

"Feeling in the young precedes philosophy, and often acts with a better and more certain aim."

... Carleton

First off, I would like to point out that the news editor, Bill Ellis, has written most of the news for this issue. If any change is noticeable, I hope it is for the better.

Both of us are aware of several handicaps which must still be overcome but we believe that The Star will soon prove to be a bigger and better paper than ever in the past.

I know that if the people of Parmer County will give Bill the support and cooperation which I have received, we shall continue to improve.

-TH-

It looks as if the choice now is between John Connally and Jack Cox for governor. I, for one, will hold my breath in anxiety when one of them moves into the chair in Austin.

When it comes to choosing between two undesirables, ulcers begin to sprout. In my opinion, neither of the candidates possess the desirable qualities which I believe one of the defeated candidates had.

By qualities, I mean a strong personality, character, a minimum of business and political ties which would conflict with the best interests of Texas and Texans, and a heap of plain, common horse-sense mixed with a little conservatism. (I am thinking of Formby).

I will be doing some detailed studying between now and November when I will have to strike out the name of one of the men on the ballot. I may make the wrong choice but it will be based on more than the toss of a coin or the sound of a name or the home town of the candidate. I hope the other voters will take the time to do a little studying also.

-TH-

Did you ever stop to consider just how near convicted you are when you are issued a traffic citation by an officer? I doubt it.

In theory, you are innocent until proven guilty and the burden of proof lies with the prosecution. In this case, when you appear before the JP and surrender your copy of the citation, you are presenting prima-facie evidence of guilt. (In 99 per cent of the cases, the bearer is guilty, but that is not the point under discussion here.)

In addition there is only the word of the officer--usually only one--to back up the citation. In any other case, it would require the support of at least two persons. In most cases, another witness in your behalf would not be of any value.

But if you are lucky enough to get so far as a jury trial and are found innocent, you have not won the battle. The state will appeal the case and continue to do so until the case is thrown out of the highest court. (Now comes the kicker).

It is the custom for the loser of a court battle to be assessed the court costs. Not so in a traffic case. Even though you may win the judgement, it will probably cost you several hundred dollars before you are finally free of the charge.

This type of treatment just doesn't seem in keeping with the ideas from which our laws were supposedly founded.

The irony of the situation is that the innocent pay the fine rather than go to the expense and trouble of trying to force the prosecutor to prove their guilt. On the other hand, the guilty may contest the case and win.

Regardless of how much more difficult it would make the job of the officers, it seems to me as though we need to make some provision whereby the innocent would have a chance--where instead of having to prove their innocence, they would have to be proved guilty.

(I know what you are thinking, but no, I haven't received a traffic citation--not for several years.)

-TH-

Bob Saunders from General Telephone Company appeared before the city council Monday night to explain the request for a change in the telephone rates in more detail. The company

RE-ELECTED. . . A. W. Anthony, left, and Ralph Wilson, right, were re-elected to new terms as directors of the Friona Wheat Growers Association at the 28th annual meet-

ing at Friona High School Tuesday night. They are flanking Bill Lane, field service director of Producers Grain Corporation, Amarillo, who addressed the meeting.

Methodists Tell Pastor

A farewell ice cream supper for the Wallace Kirbys was held Wednesday night at the Fellowship Hall, Friona Methodist Church.

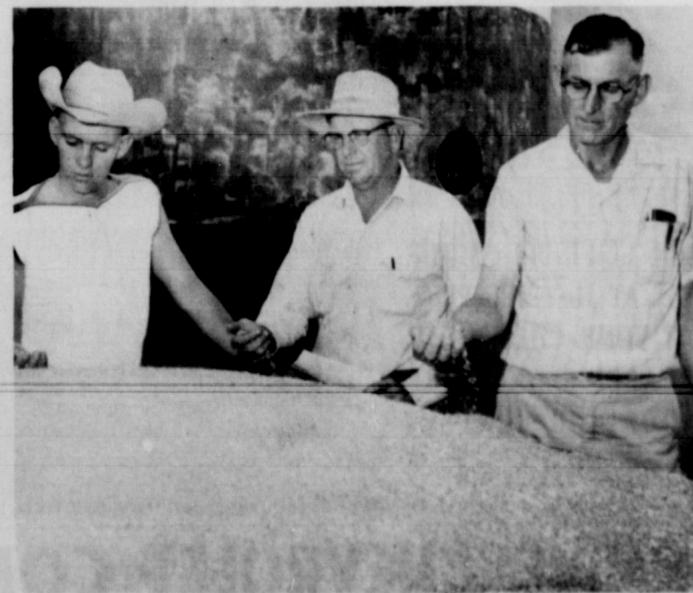

Rev. Wallace and his family are to move to Quanah. Rev. Russell McAnally, has been appointed the new pastor of the church, it was revealed this week. The McAnallys are to move to Friona Thursday, and his first sermon as pastor will be Sunday.

The church has planned a covered dish reception at the church Sunday beginning at 7 p. m.

Rev. McAnally comes to Friona from Lockney. They have four grown children, none at home.

Miss Luellen McLean, daughter of Mr. and Mrs. James McLean, was among 93 graduates receiving degrees from Midwestern University in Withita Falls, Texas June 1. She received the Bachelor of Science in Education degree with a major in Elementary Education and a minor in English.

FIRST LOAD. . . Marketing the first load of 1962 wheat in Friona was John P. A. Drager (center) and his son, Aaron, left. Arthur Drake of Friona Wheat Growers Elevator paid Drager \$25 premium for selling the first load.

Vote Shows Some Trend Reversal

There was some reversal of voting trends in Friona for the second Democratic primary over the first was evidenced by last Saturday's results.

For instance, John Connally, who was fifth in the original six-man field May 5 in the precinct, was given a sizeable majority in the runoff over Don Yarborough, 191-125. Connally won the nomination, conceded earlier this week by Yarborough.

In the race for Congressman-

at-large, Woodrow Wilson Beale led the seven-man field here in the first primary, with Joe Pool, his runoff candidate no better than fourth, Last Saturday Pooled, 198-126. He gained the nomination, although the county gave the loser a two-vote margin.

Friona voters stayed true to form in the lieutenant governor's and attorney-general's races, however, Preston Smith and Waggoner Carr, who led in the first primary, were given

big majorities this time.

In the race for state representative, 91st district, the Friona box was one of two which went for Bill Clayton in the first primary, when Bill Miller carried the county. Clayton once again received the most votes in the runoff, with a 2-1 margin over B. M. Nelson, 218-108.

The county went for Clayton, 3-2, which was about the same margin by which the Springlake resident was given the nomination by voters throughout the district. He will oppose Hereford's Frank Ford, Republican candidate, in the November general election.

First Wheat Is Harvested Here

The first load of wheat for 1962 in Friona was brought in to Friona Wheat Growers Tuesday afternoon by John P. A. Drager, who farms 11 miles west of Friona.

Drager's load weighed 4440 pounds, or 74 bushels, had a text weight of 59 pounds, and a moisture content of 15 per cent.

E. C. Schilling, who farms southeast of Black, brought in what is believed to be the county's first load Tuesday morning to Black Grain Company. The test weight was 58.5, and moisture content was 15.04. Schilling had the first acre load of wheat last year.

Drager harvested his wheat on a four-acre dryland plot. He has about 60 acres of dry-

land wheat and 60 acres irrigated.

The wheat was Dryland Tascosa, Drager said it would be a week or more before his irrigated wheat would be ready to harvest. He expected his irrigated crop to make approximately 50 bushels to the acre.

Drager was presented a \$25 premium check by Arthur Drake, manager of Friona Wheat Growers, for bringing in the city's first load of wheat.

The load came exactly a week earlier than last year's first load, which was brought in by John Renner on June 12.

Earl Drake brought the first load of barley to Friona on Monday, May 28.

FHS Gets Two Exchange Students For Next Year

Friona High School will have two exchange students next year, according to Superintendent of Schools Alton Farr.

Farr said that he had been notified that there would be both a boy and a girl exchange student assigned to Friona.

Although the country or countries the students will be from is not known as yet, it was learned that the boy student has been granted for the D. C. Herring home, and the girl has been assigned to the Earnest Osborn home.

Anni Jensen, who was Friona's first exchange student in the American Field Service program this year, is to begin her trip back to her home in Denmark June 21.

Gin Meeting Set Tonight

The new Farmers' Co-op Gin has scheduled a stockholders' meeting Thursday (June 7) at 8:30 p. m. at the Friona High School Cafeteria.

It is important that all persons who have money in the escrow account be present, according to the directors.

The charter has been received, and gin equipment has been purchased from Continental Gin Company. It was announced by A. W. Anthony, Jr. It is expected that construction will begin sometime in July.

The gin is to be located two miles south of Friona on the east side of the road.

A permanent board of directors will be elected at Thursday's meeting. Present directors include Anthony, Eugene Ellis, Keith Brock, Ellis Tatum, D. L. Carmichael, Charles Howel, R. J. Renner, Jr. and Raymond Schueler.

IN CITY LIMITS

Council Rejects Speed Increase

The Friona City Council approved the purchase of approximately \$3,300 worth of pipe and fixtures for water line improvements in the Staley Addition, but were not so agreeable on other items of business at its monthly meeting Monday night.

The council rejected a proposed ordinance by the state,

which would increase the speed limits within the city limits of Friona at certain points of Highway 60 from 45 to 55 miles per hour.

After much discussion, the group voted to table a proposal from General Telephone Company which dealt with changing its method of pricing on some equipment.

In other business, the council approved an ordinance to increase the amount of reward for arsonists, and approved the purchase of a new alternator-generator for the police car.

Several requests from individuals were considered, but all were denied or tabled.

Requests from Dive-In Swimming Pool for standard city water rates, and from Friona Lanes to be exempt from sewerage - trash charges during June, July and August were rejected on the basis that special consideration was involved.

The council tabled a request from Tom Parsons, who wanted consideration in a sewage line which runs across his property, for which no easement can be found. Also tabled was the matter of insurance on the new city maintenance barn.

The telephone proposal, which was defeated at last month's meeting, was reconsidered at the request of Bob Saunders, district manager of General Telephone, who attended Monday's meeting.

Saunders explained to the group that the company proposed to raise monthly rates on extension telephones, and wanted to change the method of pricing "key systems" as well as a general change in the manufacture of the special button-type systems.

Saunders said that the expense on the supply and maintenance on extension telephones had increased to the point that the \$1 and \$1.50 charge for residence and business phones was not adequate. The company proposes a 25-cent increase.

The change in the key system setup would give a business a choice of three types of systems, he said, and would greatly simplify such systems, both from supplying and billing viewpoints.

The council declined to act on the proposals, voicing concern over past service problems. On this point, Saunders told the group that General Telephone is striving to bring Friona the best service possible, and urged residents to notify the company at once whenever any difficulty should arise.

The pipe to be purchased will provide a six-inch water line for four blocks in the Staley Addition, currently served by only a two-inch line.

Among the activities listed for the month of May by City Manager Jake Outland said that lists of delinquent taxes were turned over to the City Attorney on May 14.

No building permits were issued during the month, but there was one permit for dismantling of one of the oldest buildings in town--the Otha Stevick building at 803 Summit.

(Continued on page 5.)

Rev. Burton Gets Honor

Rev. Carl Shores of Clovis, N.M., filled the pulpit at the First Baptist Church last Sunday, in the absence of Rev. Bill Burton, who is in San Francisco, Calif., attending the Southern Baptist Convention.

Approximately 10,000 pastors were expected for the convention.

Rev. Burton has received an invitation to participate in the nationwide Revival Crusade in Japan in April, 1963.

The church had already voted to send the pastor should an invitation be extended. Almost 1,000 laymen and pastors are to participate, most of them from Texas. Rev. Billy Graham is also to participate in the crusade.

Grand Opening For Aztec Set For Friday

The grand opening of the Aztec Drive-In west Highway 60 in Friona will be all day Friday, it was announced this week by Don and Glen Rusk, owner-managers.

Free ice cream, coffee and doughnuts will be featured during the day.

The Rusks are newcomers to Friona, having recently moved from Amarillo.

The city's newest eating establishment will feature drive-up speakers, the first in Friona, and will also cater to those who wish to eat inside.

Besides the regular run of sandwiches and soft drinks, the establishment will feature a complete menu.

Renner Shoots A Hole-In-One

John Renner of the Hub Community, reached the pinnacle of his golf career last Saturday at the Tullia Invitational Golf Tournament.

Renner fired a hole-in-one in the finals of the tournament, and while he realized a golfer's

dream, it didn't completely save the day, as he lost his match to Paul Webb of Tullia by one stroke.

Renner got his magic shot on the 181-yard ninth hole, using a six-iron. He continued to play hot golf, holing out number 10 from off the green, but could not overcome the deficit that had mounted in the first nine.

Winner of the recent first annual Friona Invitational Tournament, Renner said "It was quite a thrill to get that ace." He said he has been playing golf some 23 or 24 years, and it was his first.

Other action involving local golfers last weekend found Dave Carson downing fellow Frionan W. L. Edelman in the championship flight of the Golf Begins at 40 Tourney in Hereford.

Local Lions Attend Meet

Attending the Lions Club convention in Amarillo Saturday were several members of the Friona Lions Club and their wives.

Those making the trip were Flake Barber, Mr. and Mrs. Bill Nichols, Mr. and Mrs. Paul Hall, Mr. and Mrs. Travis Harrell, Mr. and Mrs. Newman Jarrell Jr., and Mr. and Mrs. Steve Messenger.

RIGHT COMBINATION. . . John Renner displays the club and ball with which he scored a hole-in-one at the Tullia Invitational Golf Tournament last weekend. A golfer for approximately 24 years, it was the first "ace" for Renner.

Editorial:

POWDER PUFF WAR GETS HOT

All this talk we hear from seasoned politicians on the need of the party (any party) to win the support of minority groups makes us wonder what's wrong with making a little character with a majority group.

And in case there's any doubt as to who constitute the majority group in the U.S. it's the women - by the score of 91 million to 88 (according to the 1960 census). Not only that, but among the nation's 45 million families there can be little question of who wins the arguments, political included.

Thus, if we were a Congressman who hoped to remain in Washington awhile longer, we would be taking some pains to find out what the women are thinking about among themselves and apart from those issues that equally concern the males. We might remember, for instance, the hullabaloo the girls stirred up about a year ago that resulted in six members of the House Ways and Means Committee presenting bills to outlaw that "temporary" wartime tax on toilet preparations.

And the realization would follow that since none of these bills was passed, a promise to the fair sex remains unfulfilled - fifteen years after this "luxury" tax was to have expired. To say that the distaff side is furious over those ungallant lawmakers who have turned deaf ears on their entreaties is a distinct understatement. They still regard George III's tax on tea as fair and reasonable compared with Uncle Sam's tax on good appearance and the good grooming that is as important to a business woman as her transportation and lunch money.

In fact, the women spurned, than whom hell hath no fury like, are on the warpath again, and the members of that tax-planning House Ways and Means Committee are once more receiving their loud and clear - as the saying is.

Last year, the gentler sex got attention. But this year, they are insisting on action. For 1962, as they are suggesting ever so delicately, is election year.

GREAT MINDS IN WASHINGTON, according to Chalmers Roberts in The Washington Post, are debating the wisdom of spending so much on space and defense that the Russians will go broke following our lead. "Why not spend the hell out of them?" Mr. Roberts quotes one tactician as asking?

Nothing could delight the shade of Uncle Joe Stalin more, Has everyone forgotten he planned it that way? And that is one Stalin strategy Khrush has never objected to. We would, however, be happier if our foreign aid funds were diverted to reactivating the RS 70 first-strike super bomber program.

There are those who will argue we have already spent the hell out of ourselves!

Castin' --

made the request last month but the council turned them down.

The request involves two changes in the present practices, neither of which affect very many subscribers in Friona.

The first change requires a 25 cent increase over the present \$1 residential and \$1.50 business phone extension rates.

This request was supported with the claim that the cost of installing and maintaining the extensions is exceeding the present return from the extensions and requires financial

support from the general rate.

The second change would replace the itemizing of accessories for a phone system with package plans. The same service would be available but entire systems involving key systems and intercoms could be ordered and stocked as units instead of individually as is the present practice.

The packaging of systems, under a standard price, would allow the phone company's supply department to operate on a more efficient basis and therefore, reduce expenses in that department. At present, (Saunders explained) every item in a system must be ordered

separately--including the lights used in the keys of new systems.

I have asked for some concrete figures to show just what the change would mean to the subscribers in Friona but they haven't arrived. I am also checking to see what the prevailing practices and rates are for extensions and key systems in communities and systems such as ours.

I think the general consensus is that the phone service has improved during the past few months. Therefore, if the change is really warranted and justified, the requests should be considered.

Whether or not the proposals

Standings Listed For Summer Baseball Loops

Parmer County Implement remained undefeated in Pony League competition Tuesday night with a 14-12 win over Herring Implement at Reeve Field.

Jackie Clark was the winning pitcher. The winners had made their record 2-0 last Saturday with a 10-8 win over Hub Grain, handing the latter team its first defeat. Santos Esquivel was the winner in that game.

In the Intermediate League, McCaslin Lumber took its third win of the year Monday, a 4-3 decision over Friona Drilling and Pump. Johnny McFarland picked up the win.

Star-Hurst scored its first win of the season Monday with a 16-7 victory over Reeve Chevrolet. Jackie Claborn pitched the win.

Friona State Bank is unbeaten in the Intermediate circuit. The bankers downed McCaslin Lumber last Friday, 9-1, with Johnny Barker getting the win.

On the same day, Friona Drilling and Pump beat Brookfield Drilling, 16-5, Randy Baize getting the decision in that one.

Friona Motors scored its second win in the Pee Wee League Tuesday, as Don Fortenberry pitched the Motormen to an 8-3 win over Parmer County Pump.

Ethridge-Spring Agency took its first win of the season at the expense of Friona Co-op, 10-1, with Kenneth Taylor getting the win.

Young Republicans Hear Frank Hinkson

The area Young Republicans met Monday night at the Oklahoma Lane Community Building. Between 85 and 100 people attended what was described as an "interesting and lively" meeting by Mrs. Les Bruns.

Frank Hinkson of Lazbuddie spoke to the group. In regard to numerous controversial bills coming before congress, Hinkson suggested "If we put men like Frank Ford, John Zahn, Jack Seale and Dennis Taylor

are accepted is up to the council as representatives of the city. I will try to pass on all the information on the subject which I am able to obtain.

I suggest residents with phones inform the council members of their views on co-operating with the phone company in the changes.

"It is not that I am afraid of your dog," said the wary passerby, "but if I lose the seat of my pants I will not be able to go to work."

in office, we won't have to worry how they'll vote, since they are definitely conservative."

Glen Lust opened the meeting with a prayer. Harold Wilson, chairman, led in the pledge of allegiance. Mrs. Glen Lust, secretary, gave a report of the last meeting.

Also present was S. D. Slemmons of Muleshoe, Republican candidate for Bailey County Judge.

Chairmen from each community were instructed to select committees to help carry out the work of the organization. Communities represented in addition to Oklahoma Lane were West Camp, Lazbuddie, Muleshoe and Farwell.

The group plans to meet on the second and fourth Mondays each month. The next meeting will be June 25 in Muleshoe.

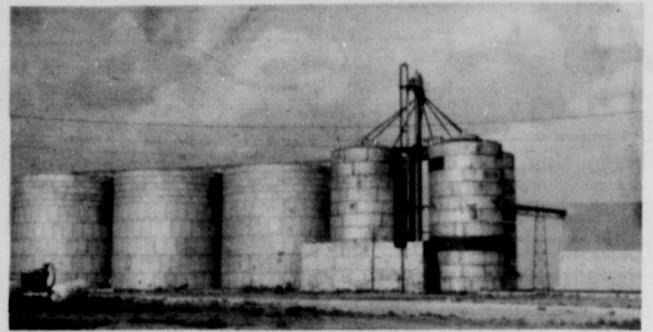

Mrs. Bruns pointed out that there is to be a leadership training meeting in Amarillo June 27, for all county chairmen, vice chairmen, candidates and working Republicans. The meeting will be at the First State Bank, Wolflin Village Shopping Center, from 7:30 to 9 p.m.

Peter O'Donnell, Jr., state campaign manager for Republican gubernatorial candidate Jack Cox, will be a speaker.

Survey was conducted by the Audits and Surveys Company in consultation with the Advertising Research Foundation and financed by six major Canadian newsprint manufacturers comprising the Newsprint Information Committee of ANPA. There were 4,826 interviews with individuals 15 years of age and older, representing 2,449 households drawn from 622 sampling points.

MRS. GUY LYNN WELCH

Robbie Boggess-Guy Welch Exchange Wedding Vows

Miss Robbie Boggess, daughter of Mr. and Mrs. Eugene Boggess of Friona, and Guy Lynn Welch, son of Mr. and Mrs. Louie Welch of 531 Azaleadell, Houston, exchanged wedding vows in a candle light ceremony June 1 at 7:30 p. m. at the Sixth Street Church of Christ.

Stanley Lockhart of San Angelo officiated at the double ring ceremony before an arrangement of tapered and tree candelabra holding white tapers accented with a background of tropical fern and palms.

Guests were registered by Charlotte Loveless, Olton, and Judy Ogletree of Lubbock. Candle lighters were Joe

Boggess, brother of the bride, and Gil Welch, brother of the bridegroom.

A chorus group from Abilene Christian College, Kay Struve, Mary Alice Duncan, Ann Brazzell, Judy Ellison, Judy Kay Hill, Roger Hall, Pete Neal, Glen Hurd, Danny Fry and Glenn Peters, sang "Because," "Through The Years," "True Love," and "My Own True Love," and the traditional wedding march. They also accompanied Glen Hurd of Houston as he sang "The Twelfth of Never," and Mrs. Kirby Williams, singing "Walk Hand in Hand."

The bride's formal dress of silk organza featured a circlet neckline and elbow length sleeves. The smoothly flared skirt and bodice were accented with imported Swiss lace and seed pearls. Her veil of imported illusion fell from a tiara of pearls. She carried a bouquet of white orchids and stephanotis that encased a miniature ivory Bible that the bridegroom's mother carried at her wedding. Her wedding band had a small piece of gold melted into it that was taken from the wedding band of the groom's paternal great grandmother at her marriage in 1884.

Miss Mikie Welch, cousin of the bride, served as maid of honor and Mrs. Kirby Williams of Anton was matron of honor. Bridesmaids were Nan Lillard, Friona; Charla Granbery, Olton and Ellen Jones of Olton. They wore floor length dresses of orchid crystalline peau de sole with bell skirts and round necklines. Their matching pill-box hats were accented with small purple flowers. Each carried a bouquet of purple and orchid roses and asters. Tina Welch, sister of the bridegroom, was

dressed identical to the other attendants and carried a small nose-gay.

Best man was Gary Welch, twin brother of the bridegroom. Groomsmen were Phillip Bates, Friona; Johnny Lechner, Vancouver, Wash.; Charles Chesler, Houston and Darwin Arney of Houston. Bill King, Wallace Rutland and Marvin Burgess all of Houston served as ushers. Shannon Welch, brother of the groom, was junior groomsmen.

The Friona Club House was the scene for a reception honoring Mr. and Mrs. Welch following the ceremony. A three tiered wedding cake with Grecian dividers and decorated with white and gold roses centered the serving table laid with a white cloth featuring a ruffled skirt. An arrangement of purple and orchid flowers was placed at one end of the table. Mrs. Jerry White of Lubbock presided at the punch bowl and Mrs. Don Reeve of Amarillo, served the cake. About 150 guests attended.

For a wedding trip to Acapulco, Mexico, the bride chose to wear a pink coral knit suit with matching accessories and a white orchid corsage.

Mrs. Welch is a Friona High School graduate and is attending Abilene Christian College where she is a member of Kappa Kappa Gamma. She will receive a B. S. degree in Education in August, and will teach in the Abilene Public Schools this fall.

Mr. Welch graduated from Reagan High School of Houston and is now attending A. C. C. in Abilene. He is a member of Frater Sodalis Social Club.

After June 7, the couple will live at 625B E. N. 18th St., Abilene.

Shower Is Courtesy To Miss Jere Buske

A miscellaneous shower was a courtesy given Miss Jere Buske, bride-elect of Dale Smith, Saturday in the Fellowship Hall of the First Baptist Church.

Guests calling from three to five were registered by Miss Kay Johnson.

Miss Janet Smith, pianist, played soft music for the occasion.

Miss Lois Moyer presided at the refreshment table laid with an imported white cloth and centered with an arrangement of delphinium and chrysanthemums.

Hostesses were Mesdames Clyde Sherrlieb of Hereford, Frank Spring, U. S. Akens, Ross Terry, Wilburn Carlton, Eugene Ellis, Royce Martin, Truitt Pool, T. E. Wood, Charles Allen, Clyde Weatherly, O. B. Moyer, Bill Baxter and Roy V. Miller Sr.

Guest list included Mesdames R. E. Snead, Dewey Price, Doyce Barnett, C. S. Crow, Cecil Bass, G. B. Buske and Lila Gay, Andy Hurst, J. L. Smith, Jack Moseley, Phillip Weatherly, Jake Lamb, Paul Elton, William Beene, Calvin Talley, J. L. Pearson, Dalton Caffey, Anna Smith, Keith Schmidt, Mae Magness, Wesley Foster, Ralph Smith, Janet and Judy, John Wright, and Gerald Wright.

Also Mesdames J. F. Buske, Charlie Turner, David Carson, Gladys Abbott, Robert Rudd, C. L. Vestal, Bill Bailey, Bill Turner, Hershel Johnson and Kay, C. W. Wright and Janice, Bea Montgomery, Hoyt Smith, Ernest Anthony, Jean K. Anthony, Luther Shelton, R. W. Fanning, George Anderson, Frances Howard, Josh Howard, Mark Nichols and Johnny Mars. Also Mesdames J. C. Lane, Billy Dean Baxter, N. E. Wood, Earnest England, A. W. Anthony Jr., Estis Bass, George Taylor and Suzanne, Raymond Euler, Larry Fairchild, J. D. Sanders, Mike Pavalus, J. E. Knight, Mary and Martha, Clyde Hays, Henry Lewis, L. W. Loafman, Vernon Roberts and Mary Ann, Jim McLean and Jimette

and John L. Ray. Also Mesdames Bill Burton, Georgia Fields and Donna, C. W. Dixon, Spencer Hough and Patsy, Jim Maynard, Edgar Carney, Dorothy Hough and Sally, John Burrow and LaVoyce, Frank Truitt, Ernest Osborn, W. D. Buske, Lydia and Denise, Hop Lewis and Jo Ann, Ralph Taylor, John Frazier and Cheryl, Ila Daniel, Earl Drake, Harry Hamilton and Helen, Charles Russell, E. R. Day.

Also Mesdames Wright Williams, Florence Buske, C. R. Buske, Lewis Smith, W. F. Buske, Dan Laceywell, David Smith and Misses Adabath Akens, Mary Ann Boggess, Ann Baxter, Adelle Smith, and Karen Turner.

Coffee Honors Miss Esquivel

Miss Hilda Esquivel was guest of honor at a surprise coffee and party Tuesday at 3 p. m. in the home of Mrs. Eugene Boggess.

Hostesses were Mesdames Larry Fairchild, Eugene Bandy, Burke Hand and Ralph Reed.

Hostesses were Mesdames Larry Fairchild, Eugene Bandy, Burke Hand and Ralph Reed.

Following a presentation of gifts to Hilda, guests were served coffee, cold drinks and assorted cookies.

Attending were Mesdames Nelson Welch, Mikie and Monte, Ralph Robinson, Lucy Welch, J. M. Watson, L. B. McClain, Steve Struve and Kay, Raymond Hughes, Johnny Hand and Westlie, David Carson, Grady Nelson, Bill Woolly, C. L. Lillard, Ancel Renner, David Grimsley, John Hays and Truett Johnson.

Sending gifts were Mesdames Jimmy Buckley and Janet, Ella Faye Holcomb, R. L. Fleming, Louis Welch and Holly, Jack London, Cotton Renner, Otis Neel and Kay, R. L. Bates and Nora Welch.

Also Mesdames Rene Snead, Ernest England, Rex Blackburn, Ethel Adams, Ed Boggess, Charles Sutterfield, James Procter, Harold Lillard, John Blackburn, Orval Blake, Elvin Wilson and Leonard Nettles and Misses Carol and Sheila Struve and Charlotte Nettles.

MRS. JAMES MICHAEL DAVIS

Barnett-Davis Married In Double Ring Ceremony

Miss Judy Ann Barnett became the bride of James Michael Davis May 31, at 7:30 p. m. in the Sixth Street Church of Christ in Friona, Gerald Gafford of Fort Worth read the double ring ceremony as the couple stood before background of greenery and floral arrangements.

Parents of the bride and bridegroom are Mr. and Mrs. Fern Barnett, Friona and Mr. and Mrs. J. W. Davis of Weatherford, Texas.

A chorus, composed of mem-

bers of the Lubbock Church of Christ Bible Choir, and Doug Pummill of Dallas, soloist, presented nuptial selections including, "Clothes of Heaven," "Because," "Wedding March" and "Wedding Prayer." Lawrence Smith of Lubbock read the poem, "How Do I Love Thee."

Escorted to the altar and given in marriage by her father, the bride wore a floor length gown of white silk organza and white Chantilly lace over cloud mist taffeta. Tiny covered buttons fastened the back of a lace bodice featuring a scalloped Sabrina neckline and long fitted sleeves with petal points over the hands. The belted skirt was fashioned with a flat front panel and unpressed pleats at the sides and back. The skirt back was overlaid with lace and flowed into a Spanish Court train. Her tiered veil of Swiss silk illusion fell from a crown of seed pearls, and she carried a bouquet of Cattleya orchids, English ivy and cascades of flowerettes signed around a crystal hurricane lamp.

Miss Betty Barnett was her sister's maid of honor and bridesmaids were Mrs. Wesley Barnett, Friona; Carolyn Murphy, Snyder; Carol Ann Hester, Brownfield; Lila Gay Buske, Friona; Sally Roberts, Dallas and Beverly Barnett, Hereford, served as junior bridesmaid. The attendants wore identical street length dresses of petal pink organza over net and taffeta, fashioned with full skirts, softly draped midriffs and bodices of white lace over pink organza and tiny rolled shoulder straps. Brief butterfly jackets of organza, tied in the back with tiny bows, completed the costumes. They carried cascade arrangements of Frenched white carnations,

and satin leaves tied with bridal satin ribbons.

Jerry Don Webb of Lubbock was best man. Groomsmen were Jimmy White, Weatherford; Raymond Schoenke, Weatherford; Scotty Ramey, Alford; Wesley Barnett, brother of the bride, Friona; Harold Watters, Bogata, Tex. and Mark Davis, Weatherford, brother of the groom, was junior groomsmen.

Parents of the bride honored the couple with a reception in their home following the ceremony. Guests were registered by Mrs. Orval Blake, Mrs. L. B. Barnett, Hereford and Mrs. George Brock, Lubbock presided at the refreshment table laid with white net over satin. The centerpiece was an arrangement of white stock and white roses. The all white decorated four tiered wedding cake was served with pink punch and mints.

Other members of the household party were Mesdames Dick Rocky, Friona; Curtis Johnson, Lubbock; Ralph Price, Black; Otey Hinds, Black; Ellis Tatum, Black; Gayle Webb, Lubbock, and Miss Dorothy Hobson of Wharton, Tex.

For a wedding trip to New Mexico the bride wore a two piece suit of imported raw silk in champagne beige with matching accessories. The orchid from her bouquet was her corsage.

Mrs. Davis is a graduate from Friona High School and received her BS degree in Clothing and Textiles from Texas Tech this spring. She is a member of the Home Economics Club and the Student Education Association. Davis is a senior advertising major at Texas Tech and is a member of Alpha Delta Sigma advertising fraternity.

The couple will be at home at 2605 22nd Street, Lubbock.

Lullaby Shower Feted Mrs. Hough

Mrs. Charles Hough was honored with a Lullaby shower Friday in the home of Mrs. C. W. Dixon. Assisting Mrs. Dixon with hostess duties were Mesdames S. E. Beaton, L. R. Dillger, Earl Drake, Roy Miller, Truett Pool, Jay Sanders and M. J. Stacy.

Hostesses presented the honoree, Mrs. Wesley Hardesty and Mrs. Spencer Hough with corsages fashioned of pink ribbons centered with blue baby toys.

Cake squares, decorated in nursery motif, and punch were served to guests calling from 3 to 5 p. m.

Attending and sending gifts were Mesdames J. W. Baxter, G. B. Buske, Jim Roy Clements and Joan, Jim Carlson, Buster Davis, O. B. Moyer and Lois, George Taylor and Suzanne, L. R. White, Larry Fairchild, Jerry London and M'Lyndia, Philip Weatherly and Park, Harry Hamilton and Helen, Ray Landrum, M. C. Osborn, Bomar Stacy and Kelly, Elmer Euler, Hubert Reeves, Leonard Haws and Misses Mary Ann Stacy and Patsy Hough.

Also Mesdames Charles Allen, W. G. Burton, Ernest England, Ella Faye Holcomb, Dorothy Hough and Sally, H. T. Magness, L. D. Pope, Bill Sheehan, John Shelton, Joe Talley, D. L. Carmichael, Leon Massey, Lloyd Prewett, Dewey Price, Veldon Carroll, Joe Landrum, R. J. Renner Jr., Lee Renner, Dewain Menefee and Jimmy White.

PORCH LIVING—Reversible cushions covered with a colorful cotton fabric help give life to these versatile pieces of porch furniture by Ashcraft.

Shower Feted Miss Boggess

Miss Robbie Boggess was feted with a lingerie shower at a coffee Friday morning in the home of Mrs. Larry Fairchild, Mrs. J. W. Baxter II was co-hostess.

The honoree was guided on a treasure hunt before receiving an array of lovely gifts.

Sweet rolls and coffee were served from a table centered with an arrangement made from a sprayed tumble weed decorated with miniature lingerie.

Attending were Mrs. Eugene Boggess, Mrs. Johnny Hand, Mrs. Philip Weatherly, Mrs. Jon Mack Roden, Mrs. Leon Massey, Nan Lillard, Mikie Welch, Mrs. Jerry London and the guest of honor.

Mrs. Anderson Hosts Class

Mrs. Rosa Anderson was hostess to members of the Mary Dorcas Sunday School Class Saturday, and also presented a Bible lesson from the 17th chapter of the book Matthew.

The meeting opened with a prayer given by Mrs. Julia Lloyd. Following a business session, Mrs. Bulah Massey said a closing prayer.

Mrs. Anderson served pie, cake, ice cream, tea and coffee to four members and Mrs. Lucy Jones, class teacher.

Next meeting will be in the home of Mrs. Alpha Baker.

Baby Girl Born To Keith Brocks

Susan Rene is the name of the new baby girl born to Mr. and Mrs. Keith Brock May 29, 1962, at 6:15 p. m. She weighed 9 lbs. and 1/2 oz.

The baby has an older brother, Phil, and her grandparents are Mr. and Mrs. G. H. Brock, and Mr. and Mrs. John R. Bizzell of Lamesa.

Mr. and Mrs. A. H. Hadley of Friona are announcing the approaching marriage of their daughter, Mary Ellen, to Jerald Dickey, son of Mr. and Mrs. J. E. Dickey of O'Donnell, Texas. The couple will exchange wedding vows June 8 at 7:30 p. m.

Wedding Ceremony Unites Miss Maffei-John Burrow

Miss Carla Ann Maffei, daughter of Mr. and Mrs. H. C. Maffei of El Paso, and John C. Burrow, son of Mr. and Mrs. John Burrow, Friona, were united in marriage June 1 at 5:30 p. m. in St. Matthew The Evangelist Catholic Church in El Paso with the Rev. Daniel Alderete officiating.

Given in marriage by her father, the bride wore a white crystalline gown topped with a Chantilly lace jacket. She wore a veil of silk illusion and carried a bouquet of white carnations and a crystal rosary. A reception was held at Phi Kappa Tau fraternity house, Texas Western College after the ceremony.

Out-of-town guests were the bridegroom's uncle and aunt, Mr. and Mrs. Victor T. Patterson of Odessa; a cousin, Bruce E. Patterson and family of Midland; an aunt, Mrs. Lillian Turman, Rankin, Tex. Also the bride's sister, Mrs. Robert J. Wade, Salt Lake City and her grandmother, Mrs. Kate Maffei, Kimmerer, Wyo. Special guests were Mr. and Mrs. John Burrow and LaVoyce of Friona.

The couple will make their home in El Paso.

Don't pull hard enough to break the rope --Portuguese MacGee and Kay.

Kay Neel Observed Birthday

The home of Mrs. Larry Fairchild was the scene for a surprise birthday party honoring Kay Neel Monday evening. Kay was observing her sixteenth birthday.

The beginning of festivities was a hamburger supper in the backyard of the Fairchild home. Gifts were presented to the honoree and a birthday cake made by the hostess was served. The heart shaped cake was decorated with roses and the letters sixteen, using pink and white colors.

Attending these events and remaining for a slumber party were Charlotte Nettles, Westlie Hand, Rose Ann Greeson, Pat Floyd, Diane Taylor, Dianne Jennings, Kay Coffey, Lois Moyer, Marca Lynn Massie, Fleta Smith, Carolyn Herring, Partia MacGee and Kay.

Blankenships Adopt Baby

Mr. and Mrs. J. C. Blankenship are the proud parents of a little baby daughter they adopted this week.

Her name is Jennifer Carol and she was born May 29, 1962, weighing seven pounds and fifteen ounces.

Grandparents are Mr. and Mrs. B. N. Koelzer, Friona and Mrs. Lola Blankenship of Hereford.

LOCALS

Mrs. Lloyd Rector, Sheri a Roy Don and Mrs. A. H. Boeman were in Oklahoma City three days this week for a business trip and to visit relatives.

Mr. and Mrs. W. O. Brown of Hayward, Calif. are planning to spend the summer visiting in the home of Mr. and Mrs. Matt Brown and children. They are the parents of Mr. Brown.

ALL PRESENT . . . The nine living children of Mrs. J. B. McFarland, six girls and three boys, were all present for dinner in their mother's home Sunday. Mrs. McFarland and Mrs. Claude Osborn are seated. Standing, from left to right, Mrs. Roy Clements, J. G. McFarland, Lonnie McFarland, R. H. McFarland, Mrs. Roy Lee Jones, Mrs. Sloan Osborn, Mrs. George Taylor and Lora Mae McFarland.

McFarland Family Has Get Together

Forty-five members of the McFarland family from Texas, New Mexico and South Dakota met at the home of Mrs. J. B. McFarland Sunday for a family get together.

A buffet dinner was served at noon. During the afternoon members of the group visited, made pictures and played games.

Out-of-state guests were Mr. and Mrs. Lonnie McFarland and daughter, Gail, of Pierre, South Dakota; Lora Mae McFarland of Clovis; Mr. and Mrs. R. H. McFarland, Kelly, Sarah Margaret and Mary Elsie of Tucumcari and Mrs. Roy Lee

Jones, Janet and Mike of Lovington.

Frionans present were Mr. and Mrs. Claude Osborn, Mr. and Mrs. Sloan Osborn and Rob; Mr. and Mrs. Roy Clements and Don; Mr. and Mrs. Jim Clements and Joss; Mr. and Mrs. J. G. McFarland, John Bill and David and Mr. and Mrs. George C. Taylor, Suzanne and Lisa.

Also Mr. and Mrs. Hollis Horton Jr., Kathy, Trip and Tracy; Dr. and Mrs. Lee Cranfill, Beth, Jay and Guy and Mr. and Mrs. Wesley Barnett, Chris and Kyle.

attending college in town has been enjoyable during recent weeks. However, as enrollment dates arrive for the different colleges in the area, fewer college students are to be seen each day.

Some are commuting to West Texas State at Canyon and others have gone to other towns for a session in their chosen schools. It seems that once a person really gets in the groove and finds his place in the right direction to a better education it is hard for him to get out of the habit.

Teachers in the local school must be setting a good example to students in all grades. It seems that more and more graduates of Friona High School are becoming interested in teaching on various levels.

Several ex-students will be entering classrooms as teachers for the first time this fall. Others are still in the process of preparing themselves to teach.

A number of teachers in the local school are also attending summer school at one place or another. Higher education seems to be a never ending process. All of this is good and as it should be, but what about those of us who are not engaged in any formal courses for more education?

Anyone who is interested in any subject at all can learn a lot more about it without ever entering a classroom. Those of us who have children could do some self improvement and at the same time set a desirable pattern for our children by devising some systematic plan for continuing our learning process in different fields.

Surely wheat harvest isn't very far away. Think the experts are predicting an earlier harvest in 1962 than usual. This is being attributed to the vast amount of wind we've had this spring.

Some wheat has been harvested in Castro County and possibly by the time you are reading this the first load of 1962 wheat will have been delivered at a local elevator.

Mr. and Mrs. Ralph Shirley and children, Rex and Tammy, will soon be moving into their new home on West Fifth Street. Think the new ranch style house is just a few doors west of the one they now occupy.

Making a move like this shouldn't prove too difficult and perhaps having a completely new home to move into is sufficient cause for anyone to overlook some of the more unpleasant aspects of moving day.

Several families would like to move to Friona if they could find suitable housing facilities. It seems that the supply will never catch up with the demand.

Seeing houses with "For Rent" signs hanging in windows on just about any street in town would certainly be a strange thing to see in Friona. This isn't true in a lot of West Texas towns.

Perhaps the interest that is being shown in water conservation will postpone the day of empty dwellings and business buildings in our town.

It is going to be real interesting to watch development of water conservation projects all (Continued on page 6)

Principal topic of conversation just about anywhere Frionans get together right now is ball playing. If those in hearing distance don't have sons interested in Little League, some member of the family is participating in inter-mediate, Pony League, or the Irrigation League.

Men and women alike discuss the pros and cons of the game they last saw and the abilities of the various players. Most conversations begin or end with "at the ball game."

This is indicative of the trend all sports take sooner or later. First the children get interested then the parents develop an interest in the game.

Surely some Friona players will one day be in the baseball hall of fame.

Old Man Weather just about outdid himself in providing a wonderful setting for the annual Friona Wheat Growers barbecue Tuesday evening. About an hour before serving was scheduled to begin, the wind was blowing and some dust was picking up.

This came to a halt 15 or 20 minutes before serving began and for the rest of the evening we just couldn't have had prettier weather. Visiting with persons I don't see real often was a pleasure and every-

one seemed to be enjoying the pleasantness of good food, enjoyable dining companions and beautiful West Texas weather. Seeing Frionans who are

Council Rejects--
A payment of \$13,500 was made May 21 to Harold Joe Wells as a complement to \$1,500 escrow amount previously paid on block 54 of the Original Township. This completed payment on the City Maintenance shed and future well site. A \$450 payment was made to Sam Aldridge on May 24 to cover payment on lots seven through 12, block 55, Original Township.

Records for the month of May show that 24,286,000 gallons of water were pumped, for an average of 783,419 gallons per day. Water sales accounted for 17,633,000 gallons to indicate an approximate 73 per cent efficiency in the water distribution system.

Two days were spent on repair of water meters. Much time was spent in car cleaning and preparation of both water plants, pending inspection by state health authorities.

The city was host for the Panhandle Water-Sewage and Industrial Water Association meeting at the IOOF Lodge Hall the evening of May 10.

Approximately 18 miles of alleyways and 10 miles of streets were graded during the month, and approximately six tons of gravel was spread on tar-bleeding streets, principally Grand and 6th Streets.

FOR SALE: 5 Star MM tractor with lister, planter, cultivator. Excellent condition. See at Bainum Butane. 20-tfnc

Three blocks of Main Street were sealcoated by the State Highway Department May 30. Approximately 20 potholes were patched on side streets adjacent to Main.

The sanitation department began spraying trash barrels with malathion fly control spray May 7. Andy Hensley, sanitation employee, was on convalescent leave for five days May 15-20, with a strained back.

A total of 24 arrests were made during May by the Police Department, 21 for traffic violations, two for vagrancy and investigation and one for drunkenness.

Two vehicle accidents were investigated, with no injuries reported, although there was \$400 in property damage. Two cases of vandalism were reported.

Only one fire call was made during the month, an automobile outside the city limits, for an estimated loss of \$150. The new siren at the west water plant was put into service May 10.

Records show that approximately 2,808,942 gallons of sewage were pumped during May, averaging 93,631 gallons per day.

Due to unseasonal warm weather, much time was spent watering both the City Park and Cemetery. With only one set of irrigational pipes, coordination of usage and movement to and from the park-cemetery was required.

Next Council meeting is scheduled for July 9.

Council Rejects - Three blocks of Main Street were sealcoated by the State Highway Department May 30. Approximately 20 potholes were patched on side streets adjacent to Main.
The sanitation department began spraying trash barrels with malathion fly control spray May 7. Andy Hensley, sanitation employee, was on convalescent leave for five days May 15-20, with a strained back.
A total of 24 arrests were made during May by the Police Department, 21 for traffic violations, two for vagrancy and investigation and one for drunkenness.
Two vehicle accidents were investigated, with no injuries reported, although there was \$400 in property damage. Two cases of vandalism were reported.
Only one fire call was made during the month, an automobile outside the city limits, for an estimated loss of \$150. The new siren at the west water park was put into service May 10.
Records show that approximately 2,808,942 gallons of sewage were pumped during May, averaging 93,631 gallons per day.
Due to unseasonal warm weather, much time was spent watering both the City Park and Cemetery. With only one set of irrigational pipes, coordination of usage and movement to and from the park-cemetery was required.
Next Council meeting is scheduled for July 9.

Records for the month of May show that 24,286,000 gallons of water were pumped, for an average of 783,419 gallons per day. Water sales accounted for 17,633,000 gallons to indicate an approximate 73 per cent efficiency in the water distribution system.
Two days were spent on repair of water meters. Much time was spent in car cleaning and preparation of both water plants, pending inspection by state health authorities.
The city was host for the Panhandle Water-Sewage and Industrial Water Association meeting at the IOOF Lodge Hall the evening of May 10.
Approximately 18 miles of alleyways and 10 miles of streets were graded during the month, and approximately six tons of gravel was spread on tar-bleeding streets, principally Grand and 6th Streets.

LOCALS

Visitors in the home of Mr. and Mrs. O. F. Lange this week are Mr. and Mrs. K. A. Wolf of San Antonio and Mr. and Mrs. Sonny Sabrino and children of Brownsville. Mrs. Wolf is Mr. Lang's sister and Mrs. Sabrino is his niece.

Mr. and Mrs. H. H. Wine-miller from Bucyrus, Ohio were recent guests of Mrs. Pearl Kinsley. They are her niece and nephew.

In & Around--

over West Texas. We will see much more of this in the future than we have in the past. In all probability it will not be very many years until just about any farmer who enjoys fishing will be able to have his own private pond.

There is no failure until you fail to keep trying.

While we're on the baseball subject, Jerry Hinkle returned home from one game with a jacket that doesn't belong to him. Someone left the jacket at the ball park and Jerry picked it up.

If the owner will contact Jerry at Friona State Bank, he can have it back.

Buske Guests

Weekend guests in the homes of Mr. and Mrs. G. B. Buske, Lila Gay and Kim and Mrs. Florence Buske were Mr. and Mrs. O. W. Nichols and Sondra and Mr. and Mrs. Gary Nichols and Brent of Klamath Falls, Oregon.

Also Mr. and Mrs. M. D. Nichols, Sharon and Dean of Happy, Mr. and Mrs. J. B. Buske and Darrell and Mr. and Mrs. Philip Weatherly and Park of Friona and Mr. and Mrs. Charles Buske of Amarillo.

There are no strings on an independent insurance agent

Take a good, fresh look at the man from whom you buy insurance for your car or home. Is he free to put your interests before those of an insurance company? He is—if he's an independent insurance agent.

An independent agent represents not one, but several companies. So he's free to select the best policies for your individual situation. If you have a loss, he's

free to represent your interests first—to make sure that you're paid quickly, fairly.

The Big Difference in insurance is the continuing, personal attention of an independent insurance agent!

For insurance tailored to your needs, stop in to see us. As professional, independent insurance agents, we're pledged to serve you first!

DOZING DRIVERS will get a jolt out of a new gimmick designed to confine their sleeping to the bedroom. A blinking dashboard light comes on periodically to check the alertness of the driver. He can turn it off by tapping the horn ring. But if he doesn't, the unit makes its point by: 1-blowing the horn; 2-jolting the car by turning the ignition off and on; 3-all else failing, cutting the engine.

Something To Think About

6th. Street Church of Christ
Box 515 -- Friona, Texas

We hear a lot about faith in God but see so little proof of it that a real stirring example of genuine faith is refreshing. A father once gave his little boy a half dollar and told him he might use it any way he wanted to. Later he asked "Did you get security?" the father asked. "Yes, sir!" said the boy. "I gave it to a poor beggar who was hungry." "Oh, how foolish of you. You will never get it back!" said the father. "But father, I have the best security; for the Bible says: 'he that giveth to the poor lendeth to the Lord.'" The father was so pleased that he gave the boy another half dollar. "There, father," said the boy, "you see, I told you I would get it back, only I didn't think it would be so soon."

Is it any wonder that the Lord said we should become like little children. When a little child is informed that "He that hath pity upon the poor lendeth to the Lord; and that which he hath given will be paid him again." (Prov. 19:17) he accepts it as sufficient security and never doubts for a moment that he will be blessed for his deed. This child like approach to all of God's promises and commands is perhaps one of the most urgent needs of all time. Do we really have faith in God? Think about it!

THE WAY OF THE BLC

All true Christians should be able to sing the old hymn, "There is Power in the Blood." And they will believe it. Satan would deny that there is any merit in the blood of Jesus. A multitude of liberals, modernists, and bloodless cults do deny it. Others who still hold to it in their creeds deny it in practice.

The blood of Christ means access to God. There are those, for example, who still pay lip service to the bleeding Saviour. But they do not accept His blood as the only means of access into God's presence, promises, and blessings. They suppose that holy men and women have accumulated an excess of merit which they can apply to the account of sinners, thus giving them access. By this teaching they have "trodden under foot the Son of God," "counting the blood of the covenant... an unholy thing," and "done despite unto the spirit of grace." Hebrews 10:29. So does everyone else who fails to appropriate the blood of Christ as our only means of access to God.

Friona

Baseballers Here Sunday

Friona's Irrigation Belt League baseball team split two games during the past week, winning at Silverton last Thursday, 8-7, and losing at Umberger on Sunday, 9-7.

Jimmy Collier was the winning pitcher for Friona last Thursday. S. D. Balze aided his team's cause by slamming a first-inning home run.

Friona hosts Plainview at Reeve Field Sunday afternoon beginning at 2:30 p.m. The public is invited to attend all games. Admission is free.

Frionans Attend Dallas Market

Mrs. W. A. Fulton, Mr. and Mrs. Andy Hurst, Jr., Mr. and Mrs. Henry Outland, and Mr. and Mrs. W. A. Foster were among the buyers and merchants attending the American Fashion Association Fall Market in Dallas, May 27 - June 1. Several thousand lines of women's and children's apparel, manufactured all over the United States, were exhibited in the Adolphus and Baker Hotels, and more than 5,000 buyers from throughout the Southwest were present, according to Sherman Bernon, president of the fashion association.

A greater crowd than usual attended the Fashion Clinic presented by the American Fashion Association on Sunday and Monday nights, and it was necessary for the association to schedule an additional performance in order to fill the demand for tickets. All the newest fashions, modeled by professional models, were shown on the runway, and the new fall fashions in coats, suits, dresses and sportswear were depicted. The "spare look," the "natural look" and the "relaxed look" were shown, along with a generous sampling of elegant and feminine fitted fashions. The colors and shapes for fall are wearable, individual, interesting, and buyers are finding a wealth of fashions from which to select their fall merchandise. Vivid colors, off-colors, interesting textures and fabrics include something for everybody's taste, for Fall '62.

Vernon Stewarts Have Daughter

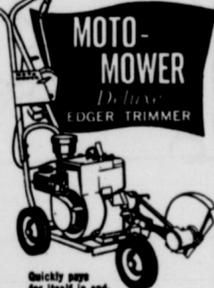

A baby girl was born to Mr. and Mrs. Vernon Stewart of Levelland May 29, 1962, at 5:53 p. m.

She weighed eight pounds and seven ounces and was named Misti Laine.

Grandparents are Mr. and Mrs. Reece Prichard of Anton and Mr. and Mrs. J. V. Stewart, Gorman.

The Stewarts are former residents of Friona.

Increase sorghum yields with
Monsanto Anhydrous Ammonia
from
RHEA GRAIN And FERTILIZER

Rt. 2 Friona Ph. Parmer 3196

Grain sorghum residue is low in nitrogen. Decomposition is slow if no nitrogen is added. That's why farmers in this area have been applying Monsanto Anhydrous Ammonia to their soil. Because anhydrous ammonia is a liquid when under pressure, you don't have to wait for granules to dissolve. Monsanto Anhydrous Ammonia starts right to work. You get more nitrogen (82.2%) per pound than from any other carrier. No money spent on bags or bagging costs—not to mention the handling problem. Applicator tanks are filled quickly. And Monsanto Anhydrous Ammonia resists leaching... remains "locked" in the soil to work when your crops need it most. Improves moisture efficiency even during drought periods. Just watch your check strip... you can see for yourself. Let us help you build your fertilizer program around Monsanto Anhydrous Ammonia for top sorghum yields.

IT IS DIFFICULT FOR AMERICANS TO BE ABLE TO SEE UNDER THE CLOAK OF RIGHTOUSNESS PUT ON BY THE COMMUNIST AND TO REALIZE HIS FINAL GOAL. IN THE DECEPTIVE USE OF SUPPORTING MANY THINGS DESIRED BY US ALL THE COMMUNIST IS ABLE TO GET UNKNOWING SUPPORT FOR HIS OWN AIMS.

THIS DOES NOT MEAN THAT THE COMMUNIST IS SMARTER THAN WE BUT HE SEEMS CERTAINLY MORE DEDICATED. PERHAPS THE AMERICAN NEEDS TO THINK MORE ABOUT WHAT HE HAS TO LOSE. TO SUPPORT MANY OF THE SAME THINGS AS THE COMMUNIST DOES, ON THE SURFACE, IS NOT TO BE A COMMUNIST.

ITS TERRIBLY IMPORTANT WE BE AS WELL INFORMED AS WE POSSIBLY CAN TO BE ABLE TO SEE FOR OURSELVES THE SECONDARY MOTIVES OF THESE PEOPLE. THE SUPPORT OF A MOVEMENT OF PEACE AND REPEAL THE DRAFT LAW SOUNDS AND IS A GREAT IDEA.

TO THE COMMUNIST THIS MEANS SLOWING DOWN OUR OWN NATIONAL DEFENSE EFFORT AND ALLOWING RUSSIA TO BECOME MILITARILY STRONGER THAN WE.

This Continuing Illustrated Series Is Intended To Tell The History, And The Purposes Of The Communist Party, Both Abroad And In The U.S.A. By Saving These Weekly Series A Family Will Accumulate Valuable Information For Future Knowledge By Both Child And Adult.

Farwell Grad Is Honored In Army Ceremony

FORT CHAFFEE, ARK. (AHTNC) -- Army 2d Lt. Irby D. Range, 23, son of Mr. and Mrs. John C. Range, Route 2, Farwell, Tex., recently was made an Honorary Kentuckian by the 100th Division, a Kentucky reserve unit on active duty at Fort Chaffee, Ark.

A citation signed by Kentucky Governor Bert T. Combs and division commander Maj. Gen. Dillman A. Rash, reads: "2d Lt. Irby D. Range having served with honor, distinction and devotion as a member of Kentucky's 100th Division, is hereby adopted as an honorary Kentuckian."

The lieutenant is a 1956 graduate of Farwell High School and a 1961 graduate of Texas Technological College. He is a member of Tau Beta Pi and Alpha Pi Mu fraternities and Scabard and Blade society.

A platoon leader in Company M of the division's 397th Regiment, he entered the Army in February 1961.

MARGARET MABRY
Margaret Ellen Mabry, daughter of Mr. and Mrs. James D. Mabry, Lazbuddie, was one of 130 graduates of Harding College at commencement exercises May 31. Miss Mabry received a B. A. degree in English. She was reporter for Tri-Kappa social club, and a member of the Fencing Club, European Mission Club and Student National Education Association. She was graduated from Friona High School in 1958.

Negroes Invited To Attend Bible School Classes

A Vacation Bible School for colored children will be held at the Calvary Baptist Church next week, June 11-15.

Classes will be held each night from 6 to 9 p. m. There will be classes for nursery age children (two and three year old), beginners (four and five years old), primary (six, seven and eight) and juniors (9-12 years old).

In addition to these classes, a "teen time" for colored teenagers is being planned. All who wish may attend.

Anyone needing a ride to church is requested to call Mrs. Isom Ainsley at 2861 or Mrs. Bill Sheehan at 4011.

Guests of Mr. and Mrs. R. E. Snead this week are Mrs. I. H. Gray of Sabine Pass and Mrs. Bobby Stokes and family of Port Arthur. Mrs. Gray is the mother of Mrs. Snead and Mrs. Stokes is her sister.

THOMAS SCALES

Scales Enlists In U. S. Navy

Thomas Clayton Scales, son of Mr. and Mrs. Charles Scales of Friona, enlisted in the United States Navy at Albuquerque, N. M. on May 31.

A 1962 graduate of Friona High School, Thomas will undergo recruit training at the U. S. Navy Training Center in San Diego, Calif.

He made application through the local recruiting station at Clovis, N. M. Thomas plans to enter the aviation field of the Navy.

Marriage Licenses Issued

May 25--Gerald Ray McDowell, Friona and Vera Fay Smith, Hereford.

May 28 -- Ronald Eugene Head, Cannon AFB and Carolyn Ruth Nixon, Portales, N.M.

May 31 -- Ayril Don Cross, Bellview, N.M. and Peggy White, Grady, N.M.

June 1 -- Tommy Earl Beal, Ft. Worth and Evelyn Elizabeth Lingnau, Ft. Worth.

June 4 -- Franklin Edward Ready, Friona and Colleen Williams, Covina, Calif.

Ladies Slate Letter Party

A letter-writing party is scheduled at the Joe Briggs residence in Lazbuddie Thursday afternoon at 2:30.

Ladies of the area are urged to attend, for the purpose of writing letters to congressmen concerning pending legislation.

We wish to join with many who are pleased to have the new Aztec in Friona. We are proud to have been chosen electrical contractors on the project.

May we extend our

Congratulations

Wilson Electric Service

Congratulations to AZTEC DRIVE INN

**John Allen
And Family
Return Home**

Mr. and Mrs. John Allen, Jr., former Friona residents who have been away for the past six years, have returned to Friona, where he will be available for plumbing and electric work.

He and his wife, the former Elsie Mingus, have five boys. The Allens have lived in Lermejo Park, N.M., for the past six years, where he was maintenance director for the 750,000-acre resort there.

"It was a hunting and fishing paradise. We had our own school there, but it only went to the eighth grade. So we had to make provisions for our boys to go to high school," Allen said.

**Thought For
Today**

The kingdom of heaven is like to a grain of mustard seed. (Matthew 13:31.)

PRAYER: Dear God our Father, may we be the sowers of Thy truth that we ought to be. Help us when we get discouraged. Forgive us for failing to sow. Give us the courage and strength we need to be Thy true witnesses. We pray in the name of our Lord and Saviour, Amen.

FRIONA

**On The
Move**

Mr. and Mrs. Aubrey Taylor from Roswell, N.M., have moved to 107 West 13th. He is employed by Country Club Gin.

Mr. and Mrs. Teddy Tucker from Pampa have moved to 105 West 12th. He is employed by Friona Battery & Electric.

Mr. and Mrs. Carlton Newell from Altus, Okla. have moved to 406 Prospect.

Mr. and Mrs. Edgar Carney have moved from 710 West 5th, to 1404 Euclid.

Mrs. Irene Wiley from Amarillo has moved back to her home located at 216 West 5th.

Rev. and Mrs. Wallace Kirby and family are moving from 803 Columbia to Quannah. Rev. and Mrs. Russell McAnally are moving here to replace Rev. Kirby.

Mr. and Mrs. Dally Howell are moving to Muleshoe from 1205 Main.

Mr. and Mrs. Wayne Hodgson moved from 405 Grand to 807 21st Street, Canyon.

Mrs. John Gaede visited ten days in Anderson, Ind. with her son and his family, Mr. and Mrs. Maurice Gaede and son, Stewart.

MAINTENANCE OFFICER . . . Army Reserve First Lieutenant James L. Bynum of Friona checks the rotary mechanism of an Army helicopter at the VIII U. S. Army Corps aviation detachment in Austin, where he is undergoing two weeks active duty training. Lt. Bynum, a teacher at Friona High School, graduated from McMurry College in 1955 with a Bachelor of Science degree. He is maintenance officer of the 1115th Transportation Company, USAR, Clovis, N.M. He and his wife have four children, David, 9; Barry, 7; Phil, 4; and Douglas, 2.

Old-time space man
Josh Perkins, a typical mountaineer, was hauled before a judge for making illicit mountain dew. "Joshua," the judge began, "m . . . m" are you the Joshua whom the scripture says commanded the sun to stand still?"
"Oh no, Your Honor," replied Joshua, "I'm the one who made the moon shine."

Recent guests in the home of Mrs. Lucy Welch were Mr. and Mrs. Joe Brown, Shelley, Allison and Leslie from Tulsa and Mr. and Mrs. Stanley Lockhart and daughters of San Angelo.

Dr. and Mrs. Loyd Shackelford and family have been vacationing the past two weeks. They made a tour of several southern states and spent several days in Florida.

Tramp: "The lady next door gave me some of her homemade pie. Could you give me something, too?"

Lady at door: "Yes, I'll give you a tablet for indigestion."

Local Women Bowlers Place In Tournament

Five local women bowlers who competed in the Women's International Bowling Congress tournament in Phoenix, Ariz., the week of April 9 were notified last week of their official placing.

The tournament was held at the Squaw Peak Lanes, Phoenix, Ariz.

In singles competition, where there were a total of 11,301 entries, Cherry Mingus was number 2,013. Also in singles, Joy Hall was 3,287 and Betty Renner 5,242.

Carlile Buys Lindsey Stock

The purchase of F. H. Lindsey's stock by Ray Carlile was revealed at the annual banquet of the Plains Farmers Gin in Summerfield last Saturday at the gin plant.

In doubles play, the twosome of Gertrude Renner and Betty Louise Rector placed number 2,415 out of 5,650 teams.

About 35 to 40 members were present for the meeting, Carlile, who is president of the company, has been in Summerfield for the past 18 months. During that time the elevator storage has been increased by 1,000 bushels.

For team honors, the Fleming and Son Gin entry placed 916th in a field of 2,642 entries.

Lindsey, who has operated several gins, is moving to Lubbock.

Sponsors of the bowlers in addition to Fleming and Son were Friona State Bank and Production Credit Association.

TOURNEY PLACERS . . . Five local women who placed in the Women's International Bowling Congress tourney recently in Phoenix, Ariz. are (1) Cherry Mingus, Joy Hall, Betty Louise Rector, Gertrude Renner and Betty Renner.

Robert Taylor Leans to Hobby Pleasing Palates

By JOSEPH FINNIGAN
United Press International
HOLLYWOOD (UPI)—Robert Taylor, a rugged man on and off screen, is one of Hollywood's best cooks, specializing in pies.
"Right now, I'm leaning towards pecan," he said. "They're easier. But I bake other kinds, like mince or apple."
"I've been cooking for as long as I've been in pictures," said Taylor, whose movie career is more than 25 years old. "I've got a heck of a cookbook collection, about 100 or 150. I took all the goodies out of each one and put them into a single book. I call

them mine.
"I've picked up some great recipes from friends and friends' cooks."
Taylor is proudest of his chicken a la king, potato salad and pecan pie.

Taylor doesn't mind giving out his pecan pie recipe. Start with a 9-inch pie crust and add the following ingredients:
1 cup of brown sugar, 1 generous cup of dark syrup, 1 tablespoon of flour, 1 quarter pound

of melted butter, ¼ teaspoon of salt and 1 teaspoon of vanilla extract.

"Combine all this and heat it right up to a boil," said Taylor. "Add very slowly to this mixture 3 beaten whole eggs and keep stirring all the time."

"When that's done, you add a good heaping cup of chopped pecans and pour it all into the pie shell. Bake at 425 degree for 10 minutes, reduce heat to 325 and finish baking at.

CUT OPERATING COSTS IN HALF with a JENSEN

Yes . . . it only costs about half as much to operate a JENSEN as it does other makes because all JENSEN systems are counter-balanced. This adds longer life to sub-surface equipment and saves on servicing too!

The JENSEN model pictured here is one of 17 sizes. Thus you can select the exact JENSEN to economically fit your well depth and water requirements.

Parmer County Voters Give Majority To Yarborough

Parmer County voters continued to differ from the statewide trend in last Saturday's Democratic runoff.

County voters gave the majority to Don Yarborough in the gubernatorial race, 535-450, although John Connally gained the nomination with a rather narrow victory statewide.

Parmer voters went for Marshall Formby in the first primary. He failed to make the runoff, placing fifth in a field of six.

In a real neck-and-neck race as far as the county was concerned, voters gave a two-vote majority to Woodrow Wilson Bean over Joe Pool in the Congressman-at-large race, 490-488. Pool won handily statewide.

The county gave overwhelming majorities to both candidates from Lubbock, Preston Smith in the lieutenant governor's race and Waggoner Carr for Attorney-General.

Carr, who likewise received the largest margin statewide

in the second primary, was given the largest margin of any candidate on the ballot by Parmer County voters. He polled 789 votes to 212 for Tom Reavley.

Smith, whose total margin for the state was a bit less, received a good majority here, 755 to 241 for James A. (Jimmy) Turman.

County voters also went with a winner in the race for State Representative, 91st District, Springlake's Bill Clayton received an even 600 votes, to

408 for B.M. Nelson of Dimmitt. The county went for Muleshoe's Bill Millen in the first primary, and had Clayton in second.

Boty Yarborough and Connally carried four boxes, Yarborough had the largest single majority, with a 172-59 margin in the Bovina box, Connally's largest margin came in the Friona box, 191-125. Connally had a 12-7 edge in absentee ballots.

Carr carried every precinct, as well as the absentee box. The Farwell precinct really went for the Lubbock Attorney in a big way, 163-3.

Smith carried every box except Precinct 7 (Rhea), where Turman had a 12-6 edge.

Bean won five of the eight boxes in his narrow lead from the county, with Friona, Farwell and Black going for the winner, Pool. To show the closeness of the vote in that race, both candidates received 10 absentee votes.

Clayton and Nelson split the

eight precinct boxes. Clayton winning the largest box, as well as the absentees.

Although the voting statewide was only about one-half as large as the first primary,

Parmer County voters turned out fairly good--with 1,014 casting their ballots, as compared with 1,789 for both parties in the first primary. Since those who voted in the Republican primary could not vote Saturday, the

turnout probably represented about one-half of the county's qualified voters.

Politicians now have a chance to catch their breath, before hitting the campaign trail for

the general election Nov. 6. Republicans, with Jack Cox as the candidate for governor, will make their first major campaign for governor since 1932.

Furniture Finishing Workshops Planned

"Do you have any old furniture that you want to refinish to look like new?" asks Miss Ettie Musil, County Home Demonstration Agent. If the old furniture is still in good condition, it can look like new for many more years. County-wide Refinishing Furniture Work-

shops are planned in each of the four Parmer County precincts for everyone. Men, women, and interested boys and girls are all invited to participate in the workshops. Schedule for the workshops are: Friday, June 8 at 2:00-5:00 in Hub Community Center

for Lazbuddie and Hub Communities, Tuesday, June 12 at 2:00-5:00 in American Legion Building in Bovina for Rhea and Bovina Communities, Wednesday, June 13 at 2:00-5:00 in Oklahoma Lane Community Center for Farwell, Lariat, Oklahoma Lane and Midway Communities, and Friday, June 15 at 2:00-5:00 in Black Community Center for Friona, Black, Northside and Lakeview Communities.

Eligible turkey producers will have an opportunity between June 18-22 to vote on the proposed turkey market order as announced by Secretary of Agriculture Orville L. Freeman, Growers who produced and marketed less than 3,600 pounds of turkey-liveweight -- in 1961, or producer-handlers who produce and handled not more than 100,000 pounds of turkey -- liveweight -- in their own handling facilities and who bought and sold not more than 5,000 pounds from or to other persons are not eligible to vote in the referendum.

Everyone should bring a picture frame, salad bowl, small stool or coffee table, or

any small wooden furniture or object to refinish during the workshop. Wait to remove varnish or sand wood at the workshop. To the workshops bring card tables, plenty of newspapers to protect the tables and floor, old paint brushes, pint size jars or cans, plenty of old nylon hose, old rubber gloves, fine sandpaper or garnite paper, fine 3 or 4 "O" steel wool, old rags, and denatured alcohol.

Marriage -- when a man gets hooked by his own line.

Screwworm Control Is Advancing

The screwworm control program, initial project of the newly organized Southwest Animal Health Research Foundation, is gaining momentum daily, according to Director John E. Hutchison, Texas Agricultural Extension Service.

Fast moving events of the past few weeks prompted C. G. Scruggs of Dallas, acting Foundation president, to describe the drive as "The biggest, most wide-spread and dramatic agricultural program Texas has seen." Already, more than half of the counties

in the state have organized committees, named officers, and are busy raising funds to finance the drive. Approximately half of the remaining counties have held initial planning meetings.

Vocational agriculture teachers and county agricultural agents have provided educational and organizational leadership on the county level. The Fast Texas area seems to be leading the rest of the state in this all-out effort to rid Texas of one of its most costly pests, Scruggs said.

U. S. News & World Report recalls that in 1958 Khrushchev announced a plan to increase farm output 70 per cent by 1965. Production in 1961 would have had to show a rise of 20 per cent if the schedule was met. Actually, production declined by 6 per cent in the

1958-61 period. Wise words from the past-- Thomas Jefferson once said: "I have never considered a difference of opinion in politics, in religion, in philosophy, as cause for withdrawing from a friend."

**Research Station
Tour Scheduled**

Initial plans in preparation for the third annual Flame Cultivation tours and demonstrations on August 10 at the High Plains Research Foundation were made recently by representatives of the Foundation, the Texas Butane Dealers Association & manufacturers of flame cultivation equipment.

Nation wide interest and attendance at the special Flame Cultivation Day is indicated. The public is invited to attend the tours.

A full day of activities were planned at the meeting. A press conference for agricultural editors & reporters was scheduled at the Foundation's new office building for Friday morning. The tours to view the research results on various crops were scheduled for 1:30 to 4:00 PM. Exhibits and demonstrations of the latest equipment will be the last stop of the 6 scheduled tours.

A conference on weed control through flame & other results will conclude the afternoon program at Halfway. The group preparing for the tour included Ted J. Parks of Austin, Public Relations Director for the Texas Butane Dealers Association; Fred Garrison, Plainview Garrison Oil Co., District Director for the Texas Butane Dealers Association; Jodie Howard, Lubbock Western Tank & Steel and AFCC; Bill Taylor, Jones Copeland, Bill Watson, B. T. Lusk, Gene Bumpus Co. & Goether Mfg. Co., Dr. Earl H. Collister, Director and C. H. Janeway, head of Public Relations of the High Plains Research Foundation.

Ralph T. Moore writes, in the Oregon Voter: "There has been much of pious pronouncement and noble platitude but little of real accomplishment in coping with our unemployment problem to date. This writer is convinced that this is because we are going at it from the wrong end by using government when we should be using American industry itself. We give exclusive attention to the drum-majorettes who lead the cheering when we should be developing the team that has to play the game, and upon whom the winning or losing exclusively depends. Our nation's growth has been best and strongest during periods of least governmental interference with business. Yet now we are staking our chances on the very government intervention that so hampered us at times in the past."

EDUCATION**

by
**James
E.
Edwards**

Is foot health
taught in the
schools?

No. There are exceptions but, generally speaking, the only mention of feet and shoes is in the health unit of the biology course. The discussion is brief and usually might just as well be left out entirely. For example one very popular textbook says "Shoes are very important to foot health. Shoes should not be too long, too short, too narrow or too wide." Next Subject.

Pages and pages are devoted to eyes and teeth because the authors of textbooks, like the general public, are eye conscious and tooth conscious but seem to be oblivious of the fact that 99% of our foot trouble is caused by ill-fitting shoes.

One notable exception to the lack of foot-health education was the project in the schools of Lorain, Ohio where each child in the elementary grades had his feet measured each year for 3 years. The first year 76.4% of the children were wearing ill-fitting shoes, the second year 71% and the third year 59%.

If, as medical authorities agree, ill fitting shoes cause the vast majority of foot trouble, the Lorain Schools seem to have discovered the way to eliminate the cause. Orthopedic Shoes Fitted To Your Doctor's Prescription

Legislation Permits Oil Crops On Diverted Acreage

Permission to grow oil seed crops on diverted wheat and feed grain acres became official this week with a report from the county ASC office.

The changes will permit farmers greater flexibility in using acreage diverted from the other grain crops under the 1962 programs. The changes are authorized by a recently enacted Public Law 87-451.

Flax, rapeseed and mustard seed have been added to the list of crops that may be grown on acres diverted from production of wheat and feed grains, following the required review of the current supply situation with respect to all of the crops eligible for consideration. Production of guar, sesame, safflower, sunflower, and castor beans on such acreage was already permitted.

The new law amends the Agricultural Act of 1961 by authorizing the Secretary of Agriculture to permit acreage diverted from wheat and feed grains to be utilized for annual non-supported field crops and flax when these crops are not in surplus supply and will not be in surplus supply if produced on the diverted acreage. No price support may be made available for production of any such designated crop on the

diverted acreage. The new law amends the Agricultural Act of 1961 by authorizing the Secretary of Agriculture to permit acreage diverted from wheat and feed grains to be utilized for annual non-supported field crops and flax when these crops are not in surplus supply and will not be in surplus supply if produced on the diverted acreage. No price support may be made available for production of any such designated crop on the diverted acreage.

The new law also empowers the Secretary, if further justified by the supply situation of a permitted crop, to establish a partial payment for that crop up to one-half the rate which would otherwise be applicable if the acreage was devoted to conservation uses.

Accordingly, a determination has been made to provide partial payment for 1962 on diverted acres planted to guar, sesame, sunflower and castor beans. These payments will be computed in the case of guar and sunflowers by taking 20 percent of the applicable commodity rate for minimum diversion for the farm.

The partial payment rates for castor beans and sesame will be computed by taking 30 percent and 40 percent, re-

spectively, of the minimum regular rate for the acreage involved.

Safflower, flax, rapeseed and mustard seed may be grown on diverted acres but no payment will be made. Flax produced on the diverted acres will not be eligible for price support, but any other flax on the farm may qualify for support.

The Department's revised regulations for administering the

amended Agricultural Act of 1961 will include the following provisions:

--Signup will not be reopened and previously stated intentions to divert may not now be increased.

--Producers may redesignate diverted acreage only for the production of one or more of the permitted crops. This re-

designated acreage may already be planted to the permitted crop. However, the producer will be required to pay the performance cost of any such redesignation.

--Permitted crops disposed of as a green manure, or destroyed by natural causes by a deadline date (not later than 30 days prior to the normal harvest date for the applicable per-

mitted crop as determined by the ASC State Committee) may be considered as a conserving use provided other conservation measures are carried out, if necessary, to protect the land throughout the 1962 crop season. The original program payment rate will be reestablished in such cases. If the permitted crop falls or is disposed of or not harvested after the dis-

posal date, no upward adjustment will be made in the program rate.

--If a producer elects to plant the entire diverted acreage to a permitted crop for which no payment will be made and an advance payment has been made, he will be required to refund the advance, but no interest would be charged.

--Participation under the new provisions shall not serve to extend the compliance deadline date for wheat, barley, corn or grain sorghum.

--Each producer who wishes to take advantage of these provisions should go to the ASCS County Office and request a change in his intentions not later than June 29.

USDA 1864-62

HD Agent's Notes

BY MISS ETTIE MUSIL

A few weeks ago I sent plant specimens of a diseased nandina and photinia to the state Plant Disease Lab in College Station. The C. C. Christians of Farwell had noticed both of these shrubs in poor condition.

The photinia seemed to be losing leaves. Those that were left had white to grayish growth covering the upper surface of the leaves. New growth had lost its vigor and remained small.

According to Dr. Harlan E. Smith, Extension Plant Pathologist, the photinia is diseased with powdery mildew. It is quite common on crampewyrtle, zinnia, phlox, and roses. This disease begins in the spring and continues throughout the year.

Powdery mildew can be treated by dusting plants with sulfur at first appearance of the mildew or spray with wettable sulfur. Repeat as necessary. Karathane or Acti-dione PM may also be used. However, do not dust roses with sulfur in hot weather because the leaves will be burned.

Mr. Christian's nandina leaves also were analyzed and diagnosed as a ring spot virus disease and 2,4-D or 2,4-5T herbicide damage. Others of you may have this damage on your plants at this time of year.

The leaves of the nandina with the 2,4-D or 2,4-5T damage appear mottled, shriveled, and deformed. Any plants or shrubs can be damaged by this weed killing spray. The plants usually outgrow the herbicide damage, but these leaves remain deformed. Otherwise, there is no treatment for this

damage.

If you use 2,4-D or 2,4-5T weed killer sprays be extremely careful. Spray only on calm days so that the fine mist or spray does not drift too far to your neighboring plants and trees.

It is known that these herbicide spray mists have drifted 25 miles. If you are spot killing weeds in small areas try using the mop method. Wet a rag with the herbicide and press the weed with the rag.

Dr. Smith mentioned that there is no control for the ring spot virus disease. The leaves on the nandina were light green or yellow with irregular rings occurring in the leaves. Plants tend to be smaller and low in vigor.

Since there is no control these diseased plants should be destroyed.

Many diseases on shrubs and flowers can be treated if we find it in time. For instance the ring spot virus disease on the nandina appeared like rust. I have noticed many, many rose bushes suffering seriously with black spot disease.

In talking with homemakers as we notice the black spot, many have commented, "Oh, I thought that was caused by the weather". Black spot is a serious rose disease that can cause a bush to die.

Large, roundish, black spots with irregular or frayed margins occur on the leaves of the rose bush. The spots may occur on either or both leaf surfaces, and frequently develop unnoticed on the soft twigs and branches. When severely infected, the leaves may turn

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL * OUR STRENGTH

The term "grassed waterways" is getting to be a common one to the farmers of the Farmer County Soil Conservation District. Waterways are the best way and in some cases the only way to solve some of the difficult drainage problems.

Prior to the time when the plow came to the High Plains of Texas and all the land was in good native grass, drainage was no problem. Rain falling on the grassland gradually moved to natural draws and playa lakes causing no damage.

The story today is different. With most of the land plowed, there is very little material to

slow the water down so it can soak in the ground; consequently some of our best land is being scoured and gullied.

yellow and drop off. This weakens plants and makes them more susceptible to die-back disease and winter injury. It also results in smaller flowers that are weak in color and fragrance.

One of the best preventive treatments is the sulfur-copper dust mixture, applied as for powdery mildew. Keep the plants well dusted during wet weather. Do not wet the leaves late in the evening so that the leaves cannot dry before dark.

If the disease becomes established spraying once a week with maneb (Manzate or Dithane M-22) or Phaltan is effective if care is taken to coat both sides of the leaves. Sulfur compounds are apt to cause burn in hot weather. Provide a good mulch in the spring to help control and prevent the disease in some cases.

Cattle, Sheep Raisers Lead Nation Production

Texas leads all other states in the liveweight production of cattle, calves and sheep, but ranks 15th in hog production. Iowa is the top hog producing state by a wide margin.

The total number of pounds of cattle and calves produced on Texas farms during 1961 reached 2.8 billion pounds, reports Ed Uvacek, extension livestock marketing specialist. During the same period, sheep and lamb production amounted to 195 million pounds while 288 million pounds of hogs were produced, he says.

Thus, Uvacek points out, Texas production last year of cattle and calves represented almost 10 percent of the nation's total output. Though the number of sheep and lambs produced in

Texas far exceeds the next ranking state, the percentage of liveweight production amounted to only about 12 percent of the nation's total. This, Uvacek says, is due to the fact that Texans are not as heavily in the lamb feeding business as are operators in California and Colorado.

Liveweight production for the nation last year was 29,688 million pounds of cattle and calves; 20,216 million pounds of hogs and 1,688 million pounds of sheep and lambs.

Uvacek explains liveweight production as the total number of pounds produced on farms. This includes the weight gained by animals on hand, bought or born during the year.

"YES SIR, THATS OUR BABY."

Thank You

IT IS WITH DEEPEST GRATITUDE THAT I USE THIS OPPORTUNITY TO PERSONALLY THANK EACH AND EVERY ONE OF YOU WHO SUPPORTED ME IN SATURDAY'S ELECTION. THE CONFIDENCE YOU HAVE PLACED IN ME WILL ALWAYS BE HELD IN SACRED TRUST. YOUR CONTINUED SUPPORT THIS FALL IS EARNESTLY SOLICITED AND I PROMISE TO REPRESENT YOU WITH UNENDING VIGOR, HONESTY AND INTEGRITY AS YOUR REPRESENTATIVE. AGAIN LET ME SAY IN ALL SINCERITY AND HUMILITY THANK YOU FOR YOUR SUPPORT.

BUILDING FOR THE FUTURE

Another link has been forced in the Sherley Anderson Elevator group on the high plains. The Crowe - Gulde Cement Co. is proud to have supplied the concrete for this modern grain elevator in the Lazbuddie community. Demonstrating our ability to deliver concrete in any quantity and in any locality on the Golden Spread. If you are planning to build anything, there is a Crowe-Gulde product for the job.

CROWE-GULDE CEMENT CO - Amarillo

Screwworm Production Facilities Dedicated

Are they really, screwworms? The only sure way to identify a screwworm is to collect maggots for microscopic examination by a specialist. This is why livestock producers are asked to collect worms from every infested livestock wound. Success of the eradication program will depend, in part, on positive identification of as many cases as possible. These records are vital in the day-by-day execution of the program. Cooperation in Parmer county to date has been excellent, but County Agent Deryl Coker also stressed the importance of continued cooperation.

Although the largest number of wounds infested with maggots are infested by those of the true screwworm, other kinds of maggots may be involved. This has been confusing to some producers.

The true screwworm is only one of a large group of flies, most of which are referred to

as common blow flies. However, screwworm maggots infest only the wounds of living warm-blooded animals.

Some of the maggots infesting wounds may be maggots which breed primarily in carcasses. When they are found in living animals, carcass-breeding maggots are usually found feeding on soiled wool or in wounds containing decaying blood and tissue.

The true screwworm is distinguished from common blow fly maggots by two dark parallel air tubes. These tubes are readily visible in full-grown maggots of the screwworm but are scarcely visible in the maggots of other blow flies. Screwworms have a pinkish tinge when they have completed feeding and are about ready to leave the wound. Most common blow fly maggots have white, yellow, or gray colors.

However, microscopic examination by a specialist is the

only sure means of identification. Producers should continue to collect 10 or more worms from deep in each wound and take them to their county agent, vocational agricultural teacher or local livestock inspector.

NEWS FROM THE FARM BUREAU

BY RAYMOND FULER

"Am I for a free agriculture, or a managed agriculture?" The fact is, a person or individual cannot be for both. There is no such thing as freedom and security. As security is guaranteed by a government or any other group powerful enough to manage men, freedom must be denied.

Most farm leaders know that agricultural people favor freedom in agriculture in words by about 53 percent. In action, fewer than 3 percent favor freedom in agriculture. Approximately 4 percent actually favor the supply management approach.

The question is, why do farmers and ranchers continue to plunge forward in this move toward a managed agriculture? The answer obviously lies in the fact that most agricultural leaders and individuals believe that we can go just a little further without being completely destroyed. Most of the remedies being offered in the form of legislation in Washington are reluctantly accepted by farmers, thinking they can do nothing to prevent the move toward a managed agriculture. This results in a scramble among producers of agricultural products for the benefits of the programs offered, at the same time knowing that they will eventually destroy him. In the final determination, the problem can be reduced to one simple question that each individual farmer and rancher in the United States of America must decide once and for all. This is the question posed at the beginning of this column.

It is very clear that farmers

Study Tour Scholarships Awarded Two County Agents

County Agricultural Agents Thurman J. Kennedy of Young County and Uel Ray Stockard, Ellis County, have been awarded 1962 Dow Study Tour Scholarships, according to Ollie L. Lerner, Hale county agent and chairman of the Professional Improvement Committee of the Texas County Agricultural Agents Association.

The tour program is carried out by the National Association of County Agricultural Agents in cooperation with the Agricultural Chemicals Department, Dow Chemical Company, Midland, Michigan. The professional improvement program is designed to meet the needs of county agents by giving them opportunities to study marketing enterprises, outstanding farm operations, agribusinesses, successful Extension Service and research programs and rural development projects. Lerner said.

Kennedy will join other scholarship winners from the Western Region in Boise, Idaho, June 11, to begin the 19-day tour. This group will visit in Idaho, Oregon, Washington, Montana and Wyoming and return to Boise on June 30. Stockard will join the Southern Region group in Little Rock, Arkansas, also on June 11, and will make four stops in Arkansas, Missouri, Kansas, Colorado, New Mexico, Texas and Oklahoma before returning to Little Rock on June 30.

Kennedy and Stockard are veteran Texas county agents; both have directed many outstanding Extension programs in the counties they have served; both are active members of their state association and are in a position to put into use information gained from the training opportunity. Kennedy

has served as secretary-treasurer of the Texas Association for several years. Both are graduates of Texas A&M College and have conducted outstanding adult as well as 4-H programs during their Extension careers. Kennedy has served in Wilbarger, Stonewall and Young counties and Stockard in Hopkins, Tarrant and Ellis Counties. Both began their service as assistant county agents immediately after graduating from college.

Egg Future Explained

The South Central States, including Texas, produced 7 percent more eggs in March 1962 than in the same month of 1961. During the period January through March, these states produced 5 percent more eggs than in the same period last year.

In reporting these figures, Marshall Miller, associate extension poultry marketing specialist, points out that while production in this area showed an increase, the national average production remained virtually the same.

Although Texas is included in the South Central production area, Texas producers showed a March 1962 production increase of 2 percent over March 1961. But for the first three months of 1962, they produced about the same as in 1961.

Considering the larger proportion of pullets in the current laying flock as well as the continuing advances in technology, egg production per layer may recover to 1961 levels, says Miller. Over the next several months, the seasonal decline in the number of layers is not expected to be as sharp as last year. Egg production has reached its seasonal high and should begin to decline in a few weeks. It will likely continue above a year earlier until the latter part of 1962, however.

Egg prices are lower now than a year earlier, Miller continues. Texas producers received an average of 31 cents per dozen in March 1962, as compared to 34 cents a year earlier. Prices in the United States were down about 3.7 cents compared with last year's price.

A higher egg production and a weaker storage demand in the second quarter of this year are likely to keep egg prices below those of the same quarter in 1961. Due to the reduced numbers of egg-type chicks hatched during January-March 1962 as compared to 1961, we may have an upward trend in prices during the third or fourth quarter of this year, especially if this downward trend continues in the second quarter.

WITH THE COUNTY AGENT

DERYL COKER

I took two days annual leave last week, Thursday and Friday, to try my luck at fishing and believe it or not, I didn't get to fish any because of rain. I went to Oklahoma and it rained all the time I was there. It's not fair that they get all the rain and we get nothing, but we can't change Mother nature.

A few people are applying backtags to their female cattle over three years old, when they sell them. So far all tests have come back negative. This is good practice for we want to keep Parmer County a Brucellosis Free County. Every three years a county has to recertify, and this is done by jerking blood samples on 20% of the herds not participating in the backtag program. Let's put it another way, at least 15% of the cattle must be tested each three years, and if we can do this by the backtag system, the Animal Disease Eradication Division won't have to come back in the county and test 20% of the herds. Enough herds will be checked to make up the required 15%.

Also, at least 80% of the eligible heifer calves retained in the county must be vaccinated. Vaccination is not required in strictly range areas where winter feeding is not practiced. However, a high level of calf vaccination is required in all herds.

By vaccinating your calves and backtagging your slaughter cattle you can assure the brucellosis free status of your own herd and help recertify your

county without additional ranch tests except in known infected herds. This will save you time and money, help to maintain your area's modified-certified status with less work, and contribute to eradication of the disease.

It is real easy to apply a backtag to your cows after you load them to take them to the auction or slaughter plant. Backtags and glue are available in my office and if you are in Farwell drop by and pick up some.

After you put the tags on the cows you are selling a blood sample will be taken at the place of slaughter and the results will be sent back to you. I know everyone with cattle will want to know if their herd is staying clean.

Also, we might have a few cases of screwworms and if you should find a case, be sure that you get a few of the worms and bring by the office. We will send them off and if they are screwworms the people in charge of the program can take measures to stop the spread.

A true peanut variety, Starr, developed by the Texas Agricultural Experiment Station is the subject of much discussion among Texas peanut growers. The performance of the new variety in statewide research and farm demonstration tests last year have put in orbit, reports Ben Spears, extension agronomist. Enough planting seed are not available to take care of the demand.

Screwworms Or No?

Formal dedication of the new sterile fly production plant at Mission, headquarters of the Southwestern Screwworm Eradication Program, are scheduled for Saturday, June 16.

The new plant, located at Moore Air Force Base, is designed to provide 50 to 75 million sterile flies per week. With production beginning in mid-June, the first flies from the new plant will be released in early July.

"We are very pleased with construction progress at the Mission plant," Marvin J. Bridges, executive director, Southwest Animal Health Research Foundation, said. "We will have fly production underway ahead of the date we originally hoped construction would be completed."

"Early completion of the plant will be a tremendous boost to the program since we will have the sterile flies required to cover the wide area neces-

sary for eradication in the Southwest.

"Completing a 'crash' construction program of this type would not have been possible except through the Southwest Animal Health Research Foundation, using funds contributed by individual livestock producers and sportsmen from all over the Southwest."

Release of flies produced at the temporary plant at Kerrville has been increased to over 20 million per week. This, along with last winter's cold weather, has significantly retarded normal build-up of native screwworm populations. The increased production at the Mission plant will provide sufficient sterile flies to give added impetus to the eradication program.

The program is a joint effort of the Texas Animal Health Commission, the Southwest Animal Health Research Foundation, and the U. S. Department of Agriculture.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Some of you homemakers probably are busy canning cherries at the present time, or will be engaged in doing so in the very near future. All of us can cherries for pies and make cherry jelly and conserve, but have you ever thought of making pickled cherries?

If not, you will probably want to try the following recipe.

PICKLED CHERRIES

Remove pits from ripe cherries, cover with vinegar for 24 hours. Drain and add to each cup cherries, 1 cup sugar. Then stir in 1 teaspoon each of cloves and cinnamon. Stir once a day until sugar is all dissolved, then put in jars and seal.

Next time you want something different for a salad that keeps well for a meal you want to prepare ahead of time, try

TWENTY-FOUR HOUR BEAN SALAD

Onions
Green peppers
1 cup chopped celery
Small can pimiento
1 can peas, drained
1 can green beans, drained
1/4 cup Wesson oil
3/4 cup cider vinegar
1/4 cup garlic wine vinegar
1 tablespoon sugar
salt and pepper
Fix in layers onions, green pepper, celery, pimiento, peas, green beans, salt and pepper. Shake. Pour over vegetables and set for 24 hours.

For a new crochet technique, make a simple filet background in a basic color. Then for an interesting textured effect, weave various shades and weights of yarn through spaces. Ribbon also makes pretty decoration for these crocheted pieces.

There are so many meats and vegetables that you want to serve white sauce with that a basic white sauce recipe is one of the things every homemaker should develop to suit her needs.

If you don't have one you particularly like, try this one. You may want to use the variations developed for it, or you might prefer experimenting on your own.

WHITE SAUCE

2 tablespoons flour

1/4 teaspoon salt
few grains pepper
2 tablespoons salad oil
1 cup milk
Combine salt, flour and pepper in saucepan; add salad oil and blend until smooth. Slowly stir in milk, mixing until smooth. Cook over medium heat, stirring constantly; boil 1 minute. Makes 1 cup.

VARIATIONS

Cheese Sauce: Serve this over vegetables, croquettes or your favorite soufflé. Add 1/4 teaspoon dry mustard with the seasonings. Blend in until melted 1/2 cup nippy American cheese (cut up or grated.)

Mushroom Sauce: An elegant touch to meat, fish, poultry or eggs. Sauté 1 cup sliced mushrooms and 1 teaspoon grated onion in salad oil five minutes before adding flour.

Sea Food Sauce: For a quick supper, serve over split-toasted buns or muffins. Carefully stir in 1/2 to 1 cup cooked shrimp or pieces of cooked lobster.

Parsley Sauce: Wonderful with croquettes or fish cakes--special with boiled or baked potato. Add 2 tablespoons finely chopped parsley.

Egg Sauce: Good over asparagus, broccoli or spinach. For a real treat, add sliced celery, cooked peas, chopped onion and grated American cheese--serve hot over biscuits. Carefully stir in 2 diced hard-cooked eggs.

A good and easy way to cook green beans, sliced carrots, onions, summer squash or other vegetables is called the farmstead skillet method.

Pour 1 tablespoon salad oil in 9" or 10" skillet. Add 1 pound vegetables and 3/4 teaspoon salt and stir over medium heat 1 or 2 minutes. Add boiling water to one-half the depth of vegetables and 3/4 teaspoon salt; cover and simmer 10 to 15 minutes or until tender.

Uncover, add herbs and extra seasoning, if desired; continue cooking until water boils away. Yields approximately four servings.

Every year American agriculture provides enough cotton for about 24 house dresses or 30 dress shirts and 2 pounds of apparel wool for every man, woman, and child in the nation.

Water Dist. Publishes Plains Water Table Map

The High Plains Underground Water Conservation District has announced the publishing of a map which indicates the decline of the ground-water table in the southern High Plains for the 24-year period, 1938 to 1962.

The map is prepared in three colors, black, yellow and red. It uses the different colors to indicate various increments of decline.

A total of five increments are shown -- 10-40 feet, 40-60 feet, 60-80 feet and more than 100 feet of decline since 1938.

W. L. (Bill) Broadhurst, Chief Hydrologist for the High Plains Water District made the decline computations revealed by the color map. His computations were based on water-level measurements made by the U. S. Geological Survey, the Texas Water Commission and the High Plains Water District.

According to Broadhurst, a decline map such as the one just published can be used along with other data to determine, within reasonable limits, the amount of ground water depleted from the reservoir and the approximate amount of water remaining in storage.

"Percentage wise," Broadhurst states, "as an average for

the 13 counties in the High Plains Water District, something on the order of 20 per cent of the ground water available to pumps in 1938 has been depleted. The percent of depletion for the counties in the District is: Armstrong, 32 per cent; Bailey, 13 per cent; Castro, 19 per cent; Cochran, 20 per cent; Deaf Smith, 18 per cent; Floyd, 22 per cent; Hockley, 30 per cent; Lamb, 15 per cent; Lubbock, 44 per cent; Lynn, 38 per cent; Parmer, 12 per cent; Potter, 33 per

cent; and Randall, 20 per cent. The map has been reproduced in the Water District's non-advertising monthly newspaper, "The Cross Section" and mailed to those persons on the circulation list. For others, who do not receive "The Cross Section" but who would like a copy of the map, it will be made available free of charge upon request. Address map requests to: High Plains Water District, 1628-15th Street, Lubbock, Texas.

PHOSPHORUS RESULT DEMONSTRATION ON WHEAT

- CONDUCTED BY: A. L. Black - 6 miles east of Hub
1. Variety - Wichita
 2. Irrigations - one preplant irrigation and three irrigations during growing season
 3. Fertilizer applied - before planting in 20 inch bands
 4. Soil type - sandy loam
 5. Crop history - 1959 - potatoes - 1960 - wheat
 6. Remarks - A. L. said even if he had not had an increased grazing value, Phosphorus is figured at 10¢ per unit. Extra harvest cost 10¢ per bushel and hauling cost 5¢ per bu.

Fertilizer Treatment	Yield BU/A	BU/A Increase Over Check	Value of Increase	Phos. Cost	Extra Harvest Cost	Net Return To Phos. Per/A
102 -0-0	59.0					
102-48-0	64.0	5	\$8.75	\$4.80	\$.75	\$3.20

CONGRATULATIONS

to

Sherley-Anderson Grain Co.

We are very proud to have been chosen for the General Contractors on these added facilities for

the

Sherley-Anderson Grain Co.

BORTON INC.

Hutchinson, Kansas

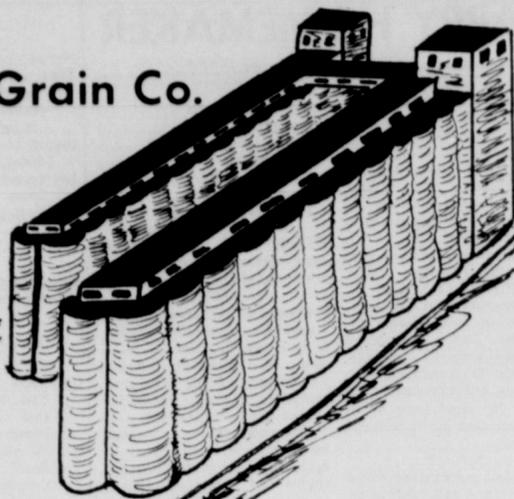

Begin your cotton program spraying now. Aerial spraying for fast, sure kill. We are dealers in all kinds of chemicals for all types of spraying.
