

Mail Service Cut Ordered Effective Saturday

Lack of Funds Alleged By PM Gen. in Order

Unless there is a change in postal instructions, not now foreseen, Floydada patrons of the United States Post Office will have their first taste of curtailed service Saturday.

The local office will be closed all day Saturday and all day Sunday. There will be no window service, no acceptance of packages, no Saturday newspapers or mail for rural or other patrons, except to box holders.

This is Postmaster Edward Wester's interpretation of the first impact on local patrons of Postmaster General Summerfield's order for reduced U. S. Mail service, as given out this mid-week.

Although the postmaster is hoping a way will be found to avoid the curtailment in service there is nothing this mid-week to indicate that such is probable or possible. The postmaster general's order is general for the entire nation and patrons of the big offices will be harder hit than the smaller ones.

Here are the curtailment orders issued for Saturday in the words of Postmaster Wester:

- (1) Office will be closed to the public on Saturdays and Sundays. No window service for stamps and no acceptance of packages.
- (2) All City and Rural Delivery Service will be discontinued on Saturdays. This does not apply to Special Delivery Service. Do not call at the office for Saturday's newspapers or mail. It will not be ready for delivery until Monday.
- (3) Saturday Collection Service will operate on Sunday schedules, to coincide with the principal dispatch, 6:00 p.m. All dispatch of mail on Saturday will be the same. All mail to Lubbock must be in the office by 3:30 p.m.

This final quarter began on April 1.

The Postmaster General is in a running quarrel with the committee on Postal offices and Post Roads of the Congress. Their current hassle has come to an impasse unless one or the other yields.

An additional curtailment of service will occur beginning Monday when the post office will be open one-half hour later and close one-half hour earlier than has been the custom. The new hours beginning Monday will be opening at 8:30 a.m., closing at 5 p.m.

On that date city patrons who have had three times daily mail deliveries will be cut to two. This will not affect the Floydada business district which has only two deliveries daily heretofore.

The next threatened cut in service will come on April 29 when "No third class mail, except certain medical items, will be accepted," and "the issuance of money orders will be suspended at all of the first and second class offices."

Offices at Dougherty, Aiken and South Plains will not be affected by these orders.

Principal immediate impact locally is seen in the refusal to deliver papers and other mail Saturdays and the loss of a Saturday workday by three substitute clerks. Rural letter carriers are not penalized by the failure to make their Saturday runs, so far as is known locally.

Possibility that Friday may see a "run" on post office boxes by patrons who must have their mail Saturday is foreseen.

FHS Jr. Rodeo Scheduled For May 3 and 4th

The Floydada High School Junior Rodeo, organized on April 5 by the senior class of Floydada High School, will present their first exhibition on May 3 and 4 at the Floydada Roping Arena.

Three performances will be given, scheduled for 2:30 p.m. Friday, May 3, and 2:30 p.m. and 8:00 p.m. Saturday, May 4.

Stock for the rodeo will be furnished by Morris Stephens of Silverton and Jack Johnson, Floydada, will be the announcer.

Ages up to 20 can participate in the Bareback Bronc Riding Contest, Bull Riding, Ribbon Roping Contest, The Down Roping Contest and Girls Barrel Race.

Prizes to be given away in each event will be furnished by Floydada merchants and will be announced at a later date.

A feature attraction will be the clown who will be on hand to perform with antics during the rodeo. Norman Davis, senior class president, and Joe Noland are committee chairman for the rodeo. Proceeds from the rodeo will go toward the annual senior class trip.

Meeting of Pioneers Makes Reunion Day Plans

Holiday Schedule Names Five Days

Floydada business firms will have five holidays recommended to them for observance during 1957 according to Dan Hagood, chairman of the Chamber of Commerce Retail Trade Committee.

The committee met on Thursday of last week to discuss their program of work for the coming year. The five holidays on their recommendation are the same as those observed in the past. They include Memorial Day on May 30, July 4, Thanksgiving, Christmas, and New Years.

If no objection is heard from Floydada businessmen before the committee's next meeting the suggested holidays will be approved, Hagood said.

Other projects adopted by the committee are to sponsor:

- A dollar day on the first Monday of each month;
- Give a first bale of cotton prize, Sponsor Christmas decorations and activities, and
- Promote Cotton Week in Floydada the third week in May in cooperation with the National Cotton Council.

The committee also urged local business firms to include invitations to the April 15 Lions Club free circus in their advertising this week.

Storch is married and has one son, Danny, 14. The families of the two officials will join them in their new homes after the end of the school year, according to their present plans.

Storch is a 16-year man with the Bell organization. He began work with the company in New York state.

Cotton Fast Losing Market Leadership

John Gregg, staff member of the National Cotton Council, in Floydada Monday afternoon, sounded the alarm to cotton growers, cotton ginners and handlers, on curtailed use of cotton and the fast gain being made by synthetics and foreign cotton on the American-cotton growers market.

Gregg told his small audience, urging a rally of all cotton producers and handlers, that there is imminent prospect of an eight-million bale cotton crop in the offing unless cotton people awaken to their peril.

He said that a meeting of cotton people has been scheduled for May 10 at Lockney and all other communities of the plains are having similar rallies.

A tentative date of May 9 for a rally for cotton people at Floydada was set. The National Cotton Council proposes a positive program which will be detailed at the rally, when held.

Commissioners To Sit May 8 As Tax Board

There were 1,365 votes cast, 471 for Dies, 158 for Hutchinson, 655 for Yarborough, 60 for White, and 16 for Hart.

The court will sit as a board of equalization on May 8, the minutes of the Monday meeting disclose. This is to consider renditions made for current year tax rolls.

Floyd County Memorial Park, Inc., was given authority to subdivide the area of their plot into lots for burial sites.

The court will be in special session April 16 to conduct the hearing on the proposed Weed Control Law election.

In a series of committee meetings during the month of April Floydada Chamber of Commerce will continue to explore the various possible angles of community development.

The opportunity for development is unlimited, he declares, and chairman of the various committees are being asked to accept definite responsibilities for accomplishment in the year ahead.

Officers and directors of the Floyd County Pioneers Association in their Saturday meeting to plan for the Founders Day Reunion on May 28, named numerous committees and studied ways and means of getting members of the civic clubs of Floydada, Lockney and other parts of the county to join them in making plans for the event.

The Saturday meeting, called by Buck Sams, the president, was held in the county court room at 2 o'clock.

Their next meeting will be on April 20, when committees will report and several decisions will be reached including the prize list.

New City Council Organizes to Operate City Government

Floydada's new city council, with one member of the old board re-elected to serve with five new members, got organized and squared away for a year at a special meeting Tuesday night.

In this meeting, which began at 7 o'clock and was adjourned at 8:25, the council divided up its work among the councilmen.

M. H. Martin was detailed as "commissioner" of light and power service on the council; Bill Hale as "commissioner" for Parks and Police; L. L. Clark "commissioner" on Sanitation;

Roe Jones as "commissioner" of streets and alleys; and And W. W. (Bud) Goen as "commissioner" of the Water Department.

Parcelling out the responsibilities of the various departments of city affairs, the councilmen mutually agreed that they would undertake these roles, with the aid and help of each other member. The term "commissioner" is merely for convenience and has no official connotation.

L. L. Clark was named mayor protem, Dr. A. E. Guthrie chosen for city health officer and The Hesperian the official newspaper of the city, and R. F. Stovall, city attorney.

The retiring council had their meeting on the regular meeting night, Monday, when they tallied up their commitments and ordered all bills paid that were in order.

With the tacit consent of the new council the old council decided to complete their change in the job of the city secretary. Accordingly they named Lewis Norman to take over the job of city secretary on April 16, to succeed B. K. Barker.

Harold Chiles, of Amarillo, employed by the city to make the annual audit, is due to complete his work about the 16th of the month, although he has spent only one day on the audit. He was here and worked April 1.

Barker will continue to work with Norman until May 1, it was agreed, the responsibility of the office is complete and Norman to take over the responsibility on the termination of Barker's stewardship of city funds.

Chiles' contract for the audit and report to the city calls for the payment of \$300.

The old council ended their terms without canvassing the results of the April 2 election. This, however, seems to have been procedure for the past several years. A check of the records showed this procedure was followed in 1955 and 1953.

The new council canvassed the results on Tuesday night and declared themselves elected to office. They had attorney advice, they said, that this is legal.

One of the first tasks the new council had was a pleasant one, taken by the members as a good omen.

This was a report to the city on behalf of the Books on Bikes Club that they had funds in hand for the purchase of 12 and a half street garbage holders, which the city is asked to purchase. A check for \$522.63 was handed over for the purpose. The council voted to make their order for 14 trash containers.

SOIL CONSERVATION DISTRICT NEWS

Planting grasses for seed production is urged by the Floyd County soil conservation District Board of Supervisors. They are pushing this practice because of the heavy demand for grass seed to be used in the soil bank "Conservation Reserve" program and to reseed the rangeland that has been damaged by the drought.

Any local source of seed that can be obtained will give better results than one that is not climatic or adapted to this area.

There have been several farmers who have shown some interest in growing grasses for seed production, but only two have already made preparation to plant them. Buddy Fortenberry and Bill Sherman of the Barrow Community are planting Blackwell Switch, sidecot gramma and indian grass. Eddie is planting twenty acres of each grass and Bill about the same amount.

The expected seed yield per acre of these grasses the first year under irrigation are: three to five hundred pounds of switch grass, one to three hundred pounds of side cot gramma and a light to two hundred pounds of Indian grass. With proper care the expected yield per acre for the second year is from 500 to 1000 on side cot gramma and 500 to 1200 on the Indian grass. Other grasses that produce well on light soils are Blue Panic, and weeping love grass.

The best results are received from any grass planting when the grass is planted at a depth of one-fourth to one-half inch deep, never exceeding three-quarters of an inch. The seed bed must be firm and a good prospective cover of litter.

When grasses are to be used for seed production it is best to plant them on good soil and in thirty-eight to forty inch rows, for they will need cultivating three or four times the first year and at least once a year thereafter to get the best results from irrigation. While on dry land they should be planted in twenty inch rows or drilled with a ten inch spaced grass drill and sown on the contour.

The seeding rate should be based on the amount of pure live seed which is affected by the purity and germination of the seed. For those who are interested and want further information on grass planting either for the soil bank program or grass seed production contact any of the technicians at your local soil conservation service office located in the Agriculture Building at Floydada.

TOM McLAIN PROBLEM

The Tom McLain land problem, submitted and for which a prize of a \$2 subscription to the Hesperian is offered, was still on the unsettled basis this week.

At least two answers were given, both of which are apparent solutions, owing to the viewpoint.

Richard Mathis, of Mathis Appliance, arrives at an answer which is in even feet, on the assumption that the problem as a practical matter would not deal in fractions. He says McLain's original tract has to be 70 feet square, his second square including the first would be 180 feet square, and its total area 32,400 feet.

Engineer Sam A. Fowler and Engineer Chester Hidalgo, on the other hand, point out that the size of the tract is not tied down sufficiently and that the size of the smaller tract could approach infinity.

Electricity Works For Sorenson From Egg to Egg

VETERAN POULTRYMAN PREDICTS BRIGHT FUTURE FOR EGG PRODUCERS.

From egg to egg electrically defines the success of Nels Sorenson, pioneer hatcheryman and egg producer, Amarillo area.

Nels entered the poultry industry when it was "egg money" for the farm housewife. Through 36 years in the poultry industry, he has developed many electric applications for profitable and efficient chicken and egg production.

He depends on electricity to incubate the eggs, brood the chicks, warm the water, operate an automatic feeder, and provide 14 hours of light per day and egg refrigeration. In addition, Sorenson employs Reddy Kilowatt to grind and mix his feed, pump his water, and keep water pipes thawed. The veteran poultryman's electric operation is coupled with strict sanitation practices and a mandatory vaccination program.

Sorenson's poultry raising activities have progressed from selling hatching eggs to being one of the major egg and chicken producers in the area. His thermostatically controlled incubators can hatch 9000 eggs per week, and he has space in his electric battery brooders for 15,000 chicks.

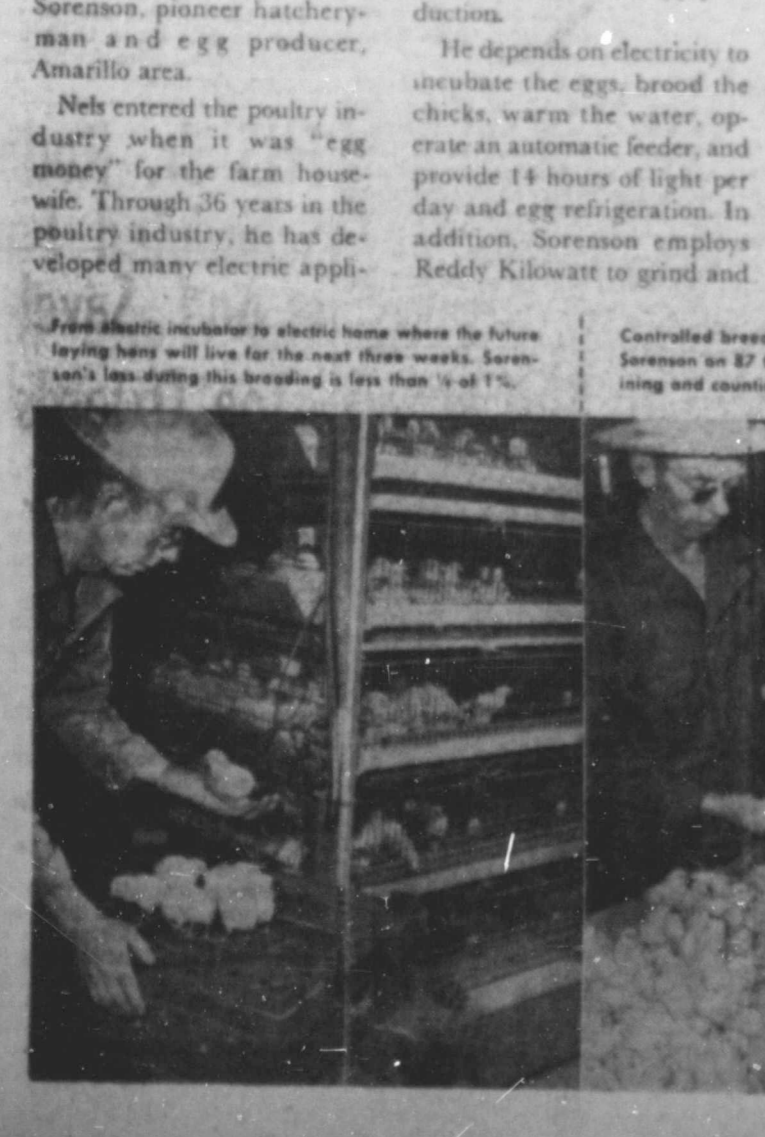

Sorenson is optimistic about the egg picture despite the current low price in eggs. He bases his favorable outlook on the reduction in the number of chicks put down this spring.

"Seventeen percent less laying pullets are being put down in the Southwest than a year ago," Sorenson remarked, "and it indicates a high egg market next fall and winter."

Commander Robert E. Peary discovered the North Pole on April 6, 1909.

George I. of England was a German, and could not speak English.

Vermont was the first state to be admitted to the Union after the original 13.

From electric incubator to electric home where the future laying hens will live for the next three weeks, Sorenson's loss during this brooding is less than 1/4 of 1%.

Controlled breeding and electric incubation gives Nels Sorenson an 87 to 90% hatch. Picture shows him examining and counting one of his bi-weekly hatches.

TEXAS HYBRID SORGHUMS Vs. OTHER HYBRID SEEDS

Twelve Floyd County farmers, from experience and observation of their neighbors' hybrid crops assure me, TEXAS HYBRIDS:

- (1) Do not grow as tall as other brands, therefore eliminating waste of grain and combining troubles;
- (2) Have a much stronger stalk which also eliminates the two objections mentioned above;
- (3) Has a much higher yield;
- (4) We are offering seed grown by a man with 15 years experience growing certified and hybrid sorghum seed at prices that will interest you.

We also have most all varieties of Certified Grain Sorghum, most of which have been cerasan-treated, that have unusual high germination due to the fact that they have been cleaned a second time.

You will find at D. W. Fyffe's place several varieties of approved grasses for your Soil Bank Program. Also Clover and Alfalfa that are dry land grown, and has a 98 per cent germination, many legume and garden seed in bulk and package.

Floyd County's Most complete and Largest Volume of seed.

Plant Pinto Beans, 111 variety and get the most cash for building your soil. You can expect \$10 per hundred for your spring-planted crop.

Delmar King at Plainview received more than \$100 per acre for his last year's crop, planted in 40-inch rows. Plant your beans in 20-inch rows and double your yield.

Now is planting time. This is the only place you can get 111 Bean Seed, the most productive of any variety.

I kept looking and saw a distinct funnel under the clouds with its tail hanging down like a kite. For a few seconds it swung here and there, then all of a sudden it dropped to the ground and rose up again. We found out later it had moved a house off its foundation near Lorenzo.

The funnel began coming our way. I tried to take Jeff's mother to the cellar with us but she said she was afraid of snakes and water-dogs. The children and I went down. I put the twins in a tub and went back up the steps. Wilson following to watch the oncoming little tornado. I had never seen one but I knew what it was.

All of a sudden again it dipped down and black dirt rose to the sky. I shut the door and waited. The hail had begun falling, big hail that hit the house like base balls. Even in the cellar we could hear it. We stayed perhaps half an hour, but it seemed hours.

The hail had quit and we went up the steps and inside the house, but what a sight. Every window on the north side of the house had been broken out and water had streamed in like a river. The beds were wet. I began sweeping out the water, making a fire to keep the children warm. The wind shifted from the north to the west the hail came back.

Every window was soon broken out on that side and more water pouring in. When Jeff got home he had a big surprise. Where he was had not too much hail and he had not looked up to see the tornado. We learned later that Dick Heard's house was completely demolished and the family saved by getting home just in time to get in the storm house.

The next day Jeff and Wilson went to Ralls in the Spaulding back for window glass. Wilson wore short pants as was the style for little boys then. The sun came out and the wet bed clothes were all out to sun. When Jeff and Wilson got home, Wilson's bare legs were blistered by the sun shining on them as they rode the thirty mile trip to town and back in a slow vehicle.

The tornado rose from its destruction of the Heard home and went some thirty miles and lowered again tearing down a barn in Motley County, I recall as now.

Copied from Marion Fox stories of early days in Kaufman County. "Old timers said that on the night of April 20, 1856, there came a hard freeze that killed all crops. Wheat was in the boot, corn jointed and timber with full foliage. On the next morning the sun came out and everything was turned black and dead."

My, I had better quit, this has been a stormy column for sure. Good by for this week.

Baxter-White Vows Repeated At High Noon On Saturday

Miss Barbara Gail Baxter, daughter of Mrs. Marie Baxter, 421 West Lee Street, became the bride of Pvt. Larry Layne White, son of Mrs. Jack Layne, 1020 South Wall St., in a ceremony read at high noon Saturday at the Methodist parsonage.

The Rev. Tilden B. Armstrong, pastor of the First Methodist Church, read the double-ring ceremony.

Miss Naomi Kiker, pianist, played pre-ceremony selections and accompanied Mrs. David Bailey Jr. as she sang "Whither Thou Goest" and "The Lord's Prayer."

The bride, given in marriage by her grandfather, R. F. Finley of this city, chose for her wedding a street length dress of pink cotton, fashioned with a V-neckline and three quarter length sleeves.

Miss Darlene Laminack attended the bride as maid-of-honor. She wore a pink broadcated sheath street length dress with white accessories.

Pvt. Lynn Railey of Ft. Hood, Tex. served the groom as best man.

Mrs. Baxter chose for her daughter's wedding a light blue suit with a blue hat and black shoes and bag. She wore a corsage of white carnations.

Mrs. Lackey chose for the wedding a beige silk suit with beige accessories and a corsage of white carnations.

Following the ceremony a reception was given in honor of the couple at the home of the bridegroom's mother. The bridal table was laid with a white lace and linen cloth accented with draped pink satin bows at each corner.

The two-tiered wedding cake was decorated in pink and white and topped with a miniature bride and groom. Crystal appointments were used. Pink tapers in crystal holders and white napkins with "Larry and Gail" in pink completed the table decor.

Lt. Rosson, Miss Kelly Are Married At Greenville, SC

GREENVILLE, S. C. — St. Mary's Roman Catholic Church was the scene of the marriage Saturday, March 30, at 3 p. m. of Miss Joyce Maureen Asilda Kelly and First Lt. Barry Layne Rosson of Donaldson Air Force Base.

The bride is the niece of William Furman Kelly of Asheville and the daughter of the late Mr. and Mrs. John H. Kelly of Asheville. Rosson is the son of Mr. and Mrs. Roy B. Rosson of 628 West Mississippi Street, Floydada, Tex.

The Rt. Rev. Walter Merri officiated at the marriage before a setting of white calla lilies and glad-olus. Music was provided by Mrs. F. W. Loftis at the organ and Mrs. George Pickett was vocalist.

The bride, given in marriage by her uncle, William Furman Kelly, wore a dress of imported lace and ivory tulle featuring a sabrina neckline, long sleeves and a tiered ballerina skirt. Her veil was attached to a lace crown and she carried an orchid bouquet surrounded with roses and lilies-of-the-valley.

Mrs. James R. Shytte attended the bride at matron-of-honor. She wore a dress of yellow lace over white tulle and ballerina-length skirt. She wore a large white mullin hat and lace gloves. She carried a yellow orchid surrounded by white lilies.

Mr. Rosson attended his son as best man. James R. Shytte served as usher.

Mrs. Rosson, mother of the groom, chose for the ceremony a navy blue dress with white accessories and she wore an orchid corsage.

After a reception given by the bride's cousin, Mrs. James B. Bowen, on Hillandale Circle, the couple left for a trip to New York. The bride chose a suit of yellow tweed trimmed with a mink collar, black patent leather accessories and flower-covered hat for traveling.

CENTER, April 8—The sky is hazy this morning as if the weather is undecided whether to come down hard with more cold weather, or to just smile and bring in Spring. Anyway, fruit trees are a mass of pink and white, and shade trees are alive with tender young leaves. Now when April showers come and the Easter cold spell is behind us, farmers and gardeners will do what they are always anxious to do—start planting. Let's Spring a gorgeous time of year, especially on the farm. Some women's baby chicks are almost big enough to fry.

Center's week's revival closed Sunday night. We had good crowds at every service, with the climax on Sunday. Dinner at the church to some fifty people. We were so happy to have with us all the visitors, which included some of our former pastors and their families. These were Rev. and Mrs. Chas. Muncy who came Friday evening, Rev. and Mrs. Tom Wesson and family and Rev. and Mrs. R. C. Hodges and Jerry and his girl friend, all of Plainview, Miss. Nancy Coffee and Don Kinard of Wayland, all came Sunday. There was singing at the church in the P. M. then baptizing held at First Church.

Afterwards visitors rested at the home of Mr. and Mrs. Leo Prizzell. Supper at six at Center church. At the evening service we were happy to have the Fairview pastor and his congregation join us. There were other visitors from Caprock and Floydada Sunday and during the week.

Don Clark Green of Big Spring arrived at the J. E. Green house Sunday morning and enjoyed the services, ect. at Center church. He spent the previous week end in Galveston where he and some other teachers sponsored a group of High School students attending the Students Council Convention in that city.

PLAINVIEW.—Four Floydada students are helping as Wayland Baptist College prepares for the sixth annual Pioneer High School Senior Day, April 12, when more than 600 students and their counselors are expected for the spend-the-day on campus, according to Dr. Cecil Cosper, chairman.

High school seniors from Texas, Colorado, Nebraska, eastern New Mexico and western Oklahoma have been coming in increasing numbers to Wayland's Pioneer Day. Wayland students will put on a program of music, drama, devotionals, championship basketball, demonstrations

and a talent show. Auditions for the Wayland International A Cappella Choir and four music scholarships will be held in the afternoon.

Floydada senior class will be represented by Carleta Reeves and Margaret Dunn.

Four Floydada students preparing for the Senior Day program are E. O. Adams, John Baird, Elizabeth Carter, and Ward Hinkley.

VIEWS AND COMMENT

Finally the Democrats who call themselves liberals have got a foot in the door which they hope to prize wide open in time. They have elected a senator and he will enter the halls of Congress shortly after mid-month, as soon, in fact, as the official count can be certified and the credentials issued from the Department of State at Austin. It was done according to the rules. So-called conservatives point to the new senator's failure to get a majority of the vote of the people of the state. The fact is he did get only about 37 per cent of the vote cast but in special elections in Texas that has been the rule. The man with the longest pole gets the grapes. Perhaps the law should have been changed but not after the gun was fired for the race to start.

We have been unwilling to believe the report that Senator-elect Yarborough sends a dozen roses for the governor's desk every morning. Mr. Daniel, you know, made it possible for the judge to be a senator by giving him a chance to be elected by a plurality of the vote. Now the senator-elect has 18 months to serve the people and woo them into thinking he is their man, before he offers himself once more and makes a try for a majority.

For our part, we'll have about the same amount of trouble adjusting ourselves to thinking of Mr. Yarborough as "our" senator as we did with Senator Johnson as such. Even yet, after Mr. Johnson has become the party's leader in the senate, have we only come to warming up to him. We still brag on him more or less just because he is from Texas.

Many Fish to Catch. One of the reasons many Texans will want to live a long time is for the day to come when all the dams that ought to be built on the Brazos and its tributaries have been built. H. S. Hilburn, of Plainview, president of the Brazos River Authority, is quoted as saying that in addition to the three great dams already built on the Brazos and the many small reservoirs, the long range plan for development of the streams calls for seven more projects on the main stream and 14 new reservoirs on the tributaries. All of these will come along in time. Financing is the big problem, depending on contracts either with water or power users or both. Every new dam means that many more fish to be caught from the waters of the state's biggest stream.

Distinguished Writing. While the Headliners Club and other organizations are passing out plaques and cash awards for distinguished writing in various fields of newspaper work, we hope it doesn't occur to them to establish a department for Boneheaders. One customer is laughing at a recent story of ours in which we had "none killed or wounded more than slightly." How can we do it? Easy.

Speaking of Fishing Floydada has the biggest per centage of fishermen per square foot of any community in the state or nation. Location is ideal, too. Go a thousand miles in any direction and the fishing is good.

An interesting example of how far people will go to carry out a scheme or idea that takes hold of the imagination is given in the operation of New York City schools. For example, school pupils in areas where there are few or no Negro children are transported by bus to schools in other parts of the city, on the theory that no child should be deprived of associating with children of all races and backgrounds. This practice might make it unseemly for advocates of full and immediate integration to remonstrate if school people in the southern part of the nation haul the school kids away from their normal environs for an opposite reason.

The Supreme Court's original decision was not what it has been interpreted in many minds. If we understand the ruling the decision simply said that a child could not be excluded from a school because of race, since the Fourteenth Amendment guaranteed "equal protection of the law" to everybody. The meaning of this simple requirement has been stretched far beyond its scope in the minds of many, who act as though the Supreme Court has ordered integration under any and all circumstances.

Pretty Hard Run. Mr. Summerfield, the postmaster general, has been having a running battle with the legislative department of the government in re (1) either increased charges for postal service, or (2) emergency appropriations to carry on. A layman can't know the facts of the business. Distant view seems to indicate the congress has been liberal with the post office department. One onlooker remarked that when spring comes Mr. Summerfield spouts off and the cherry blossoms bloom. Another remarked that he rents a post office box at \$1.10 per month. If he didn't rent a box they'd bring his mail to him for nothing.

One of the PM General's money-saving devices has been the use of a new type of mucilage on stamps. For some reason the mucilage doesn't work good by the time it reaches the customers on the high plains. Possibly it's the climate. We note one local letter writer has solved the problem by stapling the stamp on the envelope. It works. The stamp stays on.

The Changing Times. Dogs are faring better than ever in history in Floyd County. We have it authoritatively from an important dealer that dog food sales equal and probably exceed chicken feed sales here.

The American people never carry an umbrella. They prepare to walk in eternal sunshine.
—Alfred E. Smith, Speech

Sidelights on Texas Agricultural Picture

Texas Vegetables may be slightly higher this spring, due to acreage cutbacks. Onions, already 16% higher than last year, and slightly higher prices on cabbage are due to the short anticipated crop, one-fourth below last year's production. In contrast, bargains may result from big out-of-state crops such as Florida sweet corn lettuce, asparagus, broccoli and cauliflower.

Texas Egg Prices, already below 1956 price levels, will continue to sell cheap through the spring but are expected to begin a market increase by mid-summer. By early fall, egg raisers should be getting prices well above 1956 levels.

Best Insect Repellent yet will be put on the market this spring. A product of agricultural research, the new repellent successfully defends against attacks by mosquitoes, chiggers, ticks, fleas and biting flies.

NOTICE OF HEARING ON PETITION AS TO WHETHER AN ELECTION SHALL BE HELD FOR THE CREATION OF A NOXIOUS WEED CONTROL DISTRICT IN FLOYD COUNTY AND ASSESSMENT OF TAX

(1) Nature of the hearing: Article 136 (c) of the Texas Civil Statutes, as passed by the Texas Legislature in 1955, provides that upon petition the Commissioners Court shall order a hearing to be held to determine whether or not an election shall be held for the purpose of creating a Noxious Weed Control District and assessment of tax.

In the event such an election is ordered, the ballots for such election shall have printed thereon the following propositions: "For creation of the district and uniform assessment of benefits not to exceed Three Cents (3c) per acre" and "Against creation of the district."

(2) Purpose of the hearing: So that any interested property taxpayer citizen may appear and present their reasons for or against the holding of such election. And to enable the Commissioners Court to determine if the creation of the district would be a public benefit, and that a substantial portion of the lands within the proposed district would be benefited by its creation.

(3) The date and time and place of hearing: April 16, 1957, at 10:00 o'clock a.m., at the District Court Room in the Courthouse in Floydada, Texas.

(4) A description of the boundaries of the district: Floyd County, Texas. This notice of hearing is published by order of the Commissioners Court of Floyd County. By Margaret Collier, County Clerk of Floyd County 11-2-57

more effective but the new diethyl toluamide repellent lasts longer, giving protection for several hours. Grasshoppers will be with Texas again this summer, although if rainfall continues over West Texas and the Panhandle where most damage occurs, the threat will be lessened somewhat. Last year's bumper grasshopper crop was largely due to severe drought conditions, which always aggravate the hopper menace.

Mayor, Aldermen, Are Retained in Lockney Election
LOCKNEY--Mayor J. E. Cox, Alderman Kelton Shaw and Jimmie Hodel all were re-elected to city offices without opposition in voting Tuesday. A total of 86 votes were cast with Shaw getting all of them. Cox received 85 with one write-in vote for Virgil Thomas for mayor and Hodel received 78 votes with two write-in votes for Clyde Briley for alderman. Apparent fear of a write-in campaign brought out an unusual number of voters for an election in which the candidates were unopposed, but such campaign failed to develop. Hold-over aldermen are Charles Baxter, Claud Brown and Lloyd Wofford.

The Methodist Men honored the Seniors with a banquet Tuesday night. It was really nice and all the seniors enjoyed it very much.

When you think of seniors, think of money, because they need it. Bad! Among the forthcoming projects will be a rodeo, Exes and Futurs basketball game, ice cream supper, "White elephant" sale, shampoo selling, and a whole "idea" of stuff! It's try to keep everybody posted on the time and place of these events so everybody can sup-

That spring has not quite "sprung"—get out your sweaters again girls! Gena Adams' dog, "Sabrina"? Snow Drop Dunn's "French roll"? The Juniors furiously at work on the Jr-Sr Banquet? Kelly King's boiled egg diet? Have you noticed that "Have you noticed" a in here every week?

Some of the couples seen around on this "wid" week have been as follows: Pat Hickerson 'n Robert Maxwell, D'Leue Wikowski 'n Rusty Tinnin, Suzi Nelson 'n Norman Davis, Mariuse Burleson 'n Frank Potta, Sharon Edmiston 'n Kelly King, Gayle Rowson 'n Joe Smalley, Fleeta Cartmel 'n Grant Cooper, Mari Cogdell 'n Keith Armstrong, Leora King 'n Donald Colley, Annelia Thurston 'n Jerry Patterson, Bethie Wilson 'n Larry Glassmoyer, Joy Sparks 'n Laron Pullon, Jerry Floyd 'n Jerry Bob Harrison, Judy Jackson 'n Bill Orman, Jaymette Marquis 'n Max Harrison, Kay Calloway 'n Speck Brian, Beth Crawford 'n A. travel business also. The integration of Samsonte Travel Bureau into our Luggage Department brings this concept to its exciting conclusion. It is the pleasure of Hagood's to participate in this national campaign.

The Samsonte Travel Bureau works as follows:
1. A handsome, specially designed Travel Bureau counter display has been placed in Hagood's Luggage Department. The display holds specially prepared, self-addressed postcards listing more than 100 of the nation's most popular resorts offering free vacation information.
2. Customers select the vacation spot or spots, of their choice, fill in their name and address, and the card is then mailed. The resort area Chamber of Commerce will then send a package of information of their area specially selected to the inquirer's home.

Such travel aid services gives customers all the information they want about any of the nation's top vacation spots; how to get there; things to see; places to stay.

A national advertising campaign backs up this Samsonte Travel Bureau promotion, reports Emmett Heitler, General Manager of Samsonte Luggage. A series of four-color, one and two-page magazine spreads are highlighted at the top by an illustration of the Samsonte Travel Bureau Counter and a statement of the Bureau's purpose to provide free travel information, continued Mr. Heitler.

Samsonte Travel Bureau display material as well as a window or door decal proclaim the nation's luggage departments as the newest centers of travel and headquarters for unique self-service travel information.

Richard M. Morehead Gains One More Honor For Writing Genius

Richard M. Morehead, the newspaper son of Mr. and Mrs. E. J. Morehead of Floydada, gains more honors year by year as he continues to do good work as a reporter for the Dallas Morning News from Austin.

Morehead has a year-round assignment in the capital city for the News.

Last year it was the State Bar of Texas which honored Morehead for his able reporting of news of the state judiciary and this year he comes up again with recognition as a "narrator of ability and the power to compel sustained reader interest."

The quality of his writing in a series of articles on the dramatic developments which began with the decision of the Supreme Court on school segregation drew interest far

and wide. Presenting a \$300 cash award was The Headliners Club in Austin the last week-end of March.

Back ground of Morehead's career in journalism is laid in study at the University of Texas and the Missouri School of Journalism. His first work was with United Press in Fort Worth. Fifteen years ago he joined the staff of the Dallas News in its Austin Bureau.

Says The Austin American-Statesman of Morehead's presentation of the segregation story in Texas:

In Texas, as in all the South, this decision was synonymous with change. To some Texas communities, it brought a new understanding and a new cooperation between the races.

Richard Morehead of the Austin Bureau of The Dallas Morning

News studied school integration and how the Supreme Court decision was faring throughout Texas. He wrote in a distinguished series of articles which no other newspaperman in the state had attempted to do—the whole unbiased story of integration in Texas.

The Dallas News and Morehead have received commendation for many for this prize-winning series. John Ben Sheppard, former attorney general of Texas who fought the Supreme Court ruling as long as he was in office, requested that the articles be reprinted. U. S. Simpson, State of the National Association for the Advancement of Colored People complimented the same series.

The Texas Education Agency uses the figures and facts gathered by Morehead as authentic and the most reliable source of information on desegregation. The State Advisory Committee on Segregation in Education cited Morehead for contribution to valuable public information.

Morehead has taken figures and statements from school officials and written articles of compelling interest about boys and girls who are the first to experiment in a new era of education in the South.

He has told about the problems of Negro students in making good grades in integrated schools. He has written about the social adjustments in integrated schools. He has recorded the efforts school officials are making in segregated communities to improve the Negro schools. He has written about the court battles in communities chosen by the NAACP for testing grounds.

Bill Daniel, son of Mrs. Ruth Daniel, was surprised Saturday when he received a letter from Paymaster Cotton Seed Company, notifying him his record for irrigated cotton has won first place in Floyd County. His prize was \$25 and a certificate for two sacks of certified Paymaster cotton seed.

Bill is 13 years old and is finishing the seventh grade at Dougherty and plans to enroll at Andrews Ward at Floydada the beginning of the 1957-58 term. He is a member of the Dougherty 4-H club and submitted his records on his cotton at the close of 1956.

His 4-H project was five acres of irrigated cotton which produced slightly under one and one-half bales per acre. The cotton was planted the last week in April. The land had been pre-irrigated and then was irrigated three times later. The rules of the contest required the acreage to be staked off before the first of July and the gin tickets had to be enclosed in the record.

Bill plays with the school softball team. He participates in all school programs and has an excellent church and Sunday School attendance.

All of the usual first aid remedies were applied but the victim failed to rally. Finally, another West Texas ginners' appeared on the scene and with the efficiency generally found in West Texas ginners to cope with unusual situations, he began pouring sand in the victim's face. As the third bucket was emptied the victim made complete recovery.

ALL IN THE EAR

What you see in this girl's ear is Sonotone's new hearing aid — complete. IT'S WORN ENTIRELY IN THE EAR — no cord, no extra "button." Weighs only half an ounce.

Women's hairdos hide it completely. On men, this amazing hearing aid is barely noticeable from any angle.

ICT money by former Insurance Commissioner J. Byron Saunders and Max Wayne Rychik, son-in-law of former Chairman Garland Smith, evidence of "a gross breach of public trust." It also recommended the jury look into whether funds made available by ICT to the Texas Federation of Labor were used for political purposes. It pinpointed a legislative campaign contribution as having been charged to the corporation.

All in all, committee report showed some \$50,000 in ICT funds went to persons who were in public office when they received the money. It said "propriety of some of these payments were highly questionable."

Also sent to the grand jury was a "new major development" by the House bribery investigating group. Nature of the development was a closely guarded secret.

Only information disclosed was that "new evidence" had been obtained from a witness who had been under Department of Public Safety questioning. Witness was not a state official or employe, said the district attorney.

NEW LAWS, STUDIES—Resides providing grand jury evidence. House ICT Committee had three other recommendations.

They were: (1) that a law be passed giving the Insurance Commission authority to regulate management contracts, such as one Ben Jack Cage had with ICT; (2) that the Texas Research League be requested to study Commission operation and (3) that further investigation be made into the tangled history of ICT's financial "deals."

NEW SENATOR—Ralph Yarborough will take office as junior U. S. Senator from Texas on or sometime after April 19.

Yarborough was defeated in four previous races—three for governor, one for attorney general. His victory meant that for the first time in 17 years a spokesman for the labor-liberal wing of the Democratic party will go into a major Texas office.

Republican hopes for a two-party Texas plummeted. In the high-man-wins race Yarborough got approximately 37 per cent of the votes; Conservative Democrat Martin Dies, 30 per cent; Republican Thad Hutcheson, 23.8 per cent.

MONEY BILL PASSED—Legislative blueprint for state spending during the next two years has reached the conference committee stage.

An economy-minded Senate passed the general appropriations bill at a figure some \$2,000,000 less than the House-approved version. Sponsors managed to scotch all efforts to tack on amendments for additional spending. Among items sought were raises for county agents and home demonstration agents and increases in judges' salaries.

Total of the Senate appropriation bill is \$2,084,349,515. Both House and Senate recommendations are some twenty-five to twenty-seven million dollars less than the comptroller's estimate of income.

INSURANCE BILLS—A bill to allow "flexible rates" for casualty insurance is given little chance of passage.

Senate Insurance Committee refused to vote out the measure which would abolish Texas' system of statewide uniform rates. The proposed bill would set a rate based on each individual's accident record.

A house committee weighed the possibility of Insurance Commission reorganization from the viewpoint of present Chairman John Osorio. Governor Daniel had appeared earlier urging passage of the bill.

Osorio said board reorganization already is under way. He said he felt it could be successfully carried out under present laws.

Real difficulty of the commission, he said, is not top level organization but need for more examiners. He recommended a 150-man staff, rather than the present 39, and higher pay.

SECURITIES DEPARTMENT—Creation of a new state agency to regulate both insurance securities and other types has Senate committee approval.

Presently, insurance securities are handled by the Insurance Commission, general securities by the secretary of state's office.

Sen. Jimmy Phillips introduced a bill putting insurance securities under the secretary of state. That's just in case the consolidation bill doesn't pass, he said.

WATER BILL SIGNED—Governor Daniel signed into law a measure allowing the Water Board to cancel unused water permits.

Water conservation program leaders had claimed the new rule would solve "75 per cent of Texas' water problems." Some cities had protested it would allow the board to take from them water they needed for future expansion.

Proponents said Texas now has outstanding permit for more water than is available, but all of it is not being used. Cancellation of unused permits, they said, would allow the water board to reassign water for beneficial use.

ARCHIVES-LAND BUILDING—Governor Daniel has given his blessing to a plan for a new building for the State Library and Archives and the General Land Office.

A bill providing \$2,500,000 for such a building is before the Legislature.

The club voted to contribute to the National 4-H Foundation. Mrs. S. J. Latta and Mrs. Hammonds reported on the district T. H. D. A. meeting held in Levelland, March 27. Mrs. W. H. Bethel reported from the Program Planning meeting held recently with the home demonstration agent.

Mrs. Harriette Brummett, agent, reminded the club members of the following dates:

April 8 at 2:00 p.m., Food Training Meeting;

April 16 at 2:30 p.m., home Demonstration club members Style Show in Junior High School auditorium;

April 20 at 8:30 p.m., a program on Floydada Home demonstration work to be broadcasted on K. F. Y. O. radio, Lubbock;

May 7, "Swap Shop Day".

Mrs. Brummett gave a demonstration on "Eat Wisely". She stressed the importance of a balanced diet using a food chart showing the average servings of many common foods.

Refreshments were served to Mesdames W. H. Hilton, W. H. Bethel, J. J. McKinney, C. W. Denison, S. J. Latta, W. C. Sims, Charles Probasco, Ernest Kendrick, Betty Horton, visitor, Harriette C. Brummett, Linda Hammonds and the hostess, Mrs. Hammonds.

The next meeting will be April 19 at 11:00 a. m. in the agriculture kitchen with Mrs. W. H. Bethel as hostess. A covered dish luncheon will be served at the noon hour followed by the afternoon's program at 1:00 p. m.

APPRECIATION PARTY IS GIVEN MRS. MADGE JONES

Members of the Floydada Rebekah Lodge No. 77 surprised Mrs. Madge Jones recently with a birthday party at her home 422 West Mississippi Street.

Cake and coffee was served during the evening by lodge members and the honoree received many nice gifts.

The lodge chose this means of expressing their appreciation to her for the many things she and her late husband have done for the Floydada lodge.

Mr. and Mrs. S. J. Latta and daughter, Alice, were Sunday guests of his brother and family, Mr. and Mrs. Enoch Latta and son, Harold, and Mr. and Mrs. Richard Latta and Mr. and Mrs. J. R. Marlow, all of Plainview.

Civil Defense And Health Habits Are HD Club Topics

The Dougherty Home Demonstration Club met in the home of Mrs. Claude Ring on Wednesday, April 4, with the president, Mrs. Johnnie Cates, presiding.

Mrs. G. W. Smith gave the council report and Mrs. W. J. Ross gave points on home safety.

Mrs. C. A. Caffee told of the importance of being prepared for any disaster and showed the proper foods and amounts that we should have in storage at all times for each member of the family for a seven day period.

Mrs. Harriette Brummett checked our weights and heights and told us the importance of keeping our weight down to the proper level for health reasons. We were told to eat plenty of food and to be sure of a balanced diet but not to ever over eat as that is the main cause for over weight.

Prizes for the afternoon went to Mrs. Harriette Brummett, Mrs. C. A. Caffee and Mrs. Bill Smith.

Refreshments were served to three guests and ten members.

Guests were Misses J. T. Poole, Kenneth Poole and Harriette Brummett.

Who rates what for performance and smoother riding in the low-priced three? Chevrolet has laid the answer and the proof on the line!

First, Chevrolet won the Auto Decathlon over every car in its field, and over the higher priced cars that were tested, too. This rugged ten-way test (right, below) showed Chevrolet was the champ in handling ease, braking, acceleration, passing ability, smoothness of ride and other driving qualities you want in a car.

Then, Chevy won the Pure Oil Performance Trophy at Daytona (left, below) as "best performing U. S. automobile."

It's quite a feeling to know that you are driving a car that performs so well, responds so beautifully and is so finely built. You feel proud, of course. But you also enjoy a surer, smoother, steadier way of going, a keen cat-quick response of power, and the easiest handling you've ever experienced behind a wheel. Just try this Chevrolet (V8 or Six) and see!

Chevy showed it's still the champ... at Daytona... and in the Decathlon!
