

## Jr. Live Stock Show Slated To Open Monday Morning

### Style Show Is Announced For Mon., March 17

(By Jill Kirk)

For the eighth consecutive year, the 1958 Study Club will present to the public its annual style show, Monday, March 17, at the New High School Auditorium.

Tickets will be on sale from any Study Club member or may be purchased at the door.

Seventy-five cents will admit an adult, and children under twelve will pay twenty-five cents to enjoy this event that comes but once a year.

The curtain rises at 8:00 P. M. to provide the entire family an hour or so of diversion and entertainment.

A door prize, an electric Universal automatic coffemaker will be awarded.

Seven Floydada merchants are pooling their efforts and resources to make the lovely models the prettiest ever.

Bealls Department Store, Hales Department Store, Hagood's Department, R. and R. Fashions, Miladies Sloppy, Keim's Haberdashery and the Wagon Wheel are at work selecting the latest fashions to fascinate the Easter-minded young and old of Floydada.

Each year the 1958 Study Club donates most of the money made from the Style Show toward the projects the club has set up as its year's goal.

The main projects this year are to make contributions to the Floyd County Library; to provide hot lunches for a school child; to help contribute toward the betterment of the Negro community; and to provide a scholarship fund for a high school graduate toward college attendance.

Also on the list of projects is the contribution to the City Park, the shipment of a Christmas Cheer box to the Wichita Falls Hospital, and the sponsorship of the "Woman of the Year" award.

Packed in the evenings entertainment will be the wee ones, youngsters of Floydada, showing the newest ruffie and collar to the Easter Bunny; and the older ones, lovely local models, showing the newest spring creations -- yes, even the sack dresses.

Surprise local talent will be sandwiched in between the various sections of the Style Show.

Beach wear, sports wear, dress wear, and evening wear--all are included.

Boys and men will join the parade this year.

Coffee may be had in the main hall during intermission.

Weatherman Harold Frost, of the U. S. Weather Bureau Station at Lubbock will be the speaker today for the Floydada Lions Club.

and the growing science of weather forecasting are indicated as the general trend of Frost's talk.

Every club member has been assigned the duty of having with him a guest at the meeting and Mr. Frost's audience will be augmented by this number.

### 250 Animals Are To Be Shown; Support Urged

The Floyd County Junior Live Stock Show will open Monday morning at 9 o'clock and make a three-day run through Tuesday and Wednesday, climaxing Wednesday afternoon with the annual auction.

The show is going to be a good one. Yesterday entries in the hands of Show manager Cecil Lewis totaled 251, with

Thirty-five Steers;  
One Hundred Six Lambs;  
One Hundred Ten Barrows.

Boys and girls who are taking practical lessons in animal husbandry in 4-H and FFA Clubs of the county are participating.

Schedule of Events  
Monday—Show barn will open at 9 a. m. Monday and all animals will be weighed in and in place by 3 o'clock p. m. when the sifting committee will begin eliminations.

Tuesday—9 a. m. Swine judging begins;  
1 p. m. Lamb judging begins;  
3 p. m. Steer judging begins;  
7:30 p. m. Banquet at high school cafeteria for all exhibitors and parents, courtesy of Floyd County Farm Bureau.

Wednesday—9 a. m. Baby beef judging;  
1 p. m. annual auction sale.

The show will be held at the Rodeo Association's show barn adjacent to 12th Street in East Floydada.

Yesterday, officials were estimating the show barn would be filled comfortably by the 251 head of animals on exhibit. Youngsters of both the 4-H and FFA clubs are eagerly awaiting the hour for the show to begin.

Their coaches in school and 4-H clubs declare the youngsters have put work and enthusiasm into their animal husbandry projects and the public will be pleased with what they see when the show opens.

This week County Agent Cecil Lewis made a strong appeal to the general public for support for the show. Money in reason, of course, but also presence of people from all parts of the county and in all lines of endeavor.

Business people can do a great deal toward keeping up the enthusiasm of the youthful exhibitors by their presence at the show, he said.

"It takes everybody to make a good show," the county agent said. (See Jr. Stock Show, Page 6)

### Five-Inch Snow Melts Quickly

A snow that blew in gently late Saturday (on March 1) and continued into the small hours Sunday, piled up five inches deep on the level prairies and atop out-parked automobiles Sunday morning.

Temperatures ranged only slightly below freezing most of Saturday night and thawing had set in by 9 o'clock Sunday morning. Practically all of the snow had melted by late afternoon.

Moisture from the snow measured 55-hundredth at Floydada.

Wheat and range grass got a snow bath and fallow land got a top soil mulching from the snow. There was little inconvenience occasioned to live stock men.

Skinner, left, Conservationist A. W. Dalrymple, and Virgie sign the first contract in Floyd County District for the conservation program. The Skinner brothers operate and ranch 12 miles southwest of Quitaque in Floyd County. The brothers moved to Floyd County in 1935. (Photos by Kenneth Rimmer)

Brothers Fred and Virgie Skinner are shown here looking out over watering tank and feed pens at their farm and ranch. In the background can be seen the rugged breaks country, the caprock and the plains above. The protection from wind and cold offered by the terrain brought them here more than 30 years ago.

### CONSERVATION PROGRAM

## Skinner Bros. First To Sign

(By Kenneth Rimmer)

Floyd County Farmers to sign the first contract in Floyd County District for the Conservation Program of the Department of Agriculture and Virgie Skinner.

The brothers are working Conservationist A. W. Dalrymple, members of his staff in a soil and water conservation program for their farm lands just under the northeast Floyd County.

Skinner's home place is a 100-acre mostly range land. It will have only about 100 acres in cultivation this year. The farm holdings are rented to tenants.

Skinner and Virgie Skinner have been ranching at their location since 1925 when they moved there with their parents and other members of the family.

Skinner brothers were born in Mississippi and moved to Texas with their parents.

family to the Indian Territory, then on to Beaver County in the Panhandle strip before coming to Floyd County, seeking warmer climate for their ranch operations.

Their parents are now deceased and they are carrying on at the old home place.

At present they have some 35 head of young Hereford stocker cows. They recently sold their last summer crop of calves on a strong market and are in the process of trying to rest their grass land until it recovers more from the recent drought years and to try and rebuild some of the land in cultivation which has been exposed to wind and water erosion.

"We never heard of the soil conservation program until recently," said Fred Skinner. "We were first contacted by Truman Gregory, conservationist of the Floyd County unit, a short time ago, and became interested."

Cooperate With District  
In this practice they are cooperating with the Floyd County Soil

Conservation District. Their program includes some six miles of terracing plus some diversion terracing, some brush clearing, an additional water well for stock and returning some 115 acres of land formerly cultivated to grass.

The grass to be seeded will probably be a mixture of side oats gramma and blue gramma. This year, however, the plots will be seeded to Sudan grass to protect the soil until the other grasses can be seeded for next year.

The Skinners are interested primarily in their stock, and crops that go to feeding the stock. If recent rains and snows do not bring about some rejuvenation of range grass they will not expand their herd at this time, even cut it more if the need be.

Their view being a long range one for properly protecting the land and range for profitable operations over the years. They are very optimistic, however, about projects for this season and hope with all it is a return to more normal times.

### Program Available To All

The program under which the Skinners are receiving assistance in conservation practices is available to all farm operators of the county. It can be for a period of from three to 10 years and end not later than December 31, 1971.

Under the program cost sharing is available for such practices as establishing permanent plant cover, field or contour strip cropping, contour cultivation, improving range cover, planting trees or shrubs for windbreaks, or shelterbelts, establishing waterways, building terrace systems, chiseling or pitting range land, improving dams or ponds for irrigation, constructing wells for livestock, installing pipe, fencing, and controlling brush.

The cost sharing varies from 50 per cent on permanent construction to as high as 80 per cent on less permanent practices.

Conservationist Dalrymple urges all farmers and ranchers who believe they need a conservation program to contact him and discuss these needs.

associated with J. B. Jenkins for a number of years in the cattle business. He was principally a live stock shipper and trader. Even though having to retire almost five years ago due to ill health, he still took care of his business from his hospital bed.

He was married in 1894 in Independence, Kansas. His wife passed away here in 1942.

Survivors include one son, Glen Armstrong, Wall, S. D., two daughters, Mrs. W. D. Johnson, Creighton, S. D., and Mrs. Wanda Banker, Dallas, five grandchildren, and 14 great grandchildren. Public Swarms Schools During Visitors Week

Floydada Independent Schools rolled out the red carpet Tuesday for the public in observance of Texas Education Week.

Special attractions greeted persons attending all local schools. Viewing students work and schedule of activities were featured.

Beginning at 2 o'clock Tuesday afternoon doors were swung back for "openhouse" at Andrews Ward, North Ward and Floydada Junior High.

W. P. Nicholson said approximately 250 parents and patrons registered at Andrews Ward. Many more than anticipated due to the weather.

One hundred fifty registered at Junior High reported A. W. Coltharp.

Both principals said they would have been well pleased with this number on account of the rain, but were overwhelmed with the number who responded.

At the two schools, work was on display in each class room. Persons were made welcome by the teacher of the room and a child guide took special care in showing the public around his or her room.

Visiting hours began at 6 p.m. for the Floydada High School. A large number viewed the students work and enjoyed the tour of the new school building.

I. T. Graves, superintendent of schools, made the welcome speech and promptly at 7:30 p.m., a program was held in the auditorium. Chorus from Junior and Senior High under the direction of Mrs. L. H. Christensen presented several vocal numbers.

The comedy act of the program was presented by Bobby Seago, who gave a monologue of "Heart break Hotel" and a sketch of his make believe hillbilly life. Bobby I. T. Graves.

Climaxing the evenings entertainment the Whirlwind Band under the direction of Maurice Jones rendered five numbers, two of which will be played in the AA spring contest.

Chairman of the local committee in observance of school week was I. T. Graves. Serving with him were A. E. Baker, W. P. Nicholson, A. W. Coltharp, W. W. Trapp, Doyle Walls, T. C. Hollum, Bill McNeill, Junior Callahan, B. A. Robertson and Jimmy Willson.

Kimbrogh Pays Rotary Club Visit

At the Rotary Club yesterday Richard F. Stovall, who is a member of the board of regents of six Texas state teachers colleges, had as his guest coach-emeritus Frank Kimbrogh of West Texas State.

Coach Kimbrogh, who has succeeded to the post of director of athletics at WTSU, told briefly of plans for the new stadium that is slated to be built for the school.

Mr. Stovall related some of the plans which are being made for the state teachers colleges. "The statisticians tell us," he said "that we must plan in the next ten years for a student body of 25,000 to 30,000 at the six schools where we are now accommodating 12 to 13,000 students."

Stovall spent last week-end in a session of the regents at San Marcos.

Stovall defended executive sessions of public bodies as not only necessary but highly desirable at times "As a matter of principle as the peoples business should be transacted in a glass house, but as a matter of expedient fact a board such as ours and such as governs Texas Tech College must have executive sessions on occasional delicate matters," he said. Whether or not a hassle develops over such a session depends on the discretion and good judgment exercised by such a board, he indicated.

In the election of officers to take over with the fiscal year beginning July 1, Joe Glidden was chosen president, Lon Davis Jr., vice president, and E. C. Carter, J. R. King, Dr. John Kimble and Conner Orden were elected directors.

Re-elected were Bill Hardin secretary and Jimmy Willson treasurer.

Mr. Leibfried is confined to bed at the home of his son and daughter-in-law, Mr. and Mrs. Lorin Leibfried on South Main Street. The "money tree" grew up by the side of his bed while all the family was gathered about to help him celebrate.

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Washington is becoming concerned in some quarters in fairly well authenticated reports that Big Business is not offering college graduates the bonanza deals that have been the practice in the past.

This fact, more than perhaps anything else, is taken as a sure sign of an end of an era when Big Business would take care of everybody.

Thus, there is great concern now whether or not independent business is in a position to take up the employment needs of college graduates, now that the big corporations are curtailing.

With unemployment reaching new postwar highs, and some authorities expecting it to reach at least 5,000,000, job opportunities for the youthful, but ambitious inexperienced is taking on the dimensions of a grave problem.

Many legislators remember the 1939 crash that was brought about by unlimited mergers, and building of monopolies at the expense of the development of independent enterprise.

Then, as now, the most highly mentally trained of the nation's youth were restricted in their opportunities for employment. And this in short order, they became the leading supporters of that new political trend that swept the nation which in time was called the New Deal.

It was also the disillusioned young people of Germany who turned to Hitler in a Germany where great castles had stamped out free enterprise.

For years one of the cardinal principles of independent business

points of the National Federation of Independent Business has been that for the American economy to expand, there must be opportunity for independent business to expand, and artificial risks connected with launching new enterprises must be removed.

Not a small part of these risks is an unrealistic tax set-up whereby small business cannot keep sufficient earnings, when it starts to make earnings, to apply on paying off debts entered into for capital investments, to provide for expansion.

Of late, this problem has been aggravated by the increased interest rates imposed on borrowers of capital. Yet, as evidenced by a recent nationwide poll of the membership of the Federation, the majority of the nation's independent businessmen do not feel cheap money is the answer to the problem.

Rather, the roots are much deeper. Unchecked monopolistic practices by the huge corporations, plus the unreliability of tax applications to small business, are cited as the major causes which militate against the starting of sufficient numbers of new independent enterprises needed to keep pace with the nation's population growth.

And not an inconsiderable slackening in employment opportunities for youth has been caused by rash mergers.

Many of these mergers affected independent firms where it had long been felt that the sons would join dad in the business.

However, when due to inequitable tax formulas, and pressures exerted by violations of the anti-trust laws, dad had to accept a merger offer to survive, some had been eliminated from consideration. You can expect to hear much more about the employment problem of youth.

Crosbyton school lunch room. Estelle Hernandez stayed home with Monty. Friday night James brought Tommy Hawkes home from school to spend the night. Mrs. Williams took the boys to Crosbyton Saturday afternoon. Saturday night the Williams family visited the Odell Williams in their new home on the Shamburger ranch near Paducah. The men went coyote hunting.

The county library has several new books to help you pass the cold days. It is reading thirteen books simultaneously, depending on which chair I'm sitting in. We have set out Arizona cypress and transplanted hollyhocks.

Easter sewing time is here. Also interior decorating time. The Fred Jones' have been papering and painting their home. I am painting in our bathroom and sewing curtains.

Do visit school this week in observance of Texas Public School Week. The art work is surprisingly lovely.

## Interest Rate On Land Loans Is Cut By Bank

Raymond Rucker of Lockney, has just returned from Houston where he represented the Floydada National Farm Loan Assn. at the annual Stockholders Meeting of the Federal Land Bank of Houston.

Mr. Rucker said one of the purposes of the meeting was to get a report on the condition and operations of the bank. He was impressed by the strong financial condition of the bank, and pleased with the progress which it and national farm loan associations in Texas have made in cutting operating expenses.

Some changes were necessary to off-set the increased cost of money which the bank has had to pay on the bonds which it sells to secure the fund to make loans.

Of special interest to national farm loan association members, as well as all farm and ranch owners, was an announcement which Sterling C. Evans, President of the Bank, made at the meeting. It was that the Bank has reduced the interest rate to 5% for all new loans, and voluntarily cut the interest on loans which were closed at a higher rate. Also it will now close additional loans.

This is a new practice and enables a borrower with a 4% Land Bank loan of \$1,000 or more to get an additional loan at 5% on the new money, and leave his old 4% loan undisturbed.

Also making the trip to Houston was Jake B. Watson, secretary-Treasurer of the Floydada NFPA.

Officers and directors of the Floydada association are: Raymond Rucker, Lockney President; Menard Field, Floydada, Vice-President; Bill McNeill, Floydada, Director; Carroll Garrison, Silverton, Director; F. ## Probation System In State Appears To Be Good Move

R. A. Cannon, probation officer of the 119th Judicial District, who was in Floydada last week on an official errand, expressed the belief that the people of the state are going to be well pleased with the operations of the new parole system.

The new plan was set up by the legislature less than a year ago. Mr. Cannon, a practicing attorney of Spur, was named probation officer for the four-county 119th District.

"It will take some time for the new system to get into operation in all parts of the state, but so far it has functioned well and will do even better when the state set-up has been completely organized, in my opinion."

For one thing men who are convicted and given probation get more personal attention and help with their problems, he pointed out.

## Floydada Minister Will Conduct Preaching Mission in Hawaii

HONOLULU — Nine Southern Baptist ministers have been selected to conduct a Territory-wide evangelistic crusade in the Hawaiian Islands. Rev. Malcolm Stuart, pastor of the Pearl Harbor Baptist

Church and Chairman of the Crusade for the Hawaiian Baptist Convention states that the evangelists for the preaching mission will be Rev. Wayne Dehoney of Jackson, Tenn.; Rev. Ramsey Pollard of Knoxville, Tenn.; Rev. Earl Stallings of Ocala, Fla.; Rev. Gerald Walker of Pensacola, Fla.; Rev. Earl B. Edington of St. Petersburg, Fla.; Rev. Charles Bowles of Birmingham, Ala.; Rev. Ed Bowles of Floydada, Texas; Rev. L. T. Daniel of Dallas, Texas; Rev. E. V. Appling of Haynesville, La.

The Crusade will begin on Easter Sunday in the Honolulu churches. It will be expanded to include all the island churches during the remainder of April. This is the first Simultaneous Evangelistic Crusade ever conducted by an organized body of Hawaiian churches.

Honolulu Chief of Police, Dan Liu, was active in the organization of the Crusade.

The Governor of the Territory will personally receive the party at his place upon their arrival.

Baptist work began in Hawaii under the supervision of the Foreign Mission Board of the Southern Baptist Convention. The territory churches are now organized into the Hawaiian Baptist Convention.

The success of the pre-crusade promotion, the number of counselors now being trained, the attendance at prayer meetings, and the favorable publicity being given the Crusade in all circles has created a high spirit of expectancy among the Hawaiian pastors.

The Rev. Charles Mullins, pastor of the Waiwale Baptist Church on the Island of Oahu says "This Crusade promises to produce more real converts of Christianity than any other effort we have made. Our congregations are composed of Japanese, Chinese, Hawaiian, Filipino and a scattering of American service men."

Religious beliefs or attitudes range from paganism and Buddhism on one hand to secularism or outright atheism on the other.

## Good Progress On Membership Drive For FB

Good progress was reported from the campaign of the Floyd County Farm Bureau for memberships over the week-end and Monday, the county service office reported Tuesday.

The drive was launched at a meeting of 20 officers and directors held in the grade school cafeteria at Lockney last Thursday night and the report meeting was held Monday night at the Floydada High School cafeteria.

At the planning meeting Dennis Taylor, president of the Crosby County Farm Bureau, made an inspirational address in which he stressed the Farm Bureau long range farm program. Also present and speaking to the assembly was O. K. Hoyle, state organization field man, who instructed the workers, emphasizing the need for organized effort and working out problems with a constant effort to improve the farmer's position in the economy.

In the Monday night report meeting 26 were present and reported 54 new and renewal members, bringing the paid membership since the beginning of the fiscal year on November 1, 1957, to 195. The official membership for 1957 was 582, leaving 406 members to be renewed the remainder of this year. Weather conditions hampered the campaign.

Membership goal for the year is 650 members in Floyd County, the state goal being 75,000 members for 1958. The state membership for 1957 is officially given at 72,680. The annual average state increase since 1946 has been 4,975 members.

When the Floyd County office was opened in 1952 the membership in the county was 355, the annual increase averaging 45 members.

# County's Contribution to Government Revenues Estimated At \$2,260,000

(Special to the Hesperian)

NEW YORK. — If the Government's revenue expectations are to be met this year, taxpayers in Floyd County and in most other parts of the country will soon be sending Uncle Sam the biggest tax checks ever.

The Administration is counting on considerably more than the \$43 billion in individual income taxes it collected in 1937.

Floyd County's contribution to that total was approximately \$2,260,000, which was 0.14 percent of the amount turned in by residents of the State of Texas.

The figures are an unofficial estimate, incorporating the Government's report on state returns with local earnings data and income groupings.

The new tax goal set for the country by the Administration was keyed to bigger incomes in 1937 than in 1936. In most parts of the nation, it appears, incomes were higher despite the slump that took place in the last quarter.

The President, as indicated in the new budget, sets an even higher goal for fiscal 1938. Expressing his confidence "that the expansion of our economy will soon be resumed, bringing higher levels of receipts with present tax rates," he predicted that personal tax returns next year would be 3.5 percent higher.

To achieve such a gain in Floyd County would mean that personal income locally would have to reach \$19,850,000, after taxes, in 1938. Most people feel that, with unemployment as high as it is, there will be no rise in national income. Only an early, sharp upturn in business could produce such a result.

Judging from the mail reach-

ing Congressmen as April 15th nears, many people believe that a cut in income taxes would be a good thing. They claim it would generate business activity and thus produce more tax than was lost through the cut.

Washington officialdom is giving consideration to the problem. Some object because it would create an even larger budget deficit. Others are fearful of its inflationary effect.

## South Plains News

(By Mrs. M. M. Julian)

**SOUTH PLAINS, Mar. 3** — The South Plains region had an old time dirt storm on Wednesday with winds of high velocity, which was followed over the week-end with a beautiful snow of about five inches by Sunday morning. Each day since has been drizzly, foggy, cold and disagreeable.

Twenty-two visitors were at the South Plains Baptist Church on Sunday morning to hear the Rev. J. Frank Nix, of Lockney, preach, with 64 in Sunday school. Mr. and Mrs. John Smithman of Floydada were here and Elton Karr of Wayland was present. We can't quite bring ourselves to call them visitors yet. Baskets of bountiful lunches were spread at one o'clock in the lunchroom of the school house. After which the group went back to the church at 2:30 for an afternoon session of worship, in lieu of the usual worship period.

The Rev. L. H. Paus left immediately after church services on Sunday for Fort Worth where he was to have an evening speaking engagement, and due to fog and drizzle he was not able to get home until Monday afternoon.

Mr. and Mrs. Willard Pearson of Amarillo were among the visitors at church on Sunday, and visited with his brother Mr. and Mrs. Lee Pearson.

Several from here attended and enjoyed the Minstrels of '38 which were held at the Floydada High School Auditorium last week.

Mr. and Mrs. R. E. Althof, of Roscoe, were all-day guests in the home of Mr. and Mrs. Murray Julian on Friday of last week. They are the parents of Mrs. Terry Julian.

The new home of Mr. and Mrs. Roy Biedoe and Bill was moved out from Lubbock on Friday, and we hope they will soon have it ready for their occupancy. Mrs. Biedoe was on the sick list over the week-end. We hope she soon recovers.

Mr. and Mrs. George Weast arrived home from Garden City, Kansas, on Wednesday after they had gone there over the week-end for the funeral of George's mother, Mrs. Eliza Weast.

Mrs. H. L. Marble took the Misses June Marble and Juanell Wood to Amarillo on Saturday where they attended the Future Homemakers of America Convention during the day.

Visitors during the week to visit Mrs. M. M. Julian who has been confined to her home with illness were Mrs. Bryant Higginbotham on Monday, Mrs. Fred Fortenberry on Tuesday, and Misses Frank McClure, Sylvine Kinnibrugh and John Key West on Thursday afternoon.

We are sorry to hear of the illness of Mrs. Owen Thornton in Lockney who was in the hospital last week with an attack of asthma.

Mr. and Mrs. Fred Fortenberry were glad to see their son Eimo come in on Sunday morning on a five-day furlough from the Naval Base at San Diego, Calif. The young folks have packed their belongings and with his wife, Eimo, left on Monday to go back to California where he is now stationed. They will share an apartment with friends from Sweetwater. The Fortenberrys spent Monday in Lubbock attending to business matters, and went on to Pecos, Tex., to spend the night.

Those of the Womens Missionary Union who heard the book report "Look, Look, the Cities," which was given by Mrs. Larry Paus at the church on Monday afternoon beginning at 1, were Misses Frank McClure, L. T. Wood, Bryan Karr, Grigsby Milton, Shelby Calahan, Thomas Pierce and Gilbert Bean.

Mr. and Mrs. John Key West went to Rule this last Wednesday for the funeral services of John Key's uncle, Jesse T. West, 87, who passed away at Hereford where he lived for years, and was taken to Rule for his last rites and interment.

We extend our sincere sympathy to the Wests in the loss of his uncle.

Mr. and Mrs. Arby Mulder, Nathan and Kathy left the past Thursday for Albuquerque, N. Mex., to spend the week-end with Arby's brother, Mr. and Mrs. O'Dell Mulder and Patay, and nephew, Mr. and Mrs. Don Dell Mulder and baby. They returned home on Sunday night.

Mr. and Mrs. Grigsby Milton, Darla and Barbara visited with Mr. and Mrs. Murray Julian and Bruce on Sunday evening. They enjoyed a buffet supper together, and saw some home movies.

We are sorry to hear that little Clara Bean, daughter of Mr. and Mrs. Kenneth Bean, was in the Lockney Hospital from Saturday over the week-end suffering with an attack of almost pneumonia.

Mr. and Mrs. Frank McClure spent Friday in Crosbyton with their children, Mr. and Mrs. Don McClure and girls. Monday afternoon Mr. and Mrs. R. M. Haverly from Silverton visited the McClures here.

Guests in the L. T. Wood home on Sunday for dinner were the Misses Donita Milton, June Marble, Aris Powell, James Teague, Marvin Wells, with hostess Miss Juanell Wood.

THE FLOYD COUNTY HESPERIAN

Published by The Hesperian Publishing Co., Inc., at 222 South Main St., Floydada, Texas. HENRY STUBBS, Editor. PUBLISHED: MARCH 6, 1937

TEXAS PRESS ASSOCIATION Member 1937

Established 1894 by ... Entered as second class post office at Floydada, Texas, April 26, 1907 under ... Congress of March 3, 1879

IEWS AND COMMENT

**Every Twenty Years?** It was twenty years ago — in the wheat season of 1917 — that wheat with four-grains to the bush was harvested in Floyd County. Is it the nature of things that such a tremendous wheat crop be repeated every twentieth year? Happenings to date in the wheat year 1917-18 would seem to indicate as much. And we may have such a crop in the making on the 60 thousand acres of wheat in the county. This average however, is in contrast with more than 200 thousand acres in 1917 before the weather cycles reversed themselves.

**The Weather Man** was most cooperative last week-end. Who could have ordered a fresh snow on the night of March 1 to fall gently and be beautifully still on tree twigs the morning of March 2. A wonderland to celebrate Texas Independence Day. Farmers have complained, not exactly complained, but remarked, that although six weeks of wetness had kept them out of fields most of the time, little actual moisture had fallen. One or two of our good friends got their barley in the ground just hours ahead of the snow. A little late, but the spring season seems a bit better, too. Never can tell. Foolish things are smart and smart things are foolish in this part of the Lord's Vineyard away out west.

**A Small Matter.** We had intended to mention early in January a little thing that most any body could do for a friendless man. He is in the penitentiary at Huntsville. He has many associates who are friendless also. A simple request for any nice calendars you might have that you are ready to discard. The calendars should be clean and not dog-eared. They can be forwarded care The Echo, (Print or newspaper), Huntsville, Texas. Hardly any likelihood of sending too many. Also keep in mind for next January when you are ready to discard 1936 calendars. The Echo editor himself an inmate, says this would be a greatly appreciated thing to do for the men and women there.

"Ignorance does not apologize," said Douglas Blander in a recent issue of the Hesperian Tribune. This is an unexcusable fact about human nature and the loose tongues of the most of us. We talk about things of which we are ignorant, as though we spoke from knowledge. Who among us is not guilty of the habit that has no basis in fact? Who does not sometimes use fancy for fact in relating the incidents of the lives about us? The worst offenders are the loudmouths found in public places.

Nylon Stockings, Swivel chairs, water coolers, refrigerators and many other items of like nature have been included in the "austerity act" our responsible authorities have been permitting to go to backwood lands. Somebody in the nylon stocking business, a swivel chair manufacturer, or a refrigerator company with a too-heavy inventory, had a friend who took care of him, is what this means. At this moment the various agencies of the nation have a backlog of \$10 billion authorized by congress that somebody not responsible to the people is going to spend. But "they" tell us the budget must be raised and the deficit called killed to head off a depression and keep faith with our allies. Who is doing what to whom?

**Humility is Humanity.** A sorry fall for work and a long wet spell have made a "hard row to hoe" for working people, who depend on their hands to provide a livelihood for themselves and their families. Report for humanity calls for merciful attention to them until they can fend for themselves again. There's not a town full of them but there are some. Work will open up later but right now is when they are hungry.

It's funny but it works they say. Take your house number and double it. Add 1. Multiply by half a hundred, then add your age. Add the number of days in a year, and subtract 611. The last two figures will be your age; the others will be your house number.

It's like getting back 15¢ on every gas dollar!

Here's the biggest savings story of the year! And here's why.

It all starts with Ford's new dream of a drive called Cruise-O-Matic... the newest, most versatile, most automatic of them all. You save driving costs, let your drive take care of the most conditions that exist. For example, in most of the driving you do, you can take off lightly on a spring lunch if you wish, and on more, on a very slippery road surface, with the extra driving range you can get on the same tank that are steady and silky-smooth.

Now, team this all-new automatic with Ford's new Thunderbird-powered V-8 (with up to 300 hp) and you get as much as 12% better gas mileage, too! That's because a special gas-saving new auto valve is used to give you all the savings of "built-in" overdrive economy.

And based on factory suggested retail delivered prices, a Cruise-O-Matic Ford is priced lowest of the low-price three with comparable equipment.

So, with Thunderbird go... down-to-earth gas savings... plus Ford's traditionally low prices and high resale return... you have the best reasons in the world to make yourself a deal on a beautiful new Cruise-O-Matic Ford!

**IS THE LIGHTING IN YOUR HOME "ADEQUATE" OR "IN-ADEQUATE"?**  
 Although the electric light was the very first of electricity's contribution to better living more than 75 years ago, the American Home Lighting Institute estimates that today at least 80% of America's homes are still inadequate and improperly lighted.  
 This rather startling conclusion incorporates within its statistics the fact that the average home has only 11 lighting fixtures compared to the 25 inside and outside lights required for minimum illumination.  
 The Institute explained that although the general trend is toward more and better lighting fixtures, many new homes are equipped with the most inadequate lighting. This leaves the average home with the combination of glare and gloom. A small amount of money spent for installation of fixtures will provide light for better vision for greater spaciousness and for better decoration.  
 Whether a family is building a new home or remodeling the present one, the installation of modern lighting is an important must in living better electrically.  
 Here's a suggested check list for the new home or the remodeler:  
 Outside: Individual lights for entrances, porches and driveways. Stairs and Halls: Spot ceiling fixtures over all stairs and in each hall, controlling them by switches at each end.  
 Bathrooms: Fixtures above and on each side of mirror. Always turn on lights when using medicine bottle. Bright light is an added safety measure.  
 Bedrooms: A large center ceiling fixture controlled by switches at the door and near the bed.  
 Kitchen: Ceiling fixture plus lights over all working areas, including sink, range and counters.  
 Basement and Attic: Lights over laundry areas, furnace, storage area and work benches.  
 Closets: Wall or ceiling fixtures, preferably operated by door switch.

### Clearing Up A Few Points In Texas Egg Law

The Texas Egg Law has been in effect since February 17th, and already the Texas department of Agriculture is being flooded with questions concerning its various points.

Greatest concern seems to be whether ungraded eggs can now be sold in the state. Yes! Ungraded eggs can still be sold, but they must be clearly marked "Ungraded" on the package or carton.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford  
TEXAS PRESS ASSOCIATION

What will happen to about a sure flow of oil grease the wheels of government business? Oil allowable was set at a day (a drop of a day) from February 19, nine producing days. Commission said the cut-off level since pre-World days was necessitated by from Texas production.

Digging into causes and effects is Governor Price Daniel's Oil Imports Study Commission. At first-round hearings in Austin these views were presented:

BY GOV. DANIEL — Texas is facing its most serious economic threat in 25 years. "Mandatory federal controls" are apparently the only way to stop excessive importing.

By STATE COMPTROLLER ROBERT S. CALVERT — Continuation of the present oil production pattern for another 90 days would put the state \$20,000,000 further in red by the end of the current fiscal period. This would mean a \$32,000,000 shortage rather than the \$12,000,000 deficit estimated earlier.

**EMPLOYMENT COMMISSION** — Employment in the Texas oil industry has declined 8,000 since last July. A drop of five per cent in oil employment takes \$50,000,000 in wages from the Texas economy.

BY A. T. MULLINS, GENERAL LAND OFFICE — One company has said it will stop seeking oil from state-owned lands, and others have said they will, unless the state reduces lease prices.

BY J. WARREN HITT, TEXAS EDUCATION AGENCY — Approximately 31.3 per cent of state school money comes from the oil and gas industry.

BY MARSHALL FORMBY, TEXAS HIGHWAY COMMISSION CHAIRMAN — Reduced oil production would eventually cut back construction of highways.

BY JOHN WINTERS, COMMISSIONER OF PUBLIC WELFARE — Loss of oil revenue could reduce payments to the aged, the blind and dependent children.

BY REP. MAX SMITH, HOUSE APPROPRIATIONS CHAIRMAN — Next Legislature faces the prospect of spending money it doesn't have or finding new sources of taxation.

DR. PHILLIP E. COLDWELL, DALLAS FEDERAL RESERVE BANK — Imports are only partly to blame for Texas oil troubles. Problem of oversupply is worldwide and likely will continue for some time.

French Robertson of Abilene is chairman of the Study Commission. Governor Daniel called hearings held today "very successful". Next meeting is to be March 18, in Abilene.

Meantime, the governor has wired governors of 20 other states asking them to join in the effort to get federal government action limiting imports.

**Search For New Industry** — Long dormant Texas Industrial Commission has new members and a new job.

Governor Daniel named E. B. Germany of Dallas chairman and gave the commission the task of enticing new industries to Texas to help relieve unemployment.

Originally designed to study labor-management troubles, the commission has been inactive for some years. Its new industry-attracting work is to be financed by private contributions and conducted cooperatively with chambers of commerce and other local groups.

Members are Houston Harte, San Angelo Standard-Times publisher; A. G. McNeese Jr., banker and lawyer, Houston; George T. Hinson, former state representative, Minicoia; Chester C. Wine, power company employe, Laredo.

**New Receiver** — James M. Williamson succeeded J. D. Wheeler in the often-spotlighted job as liquidator for the State Board of Insurance. Williamson is a former district judge in Laredo and prior to his appointment was attorney for several Fort Worth insurance companies.

State liquidator has responsibility for winding up affairs of insurance companies that go broke. For some years the office has been caught in the middle of a struggle between an Austin district court and the

State Insurance Board as to which has authority to appoint receiver for the bankrupt companies.

**Prison Farm Cotton Cut** — Texas taxpayers face an extra burden unless Prison System can get a more favorable cotton acreage allotment, says Gen. Mrg. O. B. Ellis.

Ellis protested to the U. S. Dept. of Agriculture that acreage for prison farms has been cut disproportionately, costing the system \$2,500,000 in income. No chance for improvement is seen this year since U. S. D. A. refused to interfere with locally set quotas. Court action is planned, but could not bring help before the '58 planting season.

Texas Prison System is heavily dependent on income from inmate industry and agriculture to foot the upkeep bills.

**Credit Order Holds** — Credit insurance rates in Texas will be slashed by about 50 per cent beginning May 1 -- despite howls of protest from affected companies.

State Board of Insurance first issued an order cutting credit insurance rates last December. Order was withdrawn for re-study after companies declared it would ruin their business.

New order is only slightly changed. Estimates are that it will cut income from credit insurance from \$16,500,000 to \$8,000,000 annually. Only possible roadblock would be the resuming of a suit filed earlier to halt enforcement of the December order.

**Short Snorts** — Dr. Robert Strain, associate professor of insurance at the University of Texas, has been named to the State Board of Insurance to replace Joe P. Gibbs of Seguin, who has resigned. Building construction authorized during January was up five per cent from December, but ran 15 per cent short of the January, 1957, level. Total for state this January was \$83,191,000. It's okay for the State Hospital Board to use funds from a private organization (the H. E. Butt Foundation) to supplement the salary for an executive director, Atty. Gen. Will Wilson ruled. State-set pay is \$15,000 annually. Board chairman said they've had trouble finding a director because competent men in similar positions are getting \$25,000 to \$50,000.

**Goal-Short Fund Of Chest Drive Is Parceled Out**

Last week the funds raised in the county-wide drive for funds to support four welfare agencies was divided up, each getting a proportion of a total of \$6,440.47, which was raised out of a goal set at \$12,000.

Boy Scouts received \$2,135.36, American Red Cross Chapter \$2,125.35, Salvation Army \$1,481.31, and Heart Fund \$708.45.

Persons wishing to contribute to Red Cross may call YU3-3314 or YU3-2841 in Floydada and contributions will be picked up, Friday, March 7.

Snow, did you say? Yes, we had one of the largest snows and the prettiest snows we have had in many a moon. We had between 7 and 9 inches and was it pretty. No wind to blow it and make it disagreeable. As it is melting it is really making things wet.

Mr. and Mrs. Chloma Williams and Sue were dinner guests Sunday in the Everett Miller home.

Mr. and Mrs. Elmer Williams made a business trip to Ada, Okla., Thursday, returning home Friday.

Wesley Carr has been ill the last week with a cold.

Rueben Rutherford of Plainview, brother of Ted Rutherford and brother-in-law of Zant and Hal Scott, and another Plainview man had gone to Ada, Okla., to attend a revival meeting and were returning home Sunday night February 23 when a car blinded them and Mr. Rutherford ran into a bridge embankment, completely demolishing his car.

The men were only shook up and bruised and skinned up a little. They were not even taken to a hospital, or did not stay any way. The car was so badly torn up that the insurance company gave Mr. Rutherford a new car. How lucky these men were.

Mr. and Mrs. Ted Rutherford spent the past two week ends in Stamford, Texas, with Ted's father, Calvin Rutherford, who is not too well. Mr. Rutherford is past 80 and it is feared he will have to undergo surgery. Mr. Rutherford makes his home with a daughter, Mrs. Addie Koonce.

Mrs. D. G. Hatley, who has been ill recently, is feeling better this week. She went for a check-up at Plainview last week and her medical report was encouraging.

AMERICAN RED CROSS  
Floyd County Chapter  
Floydada, Texas, March 3, 1958

Dear Friend:

MARCH IS RED CROSS MONTH

The campaign for the United Fund Drive has ended. But, due to weather conditions, sickness, etc., the workers were not able to see everyone. The over all efforts never reached their intended goal, nor did they receive funds to cover their expected totals. The goals not reached means the participating organizations have to suffer their part of the deficit.

We are not able to determine who was solicited or who was not.

We, who are more closely associated with the RED CROSS, knowing that the good folks of Floyd County have never failed to meet its goal, are mailing this letter to advise that we are yet behind on the RED CROSS quota.

If you have been solicited, we THANK YOU. If you want to help the RED CROSS in their efforts to meet their needs we shall be very grateful for your consideration.

The funds spent by the RED CROSS from the local level, as well as from the National level in this area, should inspire us to expend our best efforts to see that our quota is met. We felt that when the people of Floyd County knew the facts they would, as always, respond in a most generous way.

In 1957 the local chapter spent several hundred dollars on fire and flood victims as well as other unfortunates. From the National source several thousand dollars was spent in Floyd and Briscoe Counties when disaster struck.

Disaster was more widespread in 1957 than ever before but was met by our National Red Cross at a cost of many millions of dollars. WHO KNOWS WHERE IT WILL STRIKE NEXT? As our President told us, the funds of this organization have been depleted and we feel every citizen should be willing to contribute to such a worthy cause and organization.

Should you want to participate further, send your contribution to Mrs. Virgie Shaw, Floydada, Treasurer of the Floyd County Chapter, or leave it at the First National Bank, Floydada, or First National Bank in Lockney.

Our thanks for your time and graciousness.

Very Sincerely,  
Carl L. Minor, Chairman, Floyd County Chapter,  
The American Red Cross

**Chapter Seeks To Finish Goal For Red Cross**

Monday afternoon at a meeting of the county officers of the Floyd County Chapter, American Red Cross, it was determined that an effort to meet a goal of \$3,000 will be made.

The chest fund drive, when completed, left the chapter short of funds it is anticipated will be seriously needed to carry out the functions of the chapter and to represent the county properly in the national budget.

Immediately after the meeting of the board Carl Minor, County Chairman, issued a plea asking for further donations and pointing out the tremendous load the American Red Cross has had to carry in disaster relief during the past year or more.

In his statement of the situation, Mr. Minor pointed out that the funds spent at the local level as well as at the national level to meet disaster, should be an inspiration to meet the needs of the chapter.

The people of Floyd County never before have failed to meet a Red Cross quota in a history dating back more than 40 years. If the county does fail at this time it will be a historical first.

"We are not able to determine who has been asked and who has not," Mr. Minor said in his statement appearing on another page, indicating that the chapter is going to have to depend largely on volunteers stepping up and helping out.

Volunteers may telephone the office of the county superintendent and donations will be called for also Radio Station KFLD has volunteered to accept telephone calls on the same basis.
