The above action shot was taken at the Texas Prison Rodeo at Huntsville. This is just one of the many thrilling events offered at the 26th annual Prison Rodeo each Sunday during October in the prison's million-dollar stadium.

Sanderson Loses To Rankin Team

Sanderson's football team lost to the Class B Rankin Red Devils by an 18-7 score there last Friday night. It was a non-conference game.

Rankin tallied first in the second quarter after a sustained drive of 60 yards. They scored again in the same period on a 35-yard pass play.

Rankin's third TD came in the fourth period of the game.

Sanderson's score was when Raymond Elrod fell on a Rankin fumble behind the goal line. The ball rolled into the end zone or the snap from center on a fourth down situation by the Red Devils.

Sanderson boys were badly bruised and sore following the game, according to Coach Carlton Smith because of two weeks of easy-going since their last game, the season opener.

Sanderson will play the Sar Felipe Mustangs in Del Rio or Friday night in another non-conference game.

David Graham, Eagle tail back, saw limited action in Rankin because of a twisted foot and Tommy Werneking has been nursing a knee injury for almost three weeks.

LISTEN TO LUKE

What comes to us from a most reliable source that another well drilled in Terrell County we have a story to this effect in another column. The site of the new hole is in a good location, being only three miles north of the Brown-Bassett well which blew out — a sizeable amount of gas recently.

The well will be on the land owned by Bustin Canon.

We heard rumors of this prospect some weeks ago, and also the probability of one or two more wells, but until more specific information comes out, it's just rumors. These two latest — Chandler and Canon, following the Brown test and the strong indications of the quality of the other talk we heard concerning future drilling.

Such oil play could be a boon to correct our spelling) to the county and to the towns of Sanderson, Dryden and Sheffield. We wonder, however, if they shouldn't be named in reverse order, since Sanderson is the least affected so far by oil talk.

It seems would certainly tend to increase and give revenue, likewise to the county and school. Within itself, would be a return from the industry and its associated transactions. What could be better still for the people here would be the production of new businesses and services for this immediate area.

Sanderson, being the county seat, has a slight edge over any other location for prospective new businesses and industries and it doesn't have a lead-pipe hot on anything.

The town of Dryden is also located on the highway and on the flood and has a lot of flat land to grow in. It is also near the source of present activity and prospective new activity in the immediate future.

At present, oil scouts frequent Sanderson to look at records and leases, etc., and even come here to contact landowners and other related business. Some of the landowners are contacted at their ranches, and some are easily contacted in Dryden.

Everybody in the county, that everybody, should realize that there are three highways leading into Sanderson, there are also three highways leading out of Sanderson, too.

Some of the ideas that are being developed by other towns and communities to draw business, trade, people, industries to their particular towns and areas might be the basis of action to accomplish the same thing here.

The situation concerning the oil trouble in Little Rock particularly, and other places in the South, has developed to a point that is most critical.

There are many things that are involved, so many things, in fact, that people are now for a state of blind and complete ignorance of the potentialities and possibilities of the results of an outcome, or the ways and means of an outcome.

Principles of inherent ideas, attitudes, and actions, principles of states' rights, principles of Americanism principles of morality and principles of Christianity are all in opposing brackets and conflicting views right now.

Even some people have these conflicts within their own minds. For the good of the nation and for the good of the states and for the good of all the peoples (Continued to page 4)

ECONOMY RUN PROVES IT-
CHEVY COSTS
LESS TO DRIVE!**

Test run from Los Angeles to New York by the three leading low-priced cars showed Chevrolet costs less to operate, with up to 17% greater fuel economy!

When fuel and operating costs for cars are officially checked from Los Angeles to New York, that's an economy comparison! And what happened?

In certified NATA* findings, Chevy delivered up to 17% greater fuel economy, and lower total cost for the trip—proof that Chevrolet costs least to operate of the three leading low-priced cars that were tested! But that's not surprising. You expect Chevrolet engines to wring extra miles out of a gallon of gas—just as you expect finer craftsmanship in the way a Chevy is built. we hope that some solution to their ills can be worked out in a sane and orderly manner to restore peace of mind, conscience and action to all concerned.

Somebody, somewhere, developed a new serum. And because they had a new serum, there had to be created a new disease in the minds of the people so that the serum would have a use.

The new serum had to be scarce. And the new disease had to be serious so that the government could control the distribution. Now the only control of an epidemic is in the hands of politicians and bureaucrats again.

So now what used to be la-grippe, colds, flu, etc., has been labelled Asian flu.

But their timing was wrong. No sooner had the news of the discovery of the disease hit the papers, than the cure or preventive was in the next edition practically.

That happened in these United States where we are reputed to be civilized.

Anything to get the government into the medical profession. What will they think of next?

Mrs. O. J. Cresswell Has Ceramics Hobby

Mrs. O. J. Cresswell has realized a long-time ambition with the installation of a ceramics studio in a building adjoining her garage. She recently finished a period of schooling in ceramics in San Antonio and can be found now at early-morning hours either painting, molding or cooking her wares.

Her shop is complete with a kiln, for the baking, paints and molds, plus material for new molds.

She already has several shelves filled with finished ceramics, many pieces of greenware (unpainted and unbaked items) and items she has made in experimentation.

Her ambition right now, she says, is to complete an original mold which will be in demand in circles of ceramics workers so that her business will be more lucrative, plus the feeling of accomplishment that is realized in perfecting such an article.

Her studio, it seems, would be an ideal setting for the practice of such a hobby as hers, since it is well-lighted with natural light, of hollow tile construction for coolness or warmth, is air-conditioned, and it has decorations of drift-wood, a floor-level planter filled with a variety of plants in lush growth, and mainly plenty of room for her work.

Anyone in the community interested in working with ceram-

ics might get a host of suggestions from Mrs. Cresswell and those who are interested in seeing how they are made are welcome to drop by the studio at any time, Mrs. Cresswell said.

Her interest in her hobby is easily absorbed by anyone who visits her shop to see her handiwork.

Cub Pack Has Regular Meeting

The regular monthly meeting of the Cub Scout Pack 60 was Tuesday evening in Fellowship Hall at the Methodist Church.

Mrs. Lloyd Cowan's den led the Pledge of Allegiance to the Flag.

Carlos Dunn, the new Cubmaster, and Mrs. J. E. Cox and Mrs. Y. F. Boley, new Den Mothers, were introduced.

Mrs. Jolly Harkins' den sang several songs.

Mr. Dunn presented Bobcat pins to eight new Cub Scouts, Kenneth Cox, Pat Little, Tommy Gray, Mike Bogusch, Steve Allen, Felix and Chris Boley, and Cas Castner.

The special awards included the Webelof Badge to Clyde Whistler and gold and silver arrows to Jackie Tyler's Wolf Badge.

Bonhomie Club Meets At Hill Ranch

Six members of the Bonhomie Club were present for the regular meeting of the club on Wednesday afternoon in the ranch home of Mrs. Lewis Hill.

After the period devoted to fancywork and conversation, the hostess served German chocolate cake, hot cherry pie, tea, and coffee.

Those present were Mmes. C. F. Cox, James Caroline, Alfred Bendite, B. F. Dawson, E. F. Pierson, and a guest, Mrs. Elma Riley.

Mr. and Mrs. H. L. Surratt and children of Monahans visited here last week-end with his parents, Mr. and Mrs. C. L. Surratt.

Mr. and Mrs. D. E. Brewer of Lubbock visited here the first of the week with her sister, Mrs. W. T. Attaway, and Mr. Attaway.

Mrs. David Mitchell was brought home last Thursday from a Fort Stockton hospital and is recuperating satisfactorily.

Mr. and Mrs. Gene McSparran and son, James Clifton, visited in Hobbs, N. M., for several days last week.

"Tickets" for Texas' 1958 political bouts go on sale next week. Poll taxes, \$1.75 each can be bought from October 1 to January 31.

Holders of the small white tax receipts not only can watch, but participate in the semi-annual struggle to decide who'll be "top dog" for the next two years. In the ring will be contenders for the offices now held by U. S. Sen. Ralph Yarborough, Gov. Price Daniel, Lt. Gov. Ben Ramsey, and so on down the line.

"Ticket" holders can also attend their Democratic and Republican precinct conventions where the first fight for party control will be staged.

Assuming you have \$1.75, paying a poll tax shouldn't be hard. Dozens of groups, Jaycee, labor unions, women voters, etc., plan massive drives. Most voters probably will be able to find a poll tax selling booth within blocks of where they live.

Exact number of potential voters is not known, of course. But some civic leaders hope as many as three million persons will pay their poll taxes. Previous record is 2,410,188 for 1956 a presidential election year.

Another peak is expected in 1960 when census projection show more than 5 1/2 million should be eligible to vote in Texas.

Oil Quotas Sag
Lean days are ahead for Texas' top industry — oil.

After three months on an all-time low producing pattern of 13 days, the Railroad Commission cut the October production to 12 days. Daily allowable will be 2,964,062 barrels.

Major oil buyers at the Commission hearing indicated that any more production would result in an oversupply.

For a state heavily dependent on oil tax revenue and already faced with fiscal problems, the oil cut means tough times for the state budgeters.

Mrs. W. W. Sudduth went to Fort Stockton Tuesday to be with her father, E. L. Brown, who is in a hospital in that city following a heart attack.

Mr. and Mrs. M. W. Duncat returned home Friday from a vacation trip to Corpus Christi Padre Island, and points in the Rio Grande Valley.

Mr. and Mrs. L. G. Hinkle and Glen Bob visited in Kermit the first of the week with his parents.

Mr. and Mrs. Ruel Adams took his mother, Mrs. C. A. Adams, to San Angelo Tuesday to visit with his father who is in a rest home there. Mr. Adams' condition is reported to be improving.

Mrs. Chester Boyd and Mrs. Hinkle Boyd went to San Angelo Wednesday for a medical check-up. Mrs. Ella Humphrey, who had been visiting here with her daughter, Mrs. H. P. Boyd, returned to her home.
