

Water District Balloting Saturday

In Saturday's election ordered by the directors of the High Plains Underground Water Conservation District No. 1, there will be two polling places in Floyd county.

double, double election. "City" voters and the remainder of the voters of the county will vote separately, each on two propositions.

Voting place in Floydada will be at the court house. Voting place in Lockney will be at the city auditorium.

Resident owners of tax-rendered property all over Floyd county ex-

cept an area in the northeast corner are eligible to cast ballots in the local option elections.

instrument in "Miscellaneous" records, Volume No. 1, as follows: "Beginning at the common west corner of Motley and Dickens counties, thence north with the Motley-Floyd county line to its intersection with the caprock, thence with the meanders of the caprock in Floyd county to its intersection with the Briscoe-Floyd county line."

All the remaining portion of the county west of this boundary line, is included in the proposed district. Only those voting districts which

return a majority in favor of creation of the District will be parts of it. A city or the portion of the county outside of a city may be in or out of the district because of the local option method of holding the election.

The movement for creation of a political subdivision for conservation of irrigation water has been led by Plains farmers who organized as the High Plains Water Conservation and Users Association to combat persistent attempts to establish state control of underground water.

A trend toward federal control of this water has gained much momentum, these farmers point out. They cite this as another reason why this step should be taken to fix management of a conservation program at the local level.

Voters will decide Saturday whether the board of directors shall be given authority to levy a tax not to exceed five cents per \$100. Temporary directors of the district have stated that a tax of but 2-1/2 to 3 cents per \$100 will be sufficient.

The tax will be levied on renditions listed on county tax rolls. It will be assessed and collected by assessors and collectors of the respective counties.

On Saturday a director will be elected in each of the five precincts. On a permanent basis the directors will serve overlapping terms of three years.

Purposes of the District are: 1. To prevent waste of water and assure that it is used for purposes beneficial to the owner thereof.

2. To recognize individual ownership of underground water.

3. To make a systematic search for a practical method of recharging the underground reservoir from the thousands of lakes that form on the Plains. It is an unchallenged fact that the water table is falling. Engineers and geologists declare this water could easily be returned to the reservoir for future use. They report that nearly six feet of water will evaporate from these lakes every year.

4. To place in the hands of local people regulations to prevent waste instead of allowing control to be taken by state or federal agencies. The district will have no authority over wells used exclusively for domestic and stock raising purposes, or over wells that cannot produce more than 100,000 gallons daily. Owners of non-irrigation land voted into the District may have it excluded from it and made exempt from taxation. Rights of cities to acquire land for expansion of water supplies will not be affected.

On the committee representing Floyd county are L. L. Jones, of Floydada, Marvin Shurbet of Allmon Ed Whitfill and T. B. Mitchell of Lockney.

In a meeting held at Lockney Monday night general agreement was that the district should be created, and Marvin Shurbet, who has given much time and thought to the effort to create the district, is convinced it will be of lasting value. However, from Plainview in particular, Herbert S. Hillburn, editor of the Plainview Herald, believes it will be a serious mistake to create the district under the plan set up, and is strongly opposing it.

'Winds to Meet Paducah Squad Friday Night

Tomorrow night the Floydada High School Whirlwinds play host to the Paducah High School Dragons at Western Field at 8:00.

These old conference foes will meet in a non-district clash. Both are hungry for a win.

The Dragons will be out to win this game as they have dropped their last two contests to Crowell and to Lockney. They lost to Crowell 26-7 and to Lockney 33-26. In both these games Paducah has been led by Pat Green and even though they have gone down in defeat Green has had a hand in scoring four of Paducah's last five touchdowns.

Green however, isn't all the Dragons have. He is ably assisted by a good halfback in Bobby Thompson.

The Whirlwinds will probably be favored in this game, especially after beating Rails 21-14 last week, but they will be playing a team that has been under-rated, and which will have the element of being the underdog. Paducah is capable of turning the tables on the Floydada eleven.

Last week when they lost to Lockney they held the edge in first downs at 13 to 9, but they just didn't have the scoring punch when they needed it most. They were leading 26-19 at the beginning of the fourth quarter, but when Lockney got the strong wind to their backs they scored twice in this period to win the game. So it seems that Paducah will bring a strong team to Floydada Friday night and they are ready to make some sports writers eat their words.

Two of Coach Watson's five injured men are expected to be back on the active squad Friday night. Mack Hickerson, guard, and James Freeman, end, not entirely recovered from injuries, will see some action, he thinks, but he is sure that Co-captain Roy Teague, and Kerwin Baxter, tackle, and Billie Carmack, back, will not be able to resume play this week.

Coach O. M. Isbell is expected to bring a squad of 32 men here for the fray. Elmer Biddy, jr., is assistant coach.

Sheriff's Posse To Albuquerque Fair

Floyd County Sheriff's Posse will go to Albuquerque, New Mexico, tomorrow, Friday, September 28 to attend and ride in the parade at the fair there.

They will load their horses at 8 a.m. Friday at the rodeo grounds. All sheriff's posse members are to wear felt hats. The public is invited to attend.

The parade is to be at 9 a.m. on Saturday. About twenty members of the posse are planning to attend.

LT. THOMAS R. WRIGHT GUEST IN PARENTAL HOME

Lt. T. R. Wright and family, of Washington state, left for San Francisco, California, Saturday after a stay of several days in Floydada, guest of his parents, Mr. and Mrs. S. H. Wright. The lieutenant anticipates foreign duty with the air force.

While the lieutenant was here three other children of the family also visited the parental home. They were Paul Wright and family of Arroyo, Chas. Wright and family of Paducah, and Mrs. Ila Bradford and son John, of Colorado City Texas.

Lt. Wright was in the service over five years during World War II. He has contracted for three years more of duty.

FOUNDERS DAY BAPTIST CHURCH ON OCTOBER 7

Sunday, October 7, will be a big day for the congregation of the First Baptist church of Floydada. The date has been set as founders day, when founders of the church will be honored.

Of the original charter members there are now living representatives of four families, all still members of the church. They are the R. E. L. Muncy family, the C. Snodgrass family, the C. Surriner family and the A. D. White family.

The day will begin with a recognition service at 9:45 a.m. There will be dinner on the ground at 12 noon.

Numerous features to make the day complete are being planned, said the pastor, R. Earl Allen, this week.

Attorneys Elect Kenneth Bain Jr., Special Co. Court Judge

Attorney Kenneth E. Bain, jr., is special judge of Floyd county during the interval while Judge Frank L. Moore is incapacitated by illness. He was elected unanimously by the practicing lawyers before the Floyd county bar Monday, County Clerk Margaret Collier serving as tally clerk for the occasion, with Sheriff Leland A. Hart also present.

The election of the special judge in no way interferes with the tenure of office of Judge Moore, it was pointed out by attorneys at the session, and the return of Judge Moore to his duties will automatically terminate the special judge's official capacity.

Special Judge Bain disposed of three DWD cases on the criminal docket Monday morning and one probate case, that of probating the will of the late Ross C. Henry.

Problems of administrative duties of the judge probably will not come up, due to the fact that Judge Moore is believed on the road to recovery and should soon be able to resume his work as judge. However, County Attorney Enos T. Jones this week is asking an opinion from the attorney general's department on the question should it arise.

Report yesterday from Pitts hospital was optimistic on Judge Moore's condition. He was gravely ill for several days with pneumonia, which was aggravated by a chronic asthmatic condition.

Second Season Municipal Concert Association Opens Tuesday Night

The Floydada Municipal Concert Association opens its second season most auspiciously on Tuesday, October 2, with the presentation of Angeline Collins and Brent Williams, two of the finest voices appearing on the American concert stage today.

A brilliant evening seems assured with a program of great entertainment in store for the audience which will hear many of the popular favorites sung either as solos by Miss Collins, soprano, or Mr. Williams, tenor, or in special arrangement for the duo. Such numbers as "Let My Song Fill Your Heart" an entire medley operetta show-stoppers, "Without A Song" Minstrels and many others planned for the program clearly indicate an evening that no one will want to miss.

Not only are the possessors of beautiful voices, but it is doubtful if anywhere on the concert stage will there be found two more charming and friendly personalities. Here are two artists who live and love to sing. Give them an audience and they will sing their hearts out for them for nothing makes either of them happier than the opportunity to fill an auditorium with beautiful music.

The concert will be held at the High school auditorium and will begin promptly at 8 p.m. o'clock. Only members of the Floydada municipal concert association may attend upon presentation of their membership identification cards.

Don Bartram Shows Grand Champion Pig in Junior Swine Show; Sales For Achievement Day Are Brisk

Don Bartram, of Lockney, showed the grand champion barrow of the Junior Live Stock Show at the Floydada Rodeo barns Saturday, and sold his animal, a Chester White, for 46 cents a pound to Piggy-Wiggly store of Floydada.

In exhibiting the outstanding animal of the show, Don reached a peak in swine-raising for junior live stockmen that he has been battling for since he has been in 4-H club activities in the county. He has been a constant winner at the show for four years. Last year he showed the reserve champion. The swine he had up for judging this year was bred by Chester Mitchell. Dickerman, New Church Pastor For Nazarenes

Reverend and Mrs. Charles B. Dickerman arrived here last week with their furniture from Stratford, Kansas, to assume duties as pastor of the local Church of the Nazarene. Mr. Dickerman has had twenty-four years of experience in the pastorate, having served churches in Texas, New Mexico, and Kansas. He is a

REV. CHARLES B. DICKERMAN graduate of Southwestern College at Winfield, Kansas.

Mr. Dickerman is a graduate of Eastern Nazarene College at Boston. She served six years as director of the proffroom at the Nazarene Publishing house in Kansas City. She is a contributor to various publications of the church. She writes the Youth's Quarterly, a publication used by youth groups throughout the denomination. Both she and Mr. Dickerman are experienced in youth work, having served in various capacities in this department of the church.

The Dickermans have two children, both students at Bethany-Peniel College, Bethany, Oklahoma. Alvis, the boy, is eighteen and is enrolled as a junior. Doris is seventeen and is a sophomore.

The Dickermans say they like Floydada and are greatly anticipating their work here.

COMMUNITY CLUB Meets at Lakeview

The Lakeview Community club will meet at Lakeview school house on Friday evening. Everyone is invited. Those who attend bring tables chairs and dominoes. Hot dogs and coffee will be served. Mrs. H. M. Thomas is president of the club.

Mrs. Hanna Gravely Ill In Hospital

Mrs. A. R. Hanna, of Lubbock, former Floyd county resident, and mother of Pike Hanna and Mrs. Hilley Shurbet of Floydada, is in a critical condition at the West Texas hospital in Lubbock, where she has been for the past week. A report from Mr. Shurbet on Wednesday said that her condition was discouraging. She rallied and was removed from the oxygen tent the first of the week and it was thought that she was improving.

Mrs. Shurbet and Mr. Hanna are in attendance at her bedside, along with the other children.

COTTON OPENS FAST

Cotton in the area has opened fast under a warm sun this week, and six rows have begun to mount steadily. Harvest hands have been moving into the area with better prospect for pullers than in a number of years.

Two hundred bales or more had been ginned in the county yesterday afternoon.

Mt. Blanco Baptist Church

Coming, Dedication of New Mt. Blanco Church Next Sunday

Mt. Blanco Missionary church will have a home dedication service Sunday, September 30. The church was organized in 1918.

Annual years services were held at the Mt. Blanco school house, December 20, 1927, plans were made to start construction of a new building. This building was completed December 24, 1927.

Construction was started in 1928 and was completed in 1929. The old building was moved to the new building and made into an annex building, housing nine school rooms and a baptistery. A new building was built and the old building forming the Mt. Blanco school house.

Only three charter members of the church remain. They are Mrs. S. G. Appling, and Mrs. C. A. McClure. Mrs. Smith who is also a charter member in the community but her health is unable to attend church services.

Ministers have served as pastors. Rev. Alvin Smith is the present pastor, and under whose leadership the church has been built, has resigned effective October 1 to accept the pastorate of the First Baptist church of Quitaque.

Aside from the church plant itself the church has built and maintains a seven room parsonage, modern in every respect.

All former members, pastors and friends are invited and urged to attend these services. Invitations have been sent to as many as addresses were obtained for.

Jean Porter is County's Gold Star Girl '51

Jean Porter, member of the County-Wide 4-H club has been chosen Gold Star girl for Floyd county for 1951. This is an honor that may be received only once. In recognition of this achievement Jean will be presented a Gold Star pin by Texas A. & M. college.

Jean has had demonstrations in clothing, garden, canning, freezing, and bedroom improvement. In addition to serving as secretary and president of her 4-H club she has served as chairman of the District 2 Girls 4-H camp at Lubbock. She presided at all meetings during the district camp this summer and acted as treasurer for the camp as the elected treasurer had resigned.

In addition to other demonstrations Jean helps at home by cooking, driving the tractor and hoeing. In 1949 and 1950 she won second place at Floyd County 4-H Dress review. This year she won first place which made her eligible to enter the State 4-H dress review held at College Station in June.

Jean is a member of the Thespian club, the PHA and the High School chorus. She is a member of the junior class in Floydada High school.

Joe March Cotton Buyer Moves Here

Joe March, cotton buyer for J. B. Marion company, of Slaton, is moving to Floydada and will open up a cotton office on North Main street.

March anticipates a big cotton season in this area this season. His dealings will be largely with gins who are buyers of cotton from raisers who prefer to sell instead of putting their cotton through the Commodity Credit Corporation loan.

Despite the fact that in many instances goods sold by merchants are down in the markets, the administration through OPS seems determined to have merchandise go higher, as though with the design of fastening government orders and rules on the people more tightly with time. We credit the hierarchy in the bureaucracy and in the unions with this attitude of the government, which to us is unmistakable. Too many scare stories of shortages in being and to come have been given nation-wide publicity for it to be any other way. Queer sort of thinking to us. The government needs to be out of business in every possible way it can, instead of in business every possible way it can. Typical of the way the administrators are thinking is the recent debacle in meat prices, and the way the markets can and does trip them up. Hides and tallow had to go down instead of up. Long ago it was established that the average fellow trying to outguess the market is in bad business. They don't know this simplest thing up on the seventeenth floor!

See-e-e-EK! These nights of temperatures in the low forties are not very comforting to a weather forecaster, never known to miss, who has the first killing frost or freeze dated for November 10. For more than one other reason we must have the frost come in November, tolerable early, not October, tolerable early. Principal of these is that top crop in areas that were hailed out last spring, or rained out, and now must have a late fall to mature that last half of the crop to show any profit. The cotton man, most of his species at least, has got far and away too much expense money in the 1951 crop. Already many of them are swearing they'll never do it again. And if the frost nips too early, how they will swear! We're still on the November frost side and strong, but not comfortable.

Forecast of what Floyd county cotton producers are likely to have to meet in competition for laborers the next few days is contained in the farm labor bulletin of the Texas Employment commission. In this bulletin pulling is indicated as going to \$1.50 to \$1.75, weighing and hauling 25 cents. At Spur \$2.25 delivered, at Paducah \$2 to \$2.25 delivered, Memphis \$2.25 to \$2.50 delivered. Further eastward almost identical prices are indicated. The movement of cotton harvesting crews westward seems to be fairly well

under way, but the tier of counties 150 miles deep to the eastward of Floyd and southwestward is likely to fill up pretty well before many harvesters who have not been to this area in prior years will come into Floyd and adjoining counties. Later, it appears, if weather is as open as is hoped for there will be a pretty general influx of helpers. But that seems to be several days away. The thing about a cotton field is that it is not ready until it is ready and then it is very ready.

Highest per centage of cotton picking completed is in deep southeast Texas (that is outside of the Rio Grande valley). In Ellis the report last week-end said 44 per cent finished, in Dallas 50 per cent, Anderson 90 per cent, in Bell 60 per cent, McLennan 69 per cent, Denton, Cook, Wise 22 per cent. But get closer to home and Cottle, Childress, Hall, Donley, Hardeman, Wilbarger, Foard, have barely started, and the same is true of the heavy cotton producers south and southwest. A few crews are moving in to these areas, the reports show. Floyd county is not on the report map yet except in a report that combines Hale, Swisher, Floyd and Briscoe counties to say that the four will produce an estimated 328,000 bales of cotton.

The Hesperian uses essays or articles occasionally prepared by the Texas Medical association, which are, we think, both informative and interesting. Certainly, they are thoughtfully done and represent the best thinking on the different suggestions on health to which they are addressed. The medical profession, for two generations now have had very poor "public relations," save and except as individual practitioners. They are, individually, the most human persons in the world. Somebody taught them at school to stay away from charlatanism, which was good, but how they were taught to stay away from it and keep their skirts clean of countenancing malpractice was a job poorly done. They are trying to repair the fences now. The fact they are still contemptuous of some of the other types of laborers in the vineyard doesn't count against them with us.

Dry ice can be used to hold the temperature down in the home freezer in case of power failure or compressor trouble. A 50 pound cake, cut into pieces and placed in the various compartments, will hold the temperature to about 15 degrees for 48 hours.

NOTICE

We have been required by the Bank Examiners to remove the SAFE DEPOSIT BOX guard keys from the vault and place them in the hands of a custodian, who is an employee of the bank, and require you to register each time you want to enter your lock box.

The added protection provided by this requirement is easily realized. Consider that if you had lost your key under the system of leaving the guard keys in the vault, it could have been possible for almost anyone to enter your box unless you reported such loss immediately. Now, upon a request for entry, a person must present his key, the number must correspond to the record of that particular box and then, after registering, the custodian will open the box.

We believe that you will appreciate the further protection afforded by this arrangement.

FIRST NATIONAL BANK
Floydada, Texas

and an old friend, Mrs. Mary Hancock of Stockton, California, visited with Mrs. R. F. Hall two weeks ago.

Mrs. Hall returned home Friday from Ranger. She went back home with her sister, Mrs. Ledbetter. While Mrs. Hall was at Ranger, she went to Breckenridge, Texas, on business. She also visited friends and relatives in Breckenridge, Cisco, Eastland and Ranger.

CARD OF THANKS

I want to thank everyone for the nice cards and letters and flowers, also for the visits that made me so happy to have such nice friends.

When better automobiles are built BUICK will build them

Easy does it!

You're going to be surprised about lots of things the first time you and this Buick get out on the road. Take the easy way it responds to your every wish—steps away from a stop light—soars up a hill—lets loose a surge of power at the touch of your toe on the treadle—or gentles to a stop at the touch of the brakes. Take the way it rides the road—with an easy stride, sure-footed on turns, level as a lance on straightaways. Take the way it steers—so light and true that it seems to guide itself.

Take its ease of control. More than a million owners now know the wondrous freedom from tension and strain that goes with Dynaflow Drive.*

It's easy to see where this eager beauty gets its standout performance, when you glance at the list of all-star engineering features shown above.

But how about price? Can you afford it? "Easy does it" is the answer to that one too. Fact is—if you can afford a new car, you can afford a Buick. Better come in to see us soon.

*Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.*

**Johnson-Bloxom
Nuptial Ceremony
on Friday Evening**

Before an archway of white asters and gladioli, flanked by branched candelabra holding white candles, and with background of greenery, in the First Christian church on last Friday evening, Miss Flora Jane Johnson daughter of Mr. and Mrs. W. D. Johnson, north of the city, exchanged wedding vows with Bill Ray Bloxom, son of Mr. and Mrs. A. R. Bloxom of Plainview.

Reverend E. A. Powell officiated at the double ring ceremony. Leading to the rostrum, were four tall white beauty baskets, holding white gladioli and white asters. Miss Joy Bunch rendered pre-nuptial music and accompanied Miss Molly June French as she sang "Thru the Years" and "Because." Miss Bunch played the wedding marches and Miss French gave the Lord's prayer as benediction.

Candle lighters were brothers of the bride and groom, Mike Johnson and Jerry Bloxom.

Best man was Thomas Bloxom, brother of the bridegroom, of Plainview. The ushers were Gleason Aiken of Plainview and Cpl. Newton Dale Johnson, brother of the bride. Miss Sherwyn Fyffe and Miss Billy Chowning were maids of honor. They were dressed in matching blue organdy ballerina length dresses, full skirts and tight bodice, with matching colonial nosegays of pink and orchid asters. The maids wore gold ballet slippers.

Mrs. Kenneth Johnson, sister-in-law of the bride, was matron of honor. Her dress was designed like the maids', except being pink taffeta with over-skirt of net. She wore gold ballet slippers and carried a nosegay of orchid asters.

Gown of Gray Taffeta

The bride, entered on the arm of her father, who gave her in marriage. For the wedding the bride wore a gray taffeta gown with a full over-skirt of pink and gray net. The bodice was designed with high neckline. Her pink shoulder length veil was of bridal illusion fastened with a lace cap of the same color. Her bouquet, a large purple orchid with small Vanda orchids in a lighter shade of purple placed on white Bible. She wore cameo ear screws, gift of the groom. Her slippers were gold ballet.

Something new, was her bridal attire, something old was a diamond ring belonging to her late grandmother, Mrs. N. A. Armstrong, something blue was the traditional blue garter and something borrowed was the bible, belonging to her niece, Vicki Lynn Johnson of Petersburg.

For her daughters' wedding Mrs. Johnson wore a navy blue suit with white accessories and gardenia corsage. Mrs. Bloxom mother of the bridegroom, wore an oxford grey afternoon dress with gardenia corsage.

Reception in Church Parlor
Following the wedding ceremony, a reception was held in the church parlor, the bridal couple and their parents, and the brides' grandfa-

ther, N. A. Armstrong forming the receiving line.

The table carried out the bride's chosen colors of grey and pink in the decor. Tall pink tapers in double crystal holders were at either end of the table with crystal punch service in center, and a double ring wedding ring, in pink and white roses.

Mrs. Bloxom was graduated from the high school in Floydada with the class of 1949 and attended Riverside Junior college in Riverside, California, last year where she was a member of the Gamma Nu sorority.

Mr. Bloxom graduated from Lockney High school and is a member of the Plainview Battery A, 132nd Inf. A. Bn. He is employed by Southwestern Public Service company in Plainview.

After a wedding trip to Carlsbad and points in New Mexico, the couple will be at home in Plainview at 1508 West 14th street.

For her trip, Mrs. Bloxom wore a brown faille silk suit with red accessories and her orchid corsage.

Out-of-town guests at the wedding were Messrs. and Mmes. B. L. Van Netter of Lubbock, Mrs. Wanda Banker of Dallas, Cpl. Newton Dale Johnson, of Lackland, Field, San Antonio; Robert Cobb, Mrs. Faye Lewis and Carl Aiken of Plainview; Kenneth Johnson and family of Petersburg, and Mr. and Mrs. Lewis Jurcak and J. T. Bloxom of Plainview.

News of Home Demonstration Clubs

Sunny Side Club Reports Activities

Mrs. John McKinney, sr., entertained the Sunny Side Home Demonstration club with a covered dish luncheon Friday. After lunch Mrs. D. W. Burke taught how to cover lamp shades.

Mrs. S. J. Latta, president, had charge of a short business meeting. Motion was made and carried to pay the amount needed on the library fund. The president announced the flower show for the following day. She urged each member to go.

A report was given that the park on the highway the club sponsors has been cleared of weeds. Also a report that a check was given to the club by Mark Martin. We voted to send Mr. Martin a card of thanks for the check.

More plans were made for the co-op lunch.

The president announced a craft school for September 25-26.

Mrs. Irby, Mrs. Herbet Sims and Mrs. Leslie Pawver were appointed to have charge of Christmas gifts which will be on display in Floydada and Lockney.

Mrs. Calhoun gave a report on the Sunshine collection and some things she had done. The president asked that our flag be on display United Nations day, October 9.

We remembered our secret pals and drew new names.

Our next meeting will be with Mrs. Fay Hart, October 5. At this meeting we will elect new officers. The nomination committees are Mmes. Hilton, Burke and Thurman.

Seventeen members and one visitor were present. They were Mmes. Brints, Calhoun, Sims, Irby, Frank Williams, Latta, Tye, Pawver, Thurman, Shirley, Curry, Burke, McKinney, Dennison, Thomas, Lovell, Hilton and Chas. Probasco. Also the Leslie Pawver children were present.

FRIENDSHIP DEMONSTRATION CLUB WITH MRS. CONNER

The Friendship Home Demonstration Club met last Wednesday afternoon with Mrs. F. O. Conner.

Mrs. Sam Green and Miss Leila Petty had charge of the recreation hour.

Miss Petty gave a demonstration on "Accessories." Roll call was answered on "What I would like to have in the new year book." Mrs. W. E. Grimes, president gave the council report.

Miss Petty told of some T.H.D.A. recommendations. The club voted to assist with the dinner served for the co-op annual meeting in October.

Members present were Messdames A. H. Kreis, J. B. Bishop, J. M. Daniel, Sam Green, George Stiles, J. G. Martin, W. E. Grimes, J. H. Buchanan, and Miss Petty.

The next meeting will be October 3 with Mrs. Ham Smith as hostess.

LAKEVIEW CLUB MEETING

The Lakeview Home Demonstration club met September 30 with Mrs. Farris Wheeler.

Mrs. Lee Nichols, president, presided during the business meeting. Reports of the council members, Mrs. Roy Pawver and other committees were given.

Roll call was answered with the name of their Sunshine sister, gifts were given and names were drawn for the next three months.

A demonstration was given on covering lamp shades by Mrs. Vernon Wright and helper Mrs. B. P. Neff.

Two new club members are Mrs. E. Howell and Mrs. H. Mathews. Refreshments of ice cream, cake and candy orange slices were served to Mmes. C. T. Morrison, Joe Thurston, F. B. Estep, Fred Jones, Warner Johnson, L. D. Gollightly, Roy Pawver, Lee Nichols, J. A. Kinchloe, Earl Edwards, Wayne Russell, Vernon Wright, H. Mathews, E. Howell.

Conservation District News

Cecil Baxter, who operates the Morrison Liston section east of Floydada, is leaving fifty acres of volunteer wheat to be turned under for a green manure crop. Mr. Baxter wants to build up the organic matter in the soil to keep it from blowing.

Homer Steen, who has a small stock farm on the south edge of Floydada, has bench levelled another five acres and seeded it to vetch for grazing. He had previously established benches on eight acres and has been well pleased with the system of irrigating a pasture.

E. P. Jones, who has recently moved to his quarter section of land northeast of Lockney, is planning to level about ten acres in the near future. He will establish a grass pasture on half of it and seed alfalfa on the other for a hog pasture.

Norman Hamilton has recently seeded 10 acres of his farm southwest of Floydada to an improved pasture mixture of Kentucky 31, orchard grass, rye and sweet clover. The pasture is being established on part of the area that had previously been benched.

W. T. Ashburn, who farms the Pleasant Valley school section, has a crop of peas which have very heavy vines and foliage. Most people plant peas too thin and do not get much benefit when they are turned under.

Some sixteen members of the veterans agriculture class went on a field tour recently. The class is under the direction of N. S. Abbott, V. A. coordinator. The purpose of the tour was to acquaint them with the Soil Conservation Service method of soil surveying and the why of conservation. Carl J. Muench, local engineer and Phillip H. True, soil scientist of the Plainview SCS office, assisted Mr. Abbott with the tour.

Ben Quebe, a district cooperater farming in the Providence community, expects to seed a few acres of improved pasture to run a couple of milk cows and their calves.

Earle Joiner, who operates his farm northeast of Floydada, is planting seven acres of alfalfa and expects to seed several acres of improved pasture.

Recent checks on ditch losses of water revealed the loss of half the water when ditch carried water one and one-fourth miles. Running ditches through permeable soil results in heavy losses.

Wade Deavenport is doing some additional bench leveling on his

farm above South Plains which will be planted to improve pasture grasses. He was one of the first district cooperators to establish benches and has been well pleased with that first job. He is doing this work in cooperation with Production and Marketing administration and under supervision of local Soil Conservation Service technicians. Mr. Deavenport is also planning to install some underground pipe which will enable him to do away with an elevated ditch. This system will conserve water that he has been losing from seepage and evaporation.

W. C. Price has just seeded thirty acres of alfalfa and clover in some volunteer wheat on his farm northeast of Lockney. He plans to pasture this plot as well as build up the soil with these legumes.

The Floyd County Soil Conservation District now has two legume seeders that are available to farmers at a reasonable rental through the Floydada and Lockney PFA chapters. Any one interested in using these seeders should contact F. L. Montandon at the Lockney High school or Henry Barber, agriculture teacher in Floydada. These machines are built especially for legume seed and the district board of supervisors felt that they will be beneficial to farmers in putting pure seeding of legumes. The seeders are designed to be used in matured crops of feed and cotton without damage to the crop. This feature will be particularly beneficial when seeding a cover crop in rank cotton or grain sorghum that has begun to ripen.

Recovery Routine Started by Ginger Tinnin at Center

Ginger Tinnin, daughter of Mr. and Mrs. John R. Tinnin who was stricken with polio about two weeks ago and is a patient at the Plainview Polio clinic, is reported this Tuesday morning as improved. She has been started on hot tub treatments and can move her leg slightly. Her mother and father may see her for one hour on Wednesday and on Sunday, but may write letters and notes to her. She has started her school studies and is responding slightly to the treatments, however it is a slow procedure. Ginger was one of the twirlers for the High school band and her school mates and friends hope that she will soon be well again.

CARD OF THANKS

We want to show our sincere appreciation to Dr. Bess and the nurses while Mr. Tardy was in the hospital, and thanks again to Dr. Bess for being so good and watchful after my coming home.

We want to thank the church and the many friends for the flowers, cards and the covered dishes and the many personal visits.

Sincerely,
Mr. and Mrs. G. A. Tardy

Mr. and Mrs. Delbert Dillard, of Oklahoma City, have been here visiting their parents, Mr. and Mrs. M. P. Dillard and Mr. and Mrs. Jim Hicks. Mrs. Dillard returned home with her son and wife for a visit. Delbert has been recalled into the service and will leave in a few weeks for Alaska.

Mr. and Mrs. Robert Hinsley visited a number of their relatives in East Texas last week. Mrs. Hinsley was honored with a birthday dinner in the home of Mr. and Mrs. Lish Isbell in Irving, Texas, Saturday night. They enjoyed their trip very much.

Dr. and Mrs. Warren Poole and children, of Oklahoma City, have been the guests of his parents, Mr. and Mrs. W. S. Poole for the past few days. This is the first visit for little Miss Melissa Poole with her grandparents.

Mr. and Mrs. George Newman of Lubbock were dinner guests of her parents Mr. and Mrs. A. B. Blount last Sunday. The Newmans were enroute home from Flint, Michigan, and points in Canada, where they had been on a vacation.

Mrs. C. L. Berry, sr., in company with Mr. and Mrs. C. L. Berry, Jr., attended the Tech WTS game at Lubbock Saturday night. Miss Arminia Berry, who is a member of the West Texas band, accompanied them home Saturday night.

Mr. and Mrs. Maurice Campbell of the Dougherty Community are the parents of a daughter born September 19 in Peoples hospital. She has been named Jean Meri, and she weighed six pounds and eight ounces.

CARD OF THANKS

May I take this means of expressing my thanks for the many nice cards, flowers, visits, I received during my stay in the Lubbock Memorial hospital and since my coming home. Your many acts of kindness will be

ever remembered by myself and family.

Home Garden Club's Fall Flower Show Has Gratifying Attendance

The fall flower show held in the Hesperian Legion hall and sponsored by the Home Garden Club was well attended and over 143 entries were exhibited. The show was opened to the public at 1 p.m. and closed at 6 p.m. A good crowd enjoyed seeing beautiful displays of all fall flowers, the foliage table, the fruit vegetable table, the children's table and the roses, which were very pretty for this time of year.

The committee were very pleased with the number of people entering the show and the judges, Mesdames P. J. Bryan Sides and Johnny Bryan from Lubbock, complimented the show. They said the foliage table was one of the prettiest and most attractive they had seen at any of the shows held in the number of years, while dahlias were a close second in number.

The Oriental theme was carried on the stage decor and on the stage of the building. On the stage a Chinese boy and girl standing on a large card board orange tree and a large shrub, the background on the figures were colored in a brown background brought out the orange color in the large display tables were covered with a brown glazed paper and all were very pretty. One could see entering the hall that the show committee from the

Poacher Who Shot Antelope Not Seen

MATADOR—A four-prong buck antelope was shot and killed in the Rotadam ranch pasture Sunday about noon west of Matador. The animal, a member of the herd of antelope placed in the Mott pasture several years ago by the State Game Fish and Oyster commission, was killed with a 22 bullet hitting directly behind the ears.

The poacher was apparently frightened away by approaching cars as the animal was killed near the fence on U.S. Highway 70. A passing motorist notified officers and Sheriff John Stotts investigated the incident. The antelope herd has become tame and is frequently seen near the fence, undisturbed by passing automobiles.

The motorist who saw the buck kicking after being shot, did not see an automobile in the vicinity. Sheriff Stotts declared, "The Mott camp pasture is a state game preserve."

LUMBER YARD ADDITION

LOCKNEY—Lockney Lumber and Supply company is starting work this week on a new building to house offices and display rooms for the firm, according to information from Leon Wofford, manager.

The new building will be located just north of the present structure and will join it on the side. It will be 30 feet wide, 90 feet deep and will be of tile and brick with lots of glass in the front, said Mr. Wofford.

The Olen Harris' Plan the Christmas Season at Home

LOCKNEY—Mr. and Mrs. Olen Harris of Sao Paulo, Brazil, will spend Christmas with relatives here. Mr. Harris is manager of Brazilian properties of Anderson Clayton & company and the family have been in Brazil for a number of years.

Mrs. Harris and the daughters will leave by plane from Sao Paulo on November 4 and arrive at Oklahoma City on November 5. Mr. Harris and son, Dick, will leave December 15 and arrive December 16.

Mr. Harris' parents are Mr. and Mrs. V. D. Harris of Lockney. He has several brothers and sisters in this area, including B. E. Harris of Lockney and Mrs. Harold Griffith of Lone Star.

MITCHELLS ATTEND SWINE SHOW IN MINNESOTA

LOCKNEY—R. C. Mitchell, field representative in Texas for the Chester White Swine Record association with headquarters in Rochester, Indiana, last week attended the National Barrow show held at Austin, Minnesota. He was accompanied by Mrs. Mitchell and son, David.

NEW CONWAY DAUGHTER

Mr. and Mrs. J. R. Conway, jr., of Grand Prairie, are the parents of a baby daughter, born in the Methodist hospital in Dallas September 19. The baby has been named Laynett. The mother, baby and father are doing fine, as reported by Mrs. J. R. Conway, jr., in a communication to the Hesperian.

The Conways are former Floyd County residents.

EXPRESSION OF THANKS

We wish to take this opportunity to thank our friends and neighbors for the beautiful flowers, the nice cards and the visits during my illness at Lubbock Memorial hospital. May God bless you.

Municipality's Tax Rendition Rolls Completed

Completion and approval of the tax rolls of the City of Floydada, ready for the opening day of current collections on October 1, was announced this week by B. K. Barker, city secretary.

The rolls carry total valuations of \$2,180,093, of which real estate represents \$1,507,720 and personal property \$672,373.

Taxes assessed at \$1.50 per \$100 valuation aggregate \$32,701.20, of which the city's general fund would receive \$8,720.32, based on 100 per cent collections, and the bond fund \$23,980.88.

The bond funds referred to above are the direct tax bonds of the 1950 refunding issue of \$150,000 bearing 3 per cent interest and the 1944 issue of \$67,000 bearing 2 1/2 and 3 per cent interest. The total outstanding direct tax bonded debt of the city is \$217,000.

In addition to these direct tax bonds, the city also has outstanding \$71,000 revenue bonds against the waterworks which bear 2 1/2 and 2 3/4 per cent interest, and \$158,000 in light plant revenue bonds which bear 3 1/2 and 3 3/4 per cent interest. These bonds and interest are a lien against the income from the waterworks and the lighting system respectively.

Barker pointed out that the city taxes can be paid anytime in the period from October 1 to January 31, 1952, inclusive, without penalty, and there is no cash discount. Many taxpayers prefer to pay their taxes early to have them out of the way and off their minds, he said.

Mr. and Mrs. Randell Warren, of Lubbock, are the parents of a son, they have named Randy Tim, who was born on September 19. The baby is a grandchild of Mr. and Mrs. Bud Warren of Floydada. His maternal grand parents are Mr. and Mrs. Tom Dickerson. Randell is employed with Southwestern Bell Telephone company.

Mr. and Mrs. Frank Webb and children visited Sunday in Matador with her mother, Mrs. Henry Thompson, who is recuperating from recent surgery.

Questions and Answers on Under Ground Water District Number 1

Information About High Plains

(The following questions and answers on the proposed high plains underground water conservation district, is printed as a public service favorable features of the proposal. It is a prepared statement from the five directors who are asking the people of 21 counties to form the organization on which a vote will be cast on Saturday, September 29—Ed. note.)

Why It Should be Created. How It Must be Created. How It Will Operate

People of the High Plains of Texas know that the underground water table is falling.

That simply means that more water is being taken out of the reservoir than is going into it.

This water is the life blood of the economy of the area.

It is necessary, therefore, that measures be taken to bring about a balance between recharge of and withdrawal of the underground water reservoir.

The Texas Underground Water Law was adopted by the legislature in 1949 principally because of efforts of High Plains irrigation farmers organized as the High Plains Conservation and Water Users Association.

This law is the tool with which an organization to correct this situation can be formed.

The word "control" is distasteful to the High Plainsman—especially if that control is to come from any governmental unit other than a purely local one.

In seeking legislation the High Plains people had two things in mind: First, to obtain a law with which people of this area could solve the problem themselves and, secondly, to weaken as much as possible any threat of state or federal control of underground water.

The law under which an underground water district must be created in Texas makes possible management and conservation of underground water on the local level. It is an instrument for local self-government. It is wholly and completely a local option law.

This law is essentially what the High Plains wanted.

The purpose of this law, as expressed by its own language, are:

1. To provide for conservation, preservation and protection of underground water.
2. To provide for recharging of underground water reservoirs.
3. To prevent waste of underground water.
4. To recognize individual ownership of underground water.

The law defines "waste" as follows:

1. Withdrawal of underground water at such a rate and in such an amount as to cause the intrusion into the reservoir of water not suitable for agriculture, gardening, domestic or stock raising purposes.
2. The flowing or producing of wells from underground reservoirs when water produced is not for a beneficial purpose.

(The act defines "beneficial purpose" as follows:

"Use of underground water for agricultural, gardening, domestic, stock raising, municipal or mining purposes; for exploring for or producing, handling, or treating of oil, gas or other mineral; for manufacturing, industrial, commercial, recreational or pleasure purpose, or any other purpose that is useful and beneficial to the owner thereof.")

1. Why should the district be created?
- First, to determine the best way to recharge the reservoir through co-operation efforts of landowners of the area.

(It has been determined that 70 inches or nearly a six-foot depth of water will evaporate every year from lakes in this area. Engineers and geologists declare that this water could easily be returned to the underground reservoir for future use.

For this recharging program to be most effective, it would be necessary that the work be carried on in the entire district at the same time. It could not be accomplished satisfactorily except by joint action of all landowners of the irrigation area.

Secondly, to eliminate or to reduce to as great a degree as possible the danger of state or federal control of underground water.

(At every session of the Texas legislature for a number of years High Plains farmers have had to combat efforts to enact laws that would have invoked state control.)

Congressional hearings were scheduled to open Sept. 12th, in Washington for the purpose of framing legislation to enforce the terms of the President's Water Resources Commission. That report declared that the Federal government should control all underground water, as well as surface water.

II. How must this water district be created?

First step in the legal process for creation of the district was made early this year when the State Board of Water Engineers officially defined the reservoir.

Second step was taken August 9th at a hearing conducted by the State Board at Plainview. At that time the Board designated the High Plains Underground Water District, fixing and establishing its boundaries. It is the portion of the Ogallala reservoir lying south of the Canadian river.

The district includes all of the counties of Farmer, Swisher, Hale and Lubbock and parts of the counties of Garza, Terry, Hockley, Cochran, Bailey, Lamb, Castro, Deaf Smith, Oldham, Potter, Randall, Armstrong, Briscoe, Floyd, Crosby, Dickens and Lynn.

The law requires that the District be divided into five precincts and this was done August 9th by the Board of Water Engineers.

The law also requires that the State Board appoint a temporary Board of Directors composed of one director of each of the five precincts.

The Board divided the district and named temporary directors as follows:

Precinct No. 1—E. C. Hatton of Lubbock, director—Dickens, Crosby, Garza, Lynn and Lubbock Counties.

Precinct No. 2—C. C. Chester of Littlefield, director—Terry, Hockley, Cochran and Lamb counties.

Precinct No. 3—Jess Osborn of Muleshoe, director—Bailey, Farmer, and Castro counties.

Precinct No. 4—Tom McFarland of Hereford, director—Deaf Smith, Oldham, Potter, Randall and Armstrong counties.

Precinct No. 5—Tom Bostic of Hale county, director—Swisher, Hale, Briscoe, and Floyd counties.

Third, and final step in creation of the district will be taken Saturday, September 29th. As provided by the law, the temporary Board of Directors called an election for that date.

In the September 29th election ballots will be cast on three propositions. They are:

1. For or against creation of the district.
2. For or against authorizing the directors to levy a property tax not to exceed five cents per \$100.00.
3. To elect a director in each precinct.

QUESTIONS AND ANSWERS REGARDING CREATION OF THE DISTRICT.

Q Who is eligible to vote?

A All those who have paid the poll tax, who reside in the district and who have rendered property in the district for taxation.

Q Where will an eligible voter cast his ballot if he lives in one voting precinct and his property is in another precinct?

A In the precinct where he lives. How will the district be divided into election precincts?

A Each county, or the portion of it within the district, will be an election precinct UNLESS there is one or more incorporated town in the county and within the proposed district, in which case each incorporated town will be a separate election precinct.

All voters will cast their ballots in the precinct of their residence—in a "city" box if they live within the town, in a "county" box if they live outside limits of an incorporated town.

Q Can there be more than one voting BOX in a PRECINCT?

A Yes. Q Can a "city" box and a "county" box be located at the same polling place?

A Yes, but there must be a separate box for ballots cast by "city" residents and "County" residents.

O Must a majority in favor of creation of the district be registered in all voting precincts of the entire proposed district to create the district?

A No. Any election precinct returning a majority against creation of the District will not be a part of it or subject to taxation. They may, however, join the district whenever a majority so votes in an election.

It is possible, therefore, that a town within a county will not be a part of the district while the remainder of the county or portion thereof is in the district, or vice versa.

Q How long will the present temporary directors serve?

A Until September 29th unless they are elected at that time.

Q Will names of the temporary directors appear on the September 29th election ballot?

A Yes. Q How long will directors elected on September 29th serve?

A Until the second Tuesday of January 1952 or until their successors have qualified.

Q When will Directors first be elected for regular terms?

A The law requires that they be elected on the second Tuesday of January 1952.

Q Will the permanent directors be elected at large—that is, by majority of all votes cast in the entire district?

A No. They will be elected strictly on the Precinct basis as County Commissioners are elected.

Q How long will directors elected next January serve?

A Following election the five will draw lots for length of terms—one, two or three years. Thereafter, an election will be held to select successors to those whose terms expire who will serve terms of three years.

On the permanent basis, therefore, terms of directors will be "staggered" like those of school trustees.

III. How will the district operate?

This Underground Water Law was enacted principally because of efforts of irrigation farmers of the High Plains. Other bills were introduced in the legislative session that passed this law that would have made underground water property of the state or public property.

The High Plains people succeeded in enlisting support of the Winter Garden people of South Texas for a law to fix management and conservation of Underground water on the local level.

As originally drafted by attorneys for the High Plains Conservation and Water Users Association, the law under which we now are acting would have provided that a tax rate of not to exceed 10 cents per \$100.00 could be levied by vote of property owners.

The Winter Garden people wanted the maximum set at \$1.00 per \$100.00 because of conditions peculiar to their area. As a compromise, to assure passage of the bill, the High Plains people agreed to a 50 cents per \$100.00 ceiling on the tax rate.

However, the temporary Board of Directors of the High Plains district has submitted to the voters a tax rate not to exceed five cents per \$100.00. The Supreme Court of Texas has held that a property tax can be created only by vote of property owners

and that the ceiling on any tax levy can be changed only by vote of owners of property within the area affected.

The temporary Board of Directors estimates that a rate of not more than 2½ to 3 cents per \$100.00 will be necessary to operate the district in the immediate future if all of the area of the proposed district is voted into it. Three cents per \$100.00 on a 100 acre farm rendered at \$20.00 per acre, or a residence rendered at \$3,000 would amount to a tax of 96 cents per year.

QUESTIONS AND ANSWERS REGARDING OPERATION OF THE DISTRICT.

Q How will tax rolls of the district be compiled?

A The District will not make up separate tax rolls.

Q What renditions will be used by the District?

A The renditions or valuations on the tax roll of each county.

Q Who will fix assessments for collection of the Water District tax?

A The Tax Assessor of each County.

Q Who will collect the Water District tax?

A The Tax Collector of each county.

Q Of what will the District's expenses consist?

A First, it must bear expense of creating itself. The law provides that tax money defray expense of doing those things the law itself requires to be done to create the district—such as paying election officials, printing ballots and publishing notices of the election.

The temporary board has outlined the following as operation expenses it contemplates will be necessary:

1. Employment of an office secretary, purchase of office equipment and maintenance of the office.
2. Distribution of information to water producers to help them prevent waste.
3. Research and engineering to determine best methods of recharging the reservoir.

Q Will the District's directors have authority over a well used for domestic or stock raising purposes only?

A No. And the law does not apply in any way to wells capable of producing not more than 100,000 gallons daily.

Q Can the district enforce production of underground water?

A No. Q Can the District decide how much water can be produced from a well?

A Only as necessary to prevent waste or to guarantee beneficial use as defined in the law, and quoted above.

Q If land under which there is no irrigation water is voted into the district, can it be excluded?

A Yes. The law specifically provides that such land may be excluded by request by its owner.

Q How will creation of the district affect "windmill wells" used for stock raising purposes?

A The law does not allow the Directors to interfere with production of water for domestic or stock raising purposes. It does not apply to wells that can produce not more than 100,000 gallons daily. Creation of the district conceivably would, eventually, mean that a rancher would maintain control of such wells instead of having to submit to state or federal control.

Q Can the District board regulate spacing of wells?

A Yes, to prevent waste.

Q What authority would the Directors have in a situation like this: the high point is located on a line between two farms. One owner is operating a well at or near the line. The other owner wishes to drill at or near the same line.

A This temporary board has set

a precedent by appointing an advisory committee in each county of the proposed district, weather all or only a small part of the county is in the district.

It is intended that these committees assist the Board in just such situation. In a case like that just described, the county committees would be asked to get the two owners together and help them reach an agreement. If this should fail, the board would decide how the wells would be spaced.

Q Will the board require water well drilling permits?

A Yes. It must keep record of all wells drilled. The Board must, under the law, issue permits to guarantee:

- (1) Proper spacing and
- (2) That wells be so drilled, constructed and equipped as to prevent intrusion of undesirable water into the fresh water sand—a problem not expected to arise in this District except in very rare and unusual cases.

Q Does the law confirm anything to prevent a person from drilling a well on his own land?

A No. One of the specific purposes of the law is to recognize individual ownership of underground water.

Q Will the board have jurisdiction over water wells drilled by geo-

physical crews or oil producers? A Yes. To the extent that they act to prevent or stop continuation of the underground water district affect expansion of water fields by cities?

A It will not change the position. They will continue free to buy land for water production purposes or to acquire right of eminent domain. In case they will pay for such land as they now do.

Whirlwinds Whip Jack Rabbits; Season's First

The Floydada High School Whirlwinds took their first game of the season by whipping Ralls last Friday night 21-14. The Whirlwinds, playing with a patched-up lineup, scored twice in the first quarter to take an early lead only to see Ralls retaliate in the second quarter to tie the game. But the 'Winds scored again in the fourth quarter to win the bitterly contested game on a cold night that saw the fans huddled under blankets.

The Whirlwinds drove for a touchdown the first time they got their hands on the ball. After kicking off to Ralls over the goal line and the ball being brought back to the 20 yard line, Ralls ran three plays then punted to McGuire on the Floydada 45, who returned the ball to the Ralls 44. From here the 'Winds scored in eleven plays that saw them gain three first downs.

Dane Clark carried the ball the last eleven yards for the score. It was a freakish play with Clark fumbling over the Goal Line with first one player touching the ball then another. Bert Grimes finally covered it for the score. Roy Teague's placement was good and the Whirlwinds led 7-0 early in the first quarter.

The 'Winds again kicked off to the Jackrabbits, but two plays later Ralls fumbled and again Bert Grimes covered the ball on the Ralls 21 yard line. This time it took the Whirlwinds six plays to score with Adrian Helms taking a pass from Connie Bearden for the last 10 yards and the tally. Roy Teague's placement was good again and the Whirlwinds had a 14-0 lead in the first quarter and it began to look as if a rout was in the making. However Ralls had other ideas as they ran the kickoff back to their own 36. Here they drew a fifteen yard penalty that set them back to their own 21. Then after two incomplete passes Alvin Roznovsky got off a beautiful quick kick that rolled dead on the Floydada 5 yard line.

Helms ran the ball out to the 20 yard line on the first play, but then the Winds lost 7 yards back to the 13. The Whirlwinds decided to kick out of the hole they were in only to have the kick blocked and the ball recovered by Ralls on the 11 yard line. Roznovsky, the 144-pound Ralls Fullback, scored on the next play and ran the extra points over making the score 14-7.

From here the game rocked back and fourth until the last of the second quarter when Ralls took over after a short Whirlwind punt, on the Floydada 29 yard line. After a Ralls' pass gained to the 'Winds 9 yard line, Roznovsky scooted the remaining 9 yards for the second Ralls

touchdown. Again Roznovsky ran the extra point over just as the half ended with the score tied 14-14. The third quarter was scoreless with the Jackrabbits getting inside the Floydada 15 twice. The Whirlwinds stopping each of the drives short of pay dirt.

The Jackrabbits again threatened early in the fourth quarter as they drove down to the Floydada 8, but here the 'Winds defense tightened up again and took over on down on the 10. Here the 'Winds caught fire again and moved the 90 yards to score in just 7 plays, with Helms, McGuire, and Wilks alternating to eat up the yardage and with Helms ramming across from the 3 yard line to break the tie. Teague's point after touchdown was again good and the Whirlwinds led 21-14.

On the kickoff after the score, Teague's kick was short and was recovered by Hubert Ring on the Ralls 46. The Winds kept the ball the rest of the game and as the game ended they had the ball on the Ralls 15-yard line.

Beat a Good Ralls Team

The Whirlwinds played one of their best games of the season in beating a good Ralls team. Their defense was especially strong when it counted as they stopped Ralls three times inside the 15 yard line. As for the offense, they cashed in on the breaks, but showed that it wasn't the breaks that won the game as they made their determined 90-yard touchdown march for the winning touchdown. The whole team was playing heads up football as they came away with their first win of the season.

Time to Clean Out Bar Ditches is Now, Winter Snows Make Difficulties

I wish to take this opportunity of thanking those patrons of Route 1 who have recently one-wayed the bar ditches around their farms for it certainly has been a great help to the roads as well as to the farms. And when our roads are improved the general public is benefited. The carrier who goes over those roads is only one of many to be benefited. Furthermore all the patrons of Route 1 should be interested in the improvement of the entire route because one had place on the route will affect the delivery of the mail from there on.

A small part of my route has been improved lately but there are still about 40 miles in need of attention. The bar ditches are full of Johnson grass and weeds and some places the bar ditches are full of dirt and water runs over the roads. I am still hoping to see these bar ditches cleaned and the roads graded before winter comes. I still think it is better to clean the ditches and build up the roads and prevent snow from drifting in the roads than to have to go out and open up the roads after a snow. It's not hard to tell what makes the snow drift in this country so why not remove the cause before it's too late?

In conclusion will say that we will have the kinds of roads that we demand so if you are interested in good country roads do something about it please.

S. L. Powell.

Over three hundred and fifty women attended the two-day cooking school held in the Palace theatre last Thursday and Friday, sponsored by the Southwestern Public Service company, under the direction of the local manager, George Cavin.

Misses Patricia Stearns of the Amarillo office and Clydie Mae Little of the Clovis, New Mexico, office of Southwestern Public Service, gave lectures and demonstrated the appliances at the school. Ten local dealers cooperated with the Public Service company in helping make the school a success.

Tasty dishes were prepared and were presented by lot to the lucky person present, as were also other attendance prizes, donated by different dealers. Receiving the prizes were Mesdames Jose Embry, Weldon McCormick, H. F. Jackson, W. H. Henderson, Winnye Angus, W. H. Brock, Annie Assister, Harold Woody, Earl Baker, Bob Bratton, P. A. Faulkenberry, Chas. B. Smith, L. B. Stewart, Jr., Helen Dunlap, W. A. Lovell, J. A. Grigsby, A. H. Kreis, Ray Williams, Mrs. T. J. Heard, Mrs. Duncan Hollums, and Mrs. F. O. Conner.

Visitors in the C. E. Soderstrom home Sunday was old ranch friends. They were Doc Green and Mr. and Mrs. Grover Car of the Swinson ranch, Dumont, Texas, in Cottle county. All enjoyed the visit very much, talking over old times and cowboy days.
