LXXXIV—NUMBER 41

RANKIN, UPTON COUNTY, TEXAS

THURSDAY, OCTOBER 8, 1959

Rutherford Speaks In Defense of Record In Congress

J. T. Rutherford of Upton County is on his annual visit to the state capital today.

attended luncheon at the Upton Club at noon. Rutherford spoke for some 25 minutes on the record of the past year. He stated that the record reflected the will of the people, especially on matters of foreign aid and labor. He pointed out that the record was a good, fair and honest one but that it would be necessary to have an enforcement branch of the Upton Club to carry it out.

action taken by the Congress on the 10 cent gasoline tax was defended by Rutherford as a better plan than the tax requested by the Upton Club. Rutherford pointed out that there is a need for readjustment of the Federal program and that he would be worked out within a few months. He said that the tax has not been passed and that it would be necessary to have a program and that this would be in bankruptcy for all the contractors as well as an additional tax on payers when the work is done.

MEMBERS BILL

man also spoke out on an appropriations bill. He was overruled by the President and his veto by the Congress. Rutherford pointed out that the Three Rivers Flood-control projects, which were the San Angelo, Rutherford and the so-called "Pork Barrel" projects, were used in Ozona on the Draw Flood Control project only about 10 per cent of the money that was given to the project several years ago. He stated that a cheap investment for an impersonal charac-

UPTON 4-H CLUB OPENS SHOWING SEASON WITH WIN

Last week the Upton County 4-H Club was represented at Ft. Stockton at the West of the Pecos Fair by Carolyn Branch. She showed the Reserve Grand Champion lamb, having the only entry for the Upton Club.

Beginning October 19, the Upton 4-H Club will be represented in Dallas at the State Fair of Texas by Stanley James, Corky Thornton, Miss Branch, Vicky Helmers, Butch and Ann Moore, Ricky Poyner, Neal Montgomery and Emmitt McGill.

This group will show approximately fifteen lambs on October 23.

TURKEY SHOOT

Upton Club members have also announced that they will stage their annual turkey shoot on November 7 and 8. This affair has been most popular with shooters from this area in the past and is expected to be a star attraction again this year. Money from the turkey shoot is used by the 4-H Club in their work here in the county.

REMINDER

Members of the Rankin Lions Club are reminded of the work detail on Saturday morning. Gravel will be spread on Main Street curb areas at that time.

RANKIN OES MEETING

Members of the Rankin OES Chapter No. 176 are reminded of the Friendship Night meeting on Monday, October 19.

Time will be at 7:45 p.m. at the Masonic Hall.

ter in Congress," Rutherford stated. "I am as close as your mail box."

"I try to reflect the opinions of the people of West Texas—not New York," he said.

In conclusion, he pointed out the fact that he has a 100 per cent attendance record for the five years he has served the district and has cast his vote on every issue. When he took office, Rutherford promised the people of his district that he would be in Washington at all times when Congress was in session and that he would return to the 19th County District following each session to report to the people.

Thus far, his record in this respect has also been 100 per cent.

From Rankin, he continued on to McCamey, Fort Stockton and other towns in the district.

Sophomore Class Supplies Top Honor Student At RHS

A sophomore student, Miss Sujane West, daughter of Mr. and Mrs. Horace West of Rankin, led the Rankin High School honor students with an average of 96 in first reports released for the current term. Close in second place were freshman James Tippet and junior Emmett McGill, both with a 95. Tied for third were two Seniors at 94: Miss

Carolyn Branch and Miss Charlene West, sister of the top runner.

In these placings, only the top student, or students in cases of ties, from each class are listed. It would be possible for one class to have all of the high-ranking scholars.

A total of 34 honor students were named to the year's first honor roll. Leading with the largest num-

ber is the juniors with 11, followed by the seniors with 9 while the fish and the sophomores had 7 each.

By classes, they are:

SENIORS

Carolyn Branch, Phyllis Brown, Carolyn Hill, Doris Linthicum, Bernice Lund, Dwala Mason, Betty Shoemaker, Charlene West and Kirk Whiteside.

JUNIORS

Linda Crow, Kay Farthing, Betty Garrett, Mary Kennedy, Emmett McGill, Leslie Shurtleff, Larry Simpson, Don Stacy, Sammie Steele, Geneva Woody and Darlene Workman.

SOPHOMORES

Barbara Bushong, Betty Gaines, Ruth Gryder, Carole Lacy, Bucky Scarborough, Sue Wells and Sujane West.

FRESHMAN

Joan Hood, Mike Kelly, Donnell Lancaster, Dawn Love, Glenn Patton, James Tippet and Ronnie Williamson.

MEET THE TEACHERS SERIES TO FEATURE LOCAL FACULEY

"Meet The Teachers" is a series that will appear from time to time in the Rankin News, as space permits, that will introduce to the public, the teachers and personnel of Rankin Schools. Many of them are already well known but this series will attempt to bring out some personal history on each. There will be no particular sequence in which the individuals will appear. This will be determined by pictures a-

valuable and space that can be allotted for the articles.

MRS. JANELLE MOORE
... librarian

Mrs. Janelle Moore, also a member of the faculty of Rankin schools for the past six years, was born in Wink and attended public schools at Haskell and Abilene Christian High School. She holds a BA degree from Abilene Christian College and a BLS from North Texas State.

She has three daughters, Connie, 8, Jana Lynn, 6, and Gayla Beth, 2 and is a member of the Northside Church of Christ. She is also secretary-treasurer of the Western Christian Foundation, Inc., a member of Sigma Tau Delta and Alpha Lambda Sigma.

Her favorite sport is volleyball and reading is her favorite past time.

"Rankin Schools are the best in the state," she said. "I am sure that there is room for improvement, but in the six years that I have been teaching here, much advancement has been made."

"Rankin is my adopted hometown and it is filled with very nice people," she concluded

BILL J. HOOD
... high school principal

Bill J. Hood, a six-year veteran of Rankin Schools who has worked up through the ranks to become high school principal, is 34-years-old and a native of Brownwood. He attended public schools in Memphis, Texas and received his BA and MED from Hardin-Simmons.

The Hoods have three sons, Bill, 8, Bruce 5, and Stephen, 11 months. He is a member of the First Baptist Church, the Lions Club and the Fraternal Order of Eagles. As a favorite subject, Hood lists Grammar with fishing taking his choice as a favorite sport and recreation.

"I've been here too long to make any comment," he stated when asked for comments on Rankin Schools.

Open Date On Tap For Devils

A fired up Marfa Shorthorn team, that just wasn't satisfied for a close loss, turned defeat into victory with less than 60 seconds left in the game last Friday night to bring joy to their fans and disappointment to a large homecoming group for Rankin. Moving ahead 6-0 in the first half, the Shorthorns played a fast charging defense and a long-throwing pass offense. In the third quarter, the Red Devils, who proved to be the stronger on the ground, made it 7-6 and held that mark until the last minute of the game when one of their half-dozen or so fumbles gave the ball to Marfa. They got right to work and lobbed a long pass to a lonesome end who had only a few steps to take before putting the game on ice. Final score: 14-7 Marfa.

OPEN DATE

This week, with only one more non-conference game remaining to be played, the Red Devils have an open date. On Friday week, October 23, they will host the Coahoma Bulldogs. After that contest, it will be for the money as they open conference play in Van Horn on October 30. Van Horn has been the question mark team of the district. Neither Rankin or Wink has been

(Continued to Page 4)

THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

"S-E-E-T" TO YOU, TOO—

Sunday night, Fred Prentice was returning home after having stepped across the lawn for a cup of coffee at Henry Scarborough's house. As he walked past his car in the driveway, he noticed "a little black dog" smelling around and bent over to palp his hands and say "s-e-e-t-t"

This "little dog", however, made a sort of s-e-e-t-ting noise of his own and at about that same time, Fred noticed that he had a big bushy tail and a white stripe down his back.

And that do make a difference, according to Fred—especially at a close range.

HORROWS—

As proof that nothing is what it appears to be, Congress has just completed the task of unmasking the rigged TV shows in which the so-called smart guys, gals, kids, monkeys and other assorted contestants were not any different from most of us—they were just given the answers in advance.

That makes one feel a lot better. Now we know that just because we did not know who the third king of Podunk happened to be, we were

not necessarily 'ahint the door when the brains were passed out—we just wasn't coached on the answers.

On the other hand, it leaves one in a state of apprehension. Suppose that all those men Mr. Dillion has plugged during this time were not really plugged at all—that he missed them clear light and that they just put on about being shot.

That will be the last straw.

THE HARVEST MOON

Most any day now, the man in the moon is likely to start speaking Russian. They were the first to hit the moon, the first to shoot a rocket around the moon and will likely be the first to land on the moon. That ought to warm the hearts of a lot of Russian people but I doubt that it will do much to warm their hides when the mercury freezes in the theometers there this winter.

Here in the U.S., we are having our troubles getting our range on the moon but get it we will if it takes every dollar in Fort Knox for just everyone who is anyone is going to the moon. We can shoot rockets into space and have them circle the earth but we can't prevent—or do much to cure—a common cold. We have war rockets that can hit

a city on the other side of the world in less than an hour but it takes two days sometimes to get a letter from Odessa.

We spend billions and billions on war machines and scrap them before the last ones are delivered because they are out of date—and a large part of the world still farms with hand tools, oxen and mules. We are said to be working on plans to build cities on the moon in which the air would be manufactured, regulated and purified—and we have slums here in our cities in which the mosquitoes die from disease.

We would explore and attempt to make settlements on planets out in

space at the cost of many trainloads of money when a workable system of watering our own deserts is available to us for less than the cost of one space ship.

We strive to get to the moon to build military bases when a shot fired from here on earth will kill you just as dead as one from space.

We may be awfully smart in this modern age but somewhere back down the line—to use an old out-of-date phrase—somebody got the cart

JIMMY LITTLE IN STARTERS SLOT

... freshman starter
JIMMY LITTLE

Jimmy Little, son of Mr. and Mrs. Rex Little of Rankin and a 1959 graduate of Rankin High School, has earned a starting slot at guard on the Texas Tech picadore team, the college freshman squad. Little weighed in at 210 pounds for his first year's play with the squad.

Other linemen starting for the Picadores were Jerry Garrison, 180 of Levelland and Tommy Hayes, 195 of Electra, at ends; tackles Sonny Armstrong, 190, Sweetwater and Charles Huddleston, 220, Breckenridge; guards Little and Charles Edgeman, 195, Wichita Falls; and Larry Kimberline, 195, Breckenridge at center.

Backs included Richard Mahan, 158, Snyder, quarter; Charles McEntire, 175, McKinney, split; Joe Ed Pesch, 165, Breckenridge, half; and Coolidge Hunt, 195, Lubbock.

Group Attend Dinner

hundred people were Wednesday night, October annual awards dinner of Gasoline Corporation plant held in the Building.

Federick, senior vice-president, presented to eight men.

A 10-year pin was pinned while five-year pins by Zane Harshburger, R. H. Bearden, J. L. Dale Lee, Sam Bean, King.

ley, superintendent of Plant, served as master of ceremonies. He introduced speaker for the evening, Southerland of Tulsa, superintendent and chief marks were also made of Silver, and a former superintendent, and of Tulsa, purchasing agency engineer.

ending the dinner was Tex Collins and Bob Rankin. Hurst Barbecue barbecue dinner.

Hale, Kennie and Odessa were visitors in the week-end.

(Continued from Page 1)

as strong this year as last while Grandfalls is considering dropping out of competition. Van Horn has won the games they were supposed to lose and lost those they were figured to win—indicating that they like good competition.

At the present time, there appears to be no district favorite with the winner of the Rankin-Van Horn contest needing only to beat Wink for a clear title to the show. As was the case last year, however, it is a possibility that there will again be a three-way tie since the Wink, Rankin, Van Horn combo always manages to upset one another somewhere down the line.

SIXTH GRADE GAME

On Thursday afternoon, the Sixth Grade team will host the Iraan Braves 6th Graders here in the third game of a four-game series. So far, each team has one win with Iraan taking the opener by 6-0 and Rankin making a one-sided affair of the second.

No charge is made for these contests and the public is invited. Although small in size, the Sixth Graders make up for this with a fast, serious game that has always been a crowd-pleaser.

Gametime is 6:00 p.m.

Mr. and Mrs. C. C. Childress of Odessa were guests Monday of her sister, Mrs. Bill Nix. The Childresses were on their return from San Angelo where they had attended the Twin Mountain Rock and Gem Show at the Town House.

Mrs. J. T. Dameron of Van Horn is visiting with her sister and brother, Miss Maggie and Bill Taylor

CARD OF THANKS

The members of the Senior Class wish to take this means of thanking the public for their many kindnesses shown the Senior class during the past week. To all who bought tickets on the gun, mums and the barbecue, we'd like to say Thank You for helping increase funds for the Senior Class.

Related in name and good looks—the new COMPACT CORVAIR and CHEVROLET

A strong family resemblance between the all-new Corvair and Chevrolet's conventional line of passenger cars for 1960 is evident in this unusual profile view. At 180 inches, however, the Corvair is more than two and one-half feet shorter, while its 108-inch wheelbase compares with 119 on the Impala Sport Sedan with which it appears.

Elegance and chassis refinements characterize the larger Chevrolets in an offering of compact mechanical innovations designed to provide the riding and driving qualities desired by the American buyer. The Corvair and Impala Sport Sedan will be in dealer showrooms

Junior GA's Install New Officer Group

The Junior Girls Auxiliary of the First Baptist Church met on Wednesday evening at 7 p.m. at the church for a short business meeting and installation of officers. Twelve girls were present.

Officers installed in a ceremony led by Mrs. M. J. Edwards were: Marsha Hargrove, president; Beth Flemming, vice-president; Gayla Wilson, Secretary; Sue Dishman, program and forward steps; Roxie Trowbridge, stewardship; Annette Herrington, community missions;

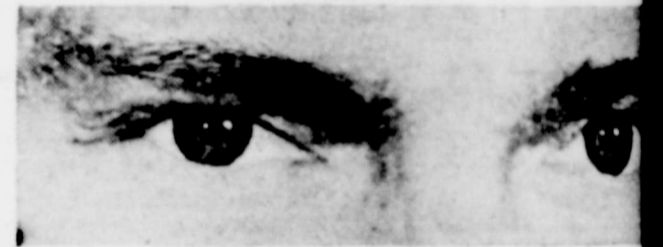

Toni Parrish, mission study; Lois Morgan, prayer; and Sue Shurtliff and Ann Moore, social chairmen.

Mrs. J. L. Manry, Jr. is the Junior GA leader. Also present were two new members, Gay Holcomb and Marsha Punderburg.

After installation, refreshments were served to those present by the WMU.

Mr. and Mrs. Paul J. Anderson and their daughters of Abilene spent with her parents.

Rankin Study Club observe their annual with a game party on October 15 at 1:00 p.m. Rankin Park Building.

How's Your FORESIGHT Today

Difficult to predict the course of human events. True. But not so difficult to change it in your favor—by foresight.

Foresight means making wise provision for the unpredictable (the sudden emergency, the unexpected opportunity) as well as for the inevitable (growing older, for instance).

May we be specific?

At some crucial turning point in your life, the possession of a sound reserve of ready cash in the future may make all the difference in the world in your future.

You can face the future with more courage, confidence, more chance of success by reason of foresight now . . . in opening a savings account with this bank, and adding to it regularly.

FEED THE HUNGRY TREES

Fall is the time to feed your shade trees. Roots are still taking in plant nutrients from the soil, even though leaves have fallen. They're storing up energy to start the tree off with a burst of new growth when it "wakes up" next spring.

The punch bar method of application is recommended. Make crow-bar holes 12 to 15 inches apart over the area of the feeding roots.

Do not make any holes within two feet of the trunk.

Use 2½ to 3 pounds of fertilizer per inch of diameter for trees with trunk diameters up to six inches and 3 to 5 pounds per inch of diameter for trees with diameters of six inches or more.

Any complete fertilizer will do but one high in nitrogen is best. Applied after the leaves have fallen, the fertilizer will not stimulate growth that would be injured

STRICTLY BUSINESS

by McFeatters

"Oh, well . . . They tried!"

PORTRAIT OF A CLOWN

"That's Old Weary Willie," says Emmett Kelly, world famous clown, as he makes a comical survey of his likeness in oils painted by the nationally acclaimed portrait painter Dmitri Vail, of Dallas, shown pointing to the canvas. The portrait, the first and only one for which Kelly has ever posed in person, will be shown in the Dmitri Vail Sixth Annual One Man Exhibition of Portraiture in the Lobby of the State Fair Musicals' Auditorium as one of the outstanding attractions of the Texas State Fair, October 9 to 23.

by an early freeze.

BUYING A DISHWASHER?

Programs have been given recently on the selection of major appliances for the home. The idea of having a dishwasher has real appeal to many homemakers.

Research has proven that dishes washed in washers have fewer germs than those washed in the usual way.

Here are some key points to consider before you buy.

1. Consider water supply. You will need an ample supply of hot and cold water and the hot water should be 160 degrees or more. And right there's one point for us to consider carefully. If the water is hard, dish washers are not too satisfactory unless some means of softening the water is used.

2. Consider the counter space, do you want a top or front opening. Experimental work indicates no decided advantage of one over the other.

3. Do you want a portable or stationary type? Space may determine this or you may want to save time

and extra handling by using a portable that can be rolled to the dining area, loaded and rolled to the sink area for washing, then the storage area for storing.

4. Check capacity and inside arrangement, and look for such safety features as motor overload protection; fan screen and ground wire protection.

5. Consider the reliability of the manufacturer, type of guarantee provided, and the cost before you

(Dub) Day, Jr.
City Agent

In this article, we discuss the regulations of brucellosis and the importance of the live-vaccination of the different types of cattle. In brief, the regulations of the 56th Legislature:

Cattle owners, owning the cattle as shown on the petition to designate as control area.

Area may contain adjacent area, in reasonable that encompassed by

Commission receives a petition and stating type of regulation become effective date cannot be less than 30 days after

of Brucellosis control must specifically state type is being regulated.

In areas the Commission will be certified when 15% of the cattle in

5% of the herds are found to be infected.

8. Prohibiting the Commission of adopting regulations that would interfere with free movement of vaccinates under 30 months of age from unquarantined herds in this state

9. Penalties for anyone moving cattle into or within control area without permit, except owner can move cattle to contiguous pastures if not quarantined.

10. Owners must submit cattle for test, vaccination, or identification or be subject to penalty.

11. Reactors must be fire branded letter "B".

12. Indemnities shall not be paid.

13. Appeals to Civil Courts if dissatisfied with ruling of Commission.

Brucellosis Regulations in Brief

Type I Brucellosis Control Area—

An area in which no testing is required, but in which owners of cattle are required to have all female calves vaccinated at his own expense. To be recognized, the vaccinations must be done in compliance with the Commission's regulations. Only vaccinations done by authorized veterinarians are reported on approved forms within 10 days will be considered official.

Vaccination of Beef Calves—

Must be between four and twelve months of age (inclusive) — Must be individually identified by: Ear tatta showing month /V/ last number of year of vaccination or "V" hot iron brand, 3 inches in size right jaw, position to designate year vaccinated.

Type II Brucellosis Control Area—

All counties in Texas will be qualified to participate under the "Range and Semi-range Area" program. Area certification will be for a period of three years. Standards for area certification are: Blood test of all dairy cattle, all pured

beef cattle, and twenty per cent of all other cattle in each herd over three years of age. Steers, spayed heifers, and official vaccinates under thirty months of age excluded. Certification results if not over one per cent of the area cattle population (steers and spayed heifers excluded) in not more than five per cent of the herds are found infected.

Infected herds will be quarantined until the entire herd has passed one clean test not less than 120 days from date the all reactors were removed.

If test reveal over one per cent infected cattle, but not more than two per cent, retest of infected herds may certify the area if prescribed limits are met after these retests.

If the area test discloses more than two per cent of the cattle infected, or if the retest of infected herds does not lower the infection rate to one per cent of the cattle in five per cent of the herds, it will be necessary to make a complete area retest of the required percentage in each herd in the area.

Feed-lot cattle of any class may be exempt from test provided: They are held under quarantine separate and apart from other cattle. They are not to be held over 120 days. They are sold for immediate slaughter, under permit from the Commission, at the end of this period.

Addition of cattle to control or certified areas:

Cattle from certified free herds, or negative herds in certified areas, can enter another certified area, or control area, if they are accompanied by an approved health certificate.

Official vaccinates under thirty months of age can enter such areas when suitably identified and approved by the Commission. All other cattle must be negative to a blood test prior to entry, be held in qua-

New WMU Officers Take Office For '59-60

The Womans Missionary Union of the First Baptist Church met on Wednesday evening October 7 at

quarantine at least thirty days and be retested, with the following exceptions: Cattle under six months of age, Steers, spayed heifers, Cattle intended for immediate slaughter.

Next week we will finish the discussion on Type II Brucellosis Control Area.

the church for their installation of officers for the 1959-60 year. Mrs. M. J. Edwards was installing officer.
