

Country Club Nears Quota

Friena Country Club needs only 19 additional members before actual construction on the nine-hole golf course and spacious club house begins.

At a meeting of the members Tuesday morning, the reports of the first official membership drive were given and according to several club members, were "very encouraging."

A spokesman for the group

said the members are confident that the other 19 members can be secured by this weekend. The membership drive that was begun a little over one week ago, doubled the membership in the organization.

A final push for members will be in progress during the remainder of this week. The members will meet again Monday to determine progress of the membership drive.

The directors feel that as soon as construction begins and people are convinced that Friena will really have a country club, additional memberships will be purchased.

It is possible that a date for beginning construction will be set at the Monday meeting. The club house and golf course will be constructed on the west side of Friena along Frio Draw near Highway 60.

Vern's Views

How about those Republicans? They have already started poking fun at the new administration.

I noticed in a daily paper last week that the party paper "Battle Line" has written a real coy interview with young Caroline Kennedy's tom cat.

The cat went into detail in describing a touch football game involving the new young president and the new young attorney general. Then he told about smuggling out the information through a diaper service that was making a "dry run" to the White House.

-jvs-

They are working real hard on getting the Friena Country Club underway. One of the men who is working hardest for the project told this writer recently that he and his fellow workers were putting forth the effort for a two-fold reason.

He said the contribution a country club would make to the community is the prime concern of all involved. The personal satisfaction and enjoyment the members will receive is counted secondary in importance.

-jvs-

Saturday night some members of the Lions Club and Jaycees will make a supreme sacrifice for charity.

These men will face days of pain and weakness because they participate in the March of Dimes benefit basketball game.

Those who are fortunate enough to only pay a good contribution to the March of Dimes are surely lucky, but looks like they can do that much at least.

-jvs-

With all the integration trouble they are having in those southern colleges, it makes one wonder why Texas Tech has been operating quietly on segregated basis without any incidents.

There have been attempts made by colored students to enroll at Tech, but you probably haven't heard much about them because they were quietly ignored by those who were conducting registration.

Perhaps it is because the NAACP isn't as strong in this area as in the deep south and other regions.

Our segregation issue in this area is rather unique. In certain counties integration is an accomplished fact, while not 20 miles away in another county, segregation is practiced religiously. This situation even extends to separate schools within a county. Sometimes the segregated and integrated school systems are not 15 miles apart.

This indicates that plains people do not wholly support either segregation nor integration.

Therefore, since segregation is not a thing that plains people feel strongly about, I can't understand why Texas Tech has so staunchly stood as a segregated institution.

That is just an example of politics that this writer doesn't understand. (I have been told many times lately that certain persons don't think I understand any phases of politics, especially on the national level, but won't try to make a defense here.)

There is a pretty good country football player just east of here that just happens to have dark skin. If Tech didn't have the color line established, it would no doubt be seeking the services of the talented Junior Coffey.

Coffey probably wouldn't go to Tech anyway, but as an ex-student, I wish that Tech's coaches did have the freedom to contact him and offer him what they have.

I'll wager the new coach, J. T. King, would become a whole-hearted integrationist if he thought there was a chance Coffey would attend Tech.

SECTION 1

Council Calls Election For Aldermen April 4

City council officially called an election for April 4 to elect three aldermen.

Bill Nichols, Deon Awtry and Danny Mac Bainum are aldermen whose terms will expire this year.

Election officials were also selected. Judges will be George Baker and Elroy Wilson. Bessie Holt and Rose Lange will be clerks.

Other official business of the council included reappointing of the planning and zoning committee. Members of the group are O. J. Beene, Sloan Osborn, Oscar Baxter, C. L. Lillard and Joe Douglas.

Mayor R. L. Fleming appointed the men for another term and the appointments were approved by aldermen.

Fire Chief Ralph Shirley was told that the city will pay the \$186 bill for firemen's insurance. Firemen paid it themselves out of fire department funds last year and donations had been used to pay the premium in past years. Shirley said any donations the department receives will be turned over to the city to apply on the bill.

Approval was given to a plan that will remove part of the trees from City Park. The trees must be thinned because they are too thick to permit grass to grow well in the park.

The commission also presented no opposition to a request made by Kenneth Williams to remove a small building from the park. However, the commission did not grant ultimate approval because the building belongs to Girl Scouts and that organization must be contacted.

Williams said his reasons for asking that the building be removed were that it interferes with the carnival during Maize Days, and is an unsightly structure.

Possibility of installing traffic lights on Main Street was discussed but no action taken until further price quotations are available. The discussion indicated plans for two lights at intersections on Main Street where school children cross regularly. The lights would also be installed to help break up traffic so that autos could enter Main Street from side streets.

Action was also tabled on a plan to install new street markers. The city may decide to send the aid of civic groups to help finance the project if it is approved.

SPARE NOT THAT TREE--Howard Love applies the ax to excess trees in City Park. The trees were uprooted by a machine being demonstrated for the city. The work was authorized by city council Monday night.

LIONS VS JAYCEES--

Has-Beens Clash

A double-header basketball game for the benefit of March of Dimes will take the sports spotlight in Friena this Saturday night.

Featured in the first game will be the Lions Club's "Stars of Bygone Days" against the Jaycees, who haven't been in retirement quite as long as the Lions.

The second game will pit the outsiders against the high school varsity.

Admission will be a donation to the March of Dimes Drive. Heading up the list of oldsters who will try to halt the younger Jaycees are Lions Hollis Horton, Bill Nichols, Marty Martinez, George Jones, Vern Stewart, Danny Bainum, Truitt Johnson, Johnny Wilson, and Wes Long.

On the Jaycee roster are Troy Young, Cotton Renner, Billy Sifford, Leland Gustin, David Smith, C. H. Veazey, Jack

(Continued on page 6.)

Chiefs Down Hornets

The Tulia Hornets never trailed after the opening minutes of the game and went on to whip the Friena Chiefs 56-39 here Tuesday night.

The win kept Tulia deadlocked for the District 1-AA lead with Dimmitt.

Charlie Mitchell scored 16 points for Tulia and Ranza Boggs had 13 to lead Friena.

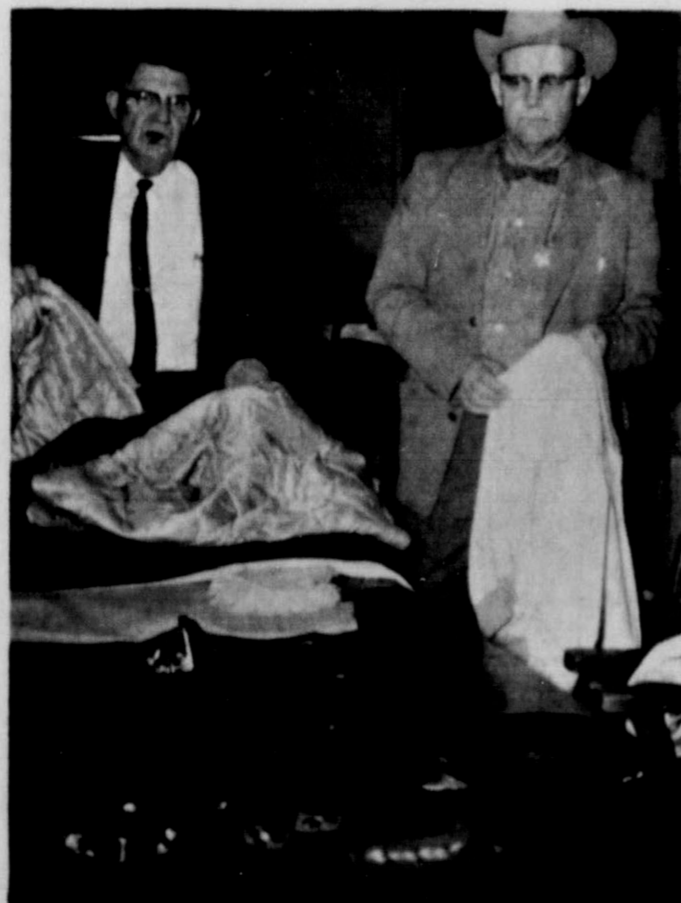

The Chiefs will wind up their regular season Friday night at Canyon. They will play the outsiders team in a March of Dimes benefit game Saturday night.

EL PASO ENTRY--This Angus calf is competing this week in the Southwestern Livestock Show at El Paso. Gary Snead, left is owner and will be accompanied by David McVey, also pictured.

MERCHANDISE FOUND--

Four Men Confess To Bovina Robbery

IDENTIFYING THE STOLEN GOODS at the Parmer County Court House Monday morning was Willie Williams (left), owner of Williams Mercantile in Bovina. Here, he and Sheriff Chas. Lovelace hold a couple of the coats.

Much of the \$2,000 worth of merchandise, taken from Williams Mercantile in Bovina last Tuesday, has been recovered by Parmer County Sheriff Chas. Lovelace following the arrest of four Clovis men.

The four men have signed confessions admitting the robbery and they were arraigned in Parmer County court Tuesday. Bond was set by Judge Loyde Brewer, and the four Negroes have been bound over for grand jury action.

Sheriff Lovelace solved the robbery after he received a tip on Joshua Norris, 22, an airman from Cannon Air Force Base at Clovis.

A check revealed that Norris' car was registered at Hobbs and authorities in the New Mexico city arrested Norris Friday at the request of Lovelace.

The 22-year-old airman, returned to Farwell Saturday night by Lovelace, admitted the burglary and indicted his three companions.

Arrested Sunday afternoon in Clovis were Theodore Nance, 19, Carl Tims, 22, and Billy Joe Lewis, 21. The arrests were made by Lovelace and members of the Curry County sheriff's department.

Better than half of the stolen merchandise was found at

various locations in Clovis, Sunday afternoon, the sheriff says. Willie Williams, owner of the store, estimated that merchandise recovered was valued at about \$1,100.

The sheriff was to have picked up some more of the stolen goods Monday. He was hopeful that most of it could be recovered.

About 60 items, including men's and women's coats, dresses, skirts, and men's trousers, in addition to underwear and several pairs of socks, were included in the loot recovered Sunday.

Williams identified the merchandise Monday morning and it was returned to his store.

The Bovina break-in was the largest single burglary to be committed in Parmer County in quite some time.

PRAYER SERVICE TO BE HELD FEBRUARY 17

A world Day Prayer Service will be held Friday Feb. 17 at the Methodist Church. Following the revival service a covered dish luncheon will be served in the Fellowship Hall. Prayer service will begin at 1 p.m.

Every woman in the community is invited to attend.

Tulia Downs Squaws 53-52

The Tulia girls basketball team wrote a heart-breaking finish to Friena Squaw domination of District 1-AA Tuesday night, in a game that had all the thrills and disappointments that will make it stick out in the memory of basketball fans for many seasons to come.

The game pointed out the type of team the Squaws have had all year--a little shorter in height and natural ability than some preceding Squaw teams, but one that has felt the pressure and been part of the community pride that goes with girls basketball in Friena.

After the regular game went into an overtime, with the score tied 51-51, Tulia scored and Friena couldn't. Pam Roden made a free shot to make the score 52-53, but time caught up with the Squaws and their chance for a district crown was gone. The loss handed Dimmitt the crown.

Miss Roden went to the free shot line after the overtime had ended since she was fouled on the final play. The charity toss that had ripped the cords many times previously this season regardless of how thick the pressure was, went in this time too, but then it rolled around and came out. It was all over. Final score 53-52.

From the beginning, the contest promised to be a thriller.

The Squaws moved into the lead about midway in the first period 7-6 on a basket by Su-Zan Harper. They kept that lead throughout the period. When the buzzer sounded, it was 13-11.

But things didn't go well for the Squaws in the second period and Tulia grabbed the lead immediately after play resumed and added to it steadily until halftime when their margin was 29-21.

Friena managed to pull within three points of visitors when the third period ended, 36-39.

Miss Roden's free shot tied the score at 6:20 of the final period and her next free shot put the Squaws ahead. But Tulia slipped back into the lead and from there on, it was a scramble with the final outcome always in doubt until the final free shot flirited with the nets, then rolled out.

The Friena cause was dealt a serious blow in the third period when senior forward Tommy Lewellen committed her fifth foul of the game.

There is one more game left to play this season at Canyon Friday night.

The Squaws have won close games that provide maximum satisfaction to players and spectators alike. Tuesday night, it was their turn to lose one that brought disappointment almost equal to that satisfaction.

THERE'S NO ESCAPE--All three Friena forwards converged on this unidentified Tulia guard who was attempting to move the ball to her teammates in Tuesday night's action. Su-Zan Harper, left, and Tommy Lewellen are extending hands forth for the ball while Pamela Roden moves in.

Scouts Seek Aid To Build On Newly Acquired Lots

Efforts are being made to construct a Girl Scout building on property recently donated to that organization by Mrs. Pearl Kinsley.

Mrs. Kinsley also donated \$500 to the scouts to "start the ball rolling on a building fund." She gave two lots in west Friena for the building to be built on.

Fathers of girl scouts have

offered their labor and several business houses have pledged material at reduced cost, according to Mrs. Russel O'Brian, neighborhood chairman.

Donations are now being sought with a motto of "Have Land, Will Build." Persons wishing to donate may do so by calling Mrs. O'Brian, Mrs. James McLean or donations will be accepted at Friena State Bank.

Methodist Revival Feb. 12-17

Revival services will begin at Friena Methodist Church Sunday Feb. 12 and continue through Friday Feb. 17, with Dr. Gaston Foote speaking.

Dr. Foote is pastor of First Methodist Church in Fort Worth.

Song service will be under direction of Rev. and Mrs. Gene Moore of Adrian.

Services will be held twice daily, at 7:30 p.m. and 10 a.m. Special breakfast meetings are planned for young people on Monday and Friday morning at 7 o'clock and for men at 6:30 Wednesday morning.

The public is invited to attend.

Baxter, Potts Attend Meeting

Representing Friena Motors at a sales rally in Denver, Colo. recently were Oscar Baxter and Cordie Potts.

The meeting, was conducted especially for Ford tractor dealers in the Rocky Mountain district.

Several new products were shown at the conference.

Funeral Services Thursday For Mrs. Calaway

Mrs. C. L. Calaway, 66, died Wednesday in Parmer County Community Hospital in Friona after a lengthy illness. Funeral services were conducted Thursday afternoon in Bovina Methodist Church. Rev. Davis Edens, pastor, officiated. He was assisted by Alfred White, minister of Bovina

Church of Christ. Dixie Olie Lawson was born April 14, 1894 in Bagota. She married C. L. Calaway October 19, 1913.

They moved to Parmer County some 32 years ago and farmed in Rhea community north of Bovina.

She was preceded in death by her husband January 8 of this year.

Mrs. Calaway's survivors include one son, Robert; one daughter, Mrs. Paul Jones, both of Bovina; one brother J. D. Lawson of Amarillo; two sisters, Mrs. Louis Hancock of Bagota and Mrs. Jesse Bell of Paris; three grandchildren and three great-grandchildren.

Pallbearers were George Harold Trimble, Carl Schlenker, Boye Taylor, Jack Patterson, Cordie Potts, Obra Cole, George Trimble, and Johnie Horn.

Burial was in Bovina Cemetery with Claborn Funeral Home of Friona in charge of arrangements.

Panel Discussion At Faculty Meet

A faculty meeting of the teachers of the primary school Monday, Feb. 6 at 8 a.m.

featured a panel discussion on "What We, as Parents, Expect of Primary Teachers."

Those appearing on the panel were Mrs. J. G. McFarland, Mrs. Bob Ginsburg and Mrs. H.K. Kendrick. Some of the

subjects discussed were reading, writing, arithmetic, discipline and the children's enjoyment of school.

Guests present were Mrs. J.T. Gee and Baker Duggins.

NINETEEN GIRLS ARE INVESTED AS GIRL SCOUTS--Pictured are Vickie Payne, Janie Lane, Shirley Johnson, Janice Clark, Debra Baxter, Connie Whaley, Carolyn Camp, Brenda Blackburn, Mary Ellen Scales, Lark Jarrell, Patricia Roberts, Bennie Hannold, Barbara Latham, Kathy Bandy, Rhonda Awtreay, Doris Ferguson, Pam Turner, Darla Perkins and Deloris Phipps.

Party Honors Mrs. Cummings

Mrs. E. H. Cummings was honored with a surprise birthday party in her home Monday afternoon, Feb. 6.

Nut breads and coffee were served by the hostesses, Mrs. Jim Cocannouer and Mrs. Doyle Cummings to the guests.

Attending and sending gifts were Mesdames Paul Smith, M. B. Buchanan, Hardy May, C. A. Guinn, Cap Dennis, Lucy Welch, J. F. Miller, John Renner, John Blackburn, Travis Hancock, Rene Snead, Raymond Fleming, Bill Wooley and Miss Lisa Cummings.

Fun And Fancy Club Met Friday

The Fun and Fancy Club met in the home of Mrs. G.A. Collier Jr. Friday afternoon, Feb. 3.

Mrs. Rudolph Renner Jr. conducted the program on "Decorator's Pillows."

Cake and coffee were served to Mesdames Lee Renner, Billie Dean Baxter, Lloyd Mings and Gary, Glen Mings, Rudolph Renner and Micky, Doyce Barnett, Cindy and David, G.A. Collier Jr. and Gregg and one new member Mrs. Marvin Jordan.

"Pictures of Velvet and Artificial Flowers" will be the program topic at the next meeting in the home of Mrs. Lee Renner.

Maurice Gaede Receives Degree

Maurice Gaede, son of Mr. and Mrs. John Gaede of Friona, has completed requirements for a Bachelor of Science degree in Mechanical Engineering from the University of Missouri School of Mines and Metallurgy at Rolla, Missouri. Gaede was commissioned a 2nd Lt. in the U. S. Army Corps of Engineers on January 21, 1961.

After six months in the army, Maurice and his wife, Darla, will make their home in Anderson, Indiana where he will be employed by the Guide Lamp Division of General Motors.

Deadline Reminder For Federated Club Report

A deadline reminder on 1960-1961 reports from federated clubs in the Caprock District, Texas Federation of Women's Clubs, of the final mailing date of February 13, has been issued by Mrs. A. E. Boyd, Plainview, district president.

Reports are to be sent to each department chairman. Mrs. Dan Ethridge, Friona, is chairman of the Club Program Planning, and Mrs. Ovid Lawlis, Bovina is chairman of Federation Mother of the year.

The first annual convention of the new district will be held in Lamesa on March 28-29.

One thorn of experience is worth a whole wilderness of warning.

Chiefs Rout Mustangs Squaws Win By 58-36

Tommy Sanders sank a field goal and free shot in the waning minutes of a nip and tuck battle with Olton Friday night to give the Friona Chiefs a 41-39 win. The victory was a sparkling

come-from-behind effort by the Chiefs and marked one of their best showings of the year. Friona also won the girls game by a 58-36 score.

Sanders, who didn't get into action until the final period, recovered a rebound under his own basket and dropped in a crisp shot. He was fouled and calmly made the charity toss to give the Chiefs a two-point lead.

With one minute and 15 seconds to play, Friona started a ball control game that lasted until 0:10 when Olton took the ball. The Chiefs threw up a full court press that prevented the Mustangs from getting off a shot.

Olton threatened to make the game a runaway in the first period. Employing a fast-break attack, the Mustangs pulled into a 15-7 lead at the first quarter. The visitors had never trailed although baskets by Max Reeve and Gary Snead had tied the score twice at 4-4 and 6-6.

In the second period, the fast break of the Mustangs met with even greater success. The visitors appeared to be headed for an easy victory as they worked the ball in for easy shots with regularity.

The tide began to turn a little past midway of the period, when the Chief defense began to jell with a resulting rash of wild passing by the Mustangs.

Olton had its largest lead of the game when the Friona rally began. Leading 23-11, the Mustangs suddenly found themselves unable to buy a basket. Bobby Daniel hit three quick field goals in succession to make the score 19-23. Snead made a free shot and then scored a long set shot just before intermission and the Chiefs went to the dressing room down by only one point 22-23.

Action was slow after half-time. Friona missed three shots at the basket and Olton was unable to score.

Snead scored from the field to make the score 24-23 but the Mustangs went ahead seconds later 24-25.

A Friona free shot knotted the score at 25-25 before Jim Lillard made a field goal and free shot to give the Chiefs a 28-27 lead. They held that lead until 2:01 of the third period when Olton went ahead 33-32.

Snead scored to make it 34-33 but Olton owned a 35-34 lead seconds later and that was

Greetings from another angle. We feel there is a need for a sports column in The Star, and will try to pen a brief one for each issue. Probably if we miss writing one, not too many readers will miss reading it, but we hope this column will contain some behind the scenes sport talk that you won't get elsewhere or our sports page and you surely won't get on other

the third period count. The Chiefs had to battle back from a five point deficit immediately after play began again, as Olton scored two quick goals. Sanders scored to make it 36-39 and Snead's field goal put the score at 38-39 and set the stage for Sanders three point play that was the margin of victory.

Lillard and Snead led Friona scoring with 11 points each. Lillard collected 25 rebounds.

The Squaws had little difficulty taking the first game. Reserves played all the final period. Quarter scores were 13-6, 28-22 and 48-30.

Su-Zan Harper with 19 and Tommy Lewellen with 17 paced scoring for the Squaws. The games were non-district contests. The Chief victory would be classified as a genuine upset over the highly regarded Mustangs.

Friona Star Sports Page

sports pages. It will deal with local, area, and national sports.

All this basketball season, we have watched with interest the size of crowds that watch the Squaws play and then the one that hangs around to watch the Chiefs play.

By about halftime in the boys game, many of the fans have left. This is understandable since the Chiefs are in a rebuilding period and have lost several games this year by pretty wide margins. This isn't to condemn those who leave early.

But last Friday night, it was different. Those who packed the local gymnasium to watch the Squaws play didn't see the local girls in one of their better efforts. It wasn't the Squaws fault, they just rolled up the score in the first half and coasted the rest of the way. It was about the same pattern used for many Chief games, only in reverse.

Those who stayed for all of the second game, saw one of the best efforts turned in by the Chiefs all season. They came back from a pretty discouraging deficit and pulled out a 41-39 win.

This writer is convinced that the game was indicative of major improvements made dur-

ing this season by the Chiefs under their new coach Vernon Scott.

They are pretty short on experience, or were when the season began. They will lose again, but personally, this department thinks the second half of Friona's basketball double-headers will bet better as time goes by.

CLOVIS See ETHRIDGE-SPRING AGENCY Phone 8811, Friona

Everyone wonders and comments on the popularity of bowling. They ask themselves if it is a fad that will become less popular as time goes by. We don't claim to have the answer, but here's something that might shed some light on the topic. Friona Lanes has been open long enough for some of the newness to be wearing (Continued on page 5)

Deadline Reminder For Federated Club Report

A deadline reminder on 1960-1961 reports from federated clubs in the Caprock District, Texas Federation of Women's Clubs, of the final mailing date of February 13, has been issued by Mrs. A. E. Boyd, Plainview, district president.

Reports are to be sent to each department chairman. Mrs. Dan Ethridge, Friona, is chairman of the Club Program Planning, and Mrs. Ovid Lawlis, Bovina is chairman of Federation Mother of the year.

The first annual convention of the new district will be held in Lamesa on March 28-29.

One thorn of experience is worth a whole wilderness of warning. --James Russell Lowell

The eye of other people are the eyes that ruin us. If all but myself were blind, I should want neither fine clothes, fine houses or fine furniture. --Benjamin Franklin

Party Honors Mrs. Cummings

Mrs. E. H. Cummings was honored with a surprise birthday party in her home Monday afternoon, Feb. 6.

Nut breads and coffee were served by the hostesses, Mrs. Jim Cocannouer and Mrs. Doyle Cummings to the guests.

Attending and sending gifts were Mesdames Paul Smith, M. B. Buchanan, Hardy May, C. A. Guinn, Cap Dennis, Lucy Welch, J. F. Miller, John Renner, John Blackburn, Travis Hancock, Rene Snead, Raymond Fleming, Bill Wooley and Miss Lisa Cummings.

Fun And Fancy Club Met Friday

The Fun and Fancy Club met in the home of Mrs. G. A. Collier Jr. Friday afternoon, Feb. 3.

Mrs. Rudolph Renner Jr. conducted the program on "Decorator's Pillows."

Cake and coffee were served to Mesdames Lee Renner, Billie Dean Baxter, Lloyd Mingus and Gary, Glen Mingus, Rudolph Renner and Micky, Doyce Barnett, Cindy and David, G. A. Collier Jr. and Gregg and one new member Mrs. Marvin Jordan.

"Pictures of Velveteen and Artificial Flowers" will be the program topic at the next meeting in the home of Mrs. Lee Renner.

Maurice Gaede Receives Degree

Maurice Gaede, son of Mr. and Mrs. John Gaede of Friona, has completed requirements for a Bachelor of Science degree in Mechanical Engineering from the University of Missouri School of Mines and Metallurgy at Rolla, Missouri. Gaede was commissioned a 2nd Lt. in the U. S. Army Corps of Engineers on January 21, 1961.

After six months in the army, Maurice and his wife, Darla, will make their home in Anderson, Indiana where he will be employed by the Guide Lamp Division of General Motors.

Chiefs Rout Mustangs Squaws Win By 58-36

Tommy Sanders sank a field goal and free shot in the waning minutes of a nip-and-tuck battle with Olton Friday night to give the Friona Chiefs a 41-39 win. The victory was a sparkling

come-from-behind effort by the Chiefs and marked one of their best showings of the year. Friona also won the girls game by a 58-36 score.

Sanders, who didn't get into action until the final period, recovered a rebound under his own basket and dropped in a crisp shot. He was fouled and calmly made the charity toss to give the Chiefs a two-point lead.

With one minute and 15 seconds to play, Friona started a ball control game that lasted until 0:10 when Olton took the ball. The Chiefs threw up a full court press that prevented the Mustangs from getting off a shot.

Olton threatened to make the game a runaway in the first period. Employing a fast-break attack, the Mustangs pulled into a 15-7 lead at the first quarter. The visitors had never trailed although baskets by Max Reeve and Gary Snead had tied the score twice at 4-4 and 6-6.

In the second period, the fast break of the Mustangs met with even greater success. The visitors appeared to be headed for an easy victory as they worked the ball in for easy shots with regularity.

The tide began to turn a little past midway of the period, when the Chief defense began to jell with a resulting rash of wild passing by the Mustangs.

Olton had its largest lead of the game when the Friona rally began. Leading 23-11, the Mustangs suddenly found themselves unable to buy a basket. Bobby Daniel hit three quick field goals in succession to make the score 19-23. Snead made a free shot and then scored a long set shot just before intermission and the Chiefs went to the dressing room down by only one point 22-23.

Action was slow after half-time. Friona missed three shots at the basket and Olton was unable to score.

Snead scored from the field to make the score 24-23 but the Mustangs went ahead seconds later 24-25.

A Friona free shot knotted the score at 25-25 before Jim Lillard made a field goal and free shot to give the Chiefs a 28-27 lead. They held that lead until 2:01 of the third period when Olton went ahead 33-32.

Snead scored to make it 34-33 but Olton owned a 35-34 lead seconds later and that was

Greetings from another angle. We feel there is a need for a sports column in The Star, and will try to pen a brief one for each issue. Probably if we miss writing one, not too many readers will miss reading it, but we hope this column will contain some behind the scenes sport talk that you won't get elsewhere or our sports page and you surely won't get on other

the third period count. The Chiefs had to battle back from a five point deficit immediately after play began again, as Olton scored two quick goals.

Sanders scored to make it 36-39 and Snead's field goal put the score at 38-39 and set the stage for Sanders three point play that was the margin of victory.

Lillard and Snead led Friona scoring with 11 points each. Lillard collected 25 rebounds.

The Squaws had little difficulty taking the first game. Reserves played all the final period. Quarter scores were 13-6, 28-22 and 48-30.

Su-Zan Harper with 19 and Tommy Lewellen with 17 paced scoring for the Squaws.

The games were non-district contests. The Chief victory would be classified as a genuine upset over the highly regarded Mustangs.

Friona Star Sports Page

sports pages. It will deal with local, area, and national sports.

All this basketball season, we have watched with interest the size of crowds that watch the Squaws play and then the one that hangs around to watch the Chiefs play.

By about halftime in the boys game, many of the fans have left. This is understandable since the Chiefs are in a rebuilding period and have lost several games this year by pretty wide margins. This isn't to condemn those who leave early.

But last Friday night, it was different. Those who packed the local gymnasium to watch the Squaws play didn't see the local girls in one of their better efforts. It wasn't the Squaws fault, they just rolled up the score in the first half and coasted the rest of the way. It was about the same pattern used for many Chief games, only in reverse.

Those who stayed for all of the second game, saw one of the best efforts turned in by the Chiefs all season. They came back from a pretty discouraging deficit and pulled out a 41-39 win.

This writer is convinced that the game was indicative of major improvements made dur-

Everyone wonders and comments on the popularity of bowling. They ask themselves if it is a fad that will become less popular as time goes by. We don't claim to have the answer, but here's something that might shed some light on the topic. Friona Lanes has been open long enough for some of the newness to be wearing (Continued on page 5)

Of Interest To THE WOMEN

MR. AND MRS. HAROLD TAYLOR

Fesser-Taylor Vows Read In Home Ceremony

Miss Judy Fesser became the bride of Harold Taylor Friday, Jan. 27, at 3 p.m. in the home of Mr. and Mrs. Curtis Murphree.

The bride is the daughter of Mrs. George Fesser of Amarillo and the granddaughter of Mrs. A.W. Wood of Friona.

The groom is the son of Mr. and Mrs. Glen Taylor of Friona. Rev. Bill Burton, pastor of the First Baptist Church, read the wedding vows. Miss Nelda Douglas played the traditional wedding march and Miss Suzanne Taylor sang "Because."

For her wedding, the bride chose a ballerina length gown of white Chantilly lace gathered at the waist with a satin cummerbund, and she wore a shoulder length veil. Her bridal bouquet, a white orchid with red rose buds, white streamers and love knots, was arranged on a white lace-covered sible.

For her daughter's wedding, Mrs. Fesser chose a navy knit suit and wore a carnation cor-

sage. Mrs. Wood wore a navy and white silk dress and a pink carnation corsage. Mrs. Taylor, the groom's mother, chose a blue lace dress and her corsage was pink carnations.

Following the ceremony, a reception was held in the Murphree home. Others in the house party were Keith Taylor of W.T., George and Jeannie Fesser of Amarillo, Danny, Joe, Jimmy and Carolyn Murphree, Mrs. Bill Burton and Mr. and Mrs. E.E. Taylor of Friona, grandparents of the groom.

The couple will make their home in Friona. Mrs. Taylor is a Friona High School senior and Harold is employed at the Friona Wheat Growers.

Guests in the home of Mr. and Mrs. I. H. Cummings Sunday were Mr. and Mrs. Wayne Stark, Kenn, Nate and Connie of Hereford, Mr. and Mrs. W. B. Stark and Mrs. Doyle Cummings and children.

Party Honors Laquita Graham

Mrs. Earl Graham honored her daughter, Laquita, who observed her fifth birthday Wednesday of last week, with a party in the family home. Guests were presented favors of paper hats and whistles.

After a game session, refreshments of cold drinks, mints, cake and ice cream were served by the hostess.

Those present were David Sanders, Kent Sims, Debbie and David Smith, Amelia and James Sims, Peggy Drake, Cindy Cason, Pam Veazey, Dickie Shirley, Bobby Drake and Sandy Fulks;

Also Johnny, Joe and Marilyn Jones, Mike and Stevie Pipes, Pat Walden and Earlene Graham;

Also Mesdames Earl Drake, Tommy Jones, Jay Sanders, J.P. Sims, J.V. Fulks, Ralph Shirley and W.H. Sims.

Methodist Church Has Guest Speakers

Misses Peggy and Betty Campbell, daughters of Mr. and Mrs. Tracy Campbell of Lamesa, and nieces of Mrs. J.G. McFarland, were guest speakers at the Methodist Church Sunday, Jan. 5.

Peggy has been headmistress of a girl's school in Africa for the past three years and she presented slides of the school and the surrounding country.

Betty, a Methodist missionary in Cuba for three years, spoke to two adult classes Sunday morning. They also talked to the MYF group Sunday evening.

Before returning to their home, both girls made a tour through Italy, Germany, France and England. At the present time Peggy and Betty are teaching in the Lamesa schools.

Roy Clements and Claude Osborn are at Devil's Lake this week doing some fishing.

Friendship Night Observed At Modern Study Club Meet

The Modern Study Club met Tuesday evening, Feb. 7, observing a Friendship Night. The quotation was "I think that God shall never send a gift so lovely as a friend."

Introduction of the guests and roll call opened the meeting. Mrs. Charles Allen gave the devotional "What is a Friend." Mrs. Howard Ford highlighted her years as club president in the years 1938-40.

Mrs. Roy Miller presented the program, "Thirty Years of Popular Music," using the period from 1920 to 1950, and including a bit of history with some of her music students highlighting certain eras.

Selections included in the program were "Five Foot Two, Eyes of Blue" by the Trebelaires and featuring a Charleston by Karen Turner and Carol Coffey; "When You and I Were Young Maggie Blues" by Carol and Kay Coffey; "My Blue Heaven" sung by a trio composed of Nelda Douglas, Suzanne Taylor and Donna Blackburn; and "I'll See You in my Dreams," Trebelaires;

"On the Good Ship Lollipop," Gay and Holly Welch; "Deep Purple," Trebelaires; "Dixie

Land Blues" by Sharon Awtrey at the piano; "Oh What a Beautiful Morning," Wade Coker; "Sentimental Journey" by Janet Smith, Jere Buske and Nelda Douglas; piano selection "Autumn Leaves" by Larry Anthony; "Alice Blue Gown" by Jan Welch; solo "Some Enchanted Evening," Jere Buske, and closing the program the Trebelaires sang "My Funny Valentine."

Refreshments of spiced tea, nut breads, nuts and valentine mints were served from the table using the valentine theme and silver service by the hostesses Mrs. Wesley Foster, Mrs. J.T. Gee and Mrs. Grady Dodd.

Twenty members were present and the following guests: Mesdames Joe Douglas, M.C. Osborn, Hazel Kendrick, Newman Jarrell Jr., Louis Welch, Leonard Coffey, B.W. Turner, Bob Coker, John Burrow, Herschel Johnson, Danny Bainum, Jack Moseley, David Moseley, Lucy Vestal, A.A. Crow and W.W. Burns from Des Moines, Iowa.

Also Suzanne Taylor, Kay Johnson, Janet Smith, LaVoyce Burrow, Nelda Douglas, Jere

Mrs. Kendrick Is Circle Hostess

Regular meeting of the Maggie Hamlin Circle of the Women's Society of Christian Service met in the home of Mrs. Hazel Kendrick Wednesday, Jan. 25 at 9 a. m., with eleven members present.

Mrs. Meryle Massie conducted the meeting. Opening prayer was given by Mrs. I. T. Graves.

A "thank-you" letter from a small church in Ringold, Tex., was read by Mrs. Massie, acknowledging a gift of literature and cash donation from the Maggie Hamlin Circle. Mrs. Jean Anthony gave a report on the Migrant Center at Hereford. The lesson "One World, One Mission" was presented by Mrs. James Boyle, assisted by Mrs. Frank Spring, Mrs. Anthony, Mrs. Massie, Mrs. Ralph Shelton and Mrs. Kenyth Cass.

Others present were Mrs. Andy Hurst, Mrs. Estis Bass and A. W. Anthony.

Buske, Judy Taylor, Beth Akens, Sharon Reeve, Carol Coffey, Karen Turner, Donna Blackburn, Kay Coffey, Sharon Awtrey, Gay, Holly and Jan Welch, Carol Reeve, Larry Anthony and Wade Coker.

Eyes On Sports--

since the establishment opened in May of 1960. Track season is here, and I've noticed some athletes working out up at school on the few decent days we have had recently. We plan to investigate the track situation at Friona High School and will pass along our findings as soon as the basketball season is over.

Pioneering Electronically IN SPACE---IN BANKING

Many of the same electronic techniques and the professional know-how that produced a "brain" to pilot Atlas into orbit have been used by Burroughs Corporation for civilian banking developments as well. From this background of skill are coming the new machines that will make up our completely integrated system of electronic banking. Soon your account at Friona State Bank will be processed on machines that literally "read" and "write" electronically while recording all of your transactions with a minimum of human assistance. We're proud to be the first in the county to pioneer in placing this Burroughs watchman on guard over your account. It extends to you all of the speed, safeguards and accuracy made possible by the wonders of electronics.

First Cousin To An Atlas Brain

Now on display in our lobby--the new Burroughs Sensitronic--using the latest developments in magnetics--teamed with the new electronic coding imprinter.

Mrs. Weatherly Honored With A Lullaby Shower

The home of Mrs. Mae Magness was the scene of a lullaby shower honoring Mrs. Philip Weatherly Saturday, Feb. 4 from 2 to 4 p. m. Mrs. Weatherly and her mother, Mrs. G. B. Buske, and mother-in-law, Mrs. Clyde Weatherly were presented corsages of rosebuds fashioned of pink, blue and white baby socks. A white taffeta cloth covered the serving table and the centerpiece was a cake made in the shape of a baby bootie iced with pink and blue icing. Squares of cake, decorated with miniature booties, coffee and tea were served from a silver service. Attending and sending gifts were Mesdames Doris Buske, Fern Barnett, Noyle Wood, Paul Fortenberry, Leon Massey, Larry Fairchild, Dale Williams, Jimmy Castleberry, Kenyth Cass, Ralph Shelton, J. H. Boyle, Roy Clements, Myrtle Crow, L. M. Crow, Jerry London, Calvin Talley, J. F. Buske, Florence Buske, Donnie Waller and C. W. Tannahill. Also Mesdames Curtis

Howard Eustace Born January 28

Mr. and Mrs. Eddie Eustace became parents of a baby boy at Castro County Memorial at Dimmitt at 12:12 p. m., Saturday, January 28. He weighed 6 lbs. 10 ozs. and was named Howard Brit. He is the first child for the couple and is the grandson of Mr. and Mrs. Kenneth O'Brian of Friona, John B. Eustace of Charleston, S. C., and Mrs. C. H. Medlock of Williamsburg, Va.

Janye Beall Is Party Honoree

Janye Beall was honored at a surprise party on her 16th birthday Monday, Feb. 6 in the home of Mayor and Mrs. Raymond Fleming. Sandwiches, cold drinks, valentine mints and birthday cake were served to Pat Barker, Martha Knight, Mikie Welch and Janye. Great-grandmothers are Mrs. T. A. O'Brian Sr. of Friona; Mr. and Mrs. C. A. Hogue of Mt. Vernon, Ark.; and Mrs. E. F. Meyer of Williamsburg, Va. Mrs. Eustace is the former LoLeta O'Brian. Mr. and Mrs. Tracy Campbell and family of Lamesa were weekend guests of Mr. and Mrs. J.G. McFarland. Tracy is a brother of Mrs. McFarland.

Mrs. White Hosts Mary Dorcas Class

The Mary Dorcas Sunday School Class of the First Baptist Church met in the home of Mrs. Ida May White Saturday, Feb. 4, for the monthly meeting. Mrs. White read the first chapter of Genesis for the devotional, and a prayer was said by Mrs. Beulah Massey. Cake, ice cream, apple pie, coffee and lemonade were served to the guests. Attending were Mesdames Florence Day, Beulah Massey, Sarah Vernon, Alpha Baker, Julia Lloyd, Rosa Anderson and Leona Wolfe.

Sunshine Class Met In Vestal Home

The Sunshine Class of the Methodist Church met in the home of Mrs. C.L. Vestal Sr. Thursday, Feb. 2. Mrs. David Moseley, president, conducted the business meeting. A prayer service was held for the success of the coming revival.

Mr. Grain Producer :

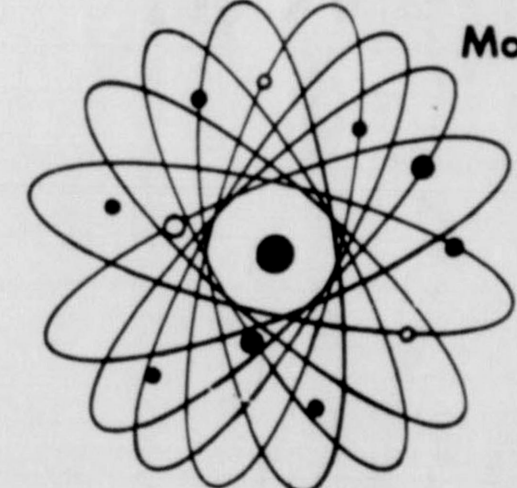

We are now interested in contracting a limited number of acres to farmers to grow Texioca Sorghum for us. This year we will have Hybrid Texioca-54 Seed for this area. Last year we had only open pollinated seed and yields were good in this area. This year we will have both open pollinated & hybrid. We will contract with you the Texioca Grain you bring in at 15 cents per hundred over the price of the 1961 Parmer County farm stored Loan rate. As yet the loan price has not been set but expect the announcement to be made in early part of March. Come by the office and let us explain more fully the Texioca Sorghum program for 1961.

Yours truly,

Continental Grain Company

Electric Display Will Stop Here

Two giant colorful trailers of Southwestern Public Service Co.'s Electric Caravan especially designed to demonstrate the latest in electric heating, electric commercial cooking equipment and modern

lighting will be set up south-side of City Park in Friona for all to visit next Thursday.

Hank Outland, local representative pointed out that the equipment in the two trailers will actually be operating, making it possible for interested persons to see exactly what each piece of equipment will do.

Altogether the two trailers carry 65 separate and different pieces of electric equipment suitable for installation in homes or businesses. Heretofore, any one interested in store modernization, heating or commercial cooking would be mostly confined to viewing pictures in a catalog. Now with the Electric Caravan, the equipment is on the spot for personal demonstration and explanation.

Vern's Views--

Have you heard, Vern's Views can no longer dwell on political subjects since the "Republican" slants of said column make some of the proofreaders burn so that it has created a fire hazard in the back shop?

One of the most educational places I have ever been in is a small town barber shop.

There is no other place in the world, where a working man who doesn't get to loaf much can engage in wholesome cussing and discussing of everything from loco weed to international politics.

Some of those fellows who make a hobby of barbershop talking can pick up the thread of almost any topic and expound fairly intelligently for as long as they deem necessary.

Last time I was in for a trim, the conversation did go all the way from loco weed and what it did to horses, to what a mistake it was for Roosevelt to trust Stalin.

And as I sat there and listened to the fellows talking about how writers ought to give the new administration a chance before they condemn it, I got to thinking what a valuable freedom we have in being able to talk about anything we want to while getting the hair cut.

If anyone wants to say something very biased or very radical in one of those conversations, he isn't quoted a long line of statistics to prove he is wrong, and best of all, he isn't carted away to jail for criticizing the government.

Couple Marry In Home Ceremony

Mr. and Mrs. O. W. Stapp of Alanreed have announced the engagement and approaching marriage of their daughter, Wanda Beth, to James Paul Averett, son of Mr. and Mrs. B. R. Averett of Friona.

Wedding vows will be solemnized Feb. 12 in the home of the bride-elect's parents.

Has-Beens Clash--

Burnett, Virgil Phipps, James Briggs, Clyde Woodard, Walter Haws and Gaylon Rhodes.

Lions have conducted three practice sessions to date, while Jaycee strategy calls for workouts to begin and end tonight. Tip-off time for the first game will be 7:30, with the second game to start immediately afterward.

THE KING AND QUEEN OF HEARTS--Theme of a skit presented by members of the four second grade classes Friday was a valentine party at which the king and queen of hearts were hosts. Mesdames Troy Ray, T.E. Lovett, Otho Whitefield and George Treider, teachers of the four sections of the second grade, were assisted by Mrs. Frankie Fortune, elementary school music teacher. Pictured are Gary Fallwell, Esther Smith, Kay Cole, John Hoover and James Weatherly in the foreground and other members of the cast in the background.

Brownie Troop 105 Has Fly Up Ceremony Monday

At an impressive fly-up ceremony Monday, Feb. 6, at 4:20 p. m. members of Brownie Troop 105 were invested as Intermediate Girl Scouts in the auditorium of the Congregational Church.

The investiture was opened with the flag ceremony. Participating were Deloris Phipps, caller; Vickie Payne, bearer of the United States flag; Pamela Turner, bearer of the Girl Scout flag and Patricia Roberts, Lark Jarrell, Mary Ellen Scales and Shirley Johnson, color guards.

Centering the stage was a rustic bridge and each Brownie crossed over the bridge as Mrs. Cass Perkins, scout leader, called her name and Mrs. Billie Dean Baxter pinned on her wings.

A lighted candle representing the spirit of the laws was carried by Janie Lane and each scout lit a candle and repeated a law, followed by the slogan, motto and promise.

Mrs. Russel O'Brian, neighborhood chairman, pinned the Girl Scout pin on the following girls: Vickie Payne, Janie Lane, Shirley Johnson, Janice Clark, Debra Baxter,

Connie Whaley, Carolyn Camp, Brenda Blackburn, Mary Ellen Scales, Lark Jarrell, Patricia Roberts, Bennie Hannold, Barbara Latham, Kathy Bandy, Rhonda Awtrey, Doris Ferguson, Pam Turner, Darla Perkins and Deloris Phipps. Mrs. Bill Bandy, troop leader, welcomed the mothers and friends of the troop. The group was dismissed with the singing of "Taps" and the "Girl Scout Prayer."

LYDIA CLASS HAD SOCIAL

The Lydia Class of the First Baptist Baptist Church had a social Monday evening, Feb. 6.

Sponsors, Mrs. Junior Renner and Mrs. Ed Hicks, drove the group to Clovis where they ate supper at the El Monterey and attended the show. Attending were Patricia Fallwell, Iva Ben Parr, La Voyce Burrow and Cordelia Parr.

First Graders Write Stories

The first graders, taught by Mrs. Guy Lemmond, were requested to write a story about a chimpanzee they had read about in the Weekly Reader. Mrs. Lemmond thought the students did an excellent job, and below are two of the stories.

"Ham is a chimpanzee. He went up in space. He weighed 37 1/4. He went up in a rocket. He is funny. He is good and funny. He went into space." Written by Carleen Kay Schlenker.

"The Chimpanzee. Chimpanzee is good. Space is terrible. In space it is no good. You can not go. And it is terrible. Ham weighed 37 1/4 pounds. It can be terrible." Written by Stevie Baxter.

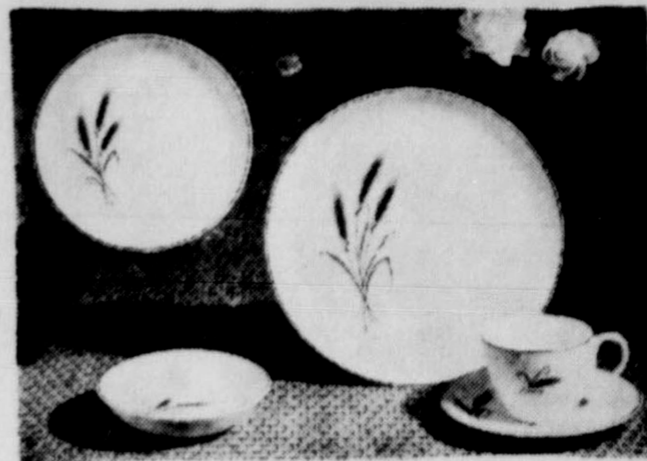

Mr. and Mrs. Owen Houston and Robin of Canyon visited in the home of their parents, Mr. and Mrs. J. T. Gee and Mr. and Mrs. T. L. Houston last weekend.

Elder And Hukill Host H.D. Club

Mrs. M.M. Elder and Mrs. T.M. Hukill were hostesses to the Hub Home Demonstration Club for an all day meeting that was held Thursday, Feb. 2, at the community center. A Dresden painting demonstration was given by Mrs.

Yurchex of Plainview. Sack lunches, cake, coffee and cold drinks were served at noon. Members attending were Mesdames John Renner, A.L. Black, Albert Cannon, T.I. Burleson, W.E. Stringer, John Hand, Flake Thurman, Woody Fleming, W.H. Long, Jack Shirley, Jack Tomlin. Guests were Mesdames Bobby Elder, Bill Baxter, A.B. Kent, Don Littlefield and Olan Turner.

NOW

Is The Time To Top-Dress Wheat

Easiest way yet to top-dress:

SPENCER URA-GREEN NITROGEN SOLUTIONS

You get many benefits by top-dressing your small grains with nitrogen in the fall. Fall application helps plants develop strong, heavy root structures for protection against winter kill. You'll also get thicker, healthier top growth. And, by top-dressing now you have one less job to do next spring.

You get many advantages, too, when you top-dress with Spencer URA-GREEN Nitrogen Solutions. It's the easiest way yet to apply nitrogen. There are no bags to lift and no special pressure tanks are

needed because it is a non-pressure solution. URA-GREEN goes on faster because there are fewer stops for refilling. URA-GREEN users report up to \$9.00 extra profit per acre from wheat . . . a return of \$3 or more for every dollar invested in URA-GREEN for oats. Profits like these can be yours!

So don't wait . . . top-dress your wheat and other small grains this fall with Spencer URA-GREEN Nitrogen Solutions. We'll be glad to help you select the type and rate that's best for your soil.

THE BALL'S THE THING--Two Tulia forwards contested Sandra Hoover for this loose ball, but Friona maintained possession. Jimmette McLean offers moral support.

in and around FRIONA WITH JUNE

Some changes are being made up and down the street in Friona. Mrs. Lucy Jones moved from the American Legion Building to the Dean Bingham Building on the highway. She is connected with the Friona Texas Federal Credit Union, Chamber of Commerce and Retail Merchant's Association.

Office space formerly occupied by these three organizations is now being used by Bob Crozier and Bill Liston of the Soil Conservation Service. Apparently Jay Sanders has become attached to the office he occupies. After having been in it 12 years he chose to stay rather than move into new quarters.

New owners of the snack bar at the bowling alley are Mr. and Mrs. J.B. Taylor and Mr. and Mrs. Ancel Renner. Mrs. Taylor and Mrs. Renner are supervising management of the business. Formerly called the Honeysuckle Room, it is now the T & R Snack Bar.

Mrs. Lillian Scott is the

co-owner and manager of the Golden Spread Restaurant. Bill and Carolyn Raney are still in town and according to the grapevine they are going to do at least a dozen different things. Mr. and Mrs. Douglas Connelly are moving into the house next door to Grady and Billie Dodd in the northwest part of town. There must be something magic about the Fred Carson rent house on Euclid Avenue. After occupying it for several years, Grady and Billie moved into their new home.

The Doug Connellys moved into the Carson house and now they're moving into a new house. Surely the Carsons will not have any trouble renting that particular house.

The birth of Howard Brit Eustace at Dimmitt late last month made five great-grandchildren for Mrs. T.A. O'Brian of the Lakeview Community. She has eight granddaughters and only three grandsons. However, in the great-grandchild department, the trend has definitely changed. Howard Brit makes the fifth great-grandchild and the fifth great-grandson.

Nothing is easier than fault-finding; no talent, no self-denial, no brains, no character are required to set up in the grumbling business.--Robert West.

Recently our misspelling of

doesn't seem like nearly such a big blunder after reading it in the Amarillo paper spelled l-n-c-o-n-o-c-l-a-s-s-t, which is exactly like it came out in the Star.

Mrs. Pearl Kinsley's recent gift of two lots to the Girl Scouts for the purpose of erecting a permanent building is one of the nicest things that has happened to Girl Scouting in Friona in a long time.

Plans are being made for a building and some have already indicated a desire to have a part in this project. Any money you want to donate for this purpose can be deposited at the Friona State Bank, given to Mrs. Russel O'Brian, neighborhood chairman, Mrs. James McLean, or left at the Star office.

Several men have agreed to donate labor for the construction and materials will be secured from local businessmen at a nominal cost. Anything you can do will be deeply appreciated by the Girl Scouts and their leaders.

For further details concerning this project, call MRS. O'Brian at Hub 2138 or Mrs. Jim McLean at 3011.

Mr. and Mrs. Frank Spring returned Sunday from Dallas where they attended a basketball tournament in which their son, Frank L., participated. He is attending school at St. Stephens in Austin.

They were accompanied by Mr. and Mrs. Terrell Christian of Claude.

Frionan Makes Honor Roll

Included on the dean's honor roll at Southwestern State College at Weatherford, Okla., for the semester which ended Jan. 20, was the name of Jon Mack Roden of Friona. Students with 3.0 or better grade averages in all courses are cited for this honor.

Roden, a 1959 graduate of Friona High School and sophomore at the Oklahoma school, is the son of Mr. and Mrs. Ralph Roden.

Something To Think About

6th. Street Church of Christ Box 515 -- Friona, Texas

The church is a feeding-place of the soul. It is a place of fellowship, overcoming the perils of loneliness. It is a place of spiritual reminder, refreshing the spiritual needs of the soul. It is a place where hearts are warmed, where the bond of friendship is made stronger, where the cares of the world are forgotten, where the soul loses itself in the eternal God. It is a dynamo of new power. More than that, the church is the body of Christ. "And hath put all things under his feet, and gave him to be head over all things to the church, which is his body..." (Eph. 1:22-23)

The church is the bride of Christ. "Wherefore, my brethren, ye also are become dead to the law by the body of Christ; that ye should be married to another, even to him who is raised from the dead, that we should bring forth fruit unto God." (Rom. 7:4) and all spiritual blessings are in Christ, "who hath blessed us with all spiritual blessings in heavenly places in Christ." (Eph. 1:3) If the church is the body of Christ, if it is his bride, and if all spiritual blessings are found in him, then the church is vitally important. More than that, it is necessary to the salvation of the souls of men. If the church is important, then the manner by which we become a part of the church is important. In this connection Paul states in Rom. 6:3-4 that we are baptized into Christ, thus baptism is necessary to salvation. To question this is to question Christ for he said, "... he that believeth and is baptized shall be saved." (Mark 16:15-16)

come to church sunday

"But a Samaritan, as he journeyed, came to where he was; and when he saw him, he had compassion." Luke 10:33
 "How is it that you, a Jew, ask a drink of me, a woman of Samaria?" John 4:9

Too often we think that the meaning of brotherhood is found only in giving. It is interesting to notice the way that the New Testament arrives at the answer to the problem. Two times it describes situations in which the Jew is forced to receive help from his lowly brother, the Samaritan. In the more familiar story of the Good Samaritan, it was a man who had fallen among robbers. In the second account, it was Jesus himself who asked aid from a Samaritan woman. The lesson here seems to be one of humility and evidently this is where we must begin when we talk about brotherhood. We must be able to receive as well as to give, and to give with the humility that it takes to receive. Two persons cannot be true brothers if one does all the giving and the other does all the taking.

"No one could tell me where my soul might be. I sought for God, but God eluded me. I sought my Brother out, and found all three."

COTTON LEADS, ACCOUNTING FOR 17% OF FARM CASH CROPS.

No sah, the street cleaners ain't the only ones in the gutter these days.

You don't have to be liable to be sued!

The purpose of a law suit is to determine whether you are liable. Should you carry insurance, you don't have to hire a lawyer to plead your case. You don't have to spend a lot of time collecting evidence and hunting witnesses. Our adjuster finds out what happened and not only collects evidence but gathers the facts and prepares them for later use. When your case requires legal handling, the adjuster pays for the lawyer, court costs, and legal fees. He does all this even though you are not to blame and there is no merit to the suit against you. If you lose your case, our adjuster takes care of all expenses (up to the amount of your policy limits) including settlements or judgments, medical bills, death benefits, and repair of property. Don't forget it sometimes takes several years to settle a claim.

AND

Farmer: "Do you see that wood pile out there?"
Hobo: "Uh-huh, I guess so."
Farmer: "Well, I want you to saw it."
Hobo: "Mister, you saw me see it, but you sure aren't gonna see me saw it!"

When you ask these questions:

- My tractor turns over and injures one of my farm hands. Will this insurance pay the bill?
- I go hunting and accidentally injure someone. Will this insurance pay the other fellow's hospital or medical bills?
- My bull breaks through the fence and causes an automobile accident on the road. Will this insurance protect me in case of a law suit?
- An uncle, who is visiting my ranch, injures himself while helping to survey the property. Will this policy cover his medical expenses?
- My wife visits a friend and by accident breaks a fine china plate. Will this insurance cover the replacement?
- When a saw breaks and cuts through an employee's hand, will the policy pay the medical bills?
- My cattle get into the neighbor's fields and destroy a portion of his crops. Will I be protected against damage charges?
- If a scaffold breaks and a life is lost, will this policy pay death benefits?

W.R. Minter Funeral Saturday

Funeral services for W. R. Minter, 85, were conducted Saturday afternoon in First Baptist Church of Bovina. Mr. Minter died Thursday in Parmer County Community Hospital in Friona. Rev. John Ferguson, pastor of the church, officiated at the service. Mr. Minter was born March 10, 1875 in Arkansas. He married Emma Josephine Jones in 1916 at Frederick, Okla. He was a farmer here for many years. Survivors include his wife; four sons, Bud and Alfred of Crockett; Dick of Mineral Wells; and Henry of Bovina; one daughter, Mrs. Emily Glickman of West Orange, N. J.; three brothers, Uke and John of Crockett and Doc of Port Arthur; and a sister, Carrie, of Bartlett. Burial was in Bovina Cemetery with Claborn Funeral Home, Friona, in charge of arrangements.

Black News

BY MRS. DELTON LEWELLEN

BRIDAL SHOWER

A bridal shower was given in honor of Mrs. Teddy Fangman on Friday, February 3, in the home of Mrs. J. R. Braxton at Black.

Mrs. George Schulte of Hereford, mother of the bride, and Mrs. Helen Fangman, mother of the groom, were presented corsages of blue carnations with miniature bride and groom decorations. The bride's corsage was also a blue carnation with miniature bride, groom, wedding bells and wedding rings.

The serving table was centered with blue carnations and white fern. Circling the bouquet were miniature brides and grooms.

Nut bread, mints, nuts, coffee and spiced tea were served by the hostesses Mrs. J. R. Braxton, Mrs. Dick Rockey, Mrs. Roscoe Ivie, Mrs. Otey Hinds and Mrs. Delton Lewellen.

Those attending and sending gifts were Mesdames John Bengner, W. V. Elmore, Bill Buchanan, Glenn Roberson, Clyde Hays, Coy Patton, Lloyd Prewett, T. J. Presley, Woodrow Whitaker, T. A. Sherley, Neal Cearly, Thomas Lewellen, J. T. Gee, R. E. Barnett, A. L. Reznik and Mrs. L. L. Deaton.

Also Mesdames Ellis Tatum, Orval Blake, Travis Stone, Bill Carthel, Leonard Coffey, Carl Maurer, O. F. Lange, H. H. Elmore, Buryl Fish, Claude Osborn, Bruce Parr, Gene Welch, Hop Lewis and Joan, Mildred Rule, Lillie Taylor, Bill Flippin, Fern Barnett and Judy, Joe Lewellen, Miss Virginia Patton, Donna and Pamela Lewellen, and Ray White.

HOME DEMONSTRATION CLUB

The Black Home Demonstration Club met Thursday, February 2, in the home of Mrs. Bill Carthel.

A business meeting was held that consisted of reaping and approving recommendations submitted from council.

An educational demonstration on materials and finishes was given by our home demonstration agent, Miss Ettie Musil of Farwell.

Refreshments were served to Mesdames Fern Barnett, Helen Fangman, Ellis Tatum, Les Gibson, Clyde Hays, Lloyd

Prewett, H. H. Elmore, Ralph Price, T. J. Presley, Dick Rocky and J. R. Braxton.

Mesdames Buryl Fish and boys, Delton Lewellen and girls, Gene Welch and daughters, Miss Musil and a guest, Mrs. J. V. McCabe of Dawn.

Mr. and Mrs. Harvey Shapley of Amarillo visited in the home of Mr. and Mrs. Delton Lewellen and girls Sunday and Monday.

Mr. and Mrs. T. A. Kelley and girls of Plainview were over night guests in the home of Mr. and Mrs. Tom Lewellen Saturday night.

Mr. and Mrs. I. D. Grimsley of Olton visited in the home of Mr. and Mrs. David Grimsley and family one day last week.

A birthday supper and 42 party was given at the home of Mr. and Mrs. Gene Welch honoring Mrs. Harland Frye and Gene Welch.

Those who attended were Mr. and Mrs. George Frye and Kimberly, Mr. and Mrs. Bill Carthel and family, Mr. and Mrs. Travis Stone and family, and Mr. and Mrs. Harland Frye.

Mr. and Mrs. Travis Stone and family and Mr. and Mrs. Charles Meyers enjoyed bowling in Amarillo on Saturday.

Mr. and Mrs. Fern Barnett moved their daughter Betty to Lubbock this last week where she is enrolled in the Jesse

Lee Beauty School.

A 42 Party was held in the home of Mr. and Mrs. Bill Carthel on Saturday. Those present were Mr. and Mrs. Travis Stone and family, Mr. and Mrs. Gene Welch and family, Mr. and Mrs. Les Gibson and family and Mr. and Mrs. George Frye and family.

Mr. and Mrs. Glenn Welch and daughter of Lockney visited Tuesday and Wednesday in the home of Mr. and Mrs. Gene Welch and family. Mr. and Mrs. F. B. Harkins and Mr. and Mrs. Earl Harkins of Hereford were Thursday night supper guests in the Welch home.

Ira Bruce Parr was home from college this last weekend. Mr. and Mrs. Bruce Parr and Mr. and Mrs. Charles Baldwin of Friona attended a banquet at the First Baptist Church in Amarillo Saturday night.

Mr. and Mrs. Roscoe Ivie returned last Thursday from Archer City, Texas where they attended a funeral. They also visited their son, Mr. and Mrs. Calvin Ivie and family in Ft. Worth, Texas.

Mr. and Mrs. Sloan Osborn spent several days in Austin visiting with Mr. and Mrs. Jesse Osborn, Mr. and Mrs. Joe Osborn and William, and Sally, their daughter.

DOMINATE BOARDS--Friona guards Jimette McClain (54) AND Eleanor Dodson (53) appear to have a good chance of pulling in the rebound since they have worked into best positions. Note how the two opposing players are blocked from under the basket.

White Thinks Credit, Cotton Outlook Better

An immediate attack on the vital short range operating credit problem for farmers, along with a more favorable prospect for cotton producers, are the two major developments of the new Kennedy-Johnson administration anticipated for the near future by Texas Agriculture Commissioner John C. White.

References with Secretary of Agriculture Orville L. Freeman and renegotiation of Federal-State cooperation agreements, Commissioner White found the attitude of the new agricultural team in Washington both realistic and enthusiastic.

White, "that Secretary Freeman and his assistants are demonstrating a profound sense of obligation to agriculture. They are sincere in their determination to help the family-size farmer to maintain a reasonable standard of living and to stand on his own feet."

The HAPPY HOMEMAKER

BY JUNE FLOYD

Any wintertime noon or evening meal is improved by the addition of hot yeast bread or sweet rolls. Cinnamon rolls are a favorite of a lot of people, but some prefer other sweet rolls or breads.

This week we plan to give you a recipe for a bread that is so good you'll be tempted to make it often. Served warm with a hearty meat, fish or chicken salad and you will have a satisfying lunch or supper. It is simple to make and the only hitch is that it isn't one of those "hurry-up" dishes. You have to allow time for it to rise as you must with any yeast bread.

APPLE CHEESE HOT BREAD
1 package dry yeast
1/4 cup lukewarm water
3/4 cup milk
2 tablespoons butter
2 tablespoons sugar
1 teaspoon salt
2 1/4 cups sifted all-purpose flour
2 1/2 cups (1 can) sliced apples

1/3 cup brown sugar
1 teaspoon cinnamon
1/2 teaspoon nutmeg
1/2 teaspoon cloves
2 cups shredded sharp Cheddar cheese
1 egg
1/4 cup milk
2 tablespoons poppy seeds
Dissolve yeast in lukewarm water. Scald 3/4 cup milk; add butter, sugar and salt. Stir until butter is melted. Cool to lukewarm; add yeast. Add to flour and mix to a dough. Knead on floured board about 3-4 minutes. Place in greased bowl; cover.

Let rise in warm place until double in bulk. Combine apples, brown sugar, cinnamon, nutmeg and cloves. Simmer 5-8 minutes until most of the liquid has evaporated. Cool. Carefully spoon over dough. Sprinkle with cheese. Beat egg; add 1/4 cup milk. Spoon over cheese. Sprinkle with poppy seeds. Bake in hot oven 400 degrees.

Secretary Freeman, the Texas commissioner reported, is showing determination "to use every ounce of his strength to use the abundance of American agricultural production to help America and the free world. The basis of his outlook is a recognition of the need for farmers to receive a fair return from their investment and their labor, on the same level as any other type of industry or business."

Basic Research Needed On Soils, Water

Basic research is needed to develop new knowledge of the mineral nutrition of plants, behavior of water on agricultural watersheds, and new principles of rangeland soil management, said the USDA's Soils, Water and Fertilizer Research Advisory Committee at their annual meeting held recently in Weslaco.

In making their recommendations, the committee said that understanding of the mineral nutrition of plants, particularly the complex processes taking place between roots and soil, is essential for future soil management studies as well as for national conservation programs.

Research on how precipitation runoff in agricultural watershed is affected by soils, land use, conservation practices and watershed features is another need cited by the committee.

Other areas which the committee said need expanded research include rangeland soil management, forest and related watershed management, irrigation water conservation, and accurate erosion prediction.

W. Lewis David of Corsicana is a member of the committee, which was established under the Research and Marketing Act of 1945. The committee's detailed recommendations for research will be submitted to the USDA within the next few weeks.

Research work done in Tockmorton county by the Texas Agricultural Experiment Station showed that evaporation retardation by chemical means offers a promising method of conserving surface-stored water.

6/ All grain yields based on shelled grain at 14 percent moisture.

Slight Farm Income Decline

In 1960 estimated farm cash income for Texas farmers and ranchers amounted to \$2,209,219,000, down 3.2% from 1959. Income from livestock was up 2.7%, but this was not enough to offset the 7.6% decrease in income from all crops. 1960 income from all crops amounted to \$1.2 billion, while income from livestock totaled \$1.0 billion.

The increase in farm cash income for livestock is principally the result of 24% heavier marketings of cattle in 1960 over 1959. Average prices for cattle were down about 16%, but the heavier marketings more than offset the price decrease, and the net result was that Texas cattle producers received \$534,634,000 for their stock, a 4.6% increase over the previous year.

The decrease in farm cash income for crops may be partially attributed to the decreased income for cotton and cottonseed. In 1959 cotton and cottonseed accounted for approximately 57% of farm cash income for crops, but in 1960 this figure had dropped to about 52%. For cotton, farmers received 15.9% less for their smaller crop with lower prices in 1960 than they did in 1959. Farm cash income for cottonseed was 15.3% less in 1960 than in 1959.

Not all of the decrease in income for cotton and cottonseed can be attributed to lower prices, however. Part of the 1958 crop was not harvested until 1959. Almost all of the 1959 crop was harvested in that calendar year, but the 1960 crop was not all harvested during the calendar year. As a result there was a change in the marketing pattern which made the year 1960 not quite comparable to some of the other years. Actually, the smaller crop, lower prices, and the shifting marketing pattern were all contributing factors to decreased farm cash income for the cotton crop.

Cattle Population Moves

A marked shift occurred in the Texas cattle population between the 1954 and 1959 U.S. Agricultural Census. Figures just now being released from the 1959 census show some areas in the Lone Star State have more cattle than five years previously, and some have fewer. More often, however there was considerable variation within an area with some counties showing decided increases and neighboring counties showing definite losses.

The cattle population of Texas was 8,507,658 when the 1959 agricultural census was taken in the fall of that year. This compares with a count of 8,235,535 in the census of 1954. Historical records show that Texas had an all-time high of 9,800,000 cattle in 1891 and dropped to a low of just under 6,000,000 on Jan. 1, 1928. USDA will report the number of cattle on hand on Jan. 1, 1961, the middle of this month.

The 1959 census showed that a 31-county area in far East Texas had a loss of approximately 10 per cent in total cattle population between 1954 and 1959. However, the census does not differentiate between dairy and beef cattle, and much of this decrease may have been in dairy type cattle. Milk cow numbers in this area decreased 30 per cent during the five-year period.

Achievement Program Saturday Night

GOLD STAR BOY of the Parmer County 4-H clubs this year is Steven Young. He will receive the award Saturday night at Oklahoma Lane during the Parmer County 4-H achievement program. The award is presented yearly by the Texas Agricultural Extension Service and goes to the outstanding 4-H boy in the county. Leadership, projects and a boy's overall work in 4-H are taken into consideration in determining the recipient of the award.

The annual Parmer County 4-H Achievement Program will be held Saturday evening, February 11 at 7:30 in the Oklahoma Community Center. Twenty-one 4-H Club boys and 25 4-H Club girls will receive awards medals for their 1960 4-H projects and activities.

Loyde Brewer, county judge, will present the awards to these 4-H members along with 88 other 4-H Club boys and girls who will receive year pins for having completed their 4-H pro-

grams last year. Before each 4-H boy and girl is eligible to receive the awards medals and pins he or she must have turned in a record book, presented a demonstration or showed his or her project at a show, have completed the project, and be active in the programs.

A movie, "Unclaimed Frontier" will be shown along with slides of local 4-H Club activities of local 4-H Club boys and girls.

County Extension Agents,

Ettie Musil and Joe W. Jones, have stated that parents, friends, and all 4-H Club boys and girls in the county are invited. Refreshments will be served following the awards program.

Boys and girls who will receive awards medals are the following: Agricultural--Tommy Tatum, Richard Chitwood, Gerald Foster, Loyd Bradshaw. Soil and Water Conservation--Terry Parham.

Beautification of Home Grounds--Bruce Billingsley. Beef--Buddy Embry, Bobby Redwine, Eddie Wood, Steven Young, Charles Shulk. Clothing--Carolyn Lindop, Judy Koelzer, Susan Carmichael, Terri Sue Mabry. Dairy Foods Demonstration--Judy Billingsley, Linda Phillips, Donna Kay Rundell.

Dress Revue--Marsella Mayfield, Patricia Tannahill, Belinda Mabry.

Electric--Linda Gleason, Marianna Gammon, Sherri Tannahill, Karene Milner.

Field Crops--Bruce Little, Jerry Cass, Larry Johnson, Kirby Burch.

Food Preparation--Becky Wilson, Carolyn Annear, Judy Shirley, Darla Howell.

Home Economics--Janis Billingsley, Kara Beth Sides, Cathy Wilson, Phyllis Christian.

Home Improvement--Patsy Chitwood.

Leadership--Cooper Young.

Safety--Linda Monk, Katie Blackstone.

Swine--Bobby Gleason, Timmy Foster, Ronald Mayfield, Larry Gregory.

Tractor--Gary Foster. Gold Star Boy--Steven Young.

The SCS now has the office previously occupied by the Chamber of Commerce and Credit Union. We were all very glad to get the additional office space, but regretted to lose our very good neighbor and friend, Mrs. Lucy Jones, who now occupies an office in the Dean Bingham Building.

Robert Crozier and Bill Linton now occupy the new office and Jay Sanders chose to remain in the same office that he has occupied for the past 12 years.

You can now visit the SCS office either through the back door, used for many years, or the front door. The staff would be glad for you to drop in and let them give you any assistance you need or just drop in to visit with us. For those of you who haven't visited with the SCS office before, it is located in the American Legion Building at Friona.

A small boy of one year will be able to look about our nation when he is 16 and see almost unbelievable changes. Among some of these changes will be: tens of thousands of miles of new highways; our school facilities doubled; 20 million new homes; 20% of existing homes re-built; 2 1/2 times more oil; 60% more lumber and today's pulpwood production doubled; 55% more metal ores; double our present hospital facilities; triple our electric power; almost double our present water supply and soil conservation on 1,159,000,000 acres.

Are you doing your part to bring about these necessary changes? We, at SCS, would be glad to try and help you with the last item mentioned above. Call us or drop us a card and we will be out to see you and give you what assistance we can.

HD Agent's Gossip

BY MISS ETTIE MUSIL

Do you find yourself going, going, and almost meeting yourself coming back as you are going? Some of this constant rush, rush, rush cannot be changed, but many jobs can be made easier. Find ways to make your jobs easier.

For instance, do first jobs first and complete that job before starting another. Quit running back and forth in completing the job. Plan. Think of everything you will need from one room to take to the next room in cleaning house. When preparing to set the table could you use a tray to carry silverware, napkins, plates, or any supplies in the same trip?

This planning could apply to the trips you must make to town. Take your planned grocery list with you to save several trips to town for some food you forgot. A farm list could be made like the grocery list to save a few trips into town, too.

We could mention that comfortable clothes and shoes are very important. You use your feet every day standing or walking so you need to take care of them. If your shoes do not fit, you know how upset you can get with your family members.

Lift boxes, furniture, laundry basket, or any supplies by using your leg muscles, not with your back. Bet you remember your

last sore back when you lifted a box from the floor to a table. Next time squat down and lift the box with your leg muscles. Don't bend down from your hips and lift with your back. Your back will be sore for days if you do.

Small children are great imitators and they'd love to help you in the kitchen or around the house. Let them help you. They can be a great help and at the same time they are learning how to do the household task or around the house jobs. You may teach them to hang up their clothes after school, before going to bed, or before going to school. What a time and energy saver this would be for you!

Mrs. Billy Sides of Friona was in the office this week. Can you imagine the work she has done with the help of Mrs. Tress Tannahill, and principals of the Friona Grade School and High School, Mr. Tom Jarboe and Mr. John R. Cook. Plans have been made to organize a 4-H Girls Club or Clubs.

The first meeting has been scheduled to meet next Wednesday afternoon, February 15, at 4:00 p.m. in Room 5 of the Friona High School. All girls of the 3rd Grade and all other girls 9 - 18 years of age who are interested in organizing a 4-H club are invited to this first meeting. Of course, we al-

ways invite the mothers of these girls to attend, especially this first meeting.

If anyone in the Bovina area would like to organize an after school or community 4-H club do let me know. I would be more than happy to work with you in getting the club or clubs organized. There can be so much to learn and so many opportunities in leadership development of boys and girls in 4-H club work.

Did you know that two out of three Americans eat too little breakfast? This is the land of plenty and even surplus but the land of so many malnourished people. A breakfast should supply about one-third of the total daily food needs. Studies show that a protein rich breakfast can starve off fatigue hours longer than a breakfast with little protein. Eggs are a good source of protein.

Since they may be prepared in many different ways you may try scrambled, fried, poached, creamed, baked, hard cooked, soft cooked, or in a milk egg-nog. Give your body the proper fuel to start the day right. A good breakfast menu could include fruit juice, egg, cereal, toast, and milk.

County Agent--

prior to seeding time. Much of our fertilizer is put on in such a manner that many of the seeds are placed 8 to 12 inches from the fertilizer band. Some are right over the band and the rest fall in between these distances.

This type fertilizer placement is rather common where fertilizer is put on in 16 to 24 inch bands at right angles to direction rows will run. Fertilizer should be placed so that all plants will be equal distance from the fertilizer, not some 12 inches away while others right over the band.

When side dressing growing crops, fertilizer must be placed in or near the middle between rows to prevent root pruning while putting it down. By this time roots are developed and are out there to feed on the fertilizer. This is not the case with young plants that have very little root system.

It must be kept in mind that roots go to fertilizer, but fertilizer does little movement toward roots. The misconception that fertilizer moves laterally has caused a lot of fertilizer to be put on in the wrong place for small plants.

Before I leave this, I would like to ask you one question. If you had one hand full of manure and wanted to fertilize a tomato plant, where would you put the manure? Your answer is probably the same as the Indian's was with his fish. Better keep these principles in mind when you are placing that pre-planting fertilizer in the ground.

When I opened Monday morn-

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

If you see an unusually happy glow in the eyes of the SCS employees this week, you may be interested in knowing that this display of happiness is because these employees have that long needed extra office space.

ing mail, I received enough soil analysis reports to bring our county total of soil analysis to 176. You had better take advantage of the cold weather to get your soil samples taken and off to the laboratory. To be of most benefit, these reports must be received in time for you to plan your fertilizer program.

Don't let February pass without applying that top-dressing to your wheat unless you are sure you have plenty of available nitrogen. The wheat forms the head soon after growth begins in the spring and should have all needed elements available during the time of head formation as well as during the head development period.

Gospel Meeting 3 County Women Attend District THDA Meeting

Virgil R. Trout of Lubbock will be guest speaker at a gospel meeting beginning Sunday, February 12, and running through Sunday, February 18. Services will be held daily at 7:30 p.m. Sunday services of the church include Bible classes for all ages at 10 a.m. and communion and worship at 11 a.m. Glenn H. Annear, local minister, joins the elders and members of the congregation in inviting everyone in the area to attend as many of the services as possible.

Mrs. Vernon Symcox, Parmer Co. HD council chairman, Mrs. Windburn Hardage, county THDA chairman, and Miss Ettie Musil, county home demonstration agent, were in Wellington Jan. 31 to attend a district THDA training meeting. They were among 73 THDA chairmen, HD council chairmen, HD agents and visitors at the meeting. Plans were made for the district THDA meeting to be held in Dumas, April 6.

THE HIGH PLAINS FARM AND HOME

Questions & Answers On Soil Testing

What Is A Soil Test?

It is a scientific method for determining the fertility needs of a particular area. A sample of soil representing a particular farm field is analyzed by chemical means to determine the soil reaction (pH), organic

matter, phosphorus, potassium, calcium and soluble salts. The results of this soil analysis are used to recommend fertilizer in amounts necessary to produce economical crop yields.

Why Make Soil Tests?

Why should you check the oil in your car or truck? To determine whether oil is needed. A soil test is the fertility gauge for your farm. It tells you these important things: (1) How much

and what major plant nutrients you have in your soil; (2) How much fertilizer you need for profitable production; and (3) Where you need it.

How To Take Samples

A soil test is as accurate as the sample sent to the soil testing laboratory. Therefore, it is very important that a representative soil sample be made.

portion placed into a soil bag.

1. Take a separate sample from each uniform area of soil.
2. Take at least 10 - 15 samplings scattered over the field for each sample being taken.
3. Taking the sample -- each sampling should be about plow depth (5 to 7 inches deep) and placed into a clean bucket or some other clean container. All of the samplings of the field being tested should be thoroughly mixed and a

4. Tools to use--any tool that will take a thin vertical slice of soil about 6" deep is suitable -- a spade, soil tube or soil auger will do the job.
5. Information sheet -- fill out the information sheet giving past cropping history, previous fertilization and type of crops to be grown on fields tested, as well as other information requested. The soil testing laboratories must have this information to make accurate fertilizer recommendations.

Soil Test Bags And Information Sheets

These can be obtained at the county agent's office or your Fertilizer Dealer at no cost.

A soil sample can be taken any time of the year. The soil sample should be sent to the soil testing laboratories at least one month before planting time of the crop to be grown. This will

allow sufficient time to obtain the results of the soil test and to purchase any necessary fertilizer before planting time.

For spring plantings, take samples in November, December, January and February. For fall plantings, take samples in June, July and August.

How Accurate Is Soil Testing?

If the soil sample sent in is truly representative of the farm field, fertilizer recommendation will correct any soil deficiencies of the nutrients tested. Following the soil test, fertilizer recommendations should result in economical crop yields.

Factors are limiting plant growth, soil testing will not correct them. Other factors limiting crop yields such as weather conditions, insects, nematodes and diseases will not be corrected by soil testing.

Soil testing does not take into consideration the physical condition of a soil such as poor drainage hard pans, and excessive drainage. If these physical

Soil testing is a valuable tool if used properly and the results interpreted correctly. It is the best method to determine the fertilizer needs of a particular farm.

WITH THE COUNTY AGENT

JOE JONES

When the Indian fertilized his corn seed with a fish, where did he put the fish?

Yes, he put the fish under or near the corn seed, we all know that. The same principle holds true when fertilizing crops today. Too little consideration has been given fertilizer placement for the best results.

In Parmer County, we spend about 3 million dollars a year for fertilizer and much is placed

in soil in such a manner we do not get the most efficient use. Phosphate should always be banded in the soil. The question is where to band fertilizers, and who has the equipment to do the proper job?

Research to date says band it 2 to 4 inches to the side of the seed and 2 to 4 inches below the seed level at or just

(Continued on last page.)

GOING OVER A SOIL ANALYSIS SHEET with Al Reznick (right), who farms north of Friona, is Parmer County Agent Joe Jones. A fertilizer program is planned following study of the soil test report. As of Monday morning 176 Parmer County soil test reports had been received by the County Agent from the testing lab at Lubbock.

Fertilizer Program Should Be Planned Around A Soil Test

An inventory of your soil now will provide a basis for planning a fertilizer program which will supply needed plant nutrients and help your crops produce nearer their potential.

A soil test will give this inventory by determining the level of usable nutrients in the soil, says Joe Jones, Parmer County Agent.

"Soil tests are somewhat like finding out your bank balance," Jones said. "If it is low, it should be replenished. If it is well filled, you're in good

shape." Slowly available nutrients which are not available now but will be in the future are important as well as readily usable nutrients, Jones pointed out. Fertilizer recommendations based on soil tests take both forms into consideration.

Farmers should plan now to take inventory of their soil by getting a soil test, Jones advised. Local county agents can provide advice and assistance in taking a soil sample and submitting it for testing.

Scientific Approach Essential In Today's Farming Program

Science has brought about many changes in today's modern world, and subsequently hardly any aspect of human endeavor has gone untouched by the ever turning wheels of progress.

It would be virtually impossible to list every field in which man's ingenuity has contributed to progress, but one area that has seen many improvements, would have to be farming—an industry which is vital to every living being.

Modern, power-driven machinery has replaced the horse-drawn plow, and with the development of irrigation, hybrid seeds and commercial fertilizer, yields and quality of today's farm products are the highest they have ever been.

The latter development, commercial fertilizer, is one of the more recent advancements, at least in the manner which it is used today, and it has been one of the chief contributing factors to increased production with each passing year.

Through trial and error, and general recommendations from agricultural experts, farmers have done quite well in figuring out soil deficiencies and returning to the ground

ingredients which it lacked.

So successful have the farmers been with applying fertilizer, an integral part of an overall intensive farming program, that farm production in recent years has exceeded what previous generations no doubt considered impossible.

But, in spite of all of this success, more can be done, and is being done all the time, to improve the utilization of these stimulants to the soil.

With the recent opening of a soil testing laboratory at Lubbock, farmers of the Farmer County region now have available to them a service that can provide a chemical analysis of soil from every field.

Through the efforts of a Farmer County soil fertility committee and the state extension service, a four-point soil fertility program has been undertaken. The first phase of this program is the soil test.

Fertilizer dealers throughout the county are cooperating with the county agent, Joe Jones, in assisting farmers with taking these soil samples and sending them off to the testing station.

The cost for having each soil sample analyzed is \$2 and farmers can get them back within a week's time. Kits for sending off these samples can be obtained from any fertilizer dealer or the county agent.

Because planting time for cotton and grain sorghum will be coming up in the near future, right now is the time to take those soil samples from every field and send them off for an analysis, Jones says.

The soil testing laboratory will take these soil tests, along with the history of the land and the crop the farmer will plant this year, and make fertilizer recommendations.

Many times these recommendations are similar to what the farmer was already planning in the way of fertilizer applications, but some times they are not.

That's why it is beneficial to the farmer to have the soil tests made. "An ample supply of plant food in the proper balance is the key to maximum production at the lowest cost," Jones says.

Since the growing crop will draw its total plant food from the soil and from added fertilizer, these two sources must be combined or matched so as to give the plant just what it needs, he points out.

Soils vary in the amounts of plant food they will furnish, and only a soil test will tell how much. With this information, the amounts and types of fertilizer needed can be determined.

Never has it been so important that every possible effort be made to produce higher yields, the county agent says, and farmers can increase their incomes very substantially by following a program of soil testing and improved fertilization.

When you consider that the farm income in Farmer County last year was nearly \$40 million, it's easy to see how important a scientific approach to every phase of farming is, Jones explains.

"If you increase farm income by five per cent, that's \$2 million," the agent says. Soil testing is only one phase of the four-point program being emphasized in the county, but it is the corner stone on which a farmer can plan his fertilization program.

Other phases of the program are water management, efficient production, and quality harvesting and marketing—all of which lead to increased yields and higher profits.

And, that's the whole purpose of the fertility program. It is one in which agricultural experts believe will help the farmer in every respect.

Demonstration Plots Planned

Several demonstration plots are planned in Farmer County this year to compare results of grain sorghum and cotton crops where soil test recommendations were used, with crops where previously-determined amounts of fertilizer were applied.

Farmer County Agent Joe Jones says he hopes there will be about 20 demonstration plots of both cotton and milo so that farmers can see just what the soil tests will do.

Seven farmers who have already made plans for these comparative plots are Al Reznik, Doc Chitwood Jr., Melvin Sachs, A.E. Redwine, Jack Little and A.L. Black.

Anyone else who would like to participate in the demonstration program is asked to contact the county agent.

Plants Hungry Too!

Plants have appetites just as you and farm animals do. But, unfortunately, plants can't vary their available foods at will to match their appetites for a balanced diet, says Farmer County Agent Joe Jones.

This is where you, as an alert farmer, can enter the picture.

You don't have to wait until your crops showing-streaked, speckled, spotted signs and blotchy discoloration. You can get help beforehand by having a soil test made to detect nutrient deficiencies even before you plant your crops.

Jones says that a soil test will help you to determine how much and what kind of each fertilizer element you should add to produce a heavy, healthy yield of any crop.

The county agent explains that many crops in the county are forced into "over-eating" certain elements but are on a starvation diet for other nutrients needed to furnish them health and steady growth.

He emphasizes that a major soil fertility problem in the county is an unbalanced supply

of plant nutrients. Eating food each day from only one source is unhealthy for people—similarly, he points out, no one morsel of a certain fertilizer element can keep plants well-fed.

The county agent urges all farmers to ask themselves two questions: (1) Are you sure you know the fertility condition of the soils on your farm? (2) Do you know what kind and amount of fertilizer to use on your crops for top yields and top profits?

If you could answer these questions, he says, you are on the road to more profitable farming. But if you can't, you may obtain the right answers by having a soil test made right away on each field of your farm.

How important is nitrogen in normal plant growth and development? This is a question many farmers face today in deciding how much fertilizer and what kind they should apply. Nitrogen is a colorless, tasteless, odorless gaseous chemical element forming nearly four-fifths of the atmosphere; it is a component of all living things.

Nitrogen for plants can be obtained from two sources; the soil and the air. Most of the plants cannot use the vast amounts of free nitrogen in the air therefore, they have to get

their required supply from the soil. For nitrogen to be stored in the soil it must be transferred from the air to the soil by a process known to the farmer as nitrogen-fixation. This is simply a bacteria that handles the process. There are two kinds of nitrogen fixing bacteria; those that live on the roots of plants and those that live free in the soil.

Nitrogen-fixing bacteria take the nitrogen directly from the air, combine it with hydrogen and use this combination in building proteins. The root-dwelling type thrive only in the roots of leguminous plants like alfalfa, clover, beans, and peas.

But they fix more nitrogen than these plants require; so the surplus is stored in the roots and passes into the soil when the plants are harvested or die. That is why leguminous crops are said to enrich the soil in which they grow. Many wild plants die and give back their nitrogen to the soil where they grew. But our harvest are continually taking it away without return.

That is one of the reasons why we as farmers must use fertilizers. Research results indicate clearly that the nitrogen content is not increased appreciably, if at all, by growing these legumes even though they are inoculated, unless the

top growth is returned to the soil. About two-thirds of the total nitrogen in the plant is found in their top growth, and the remaining one-third in the roots.

With this information at hand, it is readily apparent that if the top growth is removed as hay or grass silage and not returned to the land as "green manure," there will be no detectable change in the nitrogen content of the soil.

The importance of nitrogen can be determined by knowing how a deficiency or excess of nitrogen affects a plant.

A deficiency of nitrogen can be detected readily by watching for these symptoms: plants dwarfed, extremely poor vegetative growth with delayed fruiting, leaves a pale turning yellow then brown and finally falling off, due to fact that nitrogen moves out of leaves up to younger tissues developing.

An excess of nitrogen can be detected by watching for these symptoms: rank growth characterized by plant being very juicy, leaves have a deep green color, tissue of leaves is thin and soft, stem tissue rather weak, causing plants to fall over and due to fact that plants are very juicy in nature when a dry moisture condition exist, plant wilts quickly.

A false assumption that many farmers make is that the so

called "burnt spots" they observe in their fields are caused from too much fertilizer. This is partially true but only ten percent of the "burnt spots" are caused from excessive fertilizer while ninety percent are caused from lack of fertilizer.

The best thing for any farmer to do is to take soil samples at various places on his land, mix these samples together, then send to the nearest soil testing station for a complete fertilizer analysis.

Valentine Shoot Plans Announced

Announcement was made early this week of the completion of plans for a Valentine shoot at the trap house east of Friona on highway 60 by members of the Friona Gun Club.

Marksmen from the area are invited to participate in the shoot by C. L. Lillard, spokesman for the group.

"CAPROCK"

Where You Receive More For Your Money

Many hours of research have been spent in planning and making the fine Fertilizer we produce here at Caprock in Littlefield. We would like all the farmers in this area to inquire about the service and product we have. We think you will like it and want to use more of it in the years to come.

- We Highly Recommend The Following To Improve Your Crop Producing Yield
1. CAPROCK 0-20-0-SULPHUR-PHOSPHATE--the most economical source of phosphate by far . . . you save on application of your land up to 33 1/2%.
 2. CAPROCK . . . (Sulphur Enriched)
 3. CAPROCK AMMONIUM PHOSPHATE (Water Soluble)
 4. CAPROCK PREMIUM GRADE FERTILIZERS.
 5. CAPROCK 0-20-0-X-TRA WITH SUL-PH-MAG

For Your Convenience We Have:

- A. BULK LOADING FACILITIES
- B. ORDERING ANY AMOUNT YOU WANT

Announcing:

WE NOW HAVE AVAILABLE FOR RENTAL OR SALE, TYLER FERTILIZER SPREADERS FROM ALL OUR AUTHORIZED CAPROCK FERTILIZER DEALERS. ASK YOUR CAPROCK DEALER FOR INFORMATION ON THIS SPREADER.

FOOTSAVING EDUCATION

By John "Joe" McKee

Are you not exaggerating problems of fitting shoes?

Sometimes I think that I may be over-enthusiastic about the subject but I have a defense against such thinking.

Newspapers frequently carry stories of cab drivers who pinch-hit creditably for doctors at the birth of a baby. "Mother and child are doing fine."

Do we exaggerate the role of the doctor in maternity cases? There probably are many instances when the doctor has little to do but can you visualize the chaos if doctors turned all maternity cases over to cab drivers or lawyers or teachers or students.

Selling shoes has always been a job to which anyone can turn when pleasanter jobs are not to be had but selling shoes and being a shoefitter are as different as clerking in a drug store and being a pharmacist.
