### THE FLOYD COUNTY HESPERIAN

Published by the Hesperian Publishing Co. Inc., at 212 South Main St., Floydada, Texas HOMER STEEN, Editor THURSDAY, JUNE 25, 1959

Texas, April 1

### EDITORIAL VIEWS AND COMMENT

Almost Onion Time. The onion crops of the section, like the wheat and cotton crops, have been beseiged by hail, rain and insects. Running thus through a gauntlet of enemies, the crops have come through in varied conditions and widely varying states of maturity or near maturity. In some of the better fields, where poor sets, thrip, hail and electric winds, have failed, the thirteenth blade was coming through last week-end, hailing the imminent arrival of the harvest. The harvest this year is due to spread over several more weeks than last year, due to widely varying stages of maturity in the fields. That's what we hear.

The Texas Legislature has to make up its collective mind, one way or the other, between now and September 1, or all the operations of the state's various agencies will come to a grinding haltunless. Unless a way is found to finance the state's operations on credit. Determination of some of the giant industries not to be the victims of the new tax levies and their insistence on the sales tax is at the bottom of the disagreement in the legislature. This disagreement among legislators is proving quite expensive.

At present rate of progress authorities will do well to get the Floyd County road building program under way and ready for a letting by next spring. Funds provided two years ago by the voters, who have paid taxes and already retired two years of interest charges, have failed to get any action of any kind, except on paper. Last report The Hesperian had, the something than 40 tracts south of Floydada, touched by Highway 62, have been valued by the state and county. Of these three have been actually purchased and paid for, while approximately 40 owners have been contacted and agreement reached. It is definite the county will be unable to agree with two

To The West, on Highway 70, so far as we have been able to learn, few of the property owners have been approached and no actual purchases of land for the new highways had been made last week. There seems to be no prospect of making any speed. It may be that somewhere in the state the highway acquisition plan, by which county and state are partners, is working out so that they get the land and get highways built, but so far in Floyd County the plan is not working whatsoever.

On of the bottlenecks is proving up titles to the land. The State Highway Department demands title insurance before a piece of ground is acquired. This calls for exhaustive title examinations. In this connction manpower is lacking. There are not enough lawyers to take care of the big load of added legal work. People are finding that passing half the cost of right of way to the highway department is not an unmixed blessing. A good many of the greybeards may get to prove up on title to mansions in the sky before the highway department gets around to proving up on its title to highway right-of-way.

The way the plan is working out on Highway 62 there are now nearly 40 pieces of ground on which agreement has been reached with the property owners. For everyone of these there must still be worked out the title insurance, even though the property owner and the county are ready to go. The property owner is ready to give up his land, the county is ready to pay. The other two owners, with whom the authorities are unable to agree could be dealt with under condemnation proceedings and let juries decide what the

NOW IT'S THE LOW-PRICED FOUR!

payments should be. But the third party (the state) has injected a note into the proceedings. And it appears local authorities are to learn what it means when "higher authority" takes over.

What's The Excuse Now! During World War II, under the pretense of discouraging unnecessary travel, the Congress passed and the executive approved a bill levying a temporary federal excise like a crutch. tax on passenger traffic on airlines, Yet by the time buses and railroads. ### FOLLOW RECIPES CLOSELY UNTIL cover. When apricots are tender add 1 cup sugar and mash with a LEARNED THEN IMPROVISE TO SUIT TASTE potato masher. Cool: add about tablespoon to each circle of

first time or two you make it; then alter it to suit your own taste. This is the principle followed by Mrs. Warden Mayes.

But in order to improvise in cooking, one must have developed common sense in the kitchen Mrs. Mayes' culinary experience began in childhood, when her mother guided her through the basic steps of food preparation. At sweet 16, she was beginning to master yeast breads, which remain her favorite area of cooking.

Back home in Dougherty, her baked bread almost every day and Mrs. Mayes would be folwing her footsteps today if she had a deep freeze, she states Even so, she frequently make yeast doughnuts and rolls; both recipes, which have been in her for years, are shared recipe departs from many in that hers calls for two packages of yeast instead of one. Her pre ference is for a faster rising roll.

Another tried and true recipe is the one for Fried Pies. A newer addition to her collection is the 24 Hour Salad, which she prepared for the salad luncheon enjoyed Tuesday by First Methodis WSCS she is their public relations chairman. She is a member of the Sylvia Lamun Circle.

Her enjoyment of cooking is trait prized by her husband, who is a chemical engineer for Cosden and their sons, Brian, 6, and two year-old Rex. She devotes some of her hours to playing bridge with a small group, swimming and making part of her ward

Try Mrs. Mayes' recipes: 24 HOUR SALAD 2 cups white cherries, halved

and pitted 2 cups diced pineapple

2 cups orange sections 2 cups quartered marshmallov

2 tbsps. sugar One-fourth cup light cream Juice of 1 lemon

1 cup heavy cream, whipped Combine drained fruits; marshmallows.

Beat eggs until light. Gradually add sugar, cream and lemon ice. Cook in double boiler until thick. Cool. Fold in whipped cream Pour over fruit and mix lightly Chill for 24 hours.

Chevy Gives you Smarter Style Today...

pendent experts and from facts and figures that are now a matter of record. POPULAR SCIENCE sums up Chevy's unmistakably modern style this way: "The fact is, in its price class Chevy establishes a new high in daring styling . . ." This is one more reason your new Chevrolet will bring a higher allowance at trade-in time, as Chevy has over the years. A look at last year's used car prices\* shows Chevrolet averaged up to \$128 more than comparable models of the other leading low-priced two.

\*Guide Book figures of the National Automobile Dealers Anon.

PLUS 5 MORE BIG BESTS OVER ANY OTHER CAR IN CHEVROLET'S FIELD!

Best Brakes. Chevy showed the best brakes of the leading low-priced three in repeated highway speed stopping tests conducted by NASCAR.\* No wonder. Chevy's brakes, built for up to two-thirds longer lining life, are the biggest in its field.

Best Engine. Every motor magazine has given Chevy's passenger car and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price."

Best Economy. No doubt about this: a pair of Chevrolet sixes came in first and second in their class in this year's Mobilgas Economy Run-getting the best mileage of any full-size car.

Best Room. Dimensions reported to the Automobile Manufacturers Association make it clear. Chevy's front seat hip room is up to 5.9 inches wider than comparable cars.

Best Ride. No doubt about this. MOTOR TREND magazine sums it up this way: "... the smoothest, most quiet, softest riding car in its price class."

NO WONDER MORE PEOPLE ARE BUYING CHEVROLETS IN '59 THAN ANY OTHER CAR! CHEVROLET

Imagine! You actually playing music in minutes-and with no lessons or experience whatsoever.

With the exciting Magnus Electric Chord Organ, the real musical instrument everyone is talking about, you will be playing all your favorites from classical to jazz. You needn't know one note from another though they're there for those who do. All you do is match the numbers in the Magnus Song Books with the numbered keyboard.

You, yes you merely press a key-and out comes MUSIC! Real music. Full timbered, rich, mellow and wide of range . . . vibrant with the authentic "breathing" of organ tones and overtones, becaus Magnus uses the same principle of passing air over reeds as you find in the mightiest church organs.

Look for Magnus . . . for only Magnus is unmatched at its price for quality, cabinetry, and tonal beauty!

# it takes TWO to TANGO

Yes, sir, he's all dressed up but he can't Tango . . . . not without a Partner.

It's the same with your business. You may be all dressed up in a fine, well-stocked store, but without customers you'll have to 'TANGO' all alone.

This newspaper can help you find those necessary partners. So why don't you really TANGO with ads in this newspaper?
