Bridal Tables To Be Featured At Friday Flower Show

The fourth annual Spring Flower Show sponsored by the Sanderson Garden Club which was postponed from Wednesday is scheduled for Friday, April 21, at the Masonic Hall from three to seven p. m. "A Spring Wedding" will be the theme of the show.

Out-of-town judges have been secured for the show. Anyone desiring a scale of judging or schedule before preparing entries is requested to contact Mrs. H. J. Rowlett, Jr., as the judging will be based on these things.

The specimen exhibits are in eight classes: Roses, bulbs, corms or tubers, vines, shrubs, perennials, annuals, potted plants, unscheduled — any worthy exhibit not provided for on schedule.

Eight classes will form the arrangement exhibits: — old, new, borrowed, blue, bridal bouquet, bridesmaid's dresses and flower girl, which is an arrangement by a child. The sixteenth or invitation class will probably draw the most interest as it will include arrangements for the bridal tables, the announcement tea, one for morning coffee, bridge-luncheon, crystal shower, kitchen shower, pottery shower, cocktail party, bachelor dinner, Mexican dinner, wedding reception, honeymoon breakfast, rehearsal dinner, after-dinner coffee and spinstar dinner. Similar tables complete with decorations and appointments proved very popular at the first show here.

The rules of the show are: — 1. Entries will be accepted from 8 a. m. to 11 a. m. Friday, April 21. Doors close promptly at 11 a. m. Invitation class tables must be completed by 9:30. All members except judges assistants must leave when judges arrive.

2. Exhibitors must state to which class each entry belongs.

3. No entry will be accepted in the cultural classes unless properly named.

4. All material for specimen classes must be grown by the exhibitor.

5. Material for arrangement classes must be grown or borrowed but cannot be bought for these classes. Tables may use purchased flowers.

6. Exhibits are not to be moved before 8 p. m., April 21st, but can be removed from 7 to 8 p. m. and from 10 to 11 a. m. Saturday. The committee assumes no responsibility for containers. All containers should be marked on the under side with exhibitor's name.

7. Exhibitors must make all arrangements at home, as only minor adjustments will be allowed after bringing them to place of exhibit.

8. Merit system will be used in judging. All classes are to be judged regardless of the number of entries in that class. However, point scoring will be used.

9. Any material in the arrangement classes may be curled or treated as the exhibitor desires, but no ribbons or such artificial material may be used.

10. Sweepstake prizes will be awarded to the winner of the greatest number of blue ribbon points in the specimen classes and to the winner of the greatest number of blue ribbon points in the arrangement classes.

TUBELESS TIRE "TAKES IT"

This picture demonstrates how the new puncture-sealing tubeless tire, now on sale in this area for the first time, can "take it" — and not breathe a sigh. In this destructive spike-board test one spike, underneath, has completely pierced the tire and another, right, is about half way through. But air does not leak out of the tire. A gummy inner layer of special rubber which "surrounds" the piercing objects, then closes the hole when they are withdrawn, gives the new tire its self-sealing ability.

Army Announces Details of New Reserve Corps

Austin, April 12 — Details of the streamlined new Army Organized Reserve Corps program designed to improve the efficiency and readiness of the reserve, were announced this week by Col. Oscar B. Abbott, Chief of the Texas Military District, who emphasized that the new program is dependent on the availability of funds.

Salient features of the new ORC program are establishment of a firm troop basis, provision for progressive and efficient training, establishment of a sound promotion system, provision for adequate training equipment and simplification of the organizational structure.

Under the new program, the ORC will have three principal subdivisions: the active reserve, the inactive reserve and the honorary reserve.

The active reserve will be divided into two parts: (1) the organized reserve, which will include all members assigned to troop basis units plus personnel needed upon mobilization to augment Regular Army units and staff agencies, and (2) the volunteer reserve, consisting of individual officers and enlisted personnel needed to increase the Army of the United States in the event of mobilization.

Under the minimum plan, the organized reserve portion of the active reserve will include mobilization troop units and 25 cadre divisions (17 infantry, 3 armored and 5 airborne); non-mobilization table of organization and equipment units (those having combat and service support missions), consisting of approximately 4,500 ground and service type units; and tables of distribution units, required for mobilization, expansion and augmentation personnel.

Reserve duty training pay for individuals assigned to other than fully organized units will be made available on an individual participation basis. Personnel in the volunteer reserve will not receive reserve duty training pay.
