E. Lewis, of Graham, eest of her sister, Mrs. gton, last week.

## MISS DORIS DUKE RUNNER-UP FOR "MISS SOUTHWEST"

An estimated out-of-town crowd of 3,000 people and gate receipts of \$6,000 give evidence of a very successful water carnival, the first since the war, which was held last week-end at Fort Stockton. Many local people were in attendance at some or all of the events and much favorable comment has been heard on all features of the water show.

The announcement of Miss Lou Ann Hassenflu, a 16-year-old Fort Stockton High School Junior, as "Miss Southwest of 1947" came in the final act of the Aquacade show. Miss Hassenflu, who is the daughter of Mr. and Mrs. John Hassenflu, won a loving cup and a trip to Hollywood. She was crowned by Miss Jean Stephenson, of Fort Stockton who was "Miss Southwest of 1941".

Miss Doris Duke of this city, who was declared winner in a beauty contest sponsored by the local Lions Club recently went to the water carnival as "Miss Sanderson". With Miss Jeanne Cleveland, of Pecos, Miss Duke was declared a runner-up in the selection of "Miss Southwest". She, with her mother, Mrs. D. L. Duke, and her sister, Diane, went to Fort Stockton Thursday morning and participated in the social events and activities planned for the 28 beauties, representing 11 West Texas cities, who competed for the title.

## MILADY'S BEAUTY SHOP SOLD TO MRS. SUE ROSE

Mrs. Nell Stokes, who has owned and operated Milady's Beauty Shop for the past seven years has sold her shop to Mrs. Sue Rose who will take charge of the shop Tuesday, July 1. Mrs. Rose was employed by Mrs. Stokes several years ago and is not a stranger to this community. She expects to give the same high class work and service that has characterized the shop under the previous ownership.

Mrs. Stokes stated that she has no plans for the immediate future only to stay at home and rest.

## Closing Exercises For Vacation Bible School Sunday Night

The closing exercises for the Daily Vacation Bible School sponsored by the Presbyterian and Methodist Churches were enjoyed by a large audience at the Presbyterian Church Sunday evening. The worship service was the same service used for the opening of the vacation school. Each department made a contribution to the program to show the type of work done by the school.

The children of the beginner's group sang two songs and gave Bible verses. The primary department also sang songs and one of the pupils gave a poem, "Until I've Tried". The theme of study for the juniors was "Praise Ye the Lord" and the hymns, readings and worship service emphasized the theme. The pupils of the intermediate department presented a marionette show "The Story of the Good Samaritan".

The handicraft work was on display in the Sunday school rooms and showed much skill and ingenuity on the part of the pupils and instructors. The leather tooling drew much attention.

Certificates were presented to each student by the superintendents. There was an enrollment of sixty-five for the school which lasted for two weeks. Twenty adult workers participated in the program of worship, study, recreation and handicraft which were taught. Rev. Lawrence Menefee was the superintendent of the school and Rev. John Byrd the assistant superintendent.

## Dryden Girl Weds Hamilton-Bassett Wedding Rites Read Saturday, June 21

In impressive rites solemnized at the Methodist Church Saturday afternoon at 4 o'clock, Miss Lois Bassett, of Dryden, became the bride of Raymond Hamilton of this city. For the ceremony the church was decorated with bouquets of pink gladiolus arranged at each end of the altar and on the altar table. The altar was entwined with sprays of wild honeysuckle. Prior to the ceremony Mrs. E. M. Rainbolt sang "Because", providing her own accompaniment. She also played traditional processional and recessional marches and incidental music during the ceremony.

The bride, given in marriage by her father, was attired in a powder blue crepe dress with brown and white accessories. Her corsage was white carnations. Mrs. Ben Estes, the bride's sister and matron of honor, wore a grey suit and corsage of pink carnations. Bill Brunskill served as best man.

The single ring ceremony was performed by Rev. Lawrence Menefee in the presence of relatives and close friends of the bridal pair. After a wedding trip to the Indian Lodge at Ft. Davis and the Carlsbad Caverns, Mr. and Mrs. Hamilton will be at home in Sanderson at the Cargile apartments.

The Lads who came to the front a few sessions back suffered defeat at the hands of the lowly Rotarians and was placed in the tying position with the ex-GIs. Their upset in last Friday's game made a different picture of the whole percentage column. The boys will play the Railroaders tonight (Friday).

Since last week's standing position was published the roaring Lions have come to a third place post and placed the Railroaders ahead of the Fire Department.

Anything can happen at the softball games and no team has shown the ability to maintain top position for a very long period. The Rotary has strengthened their team somewhat in recent games and may be expected to do most anything in coming games to the high-ups as they proved in last Friday's game. The Youngsters have a fast team and will likely cause worry with any group they meet.

MRS. RICHARD HAMILTON

## LEGION REGAINS LEAGUE LEAD IN SOFTBALL TILT

The American Legion team now leads the league in softball after wallopping the Rotary nine 20 to 15. At the beginning of this last game the Legionnaires were sharing the top perch with the Teen-agers. The Rotary on the cellar position with seven games played and only two to the credit side.

The Lads who came to the front a few sessions back suffered defeat at the hands of the lowly Rotarians and was placed in the tying position with the ex-GIs. Their upset in last Friday's game made a different picture of the whole percentage column. The boys will play the Railroaders tonight (Friday).

Since last week's standing position was published the roaring Lions have come to a third place post and placed the Railroaders ahead of the Fire Department.

## All-Star Softball Team Chosen By Popular Vote

Monday night the spectators at the softball game were given ballots with positions indicated for a first and second-choice team of all-stars to be filled in according to their choice for each position. The blank ballots were distributed by members of the Lions Club in order that a team of the public's choice might be selected to play out-of-town games as well as matched games with other local talent.

The results were amusing in some cases, according to the committee who tallied the ballots. In some instances players were chosen for positions that they had never attempted to play. Many only voted a partial ticket but the player receiving the greatest number of votes for a particular position was placed on the all-star team and the runners-up were on the lineup for the second team.

First and second choices and positions were: catcher, Maples and Nance; pitcher, Grigsby and Hamilton; 1st base, Weigand and Paul; 2nd base, P. Dishman and J. Davis; 3rd base, Al Dishman and J. M. Harrell; ss, Faust and Berkley; lf, W. W. Suduth and Mussey; cf, Harkins and Hogg; rf, W. Blackwelder and Whistler.

Miss Tommy Voitel, of Waeider, Texas, returned to her home Wednesday after a visit with Miss Doris Cooke.

Mr. and Mrs. J. C. Bell, of Valentine visited with Mrs. Bell's sister, Mrs. Charlie Rogers this week.

## Wool Bill Veto Likely

Members of Congress from western sheepraising states this week said Truman plans to veto the controversial bill probably before the end of the week, according to word received here Wednesday.

The action, however, they said, reportedly would be accompanied by a presidential directive to the Commodity Credit Corporation to continue its purchase program of the domestic clip.

The congressmen would not be quoted by name.

Rep. Granger (D-Utah) and Sens. O'Mahoney (D-Wyo) and Hatch (D-NM) conferred with Secretary of State Marshall and Undersecretary Acheson for 40 minutes on the wool bill.

Under terms of the legislation the CCC would resume its purchase program, which was suspended April 15, and the President would be authorized to impose import fees on foreign wools when they were in-parsing a new bill dealing with prices.

The State Department, protested passage of the measure because of the import fee provision.

While legislators were awaiting presidential action, Sen. Robertson (R-Wyo), was pre-the wool industry.

He was author of the wool measure as it originally passed the Senate providing simply for continuation of the government wool purchase program and authorizing the CCC to sell its stocks at less than parity prices, thus eliminating an obstacle which has made it difficult for American wool to sell on a competitive market with British wools from Australia, New Zealand and South Africa.

Granger said that Western congressmen "feel it should not be difficult to secure passage" of such a measure.

## Sanderson State Bank Ends 40-Year Service

### ALLEN DELIVERS SHORN LAMBS TO FT. WORTH MARKET

R. N. Allen, Terrell County ranchman, sold 210 sheared lambs on the Fort Worth market this past week for 16 cents. The muttons weighed in at 78 pounds and were in good flesh. Mr. Allen and his son, James, have contracted 2,000 lambs for August 1st delivery at 16 cents. These lambs will be delivered at the stockpens in Sanderson.

### DRYDEN NEWS

By Miss Vima Cash

Mr. and Mrs. Will Taylor, of Fort Stockton, visited in the Farley home Sunday.

Mr. and Mrs. A. A. Burdwell, of Del Rio, spent the week-end here visiting Mr. and Mrs. Farley. Mr. Burdwell is a brother of Mrs. Farley.

Mr. and Mrs. J. A. Kennedy left on a two weeks vacation trip to South Bend, Texas, their former home.

Mr. and Mrs. Fogger Dunnagan have purchased the Ben Estes property on highway 90, and have leased the cafe to Mr. and Mrs. Charles Baker.

Bob Henderson was rushed to San Angelo one day last week for an emergency operation. He is a brother of Stewart Henderson.

Mrs. Ben Estes and children returned home Friday. They had been visiting relatives and friends at Sweetwater and Millsap.

Morris O'Donnell entertained a group of Dryden people with a hay ride and watermelon feast at ten mile park. Games and dancing were enjoyed. Those attending were Morris O'Donnell, Mr. and Mrs. Jim Powers, Edwin Word Smith, Joe King, Pauline Chandler, Mr. and Mrs. Johnny Wagner, Alonzo Cash, Mr. and Mrs. Wade Harrell, Louise Geers, Bob Rains and Vima Cash.

Mr. and Mrs. Vic Littleton were in Saturday to attend the wedding of Miss Lois Bassett and Dick Hamilton.

Mrs. Agnes Davis and son Bob, are here visiting with her sisters Mrs. Briggs and Mrs. Pickard.

Harold Shaw and Mrs. Nelson Billings and children, of Del Rio, spent Sunday with their parents, Mr. and Mrs. Simman Shaw.

Surveyor Tighe with the International Boundary Commission is down measuring the water level on all the wells along the border from Martin Dam site on above Sanderson. He will be here for several weeks.

Mr. and Mrs. Alfred A. Cooke returned home Saturday night from Corpus Christi. They went to Ozona for the week-end.

Mr. and Mrs. Henry Goldwire and children, of Phillips, have arrived in Sanderson where they will spend the summer with Mr. Goldwire's mother, Mrs. H. C. Goldwire.

Mrs. Iia Cates, of Rochelle, Texas, is visiting in the home of her son and daughter, Herbert Cates and Mrs. Marvin Kelley.

Mrs. June Kimble, of Fort Worth, is a guest in the home of her daughter, Mrs. E. M. Rainbolt. Mr. and Mrs. Rainbolt and children and Mrs. Kimble, spent the week-end in Fort Davis.

The Sanderson State Bank will celebrate 40 years activity here on next Tuesday, July 1. The capital surplus and total assets of the institution have grown considerably in the almost half century that the bank has been operating. In 1907 the Sanderson State Bank was organized with Joe Kerr as president, with a capital of \$25,000, in the Kerr Mercantile Company building. After the completion of the new building on the corner across from the Kerr Hotel, the bank operated in that location until November of 1945 when the present location was acquired.

Joe Kerr served as president of the bank until his death in 1939 at which time Frank K. Harrell was named at the helm of the institution. Mr. Harrell has remained in that post since Mr. Kerr's death. Original directors were Joe Kerr, S. B. Hudson, J. C. Stansell, Chas. Downie and N. H. Corder.

The officers and directors of the bank now include, officers: Frank K. Harrell, president; James Kerr, vice president; C. P. Peavy, vice president and cashier; Directors, C. H. Arvin, Frank K. Harrell, James Kerr, N. M. Mitchell, C. P. Peavy, S. L. Stumberg and John T. Williams.

The present capital surplus is over \$100,000.00 and total assets are in excess of \$1,500,000.00.

## FREE BARBECUE FEATURE FOR JULY FOURTH HERE

July Fourth will be observed in Sanderson with a big free barbecue, made possible by the American Legion, at noon on Friday. This big day climaxes an extensive drive for funds for the erection of a new Legion home in the eastern part of town. So far the drive has been very successful but it is hoped that this remaining week will bring the fund up to a point where construction of the new home can be assured in the very near future.

The big feed will be on the courthouse lawn and the public is invited to participate, according to Robert Kerr, commander of the local post American Legion. Plenty of meat and all the fixings have been assured and it is thought that no one will go away hungry.

An old time barn dance is scheduled for the evening's entertainment beginning at nine o'clock at the Kerr Mercantile Company Building. Elaborate and quaint costumes are promised for this occasion as prizes have been posted for the man and woman appearing in the most appropriate costume for the event. Some of the ladies' gowns will probably date back to the years of long ago while it is expected that some will be of the bobby-soxer age, with blue jeans and pig-tails. The men may be seen in almost any garb that can be conceived.

Admission will be charged for the dance and funds so raised will augment the building fund for the Legion.

## MASONS INSTALL NEW OFFICERS TUESDAY NIGHT

The installation of the officers of the Masonic Lodge was held at the Masonic Hall Tuesday evening. Judge R. S. Wilkinson was the installing officer. W. H. Nessmith is the worshipful master; Glen Longley, junior warden; Ruel Adams, treasurer; W. M. Druse, junior deacon; A. J. Hahn, tiler; R. S. Wilkinson, secretary. T. M. Beckett is the retiring worshipful master.

A barbecue supper was served to the Masons and their families in the early evening.

Mr. and Mrs. Frank Weigand and Mrs. Hazel Lemons went to San Antonio Wednesday.

All of the 1947 wool clip is in storage in Eldorado awaiting sale. The Schleicher County clip is about ten per cent less in tonnage this year due to the decrease in the number of goats and sheep in the county.

Bracketville is listed as one of the places where the gem, Jasper, is found according to "Gem Hunters' Guide". This gem is of quartz origin and is usually red in color, taking a high polish.

Joe Perry, a 1947 graduate of Ozona High School, was one of 26 Texas boys, out of 1,000 aspirants, to win Texas A & M College opportunity awards. The awards go to boys who otherwise would not have been able to attend college.

Work is to begin within two weeks on a new swimming pool at Sul Ross College. It is hoped

that it will be completed in time for use this fall.

As a result of action by the Commissioner's Court of Christoval last week, the city will have a combination deputy and night watchman in the near future.

Santa Anna has a water problem — not enough of it. Two new wells are being drilled in an effort to supplement the very critical supply.

The best rain in Uvalde in twelve years fell last Thursday — five inches in three hours.

The spring about twenty-five miles north of Fort Stockton has been cleaned out and the increased flow of water has made it possible to plant 500 acres in cotton this year on the Santa Rosa Springs irrigation project.

much of the race is being run in the laboratories — rather than in the munitions factories.

This, of course, is particularly true of atomic weapons. Our atomic bomb plants are still going at full capacity and the work being done is as completely shrouded in secrecy as it was in wartime. The Russians are known to have put a number of the leading German nuclear physicists to work on atomic research, and to have given it number 1 priority among their own scientists. No one outside of Russia knows just how much progress has been made.

It would be a grave mistake, however, to let the terrible potentialities of atomic power blind us to other possible innovations in the bloody art of warfare. Our own army has carried on extensive experiments with guided missiles, using the seized German equipment, and other armies are unquestionably following suit. This is one of the most ominous weapons yet devised, and some experts believe that had the European war lasted another year or so, German technicians might have been able to develop it to the point that it would have crushed England. When the latest type of bombs appeared England established a strict censorship to keep the knowledge of the danger from becoming known to the world. These weapons were particularly terrifying in that their speed was so great that they outran their own sound. Thus, the explosion took place before the missile was ever heard. What kept them from becoming a decisive factor was their inaccuracy. They could be aimed to hit a section of a city — but they could not be controlled with sufficient accuracy to hit a particular target, such as a power plant or an arsenal. Present efforts are directed at perfecting the guiding equipment and giving them the accuracy of artillery.

Pilotless aircraft, controlled by extremely advanced radio equipment is another subject of intensive research. Planes are infinitely cheaper and more abundant than crews — at the end of the last war we were producing aircraft much more rapidly than we could train a crew to man them. If a truly efficient and reliable pilotless air force could be developed, the deadliness of war in the air would be multiplied manifold. Enormous fleets could be sent against enemy targets, and the losses would be in material, not in men.

At intervals there is a discussion of the possibilities of bacteriological warfare. Even in the first war it was rumored to be impending, though nothing came of it. The problems in the

way are enormous — foremost among them being some means of protecting the user's own people from retaliation in kind. Germs do not respect boundaries. Again, means of distributing bacteria may be an unsolvable problem. But in these days, when science seems to be on the verge of outdistancing the ability of man to control it, no innovation can be considered impossible. And no one can believe that in a war of extermination, any belligerent would let moral scruple stand in the way of the employment of any killer.

A little news has seeped out concerning the U. S. War Department's plans in the event of another war. The atomic bomb has made it necessary to plan on the widest possible decentralization of authority — if one city or a dozen cities were wiped out there would have to be a super command posts ready to take over elsewhere. There has been much serious discussion of putting certain essential industrial plants underground either in natural or constructed caves. The cost of this would be incredible — but no one yet seems to have devised any other defense against the atomic bomb.

Perhaps the almost inconceivable destructiveness of weapons now being developed will, in the long run, be an assurance of peace — for the simple reason that another war might literally mean the destruction of civilization. General Eisenhower touched on this vividly when he said: "The earth may become a flowering garden or a sterile desert — and we may make the difference."

Rattle of the Rail

W. E. Redus, division storekeeper, was here from San Antonio Wednesday.

Fireman C. T. Allen visited Del Rio Wednesday.

Fireman H. F. Flair, of Del Rio, has been assigned to a freight train here.

Pumper Cash has taken the third trick at the oil plant here.

Mrs. Bill Goldwire, who recently underwent a major operation in San Antonio, will be moved to the home of her mother in that city Saturday. She is convalescing very satisfactorily, but will be unable to return to Sanderson for several weeks.

The Times will be glad to buy your clean, white cotton rags.

## GARDEN CLUB GIVES SUGGESTIONS FOR JUNE

Cosmos may be started from seed this month. Those that were planted earlier seem to have bloomed on very short plants. The seed that are planted now should produce normal sized plants and good flowers at the proper time.

The early single varieties may be grown in colors of crimson, rose or white. They bloom in about sixty days from seed and produce flowers of good size. The giant late single varieties produce larger flowers and bloom in the early fall. The plants are often six feet tall. The three most popular varieties in this class are probably

**Joel Wright M. D.**  
PRIVATE HOSPITAL  
for  
SURGICAL, OBSTETRICAL  
AND MEDICAL PATIENTS  
Alpine, Texas

giant crimson, pink lady lenox and white lady lenox.

While morning glories are usually planted earlier they can still be successfully grown from seed planted now. Soak the seed in water overnight or file the outer casing to hasten germination. Plant them where they are to grow. See to it that the vines have some support to climb on. You will find them a good cover for fences or if you have an unsightly object to cover in the yard.

Now that the warm weather seems to be here in earnest this time we might as well take the pansies out. The blooms will continue to be smaller as the weather gets warmer. Make a note in your garden book to start a few seed along about late July or August for Christmas blooms of this lovely flower.

Zinnias might be a timely subject to sow in your old pansy bed. They will grow and bloom in plenty of time to use the bed again for pansies later. Try some of the novelties if you are tired of the old standard varieties. By all means don't give up growing zinnias just because you have grown them for several years. They are one of our best summer flowers here and will stand more neglect than most annuals.

Shasta daisies are beginning to bloom and will give better results if given proper attention. This lovely white flowering perennial is really a chrysanthemum. The blooms vary according to variety, from small single flowers to large double flowers.

The foliage is attractive and makes a good border plant even when not in bloom.

There are two principal causes

of failure. One is black spot which is caused by overhead sprinkling that encourages the growth of fungus if it is present. You can avoid this trouble by letting the water run on the soil rather than sprinkling. The other cause of failure is of overwatering late in the season which may cause the crown and roots to rot. Along about August, it is wise to apply only a small amount of moisture.

## SPECIAL SHORT TERM MAIL RATE OFFER

The Times wishes to announce a special offer for mail subscriptions to the San Angelo Standard-Times, good until July 1, 1947, and good to West Texas points only. The Standard-Times daily and Sunday, will be sent six months for \$5.00, the regular price being \$7.50.

### LOOKING AHEAD

by GEORGE S. BENSON  
President—Harding College  
Searcy, Arkansas

#### It's Up To Us!

Today it doesn't require a genius or a Barney Baruch to look into the future and see that America faces a crisis. It does not require the wisdom of Solomon to know that if present conditions continue we are headed right into a deep and shocking depression so great that it might affect the fundamental pattern of our economy, and hence the entire future of the nation.

Neither does it require any special brand of genius or wisdom to know that we Americans could effectively correct the present conditions. We can, if only we would, prevent a serious depression for many years. But it needs neither genius nor wisdom to know that we are not likely to do so correct conditions as to avoid a depression. To do so would require three things we now definitely lack. These proper things will not likely be done and the depression will likely come.

#### What If It Comes?

In the midst of a sobering depression, however, we might muster sufficient courage to do the right things and thereby shorten its duration. I want to outline those necessary steps which could prevent depression if taken now, and which would shorten a depression if taken after it is upon us. In the first place, there is required a brand of bold, courageous, forthright, non-political executive leadership beyond anything Washington seems likely to display.

In the second place, it would necessitate a lot of new, daring, venturesome, resourceful industrial activity, which because of unfavorable tax rates, industrial strife, and general want of vision, we seldom see. In the third place, it would require from labor leaders in general a very genuine honest, sincere and effective effort to remove all practices and policies that hinder maximum production per man-hour, and that needlessly add to the cost of goods, construction, and so on, of which we likewise see but little.

#### Toward Real Raises

These three steps would bring about three conditions necessary if we are able to prevent depression, unemployment and mediocrity. One of the first things this

### SPORTS OUT OF ADAM'S HAT

SCHOOLBOY, WHO NOW APPEARS IN THE LIVERY OF THE PHILLIES, IS ONE OF THE FEW PITCHERS WHO'S ALSO BEEN A 300 HITTER.

WHEN SCHOOLBOY ROWE WAS WITH DETROIT IN 1934 HE NOT ONLY EQUALED THE LEAGUE RECORD WITH 16 VICTORIES IN A ROW BUT ALSO LED THE TIGERS TO THEIR FIRST PENNANT IN 25 YEARS.

formula would lead to would be real understanding and cooperation between industry and labor, which is an essential to the continued welfare of this nation. We have not fooled ourselves into the foolish belief that these two great segments of industry must ever be at cross purposes. In the second place, these things would lead to an increase of at least 40 per cent in actual amount of goods produced without increases in labor costs. At the same time there would be no decrease in rate of wages earned. This would rapidly increase the effectiveness of competition and would bring cuts in prices ranging from 20 to 26 per cent, thus giving a real raise in standards of living for the entire public, labor as well as others.

#### A Simple Formula

These lower prices, in the third place, would increase demand for our goods. American industry has, more nearly than that of any other nation, reached the mass markets. Our industry has produced goods that make the least of us veritable kings. And the end of this is nowhere in sight. This would also permit expansion of foreign

markets, so soon to be needed. Full production would make our economy so healthy that employment and high national income would continue for many years.

This advice sounds extremely simple and it is just that. Simplify that makes the formula worthy. This simple formula for prosperity of the entire nation requires only honest, intelligent, unselfish, courageous leadership. May God raise up the leadership for the sake of this nation, our posterity, and the world. May we individually, exercise the intelligent citizenship the days ahead will require.

#### PURCHASE OF SITE FOR GIRL SCOUTS EXPECTED SOON

All title papers to the Mitre Peak guest ranch site for a Girl Scout camp for the Permian Basin area are expected within the next ten days, according to Dr. B. F. Berkeley, chairman of the site location committee. He stated that all details of the purchase had been completed and the land surveyed. There is a campaign in pro-

### Help of Oklahoma Requested by Texas For Big Bend Plan

When the Oklahoma Highway Commission met last Wednesday in Oklahoma City, delegations from several Texas cities and several of the Texas state officials appeared before the group to urge construction of the roadway to the Big Bend road. Funds for the completion of sections of the road in Oklahoma were requested of the commission.

Lack of funds, it was reported, made it impossible to build a direct highway from Oklahoma City to connect with roads in Southwest Texas as was requested by the Texas group. The commission agreed to designate a route from Tulsa to Southwest Texas as "the roadway to Big Bend" route. A proposed toll super highway between Tulsa and Oklahoma City will join U. S. highway 62 on to Altus, connecting "the roadway" at Quanah, Texas.

gress to raise \$50,000 in the 15-county area for the purchase of the site and improvements. Residents of Terrell County will probably be called on at an early date for contributions for this project, the local Junior Womans Club being the sponsor of the project in this area.

For a very personal gift, give printed stationery. We have very nice assortments and styles at the Times

### T & N LEADS ALL RAILROADS IN SAFETY REPORT

After consecutively winning two top-flight safety honors in the past two years the Texas and New Orleans Railroad Company is continuing on its way toward another record in 1947, according to a report just issued by the safety section of the Association of American Railroads in Washington.

This report shows the Texas and New Orleans Railroad, whose headquarters are in Houston, to be leading all other railroads in Group B (those with 20 and not more than 50 million man-hours per year) with a casualty ratio of 2.08 for the first quarter of 1947, as against 2.16 for the same period last year.

The Texas and New Orleans Railroad won first place in safety among all Group A (those with 50 or more million man-hours) in 1945 and repeated again in Group B in 1946, with one of the lowest casualty ratios in history. It operates more than 4,300 miles of rail line in Texas and Louisiana, and is a part of Southern Pacific System.

Bryan Hunt, president, and Vestal Askew, secretary of the Texas Sheep and Goat Raisers Association, visited in Sanderson last week.

Miss Doris Cooke and guest, Tommie Voitel, and Jimmie Davis accompanied Mr. and Mrs. John Harrison and Jimmy to the Dudley Harrison ranch for two days last week.

### From where I sit... by Joe Marsh

#### Crazy Hat Wins Refrigerator!

One of those "Breakfast in the morning" radio shows came to Capitol City last week, and Sarrah Carey won first prize for wearing the craziest hat in the audience. It was a full-sized refrigerator! (The prize, not the hat.)

"Glad them hats of hers paid off at last," says Ed, treating the whole thing like a joke. But you could see he was proud of Sarrah.

From where I sit, there's another thing Ed can be proud of: the way he's put up with those hats of Sarrah's, with never a criticism; just

as she's put up with Ed's pipe and the other little freedoms he enjoys. They've got that refrigerator home now, stocked with beer; and we're going over tonight to drink a toast—not just to Sarrah's hats taking first prize... but to a happily married couple, who've learned to live with one another's differences in tastes—whether it's a taste for hats or beer!

Joe Marsh

### FLASH! Biggest truck news in years!

## CHEVROLET TRUCKS

with the exclusive CAB THAT 'BREATHES'

—greatest contribution to driver comfort and safety in truck history!

See this truck at our showroom! See today's newest trucks, with the cab that "breathes"—that "inhales" fresh air and "exhales" used air—keeps glass clear and free from fogging.

See this line of advance-design trucks, with new increased load space, longer-than-ever wheelbases and a host of other improvements destined to make Chevrolet even more highly preferred by truck buyers.

CHOOSE CHEVROLET TRUCKS FOR TRANSPORTATION UNLIMITED

- NEW FOUR-POINT DRIVER COMFORT: 1. The cab that "breathes." 2. Driver's compartment is wider and deeper—more leg room. 3. Wider, deeper, more comfortable seats are fully adjustable. 4. Larger windshield and windows give 22% better visibility.
- FLEXI-MOUNTED CAB—rubber-cushioned against road shocks, torsion and vibration.
- Stronger, sturdier FRAMES.
- LONGER WHEELBASES.
- INCREASED LOAD SPACE in pick-ups and panels.
- VALVE-IN-HEAD TRUCK ENGINES—world's most economical for their size.
- HYDRAULIC TRUCK BRAKES—with exclusive design for greater brake-riding contact—assure quick, safe stops.

WAR MOTHERS  
MEET AT HOME OF  
MRS. PAT HARRIS

Mrs. Pat Harris was the host-  
ess for the regular meeting of  
the War Mothers last Thursday  
evening at her home. Mrs. Ida  
Bodkin, the president, presided  
and regular routine business  
was transacted. Mrs. Bodkin  
was pleasantly surprised when  
the hostess conducted her to the  
head of the refreshment  
table which was marked with  
a birthday cake decorated in  
pink and white. Mrs. Bodkin  
cut and served the cake with  
coffee to Mesdames Lena Stav-  
ley, E. M. Pierson, L. H. Gil-  
breath, Verna Buttrell and Pat  
Harris. The group gave Mrs.  
Bodkin a lovely birthday gift.  
The July meeting will be in  
the home of Mrs. Lena Stavley.

Baptist WMU Meets  
With Mrs. McAdams

Methodist WCCS  
Meets Monday With  
Mrs. C. H. White

The Woman's Society of  
Christian Service of the Metho-  
dist Church met at the home of  
Mrs. C. H. White Monday after-  
noon. Mrs. H. C. Goldwire was  
the leader for the worship ser-  
vice entitled "Where Children  
May Flourish". Mrs. Goldwire  
was also leader of the program  
"Children and the Law" in  
which the needs and benefits  
of protection for children in in-  
dustry by law were discussed.  
Shasta daisies and honey-  
suckle were used for the deco-  
rations in the living room. The  
hostess, assisted by her grand-  
daughter, Gail McElroy, served  
strawberry ice cream and cake  
to Mesdames S. H. Underwood,  
H. C. Goldwire, Clyde Higgins,  
John Neal, Pat Beard, Law-  
rence Menefee, H. E. Ezelle, Wy-  
lie Cox, Ida Bodkin and Misses  
Kate Frazier and Eva Billings.

coupled with a remarkable abil-  
ity to conceal her falling from  
the most intimate associates.  
Mitchum plays the heroine's  
artist fiancee whose career is  
wrecked as consequence of her  
thievery. Aherne portrays a psy-  
wrecked as consequence of her  
falling, marries her, and is like-  
wise ruined when her activities  
come to light. Raymond is cast  
as a young flyer about to be-  
come her second husband when  
her past seeks him out with a  
warning that leads to the stir-  
ring climax of the plot.  
John Brahm directed and Ri-  
cardo Cortez, Henry Stephenson,  
Katherine Emery, Reginald  
Denny and little Sharyn Moff-  
fett have featured roles in the

production by Bert Granet that  
Sheridan Gibney wrote.

For a very personal gift, give

### Wash Hands Before Eating Urged as Polio Precaution

Parents should see that children wash hands thoroughly before eating as one precaution against polio, particularly during the summer epidemic season, according to the National Foundation for Infantile Paralysis.

The National Foundation through its local chapter is issuing a series of six simple health rules that should be observed during the summer to help combat the disease.

Scientific studies, financed by March of Dimes funds, indicate that the hands may be a means of spreading the virus infection through contamination of food, drinks or objects carried to the mouth.

For this reason, a high standard of personal cleanliness should be maintained especially during the polio danger months—late June through September, the National Foundation cautions, adding that fresh fruit and vegetables should be washed well before eating.

### Meat Specialist from A & M Praises Local Cooling Plant

Roy W. Snyder, extension meat specialist from A & M College, was in Sanderson last week in the interest of his duties with the extension service advising on the best methods of meat conservation. While here Mr. Snyder inspected the new plant of Turner Brothers in the eastern part of town. The plant will be placed in operation as soon as the lockers are delivered.

Mr. Snyder said the plant will include some 300 storage boxes besides the sharp freezing unit. Generally speaking, Mr. Snyder said, the plants in this section of Texas will handle approximately 90 per cent meat and 10 per cent fruits and vegetables. The method of storage, he said, may be the frozen locker system or the kitchen type deep freeze unit, but in either case experimental information approves that foods to be kept

in storage should be sharp frozen.

For better results in preparing the frozen products, Mr. Snyder observes, they should be thawed before starting the cooking process. A great saving is said to be had in procuring good meat or fruits and vegetables in season and conserving their full value by the frozen food process.

Mr. and Mrs. E. W. Hardgrave and R. N. Allen were in Sheffield several days last week. The men worked on the tabernacle that is being built for the annual Church of Christ camp meeting July 6-16.

John Whistler, Sr. and wife, Dr. Bertha Whistler, left Tuesday for San Antonio where she will attend the chiropractic convention being held there this week.

Mr. and Mrs. Thurston Smith and daughter, Ethlyn, of Colorado City, were guests of their daughter, Mrs. Don Allen, last week-end.

### Since 1907!

Forty years of continuous service in the Sanderson trade territory has merited the confidence of the people who do their banking business with us. We hope to be able to serve you in the future and shall strive to maintain the sound, courteous banking business that has caused this institution's continuous growth.

**BUTANE and PROPANE Users!**

Your **BUTANE or PROPANE System**

Ready for Next Winter!

The Texas Butane Dealers Association asks every domestic butane or propane gas user to take stock of your present system. If your tank cannot furnish gas enough to serve you through the four winter months without refilling, you may find yourself without heat this winter.

New industries developed during the war now demand tremendous amounts of butane and propane gases throughout the year. On the other hand, domestic users of gas burn four to seven times more in winter than in summer. Because of tremendous demand, your dealer is able to furnish you very little more gas in winter than in summer. In order to "level off" this high winter load, heating gas users

must plan now to tank up far ahead with a four months' supply.

By doing this you can be absolutely sure of your supply. It's "Winter Insurance," just as the farmer has always stored grain early for winter use. Housewives do their canning in the summer. Your gas will already be in your tank when you need it most. And by taking less time for your dealer's services, he can supply you and your neighbors more efficiently and more economically at the time when winter roads usually hold up gas delivery.

Before you buy any system, consult your local gas dealer. He is your friend, he knows butane-propane, and he will cooperate in every way to help you prepare for winter now.
