

United Fund Drive Will Start Tuesday

THE FRIONA STAR

STAR

12 PAGES

VOLUME 36, NUMBER 8

SECTION 1

The 1960-61 Fund Drive for Friona and Area will kick off Tuesday morning with a 6:30 breakfast in Fellowship Hall of Methodist Church and workers will start immediately afterward toward this year's goal of \$5,565.

Headquarters will be set up in the Community Room of Friona State Bank and teams will begin contacting persons by eight o'clock.

A business-to-business and door-to-door canvass will be conducted in Friona and outlying communities of Rhea, Black and Lakeview. Hub will also participate, but the donation from that community has come through the Community Organization in the past so no campaigning may be necessary there.

Teams of two persons each will disperse from the breakfast with cards of those families they are to contact. Each team will contact from 10-15 families so most of them will be able to complete their work by noon.

Workers in rural areas will take longer to make their contacts.

Last year the goal was half filled by noon, and directors hope for similar or better performance this year. A donation of \$100 has already been received from the Santa Fe Foundation so the drive will have this much of a boost before it officially begins.

Drive chairman Danny Mac Balmum has released an estimate of what it will require to pass the goal. Balmum estimates there are from 4,800 to 5,000 persons in the Friona Trade Area. Even if the lower estimate is more nearly correct, each person would need to give only slightly over one dollar for the goal to be easily passed.

Fish In Well? Who Can Tell

Don't be surprised if you see farmers West of Friona dropping fish hooks into their irrigation wells.

A well on the Wynn Holcomb farm near the Rhea Community has been producing fish, or at least it seems to be, ever since it was started recently for the first time in several weeks.

H. T. Garth, who farms the place, reported he noticed small minnows ranging from one and one-half to three inches long, swimming around in his irrigation ditches.

On a closer examination, he found many of the small fish dead or dying in rows where the irrigation water had been absorbed by the dry earth, leaving nothing for the fish. Speculations on possible origin of the fish range from an underground stream to a nearby lake.

Garth reportedly is convinced the fish come from the irrigation well. Several of the minnows were brought to town in a jar and left on display at some of the business establishments.

One observer said the fish were mountain trout. Others ventured they were merely minnows of the variety normally used for bait by fishermen.

Regardless of the explanation of this phenomenon, it has become the talk of the town here.

Participating agencies and the amount each is scheduled to receive are:

Boy Scouts	\$1200
Girl Scouts	1190
Red Cross	1200
Salvation Army	900
U.S.O.	150
Heart Cause	75
Cancer Cause	50
Cerebral Palsy	50
Emergency Fund	750

The budget is also the same as in '59.

Football Game Cancelled

Hereford Jaycees have cancelled a fund raising football game with Friona Jaycees planned for next week.

The game had been slated to raise money for both organizations. It was cancelled, according to one Friona Jaycee, because of a shortage of equipment. A definite site and date for the game had not been set. It was to be patterned after a similar contest held earlier between Friona Jaycees and Little League Boosters.

Jaycees also met Monday night in a special called session to work out plans for their Charter Banquet, which will be conducted in the near future.

Final arrangements were not made and further work will be done on the project at next Monday night's regular session.

WOULD LIKE TO GO THERE--Buddy Squyres points to Dallas on a map of Texas. The Cotton Bowl game will be played there Jan. 1, and Squyres is leading in the race for Star's expense-paid trip to the game.

Squaws Win; Chiefs Lose

Friona Squaws continued their winning ways at Bula Friday night while the Chiefs were dropping back from a 10-10 halftime deadlock to put on an 18 point splurge in the third quarter to gain a comfortable 39-20 lead.

Tommy Lewellen lead Friona scorers with 12, SuZan Harper and Janet Buckley had 10 each.

During their torrid third period, the Squaws limited Bula to only three points. Friona hit only one point at the free throw line.

Bula won the boys contest 43-38 with Pollard leading scorers with 26 for the winners.

High scorer for the losers was Gary Snead but scoring was fairly evenly distributed. Bobby Daniel scored eight, Jim Lillard, seven, Floyd Reeve eight and Tom Sanders four.

Injuries which hampered the Chiefs during football season, seem to have been carried over to the cage campaign, with several players missing drills this week.

Also, SuZann Harper, starting forward for the Squaws, has been ill this week and is a doubtful starter next week against Farwell.

LAST WEEK--

Squyres Leads In Grid Contest

Buddy Squyres moved one step ahead of Waymon Wilkins in the stretch drive as competition for the Cotton Bowl Trip goes into its final week.

Neither Squyres nor Wilkins placed in the weekly contest. Squyres missed two and Wilkins was mistaken on three predictions. This leaves Wil-

kins in a tie for second place with 26 errors. John Renner, who also missed two, moved into the deadlock with Wilkins.

In the weekly contest, young Jeffrey Price won first place money and kept himself in contention for the Grand Prize, missing only one game. It marked the second time he has won the \$5 prize money. He is a third grader in Friona Elementary School.

Bowl game New Year's Day will be determined next week and announced in the Dec. 1 issue of the Star.

In case of a tie, the winner will be determined in a drawing to be conducted next Monday afternoon.

Three persons have a good shot at the prize and six are still in contention.

THE TOP 11	
Buddy Squyres	25
John Renner	26
Waymon Wilkins	26
Richard Hapke	27

Mrs. W. R. Mabry	31

Grainmen Will Have Holiday

Practically everyone in Friona will have Thursday as a holiday except cotton gin personnel and cotton farmers.

Elevator owners and managers say the grain harvest is "all over," but farmers with cotton are just reaching full speed in harvesting that crop.

Grain trucks, which were so numerous only days ago, are now more of a rarity, while cotton trailers have taken their places on the highways and have begun to clog gin yards.

The grain harvest is about on schedule, since most of it is usually finished by Thanksgiving.

Practically all Friona businesses have indicated they will be closed Thursday in observance of the holiday.

Services Planned Tonight

Friona Ministerial Alliance with conduct special Thanksgiving Services in Methodist Church Wednesday night at 7:30, with all congregations represented by the alliance taking part.

A choir composed of persons from all churches will provide music, with Charles Baldwin directing. Mrs. Dorothy Hough will be at the organ and Nelda Douglas at the piano.

Rev. Wallace H. Kirby, pastor of the Methodist Church will be moderator and Bro. Wiley, pastor of Calvary Baptist Church will give the invocation.

Bill Phillips, pastor of Friona Congregational Church, will present a responsive reading and Rev. Alvin Askins, pastor of Friona Pentecostal Church will give the offertory prayer.

Principal address will be presented by Rev. Bill Burton, pastor of First Baptist Church.

Offerings received at the session will be used by the Ministerial Alliance to help care for needy persons in the local area.

Bold Thief Gets 4 Barrels

A bold thief entered the garage of Clyde Magness in Farwell Saturday night, raised the hood on his 1957 Buick and made off with the four-barrel carburetor on the vehicle.

Magness discovered that the carburetor was missing Sunday morning when he went out to get in his car. He reported the unusual theft to Farmer County Sheriff Chas. Lovelace.

It was one of several burglaries and break-ins the sheriff has been investigating during the past week.

Texico, Farwell and Farmer County had a wave of break-ins and burglaries during the week and it has kept the sheriff's department hopping to keep up with them all.

Apparently the person who made off with the carburetor at the Magness home had a hard time finding just what

he had taken.

(Continued on page 8.)

Blind Bowl Planned Here

Friona Lanes has announced a new variation of the bowling game that will be in effect at the Friona Bowling establishment for the next two weeks.

"Blind Bowling" is the name given this new twist. It forces the bowler to concentrate wholly on spot bowling, since he is unable to see the pins.

A large solid blind is extended across each alley. Bowlers can see only the pin-dicator and spots near the front of each alley.

"This may make us all better bowlers," said Ed Hicks, manager of the alley.

Prizes will be given to high scorers in both men's and women's competition during the special event.

KILLED NEAR HERE--Jack Patterson, left and Billy Sifford show off two deer they bagged last week in the caprock country northwest of here. Patterson's six point buck weighed 140 pounds field dressed, and Sifford's was a four pointer that weighed 104. The men left here early Wednesday morning and were back by 2 p. m.

CAUGHT IN PRACTICE--These basketball players form the foundation of this year's Chieftain squad. Left to right in the back row are Don Stubbs, Bobby Daniel, Tommy Sanders, Jim Lillard, Coach Earl Smith, Coach Vernon Scott; front row Charles Bass, Cleatus Rhodes, Hank Outland, Gary Snead, Floyd Reeve and Dean Nazworth. All the players except Nazworth are juniors. He is a senior.

TWO FIRSTS--

FFA Boys Win District Awards

Friona FFA teams won two firsts and two second places in the District Leadership Contests conducted last Saturday in Muleshoe.

Four teams of Friona FFA students competed against some 240 boys from 10 schools.

Winning the right to enter Area competition next week were the FFA Quiz and Senior Farm Skill teams.

FFA Quiz is for freshmen students, who study rules and practices for conducting an FFA meeting. They then must be able to answer questions on that topic taken at random by the judges.

Members of the winning team were Rex Nelson, Gary Renner, Lynn Phipps, and Tex Phipps.

Members of the Senior Farm Skill Team, are Tom Gee, Dan Carmichael, Bobby Daniel and alternate Earl Crow.

Making up the Junior Farm Skill Team, are Mickey Wilson, Greg Jarrell, Newman Loanman and alternates Ronald Awrtrey, Bob Welch and Tommy Baxter.

Radio Broadcasters also took a second place. The team is composed of Bob Sanders, Tommy Massey, Boyd Jones and alternates Carroll Bennett and Joe Reeve.

Sprinkle won the Junior Farm Skill contest ahead of Friona and Littlefield took first in broadcasting while the Frionans were runner-ups again.

District Banners will be presented to the winning teams Nov. 28 at the District Banquet in Littlefield. A strong showing from the Friona Chapter is expected, with Advisor David McVey making some 54 reservations for members and their dates from here.

FFA Sweetheart contest will be conducted at that time. Chapter Sweetheart Sharon Reeve will represent the local chapter.

Area contests will be conducted Dec. 3 in Plainview. From there winners will go to state competition at Huntsville.

Friona is in Area 1, which extends from Post and Lubbock.

Greek Girl Gets Aid

Friendship Sunday School Class of the Methodist Church has adopted Dimitra Mazarki under auspices of Foster Parents Plan.

The little third grader, is the daughter of poverty-stricken Greek parents who live on an island off the coast of Attica. Her father is an ex-farmer and field hand, who can no longer work because of failing health.

The mother now earns what little income the family of six has. Their total income is estimated at about \$9 per month.

Fellow villagers offer aid to the family but their aid is not enough according to a letter from the Foster Parents Plan Inc.

Dimitra is in the third grade of primary school. The Friona Sunday School class sends \$15 monthly. A cash grant of \$8 per month, goes to Dimitra with the remainder spent for food, clothing, shoes and special medical care.

The little girl is 4 ft. 1 inch tall and weighs 52 pounds. Flake Barber, president of the Friendship Sunday School class, says a Christmas package has been sent to Dimitra, and that other gifts will be sent.

Friona Schools third grade classes are planning to contact Dimitra after having become interested in her plight.

Vern's Views

Keep in mind that the United Fund Drive is scheduled for next Tuesday.

-jvs-

It wasn't too many months ago that we Americans were cheering for a little band of rebels up in the mountains of Cuba led by a bearded individual named Fidel Castro.

We thought since Cuba was under control of a dictatorship, anything that replaced it would be better. Some Cubans may still think so, but before Castro is finished, he will have everyone convinced that he is worse than a dictatorship, or anything else.

News reports tell us that Cuba is nothing but a replica of the Soviet Union. Secret police have children spying on their parents and impartial trials are definitely a thing of the past.

If we can sort away the dislike we feel for Senor Castro, a real character study can be made.

Our own opinion is based wholly on information furnished by the mass media, but is probably worth about as much as the next fellow's.

In our opinion, Castro started out with good intentions of aiding Cuba. He had some radical left wing ideas but was not a communist.

He didn't really expect to win the revolution and possibly hoped to become a martyr or escape the country to return later as a national hero after the dictatorship had fallen to other forces.

But Castro was lucky enough to win the revolution and it was just more than his good judgment could stand. He has developed into a worse dictator than his predecessor.

Castro's ideas on how to get Cuba on her feet economically didn't pan out, and now that he has seized everything and has established a control economy, he has to direct attention of his people away from the condition at home. Therefore, he invents imaginary tales about the big bad neighbor to the north that is ready to pounce on Cuba any minute.

Castro has also seen that his plan will not lift Cuba from poverty and he has turned to Russia, not because he is a real communist, but because there was little left he could do. He had already alienated himself from Uncle Sam so had only one other direction to go.

If things aren't already out of Fidel's hands, they will be some day and when and if he decides to come back to the free side of the world, he will find there is someone telling him what to do.

That is this writer's opinion of Castro. Whether it is a true one can't be determined until time has had its chance to prove or disprove.

(Continued on page 8.)

Tigers Overcome Longhorns 34-6

Groom dropped a dark curtain over Lazbuddie's otherwise bright football season in Canyon Friday afternoon as they smothered Longhorn hopes under a 34-6 defeat. It was all Groom from 5:48 of the first period when the Tigers drove for their first touchdown after recovering a

Lazbuddie fumble. The Littlefield brothers, Lloyd and Leroy, ripped Lazbuddie's middle defenses for long yardage consistently. Leroy accounted for three of the Groom touchdowns with Lloyd getting the other two and also taking a pass from Quarterback Wesley Cornett for two extra points.

The Longhorns tried vainly to launch an aerial attack after their ground game stalled badly. They went to the air 17 times with four attempts being good for 109 yards. A 70-yard pass-run play from Freshman Quarterback Kenneth McGehee to Odis Bradshaw was (Continued on page 7.)

News From RHEA

MRS. FRANKLIN BAUER

Rhea H. D. Club held its regular meeting Tuesday night in the home of Mrs. Franklin Bauer.

Each member answered roll with the program she enjoyed most during the year.

Plans for the annual Christmas party were discussed.

Velma Schlenker and Ona Patterson were placed on the food committee. On the decoration committee were Cecelia Schueler and Dorothy Bauer.

Sue Smith gave the program on "Interior Decorating."

Refreshments were served by the hostesses to members, Helen Potts, Emma Schueler, Sue Smith, Martha Schueler, Sara Dean, Malinda Schlenker, Velma Schlenker, Cecelia Schueler, and one visitor, Alma Goetz.

No meetings other than the Christmas Party will be held until January.

All ladies of the community are invited to the Christmas Party which will be held Dec. 6, 7 p.m. at the Parish Hall.

Mrs. Charlie Calloway has been on the sick list for several weeks. She spent some time in Parmer County Hospital, but is now home.

The Huddelston family was overcome by carbon monoxide early Sunday morning. Mrs. Huddelston awoke as she heard her son fall to the floor. She and her husband managed to get to an outside door, letting in fresh air. After getting some fresh air, they were able to phone Carl Schlenker. It was discovered that the fumes from an outside vent were being blown back into the house through the windows.

The Huddelston family recently moved on the Carl Schlenker farm.

Billy Sifford and Jack Patterson went deer hunting at Bridwell Range which is in the vicinity of Adrian. They were both lucky; each getting a deer.

A subway was being dug. A drunk stopped beside the excavation and called down to the man at the bottom of the pit: "Shay, whatch' doin' way down there?"

"Building a subway."

"How long's it gonna take to build it?"

"Three years."

"To heck with it. I'll take a taxi."

Billy sprained his ankle while hunting.

Mr. and Mrs. Billy Sifford and Kenny are visiting Billy's grandfather at Hammond, Okla-

homa. From there they will go to Weatherford, Okla. to visit with Mr. and Mrs. Donny Spring. Mrs. John Guyer of Farwell visited several days with Mrs.

Malinda Schlenker. Guests in the Walter Schueler home were Mr. and Mrs. Dewayne Parrish and daughter of Midland. Mrs. Parrish is

Mrs. Schueler's sister. Mr. and Mrs. Melvin Secher and children attended dedication services of the new church at Clovis Sunday.

Sunday School Classes Observe Annual Dinner

The Esther and Naomia Sunday School Classes observed their annual Thanksgiving dinner at the First Baptist Church Friday, Nov. 18.

Bill Burton spoke to the group and Charles Baldwin and Mrs. Roy Miller directed the music.

Attending were Mr. and Mrs. Jim Maynard and Karen, Mr. and Mrs. T. E. Wood, Mr. and Mrs. Truett Pool, Mr. and Mrs. Dewey Price, Mr. and Mrs. G. L. Mings, Mr. and Mrs. Edgar Carney, Mr. and Mrs. C. A. Turner, Mrs. Dan Laceywell, Mrs. Reeta Agee, Mrs. Ernest England, Mrs. Mae Foster and Shirley White.

Also Mr. and Mrs. W. E. Smith, Mr. and Mrs. Roscoe Parr, Corodelia and Roscoe Jr., Mr. and Mrs. Fred Den-

nis, Julia and Lynn Wilson, Mr. and Mrs. Cayce Dunn and Tinker, Mrs. J. P. Warren, Mrs. Roy Miller, Mr. and Mrs. Burton, Pat and Billy and Mr. and Mrs. Charles Baldwin, Janice and Brenda.

Eighty-four Present At Family Gathering

At a recent family dinner and get-together in the Hub Community Center building, eighty-four relatives and friends of the J. W. Baxter family were present.

Guests from out of town were Mr. and Mrs. Miles Robbins of Blunt, South Dakota; Mr. and Mrs. F. L. Clark and Mr. and Mrs. R. L. Clark and family, Elk City, Oklahoma, Mr. and Mrs. Clarence Tyler and family, Rye, Colorado; Mr. and Mrs. Eugene Nidey, Campo, Colorado; Mr. and Mrs. Ronnie Baxter, Mr. and Mrs. Charlie Baxter and sons and Linda King, all of Clovis.

Jack Millers Have New Baby

Mr. and Mrs. Jack Miller of Dimmitt have a new daughter, Cara Sue, born at 3 p.m. Sunday, Nov. 20. Her weight was 8 lbs. and 8 ozs.

She has two brothers, Brent 6, and Hal, 3; and one sister, Kim, 4 years old.

Grandparents are Mrs. Lucy Welch, Friona and Mr. and Mrs. C. G. Miller, Dimmitt.

Mrs. Lloyd Widner and Mrs. J. C. Widner and Deborah of Lockney were guests in the home of Mr. and Mrs. Ray Dean Fleming Monday.

MR. AND MRS. J. W. BAXTER

Mr. And Mrs. Baxter Mark 60th Wedding Anniversary

Mr. and Mrs. J. W. Baxter celebrated their 60th wedding anniversary Sunday afternoon, Nov. 13 at a reception in their home. The couple were married at Arapah, Oklahoma November 13, 1900. They moved from Elk City, Okla. to Friona in 1938.

Centering the serving table

was an arrangement of pink roses in a milk glass bowl. Candle holders were milk glass with pink tapers. The wedding cake decorations were also pink and white.

All seven children of the couple and their families were present. They are Mr. and Mrs. Miles Robins, Blunt, S. Dak.;

Out of town guests were Mr. and Mrs. Frank Clark and Mr. and Mrs. Earl Clark of Elk City, Okla.; Mr. and Mrs. W. Tyler and children from

Pampa; Mr. and Mrs. Ralph Baxter and son, Charles Truitt Baxter and Lynda King of Clovis; Mr. and Mrs. Richard Baxter and daughter of Bovina and Mr. and Mrs. L. D. Cannon from Muleshoe. About 118 guests registered during the afternoon.

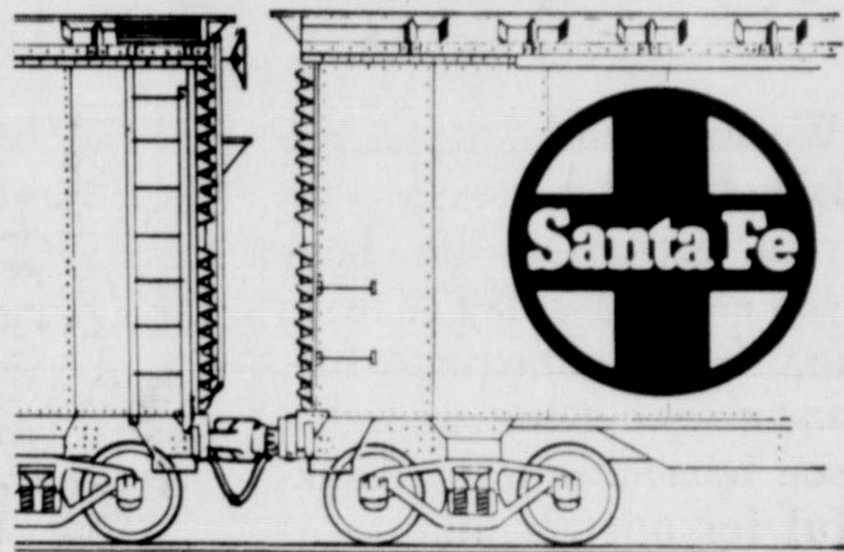

Other descendants of Mr. and Mrs. Baxter include 25 grandchildren, 39 great grandchildren and one great-great-grandchild.

Teachers Judge Demonstrations

J. T. Gee and David McVey were out of town Tuesday, Nov. 22, judging District FFA Leadership Contests.

Gee was a judge for the Senior Farm Skills demonstration for the Amarillo District at Hereford, and McVey judged for Lubbock District at Lubbock.

Ship the better way

No matter what you ship, call your local Santa Fe Agent and let the railroad that is always on the move toward a better way go to work for you.

Easy way to do your new-car sampling—

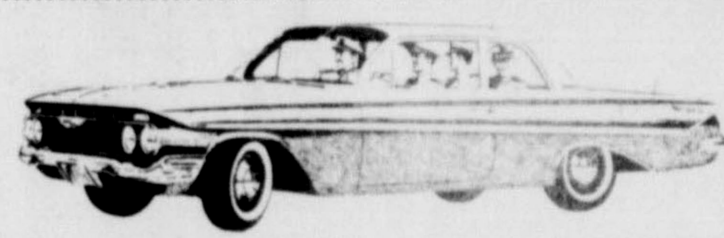

Drive Chevy once around the block at your Chevrolet dealer's one-stop shopping center!

Just drop in and take a drive in one of the 30 spanking new '61 models your Chevy dealer now offers under the same roof. With every drive, your dealer is giving away free Dinah Shore Christmas records while they last. So hurry! And you'll find that here's the easy, one-stop way to shop for the car you want. There's a model to suit almost any taste or need—at a price to suit almost any budget. There's a whole crew of new Chevy Corvairs, including four family-lovin' wagons, New Biscaynes—the lowest priced full-size Chevrolets. Popular Bel Airs, Sumptuous Impalas. And America's only true sports car—the Corvette. Come on in and pick your new car the easy way—on a one-stop shopping tour!

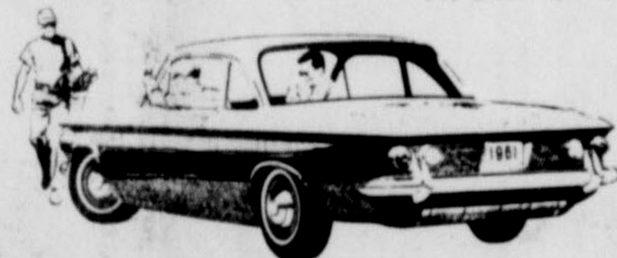

New '61 Chevrolet IMPALA SPORT SEDAN

You'll see five models in the '61 Impala series—the most elegant Chevies of all. They're sensationally sensible from their more parkable out size to their remarkably roomy in size. And note that trim new roof line.

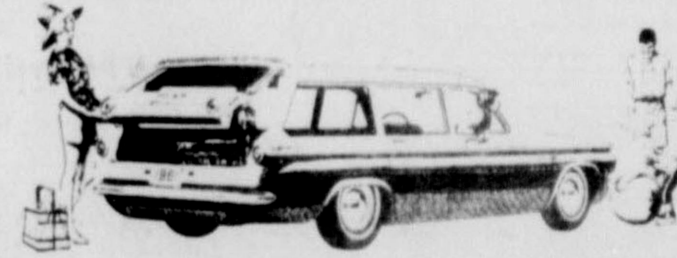

New '61 Chevrolet 2-DOOR BEL AIR SEDAN

These beautiful Bel Airs, priced just above the thriftest full-size Chevies, bring you newness you can use. Roomier dimensions reach right back to the easier loading trunk that lets you pile baggage 15" higher.

New lower priced '61 CORVAIR 500 CLUB COUPE

See what Corvair's got in store for you in '61. Thriftier sedans and coupes with nearly 12% more room up front for luggage. That rear engine's spunkier, too, with a gas-saving new axle ratio to go with it.

New '61 Corvair 700 LAKEWOOD STATION WAGON

There's room for almost everything but antifreeze in these new one-and-only 6-passenger Lakewoods. And they're the only wagons with lockable trunk under the hood. Be sure to see the new Greenbriers, too.

New '61 Chevrolet 2-DOOR BISCAYNE 6 NOW—Big-Car Comfort at Small-Car Prices

These new Biscayne 6's—the lowest priced full-size Chevrolets—let you save money in a big way, yet give you a full measure of Chevy's new roominess—such things as higher easy chair seats, larger door openings, more leg room in front, more foot room in the rear.

Mrs. Shirley Is Club Hostess

MISS SHIRLEY ANN SCHULTE

Shirley Schulte Plans Early Wedding

Mr. and Mrs. George Schulte of Hereford have announced the engagement and approaching marriage of their daughter, Shirley Ann, to Teddy Fangman, son of Mrs. Helen Fangman and the late Walter Fangman.

Wedding vows for the couple will be read at St. Anthony's Catholic Church in Hereford early in January.

The Hub Demonstration Club met Thursday, Nov. 17, at the Community Center with Mrs. Jack Shirley as hostess. "Wall Finishes" was the theme of the program and was conducted by Mrs. Clarence Monroe.

During the business session plans were made for a Christmas party December 17, to honor the member's husbands. The group voted to give Patty Fallwell an appreciation gift of money. Patty was the Club's Maize Days Queen. A report was made concerning benevolent work the club has been doing in the Hub community. Coffee and donuts were served to Mesdames Albert Cannon, Aubrey Cannon, G. W. Fleming, W. E. Stringer, Clarence Monroe, Buck Fallwell, Edgar Walters, John Hand and one new member Mrs. M. D. Ford.

Miss Schulte is a graduate of Hereford High School and is currently employed at the Hereford State Bank. Her fiancé is a 1954 graduate of Friona High School.

The couple plan to live in the Black Community, where Fangman farms.

MR. AND MRS. R. J. (MICKEY) READY

Copple-Ready Vows Exchanged

Miss Gwen Copple and R. J. (Mickey) Ready were married in a double ring ceremony recently in the Parkdale Baptist Church in Lubbock. The Rev. Davidson, pastor, officiated for the service at 8 p.m.

The bride is the daughter of Mr. and Mrs. V. L. Copple and Mr. and Mrs. J. P. Ready

of Friona are parents of the bridegroom.

For her marriage, Gwen wore a white brocade dress, fashioned with a fitted bodice and full skirt, three-quarter length sleeves and scoop neckline.

The couples attendants were Mr. and Mrs. W. C. Craig, sister and brother-in-law of the bride.

Mrs. Ready is a graduate of Post High School and is employed by the Texas Surplus

Property Agency in Lubbock. Mickey graduated in 1956 from Friona High School and is employed by the Santa Fe Railway Co. as a telegraph operator. They are at home at 2118 7th Street, Lubbock.

Mr. and Mrs. Claude Blackburn are vacationing in San Francisco. They are also visiting with Mrs. Blackburn's sister and family Mr. and Mrs. Roy Hobbs.

THANKSGIVING GIVING—These Brownie Scouts distributed several baskets of fruit around town Monday afternoon. One place they visited was the Star office, where they left a gift. Left to right are Linda Esquivel, Doris Ferguson, Patricia Roberts, Lark Jarrel, Pamela Turner, Darla Perkins and assistant leader Mrs. C. W. Perkins.

brings farm sales, new neighbors, losing neighbors we have learned to know and appreciate and a lot of other changes in the way of life in the community. Many times the attitudes of persons moving into our community are not favorably impressed with the actions of their neighbors. It would be fine if each of us would take advantage of such opportunities as visiting new neighbors.

Those of us who have lived here several years remember the deep and lasting impression the friendliness of Frionans made on us a few years ago. Are we helping Friona live up to its reputation as being a friendly town?

This is one job that each one of us should work at. We might even look at this from a selfish viewpoint. Each person who makes an effort to make new residents feel at home in any community benefits as much as the new resident.

If there's anything that tastes better than home made candy, it surely must be more home made candy. Everyone who bought candy from members of the Friona Volunteer Firemen's Auxiliary last year will be delighted to learn that home made candy will be available again this year.

Work will begin on this project within the next few days and will continue through the

Christmas Holidays. Anyone who plans to give home made candy as a gift can choose the kind of candy by getting in touch with any member of this organization.

Several couples in our community have observed Golden Wedding Anniversaries recently and one couple, Mr. and Mrs. J. W. Baxter, marked their 60th anniversary last week.

It is always a pleasure to visit with our older citizens and to write these stories. While visiting with the T. E. Blackburns Saturday evening, we learned that they drove to the place where their wedding was performed in a buggy.

It is within the realm of possibility that this couple will live to see some of their children fly across the continent for a wedding ceremony. "How times do change!" This is one statement that is as old as the hills and as new as tomorrow.

Although Parmer County isn't usually thought of as one of the game producing counties in Texas, there was an interesting article in a recent issue of the Texas Game and Fish magazine.

Since this is a holiday weekend, Frionans will be going many places. Let's all drive carefully and take every pre-

caution to make the Thanksgiving weekend a pleasant one.

Parents Of Boy

Mr. and Mrs. Walter Haws are the parents of a baby boy born Wednesday, Nov. 16 at the Parmer County Community Hospital.

He was named Warren Daniel and weighed 7 lbs. and 10 ozs.

His three brothers are W. G., Wade and Ward Robin.

Grandparents are Mr. and Mrs. L. A. Haws and great-grandparents, Mr. and Mrs. W. F. Cogdill. Another great-grandparent is Mrs. Esther Haws.

Ruth Circle Met In Cayson Home

The Ruth Circle of the WSCS met recently in the home of Mrs. Hayden Cayson with Mrs. Billy Joe Mercer as co-hostess.

An interesting program on missionary work was conducted by Mrs. Jesse Sinclair.

The hostesses served pumpkin pie and coffee to Mrs. Jack Mosley, Mrs. Charlie Bainum, Mrs. Lowell Bynum, Mrs. Viola Leonard, Mrs. Dick Rockey, Mrs. Tommie Parker, Mrs. John Gaede, Mrs. Wallace Kirby, Mrs. Roy Wilson, Mrs. Billy Joe Mercer and one guest, Lynn Wilson.

FRIONA

WITH JUNE

As the lines at the elevators grow shorter, those at the gins grow longer. It would probably be a big surprise to most of us to know how many bales of cotton are on the gin yards in Parmer County. Strippers are running all over the county

and in the near future the 1960 cotton harvest will be over. In spite of heavy rainfall in the early part of the fall, the weather has been nice for most of the harvest season. Due to this rainfall, wheat pastures are good and are being grazed in a lot of places.

This time of year always

Pilgrims Still Here

History tells us that the Thanksgiving tradition was begun in the 1600's when New England Pilgrims set aside a special day of prayer and feasting for the bountiful harvests they had reaped.

For this reason, Thanksgiving Day is marked by decorations featuring individuals in Pilgrim dress, with a musket in one hand and a turkey in the other.

In modern days, Thanksgiving is just another holiday that often loses its meaning for many Americans.

The Pilgrims came to America for a purpose. Most of their motives could be rolled together into one category--escape. It was their willingness to come and try to establish a different country that gave our country its start.

But there was another kind of Pilgrim in American history that we can also remember on Thanksgiving Day. He was the one who explored new regions and settled new

frontiers, not because he wanted to escape from something, but because he sought something new, and he hoped, better.

These Pilgrims are still among us . . . the scientist, doctor, aviator or anyone who seeks something new.

The first persons to break sod in the Panhandle of Texas were Pilgrims. The first to drill irrigation wells were also.

Every healthy American has some things to be thankful for. One of the most important blessings to his country is those persons who are not satisfied with the methods and means we now have, but are willing to devote their lives to find those that are new and better.

We have them in this generation, we have had them in generations past. As long as we produce enough of them, our way of life will survive.

J. V. S.

Give Once For All

The United Fund Drive provides a service to those agencies who derive their support from it and also to persons who contribute to it.

Without a once-and-for-all drive, each project that needed support would need to do its own organizing, and contacting in order to raise necessary funds to carry out its program for the year.

Citizens would have to guess at the number of campaigns that would probably be conducted in the year and from this estimate decide on a figure to give to each campaign.

But with the United campaign, citizens can decide on the total amount they will give to these participating agencies and then make their contribution in one easy step.

The United Fund Campaigner meets a better welcome than would a host of spot collectors that would give the citizen the idea that there is about one fund-raising project per week here.

One weakness of the United Fund Drive may be that the contributors do not realize why the goal is set on the seemingly high

figure of \$5000 plus. When he examines the services performed by United Campaign funds, this problem is quickly erased.

The drive is good for the participating agencies, and handy for both contributor and collector. It deserves ardent support from every citizen living in the Friona Trade Area.

Importance of passing the goal again this year should be impressed on the minds of everyone. All the funds allotted are needed. All agencies receiving funds need to be kept at top efficiency for the welfare of this community, and it would be a sad thing to know that the figure that was passed last year can't be passed again this year.

Friona's emergency fund will receive everything over the goal that is collected. This fund needs to be kept healthy for insurance against a serious local disaster. Every resident of this community will have the chance to contribute.

SPORTS AFIELD

By Ted Keating

If you plan to visit our 50th state and enjoy the hunting opportunities the islands have to offer, do NOT take your sporting dog along. Leave him at

home and plan to hunt with some friend's dog; or else ship your dog to Hawaii months in advance of your visit, states Henry P. Davis, Sporting Dogs Editor of Sports Afield Magazine.

The reason? All dogs entering Hawaii must, by law, be confined in the Animal Quarantine Station in Honolulu for a period of 120 days or longer, as the State Veterinarian shall deem necessary. This is quite a hard-

ship on the sporting dog enthusiasts in the islands who want to purchase trained gun dogs from owners living on the mainland. Yet it is considered a highly desirable measure as a preventative against rabies and other diseases.

The quarantine station in Honolulu is located in a beautiful spot, with plenty of shade. Each dog has his individual

(Continued on page 7.)

Tigers-- the brightest play of the day for Lazbuddie, but it came in the fourth period, when the Tigers had the victory pretty well tucked away.

McGehee fired the ball from his own 30 to the 40-yard line in enemy territory, where Bradshaw hauled it in near the sideline, eluded two defenders and sped to the promised land.

After the first offensive try by both teams, Lazbuddie followers had reason to expect something better than the final result.

The Longhorns kicked off and held the Tigers to a single first down. After Don Case sent a short punt to Lazbuddie's 36, the 'Horns grabbed the ball and rolled quickly into Groom territory.

Halfback Billy Hardage ripped off 16 yards for a first down on the Longhorns' first try from scrimmage.

Bradshaw knifed through for nine, and although the drive was hindered by a five-yard penalty, the Longhorns quickly took up where they had left off and made a second first on the Groom 41 before Cornett picked off a fumble for Groom to set up the Tigers' first score.

The next time Lazbuddie took the ball, they were unable to move it and Hardage put them in a good situation with a 45-yard punt that gave Groom the ball on the Tiger 10.

Groom managed two first downs and crossed over into Longhorn territory before the Lazbuddie defense stiffened and dropped Tigers for losses on two successive tries.

A fourth down gamble that didn't work gave the Tiger another good scoring opportunity. Hardage dropped back to punt on a fourth and, in a situation from his own 20, attempted to run down the punt formation, but didn't make sufficient yardage for the first.

Groom took over and in three plays scored with Leroy got the final yards through the middle. Lazbuddie lost another fourth down gamble the next time they had the ball. Bradshaw missed a first down 10 inches on the Lazbuddie 40 and the Tigers again took advantage of their good fortune.

Six plays and a 15-yard penalty carried the Tigers to paydirt at 3:45 of the second period and their lead widened to 20-0. Still another unsuccessful fourth down try set up the final score of the first half. This time the Longhorns elected to pass for the first down.

Taking over on Lazbuddie's 41, the Tigers covered the distance to the goal in two plays with Lloyd Littlefield getting the score and splitting the distance to the goal with brother Leroy. A hard tackle by Hardage kept Leroy from getting the score on the first try.

CONTEST RULES

Contestants must fill in blank in contest entry opposite sponsor's name with the team he thinks will win the games in that particular sponsor's ad.

Contestants must guess the score of the tie-breaker and then place the entry blank in the box provided at the BiWize Drug Store in Friona, or mail to The Star, before 6 p. m. each Friday afternoon. Any entries after that time will be discarded. Each week results will be tabulated, and at the end of the season the top winner overall (tie-breakers do not count) will be awarded two tickets plus \$55 for expenses to attend the New Year's Day Game at the Cotton Bowl in Dallas.

All residents of this area are eligible except the employees of The Friona Star and their families.

Sports Afield--

kennel and exercise pen, which is kept scrupulously clean. Fresh drinking water is on hand at all times and the dogs are well fed. On arrival, and periodically thereafter, each dog is given a thorough physical examination.

All of the diseases revealed by these examinations are reported to the owner or the owner's designated veterinarian. Treatment of sick dogs is the owner's responsibility, and sick animals may be removed to approved small-animal hospitals for treatment at the discretion of the State Veterinarian.

Housing, food and attendants for the dogs are provided by the new state. The cost is shared with the owner. At present owners pay a fee of 75 cents per day for adult dogs. Should a bitch whelp puppies during her quarantine a daily fee of 40 cents is charged for each puppy after it's six weeks old. The puppies must remain in quarantine until discharged with their mothers.

The kennel capacity of the station is 465 dogs. Approximately 1,000 dogs pass through the station annually, and sporting dogs make up only a small percentage of them. Duck hunting is limited to one preserve in the islands, and the rugged terrain, much of it heavily laden with lava rock, is extremely hard on the pads of a bird dog's feet, hence the gun dog fraternity is comparatively small in size. However, with the increase in upland game birds, the sporting dog fancy is growing at a healthy rate, encouraged materially by the various field trials on the islands.

The primary purpose of the quarantine station is to prevent the introduction of rabies. This disease has a long incubation period and therefore a long quarantine period is deemed necessary.

Whoever makes two ears of corn, or two blades of grass, to grow where only one grew before, deserves better of mankind, and does more essential service to his country, than the whole race of politicians put together.--Swift.

WINS AGAIN--Jeffrey Price is shown in his third grade class room after winning first place money of \$5 in the football contest. He is taught by Mrs. Rhodes.

INGENUITY

Returning after a lengthy absence to his family's spot on the beach, the youngster found them preparing to leave. "Come along," said his mother. "We're going to a restaurant for a good dinner."

"I'm not hungry," was the reply. "I've eaten seven ice cream cones and three frankfurters." "Where on earth did you get seven ice cream cones and three frankfurters?" asked the astounded mother. "You didn't have any money."

"I didn't need money. I just wandered all around the beach crying and making believe I was lost."

Something To Think About 6th. Street Church of Christ Box 515 -- Friona, Texas "An old African chief once-visited in England. While there he was entertained royally and given many gifts, but his favorite was a sundial. He watched it tell time and was fascinated by its performance. After his return home the fame of the sundial spread, and soon the village was a shrine, the sundial a deity; the old chief became its priest and a new religion was born. The first thing they did was to build a hut of leaves over the sundial because it was too wonderful to be exposed to the wind and the rain. Then it happened, the sundial ceased to function and they could no longer tell the time of day." This simple story teaches a lesson the world needs to learn. God's Holy Word is a great spiritual sundial that deals with time and eternity. It's function is even more marvelous than the ancient sundial. It works with the same intriguing accuracy, and is not hampered by the winds and rain. That is, not until we build a canopy of man's wisdom about it. But when we cover it with tradition, theory, creeds, disciplines etc. we destroy its effectiveness. One should think a long time before he consents to any change, either by addition or subtraction, in the only dependable guide from this life to eternity. Remember, to alter that which is perfect only destroys its perfection.

OUR PILGRIM FATHERS GAVE THANKS FOR SO LITTLE..WE HAVE SO MUCH TO BE THANKFUL FOR

Let us pause on this day, as our Pilgrim forefathers did so long ago... to give prayerful thanks, not only for the food on our table, but more importantly, for those freedoms we hold so dear... freedoms our forefathers sought and won in the new land, America. Our country has come a long, hard way since the day of that first meager harvest in 1621... to truly become the "Land of Plenty" and the "Home of the Free." Let us pray it will always be!

Let Us Pause To Give Thanks For Life, Health And All That We Possess.

Join Your Friends & Neighbors At Church.

He that is not with me is against me; and he that gathereth not with me scattereth. (Luke 11:23) On the Lord's day, I asked, "Friend, are you for God or against Him?" He answered, "I am a churchmember; I am for God." Then the Holy Spirit seemed to whisper: "But what about your inner life and those respectable sins you are cherishing in your heart?" To another I asked, "Are you for God or against Him?" He answered, "I am a leader in the church." The Spirit seemed to ask: "But what about your ambitions, your unforgiving heart, and your domineering spirit in the church?" The same evening the question was asked to a group of respectable church people. In unison they said they were for God. But an unexpected answer was whispered from above: "Are you sure? Are you not divided among yourselves? Are you at peace with God and with one another?" In my distress I asked the Lord to show me His people. Surprised, I noticed that the despised and rejected by men were considered great before God. Then humbly I asked the Lord to make me worthy to be counted with the despised.

Table listing church services for various denominations: UNITED PENTECOSTAL CHURCH, IMMANUEL LUTHERAN RHEA, CHURCH OF CHRIST, ASSEMBLY OF GOD CHURCH, FRIONA METHODIST CHURCH, FIRST BAPTIST CHURCH, SIXTH STREET CHURCH OF CHRIST, CONGREGATIONAL CHURCH, CALVARY BAPTIST CHURCH.

Vern's Views--

If everything works out as planned, this scribe will spend Thanksgiving down in the broad-leaf country of Central Texas. Naturally, we are excited about going somewhere, but the idea of battling holiday traffic isn't at all pleasant. Before we leave, the National Department of Public Safety will estimate how many Americans will die in traffic accidents during the holiday period. This won't make us feel any better, but it will make us drive more carefully. It seems that tragic highway mishaps are a part of this modern culture that is here to stay. Everyone thinks good driving rules are made for the other fellow. Well here's hoping we are back to writing in this space again next week, and that you are back also.

to peddle, and I offered him a small truck load of old newspapers for them. We were about to sign the pact when the crook I was dealing with found out that World War II paper prices are no longer in effect.

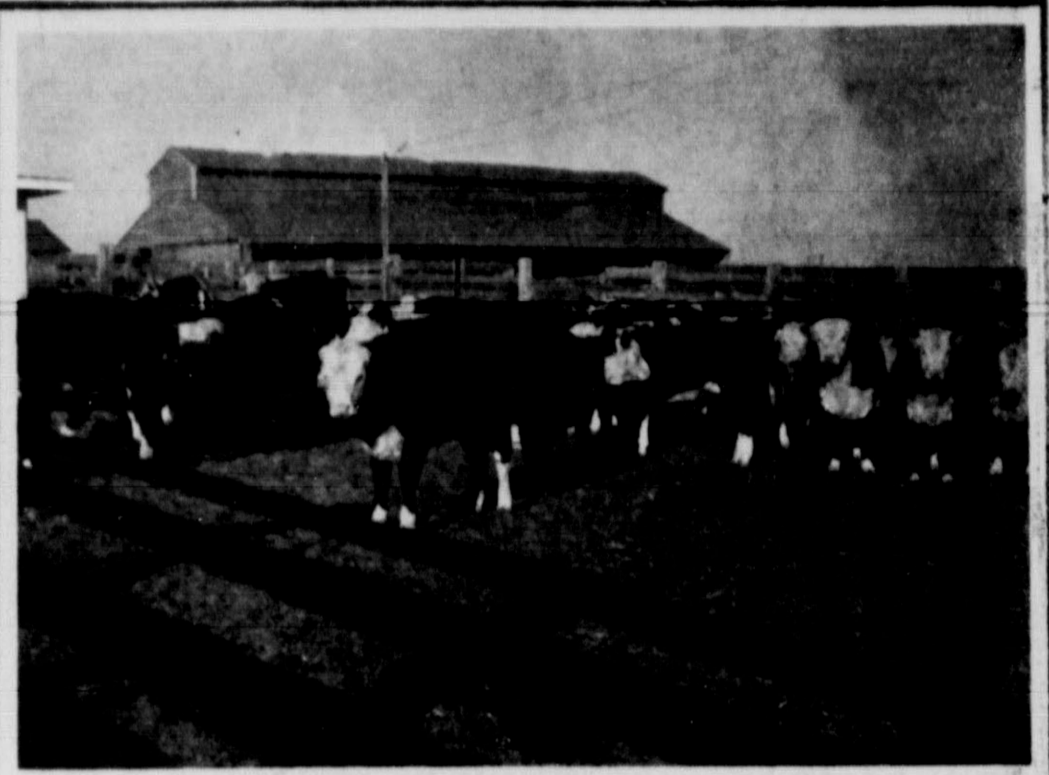

Bold Thief--
he was looking for. Two other late model Buicks were tampered with the same night, but they both had two-barrel carburetors and the thief didn't complete the job on them. A 1959 Buick, belonging to Joe Magness, was tampered with, as was a 1957 Buick, belonging to Winford Reeves. The oil breather, which sets on top of the carburetor, was taken off of the Reeves car and was found in the yard the next morning. The hood on Joe Magness' car was unslatched, indicating that the man had also looked for the carburetor of his liking there. Both the Reeves and Magness cars were parked in front of their homes during the night. Two Twin City businesses were broken into last Tuesday night and a pair of Texico youths confessed to the break-ins Wednesday.

Businesses broken into were Jim's Cafe and Border Theatre. The two youths entered the cafe through a back window and made off with candy and cigarettes. At the theatre, the pair entered the building by prying open a back door and they made off with 100 bars of candy. The two youths, both 14 years of age, were tried in juvenile court by Farmer County Judge Loyde Brewer Wednesday and they were paroled to their parents. This was the second time that break-ins have occurred at the two places of business, and the youths confessed to burglarizing the businesses both times. The other break-ins occurred several weeks ago. Another burglary occurred sometime over the weekend at the City Hall in Bovina. This robbery is a "real mystery," according to Lovelace, since there was no forced entry either to the building, or to the safe where an undisclosed amount of money was taken. The robbery was discovered by Virgil Tritch, city secretary, when he opened the City Hall Monday morning. A door to the building was unlocked, as was the safe, indicating that the

job was done by a professional, or someone who had a key to the building and knew the combination to the safe. All of the silver and a few bills were still in the safe Monday morning, Lovelace says. The sheriff was still investigating the burglary Tuesday. In other action for the sheriff's department during the week, Lovelace arrested Domingo Costello, who was employed by McBride Gin at Lazbuddie, last Friday. He was turned over to Lamb County officers to face charges of breaking into a hardware store and jumping parole. Also, the sheriff picked up George Guerra, 23, at Hub Friday morning for authorities at Houston. He was wanted for bond jumping in Houston and was turned over to authorities from there Saturday morning. A mother and her small daughter were attending a symphony concert. During a brilliant movement, the child, who was watching the conductor intently, whispered: "Mama, what makes the man so mad? They're playing as fast as they can, aren't they?"

In The Courts

The following cases were heard in Judge Thelma Jones' Corporation Court during the week ending Nov. 21: Jerry A. Judkins, Driving in a manner to endanger lives and property, guilty, fined. Jack Jones, Fail to yield right of way at intersection, guilty, fined. Thomas Wayne Carter, Speeding, guilty, fined. Leona Wolfe, No commercial operators license, guilty, fined. The following cases were tried in Justice of Peace court during the week ending Nov. 21, with Peace Justice Thelma Jones presiding: Carl Clarence Williams, fail to yield right of way, causing accident, guilty, fined. Joseph Benton Carter, speeding, guilty, fined. Su-Zan Harper, speeding, guilty, fined. Quite a bit of indigestion is caused by people having to eat their own words.

Cattle Feeding Demonstration Begins In Friona October 28

Purpose:
*To show feeding efficiency of local milo supplemented with Purina Steer Fatena 32% stillbrestrol.
*To demonstrate the labor saving value of self feeding cattle on full feed. Feed will be delivered by bulk truck.

No. Cattle:
*50 head of Whiteface heifers, Wt. 473.7 per head.

Weighing:
*Cattle were weighed in by Martel LeVeque, and Bill Nichols. Cattle will be weighed each month by an impartial committee and feed per lb. gain and gain per day will be published.

Feeding Period:
*Cattle will be fed approximately 120 days.

Ration: Feed will be charged to cattle at retail prices.
*Ration will consist of local milo, cottonseed hulls, molasses, and Steer Fatena 3/stb.
*Starting ration: 40% cottonseed hulls, 41% Steam rolled milo, 4% molasses, 15% Sp. Steer Fatena 5/stb.
*Ration will be graduated to: 10% cottonseed hulls, 76% rolled milo, 4% molasses, 10% Sp. Steer Fatena 5/stb. (Note the ration will be a large part milo)

Location:
*The "Pete" Buske pens on the east edge of Friona.

Sponsored by:
*Cummings Farm Store, Inc. Ralston Purina Co.

You are cordially invited to look at the cattle at any time. We will be happy to go over the demonstration with you. You will be mailed a notice before each weighing and we will look forward to having you with us to see for yourself what has been accomplished. First weighing Dec. 1, Thursday 8:00 a. m.

Club Entertained Monday Evening

Mr. and Mrs. David Carson, Mr. and Mrs. Casey Dunn and Mr. and Mrs. Weldon Dickson were hosts to the Couples Bridge Club Monday evening, Nov. 21 at the Club House. The Thanksgiving motif was used in the room decorations and refreshments.

Thirty-two members and guests Mr. and Mrs. Jimmy Briggs were present.

Baby Girl Born To Don Springs

Mr. and Mrs. Don Spring of Weatherford, Oklahoma are the parents of a baby girl born Monday, Nov. 21. She weighed 6 lbs. and 4 ozs.

Grandparents are Mr. and Mrs. Edward Spring and Mr. and Mrs. Elmo Dean of Bovina. Great grandparents are Mrs. F. L. Spring and Mrs. F. T. Schlenker. A great-great-grandparent is Mrs. Charles Schlenker.

MR. AND MRS. T. E. BLACKBURN

Mr. And Mrs. Blackburn Observe 50th Anniversary

Mr. and Mrs. T. E. Blackburn celebrated their 50th wedding anniversary Saturday evening, Nov. 19, at a family gathering in the home of Mr. and Mrs. John Blackburn and Brenda.

A white and gold decorated wedding cake centered the lace covered serving table. Gold tapers and bronze chrysanthemums were used in the room decorations.

Cake and punch were served by the hosts to the guests of honor and Mr. and Mrs. Claude Blackburn, Keith Lynn and Donna, Mr. and Mrs. Dean Blackburn and Hal, Mr. and Mrs. Rex Blackburn, David and Mike and Jill Blackburn.

Mr. and Mrs. Blackburn have four children, seven

grandchildren and two great-grandchildren.

Surprise Birthday Dinner Honored Mrs. Pete Buske

Mrs. Pete Buske was honored with a surprise birthday dinner in the Buske home Thursday, November 17. Mrs. Philip Weatherly, a daughter, prepared the meal and presented the birthday cake for the occasion.

Present were Lila Gay Buske, Mrs. Richard Styles and Mike from Lubbock, Mrs. H. T. Magness, Mr. and Mrs. Philip Weatherly, Kim and Pete Buske.

Those calling and sending gifts in the afternoon were Mr. and Mrs. A. L. Black, Mrs. Clyde Weatherly and Celia Dee, Mrs. L. O. Neil and Mrs. Andy Edmondson of Lubbock, Johnnie and Jackie Claborn and Mrs. Florence Buske.

Mrs. Styles and Lila Gay

returned to Lubbock in the evening, leaving little Mike to spend a few days with his grandparents, Mr. and Mrs. Pete Buske.

Mrs. Chitwood Hosts SS Class

The Rebekah Sunday School Class of the First Baptist Church met in the home of Mrs. Bert Chitwood November 17 at 2 p.m. for a regular monthly Bible Study.

The hostess served refreshments to Mrs. L. M. Crow, Mrs. M. A. Black, Mrs. E. E. Taylor, Mrs. L. R. Dilger, Mrs. Eva Roberson and Mrs. Charles Rauh.

Mekka Circle Hosts WSCS

Members of the Mekka Circle were hostesses to the Woman's Society of Christian Service at their regular meeting Wednesday, Nov. 16.

Mrs. Dick Rockey, president, presided over the business session. Mrs. R. W. Ginsburg gave a book review on "Stewardship and Tithes." The program theme "Living the Lord's Prayer" was presented in pantomime by Mrs. Arthur Drake, Mrs. Mack Bainum, Mrs. Guy Latta and Mrs. Gary Brooks.

Others present were Mrs. Kenneth Cass, Mrs. Roy Slagle, Mrs. Dorothy Hough, Mrs. Wallace Kirby, Mrs. Ernest Anthony, Mrs. Bill Stewart, Mrs. Will Osborn, Mrs. Howard Ford, Mrs. Tommie Mercer, Mrs. Newt Gore and Mrs. W. H. Long.

Clubs Sponsor Toy And Gift Show

The Parmer County 4-H Clubs will sponsor a toy and gift show December first at the Hub Community Center.

There will be four demonstration sessions. Starting time will be 9:30 a.m.; 1 p.m.; 4:30 p.m. and 7:30 p.m. Any club or organization will receive cash for ten percent of its purchases.

Members of the clubs feel that it will be advantageous for each group planning to attend demonstrations to make an effort to come a few minutes ahead of the scheduled starting times.

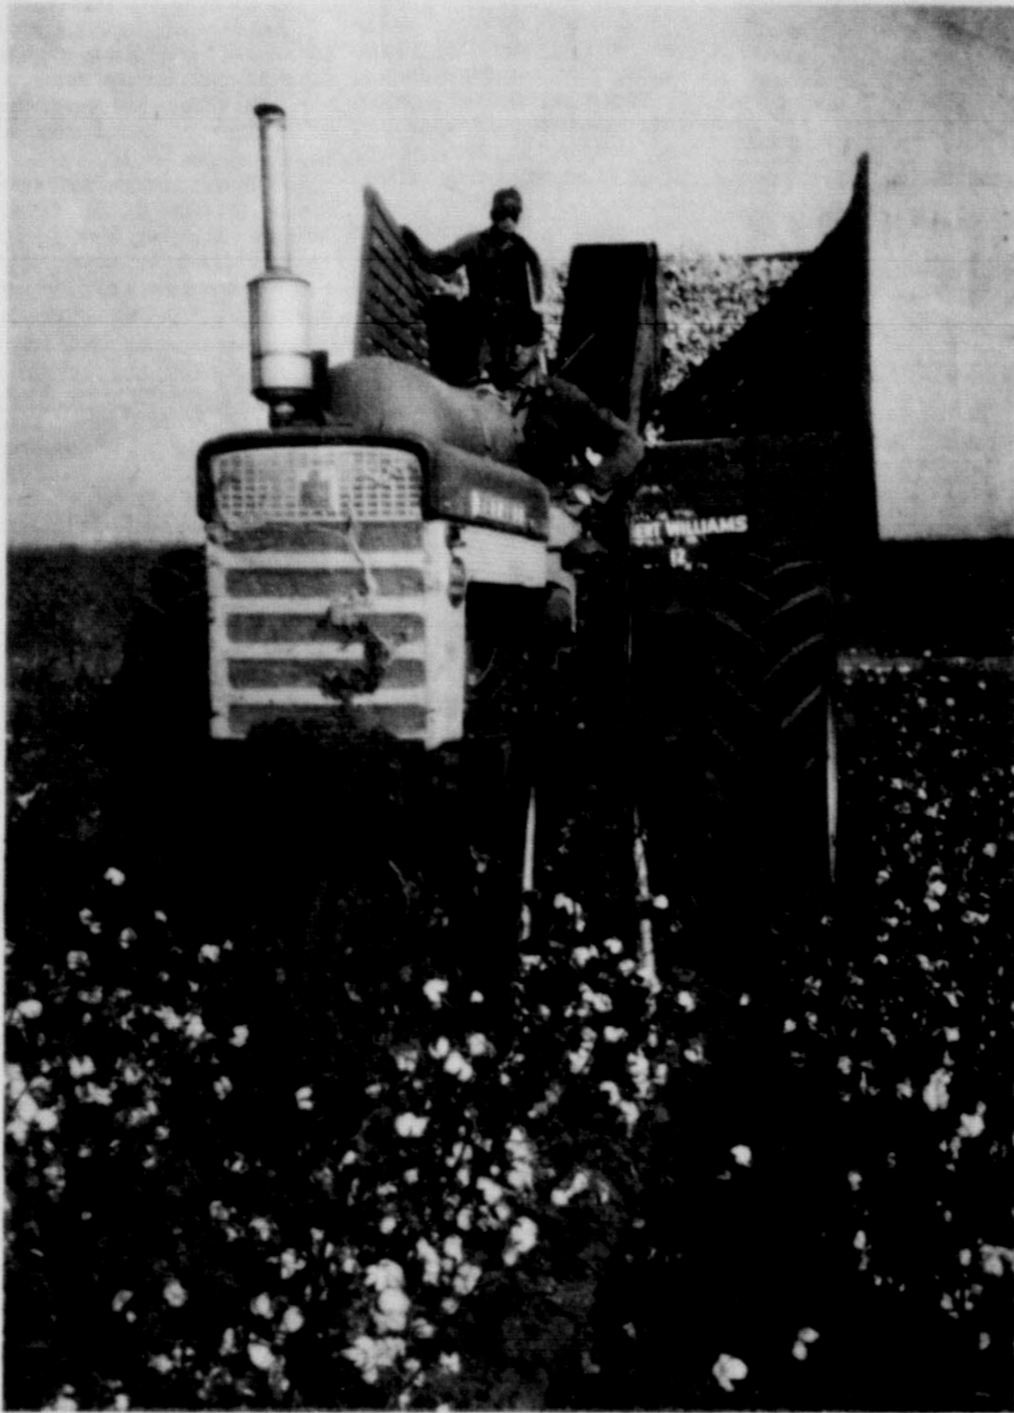

Three door prizes will be given to individuals.

Further information may be received from any 4-H club leader.

Farmers Union To Meet Nov. 28 At Hub

The annual Parmer County Farmers Union Meeting will be held Monday, Nov. 28 at 7:30 p. m. in the Hub community building. County President T. O. Lesly urges all locals to have a good turnout.

Richard Alexander, state Farmer's Union secretary, from Denton will be the main speaker. Election of officers for the coming year will also be held.

LINED UP AT GINS throughout the county are trailers like these as the cotton harvest reaches its peak. As the trailers continue to roll in, gins are operating around the clock.

Cotton Yields Running Higher Than Expected

Cotton harvest in Parmer County was reaching its peak this week with yields generally running a little higher than had been anticipated.

At Farwell, Friona and the Hub, gin operators and cotton farmers all report that the yields and grade of the crop harvested to date are very good, considering the fact that several weeks ago the cotton picture was quite bleak.

However, as Earl Chester of Chester and Fleming Gin at Friona points out, the high yields and good grades which have been prevalent so far could be due to the fact that the earlier cotton is just little better than the rest of it will be.

In the Friona area the yields have been ranging from 3/4 of a bale to 1 3/4. The grade has been as good as it has ever been, Chester says. He expects the cotton harvest to be at its peak this week and next week.

Reports from Bovina were not as good as they were at other parts of the county but Ovid Lawlis of Lawlis and Ely Gin says that both the quality and yields are a little better than they were last year. However, there was a lot of cotton lost to hail in that region.

Lawlis believes that the harvest in the Bovina area is already better than half over. Average yield has been about a bale per acre. "There's been some better and some worse," he says.

South of Farwell, near the sandhill country, some fields were making two bales to the acre and the cotton that had been harvested to date was averaging from 1 1/4 bales to 1 1/2 bales per acre.

"It's much better than we had expected," says L. L. Cooper of Cooper Gin. Over all, the yield is about the same as last year, Cooper believes, but the quality is down some. A couple of farmers who had reported two bales per acre where Dwayne Curtis and Chas. Christian.

Where there was hail damage yields were ranging all the way from "next to nothing" to 3/4

of a bale. As the cotton harvest reaches its peak, ginners find themselves swamped with loads of cotton and are working around the clock. If the weather re-

mains good, most of the ginners expect the bulk of the harvest to be over in the next two weeks, but with activity to continue up through Dec. 15 or until Christmas.

WITH THE COUNTY AGENT

JOE JONES

Soil testing offers a sound guide for a planned fertilizer program. Too many times fertilizer programs are followed that have little or no foundation. The soil test is not the answer, but rather the beginning that will help you find the answer.

A good plan to follow is to have soil test run, and follow recommendations made by the laboratories on a few acres and compare with what you are

now doing. This plan should help us work out the most efficient program possible. If we can increase our production efficiency by \$1.00 net per acre on the 400,000 acres of irrigated land in Parmer County you can see what this can mean to the county economy.

With a little more scientific approach we should be able to do even better than the \$1.00 per acre. I have soil sample information sheets in my office

AVERAGING ABOUT 1 1/2 BALES per acre was this field of Gregg cotton on the Bert Williams farm south of Farwell. "It was a little better than we thought it would be," says Bobby Blair, who is on the tractor. Generally, throughout the county the cotton yields are running higher than had been anticipated.

that show the procedure for taking soil samples and a few questions that should be answered and go in with any soil sample, regardless of where you send it. Address soil samples to "Soil Testing Laboratory, Agricultural Extension Service, Parcel Post Annex, Lubbock, Texas!" Cost of Soil analysis is \$2.00 per sample.

Three meetings are planned for December that will be of interest. The first is a Cattle Feeders meeting called for December 6, in the Friona State Bank beginning at 1:30 p.m. Two meetings are planned for the discussion of Sugar Beets Production and legislation pending in Congress that will open the door to production in this area.

One meeting is called for the City Hall in Farwell, Thursday night December 8, and one for the School Cafeteria in Bovina on Monday night December 12. Both meetings will begin at 7:45 p.m. See next week's paper for more details of all these meetings.

The planet Jupiter is so large that it could contain 1,300 earths.

The inefficient use of farm machinery can be a heavy contributor to lower farm income. Cecil Parker, extension farm management specialist, says food farm machinery records provide the information needed to improve machinery efficiency and farm income.

Extension Veterinarian C. M. Patterson suggested to buyers of gilts for the breeding herd that all possible precautions be observed in order to keep damaging swine diseases out of the herd. He lists leptospirosis, brucellosis, atrophic rhinitis and virus pneumonia as major diseases which are very hard to detect.

NEWS FROM THE

FARM BUREAU

BY RAYMOND EULER

We would still like to see several farmers from Farmer County go to Denver December 11-15 for the National Farm Bureau Convention. We think this might be of more importance to Texas members since our state has this year climbed from fifth to fourth place in membership in the nation. We hope to get to first place in another two or three years.

There will be a "Dutch" Breakfast at the Park Lane Hotel at 7:00 A. M., Monday December 12. The cost is \$1.50 per plate. Texans there will be briefed on the convention schedule, etc., as well as get acquainted with other members for the duration of the convention.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Whether you're having a large family dinner or just having a few persons in for the evening, our featured recipe this week is sure to make a hit with the cook as well as those who eat the delicacy.

In fact, this Candy-Topping Dandy is so pretty we are including a picture of it.

CANDY TOPPED DANDY
18 dried prunes, plumped
2/3 cup halved maraschino cherries
1 cup halved walnut meats
1/4 cup butter
1/2 cup light brown sugar
1/4 cup prune juice
1 tablespoon grated lemon rind
2 tablespoons lemon juice
1 package yellow cake mix
1 teaspoon lemon extract
Pit prunes (which have been covered with water for 24 hours; place in bottom of greased baking pan 9" x 13" x 2" cut side up. Place cherries and walnuts in open space between prunes. Combine butter, sugar, prune juice (water in which prunes were soaked), lemon rind and lemon juice.

Heat until butter melts; pour over prune mixture in pan. Make cake batter, according to directions on package, adding the lemon extract to the mix batter; pour over prune mixture. Bake in moderately hot oven, 375 degrees, 40-50 minutes. Cool 5-10 minutes on cake rack. Turn out upside down on cake rack. Serve warm.

Remember to file for gas tax exemption if you have not done so lately. The money is good for purchases anywhere you choose to spend it.

Consider this: "The words of a talebearer are as wounds, and they go down into the innermost parts of the belly." Proverbs 26:22.

ist advises. Take care of parasites promptly. Parasites, especially mange and worms, which may cause little trouble in the gilts may cause serious trouble for the baby pigs. Roundworms can be controlled by proper measures, but it may take repeated applications. Spraying for external parasites should be done during warm weather if possible. Some of the newer chemical compounds will do a good job of controlling lice and mange.

Be sure to have the gilts vaccinated against erysipelas. And do not neglect to vaccinate for cholera -- the most dangerous of all swine diseases, Dr. Patterson concludes.

SOIL CONSERVATION DISTRICT NEWS

Heavy rains this year have done quite a bit of damage on the farms here in Farmer County. In places where water has concentrated from long watersheds, damage has occurred either by gully or sheet erosion.

George McKinney's dryland farm north of Bovina had heavy damage this year from water erosion but he is doing something about it.

With the help of the Soil Conservation Service technicians Mr. McKinney now has a basic conservation plan on this farm. With cost-share assistance from the Great Plains Conservation Program he will be able to complete the planned work on this farm in three years. The farm will then be able to withstand the heavy

Construction of this diversion terrace is the first step in carrying out George McKinney's conservation plan. This dryland farm is located seven miles north of Bovina.

rains without damage.

The Farmer County Soil Conservation District with the help of County Agent Joe Jones has arranged a program on cattle feeding for the people of this county. The meeting will be held December 6, 1960 at 1:30 in the community room of the Friona State Bank.

Two of the speakers will be Gaston Wells of Dumas and Bob Spencer of Clovis. Mr. Wells is connected with one of the large feedlots in Dumas. Mr. Spencer is manager of the Clovis Chamber of Commerce and connected with the work to locate a packing plant in Clovis.

Extra income can result from well kept farm or ranch business records. C. H. Bates, extension farm management specialist, points out that good records can often help farmers and ranchmen make the right management decisions. Too, he adds, records are very important come tax paying time. Local county extension agents can supply information and publications on record keeping.

Parmer County 4-H Council News

LINDA GLEASON, REPORTER

The Parmer County 4-H Council had a meeting on November 12, 1960, in the Farwell courthouse. We elected new officers, planned the Achievement Program, planned a toy marathon, and decided to have a radio broadcasting.

The officers area as follows: President, Linda Gleason; vice-pres., Judy Billingsley; secretary, Gary Foster; treasurer, Patsy Chitwood; treasurer, Judy Koelzer; reporter, Katie Blackstone;

We planned our achievement program. We decided to have a banquet in a community building. Then one of the district agents will present the awards, show activities by pictures and ask Cotton John Smith to be our guest speaker.

Mrs. Annear and Mrs. Mabry told us about the "Toy Marathon." The girls are going to make cookies and the boys are going to make posters for it. It will be held in the Hub Community Building on December 1, 1960.

Mrs. King talked to us about the 4-H Club presenting a radio program on KZOL in Farwell.

A committee composed of Mrs. Amear, Mrs. King, Cooper Young, Judy Billingsley, Pat Chitwood, Gary Foster and Richard Chitwoods look into the possibility of such a program. District council delegates are Judy Billingsley and Richard Chitwood.

Be Cautious When Buying Breeding Gilts

Be cautious when you're buying gilts to breed for next spring's pig crop. Dr. C. M. Patterson, extension veterinarian, warns that you should study the disease record of the herd very carefully before buying. Remember that even healthy appearing animals may carry a disease, and new stock could bring on a disease which would result in abortions or inferior pigs at farrowing time.

At least four chronic diseases are serious, and other diseases are important. Leptospirosis and brucellosis are serious diseases which are not usually recognized until they cause abortions. Two other serious diseases are atrophic rhinitis and virus pneumonia, both of which are not usually recognizable until the pigs are several weeks old. Enteritis and chronic erysipelas are also common diseases, Patterson continues.

Even if there is no record or evidence of disease in the herd, it's still a good idea to have the gilts tested for leptospirosis and brucellosis. Hogs can carry either of these diseases without showing symptoms, and both diseases can be transmitted to humans.

The only way to detect atrophic rhinitis is through a physical examination, and this is not always easy or reliable. Dr. Patterson says to be alert for signs of atrophic rhinitis. Crooked snout, sneezing and stunted growth are indicators of the disease.

Chronic pneumonia has been an increasingly serious problem in swine for several years. A specific virus is the cause of much of this lung trouble. There is neither a reliable test or treatment for the disease. It seldom causes death, but it does cause unthriftiness and increased susceptibility to other lung infections. Be extremely careful to avoid bringing it into a herd, the special-

confectioners' sugar frosting.

If you've never made any caramels, you're missing a treat. They are quite simple to make, but do require a lot of stirring. After they are made, they can be served "as is" or used in making cereal cookies or popcorn balls.

The basic ingredients in making caramels are sugar, corn syrup, evaporated milk and oleo. To give the candy an extra rich flavor, half butter and half oleo can be used or cream can be used in place of milk.

BASIC RECIPE

2 cups sugar
2 cups canned milk or cream
1 3/4 cups of corn cyrup
1 cup butter or oleo

In order to make the best use of your time and stirring, it is good to double the recipe. Boil all four ingredients together (except the milk) for 30 minutes, stirring quite often. Then add the canned milk or cream.

From then on it is wise to stand right by the mixture and stir continually as it boils briskly. Cook until it forms a very firm ball in cold water. Add nuts or coconut if desired. Pour into buttered pan and let cool. When cold, cut into long strips an inch wide and then cut off caramels the size you like.

Each piece is then wrapped in waxed paper. This candy will keep real well.

The typical family man has a billfold full of pictures and no money.

It's the rich man who doesn't hesitate to ask the store clerk to show him something cheaper.

PARTNERSHIP POWER FOR PROGRESS

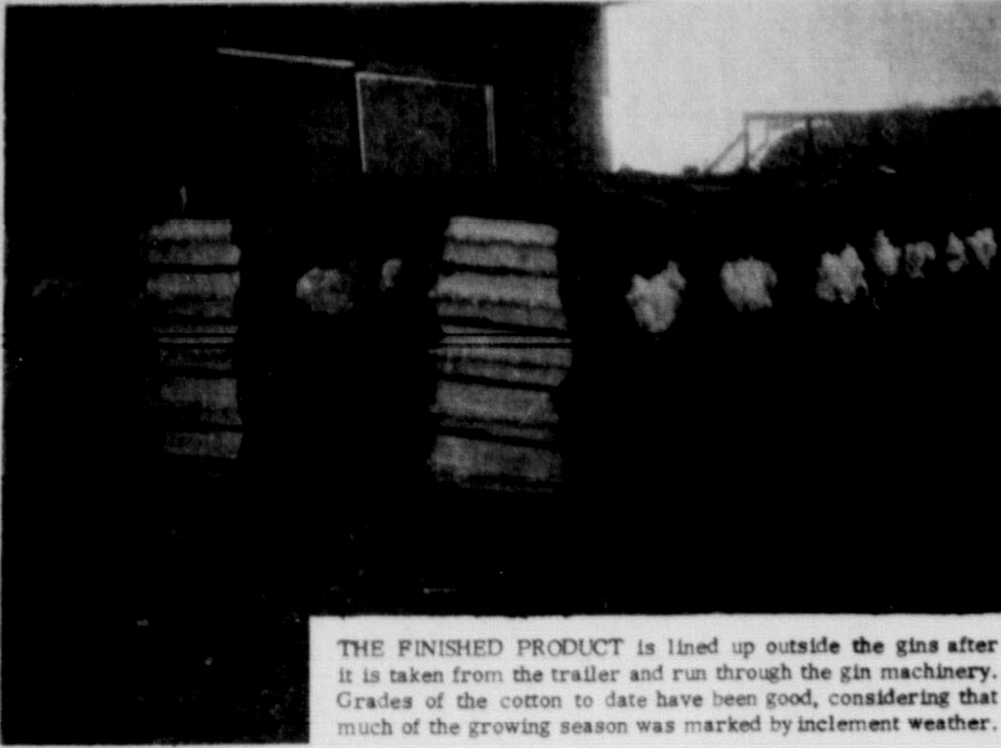

The lineman above is "re-planting a tree." It will have insulators instead of limbs and wires will replace foliage. But where this tree once spread its leafy comfort to a few square feet of the forest, it now will help carry electricity and a new life of comfort to one million Texans.

25 years ago, when this tree was still a switch, fewer than 10% of Texas farms and ranches had electricity. Today more than 95% of them have a steady, dependable electric service, thanks to the electric cooperatives.

Rural people borrowed money to build their own electric systems and they are paying back principle and interest on their loans. And with each new pole that is "planted" in rural areas, the member-owners of the 77 electric cooperatives in Texas are helping to furnish their friends and themselves with Partnership Power For Progress.

Deaf Smith County Rural Electric Cooperative

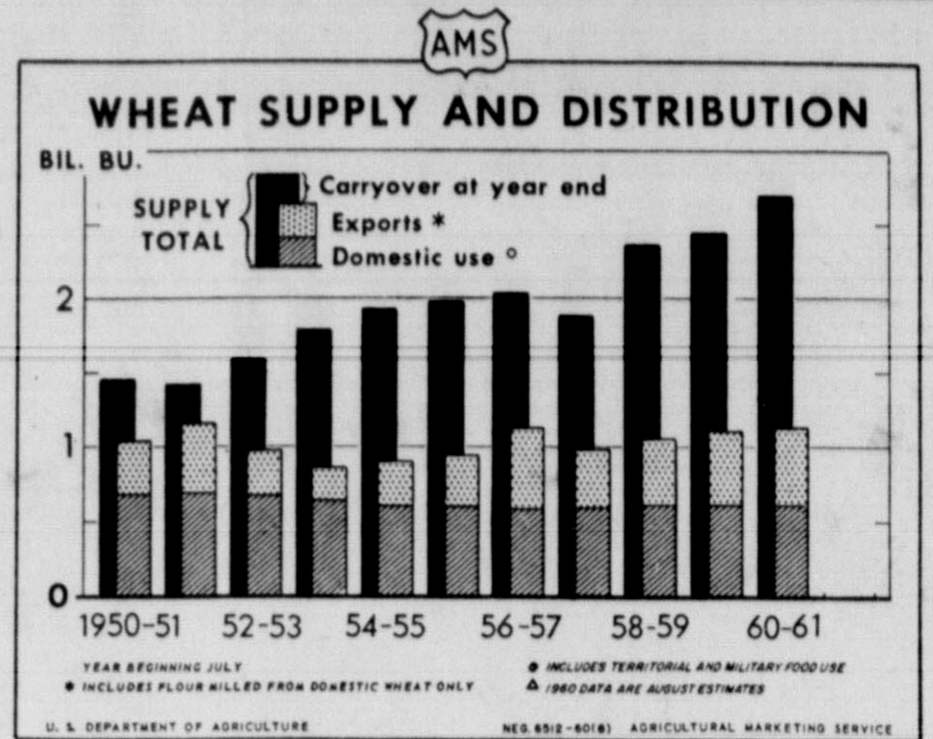

THE FINISHED PRODUCT is lined up outside the gins after it is taken from the trailer and run through the gin machinery. Grades of the cotton to date have been good, considering that much of the growing season was marked by inclement weather.

Machinery Efficiency Can Increase Profits

Machinery inefficiency can strike a devastating blow to farm profits, Cecil Parker, extension farm management specialist, says that every farm operator should know the cost of owning and operating machinery. If he does not, he is in a poor position to determine how to increase his machinery efficiency, Parker continues.

High cost here can be caused by poor quality machinery, abuse by the operator, operating over rough terrain or a combination of these, Parker explains. The specialist says other factors which affect machinery efficiency are: Substitution of machinery for labor, whether or not substitution is wise depends on the relative effect on labor costs.

The carryover at the end of the 1960-61 marketing year may be about 1,550 million bushels, 235 million above July 1, 1960 and the largest in our history. A further increase is in prospect July 1, 1962, since yields at the average of recent years would result in a larger crop in 1961 than would be used for domestic requirements and exports.

Supplies in 1960-61 are at an all-time record high of 2,682 million bushels. Exports are expected to total about 525 million bushels, 17 million above the high level in 1959-60 and within 25 million of the record in 1956-57. Domestic disappearance is estimated at 610 million bushels, about the same as last year.

Profit From Business Records

Extra income can come from well kept farm or ranch business records. Some errors in business decisions are unavoidable, points out C. H. Bates, extension farm management specialist, but adequate records can often help farmers and ranchmen reduce the chance of wrong ones.

Profit or loss, says Bates, should be given attention before the end of the tax year for taxes may be saved or full benefit gained from allowed deductions resulting from tax planning decisions. Records are very useful when these decisions are made. Calendar year operations are reminded a check-up is now in order.

Recommendations for previous years. Complete records are needed to verify the loss. Decisions covering the sale of livestock or other commodities in the current tax year may affect the amount of tax paid. Bates says if an alternative will permit full benefit of this year's tax extensions, the taxpayer may wish to use it. A summary of records will help clarify the decisions which can mean tax savings, points out the specialist.

By working in the Rio Grande Valley during the winter and at Halfway during the summer it will be possible to combine two years' into one. Flame cultivation at the Foundation in 1961 will include new research in sesame, sugar beets, peanuts, and vegetables. This will be in addition to continued research on cotton, grain sorghum, soybeans, corn, and castor beans.

Flame Cultivation Research Continues

Flame cultivation research will be continued during the winter months on crops in the Rio Grande Valley by the High Plains Research Foundation. Dr. Tom C. Longnecker announced. Dale Price, Agricultural Engineer for the Foundation, will leave December 1 to carry on a three months' research program with headquarters in Edinburg, LP Gas dealers and farmers in the Edinburg and Mercedes area are providing the acreage and crops for the research projects.

Research on weed control by flaming will be conducted on grain sorghum and many vegetables. Included will be a follow-up on the research that has been underway at the High Plains Research Foundation in 1960 on potatoes, onions, and lettuce. Research with flame cultivation as a means of weed control will also be conducted on carrots, tomatoes, cauliflower, Brussels sprouts, broccoli, cabbage, table beets, sugar beets, sweet corn, green peppers, and Jalapeños peppers.

District Still Working On Depletion Case

At a recently-held business meeting of the Board of Directors of the High Plains Underground Water Conservation District, the major item on the agenda was the review of illustrations, charts, graphs and maps being prepared for use in the underground-water depletion case which will be filed very soon in the federal court.

allowing an income-tax deduction for their depletion. The District will contend that water users who can show an actual cost in underground water beneath their land and who are using the water to produce income should be entitled to deduct the cost of such water as it is exhausted. The Board of Directors of the Water District reports that a favorable decision by the federal courts would ultimately mean millions of dollars in tax savings to water users in the southern High Plains during the lifetime of the underground-water supply.

Fires in farm homes are most frequently caused by defective heating equipment, faulty chimneys and flues, overloaded wiring systems, matches and smoking. With the coming of cooler weather, the Texas Farm and Ranch Safety Council suggests a check-up for all heating equipment before it is put in use for another season. Texas Agricultural Extension Service economists report that farmers have increased the per-acre yield of 18 leading field crops by 71 percent in less than 20 years and that more than twice as many workers are required to furnish farmers with needed supplies and to market the products they grow than are needed on the nation's farms.

Unusual Opportunity \$450 monthly. Need help in local business. Man must be married, sober, 21 to 40, have own car, be able to boss himself and supervise others. Permanent position with opportunity to advance as fast as your ability and energy warrants. If you desire something secure with a future, write Personnel, 1559 Parr, Amarillo, giving phone and address.

1961 Cotton Allotments Explained

In response to questions raised by some growers about 1961 upland cotton allotments, B. P. Davenport, Jr., Chairman, Texas Agricultural Stabilization and Conservation Committee, today explained the difference between the 1961 program and the one in effect for the past two cotton crops.

He pointed out that the 1961 national allotment of 18.5 million acres compares with the "regular" 1960 allotment of 16.3 million acres. This 1960 figure was increased to 17.5 million acres under Choice (B) elections.

In 1961, there will be only one upland cotton allotment, whereas for the past two crops growers had a choice between the "regular" farm allotment and the 40-percent-larger (B) allotment. All eligible growers when they receive their notices of 1961 upland allotments.

Davenport reminded farmers that the allotments will remain in effect for 1961-crop cotton whether or not growers approve 1961 marketing quotas in the national referendum to be held December 13. Allotments are used as a means of determining eligibility for the available price support.

Vern's Views

Friday driving was no picnic here in the United States, down about Muleshoe, it probably worse than anywhere else in the state about Sunday.

We were rammed broadside a tumbleweed in that area it practically turned our car over and chipped off a sizable chunk of paint.

Pardon these personal references, but during the weekend, this writer was doing some fishing in a small pond down state.

The only morsel of good fortune that occurred during the entire expedition lasted about three seconds and consisted of a large bass taking my lure and snapping my line like thread.

I don't intend to go into the particulars of the incident as so many boring old fishermen would do, but would like to use this incident to spring off into a little sermon that sprouted in my mind shortly after said fish was free and swimming happily around the pond.

Naturally I was crushed, disappointed and mad all in one operation, and ejected my favorite by-word, No need to get out the censoring scissors, I only said "gosh."

Later in the day, I started thinking that if I ever meet an almost instant death, I would probably say the same worn out word.

Now this is a pretty poor word to leave as your last in this world, but since I say it so often, I know it will be the one I unconsciously choose if I am ever bushwhacked or anything.

Right away, I resolved to devise a completely new and original by-word to use at all occasions such as the line-breaking incident mentioned earlier. This would be ready for instant use when the hammer collides with one of my fingers, when I slip on a waxed floor and all similar situations.

I have heard some pretty good original sayings cooked up by farm hands, cow hands, housewives and printers, but none that fitted all my requirements, I must choose one that will be suitable to say in all kinds of company, is witty, original and will be the perfect thing to say if I am ever involved in a tragedy that gives me only time enough to say a short, automatic epithet.

This started out to be sort of a sermon, so the moralistic tidbit will be tacked on here: I think everyone should choose their own "nice" by-word immediately and use it often enough to have exclusive claim to it but not often enough to bore people and make it lose its punch.

Lazbuddie Begins Tourney

The Lazbuddie Basketball tournament begins today (Thursday) with 16 teams vying for trophies.

Play will begin this afternoon at 2:15 when Amherst and Morton tangle. Eight girls and eight boys teams will battle for championship and consolation prizes.

Competing in the tourney will be Bula, Bovina, Farwell, Pep, Three-Way, Lazbuddie, Amherst and Morton. Consolation finals for the boys will be played at 6:30 Saturday night, with the championship contest slated for 9 p. m.

Girls teams will decide consolation winner and champion respectively at 5:15 and 7:45 p. m.

Lazbuddie will resume regular scheduled games next Tuesday.

Man Fined For Drunkenness

Activity for the Farmer County Sheriff's Department during the past week was light, with only one arrest being reported.

M. D. Cruse, who lives near Bovina, was arrested Saturday night by Deputy Sheriff Henry Minter and was charged with drunkenness. He was tried in J. R. Thornton's justice of peace court at Farwell Monday and fined \$5 and costs.

TWO PLANE LOADS of blood donors are shown with one of the planes that took them to Dallas. The other two planes were about one hour behind the first two and all four landed Tuesday afternoon at Benzer Air Park.

Blood Donors Fly On Mercy Mission

Friona's heart was showing plainly last week.

Donna Kay Lewellen, five-year-old daughter of Mr. and Mrs. Delton Lewellen was scheduled for a delicate heart operation that required a large amount of blood.

Acting on their own, some 20 men banded together to go with the little girl to Dallas where the operation was performed. Seventeen of them, donated blood during the two and one-half hour operation, which from all indications has given Donna an excellent chance at a normal, healthy life.

The operation was necessary to correct an abnormality in the upper chamber of the child's heart. An opening about the size of a half-dollar prevented Donna from normal activities and cast a dark shadow over her future.

Four private airplanes were donated for use by the donors, who left Sunday and returned Tuesday afternoon.

Donna was reported in good condition following the operation and will be returned to her home within the week.

Planes used for the trip included two Tri-Pacers, one Aztec and one Comanche. Owners of the Aztec are E. T. Jennings, Bruce Parr and Carl Schlenker. Roy Botkin, Truett Johnson and Jennings are

owners of the Comanche. The Tri-Pacers were owned by Wayne Garth, Eddie Joe Hall and Woodie Fleming; and Joe and Delton Lewellen.

Piloting the crafts were Hall, Joe Lewellen, Botkin and Jennings.

Donating blood were Billy Dean Baxter, John Renner, S. E. Beaton, Forrest Osborn, V. M. Ferguson, Bruce Parr, Ira Bruce Parr, H. P. Hamilton, Stanley Benge, Jim Guinn, M. L.

Brown and Eldon Sparkman. Three other men also donated but reached Dallas by other means of transportation. They were Sam Bailey of Friona, Glen Harris of Gruver and Orlean Jordan, of Denton.

Jordan is a college student who heard of Donna's operation and volunteered to give blood. Rev. Bill Burton, pastor of First Baptist Church of Friona also made the trip. Donna's parents attend his church.

Commissioners Open New Road

At the regular meeting of the Farmer County Commissioners Court Monday, the commissioners acted on a jury of view report, voted to pay a right-of-way claim on Highway 70-84, and conducted other routine business.

A jury of view returned a verdict of no property damage on a proposed new road site northwest of Clay's Corner. The commissioners had been petitioned to open a new road, from the southeast corner of Section 8 and northeast corner of Section 17 to the southwest corner of Section 7 and the northwest corner of Section 18.

The commission voted to open the new road and construction will start on the two-mile stretch in the near future.

Two payments were authorized to be paid to H. M. Sheats for property damage on right-of-way purchased for widening of Highway 70-84.

Fund Drive Roars Toward 1960 Goal

The 1960 United Fund Drive was launched Tuesday and early indications were that the drive will pass the established goal.

A 6:30 a. m. breakfast officially began the drive and by Tuesday afternoon, \$2,333 had been turned in to drive chairman Danny Mac Bainum.

While most of the work was accomplished Tuesday, several teams did not contact the persons assigned to them and some that did didn't turn in their contributions in time to be counted in the total for the day.

"I feel sure we will pass the goal," Bainum reported. "We are well pleased with the way the drive is going so far."

It will probably be early next week before a complete tally

of the contributions is received. Workers reported that practically everyone contacted was donating at least as much as he

did last year and several new contributors were discovered (Continued on page 7.)

Student Will Speak In Baptist Church

Samuel Tittola Gladele Akande, one of five Nigerian students now enrolled at Wayland Baptist College will speak at Calvary Baptist Church Sunday morning.

His message will be centered around Baptist Missions in Nigeria. Akande will speak at 10:50 before the regular worship service at 11:10.

Akande, who served as pastor of the First Baptist Church, Fiddit, Nigeria for four years before coming to the United States, is a graduate of the Nigerian Baptist Theological Seminary, Ogbomoso, from which he received the bachelor of theology degree. He received his high school education in Ghana at Adisadel College, Cape Coast. In his homeland of West Africa, Akande served on the executive committee of the Nigerian Baptist Convention for one year. He also served on

the Sunday School Board, and was a member of the board of governors for a Baptist high school and the Baptist Seminary at Calabar.

Coming to Wayland on a scholarship of the Nigerian Baptist Convention, he plans upon graduation to enter the Seminary at Louisville, Ky., for further study. After his training is completed, he will return to the ministry in his homeland.

Since coming to Wayland, Akande has spoken to mission study groups, workers' conferences, churches and various other groups in the area. A junior at Wayland, he is majoring in English and psychology. He is a member of Cosmopolitan Club and Alpha Chi, national honorary scholastic fraternity. He has been nominated to Who's Who in American Colleges and Universities.

FOR CHRISTMAS--

Chamber Will Announce Plans

Plans for Friona's Christmas celebration will be disclosed next week.

Officers of the Chamber of Commerce and Agriculture plan to meet this week and have their projects underway by the beginning of next week.

Last year, the chamber conducted a drawing and gave away several gifts including a new car and television set. There was no word on whether similar projects would be planned this year.

Last year the American Legion conducted a separate drawing and awarded a Shetland pony and saddle. This year that project has been taken over by Junior Chamber of Commerce.

Newman Jarrell Jr., president of the Chamber of Commerce and Agriculture, indicated a visit from Santa Claus is forthcoming and the specific time will be announced soon. Christmas decorations also

will be erected in town. The remainder of the program for the Holiday Season is still in the planning stage.

As in the past, The Star will publish Letters to Santa Claus and children are urged to begin writing these as soon as possible.

FOOTBALL WINNERS--

Squyres, Wilkins Tie; Both Going To Game

Martell LeVeque submitted a perfect entry in the final week of the Cotton Bowl Football Contest, but his first place win was overshadowed by Buddy Squyres and Waymon Wilkins who won the grand prize.

LeVeque won the expense paid trip to the Cotton Bowl last year and his stretch drive fell only two points short of repeating the feat again in this year's contest.

Squyres and Wilkins had been battling for the top spot in competition for the Cotton Bowl trip for the past three weeks. When it was decided that the two had finished the contest in a tie

COTTON BOWL BOUND--Smiles of victory grace the faces of Waymon Wilkins and Buddy Squyres after they won the Cotton Bowl trip. Each holds up his final entry that nailed down the win.

HONORARY DEGREE--Pete Buske proudly displays the plaque and pin given him by the State FFA Association. The plaque reads "Honorary State Farmer."

Buske Gets State Agriculture Degree

Pete Buske, Friona cattleman who has been helping FFA boys with their livestock problems almost as long as there has been a chapter here, was announced recipient this week of the Honorary Lone Star Farmer Degree.

Buske is one of the few

individuals other than an ag teacher to receive the award. About 10 presentations are made each year.

Buske has helped sponsor the Farmer County Junior Livestock Show held in Friona each year, helped boys select their calves throughout Farmer County and has invited FFA boys to use his cattle pens for handling their livestock.

The awards are presented by the State FFA Association. Buske was recommended for the honor by teachers of Farmer County.

"We are very happy to have him recognized for his local work," said J. D. Lane, instructor in Friona vocational agriculture department.

Blaze Damages Home Sunday

Fire did minor damage to the home of Henry White in Friona Sunday during one of the worst sand storms of the year.

Firemen were called to the home and found a wall burning that had been ignited by a small heater in the bathroom. The blaze was quickly extinguished.

Jaycees Plan Pony Drawing

Friona Junior Chamber of Commerce will give away a Shetland pony and saddle on Christmas Eve, Dec. 24.

The project, adopted at a Monday night meeting, gives the Jaycees a full slate of activi-

ties between now and Jan. 1, with the club scheduled to receive its charter Dec. 17.

The charter will be presented by state Junior Chamber of Commerce officers at the Jaycee Banquet. It will be conducted in the school cafeteria and will begin at 8 p. m.

Tickets will be \$2 each. Decision to give away the pony was made and Virgil Phipps was placed in charge of a committee to purchase the pony and handle ticket sales.

Tickets on the pony will be \$1 each and will go on sale Monday.

Winner of the pony will be notified after a drawing at 2 p. m. in City Park.

In other business, Troy Young was elected president to complete the unexpired term of Bill Lane, who resigned since he will be moving from Friona soon.

Young moved up from vice president and Jack Burnett was elected to fill the vacancy left by Young's promotion.

Proceeds from the pony drawing will be used for Jaycee community projects. The club currently has plans to construct a rodeo arena here.

Lions Will Sell Yule Trees

Friona Lions will set up their Christmas Tree lot in City Park Friday and continue to operate it through the Christmas season.

No business establishments in Friona will sell Christmas trees this season.

THE FINISHED PRODUCT is lined up outside the gins after it is taken from the trailer and run through the gin machinery. Grades of the cotton to date have been good, considering that much of the growing season was marked by inclement weather.

Machinery Efficiency Can Increase Profits

Machinery inefficiency can strike a devastating blow to farm profits. Cecil Parker, extension farm management specialist, says that every farm operator should know the cost of owning and operating machinery. If he does not, he is in a poor position to determine how to increase his machinery efficiency, Parker continues. Fixed costs, such as depreciation, interest on investment, insurance, taxes and housing may represent the largest expense associated with owning machinery. If the farm is large enough, however, these costs may be small on a per acre basis. Repair and maintenance may also involve a large cash out-

lay. High cost here can be caused by poor quality machinery, abuse by the operator, operating over rough terrain or a combination of these, Parker explains. The specialist says other factors which affect machinery efficiency are: Substitution of machinery for labor. Whether or not substitution is wise depends on the relative effect on labor costs.

Return on investments, Capital invested in machinery and equipment may give a greater return if invested in some other phase of the farm business. Availability, if machinery is not available when needed, lower yields and quality may result.

Profit From Business Records

Extra income can come from well kept farm or ranch business records. Some errors in business decisions are unavoidable, points out C. H. Bates, extension farm management specialist, but adequate records can often help farmers and ranchmen reduce the chance of wrong ones. Records of 1960 operations may prove very helpful by showing the amount of income from various enterprises and total gross receipts; indicating the total cash expenses and reflecting items of greatest outlay; aiding in determining depreciation deductions for tax purposes and reflecting the amount of net profit or loss

for the year. Profit or loss, says Bates, should be given attention before the end of the tax year for taxes may be saved or full benefit gained from allowed deductions resulting from tax planning decisions. Records are very useful when these decisions are made. Calendar year operations are reminded a check-up is now in order. Farmers tend to omit items of business expense during seasons when little profit is made. This should not be done, says Bates. It is important to show the entire loss. If a "net operating loss" occurs, the farmer or other tax payer may be able to obtain a tax refund

on operations for previous years. Complete records are needed to verify the loss. Decisions covering the sale of livestock or other commodities in the current tax year may affect the amount of tax paid. Bates says if an alternative will permit full benefit of this year's tax exemptions, the taxpayer may wish to use it. A summary of records will help clarify the decisions which can mean tax savings, points out the specialist. Bates adds that local county extension agents have publications on record keeping which should prove helpful to farmers or ranchmen. He says the 1961 Farmers Tax Guide, provided by the Internal Revenue Service, should be available soon and

recommends it as a valuable reference on tax questions. But, he concludes, good records make the entire job of farm or ranch management a lot easier.

Flame Cultivation Research Continues

Flame cultivation research will be continued during the winter months on crops in the Rio Grande Valley by the High Plains Research Foundation. Dr. Tom C. Longnecker announced.

Dale Price, Agricultural Engineer for the Foundation, will leave December 1 to carry on a three months' research program with headquarters in Edinburg. LP Gas dealers and farmers in the Edinburg and Mercedes area are providing the acreage and crops for the research projects.

Research on weed control by flaming will be conducted on grain sorghum and many vegetables. Included will be a follow-up on the research that has been underway at the High Plains Research Foundation in 1960 on potatoes, onions, and lettuce. Research with flame cultivation as a means of weed control will also be conducted on carrots, tomatoes, cauliflower, Brussels sprouts, broccoli, cabbage, tablebeets, sugar beets, sweet corn, green peppers, and Jalapeños peppers.

By working in the Rio Grande Valley during the winter and at Halfway during the summer it will be possible to combine two years' into one.

Flame cultivation at the Foundation in 1961 will include new research in sesame, sugar beets, peanuts, and vegetables. This will be in addition to continued research on cotton, grain sorghum, soybeans, corn, and castor beans.

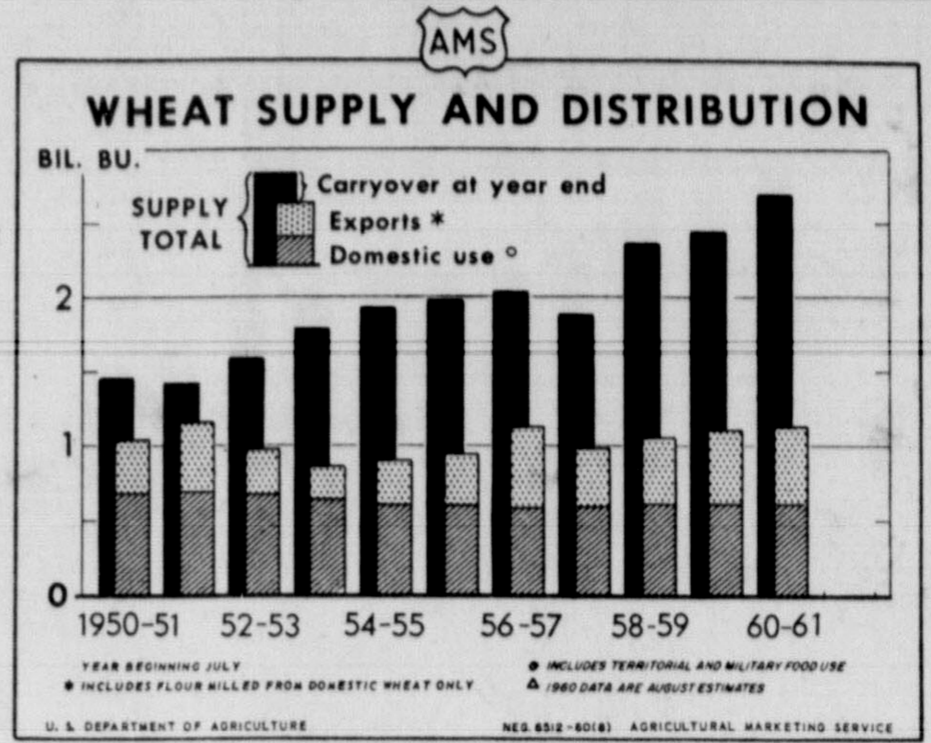

A dog is man's best friend because he wags his tail instead of his tongue.

New & Rebuilt Electric Motors For All Purposes

Electric Motor Rewinding General & Starter Service

Crown Electric

PO3-5433 1320 W. 7th. Clovis

The carryover at the end of the 1960-61 marketing year may be about 1,550 million bushels, 235 million above July 1, 1960 and the largest in our history. A further increase is in prospect July 1, 1962, since yields at the average of recent years would result in a larger crop in 1961 than would be used for domestic requirements and exports.

Supplies in 1960-61 are at an all-time record high of 2,682 million bushels. Exports are expected to total about 525 million bushels, 17 million above the high level in 1959-60 and within 25 million of the record in 1956-57. Domestic disappearance is estimated at 610 million bushels, about the same as last year.

District Still Working On Depletion Case

At a recently-held business meeting of the Board of Directors of the High Plains Underground Water Conservation District, the major item on the agenda was the review of illustrations, charts, graphs and maps being prepared for use in the underground-water depletion case which will be filed very soon in the federal court.

The Water District will attempt to show the court that underground water in the southern High Plains of Texas is a natural resource that is being mined in a manner quite similar to oil and gas, or any of the other natural deposits that come under federal laws

allowing an income-tax deduction for their depletion.

The District will contend that water users who can show an actual cost in underground water beneath their land and who are using the water to produce income should be entitled to deduct the cost of such water as it is exhausted.

The Board of Directors of the Water District reports that a favorable decision by the federal courts would ultimately mean millions of dollars in tax savings to water users in the southern High Plains during the lifetime of the underground-water supply.

Fires in farm homes are most frequently caused by defective heating equipment, faulty chimneys and flues, overloaded wiring systems, matches and smoking. With the coming of cooler weather, the Texas Farm and Ranch Safety Council suggests a check-up for all heating equipment before it is put in use for another season.

Texas Agricultural Extension Service economists report that farmers have increased the per-acre yield of 18 leading field crops by 71 percent in less than 20 years and that more than twice as many workers are required to furnish farmers with needed supplies and to market the products they grow than are needed on the nation's farms.

A balance in the soil of lime and fertilizer can add greatly to the economical production of crops on East Texas and Coast Prairie farms, says W. F. Bennett, extension soil chemist. He adds that about 75 percent of the soils in East Texas and a third of the Coast Prairie soils need limestone. A soil test will show where and how much lime and other plant foods are needed. Local county agents can provide information on soil testing and how to take samples.

Sunday School Teacher: "And why did Noah take two of each kind of animal into the Ark?" Bright S. S. Scholar: "Because he didn't believe the story about the stork."

1961 Cotton Allotments Explained

In response to questions raised by some growers about 1961 upland cotton allotments, B. P. Davenport, Jr., Chairman, Texas Agricultural Stabilization and Conservation Committee, today explained the difference between the 1961 program and the one in effect

for the past two cotton crops. He pointed out that the 1961 national allotment of 18.5 million acres compares with the "regular" 1960 allotment of 16.3 million acres. This 1960 figure was increased to 17.5 million acres under Choice (B) elections.

In 1961, there will be only one upland cotton allotment, whereas for the past two crops growers had a choice between the "regular" farm allotment and the 40-percent-larger (B) allotment. All eligible growers

in 1961 may receive the full available price support on their cotton, whereas in 1960 the eligible (B) growers received lower support but a larger acreage allotment.

Because of the provisions of the law the effect of the increased national allotment on the size of the State, county, and farm allotments will vary widely. Some farms may receive no increase or possibly a reduction from the available allotment acreage for 1960 primarily because of the operation of the minimum allotment provisions or participation in the Choice (B) program in 1960.

Growers on 1960 Choice (B) farms and on farms with allotments of 10 acres or less should keep these facts in mind

when they receive their notices of 1961 upland allotments.

Davenport reminded farmers that the allotments will remain in effect for 1961-crop cotton whether or not growers approve 1961 marketing quotas in the national referendum to be held December 13. Allotments are used as a means of determining eligibility for the available price support.

A two-thirds favorable vote in the referendum would mean quotas for the 1961 cotton crop, marketing quota penalties on any "excess" cotton, and price support at not less than 70 percent of parity. Opposition to the quotas by more than a third of the voters would mean no quotas or penalties for 1961 and support at 50 percent of parity to growers who complied with their acreage allotments.
