'Long Toms' on Leyte

While crewmen hold their ears against the impending explosion, American artillerymen poised to cut loose with a battery of "Long Toms" at Carigara Bay, Leyte, P. I. Note the "laundry" strung up in the foreground.

The dinner was served by members of the Friona Women's Club at the club house, Thursday evening.

Harrison Beene, living about two miles southeast, was in town Monday afternoon. He stated that he is having considerable difficulty in combining his row crop owing to light showers of rain and heavy frosts, which keep the grain damp until late in the forenoon. The stiff wind on Saturday caused a lot of the maize to fall.

Cpl. Walter Jasper arrived here the latter part of last week to spend his furlough with his parents, Mr. and Mrs. T. N. Jasper.

38th Christmas Seal Campaign Now Underway

The American People this week were urged to enlist in the fight against the powerful home front enemy — tuberculosis — by the generous purchase of Christmas seals.

Supporting the drive which opened Monday, President Roosevelt stated this week that this country "cannot afford to permit the strength of its people to be sapped by the insidious disease, tuberculosis."

The President's statement follows: "Tuberculosis is today taking a tremendous toll in the war-torn countries of Europe and Asia. We must not permit this to happen here.

"Knowing that tuberculosis has increased after all past wars, we must act now to prevent its spread. We can do this by joining with the medical profession and with official and voluntary agencies in their fight against tuberculosis.

"It is none too soon to act. I am informed that last year, tuberculosis took 56,000 lives in the United States and that the death rate from the disease increased in 21 industrial states, even though the rate in the nation as a whole declined slightly.

"Tuberculosis is a communicable disease, but it is also a controllable disease. Cooperation between the American people and the agencies devoted to spreading knowledge on the prevention of tuberculosis will result in victory against this great menace to mankind."

Veteran Night Watchman Resigns After 13 Years on Job

After thirteen years, six months and two days of faithful, continuous service as night watchman for the business portion of Friona, C. M. (Charley) Jones has handed in his resignation.

During these many years Charley has had many and varied experiences in the line of his duty as an arm of the law and as protector of the business and property interests of the people for whom he worked.

Many is the wayfaring, homeless and night wandering man and boy, and sometimes a woman or girl, who having no shelter for the night, nor food for the body, but yet not guilty of any crime, whom he has helped with shelter and food and kindly words of admonition, and sent them on their way with thanksgiving in their hearts.

But nevertheless, he has given to all law violators, that came within his observation, to understand that the majesty of the law must be sustained and respected while within the borders of his jurisdiction.

While serving as night watch for the city, he has during most of the time also served as Deputy Sheriff and as a result, a comparatively few depredations have occurred in Friona, and still fewer violators have escaped the restraining grip of the strong arm of the law within our borders.

While being firm in enforcing his authority, he has always tempered his justice with mercy for the erring one, and when it has been necessary to place a culprit within the restraining influence of the county bastille, Charley has never attempted to make his lot harder than was actually necessary.

As evidence of his kindly attitude this writer is prepared to give personal evidence of such, for on many occasions, when Charley has found me down town in the dead of night after all business places were closed, he has come around with his car and picked me up and deposited me safely at my own front porch. And some of those nights were truly fierce as to weather conditions, being sometimes desperately cold and snowing and blowing fiercely.

During the first few years of his service, Charley was accompanied at all times and in all places by his faithful German Police dog, "Queen," who served him and accompanied him on his nocturnal vigils for about six years, when she mysteriously disappeared. Then she was succeeded by one of her off-spring named Kaiser Bill, who also served him for many years. The picture above shows Charley and Queen standing in front of the City Drug Store. Charley states that her courage and determination was unsurpassed by any human companion he might have secured.

Mr. Jones' official services to the people of Friona have been so long and so faithful that our people seldom, if ever, call for

Baptist Women Sponsor Two Xmas Prayer Meets

Instead of the usual all-day meeting, the Baptist women are meeting two afternoons this year to observe the Lottie Moon Christmas program, and season of prayer for Foreign Missions.

The meetings will be on Tuesday, Dec. 5, and Friday Dec. 8, beginning at two o'clock P. M. The theme for the week is "Justice to the Nations Through Christ." All are invited.

FRIONA WEATHER

The weather at Friona during the past ten days or two weeks has been changeable and variable. Those two words have the same meaning but they are different and they apply to the weather during the above named period.

Our weather has ranged from fair and mild to murky and decidedly cold, and we have had both still and windy days, with the temperature tumbling as low as 24 degrees, with one light snow and a few light showers, but no fall of moisture amounting to much.

On Saturday of last week the wind blew a terrific gale all day, beginning in the south and changing to a north wind in the afternoon.

Bake and Rummage Sale

Ladies of the local Methodist Church announce that they will hold a combined "bake and rummage" sale, Saturday of this week, Dec. 2.

The sale will be held at the home of Mrs. Howard Ford, on Main Street, north of the Plains Hardware and Furniture store. Proceeds of the sale will be used for church benefits.

the deputy sheriff or night watchman, when his services were needed, but simply called for "Charley".

It is seldom the fact that any man who serves his fellows as a law-enforcing officer for so many years, will have done so without incurring the displeasure or ill will, and perhaps the enmity of some of the people whom he has served, but if such be the case with Charley, those persons are wisely saying very little about it.

In resigning his position as night watchman of the city of Friona, Mr. Jones has not divested himself of all his legal authority, but still retains authority as Deputy Sheriff. He came to the Plains country and settled on a farm a few miles southeast of town, on the first day of December, 19 years ago, and he will continue to make his home in Friona. He is finding it difficult to accommodate himself to sleeping at night rather than in the daytime, but is learning to sleep fairly well during the latter part of the night, but Mrs. Jones, who has been his life companion for nearly a half century, insists that he arise and eat breakfast with her at the usual breakfast time, and that he be home for the mid-day meal at noon.

Legion Sponsors Xmas Gifts for Wounded Vets

The American Legion is sponsoring a plan whereby all inmates of Veteran Hospitals throughout the country may receive Christmas gifts, and have arranged it so all people who have a patriotic and sympathetic feeling for these unfortunate defenders of our country, may have the opportunity of sharing in this commendable work.

Anyone wishing to share in making the Yule-tide brighter for these sodder boys and girls may do so by purchasing a gift and leaving it at the City Drug Store here in Friona, and the entire collection will be taken care of by Pat Terry, who represents the Friona Post of the American Legion. All gifts will be forwarded to the nearest veterans' hospital, for distribution among the inmates. You will also be allowed to include a card or letter bearing your own name and address.

The time limit for doing this work will be Saturday, Dec. 2, which makes the time very short, so all who desire to send gifts must act at once. Mr. Terry has lists of suggested gifts which he will leave in the various stores in town, for the use of any who may be at a loss to know what to give. Remember, the gifts must be left at the City Drug Store not later than Saturday, of this week, Dec. 2.

Cpl. Harold Lillard and wife and small son, who have been spending a two-week furlough here with relatives, left Wednesday for San Angelo, where he is stationed.

Texans Won't Quit Fighting

Texans just won't quit fighting! Even the boys who have spent months overseas, been seriously wounded and returned to the states to recover their health, insist upon doing their extra bit for victory. Dozens of men in McCloskey General Hospital at Temple have volunteered to help with war fund and war bond drives, even though they have won the right to sit back and take things easy.

Two returned veterans, Capt. R. E. Erisman of Ennis and Pfc. Paul Trotter of Sherman, are touring the state now, putting on one-day "clean-up" campaigns for the National War Fund, helping local war chest workers put their counties over the top.

Captain Erisman recently returned from China, where he spent 13 months fighting the Japs with Chinese troops. He is recovering now from a serious illness contracted there.

"People at home who think the war is almost over make me sick," he told a meeting at Stephenville last week. "If they realized how many of our boys will be killed before victory finally comes they would think differently. The Japs are tough, and it will take a long time to whip them."

Trotter, a likeable lanky Texan, was wounded seriously at Salerno Beach, captured by the Nazis, and spent almost seven months in a German prisoner camp. He returned on the

While in the prisoner-of-war camp, he received athletic equipment, books and other recreational supplies from his Texas home-folks, through War Prisoners Aid, the National War Fund agency.

"I am making this tour to tell the people of Texas how much this help means to the men in Nazi camps," he explained. "Men would go crazy from sheer boredom if they didn't receive recreational equipment. Many close friends of mine are still prisoners, and I want to help them get the things they need."

He is helping plenty, too. At Stephenville, where the two heroes spoke, more than \$1,800 was raised in a one-hour public rally that put the Erath County War Chest well over the top. Yes, Texans fight, at any age! And their type of fighting, both at home and abroad, is going to do a lot toward victory in the war against the Nazis and Japs.

HOWARD FORD, Proprietor

This is the house that War Bonds will build in 1954

It belongs to Mr. and Mrs. George Jones who are working and saving in 1944.

Today, the Joneses are buying all the bonds they can afford. Today, they are adding a modest sum to the family bank account to have ready cash for emergencies. They hardly realize it now but they are not only helping their country by working and saving—they're building a home of their own, bond by bond.

Mrs. Jones says, "When we started buying bonds, we called them Defense Bonds, then War Bonds. Now we call them Home Bonds. We know about how much our new house will

cost and we worked out in black and white a plan of saving which will provide the money at the right time."

The architect's plans are yet to be drawn, but their plan of saving is well under way. And any home owner will tell you that a blueprint is just so much paper without money to make the hammers sing.

Help the nation's efforts to keep your living costs DOWN, the buying power of your dollar UP.

Wonder what houses will be like in 1954? Air conditioned, of course. Deep-freeze facilities. Heating by means of pipes in the floor or walls, perhaps. Dish washing and waste disposal units, refrigerators and ovens with glass doors. It may be too early to plan your home, but it is not too early to plan saving for it. Buy all the War Bonds you can afford, put them in your safe deposit vault, and let them work for you. Put something in your bank account regularly so that you will have ready cash for emergencies. And sit back and watch your house being built, bond by bond . . . dollar by dollar.

Hereford Ranch Program Meets With Enthusiastic Welcome from Soldiers

Real Western music and old time dances performed by experts brought an authentic "touch of Texas" to about 100 wounded servicemen at the Amarillo Army Air Field Hospital last Friday night when a group of Hereford people presented the program at a ranch party put on under the direction of Red Cross camp and hospital service. Mrs. P. H. Gilliland supervised preparations for the program, which was under the direction of Mrs. Essie

Cardwell, who is given credit for a top quality job in directing the dances, and arranging music. The servicemen arrived in wheelchairs, on crutches and canes—the only stipulation for attendance being that they must be "able to eat hotdogs"—the refreshments for the evening. The dance program included two square dances, New Shoes, the Schottische, and the old-fashioned round waltz; and

Across the world the sound of shells has ceased . . .
And quiet shrouds the battle-rubbed West . . .
The enemy has laid away his arms, and Death and Pain are done in France.
But I go on . . . for I must fight and kill . . .
And work and sweat . . . and hide and run . . .
For here the enemy is very much alive . . .
His bullets still are made of lead . . .
Their angry whispers still foretell of sudden death
For me and others crouched in slime and mud . . .
The end for us is yet to come . . .
And so we pray to God to give us strength
To fight and win . . . without the waste of Time . . .
And with His Will . . . to see our homes again.

OPA Crackdown On Gas Ration Abuse Promised by Bowles

Motorists who use gasoline illegally to travel to winter resorts face the loss of their mileage rations, the District Office of Price Administration advised today.

An enforcement program now in preparation to prevent misuse of rations provides that motorists who use their coupons illegally will be called before hearing commissioners who have the power to revoke not only the supplemental "B" or "C" rations, but basic "A" rations as well.

Administrator Chester Bowles pointed out that the millions of patriotic drivers throughout the country who are abiding by the mileage regulations and getting along on tight rations so that all may share fairly the scarce civilian supplies have every right to expect OPA to shut down hard on those who obtain gasoline unfairly for non-essential trips. "We intend to do just that," he said.

Each War Price and Rationing Board in Lubbock OPA District has been instructed to

New Publications of Interest to Housewives

Three new bulletins recently received at the county home demonstration agent's office should have special interest for many persons in Deaf Smith County, states Miss Sadie Lee Oliver, CHDA, who invites the public to come in and get a copy of bulletins in which they are interested.

The new publications include, "Plant Diseases in Texas and

review the mileage regulations governing vacation travel to resorts and reminded that they must deny gasoline for this purpose.

their Control," by A. A. Dunlap and J. F. Rosborough; "Better Milk for Better Meals," and a mimeographed sheet containing directions for the preparation and packaging of eggs for freezing. Concerning this instruction sheet, Miss Oliver states that it contains the latest information and is especially valuable because it has directions for freezing eggs whole.

ranch. This dam which impounds 21.24 acre feet of water or approximately seven million gallons has a drainage area of 4,790 acres of land, 3,502 acres of which are cultivated and 1,288 acres are pasture land. The construction of the dam, which required a fill of 7,217 cubic yards of earth, was done under the supervision of the soil conservation service technicians assigned to the Deaf Smith County Wind Erosion District. The two dams were built at an average cost of approximately \$700 each. Together these reservoirs will provide an ample amount of water for Mr. Brumley's 900 head of cattle during the season when water supply is critical.

Mr. Brumley built these dams across draws in the middle of his pasture in order to have a good distribution of livestock and reduce the distance the cattle must travel to water. This centralized water location will prove beneficial in efforts to improve the range condition by shifting the livestock from the poorer parts of the range land to the better places without overgrazing any part of the

pasture. Conservation work is nearing completion on the Colby Conkwright ranch, the C. D. Carnahan and A. O. Thompson farms which is being done with Deaf Smith County Wind Erosion District heavy construction equipment. About eight miles of fence row drifts were leveled for these farmers. Mr. Conkwright plans to construct diversions on the land made available by the removal of the fence drifts which will divert water from roadside ditches and spread water over the native grass pasture. The other land made available by fence

leveling will be planted to wheat in order that the land will have sufficient cover during the blowing season to prevent soil erosion.

The Deaf Smith County Wind Erosion District Supervisors are eager for all farmers needing the assistance of heavy construction equipment to make application as soon as possible.

This equipment may be used for operations such as leveling terraces, fence row drifts, hummocks or the construction of dams, ponds and diversions. Application may be made to the District Supervisors or to the office personnel at the Deaf Smith County Wind Erosion District office in the Court-house.
