THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

TIRESOME—

Writing a weekly column— or a newspaper, for that matter— can get mighty tiresome at times. You kinda run out of snuff and you fill much space with big and little arguments for this and against that and weeks go by and you don't get any rises from any one and you begin to wonder if it's worth all the bother. But then there are times when you touch a spot that seems to ring a bell with folks and you do hear a few comments.

Last week's article on dogs had such an effect and if all those who have spoken up in agreement about trying to thin out the dog population of Rankin would let the City Dads know how they feel, then we might get somewhere.

And the school elections has put a little zip in things, and from what you hear, Horace West, the first candidate to announce, has a good lot of folks behind him. I must agree that West is a fine caliber and hope that we are fortunate enough to get others who are as well qualified to announce. We have always been fortunate since my time here in having a better-than-average group on the school board and I'd guess that some more good prospects will be tossing their caps in the ring before too long.

A CHANGE UP—

Usually, I give politicians a pretty hard time in this column but this week I'm going to change that and say a few good words for our boys in Washington and most of those in the business of running the government in Austin.

I make the following comments on their good points:

Now that we have all that out of the way, there is one little matter that needs some attention in

the Texas Legislature.

Some Representative down there named Mr. Guffey has introduced a bill in the House entitled H. B. No. 493 which is a bill "to provide that every employer who pays his employees by check or draft must provide facilities for the cashing of such checks or drafts at no cost to the employee; and providing penalties for violations; and declaring an emergency."

Now, as they say, Mr. Guffey has quit preaching and gone to meddling. And it's reasonably apparent that he has never been in business for himself since it is a known fact that most of us who give checks for payrolls—or anything else—have a sort of contest going in which we try to get to the bank and cover said check before it is presented for payment. Mr. Guffey's bill would be the same as demanding cash—whatever that is—and it would play heck with a lot of folks getting even a paycheck—to say nothing of what it would do to the time honored system of writing a check and worrying about getting the money to the bank afterwards.

This guy Guffey needs investigating.

Another bill that has things on the move is the race horse bill to legalize horse race betting. Thus far there has been no shootings over it to my knowledge but there could be for we Texans are all good citizens and stand foursquare for Peter Rabbit and against sin such as gambling. Now that's not to say that we don't want gambling available for anyone who has any desire to do so can make a wager on horse races, ball games and about anything else he might wish to bet on—and he will not have to go to Port Arthur or Beaumont to do so, either.

But as for legalizing gambling in Texas, that has about as much chance as Kennedy turning out to be a Goldwater Republican. Here in Texas, we like to make like an ostridge and keep everything out of sight, thus, reasoning that if we can't see it, it's just

not there.

Meanwhile, back at the ranch, the boys who are in the business, go right on putting out football cards in the fall, covering bets on baseball, boxing, horse racing, etc. I once had an offer of a job for an outfit that printed a racing form right here in Texas—and the pay was above union scale, too.

This is not a plea for legalized gambling but we should do one of two things: either legalize it and bring it out in the open or apply the laws against it and put gambling out of the state—but who wants to do that when all we have to do is say there is no such thing because we refuse to look at it?

In a way, it reminds one of the days when Texas was dry (?) A big hunk of the citizens voted dry and drank wet. The same is now just about true of gambling, especially horse racing but anyway, I'll give two to one that that's the way she stays in Texas.

RIDDLE: What costs less the more you use it?

ANSWER: The electricity

that serves you in your home. The more of it you use, the bigger the bargain... the less you pay per kilowatt-hour for it. In fact, in homes served by WTU the average cost of electricity is 22% less than it was 10 years ago.

Think how many new uses you have for electricity these days... from your TV to your work-saving appliances for cleaning and washing. This is why your over-all bill may be a little higher than in the old days.

But what else in your home can give you so much value yet cost so little?

New '61 Chevy with Jet-smooth ride!

Impala 4-Door Sedan—Jet-smooth traveler that rivals the luxury cars in everything but price

The '61 Chevy loves to go because it goes so well. It runs along pavements like a happy tabby. Takes rough roads in stride and all roads in style.

Just why does a Jet-smooth Chevy treat riders so royally as the high-priced luxury cars? It all comes about through a delightful blend of Full Coil suspension, precision-balanced wheels, unique chassis cushioning, and a superb Body by Fisher insulated to hush away road sounds. All this adds

up to less sway, less jounce, less dip, less dive, less tilt, less noise, less . . . well you name it.

Now combine this Jet-smooth ride with conveniences to pamper you and roominess to relax in. Add a full measure of quiet good looks. Voila, you've got Chevy's formula.

And the proof is in the riding. When you sample a Jet-smooth Chevy at your Chevrolet dealer's we think you'll find it just to your taste.

THE FASHION SHOP

LOIS J. RAY—Owner & Mgr.

"Large enough to serve you—small enough to know you" is the apt slogan of the Fashion Shop located at 111 Depot in Big Lake, a colorful little business which is hand tailored to the needs of customers in this oil-rich area.

Lois J. Ray opened the shop in 1953, recognizing the local need for a moderate price read-to-wear center in Big Lake. Volume has more than doubled since then, and Mrs. Ray's price limits (all merchandise under \$40) seems to have been well chosen.

For a small business, this one has many points of individuality. Its appearance for example. The Fashion Shop looks like the traditionally country store—busy, informal, and always full of people. It measures 100' by 35', including dressing room and office space. There are two six foot display windows.

Then there is the coffee corner, complete with a percolator that is plugged in all day. Small children make their way to the toy box, maintained for their pleasure, in which Mrs. Ray keeps such novel

items as old hats for the little girls to model. The store is also headquarters for an out-of-town sewing machine company and an upholstery company, neither of which have a local agency.

Lois Ray makes it a cardinal principle, to give the same treatment to all customers, regardless of race, color, creed or financial ability. Records are kept of the customer's sizes and color preferences, proving very helpful in the selection of gifts.

"We feature more styles, less duplication," says Lois Ray. "We take special orders for our customers and give free gift wrapping. When the salesmen come by, we always order dresses with individual customers in mind."

They also give S & H Green Stamps for greater savings to the patrons of this store. It is with great pleasure that we recommend The Fashion Shop to all women in this section and suggest that you visit them on your next trip to Big Lake.
