SECTION 1

"The difference between failure and success is doing a thing nearly right and doing it exactly right."

...E. C. Simmons

During last year's Maize Days parade, I stood atop one of the downtown businesses and saw an astonishing number of spectators slouched against cars or sitting and squatting along the path of the parade as the American flag passed before them.

Last week, I am glad to say, the scene was a little different. Only a few people completely ignored the passage of the flag. But, I must admit that few people exerted any great amount of energy to recognize its passage.

And I am proud to say that most of the men went to the trouble to remove their hats which was a great improvement over last year.

An equal improvement next year would result in admirable recognition of the flag -- the symbol of our country.

-TH-

I noticed in a metropolitan paper this week a story describing Ted Kennedy's easy victory in the Massachusetts Democratic primary.

If Ted is elected to the Senate (and there is little doubt but that he will), he will be the third Kennedy to take up a high office in Washington.

Give them a little more time and the whole clan--young and old--will occupy the federal government -- and without bloodshed.

Ted is making a bid for the position vacated by JFK when he decided that the presidency was the job for him. It looks as if he is -- at the early age of 30--planning on following in his big brother's footsteps--all the way to the top.

Between the three of them and the father, it looks as if the Kennedy's may have found a way to get around the constitutional provision which limits the services of any one president to two terms--eight years.

If the three of them followed each other into office and remained for the maximum, the Kennedy's could control the executive spot for a matter of some 24 years.

-TH-

Great, rolling black clouds and short, hard rainstorms threatened to wash out the Maize Days celebration in Friona last week, but each time it looked as if the flood was inevitable and here to stay, it would pass over or around or strike for a short time and cool the sweltering grounds--serving more as a means of relief rather than as a disaster.

When all is considered and in view of the weather during a few of the past such events, I believe everyone would agree that the weatherman smiled upon us this year.

Some of those clouds rolling around the sky carried much more than cooling rain. One of them struck north-west of Olton Saturday while I happened to be visiting in that area. Hail, high winds and rain battered ripening maize into a jumbled mat upon the ground. Cotton stalks were stripped of every shred of leaf and many of the green bales were beaten from the stalks. In several places near the center of the storm, the bark of the cotton stalk was actually stripped from the stalk.

The only consolation for the area is that the storm struck area was only about three miles wide. I did not determine the length of the area and have not heard, but I am sure it is long enough.

Yes, when all is considered, we enjoyed excellent weather last week.

## Spring Elected To ASB Post

Frank Spring, president of Friona State Bank, was elected to a director's position at the organization of the Association of State Banks of Texas in a meeting in Austin September 7.

The association, which will maintain permanent offices in Austin, set up 31 districts. Spring was chosen director of the district which embraces Friona.

QUEEN'S COURT . . . Janet Buckley, center, is shown shortly after being named Maize Queen for 1962 last Thursday. On the left is second alternate, Carolyn Herring, and the first

alternate, right, is Barbara Fallwell. The three young ladies were chosen from a field of 22.

## MISS BUCKLEY REIGNS

# Another Chapter Penned In Maize Days History

Maize Days, 1962, is now history, and for the most part compared very favorably with celebrations in other years.

A truly representative group of beauties got the festivities rolling with the queen's contest last Thursday night. When the judges tallied their decisions, 17-year-old Janet Buckley, daughter of Mr. and Mrs. Jim Buckley, was chosen to reign over the celebration.

Miss Buckley, a senior at Friona High School, won over 21 other contestants. She was sponsored by Claborn Funeral Home.

First alternate was Barbara Fallwell, 15, daughter of Mr. and Mrs. Buck Fallwell of the Hub Community, and sponsored by firms in the Hub Community.

Second alternate in the contest was Carolyn Herring, 16, daughter of Mr. and Mrs. D. C. Herring. Carolyn was sponsored by Dive-Inn Swimming Pool.

Each of the 22 contestants appeared both in formals and bathing suits. They were interviewed by Master of Ceremonies Royce Bodiford of Station KGNC's Farm and Ranch

department. Mrs. Eva Miller was chairman of the queen's contest.

A near-capacity crowd attended the contest at Friona High School Auditorium. Also on Thursday, the winners in the beard-growing contest were named.

Winners were Dale Smith, most unique beard; Irvin West, heaviest beard; and Kenneth Livingston, most becoming beard.

Walter Cunningham, chairman of the beard-growing contest, said there were a few more entries in the contest than

in the past couple of years, and expressed his thanks to everyone who contributed to its success.

Approximately 35 entries took part in the parade Friday, and parade chairman Flake Barber was equally impressed with the support received.

Winners in the various divisions of the parade included: Classes -- 1. Sophomores; 2. Seniors; 3. Freshmen; Clubs-- 1. American Legion; 2. Girl Scouts; 3. Rainbow Girls; Commercial-- 1. Friona State Bank; 2. Ethridge-Spring Agency; 3. Southwestern Public Service.

The carnival rides of Lone Star Amusement Company provided entertainment throughout the week, and booths by various clubs and civic organizations lended an added attraction.

The free barbecue lunch on Saturday was as usual the highlight of the celebration. Over 3,000 people were served around 2,350 pounds of barbecued beef at the City Park at noon Saturday.

Winner of the boat and trailer given away by the Fire Department was "Mayor" Hanson of Nazareth, who had two tickets. Fire Chief Ralph Shirley said the organization sold some 1765 tickets, and was able to pay for its new fire truck through the contest. He extended his thanks to the people of Friona who helped through the matter.

Both of the bales were a nice size, weighing 570 pounds each.

## Patterson Markets City's First Cotton Bale

Friona's first bale of cotton for the 1962 harvest season was ginned last Friday, September 14, with O. T. Patterson growing the premium bale.

The bale was brought to Country Club Gin on Wednesday afternoon, but lack of electrical power at the gin forced the two-day delay in its ginning.

The first bale was several days earlier than Friona's first bale last year, which was brought in on September 19. Patterson planted the cotton,

which was Paymaster 54-B, on April 28.

He had irrigated the crop twice. Patterson's farm is located nine miles east of Friona. The gin bought the first bale for the premium price of 50 cents per pound. The Friona Chamber of Commerce also awarded Patterson a \$50 premium for harvesting the first bale.

Patterson said the 43-acre plot of cotton from which the bale was harvested would make

about a bale and a half per acre. He credited the earliness of the crop to three early sprayings he gave the crop.

In addition to the cotton, Patterson has 250 acres of grain sorghum. Besides having the first bale in Friona, he also gained the honor at Dimmitt, taking a bale to the Tam Annie Gin, which sold him the seed for his present crop.

Both of the bales were a nice size, weighing 570 pounds each.

FIRST BALE . . . O. T. Patterson, left, is presented the premium check from Steve Hargus, manager of Friona Country Club Gin, for producing the first bale of cotton ginned in the city of Friona. At the right is the ginner, Perry Boyd.

## Home Debut Set By Chiefs Friday

The Friona Chiefs, inspired by their showing for three quarters against Sudan last week, will play their first home game of the season Friday night, hosting Plains.

The game at Chieftain Field will begin at 8 p.m. Coach Kenneth Miller said he was "very pleased" with the team's showing at Sudan, in which the Chiefs held leads

of 6-0 and 12-6 before the Hornets came back for a 24-12 win.

However, the Friona Coach said the team "still needed to improve" for its game here tomorrow night.

Assistant Coach Vernon Scott, who saw the Plains team play last Friday, said the team Friona will face here Friday is one of good size.

"They stick mostly to the ground in their offensive attack," said Scott, adding that the Wing-T is the type of offense Plains runs.

In their two games to date, Plains has split even with a pair of class AA teams. They dropped their season opener to Crane, 3-0, when a field goal by the winners was the only score, but came back to drop Post, 20-6 last Friday.

Friona is expected to be in fair physical shape for the game. Guard Glenn Herring has been held out of contact work this week, after sustaining a severe shoulder bruise in the Sudan battle last week. He is expected to be able to go in tomorrow's home opener, however.

## Burglars Hit Bovina Station

Burglars, who seem to strike Bovina on a periodic basis, were at work again last week. Bill Moore's Deep Rock Ser-

vice Station on Highway 60 was broken into Wednesday night of last week.

A total of \$350.80 in checks and cash were stolen from the business, Moore reports. Most of that total was in cash, Moore says.

Also taken was a hunting knife, an electric razor, two cigarette lighters, a watch, and an air gauge.

Entrance to the building was gained by breaking the glass on west door, then reaching inside and turning the lock.

Farmer County Sheriff's Department investigated the burglary.

## City's Rain Is 1.33 Inches

Rain received in Friona last weekend totalled 1.33 inches, according to figures from the City of Friona. A shower of .46 inches fell on Friday and .87 was received Saturday. A trace was measured Monday.

Temperatures, which had edged back into the mid-nineties, hitting 95 on both Thursday and Friday, fell back into the middle and high eighties as the week began.

The temperatures for the week:

	Max.	Min.
September 12	92	62
September 13	95	63
September 14	95	53
September 15	86	62
September 16	89	62
September 17	84	58
September 18	87	62

## Lions Sponsor Glenn Film

A film depicting the orbital flight of Major John Glenn will be shown next Thursday night at the High School Auditorium. Admission to the much sought-after documentary film is free and the public is invited to attend, courtesy of the Friona Lions Club.

The film, which is about 50 minutes in length, will begin at 8:30 p.m.

## Tires Awarded At Opening

Frank Baber won the four Goodyear tires in the drawing last Saturday during the Grand Opening of Panciera Tire and Supply Company. Kathleen Mills was the winner of the two front tractor tires.

Dave Allen, manager and co-owner of the store, said he was very pleased with the reaction of Friona residents to the store's grand opening, and wished to thank everyone who contributed to its success.

## County Delegates Are Active At Conventions

Farmer County political leaders were active in the Democratic and Republican state conventions this week in El Paso and Fort Worth.

At the Democratic convention in El Paso, Mrs. Wylie Bullock of Lazbuddie was named a state committee woman.

At the Republican meeting in Fort Worth, Lazbuddie's Frank Hinkson was a member of the platform committee.

## THREE PICK NINE RIGHT

## Danny Mac Bainum Is Contest Winner

Danny Mac Bainum was the winner of the second week of the Friona Star's Cotton Bowl football contest. Jack Clark was second and Mrs. W.R. Mabry was third.

All three came out with nine correct games out of the ten contest games, but Bainum missed the Friona-Sudan tie-

breaker by only six points. He guessed the score at 28-14, and the actual score was 24-12.

Bainum missed the San Francisco 49ers-Chicago Bears pro contest by picking the 49ers, but so did most of the entrants in the contest, since the game was an upset.

Clark, who was 26 points off in the tie-breaker by guessing Friona to win, 28-12, was one of the few to get Chicago over San Francisco, but slipped up by picking Fort Worth Arlington to beat Tascosa of Amarillo.

Mrs. Mabry, whose son Joe won the contest last week, missed only the San Francisco-Chicago game, but was 30 points off by virtue of the tie-breaking score, picking Friona, 6-0.

The number of entries in the annual contest increased somewhat over the first week. At the end of the 11-week contest, the contestant with the best worst record will be awarded two free passes to the Cotton Bowl contest in Dallas January 1.

## Gun Club Sets Meet

The Friona Gun Club will hold a meeting to elect officers for the coming year Saturday night at the City Hall starting at 8 p.m.

All members, as well as prospective members are urged to attend, according to the president, Pete White. "We urge all gun enthusiasts interested in shooting rifles or shotguns to attend," said White.

The club has completed its range, and would like for all shooting enthusiasts to give it a try. The club has a division for those shooters with an average of 19 and above, as well as one for those with an 18 or lower. A trophy is presented once each month, and a shoot is held every third Sunday.

Membership dues in the club is \$10. City Police Chief Ben Moorman is the secretary of the club.

PAID IN FULL . . . Fire Chief Ralph Shirley and Assistant Chief Glenn Evan Reeve are handed the \$2,000 note on the new fire truck by Bill Nichols of Friona State Bank, on the occasion of the note retirement. In the background is bank vice president Charles Allen.

## Chieftain Mothers Elect Officers

Friona Chieftain Mothers met this week to elect new officers and make plans for the year. Elected president was Mrs. Raymond Milner. She succeeds Mrs. John Renner. Mrs. L. T. Graves is vice president; Mrs. Troy Ray is secretary-treasurer and Mrs. John Luther Shelton is buyer for concession stands.

The group decided to assess dues of \$2 for each boy and mother, to help defray expenses for the football banquet. Dues are to be paid to Mrs. Troy Ray.

Committees were appointed to take care of the concession stands during the Chieftain and freshman home games.

Mothers who were not at the meeting are urged to contact either the president or the secretary-treasurer to help in the concession stand.

"We need more mothers, and all who will help will be appreciated," stated Mrs. Ray.

## BUT LOSE, 24-12

# Chiefs Make Determined Bid For Win At Sudan

Costly fumbles and a fourth-quarter letdown Friday night spoiled a determined bid by the Friona Chieftains for a long-awaited football victory, but the young Red and White team which lost to Sudan 24-12 served notice that they intend to beat somebody this year.

Led by quarterback Gary Renner and a leech-like pass defense, the Chieftains came from behind a 6-0 deficit to lead 12-6 at the end of the third quarter, but from there on appeared to weaken defensively as Sudan Fullback Jimmy Savage scored three times in the final period.

The Friona secondary, with Renner and sophomore Danny Murphree doing most of the damage, did a good job of stopping the Hornets' passing attack, which had clicked so well the previous week when Sudan surprised Morton with a 6-6 tie. Renner picked off one flat zone pass in the second quarter and raced 25 yards untouched for a Friona score. A running try was short, and the half ended 6-6.

In the third period, Tommy Baxter, 140-pound junior halfback gave Friona boosters plenty to cheer for as he took a pitchout from Renner, cut off left tackle and broke away 73 yards for a touchdown, giving Friona a 12-6 edge.

From this point on, however, the Friona defenders appeared to tire, and Savage, a 150-pound senior, slashed through for repeated gains of five to 15 yards a carry. Fumbles also kept the Chieftains' attack from getting underway, as they lost four during the game, two of which led to Sudan touchdowns.

Savage scored on runs of 10, 6 and 11 yards to kill Friona hopes in the final period. Sudan's first touchdown came in the second quarter when halfback Tommy Thomson cracked the middle for five yards.

A sophomore guard, 145-pound Dale Milner, madetackle after tackle on the Sudan runners, as his Number 59 kept coming up repeatedly from the bottom of the pileups.

SCORE BY QUARTERS		347	Yds. Rushing	124
SUDAN	0 6 0 18 -- 24	28	Yds. Passing	6
FRIONA	0 6 6 0 -- 12	2-15	Completed by	3-9
		0	Fumbles Lost	4

GAME STATISTICS			Punts, avg.	5-33
SUDAN	FRIONA	2-30	Penalties	4-30
20	First Downs	9 3-15		

## Grade Teams Drop Openers To Hereford

Friona's seventh and eighth grade football teams lost their season openers Tuesday night by identical 8-6 scores to Hereford teams.

In the seventh grade game, fullback Ruben DeLeon scored from about three yards out just before the half ended. Hereford had scored earlier in the second quarter.

The Friona eleven held Hereford four times within their own 10-yard line. Coach Kenneth Livingston gave credit to quarterback Larry Graves in his first game, as well as Robert Saiz on defense.

The eighth grade game also saw Hereford scoring first, and Friona scoring in the fourth quarter when Ted Renner hit wingback Jimmy Grimsley on a 15-yard scoring pass. Pointtry failed, and that was the game.

Linebacker Johnny Gonzales looked good on defense for the eighth grade.

The next games for the two teams are at Hereford October 2.

## Editorial Comment:

To the people of Friona, a hearty "Well Done!"

Any event or celebration is only as successful as the people wish to make it. The success of another Maize Days celebration again points out the intense community pride and dedication to the growth and betterment of the city which is to be found among Frionans.

Friona's parade, barbecue and other events of the celebration have been favorable compared to similar functions held in other and larger cities. For this, the people who gave many hours of time and work to the planning and organizing of Friona's events may take a special pride. And the people of Friona may be exceptionally proud that such people are found in their town.

But the committees and assistants could not have made the event so successful without the full cooperation of the participants in each event. The builders of floats, the preparing and serving of meals and the preparation of antiques for the display are but a few of the items which deserve special mention and thanks.

And then, the spectators, the visitors and residents turned out in record force to merit a crowning point of pride. Such a display of enthusiasm and interest in the doings of Friona which was evident during Maize Days is enough to make a pessimist believe in the future of Friona.

As we have said before, the people make the city and if Friona were judged by its people, it would rate at the top of the list--any list.

## DUE TO INJURIES

# Longhorns Welcome Open Date This Week

The Lazbuddie Longhorns have an open date this week, and the way the team's injury list has been mounting, Coach Charley Walton's squad can probably use the layoff.

The Longhorns' last rally fell short last Friday as they dropped their second game of the season to New Deal, 35-22. Trailing 29-8 at halftime and 35-8 in the third period, Lazbuddie rallied to make it respectable.

"We made two many mistakes the first half, and let them get the jump on us," Coach Walton said.

Lazbuddie lost the ball three of the first five times the Long-

horns had it, Walton explained, two times on fumbles and once on a pass interception.

Fullback Mike Bean was the offensive star for the Longhorns last week, scoring two touchdowns and carrying across twice on conversion attempts, for a total of 16 points.

Halfback Terry Darling, who scored the other Longhorn touchdown, was cited as the top defensive player as well, Darling accounted for the first Lazbuddie score when he latched onto a pass from quarterback Kenneth McGhee on a scoring play that covered 32-yards.

Bean ran the points across to cut the margin to 13-8 for a moment.

But New Deal roared back to score three touchdowns before Lazbuddie again crossed the goal line.

Bean climaxed a Longhorn

drive in the third period by going four yards to score, and then ran 19 yards in the final quarter and added the points for the final margin of 35-22.

Tackle Fred Owens sustained an injured knee shortly after the second half began, and was rushed to Lubbock's Methodist Hospital. He was released Saturday, and it isn't known how long he will be out of action.

Owens joins the injured list made up of Rickey Hassle, who has an arm injury; Buddy Embury, who has a hurt knee and will be out for some time; quarterback Hoppy Jennings and halfback James Koelzer.

So, the Longhorns are welcoming the open date, giving them an extra week to lick their wounds and get ready for their next game, September 28, when they host Cooper in their first home game of the season.

## Booster Club Invites Ladies

The Friona Booster Club will hold its regular meeting Monday night at 8 p.m. in the school cafeteria, according to the president, John Renner.

The film from the Friona-Plains game, to be played Friday, will be shown, and a scouting report on Happy, who will be met next week.

Members of the Chieftain Mothers Club are urged to attend the meeting, to discuss the possibilities of holding an all-sports banquet this year. Members are asked to pass the word around and attend the meeting.

Coffee and doughnuts will be served.

## Freshmen Top Bovina "B"

Friona's freshman football team scored a 12-0 win over the Bovina "B" team last Saturday, for new freshman coach Gaylon Woodard.

Fullback Tommy Sherley scored both Friona touchdowns, on runs of 50 and 20 yards. The scores came in the second and third periods. Friona led

at halftime, 6-0.

The game was classed by Woodard as a "defensive battle." "I was very pleased with the defensive play of the team," Woodard said.

The coach singled out Eugene Weatherly and Bobby Sims both linebackers, for their defensive play.

Friona's freshman team plays Springlake here tonight, with the game to begin at 7:30 p.m. Woodard expects a tough battle from the Springlake eleven, which is a good team, he says.

**Shutouts**  
PHILADELPHIA (UPI) — Prior to the 1962 season, Cal McLish of the Philadelphia Phillies pitched only two shutouts. His major league career began in 1944.

## Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN...  
TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Round trip from Detroit to the end of the Baja Peninsula is over 8,000 miles.

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road is fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet truck caravan 17 days to go the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

**CHEVROLET**  
QUALITY TRUCKS COST LESS

Sometimes the caravan crept along for hours in low gear. It took 17 days to go 1,066 miles! This is the road near Loreto.

CORDELIA PARR RANZA BOGGESS TROY RAY

## Friona Students Get Degrees In Unique Way

Three Friona students received their high school diplomas recently in a very unique fashion. The three, Cordelia Parr, Ranza Boggess and Troy Ray, completed their requirements for graduation during the past summer following their junior year at Friona High School. "This is the first time to my knowledge that students finished their requirements during the summer following their junior year," said high school principal Raymond Cook. Cook explained that other students had finished by going the summer prior to their junior year, and then completing their requirements during the junior year. The work was completed at Amarillo High School. All three of the students are continuing their education at the present.

## Stolen TV Recovered; Group Faces Charges

The group is currently employed by the R.S. Dudley Shows which have been in Portales. Being held on a burglary charge are Virginia Sue Talley, 33, of Connecticut; David Barnes, 24, of New York; Dale Kellogg, 27, New York; Gerald Ecker, 31, South Carolina; and Frank Anderson, 28, Georgia. Anderson is wanted by the FBI in Georgia and North Carolina. It is reported that he jumped a \$6,000 bail in Georgia.

## Hosts WT Saturday Tech To Have Hands Full In First Game

Texas Tech begins its 1962 football schedule against West Texas State team that looks in mid-season form in Jones Stadium at 7:30 p. m. Saturday. West Texas State, one of the nation's top scoring teams last fall, performed smoothly in trouncing Trinity University 61-0 last week. Pistol Pete Pedro, nation's leading touchdown maker last fall, is as dangerous as ever. Texas Tech scouts report. He scored twice and netted 201 yards in the Buffalo victory. Fullback Ollie Ross, halfback Jerry Logan, and quarterback Jim Dawson also are to be reckoned with. Coach J. T. King, in his second year as Texas Tech's head coach, is expecting the Red Raiders eventually to be better than last year's team. Because so many of the Raiders are sophomores, it may be mid-season before the latter gain sufficient experience to help, however. After playing West Texas State, the Red Raiders next are hosts to co-champion University of Texas, Sept. 29. Tickets to these games are still available.

### Marriage Licenses Issued

September 14 -- James L. White, Friona, and Faye Keeth, Farwell.  
September 15 -- Frank Jones, Texico, N.M., and Mary Melinda Goforth, Texico.

### Car Is Stripped Near Bovina

A car belonging to Butch Riddle, who lives five miles east of Bovina on Highway 56, was stripped last Sunday night while it was parked within 300 yards of the owners home. Riddle reported that the automobile stalled, and was left beside the highway for a couple of nights. Then, on Sunday, September 9, vandals stripped the car of an air conditioner, three tires and wheels, a generator, battery, distributor, radiator hose and radio.

**Texas Personality:** Most Texans think of Dallas' D. Harold Byrd as an oil tycoon. He is, of course. But even some of his friends don't know that he owns a magazine (the slick and successful Diplomat, published in Washington), an onion farm, an amusement park not far from Disneyland in California and the firm that puts on the big ice shows each year in Dallas.

# Clarissa Floyd and Larry Crow Wed In Double Ring Ceremony

Grover C. Ross, Church of Christ minister at Portales, read a double ring ceremony in his home which united Clarissa Floyd and Larry Crow, both of Friona, in marriage.

MRS. LARRY CROW

Parents of the couple are Mr. and Mrs. Cecil Floyd and Mr. and Mrs. Clifford Crow. The bride wore a white satin street length dress fashioned with a full skirt, fitted bodice and elbow length sleeves. Her corsage was an orchid tied with white satin love knots atop a white Bible. A pearl necklace and matching white satin hat and shoes completed her ensemble.

Attendants were Patricia Floyd, sister of the bride, and Neil Floyd, brother of the bride. Others attending the ceremony were Mr. and Mrs. Cecil Floyd, Mr. and Mrs. Clifford Crow and Joyce Rogers of Friona and Mrs. Boyd Jones of Dallas. Mr. and Mrs. Crow are at home at 2311 29th Street in Lubbock. He is a student at Texas Tech. Mrs. Crow is a 1962 graduate and her husband was graduated with the class of 1960.

The home of Mrs. James Procter on West Sixth Street Tuesday morning was the scene of a bridal shower honoring Mrs. Crow.

Guests called from 9:45 to 11:15 a.m. An arrangement of purple and white mums decorated the registration table at which Mrs. L. R. Hand presided.

A centerpiece of orchid and white mums centered the serving table. Mrs. J. B. Taylor served coffee and tea from a silver tea service. Sweet rolls and mints were also served. Other table decorations included tall white candles.

Hostesses were Mesdames Procter, Hand, Taylor, Johnny Hand, Bill Wooley, Elvin Wilson, Rene Snead, David Grimslay, Eugene Boggess, L. D. Pope and James Buckley.

About 65 persons attended or sent gifts.

# Of Interest To THE WOMEN

## Mrs. Pat Busby Feted With Party

Mrs. Pat Busby, who was observing a birthday, was surprised with a party in her home Wednesday evening. Hostesses

were Katherine Brand and Mesdames Lester Dean, Earl Drake and Ralph Taylor.

Following the presentation of gifts refreshments of cake, ice-cream, punch and mints were served.

## James Anthony Born Sunday

Mr. and Mrs. James Anthony became parents of a baby boy at Parmer County Community Hospital at 5:43 p.m. Sunday. He weighed 7 lbs. 7 ozs. and was named James Mark.

Grandparents are Mr. and Mrs. Oval Peek of Clarksville, Texas and Mr. and Mrs. Ernest Anthony of Friona. Mr. and Mrs. A. W. Anthony Sr. of Friona are paternal grandparents.

Those attending and sending gifts were Mesdames John D. Sanders, Earl Chester, Clyde Hays, Earl Graham, Bill Burton, Kermie Deaton, Lloyd Prewett, Paul Daniel, Wesley Hardesty, Jack Shirley, Carrie Shirley, Glenn Reeve Sr., W. E. Smith, Newman Jarrell Jr., Bee Westbrook, Newman Jarrell Jr. and Hop Lewis.

Also Mesdames Allen Stewart, Dan Laceywell, M. T. Camp, J. T. Carroll, G. H. Goggans, D. G. Hand, Ed Duke,

## Missionary League Has Regular Meet

Rhea Lutheran Women's Missionary League met Thursday evening at the Parish Hall with Mrs. Chris Goetz serving as hostess. "Lutheran Women in The Home," was the topic of discussion. Leader was Mrs. Walter Schueler.

Pastor and Mrs. E. A. Binger and Mrs. Melvin Sachs were welcomed as new members of

the L. W. M. L.

Present projects in which members of this organization are engaged in collection of Betty Crocker coupons and working on a quilt for Bethesda Lutheran Home for the retarded.

During the business session Mrs. Walter Schueler, president, was in charge.

## Friona Woman's Club Welcomes New Members

Four new members, Mrs. O. T. Patterson, Mrs. T. E. Wood, Mrs. James Chandler and Mrs. Genevieve Anderson, were extended a welcome into the Friona Woman's Club at the Wednesday afternoon meeting at the club house.

Mrs. Wesley Hardesty, president, directed the welcome and also presented the president's welcome.

Mrs. Kay Kendrick, year-

book chairman, presented the new yearbooks which carry out the theme, "New Dimensions of our Changing World."

Refreshments of osgood pie, coffee, tea and mints were served by hostesses Mrs. Lillian McLellan and Mrs. V. R. Jordan. Eighteen members were present.

## Faye Keeth Weds James Lee White

A double ring ceremony in the home of Rev. J. L. Bass of Farwell Friday at 6 p.m. united Faye Keeth of the Lazbuddie community and James Lee White. Rev. Bass officiated. The bride wore a turquoise sheath dress of silk organza over taffeta.

Mrs. Donald Runyon of Earth was her sister's only attendant. Best man was Jimmy Hughes of Friona.

Mr. and Mrs. White are at home in Farwell.

## Schwabs Have Weekend Guests

Sunday dinner guests in the home of Mr. and Mrs. Bill Schwab were Fabian Renner, Perryton, Bob Weis, Amarillo, Mr. and Mrs. Donnie Renner, Charles Rector, Chuck, Romalee and Sammie Sue, and Mr. and Mrs. Bill Butch and children.

Mrs. John G. Renner of Canyon was a Monday visitor in the Schwab home.

## Time For A Change

FRANK FORD Deaf Smith County Farmer And Businessman

Anyone who has visited our State Legislature in session know that there are many things which need improvement. The accumulation of years of partial solutions and expediency has caused Texas to fall far below the standard of progress of which we are capable.

The primary cause of this condition is one-party monopoly.

Competition always insures a higher standard of performance, and factions within a party do not supply this need. The bitter warring between the "liberal" and "conservative" factions of the Democratic party has too often resulted in a sacrifice of integrity and behind-the-scene manipulations.

So the time has come for a change. There will always be differences of opinion, but these differences must be resolved honestly and openly if we are to have better government in Austin. I think Texas is ready to progress into a two-party system because many citizens have seen the failings of factionalism and government by pressure group.

## Rebekahs Install Two New Members

Two new members, Mrs. Eula Mae Holder and Mrs. Pearl Patterson, were installed at the Monday evening meeting of Friona Rebekahs at Oddfellows Hall.

Joyce Wilkins, noble grand, presented "Founding of the Rebekah Lodge. Nine sick visits were reported as were six cards.

Fall flowers were used for decorations and a salad supper was served. Those present were Mr. and Mrs. Charlie Wise, Mr. and Mrs. Sam Williams, Mr. and Mrs. Joe Collier, Mr. and Mrs. Joe Moyer and Mr. and

Mrs. Bud Reed. Also Mesdames Phyllis Sanders, I. V. Day, Pat Fallwell, Katie Parr, Nola Adams, Thelma Jones, Joyce Wilkins, Fern White, Myrtle Deaton and Vergie England.

## Rhea HD Club Elects Officers

During a business session of Rhea Home Demonstration Club in the home of Mrs. Carl Schlenker Monday evening all officers except one were re-elected to serve another year. Mrs. Franklin Bauer was elected council delegate to replace Mrs. Herbert Schueler.

Officers re-elected were Mrs. Jack Patterson, president; Mrs. Floyd Schueler, vice-president; Mrs. Leland Gustin, secretary-treasurer; Mrs. Chris Drager, parliamentarian and Mrs. Ray Martensen, reporter.

A council report was presented by Mrs. Herbert Schueler. Mrs. Floyd Schueler, vice-president, had charge of the meeting.

During the social hour games were directed by Mrs. Leland Gustin and Mrs. Ray Martensen. Refreshments were served by the hostess to 14 members.

Next meeting of the club will be in the home of Mrs. Wilbur Keener of September 24.

## Party Honors Two Year Old

Mrs. Carlton Newell honored her son, Terry Don, who observed his second birthday Saturday, with a party in the family home from 5 to 4 Friday afternoon.

After a game session birthday cake and ice cream were served to Randy, Kym and Tim Fletcher, Sharon and Kenneth Stowers, Debbie and Janice Varner and Carl and Terry Don Newell.

## Cooking Electrically Demonstrated At Meet

Highlight of the Friday afternoon meeting of the Fun and Fancy Club in the home of Mrs. Rudolph Renner Jr. was a

cooking demonstration by Joan Loftis, Southwestern Public Service home service advisor. A complete meal was prepared and cooked on an electric range. Also many hints on better ways to cook when using electricity were presented.

## Painting Party Set For Tuesday

Announcement has been made of a painting party at the Black Community House Tuesday, September 25. These meetings are sponsored by Black Home Demonstration Club.

Mrs. T. J. Presley, spokesman for the group, invites any women in the area who is interested in painting to attend this meeting.

## Monthly Luncheon To Be Thursday

Members of Friona Country Club plan the regular monthly luncheon for Thursday at the club house on West Fifth Street.

Women who attend the luncheon play golf, play bridge or visit in the afternoon.

## He didn't insure his car through an independent agent

He'd done everything to get the insurance company to pay for his badly damaged car—phoned... argued... pleaded. Everything except stand on his head. Now he's done that.

All unnecessary — if he had insured through an independent insurance agent. Because an independent agent represents several companies, he recommends only those companies which pay

claims promptly and fairly. For all-around protection, it pays to insure your car, home, or business through an independent insurance agent!

We are independent insurance agents, ready to give you continuing, personal attention—the Big Difference in insurance today. For a free analysis of your insurance coverage, just give us a call.

**RUNS THROUGH SEPT. 30**

**First Baptist Begins Fall Revival Sunday**

The First Baptist Church will begin revival services Sunday, September 23 and continue through Sunday, September 30. The Rev. Young Tucker of Oklahoma City, Okla., will be the evangelist, and Jimmy Hodges of Lawton, Okla., will lead the music in the campaign. Services are scheduled for 10 a. m. and 7:30 p. m. weekdays, 11 a. m. and 7 p. m. Sundays.

The Evangelist was born in the Southwestern Theological Seminary in Fort Worth. He has served as Pastor in the following churches: Man-kins, Texas, Lesley and Rock Crossing, Texas during Seminary, Associate Pastor at First Baptist Church, Vernon, Texas during Dr. E. S. James ministry; Associate Pastor First Wichita Falls. He attended Midwestern University and was graduated from Howard Payne College in Brownwood, and from

Baptist Church Lubbock, Texas with Dr. J. Ralph Grant. Tucker was Pastor of Faith Baptist in Wichita Falls, Texas, and Kermit First Baptist, and Exchange Ave. in Okla. City, Okla. He has been very effective as a Pastor, and now enters the field of full-time Evangelism. Hodges also served in a local church before entering full-time Music-Evangelism. He was state winner as a tenor soloist and drum demonstration artist, and a 1961 graduate of Oklahoma Baptist University.

JIMMY HODGES

He is 24, single, and a favorite among young people. The public is invited to attend the Revival, and hear these young men. Rev. Bill Burton is pastor and Hubert Reeves is Music and Education Director.

**WT Exes Meet At Lubbock**

The Main Ballroom in the Texas Tech Student Union will be the scene of a gathering of West Texas State Student Union will be the scene of a gathering of West Texas State students prior to the WT-Texas Tech game in Lubbock, Saturday, September 22. Especially invited to attend the informal visitation period from 3 to 6 p. m. are exes living in the South Plains and Permian Basin area. There will be plenty of time and space for renewing acquaintances among the hundreds of WT exes who annually attend the game.

**Country Club Announces Sunday Luncheon-Meet**

The Friona Country Club will use best ball, with the other three players moving their ball to the best ball location for the next shot. This continues on the green until the hole is made. All members are invited to attend and participate. All members are asked to bring a covered dish of meat, salad, or anything his family would like to eat. The lunch will be served beginning at 1 p. m. The tournament will start at 2 p. m. There will be one lady player on each team. Each team

will use best ball, with the other three players moving their ball to the best ball location for the next shot. This continues on the green until the hole is made. All members are invited to attend and participate.

MADISON FLA. ENTER-PRIZE - RECORDER; "We do not see how the federal government can reduce its taxes, as it plans to do . . . Mind you, we are not opposed to the tax reduction, for we think the taxes are too high, but along with the tax reduction should come a corresponding reduction in expenditures -- and that would be very much in order. The government, as so many individuals have done, has let its expenditures get out of hand."

REV. YOUNG TUCKER

**Midland Cadet Receives Bars**

Don Crawford Cox, son of Mr. and Mrs. N. R. Cox, 3100 Princeton Avenue, Midland, Texas, and grandson of T. J. Crawford of Friona, received a bachelor of science degree in mechanical engineering at Texas Tech at summer commencement exercises August 25.

He was one of 14 Texas Tech Army ROTC cadets commissioned as second lieutenants in ceremonies at Tech. He was one of two distinguished military graduates and has been assigned to the corps of engineering and will report to Fort Belvoir, Maryland December 6 of this year.

## FOR 1963 CRUSADE

# Rev. Burton Receives Assignment In Japan

The Rev. W. G. (Bill) Burton, pastor of the First Baptist Church here, has been invited to preach in a nation-wide evangelistic crusade designed to reach every person in Japan during the spring of 1963.

Rev. Burton will preach in a revival at Koga, Japan, as part of the vast Japanese Baptist New Life Movement.

A total of 147 Baptist evangelists were named to preaching assignments in

Japan, slated March 26-May 6.

Participants in the nationwide crusade were selected by a committee from the Japan Baptist Convention and the Baptist General Convention of Texas. Their names were officially released for the first time this week by the committee.

The evangelists will be members of three-man teams including laymen and musicians who will participate in nearly 150 revivals in major Japan

cities. The revivals will be preceded by five area-wide crusades in major metropolitan areas in Japan, with television and radio

expected to take the Gospel message into nearly every Japanese home in the nation.

About 300 Baptist laymen and musicians will be named to participate in the effort within the next few months by the Japan Crusade committee.

Dr. K. Owen White, chairman of the committee and pastor of the First Baptist Church of Houston, said the crusade is one of the greatest campaigns in the history of Christianity.

Evangelist Billy Graham will be one of the major speakers in the five area-wide crusades. Campaigns in the 145 Japanese cities will be held during a one-month period, with about 40 revivals each week. The teams of American evangelists will be in Japan for about two or three weeks.

The Far East Broadcasting Company in Manila has agreed to broadcast crusade sermons in nine languages throughout Asia, including major portions of Russia and Red China.

Evangelist Graham recently said concerning the crusade, "I doubt there is a greater spiritual need in the world than in modern Japan. After the war, we took away their faith in the emperor, but as yet we have not been able to replace it with another faith.

"There is an emptiness, frustration and spiritual vacuum in Japan that is frightening," said Dr. Graham. "If Japan goes Communist," he said, "I do not believe the United States could resist the economic pressures without international revolution."

The Japanese Baptist New Life Movement is jointly sponsored by the Baptist General Convention of Texas, the Southern Baptist Foreign Mission Board, and the Japan Baptist Convention.

The stairway routes in Meramec Caverns, Stanton, Mo., feature dripstone, flowstone, rimstone and shelfstone deposits.

REV. W. G. BURTON

LITTLE MISS COTTON—Seven-year old Sherry Rogers of Jackson, Miss., is the new national Little Miss Cotton. Little Miss Cotton, blonde, brown-eyed Sherry was selected from 19 finalists to represent the cotton industry in the children's wear field.

## Results Listed In Kids Contest

The Kids Contest held last Friday afternoon found several entrants in the 18 events.

The complete contest results, compiled by Tom Jarboe, chairman of the Kids Contests, are as follows:

**GIRLS 7-10**  
Bicycle race -- 1. Amelia Sims; 2. Debbie Burton; 3. Denise Buske.

Egg Race -- 1st - Patsy McVey, 2nd - Lana Renner, 3rd - Mary Margaret Sheehan.

Sack Race -- 1st - Patsy McVey, 2nd - Debbie Burton, 3rd - Amelia Sims.

**GIRLS 11-14**  
Bicycle Race -- 1st - Karen Agee, 2nd - Jan Shirley, 3rd - Mary Margaret Sheehan.

Egg Race -- 1st - Mary Margaret Sheehan, 2nd - Jan Shirley, 3rd - Linda McVey.

Sack Race -- 1st - Jan Shirley, 2nd - Lydia Buske, 3rd - Rhonda Fallwell.

**BOYS 7-10**  
Pie Eating -- 1st - Richard Shirley, 2nd - Zane McVey, 3rd - Don Fortenberry.

Bicycle Race -- 1st - Kenneth Watkins, 2nd - Don Fortenberry, 3rd - Troy White.

Three-Legged Race -- 1st - Billy Procter & Jeff Price, 2nd - David McFarland & Danny Kendrick, 3rd - Don Fortenberry & David Bynum.

Egg Race -- 1st - Don Fortenberry (no other finishers)

Sack Race -- 1st & 2nd (tie) - Zane McVey, Joe Bill Jones, 3rd - David Carlton

**BOYS 11-14**  
Pie Eating -- 1st - Gary Shirley, 2nd - Eddie Barker, 3rd - Kent Tuarman.

Bicycle Race -- 1st - John Pipes, 2nd - Gary Shirley

440 Race -- 1st - Johnny Barker, 2nd - John Pipes, 3rd - Rickey Davis

Three-Legged Race -- 1st - Johnny Barker & Ramey Beene, 2nd - Eddie Barker & Randy Ellis, 3rd - Scott Woolley & Rickey Davis

Egg Race -- 1st - Billy Burton, 2nd - Scott Woolley

Sack Race -- 1st - Billy Burton, 2nd - Scott Woolley, 3rd - Randy Ellis.

**PRE-SCHOOL DIVISION**  
Tricycle Race -- 1st - Brad Beene, 2nd - Kim Young, 3rd - Kirk Duggins

## Something To Think About

6th. Street Church of Christ  
Box 515 -- Friona, Texas

In the Bible life is described as a journey, as a battle, as a pilgrimage, and as a race. Select your own metaphor, the basic principle is still the same. If life is a journey, it must be completed. And if life is a race, it must be run. Any formula for individual success begins and ends with a man's personal enterprise. The rules are few, but mighty: love God with all your heart, soul, mind and strength. Fear God and keep his commandments. Within this pattern each man can carve a statue from his own block of marble, and the finished product will be according to the Divine pattern. Someone said, "An empty heart is a greater misfortune than an empty purse." If we would reach the end of the way with the same confidence expressed by the Apostle Paul we will see to it that our hearts are filled with the virtues which characterized the Son of God. It is impossible to make the journey in a moral vacuum. Hence if the virtues of true Christianity do not dwell in our hearts, evil attitudes will. Those who would avoid the many pitfalls along the pathway of life; those who would leave the broad way of destruction and travel the strait and narrow way that leads to life eternal, will be diligent keepers of their hearts. "For as he thinketh in his heart, so is he."

# come to church Sunday

"Then I went down to the potter's house, and, behold, he wrought a work on the wheels. And the vessel that he made of clay was marred in the hand of the potter, so he made it again another vessel, as seemed good to the potter to make it." (Jeremiah 18:3,4).

While at the potter's house Jeremiah took notice how he wrought his work upon the wheels, just as he pleased, with a great deal of ease, and in a little time. When a lump of clay that he designed to form into one shape wither proved too stiff, or had a stone in it, or some way or other came to be marred in his hand, he presently turned it into another shape; if it will not serve for a vessel of honor, it will serve for a vessel of dishonor, just as seems good to the potter. One turn of the wheel alters the shape of a vessel. If the potter's vessel be marred for one use, it shall serve for another; those that will not be monuments of mercy shall be monuments of justice. The wheels could do nothing except as the hands of the potter worked. They were under the control of the potter.

The shaping of clay into pottery typified the molding of the characters of individuals or nations by a master mind. Man can mar God's plan because He so graciously granted freedom of choice, but the infinite Potter will make it again as it seems good to Him.

# 1962 Maize Days Highlights

NEW QUEEN . . . Janet Buckley is shown as she appeared before the crowd as an entrant in the queen's contest. Twenty two sought the title of 1962 Maize Days Queen.

STEP RIGHT UP . . . Chief of Police Ben Moorman assists in the serving line as Frionans and visitors lined up for the free barbecue Saturday.

PRIZE WINNER . . . This float, entered by Friona State Bank, took top honors in the commercial division. It was entitled "Maize-Fed Food for the World."

HUNGRY BOYS . . . Entrants in the pie eating contest really get down to business in this portion of the Kids Contests. The boys weren't allowed to use their hands, but it didn't seem to bother them much.

YEP, IT'S REAL . . . Winners of the beard contest check each others whiskers for flaws. From the left are Irvin West, who had the heaviest beard, Dale Smith, most unique beard and Kenneth Livingston, most becoming beard.

FAMILY CHAMPS . . . Richard and Gary Shirley emerged as winners in the pie eating contest. Richard won the boys 7-10 division, and Gary was the winner for boys 11-14.

# As Seen By The Star Photographer

PRETTY FLOAT . . . A "float-full" of beauties was this entry by the Friona Chamber of Commerce, featuring entrants in the annual Maize Days Queen's contest.

PARADE ENTHUSIAST . . . One of the hundreds of persons who watched the parade was this youngster, who evidently found it quite interesting.

ANOTHER WINNER . . . The float winning top honors in the classes division was the sophomore entry, featuring a Liberty Bell made of maize, entitled "Let Freedom Ring."

EASY DOES IT . . . Boys in the egg race have to take it easy in their event in the Kids Contests. Steadiness as well as speed is required.

CHOW LINE . . . Part of the huge crowd which took advantage of the free barbecue last Saturday at the City Park is shown crowding around the serving tables. A total of 2350 pounds of

barbecued beef, along with beans and other trimmings were served.

## Tells Of Visit To World Fair

First of all, let me say that we are Fair enthusiasts! We thought it was terrific and we came away knowing full well that we hadn't seen near everything, but we had seen about as much as we could absorb! Our overall impressions much the same as several others -- it is an amazingly clean place to have so many thousands daily visiting and not boisterously noisy. And although there are throngs of people, we felt that the crowds are handled extraordinarily well. We did our share standing in line for the

most popular exhibits, but we felt that it was worth it after we did see them. But there are so many things to see that are worthwhile and interesting that one does not have to stand in line to see. We took a tip from another local fair goer and it really paid off. He suggested that the first thing we should do when we arrived on the grounds was to take an electric car tour of the grounds -- and that is exactly what we did. We saw the whole fair grounds and fortunately had an excellent guide who pointed out many

things which we would otherwise have missed -- for example, the gas clock on top of the gas exhibit. To tell time by it, you counted the number of jets that were burning and at 12:00 when the clock chimed, flames shot forth 12 times from the center jet.

He pointed out over the communications exhibit that the aluminum ball circling it was an exact replica of telstar (we could see it, but wouldn't have known what it was had he not told us) -- He told us of the chimes which played at 2:30 while the water from the international fountain kept time to the music with its constantly changing pattern of water spraying jets. He also gave us some good advice concerning the lines of people, which we followed and were rewarded.

There was a 2 1/2 hr. line-up in front of the science exhibit and he suggested that unless we were particularly science minded we should skip the long line by walking down some steps to the water level of the science pavilion and take it from there. This is what we did and within 20 minutes we were in the culminating part of the whole exhibit -- the spacarium. We went whirling through space -- or so it seemed -- fabulous! We also took our guide's tip about buying tickets to the fair ground and to the space needle the day before. Then on our second days visit to the fair, we went directly to the gates and waited for them to open at 9:00 a. m. -- us and several hundred others! But after only a 40 minute wait early in the morning while we were still fresh -- and a mad dash (we literally ran for it along with everybody else) for the space needle elevator when the gates were opened, we did get to go up on the first trip that morning! Again it was worth the effort! What

a view! We literally zoomed to the top, and we had picked a beautiful clear day for it. We didn't get to eat, for that was just too popular and the waiting lines were from 2 to 2 1/2 hours. Besides, the observation tower was above the dining room and we could look as long as we liked. Fortunately, another tip paid off on the elevator, and we were able to stand in a spot where we could see the view both going up and coming down -- many could not who got themselves stuck in the center of the crowded elevator (they held 100 each trip and there are 2 elevators).

Among the state's exhibit, we felt that Alaska had far outdone the rest. After going through the Alaska exhibit and seeing the gigantic bear (over 11 feet tall) a thrilling exhibition of the northern lights, and all the places of interest in Alaska, we have decided that we'll have to visit that state some day! Mary's pictures are excellent, but they somehow didn't make us feel as though we were actually there as we felt when we were looking inside the Alaska exhibit.

Incidentally, on the entrance or exit (I'm not sure which -- maybe on both) to the Monorail was a big sign All Texas Welcomes You. We rode to the fair the first day on the monorail and left our car parked downtown. We were packed like cord wood on that monorail and weren't quick enough going to the fair to get seats. But the ride lasted only about 2 minutes, so we couldn't complain. However, going back to the car, the crowds had thinned a bit, so we did manage to sit down on the return ride -- and even for 2 minutes felt good after a whole day on the grounds! Yes, our feet hurt! Not only were they tired, but they were just plain sore from walking on all the pavement --

Before I leave the subject of the Fair, I must tell you of my one big surprise. In one of the exhibits, a woman came up to me and said "Aren't you Ruth Reeve?" I was flabbergasted! And although she looked somewhat familiar, I couldn't begin to call her name. It was none other than Irene Sachs! I don't believe I have seen her since she stayed that winter at our house going to school just as soon as she said her name, I could see Irene, but I was so unprepared to see her that I'm sure I never would have been able to call her name --

Although I haven't begun to tell you all we saw those two days at the fair, I won't try to give all the details, but I will say that on the first day we attended there were 79,698 other people there too -- a record attendance at that date! I can't help but be a bit philosophical about all the crowds and all the standing in line. Somehow it seemed like a good idea, for as you stood waiting, we couldn't help but start chatting with someone else standing near by. And so we talked with people from all over the U. S. -- and even out of the U. S. So this World's Fair, I believe, is really helping the peoples of the world become better acquainted -- Everyone was so friendly and seemed eager for an exchange of chatter -- and for the most part, none seemed impatient or discourteous."

### Perle Mesta on TV

NEW YORK (UPI) -- Perle Mesta, famous Washington hostess, has agreed to play herself in an episode of Hal Stanleys fall television series, "Mr. Smith Goes to Washington" on ABC-TV. In the episode, subtitled "Washington Hostess," Mrs. Mesta will give tips on hosting to Kay Starr, singer and actress.

## Highlights and Sidelights From Your State Capital

AUSTIN, Tex.--A campaign to pass the water conservation amendment on which Texans will vote this November (No. 4 on the ballot) got under way at a meeting of the Statewide Water Committee in Austin. Committee is composed of just about everybody who is interested in water conservation and development.

Proposed amendment would permit the State Water Development Board to acquire storage space in reservoirs built either by local or Federal agencies and conserve storm and flood waters for beneficial uses. Gov. Price Daniel addressed the meeting and thanked the committee for its "dedicated

efforts" in promoting Texas' water program.

John Vandertulip, the State Water Commission's chief engineer, reported on the broad plan for meeting the State's water needs in 1980. Marvin Nichols of Fort Worth, chairman of the Development Board, discussed the lending program through which water projects have been financed. And Joe Carter, chairman of the Water Commission, explained the proposed amendment in detail and emphasized the need for its approval.

The Statewide committee urged its members to back the amendment and approved the Water Commission's proposed

budget. It also commended Governor Daniel for his "courageous, bold and dynamic leadership" in bringing about "the greatest and most comprehensive water resources conservation and development program in the history of Texas."

Ben Carpenter of Dallas was named chairman of the finance committee for the conservation amendment campaign.

TICK SURVEY--The U. S. Department of Agriculture has turned up five kinds of ticks which are suspect as fever carriers in a survey currently being conducted in Texas.

The Lone Star tick, believed (Continued on page 7.)

Last week was really an unusual for Friona. If we have ever had the first maize of the year harvested and the first bale of cotton ginned in the same week, I've forgotten when it was. Then, we had a balmy day for the Maize Days parade. Think it generally rains or the wind blows cold about parade time.

Friday morning it was as still as could be and the temperature was above eighty when a large number of persons lined Main Street to see the 1962 parade. Each of the four classes in high school, as well as some organizations, entered floats and all of them were fine exhibits of the cooperative spirit which prevails in Friona and the surrounding communities at this time of year.

The community sponsored windows held some very interesting displays of hand work vegetables, antiques and other items. Several unusual pictures were on display.

Everyone in Friona may not have seen the parade, but one young man wasn't kept from seeing it even though he had an accident recently and is still hospitalized. Eddie Wood was removed from Parmer County Community Hospital by Jay Claborn on a stretcher and brought down town in an ambulance so he wouldn't have to miss all the excitement of the weekend.

Our sincere thanks go to everyone who helped us gather pictures and information for our Maize Days edition. We've had a lot of nice compliments about this issue and are grateful for every one of them. However, without the cooperation of readers the job just couldn't have been done.

We regret that we were not able to use more of the pictures

which were brought to us. Determining the exact amount of space we will have in any issue isn't an easy task, but with special editions it is even more difficult.

Whether we used your pictures or not, we surely do appreciate your thoughtfulness in bringing them in. Thanks to everyone.

Similarity of telephone voices has been the cause of much confusion in the Floyd household the past several years. Geneva, who is a junior at Abilene Christian College, and Frieda, a freshman in Friona High School talk so much alike on the telephone that it is difficult for anyone to distinguish one voice from another.

This problem must have arisen with the Drake brothers, Arthur and Earl, a lot of times also. During the past few years I've talked to Arthur any number of times and thought I could recognize his voice any time I heard it. However, early last week Earl called the office and I thought it was Arthur.

I've never been able to figure

out how two voices with different sounds in person could be so much alike on a telephone or tape recorder. Geneva and Frieda were never able to imagine anyone getting their voices mixed up until they listened to tape recordings of them.

I'm wondering if it would be confusing to talk on a telephone and be able to see the person to whom you were talking at the same time. Some visitors to the World's Fair had this experience.

A note from Mary Lawson last week stated that she and Marvin were enjoying living in Amarillo but that they missed their friends in Friona. We've missed them, too.

The Lawsons lived in the section of Friona that has annual neighborhood parties. It wouldn't surprise me too much to learn that these two were having a party in Amarillo for ex-Friona residents. It seems that a lot of persons have moved from here to Amarillo in the past few years.

A lot of us read about the annual national spelling bee and think very little about it. Would it surprise you to know that about six million students participated in the 1962 spelling match and that thirty-five states were represented.

After thinking about these two statements, consider the facts that these bees are generally won by 13 or 14 year old students. If that doesn't impress you too much, take a look at the following words which were pronounced in the last round of the national bee:

Desperately, remuneration, catarrh, victuals, integrity, censure, vaudeville, subtle,

## Highlights--

a carrier of Rocky Mountain spotted fever, Q fever and tularemia and also a transmitter of Bullis fever and tick paralysis, has been found in Robertson, Rusk, Colorado, Medina, Kerr, Comal, Nueces, Karnes, Harris and Hays Counties.

The Cayenne tick, found only in South Texas and a producer or transmitter of Q fever, has been discovered in Kenedy County.

The Gulf Coast tick, blamed for tick paralysis, has shown up in Washington County while its imitator (amblyomma imitator), rarely seen in the U. S., was found in Nueces County.

The spirose ear tick (only soft tick of the five), suspected in Q fever and anthrax, has been identified in Randall, Wichita and Comal Counties.

**TRAFFIC SAFETY WEEK--** Governor Daniel expressed "deep concern over the dangerous upward trend in traffic

ukulele, bilious, ecstasy, granary, paraphernalia, hybrid, pugacity, corollary, uriel, awry, diocese, tutelage, quay, colossal, idiosyncrasy, fuchsia, corroboration, rhinoceros, dysentery, desiccate, scintillate, proselyting, knave, bellicose, sassaparilla, maggots, Chlorophyll.

Perhaps it would be good if each of us would learn a few of the words these young people have to learn in order to win the bee.

Success in life depends upon the staying power. The reason for failure in most cases is lack of perseverance.

deaths among Texas high school and college students," as he proclaimed September 17-21 as fifth annual Texas School Traffic Safety Week.

He noted, however, that the 25 Texas traffic deaths in the 3-day Labor Day holiday were the second lowest toll since 1951.

**EXPORTS--**Texans can start thinking of themselves as exporters in big style.

Nobody had counted it up before, but now the University of Texas Bureau of Business Research finds that Texas is exporting \$247,000,000 . . . showing how the petro-chemical industry has turned Texas' sales of oil abroad from a raw to a manufactured product.

Petroleum exports came to \$177,000,000 and chemicals to \$247,000,000 . . . showing how the petro-chemical industry has turned Texas' sales of oil abroad from a raw to a manufactured product.

**SCHOOLS--**The men and women who run the schools -- board members and administrators-- come to Austin on September 30 for their annual conventions. They plan searching looks at the problems of schools, many of which sum up into five letters -- M-O-N-E-Y.

Overhaul of the ad valorem tax system was proposed by a series of clinics held by schoolmen earlier this year.

Problems of textbook selection and teaching Americanism will be aired.

The textbook panel will review recent criticisms, as well as prospective legislation which may be recommended by a study committee.

## Here's how Gas heat COOLS your home!

Cooling with a Gas flame combines four simple laws of nature. The ARKLA-SERVEL Sun Valley GAS air conditioner employs them to produce the finest air conditioning science has yet devised!

First, **BOILING**, as in a percolator, moves the liquid refrigerant to the top of the unit in the form of vapor. Secondly, **CONDENSATION**, as on a glass of cold water, occurs, converting the vapor back to liquid. Next, **EVAPORATION** provides the chilling effect, just as blowing upon your hand, when wet, makes it feel cool. Last, is the **ABSORPTION** of the vapor by a salt solution called lithium bromide, in the same manner as table salt absorbs liquids. The liquid then returns to the "percolator" to start the cycle over again.

This is why an ARKLA-SERVEL Sun Valley GAS air conditioner has no moving parts to wear out or

break down, and why it 1) has a life expectancy of three-to-four times that of an ordinary air conditioner, 2) does not lose its efficiency with age, 3) operates with a minimum of service or repair, and 4) maintains its low operating cost throughout the life of the unit.

All these reasons add up to **LOWEST OWNERSHIP COST** . . . and make ARKLA-SERVEL Gas air conditioning truly the wisest investment you'll ever make for your home.

# State President Guest Speaker

## Area Farmers Pledge 70,000 Acres To Beets

Some 700 farmers in four counties of West Texas and eastern New Mexico have signed declarations of their intentions to grow more than 70,000 acres of sugar beets to supply a beet sugar processing facility proposed for construction by the Holly Sugar Corporation in the Hereford-Dimmitt area of West Texas.

The preliminary sign-up was conducted by a team of five Holly representatives who received the written statements of intent from farmers who met with them in five communities, located in the proposed sugar beet production area -- Hereford, Dimmitt, Friona, Bovina, and Clovis, New Mexico.

The 70,000 acres, plus, on which farmers said they wanted to grow beets are located in Deaf Smith, Parmer, and Castro Counties, Texas; and in Curry County, New Mexico. The sign-up was accomplished in a brief two days, so great is the desire of area farmers to add this important cash crop to their rotations, replacing some of the surplus crops to which they are now limited.

Holly Sugar and the Texas Sugar Beet Growers Association have made joint application to the U. S. Department

of Agriculture under provisions of the new sugar law which went into effect July 13, 1962, for assignment of the annual

### Check Bindweed Plots, Says Jones

J. T. Jones, chairman of the Parmer County Farm Bureau Weed Committee urges that farmers who have treated bindweed plots on their land or county right of ways this year check them soon for any surviving plants. If there are some, says Jones, they can easily be treated again and this would avoid the necessity for treating this plot again next year.

If there are scattered plants showing up in these areas next year, part of the effectiveness of the first treatment has been lost, he said. The State Highway Department has done a good job, apparently, on those right of ways, and Santa Fe Railroad has treated all known plots on their property according to Jones, and with the cooperation of individuals it will be possible to keep these weeds within the realm of easy and inexpensive control.

65,000-ton sugar equivalent acreage reserve set aside for new production areas. The Department has announced that it will conduct hearings, commencing on Sept. 25 at Washington, following which it will assign the acreage reserves to the successful applicants.

Holly President, Merrill E. Shoup, called the sign-up of growers this week "a tremendous demonstration of the desire for sugar beet acreage" in the West Texas-New Mexico region.

"This is further demonstration, also, of the fine cooperation we have been receiving from all concerned in this area as our planning for expansion into this area has progressed over many months," Shoup added.

On the average, according to Holly spokesmen, the acreage signed up represents about one-fifth of the total irrigated acreage operated by the individuals who signed the statements of intent, which indicates that the most desirable kind of crop rotation programs will be practiced in the area.

The Holly representatives were assisted in signing up the farmers by local business people in the communities where the meetings with farmers were held.

"Holly is prepared to initiate construction of the proposed facility to serve West Texas and eastern New Mexico as soon as favorable action is received from the Government on the pending application," Shoup said. "We have acquired the rights to a factory site and are proceeding with preliminary engineering and design work," the head of one of the nation's two largest beet sugar companies added.

EAST LANSING, MICH., FARMER: "Taxpayer -- That's a word we're offering for consideration of the editors of any new dictionary. It refers to any good citizen who has become much confused by all the tax controversy going on . . . and sincerely but fearfully hopes it won't finally end up costing him more and benefiting him less."

### Committee Told Of Labor Needs

Judge Loyde Brewer and Bill Nichols, serving as a county Farm Labor Committee, met with Billy L. Lynch, manager of the Texas Employment Commission office recently, to review the total seasonal employment needs developed by the TEC.

The committee was presented with figures from the TEC which showed that Parmer County will be short 950 cotton pullers during the peak period of the cotton harvest. This shortage will be met by the importation of Mexican National Bracero workers.

The committee will function under Public Law 78, obtaining facts relevant to the supply of domestic farm workers existing in Parmer County and the shortage of workers, if any, which must be met by importing Mexican Nationals to harvest the cotton crop.

Under Public Law 78, the TEC must supply this information to the Secretary of Labor who must limit the number of Mexican Nationals to be used in the county by granting a "ceiling."

Brewer and Nichols met with Dick Poteet, manager of the TEC office in Muleshoe, last Thursday at the Community Room of the Friona State Bank.

### Cattlemen Meet At Wichita Falls

Cattlemen attending the quarterly directors' meeting of the Texas and Southwestern Cattle Raisers Association in Wichita Falls, Sept. 22, will be brought up to date on a number of developments of importance to the livestock industry.

The general session, open to the public, is scheduled at 9 a.m. in the Kemp Hotel, headquarters for the meeting. Committee meetings are scheduled prior to the general meeting, according to Joe S. Fletcher, TSCRA secretary - general manager.

Reports on animal health and water conservation will be among the number of topics covered in the general session.

ENTERPRISE: "If our old Uncle were a private citizen, it isn't improbable that some of his nieces and nephews would be asking that he be declared incompetent and a guardian appointed."

By Dolph Moten  
"You farmers out here (on irrigated plains) are cream of farmers of Texas." Those were words of Jay Naman of Waco, state president of Farmers

FARMERS UNION LEADERS -- Clyde Redwine, sitting left, and Sam Bradley, sitting right, newly elected vice president and secretary-treasurer respectively of Parmer County Farmers Union are shown talking with T. O. Lesly, standing left, outgoing county president, and Jay Naman, state FU president, following a county-wide meeting Thursday night at Hub Community Center. Leon Smith, new president, was unable to attend the meeting.

Union, who spoke at a Parmer County FU meeting Thursday night at Hub Community Center.

In a business session prior to Naman's talk, Leon Smith of Lazbuddie was elected president of the county organization succeeding T. O. Lesly.

Clyde Redwine of Bovina was elected vice president and Sam Bradley of Lazbuddie was re-elected secretary-treasurer. Those present at the meeting voted to establish a county organization on a stronger basis and do away with local organizations at Bovina, Farwell, and Lazbuddie. The Friona local was not represented at the county meeting and decision was made to invite that group to join the county organization or retail its local, whichever its membership preferred.

"The problem of participation and responsibility is an important one for farmers," Naman said. "We as farmers cannot afford the luxury of apathy when the forces that are attempting to grasp away our way of life are so great." "During the last two years, under a Democratic administration, we (farmers) have had most favorable environment ever," Naman pointed out.

Net farm income per capita is now highest in history, the farmer from Central Texas told his listeners.

Naman blasted National Farmers Organization in the Midwest for its current program of withholding livestock from the markets. "That's direct action and it's been proven time and time again that it won't work successfully," the state president said. "So much more good could be done by channeling that energy and money into indirect action."

Naman also praised Lesly for his work as a leader in the county organization and for his work on the state FU executive committee.

BOONE, IOWA, NEWS-PUBLICAN: "The federal highway network now under construction is expected to give fresh momentum to the national wanderlust -- and frustration to anyone who wants to stop long enough to see anything."

## LOOK HOW CLEAN MODERN ELECTRIC HOME HEATING IS!

EVEN A SNOW WHITE HANKERCHIEF STAYS CLEAN WITH ELECTRIC HEAT

From home after home where electric house heating has been installed, you hear comments like these:

"Dusting is practically unnecessary . . ."

"Drapes just never seem to get dirty."

"We haven't had to redecorate in years."

And, then, electric heat homeowners volunteer information like,

"There just aren't any cold drafts or hot blasts."

"We've never felt so completely comfortable."

"It's amazing, there's just no maintenance to pay for or worry about."

Clean and comfortable -- that's electric heat. And more economical than you believe possible. Ask your Public Service manager about electric heat -- including a special heating rate.

SOUTHWESTERN PUBLIC SERVICE COMPANY

## WITH THE COUNTY AGENT

DERYL COKER

So far this year we have six farmers who have said they will run a fertilizer demonstration on wheat. They are Pete Jesko, A. L. Reznik, Keith Brock, Melvin Sachs, Tom Caldwell, and James Boardman.

Also if anyone in the county has put down different rates on fertilizer on wheat I would appreciate obtaining the results. It won't be long until crops will be harvested and each year the question comes up as whether or not we should use a desiccant or defoliant on cotton. The Texas Agricultural Extension Service has prepared some questions and answers on the use of desiccant which should help you in determining their use.

The true defoliants have not given uniform results. Desiccants have been more effective in preparing cotton for stripping.

1. What is a desiccant? A--A desiccant is a chemical material applied to cotton for the purpose of drying the leaves in preparation for stripper harvest of the open bolls.

2. How do desiccants differ from the action of true defoliants? A--Desiccants do not cause all the leaves to fall to the ground. Because of faster action on the tissue of the leaf, it may dry and stick on the stalk.

3. What are the recommended desiccant? A--Pentachlorophenol and Arsenic Acid, usually 75% when used very effective.

4. When should the desiccant be applied? A--Cotton should be fully mature, 60 to 80% open and preferably 90% open. "Penta" is applied with diesel oil after the dew dries. Arsenic Acid is applied with water and can be applied under conditions of higher humidity than "Penta."

5. What is the cheapest material for use as a desiccant? A--Commercial preparations containing about 75% arsenic acid.

6. Is Arsenic Acid poisonous to man and animal? A--Yes. It is very poisonous and the SAFETY DIRECTIONS ON THE MANUFACTURER'S LABEL SHOULD BE FOLLOWED. It is also corrosive to equipment. Sprayers should be flushed with water and baking soda solution after each spraying. Black pipe is less corrosive than galvanized, copper, aluminum, etc. is still less corrosive.

7. Is there a safer material to desiccate cotton? A--Penta is less corrosive and does a satisfactory job with favorable weather (hot and dry) but is more likely to require two applications. A shower before Penta completes its action reduces its effectiveness.

8. What about emulsifiable Penta? A--Two emulsifiable "Penta" materials are listed in the Cotton Defoliation Guide L-145. They are applied in water. No spreader or sticker need be added because excessive foaming in the sprayer tank will result.

A number of growers have ob-

tained good results with 1 and 1/2 quarts emulsifiable Penta plus 1 pint of Arsenic Acid per acre. This combination seems to tone down the harsh effect on the leaves that acid usually produces, causes greater leaf drop and yet still results in final desiccation.

It is not easy to emulsify Penta and the two emulsifiable Penta are the result of hard work. Results have been good.

9. What about the upper rates of chlorates or the possible use of emulsifiable Penta as an additive? A--Growers have gotten good desiccation results with magnesium chlorate and sodium chlorate defoliants used at the higher rates. Growers have found that combinations of emulsifiable Penta as an additive to the chlorate defoliant formulations make them perform well as desiccants for stripper harvest.

10. How much Arsenic Acid should I use? A--Three fourths to 1 1/2 quarts per acre depending on the size of the cotton.

11. What is Arsenic Acid mixed with? A--Water - 8 to 12 gallons per acre for ground spraying and 5 gallons for aerial spraying.

12. How should a ground sprayer be prepared for applying desiccants? A--Use a regular cotton sprayer with 3 to 5 cone type X3 or X4 nozzles, per row 8 to 10 inches from the cotton; pump pressure 40 to 50 p.s.i.; 50 mesh strainer; tractor speed 3 to 5 miles per hour. Cotton under 24 inches high use 3 nozzles per row, over 24 inches high use 5 nozzles. Get material on all leaves. Under windy conditions, protect the operator and the machine from spray drift. It might be necessary to spray in one direction of travel only.

13. How do you tell when the desiccated leaves are dry enough for stripping? A--When leaves near the bottom of the stalk will crumble in the hand and the leaf stems break. Normally this will be 7 to 8 days after applying. In the mornings these leaves are tough and will not crumble. Higher grades come with dry harvest. Let cotton dry to 8% moisture. Eat an early dinner, then to the field with the stripper at about 11:00 a.m.

14. How do you tell if a second application is necessary? A--At the McGregor Experiment Station, they recommend retreating if more than 4% of the old leaves are still green. The better grades will pay for the second treatment.

15. Can the cotton field be grazed after desiccation? A--The answer is no, especially if arsenic acid was used. Also, if the stalks are shredded, the insect situation will be improved.

16. Is there any danger from drift in spraying desiccants? A--A wind will drift the desiccants if it is strong enough. Arsenic acid may drift into grazing areas and endanger livestock. Home plantings, vegetables, flowers, shrubs and trees might be damaged by any desiccants.

17. What are the possibilities for some of the true defoliants for stripper harvesting? A--Organic phosphorus compounds, DEF, Floex, De-Leaf and Fos-Fol can be used on drought-stressed cotton at 2 pints per acre in 3 to 5 gallons of white diesel oil.

18. Does the addition of activators or spreaders give some increase in leaf kill or desiccation? A--Tests have shown that conditions of cool days and cool nights or plants under moisture stress are unfavorable to desiccation. Addition of spreaders or activators to arsenic acid mixtures does tend to help under the above con-

JIMMY SMITH

## Jimmy Smith Joins Parmer County SCD

Jimmy Smith, 27, became Work Unit Conservator for the Parmer County Soil Conservation District this week.

Smith, a 1957 graduate of Texas Tech, with a major in Animal Husbandry and a minor in Range Management, has been with the Soil Conservation Service since June of 1956.

He worked as a student trainee with the SCS in the summer of 1956, and became a full-time employee shortly after his graduation from Tech in June of 1957.

Smith became a Soil Conservationist at Panhandle in

December of 1957, after the customary six-month training period. He has served as assistant to the Work Unit Conservator there since that time.

His appointment was made by Guy Nutt of Amarillo, Area Conservator.

Smith is married, and he and his wife Dixie have two sons, Stephen, 3, and Randall, 2. He is a native of Roscoe, in Nolan County. He replaces Bob Crozier, former Work Unit Conservator, who has joined Gifford-Hill-Western as a salesman in Canyon.

## Dean Highlights Field Day

HALFWAY . . . The High Plains Foundation had its most successful field day. Smokey Hewett fed 2000 people, and more than 2,500 persons visited the Foundation during the day.

The evening talk by Dr. Earl Butz, Dean of Agriculture from Purdue and a former Undersecretary of Agriculture, was an inspiration to the listening audience, and a speech which should have been heard and taken to heart by ALL farmers and businessmen throughout the nation.

For example, Dr. Butz said to a visitor, "What is your name and what do you do?"

The fellow answered, "I'm just a farmer."

Dr. Butz replied, "Don't ever say that again! Sure, you and I are both farmers, but throw those shoulders back and tell the world --I'm an American farmer! Even after you hear politicians declare that agriculture is a declining industry, read about surplus crops, about cotton allotment scandals, about the cost to the taxpayers, etc. . . . Don't believe it!

Agriculture is not a declining industry. We are doing a better job with fewer workers. Every

dition; however they are not to be used with Penta and diesel. Generally, 1 to 1 1/2 pints per 100 gallons of spray solution is recommended.

19. How much acreage should be sprayed at one time? A--Stagger the application. Cover the field at about the same rate you expect to harvest. This will help in avoiding greening up.

their Lord for bread for the morrow." In this country each night, two out of three people pray for the courage to stay on their diet!

Other statements made by Dr. Butz which have such a solid foundation for politicians to listen to are as follows:

"Nehru in India wishes for our agricultural knowledge. It requires 95 per cent of their people to till the land--and still they are hungry."

"Mr. K. in Russia wishes he could take a part of the 45 per cent farm labor required in producing food and fiber and put them in factories making cars, TV sets and shoes. He realizes that the weakest link in his whole Russian society is agriculture."

"When Mr. K. arrived in the U. S. he spent a few minutes laying a wreath at the Washington Monument, and a half day at the Beltsville Experiment Station asking questions, he flew to the West Coast, but on his way back he wanted to stop at an Iowa corn-hog farm. He knew all about our nuclear plants, he knew about our military operations, he did not want to see rockets and guns; Mr. K. wanted to see how two men in Iowa could operate a 500 acre farm, when in his country it required 50 men.

"Did you ever think of how the Lord's Prayer was put together? First, there is the general petition asking for things to come, then there is the second petition asking for individual things --and the first request is for bread. 'Give us this day our daily bread.'

"Two out of three people around the world each night ask

## ASCS Names Community Committeemen For 62-63

Results of the ASCS community committee election was announced this week by Prentice Mills, office manager of Parmer County ASC.

In the mail voting, three communities elected five committeemen apiece.

For Community "A", the Fri-

ona area, Billy Dean Baxter was elected chairman, Roy Miller vice chairman, Dick Rocky member, C. V. Potts, first alternate and John L. Ray, second alternate.

In Community "B", the Lazbuddie area, E. T. Ford was named chairman; J. T. May-

field, vice chairman; Luther Hall, member; Max Steinbock, first alternate and Wayne Clark, second alternate.

Community "C", the Farwell-Bovina area, elected Robert Calloway as chairman; Vernon Estes vice chairman; Lee Jones, member; Lawrence Jamerson, first alternate and Norvell Strawn, second alternate.

The county committee will be elected by delegates to a county convention Thursday, September 27.

The convention will be open to the public. "Those wishing to see our voting procedure are welcome to attend," says Mills. Only the delegates, who are the community chairmen, are eligible to vote.

## Fall Armyworms Reported In Parts Of The State

Fall armyworms, which develop best during cool, wet weather, are being reported in many areas of the state, according to C. F. Garner and W. H. Newton, entomologists, Texas Agricultural Extension Service.

The worms which feed primarily on pastures, lawns and native grasses during this part of the year, may later become a problem on small grains, say the specialists. They probably cause more economic damage to fall planted small grain, grain sorghum, and Bermuda-grass in Texas than any other crops, they add.

The worms eat the forage and tender stems of the plants they attack and cause whitish patches in fields of grain or pastures which are the first signs that the worms are present.

The adult moths are active in the late evening and at night and females usually lay eggs in masses of 150 on blades of grass or on the eaves of houses, since they are attracted to light.

The young larvae hatch in 2 to 4 days but the young larvae are usually not noticed until they are 1 to 1 1/2 inches long. Larvae feed for about 2 to 3 weeks and pupate in the ground, completing a life cycle in about one month.

For the best control of the fall armyworms, insecticides should be applied at the first sign of an outbreak and when the worms are small. For information on their control, the entomologists suggest a visit

with the local county agent. Copies of MP-339, "Texas Guide for Controlling Insects on Sorghum, Small Grain, Corn and Grasses" are available from the agent or the Agricultural Information Office.

Trifles make perfection, and perfection is no trifle.

# CONGRATULATIONS

To The Ware Brothers Of Parmer County, For Producing Parmer County's First Bale Of Cotton In 1962

THIS COTTON, WHICH WAS GINNED AT BOVINA GIN COMPANY LAST THURSDAY, WAS RILCOT 90 CERTIFIED SEED. THE FIRST BALE OF COTTON IN 1962 FROM BOTH PARMER AND CASTRO COUNTIES WAS

# RILCOT 90

We Are Awarding 300 Pounds Of Free Seed As A Premium For These First Bales.

# TEX-SE-COT SEED CO

HART, TEXAS

### Parmer County Exclusive Listings

All these farms are south of the railroad and near Bovina and Farwell in the best water district.

One of the best 625 acres. 1 mi. east of Bovina, on pavement, all in cultivation, all allotted, 110 A, cotton, 111 A, Wheat, 290 A, maize, 85 A, barley, 4-8" wells, natural gas, two 3-bdrm homes, large barn, tenant house. All waters.

Perfect 160 A. of land, nice 3-bdrm home, all waters from one ditch. Good strong 8" well, all acres allotted, 29% down, 15 yrs. to pay balance.

160 A, with 23.9 A, cotton in perfect water, \$16,000 down, 20 yrs. to pay balance.

Good 160 A. of land, 3-bdrm home with basement. All waters from perfect 8" well, 25.6 A, cotton, 29.3 A, wheat, rest in maize, \$24,240 down, balance 20 yrs. on or before at 5% interest.

320 A, with perfect 8" well, all in cultivation, 3 bdrm home, six miles from town. Only \$200 an acre with \$13,560 down and 20 years to pay balance with on or before notes.

If you have land for rent, we'll appreciate the opportunity to help you sell it.

# Texas Will Need Temporary Pastures For Winter Grazing

Most sections of Texas will soon need temporary winter pastures for normal grazing and to fill the gap created by the severe summer drought, points out Ted Trew, extension pasture specialist.

Green forage that animals can get in no other way can be supplied by these pastures, says Trew. These cool weather crops also allow summer grasses to rest before being grazed again, and they protect and improve the soil.

In planting the pastures, allow an acre for each animal unit to be grazed. However, if land is not available, Trew says, plant as much as you can and ration the grazing. The time of planting is very important in winter pasture production, says the specialist. Planted too early, your crop may get caught by hot, dry weather but if planted too late, it will not provide grazing until spring.

The newer varieties of oats are Moregrain, Suregrain and Alamo-X. They will each pro-

vide early grazing but only the first two named are resistant to leaf rust, Elbon and Gator are rye varieties which produce early grazing of good quality. However, since they mature early, they do not provide grazing all winter.

Gulf ryegrass has proved itself as a forage producer in Southeast Texas, says Trew. He adds that two new vetch varieties, Lana Woolypod and Oregon Woolypod, and both earlier than hairy vetch.

In many areas, fertilization will be necessary to get the most production from the winter pasture. A soil test is the best guide for determining the

amount and kinds of plant food needed, says Trew. Topdressing may also be beneficial for stimulating early and late spring growth. And don't be too anxious to graze the pasture once it is up, explains Trew. Allow oats to get 6 inches high before grazing and when they are grazed down give them 4 to 5 weeks for regrowth, he says.

Temporary winter pastures can take up where summer pastures leave off if they are planted at the right time and given good management. Trew suggests a visit with the local county agent for details on winter pasture programs.

## The HAPPY HOMEMAKER

BY JUNE FLOYD

It seems that all of us are reluctant to change our way of doing any chore around the

house. Some times this isn't good. For example, there has been an improved cold water soap on the market for quite a long while that was designed especially for washing woollens.

This product will keep your woolen material soft, fluffy and color fresh. It will also keep your favorite cashmeres, orlon and nylon knits and lingerie fresh and beautiful.

All you need do is to squeeze articles gently in water with soap and rinse. All garments come out as soft, as fluffy and as color fresh as new.

# Six Rural Accidents Reported In County

The Highway Patrol investigated six rural accidents in Farmer County during the month of August according to Sergeant W. E. Wells Patrol Supervisor of this area.

These wrecks accounted for one person injured and an estimated property damage of \$2,290.

The rural traffic accident summary for Farmer County from January through August of 1962 shows a total of 64 crashes. As a result of these crashes there were three persons killed and 37 persons injured. The estimated property damage amounted to \$42,065.

The veteran patrol supervisor stated, "With fall and winter approaching, now is the time to have vehicles checked in preparation for the cold winter ahead."

The Vehicle Inspection Program in Texas has proved itself to be a valuable tool in reducing accidents on Texas streets and highways. All vehicles registered in this state are required to be inspected once a year, he added.

The new motor vehicle inspection year began September 1. However, the only thing new about the inspection this year is the sticker itself. The Sergeant pointed out, that this new sticker is a dry mount decal which we believe will adhere regardless of weather conditions.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

This is the harvest season for ideas in Farm Bureau, and local Farmer County Farm Bureau Members are being urged to participate in the annual process by which the organization decides its positions on hundreds of issues on local, state and national issues.

The process begins at the grass roots with local discussion meetings attended by Farm Bureau members. The first official step in the process is the county annual convention at which county policies and recommendations on state and national issues are adopted after discussion and debate.

The process begins at the grass roots with local discussion meetings attended by Farm Bureau members. The first official step in the process is the county annual convention at which county policies and recommendations on state and national issues are adopted after discussion and debate.

The Farmer County Farm Bureau Annual Convention will be Monday, October 1, 8 p.m., at the School Cafeteria in Bovina. All adopted resolutions pertaining to county-level matters become policies for the local organization for the ensuing year.

All approved resolutions dealing with state and national matters are forwarded as recommendations to the Texas Farm Bureau convention which will be held this year November 11-14 in San Antonio. County Farm Bureaus send delegates to the state convention to adopt state policies for the coming year and to make recommendations on national issues for consideration by the National Farm Bureau convention to be held this year in December at Atlanta.

The number of delegates from a county is based upon the size of membership of that county. For example, Farmer County Farm Bureau, which had 506 members in 1961 was eligible to send six delegates to the state convention last year.

Finally, the policy development process is culminated at the national convention in December where delegates from 49 state Farm Bureaus (all except Alaska) adopt national policies for Farm Bureaus everywhere. Here, too, the size of state delegations is based upon number of members. Only three other states—Illinois, Indiana and Iowa—have more voting delegates than Texas.

This, then, is the Farm Bureau policy development process. And it is open to each Farm Bureau member. It is with the individual that ideas, which finally become policies, originate.

Farm Bureau policies are not made by taking an opinion poll. An opinion given in such a poll represents one's ideas based on his total information and prejudices on a given subject. In Farm Bureau, it's different. To be adopted as a Farm Bureau policy, an idea must be sound enough to survive the rough-and-tumble arena of debate and free exchange of ideas. It is the collective knowledge of large numbers of Farm Bureau members that determines the organization's policies. The more members that are involved, the more likely will the resulting policies be fair and reasonable and sound.

David Lawrence writes, in U. S. News & World Report: "President Kennedy has made a serious mistake in declaring that the recent vote in the Senate against his medical-care plan should be made an issue in the coming congressional elections. For, it may beasked, which party will the President hold responsible for the defeat of his plan? Will it be the Republican Party, five of whose prominent members voted with the President? Will it be the Democratic Party, 21 of whose Senators voted against the President? Or will Mr. Kennedy campaign against both the Democratic and Republican Senators who did not vote with him and who are up for re-election?"

## HD Agent's Notes

BY MISS LITTLE M. SIL

Here's something to think about. Recently we attended a district meeting in Hereford to obtain certain background information that is most important in understanding you the people we work with. This information will be used with the County Program Building Committee in planning long range objectives and goals of the county, too.

We were interested to learn that we have a large percentage of our population who attended or graduated from a college or university. Would you have guessed that we have 291 men and women who have completed 4 years or more of college work?

And we also have 390 men and women who completed 1 to 3 years of college education. This gives us a total of 681 men and women who have had at least one year of college education. This is a good percentage since our county population was 9,583 according to 1960 census.

We could go on to state that we have 587 men and 739 women in the county who have completed four years of high school. This is a good percentage of the population but we need to encourage more boys and girls to complete their high school education.

Now what does this mean? With this education we wonder how much return of costs do we have from higher education? In other words, how much is a college education worth in dollars?

One can obtain an idea about the value of a college education

from a study made by the U.S. Census Bureau that covered the earnings by educational levels. The study also shows that the year spent in completing work for a degree adds more to earnings than any preceding year of college.

This study showed that a grade school graduate would have an average lifetime earnings of \$182,000. According to the 1960 census we have 1,169 men and women in Parmer County who have completed the first 8 years of grade school. To go on with the study, high school graduates will have an average lifetime earnings of \$258,000.

The total 681 men and women who are college graduates in Parmer County have an average lifetime earnings of \$435,000. These studies should help us to plan ahead for the education of our children.

With the cost of a college education increasing each year we must plan now even for the first graders and younger children. Did you know that 45 per cent of our population are 19 years of age or younger?

## Farmers Told To Be Cautious In The Use Of Defoliants

With the growing importance of cotton character and fiber fineness to the spinners and users of raw cotton, Adolph

Hanslik, president of the Lubbock Cotton Exchange, has issued an appeal to producers of cotton in the South Plains area.

Hanslik is asking producers, for their own benefit, to exercise caution in the use of defoliants and desiccants prior to harvest this fall. Mr. Hanslik explained that most of the Central Texas crops have suffered from lack of moisture and is therefore poor character cotton.

Due to this, the cotton textile mills probably will be in need of cotton of good character and he urges producers in this area to use caution in the use of chemicals that might affect cotton quality.

Your Experiment Station tests show that cotton should be at least 60 per cent open under dryland conditions and 80 per cent open in irrigated fields before desiccants are applied.

## Littlefield Native Named Soil Scientist At Halfway

Dr. Arthur F. Gohlke was elected to the position of Soil Scientist at the High Plains Research Foundation, by the Board of Trustees, upon the recommendation of Dr. Earl H. Collister, Director, at the semi-annual meeting of the Board on September 14. Dr. Gohlke will conduct research on specific soil and plant projects and also supervise the research at the Foundation with soil and water research.

He will join the staff at Halfway permanently when he completes some very important basic research projects in radio-active phosphorus and soil and water relationships in the Department of Biochemistry at Michigan State University, Lansing, Michigan.

Dr. Gohlke is a native of the High Plains of Texas. He earned with his father and brothers near Littlefield, Texas. He received his bachelor of Science degree at Texas Technological College in 1953. He was employed by Agricultural Chemicals Inc., Greenville, Mississippi. He was employed by the Plainsman Supply Co.,

Plainview in 1956 and 1957.

In the spring of 1957, he commenced his graduate program at Texas Technological College receiving his Masters degree in Agronomy in August, 1958. He was accepted for graduate work at Purdue University, Lafayette, Indiana, in September 1958, securing his Doctor of Philosophy degree in Soil Chemistry in 1961. He is at present conducting post-doctorate research in bio-chemistry at Michigan State University, Lansing, Michigan.

His work in this field of soil and plant relationships will be of great value to the agricultural industry in the High Plains. His studies of the yields of cotton and grain sorghum of irrigated Amarillo Clay Loam in two moisture levels; cotton insect control activities in Lubbock County together with his scientific studies and publications at Texas Tech, Purdue, and Michigan State will be very helpful as he starts his activities at the Foundation.

The new soil and plant research laboratory given to the High Plains Research Founda-

tion by the Killgore Foundation in Amarillo is already equipped for some of the work Dr. Gohlke will be doing in soil and plant research. Other laboratory equipment needed will be secured to give him the facilities for his studies which will be directed to continue the strengthening of the agricultural and business economy of West Texas.

Dr. Gohlke's father and brothers are active in farming in Lamb County. Dr. Gohlke, his wife Mary Lene and daughter Debra Ann will move from Lansing, Michigan to Plainview in December.

Dr. Earl H. Collister in announcing the approval of the board stated "The addition of Dr. Gohlke to our staff will round out our program in Soil Sciences and make the Foundation one of the best staffed research centers in West Texas."
