A year of the service is contemplated, and Floyd County is wanted in the agreement because this county already has a library and can be of service in this respect.

Mrs. A. T. Hull, librarian of Floyd County, was in a meeting at Crosby Tuesday morning where the bookmobile program was up for discussion.

The meeting at which final plans will be made is scheduled to be held at Crosby on December 2.

### Bank Building Contract Made

Construction on the new home of The First National Bank is due to begin March 1 of next year, E. L. Norman, president of the bank, said this week.

Contract for the building which will occupy the site at which the bank is now situated, was let at a specially called session of the board of directors Wednesday of last week.

Frank and Winfree Company of Denison, Texas, are the contracting builders, subject to approval of the final plans and specifications.

Norman said the contractors would build "over and around" the bank's working force and have promised a minimum of inconvenience to the bank while the construction is under way. It will not be necessary for the bank to occupy temporary quarters while the work is under way, he said.

An outlay of approximately \$175,000 is contemplated. The new bank building will occupy the corner lot and the lot adjacent to it on the north, recently acquired from George Sherrill, a ground area of 50 by 150 feet.

## Hundreds View New Sanctuary Of Methodists

Formal opening of the new sanctuary of the First Methodist Church in Floydada was held Sunday with approximately 1800 in attendance at the three services. Former members traveled from as far away as Fort Worth to be on hand for the day-long activities.

Seven-hundred and sixty-five were present for morning services, four hundred and fifty at the afternoon service, and two-hundred sixty at the night service. This total does not include persons calling during open house between the hours of 2 and 3 o'clock p. m., and 4 and 5 p. m.

Former pastor of the church, the Rev. Tilden B. Armstrong, of Andrews, brought the morning message on the building of the church, loyalty of its members, and what keeps a church growing.

Bishop William C. Martin of Dallas, spoke at 3 o'clock, choosing as his theme "Church and His Outreach." Bishop Martin is past president of the National Council of Churches in the United States. He is presiding bishop of conferences of the church in the Fort Worth-Dallas area.

Rev. DeWitt Seago, present pastor of the church, spoke in his message Sunday evening, the first in a series, on the meaning of symbols in the art glass windows of the church.

Members of the church, including teachers, class presidents, and members of the Women's Society of Christian Service, and official of the church, were in hosts for open house.

The lovely tea service, given to the church in memory of Mrs. Ruby Fry, was on display, and viewed by the many who were shown through units of the building to see the new construction and beautiful interior. The kitchen of the sanctuary lacks completion. Women of the Society have hopes of having it ready before long.

Past members of the church were noted in attendance, those who have moved from this area, but who feel they have a part in the making of the church. In addition there were neighboring church members and pastors of other churches, who made the day of activities most complete. Among the visitors were:

(See Sanctuary, page 6)

A boisterous wind Monday morning hit Floyd County, and brought with it blowing showers, damage to crops and damage as well to small building and loose equipment, and put a thin layer of ice on stock tanks.

Hitting about 2 o'clock the winds hit high velocity by 4 o'clock in Floydada. Two plate glass windows were the heaviest single losses in the business district. At Jester & Sons a plate glass window went out and at Carmack Feed and Seed another big window gave way under the weight of the wind. Little damage was done at either place otherwise.

The wind continued rather briskly throughout the day but with much less velocity that when the storm first broke.

Rain showers over the county ranged from less than a quarter of an inch in Floydada to 4-tenths in some districts.

In various parts of the county reports of winds heavy enough to jostle farm equipment around is reported and in a few instances small buildings were whipped from their foundations. At South Plains the Stanforth farms had an irrigation engine toppled from its foundation.

County Agent Cecil Lewis had only meager information on damage that may have been done by the storm to cotton. As late as yesterday he had not made a county-wide check. On short trips, however, he noted some cotton blown out on the ground. Some farmers may have had as high as 15 per cent of the cotton blown on the ground, he thinks, depending on the variety.

The cold that came with the storm may have been done by the storm to cotton. As late as yesterday he had not made a county-wide check.

The temperature hit 32 degrees at 2 a. m. Monday morning, went down to 26 degrees at 7:30 and still had not risen above 32 degrees again at 10 o'clock.

Wednesday morning a low of 24 degrees was recorded at 5 a. m., with the thermometer registering freezing or lower for nearly nine hours.

On Thursday morning of last week some showers also fell with temperatures that brought one-fourth inch to 75-hundredths over the county.

Cotton gins have turned out very little cotton since last Friday when the gin yards were cleaned of accumulated trailers. As of Thursday last the Texas Employment Commission reported 65,276 bales ginned.

## Football Team Taking Outing

The Floydada Whirlwind football squad will enjoy an outing in Dallas this week-end where they will see the Baylor-SMU football game in the Cotton Bowl.

The boys are 49 in number, plus three managers and four coaches will make the trip down on two school buses. They plan to leave Floydada at 5 a. m. Friday, spend Friday night at the Travis Hotel in Dallas, see the game Saturday afternoon and return to Floydada Saturday night or early Sunday.

The group will enjoy a one-day school holiday in celebration of the close of the football season. Football training is very demanding of the players and coaches time and the time off is considered well deserved by the group.

Coaches Preston Watson, Charles Tyer, Paul Huntington, Pete Fuglaar and all of the high school gridmen who wished to go are making the trip. Only one or two boys with working chores they could not leave are missing the outing.

## Basketball Training Underway

Couch Paul Huntington started working out with the boys basketball squad on Tuesday. The group will get in three days this week and an equal number next before the Thanksgiving holidays.

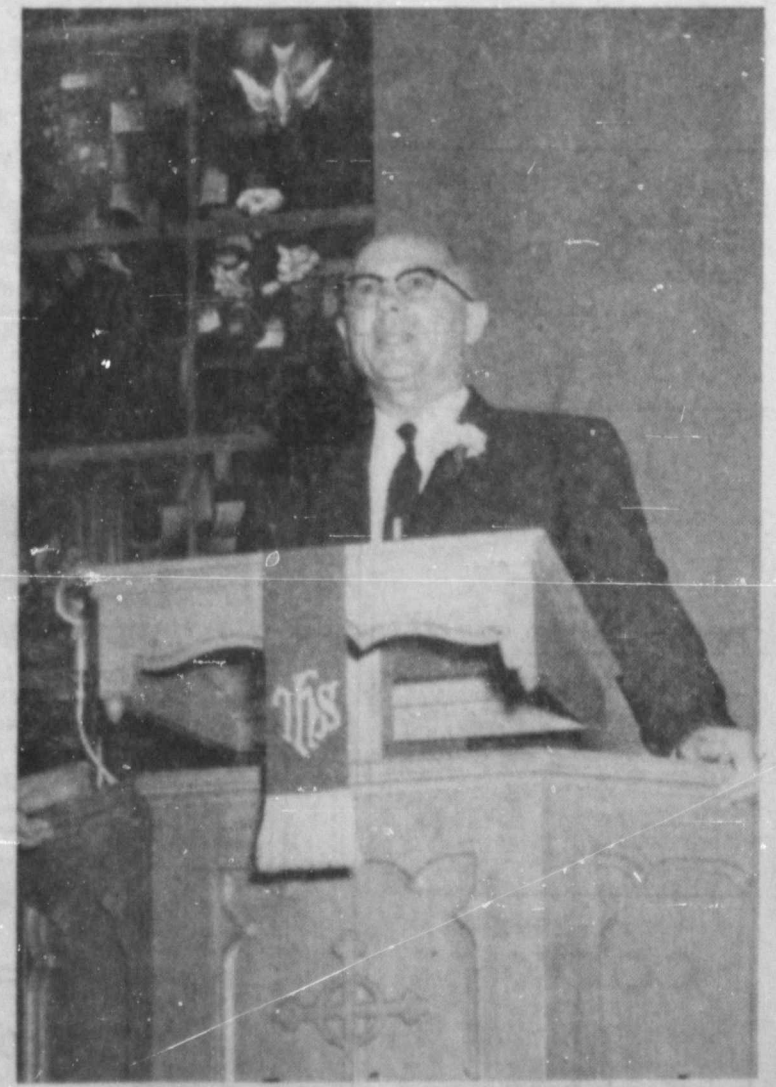

Starting after Thanksgiving things will get down to real serious training as the team prepares for the Floydada Tournament in early December as well as a stiff schedule of play.

The girls have been working out for some time under the leadership of Mrs. Martin. They have had scrimmage and practice sessions already but do not consider the season as officially opened until the boys join in for a double header schedule.

## Scout Fund Drive Short of Goal

The Boy Scout fund drive which has been in progress in Floydada since early this month has reached only about one-third of its goal of \$2,000. Drive Chairman an Edward Wester reports slightly more than \$700 has been turned in as of Tuesday.

Several of the volunteers have not completed their assignments. Floydada Lions Club members and Methodist Men are spearheading the fund drive. Those interested in supporting this worthy cause may do so by contacting one of these groups or leaving their contribution at the First National Bank in Floydada.

Rev. Tilden B. Armstrong, of Andrews, who was pastor of the First Methodist Church here for seven years during the building of the congregation's new place of worship and educational unit, preached Sunday morning to an overflow house of members and visitors. He was accompanied by Mrs. Armstrong. Their son Keith and daughter Mrs. Harold Hughes and her husband joined them here from Abilene to make it a reunited family at their long-time former home.

The program "Like A Tree" was in charge of Mrs. Ed Wester. It is designed to inspire a truly devotional Christmas in the home. Following a prayer, Mrs. Harry Mockett told a story, "If He Had Not Come", portraying an American town as it might have been today if Christ had never come to earth.

## Holidays to Begin On November 27

(By Kit Zimmerman)  
All FHS is very excited and with good reason. We were all pleased with the victory over Tahoka, but we are now looking forward to Turkey Day, November 27 and 28.  
Our parents remember when that day meant an important clash on the gridiron, but those little old eight points at Spur saddened all of us and now we have the Thanksgiving holidays to look forward to.  
We all have so many things to be thankful for and without going into detail each of us could make a list of his or her blessings which would cover most of this page of the Whirlwind.  
Count your blessings!

## Band News

(By Sonja Guffee)

Appearing last Friday night at the Tahoka, Floydada football game, the Floydada High School Whirlwind Band gave a thrilling performance in their last halftime show of the football season.

Entering from the south end of the field, the band played their fanfare then marched forward, and broke into a series of smaller lines which countered and reformed two company fronts. At midfield these two company fronts broke into four company fronts and continued farther down the field. Then the band went into block band.

From block band the band divided into half and did two counter-marches, then a series of turns which made four separate diamonds. These diamonds joined in center field to form a "V". Then five company fronts were formed, which soon gave way to one company front on the 50-yard line. From there the band did a series of routines to "Bye Bye, Blues," after which they formed the football team's "Bye Bye, Blues" fathers. They exited on the east side to "Bye Bye, Blues."

Various songs were played continually throughout the show.

Parts of the halftime show are to be used in the routine halftime show for marching contest in December.

## Mighty Team, Able Coaches, Is Tribute Paid The 'Winds

(By Sue Williams)

The students and faculty of FHS want to pay a tribute to the members of our wonderful Whirlwind team and their coaches.

A difficult job has been accomplished with high honors by the Whirlwinds, and we are very proud of them.

Congratulations go to each coach and everyone of the team for their part in making this a very successful season.

The one loss was not a disgrace because of the hard-fought battle and fine sportsmanship.

The nine victories proved the marvelous training and ability of the players. Hats off to a mighty team and some very able coaches.

## Students Enjoy Daily Periodicals

(By Edwina Overstreet)

One of the most popular sources of information in the library happens to be the newspaper stand which holds the daily editions which are subscribed to by the library. Each morning, quite a number of students gather here to see the sports page, the funnies, and some even read the daily news happenings in keeping up with our world today. The four papers which may be found on the stand are the Hesperian, Lubbock Avalanche Journal, Amarillo Globe News, and the Ft. Worth Star Telegram.

These periodicals may be found in the center of the library on the newspaper table which was constructed by the late Mr. J. J. Hendricks and the boys of Industrial Arts classes. It holds five newspaper stacks, and is made of light oak, blending in nicely with the light furniture of the reading room.

## Jackie Cotton Is a Transfer From School in Alaska

(By Estella Wyatt)

FHS proudly welcomes a new student—cute, blue-eyed, 5 feet 1 inch, sophomore, Jackie Cotton. If you have talked to Jackie, you also know another identifying characteristic of hers is that Alaskan brogue. Jackie has good reason for this as she has spent several years of her life in Anchorage, Alaska. She is a native Texan, though and was born in Plainview, on January 20, 1943.

She first saw Alaska when she was five years old. Between that time and the present, she has attended school in Kress and Tulla, and lived for a summer on a ranch in Colorado.

Previous to moving to Floydada, where she lives with her aunt and uncle in Fairview community (telephone 3-3029), she had attended a five million dollar school in Anchorage, Alaska, since the eighth grade.

Jackie's comment on FHS is "Floydada can sure be proud of its school and the students in it. I have never been in a school that the kids have been so friendly."

FHS extends a sincere welcome to you, Jackie Cotton.

## Mums Net \$71.50

(By Mary Cogdell)

The total of mums sold for the 1958 football season was 143. This meant that the senior class earned \$71.50 as they received fifty cents from each mum sold.

The beautiful mums worn by fortunate girls at the football games served a double purpose this year. Not only did the mums serve as gifts from boys or husbands to their girl friends or wives, but also, the mums earned money for the senior class. The mums could be sold with either an "F" or a football man, or a football boy's number on it.

## Cotton Quotas Referendum Is Slated Dec. 15

COLLEGE STATION, Nov. 19—How farmers vote in the cotton marketing quota referendum to be held throughout the Nation's cotton-growing areas on December 15 will determine whether quota penalties will apply, the kind of allotment program in effect, and also the level of price support for 1959-crop cotton. The referendum therefore is of vital concern to every cotton grower, says Searcy M. Ferguson, Chairman of the Texas Agricultural Stabilization and Conservation Committee.

The marketing quota program will be in operation for next year's crop, the chairman explains. If at least two-thirds of the votes cast in the referendum are in favor of the program, in that case, farm operators will have an opportunity to elect a choice between (A) complying with their "regular" farm allotments—with price support available at not less than 50 per cent of parity for the 1959 crop of upland cotton, or (B) complying with an increased farm allotment 40 per cent of parity lower than under the first choice; quota penalties will apply to any cotton produced in excess of the chosen allotment.

If more than one-third of the votes are against quotas, there would be no quota penalties, only the "regular" allotments would be available, and the price support level to eligible growers would drop to 50 per cent of parity.

All farmers who were engaged in the production of upland cotton in 1958 will be eligible to vote in the referendum.

The referendum will be held between the hours of 8 a. m. and 4 p. m. on Monday, December 15.

### Garden Club Will Re-Schedule Meet

# YOUTH COUNTY AGENT

(By Cecil Lewis, County Agent)

**WHEAT DISEASE:** There have been some fields in the county showing up with leaf rust already. This can cause decreased yield next spring. Concho, Ponca, and Crockett have resistance to leaf rust. This may be very important to late planted varieties. If you have not already sowed wheat it might pay you to investigate the possibility of these varieties. Ponca is not highly recommended for dryland but is a good producer under irrigated conditions.

The treatment of seed with a good fungicide will prevent losses from tinking smut. The use of insecticides can prevent seed losses from wireworms.

**FERTILIZERS:** The use of fertilizers on grain sorghum stubble will be a good practice when planning to follow with cotton. For every ton of stubble we need about 20 lbs. of actual nitrogen to decompose the stalks. The average grain sorghum field contain from 2 to 2 1/2 one half tons of stubble per acre.

Cotton burrs applied at the rate of four tons per acre and an application of 45 pounds of actual nitrogen gave an increase of 211 pounds of lint cotton per acre over the same treatment without nitrogen at the Lubbock Experiment Station.

THE FLOYD COUNTY HESPERIAN

Published by the Hesperian Publishing Co. Inc., at 212 South Main St., Floydada, Texas. HOMER STEEN, Editor THURSDAY, NOVEMBER 20, 1958

Established 1896 by Charles... Entered as second class mail post office at Floydada, April 10, 1907 under the Congress of March 3, 1879.

EDITORIAL VIEWS AND COMMENT

**Demand Is for more of everything from every quarter** Demand for more, in particular, on the citizenship by the government. By "government" we do not mean necessarily the federal government as such, but government in all its phases. As for instance the president has sent up a trial balloon for more gasoline tax for the Primary Road System which is already taking four cents a gallon. If the right response is heard then there'll be backing by the administration for added gas tax for the No.1 Road System.

**From another quarter**, this time the same old story, from the schools of the state, which are now in process of shaming us for being 25th to 48th in everything, and we ought to dig up more. We do not anticipate that in our life-time we will be rid of shaming from the professional educator. The taxpayers will never get that much money together. It used to be the educator took what we felt we could give him and did the best job he could with the youngsters we turned over to him. This is out-moded, totally out-of-date now. The push is on stronger than ever in Texas. The taxpayers keep being ashamed, keep digging up more and more, and still stand in that old 37 bracket. We're beginning to be ashamed of being ashamed. Most likely we couldn't continue to brazen it out, but right now is a good time for all agencies which operate at the state level to take a hard look at the state's budgetary problems and let up a bit. At least let us get our second wind.

**Right About That.** A dispatch from the High Plains Station of the Texas Research foundation at Halfway this week quotes Harold Hinn, Chairman, as saying the use and conservation of water is the "number one" problem of the irrigated high plains. A water study and an educational program to warn the wasteful against piling up unneeded water on overirrigated land, if successful, would conserve at least half of the water now poured out on the lands which overlie the Ogallala Sands.

**The two holidays** that Floyd County people seem to enjoy most — Thanksgiving and Christmas — fall on Thursdays. Next week comes Thanksgiving. It is a day on which many families dote. Their get-togethers are big events in their calendars of kinship. About the only person we can think of who does not appreciate Thanksgiving in this area is the stranger, who finds the going rough, some years more than others. Cafes and eating places have found a Thanksgiving Day meal hard on the help, who'd like to be home, and unprofitable because too many fine, fat turkeys are laid out on Thanksgiving tables at homes. The stranger is left to shift for himself. He wanders from cafe doorto cafe door to find them closed. His number may be few but he will be a hungry person just the same.

**At The Hesperian office** we generally have to shift around somewhat to make way for the holiday in the mail service. To get distribution in mid-week we find it a must to

mail the newspaper on Wednesday, 24 hours ahead of the normal schedule, since such a heavy per centage of our distribution is handled through the mails. It is good in some respects, bad in others, but a case of must at any rate. To be explicit, next week we issue on Wednesday morning.

**Has Inertia Got Us?** So many dogged things need being done by Floydada people that are well within their means, and yet they don't get done. We're used to it, sorter like was said of the Negro who was about to be electrocuted. One of these things is the enlargement of the town's boundaries. The municipal bounds of Floydada are smaller than they were 20 years ago. Meanwhile, other, more ambitious, more heartless, if you want to call it that, cities are taking in everything far and wide. You can't see the top of the Santa Fe building from the outer rim of Amarillo, and at Houston one stands by the city limits sign out in the brush and wonders which direction the Shamrock Hotel might be.

**Also, Standing Joke**, at Lubbock, is the offer to bet that farmland in the City of Lubbock, will produce more cotton than all the rest of the county. Widening the city limits picks up a few more residents here and there, increases the taxable values and adds to the "estimated population" sign which a community can wangle out of the State Highway Department. It all adds up. The more "ambitious" a town, the more territory it takes in. By that standard Floydada is not a very ambitious community. It will be apparent what we should have done in 1958 when 1960 rolls around. The census people count only those which are inside the corporate limits. Incidentally only those which are inside the limits who can be profitably counted. In the last census The Hesperian proved this.

**What we did**, when we found out the town was being shortpotted, was to get supplemental census made. This doesn't appear in the figures that appear on the sign posts, but it does in a supplement which nobody ever sees. More than 150 names are in this list, as we recall it. Uncle Sam doesn't always get an efficient census job done, as this instance proves. But at that he can't send census takers outside the city limits to take the names of people, some of whom have lights and water and the various and sundry things that go with being inside the corporate limits. That it is profitable to have property adjacent to an incorporated town has been proven time and again. A property owner does share in the profit of being close to a thriving community.

**Save Every Pound.** It might be something to think about, if a cotton raiser is reminded that good, good cotton years do not generally pile up on each other. And, as you've often seen, a cotton man turns under or wastes much of his late staple, then turn around and plant some more on the same ground that may or may not turn out so good. Less of that is probable this year with good staple in abundance and the market paying a premium for it.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

The heavens declare the glory of God, the firmament showeth His handiwork. And so it is this lovely morning of November 3, 1958. The sun shines with a yellow glow, the skies are a soft blue, the long grass of the fields is white. It will be a fine day to harvest cotton and grain. It always gives me a thrill to see the maize going into a big hopper. Once we had to cut each head by hand and it was pretty slow. And the cotton that falls into the trailer, not touched by "human hands" things have changed since this farm woman left the farm!

We enjoyed the tricks and treats Halloween night. It was fun to make each ghost and goblin happy with some candy and what have you. But there was one that came that did not hold out a paper sack for a treat. He had tricks up his cold sleeve and intended to use them. Next morning I found out what this ghost had done. He had blackened the canvas, bit into the fig leaves, thrown a mourning shroud around the dillies, and the tomato vines were bits of black rag. The goblin sprinkled the leaves with white, put it on tops of bushes and cars, but many farmers welcomed the trick; they got as the cotton leaves will soon be out of the way, thanks to a Halloween prank of nature.

Saturday Margaret Neff and I made up the winter supply of chutney. This always is a pretty hard, messy job and when the delicious tomato-pepper-onion-cabbage-spice-and-vinegar mixture is sealed into a clear glass jar, one can sit down and gloat over the day's hard work. This year we got a good "scald" on our mixture and are rather proud of it. Our son likes very much and we are always happy to make him a year's supply.

Also we made quince jelly which is so clear you can read a paper on the other side, and many jars of quince jam is in our supply. Mrs. Tomlinson near us had quince trees. We liked them very much and set our own quince tree which bore this year's supply.

The quince trees do well here and many would do well to set out a tree for future jellies and jams. So this one day's hard work wound up the canning for the year of 1958 and at last we can look at an empty fruit jar and not feel that it is our bounden duty to rush out and fill it.

One of the delightful things about going away from home is seeing someone you know. Even a next door neighbor makes us feel good when down to our toes. So seeing Mrs. Ernest Kendrick in a Lubbock store gave us pleasure and we got to ask about our many friends in Floydada.

Dale Wayne had a birthday Friday, Oct. 31, we tell him the witches brought him to us. If they did we should be very thankful for Dale is a fine boy and we are very proud of him. May you have many, many happy birthdays, Dale.

This is wash day with me and here I sit typing this column as the clothes are being washed in the automatic. Most of my life washing has been a major job. I washed on the rub board, boiled my clothes in a tub on the stove or in a big black pot in the yard in summer. I wrung them by hand, leaving in much water as I could never wring anything very dry. I put them in a cane bottomed chair and took it to the line where I hung the dripping clothing. In the winter the things would be freezing sometimes by the time I got them on the line and so would be my hands. All day I would be chilled and only late in the night would I get really warm again.

But somehow I never minded wash day so much. I liked to see the clean clothes blowing on the line and smell the wonderful fragrance as I gathered them in. I was one of the very first customers the Helpy Selly laundries neighboring towns had and for many years I liked to go there to wash. I would still like to go, meet my friends and talk while we wash, but as I cannot get around so well the automatic does the work for me and I am thankful that all my life I have had the blessing of clean clothing for me and my family.

I opened the door yesterday to a young teen-ager who said he wanted to sell me a mium to wear to the Ralls-Crosbyton football game. I told him I did not think I would buy one. He began talking for he had a wonderful gift to give, as we say. He looked me over and said, "Lady, I think you are making a grave mistake, the flower would extenuate your complexion very much." But still I did not buy, thinking maybe my complexion must have always lacked the extenuating he seemed to think so vital. What if the word did not fit? He was engrossed with his selling. "Every woman no matter how poor," he went on, "needs some beauty in her life, maybe a little child running around on the grass, or tearing up the furniture inside. She needs beauty." And he looked at me as if to say, you certainly do need it! Still I did not buy and he turned sadly and went down the walk saying, "Lady, I think you have made a great mistake."

bridegroom. Others in the receiving line were Mrs. G. R. Strickland, maternal grandmother of the bride elect, and Mrs. E. H. Bahrman and Mrs. H. M. Shofner of Muleshoe, grandmothers of the prospective bridegroom.

Vanda orchids, flower for which the bride-elect was named, framed the decor for the betrothal announcement. On the tea table laid with a white cut work linen cloth, with silver appointments, was a "Tree of Life" bedecked with name cards of the future bride's and bridegroom's families of three generations, with the top branches bearing the name cards of Vanda Dale Carter and Keith Gale Bahrman, and their wedding date. Branches of the tree were filled with Vanda Orchids and Orange blossoms and studded with simulated pearls and rhinestones.

At the register "Vanda" Orchids were floated on lily leaves and centered with a crescent of wedding bells stemming from the center.

On the buffet white tapered were lighted in antique candelabras and centered with an antique filagree

## We Wonder Why

(In memory of Mr. W. U. Riggs. He was a hard-working, God-fearing man. He was my friend.)

We wonder why people come into our lives, and then because of circumstances they stay awhile. They serve a need within the days that move so quickly by, and then are gone beyond our reach.

We often wonder why God only knows the reasons that we meet and share a smile.

Why people come into our lives and walk with us a mile.

Leola M. Daniel.

Mrs. Jack McIntosh presented a humorous story of Thanksgiving which was enjoyed.

Rescue of nineteen men from north Alaska's deepest mine last week has been called a miracle. And in many ways, it is. Who among us could have seen the ordeal of being buried alive—12 thousand feet underground—did twelve men for seven days and seven more for nine days?

Yet as in many of the now-legendary miracles of two thousand years ago, there are practical explanations; a downdraft cleared the air of poisonous gas; food from their lunch packets lasted four days; they called upon their training in mine disaster survival to stay alive.

The miracle lies in the tremendous will-to-live which kept these men going through long dark hours, in cramped quarters, with so little hope. But even greater is the miracle of unselfishness among rescue squads, who wouldn't give up the search, risking their own lives in what must have seemed a hopeless cause. The trapped men, we might say, had nothing to lose by hanging on. The men in the free air outside could easily have convinced themselves that they had done all they could.

In these days of greed and lawlessness; of hate between mother and daughter, husband and wife, father and son; of luxury living and mixed-up moral standards—this is a miracle indeed.

Most of us are just ordinary folks, neither vicious nor heroic. We want to believe in the good in mankind; we want to practice it. Such an example of determination and selflessness, among humble people who still work and live in an eighteenth-century state of frugality and danger will remind us of the human values that count.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford  
TEXAS PRESS ASSOCIATION

AUSTIN — Texas state colleges and universities should concentrate on doing the best job possible of one thing — higher education. To do this, some other things — like student medical services, intramural athletics and certain extension services — will have to be cut loose from tax support. This is the gist of a report to be presented to the next Legislature by the Commission on Higher Education. Reached after prolonged study and discussion, the Commission's recommendations, if adopted, would be a significant and far-reaching step toward directing state spending on higher educational institutions toward "pure academic pursuits."

Commission will ask the Legislature for the largest appropriation in history, about \$67,000,000 annually.

for the state's 18 tax-supported colleges and universities. This would be \$10,000,000 a year more than is presently provided. Extra money would be used to provide more teachers, better faculty salaries, improved library and research facilities.

On the other hand, the Commission turned thumbs down on the conducting of a number of extra-curricular activities at state expense. Things which the Commission recommends the Legislature not include in the higher education budget: (1) intramural athletics, (2) free or low-cost medical services for students, (3) the 17-year-old Cotton Research Council and the Rodent and Predatory Animal Control Service, (4) a bureau of business research at Texas Tech, (5) Texas A&M's Texas Transportation Institute and (6) operation of museums as a part of five schools.

**Legislative Horizon** — Beginning of the 56th Legislature is a little more than seven weeks away. Each week brings forward more touchy problems the lawmakers will have to wrestle.

Some are new; some have been chewed over in many previous sessions. Examples:

**CITIES vs. CITY EMPLOYEES** — Texas League of Municipalities recently voted to ask the Legislature to step out of the field of regulating city employees' salaries, hours and benefits. It's a purely local concern said the League. State Association of Firefighters and Police Officers Association took a dim view of the proposal. Executives of the two groups met in Austin, promised a fight against "legislation which would erase all the progress of the past 20 years."

**FARM IRRIGATION** — Texas Farm Bureau delegates voted to ask the Legislature to make it a little easier for them to get a permit to use small ponds on their property for irrigation. At present, farmers may dam up to 200 acre feet and use it for household and domestic purposes. To use it for irrigation they must get a special permit, reportedly difficult and expensive. Irrigation from farm ponds brought

a hot contest between city and rural forces during the water legislation debates in the first special session, fall, 1937.

**TRAFFIC SAFETY LAWS** — Texas Safety Association, plus other groups, are pushing for legislation aimed at reducing road fatalities. Points in the program: (1) allowing for the results of "drunkmeter" (chemical tests for alcohol) tests to be introduced in court as evidence in driving-while-intoxicated cases, (2) stronger traffic law enforcement, (3) provision for enough highway patrolmen to do the job, (4) changing speed laws to meet standards of new roads, (5) improved traffic courts, (6) a uniform drivers license law and (7) universal driver education.

**MEDICAL PAYMENTS** — People approved a constitutional amendment to allow for medical aid payments to persons who receive state welfare checks. Next Legislature will have to pass a new law to put this into effect. Question is, how big should payments be? Other states average \$6 a month for adults, \$3 for children. Such a scale in Texas would cost an estimated \$8,000,000 a year.

**ADVERTISING** — Voters also approved an amendment allowing for state-supported advertising of Texas' advantages. But margin of approval was narrow, foreshadowing some wrangling over how big a thing the program should be.

**More School Days** — Less fishing and more studying time may be in the offing for Texas school students. State Board of Education voted to recommend to the Legislature that the present 9-month school year be extended to 10 months. Earlier this month the Hale-Aikin study committee decided to recommend 9½ months of schooling.

A spokesman for the Texas State Teachers Association said he thought teachers were generally favorable to a longer year. More will be known after TSTA has its annual convention in Fort Worth over the Thanksgiving holidays.

Among groups that already have expressed opposition are the operators of summer camps and resorts. A longer school year would mean less time for them to be in operation. Other questions sure to be raised are the extra costs coming at a time of financial strain and the possible ineffectiveness of study during hot weather weeks.

But probably the sharpest division of thought will be between parents (for) and children (against).

**Credit Rates Upheld** — State Insurance Department's drastically reduced credit insurance rates are back in effect again.

Last spring the Department issued an order which, in effect, cut in half the legal rate that could be charged for credit insurance. Cosmo Ins. Co., Amarillo and others sued in an Austin district court and obtained a court order preventing the Department from enforcing the new rule.

But the Fourth Court of Civil Appeals reversed this. It held that Cosmo was entitled to a court hearing as to whether the new rates were just and reasonable. Meanwhile, they're in effect.

**ICT SUIT RE-FILED** — A suit charging scores of well-known persons and financial institutions with a share of the blame for ICT's ill-fated history has been re-filed in an Austin district court.

It was originally filed last June when V. F. Taylor was receiver for the case. Then there was a complicated shake-up and turnover in the liquidator-receiver's office, bringing in an almost all-new team.

Now the suit has been filed again with the name of the new receiver, C. H. Langdeau, substituted on the papers.

This probably is the granddaddy of all damage suits. It asks \$15,000,000 damages. Defendants include such renowned names as Lloyds of London and Republic National Bank of Dallas.

**DISPATCH TELLS OF CLYDE SNELL'S MILITARY PROGRESS**

FORT EUSTIS, Va. (AP)—Pvt. Clyde H. Snell, son of Mrs. Elizabeth Armstrong, 312 Kentucky St., Floydada, Tex., is attending the utility and cargo tandem rotor helicopter repair course at the Army Transportation School, Fort Eustis, Va. The course is scheduled to be completed Nov. 21.

Snell entered the Army last February and received basic combat training at Fort Carson, Colo.

The 21-year-old soldier was employed by the Oden Chevrolet Company in civilian life. A 1935 graduate of Floydada High School, he attended West Texas State College.

## Floyd County 14 Years Ago

From The Hesperian Nov. 23, 1944

Information that their son, Dr. Frank C. Harmon Jr., had been promoted from a lieutenant to a captain, was received here this week by his parents. Dr. Harmon has been with the Army Air Corps, stationed at Kearns, Utah, the past year.

Chester Parrish of Cone is in Lubbock General Hospital with a broken leg and four broken ribs received Sunday when a truck sideswiped his car.

PFC Harold Berry, son of Mr. and Mrs. C. L. Berry, has been recalled to Australia for the past several weeks after the strenuous campaign serving with the infantry of the U. S. Army in Guadalcanal, New Guinea, New Britain, and Bougainville.

C. O. Spence, 56, knocked down and dragged several yards by a hit and run driver Tuesday night on the highway three miles west of Ralls, is recovering in Pitts Hospital and is said to be doing well. Brought to Floydada by Roy Edmondson after being left for dead, Spence had a bad gash in the top of his head, a chipped place on a leg bone, and numerous abrasions and bruises on the left side of his body. His condition is good compared to the loss of blood he suffered, the doctor said. Spence was among three persons hit by the fleeing auto when they stopped to render aid at a wreck.

Donald (Wimpy) Thomas, who has been in the ground forces of the U. S. Army Air Corps for more than two years, serving a major part of that time in India, is in the US for a rest and is due home soon, he writes his sister, Mrs. J. A. Arwine.

David Flowers, seaman first class was here a short time Monday in company with his wife and little son of Amarillo, guests of Mr. and Mrs. S. W. Ross, Mrs. Flower's parents. Rev. and Mrs. Phil Gates received a wire Tuesday from their son, Joe W. Gates, seaman first class, who has spent the past 20 months in the Navy, saying he will be home shortly for a visit.

Master Sergeant Truman E. Dunn, son of Mr. and Mrs. Hugh L. Dunn, has been awarded the Bronze Star medal while serving as a Flying Fortress crew maintenance chief of the 401st Bombardment Group. In part the citation read "For meritorious conduct in the performance of outstanding service as crew chief of heavy bombardment."

Mrs. Felt Patterson, who underwent major surgery in Plainview Hospital Tuesday had rallied yesterday and was resting comfortably, Mr. Patterson said.

Cpl. Warren Doyle Walls, son of Mr. and Mrs. E. W. Walls, has landed safely in England and from there to France, said word which reached his parents this week.

Fred Jones, whose new army station is at Madison, Wis., where he is stationed, is at home this week with his family and is due to leave this Saturday.

and victory showed that the team is ready for the upcoming season. Quarterback Rodney King was named as the team's leader.

Bill Patterson was named as the team's leader.

The remainder of the first period was all defense with the teams exchanging punts mostly in Bulldog territory.

As the second stanza opened Williams took a Tahoka punt on his 45 and returned it to mid-field. The Winds then started an offensive which netted them a TD when Bill Gilliland plunged over from the one. The try for point failed and the score was 6-0.

## WAIT 'TIL NEXT YEAR 'Winds Hopes Look Brighter For' 59 Season

(By Kenneth Rimmer)

The song of the defeated football fan is always "Wait til next year." Though the 1958 season brought nine wins and only one loss to the locals and is considered a very successful season many of the faithful are looking ahead to see what the future holds.

Of course some boys move away, others fail to pass school work and many things happen to the plans of the coach between November and August.

With a crop of fine junior high, freshman and sophomore lads coming on the future for Floydada is all looks promising.

Here is what the May graduation will do to schools on the Floydada schedule.

Post Ant-tops will graduate seven from their 1958 team. These include Jerry Windham, back; Charles Morris, back; Sidney Hart, back; and linemen Herbie Hays, Billy Williams, Victor Hudman and John Brown. The Antelopes won 3 and tied one in 1958. In 1959 they should be stronger.

The Slaton Tigers were the team picked to win the district in 1958. They only broke even in loop play finishing third, however. The Tigers lose 13 men from their squad by graduation this year and 1959 will find them without the services of Pat Adamek, Howard Limper, Wayne Linder, Sam Wilson, Dale Gordon, Wayne Banks, Robert Hurst, Mackie Klattenhoff, Linder Maeker, Derry Edwards, Billy Baimanno, Jerry Hogue, and Ronald White. The Tigers suited out 34 boys for their final game of the 1958 season. 1959 does not promise to be an improvement for Slaton.

The defending champion Spur Bulldogs will return all but six of the 26 boys they suited out against Floydada this year. The six seniors however, were big wheels in the Bulldog team and include the names of Joe Copeland, Ernest Wilson, Kenneth Gilcrease, Don Kidd, Kent Morgan and Kenneth Guit.

With another year on their younger legs Spur should be strong again, if some boys fill the above named shoes. The Bulldogs always have winning ways when the district race hits the November stretch.

The Floydada Whirlwinds who finished in the runner-up spot may be earmarked for that position again next season. The Winds lose nine seniors, Bill Patterson, Leon Williams, Edward Hartman, Rex King, Johnny Fred Brown, Dale Brown,

Arils Powell, Don Taylor and Jerry Crawford.

The Whirlwind roster normally carried around 27 members which would leave some 18 returnees plus some fine sophomores and freshmen from the B squad.

The Tahoka Bulldogs promise to be an improved ball club next year as they lose only seven members of their team who are seniors. Of these only four saw regular service the other three were on the injured list or were reserves. From the list of 40 squaddies carried by Tahoka this will give them 33 returnees if all pass their work in school and none move away. Tahoka finished in front of Post to stay out of the district cellar.

Tahoka seniors are Robert Cloe, Jerry Hays, Billy Tomlinson, Weldon Calloway, John Hegl, David Bray, and Jerry Adams.

On the intersectional schedule in 1959 will be Abernathy in place of Wellington. Abernathy will lose a big part of their starting team next May but are always strong. Olton Mustangs lose only seven from a very good team. Paducah's Dragons graduate seven football boys six of which were regulars.

The Tulia Hornets have 13 seniors on their 1958 team which means they will have to rebuild next year.

Ralls an always tough opponent will lose several of their team. They too will have some holes to fill.

The Whirlwinds nearest neighbor and opponent in the annual battle for the county championship, Lockney, will lose the services of 15 team members who are seniors.

Heading the list are Bill Race, Duane Griffith, Byron Brock, David Roberson, Stephen Handley, Ricky Duvall, Ronnie Harris, Ronnie Thornton, Alvin Hayes, Milton Mickey, Jimmy Minner, Jackie Don Calahan, Larry Eiam, Lesley Wilkes, Wyman Cooley.

Lockney will probably be the hardest hit team in the area and to replace this many boys will indeed be a problem.

Mr. and Mrs. Weldon Bigony and family of Lubbock were guests Sunday of his sister, Mrs. Sam Puckett.

Tahoka trying desperately to get into the scoring column had driven to the Floydada 34 with a minute and 20 seconds on the clock before halftime. A fumble at that point was recovered by Henry Self and the Whirlwinds took to the air. A 60 yard pass and run from Teague to Vickers was nullified by a penalty. A pass to King got 34, pass interference called on Tahoka defending King got 18 and then a pass to Vickers got 16 and a TD all in a minute's time.

This wound up scoring for the night with Floydada leading 12-0.

In the third quarter Floydada put on a long drive which went to the Tahoka 6 yard line where Rex King took a 12 yard pass from Teague. The drive died however when a bad pass from center went back to the Tahoka 39. The Winds regained the 23 on fourth down where they lost the ball.

Floydada held the visitors to 7 yards and they punted to the Winds 42.
