Serving the Interests of Rankin and Upton County

XXXVI—NUMBER 31

RANKIN, UPTON COUNTY, TEXAS

THURSDAY, JULY 27, 1961

all Practice Begins in August --

Coaching Staff Ready for Fall School Term

Mantooth, the other half of the new two-man assistant coaching team employed for the fall school term by Rankin, moved his family to Rankin over the week-end from Dalhart. He was backfield and assistant coach at Dalhart High.

Mantooth is 24-years-old and his wife, Sammie, have two children, ages 3 and 1.

During his high school days at Dalhart High School, he was selected to play on the Texas All-State football team in the position of quarterback in 1955 and was quarterback on the West Texas State football team during 1957-58-59.

Mantooth coached the Dalhart Junior track team to the state championship last year.

He had a 7-3 record for his first year in football.

Mantooth has indicated that he plans to use the same coaching staff in football and in basketball in addition to other duties.

Following the other new coaching staff moved to Rankin earlier in the month.

He will attend the Texas Association meeting next week and will be back in Rankin for football practice which

RICKY MANTOOTH
... moves to Rankin

is set to begin the last two weeks of August with the first game to be played in Big Lake.

Rankin's schedule again calls for five home games and five on the road. Following the Big Lake opener, the Red Devils will have an open date then meet Crane here; go to Elodrado and Ozona; entertain Sonora and Van Horn on the home field; go to Sanderson and Wink; and wind up the season hosting Iraan and Fabens.

Contractor Plans To Begin Work Monday --

County Lets Paving Bid To Sonora Contractor

Upton County Commissioners, in their session held last Monday, awarded a paving contract to Sonora Paving Company of Sonora, Texas on the low bid of \$32,717.50.

The contract, which will be signed later, calls for construction of approximately 550,000 square yards of asphalt surface treatment and seal coat and 15,400 square yards of double course asphalt surface treatment on County roads.

A representative of the Sonora Paving Company indicated that

they planned to start construction by Monday, July 31 is possible. The Contractor may start work on any part of the program, either here or in McCamey.

A total of three bids were submitted to the county on the work project.

In Rankin, one of the major portions of this work will be the topping of about a mile of road beginning on the South end of Main Street. County road crews have been at work on this pro-

ject for the past several weeks, preparing it for topping. Other work will include re-topping of some county roads in the "oil patch" area northeast of Rankin and some additional work on areas in and around Rankin proper. Most of the main streets in town have already been paved. In the McCamey area, topping of existing county roads will also be carried out in addition to other paving construction.

The County paving program is carried out on a yearly basis with funds set up in the budget each year for the Road and Bridge Fund and no new additional levies are necessary to finance the construction.

Elrod Is Wagon Boss For Boys' Ranch Roundup

Norman Elrod of Rankin will again act as a Wagon Boss for the annual Roundup for Boys Ranch of West Texas according to Fred Ball and Jack Drake of the boys home near San Angelo. The Roundup was started last year by the Ranch as means of improving their financial situation. Contributions of livestock are asked and these, in turn, are sold at auctions throughout this area with the proceeds going to the Ranch.

This year's Roundup is to be held all during the month of August with the Rankin date set for August 21. Livestock donated to the boys ranch on that date will be gathered in a central location and then taken to San Angelo for sale. Sheep will be sold at Producers Livestock Company on August 22; cattle, horses, etc. at the San Angelo Livestock Company on August 24.

Fifteen auction rings in West Texas are participating in this year's efforts to raise donations to help finance the care of the 55-60 boys who stay at the Ranch and who learn trades, ranching practices, etc.

The management at Boys Ranch said that "last year's sale virtually proved a life-saver to the Ranch whose budget is under constant pressure."

As their goal the Ranch strives to teach the "Hard Luck" boy respect for God, self and country; respect for others, respect for work and a sense of responsibility. Their motto is: "Don't Brand a Boy—Build a Man".

Elrod plans to contact local livestock owners in the near future about assisting them in making

and contributions they desire to the Ranch. He will be in charge of all local preparations, shipment of livestock, etc.

RODEO—

The Boys Ranch has also announced that they will hold a Quarter Horse Show and Junior Rodeo at their new arena at the ranch this Saturday, July 29. The horse show will get under way at 9:30 a.m. and will be followed by the Rodeo in the afternoon which will include all the usual performances.

Admission is free.

A barbecue, at \$1.25 per plate, will be served by the Odessa Chuck Wagon Gang with all proceeds going to the Boys Ranch.

The public has been issued a cordial invitation to attend.

Rankin Drops 2nd Round Playoff Game

Rankin's hopes for further play in the Little League were dashed last Tuesday night when they fell before the Big Lake All-Stars by a 10-2 score. Rankin had taken a close game from Midkiff, 1-0, on last Friday night to advance to the Big Lake tilt.

Previously scheduled for play on Saturday night, the game was reset following about 3 inches of rain here Friday night.

In the Rankin-Midkiff affair, fans were treated to a real thriller as both teams played tight ball with the pitchers having the upper hand on the batters. Rankin scored their lone marker in the bottom half of the 6th inning.

ELSIE TURNER, recently installed Noble Grand of the Rankin Rebekah Lodge No. 8, has requested members to be present for the Lodge meeting Thursday night, July 27 which will be Love Sister Night.

OIL WELL TESTED—

Tests run on the Blue Danube's test well just North of the Golf Club last week produced 1,200,000 cubic feet of gas and 40 barrels of distillate. Tests were made in the upper Pennsylvanian section.

Tuesday night, however, it was the hitters night and Rankin gave up 7 runs in the first inning. Both teams played to a number of errors and both left men on bases a number of times.

Big Lake will now represent the local zone in competition with the winner from the Sonora-Ozona zone.

Dawn - to - Dusk

THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

NEW COACHES—

Among the little pleasantries to come along in Rankin the past two weeks has been the arrival of the two new athletic coaches and their families. Both seem to be likeable young men, and like the others in their profession, appear to have a tendency toward losing their hair at a tender age.

They impress you as being men who are willing and ready to go to work and I feel that Coach Leach will be working with two capable assistants.

In just a little more than two weeks, the whistle will blow and the annual turning of heads toward the football field will get underway. There is no great prospects for optimism in the Rankin camp this year for we have some real toughies on the schedule—but the boys came close to having a better than average team last fall and they now have a year's experience behind them that will do a lot toward moving them up in the standings. Despite the fact that football is an annual thing, it has always appeared to me that football teams come in four-year cycles and that our's is now entering their second year.

It won't be long before we shall see.

THE DRUMS—

Ever since 1945 at about five-year intervals, the war drums have been sounded and men began to talk about going to war. Here in Rankin, those in the reserves are asking one another if they think they will be called to service. A lot of these men are like the editor; too shot for further military service but they like to think that their services may be needed.

The present scare is, of course, over the so-called Berlin situation. A number of newspapers in West Texas have taken polls among their readers to find out what they think the United States ought to do at this time and almost to a man, the answers have been: "Stand firm". I don't think there is any need to take a poll in Rankin for there is little doubt but that the answer would be the same.

The Rankin (Tex.) News—
Thursday, July 27, 1961

kin for there is little doubt but that the answer would be the same.

Someday there may come a time when the Russians or the Chinese or some other nation may doubt that the United States will stand firm and will push the button that will start a war but this will not be one of those times. The Red Bear would find little support in Eastern Germany toward actually going to battle with their kin folk in Western Germany and the Red Bear is not one to fight their own battles so there is actually no reason not to buck up on the Berlin question.

Now, if we could get a little more backbone in the rest of our foreign realtions in such places as Cuba and Asia, there might be less need to listen to the war drums every few years.

SUGGESTED READING—

There appears in this month's issue of the Readers' Digest, an article on the strikes and slow-downs in U. S. missile program.

If you have not read it, you should make it a point to do so and after you have read it, make it a point to request action by your Congressmen to buck up to the labor unions and their tactics that verge on treason. Good wages and working conditions are a fine thing and unions have done much good along these lines but the situation as it exists in the missile program is pure nonsense.

Get a copy of the Digest, and a couple of nerve soothing pills, and read it. Take the pills first.

A LIBERAL PARADOX—

The one-worlders who piously proclaim that we must lift the rest of the world out of its misery and privation by increasing our foreign aid and making long-term commitments to finance the multitudinous efforts of the United Nations in the field of social en-

Continued from Page 2)

about that action is neces-

what kind of action? These
als are not at all interest-
individuals in sending CARE
overseas. They do not

plan to invest their capital in
the socialized economies of the
Congo or India. In fact, the eco-
nomists of the New Frontier hon-
estly advising a private client
would probably point out that an
investment of any size in a coun-
try where the government is an-
tagonistic to private enterprise
would not only be unprofitable,
but would probably result in the

loss of the capital investment.

What these activists are say-
ing essentially is this: "We want
to take your money—take it a-
way from you through higher
taxes—and commit it to a venture
which, if measured by the pru-
dent standards of an individual,
would certainly be condemned."—
Sen. Barry Goldwater (R.-Ariz.)

The Senator has some sound

logic going in the above but does
not go far enough in pointing out
one of the great fallacies of the
one-worlders thinking: that all the
other people of the world want to
live and to be like Americans—
thus, we should provide the money
for them to reach such a state.

Now most of us have been to
Old Mexico and a lot of us have
been to many foreign lands and
I doubt that any of us found a

population who wanted the United
States government to come in and
rebuild their way of life. I cannot
feature the Mexicans of Old Mexi-
co wanting us to run their busi-
ness, nor the natives of any other
land. The people of the South re-
sent the people of the North try-
ing to tell them how to live their
lives.

How much more resentment do
you suppose a foreign national
feels toward an outsider trying to
remake him into an image which
he knows nothing about nor under-
stands?

HOW THE BABY GREW—

Great Oaks from little acorns
grow, says the ancient adage. And
this applies to taxes. A publica-
tion of the Florida Power and
Light Company presents a brief
history of the federal income tax.
In its words, "When the income
tax baby was born 48 years ago,
its bite was only a toothless nib-
ble." A married man with \$5,000
a year paid \$10. The rate was one
percent with the first \$4,000 ex-
empt. From \$20,000 to \$50,000 an
additional one per cent was tack-
led on. If you had an income of
\$5000,000 a year, the tax was a
mere \$25,020.

Now that \$5,000 a year married
man pays \$1,020—and anyone who
gets into the \$500,000 bracket is
tapped for \$404,640.

All this has happened in less
than a half century. What will
the next 50 years bring—if do-
everything, welfare state govern-
ment continues to grow and grow?

Tax Refunds Open On Gasoline Usage

BY W. M. DAY
Upton County Agent

Ranchers are reminded by C. H. Bates, extension farm management specialist, of their eligibility for a refund of the 4-cent per gallon Federal gasoline tax on that used for ranching purposes. The claim should include all eligible gasoline gallonage purchased between July 1, 1960 and June 30, 1961.

The claim for refund should be filed on Form 2240 and not later than September 30, Bates said.

The gasoline on which a refund may be claimed covers that used for ranching purposes and includes most normal production operations. These exceptions, however, are noted by the specialist.

They are gasoline used on the highway, even though for transporting farm products; that used for processing, packaging, freezing and canning operations and that used for non-ranching or personal purposes.

Records of fuel purchased should be kept to verify the refund request and care should be exercised to avoid inaccurate or excessive claims, Bates said. He noted that Form 2244 does not apply to diesel and special motor fuels.

Ranchers who have questions regarding taxes on these fuels are advised to contact an Internal Revenue Service Director.

Form 2240 may be picked up at the County Agent's office.

SAVINGS BONDS—

More and more people, it seems, are taking advantage of the Treasury regulation permitting exchan-

ge of Series E Savings Bonds for H bonds, while deferring Federal income tax liability on the accumulated E bond interest.

The new privilege is especially helpful to ranchers who are getting along toward retirement, probably cutting down on their operations and thus needing more income from other sources. If you have been saving E bonds for future needs, letting your interest

accumulate, but now would like to receive your interest checks regularly, here's what you do:

Take your E bonds to the bank and ask to EXCHANGE them for H bonds. (You must have at least \$500 worth, cash value). Remember, you don't want to redeem them and buy H bonds with the money. It must be a straight swap to get the tax deferral privilege. With the new H bonds, you

The Rankin (Tex.) News
Thursday, July 27, 1961

will start getting an check from the treasury in months. This of course, is reported as income each year.

BUT—the interest you get on the E bonds over the period need not be reported for tax purposes until the H bonds are cashed or mature.

by Mac Hudgins, Manager

TELEPHONE TALK

LIVE TELEVISION FROM AUSTRALIA?

Yes, live television from Australia and you folks in Rankin could be viewing it by late 1964.

I said "could be," not "would be". There is a hitch. The Bell System is ready now to launch a communications satellite and give America another "first" in the space race—However; we have been unable to get the go-ahead from some Government Agencies.

The hold-up is caused by arguments over who will operate a satellite communications system, how will it be organized and who will control it.

We think the international common carriers should operate the system. They have been furnishing overseas communications for years and this would merely supplement their existing system, besides, they are willing to foot the bill without Government subsidy. As to who should control the system, we don't think this should be a question at all. The FCC is controlling existing overseas communications, why not satellite communications?

Will you be watching live TV from overseas in 1964? Will America take advantage of Bell System research in space communications and thereby take the lead in this field and gain world-wide prestige? The answer is not to both questions unless the agency squabble in Washington stops and we are given the go-ahead to launch an experimental satellite NOW.

PUT MORE FUN IN YOUR TRIPS

One day last week an old friend stopped by to tell me about his vacation plans. He told me where he was going, what highways he'd take and where he'd be staying all along the way.

I asked him how he got everything worked out so well.

"It was easy," he said. "This year I made all my plans by phone. We have good accommodations for each night, and I know how much they cost. You just can't beat a phone call for finding out what you need to know."

That's a good idea for you, too, if you're planning a trip or vacation. You can save money by calling on Sundays or after 6 p.m. on weekdays when long distance rates are lower. And by calling station-to-station, you save as much as one-third more.

Call by number. It's twice as fast.

SOUTHWESTERN BELL TELEPHONE COMPANY

TEXAS LAWMEN

NOAH SMITHWICK the "Peaceful" Ranger

"With the courage of his convictions . . ."

In 1827, a peace-loving blacksmith of 19 years drifted into Texas. He soon found anything but peace. As a skilled gunsmith and armorer, Noah was on hand to prepare the fighting hardware for the Texas revolutionary battle of Concepcion, and to participate with enthusiasm. Later he was one of the San Jacinto combatants who pursued the retreating Mexicans far south of the Rio Grande. After that he joined the Texas Rangers for a very active two years of frontier duty, leaving the service in 1838 when the force was disbanded temporarily. Then, as a justice of the peace at Webber's Prairie, a Lieutenant of Texas Militia, armorer at Fort Croghan, life continued in a fairly unpeaceful way — until 1861. Because he opposed secession so strongly, Smithwick shook the dust of Texas for California. History does not record his later years, but he found time to record a great deal of history — his highly colorful reminiscences of early days in the Lone Star State.

Texas never could have become a great state without the courage and devotion to duty of her lawmen — nor without the commerce and industry that have provided prosperity and the good life. The brewing industry, too, has had a part in this development. Providing payrolls and the pleasure of moderate beverages, revenue and relaxation — "beer belongs." The United States Brewers Association is constantly at work with brewers, wholesalers, retailers and local authorities to assure the sale of beer and ale under pleasant, orderly and law-abiding conditions.

Mr. and Mrs. Bill Williams and children spent the week end in Comanche visiting relatives.

Jeanine and Darcus Branch of Pryor, Oklahoma are visiting their grandparents, Mr. and Mrs. Ed Guy Branch.

Mr. and Mrs. L. Z. Titsworth and sons returned Sunday from a two-week's vacation in Oklahoma where they reported good fishing.

County Attorney John A. Meneff and family are vacationing on the coast this week.

Rebekah Lodge News

Rankin Rebekah Lodge met on July 21 at 8 p.m. with noble grand Elsie Turner presiding. A regular meeting was held in connection with an initiation ceremony for Mrs. Cora Mae Langhead, candidate for the Big Lake Lodge.

Eighteen members were present, 16 sick visits made and 2 cards sent to the sick. Five visitors were on hand from the Big Lake Lodge.

Refreshments of water melon were served.

The next meeting, on July 27, will be Love Sister night.

Legal Notice

THE STATE OF TEXAS
TO: WILLIAM RAY BENNETT

GREETINGS: You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 28th day of August, A. D., 1961, at or before 10 o'clock A. M., before the Honorable 83rd District Court of Upton County, at the Court House in Rankin, Texas.

Said plaintiff's petition was filed on the 15th day of August, 1960.

The file number of said suit being No. 1424.

The names of the parties in said suit are: Doris Elsie Bennett as Plaintiff, and William Ray Bennett as Defendant.

The nature of said suit being substantially as follows, to wit: Suit for divorce upon the grounds of cruelty, and for the restoration of plaintiff's name before marriage, Doris Elsie Linthicum, and for such other and further relief that plaintiff may be justly entitled.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 11th day of July A. D., 1961.

Given under my hand and seal of said Court, at office in Rankin, Texas, this the 11th day of July A. D., 1961.

"I wonder why
our *Electric* service
(bill) is higher
this month?"

HERE'S GOOD NEWS -
In homes served by WTU, the average cost of a KWH of service is 20% less than it was 10 years ago.

Beg pardon, lady, but aren't you enjoying the big reason why?

OVER there in the window. Isn't that air conditioner new this summer? Naturally, every time you get some new electric servant you use more electricity. Naturally, your bill will be a little higher. But remember these two facts about the electric service you now enjoy:
First, you do use more electricity for the simple reason that it's about the most efficient and dependable servant you can get! Second, the more electricity you use, the less you pay for it per average kilowatt-hour.
Can you think of a bigger bargain?
