THE WHOLE DUTY OF MAN

"Let us hear the conclusion of the whole matter: Fear God and keep his commandments: for this is the whole duty of man. For God shall bring every work into judgment, with every secret thing, whether it be good, or whether it be evil." (Ecclesiastes 12:13-14)

The Bible teaches that man has a duty toward his God. And should this surprise us? Every relationship that is worth-while has responsibilities. This is true of marriage, of parents and children, of neighbors, of nations, and we are told in our text it is true of man and God. Duty involves work and effort. Shall we frown upon the idea of working for God and feel that if man works he is attempting to earn salvation rather than accept it as a gift of God? This is not the case. The fact that man is saved by grace does not mean he has no duty, that there are not certain things he must do to accept this grace.

Notice the language of Peter in Acts 2:40: "And with many other words did he testify and exhort, saying, Save yourselves from this untoward generation." Peter was not teaching these people they could be saved by doing something on their own, separate and apart from God's will, but he was telling them they had a duty, and that duty was to save themselves. How? By keeping God's (not man's) commandments. Acts 2:41 tells us they did their part (their duty) by accepting the word and being baptized.

Man's duty is to fear or reverence God. This reverence leads to obedience, and only the obedient will be saved. "Blessed are they that do his commandments, that they may have right to the tree of life, and may enter in through the gates into the city." (Revelations 22:14)

Sad Note From The Bugle

All of us on the Clarion were alarmed to learn that our principal rival in the newspaper field—the Balesville Bugle—might have to shut down. Crops were bad in Balesville last year and one of their factories moved out of town. Just temporary hard times, of course—but the Bugle needs help now if it's to survive. So, this paper is going to scrape up a little money to help tide them over, and we hope other local concerns will do the same. We've seldom agreed with them editorially over the years—but we want their competition to keep us on our toes. From where I sit, this country needs papers with different points of view—just as it needs people with different ideas and tastes. You may prefer iced tea as a hot-weather cooler... I generally choose a cold glass of beer. But if either of us couldn't express his opinion, and act on it, that would be "bad news" for the whole community.

Ford leads all low-priced cars

in V-8 power... Of all the low-priced V-8's, only Ford's Y-block V-8 has an extra-deep engine block to give you smoother, quieter, longer-lasting "GO"! New Trigger-Torque power obeys your commands instantly, reassuringly.

in years-ahead looks... Only Ford brings you the years-ahead beauty of Thunderbird styling. The lower roof line, longer body line and flatter rear deck all say "fine car." And interiors feature new fabrics appearing for the first time in any car.

in smoother going... No matter where you go, Ford's advanced form of Ball-Joint Front Suspension smooths your way. Springs have been tilted to smooth out the bumps from the front as well as up and down for a new Angle-Poised ride.

in modern power assists... You can have your Ford as automatic as you want... at a price you want to pay. Power can help you shift, steer, stop... move windows and seat both up and down... even condition the air you breathe.

in choice of models... No other car offers you so many models to choose from. And in station wagon choice—whether you prefer 2 doors or 4... seats for 6 or 8—Ford has a best-seller beauty to suit your needs.

and in resale value... Ford has traditionally returned a higher portion of its original cost at resale than any other car in its field. Why not get the whole story at your Ford Dealer's. You'll never want to settle for less than Ford.

Sells more because it's worth more... **Ford** the new best seller!

the past week surely did take the moisture away. Cotton needs rain to set the dirt around it.

Little Boy Jim is plowing some young feed. He has his feed here at home laid by he says.

I hear the Hired Hand just now starting his tractor. He may be getting ready to cut grain. He didn't get a very early start. It is now nine o'clock. Guess he slept late and maybe in no hurry.

Kim Burnam of Abilene is visiting with Grandpa and Grandma and Gayle. Don't know where he plans on staying all week. He came Friday.

Little Pierce Shackelford had dinner with Kim and Gayle Sunday. Then in the afternoon Mark and Ollie and the children went to visit Mrs. Mary Ramsey.

Mr. and Mrs. Floyd Buchanan visited Edra's parents, Mr. and Mrs. Tiner in the Trent country Sunday. Edra said to wet there for the farmers to plant cotton. Water standing in some fields.

The Buchanans visited in Abilene too with an uncle of Edra's, Mr. Milton Tiner. She also saw Mr. Grover Tiner another uncle she had not seen in a long time. This uncle was one of her school teachers when she was a little girl. They really had a good time talking over by-gone days she said.

Edra tells me she leaves Friday for New York City. She will fly there and back. My, you can't ever tell where or who will be flying somewhere next. I don't think it will be I but who knows.

Jim and I went to spend the afternoon with the Enoch McCollums yesterday afternoon. No one at home so we drove over to see the Henry Baileys. Visited with them a while. There is a rotary rig drilling on Mr. Bailey's land. Don't know the exact depth it is to be. Sure hope you people get a good well.

Margie Bailey visited the Weldon Isenhowers a while yesterday afternoon. Dock Isenhower and Bill Jackson were visiting the Isenhowers too. Mr. Jackson lives at Brady where they had a wind storm Friday night and rain too.

Visiting Margie Bailey Sunday afternoon was John Doyle Isenhower, Carrol Taylor, Vernetta Davis and Mr. and Mrs. Sam Maner's granddaughter. I didn't learn her name. They were all from Putnam. They seemed to be having a good time. Margie will help with the Vacation Bible School in Moran this week.

We saw the pretty plaque Mr. Henry Bailey received from the Lions Club of Breckenridge for the most outstanding farmer of this district of the Lower Clear

Fork Soil Conservation District. It really is nice. Congratulations to you Mr. Bailey.

I hear that Buster White got married last week. Buster used to live out here when he was a little boy. He lives in Sweetwater now. He married a Sweetwater girl. I didn't learn her name.

Buster is the son of Mr. and Mrs. Press White of Moran. I think Buster is employed at the Dabney Motor Co. in Sweetwater. Congratulations to you Buster. Hope for you a very happy marriage.

Clovis McCollum and wife came by to visit with us a while late Sunday afternoon. No one here but Jim and I had gone to church. They had been to a family reunion at Brady. Clovis, you and Helen come back. Sorry I was gone.

Burette and Johnny May Ramsey attended the Jeter Reunion at Brady Sunday.

Just now talked to Mrs. Mary Ramsey. She is feeling pretty well. She went last Thursday to Cross Plains. She visited her sister and husband, Mr. and Mrs. John Bishop. They both are sick but were feeling a little better. Sorry they both are sick. We visited with Ped and Effie Yarbrough. They are okay. They had been out on the Plains visiting their daughter and family, Mr. and Mrs. Dutch LaRue and children. LaRues live in Earh.

Gerald and James Carter of Vernon came Friday afternoon and left Sunday morning about nine o'clock. We sure did enjoy them. We tried to catch some fish while they were here but no luck. The things just wouldn't bite. Mildred didn't come. She had to stay home to run the business.

I must tell you we have squash blooms. So guess we will soon have squash. I went to the garden this morning to see how the okra was doing and did you know something had eaten all but 2 stalks. It had four or five leaves on it Friday when I was out there. Don't know where it is black bugs or rabbits eating it. Both I guess as there are lots of black bugs and last night when I came in from church I saw two old jack rabbits run out of the garden and I bet they are the guilty ones. If I wasn't afraid of a gun I might shoot them and you know Duke the dog isn't supposed to run rabbits. Oh no, he doesn't have high blood pressure. He is a bird dog and he isn't supposed to run rabbits and he doesn't. No I am not joking, he doesn't.

I got to stop and fix lunch and I don't know what I want

to fix but will have to cook something for Little Boy Jim any way so be seen' you after lunch and I take a nap.

Tuesday morning. We had a little shower yesterday afternoon.

Melvin Burnam and family of Lubbock had supper with us last night. They are moving to Waco on account of Melvin's health. After supper they went to spend the night with the Hired Hand and family then on to Waco this morning. We hope they make it okay for they really did have a load on car and trailer both.

Be good 'till next week and I'll be seen' you.

Chevrolet's special hill-flatteners!

162 HP V8

180 HP V8

See that fine fat mountain yonder? You can iron it out, flat-as-a-flounder . . . and easy as whistling!

Just point one of Chevrolet's special hill-flatteners at it (either the 162-h.p. "Turbo-Fire V8" or the 180-h.p. "Super Turbo-Fire") . . . and pull the trigger! Barr-r-r-r-o-o-o-O-OOM! Mister, you got you a flat mountain!

. . . At least it feels flat. For here are engines that sing as sweetly as a dynamo . . . built to pour out a torrent of pure, vibrationless power. Big-bore V8's with the shortest stroke in the industry.

So most of the time they loaf. Even at the speed limit they just dream along, purring out a fraction of their strength.

An engineer can understand why they are so hyper-efficient. But you don't have to be an engineer to know that these are the sweetest running V8's you ever piloted. Just come in and try one out!

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD
Texas Press Association

Despite the big news about final passage of the huge tax bill, news about Bascom Giles stole the spotlight from the Legislature the past week.

This time events took quite a different turn.

The climax came when a 75-year-old, retired mail carrier, John Cass Adrian, was arrested and charged with attempting to extort \$300,000 from the former land commissioner.

Filing of the charge against Adrian was preceded by a series of events, all kept secret, dating back to Feb. 1.

Giles reported receiving two letters, prior to the one Adrian is charged with mailing, in which the writer each time asked for \$5,100.

Travis Co. Sheriff F. O. Lang revealed that the first letter, received by Giles before he was indicted, threatened to expose documentary evidence unless \$5,100 was paid. With this letter was a crude drawing. It directed Giles to a culvert south of

Austin where he was to leave the money, wrapped in a burlap sack. He was to drop the money there at 4 p. m. on Feb. 4. Included was a promise to return the money in 30 days — after using it "to pull a deal on the border" that would net \$100,000.

As Giles was out of town, he did not receive the first letter in time to act.

When the second letter arrived, dated Feb. 9, it directed Giles to leave the money in the culvert by 4:30 p. m., Feb. 11, or "the evidence could not be bought at any price."

A trap was set. Giles drove to the drop site and left \$70 in a burlap sack, as deputies watched the area. No one stopped to pick up the sack. But a man later identified as Adrian drove by. After 36 hours of waiting, Giles returned to the culvert and picked up the money.

A third letter then came. It was dated Feb. 11. It advised Giles that the writer was aware of the trap. It read "All three of us was watching you with field glasses when you placed the law on both sides of the culvert."

This letter directed Giles to prepare \$800,000 in \$20, \$50 and \$100 bills for delivery at a place and time to be designated in a future letter. But the promised instructions were never received.

When arrested, Adrian flatly denied knowing anything about the extortion attempt. He was released after posting a \$1,500 bond. Trial was set for June 13.

More Taxes Coming
Jefferson Davis' birthday was celebrated by the Legislature. The solons handed Gov. Shivers a tax bill! It levied an additional

\$49,000,000 per year. Thus ended another bitter tax battle.

As finally voted, the measure provides \$57,038,000 added revenue for general purposes during the next two years. Also \$41,069,000 additional for road work. Thus it furnishes the funds to unblock the \$56,000,000 new money requirements of the \$1-525,000 appropriations bill already passed.

Its biggest take was from beer. And a bitter-end fight by beer partisans nearly wrecked the measure in its final stages. Their argument was based on the fact that conferees dropped out of the final bill the Senate's "token" \$2,000,000 levy on "dedicated" natural gas and an intangible assets tax on gas pipelines.

On final passage the tax bill cleared the house only by a 72 to 67 vote; and the Senate by a scarce 18 to 13 margin.

Included in the tax bill was a one-cent increase in the present four-cent gasoline tax; a one-cent increase in the present four-cent cigarette tax; and an increase of \$2.30 per barrel, or six mills per bottle, on beer.

Senators voted a \$3.30 per barrel beer increase while Representatives favored small increases in beer and wine dealers' license fees.

Dropped on the final round were the House taxes on cigars, tobacco, trading stamps, and an increase in the natural gas production tax.

Rejected were numerous Senate proposals for gross receipts levies on manufacturers, hotels, motels, department stores, metals and chemical industries.

A \$6,500,000 cushion was given the general revenue fund for the next two years. This permitted passage of several small appropriation bills for new courts; for putting state employees under federal social security; another \$475,000 for legislative expenses; and grants to state agencies for further investigation of the Land Office and Veteran's Land Board affairs.

Different Money Problem
An entirely different money problem faced the State Board of Education.

Where to find eligible securities in which to invest a cash surplus of \$12,060,095 of its permanent fund was this board's problem.

Spending Bills
Wrapped up near the close of the session was Sen. George Moffett's bill appropriating \$7,000,000 for the construction of a new state courts building and a state office building in Austin.

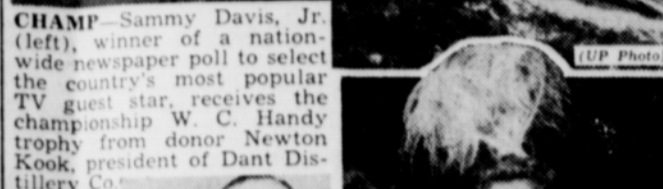

It also provides \$500,000 for repairing and air-conditioning the Capitol; and \$500,000 for operation of the new State Building Commission.

All the money comes from the surplus of the Confederate Pen-

High time you discovered the difference in Dodge!

New Dodge Custom Royal Lancer 4-Door Sedan—most beautiful car on the road today.

Next time you're driving around town, just notice the number of gleaming new Dodge cars you see on the street!

Then ask yourself: "What is it these people have found out about the new Dodge that's causing this landslide of popular favor?"

Part of it, of course, is the new Dodge styling. You can see at a glance how much bigger and more luxurious this car is—up to 9 inches longer than its competitors.

But the real story behind the rush to Dodge is

this: People are discovering the difference in the way Dodge cars are engineered and built!

They discover it in the solid, substantial feel of the car—the way it handles and rides. They learn to appreciate it in the deep-down goodness of every part and feature: Doors that don't rattle. Body joints that don't squeak. Windows that work smoothly.

There is really no substitute for the dependability that is built into Dodge. Isn't it time you discovered this difference for yourself?
