### Eastern Star Sister Honored

One of the most delightful social affairs of the season took place in the reception room of the Masonic hall Wednesday afternoon, June 13, 1923. Mrs. F. L. Cochran, Past Worthy Matron of Sanderson Chapter No. 136, was hostess to the members of the O. E. S., honoring Miss Myrl McKee who has just returned from Austin where she graduated from the State University with the June '23 class.

The reception room was tastefully decorated with cut flowers and the University colors, orange and white.

Mrs. W. A. Cochran, in a pleasing manner, presented the honoree with handsome book ends, a gift from the Sanderson Chapter.

Mrs. Chester Surratt, Worthy Matron, then presented her with a bouquet of flowers of the emblematic colors of that beautiful order. Mrs. Surratt, in a very impressive way, applied the teachings symbolic of the five colors to the good wishes of the Chapter for Myrl's future life.

Miss Ruby Cochran, a schoolmate through High School and the past two years at the University, next presented her with a beautiful bouquet of Shasta daisies, the University flower.

Following this, Mrs. F. L. Cochran first read an interesting letter from J. H. Walsh, who is a charter member of Sanderson Chapter and a very close friend of many Sanderson people, expressing his regrets at not being able to attend the reception. Then Mrs. Cochran paid tribute to the honoree's mother for her part in training the mind and moulding the character of the daughter for the great honors which she has had bestowed upon her and which she in turn has brought to our community. Whereupon the mother was presented with a lovely bouquet of roses, daisies, and fern.

Then followed the refreshments, which consisted of delicious orange ice and white cake, the color scheme of the whole affair being for their carried out. A Shasta daisy on each plate served as a favor.

About thirty-five guests were present, and all departed with many good wishes for the honoree and words of appreciation and gratitude to the charming hostess for the afternoon's pleasure.

Wear made-to-measure clothes and you will always appear well dressed. Call at the Royal Tailor Shop and let us show you some of the "smartest" samples for suits you ever seen. The cost is low and satisfaction guaranteed.

### FREEMAN—MARTIN

In the presence of a few relatives Miss Baslah Freeman of Dryden and Mr. Hubert Martin of Langtry were quietly married Tuesday morning, June 12th, at 9 o'clock, in the Court House, Judge G. J. Henshaw officiating.

The happy young couple left on No. 110 immediately after the ceremony for Langtry, where we understand the Langtry people celebrated the wedding by a big dance that night in the schoolhouse, where all their numerous friends met and wished them joy and success on their life's journey together.

A Mexican was brought to town Thursday evening from the Blackstone & Slaughter ranch, for surgical treatment. The Mexican had the middle finger of his right hand mashed entirely off. Dr. Robertson dressed the wound and the Mexican was taken back to the ranch.

### ELECTION OF OFFICERS

At a meeting, Tuesday night, June 12th, of Sanderson Lodge 988 A. F. & A. M., Sanderson, Texas, the following officers were elected:

F. H. Talbot, W. M.  
W. H. Savage, S. W.  
S. C. Bodkin, J. W.  
Dr. Robertson, Treasurer,  
Max Bogusch, Secretary,  
W. A. Cochran, Tiler.

Installation of officers will be held Tuesday night, June 20th.

### BIDS ON WOOL REJECTED

Five wool buyers were in town Monday from San Antonio and San Angelo representing Boston wool houses endeavoring to buy the spring clip of wool stored in the Sanderson Wool House. Bids were made by each buyer but unfortunately their bid was not high enough, consequently the wool was not sold this time. The wool buyers were: Burns, Angel, Palmer, Allison and Buel.

Madison Made Silk Shirts can be bought from \$1.00 to \$15.00 and size 13 1/2 to 17 at the Royal Tailor Shop.

### CATTLE SHIPMENTS

The cattle shipments for the past week has been very strong here. The cattle in most parts of the country are fat and the markets have been strong and steady, therefore the cattlemen are letting loose of some of their stock. Among the shippers the past week are as follows: Tuesday, 12th Charles Downie, 3 cars to Fort Worth; Thursday 14th, Charles Downie, 2 cars to Fort Worth, J. Q. Carter 2 cars to El Paso; Friday, 15th Cecil Arvin 3 cars to El Paso and Prosser and Brown of Dryden shipped 3 cars to El Paso, Thursday 14th.

### ANOTHER VICTORY

Last Sunday afternoon at the Indian Ball Park the strong ball team of Langtry was defeated by the Sanderson Indians in a slow, slugger and wild playing 11 inning game, by the score of 14-13. It was a tit-for-tat game, plenty of hitting and errors on both sides. It looked like Langtry was coming out on top until "Red" Cavender brought in the tying run in the 9th and in the 10th and 11th innings both sides tightened down. In the 11th with two men on bases Deice hit safely scoring Cavender for the 14th run.

Batteries: Langtry, Frost and H. Dodd; Sanderson, Cavender, C. White and Stirman. Time of game, 2:45.

Just received a full line of men, women and children Peters Weatherbird Solid Leather Shoes at Smith & Eldridge, the Store of Service and Quality.

### FIVE TRAGEDIES

A man struck a match to see if the gasoline tank of his auto was empty. IT WASN'T.

A man patted a strange bull dog on the head to see if the critter was affectionate. IT WAS NOT.

A man speeded up to see if he could beat the train to the crossing. HE COULDN'T.

A man touched a dangling electric wire to see if it was charged. IT WAS.

A man cut out his advertising in THE TIMES to see if he could save money. HE COULDN'T.

Wear a Madison made silk shirt and keep cool this summer, for sale at the Royal Tailor Shop, all sizes and prices.

### RATTLE OF THE RAIL

A passenger special of the Elliott Tours passed through Sanderson Thursday going enroute to California.

No. 101 was several hours late Thursday for the first time in quite awhile.

Fireman P. W. Kinchee visited in El Paso Sunday.

Engineer O. S. Blanton is back on his passenger run between El Paso and Sanderson after several months lay off.

Engineer W. E. Gorman of El Paso passed through Sanderson Monday for Boston. He will visit Canada and other points while gone.

Fireman J. A. Rody and wife have gone to El Paso.

Fireman J. H. Acosta has been assigned to a passenger run between El Paso and Sanderson.

Mr. and Mrs. L. M. VanZandt arrived home Friday morning and were congratulated by their friends.

Gus Collins and family have moved to Lordsburg, New Mexico, where Gus has secured a job with the S. P. Railway. The family went overland in their fliver. Their numerous friends here wish them joy and success.

## TEXAS LAWMAKERS BUSY AT CAPITOL

### Solons Hold Long, Tedious Sessions to Finish Work Before Them.

Austin, Tex.—General educational appropriation bill was passed by the house Friday on suspension of rules by vote of 90 to 24.

The measure was passed as report by the appropriation committee without amendments and is a reduction of \$1,400,000 over the educational bill passed last session. The appropriations total \$10,400,000.

The Cowen gasoline tax bill in substitute form was passed finally by the senate Friday, 31 to 2. The Wirtz substitute measure levying the tax strictly on wholesale dealers and embracing all gasoline sold in Texas, including imported products, was adopted over the Patman house amendment, which sought to levy the tax on refiners.

Senators Fairchild and Stuart were the only members voting against the measure, which is designed to correct the gasoline act passed by the last session. An amendment by Cousins extending the time for payment of the taxes provided in former acts was adopted.

The senate passed two other general measures and killed a third. The Patman bill, which proposed a one-half per cent occupation tax on all refined petroleum products, was defeated when it was indefinitely postponed by vote of 15 to 4. The bill reappropriating unexpended sheriff's fees in the state treasury and that changing the name of the insurance and banking department to insurance department were passed.

#### Governor Submits Subjects.

Austin, Tex.—Ten additional subjects and a number of local measures were submitted to the legislature for consideration Friday by Governor Neff in a special message.

Included in the list of subjects is the headlight bill, trucks and motor vehicle regulations and state illiteracy commission.

Other topics submitted were: Teaching state and federal constitution in schools.

Equalizing taxes so that each dollar's worth of property will bear a proportionate part of the tax burden.

Permanent improvements at the state university.

Changing name of insurance and banking department.

Making it a penitentiary offense for any persons engaged in transportation or manufacture of intoxicating liquors to possess firearms or deadly weapons.

Amendments to agricultural financing pool act passed by last session.

#### Friday's Senate Proceedings.

Austin, Tex.—Passed: Cowen substitute gasoline bill placing 1c per gallon tax on wholesale dealers; Wood, reappropriating unexpended sheriff's fees; Floyd, changing name of insurance and banking department; Wood, educational appropriation bill as substitute for house bill; Darwin, reappropriating fund for University land acquisition; Quinn, sulphur tax bill.

Killed: Patman, occupation tax on refined petroleum products; Rice, tuition for state institutions.

Reported: Greer, rural aid appropriation bill with reduction to \$1,900,000 annually.

Adopted: Conference report on miscellaneous claims bill, totaling \$840,000.

#### Friday's House Proceedings.

Austin, Tex.—Passed: General educational appropriation bill totaling \$10,400,000, a reduction of \$1,400,000 over the same measure vetoed.

Considered: Departmental appropriation bill, voting down amendments by Pope to strike out board of control and by Abney to reduce state ranger force.

Adopted: Resolution declaring as "disgraceful" action of legislature on state correspondence school bill; conference committee report on judiciary appropriation bill totaling \$3,216,000, sending bill to governor.

Reported: Favorably, Sackett, common carrier motor vehicle bill; Williamson, headlight bill; Moore, reappropriation university land acquisition funds; Bonham, authorizing \$6,000,000 loan for permanent improvements at State University; Stroder, making felony to sell poisonous liquors; Stroder, making offense to appear in public while intoxicated.

Introduced: Fugler, closed season on game; Beazley, transferring title of unoccupied blind institute to state for use by insane hospitals.

Thursday's Senate Proceedings. Austin, Tex.—Passed: Wood, departmental appropriation bill totaling \$6,569,000.

Adopted: Conference report on judiciary appropriation bill.

Reported favorably: Baldwin, bills

Fort Worth, Tex.—The government won its first victory in its drive against alleged fraudulent oil promoters Tuesday when Charles Sherwin and H. H. Schwarz were sentenced to serve 10 years in the federal penitentiary and pay fines of \$15,000 each and "General" Robert A. Lee was sentenced to serve two years in the penitentiary and pay a fine of \$6000. The sentences and fines were imposed on the defendants by Federal Judge Benjamin Bledsoe after the jury had returned a verdict of guilty against all three defendants.

### proposing occupation tax on circuses and carnivals.

Conference committee named on eleemosynary and the miscellaneous claims bills.

Introduced: Bills covering governor's call.

#### Thursday's House Proceedings.

Austin, Tex.—Considered: General education appropriation bill.

Defeated: Pope, substitute bill to itemize the appropriations carrying reductions of over \$2,000,000.

R. M. Johnston, Houston, former state and United States senator, addressed the house.

Farm "bloc" adopted resolutions favoring passage of Price income tax bill.

#### Wednesday's Senate Proceedings.

Austin, Tex.—Engrossed: Quinn sulphur tax bill after defeating amendments to include cement, lumber and other products under the act.

Considered: Departmental appropriation bill, making reductions totaling \$108,000.

Reported favorably: Patman gross receipts tax on products of refined petroleum; Downs, delinquent tax bill.

Adopted: House concurrent resolution inviting Senator Pat Harrison of Mississippi to address joint session.

#### Wednesday's House Proceedings.

Austin, Tex.—Passed: Eleemosynary appropriation bill totaling \$6,470,000; Smith, miscellaneous claims bill amounting to \$775,000.

Refused to concur in senate amendments to judiciary appropriation bill.

Conference committees named on judiciary and reclamation bills.

Concurrent resolution setting adjournment for June 11 introduced by Representatives Teer and Quaid.

Introduced by Bonham, requiring rendition of stocks and bonds for taxation.

#### Tuesday's Senate Proceedings.

Austin, Tex.—Passed educational appropriation bill, totaling \$11,800,000; judiciary appropriation bill.

Debated Cowen's gasoline tax bill and Rice's educational tuition bill.

Reported favorably Cowen's gasoline tax bill after eliminating Patman's amendment placing tax on refiners; house judiciary appropriation bill.

#### Tuesday's House Proceedings.

Austin, Tex.—Passed Henderson's \$6,000,000 emergency school appropriation bill; Greer's \$3,000,000 rural school aid bill; Carpenter's property rendition bill and Turner's bill extending oil and gas permits on state lands.

Engrossed Bonham's delinquent tax act amendment.

Reported favorably emergency appropriation bill; unfavorably Price's income tax bill.

Ordered printed on minority report Price's income tax bill.

#### Monday's Senate Proceedings.

Austin, Tex.—Engrossed: The Price house bill, reducing reclamation appropriation.

Considered: General educational appropriation bill.

Monday's House Proceedings. Austin, Tex.—Passed: Judiciary appropriation bill; Carpenter tax rendition bill; Downs, providing for inheritance tax collections.

Adopted: Resolution to allow \$200 for printing agricultural credits bill passed by last session.

Authorized Speaker Seagler to communicate with absent members and request their return to Austin.

Introduced: Price income tax bill, with 2 per cent flat tax; Smith, \$20 license fee on insurance agents; Quaid educational and departmental appropriation bills; Green occupation tax on firms operating under declaration of trust; Stewart (Edwards) gross receipts tax on dance halls.

Reported: Favorably, educational appropriation bill totaling \$10,450,000; the departmental appropriation bill amounting to \$5,911,548.

#### FIFTEEN BILLS ARE LAWS WHILE SEVEN ARE VETOED

Austin, Tex.—Governor Neff Monday cleared his desk of measures passed by the second called session of the legislature when he signed eight bills, filed seven to become laws without his signature and vetoed seven.

Chief among the bills signed is the Thomas electrocution act. This substitutes electrocution for hanging in capital punishment cases. Electrocuting will take place at the state penitentiary. The act is effective ninety days after adjournment.

The so-called "blue sky" act, seeking to prohibit fraudulent activities in stocks and bonds, also was signed as was the bill creating a separate banking department.

Other bills signed or filed include: Regulating the quantity of packages and containers, appropriating \$10,000 for assisting disabled former service persons; substitute gasoline tax; creating state plant breed examiner's board.

The principal bill which was vetoed was the Burkett bill, seeking to create the eleventh court of civil appeals at Eastland. Veto of this measure was because there are already too many courts of civil appeals, the governor said.

For the second time the governor entered his disapproval on a measure which sought to annul the book contracts let by the text book commission last December. The Pope bill, vetoed Monday, provided for extending contracts in force last December. The governor said the bill did not come within the call of the special session and also that it seeks to "impair the obligations of contracts heretofore made by the state," which he said is unconstitutional.

The Winfree resolution, proposing an investigation of Texas oil companies, also was vetoed.

## Silver Jubilee Parade of Greater New York

An excellent view of the Silver Jubilee parade of Greater New York down Fifth avenue. Forty thousand men and women, including part of the city's governing forces, with 100 bands, military units, marine detachments and the equipment of several city departments, were in the line of march.

### RADIO USED BY CUPID

Mrs. Pearl Surtees, pretty widow of Montreal, knew all the time that Robert Edwards, Ottawa financier, loved her enough to pop the question, but he lacked the courage to do so and she went on the round-the-world cruise on the liner Samaria. When the ship was nearing San Francisco for its first American call she received a proposal by radio and accepted.

### GERMAN AGITATOR

Doctor Iortzen, famous German agitator, photographed on his recent visit to Paris where he had traveled incognito. He is in favor of a separate Rhine republic.

### MUSSOLINI'S MATE

This is Donna Rachele Mussolini, wife of Benito Mussolini, Italian premier and chief of the Fascist.

## Place of Paine's Death Marked

A tablet in honor of Thomas Paine was unveiled recently at the three-story house at 29 Grove street, New York city, which occupies the site of an earlier house in which Paine died in 1806. The date selected marked the 114th anniversary of the death of the author of "Common Sense" and the "Rights of Man." The tablet was erected by the Greenwich Village Historical society. The photograph shows Mrs. Catherine Parker Olivette, president of the society, with Mrs. Samilla Jameson Heitzmann, the sculptress, holding the tablet in front of the house.

## Ambassador A. P. Moore in Madrid

Perhaps it was because he had just been received in audience by the king of Spain that Alexander P. Moore, American ambassador to Madrid, looked so serious when this photograph was taken. He is seen conferring with Prime Minister Albuemas and Minister of Foreign Affairs Alba.

## Los Angeles Has Indian Wedding

In the first Indian wedding in Los Angeles since the Spanish days, Jimmie Lone Bear, fifty years, and Julia Wolf Moocans, forty-eight years, were united in marriage by Judge Summerfield.

### STATE PRO STATUTE SHOWS A DEFICIT

Austin, Tex.—A conflict has developed between the federal prohibition law and the bill enacted by the second called session of the Texas legislature, which requires that the sheriff shall be the custodian of all whiskey seized and be held responsible therefor. This is intended to be a check on the amount of whiskey seized.

Frank M. Cole, federal prohibition director for Texas, has conferred with Governor Neff regarding the situation. According to Mr. Cole the United States district attorneys must have the evidence when they prosecute cases, and if the state law should prove inflexible in prohibiting the sheriff from getting up then prosecutions will be in state or federal courts, according to who made the arrests. Heretofore, because the Dean state law did not make it an offense to possess liquor the federal officers "adopted" such cases where arrests were made by state officers and prosecutions made in the federal courts. It will be impossible to continue this practice if the new state law will not permit the sheriff to surrender the seized liquor to the federal authority.

### GRAIN CROP TO BE SMALLER THIS YEAR

Washington.—The principal grain crops of the country will be smaller this year than last, with the exception of oats and barley, both of which have been planted on larger acreages than a year ago, according to the department of agriculture's monthly report, issued Friday. No reports have been made yet on corn.

Winter wheat shows slightly improved prospects resulting from May conditions, and a crop of 581,000,000 bushels is forecast. This total is a little more than was indicated a month ago and about 5,000,000 bushels less than last year's crop.

The season's first forecast of spring wheat production reported the prospective yield at 236,000,000 bushels, or 40,000,000 bushels less than last year's crop, which was placed at 276,000,000 bushels in revised statistics. The spring wheat acreage is 5.1 per cent less than last year's.

Smaller crops of peaches and apples than last year are indicated.

### GRIMES COUNTY PERFECTS GOOD ROADS ASSOCIATION

Navasota, Tex.—A permanent organization of the Grimes County Good Roads Association was formed at a meeting held at Anderson recently, a large number of citizens being present from all sections of the county.

Officers and directors were selected as follows: J. T. Swanson, president; Earl Yeager, first vice president; T. P. Buffington, treasurer; J. B. Leigh, temporary secretary; directors, J. T. Swanson, T. P. Buffington, G. C. Stoneham, T. J. Tucker, J. R. McAdams, Earl Yeager, G. C. Saunders, S. E. Hooker, W. W. Greer.

The association was organized for the purpose of providing a permanent working organization in Grimes County for the promotion of good roads. The present membership is about 250.

#### Freight Car Loadings.

Washington.—Railroad freight car loadings went to 1,014,029 cars during the week ending May 26, a total exceeded in only two previous weeks of transportation history in the United States. Car loadings have passed the million mark per week only seven times, according to the railroad records, and these were all during the fall periods of 1920 and 1922. Practically all commodities except coke, in the week of May 26, were moved in greater quantities than in any previous week this year. Merchandise and miscellaneous freight filled 590,139 cars of the total, while coal required 192,092 cars.

#### New Orleans Cotton Market.

New Orleans, La.—Rather pronounced uneasiness was displayed by cotton Friday, mainly on account of the unfavorable events abroad. In the early trading the selling was due mainly to the rejection by France of the latest German proposals, following which there was a period of comparative steadiness and minor recoveries, but after the middle of the session the market broke to its lowest levels on the receipt over private wires of cable messages from Paris stating that France had sent a strong note to Germany demanding that resistance to interallied military control cease immediately.

#### Crops Grown on Irrigated Lands.

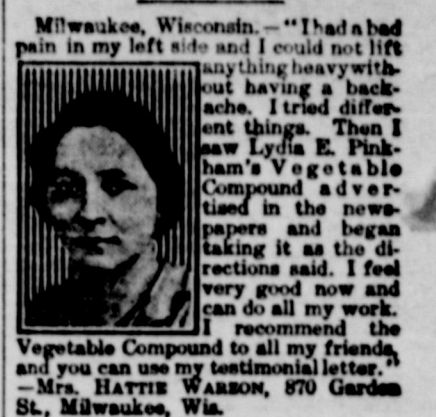

Washington.—Crops grown last year on irrigation projects operated by the reclamation service were valued at \$53,000,000, it was announced this week by the department of the interior. The crops represented the harvest of 1,169,000 acres. On a million acres of private lands irrigated by water sold from the department's reservoir crops valued at \$33,000,000 were raised last year.

#### School Tax Levied.

Yoakum, Tex.—Four hundred and sixty-seven votes were polled in a school tax election held at Yoakum for the purpose of levying a tax of 60c on the \$100 valuation of property in territory annexed to the city limits for school purposes only. The election carried, with 377 votes for and 90 against. The tax was assessed for 1923 and thereafter until specifically discontinued.

## 2 MORE WOMEN JOIN THE ARMY

### Of Those Who Have Been Restored to Health by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wisconsin.—"I had a bad pain in my left side and I could not lift anything heavy without having a back-ache. I tried different things. Then I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and began taking it as the directions said. I feel very good now and can do all my work. I recommend the Vegetable Compound to all my friends, and you can use my testimonial letter." —Mrs. HATTIE WADSON, 870 Garden St., Milwaukee, Wis.

### Gained in Every Way

Buffalo, N. Y.—"I had some female troubles that just ran my health down so that I lost my appetite and felt miserable all the time. I could not lift anything heavy, and a little extra work some days would put me in bed. A friend had told me to try Lydia E. Pinkham's Vegetable Compound and I gained in every way, could eat better and felt stronger. I had found nothing before this that did me so much good." —Mrs. J. GRACE, 231 Wolva Avenue, Buffalo, N. Y.

# The Secret Adversary

By AGATHA CHRISTIE

(Copyright Dadd, Mond & Company)

## TOMMY AND TUPPENCE

Love, adventure, fighting, humor, an attractive hero and heroine, a capable literary workman for an author—given these and you have always a good story and often the kind that keeps you up 'til night to finish it. Add a real mystery, cleverly handled, and you see a real thriller of a yarn. Well, that's all here. That's why "The Secret Adversary" is hard to lay down until the last page is read. In fact, this story is "good measure, pressed down and shaken" because it's got a World War tingle to it and a patriotic thrill.

Mr. Brown, the evil genius of the story, rules a clever and dangerous band. So cleverly does he remain in the background that not even his agents knowingly set eyes on him. So, in the next to the last chapter you are in for a surprise when you learn the identity of Mr. Brown and realize that he's been walking about in plain sight all the time.

Agatha Christie, the author, is a young English woman who has developed the writing of a mystery story to a fine art. She wrote "The Mysterious Affair at Styles," which was widely read on both sides of the Atlantic. Her new story is international, too, and thus has thrills for all English-speaking readers.

## PROLOGUE

It was 2 p. m. on the afternoon of May 7, 1915. The Lusitania had been struck by two torpedoes in succession and was sinking rapidly, while the boats were being launched with all possible speed. The women and children were being lined up awaiting their turn. Some still clung desperately to husbands and fathers. One girl stood alone, slightly apart from the rest. She was quite young, not more than eighteen. She did not seem afraid, and her grave, steadfast eyes looked straight ahead.

"I beg your pardon."

A man's voice beside her made her start and turn. She had noticed the speaker more than once amongst the first-class passengers. There had been a hint of mystery about him which had appealed to her imagination. He spoke to no one.

She noticed that he was greatly agitated. There were beads of perspiration on his brow. He was evidently in a state of overmastering fear. And yet he did not strike her as the kind of man who would be afraid to meet death!

"Yes?" Her grave eyes met his inquiringly.

He stood looking at her with a kind of desperate irresolution.

"It must be," he muttered to himself. "Yes—it is the only way. I've got to trust someone—and it must be a woman."

"Why?"

"Because of women and children first." He looked round and lowered his voice. "I'm carrying papers—vital important papers. They may make all the difference to the Allies in the war. You understand? These papers have got to be saved! They're more chance with you than with me. Will you take them?"

The girl held out her hand.

"Wait—I must warn you. There may be risk—if I've been followed. I don't think I have, but one never knows. If so, there will be danger. Have you the nerve to go through with it?"

The girl smiled.

"I'll go through with it all right. And I'm real proud to be chosen! What am I to do with them afterward?"

"Watch the newspapers! I'll advertise in the personal columns of the Times, beginning 'Shipmate.' At the end of three days if there's nothing—well, you'll know that I'm down and out. Then take the packet to the American embassy, and deliver it into the ambassador's own hands. Is that clear?"

"Quite clear."

"Then be ready—I'm going to say good-by." He took her hand in his. "Good-by. Good luck to you," he said in a louder tone.

Her hand closed on the oilskin packet that had lain in his palm.

The Lusitania settled with a more decided list to starboard. In answer to a quick command, the girl went forward to take her place in the boat.

## CHAPTER I

The Young Adventurers, Ltd.  
"Tommy, old thing!"  
"Tuppence, old bean!"

The two young people greeted each other affectionately, and momentarily blocked the Dover Street Tube exit in doing so. The adjective "old" was misleading. Their united ages would certainly not have totaled forty-five. "Not seen you for simply centuries," continued the young man. "Where are you off to? Come and chew a bun with me. We're getting a bit unpopular here—blocking the gangway, as it were. Let's get out of it."

The girl assenting, they started walking down Dover street toward Piccadilly.

"Now, then," said Tommy, "where shall we go?"

The very faint anxiety which up-

delay his tone did not escape the astute ears of Miss Prudence Cowley, known to her intimate friends for some mysterious reason as "Tuppence." She pounced at once.

"Tommy, you're stony!"

"Not a bit of it," declared Tommy unconvincedly. "Rolling in cash."

"You always were a shocking liar," said Tuppence severely, "though you did once persuade Sister Greenbank that the doctor had ordered you beer as a tonic, but forgotten to write it on the chart. Do you remember?"

Tommy chuckled.

"I should think I did! Wasn't the old cut in a rage when she found out? Not that she was a bad sort really, old Mother Greenbank! Good old hospital—demolished like everything else, I suppose?"

Tuppence sighed. "Yes, Lou too?" Tommy nodded. "Two months ago." "Gratitude?" hinted Tuppence.

"Spent."

"Oh, Tommy!"

"No, old thing, not in riotous dissipation. No such luck! The cost of living—ordinary plain or garden living—nowadays is, I assure you, if you do not know—"

"My dear child," interrupted Tuppence, "there is nothing I do not know about the cost of living. Here we are at Lyons', and we will each of us pay for our own. That's that!"

And Tuppence led the way upstairs.

The place was full, and they wandered about looking for a table, catching odds and ends of conversation as they did so.

"Funny scraps one does overhear," murmured Tommy. "I passed two Johnnies in the street today talking about someone called Jane Finn. Did you ever hear such a name?"

But at that moment two elderly ladies rose and collected parcels, and Tuppence deftly ensconced herself in one of the vacant seats.

Tommy ordered tea and buns. Tuppence ordered tea and buttered toast.

And mind the tea comes in separate teapots," she added severely.

Tommy sat down opposite her. His bare head revealed a shock of exquisitely slicked-back red hair. His face was pleasantly ugly—nondescript, yet unmistakably the face of a gentleman and a sportsman. His brown suit was well cut, but perilously near the end of its tether.

They were an essentially modern-looking couple as they sat there. Tuppence had no claim to beauty, but there was character and charm in the elfin lines of her little face, with its determined chin and large, wide-apart gray eyes that looked mistily out from under straight, black brows. She wore a small bright green tunic over her black bobbed hair, and her extremely short and rather shabby skirt revealed a pair of uncommonly dainty ankles.

Her appearance presented a valiant attempt at smartness.

The tea came at last, and Tuppence, rousing herself from a fit of meditation, poured it out.

"Now, then," said Tommy, taking a large bite of bun, "let's get up-to-date. Remember, I haven't seen you since that time in hospital in 1914."

"Very well," Tuppence helped herself liberally to buttered toast. "Abridged biography of Miss Prudence Cowley, fifth daughter of Archdeacon Cowley of Little Missendell, Suffolk. Miss Cowley left the delights and drudgeries of her home life early in the war and came up to London, where she entered an officers' hospital. First month: Washed up six hundred and forty-eight plates every day. Second month: Promoted to drying aforesaid plates. Third month: Promoted to peeling potatoes. Fourth month: Promoted to cutting bread and butter. Fifth month: Promoted one floor up to duties of wardmaid with mop and pail. Sixth month: Promoted to waiting at table. Seventh month: Pleasing appearance and nice manners so striking that am promoted to waiting on the Sisters! Eighth month: Slight check in career. Sister Bond ate Sister Westhaven's egg! Grand row! Wardmaid clearly to blame! Inattention in such important matters cannot be too highly censured. Mop and pail again! How are the mighty fallen! Ninth month: Promoted to sweeping out wards, where I found a friend of my childhood in Lieutenant Thomas Beresford (how, Tommy), whom I had not seen for five long years. The meeting was affecting! Tenth month: Reproved by matron for visiting the pictures in company with one of the patients, namely, the aforementioned Lieutenant Thomas Beresford. Eleventh and twelfth months: Parlormaid duties resumed with entire success. At the end of the year left hospital in a blaze of glory. After that, the talented Miss Cowley drove successively a trade delivery van, a motor-lorry and a general. The last was the pleasantest. I've forgotten his name now, I next entered a government office. We had several very enjoyable tea parties. I had intended to become a land girl, a postwoman, and a bus conductress by way of rounding off my career—but the armistice intervened! I clung to the office with the true limp touch for many long months, but, alas, I was combed out at last. Since

then I've been looking for a job. Now, then—your turn."

"There's not so much promotion in mine," said Tommy regretfully, "and a great deal less variety. I went out to France again, as you know. Then they sent me to Mesopotamia, and I got wounded for the second time, and went into hospital out there. Then I got stuck in Egypt till the armistice happened, kicked my heels there some time longer, and finally got demobbed. And, for ten long, weary months I've been job hunting! There aren't any jobs! And, if there were, they wouldn't give 'em to me. What good am I? What do I know about business? Nothing."

Tuppence nodded gloomily.

"What about the colonies?" she suggested.

Tommy shook his head.

"I shouldn't think the colonies—and I'm perfectly certain they wouldn't like me!"

"Rich relations?"

"I've got an old uncle who's more or less rolling, but he's no good."

"Why not?"

"Wanted to adopt me once. I refused."

"I think I remember hearing about it," said Tuppence slowly. "You refused because of your mother—"

Tommy flushed.

"Yes, it would have been a bit rough on her. As you know, I was all she had. Old boy hated her—wanted to get me away from her. Just a bit of spite."

"Your mother's dead, isn't she?" said Tuppence gently.

Tommy nodded.

Tuppence's large gray eyes looked mistily.

"You're a good sort, Tommy. I always knew it."

"Rot!" said Tommy hastily. "Well, that's my position. I'm just about desperate."

"So am I! I've hung out as long as I could. I've tumbled round, I've answered advertisements. I've tried

every mortal blessed thing. I've screwed and saved and pinched! But it's no good. I shall have to go home!"

"Don't you want to?"

"Of course I don't want to! What's the good of being sentimental! You see, there are seven of us at home. It's awful! All housework and mothers' meetings! I don't want to go back, but—oh, Tommy, what else is there to do?"

Tommy shook his head sadly. There was a silence, and then Tuppence burst out:

"Money, money, money! I think about money morning, noon and night! I dare say it's mercenary of me, but there it is!"

"Same here," agreed Tommy with feeling.

There was a pause.

"Of course," resumed Tuppence, "marriage is my best chance. I made up my mind to marry you when I was quite young. Any thinking girl would! I'm not sentimental, you know." She paused. "Come now, you can't say I'm sentimental," she added sharply.

"Certainly not," agreed Tommy hastily. "No one would ever think of sentiment in connection with you."

"That's not very polite," replied Tuppence. "But I dare say you mean it all right. Well, there it is! I'm ready and willing—but I never meet any rich men! All the boys I know are about as hard up as I am. No marriage is fraught with difficulties. Remains—to make money!"

"We've tried that, and failed," Tommy reminded her.

"We've tried all the orthodox ways, yes. But suppose we try the unorthodox. Tommy, let's be adventurers!"

"Certainly," replied Tommy cheerfully. "How do we begin?"

"That's the difficulty. If we could make ourselves known, people might hire us to commit crimes for them."

Look here, Tommy, shall we really? Shall we form a business partnership?"

"Trading under the name of the Young Adventurers, Ltd.? Is that the idea, Tuppence?"

"It's all very well to laugh, but I feel there might be something in it."

"How do you propose to get in touch with your would-be employers?"

"Advertisement," replied Tuppence promptly. "Have you got a bit of paper and a pencil?"

Tommy handed over a rather shabby green notebook, and Tuppence began writing busily.

"Shall we begin? Young officer, twice wounded in the war—"

"Certainly not."

"Oh, very well, my dear boy. But I can assure you that that sort of thing might touch the heart of an elderly spinster, and she might adopt you, and then there would be no need for you to be a young adventurer at all."

"I don't want to be adopted."

"I forgot you had a prejudice against it. Now listen—how's this? Two young adventurers for hire. Willing to do anything, anywhere. Pay must be good. (We might as well make that clear from the start.) Then we might add: 'No reasonable offer refused—like flats and furniture. How would that strike you if you read it?'"

Tommy was holding the paper thoughtfully. His face burned a deeper red.

"Shall we really try it?" he said at last. "Shall we, Tuppence? Just for the fun of the thing?"

"Tommy, you're a sport! I knew you would be! Let's drink to success." She poured some odd drops of tea into the two cups.

"Here's to our joint venture, and may it prosper!"

"The Young Adventurers, Ltd.," responded Tommy.

They put down the cups and laughed rather uncertainly. Tuppence rose.

"I must return to my palatial suite at the hotel."

"Perhaps it is time I strolled round to the Ritz," agreed Tommy with a grin. "Where shall we meet? And when?"

"Twelve o'clock tomorrow. Piccadilly Tube station."

The two young people went off in opposite directions. Tuppence's hostel was situated in what was charitably called Southern Belgravia. For reasons of economy she did not take a bus.

She was half-way across St. James park, when a man's voice behind her made her start.

"Excuse me," it said. "But may I speak to you for a moment?"

Tuppence turned sharply, but the words hovering on the tip of her tongue remained unspoken, for the man's appearance and manner did not bear out her first and most natural assumption. She hesitated. As if he read her thoughts, the man said quickly:

"I can assure you I mean no disrespect."

Tuppence looked him up and down. He was a big man, clean shaven, with a heavy jaw. His eyes were small and cunning, and shifted their glance under her direct gaze.

"Well, what is it?" she asked.

The man took a card from his pocket and handed it to her with a bow.

Tuppence took it and scrutinized it carefully. It bore the inscription, "Mr. Edward Whittington." Below the name were the words "Esthonia Glassware company," and the address of a city office.

"How much do you know? And how much do you want?"

(TO BE CONTINUED.)

Education of Chinese Girls.

Because they marry so soon as they leave the grades the little girls in China receive a moral education in school. The average girl enters school at the age of ten, and is married shortly after she finishes her brief educational course. The proverbial Chinese politeness is taught in the school as well as in the home. From their very entrance into school up to the time when they leave the classroom the little girls learn how to greet, how to receive visitors according to the old Chinese laws of ceremony, how to offer tea, how to offer an umbrella to an aged lady or how to share it with a companion. (Home economics are taught.) Girls help their mother in the household and clean father's books. During the last year in grade school, the young Chinese daughters of modern families learn civics and receive a sort of patriotic instruction.

Nothing to Brag Of.

An advertisement reads: "The best nuts are grown in America." True enough, but why brag about 'em?"

Bottled Bosses.

## DAIRY BARN HAS UNUSUAL FEATURES

Attractive Building Houses 36 Cows and Their Feed.

## MANY PREFER GOTHIC ROOF

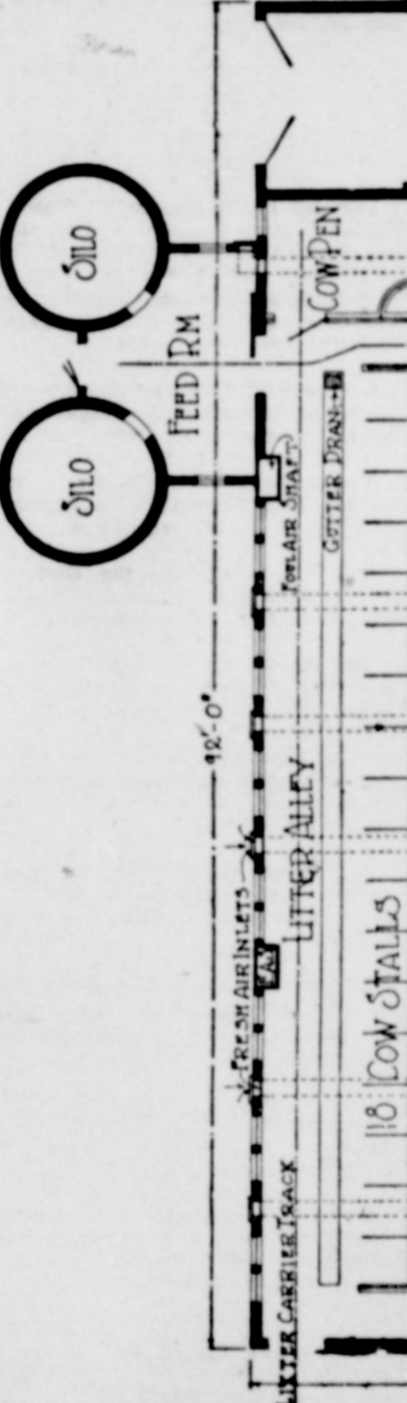

Barn is of Frame Construction With Concrete Floor and Foundation—Labor-Saving Equipment Provided for.

By WILLIAM A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building work on the farm, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 127 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

Dairymen who erect modern barns to house their herds and the feed for the animals also want attractive looking buildings. Good buildings add to the value of the farm and there is no reason why beauty should not be combined with utility.

Outside of their roof lines and the materials of which they are constructed dairy barns are very much alike. Whatever materials are used in the buildings the two types of roofs—gambrel and gothic—are suitable. Some prefer one and some the other. Adherents of the gambrel roof come

underneath doors to the loft above. The tackle carries the hay to the left where it is carried on a track to different parts of the mow.

The cow stalls are arranged so that the animals face a central alley or driveway which extends from double, sliding doors at either end of the building. The stall partitions are of steel, set into the concrete, while the manger is built in when the floor is laid. Metal manger partitions may be installed.

At every other stall head there is shown on the plan an individual drinking cup, which is accessible to two cows. This, of course, is connected to the pressure water system and supplies the animals with a constant supply of fresh water. Drinking cups, tests have shown, increase the milk flow considerably, some cases having been noted where the increase was 25 per cent.

At the rear of the stalls and along the walls are litter alleys, over which is a carrier track. The litter carrier is run along the track and the litter carried to the pile or shed outside. This makes the work of cleaning the stable comparatively easy. The carrier track also runs over the feeding alley and to the feed room between the two silos at the rear of the barn.

The stable is ventilated by the suction method, the foul air chutes being connected with the suction ventilators on the roof. Fresh air intakes admit the pure air. Constant circulation eliminates moisture that accumulates on the ceiling, especially during cold weather, when a ventilating system is not used.

The building is well constructed and is weather and practically airtight. It is so designed that it will keep the

## What would you do in his place?

The steeplejack lights his pipe and goes on painting

Imagine, if you can, a steeplejack 487 feet above the street level. Hanging on by his teeth he is applying a more or less rough-and-ready coat of paint to a flagpole.

It may seem foolish that a flagpole 487 feet in the air should need a coat of paint; but anyway, that's the case.

Right in the midst of a busy morning's painting an adventurous bee buzzes into the picture. In fact, there are two bees, both buzzing viciously.

What should the steeplejack do? There being in the profession no local rules for buzzing bees, your average steeplejack probably would get the all-clear signal from below and slide promptly down to safety.

But not Our Hero.

He takes out his pipe, lights it, and goes on painting.

"It soothes the nerves," he says frankly about pipe smoking.

And, by the way, although there are only twenty-five genuine, no-scaffold steeplejacks in the country, Our Hero is one of them.

We have no way of knowing what kind of tobacco the steeplejack pours into his pipe on those bee-buzzing occasions, but we have a feeling that it is Edgeworth.

For Edgeworth does much to give the smoker a sense of calm and peaceful security.

Of course, we wouldn't care to go on record as claiming that smoking a can of Edgeworth is as good as a two-weeks' rest cure in the mountains; but we would like to register very strongly the opinion that smoking any pipe makes life seem more worth living and that smoking a pipe filled with Edgeworth helps a lot.

At least, smokers from all parts of the country write in to tell how much Edgeworth helps them in the general pursuit of health, happiness and several good pipefuls a day.

If you are interested in finding out more about Edgeworth, the most sensible plan is for you to let Larus & Brother Company send you some free samples so that you can try the tobacco for yourself.

Just write your name and address down on a postcard and you will receive immediately generous helpings both of Edgeworth Plug Slice and Ready-Rubbed. If you will also include the name and address of your tobacco dealer, we will make it easier for you to get Edgeworth regularly.

For the free samples address Larus & Brother Company, 67 South 21st Street, Richmond, Virginia.

To Retail Tobacco Merchants: If your jobber cannot supply you with Edgeworth, Larus & Brother Company will gladly send you prepaid by parcel post a one- or two-ounce carton of any size of Edgeworth Plug Slice or Ready-Rubbed for the same price you would pay the jobber.

No Objection From Father.

**INDEPENDENCE DAY**

"We all know so well," said Daddy, "about Independence day and the history of the day, that it seems almost a waste of time to repeat it were it not for the fact that important events are worth repeating."

"It is nice, for example, for us to have our birthdays celebrated, and upon our birthdays all those who love us center their attentions upon us for that day."

"We enjoy it, and it does not spoil us nor make us conceited—it just makes us proud that those we love love us!"

"And so it is, it seems to me, with a country's birthday or a national birthday of some sort. Because we are proud of our country we honor it, so we like to do it special homage on days which have been so important in its history."

"So every Independence day, or Fourth of July, I like to think of that July 4th in 1776 when the Declaration of Independence written by Thomas Jefferson was adopted by congress and read to the people in Independence square, Philadelphia."

"And then I, too, like to think of Independence hall and of its many associations with American history, but principally because it was the home of a nation's great decision."

"Bells pealed forth to celebrate the declaration—the joyous congratulations to a nation upon its first great birthday."

"I like to think, too, of Independence hall used later as the building where sat the convention which framed the Constitution of the United States."

"Now the building is used as a museum in which are all kinds of interesting relics which have to do with American history."

"So, when the Fourth of July comes around, we like to do a little exclaiming of joy and pride and affection, and we have firecrackers and brilliant fireworks and parades and brass bands, and we hang out our flags. Just as the bells pealed forth on the country's first birthday so we gaily and, in our various ways, shout our birthday wishes and congratulations to the country."

"And the bird which has been chosen as the emblem of this country—the bald eagle—is very wonderful and amazing vision or eyesight, which seems so particularly splendid."

"For doesn't it seem fine to think that our national bird is not only so powerful and so free and so much a part of the whole country—for his range is not limited to one part—but that he can see so far?"

"For when our national bird can see so far, it makes us try to see far ahead, too, and to see clearly and to see truly, so that we can all do our best to march on along the path set for us that July 4th, 1776, in Independence hall, Philadelphia."

"And both the children shouted: 'You're right, Daddy; you're beautifully, wonderfully right!'"

**REPORT OF MARKETS**

**Price Range of Cotton, Grain, Hay, Feed, Live Stock, Meats, Fruits, Etc.**

Latest report of markets, issued by Bureau of Agricultural Economics, U. S. Department of Agriculture, Washington, D. C.

**Fruits and Vegetables**—Carolina potatoes firm in New York and at shipping points for the week, weaker in other markets. Other varieties declined. Strawberries and watermelons sell steady to firm. Cantaloupes sell lower. Peaches and tomatoes command fairly good prices in leading markets.

Prices reported June 7: South Carolina Irish cobbler potatoes, \$5.00@ \$6.25 per barrel in city markets; \$4.75 to \$5.25 f. o. b. North Carolina and Virginia Irish cobbler from Hampton section, \$4.50 to \$5.00 in Baltimore. Alabama and Louisiana sacked Bliss triumphs, \$3.00 to \$3.30 per 100 pounds in mid-western markets; \$2.75 f. o. b. California salmon tint cantaloupes standard 4's, \$4.00 to \$5.00 in mid-western markets; \$3.00 to \$3.00 in eastern cities; \$2.25 to \$2.75 f. o. b. cash track at shipping points. Maryland, Delaware and New Jersey strawberries various varieties sold in eastern cities at 10 and 25c quart baskets. Kentucky and Missouri aromas, \$3.75 to \$4.75 per 24-quart crate in consuming markets; \$3.00 to \$3.00 in producing sections. Watermelon supplies limited; demand moderate. Florida Tom Watson melons 22/30 pounds average \$4.00 to \$4.50 bulk per car in leading markets, \$2.75 to \$3.00 f. o. b. cash track in producing sections. Georgia Umeida peaches in six basket carriers \$2.50 to \$4.50 in a few markets, \$1.75 f. o. b. shipping points. Mayflowers \$3.50 in Baltimore. North Carolina Mayflowers \$3.00 to \$3.50 in Washington. Florida Mayflowers \$3.75 to \$4.00 in Chicago. Florida tomatoes in 6 basket carriers mostly \$4.00 to \$4.00 in Chicago, \$3.25 to \$3.50 in New York. South Carolina sixes \$4.00 to \$5.50 in New York and Philadelphia. Mississippi green wrapped tomatoes in 4 basket carriers \$2 f. o. b. shipping points.

**Hay**—Scarcity of good timothy hay causing firm prices in eastern and central western markets. Quotations advanced 50 cents to \$1.00 per ton. Poor grades less active, but prices fairly steady. Demand also of limited volume. Southern markets reported rather dull. Quoted June 6: No. 1 timothy New York \$27, Philadelphia \$23, Cincinnati \$20.50, Chicago \$23.50, Minneapolis \$17, St. Louis \$23.50, Atlanta \$26.50, Memphis \$26. No. 1 prairie St. Louis \$23, Minneapolis \$17.

**Feed**—Mill feed markets very dull and decidedly lower. Wheat feeds somewhat easier with increased offerings and slow demand. Considerable pressure in a number of markets to sell loaded and immediate shipment bran. Future shipment offerings of wheat feeds not as plentiful as they were last week. Cottonseed meal \$1.00 lower and in poor demand. Receipts and movement fair. Quoted June 6: Bran \$23.50, middlings \$26.75, flour middlings \$29.50, rye middlings \$26.50, Minneapolis; 36 per cent cottonseed meal \$36.50 Memphis, \$37 Atlanta; 32 per cent linseed \$35.50 Minneapolis, \$37.50 Buffalo; gluten feed \$37.15 Chicago; white hominy feed \$31.50 St. Louis, \$33.50 Chicago.

**Grain**—Wheat prices declined early in week on bearish crop estimate and continued uncertain throughout remainder of week. Chicago July wheat made a net decline of 3/4c. Corn had independent strength and advanced 2 1/2c.

Wheat market nervous and erratic on the 7th but held reasonable steady on complaints of rain in parts of Oklahoma and Kansas. Corn under pressure and lower on selling by recent buyers.

Closing prices in Chicago cash market: No. 2 red winter wheat \$1.23; No. 2 hard winter wheat \$1.13; No. 2 mixed corn \$2c; No. 2 yellow corn \$4c; No. 3 white oats 45c. Average farm prices: No. 2 mixed corn in central Iowa 60c; No. 2 hard winter wheat in central Kansas 94c.

**Livestock and Meats**—Chicago hog prices declined 10 to 25c for the week. Beef steers mostly 25 to 35c off; butcher cows and heifers 15c lower to 10c higher; feeder steers 20 and 25c and veal calves 50c net lower. Fat lambs advances 25 to 35c, spring lambs and yearlings steady to 25c up, while fat ewes were weak to 75c lower. On June 7 hogs were steady to 10c lower than Wednesday's average; beef steers weak to 15c lower; veal calves 50 to 75c lower. Fat lambs steady, heavy ewes considerably lower.

June 7 Chicago prices: Hogs' top \$7.25; bulk sales \$6.65 to \$7.10; medium and good beef steers \$8.00 to \$10.50; butcher cows and heifers \$4.00 to \$9.85; feeder steers \$6.15 to \$8.40; light and medium weight veal calves \$7.50 to \$10.50; fat lambs \$12 to \$14.85; spring lambs \$13.75 to \$16.00; yearlings \$8.25 to \$13.00; fat ewes \$3.00 to \$6.25. Stocker and feeder shipments from 12 important markets during the week ending June 1 were: cattle and calves 45,424; hogs 10,181; sheep 20,775.

In eastern wholesale fresh meat markets beef 50c to \$2.00; veal \$2.00 to \$3.00; lamb weak to \$2.00; mutton \$1.00 to \$4.00 and pork loins \$1.00 to \$2.00 lower than week ago.

On June 7, veal \$1.00 to \$3.00 and lamb \$1.00 to \$2.00 lower at Boston; steer beef and pork weak to \$1.00 lower at New York.

June 7 prices good grade meats: Beeb \$15 to \$17; veal \$14 to \$15; lamb \$25 to \$29; mutton \$10 to \$18; light pork loins \$14 to \$16.50; heavy loins \$10 to \$13.

**Cotton**—Spot cotton prices advanced 60 points during the week. New York July future contracts advanced 66 points. Spot cotton closed at 28.60c per pound; New York July futures at 27.78c.

**Errors on One Play**

In the eighth inning of the game at St. Louis on May 10 the Athletics managed to make three errors on one play. Jacobson opened the inning with a single and then Williams singled to center. Matthews fumbled the ball, Jacobson going to third and Williams to second. Matthews, recovering the ball made a wild throw to the infield. Jacobson scored and Williams went to third. Galloway got the ball, threw it away over third base and Williams scored.

**DISCOVER SECRET OF LONG GOLF DRIVING**

**Simply Suppress Muscles Which Are Antagonistic.**

The secret of long driving has been discovered, and it is no longer a mystery. Then, again, long driving is not an accomplishment for the favored and select few. Anyone can do it.

A London doctor and a man of science has discovered that the secret of long driving is merely a matter of the elimination of opposing muscles. The perfect shot is obtained by suppressing those groups of muscles antagonistic to other groups that co-ordinated are responsible for aiming the club at the ball.

There, what could be simpler than that?

If you would be a longer driver, just suppress the evil muscles. The only catch in the explanation is the failure of the learned scientist to say just what the evil muscles are. He explains, however, that these evil muscles are those which behave badly when a conscious effort has a devastating effect on the function of the other muscles.

In other words, the long driver, during the few moments that he is swinging at the ball, must have a mind which is a complete blank. For it is the mind which brings the antagonistic muscle into play and spoils the shot. The conclusion is that brains have no place in golf, especially in long driving, anyway.

**Fish Fighting Greatest Sport of Natives of Siam**

Dr. Hugh M. Smith, former United States commissioner of fisheries, before he left for Siam, told the following interesting story of customs in the country where he has gone to serve as fisheries adviser.

Dr. Smith said that in Siam one of the national sports is fish fighting. He said, instead of bull fighting, horse racing, baseball and other sports, the native of Siam carries in his hip pocket a little bottle or tube, much like a test tube used by physicians. Just large enough to hold a fish about two inches long and water to sustain its life.

Often when two or more Siamese meet they say, "Let's have a fish fight, I'll bet my fish can beat your fish," and then the fun begins. They hunt for a larger vessel in which to stage the fight. When this has been obtained they fill it with water and put in their fish. The fish start at each other and continue to push and fight until one or the other is wounded or incapacitated. Dr. Smith says these little fish are very hearty and ferocious and put up a very interesting scrap.

**University of Michigan Signs Wrestling Coach**

Richard Barker, present head coach of all athletics at Cornell college, Mount Vernon, Iowa, has been engaged as head wrestling coach and assistant football coach at the University of Michigan for next year.

Wrestling will be started as an inter-collegiate sport at Michigan for the first time next year, when the completion of the new Yost field house will furnish ample opportunity for the mat game to take its position along with golf, hockey and swimming as regular varsity minor sports.

**Pole Vault Record**

Harry Smith, nineteen-year-old San Diego high school student, started athletic experts by establishing a new prep school world record for the pole vault, with a height of 12 feet 11 1/2 inches. This mark surpassed the former record by nearly four inches, the former title being held by S. Landers of Minnesota.

**STARTING ROUND-THE-WORLD TRIP**

Three New Yorkers started from the city hall the other day, after having been given an official "send-off" by Mayor Hylan, on a trip around the world in their "radio car," an automobile especially equipped with a high-frequency wireless set.

**BATTERY REPAIR VERY IMPORTANT**

**Little Black Box Filled With Magic Works in a Most Mysterious Manner.**

(By B. W. COOKE, President of Coyne Trade and Engineering School.)

If ever you feel like putting yourself on the back because you know how and why the carburetor carburetors, the clutch clutches, and so forth—if you are ever tempted to regard yourself as an authority just because you have driven and tinkered with motor cars since they first began to smoke—or if you ever get the idea that there isn't anything about automobiles that you don't know, then consider your storage battery.

**Little Box of Magic.**

There, tucked away beneath the floor-boards or front seat of your car, is a little black box filled with magic that works in a mysterious way. A marvelous thing is this battery—delicate as a child, yet strong enough to turn over the most powerful engine against its own compression; as difficult to understand as a woman, as sensitive as a wife, everlastingly eating its heart out. Treat it intelligently and it reciprocates with faithful service; neglect it and it retaliates with slow but certain vengeance, but like the mule, it takes a surprising amount of abuse before it quits.

For the benefit of those motorists who take pride in well-groomed cars I suggest a few things necessary to get the best results from the battery.

The summer is the pulse of the electrical system and it should be carefully watched to see if the battery is charging or discharging properly.

Test the battery with the hydrometer at least once a week. Make positive that your hydrometer is accurate. If it isn't buy a new one immediately. Your battery's good health is at stake.

Add enough distilled water once a week to keep the electrolyte over the plates. Not too much or the fluid will bubble out and eat its way down the wood container.

Never leave the switch on when the engine is not running.

**Prevent Short Circuits.**

Prevent short circuits by watching for worn places in the insulation and taping them when discovered. Never lay a tool or other piece of metal across the battery terminals. These should be kept tight and free from corrosion (sulphate).

If a greenish substance forms around terminals, clean and dry the parts thoroughly, replace securely and cover them with cup grease to prevent the acid from climbing up the posts and causing more trouble.

Never fill the battery with water to too high a level. The water will tend to work through the top, starting corrosion of the terminals and quick destruction of the battery and quick destruction of the battery.

If electrolyte is needed, never add it yourself but consult the battery man at the service station.

Practically the only repair that is safe for the car owner to make on his storage battery is patching up the pitch insulator which protects the cells at the top. When this becomes broken or damaged in any way the hole may be filled and smoothed over by melting pitch and applying it while hot with a wide-bladed knife. For all other repairs the battery must be taken to the expert at the regular battery service station.

Keep the cells filled with distilled water up to the proper point; keep the battery properly charged so that the specific gravity as measured with the hydrometer is at, or close to, 1.250. Bear in mind that when the specific gravity drops to 1.15 your battery is very, very ill and needs expert attention immediately. And, most of all, watch the water. Though the adding of the water to battery fluid is the easiest thing to do, it is an actual fact that 90 per cent of all batteries die for lack of water.

**TEXAS SCHOOLS NEED \$6,000,000**

**State Superintendent Marrs Sets Forth School Situation in Texas.**

Austin, Tex.—State Superintendent of Public Instruction S. M. N. Marrs advocates the appropriation of not less than \$6,000,000 to supplement the available school fund for the next two years. His statement follows:

"There is considerable interest being manifested by the public with reference to the adequate support of public education. I wish to call attention to the following quotation from section 3, article VII, of the state constitution:

"One-fourth of the revenue derived from the state occupation taxes and a poll tax of one (\$1.00) dollar on every inhabitant of the state, between the ages of 21 and 60 years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem state tax of such amount not to exceed 35c on the one hundred (\$100) dollars valuation, as with the available school fund arising from all other sources, will be sufficient to maintain and support the public schools of this state for a period of not less than six months in each year."

"This clearly sets forth the fact that it is the duty of the state to maintain and support the schools for a period of six months each year, and such support as may be given by local districts is supplemental in order that schools may have longer terms and better equipment. If all of the state fund is used for teachers salaries, how much per capita should be apportioned to comply with the constitutional requirement?"

"If the public schools are efficient, competent teachers must be employed. Such teachers should certainly command a salary of \$100 a month. No teacher should have an enrollment of more than thirty-three children if the best work is accomplished. On this basis the per capita cost for teaching service alone is \$3 per month and when the state makes a per capita apportionment of \$13 it pays for but little more than four months."

"The income for the state available school fund from all constitutional sources as estimated in August, 1922, justified a per capita apportionment of \$10, and the thirty-eighth legislature supplemented this fund by appropriating \$3,000,000, which permitted the state board of education to increase the per capita to \$13. This is all that can be expected if we have no new revenue measures. As the constitution provides that the available school fund shall receive one-fourth of all state occupation taxes, there will be some increase of the fund by such laws as will stand the test of the courts. The public schools receive no part of the inheritance tax or the tax on automobiles."

"If we maintain our past per capita of \$13 we must have provided by one-fourth of the new occupation taxes and by special appropriation from the general revenue, \$3,000,000 per annum."

**BENT RIMS CAUSE OF TROUBLE IN CASINGS**

**Motorists Advised to Watch Both Tires and Carriers.**

Bent rims are a direct cause of rim cuts, of tires blowing from the rim and of the breaking of the wire cables at the base of the tire. Oftentimes motorists cannot understand why tires should blow when they are driving along slowly. The facts of the case are that the overstrained carcass has reached the limit of its endurance from previous abuse and has given away.

Many motorists, were they to examine the wheels on their cars, would be surprised to notice that their rims are bent along the edges. These bent rim flanges are ordinarily little thought of, yet they cause a good percentage of tire trouble.

When the wheel hits a frog, or a switch of a street car track, or a hole in the road, there is a tendency to flatten the rim, especially if the tire is underinflated. The rim's support, however, is essential to the life of a tire. If it is bent so that it does not fit the tire and allows the side walls to bulge, the motorist may know that trouble is to be expected unless he takes immediate precautions.

By truing-up their rims, motorists may prevent much tire trouble. And half the pleasure of motoring is freedom from this trouble. A good rule to follow is to have both tires and rims inspected, fortnightly. When rim trouble is found, it may usually be corrected by careful tapping with a ball hammer.

**AVOID ALL CHEAP PADLOCKS**

**Does Not Pay Car Owner to Try to Protect Spare Tires With Inexpensive Devices.**

Tires are pretty expensive things to trust to cheap padlocks. To the average person of honest proclivities, a padlock is a padlock, and that is all there is to it. But the crook, the kind of individual who gets away with your spare tires when you leave the car standing on the street even for a short time, all padlocks are not padlocks. Some are easy picking.

The point we are making is that it does not pay to use a cheap lock to protect the spares. Get a good lever lock which will not open when gently tapped by the experienced lock manipulator. The kind of padlock that is acquired for the equivalent of a couple of car fares is not the kind to use as a guardian for anything so expensive as an automobile tire. This is a case where economy and cheapness do not go hand in hand.—Motor Life.

**FUNGUS DISEASE THREATENS MELON CROP IN SOUTH TEXAS**

San Antonio, Tex.—Information reaching the agricultural department of the San Antonio Chamber of Commerce indicates that the South Texas melon crop is threatened by the appearance of a disease known as anthracnose, which was very prevalent last year and ruined many thousands of acres of watermelons.

"The appearance of this disease," said C. H. Alford, county agricultural agent, "may be recognized by a curling of the leaves, much as if they had been affected by a severe drought, and the appearance of small brown spots on the leaves, and also of small melons. As the disease spreads the foliage withers, the melons become misshapen and fail to develop properly. It is a fungus disease, and is spread by means of spores which are scattered by the wind or other means. These spores will live over from year to year and fields that have become infected should not be planted in melons the succeeding year. It is also claimed by some authorities that working in a field when the plants are wet with dew or rain will cause this disease to spread."

**Oil Men Plead Guilty**

Fort Worth, Tex.—The government won its second victory in as many starts in the crusade recently inaugurated against alleged fraudulent oil promoters when J. W. (Hog Creek) Caruth and L. G. Reynolds, Jr., unexpectedly pleaded guilty Thursday to charges of using the mails to defraud in promotion of the Caruth oil companies.

**To Distribute Fish**

San Marcos, Tex.—Tarlton Mayfield of the United States fish cultural hatcheries at San Marcos, took a large shipment of young bass and crappie to Kerrville this week, to be distributed in the Guadalupe River at that place.

**Tokio Police Arrest Communists**

Tokio.—More than 100 prominent communists and socialists were arrested Wednesday, the police charging that they were engaged in a plot to organize a communist state.

**After Every Meal**

**Top off each meal with a bit of sweet in the form of WRIGLEY'S.**

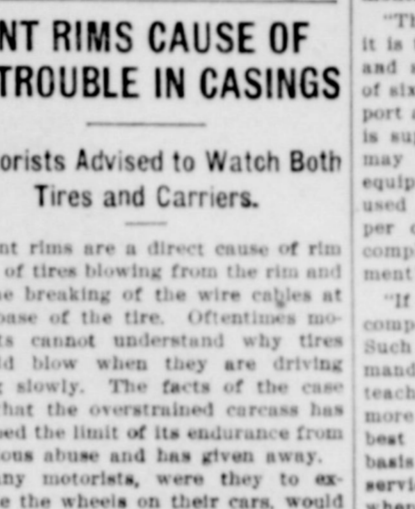

It satisfies the sweet tooth and aids digestion.

## STYLES IN SPORTS HATS; SUMMER FINERY FOR TOTS

SINCE styles for the street have been so much toned up by those for sports wear it is becoming difficult to distinguish between sports and street hats. But sports hats have a suggestion, at least, of youthfulness and their style is definitely informal—these are the qualities that have caused them to exert such an influence in the tailored mode.

The light-colored felts now flourishing in fashion's smile are trimmed with clever feather ornaments or narrow ribbons made up into set rosettes. Cer-

tain dashing models have long quills or brilliant flat birds simulated in small, soft, varicolored feathers. Hand-made decorations and fine combinations of light color distinguish the most elaborate sports hats, while the simplest are trimmed with a scarf or kerchief or with a single ornament.

The group of hats pictured is representative of the mode. It begins with a model in which chenille is woven into a favored shape and trimmed with a chow of ribbon. Below, at the right, a sand-colored felt shows the crown

DIVERSITY SHOWN IN SPORTS HATS

linen, pongee and even satin trousers and waists of fine batiste or of silk fabrics. Of course there is much greater diversity in frocks for girls than one expects to find in boys' suits—the female of the species begins very young to find life spiced up with a considerable variety in her clothes, therefore, when she is indulged in two or three dress-up frocks they are sure to include color as well as white.

The dress of white organdie illustrated employs fine tucks, narrow val face and small sprays of embroidery

TWO WELL-DRESSED YOUNGSTERS.

swathed with a brilliant kerchief. The fabric hat at the left has a crown made in sections and an ornament fashioned from the material in the hat. A hat of satin finishes the group. It is composed of irregular pieces in contrasting colors and it stitched to simulate quilting.

The business of assembling summer clothes for the youngest members of the family begins long before spring is anything but a promise. Mothers like to have this task out of the way before summer comes and merchants see to it that spring fabrics and modes are displayed the first of January so that the work can be under way early

in the year. When the sturdy, play-proof, everyday outfits that are to stand much wear and tear are finished, comes the preparation of daintier things for more or less dress-up times—as birthday parties and other high occasions in little folks' lives.

The shops are entitled to point with pride to their collections of midsummer finery for the smallest boys and girls. For the little girls there are gay party frocks of colored organdie, swiss, voile and taffeta, as well as lovely white ones, and for small boys there are

## Big Loss of Pigs Before Weaning

Heavier in Spring Than in Fall According to Survey Made in Three States.

(Prepared by the United States Department of Agriculture.)

Losses of pigs before weaning are heavier in the spring than in the fall, as shown in a survey just completed by the United States Department of Agriculture. The loss amounts to 36 per cent of the pigs farrowing in spring litters before weaning compared with a loss of 24 per cent of pigs farrowing in fall litters, in records on 3,025 litters of pigs during 1922 in Illinois, Iowa and Indiana. The following table gives the principal causes of pig losses up to weaning time:

Number of Pigs Lost Before Weaning Per 1,000 Farrowed.	
Cause of Death.	Spring.
Overlaid	113
Farrowed dead	11
Farrowed weak	20
Chilled	6
Starved	17
Scours	11
Injured by other stock	3
Sore mouth	2
Eaten by sows	4
Worms	2
All other causes	36
Total died in each 1,000 farrowed	242

These records serve to show that fully one-fourth to one-third of the feed and other expense in keeping sows is lost before weaning, by not giving the sow proper feed and care during gestation or proper farrowing quarters, the department points out. By far the major share of losses in pigs is due to improper handling and feeding and not to disease.

Sows running on pastures while suckling pigs saved the largest litters. Sows that were fed the following quantities of feed, per one hundred pounds liveweight monthly, during the gestation period, farrowed the largest litters: 45 pounds of corn, 10 pounds of oats, 15 pounds of tankage. Tried sows that had produced pigs previously seemed in this study to show a tendency to produce larger litters than untried gilts.

A similar study upon 3,574 spring pigs produced on these same farms in the spring of 1921 showed that 340 of every 1,000 pigs farrowed died before the date of weaning. The important causes of losses in the spring of 1921, as in 1922, were pigs laid on by the mother sow, and those born dead or so weak they could not get up to suckle. The 1921 pigs, however, were bothered more with necrotic enteritis than were those in the spring of 1922.

The study indicates that barring fluctuations in prices of feeds and the occurrence of disease, the number of thrifty pigs produced per sow more than any other factor influences the cost of producing pork. All the care in feeding possible after weaning the pigs can very seldom overcome the production cost due to small litters, the department says. The figures show that the majority of sows last winter had a carrying charge of \$15 to \$25 per head, which covered the cost of carrying them while producing a litter of pigs; with a large share of the sows this meant carrying charges for twelve months.

## Taking Tail From Lambs Not Difficult Operation

The time to take the tail from the lamb is in its second week of life. The operation is not difficult and docking the lambs simply removes something unnecessary to the lamb. Two men and a sharp knife or a docking iron are all that is necessary. Let one man hold the lamb, while the other cuts the joint in the tail by feeling on the inside. Push back the loose skin so that a flap will grow over the stub and cut the tail off at a joint about one and one-half inches from the body. The cut is simply made with a sharp knife, in which case a stout cord tightly tied about the stump close to the body will stop unnecessary bleeding. This cord should be removed in eight or ten hours so that there will be no sloughing.

A much better way of docking the lamb is the use of hot docking irons, searing the tail off with an iron heated to a cherry red. This cauterizes the wound and prevents bleeding.

## Feed Laying Hens Well During Summer Season

On far too many farms the hens are left to shift for themselves, or perhaps, if the owner feels particularly generous, a little grain is thrown to them. Though hens fed in this way may produce well at the time, they will not do well, or give a profitable production the next fall and winter.

## Main Things Necessary in Handling Brood Mare

The two main things necessary in handling brood mares are feed and moderate exercise. Wheat bran and oats are the two best grain rations and are better if fed together. Excessive corn and kafir will cause trouble at foaling time.

## Pure Bred Sows Are Most Efficient Pork Producers

Experiments conducted by state and government stations all over the country have proven conclusively that pure-bred sows are more efficient pork producers than grade or scrub sows. It has also been proven on one of the largest hog ranches in the Northwest

## NOT ENTIRELY ARTIFICIAL

"I was deceived in you," complained the husband. "Your teeth are handmade, your complexion is artificial and your hair is another's. You are wholly false."

"No, not wholly," she replied. "I have a mind of my own, as you very well know."

And he was forced to admit the bitter truth of her statement.—Boston Transcript.

Worse.

Some one remarked to a visiting international celebrity: "I suppose many people attend your lectures merely to boast that they saw you?"

"Yes," he replied, "and it is even worse than that. Some do so for the privilege of saying they seen me."

No.

Beech—Can your wife appreciate a joke?

Asho—Well, she says I am one, and I know she doesn't appreciate me.—London Answers.

BOTH DECEIVED

She: You promised me when I married you that I could have everything money could buy.

He: Yes, and I thought you had the money.

Ill-Chosen Metaphor.

He—Were I a raindrop and you a rose. Do you know what I'd do?

She—Why, you'd evaporate, I suppose. And so I'd be rid of you.

Just a Woman's Way.

Hostess—You can't imagine how bad my husband's eyesight is getting. Only today he mistook me for the nursemaid.

Her Friend—And she is such a pretty girl, too.—London Opinion.

Twisted Her Meaning.

Mother—Robert, stop that noise! If you don't mind I'll send you out of the room.

Bobby—But I do mind; I want to play here.

What a Girl Likes.

"I don't see how you can stand Fred as an escort. He doesn't dance."

"Oh, you're mistaken. He dances attendance better than any other man I know."

To Complete the Show.

He (at freak art exhibition)—Only the artists can tell what these pictures mean.

She—Then I think they ought to hang the artists, too.

Had a Run for Girl's Money.

Miss Hunter—They say Hunter had to propose to Miss Ritche six times before she accepted him.

Catie—She certainly gave him a run for her money.—London Answers.

Curious Reflex.

"The human anatomy is a wonderful bit of mechanism."

"Yes, but one kind of man on the back and you'll make his head swell."

WELL SUITED

Mr. Chocolate Drop—I am very partial to blondes.

Miss Marshmallow—And I just adore dark men.

Less Interesting.

If all the people told the truth, as through this world they walk, we would be better, but, in sooth, we'd miss some sprightly talk.

Egotism.

Mrs. Newlywed (at breakfast)—It's really awful the way you snore, Rollo, dear. Can't something be done to stop it? It's very annoying.

Rollo—My dear Lulu, I assure you it doesn't annoy me in the least.

Modern Times.

She—Haven't we met some place before?

He—Yes; we were married once.

She—Were we? I don't remember your face. Prove it.

He—You have a scar on your left ear.

Office Amenities.

Bookkeeper—Coal and diamonds are really made of the same substances.

Stenographer—Well, I'll take diamonds. I don't care for the carbon copy.

## Champion Pig Raised by Minnesota Youth

Terrance L. Hagen, a lad living in Belview, Redwood county, Minnesota, raised a pig on a fifty by fifty-foot lot, which was made grand champion barrow over all breeds at the Junior Live Stock show held at South St. Paul last winter. By exercising good care, with the aid of a well-bred animal he was able to overcome the handicaps of town, and win over all pig club boys and girls of Minnesota.

His purebred Poland China barrow weighed 450 pounds when he left home,

Terrance Hagen and His Champion Barrow.

and when sold at the stock yards after the show, he weighed 430 pounds. The pig was farrowed March 9, 1922. During the 146-day period from May 1 to September 24 the pig gained 297 pounds or a fraction over two pounds per day.

The lad's records show that the barrow's cost of production was five cents per pound. A St. Paul packer bought him at auction for 60 cents per pound, the check amounting to \$258. Besides the boy won a gold medal, silver medal, silver trophy, free trip to the International Live Stock Exposition at Chicago, and \$80 in prize awards.

## Chicken Flock Need Not Be a Nuisance in Towns

Neighbors frequently object to the keeping of poultry in towns and cities, most complaints being against the vociferous rooster and disagreeable odors. In some cities and towns there are regulations to prevent or control poultry keeping, but the United States Department of Agriculture says that the flock need not be a nuisance. There will be no annoyance from odors if the dropping boards are cleaned daily and the yards are kept reasonably clean. There is no necessity for keeping a rooster unless the owner intends to hatch chicks, and in that case the rooster should be disposed of as soon as the hens have been set. A flock without a male will produce just as many eggs and, what is more, the eggs will be infertile and will keep better.

## Free Choice System of Mash Feeding to Fowls

A study of the free choice system of mash feeding for chickens made by the United States Department of Agriculture at its experiment farm located at Beltsville, Md., showed that the best results and highest egg production are obtained when hens are allowed to select their own mash constituents. It was found that hens selected a mash composed of 96 parts cornmeal, 26 parts meat scrap, 4 parts wheat bran and 4 parts wheat middlings. This mash gives best results with Leghorns, and a less stimulating mash, containing more bran and ground oats, with less meat scrap, has given better results with general-purpose breeds.

## Well Prepared Field Is Needed for Sudan Grass

It is requisite if the farmer is going to have good success with Sudan grass that he plant in a well prepared field. Just because the crop is hardy is no reason why it should be treated shabbily. Fall plowing or fall listing of fields intended for it, with careful after preparation before planting means that much higher yields, and this is generally the basis for figuring profits from producing any crop.

## Cull Pullets Closely During Month of August

Cull pullets closely during the month of August. Sell for fryers all those individuals that lack proper development. Birds showing soiled, ruffled plumage, very long legs and shallow breasts belong in the poor class. Cull also your molting hens. They will not till next spring. The best layers are still laying and will not molt till fall.

## Study Being Made of Many Problems in Growing Corn

Problems dealing with corn growing are being studied by the agricultural experiment stations of 36 states and three of the insular possessions, according to reports to the United States Department of Agriculture. Corn breeding, adaptation of varieties, tillage, rate and date of seeding, and use of fertilizers are the principal lines of investigation.

## Plant Dwarf Essex Rape for Chickens or Swine

Dwarf Essex rape may be planted on very rich soil any time during early summer for the chickens or pigs. A small area of rich land in rape will often yield an enormous amount of green feed for pigs, chickens, rabbits and other small animals. Do not plant rape on thin land unless you apply barnyard manure freely.

## Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants from one month old to children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Dr. J. C. Fletcher. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

An Inference. No Dancer.

Of course it may sound ungalant, but the Turk men seem to have abandoned polygamy after the Turk women wanted to quit after the first twenty dances.—Dallas News.

## The All-Year Car for Every Family

5 Pass. Sedan \$860 f. o. b. Flint, Mich.

For Economical Transportation CHEVROLET

Chevrolet is leading in the great shift of public demand to closed cars because this company has the world's largest facilities for manufacturing high-grade closed bodies and is therefore able to offer sedans, coupes and sedans at prices within easy reach of the average American family.

Six large body plants adjoining Chevrolet assembly plants enable us to make prompt deliveries of the much wanted closed cars.

As soon as you realize that your transportation requirements demand the year 'round, all-weather closed car, see Chevrolet first and learn how fully we can meet your requirements at the lowest cost obtainable in a modern, high-grade closed automobile.

 cool at that 4th of July celebra-  
 tion by wearing one of our cool,  
 classy, Palm Beach suits.

Will Rishworth was in town  
 Wednesday, on business.

Miss Grace Martin came in  
 Thursday from a visit with  
 friends in Del Rio.

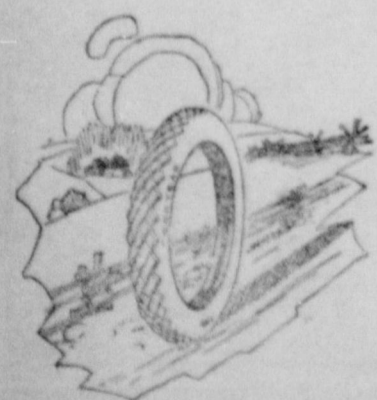

Revival meeting is still going  
 on at the Methodist church with  
 good attendance.

**Small Cars  
 and the World's  
 Most Popular  
 Tire**

The largest factory of its kind  
 in the world is devoted solely  
 to the production of Goodyear  
 Tires, sizes 30x3, 30x3 1/2, and  
 30x4. Isn't this immense  
 production, day after day, a  
 positive indication to you of Goodyear's high ability and  
 honesty of purpose in building the best Clincher tire on the  
 market. **THINK IT OVER.** These tires, as well as other  
 sizes, are here for your inspection. They cost no more than  
 ordinary tires. Our helpful tire service will increase your  
 mileage. It costs you nothing and saves you money.

**MUSSEY BROS.**

Mrs. Nellie Davis and baby  
 came in from Florida Wednes-  
 day morning to visit her parents,  
 Mr. and Mrs. Joe Nance.

A request has been asked of the  
 people that are planning on going  
 to Ozona the Fourth of July with  
 the Sanderson Ball Club to send  
 in their names to Rafe Stirman  
 or Fendall Howard.

Mrs. Syl Adams and children  
 of Marathon are visiting Mrs.  
 Adams's parents, Mr. and Mrs.  
 D. Y. McKinney.

WANTED—Snakes, all kinds  
 and sizes, 35c per lb. Write Dan  
 E. Nagle, 161 George St., New  
 Haven, Conn.

J. E. MacCalmont was taken  
 to the Masonic Hospital at El  
 Paso for medical and surgical  
 treatment, Thursday.

Wedding Bells are to ring  
 merrily next week, but we are  
 not in a position to give any other  
 information.

Joe Kerr was down from El  
 Paso Monday to attend to some  
 business and returning Wednes-  
 day.

Accordion, box and side pliat-  
 ing; hemstitching 8c yd., pinking,  
 braiding, buttons and button-  
 holes made. Mrs. H. B. Houston,  
 Uvalde, Texas.

Larry Horgan and John Rein-  
 inger returned Wednesday morn-  
 ing overland from San Antonio  
 in their new sport model Stude-  
 baker six, purchased while in  
 that city.

Mr. W. Qualtrough of Houston  
 is visiting his son, Walter Qual-  
 trough and family, for several  
 weeks.

John Edwards was in from the  
 ranch Thursday, on business.

**Calvia Stansell  
 Lawyer  
 Sanderson, Texas  
 Practice in All Courts**

**CATARRHAL DEAFNESS**  
 is often caused by an inflamed condition  
 of the mucous lining of the Eustachian  
 Tube. When this tube is inflamed you  
 have a rumbling sound or imperfect  
 hearing. Unless the inflammation can  
 be reduced, your hearing may be de-  
 stroyed forever.  
 HALL'S CATARRH MEDICINE will  
 do what we claim for it—rid your system  
 of Catarrh or Deafness caused by  
 Catarrh. HALL'S CATARRH MEDICINE  
 has been successful in the treatment of  
 Catarrh for over Forty Years.  
 Sold by all druggists.  
 F. J. Cheney & Co., Toledo, O.

Mrs. Black of Longfellow was  
 brought to town Monday evening  
 for surgical treatment. Mrs.  
 Black stepped on a paring knife  
 that one of her children had left  
 lying on the floor. The knife  
 penetrated clean through her  
 shoe and inflicted an ugly wound  
 on the inner side of her foot.  
 Dr. Robertson dressed the cut  
 and Mrs. Black is reported to be  
 getting along fine.

Fresh vegetables every Mon-  
 day and Thursday. Barbecued  
 meat every day.  
 Sanderson Market.

Walter Smith recently shipped  
 three cars of wool, totaling some  
 56,000 pounds, for which he re-  
 ceived 52 cents a pound. Figure  
 this up yourself; it would buy a  
 "fiver" and then there would  
 be enough left to buy an "all-day  
 sucker" and a ticket to the  
 movies, too.

Mussey Bros. have moved their  
 offices into the front part of the  
 new garage building, thus giving  
 them more room in rear of the  
 building for mechanical work.

FOR SALE BY  
**MUSSEY BROS.**

Walter Smith has leased B. T.  
 Corder's place, we are informed,  
 and has been busy this week  
 moving a house from "51" to the  
 Corder place. Mr. Corder will  
 move to the South Well, our in-  
 formant stated.

Roy Rutledge was in town  
 Wednesday from the Dryden  
 country. Roy happened to an  
 accident the early part of this  
 week, a horse fell on him while  
 he was chasing a steer. He was  
 considerably bruised on both  
 legs, and came to town Wednes-  
 day to see the doctor.

Your clothes will always look  
 neat and clean if you have them  
 pressed and cleaned at the Royal  
 Tailor Shop. Phone No. 6, and  
 we will call for your package and  
 deliver when finished.

Mr. and Mrs. Doc Turk were  
 in town Wednesday, having  
 motored in from the ranch on a  
 shopping trip. They reported  
 everything lovely out on the  
 ranch.

Mr. and Mrs. Elmo McLaugh-  
 lin have sold their furniture and  
 are preparing to move to Cali-  
 fornia.

Judge Henshaw has about  
 completed his white and-green  
 California style bungalow back  
 of the tailor shop. The Judge  
 says he believes in being prepar-  
 ed of owning a home as he is  
 going to capture a school "mam"  
 yet.

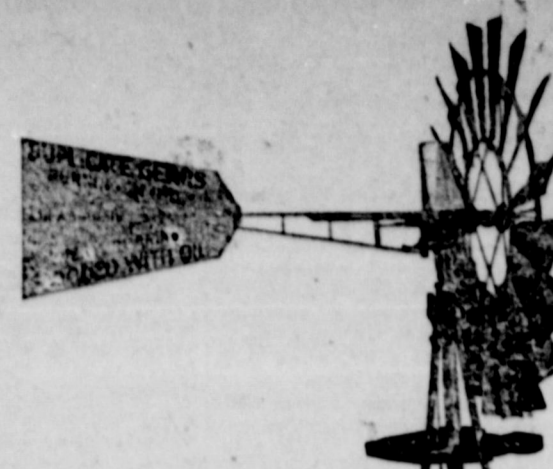

Harl Stirman was in town this  
 week from Sheffield.

**The Last Word in Wind-  
 mills is the New  
 AERMOTOR**

IN the future someone may design a better  
 windmill than the new AERMOTOR but  
 there is nothing better on the market today.

**SENSITIVE** to the lightest breeze, balanc-  
 ed to the highest wind, it pumps more water  
 than other windmills. It's self-oiling feature  
 cuts repair expense to practically nothing.

A years supply of oil goes, with each  
 Aermotor. Pour this oil into the crank case,  
 and the Aermotor runs itself for a year with-  
 out further attention from you. To get ever-  
 lasting windmill satisfaction, buy an Aermo-  
 tor.

If you want the  
 best, the least  
 expensive, buy  
 an Aermotor.

**The Roach-McLymont Company**

The Store That Serves Ten Counties  
 Del Rio, Texas

Mrs. M. Boozer returned  
 Wednesday from a few weeks  
 stay in Hot Springs, New  
 Mexico.

Mrs. D. D. Reese of Houston  
 is visiting her parents Mr. and  
 Mrs. Willis Carter.

Mrs. Roy Knox and daughter,  
 Royette, of Del Rio, are the  
 guests of Mr. and Mrs. Neal  
 Charlton.

Misses Bertha and Gladys  
 Ferguson of Floresville, Texas  
 are the guests of their uncle, W.  
 J. Ferguson and family, for a  
 few weeks.

Mr. and Mrs. Sims Wilkinson  
 left Friday evening to enjoy a 15  
 day vacation along the Gulf of  
 Mexico.

**"A VICTORY FOR  
 AMERICAN MOTORISTS"**

The Crude Rubber Monopoly Weakened  
 When it Came into Contact With  
 Aroused Public Sentiment. The Press  
 of the Country Today Reflects the De-  
 termination of the American Motorists  
 That Tire Prices Shall Stay at a Rea-  
 sonable Level—and That America Must  
 Produce Its Own Rubber. Crude Rubber  
 Monopoly.

**"CUTS TIRE PRICES  
 10 PER CENT"  
 EFFECTIVE, JUNE 11**

"We announce a 10% reduction in tires  
 and tubes effective June 11th. The lowered  
 cost of crude rubber and the special Fire-  
 stone manufacturing and distribution advan-  
 tages make this possible.

The tire factories are organized on a basis  
 of larger volume and effective production.  
 The lower cost of raw material, the best  
 Stockholder workmen are daily building many  
 thousands of Gum-Dipped Cords—the best  
 tires ever produced and, we believe,  
 the lowest on the market today.

Firestone Cords took the first four places  
 and eight of the ten money positions in the  
 Indianapolis Sweepstakes, May 23rd, without  
 a single tire failure.

Firestone Gum-Dipped Cords have set new  
 standard in mileage, traction, comfort and  
 safety. Car owners have expressed their  
 approval of the extra value in Firestone Gum-  
 dipped Cords by increasing their purchases  
 10% in the past six months.

We have replaced many expensive brands  
 with Firestone. We have today the dis-  
 tributing points which are delivering Firestone  
 tires to the consumer at the lowest cost in  
 our history.

Follow the bids of economical tire buyers—  
 equip with Firestone Gum-Dipped Cords—a 10  
 cent saving means more miles per dollar to  
 you today.

"Get a Set of These Gum-Dipped Cords from One of the Following Dealers:"

**"Most Miles Per Dollar"**

**NOTICE TO CONTRACTORS.**

**Federal Aid Highway Construc-  
 tion—Terrell County.**

Sealed proposals addressed to  
 Judge G. J. Henshaw, Count  
 Judge of Terrell County, Texas,  
 for the construction of the first  
 of four sections of State High-  
 way No. 12 in Terrell County,  
 Texas, will be received at the  
 office of the Terrell County Clerk  
 at Sanderson, Texas, until 10  
 o'clock A. M. June 29th, 1923,  
 and then publicly opened and  
 read.

**Description of Work.**

Total length of Highway—60  
 miles—divided into four sec-  
 tions. Length of first section—  
 13.07 miles.

Type of construction: Gravel  
 surfacing, 18' wide, 8" deep;  
 embankment, 26' wide; concrete  
 bridges, culverts and pavement.

Item 4, light clearing, 212.00,  
 100' stations.

Item 4, light grubbing, 82.40  
 100' stations.

Item 4, channel clearing, 7.90  
 acres.

Item 5, earth excavation, 54-  
 427.40 cubic yards.

Item 5, solid rock excavation,  
 5,152.20 cubic yards.

Item 5, loose rock excavation,  
 969.10 cubic yards.

Item 5, borrow excavation, 49-  
 452.50 cubic yards.

Item 5, overhaul excavation,  
 14,830.20 cubic yards.

Item 5, overhaul borrow, 7-  
 109.90 cubic yards.

Item 5, grader work, scarify-  
 ing and shaping, 31.00, 100'  
 stations.

Item 10, native gravel surfac-  
 ing, placing, 3,685.67 cubic yards.

Item 10, shaping, dragging,  
 native gravel, 3,685.67 cubic  
 yards.

Item 10, gravel pit stripping,  
 etc., 29,000.00 cubic yards.

Item 10, gravel hauled first 1/4  
 mile, 27,747.58 cubic yards.

Item 10, gravel hauled second  
 1/4 mile, 9,355.89 cubic yards.

Item 10, gravel hauled third  
 1/4 mile, 5,727.33 cubic yards.

Item 10, gravel hauled fourth  
 1/4 mile, 2,448.09 cubic yards.

Item 10, gravel hauled fifth  
 1/4 mile, 1,188.00 cubic yards.

Item 10, gravel hauled sixth  
 1/4 mile, 520.65 cubic yards.

Item 10, screening gravel, top  
 4", 13,873.79 cubic yards.

Item 10, rolling gravel, 392.00  
 hours.

Item 10, sledging rock sub-  
 base, 50.00, 100' stations.

Item 33, wooden guard fence,  
 8' sections, 4,850.00 Lin. ft.

Item 34, plain rip rap, one ft.  
 thick, 426.70 square yards.

Item 14, reinforcing steel,  
 130,577.00 pounds.

Item 53, structural excava-  
 tion, earth, dry, 2,286.00 cubic  
 yards.

Item 54, concrete walls, 1-  
 2 1/2:5, 400.41 cubic yards.

Item 54, concrete pavement,  
 1:2:3 1/2, 2,845.44 square yards.

Item 53, structural excava-  
 tion, rock, 62.00 cubic yards.

Item 54, concrete bridges and  
 culverts, 1:2:4, 1,094.40 cubic  
 yards.

Item 62, concrete bridge rail-  
 ing, type C, 388.00 Lin. ft.

Bids will be received on the  
 whole or on earth work and sur-  
 facing items separately from all  
 concrete items.

Detailed plans and specifica-  
 tions of the work may be seen  
 for examination at the office of  
 John Stovall, County Engineer,  
 Sanderson, Texas.

A certified or Cashier's check  
 for 5 per cent of the bid made  
 payable without recourse to the  
 order of G. J. Henshaw, County  
 Judge of Terrell County, Texas,  
 must accompany each bid or pro-  
 posal, as a guarantee that the  
 bidder, if successful, will enter  
 into a contract and make bond in  
 accordance with the require-  
 ments of the specifications.

The right is reserved by Ter-  
 rell county to reject any and all  
 bids or proposals or waive all  
 technicalities. Proposals shall  
 be submitted in sealed envelopes  
 and marked "Bids for the con-  
 struction of the first section of  
 State Highway No. 12 in Terrell  
 County, Texas." Payment for  
 the above work will be made in  
 cash. All bids will be retained  
 by the County.
