Quitting time?

Time for liberty to take a day off?

Time for us Americans to turn our backs and ignore the fact that freedom throughout the world is being threatened?

Time for us to forget how generation after generation of Americans have labored and fought to make freedom a living, working, wonderful thing?

Ouitting time?

You can bet your life it isn't!

It's time for us to really start working . . . to start fighting for the way of life we love.

There are millions—only a few air-hours away in other countries-who can't enjoy Labor Day or any other day. They traded personal freedom for economic security-and then didn't get security.

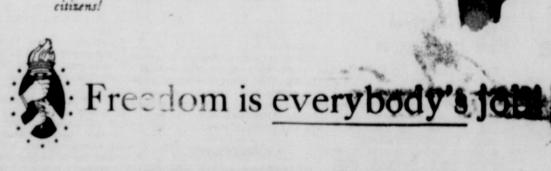

Let's not follow their example. Let's protect our precious human rights here in America. Let's help restore the rights of those who have been victimized throughout the world.

It's not easy to do. Yet not too difficult, either. We simply do our jobs as good citizens. Study political issues. Read newspapers that represent opposing groups. Find out what candidates stand for and why. Our votes can help lock the door against any attempts to steal our freedom.

Let's take more interest in civic groups, too. Attend town meetings, union meetings, school meetings, and sound off when we think our freedom is threatened.

Quitting time?

No indeed! It's time to start working as full-time citizens!

WHAT TO DO ABOUT IT FIND OUT ELECTION ISSUES. Attend

Honeymoon in Seagoing Jeep

When last heard from, Maj. Benjamin Carlin of Australia and his American wife, Elinore, were several hundred miles at sea in their third attempt to cross the Atlantic Ocean in a 17-foot amphibious 'duck," bought from Army surplus. The couple were twice turned back by mechanical trouble in attempts to reach the Azores from New York. Their plan is a six-months, round-the-world honeymoon cruise in the unorthodox craft, which is of the type used during the war to s...uttle supplies from ship to shore.
