## High School Baseball Team To Play Friday

Sanderson High's Eagles will make their first baseball appearance Friday afternoon when they play an all-star team composed of local "has-beens" and "never-wases". Buddy Sudduth, promoter of the local all-stars, has indicated that he will have plenty of talent on hand to give the high school boys some competition.

The Eagles will be putting a baseball team on the field for the first time in several years and Coach Barry has not had enough time to get a line-up on all of his candidates. He has indicated that he will probably start Maggie Bustos on the firing line, with Dave Flores receiving Juan Flores, Edwin Smith and Joe Vasquez will work in the box after the first few innings.

The game will be played at four o'clock on the Deaton diamond west of town. No charge will be made for admission.

Dr. and Mrs. J. W. Pate attended a meeting of the Big Bend Medical Society in Alpine Tuesday night.

our system of taxation which was intended as a fair and equitable source of income for governing bodies. All the kick we have against taxation, as it is forced on the people by the brass in the "Queer Deal," just as a pawn for votes. We object to every dollar that we have to pay that goes to pay \$1.25 to a farmer for potatoes that are sold back to him at one cent a hundred; and is used to keep the price up to 6c per pound for us as consumers.

If the county and school and state need more money for the operation of the Hoof and Saddle business we are not only willing but anxious to have our little part of paying for it. When they go to establishing bureaus for this and that all over the country to tell us how to plant and plow up then I pay "through the nose."

During the WPA days a man asked another if he knew the difference in God and FDR to which he replied: "Yes, God says 'seek and ye shall find,' and FDR says, 'sit down and I'll bring it to you.'"

Sanderson's Eagle Band joined twelve other bands of this area in Del Rio Saturday for the annual Band Clinic and Festival.

Starting at 7:30 a.m., the bands played before the judges in thirty minute periods. The Chamber of Commerce served a barbecue dinner to the visiting band members at noon. A parade, led by the Sul Ross Lobo Band was in the afternoon and an all-star concert Saturday evening.

Local band members placing with the all star group were Betty Cook, Nancy Peavy, Bobby Wilkinson, Jack Savage and Betty Sullivan.

A noted interest on the part of the grammar school children in the new playground facilities has been noted in the past few days. Tiny tots even in the first grade are enjoying the basketball courts and fighting their way among about two or three times the number usually on an opposing team for possession of the ball and a chance to throw it up into the air in the general direction of the basket.

Little girls hardly able to reach the volleyball nets have teamed up for recess competition on the two volleyball courts. It is hoped that there will be the addition of another basketball court just east of the present one in operation soon.

Results of the formation of the Eagle Club of ranchmen in and near Terrell County have been noted by the fact that Joe Kerr eagle exterminator and originator of the club in the county, has brought down 22 eagles to date. Ranchmen state that an eagle will kill a lamb a day during their hunting season.

The range of the eagles has been wide, according to Kerr, who stated that he had killed them over all parts of the county. His latest trip was in the northeastern part of the county from the Deaton ranch near Sheffield south. He reported two eagles killed on this flight.

There has been reported damage done by the predators very near town within the past few weeks and the increasing crop of lambs over the country is expected to bring the eagles out in even larger number.

"Left-Handed Compliments"

See where a bank in Denver is putting in left-handed checkbooks. They figure their southpaw depositors deserve just as much consideration as the right handers.

Time was when it was believed that left-handed people had no right to exist at all. If a youngster showed signs of using his left hand, his parents were supposed to break him of the habit—to force him to use his right.

But today most doctors will tell you that changing a child's natural left-handed tendency usually causes more harm than good.

Stammering and other nervous disorders often get their start way with children.

From where I sit, if a man uses his left hand—that's business. It's not such a good thing to make anyone do things just because we think it's right. Personally, I think a mellow of beer is the finest beverage on earth. If you happen to prefer Coke—why, go to it! Only enjoy the same freedom of choice, do you?

PROBABLY no other man in history did more to raise living standards in his lifetime than Thomas Alva Edison.

Through his invention of the incandescent lamp and his many other discoveries in the field of electricity, Edison brought better light and better electrical living to all the world.

Today, electricity is serving more people in more ways at lower cost than ever before. You have only to imagine life without electric service to realize what Edison's achievements have meant to mankind.

Small wonder then that Edison lives on in the hearts and minds of a grateful humanity. His genius has made life brighter and work lighter for everyone.

**TWO-WAY STRETCH**  
*that's strictly inside stuff*

*Look! Wrap-around rear window and top-side styling in the Riviera manner*

**HERE'S THE NEW 1950 BUICK SUPER 126,** companion body-type to the equally new ROADMASTER 130. Both are shorter than last year's 4-door Sedans — yet 4 inches longer in wheelbase. In both, the difference is used to give you real stretch-out room in the rear seat.

**What the boys did here really calls for some medals.**  
 We gave them the job of coming up with something that was bigger inside—for room and comfort—longer in wheelbase—always important to good riding qualities—yet unbulky and easy-handling in over-all dimensions.  
 Just look how well this tidy number meets these "impossible" specifications!  
 Item one—rear-seat cushions are a full foot wider than last year's SUPERS and ROADMASTERS.  
 Item two—in every dimension—leg-room, head-room, hip-room, shoulder-room—this rear-seat compartment is bigger than previous models—and nearly four inches longer, fore and aft, than other 1950 Buick interiors.  
 Item three — wheelbases are the longest of our 1950 line. On the SUPER, it is 125½" instead of 121½"—on the ROADMASTER 130¾" instead of 126¾".  
 Yet — and here's where the magic comes in — the whole car is shorter over-all. Actually less from bumper to bumper than previous Buicks in these series.

That means easier parking, easier tucking away in family garages, easier maneuvering in crowded traffic.  
 There are some other things too. An extra rear-quarter window not found in standard 4-door Sedans. A different upperstructure styling that makes this body-type stand out as something pretty special.  
 Even special names that let you say, "I drive a SUPER 126" or "Mine's a ROADMASTER 130," just by way of being different.  
 Yes, we think we hit on a happy idea in the "Longfellows," as they're coming to be known. They are not longer, on the outside, but there's a two-way stretch—in width and length—in the rear compartment.  
 You're going to like that—as you'll see by calling on your own Buick dealer. If he doesn't have one on hand, he can get it pretty promptly—and at a price and on a deal that have trouble matching, much beating, anywhere else.  
 See him now, will you—about getting an order?
