**OUR UNCLE**

Our favorite Uncle, Sam by name,  
 is at it again. Sometimes that boy  
 does things that would lead one  
 to wonder if he hadn't been tickled  
 behind the ear with a fairy feather.

Last week the Vice-president and  
 second most important figurehead  
 in a democracy, came home from  
 South America where they threw  
 everything but the kitchen sink at  
 him. The residents of the area not

only showed disrespect for the num-  
 ber two man of the U.S., they went  
 so far as to tear up American flags  
 and to tell No. 2 to go home and  
 mind his own business.

And what does Uncle do. First  
 he sends a bunch of paratroopers  
 into the South American area in  
 a pure bluff show of force. As  
 we all know, paratroopers are Ike's  
 favorite backer-uppers and every-  
 body likes a show of force—especial-  
 ly a bunch of hot headed Latins.  
 Then Congress rushes through an-  
 other foreign aid bill and ups the  
 ante to certain South Americans".

In commenting on it all, the  
 top dog in the U.S. Information Bu-  
 reau says that the rock throwers,  
 cussers, spitters and flag rippers  
 were actually just letting off a  
 little steam—that such was to be  
 expected since, in the case of Ven-  
 zuela, they had just recently toppled  
 a dictator and were enjoying their  
 new freedom. Some enjoyment.

But there is also a bit of a ques-  
 tion as to whether or not the Latins  
 were not justified in being unhappy  
 with Senor Nixon and party. The  
 Venezuelan dictator recently kicked  
 out down there is now resting his  
 heels in a Miami, Florida hotel  
 under special arrangements with  
 the U.S. Government. The chief of  
 his secret service was brought to  
 Washington and decorated by the  
 U.S. Government. We have given  
 money and comfort to just about  
 nine-tenths of all the assorted dic-  
 tators in South America while hold-  
 ing high the flag of freedom of  
 the individual.

We have supported a French gov-

ernment that is fighting a war to  
 keep a group of people under con-  
 trol. We have supported not only  
 a dictator but a commuist in Tito.  
 We are on the best of terms with  
 Franco in Spain.

And then some in Washington  
 will ask why was it the folks down  
 in Caracas almost mobbed No. 2  
 boy. Probably just the weather.

**STONES WERE DESERVED**

This country recently gave Dic-  
 tator Trujillo of the Dominican Re-  
 public \$10,000,000. of Americans'  
 tax money to enable him to oppress  
 his slave-subjects to a greater de-  
 gree. This is a portion of American  
 wealth given freely by Democrats  
 and Republicans alike to every dic-  
 tator in the world to finance the  
 death of individual freedoms.

Over here the dictator's son, Lt.  
 General Rafael Trujillo Jr. who has  
 a wife and six kids hanging out  
 in the most expensive suit in Kan-  
 sas City hotel is spending some  
 \$1,500,000 a year having himself a  
 ball on our money. He recently  
 treated movie stars Kim Novak and  
 Zsa Zsa Whatsername to two ex-  
 pensive foreign sports cars. We  
 think both actresses are right in  
 keeping the gifts, because it will  
 probably be the only thing of value  
 they get back for their tax money.

If any of our readers were pre-  
 plexed because Vice President Nix-  
 on got stoned on his so-called "good  
 will" trip to South America last  
 week, perhaps the \$10,000,000 to

Trujillo to allow his son to make  
 an ass of himself with some sexy  
 movie wenches will offer an ex-  
 planation.

It doesn't take a Communist in  
 Peru to toss a stone at the repre-  
 sentative of a country with a long  
 record of defending, aiding and  
 giving comfort to the world's mot-  
 ley array of hardened dictators.  
 Nothing can be more hypocritical,  
 unjust or unpolitic as our bolster-  
 ing dictators while at the same  
 time piously proclaiming our coun-  
 try to be the friend of freedom and  
 democracy everywhere.

We congratulate Peru for making  
 their protests known. We also  
 congratulate the rest of South A-  
 merican countries for exercising  
 great restraint and keeping their  
 stones to themselves. We wish we  
 could congratulate Washington for  
 something.

# An Account of the Senior Trip...

By MARSHA ADAIR  
Member of Senior Class

On the evening of May 9th, the Seniors loaded the bus and prepared to leave for New Orleans, but before leaving Rankin a barbecue was attended at the home of T. L. Stephenson. Room parents attending the barbecue were: Mr. and Mrs. Walton Herral, Mr. and Mrs. A. B. McGill, Mr. and Mrs. Alvin Bushong, and the host and hostess, Mr. and Mrs. Stephenson.

After traveling all night, the Seniors reached Shreveport the next day at noon, checked in at the motel, went swimming, and attended the "Louisiana Hayride."

The next day being Sunday, the Seniors attended the church of their choice. After lunch, they traveled on to New Orleans and reached there about 8:00 that night and went straight to Lake Pontchartrain.

Monday a guided tour was taken by Southern Tours through all of New Orleans. That night the Seniors

dined in the beautiful Blue Room at the Roosevelt Hotel.

Tuesday the Seniors traveled down the Mississippi on the S. S. President and that night had dinner at the "Court of Two Sisters" in the French Quarter.

Wednesday the class left for Galveston and reached there about 7:00, checked in at the Jack Tar Hotel and went to the beach.

## FISHING TRIP

The next morning the Seniors went deep sea fishing in the "Gulf" shopped, swam on the beach, and checked out at 4:00 and left for Houston, stopped on the way at the Battleship Texas and the San Jacinto Monument.

At Houston the Seniors stayed in the enormous "Shamrock Hotel" where some of the scenes were taken from the motion picture "Giant." During the stay there some swam in the Hotel pool.

## TO SAN ANTONIO

Friday the Seniors left for San

Antonio, stayed there that night, went to the movies, the Alamo, the Amusement Park, and shopped Saturday morning.

At noon Saturday the bus loaded with more than it could possibly carry headed for Rankin and reached here about 9:00 Saturday night.

## SAY THANKS

The Seniors of 1957-58 would like to thank their wonderful sponsors, Mrs. Wilson and Mr. James Lain, their bus driver, Mr. J. B. Pettit, and Supt. Joe Scrivner for going with them and helping them have such a nice trip. They would also like to thank the town people for making it possible.

## TELEPHONE TALK

**Kenneth Cochran, Manager**

### THE WORLD OF SOUND

Do you know that a number of people think that their voice is  
sent through telephone wires? Actually it is done by converting vibrational  
energy into electrical impulses which are carried over the wires,  
to the receiver of the telephone the electrical impulses are  
changed back into sound. Sounds simple doesn't it?

Think a few years—you probably remember that to telephone  
was a wonderful accomplishment. To telephone across our  
continent and to span the ocean with a call, a pipe dream.  
Now we can call almost any place in our world. It's remarkable  
progress in sound experienced the last 50 years in the telephone

What will the next 50 years? Who knows the advancement we  
will see in possibly telephones that don't have dials. Simply by speak-  
ers the equipment will ring your number automatically and  
if you are busy, continue testing, when both telephones are free  
one phone and the one called.

The telephone industry will continue research in the field of sound  
and make this truly a world of sound.

### WHERE ARE YOU GOING ON VACATION?

It is time to be thinking about or planning a vacation. And  
if you plan the vacation together, the planning can be almost  
as easy as the "going."

Plan their vacations better, more and more families now-  
adays are dependent on the telephone.

One call to a favorite vacation spot confirms reservations.  
One call to an overnight stopping point guarantees accommodations  
and, permitting an extra hour or so of driving.

At the end of the vacation, these same folks often answer the  
question "how everything is at home?" with a telephone call—  
a way to keep in touch.

So, why don't you count on the telephone when planning  
your vacation?

Remember, too, that station-to-station calls cost one-third less than  
long distance calls. And when you call by number, your calls go  
through as fast.

### COLOR IS HERE TO STAY

Do you know that I don't run into much of an argument when I say  
"color is here to stay." And just look at the bright array of color tele-  
phone to offer you:

Choose from Cherry Red, Pastel Yellow, Ivory, Rose Pink,  
Green, Light Beige, Aqua Blue, and Light Gray—colors to  
complete your scheme!

An extension telephone is practical as well as good-looking, too.  
In fact, an extension costs just \$1.00 a month plus a one-time  
charge of \$2.50. If you order yours in color, there's an extra  
charge of \$10.

Call by number. It's twice as fast.

the board at the Park Building since meetings are scheduled there. More advanced work will be done later if the group desires.

Workshops in upholstery, furniture refinishing, lamp making, foods, and other subjects are also held from time to time as groups desire them.

Women from Rankin and one of the camps have inquired about dressmaking workshops. Anyone interested is asked to contact the agent's office as soon as possible—phone Myrtle 3-2281; address Box 21, Rankin. The agent will hold workshops in simple dressmaking, advanced dressmaking, tailoring, semi-tailoring, or any combination desired or needed by the group interested. Classes will be taught in any town, community, or camp in Upton or Reagan Counties. Her ser-

VICES belong as much to one as the other, people have only to let their wishes be known.

Workshops in upholstery, furniture refinishing, lamp making, foods, and other subjects are also held from time to time as groups desire them.

#### WITH 4-H GIRLS

The 4-H clubs are making plans for summer activities, beginning with their dressmaking workshops and the achievement event to follow. An all day workshop is scheduled by the McCamey group for Tuesday at the Park Building. One for the El Paso Camp girls for Wed-

nesday at the Camp Recreation Hall. Big Lake girls have planned their first meeting for June 3.

#### FOREIGN TERMS

#### IN COOKERY

When you "eat out" do you know what such terms as Au jus, Jardiniere, Mignon, Macedoine, Lyonnaise, etc. mean when you read them on the menu? The agent recently mimeographed a list of such terms with pronunciation and meaning at the request of the McCamey Home Demonstration Club women. Copies are available at the office and will be given or sent to anyone requesting them.

#### LIKE MOTHER,

#### LIKE DAUGHTER!

Calling all mothers! In a recent study of all members of 46 families, mothers had the poorest diets, most excess weight, and greater number of complaints and physical abnormalities possibly related to poor nutrition. Like mother, like daughter? Teen-age girls were close seconds to their mothers in poor eating habits. Another mother-daughter pair: Overweight mothers often have overweight daughters. Fathers don't seem to present this family hazard!

#### THE WEEK AHEAD

Scheduled so far are 4-H dressmaking workshops at McCamey on Tuesday, May 27, and El Paso Camp on Wednesday, May 28.

## Install the All Electric HEAT PUMP

COMPLETE YEAR-ROUND  
AIR CONDITIONING IN ONE UNIT

The All-Electric Heat Pump provides complete automatic "comfort conditioning" for your home the year around, using only air and electricity. The same unit that cools your home also heats it. It also removes excess humidity and filters out dust and pollen. Because only air and electricity are used, the Heat Pump provides maximum cleanliness and complete safety.

#### Here's How It Works

The Heat Pump operation uses the basic principle that heating and cooling is a matter of moving heat from one place to another.

In winter the Heat Pump extracts heat units from outside air (even if it is freezing) and pumps warm air into your house. In summer the heat pump reverses itself automatically and operates like any refrigerated air conditioner — it takes the heat out of the house and pumps it outside.

Call or come to see us and our air conditioning engineers will explain the Heat Pump more thoroughly to you.
