LISTEN TO LUKE

By Albert---

This is about the time of the year when dog owners should begin thinking about keeping their dogs up in compliance with the law. In fact, most any time of the year is the time to think about that if the owner cares anything about the dog.

Lambing season is about to begin or has begun on some of the area ranches and Aubry Farrell says that he is still making an effort to control the stray dogs and intends to continue to do so.

It was pointed out that about six or seven litters of pups that are turned loose on the town makes 24 to 48 pups that will be stray dogs and preying on the sheep possibly, or running up and down the streets of Sanderson bringing on more stray and unwanted dogs. Aubry said that this is about the year's "take" in his efforts to control the situation.

Anyone who has a litter of pups to give away or who owns a dog they don't want, or who knows of a stray dog that is roaming the streets is asked to contact him so that it can be taken care of.

Announcement will be forthcoming soon of the time for registration of all dogs so that owners who have dogs they want to keep may comply.

And we all will have to admit that we don't see as many dogs running up and down the streets as we have seen at times in the past, thus pointing out the effects of and the need for some kind of stray dog control.

More and more candidates have jumped into the governor's race and that promises to be an interesting affair. There are aspirants in both the major political parties.

It's interesting to us to see some of the things listed that are supposed to sway a voter. Every known appeal is being used. If the fastest prune-picker in the state were to announce for some job, we feel that most of the prune pickers would favor him for the political job because he is well-known for his prowess as a prune-picker among that group. The trouble is that seldom, if ever, have we known where such a man would be qualified - merely on the basis of his speed as a prune-picker - for any job except picking prunes.

We would like to see someone seek some of the offices of the state, nation, and even on lower levels of politics on the basis of integrity, honesty, a willingness to learn all he can about the duties of his office, a solemn pledge to uphold all of his obligations in that office, and to put his candidacy on the line willingly for the approval of the voters.

And we would also like to see voters name a candidate on the basis of qualifications along those lines and make the candidate aware that his tenure in office depends upon how he adheres to his promised actions - instead of voting for him for his prune-picking ability.

Mrs. Connie Wood, Coordinator of Reference Services, and Miss Shelah Bell, Coordinator of Extension Services with the El Paso Public Library, are pictured above second from left and extreme right conferring with County Judge R. S. Wilkinson, Mrs. Margaret Farley, and Mrs. W. H. Savage in the Terrell County Public Library. The visitors were here Monday morning to assist and advise those connected with the local facility. Meses. A. C. Camer, Irvin Robbins, and N. Malone Mitchell Jr. and her son, Scotty, other local library workers, were also on hand to receive the benefits from the visitors.

Health Certificate Is Needed By Food Handlers

Dr. Jeff M. Flowers Jr., Terrell County health officer, asked The Times to publish the fact that by March 1, 1968, all persons in all public businesses involved in the sale or handling of food or drink would be required to have a health certificate. This involves those working in cafes, bars, food stores, etc., Dr. Flowers stated.

Dr. Flowers stated that the examination could be obtained from any M. D., or from him, but anyone getting the examination from another doctor should come to him for the certificate which must be posted in the business in a conspicuous place.

The health examination is required annually, Dr. Flowers stated, as he urged the cooperation of all business operators and their employees in compliance with the law.

Drive Launched For Supporters Of County Library

A drive was launched this week for supporters of the Terrell County library. The success of the project thus far is reported in another story concerning the meeting of the "Friends of the Library".

Memberships may be paid to Ray Hodgkins personally or mailed to him at Box 156.

Junior memberships, for those up to 16 years of age are \$1.00; regular memberships for adults are from \$1 to \$4; supporting memberships are from \$5 to \$24; sustaining memberships are \$25 and up.

The group pointed out that there is no connection between membership and availability of the library to all the residents of the county as the facility is available to all and its use is urged for all who are interested in reading and learning. The memberships are the only way of supplying the needs of the facility.

The library, on the second floor of the courthouse, is open from 2:00 to 5:00 p.m. on Mondays and Fridays and from 5:00 to 6:00 p.m. on Thursdays.

The following candidates have filed on the Democratic ticket, according to Mrs. H. E. Ezelle, acting county chairman, on the district level and down, omitting those on the state level who filed with the state Democratic chairman:

For U.S. Representative, 16th Congressional District, Richard C. White of El Paso.

For State Representative, 66th District, George Baker of Fort Stockton.

Barton Massey, Republican county chairman, announced that he had received filings from Ernest Angelo Jr. of Midland for State Senator from the 25th Senatorial District; and from Jim Kent of Monahans for Representative from the 66th District; and Dr. Don Slaughter for U.S. Representative, 16th Congressional District.

Rev. and Mrs. Jerry Fortune and children of Sheffield were weekend visitors with her parents, Mr. and Mrs. W. J. Morris.

Indictments Are Returned From Local Grand Jury

Two bills of indictment were returned by the Terrell County Grand Jury Monday.

Jimmy Wayne Fuller was indicted on a charge of passing a false instrument.

J. H. Lewis was indicted on a charge of passing a worthless check.

It is reported that the grand jury asked that they convene in July, if not before, to consider certain matters that were not acted upon at this session.

Train Mail Delivery Is Discontinued

The transportation of mail by rail was discontinued this week, according to information received Monday.

The two passenger trains coming into Sanderson and trucks to Sanderson from El Paso and San Antonio have been carrying the mail into Sanderson for several years.

Mail service in and out of Sanderson will not be affected by the change, but the mail contract formerly held by the Southern Pacific Railroad now has been changed to the Continental Bus Co.

Dorsey B. Hardeman
... seeks re-election

State Senator Dorsey B. Hardeman of San Angelo announced today his candidacy for re-election in the 25th Senatorial District for a full four-year term.

"I am deeply grateful to the people of the 21-county district for electing me in 1966 to a four year term and respectfully ask their continued support," Hardeman said. He was one of 15 senators who drew a two year term following senatorial redistricting which was done in compliance with the "one man, one vote" decision of the United States Supreme Court. Election this year will give Senator Hardeman a full four-year term.

Hardeman said he will counsel, as he is accustomed to do, with the people throughout the district before the Democratic Primary May 4. "It has been my purpose, at all times, to help maintain a sound, responsible and responsive state government and to handle all legislation of local interest with dispatch," the senator said. "This I will continue to do."

A practicing attorney highly respected as an authority on constitutional law, Hardeman is married and has two sons.

Hardeman is presently vice-chairman of the Senate Finance Committee which provides funds for state-supported institutions and educational facilities; is chairman of the Senate State Affairs Committee which reviews all revenue measures, and is serving as a senior member of the Budget Board, the vital legislative research arm of finances to fulfill state needs. During 11 regular and 11 special sessions of the Legislature, Hardeman has served as chairman or as a member of all major Standing Committees of the Senate, giving him experience and seniority valuable to the people of the 25th District in particular.

PRACTICE TEACHERS

Three young men of a total of 18 students from the education department of Sul Ross College are in Sanderson to do two months of practice teaching in the elementary school. They are Charles Gardner of El Paso, Greg Culick of Del Rio and Ruben Parros of Alpine.

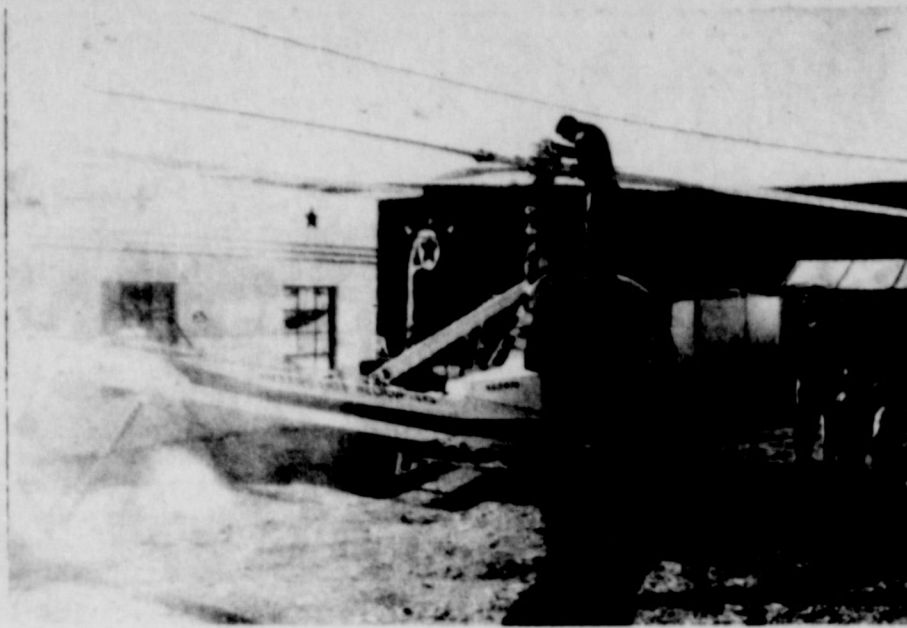

They will spend five days a week for eight weeks observing, assisting the regular teacher of the class, grading papers, preparing material and tests, giving the assistance necessary. The college pays each public school \$60 per student teacher per semester for allowing them to be placed in classes. The student teachers may be placed in either elementary or secondary schools, depending on the level they will be teaching after graduation.

To Mr. and Mrs. Arturo M. Salazar was born a daughter in an Alpine hospital on Thursday, January 18. Her birth weight was six pounds and twelve ounces and she was given the name Rebecca Bravo Salazar.

An unexpected visitor into Sanderson last week was the helicopter pictured above. The pilot flew it into town and landed it adjacent to the service station to have it serviced, greased, etc. The "chopper" is under contract with the U. S. Government and is being used by the local mapping crew to transport men and equipment into places of difficult accessibility. Several local people were on hand to see the "chopper" take off after servicing. The take-off was uneventful, but thrilling because of the close circumstances.

A vote of thanks was given to the Commissioner's Court for the many courtesies and favors extended to the library the most recent being offering the use of another large room for the library to provide more space and working room. There is urgent appeal for volunteer workers at the library to sort and catalogue books, help in moving books and shelving, painting shelves, etc. Anyone who can give of some time to the work that goes on when the library is not open is requested to contact Mrs. Savage. License Plates For Some Vehicles Are Advanced in Price

New Texas auto license plates went on sale last Thursday at the Terrell County tax assessor-collector's office.

This year the local licenses will begin with DBT-675 and the Hemisfair which will be in San Antonio is being advertised with 68-Hemisfair-68 across the bottom of the black plate with white letters and numerals.

Mrs. Tol Murrah, deputy tax assessor and collector, stated that no licenses would be issued unless the applicant had a certificate of title and a 1967 license receipt. All motor vehicles in operation on Texas highways must have a new license tag by April 1.

The cost of registering motor vehicles in Texas has advanced, as has the cost of many other things. A new minimum registration fee of \$5.30 for all vehicles, including boat trailers, has been put into effect.

Others who will feel the pinch of higher registrations fees are the owners of the "bugs". The fee for all vehicles up to 3500 pounds weight has been set at \$12.30, something over 50 percent increase for the so-called compact cars. Motorcycles have also been tapped for a steep increase in registration costs with the \$5.30 minimum applying in their case.

Owners of conventional autos will find little change in their charges for license plates - and in some instances - they will receive a small reduction. About the most any in the category will pay is a 30-cent increase.

Starting with the \$12.30 rate for 3500 pounds, the price for the 3501-4500 class is \$22.30; for 4501-6000, \$30.30; and more than 6000 pounds, \$30.30, plus 55-cents per 100 pounds over that weight.

In Terrell County as in the entire state, registrations are expected to increase over previous years. In Texas, approximately seven million vehicles will be registered in 1968 - the largest number in the state's history.

Of the 7 million Texas figure, 4.75 million will be passenger cars and 1.9 million will be commercial trucks and tractors. Trailers and motorcycles will account for the balance.

The most dramatic increase is expected in the motorcycle category, according to the Texas Highway Department, based on the past two year's experience. While passenger car and commercial truck registration will increase about three and one half percent, motorcycle registration is expected to increase 16 percent.

Owners should bring four items to the Tax Collector's office when registering vehicles: certificate of title, 1967 license receipt, current resident address and zip code.

State law requires each owner to register his vehicle in the county in which he resides and to present his certificate of title as evidence of ownership.

The volunteers will be calling on their neighbors during the rest of the month, distributing literature telling parents how to help children form good health habits early, and reduce their risk of heart attacks later. They will also receive contributions to the 1968 Heart Fund.

With God all things are possible.—(Matt. 19:26)

There are within the body marvelous capacities for healing and renewal. Even when a healing need is very great and the condition is considered most serious, healing can come forth, restoration can take place. This is proved time and time again. Every day letters come to silent unity telling of healings of conditions that had been pronounced hopeless or incurable. We believe in healing. Through the years of the silent unity work we have rejoiced in reports of healing or conditions of every kind.

Eaglettes Win Over Ozona; Boys Lose

The girls won their basketball game over the Ozona feds here Friday night of last week, with the Eagle A and B teams losing their frays.

The B-team boys opened the cage tilts with a loss of 40-54 at the hands of the visitors. It was a good ball game with Ozona controlling the boards to make up for a margin for winning. Manuel Olivas hit for 18 points to lead the scoring for the Eagles, Leslie Hall had 11, Bill Littleton 8, Johnny Freeman 4, Johnny Flowers 1. Other players who saw some action included David Bolinger, Dee Carroll, Sam Bell, Tony Flowers, and Brad Harrison.

In the girls' game, the Eaglettes had a 9-4 lead at the end of the first period, but wound up in a 16-16 tie at half-time. At the end of the third frame a 24-21 score in favor of the Eaglettes was on the board and there was some good defensive work in the fourth frame by the Sanderson guards to hold the opposition to two points, while the forwards rolled up 15 to make the final score 39-23. Brenda had 18 points, Rhonda 15, and Christine 6. The guards were Sherry Stavley, Susie McSparran, Nancy Yearly, and Mitzi Cash.

This was the second district win for the Eaglettes and the first district loss for Ozona through the two teams in a tie for the western division's second place. Sanderson lost to Ozona in their last outing.

The Eagles had trouble in close Friday night against the Lions and the visitors were on top side of a 72-66 score. Ozona controlled the backboards by a slight margin and the Lions were able to work the ball in closer for a better shot. Garza made up for some of the difference with his hot-handed 24 points mostly from outside aided by 22 points for Brown who was able to work within a closer range. Cooksey had 8, Flowers 6, Riess 4, Villegas 1, and Ybarra also saw some action. The Eagles trailed 35-41 at half time and 52-60 at the end of
