Oil

TEXAS farmers and ranchers received last year from oil men the huge sum of \$132,478,000 for leases and royalties as their share in this partnership.

All but seven of Texas' 254 counties now share in this cash return from leases and production on more than 50,000,000 acres of Texas land.

Then, too, the Texas farmers and ranchers sell to oil workers and their families more than \$60,000,000 worth of farm and livestock products each year.

Thus the farmers and ranchers of our state receive nearly 200 million dollars a year as their share of oil's total expenditure of 750 million dollars annually in Texas. These 200 million dollars in turn flow into every channel of Texas trade.

The Texas farmer and rancher and the oil man are partners in the development of Texas.

Who's Who Among the Seniors

A snowy night, January 10, 1923, a tiny black-haired girl was born to the Hardgraves. She was born in the house where Lynn Harrell's Dairy is now. They named her Mary Bess. Now Mary Bess grew and grew until finally she became a senior. Always since grammar school days she never made a thing but A's, A's, A's. And she has kept the same record even through Math.

Mary Bess is taking English IV, Physics, American History, and Economics. Her favorite is Economics and her hobby is reading magazines. Mary Bess despises red finger nails and sophisticated people and likes simple food cake and strawberry ice cream.

After graduation she is going to Abilene Christian College and major in primary education. She then plans to teach.

—O—

Born on August 21, 1923, in Houston, Texas, was the perfect little companion for Lysbeth. She was a tiny thing, with big, blue eyes and soft brown hair. Who would have thought she would have attained her senior year in S. H. S. in the good ole 1940 year? She is Erma Lee.

Erma Lee spent most of her school life in Del Rio. Always a star pupil, and with natural ability to win friends, Erma Lee did just that when she came to SanderSON in 1939. This year she is taking English, Economics, Physics, Bookkeeping, her favorites being English and Bookkeeping. She likes tennis, Chiche, and Joe, and dislikes to wear silk hose, the color green, and she especially hates to wait!

After graduation, Erma Lee says she is undecided as to what to do, but she intends to have fun whatever it may be.

—E-N—

CAN YOU IMAGINE?

Jane Ord being a brunette? John Fisher being tall, dark and handsome? John Clark liking the girls? Erma Lee not being able to do everything in general well? Joyce not being widely famed for her soprano voice? High school students being allowed to see the Grammar school assemblies? Malcolm worrying about whether he is going to graduate or not? Mary Bess lacking the quality of modesty? The senior class having a party every two weeks? Margaret Pierson being happy-go-lucky? Some of the seniors being worried about getting their diplomas? Sambo Shaw in glasses?—Well he's in them now. Robert Shaw getting desperately in love while in Odessa?

—E-N—

Phone your news to the Times.

SNOOPER—

Well, the band trip is over. The kids are back with their pockets simply brimming with addresses. Ask Roberta who the swain is in Pecos who makes every feminine heart skip a beat. She'll say "He's mine!"

The skating rink's back, and here's every girl's chance to fall and get picked up by their favorite.

We hear Jeep kinda likes Bernice. Well, they say that in the spring, every young man's heart turns to love.

Bobby Lee, John Clark, Bill, you're late!

Butch and Bernice! (Doesn't that sound petite?) were seen demurely sipping sodas together. Soda's good in Odessa kids?

Please Duaine, is the sweet lil' blonde Margaret Ruth, or is she the exotic Maurine? Let's decide, huh?

Don't tell a soul, but we saw Sambo and Lois Mae throwing wads at each other in study hall. Is this a new romance, or is it a feud? The ole Snooper knows Sambo has a cute little brown-eyed girl in Eagle Pass already.

Edna Mae, did you put your arms around Curtis?

What girl said Ray Phillips was a honey?

What did Coach have to get on Joe Ross about? Was it because he was making eyes a Chiche?

Who in the world is Donald helping with her English? Seems like she was that little brown-eyed girl—Elouise.

School—From a Senior's Point of View

Right after the short three months holidays on some September day you meet some of your old friends. You are in new clothes from head to toes, but you feel out of place and a little bit scared. Loud laughter, whistles, and footsteps echo up and down the long familiar hall.

"Why hello! Mary Jane!" you exclaim in an excited voice. You are overjoyed to get back to school. Seemed like you'll never be too old to not have to go back to school.

After a lot of studying and fun you're so glad it's April! Then May! There'll be a lot of worries now. "Say have you got your book reports in yet? I forgot how many points I have!" "Where's your term theme in English and history?" "How about Economics, science, algebra, business arithmetic?"

Oh! You go to bed and wake up in a gripey mood. Why? Because you walked in anxiously upon the stage in a long gray gown and didn't get a diploma. Every Senior's nightmare! Every other Senior eagerly accepted a diploma, but you were left on the stage humiliated. Gosh! 11 years you've been preparing for this moment. 11 crowded years of work, and then, the very last day, to be so ashamed. I'll tell you, folks, being a Senior is serious business.

Thirteen Awards to Be Given at Close of School

To members of the school who are the highest in their field, 13 awards will be given at the close of school. Six scholarship awards are given by the school, and two other medals for the best all-around boy and best all-around girl. The Rotary Club gives a medal to one member of the senior class who has a general outstanding record. The American Legion gives two awards to pupils in the sixth grade for scholastic attainment. Mrs. Mary Mitchell gives an award of \$10 to the student in high school who makes the highest scholastic rating. The valedictorian, or the highest member of the senior class will get a scholarship to any college or university in Texas.

The medals given by the school are gold with their meaning written on them, and attached to a dark blue grosgrain ribbon.

SENIORS STUDY LETTER WRITING

The seniors have been taking up a short unit in letter writing recently. They have taken up the study of different types of business letters and the study of social letters. They have also begun work on term themes that will be due around the last of the school year. Some of the subjects the seniors have picked are "The Resources of Alaska," "Beauties of Hawaii," "California," "Mexico," and "Pompeii." Many of the students have already received information from various other countries.

Thoughts at Random; The Odessa Trip

David: We had more fun in the hotel than anywhere else, but I think the manager enjoyed it as much as we did. We learned what a well disciplined and experienced band looks and sounds like. I believe our band has room for improvement.

Ross: I enjoyed playing in the band, and had fun all night and day.

Erma Lee: The weather was so nice to march in—it can be said that Odessa has pretty red dirt, especially when it rains, so s-t-l-c-k-y—it seems quite a few jitterbugs were discovered in the lobby of the hotel—to EAT was the thought in everyone's mind and the first place to look for a lost one was in the drug store adjoining the hotel—believe it or not, everybody met on time—

the halls were the meeting place and time again they were lined from side to side with uniforms—there were pretty drum majorettes (ask Robert Shaw) and every kind of uniform imaginable—it seems that everyone was asking everyone else, and whether they ever found the other or not, no one knows, not even themselves—6 o'clock came early—and so home again which hasn't changed a bit.
