Mrs. I. R. Grundy, and an extended trip to the coast country. While downstate they were guests in the home of Mr. and Mrs. R. A. L. Read of Silsbee, and also visited Galveston.

Mr. and Mrs. L. E. McDonald of Tulsa were guests here Sunday visiting in the homes of their parents, Mr. and Mrs. L. C. McDonald and Mr. and Mrs. O. B. Olson. Their little daughter Betty Katherine who has been visiting her grandparents the past week, returned home with her parents.

A baby daughter born to Mr. and Mrs. Hobby Heath, of Amarillo, on July 26, weighed 6½ pounds at birth and has been named Carolyn Wancee. The young lady is a granddaughter of Mr. and Mrs. E. C. King of Floydada. Mrs. King has been at her daughter's home the past several days.

Mr. and Mrs. R. L. Stovall and family and Mr. and Mrs. W. B. Griffith of Cleburne were guests Friday and Saturday of Mr. and Mrs. E. E. Harper and family. Mr. Stovall and Mr. Griffith are brothers and sisters of Mrs. Harper. They were enroute home from a vacation trip to San Diego, California.

Mr. and Mrs. Layton Dorrell and little daughter Darlene left Friday for Dalhart where they will visit in the home of Mr. and Mrs. J. C. Parker. While there they will attend the XIT reunion.

Week-end guests of Mr. and Mrs. R. C. Patton were their friends Mr. and Mrs. Raymond Oldham of Amarillo and Mr. and Mrs. Jack Adams and little daughter Junie of Hollis, Oklahoma.

Mr. and Mrs. Temple Grundy, of Dallas, were here Sunday and Monday, visiting in the home of Mr. Grundy's uncle, I. R. Grundy, and Mrs. Grundy.

RUSSELL KINGS GO TO LAS CRUCES TO MAKE THEIR HOME

Mr. and Mrs. Russell King left Friday for Las Cruces, New Mexico where they will make their home. Mr. King has purchased an interest in a tailor shop at Las Cruces, with Wilford Cothran, a former resident of Floydada.

Mr. King has been employed for the past seven years with the City Tailor shop and resigned that position last mid-week. He is succeeded by J. E. Seale of Memphis who with his family arrived in Floydada Friday.

ON ST. LOUIS TRIP

J. G. Martin, of Martin Dry Goods company, is in St. Louis this week, where he is spending several days in the dry goods and ready-to-wear market.

Mr. and Mrs. H. G. Barber and little son Don returned home Friday from Weatherford where Mrs. Barber and son had been visiting her parents Mr. and Mrs. J. Jones the past two months. During that time Mr. Barber has been in school at A & M College.

Mrs. A. C. Davis and daughter Sara Ann and Mr. and Mrs. J. R. Hall all of Roswell spent Thursday and Friday with Mr. and Mrs. Roe McCleskey and family. Mrs. Davis and Mrs. Hall are sisters of Mrs. McCleskey.

Waldo Houghton of Pampa was a week-end guest of his mother Mrs. W. M. Houghton.

Irvin Allen of Odessa spent the week-end with his parents Mr. and Mrs. Oliver Allen.

Mr. and Mrs. G. E. Fuller have as their guests Mrs. Fuller's mother Mrs. J. C. Calhoun, of Holland, Texas, also a sister and her daughter Mrs. Nora Hale and Nora Lee Hale of Houston; also another niece and her husband and children, Mr. and Mrs. J. B. Vioral of Goose Creek.

Mrs. L. H. Lewis and daughter Mrs. Jennie Conner and granddaughter Hugueta Smart returned Monday from a ten-days vacation trip to the coast. They were accompanied by Mrs. Henry Salyers of Abilene, another daughter of Mrs. Lewis. They report an enjoyable vacation trip.

Betty and George Young, daughter and son of Mr. and Mrs. G. T. Young are visiting their grandmother Mrs. Carmen Fitch at Denton. They left Thursday and will visit an indefinite time.

M. A. Crum, of Friona, was here over Sunday and visited with his sister, Miss Lucy.

Summer Meeting Plans Made By Presbyterians

The Cumberland Presbyterian church is to hold its summer evangelistic services August 18 to 31. The visiting speaker will be the Rev. Carl C. Durbin of Lubbock. Each evening he will bring a vital gospel message, while the morning services will be of an inspirational and devotional nature.

Rev. Durbin has pastored the Lubbock church a little over a year. In this time he has proved his effectiveness as a Bible preacher and evangelist as is evidenced by the growth of his church.

The visiting evangelist comes to Floydada Presbyterians with a varied background. A native of California, he received his college and seminary work in Missouri and Tennessee. During his career as a young pastor he has had frequent calls for evangelistic work such as he will bring to Floydada. In the work of the denomination he is officially active as a member of the Board of Ministerial Relief. This board supervises the work of the church's \$50,000 Children's home recently completed at Denton, Texas.

The pastor of the local church, the Rev. Rudolf A. Renfer, will be in charge of special music. Lively congregational singing and inspirational choruses will be used extensively.

A cordial invitation is extended to the people of Floyd county to attend the services. They will be a blessing to all.

MID-YEAR REPORT MADE BY PLVW PRODUCTION CREDIT ASSOCIATION

The mid-year report of the Plainview Production Credit association made as of June 30 and given out the latter part of July indicates healthy growth.

"B" Stockholders on the above date numbered 360, who owned \$30,645 in stock and there was an earned reserve of \$27,270.86 set up against contingencies. This compares with June 30, 1939, when the number of "B" stockholders was 201, their stock ownership \$18,405 and the reserve from earnings was \$17,881.30. Loans outstanding in June 1939, totaled \$154,265.46 as against \$420,018.78 for June 30 of this year.

Branch offices opened this year include one at Littlefield and one at Muleshoe in addition to the Floydada branch. Another branch is being opened at Tulla this month.

Gip Hudson, formerly in the banking business in Floyd county and for the past seven years with the Plainview office of Production Credit association, is manager of the Floydada branch.

Wheat Quotas Proclaimed For 1942

Growers Decide Next Spring Whether They Want Quota Law

COLLEGE STATION, Aug. 7. — Wheat farmers will be given an opportunity to vote in a national referendum next spring on whether they want to continue wheat marketing quotas, Fred Rennels, assistant state administrative officer of the AAA, has announced.

The announcement by Secretary of Agriculture Claude R. Wickard is being made now to give wheat growers ample time to make plans for 1942 plantings before seeding time, Rennels continued.

In accordance with the AAA Act a proclamation must be made prior to May 15 of any marketing year when it appears the wheat supply will exceed a normal year's domestic consumption and exports by more than 35 percent. The national referendum which will be voted on before June 10, 1942, must be approved by two-thirds of the farmers voting before quotas will be in effect on that year's crop.

"Since marketing quotas on wheat serve to protect loan collateral, government loans would not be made on the 1942 crop if marketing quotas were voted down," the AAA official explained.

Wheat quotas are in effect for the first time on the 1941 crop as a result of the 81 percent favorable vote in the national referendum May 31. Texas farmers approved quotas by 94

percent. Approval of quotas made loans at 85 percent of parity possible.

The 1942 national wheat acreage allotment of 55 million acres was announced May 22, and Texas farmers have been issued allotments totaling 3,748,141 acres.

"The carryover we will have on July 1, 1942, as a result of our above normal yields and reduced exports, is going to be the largest on record for the United States and a 1941 crop even as low as 358 million bushels would bring the supply up to the quota level," he said.

The Purpose of Quotas
American wheat farmers face the same problems confronting wheat growers in other exporting countries but nowhere have the farmers as effective and as democratic a program to protect their prices, Rennels said, pointing out that American farmers are getting far better prices for their 1941 crop than farmers in other wheat exporting countries.

The purpose of marketing quotas is to divide a limited market equitably among all growers and to protect wheat prices and income by keeping part of the surplus off the market until needed. When producers plant within their specified allotments, they make adjustments at seeding time and may continue to market their entire production in the normal manner. Producers who exceed their allotments when the wheat is planted are called upon to adjust marketings. The smaller of the normal or actual yield on the acres in excess of the allotment is subject to penalty.

The marketing penalty, which is intended to discourage marketing of excess wheat, amounts to 50 percent of the basic loan rate. For 1941, the national average loan rate is 98 cents, making a penalty rate of 49 cents.

How to Avoid Penalty
The penalty on excess wheat may be postponed if the excess is kept off the market and stored under

bond, or it may be avoided if the wheat is taken out of market channels by delivery to the Secretary of Agriculture for relief purposes. Or it may be converted into free wheat in which case it will be the amount by which a producer seeds below his allotment for next year, measured in terms of his normal yield, or the amount by which his next year's actual production falls below the normal yield of his allotted acres, Rennels said.

Can Peaches; Plenty For Everybody

COLLEGE STATION, Aug. 7. — It is peach canning time in Texas! The trees are bearing under the largest crop ever produced in the state and the more desired varieties for canning, pickling, preserving, or free-will eating from the first will come down from the trees in the next 15 days. There are peaches for everybody—peaches for the cream, peaches for the Melba, and peaches for everything peaches are used for. One million bushels more of the luscious fruit than ever was grown in Texas before are beckoning the wayfarer to come and take them to the home pantries, the drying pans and the ice cream freezers; to mingle with the breakfast cereal, or make a dinner dessert that knows no peer.

Alive to the opportunity, J. P. Rosborough, horticulturist of the A. and M. College Extension Service, tells housewives to choose J. H. Hale and Elberta varieties for canning because both are freestone types. They hold their shape well when canned, and have a firm texture and a distinctive "peachy" flavor. The Frank, which will be ripe soon, is excellent for desserts because of its sweetness. The Indian variety is fine for pickling.

To hasten the job, it is easy to get the skin off peaches by placing them in a cloth sack and immersing them in boiling water until the skin slips easily, Rosborough says. Then plunge them in cold water and skin them.

Use firm peaches for canning, and for preserves choose those which are soft when pressed with the thumb. These have a little sweeter flavor which is transferred to the preserves.

Mr. and Mrs. Billie Grundy, of Dalhart, have returned to their home there after a brief visit here with their parents, Mr. and Mrs. W. H. Hilton and Mr. and Mrs. I. R. Grundy, and an extended trip to the coast country. While downstate they were guests in the home of Mr. and Mrs. R. A. L. Read of Silsbee, and also visited Galveston.

Methodists Hear Judge Hamilton Sunday Morning

(By R. T. Breedlove, pastor) Judge G. E. Hamilton of Matador spoke for the laymen of the church to a good audience last Sunday morning while the pastor was at Brownfield preaching on the occasion of the opening of a new building in that city. The address of the lay leader was well received by the local congregation and they have highly praised it.

The pastor will preach at the morning and evening hours next Sunday and will welcome all who will attend the services.

Young people of the Anell Lynn Union together with the boys from the CCC camp here had a good time on the south lawn of the church Monday evening and were served refreshments in the dining room afterward. Then they proceeded to the sanctuary of the church and were led by local young people in a very impressive worship service during which Martha Yearwood sang a solo. Esther Plukner played a marimba number and Sappho Ward delivered an address. It was a profitable hour. The room was lit solely by candles and the young folk left the building with the atmosphere of worship still in their minds.

No matter what your church preference, or if you have none, attend some public service of worship to God next Sunday. The world has tried everything else for a long while. Now let us try God and see what can be done about creating a decent order for mankind.

The Methodist Church will begin a meeting on the seventh of September, and Brother L. N. Lipscomb of Plainview will preach for two weeks.
