NUMBER THIRTY-NINE

## Mayor Proclaims Cotton Week

Proclamation of the "Cavalcade of Cotton" for the week of October 6 through October 12, 1966.

Cotton is the most useful and most widely known to man, incorporating many characteristics, and more cotton is consumed in textiles than any other fiber, and about 9 million people are dependent on cotton for their livelihood, and the new wealth created each year from the production of cotton is multi-million times over through the various enterprises which produce cotton from field to finished fabric, and many allied enterprises which produce goods and services are vitally connected with a prosperous cotton industry, and the economy of this community is closely identified with that of the cotton industry.

Cotton is a strategic material in the production of freedom, and Mayor of the City of Floydada hereby proclaims COTTON WEEK for the week of October 6 through October 12, 1966, and asks all our people to pay tribute to the cotton commodity and to the cotton industry.

### COUNTY CONVENTION

## Farm Bureau Elects New Directors

Five new directors were named at the annual Farm Bureau convention in Lockney Monday night and several resolutions were approved at a light turn-out of the membership.

Approximately 75 of the 700 membership were present at the barbecue dinner and business meeting. Most of the farmers worked until late harvesting grain sorghum and sowing wheat.

New directors elected are: Bryan Smith, James Jeffress, Melvin Lloyd, Bernie Parkey and Kenneth Bean. They replace outgoing directors Kenneth Brose, Kenneth Probasco, Durrell Fortenberry, Hollis McLain and Doodle Milton.

Highlight of the program was a speech made by Millard Shivers, state field organizer for Blue Cross-Blue Shield of Texas. He summarized the beliefs and policies of Farm Bureau.

President Brose presided over the meeting, A.C. Pratt read the minutes of the last meeting, Kenneth Probasco read the financial report, Mrs. Joe Taylor gave a speech, "I Am An American."

District Farm Bureau manager Hub King of Brownfield made a short speech remind-

ing the group about the state Farm Bureau convention in Corpus Christi November 13.

RESOLUTIONS David Battey Jr., read the following resolutions which were approved by the convention:

FAIR BOOTHS... a resolution that the state Farm Bureau office build or design a booth for all county fairs. Cost of booth space to be paid by each county organization.

COMMUNITY CHESTS... that employees should not be pressured into pledging or donating to local Community Chests.

TAXES... We recommend continuation of our present policy regarding tax revenue required to operate the State-- that any increase required in sales tax or broadening the base to include all purchases except capital items.

WATER... We recommend that Texas Farm Bureau go on record as favoring a water development plan that would cover all of Texas including West Texas and the panhandle area. We are opposed to the plan presently proposed as the State Water Plan because it

### SAVINGS BOND

## Cotton Credit Sponsor "Tall Cotton" Contest

The cotton crop of 1966 in Floydada may be noted for the high stalks and the big production of cotton. August and early September showed a rank cotton stalk that grew to a height of 10 feet and squares. Farmers have been bragging about their cotton stalks, so the local Cotton Credit Association is sponsoring a "Tall Cotton Contest."

The contest manager Jim Lackey is asking farmers to bring into the Hesperian office a stalk of cotton they can find in their field. Each stalk will be measured and the \$25.00 savings bond will be awarded to the winner, by Production Credit. The contest is over.

By WENDELL TOOLEY

FLOYDADA COUNTY'S football teams went down to Memphis last week as they entered conference week. Floydada lost to Abernathy and Memphis.

Abernathy and Hale Center seem to be on a roll to win district now. . . . It happened with a seven game season for 3AA district.

The football magazine picked Abernathy as the coaching school came up with Center as the club most likely to win at any rate we'll know which team after Friday night when Hale Center and Abernathy . . . and it's Hale Center's turn to visit Memphis.

Memphis and Hale Center are tied with Hale Center. They also have a 1-0 record.

An idea of where Floydada is in the glomeration after Friday night. We are able to take Olton. So far, we've won plenty tough teams. . . . and the should give us a better view into the team we have.

SCHOOL Principal Charles Tyer was in Monday and reported that the school were now enjoying use of the new business annex. Of course they're getting some lockers and hardware, but schools are learning to do without.

Student council seems to be going strong and made around \$75.00 with a car wash. . . . and painted the parking lot around school free gratis for the city. Student Council makes money in order to sponsor the foreign exchange student and they're up and at 'em as usual.

COTTON Cavalcade tonight? Some say. . . "the cotton crop is in bad shape, the price is poor. . . the market is sick." Well, that's the main reason for the Cotton Cavalcade. . . to encourage people to buy and use cotton products. . . . if we are going to get the supply of cotton back. . . if we are going to get the synthetic market, we must buy COTTON.

Join in your invitation to attend the "Cavalcade" in the high school auditorium. There'll be a lot of entertaining displays, cotton style show, free

### FOOTBALL CONTEST

## Women Show Men How To Pick 'Em

The women have come to the head of the class in picking the winners of the Hesperian football contest. Mrs. Jerry Finley is first place winner this week, she tied for second place last week.

In second place is another woman, Frances Weathersbee. County agent Joe Wilson just barely made third place ahead of his wife, Dorothy, who came in fourth.

Mrs. Finley receives the \$7.50 cash prize with four misses. She missed the following games: Olney-Fort Worth Nolan, Brownfield-Seminole, Monterey-El Paso Coronado, and Tullia-Littlefield.

Mrs. Weathersbee also missed four games: Olney-Fort Worth Nolan, Monterey-El Paso Coronado, Friona-Olton and Tullia-Littlefield. She receives \$5.00 cash.

Wilson missed four games and receives the third place \$2.50 cash award. He missed the Olney, Brownfield, Friona and Tullia games.

Others who missed four games, but were eliminated from the winning circle on the tie-breaker game are: Dorothy Wilson, T. L. Holland, Waldo Baxter, Mrs. W. W. Goen and Garland Martin.

Some of the contestants who missed four indicated a score in the tiebreaker box, but failed to circle a winner between Floydada and Abernathy.

Two games were marked from consideration by the contest judge: Plains did not play Sudan and the Amarillo-Dumas game was played on Thursday night instead of Friday night.

"fill the gym pep rally!"

The Whirlwind cheerleaders and their sponsor, Polly Cardinal urge and invite the general public to attend the big "fill the gym" pep rally at the High School gymnasium Friday at 3:30.

The public is asked to participate in the big rally. . . . the theme is of course "BEAT OLTON!"

## Houston Evangelist Will Conduct First Baptist Revival

The First Baptist Church will be in revival October 9-16. Services will be held twice daily at 10:00 a.m. and 7:30 p.m.

Dr. Gene Williams, evangelist from Houston, Texas, will be the preacher. He comes with a fine record of accomplishments in evangelism. Since the completion of his schooling, he has been in full time evangelistic work. His preaching assignments have carried him to most countries of the world and into almost every state of the union.

The music will be directed by Dale Coody of Lawton, Oklahoma. He is engaged in full time evangelistic music, having entered this work after serving several churches in Texas.

The team for this revival has been engaged for the meeting for many months. Dr. Williams, as well as Mr. Coody, are in strong demand by churches all over the nation. Rev. Bradley stated that he considered our community fortunate to have them serve with us for

JOHN CLARY

## Clary New Manager Of Perry's

John Clary is the new manager of Perry's in Floydada. He succeeds Coy Hearin who has been transferred to the Liberty, Texas store.

Clary and his family are moving here from Plainview where he was with Perry's. The Clarys belong to the First Christian Church and have a boy two years of age.

He is an amateur radio operator, which he enjoys as a hobby.

Hearin was head of the retail merchants committee and very active in the First Baptist Church and a soloist in the choir. Mrs. Hearin was a secretary for the local telephone office.

## Floydada School Enrollment Increasing

A Hesperian reporter made an enrollment count of each school in the Floydada school system Wednesday morning and learned that the enrollment is up almost 100 since school started September 7.

The following enrollments were reported: High school, 436; Andrews Ward, 849; Junior High, 373; and Della Plains, 168.

This brings the total to 1826. A total of 1727 had been reported the first day of school.

Looking back to the past two years, 1891 were enrolled in 1965 and 1932 were enrolled in 1964.

It is thought that the new farm program which has laid out many acres of land, requiring less farm help, has caused the decreasing trend in the Floydada and other plains schools.

## Wall Street Church To Hold Revival

The general public is extended a cordial invitation to attend a week long revival meeting at South Wall Street Church of Christ beginning October 4 and continuing through Sunday, October 17.

Alva Johnson of Turkey, Tex., will preach for the services. He is a man of 50 years experience in the ministry and an evening of good fellowship is promised nightly at 7:30.

## Mustangs Invade Whirlwind Land

The Olton Mustangs will invade the Whirlwind stadium here for the second district game for both teams at 8:00 tomorrow night.

Olton comes into the contest with one win and three losses--the Whirlwinds have lost four and have no wins.

Olton was clobbered by Friona 24-8 last week while Floydada lost to Abernathy 14 to 0.

Head coach Bill Curry said that two of his starters will be out this week. Kerry Bear-

den has strained some ligaments in his back and Ross Miller will be out with some

pulled muscles. Larry Adams is out for another week, but there is a possibility that Jeff Kimble will be back after suffering a cracked wrist in pre-season training.

Olton toppled Morton 28-0 and has lost to Friona and two AAA teams; Hereford and Muleshoe.

For comparison it is noteworthy that Floydada played Hereford a much closer game than did Olton.

Olton's quarterback Charles A. McClain is off the sick list and should be ready to go Friday night. Speedy Albert Mc-

Key has been moved back to fullback. Dale DeBerry and Steve Spain will be the starting offensive halfbacks.

ART AND CRAFT SHOW - Mrs. David Eaton, high school art teacher will be featured in an art and craft show sponsored by the 1934 Study Club and The Hesperian in the community room of the First National Bank. The public is invited to see the showing from 2:30 to 5 p.m. Mrs. Eaton recently received her MFA degree from the Institute de Allende, San Miguel de Allende, Mexico. This show will include hand-woven articles such as small rugs and pillow tops; ceramics, stone castings, batiks, wood sculpture and papier mache, plus a dozen or more portraits of Mexican people. A special invitation is being extended to the parents of all her former pupils of Andrews Ward, and her new students in Junior High and High School. THEY'RE THINKING in terms of raising the draft age to 35. . . boy, that's getting awful close to some of us who have been through that draft experience before!

Twenty years ago I was serving in the 2nd Infantry division. . . the war was over, and everyone looked forward to no more war. I was visiting with Duncan Hollums who has both a son and a son-in-law involved in the draft. . . the war in Viet Nam is beginning to "come home" to us all.

does not consider all of the state.

FARM-TO-MARKET ROADS . . . We recommend that the present program of Farm-to-Market Roads in Texas be continued as it presently is.

NATIONAL INFLATION. . . Since inflation is adding to the already existing cost-price squeeze the farmer is in we recommend that American Farm Bureau use its influence in Washington to control inflation. Since Government Deficit Spending is the chief cause of inflation we recommend that the Federal Government should spend within its income or operate on a balanced budget.

RIGHT TO WORK. . . We favor retention of Section 14B of the Taft-Hartley Act which permits Texas and other States to have right-to-work laws. We do not believe membership in any organization should be a requisite to employment.

LABOR MONOPOLY. . . We favor legislation to make labor union subject to the Anti-Trust Laws of the United States.

CIVIL RIGHTS & LAW ENFORCEMENT. . . We are concerned with the break down in law enforcement and lack of ability of the courts to prosecute criminal cases. We believe these problems are related to recent court rulings and technicalities and a permissive attitude on the part of government. We believe that

tions. War has never solved the problem of a desire for a lasting peace. . . and I suppose never will. Frank Laubach's book entitled "War of Amazing Love" continues to make sense. Some people will read this book and say it is idealistic, yet it is something that has never been tried.

Laubach's plan centers around spending armament money helping the peoples of the world . . . not just giving of money and food. . . but giving of our time in trying to teach them how to take care of themselves and enjoy a better way of life.

Well, it has never been tried. . . who knows?

I WONDER if these Aggies will be able to get their mind off of football long enough to enjoy the World Series?

further study of and revision of the procedures in prosecuting criminal cases should be made and that more emphasis should be placed on protecting the public and less emphasis on protecting the criminal. Such a study would be in the province of the legislature of the several states and congress of the United States and their findings could be acted on in the legislative process.

We are opposed to any so-called Civil Right Legislation which gives special rights or privileges to any group at the expense of any other group. We favor fair and equal treatment of all people under the constitution and laws of the United States.

year to honor outstanding 4-H members and to award year pins to qualified members. Outstanding members will be honored in approximately 25 different project areas. Winners will be publicized at a later date.

A good turnout of members and guests is expected.

Bethany Nazarene College is one of ten schools operated by the Church of the Nazarene. These colleges include one in Canada and one in the British Isles and the Nazarene Theological Seminary in Kansas City, Missouri.

The quartet will present the program for the "after the game party" for senior high students Friday night in the high school cafeteria.

Services for the revival will be at 7:30 p.m. Saturday night, 10:50 a.m. Sunday morning, and 6:00 p.m. Sunday evening.

**DOCTOR TALK**

By Rembert Benjamin, M.D.

Lockjaw, or tetanus, is an extremely grave disease and, paradoxically, it is one of the most easily prevented diseases in medical practice.

Anyone who is acquainted with the morbid progression of tetanus once it is established in the system cannot help but respect this dreaded and often fatal malady.

Without a doubt the most effective treatment for tetanus is adequate and early full immunization with several injections of a specially prepared vaccine which will render individuals permanently immune. It must be stressed, however, that booster doses are required on the average of every four years in order to perpetuate this permanent immunity.

**Public Gets Opportunity To Zip Code Mailing Lists**

Residents in the Floydada Postal Area will be offered an opportunity to ZIP Code their mailing lists during October, Postmaster Edward Wester announced today.

Letter carriers will deliver "no postage needed" cards to each of the city's 1297 residential delivery stops beginning October 10, the postmaster said. The cards will have blanks for addresses used most often, but for which individuals do not know the proper ZIP Codes.

The project will be a feature of "ZIP CODE WEEK," to be celebrated October 10 through 15th. In the Floydada area where only one ZIP Code is assigned, only an out-of-town card will be delivered since all local addresses will have the same ZIP Code.

"This is a good time to get the ZIP Codes missing from your lists," Postmaster Wester noted. "This Christmas, ZIP Code will be as important as shopping and mailing early for the efficient and on-time delivery of the record-breaking avalanche of mail expected in the pre-holiday weeks."

After filling in the street number, city and state, the cards are to be mailed back to the postmaster. Post Office personnel will add the proper ZIP Codes and return the cards to the sender.

President Johnson has proclaimed October 10-15 as "ZIP CODE WEEK" to promote greater usage of ZIP Code.

Postmaster General O'Brine announced May 19 that steps were being taken to make ZIP Codes more accessible to the mailing public. The present program resulted from a search for the most effective method to get the codes in the hands of private mailers. A poll conducted by Elmo Roper and Associates earlier this year found that about half the population is using ZIP Code. Of the remaining half who are not, 80 percent said the reason was that they did not know the ZIP Codes for the people to whom they write.

Previously, the Post Office Department has embarked upon an extensive effort to help volume mailers convert their lists to ZIP Code.

"The Roper poll strengthened our conviction that the public generally is ready and willing to cooperate with business mailers who will be presorting their second and third-class mail after January 1, 1967," O'Brine said. "I am convinced that the 'ZIP-A-LIST' project will go a long way toward ac-

complishing our goal of ready availability of the proper ZIP Codes in the home."

Out-of-town cards will be printed in red ink. Addresses which cannot be ZIP coded because of insufficient or improper addresses will be forwarded to the city indicated on the card, if legible, and the codes will be added there.

Only addresses, not names of correspondents, should be listed on the cards, the postmaster said. ZIP Codes represent delivery areas for the postal service, not individuals.

During the summer, a "dry run" of the ZIP-A-LIST project was conducted in Columbus, Ohio and Richmond, Virginia. Information gained from these tests is being incorporated in the national program.

**Wall Re-Elected To A.G.A. Board**

ATLANTIC CITY, N. J., Oct. 5 - C.I. Wall, president of Pioneer Natural Gas Co., Amarillo, Tex., today was re-elected to the board of directors of the American Gas Association.

Wall was named to a second two-year term at the closing session of the 48th annual convention of the gas industry's national trade association.

Some 6,000 gas industry executives, representing nearly every state in the nation, Canada, and countries in Europe and South America, have participated in the four-day event.

In 1927, Wall began his utility career with the West Texas Gas Co., predecessor firm of Pioneer Natural Gas. There, he served as vice president and general manager, vice president in charge of operations and, in 1951, as president.

In 1954, when Pioneer was organized, he was vice president of distribution and later, executive vice president. He was elected president in 1955. Wall is a director of the First National Bank of Ama-

rillo, the Quannah, Acme & Pacific Railway, Amarillo Oil Co. and Pioneer Production Corp. He is president and director of Pinaga, Inc., and the Amarillo Area Foundation, a trustee of the Institute of Gas Technology, a director of the High Plains Research Foundation and the Texas Technological College Foundation, and a member of the State Affairs Committee of the Texas Manufacturing Association, and the International Oil and Gas Educational Center of the South-eastern Legal Foundation.

**County Roads Included In Improvements**

The Texas Highway Commission today approved the spending of \$43,500 for highway safety and betterment and improvement of the farm to market road system in Floyd County during 1967, District Engineer Oscar L. Crain of Lubbock said.

He said a total of 32.8 highway miles in the county will be involved. Work will be under the supervision of James King, District Maintenance Engineer.

The work is part of the Highway Commission's combined 1967 Farm to Market Road Improvement and State Highway Safety and Betterment Program.

The farm to market road improvement part will involve 32.8 FM miles and cost an estimated \$43,500. Statewide, the program calls for the improvement of 5,587 miles at an estimated construction cost of \$39.9 million and right of way cost of \$161.5 thousand. Work will include 912 projects in 215 of Texas' 254 counties. Three hundred and ninety projects are on State and U. S. highways in 170 counties and 522 projects are on farm to market roads in 179 counties.

Herbert C. Petry, Jr., chairman of the Highway Commission, called the combined program "a double-barreled effort in two vitally important highway areas."

The safety and betterment portion of the program reflects the Commission's continuing concern with making Texas highways safer to prevent traffic fatalities and accidents, Petry said.

He said the program's farm to market provisions protect the investment of Texas taxpayers in their 37-thousand-mile farm and ranch to market road system.

The safety and betterment portion of the program calls for work on 2,337 miles of highways at an estimated cost of \$23.2 million.

Roads to receive work in Floyd County are: FM 97 (from FM378 in Lockney to State 207) 7.2 miles.

FM1958 (from US 70 in Floydada to FM 851) 10.3 miles.

FM 28 (from US 70 to Crosby County line) 11.8 miles.

FM 378 (from FM 54 to Crosby County line) 3.5 miles.

# Golden Weddings In Floyd

Sept. 24 - Of that one of America's most famous couples, Dwight and Mamie Eisenhower, have just celebrated their 50th year of married life.

That marital landmark will be reached this year by no less than 160,000 couples throughout the United States.

According to figures worked up by insurance company statisticians here, based upon data

taken from their own records and from government sources, the chances are now 1 in 3 that a young Floyd County couple, just married, will be able to reach the 50-year mark.

That is the expectation, unless divorce or annulment intervene. In that event, all bets are off.

Locally, there is less likelihood of such split-ups than in many communities. People in the area tend to get married young and to remain married for a longer time than is the case generally.

The latest government findings show that some 73.9 percent of the local population over age 14 are now married. This includes 74.1 percent of the men and 73.6 percent of the women in that age bracket.

It compares with an average of 67.5 percent in the rest of the United States and 69.1 percent in the State of Texas.

In 1916, when the Eisenhowers were married, the chances were only 1 in 6 that they would live out their 50 years together. Since then, with the great medical advances of the last half century, the odds have been brought down to 1 in 3.

That is what Pat and Luci Johnson Nugent now have going for them. And, with the further gains to be expected in the next 50 years, their chances will probably become considerably better than that.

As for celebrating a silver wedding anniversary, the likelihood is excellent for today's newly-marrieds. Even when a man marries as late as age 34, if his bride is not appreciably older, their chances of living together for 25 years are better than 7 in 10.

## Team Calls In On 300 VC

An eight-man company, 3rd Battalion, 3rd Airborne, recently called in and air strikes and 300 Viet Cong.

Editor's note -- The story above appeared in an Army newspaper in Viet Nam and was sent to relatives in California of the Sgt. J. Mike Johnson mentioned, then on to Floydada to local relatives.

Sgt. Johnson is the youngest son of Mrs. Doris Johnson and the late W. D. Johnson, former Floydada resident, now of California. He is the nephew of G. M. Armstrong of Floydada.

Sgt. Johnson was home on leave recently to visit his wife and baby who reside in California.

Floyd County potato growers will be given allotments for spud acreage in 1942.

Floydada whirlwinds finally got through baptism of fire in a football game Friday night against Littlefield Wildcats. They lost the game 9-7.

Rainfall this week effectively put a stop to all farm work in the county and at the same time made lanes and unpaved roads in Floyd County nearly impassable. In the four days since Sunday, only 1.38 has fallen, but coming slowly it has soaked into the ground well. Lowest temperature was Monday morning when the thermometer fell to 42 degrees.

Mrs. Carrie Latta of Crosbyton accompanied Mrs. Anthony Latta to Plainview and visited in the home of Mrs. S. R. Wright.

Mr. and Mrs. Frank Moore had as Sunday dinner guests their sons, Mr. and Mrs. Frank Knox Moore, Meredith and Page, Mr. and Mrs. Mike Moore of Lubbock.

LIGHTHOUSE ELECTRIC COOPERATIVE, INC.  
MARY PHILLIPS, HOME ECONOMIST

A home with brand new electric appliances is an exciting event in every woman's life. She knows she will be able to do a better job for her family and provide them with a better standard of living.

But before buying wisely, every husband and wife must know whether they can afford the appliance, and what is the best one to buy.

To arrive at a safe annual budget, for appliance purchases, allow 7 1/2 to 8 percent of the take home pay - about 8 cents out of every dollar brought home. If you are buying on the installment basis, take 12 percent of the cost of appliance and divide it over the number of payments you have to make.

Select a reputable dealer to buy from. If you have a space problem in your home, combination washer-dryers will help solve it. They are top quality washers and are usually lower in price than a washer and dryer pair.

Make sure the dealer demonstrates the washer you are buying. Be sure you understand how it operates. Don't buy a washer that can't handle your laundry load. Find out if there are any special requirements for operation or installation.

Ask the dealer if he will provide service or will you have to arrange for service from a private serviceman. If your dealer doesn't service appliances, how far away is the closest serviceman? Are parts available in your area? This

may be a reason for not buying off-beat brands or even well-known brands which have no service or parts system in your area. Talk to people who have owned the particular brand you intend to buy. Ask them about performance and service.

Then, before you buy, be sure you understand all the conditions of the sale. Does the quoted price include delivery and installation? If not, how much are they separately? What does the warranty guarantee? Are only parts replaced free and do you have to pay for labor? How long is the warranty in effect?

But once again, your best bet is to buy a well-known brand product from a reputable dealer. A good time to buy is when your utility dealer is featuring a bonus incentive to buy. During the months of October and November, Lighthouse Electric will be paying a \$20.00 wiring allowance on the installation of a new dryer.

Mrs. Zant Scott of the Harmony Community gave us the following recipe for a Lemon Poundcake. We have thoroughly enjoyed it and want you to have the recipe.

- LEMON POUNDCAKE**
- 1 cup butter or margarine
  - 1/2 cup soft shortening
  - 1/4 teaspoon salt
  - 1 teaspoon vanilla
  - 1 7-oz. bottle lemon flavored carbonated beverage
  - 2 cups sugar
  - 1 cup of eggs (approx. 5)
  - 1 teaspoon lemon extract
  - 3 cups sifted flour

Heat oven to 325 degrees; grease tube pan. Work butter and shortening together in large mixing bowl, until creamy. Gradually add sugar and beat until fluffy. Add eggs and beat at medium speed until well blended; add salt, vanilla and lemon extract. Gradually add flour alternately with the lemon flavored beverage, beating well after each addition. Pour into prepared pan. Bake 80 to 85 minutes, cool on wire rack for 10 minutes before removing from pan. Cool completely and sprinkle top with sifted confectioners sugar. (Confectioners sugar is optional.)

The South Plains Fair and Tennessee Ernie attracted a lot of folks from around Floydada last week. Among those attending were Mr. and Mrs. Jake Colston, Theresa and Danny on Friday night, Mr. and Mrs. Wayne Collins and Sherry accompanied by Mr. and Mrs. Junior Simpson and family on Saturday.

Mr. and Mrs. Pete Hickerson "babysat" with their grandson, Thad Bourland, during the week-end. Thad's parents, Mr. and Mrs. Jerry Bourland were in Waco house-hunting. They will move this week. Jerry has accepted a position with the Brazos Electric Power Cooperative in Waco.

Mr. and Mrs. Israel Rodriguez spent the week-end in Corpus Christi visiting her sister, Mr. and Mrs. Ruben Rodriguez and family and in Alice with his family, Mr. and Mrs. Adan Rodriguez.

### County Agent's Corner

A grain sorghum variety demonstration was harvested on the James Hale farm near Barwise this past week. The demonstration contained six full season varieties. It was fertilized with eighty pounds of Anhydrous Ammonia and watered three times during the season. All weights are corrected to 13% moisture.

Excel B-52 was the highest yielding variety in the test. It yielded 5,378 lbs. per acre. Other varieties and their yields included: Weathermaster GS 75, 5,550 lbs. per acre; TE77 5,525 lbs. per acre; R.C. Mitchell, Standing; 5,365 lbs. per acre; PAG 655, 5,277.9 lbs. per acre; and Horizon 80, 5,136 lbs. per acre.

This is a one year test and yields would vary some from year to year and from farm to farm. Tests over a period of years at different locations give good results as to the yielding ability of each variety.

Grain sorghum that had atrazine applied to it may be grazed 60 days after application. Many farmers are taking advantage of the stalks for grazing purposes. It is also a proven fact that the stubble left on top of the ground will keep the soil from blowing and catch and hold more moisture through the winter.

Livestock inspectors will start checking all cattle within the county for scabies. The inspection is scheduled to get underway this week.

Scabies is caused by a microscopic mite that lives underneath the skin of cattle causing sores on the animals. The mite may be killed by dipping or spraying the cattle.

The inspection will be a visual inspection carried out on each farm or ranch. If the stock is found to be infested the cattle will be quarantined until dipped twice to kill the mites.

GLENN SCOTT of Southwestern Bell Telephone Company who will present a science demonstration about data communications entitled "Information On The Move" before the Rotary Club here October 12, 1966.

### Bell's Glenn Scott To Present Rotary Program Here

Using punch cards, handwriting machines, electrocardiograms and associated electronic equipment, Glenn Scott, Southwestern Bell public information supervisor, will show how the "information explosion" is being harnessed by modern communications in a demonstration before the Rotary Club here next Wednesday, October 12, 1966.

Titled "Information on the Move," Scott's program will describe the growing volume of man's total knowledge, and methods used to store, select and communicate it effectively.

Because most information must be moved from one place to another to be useful, telephone scientists and technicians are concerned with ways to move it with great speed and accuracy.

Such information can range from payroll data to pictures of a person's heart action, as Scott will show. He will demonstrate how written messages and signatures, electrocardiograms and other types of information can be transmitted instantaneously over telephone lines.

### Witness To Meet In Lubbock

Jehovah's Witnesses of Plainview and vicinity are cancelling all local meetings, October 7-9, for a circuit meeting in Lubbock, Fair Park Coliseum.

"Become Spiritual Men with Everlasting Life in View" is the theme to be discussed for 16 congregations from Wichita Falls to Muleshoe and from Altus, Oklahoma to Haskell, Texas.

"The object of the meet," Clarence W. Hall, presiding minister of the Plainview congregation, said, "is twofold, to build one another up spiritually and to share the spiritual information with our fellow man."

The three-day program calls for talks, discussions, illustrations and demonstrations from the platform to emphasize the importance of becoming spiritual men. "With Everlasting Life in View," the Witnesses have scheduled time to call on the people of Lubbock and vicinity in the house-to-house ministry.

District supervisor and chairman of the assembly, A. A. Catanzaro will give the focal talk of the assembly, "Satisfying Mankind's Greatest Need," 3 p.m., Sunday.

Erwin A. Grover, who visits the congregations in Texas Circuit 9 three times a year, will give his final talk, 5 p.m., Sunday, "Keep Your Balance with Many Responsibilities."

Teacher Corps trainees seek Senate aid.

Mexican movie producers seek Hollywood help.

Erhard says he'll stay as Chancellor till '69.

## NOW... GROWERS who want more money per bale Should go to the Gin displaying this sign

PROTECT-O-COAT Formula X-78 is the revolutionary new chemical additive that protects the inherent qualities of cotton fiber during the ginning process. In many tests the following results have been shown on cotton treated with PROTECT-O-COAT:

- Fiber raised from 1/2 to 2 full staples
- Color improved 1/4 to 1 full grade
- "Live feel" and greater fiber uniformity
- Over 2¢ per pound increase in value
- Less 1/4" and 1/2" fibers

Drastic cleaning and drying makes cotton brittle and fiber length is shortened by gin and lint cleaner saws. PROTECT-O-COAT Formula X-78, applied as a fog mist in the conveyor distributor, recoats the fiber and minimizes damage. Progressive ginners are now offering PROTECT-O-COAT service to give you a sample that will bring you more money per bale. For improved grade and staple, go to the gin that displays the sign above. Write for a list of PROTECT-O-COAT ginners in your area.

## Floydada Loses 3-AA Opener To Abernathy 14-0

The Floydada whirlwind team lost its fourth game of the season and its first conference game to Abernathy Friday night 14-0.

At halftime it was 6 to 0 in favor of Abernathy and Abernathy was leading in first downs 8 to 4. Abernathy was set for another touchdown just before the half when Floydada's Bob Murry intercepted a pass from Darrell Johnson on the one yard line.

Murry was outstanding in effort throughout the game. It was Murry who caught the two touchdown passes that Floydada scored in the Post game.

The win was the fourth straight for the Antelopes, who have been picked to win the district.

Abernathy's Roland Murray scored both their touchdowns, the first early in the second quarter and the second with 3:16 time left in the game. Fullback James Byers ran the extra two points.

Floydada just lacked inches in making two first downs, both within the Antelopes 20 yard line that might have meant

scores - but they were unable to make it.

In summarizing the Floydada advances the following plays are noteworthy:

Roland Adams dashed down the sideline for a 20 yard gain in the first quarter, Larry Barbee ran for nine, Barbee passed to Murry for 13 yards, a 10 yard pass from Barbee to Tommy Weathersbee in the second quarter, a 15 yard pass from Barbee to Marler and a ten yard run by Monday, all in the third quarter.

The Floydada team held Abernathy to the smallest score of any game they have won this season.

The Abernathy defense was most effective when Floydada needed those two first downs inside the 20 yard line - so Abernathy not only had a fast and scoring offense, but one of the best defenses the 'Winds have faced.

Three Abernathy players moved the ball consistently: Darrell Johnson, Harry Mathis and Roland Murray.

completed pass and run play was the difference. Stanley Pierce scored Floydada's six points on a fine kick off run back.

The B team was clobbered 32-0 by Hale Center. Hale Center had four back fielders who were "as fast as lightning" ... and the Floydada team couldn't catch them.

Tasocosa with 80 bushels; Scout, 79.4 bushels; Ottawa, 79.4 bushels; and Bison, 74.8 bushels. Yields of other varieties in the test of twelve were Commanche, 66.9 bushels; Apache, 66.6 bushels; Concho, 66.5 bushels; and Improved Triumph, 63.4 bushels.

Warrior, and Commanche. The test of protein, milling and baking quality analyses were conducted by S. N. Vilm, Chief Chemist, Producers Grain Corporation, Amarillo, Texas.

The five-year average wheat yields at the Foundation were as follows: Tasocosa, 59.8 bushels; Bison, 55.7 bushels; Improved Triumph, 51.5 bushels, and Commanche, 50.4 bushels. Other varieties have not been in every test during the past five years.

The twelve varieties in the 1965-66 test were planted on October 29 and 30, 1965 at a seeding rate of 100 pounds per

acre on land from which grain sorghum had been harvested about 45 days prior to the seeding of wheat. Sixty-six pounds of nitrogen in the form of anhydrous ammonia was applied preplant. One hundred twenty-five pounds of 11-48-0 was applied at planting time to all plots. Anhydrous ammonia was applied at 50 pounds per acre during irrigation as a top dress application on April 19, 1966. All plots were harvested on June 26.

### Hank Washington Star Passer At West Texas

Hank Washington, West Texas State's "missileman", set four individual game records in directing the Buffs to their 49-7 victory over University of the Pacific in Stockton, California Saturday night. Hank completed 24 of 41 passes for 370 yards and five touchdown passes. Each of these figures represent new Buff records. In two games now, Hank has passed for seven touchdowns, completed 34 of 60 passes for 611 yards and rushed for an additional nine yards. This gives him 620 yards total offense. Hank needs only two

more touchdown passes to equal his 1965 touchdown output of nine. Commenting on the game Hank said, "Our offensive line was just great. They deserve the credit for those completions."

Receiving three of Washington's touchdown passes was Dave Szymakowski, who enjoyed his finest night as a Buff. Szymakowski snared 13 tosses for 219 yards. Both of these figures represent new Buff records. One of Szymakowski's catches was a spectacular reception that fans will talk about for a long time. Dave leaped

high between two defenders, outmaneuvered both for the ball, then fell to the turf clutching his six point prize. Tight end Ted Wheeler also had a busy night. Ted received seven Washington aerials for 113 yards and two touchdowns. Wheeler needs just six more receptions to become the most prolific catcher in Buff history.

The 576 yards gained against University of Pacific also represents a post-war, individual game high for the Buffs. In their first game, against Arlington State, Sept. 17, West

Texas tied their previous total offense high of 552 yards set in 1963 against Trinity University. The Buffs two game total of 1,128 total offense (rushing and passing) yards should rank among the major college leaders in the next NCAB statistic's release.

REV. LOWELL BELL,  
 PASTOR, NAZARENE CHURCH

### Devotional of the Month

## "The Joy of Christian Living"

Peter spoke of the joy of Christian living in his first letter to the churches, "... believing, ye rejoice with joy unspeakable and full of glory" (1 Peter 1:8). Jesus said, "These things have I spoken unto you, that my joy might remain in you, and that your joy might be full." (John 15:11). John wrote to the first century Christians saying, "And these things write we unto you, that your joy may be full" (1 John 1:4). From these and many other scriptures in the Bible, we easily draw the conclusion that there should be joy in Christian living, and from personal experience, Christians testify to this joy within the heart.

This joy has its beginning in the conversion experience, which Jesus described, when speaking to Nicodemus, as being born again: "Jesus answered and said unto him, verily, verily, I say unto thee, except a man be born again, he cannot see the kingdom of God" (John 3:3). The Master then went on to proclaim that this experience is available to all mankind, "For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life" (John 3:16).

The apostle Paul described the assurance God gives to the individual of the reality of this "new birth", which is the conversion or salvation experience, when he said, "The Spirit (God's Spirit) beareth witness with our spirit, that we are the children of God" (Romans 8:16).

Through worship, the joy of Christian living is sustained within the heart. As food is a sustaining element for the physical body, worship in God's house is strengthening unto the spirit. The new Christian will rejoice in the fellowship provided by the weekly worship services of the church, where this new joy within the heart can be shared with other Christians through prayer, reading the Bible and studying the scriptures, singing hymns, and hearing the preaching of God's Word.

The psalmist David said, "I was glad when they said unto me, let us go into the house of the Lord" (Psalms 122:1). Regular attendance of the worship services of your church will shed an establishing influence upon your Christian life. The apostle Paul admonished us, "as ye have therefore received Christ Jesus the Lord, so walk ye in him: Rooted and built up in him, and established in the faith, as ye have been taught, abounding therein with thanksgiving" (Colossians 2:7-8).

The writer of the epistle to the Hebrews spoke about faithfulness in worship when he wrote, "Let us hold fast the profession of our faith without wavering... and let us consider one another to provoke unto love and to good works: not forsaking the assembling of ourselves together, as the manner of some is; but exhorting one another; and so much the more, as ye see the day approaching" (Hebrews 10:23-25).

Even as regularity and faithfulness in attending worship services of your church are important to developing and retaining the joy of Christian living, so are your activities through the week. Daily Bible reading and prayer, visiting absentees and prospects, visiting and praying for the sick, working with children or youth groups of the church, or other work for the church and the Lord will mean much to you in your Christian living. The active Christian is usually the happiest Christian, and is one in whom the world as well as other Christians can see a real joy in Christian living.
