## Special Program Next Tuesday At High School

### American Education Week To Be Observed With Appropriate Exercises.

Next week, Nov. 9-15, is American Education Week. Our schools have made plans to commemorate this week not only because of the fact that it is American Education Week, but also because of the fact that Wednesday of that week is Armistice Day. The main feature of the school plans for the week is a program on Tuesday night, Nov. 10, at 7:30 o'clock, at the High School Auditorium. All parents and citizens are cordially invited to attend.

The purpose of American Education Week is to interpret to the public the aims, needs and achievements of the school. Thursday, Nov. 12 has been designated as visitors' day at school. Exhibits and special display of class room work will be made in the different rooms and it will be possible for parents to see much more in less time than they can on an ordinary visit. It will afford the citizen an opportunity to consider the school situation, take stock and plan for the future.

The general topic for American Education Week is "What the Schools are Helping America to Achieve." Each day of the week takes up a different phase of this subject. For Monday, the topic is "What the Schools are Helping America to Achieve in Economic Progress"; Tuesday—"What the Schools are Helping America to Achieve in Child Health and Protection"; Wednesday—"In Citizenship and Loyalty to Law"; Thursday—"In Improvement of Rural Living"; Friday—"What the Schools are Helping America to Achieve Through the Enrichment of Adult Life"; and Sunday—"What the Schools of America are Helping America to Achieve Through High Ideals of Character and Home Life."

The first American Education Week was observed in 1921. The idea of a nationwide observance of a program planned to interpret the needs, aims and achievements of the schools to the American public grew out of a series of conferences of the American Legion and officers and committees of the National Education Association.

The Great War disclosed to the extent to which the human resources of the nation were handicapped by lack of knowledge of skill to serve the country adequately in a crisis. Consequently, immediately following the war, the returned soldiers themselves took the initial steps in proposing a plan for stimulating interest in the work of the schools. The American Legion provided in its character for the American Commission to pay particular attention to the education of the foreign-born and the elimination of illiteracy in the nation. The Commission sought the assistance of the National Education Association in establishing an annual event which would become a great nationwide festival in which the American people might rededicate themselves to the ideal of self-government based upon an enlightened citizenry. Thus, American Education Week began. In this project the American Legion and the National Education Association invited the co-operation of the United States Office of Education, which is now one of the sponsors of the event.

## NIGHT SCHOOL QUOTA REACHED

### Much Interest Manifested in Work By Students

Enrollment in the Sanderson Commercial Night School has reached its capacity, and after this week no new members may be added. The interest that has been manifested in this work has been appreciated and it is with regret that the enrollment cannot be increased from time to time.

Mrs. M. Wilkerson of Del Rio is visiting her daughter, Mrs. Robert Gatlin at her ranch near Dryden.

## Halloween Carnival Proves Big Success

### Many Booths and Attractions Offered for Entertainment of Large Crowd

The Halloween Carnival which was sponsored by the Sanderson Parent-Teachers Association last Saturday night was a great success. Entertainment was good, and a large crowd was present to enjoy every amusement which the occasion offered. The proceeds, which amounted to \$119.30, will be used for the benefit of the local schools.

The parade made up of school children began from the High School at 5:30 o'clock and from then until far into the night the real Halloween spirit ran high. The first grade was judged to have had the best feature in the parade and to them was awarded the prize, a generous gift of fruit.

To Mr. J. I. Daniels, proprietor of the Hi-Way Lunch Room, who so generously donated to the PTA 10 per cent on all drinks and hamburgers sold during the evening and to the Texas-Louisiana Power Company who gave their time and labor to the installation furnishing of lights without charge, do the members of the PTA feel greatly indebted.

The work of the tent committee, under the supervision of Mr. Hardgrave and Mr. Allen, was outstanding. They not only located the tents and erected them, but when the Carnival was over, they saw that they were taken down and returned to their respective owners.

The main attractions of the carnival were located on the vacant lot between the Hi-Way Lunch Room and Bohlman's Confectionery. The candy and popcorn stand with Mrs. Jim Kerr, Mrs. O. H. McAdams and Mrs. Guy Nations as supervisors, seemed to have been the most popular stand of all, for it was here that the proceeds amounted to the greatest.

Following a close second to the candy and popcorn stand was the Keno stand, efficiently conducted by Mr. A. F. Thrift and Mr. Ruel Adams.

The side show under the direction of Mrs. Kendrick Harrell, proved to be a great attraction, for according to the proceeds taken in at the door, it ranked third in popularity.

That C. V. McKnight, Bill Vaughn, Allen Owen, Mrs. A. F. Thrift and Mrs. E. K. Halbert, were very good salesmen was shown by the ample supply of confetti, horns and balloons that were distributed among the crowd.

Mr. S. E. Nelson in his creation of the tent for Men Only showed that he was well-versed in the knowledge of things that men like best. Mr. Nelson was assisted by Mr. Harry Newton and Mr. Eugene Banner.

The doll stand under the supervision of Mr. K. C. Parker and Mr. D. C. Thrift, was well patronized.

The fortune teller's booth, with Miss Bess McAdams as fortune teller, was a feature of much interest to every one, as was proven by the constant stream of comers and goers in and out of the booth.

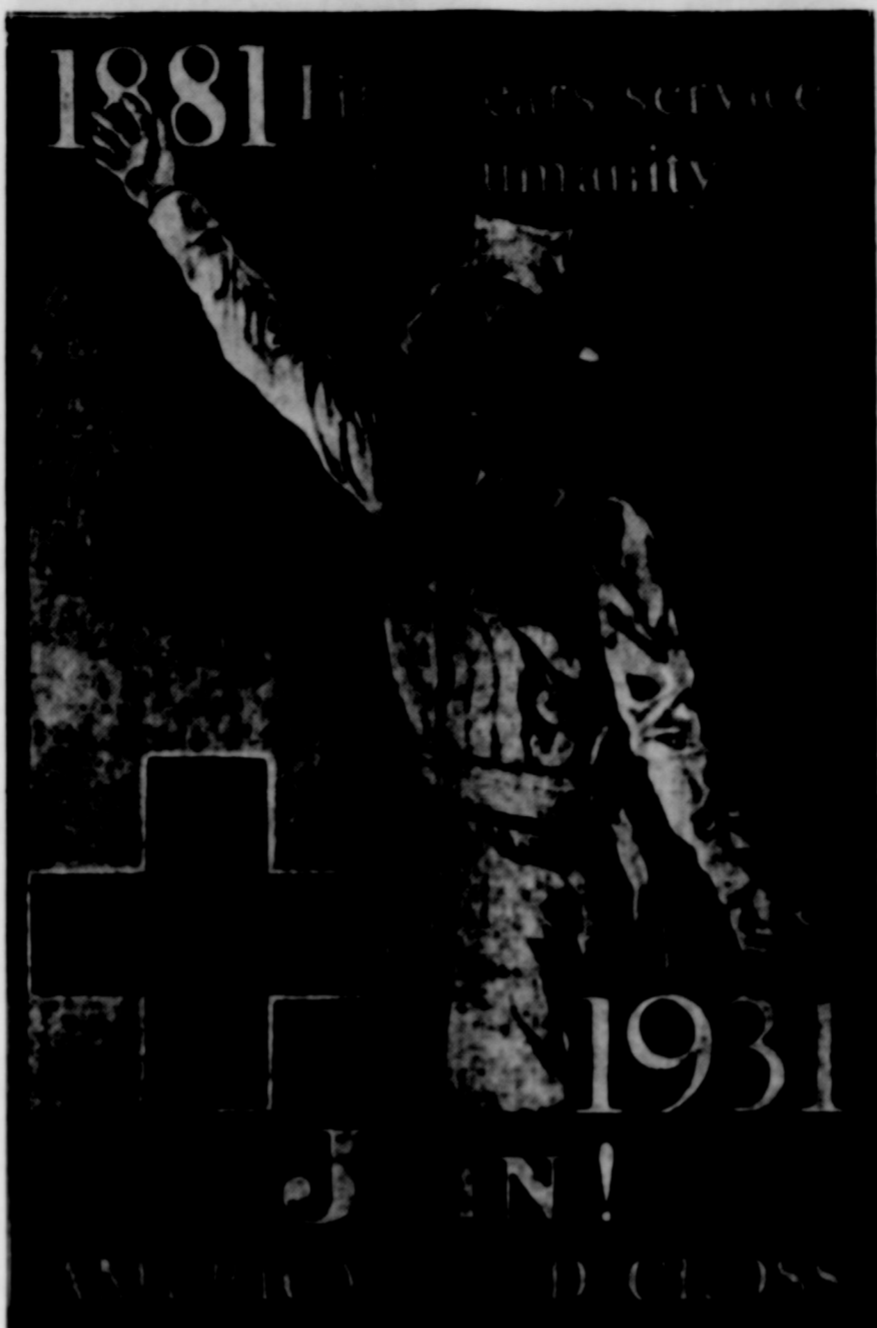

After visiting the House of Horror, where one was obliged to walk over bed springs, feel of brains, livers, hearts, spinal columns, bones, etc., he felt as if he had really reached some sort of supernatural realm. The stories told by Mrs. Lochausen and Mrs. Cargile as they conducted each person through the room were quite in accord with the Halloween occasion, and added much to making this scene really one of horror.

The fish pond was a source of much curiosity and amusement to many people. Mrs. Arrington and Mrs. Haass must be given credit for the creation of this booth.

The Ways and Means Committee, composed of Mrs. A. F. Thrift, Mrs. Lochausen, Mrs. Sims Wilkinson, and Mr. C. V. McKnight are the ones to whom credit is due for having originated the idea of a carnival as a money-making scheme.

Tom Russell who has been spending several days of the past week on the Big Canyon Ranch, returned Monday to his home in Menard.

Mr. and Mrs. J. H. Derrick who were visitors here Monday.

The annual Roll Call for the Red Cross commences next Wednesday, November 11th and will end Thanksgiving Day, which is Thursday, November 26th. The membership fee is only \$1 which goes to the Red Cross for its work in the cause of humanity.

Miss Eva Chaffin, who is teaching in the High School, has been appointed chairman for this county.

## Regular Term Of County Court Opens

### Very Light Docket; Only 2 Weeks Session Likely To Be Held.

The regular term of the county Court opened on Monday of this week with County Judge G. J. Henshaw presiding.

There is a very light docket this term only one criminal and one civil case on the docket and both of which were continued. Next week has been set aside for all cases on the Probate docket and as there is only one case on this docket, it is expected that it will be disposed of by the middle of the week and then this term of court will in all probability end.

The usual term of County court is three weeks, but due to a light docket, it will in all probability close next week, Judge Henshaw states.

## State Jurists Honor Judge Joseph Jones

Special Correspondence.  
DEL RIO, Tex., Nov. 2.—Judge Joseph Jones, Del Rio, was appointed vice chairman of the Judicial Judges' Association at a meeting of the Association in El Paso Friday, October 30. Judge P. R. Price, El Paso, is president.

The only important resolution passed by the Association was to discourage as much as possible motions for appointments by the court of interested in cases where the courts are asked to make appointments.

El Paso was selected as the place of meeting again next year.

## MOVE TO DRYDEN

Mr. and Mrs. Ray Morris and two children are leaving this week to make their home on a ranch Mr. Morris has leased 16 miles from Dryden. Mr. Morris is taking his flock of sheep and has bought 500 head of goats to stock his ranch. Mr. and Mrs. Morris have lived in Uvalde for about a year. He has had charge of the Franklin filling station. Their friends in Uvalde wish them success in their new home.—Uvalde Leader-News.

Brian Montague, an attorney of Del Rio, was a visitor here Monday.

Al Creigh, Jr., was a business visitor in Fort Stockton Tuesday.

## Drilling Resumed in Keek-Pecos Well

### Mrs. McPhee Plans To Start Test Well Soon; Leases Being Renewed.

The Keek-Pecos Trust Company drillers of a test well on Lozier Canyon, has recently changed ownership, and is now under new management and a new drilling crew.

Mr. Cowden, an expert and first class driller, has been engaged and has now moved to the well location. Last Saturday Mr. Cowden began work on the well, cleaning it out, fishing for tools and as soon as this work is completed, he will resume drilling on the well. It is understood that he is under contract to drill until oil is found and that sufficient funds are available to carry on the work.

Mrs. J. B. McPhee, prominent oil woman of Los Angeles, California, and a crew of assistants have been in the vicinity of Dryden for the past two weeks making preparations and getting things in shape to start soon on a test well to be put down on one of the leases she recently secured.

Renewed leases are being made on land in various parts of the county and several new leases have been recently made.

## THOUGHTS FOR THE WEEK

The passion of American fathers and mothers is to lift children to higher opportunities than they have themselves enjoyed. It burns like a flame in us as a people. Kindled in our country by its first pioneers, who came here to better the opportunities for their children rather than themselves, passed on from one generation to the next, it has never dimmed nor died. In deed, human progress marches only when children excel their parents. In democracy our progress is the sum of progress of the individuals—that they each individually achieve to the full capacity of their abilities and character. Their varied personalities and abilities must be brought fully to bloom; they must not be mentally regimented to a single mold or the qualities of many will be stifled; the door of opportunity must be opened to each of them.—President Herbert Hoover.

## COACH SMITH'S EAGLES TROUNCE MARFA SHORTHORNS TO TUNE OF 49-0 IN BREAKAWAY HERE SATURDAY

### Legion Plans Poppy Sale November 11th

#### The Poppy-Symbol of Armistice Day Will Be Offered By Local Post.

The Clarence Halley Post No. 160, of the American Legion of this city, will observe Armistice Day of this year by holding a poppy sale. The poppy has become the emblem of Armistice Day and we wear it on November 11 as a memorial not only to the men who died during the war torn years of 1914-18, but also to those who came back to their home alive, but bearing upon their bodies and in their minds the scars of that holocaust—the disabled veterans.

This event, which is world-wide in extent, needs no introduction nor explanation to the public. Those soldiers for whom the war is not yet over, those shattered, disabled ones, lying in our government hospitals, make these small crimson tokens for the sum of one cent per flower. The poppy is the memorial flower of the great World War, earning that honor by its gallantry in action. It bloomed beside the front line trench, beside the shell holes, on the field of battle and is now weaving a crimson mantle above the graves of those soldiers left sleeping "over there."

One half of the proceeds of this sale are sent back to the hospitals to help rehabilitate those men in the hospitals, the other half is kept by the local post for charity work.

### Mrs. Rex Tumlinson

Funeral services for Mrs. Rex Tumlinson, formerly Miss Lucille Powell, daughter of Mr. and Mrs. W. A. Powell, were conducted from the Powell residence Monday with interment in the local cemetery. Rev. B. M. Stradley, pastor of the local First Methodist Church officiated at the burial ceremonies.

The deceased was born in El Paso Texas, March 14, 1912 and passed away Saturday at 6:10 p.m. at the home of her parents in Sanderson.

In the immediate family, she leaves a husband, Rex Tumlinson, her father and mother, Mr. and Mrs. W. A. Powell, a sister, Miss Hazel Powell, and three brothers, Fleming, Douglas and Robert, to mourn her early departure from the family circle.

Mrs. Tumlinson had lived in Sanderson with her parents for several years and was affable and kind, and she leaves behind many friends in the Sanderson community who grieve her going.

Pallbearers were Messrs. L. A. Lowe, W. D. O'Bryant, B. J. Brannan, S. E. Nelson, B. F. Dawson and C. J. Watts.

The community's heart goes out in sympathy to the bereaved family.

For God has marked each sorrowing day,  
And numbered every secret tear,  
And Heaven's long age of bliss shall pay  
For all His children suffer there.  
—Contributed.

### MRS. W. A. NUNN DIES

Funeral services were held Thursday afternoon from the chapel of Kaster & Maxon in El Paso for Mrs. W. A. Nunn, former resident of this city, and wife of W. A. Nunn, fireman on the El Paso division of the T. & N. O. R. R.

Mrs. Nunn, 39, and a resident of El Paso for several years, died in El Paso Tuesday night. She was a member of the Trinity Methodist Church, and also belonged to the Maccabees and the Auxiliary to the Brotherhood of Locomotive Firemen.

She is survived by her husband, and four children, Marjorie George, Irene, Deborah, and a son, W. A., Jr., all of El Paso; and one sister, Mrs. J. W. Thompson of Tom Bean, Texas.

The many friends of the family in the city extend sympathy to the bereaved ones in the loss of their loved one.

### Shorthorns Outplayed from Beginning; Eagles Lead Offensive Game.

Everyone who attended last Saturday's football game which was played between the Marfa Shorthorns and the Sanderson High School Eagles saw what seemed to be a new team. The Eagles' running attack swept the Marfa team off its feet at the beginning of the game and the Eagles didn't slow up to give the Marfa team time to start.

Jack Laughlin, the new back for the Eagles, played a whale of a game. His end runs and off-tackle plunges were fine. Hayre at full played a wonderful game, both at carrying the ball and at blocking. Milam played his best game of the season, being high point man with 13 points to his credit. Archie is a good ball carrier and was fine on interference. Robertson at quarter played a fine game. He showed good generalship throughout the entire game, and at no time got his team in danger. He was not forced to punt during the game.

The entire back field ran exceptionally good interference and showed the best form of blocking ever to be seen by local fans.

The Daniels brothers played an exceptionally good game at right end, while Andrew Henry at left end, played what we might call a perfect game. With little more weight, Henry will make one of the best defensive ends to be found in high school. Qualtrough and Stovley looked like old timers at tackle. They kept the offense smothered on nearly every play and showed some good tackling. When they hit the Shorthorns, they knew they had been "stayed with."

And if you don't think Sanderson has two of the best guards in the entire country just ask anyone that saw the game and see what they have to say about Hardgrave and Stradley. They broke through the Shorthorn line at will to throw them for a loss during every series of downs. It was due to their work that Marfa was kept busy punting from start to finish.

Oh, yes, the center, who could play without a center, Schupbach turned in one of the best games at center that can be found on record. He showed he had been well trained on blocking and did some nice tackling.

Leo Daniels, playing for the first time this season, was on the receiving end of two passes and on both occasions ran for touchdowns.

Sanderson completed five passes for about 90 yards while the Shorthorns completed only one for 9 yards when they were brought down in their tracks by Hayre of the Eagles.

Stovell, Jack Hardgrave, Ellis, McDonald and Farley showed up fine in the fourth quarter. They did some swell tackling and have the "makin'" of good football players. We are expecting big things of them next year.

We can't help but make special mention of our line. They were like a solid wall (and brick, at that) on every play and not only were they good on the defense, but sifted through the Marfa line at will and it was the line that held the Marfa boys for only two first downs during the entire game.

Touchdowns: Robertson 2, Milam 2, L. Daniels 2, Laughlin 1, Hayre 1. Extra points: Milam 1.

Officials: Lester, referee; Bradley, umpire; M. Smith, head lineman; J. Smith and Nelson, field judges.

Del Rio will be here to endeavor to invade our field Saturday at 3 o'clock. So let's all go out and help our boys win. We have the best team in this district and we must back them up to the last. Our next word is "BEAT DEL RIO!"

### ATTENDS COUNTY COURT AT ALPINE WEDNESDAY

County Attorney, Al Creigh Jr., Sheriff Lee Cook, Bill Vaughn, Dr. Utterback, Johnnie Breg and Mr. and Mrs. J. D. Nichols were in Alpine Wednesday where they attended County Court.

## MAKING APOLOGIES

By THOMAS ARKLE CLARK Former Dean of Men, University of Illinois.

I suppose at one time or another in his life each one of us innocently or accidentally or under the stress of emotion does something rude or annoying or painful to his friends. Floyd knocked me on my corn as we were starting to church last Sunday, but, of course, that was an accident, for which he begged my pardon at once. Mrs. Core's statements irritated me beyond control a few months ago, and I blurted out just what I thought. It was the truth which I uttered, but rather rude, cruel truth which wounded her pride and brought her to tears. I knew at once that I had done a discourteous thing, and I was truly sorry and said so almost as soon as my tongue had slipped to wound her. She has never gotten over it, however.

Sheehan became very angry with me last summer about a thing which I had in fact not done at all, but of which he could not be convinced. After questioning my veracity he said some extremely insolent things and slammed the door as he went out of the room. Now Sheehan is young and impulsive, and will probably have more self-control twenty years from now than at present, and I made some allowances for his rage.

I saw him frequently afterwards, but he never saw me. He was occupying himself with the display of haberdashery in the shop windows when we met or with the clouds drifting across the blue sky, so that I did not seem to come within the range of his vision. Just recently he wanted some special privilege very badly which I only could grant. He came into the office quite embarrassed to make apology for what he had said.

"What can I do to show that I am sorry for what I said?" he asked.

"Suppose you speak to me when we meet," I suggested, "and the next time you want to apologize to anyone whom you have injured, don't wait until you want to ask him for a favor." Then we shook hands.

## Day of Prayer Services at Methodist Church Held Here All Day Tuesday

The women of the First Methodist Church of Sanderson held a special day of prayer service in the church last Tuesday. The morning session was presided over by Mrs. F. S. Garrison, president of the Sanderson Womens Missionary Society of the Methodist church. The session was opened with silent prayer, preceded by a beautiful vocal solo by Mrs. A. P. Utterback, "O Love That Will Not Let Me Go," after which Mrs. F. S. Garrison led the responsive Bible lesson: St. John 14:1, 12. Mrs. Annie Ware gave a very instructive and interesting talk on the subject, "The Law of Love," dealing mainly with the great evangelistic life of Kawaga, the Japanese slum.

and social worker who is a very devout Christian.

Mrs. Clyde Harrell rendered a beautiful vocal solo, "Jesus Calls Us," the entire congregation uniting in singing the concluding verse led by Mrs. Harrell.

Mrs. J. H. Derrick then gave a splendid address on the life and ministry of Miss Bell H. Bennett.

After this address each one present offered up a sentence prayer, concluding with a prayer by Rev. B. M. Stradley, pastor, and the Lord's Prayer in unison, and then the benediction.

Lunch was served to all by the W. M. S. at the parsonage and at 2 p.m. Mrs. F. S. Garrison, president, called the afternoon session to order. Mrs. Derrick was introduced and took the presiding officer's seat.

The afternoon session was opened after prayer by a splendid address by Mrs. John Scott on the work of the John Spofford Memorial Orphan Home, located at Kansas City, Mo., after which Miss Dorothy Stradley rendered a vocal solo.

Mrs. Garrison and Mrs. Derrick both gave splendid and inspirational talks. A mixed quartet composed of Mrs. A. P. Utterback, Mrs. Vance McLymont, and Messrs. Jeff Sessoms and B. M. Stradley, rendered the

### Guides the Shark

The pilot fish is so called because of its habit of accompanying ships and sharks. It swims closely in front of the shark and some believe it guides the shark to its food. A more plausible explanation is that inasmuch as the shark does not bother this type of fish, the pilot stays close to the shark to secure protection from its enemies.

# Final Plans Made for Natl. Wool Week to Open Next Sat.

Program to be Broadcast from New York City; Many Merchants to Feature Woolen Displays

Final guns in a nation-wide campaign to promote use of wool are being fired this week in an intensive windup of the campaign for National Wool week, November 9 to 14. Over a coast-to-coast front, last-minute programs of wool growers, manufacturers, wholesale and retail stores are under way and all is in readiness for the period which will bring the public spotlight on wool for six full days.

Fashion's right-about-face toward wool, with increasing demands for the fabric in newest garment and clothing creations, along with natural seasonal trends, will be factors in success of Wool week as ten thousand retail stores in the United States devote their windows and advertising to the textile. Style shows, radio broadcasts and extensive news paper advertising by sellers, also will add weight to the importance of Wool week.

In New York, style center of the western world, Wool week is to be hailed as a significant event Saturday evening, Nov. 7. Leaders of all branches of the wool industry, as well as outstanding stylists, will meet at the Waldorf-Astoria hotel to hear Arthur Hyde, secretary of agriculture and James C. Stone, chairman of the federal farm board. These outstanding men will give addresses and the entire banquet proceedings will be broadcast.

Proclaimed by governors and endorsed by senators in the manufacturing and wool states, Wool week has captured the attention of leading civic clubs, chambers of commerce and other groups who realize the importance of aiding one of the country's basic industries. These groups have centered campaigns on broadcasts and addresses. Retailers who will feature woolens and worsteds in outstanding varieties already have windows filled with the great variety of new creations for every purpose in clothing and for use in the home.

### COOKIE ASSORTMENT FOR THE UNEXPECTED GUEST

It's a simple thing to revive Grandma's idea of the ever-filled cookie jar in these days of self-rising flour! The modern housewife can have cookies of all descriptions ready for the unexpected guest.

Grandma's idea was just a tradition of her time, that no one should leave her house without food or drink. Grandma always expected the unexpected guest.

That was hospitality. That was neighborliness. That was courtesy of the most genuine sort. And Grandma handed down her fine old tradition to daughter and son, and to her descendants to the third and fourth generation. Grandma's idea is a sacred legacy to the modern housewife, and hospitality lives again throughout the land.

Of no small importance in this renaissance of graciousness are the modern "bakin' makin's." With self-rising flour, Grandma's heir or heiress can have on tap a variety of cookies, cookies simply made and in less than half an hour. Then, when some one drops in unexpectedly, there will be no need of sneaking out for ice cream and delicatessen cake.

Self-rising flour is a home laborer, ready for use, reliable, nutritive. It is a soft wheat flour to which the baking powder and salt have been added. Self-rising flour is an insurance against all baking hazards. Try filling up your cookie jar with this recipe:

- 1/2 cup butter
- 1 cup sugar
- 1 egg
- 1/2 cup milk
- 1 lemon, juiced and grated rind
- 1 tsp. lemon extract
- 3 cups self-rising flour

Directions: Cream the butter and sugar together. Add unbeaten eggs one at a time. Beat until thoroughly blended. Add flour and milk alternately. Then add the lemon juice, rind and extract. Drop by teaspoonful on a greased baking sheet and bake in a moderate oven about 20 minutes.

Cotton from certified seed grown in demonstrations with the county agent in Taylor county is producing from 1-16 to 1/8-inch better staple, and is taking 75 to 125 pounds less to turn out a bale than ordinary seed early ginnings showed.

By watching his markets closely Charlie Morrow of Houston county has been obliged to take less than 20 cents per dozen for his eggs but once this year. He is a poultry demonstrator whose 400 seven-month-old white leghorn pullets have laid 350 dozen eggs. Well balanced laying mash and a special effort to provide green feed is his explanation.

Jones county home demonstration club women expect to help from 700 to 1,000 housewives on 2,864 farms to have well-stocked pantries this winter.

Declaring that his 15 acres of permanent pasture was worth \$34 to him in a recent month, August Margot, dairy demonstrator at LaMarque Galveston county, explains that when he took his 22 cows off this pasture they dropped 8 1/2 quarts in milk flow the following day.

Farmers in Van Zandt county butchered and canned 300 beeves in 1930 and this record will be doubled this year, according to the home demonstration agent.

In getting a large number of fall garden demonstrations established the county and home demonstration agents of Baylor county have been showing home demonstration club women how plaster lathe irrigation tiles give good sub-irrigation at small cost.

Unfilled orders at Texas textile mills at the end of July totaled 6,321,000 yards, increase of 19 per cent over the preceding month and of 43 per cent over that of July, 1930. There are twenty-one textile mills in Texas.

The cotton mill at Post, which for two years has been running on part time basis, is resuming operations on a full 55-hour week schedule and bringing its payroll back to \$250,000 a year.

### Bankers Help

In a report on banker-farmer work, H. Lane Young, Chairman Agricultural Commission, American Bankers Association, shows that during the past year there were 469 meetings reported in 38 states, with a total attendance of 38,578. County key bankers numbering 2,541 were appointed in 39 states. Thirty-four states reported an expenditure by banks of \$105,926 for developing better agricultural practices.

Special banker-farmer activities engaged in by banks in 27 states numbered 8,493, while 7,149 projects or farm programs were carried on by rural people through the influence of bankers.

For three years the Agricultural Commission has given special recognition to the state reporting the highest record of accomplishments and this year Georgia achieved first place with its banker-farmer agricultural program. Representatives of the Georgia State College and officials of the Georgia Bankers Association developed the methods and policies which made it possible for Georgia to carry out an effective program which emphasized "directed credit from banks for producing crops on the live-at-home basis."

Appreciation for the cooperation received from local bankers was recently expressed by County Agent H. E. Bodley of Gallatine County, Montana, who said: "My personal experience has been that the average banker will go more than half way with the county agent, providing the latter has demonstrated that his work is constructive and conservative, that he is a man capable of handling confidential information and treating it as such, and one who can 'keep his foot on the ground.'"

DENTON, Tex., Nov. 5.—During the present period of economic stress there is need for a food guide which will furnish the maximum of health and energy from a minimum expenditure of time and money. Food standards must not be lowered, but more careful consideration must be given to the planning of the "three meals a day."

In planning menus, budget the amount to be spent for food and figure the "per person per day" allowance. As much money should be spent for milk as for meat, fish, and poultry. Fresh fruits, green vegetables, and whole grain cereals should also come in for an equal share. From two to four times a week serve tomatoes, dried beans and peas, nuts, eggs, and cheese. Sugars and starches are used to furnish the required energy. The home manager should attempt to adapt her menu to local prices.

### MENUS

**SUNDAY**  
Breakfast: Tomato juice, bacon, waffles, coffee, milk.  
Dinner: Baked chicken with dressing, rice, stuffed squash, fruit salad, rolls, vanilla ice cream, cookies.  
Supper: Toasted cheese sandwiches, whole wheat bread, butter, preserves, hot chocolate.

**MONDAY**  
Breakfast: Cream of Wheat with raisins, scrambled eggs, toast, coffee, milk.  
Lunch: Ham souffle, buttered spinach, cabbage and carrot salad, bread and butter sandwiches.

Mocha Sponge.  
Dinner: Crown Rib roast, potatoes (baked), buttered beets, lettuce and tomato salad, biscuit, butter, baked apples.

### RECIPES

**Peanut Cookies**  
Cream 2 T butter, add 1/4 c sugar, and 1 egg well beaten. Mix and sift 1 t baking powder, 1/2 t salt, 1/2 c flour and add to first mixture. Add 2 T milk and 1/2 c peanuts (chopped) Drop from a teaspoon on an unbuttered sheet. Place a few half peanuts on top of each. Bake from 12-15 minutes in a slow oven.

**Buttered Spinach**  
Wash spinach thoroughly. Put into a stew pan. It is unnecessary to add water, as sufficient water adheres to the leaves to cook the spinach. Cook from seven to ten minutes or until tender. (The spinach should not lose its color during the preparation.) Remove from the fire and cut the spinach finely. Pour browned butter over it and garnish with hard cooked egg.

**Blanc Mange**  
Soak 2 T gelatine in 1/2 c milk for five minutes. Scald 1/4 c milk with 1/4 t sugar, and add soaked gelatine. Strain, cool slightly and turn into a wet mould, and chill. Serve with any preferred jelly or whipped cream.

TRIAL REAL TEST OF CHARACTER

THERE ARE not wanting signs to indicate that a deep sense of fear for the dissonance and strife which the approaching winter may bring is abroad in the nation and the world. The trend of a long train of depressing events has crystallized belief that next winter will witness the climax of the present unrest. Portents of brewing trouble are scattered among the news stories of the day—generally inconspicuously. President Green of the American Federation of Labor warns that the government must aid the jobless, or face rebellion. . . . A flat tenant in Chicago is evicted, a riot results, three are killed, many wounded. . . . A northern Wisconsin city, on the brink of bankruptcy, asks the attorney general how its poor are to be fed. . . . Montagu Collet Norman, governor of the powerful Bank of England, broadcasts the warning that unless drastic measures are taken the capitalistic system of the world will be wrecked within a year. . . . Banks close their doors—silently—intensely distress, kindle into flame the discontent on which communism thrives.

We have at least passed the camouflage stage and begun to face facts. No one any longer denies that industry is in a bad way—not even the professional political optimists. At last we are facing realities divested of bunk, and that is progress. "The people that sat in darkness have seen a great light." We know that in spite of the luminous vision and lofty designing of the mighty wizards of industry and finance things can go awry, show them up suddenly as mighty little wizards. We know that the politician's cock-sure formula for prosperity, die-cut, stamped and trade-marked, can be turned by events into a withering irony. We know, in a word, that we still have a good deal to learn about industry, trade, commerce, economics, finance. Recognizing our ignorance, there is hope that in time we may learn.

It does seem that the people who sat in darkness have begun at least to see great light. Our next most urgent need is faith, faith in ourselves and, to be honest, faith in God. We need to remind ourselves that Providence will not suffer us to be tempted beyond that which we are able to resist, and that it is our duty to resist. We can catch glimpses of a rainbow of hope in the parable of the birds of the air that "neither sow nor do they reap nor gather into barns," and yet they find food enough somehow, and time to exercise the blessed gift of song. We can find inspiration in pausing to consider the lilies of the field that labor not nor do they spin and yet Solomon in all his glory was not arrayed as one of them.

We are facing a time that may bring organized unrest. We can face it in the spirit of the timid and cowardly, ready to turn tail and flee at the sound of the first stir in the brush. Or we can face it bravely and confidently. Trial is the real test of character. It is Waterloo and Valley Forge that fix names in history, not the eras of artificially stimulated prosperity about which there has been so much ballyhoo. There is nothing to be gained by taking a fearful prospect of what is ahead. Generally the anticipation is worse than the reality. Everything is to be gained by facing the situation squarely and resolutely and adapting our manner of life to meet it. The winter may not be so bad after all.—Times, Chilton, Wisconsin.

"HELLO NEIGHBOR"

YOU NEVER realize how much that simple, staunch greeting you hear so often means unless you go away and hear it not at all—"Hello Neighbor" you hear it on your way to work. It starts the day off right, gives you confidence, sends you forth with added zest, with fresh courage and a determination to remain worthy.

"Hello, Neighbor"—you hear it when you go to lunch. Somehow it makes the food taste better, makes you forget your worries, makes you spend with a glow of inward satisfaction.

"Hello, Neighbor" you're greeted as you journey homeward. And all the rancor leaves you, you catch that sense of well-being, your troubles and perplexities leave you, life seems truly sweet.

It is strange how these two simple words can mean so much. However, they do. They contain the very essence of friendship, itself. When they are spoken to you they really come from the bottom of someone's heart. They are more than a greeting, they say: "We hope you are well and that everything is going along swimmingly and that it's a fine world if you understand and make the most of it." The pleasure of hearing these two words expressed gives everything a brighter hue and the sadder thoughts which tenaciously abide with us are evaporated in the greeting, "Hello, Neighbor."—Burt County Herald, Tekamah, Nebraska.

Word of Encouragement His Last Public Service

IN PAYING a last tribute to the late Thomas A. Edison, nothing more impressive can be said than to repeat what was probably his last public statement, flashed by radio from his laboratory in Fort Myers, Florida, to the National Electric Light Association last summer, at Atlantic City. His words which follow show his interest in humanity which he had served so long and faithfully. In these difficult times they should be engraved on the consciousness of every American citizen.

"My message to you is to be courageous. I have lived a long time. I have seen history repeat itself again and again. I have seen many depressions in business. Always America has come out strong and more prosperous. Be as brave as your fathers were before you. Have faith—go forward."

upon his decision.

BREVITIES

The Bouknight trial in Houston has proven one thing conclusively: there are many sources of supply for the man who doesn't care what kind of liquor he puts in his stomach. And the bottlegger witnesses for the state, got plenty of free advertising.

Laredo is to have a \$100,000 pecan shelling plant that will employ from 500 to 1,000 women workers.

THIS AND THAT  
By JIMMINY

At the moment we are intensely interested in finding a cure for the worst depression we have ever experienced. In all probability our problem would be less perplexing if we would have given more thought to the cause and prevention of previous depressions. But that's neither here nor there; the thing is, we are entering the third year of chaos and "kayoes" and all that sort of stuff, and something must be done about it.

People must be put to work and fed before another winter passes. Republican prosperity may be a good thing, but it's too much to ask a Democrat to go through another four years of it without a little meat on his ribs, at least. And, the way things are looking now, the Republicans are trying to get things in shape for 1932. It may be they are just lucky that way, but the fact that they win so consistently leads one to believe they have an inside track on the science of politics.

Far be it from this writer to say that Hoover has been playing politics at the expense of the hungry and impoverished workers. Far be it from this writer to say that the return to normal times, just before the presidential election, is due to Republican connivance, trickery or what have you. But farther be it from this writer to deny it if someone else says it's so.

The fact that President Hoover's plan to release frozen assets comes on the eve of a political year, may or may not have political significance; but the fact that the proposed plan has restored a great deal of confidence among the buying power of the nation is significant. Men who haven't smoked a "tailor-made" cigarette since the new cigarette tax law went into effect are frequently seen at cigarette counters buying the ready-made fags and paying the tax without even looking back.

The plan of Southern bankers, in co-operation with the Federal Farm Board, to hold 7,000,000 bales of cotton off the market has met with favor generally. If the bankers will hold the cotton and the farmers won't have to hold the "sack" next year everything will be lovely.

But if this experiment fails to pan out, we will have to go back to the old theory of increasing consumption to get rid of the surplus, which is probably the only real and lasting remedy for the situation. If every torn, ragged and worn out piece of cotton goods in this country could be replaced with new material tomorrow, there would be no surplus cotton to speak of.

There was a time when "what this country needs is a good 5-cent cigar"; but today what is needed is a good advertising man who can cause people to jar loose with some of the filthy lucre they have stored away.

ODD THINGS AND NEW—By Lane Bode

NEW KINDERGARTEN SYSTEM INSTALLED; BASED ON THEORY OF INDIVIDUAL INSTRUCTION

DENTON, Tex., Nov. 5.—Emphasizing a new system of individual advancement according to development, the kindergarten under direction of Texas State College for Women (CIA) has recently inaugurated a plan whereby children may complete one year's work in four months.

Using a scientific box, work is

planned by students teachers and supervisors so that each child receives separate instruction and attention which will cope with individual problems and advance the child without placing him under a standard regulated by his classmates.

It is now possible for children to enter the nursery school between two and five years, to enter kindergarten at five and first grade when showing sufficient ability. All of these departments are under direct guidance of the college.

John Garland Pollard, Governor of Virginia, says:

"The time comes in the life of every good father when his own ambitions begin to merge into his ambition for his children—when he begins to think about their future more than his own—when he begins to hope that his own failures may to some extent be redeemed by his son's successes.

"As a father I can think of no higher joy that could possibly come to me in this life than to see my children doing well and have the consciousness of knowing I had done my best to prepare them for life. This, to my mind, is the acme of human happiness.

"On the other hand, I can think of no greater sorrow that could possibly come to a father than to see his children blundering and stumbling through life and feeling that he had not done all he could for them.

"A man's success in life depends not only upon what he himself accomplishes, but also upon how much good he projects down through the years in the lives of his children."

LISTEN, LADIES!

GET pencil and paper, and see if you can answer "yes" to these questions. Here we go!

Question One: Can you read comfortably at night in each chair in your living room?

Question Two: When you are reading can you look up from your book without being compelled to blink because of light shining into your eyes from an unshaded lamp?

Question Three: Can you do your letter writing without making a shadow on the paper with your hand?

Question Four: Can you read names and figures in your telephone book by the light at the telephone stand?

Question Five: If you have children, have they good light in the living room or dining room for home study demanding close eye-work?

If you would like to know how to use light for comfort and beauty we shall be glad to help you.

Our home lighting specialist will give you advice on all lighting problems, free. Ask us for this service, or write or telephone us for a free copy of our interesting booklet, "How to Light Your Home."

Large Class in Bible Study At Dryden Mission Church

We are indeed happy to note that all the pupils in class No. 1 in Bible taught by Rev. B. M. Stradley finished last Sunday afternoon, and that we had such a large class to begin the study periods when the first class had finished. We are using a most excellent book, "The Worker and His Bible," which is absolutely free from any kind of denominational bias.

Anyone desiring to take this Bible study work for credit, please advise me at once.
