LISTEN TO LUKE

The increased size of last week's Times put a lot of work on the staff who try to give you the best newspaper in Terrell County. We do appreciate the many compliments received on the enlarged edition. Now it would be nice if the entire force could take a vacation but whoever heard of a newspaper man taking a vacation. The younger Gilbreaths plan a week end in Wichita Falls this week and they have earned a rest after slugging in the work. This columnist would consider taking a trip somewhere if we only had the proper wearing apparel. Our shorts are not the right kind and we can't imagine the Missus donned out in a play suit for her vacation.

We were real proud of the special edition and we were also happy to see the splendid crowd in town Saturday. The store commemorated in the edition did itself proud in the handling of the immense crowds that flocked in throughout the day. The management and personnel are to be congratulated for their splendid success in handling the vast crowds.

Jack Talbot returning from Boys' State, has nothing but the highest praise for the program sponsored by the American Legion. Jack was chosen from the high school boys here this year and says that he feels that he can never repay the sponsors for the wonderful opportunity he was given by getting an insight into the workings of the state's various departments of government.

There is an opportunity that only comes to a few each year, while we have thousands of boys and girls finishing high school each year who will never have a chance to really know the mechanics of government in a practical way.

If we could find some way to create a desire on the part of the young generation to learn, first and, the various processes of government, so that a working interest would be aroused in each young American, then there would be little cause for worry about the future of this country. There is a tendency, in the schools and in the homes, to teach youngsters that politics is for politicians. There is an inclination to teach them that politics is to be left alone unless one wishes to make a career of it and then he is expected to be crooked as the other fellow and get by with any crooked stuff. Most young folks think a man must be a crook to be a politician. If more youngsters could have the opportunity Jack got there might be a better citizenship in the next generation. There would be a sense of individual responsibility — that is the aim of the American Legion in making that worthy program possible to high school students. Jack was a good representative from Terrell County and we are glad he had the experience.

There are more "experts" coming to Sanderson to "enlighten" the merchants on the OPS regulations. So far none of them have been able to diffuse all the light of the confused program. Each one can tell the merchants that he can do so and so, but none can answer any questions that will enlighten the merchants in doing the right thing and filling out the forms and reports as they should. It is marvelous where the Lubbock office found so many experts available. One would think that an expert who could qualify as such (Continued to page two)

GENERAL SERVICES FOR J. B. WORD IN SAN ANTONIO

Funeral services were held in San Antonio last Wednesday, June 27, for J. B. Word, of Van Horn, who was killed in a car wreck in that city Sunday. He was an employee of the T&N Railroad. He was a brother of James Word and Mr. and Mrs. Word and children were in San Antonio when they received word of his death and they were unable to remain for the funeral services. He is survived by a wife and three children.

Jack Talbot Praises Legion Boys' State

Returning Saturday night from Boys' State in Austin, Jack Talbot was high in his praise for the program of education offered by the American Legion posts throughout Texas. Young Talbot was appointed on the Texas State Highway Commission for Boys' State and was elected to the office of county treasurer.

Before going to Austin, Jack was sent to Sabinal to attend a singing school sponsored by the Church of Christ. He attended this school from June 2 to June 12 and from there he went to Camp Park at Uvalde for a four-day stay.

The boys attending Boys' State were quartered in the deaf and dumb school where they were registered and assigned bunks. State officials were elected and appointments were made by the group. Each boy had an official task to perform throughout the week. Among the distinguished speakers for the group were G. Ward Meador, department adjutant of the American Legion; Governor Allan Shivers, Secretary of State

STUMBERGS HAVE GUESTS

Guests in the S. L. Stumberg home last week end were Mr. and Mrs. Ernest Williams and children, Don, Jean and Ernest, Jr., of San Angelo; Mr. and Mrs. J. B. McCard of Coleman and Mr. and Mrs. J. W. Vance of Coleman.

Mr. Williams is president of the Texas Sheep and Goat Raisers' Association and Mrs. Vance is president of the ladies auxiliary of the National Wool Growers' Association.

Don and Jean Williams remained at the Stumberg ranch for a longer visit.

Mr. and Mrs. Lee Dudley visited in Ozona and Sheffield last week end with relatives.

JACKY TALBOT

John Ben Sheppard, Col. Homer Garrison, and the dean of counselors, Curtis A. Cryer.

The group was divided into two political parties, the "Longhorns" and the "Pioneers." Each party held conventions and worked for the candidates of that party for the various offices. Jack belonged to the "Pioneers."

Of the twelve "cities" — as the boys were divided alphabetically — Talbot was assigned to Dunning City and his group won first place in the touch football game for the state championship.

There were 478 boys assembled for the 13th annual Boys' State. These boys represented over 200 Texas communities and will be better citizens because of having attended this citizenship project.

Jack says he had a wonderful time and feels that he has profited by the things he has learned. He is very grateful to the local post of the American Legion for having provided the opportunity for him to attend this conclave.

Fourth Celebration Plans Complete For Full Day's Program

The American Legion and the Sanderson Roping Club have completed plans for the full day of festivities to afford recreation and entertainment for the citizens of the area on July 4. A parade just before noon will open the celebration with the aggregation winding up at the courthouse where the American Legion will serve a free barbecue. Following the barbecue that organization will give away several items of merchandise contributed by local merchants, to all who donated to the Legion fund.

In the afternoon the Sanderson Roping Club will stage its annual roping and rodeo at the arena east of town. They have jack-pot roping, team tying, barrel races and matched ropings planned to fill the bill of entertainment for the afternoon. Several of the top ropers and performers of the area will be on hand to enter the events for the top honors in the various contests.

At nine o'clock in the evening there will be a dance sponsored by the American Legion at The Kerr Mercantile Building and the music will be furnished by Anny Schroeder and his "Men of the West" orchestra. The dance will last until 1 a. m.

V. F. W. Ball Team Wins From Lions Of San Felipe, 9-2

The San Felipe Lions lost to the local V.F.W. aggregation here last Sunday afternoon by a score of 9-2. Joe Vasquez pitched a no-hitter up to the seventh when he allowed the two runs and was relieved by Juan Olivares.

The locals will play the San Felipe Indians, said to be a better team than the Lions, next Sunday afternoon at 2:30. The V. F. W. team promises plenty of excitement and a good game to the spectators.

TOURIST KILLED IN CAR-TRUCK CRASH ON U. S. 90 TUESDAY

Mrs. Paula Benevides, 78, of East Los Angeles, California, was killed instantly when the car in which she was riding collided with a large diesel van truck about 40 miles west of Sanderson at about 7:15 Tuesday morning. Three of the occupants were hospitalized in Alpine, according to reports, and the driver of the car was brought to Sanderson for first aid.

The driver of the car stated that he was blinded by the sun as he went around one of the sharp curves and struck the truck, overturning the car.

The body was brought to Sanderson and will be shipped to California for burial.

Kerr Celebration Attracts Hundreds

Approximately one thousand persons registered at The Kerr Mercantile Company Saturday for the celebration of the fiftieth anniversary of the business and the opening of the remodelled and rearranged store. Many out-of-town visitors were noted in the crowds of people who thronged the store all day from the opening hour of 10 a. m. until 9 p. m. Much favorable comment was heard on the beauty and convenience of the new arrangements throughout the building.

Many lovely arrangements of flowers sent with congratulatory messages enhanced the beauty of the new store in all departments. Visitors were shown through the newly arranged departments of the business and invited to linger to shop or visit.

Refreshments of punch, coffee, and doughnuts were served during the hours with different hostesses alternating for serving duties. The refreshment table was covered with a cutwork linen cloth and the centerpiece of varying shades of yellow blossoms stressed the gold theme. "The Kerr Mercantile Company, 1901-1951" was printed in gold on the napkins.

Door prizes were given each hour and those registering were given an opportunity to unlock one of the treasure chests with a key furnished by the registrar.

A large crowd attended the roping sponsored by the Sanderson Roping Club at the arena east of town in the afternoon and remained for the dance on the concrete slab west of town in the evening.

Masonic Officers Installed Monday Following Barbecue

B. E. Carr was installed as worshipful master of Sanderson Lodge 988, A. F. & A. M., Monday evening. Other officers installed were W. M. Druse, senior warden, Roger Rose, junior warden, Ruel Adams, treasurer, R. S. Wilkinson, secretary, S. D. Thompson, chaplain, J. A. Gilbreath, senior deacon, James Blackwelder, junior deacon, Sterling Forth, senior steward, Raymond Phillips, junior steward and E. B. Carson, tiller.

F. H. Talbot was the installing officer. Preceding the installation, Masons and their families and Eastern Star members and their families enjoyed a barbecue supper in the basement of the Masonic Hall. Barbecue, salads, beans, pickles, cakes, tea and coffee were served to about eighty guests.

BEN DAWSON TO RECEIVE \$50 SALES AWARD

Mr. Dawson is employed by the Ferguson Motor Co. Mrs. Mildred Gann returned Saturday from San Antonio where she had visited for a week with her son-in-law and daughter, Lt. and Mrs. Horace Shelton.

REA PROJECT DELAYED BY LACK OF APPLICATIONS

News was released this week by Tom Hurd, manager of the Rio Grande Electric Cooperative, Inc., that only fifty-five per cent of the members along the proposed rural electric lines have signed their 5-year guarantee. He further advised that the longer it takes to get the required applications signed, the longer it will take to get construction underway. It was

MISS LOUISE KLEMER ATTENDS PMA MEETING

Miss Louise Klemmer spent several days last week in College Station where she attended a meeting of district field officers, P. M. A. secretaries, and county committees of the soil conservation districts. John Hardgrave and Lewis Arledge also attended the meeting. The same group will meet in Marfa Thursday to discuss the district recommendations with respect to the state agricultural and conservation program for 1952.

hoped that there wouldn't be too much delay in signing the applications due to possible difficulties which may be encountered in connection with the obtaining of construction materials. Materials are not hard to get at the present time and if all the applications are signed, construction could begin with 90 or 120 days. Hurd stated.

Mr. Hurd advised that if the members along the presently approved line did not sign the applications within the near future, that it will be necessary to move the lines to areas where the guarantees could be obtained. However, in all fairness to those in the presently approved line location, another effort is being made to get the applications signed and in the hands of the officials of the cooperative.

It is Mr. Hurd's opinion that there are a lot of those Terrell County residents that have not returned their signed applications due to the fact that they have forgotten or misplaced their application blanks.

The Times has been requested to bring this matter to the attention of the potential users of the facilities of the REA so that they could either send in their signed applications or advise the Rio Grande Electric Cooperative whether or not they want the electric service.

Joe Kerr, Jr., stated that he would be glad to give the information that might be necessary to anyone interested in signing the applications or assist them in any way possible in filling out the blanks.

Free Chest X-Rays Available Thru Friday

Chest x-rays for the diagnosis and early discovery of tuberculosis and other chest disorders may continue to be obtained free of charge Friday between the hours of 9 a. m. and 5:30 p. m. at the Henshaw building next door to Pierson Butane Co.

The mobile x-ray unit, furnished by the State Department of Public Health, was set up Wednesday and began operation Thursday. The mass chest x-ray survey is being sponsored by the Terrell County Tuberculosis and Health Association.

Mrs. H. A. Smith, president of the association, has urged every Terrell County citizen who is fifteen years of age and over to have the x-ray picture made. It will not be necessary to remove any clothing and the process takes only a few seconds of time. The service will also be available during the noon hour.

This service which is offered without charge is a valuable aid for one's own health as well as the health of the community as a whole. Anyone desiring transportation to or from the survey is requested to call Mrs. J. W. Pate at 56 or Mrs. Olivia Salinas at 75J.

ROTARY TO MEET NEXT TUESDAY, JULY THIRD

Rotary Club members voted to have their weekly luncheon next Tuesday, July 3, instead of the regular meeting day which is Wednesday. The change was made because of the July Fourth celebration staged annually by the American Legion.

It is interesting to note that Congress has put a stop to the President's beet roll back in the future but they let the original roll back stand.

Feeling the need for an organization such as a Chamber of Commerce in Terrell County prompts this column to again urge the organization of such a body in the immediate future.

We have been told that information concerning the organization of a chamber has been procured and that the possibility of getting started sometime in the future is being considered.

The job is too big for one man to undertake. The need is for a united, sacrificial effort of every civic-minded citizen, backed by a strong organization to be able to put some pressure where pressure is needed to get the things needed for this county.

If you are interested in such a move NOW, come in and tell this column or write us a note and a meeting will be arranged for the purpose of forming a temporary organization if there is sufficient demand. There is no need to put it off longer. Let us hear from you.

The Cow That Can't "Run Dry"

Sandy Johnson showed me his **cow** last week. It was a **arm** day and they were all under the trees near a watering trough.

And darned if one cow wasn't pumping water into the trough! It's a fact—she'd raise the pump handle with her nose, and use her throat to push it down again.

"That's Mabel," Sandy explained as she moved away. "Sometimes they drink that trough dry, and they learned how to fill it again. But she doesn't know her own strength—turns the place into a swamp if we don't watch her."

From where I sit, Mabel isn't the only one who sometimes doesn't know where to stop. For instance, people often carry personal opinions too far—like the person who wants everyone to accept his choice of political parties, or ball-players... or beverages. I prefer a glass of beer with my meals. I know that a lot of other people prefer milk. But nobody ought to insist on "herding" others around to his way of thinking.

Remember-only BUICK has a FIREBALL ENGINE

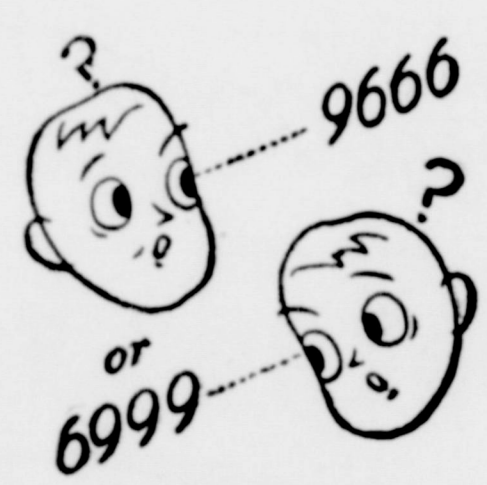

WE get a chuckle, sometimes, over all the fuss that's being made about "new engines."
You'll note that the key feature of their design in every case is the valve-in-head principle—whether these engines are already in production or still in the dream stage.
Fact is, it takes this design to get the most from "high compression"—and how high you can go depends upon the available fuel. Using this design, wartime aircraft engines operated on 100 octane gasoline.
It also takes this design to get the more-miles-per-gallon which folks like in an automobile.
So what gives us a chuckle is this:
No other type of engine has ever been used in a Buick—which means that Buick owners, all along, have been getting a lot of things that others have just "discovered."
But that's not all. They get something more—vastly more—because today's Fireball Engine has one standout feature found in no other automobile. That name "Fireball" isn't just a trick word. It describes what happens in this engine. Intruding fuel rolls into a swirling ball of gasoline vapor compacted around the spark plug. And when the fat spark sets it off, a cyclone of power lets go.
Of course, a Fireball Engine, being a valve-in-head, keeps pace with high-test fuel, when it comes to "high compression."
But what's more important in the present state of the world is this: A Fireball Engine is designed to handle the not-so-high-test fuel we may be getting in the not-too-distant future.
So, if you want to sample all that's fine in motorear engines, your Buick dealer is the man to see. Come in soon, and find out what the rest of the world has been missing.

When you come to check the field you'll find that there's a sweet freedom from roughness to this engine's operation—tracing to the fact that the whole mechanism itself is engineered smooth, and the further fact that every Fireball Engine gets a Micropoise balancing after assembly.
