"He who squanders his power on trivialities shall shortly become a trivial power."

Anonymous

Once upon a time--last week--I believed that the people of Texas--and the United States--were capable of making a decision based on knowledge and through the processes of reasoning and history.

Now, I am a little doubtful. Although I was afraid that John Connally along with his strong ties to LBJ would emerge on top in the primary, I did hold out some hope that he would fall flat on his handsome face.

As for Yarborough, I was more surprised than anyone when he beat the rest of the field. I still haven't figured out where or how he managed to pull so many votes. Still, I, personally, would choose him over Connally any day of the week.

But what ever we do to and with our government, we do it ourselves. If we put into office the people who will change our form of government to an alien form, such as pure socialism, the guilt rests upon our shoulders and is as much mine as yours.

I must admit that I am very, very happy to see the way that the people in Parmer County voted. I am even more impressed with the results in Friona--in general, I must admit that there were two races where I guessed a little wrong. That is to be expected, I suppose.

One thing which is most impressive is the high percentage of voters who took the time to go to the polls when there were no contested posts on the local end of the ballot and no presidential candidate was included.

For an "off election" year, and for a primary, the county turned out to set a near record. I can't determine the highest number of voters ever to vote in a primary of this kind, but any time the percentage rises above 60 or even 50 per cent of the registered voters, we are equaling or exceeding the national average.

Still, it would be wrong to be content with anything less than a 100 per cent turnout. I suppose that you gathered that I don't care for Connally. Well, that is my personal opinion. One of the reasons for the feeling is because of the close affiliation with the now Vice-President for whom I also bear no good tidings. Up until about three years ago, I would have backed LBJ any time of the day or night. I firmly believed that he and Sam Rayburn were the two great champions of Texas and Texas people.

But, it seems to me as if a great change came over the champions. One passed on and left a great emptiness in Texas. The other appears to have changed his camp and tactics. If they did not change, and in particular, LBJ, then I have changed, which from my prejudice viewpoint, I doubt the latter.

--TH--
A short time ago, I mentioned the shortage of property for rent or lease as being one of the handicaps which Friona is under. I found this week that several other families and individuals feel that the shortage is a problem.

Jake Outland, the city manager, asked for a three day leave of absence for the purpose of moving his family to Friona. I asked if he had found a place to live yet and he said "NO."
Wonder how many towns are so short on housing that the city manager has trouble in finding a place suited to his family.

--TH--
The members of the school board have my sympathy this
(See CASTIN', P. 2)

Almost three-quarters of Parmer County's registered voters turned out to vote in the primary elections Saturday. While 2,470 poll taxes and exemptions were recorded this year, 1,789 ballots were cast. This represents a vote turnout of about 72.42 per cent which is considered excellent for a general election on a presidential election year.

In the governor's race, Parmer residents stuck with the West Texas candidate Marshall Formby who were unable to place in statewide voting. Daniel who was making his bid for another term, also failed to find himself in the primary runoffs scheduled for June 2.

Sitting in the top chairs in the race are John Connally and Don Yarborough. They will battle it out for Democratic nomination in June.

In the Republican race, Jack Cox walked away with the nomination with almost eight times the number of votes given to his opponent, Whittenburg. Preston Smith and James Turman emerged with top positions for Lt. Governor. These two also took the majority of Parmer County votes with Smith capturing the majority by some 300 votes.

Local voters gave Waggoner Carr over half of their votes while placing his opponent, Tom James, second. But on a national scale, James was defeated by Tom Reavley. Carr and Reavley will appear on the runoff ballot in June.

Woodrow Wilson Bean won about half of the county votes and also a place on the runoff ticket at the state level. His opponent will be Joe Pool who received only 175 votes in the county.

Mead Griffin took the position of associate Justice Of Supreme Court, Place Number 1. Steakley won place number 3 in the second race with only two candidates. However, Parmer County gave an overwhelming 1,094 votes to the local candidate, Bill Street of Lamb County.

All of the candidates in the non-contested races were placed in office.

For Railroad commissioner, Ben Ramsey won two-thirds of the Parmer votes and an even greater percentage on the state level to win the position.

J. Everts Haley, Jr. received 916 votes to John White's 532, in Parmer County but was swamped by a reversal of the vote on state levels.

Bill Clayton and B. M. Nelson won positions on the runoff ballot in district voting but Clayton and W. T. Millen were rated highest by Parmer voters. Clayton, 508, and Nelson, 410 in this county.

In the local contest for commissioner of Precinct 2, Jack Patterson drew 195 to Charlie Jefferson's 306. Therefore, Jefferson will serve in this position.

Baker Duggins will be the instructor for all classes and will conduct them according to National Red Cross specifications. Cost of the courses will be \$9.50 each.

A course for ladies only will be conducted by Mrs. H. K. Kendrick on Thursday evenings from 5 to 8 p. m. These sessions will be followed by recreation swimming for ladies from 8 to 10 p. m.

Don Beer, national underwater instructor from Amarillo, will conduct Scuba diving lessons each Monday from 8 to 10 p. m. A course, which will

cost \$35, will consist of 10 two hour classes. All necessary equipment will be furnished.

James Gee of Friona will be a featured performer in the play, "Salome," presented May 18 at 8 p. m., at the Theatre Workshop of Eastern New Mexico University in Portales.

The drama is a one-act play written by Oscar Wilde. The production will be open to the public and no admission will be charged.

Gee will play the part of Iokanaan, the prophet whom Salome orders beheaded.

position.

W. J. Parker won the Justice Of The Peace at Bovina with 332 votes compared to 167 cast for Mrs. Lloyd Killough.

Nelson Welch won the County Democratic Chairman position with 687 votes in comparison to the 586 votes cast for his opponent, Wes Long.

John Armstrong was named Democratic Chairman of pct. 4 on a write-in vote. No candidate had announced for the office but Armstrong placed in the blank 57 times.

The next culling of candidates by Texas voters will be June 2 when they go to the polls to determine the Democratic nominations in the runoff.

On the Democratic ticket, Parmer County went along with the state on the refusal to support horse race wagering.

(See VOTING, P. 2)

James Gee Has Part In Play

James Gee of Friona will be a featured performer in the play, "Salome," presented May 18 at 8 p. m., at the Theatre Workshop of Eastern New Mexico University in Portales.

The drama is a one-act play written by Oscar Wilde. The production will be open to the public and no admission will be charged.

Gee will play the part of Iokanaan, the prophet whom Salome orders beheaded.

Swimming Classes Commence Monday

A series of swimming classes have been scheduled to begin Monday, May 28 at 8 a. m., at Friona's Dive In swimming pool. Registration for all interested persons will be held Monday, May 21.

Classes will be conducted on four different levels - beginners, advance beginners, intermediate and juniors and senior life saving. Each course will be made up of 16 one hour sessions.

Baker Duggins will be the instructor for all classes and will conduct them according to National Red Cross specifications. Cost of the courses will be \$9.50 each.

A course for ladies only will be conducted by Mrs. H. K. Kendrick on Thursday evenings from 5 to 8 p. m. These sessions will be followed by recreation swimming for ladies from 8 to 10 p. m.

Don Beer, national underwater instructor from Amarillo, will conduct Scuba diving lessons each Monday from 8 to 10 p. m. A course, which will

cost \$35, will consist of 10 two hour classes. All necessary equipment will be furnished.

James Gee of Friona will be a featured performer in the play, "Salome," presented May 18 at 8 p. m., at the Theatre Workshop of Eastern New Mexico University in Portales.

position.

W. J. Parker won the Justice Of The Peace at Bovina with 332 votes compared to 167 cast for Mrs. Lloyd Killough.

Nelson Welch won the County Democratic Chairman position with 687 votes in comparison to the 586 votes cast for his opponent, Wes Long.

John Armstrong was named Democratic Chairman of pct. 4 on a write-in vote. No candidate had announced for the office but Armstrong placed in the blank 57 times.

The next culling of candidates by Texas voters will be June 2 when they go to the polls to determine the Democratic nominations in the runoff.

THE FIRST . . . Republican primary of Parmer County ballot is handed to Mrs. Grace Hart by Precinct Chairman Glenn Reeve as Mrs. Rose Lange looks on.

City Council Rejects Phone Rate Increase

A request for permission to increase the telephone rates on extension phones and auxiliary equipment was rejected by the city council at their meeting Monday night.

General telephone had requested the increase on the basis of increased cost for such service. The request was for an increase of \$.25 for each extension phone and an additional charge for intercom and other key sets.

The council also granted permission to the school to use 13th street between Cleveland and Euclid for an indefinite period of time. The school had requested permission to close the street so that school property adjacent to the street could be used for athletic activities without endangering students with traffic.

A list of taxes were discussed and a number of the past due bills were turned over to the city attorney for legal action.

Other business conducted at the meeting included the approval of substitution of securities held by Fort Worth Bank for silver certificates, adoption of a basic civil defense plan,

and the purchase of an assortment of sewer equipment including bends, elbows and pipe at an estimated cost of \$150.

A petition to have a street light installed at 4th and Woodland was also approved.

The monthly report by the city manager, Jake Outland, included, among others, the following items:

Nine building permits were issued for a total estimated cost of \$65,450.

There were six dog complaints which resulted in disposal of five dogs.

Approximately 25 acres of lakes and ponds within 2 1/2 miles of the city limits were sprayed with 18.8 lbs. of Dieldrin from the air on April 26. Cost of the mission and chemicals was \$86.25.

Work was completed on April 5, installation of 300' of 6" and 1000' of 2 1/4" water mains with one fire hydrant in the Drake addition.

The installation of auxiliary power at the west water plant is complete with the exception of connections for the universal drive. Plans are to paint the engine to make a more presentable appearance until a shed can be built for it.

Mr. H. V. Hancock, State Health Department, Lubbock, visited our water facilities on April 11. Purpose of the visit was to make inspection on behalf of granting the health department highway signs for the city. He was not pleased that the

School taxes were raised from \$1.75 to \$1.90 per \$100 tax evaluation at the regular school board meeting Monday night.

The tax hike is to become effective with the 1962-63 school year and is expected to produce an additional \$30,000 for operation of the growing school system.

An appreciable increase in the economic index and increased costs of operating the school plant were cited as major reasons for the increase. Some of the added revenue will go to pay for new uniforms for the high school bank and the new field house now under construction on Chieftain Field.

An increase in the number of students attending the school which requires the services of an additional teacher above the state schedule is another reason for the tax increase, according to Alton Farr, superintendent.

The per capita expenditure of Friona Schools in 1960-61 was \$337.70 based on enrollment of 1,067 students. The 1961-62 expenditure is expected to be \$345.60 for each of the 1,143 students. The increase in per capita expense and students accounts for an increase of \$34,268.10 in expenses during the past year alone.

In other business, the board approved the contracts of teachers for the coming year. Those approved were for Miss Sara Je Edwards, fourth grade, a McMurray College graduate from Clarksville; H. V. Rocky, fifth grade, now teaching in Mesa, Arizona, Rocky is originally from Friona and is the son of Mr. and Mrs. Dick Rocky.

A contract for Mrs. Kenneth Livingston, fifth grade, now teaching in Portales, who is the wife of Kenneth Livingston, Friona Junior High physical education instruction was approved.

Mrs. Travis Harrell, second grade, now teaching in Roswell, will teach here next year.

Billy Spencer, assistant band director and Junior High choir, McMurray graduate from Cross Plains will assist Lowell Bynum, band director next year.

The board accepted the resignation of Mrs. Juanez Green. She has expressed a desire to attend Oklahoma State College at Stillwater and work on her Master's degree, according to Farr.

The school lunch program for 1962-63 was approved by the board along with the superintendent's report on the school funds and budget.

It was reported that delinquent taxes amounting to \$587.74 were collected during the month of April and that the balance was presently standing at \$5,906.34.

One Killed, Two Injured In County Accidents

One person was killed and two others injured in two one-car accidents in Parmer County within the last week.

Roy Lee Bayless of Muleshoe suffered lacerations, concussion and a fractured rib Saturday when his 1955 sedan crashed 5.2 miles west of Friona on Highway 60.

He apparently lost control of the vehicle which skidded along the pavement and plowed one-tenth of a mile along the embankment of the road while turning over one and one-half times before coming to rest on its top, according to Ken Meadows, investigating Highway Patrolman.

Amadeo Perez, 17, of Friona was crushed beneath his 1957 sedan Sunday morning when it plunged from the road three and one-half miles east of Farwell. A passenger, Guadalupe Duran, 18, was not seriously injured according to reports.

Sheriff Charles Lovelace reported that Perez apparently lost control of the car while going east on FM 145. Perez was thrown from the car which landed on top of him.

All victims of the accidents were carried to Parmer County Community Hospital and Claborn Funeral Home by a Claborn Ambulance.

Funeral services were conducted for Perez Tuesday at

The Missing Box

Pandora's Box has turned up in Friona.

But, instead of snakes, the box is adorned with advertising and is marked for the deposit of litter.

Among the 20 boxes installed by Litter Maid of America, Inc., was a little white box attached to a pole against the curb in front of the post office door.

Saturday, the box was removed.

This box, like all the others, was being paid for by a local business or organization in return for advertising on the box. The boxes were intended for the deposit of trash by pedestrians.

Raymond Euler of Farm Bureau who was sponsoring the box, appeared before the city council at their meeting Monday night to determine the reason for the removal of the box.

The city council had granted the right to solicit advertising for such boxes and to install them on city property to the Litter Maid company providing they would install and maintain them.

According to a report given by Mayor Raymond Fleming, Sloan Osborn told him that he

had sent a welder with a cutting torch to remove the box. Osborn did not definitely confirm or deny the report.

Osborn did point out some of the objections to the placement of the box. A postal regulation forbids the placement of any commercial advertising anywhere on the postal grounds. Advertisement by one company at or in a post office is not considered fair to competing businesses because of the frequency which most residents must visit the building.

But according to the mayor, the city's attorney has assured that the records show that the property on which the box was installed belongs to the city and not the post office. The land was included in the easement obtained for the street and public use.

Another objection is the possibility that individuals will deposit mail in the box under the mistaken impression that they are placing it in a mail box. The Litter Maid representative admits that this has happened but that "corrective steps have and will be taken."

Fleming reported that he had promised Postmaster Martha Clements that he would contact the representatives of the

company and ask that they remove the box from in front of the building.

She had expressed an objection to the placement of the container and pointed out the postal regulation against advertising. But, the box was removed first and saved the mayor the trouble of contacting the company.

The boxes were installed last week and had aroused no prior objection. The boxes are emptied each day by the local Explorer Scouts. Several of the receptacles have been filled every day when they were checked.

Voting--

but the local residents voted to retain the poll tax rather than adopt some other system of registering voters in the state.

The Republicans turned thumbs-down on all three of the proposals on their voting in Farmer County. They rejected waging, dropping the poll tax and construction of a park on Padre Island.

The Best Way to get a bad law repealed is to enforce it strictly.

Council--

will house at east water plant was still being used as storage and workshop as well as too much motor traffic in and around the water tower and other wells. He agreed to postpone the inspection until about June 1, after we have removed our equipment to the new maintenance shed and seeded, cleaned up the east water plant.

A short circuit in the remote control wires at the west plant caused continued pumping on both nights of April 17 and 18. An estimated 150,000 gallons of water overflowed into the adjoining properties.

Records show that 14,743,310 gallons of water were pumped during the month. 12,446,000 gallons were accounted for in sales, indicating an approximate 85 per cent efficiency in the distribution system. No deduction can be made in this figure in relation to last month's lower percentage.

Clyde Fields, Howard Love and P. C. Aragon attended the regional water training school, Amarillo, evening of April 12.

Records show that approximately 3,248,228 gallons of sewage were pumped for an average of 108,274 gallons per day. 748 kilowatts of electricity were used for a cost of \$13.84.

An increase was noted in the amount of miscellaneous foreign materials arriving at the plant in the sewage input. Additional precautions are being taken to prevent clogging of the pumps.

There were 24 arrests made during the month. Twenty-two for traffic violations and two, drunkenness. There were 4 man-nights of jail occupancy for food costs of \$2.85.

Two vehicle accidents were investigated. No injury or hospitalization.

Vandalism reported were BB shots at the caution light, 11th and Main, and pop bottles broken in street. Two juveniles were apprehended.

Officer Rex Cowart attended 36 hours of police school and investigative methods given at Hereford by the State police officials during the last week of April.

Forty - three potholes were patched in various streets during the month.

A sweeper broom was constructed in the maintenance shop on April 12.

The City clean-up drive sponsored during the fourth week of April was considered a success, however, much trash and rubble remains in many sections of the city. Response to the announcement was good during the third week and an extra truck was utilized three days then. An estimated 21 tons of refuse, trash and tree trimmings were hauled in addition to the normal trash load of 3 tons per day.

Castin--

I, personally, know that the increase in school taxes was necessary if the school is to continue to operate in the black. But, that is not going to stop the usual tide of complaints about the hike.

I think that I will pay mine without any complaint--so long as I am taxed on the same basis as other people. That is, I will pay them if I can get home with that much money.

It seems to me that even with the increase, the tax is not above that of the majority of other districts in the state. In fact, it is lower than some.

Of course, saying that some other school has higher taxes will not stop the complaints aimed at the board members. But if anyone had something to complain about, it looks to me like it would be those persons who do not have children in school--or not at all--like me, for instance.

After all, the parents with children in school can call the tax a "baby sitter fee" if they don't think their children are getting their money's worth.

Me, I would call it an investment in the future--although it might not be my future.

Conservation Awards Presented In Friona

One of the Parmer County winners was present to receive his award at the Fort Worth Press Conservation awards banquet at the high school cafeteria Monday night.

Awards for conservation essays were won by four Lubbock students but three did not appear to accept them.

The county winners in the District I contest were Kay Burleson, Terry Darling, John Agee and Jimmy Seaton.

The awards were presented by Walter Humphrey, editor of the Fort Worth Press, who also spoke briefly on the soil conservation program in Texas and its importance to the future.

William Schultz of Higgins was named the Outstanding Farmer of Region I in Friona tonight at the 17th annual Fort Worth Press soil conservation awards banquet.

On Sandy's way to church last Sunday morning, he dropped into the local drug store to make a telephone call. Flipping a dime on the counter he asked the clerk if he could oblige with two nickels.

"Sure," said the clerk, "and I hope you enjoy the sermon."

Census Report Shows Parmer Growth

Figures recently released by the United States Department of commerce indicate Parmer County property owners are making use of modern conveniences available for home improvement.

The 1960 Census of Housing counted 3,318 housing units in the county. Of these 2,132 were in sound condition with all plumbing and 2697 were occupied.

Median value of the 1442 owner occupied places was \$11,000 and the 1255 rented homes cost the owners a median gross rent of \$62 monthly.

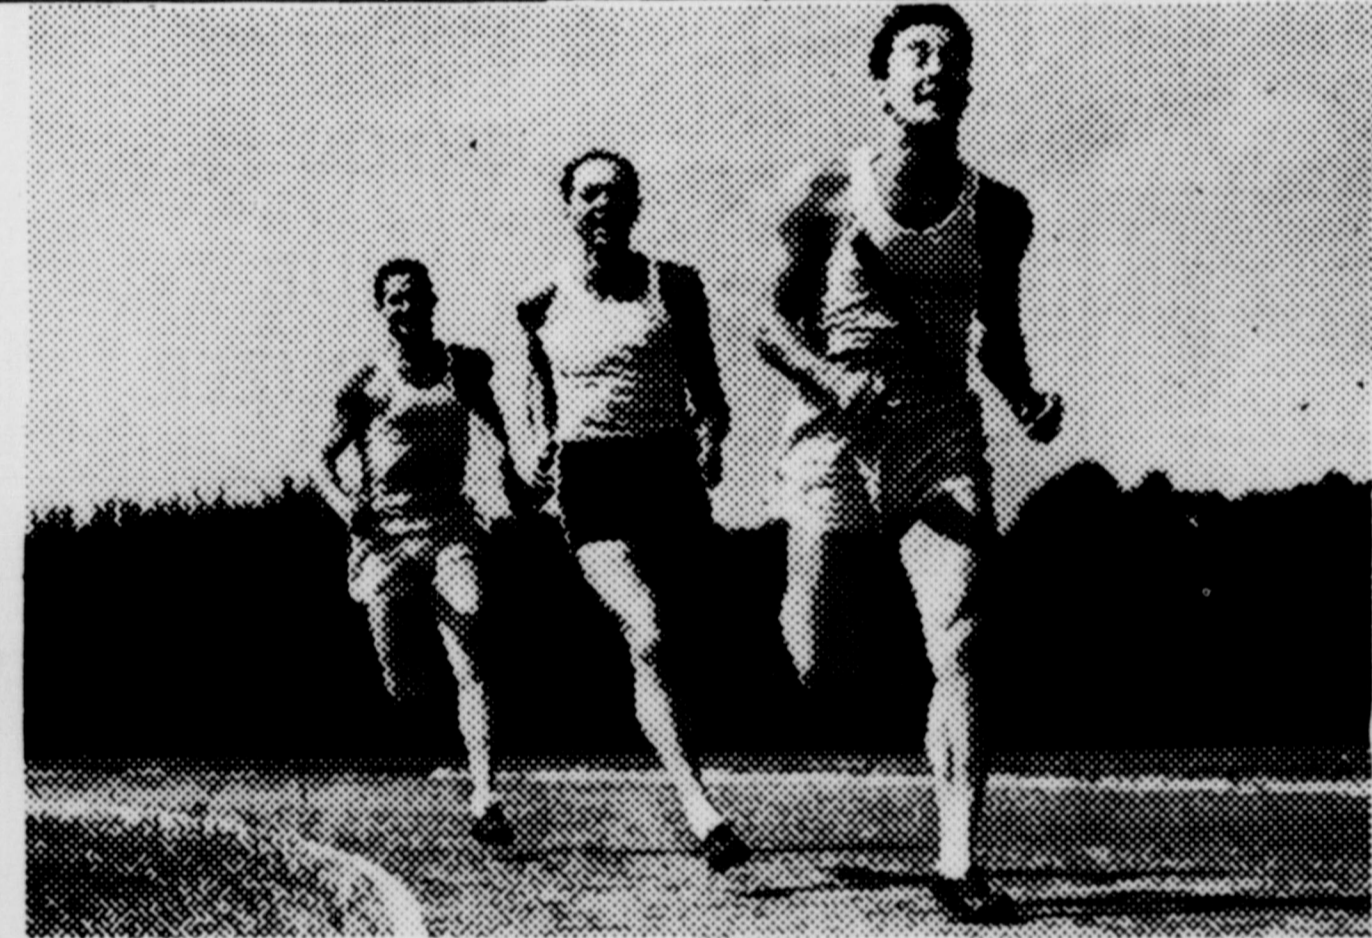

There were 2822 homes with hot and cold running water and 2778 of these had flush toilets and bathtubs or showers.

There were 364 homes with basements and 50 trailer homes.

Parmer County families had 2250 television sets, 2545

radios, 1826 telephones, 2030 washing machines, 628 clothes dryers, 1381 home food freezers, and more than 2500 automobiles.

The veracity of the report could be questioned. The same report indicated the Census of Housing counted no household air conditioning units. This part of the report could probably be refuted by at least 2000 families.

"Front runners" don't always win

Some spend too much too soon—have little left for the finish.

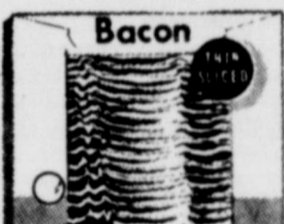

If you've been going "all out" in your spending program, better hold back and save *something* — lap by lap, week by week, dollar by dollar. With us, naturally!

SWEET MACHINE . . . The truck paid for through candy sales and other civic projects by Panhandle Fire Departments, was on display in Friona last weekend. Ralph Shirley stands in the door of the truck presented to Boys Ranch.

IOOF Lodge Attends Meet

Friona IOOF Lodge No. 208 attended the Panhandle Association meeting at Dalhart April 28. The Panhandle Association includes all of the Rebekah and Oddfellow Lodges of the Northern Panhandle. A degree team from the local lodge entered the competitive work and won first place. This was their first attempt for competitive work in the three years of the organization. The following members were in the degree team: Frank Reed, Roscoe Parr, Ralph Reed, Waymon Wilkins, Joe Moyer, W. E. McGlothlin, Luther Scales, J. D. Sanders, Delbert Ensinger, Roy Estep, Claude Porter, C. H. Wise, G. E. Reed and Sam Williams, degree team captain. Others attending the meeting were Mrs. Geneva Williams and Mrs. Juanita Reed representing Rebekah Lodge No. 308 and J. B. Williams, representing cantons, from Hereford.

WIN AT FIRST ATTEMPT . . . Degree team of local IOOF Lodge is composed of William Scales, J. D. Sanders, Delbert Ensinger, Roy Estep, Claude Porter, Frank Reed, C. H. Wise, G. E. (Bud) Reed, Waymon Wilkins, Joe Moyer, W. E. McGlothlin and Sam Williams.

Trucks Presented At Boys Ranch

A seven-year drive by the Panhandle Firemen's Association to get fire protection for the nearly 300 boys at Cal Farley's nationally famous Boys Ranch comes to a climax Saturday, May 12th, when the new fire station will be dedicated during the Association's semi-annual Meeting at the Ranch. The firemen of Friona, Texas have joined hands with approximately 1,200 others of the Panhandle and South Plains to present the Ranch with a 500-gallon pumper truck and a 300-gallon booster fire truck. Mr. and Mrs. V. E. Hafner of Chillicothe donated the funds for the fire station which has been completed. An estimated 75 communities are expected to be represented by the firemen when they will be the guests of the boys and Ranch personnel during their convention. All but five of the towns have volunteer fire departments. Officers of the association are Cliff Delano, Dalhart, President; Dub Reeves, Hereford, second vice-president; Paul Sublett, Shamrock, first vice-president; Mr. Hafner, secretary-treasurer; and Glenn Phillips of Amarillo, assistant secretary. Earl Phillips of Hereford is chairman of the fund-raising committee. The four area sub-chairmen are

R. A. Massey of Dumas, John Wilkinson of Canadian, Thomas Clayton of Memphis and Ralph Shirley of Friona. To raise funds for the 500-gallon pumper the firemen sold candy, chewing gum, fire extinguishers and other products for the \$12,650 that was needed. The Howe Manufacturing Co. of Anderson, Indiana, built the pumper at cost. The 300-gallon booster was built by Lubbock firemen from a truck chassis. While at Boys Ranch the firemen and their families will have lunch with the boys and tour the Ranch area. Dedication ceremonies will be held at the new fire station at about 1 p.m.

Weekend visitors in the home of Mrs. Ella Faye Holcomb, Peggy and Phyllis were Mrs. Ollie Wilson, Plainview; Mrs. J. C. Widener, David and Deborah of Lockney and Mrs. Jerry White and Steve of Lubbock.

Now...beautiful buying days during Chevy's

GOLDEN SALES JUBILEE!

Spring's a-wasting! So why wait any longer to satisfy that new-car urge of yours? Especially when your Chevrolet dealer has such beautiful buys busting out all over the place. Like in fourteen Jet-smooth Chevrolets. Or eleven new-size Chevy II models. Or a whole crew of frisky Corvairs. So come on in and pick and choose to your heart's content at your Chevrolet dealer's One-Stop Shopping Center.

NEW IMPALA SPORT COUPE

It couldn't look more like a convertible unless it were one! . . . A steel top molded into the crisp contours of a convertible. Chalk it up to Body by Fisher finesse. Here's luxury and riding comfort that add up to everything you expect in an expensive car—except the expense.

NEW CHEVY II NOVA STATION WAGON

Space and spice in a new kind of saver. And it's just one of three new Chevy II wagons. Very parkable. Very packable, too. Has a load floor that's over 9 ft. long with second seat and tailgate down.

NEW CORVAIR MONZA CLUB COUPE

The trim sportster that started the bucket seat brigade. Here's rear engine scampier wedded to the road with tenacious traction and quicksilver reflexes. And this one's as easy to own as it is to drive.

NEW BEL AIR 4-DOOR SEDAN

This popular priced Jet-smoothie rides like a family room on wheels. Got a mammoth cave of a trunk, too, with bumper-level loading and a handy deep well for bulky items. Plus a choice of six or V8 skedaddle.

NEW IMPALA 6-PASSENGER STATION WAGON

Chevrolet wagoning at its most elegant. With up to a whopping 97.5 cu. ft. of cargo space—including a compartment in the floor where you can stow golf clubs and other valuables out of sight.

See the new Chevrolet, Chevy II and Corvair at your local authorized Chevrolet dealer's

WAC HYBRID SEEDS

We Have All The Numbers Of Last Year Plus The New 700 Numbers

Scott 500

Here is a short-stalked, red grain hybrid with great yield potential and wonderful stand ability. Stalk height is about 12 inches shorter than RS 610. Red Grain (darker than RS 610 grain) on very large medium-dry heads. About same maturity as TX 600 and outstanding in ability to stand and to yield. Adapted to dryland or irrigation. 110 days to mature.

Scott 450

An early grain hybrid of about the same maturity as RS 590. It is very similar to Scott 500 (above) but earliness makes this an outstanding hybrid for areas needing this factor. Red grain, large heads, high yield and shorter stalks make Scott 450 a highly desirable early grain hybrid. 95 days to mature (12 to 18 shorter than 610)

-- A GREAT PAIR OF TRUE COMBINE HEIGHT HYBRIDS. Also

TRASH CATCHER!!! Jay Claborn was the sidewalk superintendent during erection of a Litter Maid trash receptacle on Main Street one day last week. Putting final screws in place is Bill Dufur, Litter Maid sales director. Vaughn Killian, field director is also pictured.

MASCULINE MESS -- Members of the Friona High School agriculture classes assembled ingredients, mixed them and some how or other came up with ice cream Friday. Patsy Hough serves Clyde Woodard, a guest, cookies. Dianne Taylor, Fleeta Smith, John Taylor and Dennis Howell complete the line up.

Lazbuddie Schedules Exercises

The eight grade graduating class of Lazbuddie Elementary School will hold commencement exercises May 17 at 8:15 p. m. in the Lazbuddie High School Auditorium.

Twenty-four students will participate. Top honors are held by: Debbie Bullock, valedictorian, daughter of Mr. and Mrs. Wyle M. Bullock, with a perfect 6.00 grade point; Toni Smith, salutatorian, daughter of Mr. and Mrs. Leon Smith, Sr., with a 5.76 average.

Joe Jennings, son of Mr. and Mrs. Joe B. Jennings, places third with a 4.8. Adrian King,

son of Mr. and Mrs. C. E. King, places fourth with a 4.83.

Aleene Embry, daughter of Mr. and Mrs. Calvin Embry, scores fifth with a 4.71. Sammy Harlan, son of Mr. and Mrs. W. G. Harlan, places sixth with a 4.28.

Speaker of the evening will

be Dennis Smith, Minister, Church of Christ, Marshs Adudell and Danny Miller were chosen to serve as escorts. Ushers are Sherry Robinson, Susan Pendergrass, Terry Parham, and Alfred Steinbock. Pianists for the ceremony will be Marsella Mayfield.

Church Cites Carl Maurer

At its annual spring meeting, May 1-3, the Central South Conference of the Congregational Christian Churches awarded Carl Maurer a citation for his support over the years.

Maurer was one of five honored at a banquet in Fort Worth. Other delegates from the Union Congregational Church in Friona were: Mrs. Carl Maurer, Mr. Otho Whitefield, and the Rev. Hudson B. Phillips. The Conference has the largest geographical boundaries of any Congregational Conference in the United States, covering Texas, Oklahoma, and Louisiana.

The main business at the meeting was to re-align the churches to include the evangelical and reformed churches in Texas.

In May both bodies will be organized under the Texas Synod of the United Church of Christ.

"The standability and threshability of my P. A. G. was real good. I liked it growing and it wasn't to tall. It was good clean seed with very few off-types. It looked good in the field and weighed good at the elevator. I had a test weight of 60 pounds per bushel on my P. A. G. 665. My P. A. G. produced an average of 9,100 pounds per acre where planted on cotton ground. On all the P. A. G. 665 I planted this year I had an average of 8,392 pounds per acre, which is the best yield I have ever produced."

THANK YOU

Annie Jensen
It was a big moment in my life, when I set my foot on the American soil and was accepted as an American citizen with a permit of residence for one year - a year which I hoped would bring me a lot of joy and knowledge. When people first enter a foreign country, they are usually overwhelmed by so many sudden impressions. They are still prejudiced, due to all the things they have been told. They might be filled with criticism or they might even be too enthusiastic. In other words, newcomers usually are, and stay, pretty mixed up for at least a few weeks. That is the way it was in my case. The sudden appearance of gigantic skyscrapers in Manhattan, the various colors and noises of New York, a new language, new people - all of this was too much and unbelievable for me.
I could never express in words how much this year has meant to me. When I left Denmark I didn't know what I had to expect but I wasn't scared and I knew that I would like it here. Now I have been here for ten months and in this ten months I have learned that American people are very kind and friendly, I would like very much to say thank you to the community and the many individual people for their thoughtfulness and thank you so much to the people that have given me stamps, film, gifts, etc.
I know that Friona next year will make two young people just as happy as I have been this year and I know they will come to love this place just as much as I love it.
1961 Zig Zag, buttonholes and fancy work without attachments. Ten year guarantee. Need buyer with good credit to take over 5 payments of \$6.25 or \$31.25 cash. Write Credit Manager, 1114 19th Street, Lubbock, Tex. 32-2tc

Something To Think About

6th. Street Church of Christ
Box 515 -- Friona, Texas

The saddest road to hell is the one that looks so much like the right way as to appear safe, but is not. It leads one on in happy anticipation of heavenly rest and joy only to dash him down upon the rocks of disappointment. It is sad because people, good people, spend so much time, energy and work, thinking of heaven and hoping to go there only to be disappointed in the day of judgment. Our hearts ache when we see so many people like those of whom Paul spoke, "I bear them witness, they have a zeal for God, but not according to knowledge." It is such a tragedy that so many people who are good citizens, excellent neighbors, just fine people in nearly every way you can think of, have never seriously compared what they believe, how they worship, and the doctrine they teach with the pattern revealed to us in the gospel of Christ. It is hard enough to see a person go to eternity who has never made an effort to go to heaven, but it is so much more pathetic to see a person who really wanted to be saved, and worked very hard at it, yet be lost for all eternity because he did not worship God according to the due order. "In vain do they worship me, teaching for doctrines the commandments of men." (Matt. 15:9) This is why we need to search the scriptures and be sure about these things while there is still time and opportunity.

What About It?

A man's home is a real fortress in a warring world, where a woman buckles on his armor in the morning as he goes forth to the battles of the day, and soothes his wounds when he comes home at night. But let us not forget that there is a vast difference in a house and a home. A house is built by human hands, but a home is built by human hearts. A house is built of materials, but a home by priceless elements . . . far above rubies. A house may be destroyed, but no power can destroy a real home. Only one calamity can ruin a home . . . the death of love.

You talk of your grade of cattle,
And plan for a higher strain;
You double the food of pasture,
You heap up measures of grain,
You draw on the wits of the nation,
You better the barn and the pen,
But what are you doing, my brothers,
To better the breed of men?

What of your boy? Have you measured
His needs for the growing years?
Does your mark as his sire in his features
Mean less than your brand in your steers?
Thoroughbred! That is your watchword,
For stable, for pasture, for pen;
But what is your word for the homestead?
Answer, you breeders of men!

only about a 10 student increase. When you think about the situation on the basis of comparing the eighth grade class with the senior class, the picture begins to look different. With about 60 students graduating from high school and about 100 entering this fall, anyone can see that total high school enrollment will be up percentage wise. It might be wise for all of us to keep this in mind so that we will be prepared to handle whatever situation arises.

When plans were being made for a slogan to be used on Friona Consumer Fuel Association's postage meter, someone came up with what appeared to be a very good one. It read, "Owned by those we serve." Apparently this is an appropriate slogan for an organization such as Friona Consumers.

about over. Graduation exercises for the senior class will be Thursday evening and for the eighth graders Friday evening. Most Friona residents know that long range plans for our school include a building on property in the extreme western section of town. How many of us have any idea about how soon we are going to need new facilities?

However, when last month's statements were being mailed, and error made the slogan very humorous and possibly more fitting. The one that came to our office had the n dropped out of the first word, so it read like this: "Owed by those we serve."

I don't! However, when you stop to consider that present facilities are about filled to capacity and classes are getting progressively larger each year, it may be sooner than we think.

Win, lose or draw, who could have thought of a better slogan? Another school term is just

Think last year's eighth grade class had about 90 members and this year there are more than 100. Of course, that is

There may be some selfish persons in Friona, but Ann Osborn and Rita Beene can't be shoved off into this category. These two homemakers demonstrate their interest in and enthusiasm for a prettier town by their constant efforts to beautify their yards.

Anyone who drives by the Beene and Osborn homes will certainly be inspired to do a better job of yard beautification and maintenance.

What these two would like to have that they haven't been able to acquire is some new neighbors. There are two vacant building sites adjacent to their property and they would be very happy if some families who are contemplating building new homes would chose to be their neighbors.

One of the building sites belongs to W. F. Buske and he makes a conscientious effort to keep weeds mowed on it. Friona would be a much more attractive town if other non-residents would follow his example.

Ann and Rita appreciate having a well kept vacant lot but would much rather have some new neighbors.

A lot of Frionans, especially the "Old Timers," attend and enjoy the annual Pioneer Day celebration in Hereford. For the benefit of those who are interested in attending this gala affair, Palmer Norton of Hereford wants the Star to help him get word around that this year's event will be held in the Community Center at Hereford the last day of May and will begin with a basket lunch.

There are no rigid rules of eligibility to attend. Anyone who resides in this area will be welcomed by long time residents of Deaf Smith, Castro, Farmer and Oldham Counties.

If you are undecided about a graduation gift for any member of Friona High School's senior class, why not choose a gift subscription to the Friona Star?

Star subscriptions will be especially appreciated by students planning to attend college or other institutions of higher learning. For further details call 2291.

Next time you find yourself wondering "what is this younger generation coming to?" Remember this little rhyme which has been printed in several publications recently. THINGS ARE GOING TO THE DOGS

My Granddad, viewing earth's worn cogs,

Said things were going to the dogs;

His Granddad in his house of logs,

Said things were going to the dogs;

His Granddad in Old Ireland's bogs,

Said things were going to the dogs;

His Granddad in his old skin togs,

Said things were going to the dogs;

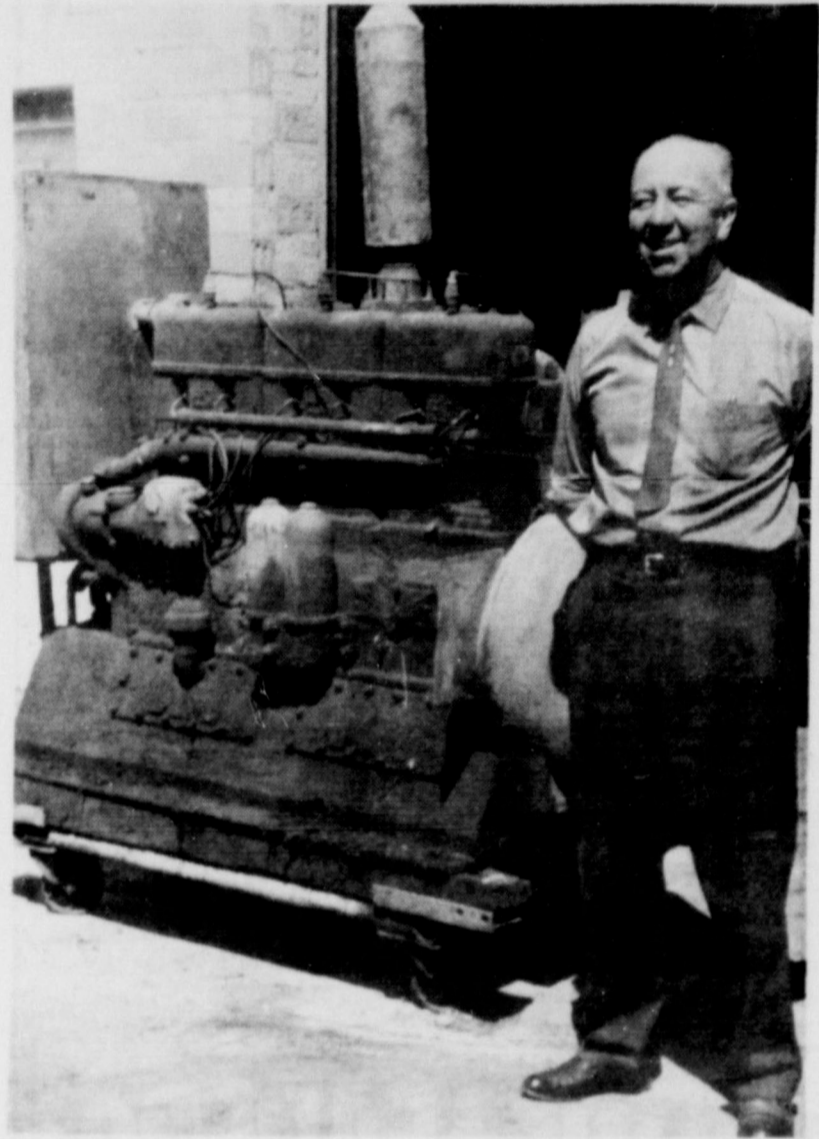

There's one thing that I have to state

... The dogs have had a good long wait!

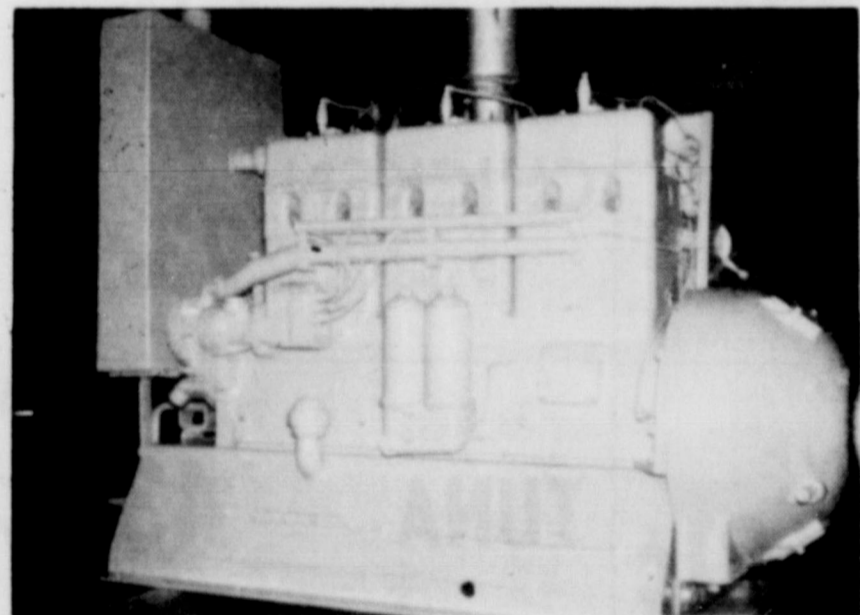

A big vacuum is used regularly on the hard surfaced trails of the world's largest and most beautiful cavern -- Carlsbad Caverns National Park in New Mexico. Seven wheelbarrows of lint and shoe leather are picked up each vacuuming.

Baseballers Win Two Last Week

Friona's Irrigation Belt League team chalked up two victories last week for a record of one loss and two wins.

Jimmy Collier hurled the infant team to its first victory against the Umberger nine 6-4 Thursday afternoon. John Renner called the signals from behind the plate.

Tulia suffered a double loss Sunday afternoon. They failed to field the full team by starting time at 2:30 and were forced to forfeit the game according to the league by-laws at a score of 9-0. The rules also state that the home team may loan the visitors two players and play as many as seven innings, if the visitors cannot meet the condition, they must also forfeit \$25.

Tulia borrowed the two players and played the seven innings but at a loss of 8-4.

The Friona team will play Plainview Thursday night at 8 p.m. there, and will then travel to Springlake Sunday for a contest with that team at 2:30 p.m.

Most of the teams in the league are charging admission at the games but the local team is depending on donations

CLOSE BUT MISSED... at the ball game with Tulia Sunday at Reeve Field.

Burglars Enter Buildings

Break-ins were reported at four different businesses in Parmer County last weekend.

The first occurred Friday night at Marie Venable's Used Bargains in Dovina. The back door was forced open to gain entry. Only two flashlights were reported missing.

Three other incidents occurred in Farwell Saturday night. Although very little was taken, some \$300 damage was done to the buildings, according to Sheriff Charles Lovelace.

"As far as we can determine, only \$12 to \$15 was

taken from all of the break-ins," Lovelace said.

The Farwell entries included the Layne and Bowler Pump Co., where an impact wrench with a one-half inch drive was taken along with a \$235 check. A window was broken to gain entrance.

The Skylight Skatatorium reported the loss of a record player and public address system, in addition to having the Coke box attacked. The front door glass was broken out of the building to admit the burglars.

The Dyer Cosden Station was entered by the two or more persons after the window was broken. Cigarettes and candy were reported taken from the station.

All incidents were thought to have been committed by the same people, according to Lovelace.

MRS. ARNOLD EUGENE FANGMAN

Of Interest To ★ THE WOMEN ★

Vanhaus-Fangman Wed Thursday

Miss Leona Marie Vanhaus and Arnold Eugene Fangman were married May 3 to 4 p.m. in the Holy Name Catholic Church at Happy with Rev. Ladislav Wolko officiating at the double ring ceremony.

The bride's parents are Mr. and Mrs. George Vanhaus of Happy and the bridegroom's parents are Mrs. Helen Fangman and the late Walter Fangman of Friona.

Given in marriage by her father, the bride wore a floor length gown of handclipped Chantilly lace and silk illusion, designed with a scalloped portrait neckline and long tapered sleeves. Seed pearls and iridescent sequins garnished the bodice, and tiers of lace enhanced the bell shaped skirt. A crown of tear drop crystal beads held her veil of silk illusion.

Mrs. Leonard Conrad, organist, furnished nuptial music and vocalists, Mrs. Richard Hoeltling, Mrs. Tommy Brockman and Mrs. Bob Kleman sang several wedding selections.

Miss Dorothy Kleman was the maid of honor and bridesmaids were Leverage Begner and Charlotte Huseman. Marilyn Vanhaus was the flower girl. The attendants dresses were mint green silk organza over taffeta and fashioned with hem length streamers highlighting the skirt backs and they wore matching

headpieces of silk organza roses and leaves sprinkled with pearls.

Teddy Fangman served as best man. Groomsmen were Jimmy Marnell and Eddie Vanhaus and Wayne Jesko and Leonard Vanhaus were ushers.

Following the marriage ceremony a reception honored the couple in the Parish Hall in Happy.

Mrs. Fangman graduated from Happy High School and was

employed by Taylor Evans Seed Company of Tullia, prior to her marriage. The bridegroom is a Friona High School graduate and is now farming near Friona where the couple will make their home.

Mrs. Gee Speaks At Club Meeting

Mrs. J. T. Gee was guest speaker at the regular meeting of the Fun and Fancy Club on May 4. Her subject was "Etiquette."

Roll call opened the meeting, and each member answered with "Places I would like to visit this summer."

Mrs. G. A. Collier, hostess, served iced tea and cookies to Mesdames Gee, Glenn Mingus, Lloyd Mingus, Lee Renner, Bill Bandy, Doyce Barnett, Billy Dean Baxter and Marvin Jordan.

The home of Mrs. Jordan will be the scene for the next meeting June 1.

Kay Johnson Hosts Senior Trebelairs

Wednesday evening at 6 p.m. Kay Johnson was hostess to a buffet supper in the home of her parents, Mr. and Mrs. Herschel Johnson, honoring members of the Trebelairs. Senior members were special guests.

The eight seniors present were Jere Buske, Janet Smith, Jimette McLean, Mary Ann Boggess, Jo Ann Altman, Beth Akens, Karen Turner, and Debbie Hawkins. Juniors were Sharon Reeve, LaVoyce Burrow, Carol Ray and Kay.

Others attending were Mrs. Roy Miller, Mrs. John Burrow, Mrs. Jim McLean and Kathy and Mrs. U. S. Akens.

Quartets Present Musical Program

Two quartets, Sunnyside and the Friona quartet, presented a musical program in the Community Center at Black Saturday evening.

Members of the Sunnyside quartet were Arlie Green and John King from Sunray, Charlie Downing, Dumas, and Howard Stewart from Amarillo. The Friona quartet members are Forrest Osborn, Herbert Day, Wayland Ethridge and Frank Claborn. They were accompanied by Mrs. Anna Mae Thomas at the piano.

Musical numbers consisted of songs by each quartet, solos, piano solos, duets and songs with the audience participating.

Burl Fish, community chairman, was in charge of arrangements. Do-nuts, coffee and cold drinks were served by Mr. and Mrs. Johnny Mars, Mr. and Mrs. Bruce Parr and Mr. and Mrs. Harry Lookingbill.

LOCALS

Mr. and Mrs. Guy Latta visited Mr. and Mrs. Kenneth Latta and Morna Sue of Roswell, N. Mex. the past weekend.

Mr. and Mrs. Marvin Jordan were in Childress last weekend visiting in the home of Mr. and Mrs. Frank Hill and family. Mrs. Hill and Mrs. Jordan are twin sisters.

Mrs. T. I. Burleson Presents Program

Mrs. T. I. Burleson presented a program on "accessorizing the home" at a recent meeting of the Hub Home Demonstration Club in the community building.

A film of various rooms, color schemes also different periods of furniture was shown. Suggestions of the right and wrong ways to select accessories for the home were made.

Mrs. W. E. Stringer conducted the business session with eight members answering roll call with poems, safety hints, sewing tips, good manners, jokes and "remember when" items.

Mrs. John Renner presented a skit on proper accessories for a basic suit. She modeled a beige suit with various colored costume jewelry, hats, gloves, shoes, and purses to match. Mrs. Renner and Mrs. John Hand demonstrated the proper method of buttoning, unbuttoning and removing a coat.

Mrs. Paul Daniel served refreshments to Mesdames Renner, Hand, Stringer, Daniel, Burleson, Jack Shirley, Albert Cannon, A. E. Cannon and one guest Mrs. Jack Tomlin of Dimmitt.

Fourteen of the club members played games of 42.

Auxiliary Notes Nurse's Week

National Hospital Nurse Week will be observed from May 6 through the 12 with special events by the local auxiliary, reports Mrs. Guy Latta, chairman of hospitality and special events committee.

"Your Hospital-Uniting Science and Personal Care" will be the theme, emphasizing the hospital's use of science to implement and enhance "tender, loving care."

A tea is planned for the personnel of the Farmer County Community Hospital and auxiliary members will send flowers to the hospital.

LOCALS

Mrs. I. V. Day and Mrs. Bee Westbrook returned to Friona recently following a two weeks visit in San Bernardino, Calif. Mrs. Day, accompanied by her grandson, Danny Day of Lubbock, visited in the home of Mr. and Mrs. T. E. Armstrong and Mr. and Mrs. W. T. Redfern.

Carlsbad Caverns, New Mexico's only National Park, have been explored to a depth of 1,100 feet where there is the beautiful Lake of the Clouds. Trails take visitors to the 827 foot level, but due to inaccessibility, lower levels of the limestone decorated cavern are not open to the public.

Mrs. Benge Has Recital

Mrs. Jane Benge will present the following pupils for a musical recital Thursday at 8 p. m. in the auditorium of the First Baptist Church.

They are Tanya Chester, Teresa Bingham, Debbie Benge, Connie and Lou Whaley, Jill and Kay Riethmayer, Pamela Maynard, John Bingham, Amelia Sims, Kathy Anderson.

Tresa Taylor, Mary Short, Susan Mills, Ronnie and David Williams, Vicki Renner, Phyllis Renner, Cella and Susan Vestal, Karene Milner and Karen Maynard.

Women's Class Has Luncheon

A covered dish luncheon was served at 12:30, May 2, in the basement of the Congregational Church to members of the Women's Fellowship Class.

Election of officers and committees followed the luncheon and social hour. Elected were Mrs. Elmo Dean, president; Mrs. Walter Lovelace, vice-president; Mrs. Bert Shackelford, secretary-treasurer; Mrs. Marie McKee, reporter; Mrs. Pearl Kinsley, Spiritual Life chairman and Mrs. Melinda Schlenker, Social Action chairman.

Meeting dates have changed to the first and third Tuesday afternoons of each month.

Class Members Have Coffee

Members of the Golden Circle Sunday School Class honored four Sunday classes of the First Baptist Church with a May Day Coffee in the Friona Club House May 1 at 9:45 a.m.

Mrs. Calvin Talley presented a review from the book, "Preacher's Kids."

Fruit cups, rolls and coffee were served to forty-three guests from a refreshment table laid with a white linen cloth and decorated with a Maypole centerpiece.

LOCALS

C. F. Loflin, Mrs. Sam Jones and Mrs. Juan Eskew attended the funeral services conducted for George Loflin in Apache, Okla. Thursday. George was the brother of C. F., and a former resident of Friona.

Mr. and Mrs. Jerry Loflin visited Mr. and Mrs. Hugh Randall and family in Oklahoma City the past weekend.

Mrs. Ralph Shirley Hosts Friona Club

Members of the Friona Home Demonstration Club met in the home of Mrs. Ralph Shirley May 9.

A business session preceded the program. Health cards were

presented to each member to be carried in billfolds or on the person. It was decided to make a

Party Entertains Bank Employees

Mr. and Mrs. Frank Spring and Mr. and Mrs. Charles Allen were host to a supper and party Thursday evening in the back yard of the Spring home entertaining employees of the Friona State Bank and their guests.

Attending were Nicky and Pete Nichols, Mr. and Mrs. Wright Williams, Clyde and Lola Goodwine, Mr. and Mrs. Valton Howard, Dale Smith, Jere Buske, Nelda Douglas, Mike Ellis, Jane Fulgam, Gayle Knight, Jerry Hinkle and Vernelle, Janice and Joe Cunningham.

donation to the Foreign Exchange Student Fund. Also Mrs. A. H. Boatman was elected as nominee for delegate to the state THDA convention in Dallas September 19 and 20.

Miss Musil, H.D. agent, presented a program on canning processing, demonstrating how to test a pressure cooker and the proper method of preparing foods for canning.

Mrs. Earl Drake won the door prize.

Mrs. Shirley served refreshments to Mesdames L. D. Taylor, Drake, J. B. Williams, Boatman, Walter Cunningham, and guests. Mrs. Bill Morgan and Miss Musil.

Club Members Name Officers

New officers were elected at the recent meeting of the Kinsley Past Matron's Club in the home of Mrs. Earl Chester. Mrs. Mack Bainum conducted the business session following a devotional given by Mrs. Charles Russell.

Officers elected were Mrs. Bainum, president; Mrs. Russell, vice-president; Mrs. Pearl Kinsley, secretary; Mrs. Claude Miller, treasurer and Miss Fay Southward, reporter.

Roll call was answered with a Shepherd and Bible verse, followed by the presentation of an appreciation gift to Mrs. Bainum.

Mrs. Chester served pink cake and punch to those attending.

The next meeting will be June 8 in the home of Mrs. J. T. Guinn.

Mr. and Mrs. Sam Jones and Mrs. J. W. McMahan spent Saturday and Sunday fishing at Conchas Dam in New Mexico.

Tila Rue Hester Attends Meeting

Tila Rue Hester will leave Lubbock at 1 p.m. Saturday for Houston where she will attend a nurse's meeting.

She will represent the Lubbock West Texas Hospital at the annual State Convention for Certified Registered Nurse Anesthetist. The three day convention will be in the Statler Hotel.

Tila Rue is the daughter of Mrs. I. V. Day of Friona and is a graduate of the Harris Hospital in Fort Worth.

BLACK NEWS

BY MRS. GENE WELCH

The Black Home Demonstration Club met Thursday morning in the home of Mrs. Delton Lewellen. Our county agent, Miss Musil, had charge of the program. She demonstrated one step, cold pack canning, and also gave points on storing and cleaning pressure cookers. The next meeting will be Thursday, May 17, in the home of Mrs. Johnny Mars. Refreshments were served to mesdames, Fern Barnett, Bill Carthel, Byrl Fish, Clyde Hays, Rosco Ivie, Johnny Mars, Tom Presley, Ralph Price, Dick Rocky, Ellis Tatum, to the guest, Miss Musil and hostess.

Mrs. Les Gibson visited her sister, Mrs. Ray Fowler in Amarillo on Saturday.

Mrs. Travis Stone, Mrs. Byrl Fish, Mrs. Rosco Ivie, Mrs. Tom Presley, Mrs. Dick Rocky and Mrs. Ellis Tatum attended the cooking school in Hereford on Friday.

Mrs. Ollie Beckham and Mr. and Mrs. Hal Rheims and daughter of Santa Anna, California are visiting in the Tom Presley home. Mrs. Beckham is Presleys' sister.

Attending the wedding Thursday afternoon of Leona Zenhouse and Arnold Fangman in Happy were Mr. and Mrs. Gus Schallb, Mrs. Dick Rocky, Mrs. Fern Barnett, Mrs. Rosco Ivie, Mrs. Tom Presley, Mrs. Clyde Hays, Connie Stone spent Friday night on a girl scout outing at Hub.

Mr. and Mrs. Harland Frye, Mr. and Mrs. Charles Frye of the Easter community and Mr. and Mrs. Houston Frye of Tulsa, Oklahoma were S-turday night supper guests in the George Frye home.

Mrs. Ralph Price and Mrs. Bill Carthel went with the fourth graders on their end of school trip Friday. They went to Clovis for dinner and back to Farwell and went skating.

Veveca Welch and Steve Stone went with their classes on Wednesday for their end of school trip. They picnicked at the park in Hereford then went on to Canyon and through the Museum.

Mr. and Mrs. Bill Carthel and boys made a business trip to Amarillo on Saturday.

Mr. and Mrs. Mart Stone, Mrs. Hoye Butler all of Lamesa and Mr. and Mrs. Bill Stone of Ackerly visited Sunday in the Travis Stone home.

In observance of National Home Demonstration Week the Hub club hosted a breakfast for the county members, those attending from Black were, Mrs. Bill Carthel, Mrs. Fern Barnett, Mrs. Tom Presley, Mrs. Ralph Price, and Mrs. Dick Rocky.

Clyde Lyndon Hays left Thursday to return back to Camp Chaffee, Arkansas where he is stationed. He had been home about a week visiting with his parents.

Mrs. Ellis Tatum, Mrs. Ralph Price, and Mrs. Fern Barnett were in Farwell Monday afternoon attending home demonstration council.

Sammy Bailey, Jerry and Wade Coker and Susan Carmichael were in a piano and voice recital Thursday night at the Methodist Church under the direction of Mrs. Eva Miller. They were in the junior division and performing in the elementary division on Sunday afternoon were Cyndee Bailey and Donna and Kim Parr.

Mr. and Mrs. R. E. Barnett and Mrs. Fern Barnett went to Lubbock on Friday and returned on Sunday. Mr. and Mrs. Barnett visited in the home of their daughter, Mrs. G. L. Brock, while Mrs. Fern Barnett visited her children, Wesley, Judy and Betty.

Mrs. K. E. Deaton, Mrs. Ellis Tatum and Pammy Tatum attended an antique sale in Amarillo on Saturday. Little Pammy spent last week visiting in the Tatum home.

Mrs. Earl Harkins and children visited in the Gene Welch home Tuesday afternoon.

Mrs. Nelson Coon was honored with a farewell shower at the Black community house Monday morning. Hostesses were Mesdames Mac Batnum, L. B. Blake, Ralph Shelton, Fern Barnett, Ellis Tatum and Mae Magness. Those attending or sending gifts were mesdames; L. W. Loafman, M. H. Hilley, M. B. Buchanan, J. R. Euler, Raymond Milner, D. C. Herring, C. W. Tannahill, Thurman Bartlett, George A. Jones, Rex Blackburn, Johnny Miller, Ross Terry, Russell O'Brien, R. W. Jones, O. L. Rankin, L. A. Milligan, E. L. Fairchild, Bill Buchanan, Arthur Drake, Noel Woods, Jow Talley, Hop Lewis, Wright Williams, O. J. Beeme, Casey Dunn, Dalton Caffey, Ernest Osborn, Gary Brooks, Marvin Strouge, Miss Betty Barnett and Cynthia Caffey and the hostesses.

4-H Members Offered Activity Varieties

From extension cords to electronic computers--that's a description of the variety of items which can be made by boys and girls enrolled in the 4-H electric program.

Conducted by the Cooperative Extension Service under the sponsorship of the Westinghouse Educational Foundation, the program has grown into a highly successful activity in all 50 states. It began in 1936 with about 48,000 4-H members enrolled. Through the efforts of trained leaders using special educational materials, it has grown to the 1962 enrollment of about 150,000 club members.

These young people benefit through the "learn-by-doing" approach of the 4-H programs while their homes and families gain many useful items which are made during participation in the program. Additional incentives are provided by Westinghouse, through the National 4-H Service Committee, in the form of college scholarships, educational trips and honor medals.

Medals are presented to county winners; state winners receive an all-expense trip to National 4-H Club Congress in Chicago, and six national winners are each awarded a \$400 college scholarship. The county having the best rated electric program in the state receives a recognition plaque.

Through the help and leadership of volunteer 4-H leaders, county extension agents and other qualified personnel, this state-wide program fulfills a need of youth for a better understanding of the fundamentals of heat, light, power and communications.

To Recognize 4-H Citizens

During the coming months, over 2 1/4 million 4-H boys and girls will be establishing records which will earn two of them national recognition as the outstanding 4-H boy and girl citizens in America.

Also at stake are awards for the top boy and girl 4-H citizens in each state. The awards are based on the demonstration of praiseworthy participation in public affairs, civility, welfare, community betterment and club responsibilities.

The national winners will receive an expense-paid trip to the 1962 National 4-H Club Congress in Chicago. The top-rated boy and girl in each state are given a certificate of honor, usually presented them during a special 4-H recognition event.

Conducted by the Cooperative Extension Service, the program is sponsored through the National 4-H Service Committee by a fund set aside for the purpose in memory of the late Thos. E. Wilson of Chicago, who, during his lifetime, gave both moral and financial support to the 4-H program.

National award winners in this program will be in line for one of the 4-H program's highest honors - being named to represent 4-H members during National 4-H Club Week next March.

Joel Landrums Have Baby Boy

Mr. and Mrs. Joel Landrum became parents of a new son May 9, at 2:50 a.m., in the Parmer County Community Hospital.

He was named Bennett Ray and weighed eight pounds and six ounces.

The baby has an older brother, Brian, and grandparents, Mr. and Mrs. Ray Landrum of Friona and Mr. and Mrs. Emmett Callaway of Texhoma, Okla.

Great grandparents are Mr. and Mrs. C. W. Dixon, Friona; Mr. and Mrs. Upchurch, Holdenville, Okla., and Mrs. J. L. Landrum, Tucumcari. One great-great-grandparent, Mrs. G. M. Bullard of Floydada.

LOCALS

Guests visiting in the home of Mr. and Mrs. Jerry Brown of Lovelland Sunday were Mrs. Treva Reece of Canyon; Mr. and Mrs. Arthur Drake, Peggy and Betty, Floyd Reeve and Mrs. A. O. Drake all of Friona.

The four elevators at Carlsbad Caverns National Park in New Mexico transport 1,200 persons an hour. The 754 foot trip to or from the subterranean wonderland takes 57 seconds.

Highway 60 Contract Let

Seal coating of Highway 60 in Parmer County is scheduled to begin in the near future. A contract for 39.5 miles of construction on U. S. 60 in Parmer and Castro County has been awarded to an Amarillo firm, it was announced in Austin this week by the State Highway Commission. Gilvin-Terrill, Inc., submitted the low bid of \$207,240, on the project. Application for hot mix asphalt concrete pavement from New Mexico State Line to Deaf Smith County Line is expected to take 100 working days, according to Oscar L. Crain, district highway engineer at Lubbock. Rhea Bradley, resident engineer at Littlefield will be in active charge of the project while it is under construction.

Tech Professor Studies Egypt's Grain Condition

Climatic conditions and farming methods causing a food and grain shortage in Egypt were studied by Dr. J. Wayland Bennett of Texas Tech during his 23-day mission to Egypt. Dr. Bennett, an agricultural economist, has just returned from Cairo and vicinity where he conducted a survey of the market potential for grain sorghum. The survey study trip was sponsored by the U. S. Feed Grain Council, a private agency; Grain Sorghum Producers

Assn., a member of the Council with headquarters in Amarillo; and the USDA's Foreign Agriculture Service. Bennett left the United States on April 6 and returned April 30. He spent last June and July on a similar mission to Nigeria, Liberia and Sierra Leone in West Africa. Dr. Bennett said that the survey was made in accordance with Public Law 480, which provides that agricultural products may be made available to underdeveloped nations,

whereby they pay for the products in their own money. Up to 75 percent of the country's money (in this case, Egypt's) can be returned to her at a low rate of interest to be used by that nation in development projects related to the utilization of food grain. "In visiting with the government officials in the Ministry of Agriculture and Supply, they each stressed an interest in developing their agriculture to raise their population above the subsistence level of consump-

tion," Dr. Bennett said. "More people are engaged in agriculture and small trades than in any other fields," he said. The Egyptian government has requested the privilege to purchase up to 500,000 tons of feed grain from the U. S. during the current fiscal year. In addition to Egypt's request for feed grains for their livestock industry, they have been granted under the famine-relief clause of Title II of Public Law 480 an additional 200,

000 tons of yellow corn for human consumption. "Egypt has a livestock industry that is undernourished and particularly nutrition-deficient in feed grains," Dr. Bennett said. "It would be an understatement to say that Egypt does not need the amount of grain they have requested from our country," he said. "They have adequate feed in the winter months, from December through May, from heavy plantings of berseem clover."

During summer months the livestock is fed on an improperly balanced ration of cottonseed cake, wheat bran, rice bran and molasses. During the summer when they plant corn for winter use, the farmers strip the lower leaves of the corn stalks to feed the livestock. In addition, they scrounge for weeds along the canals and graze their goats along the roads. "It's a real struggle for them to keep their livestock alive 12 months a year--when they barely have an adequate supply for six months," Dr. Bennett said. "We hope to see them move into the dollar market for sur-

plus agricultural productions rather than accept their own money under Public Law 480. The ultimate goal of this aid program is to develop a cash market for our surplus products," Dr. Bennett said. The cow and the buffalo are the major work animals, which consume the most feed. In 1960 there were 1,588,000 cows and 1,525,000 water buffaloes in Egypt. Other animals requiring feed include sheep, goats, camels, horses, donkeys, mules, swine and poultry. He said his conclusions on the market potential for U. S. feed grains in Egypt will be reported to the U. S. Feed Grains Council, a report he is completing.

A & M Hosts 4-H Roundup

Four-H Club members from every section of the state will assemble at Texas A&M College on June 5 for their annual statewide 4-H Roundup. The big day will be June 6 when an estimated 1,800 will be participating in 27 judging and demonstration contests.

The boys and girls who will be trying for state honors have already been named county winners and placed either first or second in their respective district elimination contests. They will be accompanied to the Roundup by their county extension agents, adult leaders and/or coaches. Also in attendance will be members of the Texas 4-H Club Recognition Committee and Friends of 4-H.

The annual barbecue, sponsored by the Recognition Committee, will be the program feature for the first evening of

the Roundup. Special entertainment on the second evening is also made possible by the Committee.

The contests on June 6 will get underway -- some by 7 a.m. -- and all will be concluded by midafternoon. Winners will be announced later in the afternoon, and several will be eligible to participate in national contests to be held later in the year.

After breakfast on June 7, the annual statewide 4-H meeting will be officially over but as has been the case for more than half a century, it be an unforgettable experience to the 4-H members who participate in its activities and contests.

"So your wife was awfully mad when you got in at three," commented a friend. "What did she say?"

"Well, nothing much," said Jones, just returned from the hospital. "And I was going to have those teeth out anyway."

Charter members of the Home Demonstration Clubs in Farmer County are Mrs. A. H. Boatman of Friona H D Club and Mrs. Thomas Presley of the Black club. Also pictured are delegates sent to the District THDA meeting in Pampa April 12. They are (L to R) Mrs. Joel White, Oklahoma Lane, Mrs. J.D. Sanders, Friona, and Mrs. Ralph Price, Black.

County Clubs Celebrate National H.D. Week

Farmer County Home Demonstration Clubs celebrated National Home Demonstration Club Week, with a Coffee in the Hub Community Center, Tuesday, May 1 at 10:00 a. m.

Mrs. J. D. Sanders, Home Demonstration Council chairman, presided as emcee during the program. After the members were served District Texas Home Demonstration Association reports were summarized by Mrs. Ralph Price, Mrs. J. D. Sanders, and Mrs. Joel White, delegates to the meeting in Pampa, April 12.

Club histories of each of the eight home demonstration clubs were presented by club presidents, vice presidents, or historians. Most clubs were organized in 1954, however; others started as early as 1916, 1931, and 1932.

Names and office tenures of each of the county home demon-

stration agents was reported by Miss Ettie Musil, present agent. First agent was Ruby Fincher in 1915, followed by Rozelle McKenney, Margaret St. Clair, Ruth Boyd, Elsie Cunningham, Corinne Stinson, and Jimmie Lou Waincott.

A colorful maypole and spring flowers decorated the Hub Community Center for the theme of Spring. Hub HD Club cleaned the building, decorated the building with maypole and arranged tables decorated with white pastel center streamers.

Northside HD Club decorated the tables with bouquets of flowers and May baskets. Rhea HD Club made small spring hats for name tags and registered the guests.

Friona HD Club was in charge of the program. Coffee, doughnuts, and sweet rolls was served by Lazbuddie and Oklahoma Lane HD Clubs. On the clean-up committee were Black

and Midway HD Clubs.

Plastic orchid corsages were presented to each of the club presidents and Mrs. A. H. Boatman and Mrs. T. J. Presley, charter members of the first clubs. Miss Musil also received an orchid corsage.

Screwworms Spreading

County Agricultural Agent Deryl Coker reports that because of extremely favorable weather conditions for screwworm activity, screwworms have spread into Central and West Texas, most of the counties in the Edwards Plateau and about half the counties in the Trans-Pecos area.

Coker says that plans are being made to expand the sterile screwworm fly release area to include most of the infested area. The majority of the sterile flies being produced will be released in a barrier zone which will encompass the northern edge of the screwworm infested area.

He encourages all livestock producers to inspect all livestock regularly, to treat all wounds promptly, and to collect ten or more worms from deep in the wound and bring them to his office.

FOOTSAVING EDUCATION

by James E. Edwards

Why is it that neighbors' children get along very well with ill-fitting shoes?

In a survey of shoes conducted in the public elementary schools of Lorain, Ohio, it was found that 3,000 of the 4,000 children were wearing shoes that were one half to three and a half sizes too short.

Each child was asked "How do your shoes feel?" Every child but one said, "Swell -- Fine -- Good" etc.

Medical textbooks confirm the conclusion that children's feet do not hurt internally. The same "high" pain threshold" that allows a baby to sleep blissfully in cold wet diapers also allows his feet to be deformed by ill-fitting shoes without pain at the time. Chinese babies whose toes were turned under and bound until deformed must not have screamed as they ought. At the age of sixteen when the bunions and hammer-toes begin to hurt, it is too late for anything except surgery to straighten the deformed feet. Your neighbors' children will probably become footsore parents who will take good care of their children's feet, Orthopedic Shoes Fitted To Your Dr.'s Prescription

FOR STATE REPRESENTATIVE, 91st DISTRICT

HD Agent's Notes

BY MISS ETTIE MUSIL

Busy, busy, busy! Everyone is busy! Cotton and grain sorghum is being planted. Gardens are coming up for tasty fresh vegetables. And final exams and school graduations complete the full schedule for everyone.

This all adds an extra load on the family car and the farm pickup. Transportation costs are always at an all time high at this time of the year.

Let's see how these costs can be cut down. Plan ahead of time so that the number of trips can be held to a minimum. Write a list of the places to go for shopping or information so that none would be forgotten.

Do keep the car in good repair and start off gradually. Car manufacturers recommend maintaining a steady, moderate speed for best economy of gas mileage. They also advise drivers coming to a stop by releasing the gas feed rather than

by excessive use of brakes. Then do not start the engine until every family member is ready to go.

Proper handling and storage of foods is extremely important in keeping down food costs. Potatoes, for instance, need careful storage and keep best in a dark, dry, well-ventilated place. In a warm room, potatoes shrivel and sprout, and in a cold place the starch in potatoes changes to sugar.

Did you know that citrus fruits, melons and pineapples actually have better keeping qualities when stored out of the refrigerator. Room temperatures of 60 to 70 degrees Fahrenheit are ideal for these fruits.

However, it is advisable to refrigerate eggs in the original container or some other covered container. Uncovered eggs lose moisture through their

Tests Show Skip-Row Cotton Planting Most Profitable

Researchers at the Big Spring Field Station have made an economic analysis of profits from dryland cotton skip row systems. They have found that where all cropland is planted to cotton and grain sorghum, the plant two, skip two system for cotton is most economically profitable.

Until the recent change in the cotton allotment program, farmers had to skip four or more consecutive rows between cotton rows in order that the unplanted acreages would not be charged against their cotton allotment program for 1962, however, does not require that four rows be skipped in order for the unplanted area not to be charged against the allotment.

Cotton yields from two skip row combinations and a system where no row was skipped were compared at the Big Spring Field Station during 1958 to 1961. In all cases, cotton was grown on an Amarillo fine sandy loam soil and 40-inch rows were used. These data were used to compute a four year average yield per acre of cropland for each of the row systems.

The row systems tested were: (a) the standard 40-inch row, (b) plant two rows and skip one row (2 x 1), and (c) plant two rows and skip two rows (2 x 2). A 40-inch system, planted in solid rows, requires a full acre of cotton allotment. The two skip row systems require less than an acre of cotton allotment per acre of cropland since some rows are left unplanted. The 2 x 1 skip row system requires two-thirds of an acre of cotton allotment for each acre of cropland, and the 2 x 2 skip row system requires one-

half acre of cotton allotment for each acre of cropland.

The cotton allotment requirement of each skip row or non-skip row system is important in determining the total farm profit because it dictates the total acres of cropland that can be occupied by cotton.

Assume a farm situation with 300 acres of cropland and 105 acres of cotton allotment. How many acres of cropland can be occupied by cotton under each of the three row systems? First, the 40-inch row system would obviously occupy 105 acres of cropland as the cotton is planted in solid rows, 40 inches wide. Thus, the remaining 195 acres would be available for grain sorghum production. Second, the 2 x 1 row system would occupy 157 acres of cropland as only two-thirds acre of cotton allotment is required per acre occupied. Hence, 143 acres would be available for grain sorghum production. Third, the 2 x 2 row system would occupy 210 acres of cropland as they only require one-half acre of

cotton allotment for each acre occupied by cotton. With this system, only 90 acres would be available for grain sorghum production.

In this study, returns over cash expenses was used instead of net farm income. If a period greater than one year had been considered, fixed costs associated with each system would have been included. The cash returns from cotton were approximately the same (\$65 per acre) for the 40-inch rows and the 2 x 1 row system.

The returns per acre for the 2 x 2 row system was \$57.82. Grain sorghum planted in 40-inch rows returned \$17.95 per acre. These returns are based on prices of \$0.30 per pound for lint cotton, \$45 per ton for cottonseed, and \$1.60 per hundredweight for grain sorghum. It was assumed in this study that all land not occupied by cotton would be planted to grain sorghum. This, of course, does not include the rows skipped between cotton rows since this land is left fallow.

The HAPPY HOMEMAKER

BY JUNE FLOYD

It has been said that whenever or whenever two homemakers get together the conversation soon gets around to recipes. To homemakers this is a perfectly normal situation, but sometimes their husbands take a different attitude.

A very interesting recipe was brought to me recently by one of the faithful readers of this column, Mrs. Gilbert Schueler of the Rhea community. Of course, the incident didn't really happen, but it makes interesting reading.

Mixed Up Recipe
A brand new bride was so interested in making a collection of recipes that she didn't want to miss a single one that was read during her favorite radio program in the morning.

One morning it was impossible for her to be at home at the appointed time, so she asked her husband to listen to the program and copy the recipe given.

This he attempted to do, but he had two programs going at the same time. As one announcer read the recipe another directed his program of morning exercises for the homemakers.

Following is a transcript of the husband's effort to add to his wife's collection. Needless to say, she probably was very proud of this particular recipe.

"Hands on hips, place one cup of flour on shoulders. Raise knees and depress toes. Then wash in one half cup milk in four counts. Raise both legs and mash two hard boiled eggs through a sieve. Repeat six times.

Inhale one cup of flour. Breathe through the nose and sift. Attention! Jump to a strike. Stand and blend the white of an egg backward and forward over the head in four counts making a stiff dough that will stretch or hop backwards and run forwards in boiling water.

Let stand ten minutes then remove from fire and dry with turkish towel. Breathe deeply, put on a bath robe and serve with fish soup."

Summer time is definitely salad time and tossed salads rate high for any noon or evening meal. For perfect green salads that are crisp, fresh and lovely, observe the following rules:

1. Select vegetable greens

of good quality - firm green heads of lettuce, lacy-leaved green escarole or endive, young green spinach. Discard wilted or discolored leaves.

2. Wash before storing. Drain on paper or cloth towel to dry; or shake in a wire basket. Store in refrigerator vegetable crisper, covered glass jar or plastic bag.

3. Tear greens into bite-size pieces - do not cut with knife.

4. Toss ingredients lightly to avoid bruising lettuce.

5. Add salad dressing at last minute.

Slaw is one of the oldest and most popular salads. Try this recipe for

Old-Fashioned Cabbage Slaw

- 1 teaspoon salt
- 1/4 teaspoon pepper
- 1/2 teaspoon dry mustard
- 1 teaspoon celery seeds
- 2 tablespoons sugar
- 1/4 chopped green pepper
- 1 tablespoon chopped red pepper or pimiento
- 1/2 teaspoon grated onion
- 3 tablespoons salad oil
- 1/3 cup white vinegar
- 3 cups finely chopped or shredded cabbage

Place ingredients in large bowl. Mix well. Cover and chill thoroughly. Garnish with tiny Italian tomatoes and green pepper slices for color appeal. Other garnishes may be water cress and sliced stuffed olives, if desired.

For a one minute salad that is very easy to make, try this one. The dressing is made right in a wooden bowl and then the greens are added to it.

Minute Salad Bowl

- 1/2 clove garlic
- 1/4 teaspoon prepared mustard
- 1 teaspoon salt
- few grains pepper
- 1/4 teaspoon Worcestershire sauce
- 1 1/2 tablespoons vinegar
- 1/4 cup salad oil
- 1 quart assorted salad greens

Drop garlic clove in wooden bowl. Add mustard, salt, pepper. Blend thoroughly with fork. Add Worcestershire sauce, vinegar and salad oil.

Beat with fork until thoroughly mixed. Remove garlic. Add crisp, well-drained salad greens, broken into bite-sized pieces. Toss lightly until all greens glisten. Serve at once.

Profits Depend On Resource Use

Many Texas farmers and ranchers are asking how they can make more profit. Cecil Parker, extension farm management specialist, points out that before a profit can be made, something must be produced. This production requires land, labor, capital and management.

Since any one producer has a fixed supply of one or more of these resources, the amount he can produce over a short period of time is limited. Over a longer period, however, the supply of resources may be increased, thus increasing potential crop and livestock production.

Profits now and in the future depend on how well the producer uses his available resources, says Parker. Maximum utilization of resources requires careful study and analysis, and thus a complete inventory of each resource.

An inventory of all the land you control is a good place to start, says Parker. A knowledge of the various types, capabilities and acreages of each is necessary in planning cropping systems. Make and keep a yearly plan for each field, showing rotations, crops grown, fertilizer used, cultural practices and yields. This will prove to be very valuable.

It is also important to study your labor requirements for the

the need for capital investments, suggests Parker. It is important to study carefully your capital needs and plan how to use available capital to the best advantage.

What is the condition of your machinery and equipment? Are your building facilities adequate? Inventory all these items and evaluate them for optimum use, advises the specialist.

Contact your local county agent for ideas on the use of your resources for maximum profits from your farming operations. The trouble taken to complete this analysis will pay dividends, concludes Parker.

Cattle Market Strong

Higher prices was the primary feature in the fat cattle market during April, with the higher grading kinds in strongest demand.

Fed slaughter calves which were in liberal supply last month have moved to market rapidly during the month and the supply of this type cattle is not adequate to meet the demand at present prices, according to the latest Monthly Summary published by the Cattle Feeders Division of the Texas and Southwestern Cattle Raisers Association.

Lloyd Bergsma, director of the Cattle Feeders Division, said fed cattle prices continued strong during the month and at the month's end looked steady to 75 cents per hundred higher. The increased demand for choice cattle resulted in a wider margin between the price of choice and lower grading cattle.

For the week ending April 21, 1962, choice 900-1100 pound steers in Chicago averaged \$2.33 above the level for the same week last year. In Denver, choice 700-900 pound heifers were \$2.00 above last year. Feeder operators, faced with paying higher prices for feeder cattle, are moving cautiously.

News Special!

I wish to take this opportunity to thank you folks who voted and worked for me last Saturday. I will always be indebted to you for your support. Many have asked what my intentions are now as I did not make the runoff. I am always concerned about good Government and will work and support BILL CLAYTON in the runoff because I believe he is the best qualified to represent us in Austin. Again I thank you for your support.

News Special!

It is with deepest gratitude that I use this opportunity to personally thank each and every one of you who supported me in Saturday's election. The confidence you have placed in me will always be held in sacred trust. Probably you already realize that the runoff primary June 2nd, is just a short time away. We have a lot more work to do and with your continued support we can again come out on top. Again let me say in all sincerity and humility thank you for your support.

Bill Clayton

Management Training Interests Farmers

A series of farm management meetings held recently in several Gulf Coast counties by the Texas Agricultural Extension Service emphasizes the interest of Texas farmers in this subject. Alfred Byrd, extension farm management specialist for the Gulf Coast area, says attendance was excellent and most of those attending were highly interested in improving their knowledge of the subject. A questionnaire was given to the farmers attending the meetings and approximately two-thirds returned it. Of those

answering, 96 percent indicated a desire for more meetings on the subject of management. The same number indicated an interest in attending a basic farm management course. Byrd reports that one county is already making plans for a series of management meetings to meet the local needs.

The reaction of those who attended the meetings is in line with what more and more farmers are beginning to realize. Technical know-how is essential but today's farmer must also have a sound knowledge of management principles and practices if he is to successfully compete with other agricultural producers in his area.

B. Q. Elder of Hub reloads his planter box with Gregg cotton during the middle of the cotton planting rush. By the middle of this week, 85 per cent of the planted, according to Deryl Coker, county agent. Further, all up by the end of the week. "The dry weather has helped even every other row to get the cotton up. If we don't have any or seedling diseases and early insect damage," Coker said.

WITH THE COUNTY AGENT

DERYL COKER

Johnsongrass control is easier, when heights of 12 inches or less exist so during the first part of May would be a good time to take control measure.

Chemicals for controlling small patches of established Johnsongrass are sodium chlorate, sodium dalapon and toxic oil.

Toxic oil applied to the crowns of 6-inch Johnsongrass sprouts is the most selective practice for controlling it in row crops. A mixture of half naphtha and half diesel fuel oil and kerosene, or diesel fortified with 1 quart of 90 percent C-56 is satisfactory for this purpose. Ordinarily three or more treatments at about 10-day intervals are needed to eradicate the grass.

If you plan to use a jet-gun type sprayer, a very good one can be obtained from the Gibson Machine Shop, 804 East 27th Street, Bryan, Texas. This sprayer has a tank that straps on your back and a fuel pump diaphragm that will give the required pressure each time the trigger is squeezed. This rig sells approximately for \$15.00.

Sodium dalapon at 1 to 2 pounds in 10 gallons of water is effective when applied to new growth of Johnsongrass 6 to 10 inches tall. Usually two or three sprayings at about 2-week intervals eradicate the grass. The use of sodium dalapon is recommended for nonselective spraying of Johnsongrass on sites where

sterilization of the soil is objectionable.

Sodium chlorate at 5 pounds per square rod will eradicate Johnsongrass any time during the season. Rainfall or irrigation is required to leach the chemical into the soil where plant roots can take it up. The use of sodium chlorate is best on sites where sterilization of the soil for several months is not objectionable.

Fields badly infested with Johnsongrass should be rotated to a fallow-wheat-fallow rotation until only small patches remain. Sweep tillage should be performed during the fallow years at 3-week intervals, or sooner if the weed threatens to become 10 inches tall. In irrigated areas where Johnsongrass tends to become a problem in row crops, regular rotation of fields to wheat or other small grains is a good practice.

Tillage kills Johnsongrass best under dry conditions, consequently, heavy rainfall or irrigation water on land being fallowed for Johnsongrass control will make the task more difficult.

Texas Agriculturist Important Citizen

When you see someone plowing a field or tending a herd you are looking at one of the more than 225,000 Texas farm and/or ranch operators, says Tom Prater, extension farm management specialist. If this man is the average Texas operator, his annual net income is \$3,630, which is \$307 above the national average.

There is also a good chance that this man has some non-

farm income, says Prater. In 1961, over 109,000 Texas farmers and/or ranchmen reported that they had off-farm employment, and over 96,000 reported that their non-farm income was greater than the income derived from their farming operation.

When this man puts his tractor away for the night he must make the switch from farm laborer to farm manager, and this is no easy feat. He has a sizable investment in his operation and if he is to realize a profit he must manipulate the factors of production carefully. Careful miscalculation can mean the difference between profit and loss, points out the specialist. He must also keep up with the latest technological developments. New methods of controlling insects and plant diseases, new fertilization practices and new management techniques are constantly coming from researchers. The farmer must decide which of these are best applicable to his operation.

All of this describes the average Texas farmer. There are some above average and some below. "Where do you fit in this picture?" asks Prater.
