## It Depends on

### How You Look At It!

We wonder how many people looked and saw something decidedly different about the paper last week! We would reward any observant person with a cup of coffee if they will come by and point out the difference of this and last week's paper over previous issues.

Yes, we know that the stories, etc., are different, but there is another difference.

Since taking up fishing as a hobby again, we are forced to tell a fish story now and then. That's half of the fun of pursuing any sport!

We were invited to San Angelo last week to go from there on a little fishing trip. With the cooperation of the other members of the family -- Zee and mother -- we were able to take off and go.

Bass and walleye fishing is another kind of fishing and successful bass and walleye fishermen don't brag about numbers of catches as much as they do about the size of the biggest fish and the way the fisherman uses the lures, etc., etc., etc.

Well, we picked up our spinning rig for a change of pace and using our favorite top-water lure, a chartreuse Pico Pop, threw what we hoped was a bass-catching cast, and sure enough it was taken. The bass started to run and we began cranking.

One of the errors of inexperience and excitement was forgetting to set the drag on the reel when we had changed reel inserts before starting on the trip. That error was almost costly -- to the tune of one good bass!

Well, we finally got the drag set and were reeling in so fast that when we got the bass up near the boat, momentum carried him on under the boat, which is a bad place to have a bass. The good rod stood the test, the bass gave up, the boat was not capsized by the fish going under it, and we boated the fish!

We would have a lot more to tell about the fishing trip, but the next day when we went to a lake near Ballinger, all the bass but two had lock-jaw and we didn't catch either one of them.

The outing was fun, knotting experience good and costly, and some beautiful water. Our best wishes for the immediate recovery of the bass from their lock-jaw!

By the way, if you know of a good, sure, positive bass-catcher, I'll be glad to try it. Send it, and I will give a report on it at the first opportunity.

There is a good rumor that an increase will be coming up in the cost of first class mail after Christmas and a proposed increase in second class

## Eagles Lose 44-0 To Balmorhea

The Sanderson Eagles lost their first outing of the current football season Friday night of last week. The Eagles went to Balmorhea and the score was 44-0. Balmorhea is a Class A school and touted as one of the contenders for the district title.

Balmorhea scored 22 points in the first quarter, 14 in the second period, and 8 in the fourth quarter. Scoring was by Tommy Granado, George Luian, and Victor Tarin.

Eagle Coach Don Malone stated that the Bears had some speedsters in their line-up and the youthfulness of the Eagles just couldn't hold up against the better team. Coach Malone stated that the game indicated that the Eagles had a lot of work to do in their defensive game and their offensive play.

Five Eagles were unable to suit up for the Balmorhea tilt: Marvin Sanchez, Paul Murr, Craig Cooke, Julian Martinez, and Tomas Lomas. All the other Eagles were used in the game and included Juan Zepeda, Marvin Davis, Les Horton, Frankie Flores, John Escudero, Hector Galvan, Ruben Calzada, Kendall Billings, Xavier Lopez, William Corbett, Indalecio Salazar, Joe Eckert, Carlos Galvan, Russell McDonald, Ricky Munoz, Rocky McDonald, Malone Mitchell, John Bruton, Clay Mitchell, Tom Whistler, Abel Marquez.

The Eagles will host the Brackettville Tigers Friday night. Brackettville is a Class A school and is expected to have an advantage over the Eagles by this fact alone. They were beaten by San Antonio South Side Friday night of last week by 47-6.

Coach Malone stated that none of the Eagles received any injuries in the Balmorhea game Friday night and barring scrimmage injuries, hoped to be at full strength for their first home game at 8:00 p.m.

Bill Ford and Carlos Garza are the Eagle mentors with Malone.

## County Defers Dog Control Program, Plans Four More 4-Way Stop Signs

The commissioners court of Terrell County had a morning and afternoon session Monday for their regular meeting.

Minutes of the previous meeting were read and approved and the bills were allowed.

A discussion was held on the possibility of having weeds in bar ditches, etc., sprayed with a chemical, and it was decided that it being so late in the growing year, the idea would be tabled until next spring.

The situation at the local dump ground was discussed thoroughly and Judge Charles Stavley asked that any person interested in work please inquire of him about a job.

The advertisement for bids for television reception for the Dryden area was postponed to await some more information.

There was a lengthy discussion by interested residents concerning the treatment given dogs that are picked up without a license tag and possible alternatives as to the treatment given the dogs. It was decided to defer further action in efforts to control the dogs in Sanderson.

The charge for ambulance service was raised to 75¢ per mile - one way.

A proclamation was issued naming October 4, 1975, as Terrell County Bicentennial Park Fund Drive Day.

The court approved Ruel Adams as the Terrell County Bicentennial Committee chairman.

The court approved \$100 for operating expenses of the Terrell County Bicentennial Committee.

Four-way stop signs were authorized to be purchased and erected at the corner by the First Baptist Church, at the corner by the band hall, and at the two intersections on Kerr St. adjacent to the elementary school.

The court authorized the increase of the salary as county health officer to Michael P. Longley, M.D., to \$200 per month. The money is returned to the county for payment of bills incidental to the operation of the medical center facility.

Linda Stutes, Sharon Ann Hill, Amanda Niccolls, Sharon Janes, and Christine Downie are shown in a dance number in 1955. The picture was loaned to us by Mrs. Clyde Higgins, grandmother of Amanda.

## Mitchell Well Continues Tests

## LAD COLLECTS \$35.50 FOR M-D TELETHON

Raymond Aduato last year collected \$3.70 in his neighborhood during the Jerry Lewis 1974 Muscular Dystrophy Telethon.

This year Raymond used a larger can and contacted more persons in the community and brought \$35.50 to The Times office Tuesday for the funds to be sent to the Monahans TV Station.

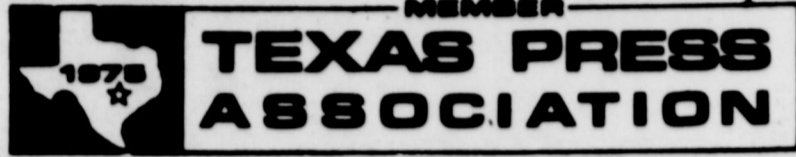

Raymond's spirit and his thoughtfulness in making the collection for Sanderson earns the congratulations of us all.

He is the 10-year-old son of Mr. and Mrs. Manuel (Sonny) Aduato.

(periodicals of certain types including most newspapers and most magazines) that could ring the death knell of many of those publications. While postage costs for the mailing of The Times have gone up considerably during the past few years, the cost of the paper has gone up only 50¢ for in-county subscribers and \$1 for out-of-county subscribers. This does not take care of the increase in the cost of printing the paper, let alone including the increased costs of mailing them. Like many other things, we wonder how much of an increase the readers will stand! Postage increases and other increases - printing, mainly - could raise the price necessary for The Times to \$5.00 for county subscribers and another break between Texas and out-of-Texas subscribers. When will it all stop?

**Junior High Eagles Win Opening Game In Iraan 20-0**

The Sanderson Junior High School Eagles were in Iraan Thursday of last week and won their opening game of the grid season. It was also the first win against Iraan in a number of years. Carlos Garza is coaching the junior high team. Coach Garza reported that Scott McDonald scored two touchdowns in the second half against Iraan, the first on a 35-yard run and the second on a 30-yard run. In the third period, Milby Winn scored on a 30-yard wing-back reverse and McDonald converted the extra points to wind up the scoring of the game, and giving Sanderson the 20-0 victory. The game was played by 8th graders of both schools, with Cato deLeon seeing action as a 7th grader with the

team due to a lack of numbers to field a team. During the last three minutes of the game, Coach Garza used all the other 7th graders. An addition to the roster of 8th graders is Hector Salazar, and Donnie McIlhenny is a new player with the 7th graders. The Junior High Eagles will play in Balmorhea Saturday of this week.

CONSTITUTIONAL AMENDMENTS

(S. J. R. NO. 11)

SPECIAL ELECTION NOVEMBER 4, 1975

PROPOSITION NO. 1 ON THE BALLOT

Revising the separation of powers, legislative and executive provisions of the Texas Constitution. Article II, Separation of Powers, is amended to:

Provide that the powers of government of the State of Texas are divided among three distinct branches: legislative, executive, and judicial. Except as otherwise authorized by the constitution, members of one branch may not exercise any power properly attached to either of the others.

Article III, The Legislature, is amended to:

Continue the present structure of the legislature consisting of a senate with 31 members and a house of representatives with 150 members. The present organization and procedure of the legislature are continued except that the provision allowing closed executive sessions of the senate is omitted. Provisions on the conflict of interest of members of the legislature are continued, as is the governor's power to veto bills or line items in appropriation bills. The article provides for single-member senatorial, representative, and congressional districts. A compensation commission is created to recommend the compensation and allowances to be received by members of the legislature. The legislative compensation, set by law, may not exceed this recommendation and does not take effect until after an intervening general election. The article provides for annual sessions of 140 days in odd-numbered years and 90 days in even-numbered years, and a veto session of 15 days upon request of three-fifths of the membership of each house. The legislature may meet in organizational sessions prior to the convening of the legislature in regular sessions.

Article IV, The Executive, is amended to:

Continue the present status of the governor and all other statewide officers, and include the commissioner of agriculture as an executive department officer. The governor is limited to two consecutive terms. The governor is authorized to designate chairmen of state boards, and to remove gubernatorial appointees to state agencies for cause unless the removal is vetoed by the senate. The article mandates the legislature to provide a new governor-elect an appropriation so the governor-elect may organize an office prior to inauguration, and permits the legislature to grant powers of fiscal control to the governor. All governmental agencies, with several exceptions, have a life of not more than ten years unless extended by the legislature, and, at the regular session held in

odd-numbered years, the governor shall submit to the legislature a report on the organization and efficiency of the executive branch.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the SEPARATION OF POWERS, LEGISLATIVE, AND EXECUTIVE PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective January 1, 1976, except Article III, Section 5, which becomes effective January 1, 1981.

PROPOSITION NO. 2 ON THE BALLOT

Revising the judiciary provisions of the Texas Constitution. Article V, The Judiciary is amended to:

Establish a unified judicial system consisting of the supreme court, court of appeals, district courts, and circuit courts. Existing county courts and county judges are continued until otherwise provided by law. All judges (except municipal judges), district attorneys and district clerks must be elected by the people. The supreme court and the court of criminal appeals are merged into a single court of last resort, and this supreme court is authorized to provide for efficient administration of the judicial system and to balance case loads. Individual rights for a trial by jury and appeal by the accused are continued. The state is granted the right to appeal in criminal cases in limited circumstances, and the legislature is permitted to establish methods of appeal to the courts from decisions of state agencies.

"The constitutional amendment revising the JUDICIARY PROVISIONS of the Texas Constitution."

the person is mentally incompetent as determined by a court. Voting by the people in all elections must be by secret ballot, and the legislature shall provide by law for residence, registration, and absentee voting requirements, for the administration of elections, and for the protection of the electoral process. The general election for state and county officers is to be held in even-numbered years on a date prescribed by law.

The legislature may allocate by law a portion of the Higher Education Fund to certain state vocational and technical institutes. The article provides that the public education system must furnish each individual an equal educational opportunity, but a school district may provide local enrichment of educational programs exceeding the level provided by the state consistent with general law. The present dedication of motor fuel taxes for highway purposes and the Available School Fund is retained. The "pay-as-you-go" principle for the operation of state government is retained. The legislature shall establish separate formulas for appraising land to promote the preservation of open-space land devoted to farm or ranch purposes and may establish separate formulas for appraising land to promote the preservation of forest land devoted to timber production. The \$3000 exemption from state ad valorem taxation for residential homesteads is continued and the legislature by law may increase this amount. A separate \$3000 exemption from ad valorem taxation by political subdivisions is provided for the residential homestead of persons at least 65 years of age and the political subdivision may increase this amount. The legislature by law may exempt from ad valorem taxation certain property owned by veterans' organizations, non-profit water corporations, and persons in need because of age or disability, and economic circumstance. The legislature may also exempt property to preserve historical, cultural or natural history resources. Taxpayers are provided a new method of correcting inequitable tax assessments by paying ad valorem taxes under protest and suing for a refund in a district court. **Babb-Louwien Wedding Saturday In Church of Christ**

Miss Rhonda Louwien and Edwin B. (Bimbo) Babb were united in marriage Saturday evening by candlelight at 7:30 in the Church of Christ with Charles Draper, minister, officiating at the double-ring ceremony.

The bride is the daughter of Mrs. H.B. Louwien of Midland and the late Mr. Louwien. The bridegroom's parents are Mr. and Mrs. B.C. Babb of Langtry, who attended the wedding.

At each side of the 14-branched candelabra with white candles centering the altar space, there was a basket of greenery and baby's breath.

The bride was given in marriage by her brother, Randy Louwien, of Alpine. Her dress of white polyester double-knit accented with white eyelet lace interwoven with pink satin ribbon was floor-length, with an Empire waistline and a scoop neckline trimmed in lace. The lace trimmed the cuffs on the long full sleeves. She wore a wide-brimmed hat of white lace with the brim edged in lace. Pink ribbons and a lace band circled the crown.

Her bridal bouquet of pink and red roses and baby's breath was a cascade arrangement.

The matron of honor was Mrs. Steve Tuxhorn of Monahan. She wore a formal gown of pink crepe and carried a single long-stem pink rose.

E.L. Babb of Langtry, brother of the bridegroom, was the best man. Ushers were Jack Babb of Big Lake and Skipper Chamberlain.

Tiffani Rhodes of Houston, niece of the bride, was the flower girl and scattered rose petals from a white basket down the aisle.

A reception in the church annex followed the wedding. Roberta and Marla Bell, cousins of the bride, were at the bride's book to register the guests.

The bride's bouquet centered the table covered in a white lace cloth over pink. A miniature wedding party arranged on a pink satin ribbon afforded further decoration. Pink sherbet punch, mints, and nuts were served with the bride's cake which was a two-tiered confection, the layers separated by columns, and on the top layer were doves nestled in a bouquet of pink roses. # STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams

AUSTIN — Senate impeachment trial of 229th District Judge O.P. Carrillo has been postponed until September 29.

Senators agreed to the delay since Carrillo faces trial this week in a Corpus Christi federal court on an income tax indictment.

In opening preliminaries, the Senate resolved itself into a court of impeachment and adopted rules for the historic trial—third proceeding of the type in a century involving a Texas public official.

Carrillo's attorneys filed a 170-page answer to the House impeachment resolution of August 5, denying all 10 charges and challenging sufficiency of the allegations. The answer remains as pending business when senators return to Austin late this month to begin taking testimony.

The 51-year-old judge, whose district includes Duval, Jim Hogg and Starr counties, is accused of abusing judicial authority, political conspiracies and use of Duval County personnel and equipment for personal benefit.

Carrillo's motion to disqualify Atty. Gen. John Hill and his staff from assisting the House prosecutors was rejected 23-7.

Senators imposed on the prosecution a duty of proving its charges "beyond a reasonable doubt" to gain a two-thirds vote for removal of the judge, whose troubles date back to a break with the old George Parr political faction in Duval County.

### Oil Theft Aired

Texas and Louisiana met here last week to share information on reports of a widespread oil theft ring.

The thefts came to light with arrest of four men in

Runnels County. Investigators have been trying to solve the reportedly organized plot to steal crude oil and sell it to refineries. Runnels County Sheriff Don Atkins said five men in Texas, New Jersey, Illinois and Louisiana are centers of the investigation.

A possible Oklahoma connection is also being explored.

### Cost Revised

Comptroller Bob Bullock, who once estimated the proposed new Texas constitution would cost a billion a year and possibly as much as \$11 billion overall, reversed himself and said nobody really can tell.

"Only history can write the final cost report," Bullock said. "The ultimate monetary impact of the proposed constitution would depend on innumerable future decisions by elected representatives of the people in the city halls, county courthouses, school boards and legislature."

The new constitution will be voted on November 4.

Bullock earlier pegged direct cost to state government at about \$100 million a year. He had concluded the new constitution would permit levying another \$53 million a year in new taxation on bank deposits, stocks and other intangible property.

### Auto Insurers Hurt

A spokesman for auto insurance companies said claim costs during the first quarter of this year averaged 22.5 per cent more than in 1974.

And 1974, the spokesman said, was the worst year in history for the companies. The statement may have offered an indication of what the industry will ask in the

way of new rates at a public hearing tentatively set October 1.

### Crime Rate Up

Crime hit the suburbs hard and the rate for major crimes rose 17.4 per cent during the first six months of 1975, according to Texas Department of Public Safety.

DPS' report showed a 24.7 per cent increase in rural areas and a 16.7 per cent jump in the urban areas. A total of 310,920 major crimes for the period were recorded for a rate of 5,160 per 100,000 population. This compares to 259,267 offenses during the first part of 1974 and a rate that year of 4,396 per 100,000.

DPS Director Wilson E. Speir said 25 per cent of all reported crimes were cleared during the period, compared to 22 per cent a year earlier. Thirty-one per cent of the rural crimes were cleared by arrests.

Speir said the record indicates a major criminal offense in Texas every 34 minutes.

### AG Opinions

Attorney General Hill told the Public Welfare Department it can transfer appropriated funds among programs without specific appropriations. Legislative budget writers objected.

In other recent opinions, Hill concluded:

A commissioners court may enter a contract without competitive bids for personal or professional services involving coordination of crime investigation.

Advertisements for bids for supplies costing more than \$2,000 in counties of over 800,000 population must be published in accordance with law requiring publication in a daily newspaper.

Balances and receipts appropriated to a board of county and district road indebtedness may be spent for administration of the fund but may not be utilized to employ personnel whose salaries were voted by the governor.

Attorney General John Hill held bonds required on mobile homes cover liability only insofar as it grows out

of the warranty of the manufacturer or dealer. He said surety on the bonds may minimize liability by requiring that its principal carry products liability insurance against such loss.

In other recent opinions, Hill concluded:

A new law authorizing payment of compensation to state employees killed or injured while performing duties of a hazardous position is subject to strict interpretation and definitions.

A public hospital may contract with a private hospital for care of charity patients.

Building information submitted to a public body as a requirement for a building permit is public. Whether plans are public is a question of fact.

A justice of the peace may hold court for any other justice whose precinct is in the same county.

### Short Snorts

Voters' guide to proposed new constitution to be voted on November 4 are now in the mails in most sections.

Texas mobile home dealers and manufacturers are challenging a new regulatory and bonding requirement. Attorney General Hill defends it.

An Austin district judge declared the Texas theater admissions tax (which yields about \$5.5 million a year) unconstitutional.

The proposed new Texas constitution will be explored in detail at a September 19 conference sponsored by Texas Press Association, Texas Daily Newspaper Association and Texas Association of Broadcasters.

Agriculture Commissioner John C. White extended 10 days the August 31 plow-up deadline for Lower Rio Grande Valley cotton farmers.

One hundred and 67 alleged welfare fraud cases involving \$135,493 were delivered to Central Texas county and district attorneys for prosecution last week.

### Bicentennial Group Organizes For County's Action

Some progress is being made in formulating plans for Terrell County's observance of the Bicentennial after the second meeting of the Bicentennial Committee last Wednesday evening in the district court room. The meeting was called to order by Ruel Adams, chairman, and he announced the appointment of Mrs. Burt Williams as secretary-treasurer of the committee.

Mrs. Bill Shurley of Marfa, who has been very active in promoting Bicentennial activities in her home town, as well as in other towns, was present. After making pertinent remarks about information available and where it could be obtained and projects already planned, she showed two films concerning Bicentennial observances and celebrations noting that each city, town and community is at liberty to plan and do "their own thing" and remembering that there are millions of visitors from other countries expected to be in the United States to view and participate in the celebration.

After noting three categories in which the celebrations may be planned, Heritage, Festivals and Horizons, suggestions were made by the audience concerning some things that the committee might begin to plan. Mrs. W.G. Downie was named chairman of the Heritage committee and one of the first suggestions was for a scrapbook of family records of Terrell County to be made, not only of those families considered pioneers, but other families who have lived in the county for many years and become a part of its history.

Mrs. Bob Spence was named chairman of the Festival Committee and County Judge Charles Stavley of the Horizon committee. A "festival" to raise some funds is being considered with plans to draw as many participants as possible and having baked goods, canned and preserved items, hand crafted items, etc., offered for sale. Mrs. Shurley volunteered two macrame baskets for the project.

Each committee chairman, as plans are made, will call on others to serve on a committee and assist in carrying out the work necessary. The swimming pool-park project is a plan of the horizon committee.

If anyone has a plan which they think may be used, talk to some committee member about it and also it is hoped that everyone will consider this to be "my centennial celebration" and support it in every way possible.

Imagine yourself today over the old fashioned smoothing iron, heated on the wood burning stove, ironing for your family . . . and in a home without air conditioning. Electricity and modern fabrics have changed all that, though. Electric washers and dryers do the laundry, rain or shine. And usually when clothes come from the dryer they need little or no ironing. Even when they do need it . . . modern electric irons help you do the chore with the convenience of choosing the proper heat for any fabric. If we are to receive true reform, instead of just another set of adjustments that create more regulations and expanding bureaucracies, we must be more honest with ourselves than we were during the de-

**CARD OF THANKS**

Words are sometimes futile little things in an attempt to express our deepest feelings. But we are taking this method to try to say "thanks" to all of our friends for their help at the time of our recent sorrow. The flowers, food, cards, visits, everything meant so much. A special thanks to the members of the Masonic Lodge and the ladies of the Church of Christ and the Legion Auxiliary.

The family of E.S. Lambert

**CARD OF THANKS**

May I take this means of expressing my sincere thanks and appreciation for the kindness and thoughtfulness of friends expressed in so many ways during the time I was incapacitated on account of my dislocated shoulder. Even a ride to the postoffice when I could not drive, and so many favors, meant a lot to me.

Mrs. Manuel Garcia

**CARD OF THANKS**

We have appreciated more than you know, the cards, letters, calls, flowers, visits, and every thoughtful consideration of kind friends since we have been in San Angelo. We will never forget your kindness.

bate about the Nixon Family Assistance Plan. We must accept certain facts about ourselves and our society: (a) some cannot find work, no matter how much they want to; (b) a few (but not as many as we sometimes think when we get angry about rising taxes) do not want to work or will cheat when they get a chance; (c) even private enterprise and government combined cannot always provide enough jobs -- once a business decides to automate a process, for instance, its decision is usually irreversible and some jobs simply won't exist any more. Only new businesses or expanded government can take up the slack, but the economic conditions must be right for the former and most of us don't want the latter.

Once we face these facts, we must debate and finally design programs that will address them, not programs that simply pander to our various prejudices or fears. A good welfare program shouldn't be conservative or liberal,

Democrat or Republican. It should result in increased employment, decreased poverty and genuine dignity for taxpayers, workers and those who cannot support themselves.

We have another chance in the 94th Congress to analyze, debate and design improvements to local, state and federal welfare programs. Let's not fail this time. Please join me with your ideas and make a good-faith effort to tackle a highly emotional issue that begs for fair, humane and economical solutions.
