'Social Affair'

Thir.gs look almost social as Wisconsin's Larry Pokrywinski (6) takes the arm of Illinois' Jim Marks at Champaign, Ill., where the Badgers dropped a 57-36 decision in the hot Big Nine net race.

By taking advantage of this loom ng opportunity, the Friona Schools buld easily become the outstanding example for all the other schools of the state, or of the United States, for that matter, to emulate. Always some person or some community must take the lead for all worthwhile achievements, so, why not Friona, in the matter of educational progress. It just seems to me, Jock, that it is up to you and your fellow citizens of the City of Friona and the Friona School District, to get busy and take advantage of this looming opportunity, and to push it

Whiteface Cagers To Meet Friena Chiefs Tonight

Hereford High School basketball teams, idle last week when bad weather forced postponement of games, will go into action tonight (Thursday) at Priona, when both A and B teams are slated to meet the Priona Chiefs.

Tomorrow night both teams will journey to Vega to meet the Vega quintets. The Vega games promise to be an outstanding attraction for cage fans. In their last meeting, on the local court, the Whitefaces trim-med the visitors 32 to 30 in a thrillpacked battle.

The Herd is preparing to enter the District I-A Basketball tourna-ment, which will be held at the West Texas State College gymnasium in Canyon on February 20 and 21. En-tries will include Dalhart, Dumas. Dimmitt, Tulia, Canyon, Hereford

and Priona.

The Canyon Eagles and the Dimmitt Bobcats are favored to battle it out for the district championship.

Treason--- Crime Punishable by Death

charges of treason, Martin J. Monti, 27, St. Louis, nears the accusation against him read by U. S. Commissioner Edward Fay (right) at New York: making propaganda broadcasts for the Germans from October 1944 to May 1945 under the name "Martin Wiethaupt." When he was an Air Force lieutenant at Karachi, India, Monti hitched rides to Italy, stole a plane and landed in the German-occupied part, for which he was court-martialed after the Germans surrendered, but was permitted to re-enlist as a private. A long investigation by the FBI resulted in the new

Supply of Baby Chicks Uncertain Is A & M Warning

COLLEGE STATION, Jan. 31.-"You can get baby chicks this year, ment with the Texas Employment but it may be hard to get them when Commission and the State Departyou want them" is the warning issued by extension poultry husband men of Texas A. & M. College.

They base their prediction on the December hatchery production report of USDA's Bureau of Agricul-tural Economics office in Austin. The report shows that commercial hatcheries in Texas produced 1,100,-000 chicks during the month, which is just about half of the production a year ago, and 28 percent below the 10-year average.

Hatcheries are generally starting their main hatching season later than last year, the report says. The Pat Walter Anne O'Brien Slezak Jeffreys egg-feed price ratio is not as favorable for egg production as last year, and most hatcheries are setting eggs according to orders placed with hem. The exception is broiler thicks, as the demand for them has

Merit System Council To Hold Examinations

The Merit System Council, which serves as a "clearing house" for positions in the Texas Employment Commission and the State Department of Public Welfare, will hold open competitive examinations on February 28, 1948, for a number of positions now open in both agencies, according to Chas. S. Gardiner, Di-

rector of the Merit System Council. Positions to be filled by the Department of Public Welfare consist of Field Worker, Child Welfare Wor-ker, and Senior Child Welfare Worker, Junior Stenographer, and Key Punch Operator. Openings existing in the Texas Employment Commis-sion are for Interviewers, Claims Examiners, Technical Draftsman, Clerk-Typists, Stenographers, and sitions vary from high school gradu-ation to college work and experience ******

.For Your Protection!

Gardiner pointed out that appli-

or from the Employment Commission and Department of Public Wel-

fare local offices located throughout the State. "The closing date for

submission of applications is Febru-ary 7, 1948, and applications post-marked after midnigth on the clos-ing date will not be considered," he

Gardiner also stated that these examinations present to people the

opportunity for permanent employ-ment with the Texas Employment

Call the Lumber Number 7

Carl McCaslin

Lumber Company

Hereford, Texas

We want to thank all those who cooperated with us to conserve natural gas during the recent severe cold spell.

We think our customers are entitled to know why supplies of natural gas ran

The emergency was not due to any mechanical or human failures. All the pipe lines, and all the machinesy in our compressor stations functioned properly. All employees discharged their duties faithfully throughout. We received good cooperation from those who supply us with natural gas.

The emergency shortage of gas was due largely to the simultaneous occurrence of two circumstances, either of which is most unusual in West Texas. The first of these situations was that temperatures dropped to sub freezing and to near zero and stayed there for about a week. Ordinarily, such cold spells do not last more than three or four days at the most. The second situation was that the severely cold weather prevailed throughout our entire system at the same time. Ordinarily, a cold spell will move across our system from north to south or from west to east, with extreme temperatures prevailing in only a portion of the system at any one time.

Therefore, it was the combination of these two factors that caused the emergency—first, that the severe cold spell was so prolonged; and second, that the cold spell prevailed throughout our entire system at one time.

We added more horsepower to the capacity of the compressor stations in our transmission system in 1947 than in any year in the company's history. This was done in anticipation of heavy demands for gas during the winter of 1947-48. What we did not anticipate was the above unusual combination of circumstances. Even if we had been able to anticipate these circumstances, we could have done nothing about it, due to the difficulty of obtaining steel pipe.

The only community in which there was any interruption to residential gas service was Levelland, where about half of the homes were temporarily without gas. For two years, we have sought to build a larger-size pipe line to Levelland, but have been unable to get anyone to accept an order for the pipe.

Through your cooperation, you have helped us and yourselves. Except in the. case of the short interruption at Levelland, you have made it possible for residential gas service to continue without interruption.

Thank you again for your cooperation and understanding
