Dougherty Man Shoots Huge Black Bear Near The Caprock

Early Saturday morning the Robert Ward family was awakened by their dogs barking and the bawling of cattle near the barns.

Ward slipped on his clothes, peered out the backdoor and saw all the cattle backed into a corner of the lot and could see his dogs having all sorts of fits right in front of the barn door.

Thinking it was probably a skunk... or maybe a coyote, he ran down to the barn... started to look in the barn door when he came face to face with a huge black bear charging right out of the barn.

He knocked Ward down as he headed out of the barn and then climbed the corral fence... headed east toward the Caprock.

Ward's dogs were in hot pursuit of the bear... (but not too close). Ward picked himself up... discovered that one arm had received a long scratch... then headed for the house to get his 30-06 rifle.

In the meantime the bear had just about made it over into the Caprock breaks. Ward jumped in his pickup, drove to the edge of the cap, then took after the dogs and the bear on foot.

About a mile down the Caprock the bear cut into a small draw, stopped and turned on the dogs.

In the meantime Mrs. Ward had got on the phone and called neighbors for help. Ralph Johnston was stopped as he came down the road in his pickup... nearby neighbors Ned Bradley and Henry Hinton, who were farming nearby also took off on the bear chase.

In the meantime Ward had closed in on the bear, wounded him with the first shot. At this point the bear charged Ward and the dogs. Ward steadied himself against a rock, took careful aim and felled the bear about seven foot away with a shot right through the heart.

It was surmised that the bear had come up out of the caprock breaks hoping to find a young calf for breakfast.

One of the more honest by-standers of the group gathered around the dead bear

... Henry Hinton, a Methodist, took out his tape measure he always carries in his pocket and declared the bear to be over seven feet tall, and estimated the weight to be 800 pounds.

Later Saturday Floyd County old timers said that this was possibly the only bear ever killed in this area. Hesperian readers on Sunday... remarked that it was one of the best April Fool stories they ever heard!

City Of Floydada Receives Over \$44,000 Sales Tax In 1972

The City of Floydada recently received a check for \$11,980.76 in sales tax money for the last quarter of 1972.

This was down from the same time period in 1971 of \$13,871.74.

The total received for the year 1972 was reported as \$44,649.88. It was thought that the taking off farm implement parts from the sales tax list might have led to the decrease in the last quarter of 1972.

WHICH TRACK THE FUTURE OF RAIL SERVICE TO FLOYDADA?

Tuesday At MAC

A representative of the Frisco Railroad is scheduled to meet here Tuesday with citizens of Floydada, Quanah and Paducah concerning the railroad's decision to move United Transport out of Floydada August 1.

The general public, especially anyone concerned about the change, is urged to attend the meeting.

Bruce Mahon, assistant to the Frisco president, will be at the Massie Activity Center in Floydada at 7:30 p.m. Tuesday, April 3, to present the railroad's official viewpoint on the scheduled move and hear the towns' side of the argument for leaving the rail service at its present level and the auto transport operation at the present location, through Quanah, Paducah and Floydada.

Frisco plans to reroute through freight service (and United Transport's autos)

through Amarillo directly from Avarad, Oklahoma.

Chamber of Commerce manager Bill Flynt said "Anyone who does business with the railroad in any way is asked to contact the Chamber of Commerce office so pertinent information can be gathered and presented to the Frisco representative Tuesday."

Flynt said information projecting future business increases for the Frisco, if they reverse the decision, has already been compiled but additional information is needed.

Flynt, Lon Davis and Chamber of Commerce president Wayne Russell make up the reception committee that will welcome Mahon when he arrives in Floydada Tuesday before the 7:30 meeting at the MAC.

Davis will serve as master of ceremonies for the meeting.

Better Than A 2-Ton Hippopotamus

Hello, Folks!
 I will be looking forward to seeing you at the Fisher Bros. Circus when we come to Floydada on the 7th day of April for two performances at the rodeo ground for the benefit of the Lions Club.

All my animal friends such as the monkeys, apes, llamas, elephant, five-legged cow, Tiny Mite, the little horse who is only 18 inches tall and 12 years old, and his buddies, Trigger, the five-footed horse, and Weasie, the Sicilian donkey, who is not any taller than Tiny Mite, as well as many other animal pals, will be waiting to greet you. There is also a giant snake over 24 feet long, and weighs better than 200 pounds.

As for myself, I weigh over 2 tons (I haven't been on a scale for some time now. You know how we girls are about our figures). I have my own private swimming pool, and enjoy a snack of a bale of good hay ever so often. (I shall have to cut down on my eating!).

We have lots of other things for you to see and enjoy, such as the Loyal Family European bareback riders; Dixie the performing and wire-walking elephant; Miss Luci, that daring young lady on the high trapeze; Kathie's fantastic

trained goats, dogs, and ponies; and Fisher Bros. Congress of funny clowns; that high-stepping dancing horse, Royal Rouge; Fisher Bros. Riding School; the Canine Cavaliers, an outstanding performing group of dogs; Mexico's ambassador of comedy, Senor Mike Gasca; Randal's military ponies and many other acts.

Take my advice and get your tickets, those cut-price, discount tickets from the sponsors. At \$1.00 to everyone, they admit you to any seat in the big top. Every seat is at ringside, as there are not any reserved seats. Every seat is a ringside seat. Those sold at the circus ticket office on circus day cost you more. Also the sponsor gets a much larger share of money from tickets sold in advance, to be used on their many local projects.

One and all, old and young, are invited to come out to the circus grounds in the morning of the show, to see the setting up of the tents, the unloading and feeding of the many animals, and all the other interesting things that are going to make the Circus a Magic City of Fun and Laughter for Mom and Dad, Brother and Sister, Grandma and Grandpa, and the whole family, even the Neighbors.

UPSETTING — An unidentified driver who may have been upset allowed to park on Second Street in Floydada sideswiped the "No Park" knocked down this power-line pole. City officials said the "hit-and-run" occurred during Thursday night's hailstorm and interrupted street traffic in the city. There were no injuries reported — the driver apparently "going", a city spokesman said. (Staff Photo by...)

All entries must be properly framed and wired for hanging. All graphics, watercolors and pastels must be under glass. A card must accompany each entry giving the title, medium and price, and the artist's name.

Cash awards, honorable mention award ribbons and citations will be given. A 10% fee will be charged on all sales. Entries not for sale must be clearly marked "NFS" on entry cards.

Warning Signal

The woman over 40, the woman in her change of life, should be alert to unusual bleeding or discharge. It's probably not, but could be a sign of uterine cancer — but only a physician can make the diagnosis. Give him a chance, urges the American Cancer Society. It could save your life.

I am sincere about running for City Council
 I care about our city government. I feel I am sensitive to Floydada. I have no business pressures and I vote my full time to Floydada. I would appreciate your vote.

El Progreso Study Club Meets In Lockney

El Progreso Study Club met Wednesday afternoon of last week and enjoyed an auction of handmade articles. Each member "auctioned" her own item, with proceeds going into the club treasury.

FARM REVIEW

FEED GRAIN

Program Payments Unchanged As Set-Aside Acres Are Lowered

No change has been made in feed grain program payments or regulations as a result of the lowering of feed grain set-aside from an acreage equal to 25 percent of a farm's base to 10 percent, reports John Barry Rudd, State Farm Program Official.

The set-aside acreage reduction is automatic, he said, and producers have no added paperwork and no required visits to the Agricultural Stabilization and Conservation Service (ASCS) County Office.

"The only change is that the set-aside requirement for producers who enrolled under the 25 percent set-aside plan has been reduced to 10 percent," said ASCS State Committee Chairman Rudd.

"Those producers will be notified by the ASCS County Offices of the change for their farm. If they already had their set-aside land inspected and measured, it can be remeasured at their request at no additional cost.

"I want to emphasize that payments for all participants in the feed grain program are unchanged — whether they signed under what was the 25 percent set-aside plan or under the zero set-aside plan," Rudd said.

He pointed out that payments are calculated on half the feed grain base times farm yield payment rate.

However, those feed grain producers who signed up to set aside acreage are required to set aside a percentage of their feed grain base in order to qualify for payment. On their remaining cropland acreage they are free to plant any crop they choose, except quota crops which are peanuts, rice, extra long staple cotton and tobacco.

Those producers who signed up for the zero set-aside plan agreed to accept a reduced payment in order to have all of their cropland free for planting. They also agreed to limit their feed grain plantings to no more than their 1972 production.

"None of this is change," the ASCS Committee Chairman said, adding that producers cannot switch from the set-aside they signed up for.

He also said there is no change in the provision which allows haying and grazing on set aside acreage, with a reduction in payment. The

per-acre payment deductions for haying and grazing set-aside land and for alternate crops remain as previously announced.

The lowering of required set-aside acreage probably was the least disruptive action that could be made in the 1973 Feed Grain Program. And action was required to free up more acreage for planting and livestock use.

"Study of the March 1

planting intentions report showed that not enough corn would be planted — and barely enough soybeans — to provide for anticipated demand and adequate carryover.

"Action was necessary in order to prevent or alleviate a shortage in the supply of agricultural commodities. Set-aside acreage was the only land which could be readily released for crops," Rudd said.

Reduction of the feed grain

set-aside is expected to return from 3.8 to 6 million acres back to major crops, such as corn, grain sorghum, barley and soybeans. The added corn acreage is expected to total between 2 1/2 to 3 1/2 million acres. Other acres of released set-aside land may be used for livestock forage.

Based on the latest enrollment report, the action taken will release approximately 930,000 acres from set-aside designation in Texas.

Good Attendance At Lockney Consumer Coop Meeting

Nearly 200 persons attended the Consumers Fuel Association dinner March 22 at the elementary school cafeteria.

During a business meeting, Durwood Jack and Pat Frizzell were re-elected to three-year terms on the board of directors. Other directors are Truett McCarty, Donnie Bybee and Albert Scheele.

Lockney lunchroom employees prepared the barbecue

dinner. Invocation was by H. E. Frizzell. Serving the meal were members of Lockney FHA. Larry Cunyus presented dinner music on the piano.

Randy Swindle of Lubbock, who is with Merriman and Company gave the financial statement of the Association for the past year.

Winners of the door prizes were the following persons: set of teflon cookware, Mrs. H.

E. Frizzell, Mrs. R. C. Mitchell, F. L. Montandon, and W. O. Clark; steak knife set, James Jeffress, Sam Jones, Bob Merrell and Mrs. Deltonack;

electric popcorn popper, Mrs. Raz Ford; electric knife, D. E. Adams; electric can opener and knife sharpener, Tyke Dipprey; case of oil, Charles Ball; and set of tires, Dub Dipprey.

Lockney Students Hold Dinner For Employers

Fourth annual employer-employee buffet dinner was given Tuesday night by the home economics cooperative education class of Lockney High School. The dinner, prepared by class members, was served in the high school cafeteria.

"Opening doors to careers", theme of the dinner, was carried out in the table centerpieces. Cardboard doors, standing open, were arranged with fresh-cut flowers to form the centerpieces.

The same theme was used by Dr. Neil Record, pastor of Lockney First Baptist Church, in his speech to the group. Dr. Record commended the employers and talked about good employer-employee relationships.

Margarito Arellano, Jr. voiced the invocation. Mistress of ceremonies was Pam Teuton, president of the HERO Chapter of the school. Gifts of appreciation were given to Miss Teuton, Dr. Record, and Mrs. Quentin Adams, chapter sponsor and teacher of the class.

Students participating in the cooperative class are employed fifteen hours each week besides attending school.

In attendance from the school were Johnny Peck, R. L. Knox, Mr. and Mrs. Douglas Degge, and Mr. and Mrs. Elvin Lyon.

The following students and their employers attended the dinner: Terry Cooper and Carmen Blanco with Mr. and Mrs. Glen Cooper of Longhorn Inn; Sandra Stansell with Mr. and Mrs. Wilbur Mize of Mize's Pharmacy; Pam Teuton with Mr. and Mrs. Dub Hallmark and Mrs. Dan Teuton; Margarito Arellano, Jr. with Claude Brown of Brown's Department Store; Nelly Arjona with Mr. and Mrs. W. C. Whitlock of the high school lunchroom; Gwen Howard with Mr. and Mrs. Fritz

Schacht of Simpson's Jewelry and Floral Shop; and Yolanda Balderas with Mrs. Arvie Newton of Gene's Cafe.

Not attending were Larry Colis, employed at Keeter's Grocery, and Mr. and Mrs. Alvin Wilson, employers of Carmen Blanco.

Boy Scouts Enjoy Camping Trip

Lockney Boy Scout Troop 259 members spent last weekend in Palo Duro Canyon camping out, and found that rain, wind and cold are not the best weather conditions for such an expedition.

Making the trip were Barney Bill McCarter, Dale Kidd, Mike Ferguson, Brad Blendon, Ricky Gross, Lonnie Hooten, Zach Zachary, David Lee, Boyd Lee, Vernon Hise, Dwayne Strickland, Todd Burleson, Curtis Ford, Randy Ford, Buddy Wiley, Tommy Burt, Jimmy Burt and Randy Welch.

CLARENCE ANSLEY is shown with twin calves born three days ago. The calves belong to Clarence Henry Ansley. The Ansleys have about 86 head of cattle south of Lockney.

"Should Congress fail to pass a meaningful cotton program this year for 1974 and subsequent years, cotton production in the U.S. will be severely curtailed and the ill effects will be felt by every individual, every community, every city and every state in these United States."

Ray Joe Riley of Hart, president of Lubbock-based Plains Cotton Growers, Inc., made this statement March 22 before the House Agriculture Committee as a part of PCG testimony urging an extension of the Agriculture Act of 1970 which expires with the 1973 crop year.

Riley stated that a government cotton program is essential to the continued production of cotton "because it costs more to produce cotton than the competitive price at which cotton must be sold, and no one can stay in business while continuously selling his product at below cost."

Enumerating some of the adversities that would be visited on the nation in the event of greatly reduced cotton production, Riley said "The consuming public would be defenseless against the pricing policies of a few man-made fiber manufacturers and would be denied the multiple advantages of clothing and other products with cotton fiber content;

"The nation would be deprived of cotton's \$500 million annual contribution to solving our balance of payments problem;

"A large part of some 12 million acres now devoted to cotton production would be thrown into the production of other crops, upsetting the agricultural balance and negating all efforts to provide a stable supply of all commodities at reasonable prices;

"More than \$13 billion invested in land and equipment to grow cotton would be placed in jeopardy, plus billions more invested in gins, oil mills, warehouses, textile plants and related industries;

"Agricultural suppliers would be faced annually with finding new outlets for almost a billion dollars worth of power, equipment, labor, chemicals and other inputs now needed for cotton production, and

"The gainful employment of almost 13 million people would be adversely affected, with a large number of these finding it necessary to look for a totally new source of livelihood.

Reiterating that without supplemental income from a cotton program farmers cannot and will not continue the production of cotton on anything like the scale of recent years, Riley called for the following specific provisions in a future program:

1. A continuation of the 15 cents per pound payment, which he said was the absolute minimum which, when added to a competitive price for cotton, would cover production costs and provide even the most meager return to capital, management and labor.

2. A payment limitation no lower than the present \$55,000 per person per crop.

3. A mandatory loan level at 90 percent of the average world market price, with no authority for USDA to adjust the level downward.

4. A base cotton acreage allotment, on which payments are made, no lower than the 11.5 million acre national allotment in effect for 1971 and 1972.

5. Acreage sale and lease provisions as continued in current law, plus provision for leased acreage to become a part of planting history on leasing farms.

6. Farm yields for payment purposes determined by the current method, using a three-year average of actual yields adjusted for adverse conditions beyond producer control.

7. A continuation of the present anniversary-date loan system which allows producers to retain control of their crops for 12 months or more, plus the initiation of an 18-month research privilege, and

8. Continued allocation of Commodity Credit Corporation funds for Cotton Incorporated to carry out product development, research and promotion activities in conjunction with the producers' dollar-a-bale program.

"Finally, Mr. Chairman," Riley concluded, "we would urge that the Act of 1970 be extended for a minimum of five years, making it possible for us to plan our farming operations more than a year or two in advance."

that it hung below her waist and the whole family liked to watch her comb and brush it at night and braid it into two long large braids. I have a son out in California with a beautiful wife and daughter who would be perfectly happy if neither ever had their hair cut. I guess it just runs in the family to admire long beautiful hair. Ask your wife tonight if she will let you stroke her beautiful hair and she is apt to remove it, toss it to you and say "stroke away, big boy." It may look good but somehow it isn't the same.

It was customary that just as soon as school was out for the summer, the father would take the little boys down to the barber shop for their summer haircut. This consisted of the "peeled onion look" with white scalp taking up where the tan face left off. The little hair left after the clippers had done their worst was now lathered up, and a big rock of alum was rubbed all over the head. Supposedly, this would make the hair that was left stand up for better appearance. This haircut lasted all summer.

The coming of school in the fall was the time of buying new shoes, school clothes, and the first haircut of the fall. The cloth tied around the neck was usually damp (clean ones were only used for grownups) and somehow hair always got through, down the neck as well as in the nose and ears. But an unshorn kid in school would be a disgrace to the family - so like lambs to the slaughter - we were led to be shorn.

In the 20's there were still a few moustaches around. My Granddad Edwards had one. I believe that the two most magnificent ones were on two

Dear Mr. Tooley:
This is to tell you of the enjoyment I have gotten from the articles written on "Floydada in the 20's" by Arthur Gamble.

After I read them and laugh and dwell on memories, I give them to my sister, Thelma Teeple Nelson who too enjoys them. Then last week with all the back issues together she takes them to the home of Arthur and Bertha Savage where Kathelene Snodgrass Hill also lives. Those three think they are so good that Bill Coville and his wife must read them.

From the Coville residence I receive a phone call asking me if they may take them with them on a trip to California so Bill's sister Louise Coville Shaffer could read them.

I hate for my copies to be gone so long for I want to share them with Waldo Houghton and Reid Strickland. However, they assure me a safe return.

My sister-in-law Velma Terry Stevens who also takes the Hesperian has begun to save hers, also.

The above mentioned are Floydada people who now live in Amarillo. Yet I must tell you that two of my neighbors who have never been to Floydada also enjoyed them.

May I add that now I have proof I wasn't exaggerating when I would tell my daughters, Gloria Gross and Addie Hartline, stories about what I call "The good ole days." Thanks again to both you and Arthur and I am looking forward to the remaining articles.

former sheriffs - Mr. Grigsby and Mr. Maddox.

The coming of the beauty parlor destroyed forever the masculine air of the barber shop. Recently, purely by accident, I happened to get into a "hair styling salon" for

men and looked around. Please! Up there! Are you listening? Can't we do something to get back a vestige of the old male shops where they sell haircuts, shaves, massages, and shins like in the "Good Old Days!"

Floydada Tennis Club Plans Tournament

At a meeting of the Floydada Tennis Club Tuesday night plans were formulated for the Floydada Open Tournament July 12, 13 and 14. Over 100 players are expected here for the tournament.

President of the club Lon Davis assigned Mrs. Charles McDowell the job of getting letters and other publicity out on the event and appointed tennis coach Murphy Sales as general chairman.
